SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

THIS sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made if any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, or, in certain cases, on a habitable house in a town or village. A habitable house is required except where residence is performed in the vicinity. In certain districts a homesteader is good standing may pre-empt a quarter-section of available Dominion land in each of three years, cultivate 50 acres and erect a house worth \$200.

Duties—Six months residence in each of three years after entering homesteaded portion. Also 50 acres extra cultivation. Pre-emption status may be obtained as soon as homesteaded land, on certain conditions.

A settler who has exhausted his homestead right may take a surveyed home-land in certain districts. For \$200 per acre. Duties—Six months residence in each of three years, cultivate 50 acres and erect a house worth \$200.

The area of each \$200 pre-emption is subject to reduction in case of drought, crops by or heavy frost. The stock may be substituted for cultivation under certain conditions.

CURT, C.M.G., Deputy of the Minister of the Interior, Ottawa. (Unauthorized publication of this advertisement will be prosecuted.)

WADDELL OF CHICAGO KNOWN AS KING OF STRIKEBREAKERS

Is Now in Command of the New York Suburban Railway Situation

New York, Sept. 8.—Having frustrated the efforts of its striking employees to tie up the subway and elevated railways, the Interborough Rapid Transit Company to-day turned its attention to its surface lines which have been completely paralysed since the strike was declared Wednesday night. All the cars on the so-called "green" lines representing the greater part of the surface system in Manhattan and the Bronx were withdrawn at 8 o'clock last night after maintaining during the day a service barely 20 per cent. of normal.

When the surface cars were started out again at six o'clock this morning, the situation was in charge of James T. Waddell, known as the king of strikebreakers, of Chicago. He promised to crush the strike in 48 hours.

"I have 3,500 strikebreakers here," said Waddell, "and 2,700 of these are now working. They are more than enough to control the situation."

Subway and elevated trains ran last night and this morning as usual, the travelling public having returned to its accustomed routes by subway and elevated.

A number of elevated trains were attacked during the early morning, but in no case was there any approach to a mob riot. Strike sympathizers on the roofs of tenement houses bombarded trains with bottles and bricks, and in one instance with pistol shots. None of the bullets took effect, but several passengers were cut by missiles and broken glass. Rumor of riotous mobs blowing up the subway caused the police to maintain a watch at every underground station, but the subway trains ran during the night and early morning without incident.

The strike thus far, according to Mr. Waddell, has cost the traction companies \$300,000.

SIXTY-FOURTH CONGRESS

Is Adjourned To-Day—One Member Criticizes Sir Joseph Pope.

The Sum of \$600,000,000 Was Voted for Defence Purposes.

Washington, Sept. 8.—This was the final day of the sixty-fourth congress' first session which began last December. Adjournment was set for an early hour to-day and only the signing of the emergency revenue and minor bills by the presiding officers of both houses was to be accomplished.

Last night both houses accepted the conference report on the emergency revenue bill without record votes and the senate before recessing an hour after midnight, ratified the Danish West Indies' purchase treaty.

The conference report was attacked by Senators Chamberlain and Jones because the amendment for retaliation against Canadian control of Pacific coast fisheries had been stricken out.

In the House, Representative Gardner denounced the retaliatory provision against foreign interference with American commerce.

Senator Chamberlain of Oregon, protesting against the action of the revenue conferees in striking from the bill his amendment which would prohibit the admission of Pacific Ocean salmon and halibut through a foreign country, except in bond from an American port, declared campaign to develop a great industry for the United States.

"Talk about a lobby influencing congress," he cried. "What is that when a distinguished gentleman representing the Canadian Government, Sir Joseph Pope, who has not yet been here, has been beseeching officials of this government to discourage this measure."

A resolution by Senator Curtis of Kansas, directing the Senate to commit to investigate the activities of the alleged foreign lobby opposing retaliatory provision of the revenue bill against Canadian fisheries, was passed by the Senate.

Washington, Sept. 8.—At 9:50 o'clock the senate adjourned sine die.

In closing addresses references to the long program of legislative achievement dominated chiefly by national defense preparations at a cost of more than \$600,000,000 were made.

Recapitulation of the nine months' work showed that there had been appropriate to investigate the legislative program of the year 1917 for expenditures of the government exactly \$1,526,429,210 and that authorization for the future makes the total \$1,558,384,485.

THE KAISER

Is Still Praying for the Help of the Almighty in the War.

Berlin, via London, Sept. 8.—The emperor has sent the following telegram to the King of Bulgaria. It is officially announced:

"I have just learned that the allied troops have conquered the fortress of Turtukai. Accept my heartfelt congratulations on this brilliant feat of the army of the brave soldiers from which our new enemy may realize that we not only know how to defend ourselves, but may strike him even in his own country. May God help further.

"Faithfully thine,
"WILLIAM."

BRITISH STEAMER

Is Sunk, but the Crew Were Saved.

Two Other Vessels Also Were Destroyed.

London, Sept. 8, 2 p. m.—The British steamer Strathgait and the Ellerton Line steamship Tagus, have been sunk. The crew of the Strathgait was saved. It is reported that the British steamship Hazelwood has been sunk.

The Strathgait sailed from New York August 22, for Havre. She was 370 feet long, of 4,428 tons gross and was owned in Glasgow. Last year she was engaged in transportation of relief supplies for the Belgians. While at her dock in New York in July of 1915 an attempt was made to destroy her, fire bombs being found concealed in the hold.

RUSSIAN OFFICIAL

Was Waged Before the British Captured Guillemont

Petrograd, Sept. 8.—In the sector southeast of Lemberg, the Austro-German forces have made a further retreat, the statement says, falling about to the western bank of the Ginta Lipa River. The statement follows:

"After artillery preparation the Germans developed repeated attacks against our detachments, which yesterday captured a portion of the enemy positions on the western bank of the Dvina, north of Dvinsk. The German attacks were repelled by our fire.

"After a fierce action with artillery, mine throwers and bomb mortars, the enemy attacked our positions in the region of the town of Vellisk, in the direction of Kovel, but was repelled by our fire.

"In the region of the Ginta Lipa our offensive continues. The enemy is making a stubborn resistance, bombarding our troops from positions on the right (east) bank of the river, to which he retired under our pressure.

"On the Caucasian front in the Kighi-Ognost sector, stubborn battles continue."

FRENCH OFFICIAL

ORSOVA IS OCCUPIED

By Roumanian Troops—An Important Hungarian Town.

London, Sept. 8.—Roumanian troops have occupied Orsova, an important Hungarian town on the Danube, according to a despatch to The Times from Bucharest to-day.

An unofficial despatch from Vienna on Wednesday stated that Orsova had been taken by the Roumanians. Orsova is one of the principal ports on the lower Danube and has considerable commercial importance. It is a few miles above the iron gate of the Danube, where the river leaves Hungary and forms the boundary between Roumania and northeastern Serbia.

FROM SCARECROWS
Berlin, Sept. 8.—In a small country newspaper in Wurttemberg appears an official notice ordering the peasants to remove any old clothing from the scarecrows in the field. It has been found that escaping prisoners of war have exchanged clothes with the scarecrows.

LANDING OF THE RUSSIAN ARMY IN COSMOVOLITAN SALONIKI

Pictures illustrate the recent landing of Russian troops at Saloniki, where every allied power now has troops, making the city one of the most cosmopolitan in the world. Upper picture shows a boatload of troops. Lower one shows part of the Russian staff.

ONE OF THE MOST STUBBORN BATTLES OF SOMME OFFENSIVE

Was Waged Before the British Captured Guillemont

New York, Sept. 8.—A news agency despatch to The Sun says:

British correspondents at army headquarters in France agree that the capture of Guillemont by the British was preceded by one of the most stubborn battles of the Somme offensive.

"The Germans at Guillemont, contrary to their custom of lingering in the last moment in their dugouts," writes the correspondent of The Morning Post, "simply ran away, excepting hundreds who surrendered."

"For a brief period there was a fixed bayonet fight, back and forth, cut and thrust with cold steel, and men on both sides were victims. I believe this is the first instance since the Somme offensive started in July that the Germans actually attacked our men with the bayonet. These particular Prussians were tough fighters as our men are ready to acknowledge, but it has been proved in the last two months that our new army is more than a match for the best German troops."

The Daily Mail's correspondent describes Guillemont as a fortress perhaps as strong as any the German engineers have yet fortified. The German dugouts were so deep and so well built that they defied nine inch shells.

"After the most intense shell fire," he writes, "the openings of these dugouts placed with machine guns instantly, as if all were worked by pressing a button."

BRITISH OFFICIAL

THE RUSSIANS HELD POSITIONS

Petrograd, Sept. 8, via London, 2:19 p. m.—Russian troops, which have crossed the Dvina River north of Dvinsk were attacked repeatedly by the Germans yesterday, but succeeded in holding the captured positions.

MORE FORTRESSES ARE CAPTURED.

London, Sept. 8, 3:45 p. m.—An undated official Bulgarian report received here to-day says that Bulgarian and German forces which are invading Eastern Roumanian, have captured the fortress of Dobric (Bazardjik) and the seaports of Baltjik, Kavarna and Kaliakra.

THE ZEPPELIN RAID

Extract from Letter Written by an English Woman.

New York, Sept. 8.—A special cable to the New York Times from London says:

The following extract from a letter written by a woman living in a little English village, tells a plain, unadorned tale of one aspect of last Saturday night's Zeppelin raid:

"What a night we had. The first of the monsters that we heard was about 11 o'clock, but we could not see it because of the thick mist. Then at 2 o'clock they seemed to be two or three. They started dropping their bombs, and continued on and off, and we women sat huddled in a corner of our underground kitchen too terrified to move or speak.

