## NIAGARA DISTRICT HYDRO RADIAL UNION DECIDES TO ASK FOR A REPORT ON THE N., S. & T. R.

### Representative Meeting Held Yesterday; Question of Taxes Comes Up; Hydro Officials Were Present to Give Any Information.

Municipalities belonging to the Niagara District Hydro Radial Union met at the Hydro to make a report on the cost etc., of taking over the N. S. & T. R., and making it part of the Hydro Radial System as part of the line from Toronto to St. Catharines and Niagara Falls and to Port Erie via Welland and Port Colborne.

At a well attended meeting of the union at the City Hall here yesterday the following resolution was passed asking the Hydro to investigate and bring in such a report. Municipalities will also be asked to pass the following resolution, which was made out for St. Catharines:

"That the Municipal Council of the City of St. Catharines requests the Hydro Electric Power Commission of Ontario to investigate and report on the feasibility of taking over and acquiring on behalf of the municipalities in this district the Niagara, St. Catharines and Toronto Railway Company. The value of the undertaking to the Municipalities to be served together with a statement as to the revenue and cost of operation of same and the said report to be prepared and presented at the earliest possible moment.

That a copy of this resolution be forwarded to the Hydro Electric Power Commission.

### HEAVY CROP OF HAIR SAVES LIFE

SCRANTON, Pa., Feb. 20.—Because of his long hair, Sam Slutter, 55 years old, a carpenter, is alive today. Slutter was at work at the Scheuer Bakery plant on the south side, when the roof of the wagon sled, weighted down with the heavy snow, caved in, one of the rafters striking him on the head and inflicting a bad cut across the scalp. The exceptionally heavy growth of hair, physicians say, was the only thing that prevented a fractured skull. Slutter now says he will never depart from his custom of only having his hair cut on Good Friday, July 4th, Columbus Day and Christmas.

## A Disgrace To Canada

### Wealthy Men Untaxed While Widows Mothers of Soldiers Slain in Flanders Go Short of Cash.

WINNIPEG, Feb. 20.—"Certain clauses in the Pensions Act should be struck out, as they are a disgrace to Canada," said F. W. Law, organizer for the Provincial Command of the Great War Veterans' Association, in an interview yesterday. "Widows and mothers are discriminated against, and the wealthy man who probably has not lost any one at the front, reaps the benefit.

"I refer to the clause which states that the total income of a widowed mother should not exceed \$40 monthly unless it is from her own earnings. This means that if a widowed mother who had a son killed, and who happens to own a cottage, or even a shack, will have the value of the rental for this cottage deducted from her pension of \$40 a month. In other words, if her cottage rents for \$15, she will only receive \$25 pension, or if she has managed to save money for \$200 or \$300 worth of Victory Bonds, the interest on these is deducted from her pension.

"Now then, here is the injustice. A man who has, say, \$500,000 in Victory Bonds, evades the income tax on these bonds, and in addition gets his 5 1-2 per cent. interest on them.

The matter will be discussed at the convention of the Provincial Command of the G. W. V. A. next month Law says.

### WAITS END BY SINGING WEIRD NATIVE SONGS

KITCHENER, Feb. 20.—Stokely Boyce, who will be hanged on February 25 at the County Jail here, is spending the remaining days of his life in Bible reading and sob. Last night the prisoners in the jail were awakened by the weird songs of the condemned man sub in the Bulgarian tongue. There was no objection raised as Boyce possesses a pleasing voice and the prisoners in the jail enjoy listening to him. No confession of his crime has been made beyond the evidence he gave at the trial last November.

Investigation by Provincial officers into a fire which six weeks ago destroyed a pool room, rooming house, restaurant and barber shop on Dundas street, Thorold, resulted in the arrest yesterday of Robert Dayton, proprietor, on three charges, one of wilfully setting fire to the building, and two charges of making false statements that certain articles were destroyed, with intent to defraud the Employees' Liability Assurance Co. He was remanded for a week without bail.

class this lesson is intended to reach is there in the jail and I intend they shall have the lesson."

## MAY BE CANADA'S NEXT PREMIER

SIR THOMAS WHITE. Who has been mentioned as a possible successor to Sir Robert Borden.

### THE WEATHER.

TORONTO, Feb. 20.—The disturbance which was near the Connecticut coast yesterday passed over the Maritime provinces last night as a severe storm causing heavy gales attended by heavy rain and snow. In the west the weather has turned cold with some light snow falls.

FORECASTS—Fair and moderate cold today and on Saturday.

### NEWS BRIEFS

Jimmy Wilde stopped Frankie Rusell at Jersey City last night in seven rounds.

It is estimated that there are 140,000 Japanese in the United States, the majority of them in California.

It is the boast of the dairymen of Holland that in their country there is a cow to every inhabitant.

A bridge in Peru, more than 200 feet long is supported by ropes of Cactus fiber.

The zircon, found in Norway, Ceylon and other parts of the world, has been suggested as a substitute for the diamond.

The Punjab is so called from two Persian words, signifying "five" and "waters," alluding to the five rivers which flow through it.

Iceland, was first termed the "Emerald Isle" in a poem called, "Erin," by Dr. Dreanman, who lived in the latter half of the 11th century.

Runners on skis have made a record of 72 feet a second and in leaping on skis more than 100 feet a second is attained.

Ald. G. M. McDonald, a leading grocer of Marriiston, and prominent in sports, died after a brief illness from pneumonia.

Cruikshank, the noted British artist, once offered \$500 for proof of a violent crime committed by a teetotaler. To the day of his death the money was never claimed.

The United States has offered to Roumania an advance of eight hundred thousand pounds sterling in return for the exploitation of the Roumanian oil fields for sixty years.

Lobsters are very sensitive to cold and light, being accustomed to the comparatively steady temperature and the obscure light of the ocean bottom. Exposure to strong sunlight is soon fatal to them.

The decision of the Cunard line to preserve the names of the Lusitania and other vessels sunk in the war serves to recall the superstition of old-time sailors that it was exceedingly unlucky to name a ship after one that had gone down.

At the beginning of the war airplanes had a maximum speed of 85 to 90 miles an hour, and were capable of climbing to a height of 4,000 feet. At the end the greatest speed was over 130 miles an hour and the greatest height reached was over 25,000 feet.

A Swiss has invented a remarkable sick-room clock. When a button is pressed an electric lamp behind the dial throws the shadow of the hours and hands magnified upon the ceiling so that invalids can see it from bed, without putting themselves to any inconvenience.

## OUTSIDE SPEAKERS COMMEND WORK OF COMMERCE BOARD

### TO RUN FOR OFFICE ON "RED" PLATFORM

CHICAGO, Feb. 20.—Guarded by the police women who brought her here from New York to face charges of "advocating the overthrow of the government by force," Mrs. Rose Pastor Stokes has announced her candidacy for representative in Congress from a New York City district on the "communist" party ticket.

## Meat Cheaper At Yards But Not to Public

CHICAGO, Feb. 20.—Meat prices are tumbling wholesale and, at the stock yards, but the retailers calmly assure the dear public that present prices will continue and may go higher. Hogs dropped \$1 a hundred pounds and there were numerous offerings of hogs at \$13.75 a hundred. Beef cattle selling a week ago at \$16.90, were selling at \$15.75. These prices represent a drop of about \$4 a hundred pounds in the last year, but Mr. Ultimate Consumer is still holding the hot end of the poker.

When announcement was made that Europe was buying no more beef