"In the morning we found there was not nearly as much damage as we had expected. One gentleman's home had been damaged and eight bombs fell a mile and a half away, where the vicarage of a little church was badly damaged."

"The first of the monsters that we heard was about 11 o'clock, but we could not see it because of the thick mist. Then at 2 o'clock they seemed to be two or three. They started dropping their bombs, and continued on and off, and we women sat huddled in a corner of our underground kitchen too terrified to move or speak.

"In the morning we found there was not nearly as much damage as we had expected. One gentleman's home had been damaged and eight bombs fell a mile and a half away, where the vicarage of a little church was badly damaged."

ORSOVA IS OCCUPIED

By Roumanian Troops—An Important Hungarian Town.

London, Sept. 8.—Roumanian troops have occupied Orsova, an important Hungarian town on the Danube, according to a despatch to The Times from Bucharest to-day.

BOMBARDMENT TOLL

Berlin, Sept. 8.—In the month of August, the Overseas News Agency announces, thirty-one men, twenty-seven women and seventeen children, all civilians, were killed in the occupied districts of France and Belgium, as a result of artillery and aeroplane bombardments by the English allies. The total number of deaths due to these causes since September of 1915, the News Agency says, is 1,963.

GERMANS RENEW ATTACKS IN STRONG FORCE ON FRENCH

SPRING-RICE Calls on President of United States Regarding Relief of Poland.

Washington, Sept. 8.—President Wilson had on his list of callers to-day Sir Cecil Spring-Rice, the British ambassador, who was to present King George's reply to the President's appeal to all the European belligerents for an agreement permitting the shipment of relief supplies into portions of Poland occupied by Teutonic armies.

The reply was said to follow the position already laid down by the allies that Germany's insistence upon the right to feed her garrisons on Polish products, makes it impossible for them to allow supplies to get into the country through their lines.

OLD COUNTRY PAPERS

Old Country people can get their papers, magazines, etc., from Wicks, Opposite Post Office.

Joffre's Men However Held Their Own Successfully

Paris, Sept. 8.—12:20 p. m.—Renewed and particularly violent attacks were made by the Germans on the Somme front last night in an effort to gain ground won by the French. The war office announced to-day that the German assaults were futile, the French holding their ground everywhere.

The German attacks were made in force on the front between Berry and Chaulnes, south of the Somme. The fighting was especially heavy between Verdunvillers and Chaulnes. The Germans preceded their infantry assaults with intense bombardments. The Germans also made an effort to regain the ground won by the French yesterday on the Verdun front between Vaux-Chapuis and Chenois where nearly a mile of the first line positions were carried. The official report says the German onslaughts were unsuccessful.

Italians Have Forced the Austrian Troops to Retire

Rome, Sept. 8.—via London—Austro-Hungarian troops on the night of September 6, made a violent attack against the Italian lines on Civarone in Sugana valley, but after brisk fighting the Austrians were forced to retire, abandoning their arms and ammunition and leaving dead on the ground. This information was contained in the Italian official statement issued to-day which says:

"Our Alpine troops under cover of fog, surprised the enemy and stormed a trench on the slopes of Tofana No. 1, in the Travenazas valley. On the rest of the front there was only the usual artillery activity."

on Monte Givogo and northeast of Serravalle were repulsed.

"A more violent attack was attempted by the enemy on the evening of the 6th against our lines on Givavene, in the Sugana valley. After brisk fighting the Austrians had to withdraw, abandoning their arms and ammunition and leaving some dead on the ground.

"Our Alpine troops under cover of fog, surprised the enemy and stormed a trench on the slopes of Tofana No. 1, in the Travenazas valley. On the rest of the front there was only the usual artillery activity."

SHORTENING OF LINES THE WAR SUMMARY

Said to be the Plan of Gen. Hindenburg.

A British Aeroplane is Lost.

London, Sept. 8.—(New York World cable)—According to a Berne despatch to The Morning Post, Col. Medious, military writer of the Muenchener Neueste Nachrichten, in an article indicates that Marshal Von Hindenburg, the new German chief of staff, will shortly reduce the length of his front. The writer is convinced, he says, that the public will realize "our new strategist" will be acting for the best and he asks it to bear in mind that "a clever move backward on one front may lead to victory on the other."

London, Sept. 8.—German troops along the Somme front last night made repeated efforts to take back ground won by the French in their latest advance south of the river. The struggle through the night over the ground between Berry and Chaulnes was marked with unusual violence. Paris announces officially that the assaults of the Germans were repulsed, and that the French everywhere held their ground.

On the Verdun front also the French troops were subjected to a counter-attack, the object of which was to reoccupy German first line positions over a front of nearly a mile northeast of Verdun which the French took yesterday. These efforts were unsuccessful the official French report says.

The British troops on the Somme front were comparatively inactive. Further north near Guinchy, the British raided German trenches and an official announcement from London says, inflicted severe losses on the occupants of these positions.

An official Bulgarian statement of September 4, dealing with the earlier phase of the invasion of eastern Roumania, tells of the defeat of the Roumanians in two engagements and reports a successful Bulgarian advance along the Roumanian Black Sea coast.

On the Italian front in the Sugana valley there was heavy fighting on Wednesday night in consequence of an Austrian attack on the Italian positions at Civarone. The Italian war office announces that the attacks were defeated.

BEGINNING OF GREAT BATTLE.

London, Sept. 8.—The beginning of a great battle in southeastern Roumania, where the Russians have taken the offensive against the Bulgarians and Germans, is reported in a Rome despatch given out by the Wireless Press.

The struggle is now under way over the whole front in Dobruja between the Danube and the Black Sea. The fighting is particularly violent near Baltjik, on the Black Sea coast about 10 miles north of the Bulgarian frontier. This information, the Wireless despatch says, was received in Rome from Petrograd.

to the east of the German line, which indicates, he says, that the Germans withdrew their field artillery out of range. Whether this is from apprehension that the guns might fall into British hands or whether it is preliminary to a general withdrawal, the writer adds, can of course be only a matter of speculation.

Children Cry FOR FLETCHER'S CASTORIA

FORMER TRUSTEE COLES SENDS INTERESTING LETTER FROM FRONT

When Trade Volunteers Were Asked For He Offered as a Carpenter— Gives Pen Picture of Matters in France

The following letter was read last night at the meeting of the school board.

Somewhere in France, Aug. 11th, 1916. A. K. Bunnell, Esq., Sec. Board of Education.

Dear Friend— I think another letter is due to the Board, and as I've a little time I'll take advantage of the opportunity. We are resting in our huts after a night's work, with probably a twelve mile march. As a result of the work, I've a nasty blister on right hand, which burst soon after it formed. It wasn't a saw or plane that caused it. It happened to be a pick axe, and we never were real good friends. When I wrote before, I told you of our journey to Shorncliffe. While there we had infantry training to quite an extent. This was at Hythe, and it was quite an experience. I did not make much of a score, but as the rifle had been somewhat roughly used I blamed it on to the rifle. Soon after enlisting I was told to be sure and always have an excuse, and though I may be unimaginative, I mostly always get one. Since last writing all of us who were made N. Co's have had an Irishman's promotion. I am again sapper. This is as it should be, as over here only those with experience are capable of handling men in a satisfactory manner. Seventy-one of us lowered our stripes at one order. Up till then I'd had an easy time, being for some time an orderly corporal, which, under some conditions means a good share of sleep. Mr. Coles all night, and I had six days leave with her. Friend Gamble was not here so could get no two extra days.

Well, one day about 35 men were wanted for various jobs and I stepped out as a carpenter. In less than a week we sailed from an English port to a French one, and after a rather trying march, reached the Canadian base depot in several thousand of men, already assembled. It was, or rather is, in a lonely valley. Such beautiful woods all around, far away from the hideous sounds of battle, and supplied with a bountiful supply of the nicest water one ever drank. The Canadians were by no means alone, as the Imperial camp joins and there are thousands upon thousands of troops, mostly smart, clean young men of Kitchener's army, some of the best of all time. Being in the Canadian army, it is up to me to tell others to say what we are. We arrived on a Thursday and I was on a fatigue with men of the Imperial Royal Engineers on the Sunday. For this place, a place well known by all Canadian soldiers, and one which will be always mentioned in the future when Canadian history is recorded. Coming to this place, I learn in an experience to be remembered. France is a fertile country, and the fields are wonderfully stocked with crops, mostly ready to be harvested. Wheat, oats, barley, maniocas, potatoes, beans, and all sorts of food are shown a high standard of agriculture. The town looks fine, with such splendid churches. The villages are quaint and one is struck with the crucifixion which are erected in prominent places. It was quite a march here again from where we left the train, and a tired body of men turned into their huts that early morning. I think no objection was taken in relating our experience. We had been turned in about 2 1/2 hours one night, and those of us whose consciences were either stilled or hardened, were fast asleep, and dreaming of Canada, England and other beautiful places, when we were aroused and ordered to stand with gas helmets. Many men say they

had previously been awakened by the heavy bombardment that was proceeding, but I did not hear it till a kick or a push awakened me. The Germans were using one of their methods of frightfulness, and fortunately we had protection, or maybe I'd not be writing you. The bombardment was fierce, and no words can portray it. It has to be experienced. We were not in the way that night, but it was close enough to be pleasant. The gas must be a fearful thing, but as we belong to the British Empire, we are protected as far as science can protect us. Since then we've been close to big guns when they've been fired, and though at first one's heart beats a little fast, one soon gets used to it, and one feels glad he is at the beginning end of the line the shell takes, instead of at the finishing end. I've met men of the 58th, who were under our friend Major Ballachey, and we, who served in other capacities than soldiering with him, feel proud that we have associated with such a man, and while feeling for his good wife and young family, can feel assured that he has earned a reward in the sphere of other occupations, and self-sacrifice merits. We have lovely weather here now. Nature is at her best, and when one sees the havoc wrought by war in ruined villages, houses demolished, hole holes in the ground, acres of campments, one wishes mankind was in the same humor as the vegetable and solar parts of the universe seem to be. However, there is a day coming, when it must all finish, and though it may be far distant when "spears will be turned into pruning hooks," yet I think the feeling generally is that a few more months will suffice for ending the present world-wide catastrophe. We all hope so. It is not always pleasant, but it is always pleasant to feel conscious of having done one's duty. I believe that feeling keeps many hearts up and many hopes buoyant. Sometimes I lay and wonder what peace day will be like. Some have paid such a price that so many hearts will be well nigh broken, too much for thankfulness, or shall we face everything as men and women should, calmly, quietly and sincerely, or shall we let ourselves go from under our control, as so many of us did, when Lady-smith, Mafeking and other names became famous. Time will prove, and the sooner that time comes the better. Till it does come and we probably may meet again, I send my kind regards and best wishes to all those connected with the Education Department of the City of Brantford. I often think of you and even though it is a short time since I left, I wonder how you are progressing. Yesterday I had such a charming letter from one of Miss Colter's pupils, whose father is a friend of mine. There is evidently some difference in the entrance exams. from last year. I hope this letter will find everything and every one O.K. Let us all feel glad that we are so much nearer the time when "the war drum throbs no longer, and the battle flag is furled, and we can all join again in progressive and altruistic nation building work. With every good wish for the future, and with the assurance that right will triumph, I am, sincerely yours,

JAMES C. COLES, 9th Field Co., Canadian Engineers, B. E. F., France

RAILWAY COMPANIES

Have Instructed Leading Lawyers to Look Into 8-Hour Matter.

Estimates Are Given as to the Cost of the Change.

New York, Sep. 8.—Large Eastern railroads do not share the determination of E. P. Ripley, president of the Atchison, Topeka and Santa Fe Railroad, who announced yesterday that his road would not obey the new eight-hour law unless ordered to do so by the United States Supreme Court.

Investigation yesterday developed that the big Eastern roads have not decided upon what course to pursue, but have advised their head counsel to make an exhaustive study of the law, following which, it is expected that Frank Trumbull, chairman of the railway executive's advisory committee, may call a meeting of the heads of the various roads and decide upon what steps to take.

Estimates of the cost of the eight-hour law to the individual railroads made their first appearance to-day. A. H. Smith, president of the New York Central, said:

"The estimated increased cost per annum to the New York Central Railroad is \$2,500,000 for classes of employees with whom the controversy exists. The newspapers quote labor organization leaders as stating numerous other classes of employees are covered by the law. If the law is so interpreted and applied, the above estimate would be largely increased."

Geo. W. Stebens, president of the Chesapeake and Ohio, estimates that the eight-hour law will cost his road not less than \$750,000 annually.

The other large roads have not yet completed their estimates on what the increase will cost them.

DANISH WEST INDIES
By Courier Leased Wire.
Washington, Sept. 8.—Since the Senate approved last night the Danish West Indies' treaty, virtually the only thing that stood in the way to-day of the acquisition of the islands by the United States was the ratification of the treaty by the parliament of Denmark, the lower house of which already has approved it. The treaty provides for the purchase of the Danish West Indies for \$25,000,000.

THE SITUATION

The German-Bulgarian army scored its first success against Roumania by capturing a fort not far distant from Bucharest. The Germans claim to have secured twenty thousand prisoners, but most of the Berlin despatches have recently been unworthy of belief. There can be no doubt however, that first blood secured by the foe against the latest member of the Allied nations has more than passing importance, and it is a relief to know that Russian troops are hastening to the rescue. An attack on the Roumanian capital is probably the move next intended.

The Roumanians have scored successes from the Dvina river to the Carpathians and the Austrians admit retreat in order to escape envelopment.

At two points the Roumanians have administered defeat to Austrian forces.

It is said that the Huns have poured fresh troops to the Somme front, where the Allies are preparing for another big drive.

General Smuts reports from German East Africa that two of the forts have surrendered.

A significant illustration of how the German mind is dulled to the world detestation which their Kultur has aroused is to be found in the fact that Prof. Muensterberg, of Harvard University, writing to the New York Times, suggests that after the war, the most natural step will be an alliance between England, Germany and the States, which he says would prove "invincible." And he actually seems to think that John Bull would debase himself by grasping hands with the Huns!

WOMEN IN THE KRUPP WORKS.

The "Engineer" of London devotes a lengthy article to the above subject.

From the fact is learned that on August 1st, 1914, the Krupp works gave employment to 36,880 men and 1241 women, the latter exclusively in such capacities as charwomen or saleswomen or assistants in the various shops and other establishments supplying the Krupp workmen. By April 1st, 1916, the number of women had increased to 13,023, mostly in the ammunition departments, and the number of men had increased to 55,349. By the summer of 1916 it was believed that over 14,000 women were employed.

This force works in two shifts of twelve hours each, with an hour and a half for meals. These long hours of labor, enforced conditions of military necessity, and without doubt poor and insufficient food have had most serious effect on the work people, especially the women, and there has been an extraordinary amount of sickness. Extraneous among the female employees in 1915 amounted to 76.60 per cent, with an average duration of 15.18 days for the men and 12.02 days for the women.

Many of the women employees are either the widows or wives of soldiers serving at the front and having dependent children, and their employment is the sole source of support of a number of persons, and in addition to the Krupp works women are being generally employed in Germany. In some machine shops and manufacturing plants as many as 80 per cent. of the operatives are women.

The women workers in the Krupp works and other ammunition factories and machine shops are supplied with special costumes designed to permit the greatest freedom of movement and not endanger their lives by catching in the machinery. Such dress includes knickerbockers and leggings in a single garment, worn with a loose sack coat coming down over the hips and worn either open or closed, or sleeveless overalls covering body and legs, or special upper garments for women where special ease of movement seems to be required for the upper part of the body.

The success of women in industry

In Germany has led to a movement in favor of compulsory government service for women analogous to military service for men, required of all except those physically incapacitated or prevented by motherhood.

Their pay is low, and it is pointed out that whereas twenty-six leading German companies showed an aggregate surplus for the last quarter of 1915 of about \$3,500,000, or twice as much as in the first quarter, the average cost of labor has only increased twelve per cent.

ACTION OF U.S. SENATE AGAINST GREAT BRITAIN.

The residents of the United States for the most part, do not recognize and do not believe that the Allies in the present war are incidentally fighting as much for the interests of Uncle Sam as for their own.

This, however, is the undoubted truth, although it could not be knocked into the head of the average Uncle Samite with a bludgeon.

Where would the States be with Germany victorious? Without any doubt dragooned and humiliated like the rest of the world, with their hyphenated residents mightily pleased over the fact.

Except for supplying war materials at large profits, our neighbors have not taken any part in a struggle which involves American future interests and welfare as much as those of any other land. The very least they could have done under the circumstances was to leave the allied powers unhampered by any act on their part, but such a thing was evidently too much to expect from a country filled with petty politicians.

Their chief cause for grievance is that John Bull "blacklisted" certain U. S. concerns controlled by, or in alliance with, Germans. He simply told his people not to deal with them, as he had a perfect right to do, but the opportunity offered was too much for the tail-twisters, Congress, accordingly, in reply, has declared for shipping reprisals against "the Entente powers," but everyone knows that it is Great Britain they are after.

It is a tremendous and a dangerous power to put in the hands of Wilson during a Presidential contest, and in searching for votes he may use it; is scarcely, as a matter of fact, likely to avoid pressure in this regard. And where, if you please, would your Uncle Sam be, if it was not for British trade vessels to carry his stuff, and the safety of sea routes guaranteed by the British Navy? His own, by the bye, is a joke.

The whole spectacle is about as sorry an exhibition as the United States keeping out of a job, which is as much hers as that of Great Britain.

NOTES AND COMMENTS.

"The Globe has taken no oath of allegiance to Sir Sam Hughes. It is not treason to tell the truth about Canada's Minister of Militia."—Toronto Globe.

The trouble is that the organ has evidently taken an oath to lie about him.

H. G. Wells, the famous British author, upon his return from a visit to the front, exclaimed: "The Germans will have begun to squeal by November and the war will end by March." Seven months, eh? It is a promising prophecy, but not at all likely to be fulfilled.

Laurier is to give a public address shortly in London, Ontario. While there, he ought to explain why he fathered an attempt in the Dominion House to give parliamentary contempt to the mischievous and impudent French language agitation in Ontario. His course in this regard it will be remembered, so disgusted his Liberal followers from the West that under the leadership of Hon. Mr. Oliver they bolted from him in a body.

NEWS FROM SIMCOE

(From Our Own Correspondent.) Simcoe, Sept. 8.—At the instance of the Crown officer McIntosh of the County Children's Aid Society, has been up in Middleton and Delhi, securing statements which may result in an action for perjury being laid at the door of some of the witnesses who gave evidence in the interests of the defendant, Leta Gehring, who was in court a week ago charged with inducing a ward of the society to leave the home of Robert Hurselman, where she had been placed.

Harry Sherk made four entries at the Canadian National with his silver pencilled wyandotts, and won a first and two third prizes.

Wellington Hunter of Gladwin, Mich., dropped into town the previous evening and called yesterday morning on his cousin, Turnkey McInally, and though absent since 1877 and now sixty years old, he was promptly recognized. He has been clerk of the county of his adopted home, and is now engaged in farming. He will remain a month to re-visit old schoolmates and relatives who remain, and will visit the old Windham home, the middle third of what is known as the James Kellum farm, just out of town.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any-one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do. For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated, it will cause quick fermentations and generate poisons, gases and toxins which are absorbed or sucked into the blood stream, through lymph ducts which should seek only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach, constipation are assured of pronounced improvement in both health and appearance shortly.

arrived at 8 o'clock last evening from Camp Borden. In the main, they discuss soldiering with much seriousness; there is less faultfinding with camp conditions now—in fact, practically none.

The first rain for many, many days fell last evening, commencing about six o'clock and continuing for half an hour. It penetrated the ground about one inch. Precipitation was intermittent throughout the night.

Harry Gordon, "mov" in jail charged with theft, has elected to be tried summarily by the judge, and will appear before his Honor Judge Boles one week from to-day.

Sergt. Tailor Dan McCoal, home with the boys from camp, is receiving unstinted congratulations over his winning the camp championship at checkers.

Mrs. Min. Shields of Woodhouse, lost a horse by lightning in the field yesterday evening.

PORT DOVER ITEMS

Port Dover, Sept. 8.—The closing dance of the season at Orchard Beach pavilion was held last night.

The London Harpers, under conductor Howie, provided music and the hall was thronged by the presence of soldiers home from Camp on monthly leave. Several of the boys from outside points joined their comrades in khaki in the mazy whirl.

Port Stanley agitators have apparently succeeded in having the head-quarters of the patrol boat Vigilant removed to that port. Her chief duties call her mostly to watch about the waters of Long Point, but Port Stanley butchers and grocers had to be appeased. It is hoped that change is not a permanent one.

Rev. J. D. McCrae, of London, is invited to deliver a Presbyterian Church, whose pastor is going overseas.

Ogilvie, Lohead & Company

The Preliminary Showing of New Modes For Autumn

An Extensive Array of New Millinery, Suits, Coats, Dresses and Blouses, etc. For Women and Children

IN A BEDROOM

Huron County Constables Found a Quantity of Booze.

Clinton, Sept. 8.—County Constables, working under the direction of the County Temperance Association, raided the Queen's Hotel at Seaforth yesterday and brought back an automobile load of "booze."

When the constables entered the hotel they started a systematic search, and their suspicions were finally centered on a room occupied by the proprietor's wife, Mrs. Thomas Stevens, but the two daughters objected strenuously to a search of this

GRASS FIRE
A grass fire at the corner Broad and Terrace Hill Streets, night at 11.30, was extinguished Chief Lewis and two men.

ACKNOWLEDGED
The receipt of \$2.00 for the plan Relief Fund is acknowledged to-day from C. P. M.

POLICE COURT
Two inebriates faced acting magistrate F. J. Calbeck in this morning session at the police court. One allowed to go with a warning, the other case was remanded for week.

THE MOVIES
The Ontario Government annual tax brings in \$50,000 more or \$600,000 a year. As probably 90 per cent. of it comes from picture admissions, at one two cents tax per admission, seems that there are approximately four million admissions to the les in a month.

MAKE WILL
In yesterday's orders appears notes: "Commanding officers should impress upon all ranks the importance of making their wills before proceeding overseas. Particular attention to the completion of this form, the reasons why it should be completed in the case of every member of the C.E.F. before embarking overseas, were notified in King C. E. F. orders of July 26, No.

STANDARD REDUCED
The announcement is made the standard of vision for infants has been reduced, and a great many who have been rejected within months will now have an opportunity of serving with the colors. Standard has been lowered so that a man with good sight in one eye is practically certain of getting through if the other eye is constantly off.

Are you going to let a few minutes of your time, the price of a pair of glasses, the hope that your children may be able to struggle along without glasses stand between them and good eyesight and good school work? Think Parents

London, Eng.,
Aug. 25, 1916

Wiles and Quinlan,
Brantford, Ont.
Dear Sirs:—Find enclosed \$1.00, a little amount that I owe you and is not on your books. Hoping you receive the same all right."
Mr. W. D. Coghill, gent's furnishings, 48 Market Street, also received a similar letter and a similar amount.

BARN BURNED
Struck last night by lightning, in the course of the severe storm which passed over the district, a barn and its contents, upon the Garland farm, near this city, were destroyed by fire. The farm is owned and occupied at the present time by Mr. George Lee. No other damage was done to any part of the property.

BATHING PLACE FOR MOHAWK PARK

Is Discussed by Parks Board and Favored by All Members.

A brief routine session of the Board of Parks Commissioners was held yesterday afternoon, the principal business discussed being the projected establishment of a bathing place at Mohawk Park. The minutes of the previous meeting were read and confirmed, and a number of accounts passed ordered paid.

E. L. Gould, chairman, stated that he had sent to a Texas company a copy of the report of Mr. Dunnington, who had received other reports in return. "The advisability of allowing the erection of squirrel cages by private citizens throughout the city was commented upon, as in some cases it was stated that damage had been done by the animals to private property."

Mr. Glover inquired as to whether any further action had been taken with regard to the entrance to Mohawk Park, to which Mr. Gould replied that though nothing definite had as yet been accomplished, steps were being taken in the matter.

Mr. Glover raised the question of the establishment of a bathing place at Mohawk Park. He suggested the establishment of a bathing house, where swimming costumes might be rented. Mr. Cockshutt raised the objection of the weeds which grow so thickly upon the bottom, and which would have to be destroyed first. He suggested the establishment of two bathing places, one for those who could swim and one for those who could not. It was felt by all that such a project would prove a great attraction for the park, and a benefit to the city in general. Mr. Waller was accordingly instructed to look into the matter and ascertain its feasibility.

Inspector Waller suggested a tile draining for a part of the western side of Mohawk Park.

Those present were Chairman E. L. Gould, His Worship Mayor Bowler, F. Cockshutt, W. Glover and Inspector of Parks and Acting Secretary I. Waller.

MILITARY POLICE ARE VERY BUSY

Looking for Deserters from the Ranks of 215th—Several Uniforms Found.

Military Police Sergeant Arthur C. R. Jones of the 215th battalion has been very busy in the city during the past few days in rounding up those absent without leave from Niagara Camp. To date, some ten members of the 215th have been apprehended and sent back to camp, and there are only a few more for whom a look-out is now being kept. One of these is Pte. J. H. Beesevalk, number 270481, the principal parts of whose uniform have been found in the city, and returned to the local office of the 215th. Pte. J. Artin is also absent from the camp, and parts of his uniform have also been found, as has also the outfit of a private, F. Dale of the 215th. Anyone knowing anything concerning the whereabouts of any of these men will confer a great favor by notifying the local military authorities.

CAPTURE OF FORTRESS

Hailed with Delight by German Papers.

Crossing of the Danube Barred to Roumanians and Russians.

By Courier Leased Wire.
Amsterdam, Sept. 8.—German newspapers greet the news of the capture of the Roumanian fortress of Turutak by Bulgarian and German forces with jubilation. The Cologne Gazette recalls that Field Marshal Von Moltke considered this the best point for crossing the Danube. The Koelnische Volks Zeitung says: "The crossing of the Danube is barred to the Roumanian and Russians and the capture of the fortress itself is a weighty and will be one leave out of consideration possible further successes."

THE DANUBE FREE

By Courier Leased Wire.
Berlin, Sept. 8.—(By wireless)—The Budapest conference for consideration of traffic on Danube, which is being attended by representatives of Germany, Austria-Hungary, Bulgaria and Turkey, has adopted a motion that the principle of free navigation of the Danube shall be maintained and extended. The channel is to be improved and tolls will be levied to cover the cost. The conference recommended the drafting of a treaty, modelled on the Rhine treaty of 1866 in which the points will be embodied.

BODY FOUND

By Courier Leased Wire.
Toronto, Sept. 8.—The body of Mrs. A. E. Victor was found this morning in the Credit River, seven miles east of here. It was brought out of the water by Malt Aykroyd, of Toronto life-saving service, not fifty yards from the spot where the canoe was discovered Wednesday evening. Mrs. Victor's husband was killed by a train Wednesday morning, his wife was distracted, and after writing letters to their relatives in England, she disappeared.

NOT BEFORE NEXT SESSION.

By Courier Leased Wire.
Washington, Sept. 8.—A resolution by Senator Curtis proposing an investigation by a committee of three senators of reports that a lobby representing the foreign government had been busy in Washington opposing retaliatory legislation against Canadian fisheries in the revenue bill was sent to a committee to-day and cannot come up before next session.

ABSOLUTE NEUTRALITY

By Courier Leased Wire.
Berlin, Sept. 8.—The Dutch government has announced to the German Foreign Office that it will maintain absolute neutrality in the war between "the friendly powers" Roumania and Austria-Hungary, Germany, Bulgaria and Turkey.

WEDDING BELLS

Sunnyside Farm, Glen Morris, the home of Mrs. Geo. Rutherford, was the scene of a quiet but pretty wedding on Saturday afternoon, September 9th, when her second daughter, Jean, was united in the holy bonds of matrimony to Mr. Jesse Ryerson of Galt, Ont., the ceremony being performed by the Rev. Mr. Pettigrew of Glen Morris Presbyterian church. The bride, who looked charming, was attended by her sister, Miss Bertha Rutherford of Galt. Only immediate relatives were present, but the numerous beautiful and costly presents testified to the high esteem in which the young couple are held.

TERRACE HILL DEPUTATION WAITS ON WATERCOMMISSIONERS

Assurances Given as to a Satisfactory Supply Next Summer - Some Startling Information Handed Out During Discussion

That the residents of Terrace Hill will have their requests for a satisfactory water service granted, was the assurance given them at the regular meeting of the Water Commissioners held last evening. The deputation presented a petition signed by 305 water users on the Hill to back up their request. The petition was about twelve feet long. The matter was ably presented to the commissioners by Messrs. S. Cayless and W. Kilgour, and a free and easy discussion followed in which all took part. It was pointed out by members of the deputation that they were present in a spirit of helpfulness. To back up this statement, they offered several rather important suggestions of things that had come under their observation as to wastage and as to how the commissioners might conserve the water supply in certain directions. The board expressed their appreciation of the spirit of co-operation shown.

The session of the commission was held in the evening at the request of the Terrace Hill Ratepayers' Association.

Those present at the meeting were: Mayor Bowby, Commissioners Fair and Montgomery, Secretary Frank, Mr. Webster, and Messrs. J. W. English, W. Kilgour, J. Laing, S. Cayless and I. D. Scruton.

During the discussion on the water supply as introduced by the deputation, it was shown that the main that supplied the Terrace Hill section also supplied a small section of Brant Avenue in the vicinity of Bedford street along which the main runs, and also all north of the track as far as West Street and

including the Malleable Iron Works. The question of the wastage by individual users was also enlarged upon and in response to a query, Mr. Frank said that certain foreign users, all of whom had meters, were paying all the way from \$20.00 to \$65.00 a year for water consumed on the premises. It was announced that a definite meter was on foot to stop such wastage, even if users paid for what went through the meters. This was not confined to foreigners by any means.

The startling information was also handed out that in one really good residential district, sixty-three persons were found to be using the water for lawn purposes, who had notified the secretary that they had no intention of using water for that purpose this year. Of course they have been billed for it and will be made to pay.

Many such instances the commissioners were able to give to show the difficulties they were working under. The Commissioners individually pledged themselves to see that the Hill receive a booster pump in the vicinity of the Municipal Car barns, secured the proper solution. If such was the case it would be installed in time to meet the demands of next summer. It was felt from now till then conditions would be satisfactory. Secretary Frank said a booster pump would pay for itself in one year.

It was admitted that a booster pump was included in the specifications when

A gas heater will take the chill from your rooms before furnace time. We have a complete line at all prices.

T. J. Minnes
Phone 301 - 9 King St.

The new mains had been laid a year or so ago, but that tests at the water-works had shown that the Hill could be supplied without it. Conditions had now changed, and a pump seemed necessary.

The information was also elicited that when water was used from the river, it took eight days to filter through before reaching the galleries. When a drought was on, should a big fire occur it was possible that the river water almost directly into the mains should the emergency demand it.

The session was quite harmonious both commissioners and deputation taking the matter up as a business proposition, and the results appeared to be satisfactory to all concerned.

Commissioner Montgomery raised a storm and for a few minutes a wordy war ensued. He introduced a resolution pledging the commissioners to install a booster pump or water tower or both to give Terrace Hill a satisfactory service at the earliest possible moment. He asked for a seconder to his motion.

"You are playing to the gallery," said the Mayor. "This deputation should have a definite answer to their requests. If you are in favor of it, second my resolution," replied Mr. Montgomery.

"It is an insult to the other members of this board to introduce such a resolution. It will not be seconded and it will not be put. We have given our word to this deputation," responded the Mayor.

Mr. Fair exclaimed that this matter would be taken up and adopted at the proper time and place. He had given his word, which ought to be sufficient. He asked what Mr. Montgomery had in mind.

Mr. Fair personally was responsible for the present improved water conditions on the hill, because he had seen that a pump had been put in operation to raise the water five feet, so as to give the north end of the city a steady supply of water.

The resolution was not seconded but the deputation were assured that their requests would be met in due time. Considerable routine business was transacted by the board before and after hearing the deputation.

TORONTO TO OTTAWA
Aviator to Attempt Longest Flight Yet Made in Canada

Toronto, Sept. 8.—The longest flight ever attempted by aviators in the Dominion will start from the aviation grounds at Long Branch this (Friday) morning, when Victor Carlsson will set off on a journey to Ottawa, bringing with him a message to Premier Borden. After delivering the message he will go on to Montreal and will return to Toronto the following day.

Carlsson will be accompanied by Frank Prendergast, of the Mail and Empire staff. The trip is intended as a demonstration of what can be accomplished in aviation in Canada.

WONT SUPPORT GERMAN SAILORS
By Courier Leased Wire

New York, Sept. 8.—The Standard Oil Company has refused to support thirty-five German sailors who belonged to the crews of tank steamers of the German-American Petroleum Company before these ships were transferred to the Standard Oil Company. The sailors said that under the German marine law the Standard Oil Company was responsible for their care until they could return to their native land. The shipping commissioner, to whom they made their complaint announced today that nothing could be done for the sailors because they are not Americans.

The Canadian Trade Commissioners, having finished their provincial tour of England, will sail for home on the Lapland.

THE PROS
Toronto, Sept. 8.—The depression mentioned yesterday now covers the lower St. Lawrence valley. It has caused showers and thunderstorms in nearly all localities from Ontario to the Maritime provinces. In the west, the weather has been fine and warm.

Forecast
Moderate to fresh north to west winds; fair and cooler. Saturday—Light to moderate winds, fine and comparatively cool.

To the Grave
The remains of the late John Cameron were conveyed to Galt Tuesday morning and tenderly laid to rest on Mount View cemetery.

The service at the house and at the grave was conducted by the Rev. G. A. Woodside. In the absence of Rev. D. T. McClintock, pastor of Alexandra church, of which church the late Mr. Cameron was a highly and respected member.

The pallbearers were Messrs. G. McDonald, A. McFarland, J. O'Dowd, J. S. Dunlop, A. Cromar and William Brerly.

Many beautiful tributes were received, and many former friends were present at the grave to show their esteem for one who had been over thirty years a resident of Galt.

Mrs. Dargie
The funeral of the late Mrs. Dargie took place yesterday afternoon in Harrisburg interment being in the Methodist Cemetery there. Services at the house and grave of the deceased were conducted by Rev. Mr. Haverstock, of the St. George Baptist Church, assisted by Rev. Mr. Evans, of Troy. The text of the funeral sermon was taken from Psalm 23, verse 23: "Yea, though I walk through the valley and shadow of death."

The pall bearers were the following, all of them fellow-employees of Mr. Dargie: E. E. McCarthy, F. Trooman, H. W. Sussex, Isaac Pappie, Harry Allen, Arthur Stedman.

Mr. Sussex sang two solos selected by Mrs. Dargie before death claimed her.

She leaves to mourn her loss a grief-stricken husband and two sons and one daughter: James, of Paris; Edgar, of Brantford; Mrs. Chas. Baker, Harrisburg.

The floral tributes were as follows: "Pillow, husband and family; spray, Miss Irene Little, St. George; spray, ladies' Aid Harrisburg; spray, employes Gould, Shapley and Muir; spray, Mr. and Mrs. Headley; spray, Mrs. Sissy and family; spray, Mrs. George Sandor, Brantford; cross, Sissy and family; wreath, Hamilton; spray, Mr. and Caswell, Hamilton; spray, Mr. and Mrs. P. Vrooman, Harrisburg; wreath, G.T.R. employes, Harrisburg; spray, Mr. and Mrs. McWaters; wreath, car department, Hamilton; spray, Mrs. James Smith, Brantford; spray, Mrs. Jas. O'Connor, Harrisburg; spray, Mrs. George Sandor, Brantford; spray, Mrs. George Sandor, Brantford; spray, Mr. and Mrs. James Walley, Brantford; spray, Mrs. Robt. Hawkrich, Brantford; spray, Mr. and Mrs. Sandy Camp, Harrisburg.

We wish to thank the choir and those rendering the valuable assistance.

GAINSVILLE NEWS
(From our own correspondent)
Mr. and Mrs. W. Tottle and family and Miss E. Tottle, motored to Madina and spent Sunday.

Mr. and Mrs. Carmody have been visiting in Toronto.

Mr. Coleman and Miss Colmar of Conboyville, were the Sunday guests of Mr. and Mrs. A. Poag.

We are sorry to report that Mr. E. File is very ill.

Mrs. S. McCann, city, spent Wednesday at Mrs. A. J. McCann's.

Mr. and Mrs. A. Poag and family, were in Toronto on Wednesday, attending the Exhibition.

School opened again on Tuesday. The scholars of the senior room were glad to welcome back their teacher, Mr. Henry. Miss Fraser of Glen Morris, takes charge of the juniors.

Mr. and Mrs. Shirk of Shirksville, were the guests of their daughter, Mrs. D. Pappie.

Rev. Mr. Pyley was in Toronto on Wednesday.

The opening of Boston schools was postponed to Sept. 25 on account of the infantile paralysis situation.

Your Children
need the watchful care of competent authority on matters of vision during their growing period.

Correct Eyeglasses

have saved sight, doctor bills and even life itself in many instances. A thorough test of the eyes of your children at regular intervals will insure their escape from many of the more serious defects of vision that so frequently mature and develop during the school period. Dullness, inability to study, nervousness and many other symptoms are tell-tale marks of defective vision that the right glasses will correct. We have had years of experience in dealing with all such cases.

15 Year Prodigy Beaten at Last

Philadelphia, Sept. 8.—The favorite won in the third round of the national golf tournament at the Merion Cricket Club yesterday, and today will see Robert A. Gardner, the title-holder, paired with Jesse Guilford, the Massachusetts champion, while Chick Evans, Chicago, will play against D. C. Corkran, of Baltimore, the only dark horse to reach the semi-finals.

You Never Can Tell in Baseball

Harry Pulliam, late president of the National League, once remarked: "Never take anything for granted in baseball," and Pulliam was right, as the standing of the clubs in both major leagues attests.

Phillies Took Two From the Braves

Boston, Sept. 8.—Philadelphia won both games from Boston yesterday, the first 4 to 2 and the second 2 to 0. In the first game Rixey allowed but one hit up to the seventh inning, when the home team scored twice.

Pirates Won Slugging Match

Pittsburg, Sept. 8.—Heavy hitting featured yesterday's game Pittsburg winning from Chicago 5 to 4. After yielding six hits to three runs in the second inning Packard was taken out and Prendergast, who took his place, also was hit hard.

EIGHT

FOR THE SECOND TIME

Since the Beginning of the War.

Austria Has Found It Necessary to Confiscate Rubber Supply.

Vienna, Sept. 8.—For the second time since the beginning of the war the government has found it necessary to step in and confiscate the rubber supply. The second confiscation, which has just begun and continues until Sept. 10, is so drastic and far-reaching that it is going to put taxicabs, many horse cabs, motor cycles and hosts of other things out of commission.

In announcing its step the government declares that the army is plentifully supplied still with automobile tires and the like, but declares there exists a need for synthetic or "regenerated" rubber that can be filled, only in this way. In consequence all owners or prospective owners of solid tires, outer tires, or inner tubes, regardless of their condition, must contribute. Bicycles are almost the only things exempted.

Automobile and carriage owners are hardest hit. Vienna, and the larger cities of Austria, still have a more plentiful supply of cars than Germany, but these and the two-horse cabs equipped with pneumatic tires, it is expected, will go.

The person who attempts to circumvent the new regulation may be punished with six months' imprisonment, or fined 15,000 Kronen, if he falls to turn in every bit of rubber tire material he possesses on the day allotted.

The first rubber confiscation was in November of last year, and was more successful than expected. So much rubber was discovered that the military stores were filled, and it was possible to turn back some of the tires to private individuals.

SAVE THE CHILDREN.

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have the medicine at hand to give promptly. Baby's Own Tablets cure these troubles, or if given occasionally to the well child will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the new born babe. They are especially good in summer, because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

LOOKING FOR SHIRKERS

London, Eng., Sept. 8.—Steps are now being taken by the recruiting authorities to examine the floating population of London in lodging houses and elsewhere for the purpose of finding shirkers from army service. Calls are being made at private houses for the same purpose. The shirkers are said to form a small minority, but there are believed to be enough of them in London alone to make up an army corps.

JAP GOVERNMENT

Will Purchase British Exchequer Bonds to the Amount of \$50,000,000.

Tokio, Sept. 8.—(Correspondence of The Associated Press)—The Japanese government has officially announced that with its gold specie reserve on deposit in American banks it will purchase British exchequer yen, or about \$50,000,000. The term is one year and the rate of interest on the amount of 100,000,000 yen is six per cent.

It is understood here that the British government will use the gold in payment for munitions of war purchased in the United States. It is understood that the Japanese specie will be transferred to the British government by degrees as this investment is made. The advantages of this investment are said to be manifold. In the first place, by converting government specie which cannot derive greater profit than 1-2 per cent interest in the United States, into the 6 per cent British exchequer notes, Japan will be able to realize a net gain of 4-2 per cent interest per annum. Secondly, in case the Japanese government is confronted with need of specie in America the British government will purchase the exchequer notes from the Japanese government and furnish the required amount. Thirdly, the Japanese government will lose nothing from the disparity of the proportionate rate between the British currency (pounds) and the American currency (dollars) in paying the price of the British exchequer notes in American specie, which difference is to be borne by the British government according to the agreement.

CHURCH ALLIANCE

For the Promoting of International Friendship.

London, Sept. 8.—(Correspondence of The Associated Press.) The alliance for promoting international friendship through the churches, which had its conception in the minds of some of the members of the Church Peace Union, is making slow but steady progress in the work of setting up its machinery. The countries thus far included in its membership now number nine, viz Great Britain, Italy, France, Switzerland, Holland, Norway, Sweden, Denmark and the United States.

Owing to the extremely delicate nature of the work of organization amid the jealousies and hatreds engendered between some of the Continental nations by the war, none of the officials in the work can be quoted for fear of discounting his effectiveness in passing from one language to another. It may be stated authoritatively, however, that the program of the Alliance as indicated in the resolutions carried unanimously by the delegates at Constance, Germany, meeting August 1 and 2, 1914, on the eve of the war, is being closely adhered to, despite the many obstacles encountered.

These resolutions affirmed that "inasmuch as the work of conciliation and promotion of amity is essentially a Christian task, it is expedient that the churches in all lands should use their influence with the peoples, parliaments, and governments of the world to bring about good and friendly relations between the nations, so that, along the path of peaceful civilization, they may reach that goal which Christianity has taught mankind to aspire after."

HOOD'S PILLS
Cure Biliousness, Headache, etc.
Best for all liver ills, etc.

Leaflets Won and Lost

Toronto, Sept. 8.—While the folks at the ball yard yesterday watched the score board for tidings of the Buffalo-Rochester game, they also took a passing interest in what was transpiring "before their very eyes" as the ballyhoo man at the Exhibition says. What they saw in the "close-up" now we're borrowing from the movie man—was an even division of the afternoon's honors by Montreal and Toronto.

The Royals arrived half an hour behind time, so the second game had to be curtailed to seven innings. Maybe it is just as well, because the longer the Leafs played, the worse they became. The second game was as "dopey" an exhibition on the part of the Islanders as has been perpetrated on the trans-hypanian this season. The first game was a Leaf victory by 7 to 4. The score in the second part of the program was 4 to 1.

GIANT PITCHER IS POISONED

New York, Sept. 8.—"Slim" Salise the Giant pitcher, is confined to his hotel, seriously ill with ptomaine poisoning. He was taken ill two days ago, and was in such a condition yesterday that his physician ordered him to stay at home.

WHY HE DIDN'T SING.

London, Sept. 8.—The following little story of the front trenches is contained in a letter from a British soldier serving in France: "The Saxons used to have a chap with them named Paul, who had a lovely voice and used to sing all the latest songs. He was easily heard in our front trenches, and his songs were enjoyed by our fellows as well as the Germans. One day when things were quiet there was no singing, and one of our men called out to the Germans 'Tell Paul to sing.' Back came the answer, preceded by a string of guttural German curses: 'You chuted Paul yesterday.'"

SCOTTISH ESTATE

Given for Small Farms for War Veterans.

London, Sept. 8.—An estate of 12,000 acres on which soldiers and sailors can settle after the war has been given to Scotland. The donor is the Duke of Sutherland, who owns large tracts of fine land in Northern Scotland. It is the first practical step in the United Kingdom in a movement to provide small farms for veterans of the great war. The estate is situated to the west of the River Naver in the county of Sutherland in the extreme north of Scotland.

In making the announcement the Duke said that there would be absolute conveyance to the state, he reserving to himself and his successors only certain fishing rights on lochs and rivers. A provision is that the land is to be settled by soldiers and sailors who have been on foreign service, have enlisted voluntarily and have good records.

Railway Construction Program.

Petrograd, Sept. 8.—Plans are on for a conference regarding the railway construction program for 1917 to 1922. Representatives of public and private business organizations from all parts of Russia will attend besides representatives of the Imperial government. The question of investment of private capital in railway construction will be taken up as well as of financing both of government and private construction.

Children Cry FOR FLETCHER'S CASTORIA

Face to Face!

Why ask them to leave their work?

With a Private Branch Exchange system in your store or factory you can talk to the responsible heads of your organization at any time as if they were standing in your presence.

There is wise economy in saving the time consumed in responding in person whenever you need to talk with them. Facilities for quick communication between departments are indispensable if needless waste is to be stopped.

Why not speed up your business by cutting down the traffic between departments? Our Contract Department will be glad to give you the benefit of our experience.

The Bell Telephone Co. of Canada.

MACIER

WE want you to see this car at the National Exhibition. It is the marvel of CARDOM—the car in which every feature of power, comfort, utility, practicability, style, has been combined at a moderate price. The MACIER is a car that will appeal to both your judgment and your pocket. It has all the features of the higher-priced car. It has all the virtues of other good cars—and some more. A car that can be depended upon—that gives you all you want in a car—and at a moderate price.

WIND SHIELD—Two-piece rain vision type, strong construction.

PAINTING—Body and wheels, dark green; hood fenders, body skirts and chassis, black.

BOARD OF EDUCATION ROUTINE

The Matter of the Schools Powell Was Matters

One of the principal features last night's meeting of the board of education was the reading of a letter from Sapper J. C. Coles, a former member of that board, now active service with the Royal Engineers. The business transacted largely of a routine nature, matters being introduced by H. H. Powell during the course of the evening.

E. Storer, a returned soldier, was referred to the buildings grounds committee.

W. M. Mitchell and Miss Sen signed their positions on the teaching staff. Both resignations filed.

Miss M. G. Ballachee thanked board for extension of her leave absence and an expression of sympathy in the death of her brother. The secretary of the Brant County Teachers' Association reported receipt of a further sum of \$350 to the Patriotic Fund of this city, making a total of \$475 paid up to the date of the Association.

Owing to late date at which invitation to the board had been received to attend the presentation at the 215th Battalion at Camp, the invitation had reluctantly declined.

The management committee failed to report. The buildings grounds committee reported as follows:

All repairs at the several schools were duly completed during the day season, and your Committee consider that the buildings are in good condition.

The steel flag poles were erected at the Central and King St. schools and form a handsome addition to the grounds of each.

The contract for wiring and laying electrical fixtures at the

BOARD OF EDUCATION HELD ROUTINE BUSINESS SESSION

The Matter of Physical Exercises in the Schools and Collegiate—Mr. Powell Was Active in Several Matters

One of the principal features of last night's meeting of the board of education was the reading of a letter from Sapper J. C. Coles, a former member of that board, now upon active service with the Royal Engineers. The business transacted was largely of a routine nature, several matters being introduced by Mr. H. H. Powell during the course of the evening.

E. Storer, a returned soldier, applied for a position as janitor, and was referred to the buildings and grounds committee. W. M. Mitchell and Miss Senn resigned their positions on the teaching staff. Both resignations were filed.

Miss M. G. Ballachey thanked the board for extension of her leave of absence and an expression of sympathy in the death of her brother. The secretary of the Brant County Teacher's Association reported payment of a further sum of \$350 to the Patriotic Fund of this city, making a total of \$875 paid up to the present by the Association.

Owing to late date at which an invitation to the board had been received to attend the presentation of colors to the 215th battalion at Niagara Camp, the invitation had been reluctantly declined. The management committee submitted no report. The buildings and grounds committee reported as follows:

All repairs at the several schools were duly completed during the holiday season, and your committee consider that the buildings are in good condition. The steel flag poles were erected at the Central and King George schools, and form a handsome addition to the grounds of each. The contract for wiring and supplying electrical fixtures at the Victoria School was awarded to Fred Webster.

At Alexandra School, the matter of fire escape is now in hand, and your committee hope to report its completion at an early date. The Finance Committee reported that after consultation with the Buildings and Grounds Committee, the fire insurance upon the city schools had been increased to the following sums, exclusive of contents in all cases, and representing in all an increase of about \$40,000:

\$50,000	Central
\$15,000	Technical
\$35,000	Alexandra
\$30,000	Victoria
\$25,000	Ryerson
\$25,000	King Edward
\$30,000	Dufferin
\$20,000	King George
\$57,000	Collegiate

The Finance Committee also recommended payment of a large number of accounts. The purchase of drums for the Public School Cadets has been deferred until further tenders were received, only one having been made to the present. It was stated, however, by Inspector Kilmer, that the Board would not wait longer, and school had re-opened once more.

On the motion of Messrs. Coulbeck and Shepperson, it was decided to pay the sum of \$50 to Mr. C. L. Gamble, Quartermaster of the School Cadets, in return for funds paid out by him. The prize of \$10 awarded annually to the public school pupil obtaining the highest standing at the high school entrance examination will this year be awarded to Master Harry Hunt, of Alexandra School, who obtained 82 1-2 per cent.

The three gold medals for the Strathcona Shooting Competition, won by school boys of the city, have been received by Inspector Kilmer. Mr. W. H. Lane urged a more thorough system of organization among the public school cadets, suggesting the establishment of a band, and the holding of an entertainment of some importance to be held shortly at which the medals won in the shooting tournament might well be presented.

Mr. H. H. Powell introduced the subject of a conference to be held in November next, of Boards of Trade, Boards of Education and similar institutions throughout Canada, with a view to discussing economic conditions and trade relations throughout the Empire during the war. On motion of Messrs. Coulbeck and Lane, this matter was referred to the Management Committee.

Mr. Powell advocated plenty of physical training in the public schools and Collegiate Institute of the city, to which Mr. Burt replied, telling of the system in vogue there whereby every class in the latter institution received the same hour of physical drill. There was also a cadet corps, and a number of clubs for athletics of various sorts. An annual field day was held, when competitions in all branches of athletics were held.

Mr. Powell also raised the question of fees, citing an instance where a grand-child of a Brantford man, residing for several months with the latter, had been compelled to pay school fees as a non resident pupil. Mr. Kilmer replied, explaining that this was the ruling, and must be observed. He also stated that daily physical exercises were taken in the public schools of the city; there were also various cadet corps and rifle shooting clubs, while, last year, excellent work had been done by the local Y.M.C.A. in the matter of the encouragement of outdoor games and physical exercises among the local public schools. The Strathcona shield was competed for annually, all pupils entered for this shooting tournament being taken in hand and trained by a fully qualified military instructor.

The Strathcona shield was competed for annually, all pupils entered for this shooting tournament being taken in hand and trained by a fully qualified military instructor.

A representative of a Dictaphone Company waited upon the board during the evening, and at the close of the regular business of the meeting explained the uses of this machine, by means of which duplicate copies of all papers and records needed in school work may be obtained, such as examination papers. A practical demonstration in the use of the dictaphone was also given to the board.

Those present were Messrs. I. S. Armstrong, vice-chairman; W. H. Lane, A. Coulbeck, J. W. Shepperson, H. H. Powell, W. Lahey, Dr. Marquis, Dr. Gamble, Inspector Kilmer, Mr. A. W. Burt and Secretary A. K. Bunnell.

Johnny Evers is out of baseball for the remainder of the season, Manager George T. Stallings has announced. A statement from Stallings said: "Johnny Evers is through with baseball for this year. Neuritis in his left shoulder is bothering him as much as ever. I had a long-distance telephone talk with Mrs. Evers at Troy, N.Y. She said Johnny is still in no condition to play, and that the family doctor says it is useless for Evers to think of getting back into the line-up."

With the British Army in France, Sept. 5, via London, Sept. 7, 4.45 p.m.—The British feel that their uphill work in the latest offensive is over, with the exception of the taking of Clinchy. For over two months now their fight has been one to gain high ground over the broad commanding front. Guilleminot places them in possession of the last of the old second line trenches and from the Somme to Thierval, the Germans now have been blasted out of their old positions.

"This is not the only point in our favor," said a British staff officer. "The Germans chose their ground when they built this line of fortifications which they considered by their own admission to be invulnerable. When the British first smashed through, the Germans said that we were in a sack. So we were in one sense. But we have to make an opening in that solid line of defense as a start in our plans. We knew the hardest work would come after the great main attack, and this is so far accomplished that it is the Germans now who are in a sack."

"If we prefer to end the summer offensive and wait for spring, when we shall have quadrupled the number of guns and so much ammunition that we shall have to keep up a daily battle of our guns on four times the length of the present front with all the shell fire of the biggest day in this summer's offensive in order to consume the supplies arriving daily across the channel, why our present position of artillery and infantry advantage on the Somme front in settled trench warfare means simply that we could kill two Germans to every Briton the Germans kill. This was the first step. What the others are to be only the commanders of the allies' armies know."

The Associated Press Correspondent, who has been a year with the army, in his goings and comings, meets many officers and soldiers. One of the striking things to him is how often some gain which elates the army does not elate either the British or the French public. Again the public enthralls over some front which the army opinion regards as incidental to the day's work.

The British and French successes this week had an extraordinary effect on both armies. The ability of the French to make a second drive over the broad front and the same sector as that of the big offensive of the first of July, brought conviction to the professional sceptics. "Go on or and see the French," said the British officer, "if you want to see an army with its head in the air."

Not even the weather can dampen the high spirits of both armies. The rain has been of the persistent pitchfork, chilly autumn style. Men who came out of the trenches plastered with chalky clay, who had been charging under a weight of sixty pounds of equipment and then lying in miniature ponds made by shell holes or on the wet earth digging and wallowing in the mud, say Guilleminot is taken and that pays for their hardships.

The many new highways which the British build by bringing ponderous road-making machines from England, and the new railways which are part of Sir Douglas Haig's policy, have saved transports from being mired. Supplies have gone up as usual through the storms on schedule time. In the camps, at the rear, the soldiers make themselves little tents with their rubber blankets, under which they cluster for shelter from the down-pour. They manage to keep partly dry, but those in the fighting-line expect to be saturated.

Whether private soldier in his shelter tent or general in his automobile, if you ask them that old question: "When do you think the war will be over?" You get no opinion of any possible conclusion short of next summer. They all take many months of fighting to come no less for granted than that Roumania's entry and the artillery results in the Somme battle, mean that the Entente allies will dictate the terms of peace.

Evers is Out of Rest of Season

Boston, Sept. 8.—Johnny Evers, captain and star second baseman of the Boston Braves, is out of baseball for the remainder of the season, Manager George T. Stallings has announced. A statement from Stallings said: "Johnny Evers is through with baseball for this year. Neuritis in his left shoulder is bothering him as much as ever. I had a long-distance telephone talk with Mrs. Evers at Troy, N.Y. She said Johnny is still in no condition to play, and that the family doctor says it is useless for Evers to think of getting back into the line-up."

TWO PORTS SURRENDER

To the British in German East Africa.

London, Sept. 8.—The ports of Kilwa Kivinje and Kilwa Kisiwari, in German East Africa, respectively, 150 and 175 miles south of Dar-es-Salaam, have surrendered to the British under threat of a bombardment according to an official statement issued last night giving details of the recent surrender of Dar-es-Salaam. The statement says: "At dawn of the 3rd of September a naval attack by British forces in whalers, in conjunction with a heavy bombardment of enemy positions north of the town from the direction of Bagamojo, was followed by landings at Kunduchi and in Mesasani Bay. The enemy evacuated Dar-es-Salaam, which was occupied by combined naval and military forces, the British colors being hoisted with the portions occupied by the German troops, was virtually undamaged."

"On the 7th British naval forces and marines, with landing parties, occupied the ports of Kilwa Kivinje and Kilwa Kisiwari, which surrendered under the threat of a naval bombardment."

UPHILL WORK

But British Have Reached Objective.

The Second Step May Not Be Taken Yet.

By Courier Leonard Wise. With the British Army in France, Sept. 5, via London, Sept. 7, 4.45 p.m.—The British feel that their uphill work in the latest offensive is over, with the exception of the taking of Clinchy. For over two months now their fight has been one to gain high ground over the broad commanding front. Guilleminot places them in possession of the last of the old second line trenches and from the Somme to Thierval, the Germans now have been blasted out of their old positions.

"This is not the only point in our favor," said a British staff officer. "The Germans chose their ground when they built this line of fortifications which they considered by their own admission to be invulnerable. When the British first smashed through, the Germans said that we were in a sack. So we were in one sense. But we have to make an opening in that solid line of defense as a start in our plans. We knew the hardest work would come after the great main attack, and this is so far accomplished that it is the Germans now who are in a sack."

"If we prefer to end the summer offensive and wait for spring, when we shall have quadrupled the number of guns and so much ammunition that we shall have to keep up a daily battle of our guns on four times the length of the present front with all the shell fire of the biggest day in this summer's offensive in order to consume the supplies arriving daily across the channel, why our present position of artillery and infantry advantage on the Somme front in settled trench warfare means simply that we could kill two Germans to every Briton the Germans kill. This was the first step. What the others are to be only the commanders of the allies' armies know."

The Associated Press Correspondent, who has been a year with the army, in his goings and comings, meets many officers and soldiers. One of the striking things to him is how often some gain which elates the army does not elate either the British or the French public. Again the public enthralls over some front which the army opinion regards as incidental to the day's work.

The British and French successes this week had an extraordinary effect on both armies. The ability of the French to make a second drive over the broad front and the same sector as that of the big offensive of the first of July, brought conviction to the professional sceptics. "Go on or and see the French," said the British officer, "if you want to see an army with its head in the air."

Not even the weather can dampen the high spirits of both armies. The rain has been of the persistent pitchfork, chilly autumn style. Men who came out of the trenches plastered with chalky clay, who had been charging under a weight of sixty pounds of equipment and then lying in miniature ponds made by shell holes or on the wet earth digging and wallowing in the mud, say Guilleminot is taken and that pays for their hardships.

The many new highways which the British build by bringing ponderous road-making machines from England, and the new railways which are part of Sir Douglas Haig's policy, have saved transports from being mired. Supplies have gone up as usual through the storms on schedule time. In the camps, at the rear, the soldiers make themselves little tents with their rubber blankets, under which they cluster for shelter from the down-pour. They manage to keep partly dry, but those in the fighting-line expect to be saturated.

Whether private soldier in his shelter tent or general in his automobile, if you ask them that old question: "When do you think the war will be over?" You get no opinion of any possible conclusion short of next summer. They all take many months of fighting to come no less for granted than that Roumania's entry and the artillery results in the Somme battle, mean that the Entente allies will dictate the terms of peace.

Dempster's Fine Furs

In the Dempster Furs, besides the excellence of the furs themselves, there's the perfect line, the true-to-fashion design, the splendid style, the distinction and individuality which are characteristic of all Dempster Furs. It is a fact that these will be "Chosen by preference when seen in comparison."

The new season's styles in Hudson Seal Coats, which we are already showing, are truly worthy of your attention. You are invited to see them.

The time to have your Winter Furs examined and repaired is NOW.

ATTEND SCHOOL
While Intermittent Bombardment Continues. None of the Pupils at Rheims Have, However Been Hurt.
 Rheims, France, Sept. 7.—(Correspondence of The Associated Press)—With a daily average of 1,300 pupils attending school, above and below ground, in Rheims during the last eighteen months, under intermittent bombardment, not a single pupil, though the enemy is not more than 2,000 yards off. To a large extent the classes are held in the cellars and wine-caves of the town, in some instances in caves two stories below the surface of the street. There the air is more humid and there is less light than in the ordinary schoolroom, above. The difference in conditions or the routine. When a bombardment begins some of the children show signs of fear; not always for themselves but for father or mother, whom they think must be in danger. When the bombardment has completely ceased the children are dismissed and sent home. The streets are then safe, excepting the exterior boulevards where the children are warned not to go. Some of the school scenes are tragic, others comic, notwithstanding the tragic surroundings. A class will be at work when suddenly a servant opens the door and calls out that "they are bombarding close by." A second or two later the noise of a shell bursting on a nearby house makes the smaller children tremble and cry. At once the classes are led down into the cellars, some of them carried by soldiers who came in off the street to avoid shell splinters.

Music.
MRS. DOROTHY REVILLE KEENE, Graduate of the Toronto Conservatory of Music and pupil of Mrs. Frank Weisman, is prepared to take a limited number of piano pupils. Address: Mrs. F. C. Keene, A.T.C.M.'s Church Street, Brantford, Phone 235. 65 699.

 W. T. Norrie, W. Almas, Proprietor, Auctioneer.

Music and Drama
 The Brant
 It is a long time since the patrons of the Brant theatre have witnessed there a picture play of such gripping and compelling heart interest as that "Drama of Broadway and the Home Town," presented there yesterday. "Susie Snowflakes" will have the title role most capably portrayed by winsome Anne Pennington, who won immense favor with all in this her first appearance in this city. More than 100 pictures will be readily welcomed here.
 The seventh episode of the serial "The Iron Claw" quite lives up to the high standard set by its predecessors, sustaining the interest of all to the very last. The other motion pictures include a Paramount travel film depicting South American life.
 The vaudeville bill is well catered to by the Three Wheldons, in a comedy acrobat and gymnast act, and Flynn and Howard, in their sketch, "A Little Bit of Irish."

LIGHT HOUSES AFFECTED
 Athens, Sept. 7.—Three of the principal Greek lighthouses, those of Paros, Scopelos and Othonal, will have been extinguished by the Greek government for lack of petroleum to continue them, and the government has notified shippers that no regularity in the working of the remaining lighthouses on the Greek coast can be assured.
FORD SUES CHICAGO PAPER
 FOR SUM OF \$1,000,000.
 Chicago, Sept. 8.—Henry Ford, millionaire automobile manufacturer and pacifist, filed suit in the United States District Court yesterday against The Chicago Tribune, asking \$1,000,000 damages. In his petition Ford alleged that The Tribune libelled him by calling him "an Anarchist."

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.
 THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.
 Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live five miles or his homestead on a farm of at least 80 acres, on certain conditions. Habitable house is required, except where residence is performed in the vicinity.
 In certain districts a homesteader to good standing may pre-empt a quarter-section alongside his homestead. Price \$8.00 per acre.
 Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent on certain conditions.
 A settler who has exhausted his homestead right may pre-empt a homestead in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$200.
 The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.
 W. W. COET, C.M.G., Deputy Minister of the Interior.
 W.B.—Unauthorized publication of the Regulations will not be held as an offence.

BRANT
 FORTY-SIXTH YEAR
ANOTHER ATTEMPT AT REBELLION IN
Told Promine Boers That Rif Were Available
 Cape Town, via London, Sept. 6.—Details of an attempt to foment other rebellion against the British South Africa were disclosed at trial yesterday at Bloemfontein by two Nationalists, Van Der Merwe and Schonen, on a charge of treason. The men are alleged to have approached a number of prominent Boers, including General Wet, to whom they told that stores of rifles were available, that certain Boer Generals were ready to lead a revolt.
 General De Wet, who informed the Government of the movement testified that he warned the men against attempting another uprising. The hearing was adjourned.

RUSSIAN GENERAL
Succeeds in Escaping from Prison Camp.
He Had a Perilous Experience Before Reaching Safety.
 Petrograd, via London, Sept. 7.—General Korovin, formerly commander of the 48th Russian division who was captured by the Austro-Germans in Galicia in May, 1915, has escaped from the prison camp which he was held in Austria. He has arrived at Bucharest, it is announced by the semi-official agency. The Russian general received the capital of Roumania after a month of adventures in his across Hungary, walking by night and hiding by day. Frequently he had to go without food for long periods. In one forest he was halted by Hungarian gendarmes who killed his companions, also an escaped prisoner, General Korniloff, succeeded in escaping and after his for a time, continued his journey the Roumanian frontier. At the time of his capture he was reported to have been seriously wounded.

SATISFACTORY CONCLUSION
 By Courier Leased Wire.
 London, Sept. 9.—2:10 p.m. Satisfactory conclusions were reached at a series of conferences this week between the French and British ministers of war and military secretaries, says a British official statement issued this afternoon regarding the joint military renouveau of France and Great Britain.

Crisis Expected New York
 By Courier Leased Wire.
 New York, Sept. 9.—Both sides of the street railway strike expect a crisis to-day when the traction company is to re-establish service on the surface lines through the use of strike-breakers. The strikers have been notified the renouncing allegiance to the company they may get their jobs back at 1 o'clock this afternoon. After that the company reserves the right to use strike-breakers to fill the place of employees whose desertion has reduced the number of "green" surface cars in operation by 40 per cent.
 New York railways company which operates the surface lines crippled by the strike again drew all its cars last night, but the cars were sent out again this morning the company announced that hereafter a regular 24 hour service would be maintained.
 The striking carmen were engaged to-day by promise of more financial support from the federated union, representing a million trade unionists in New
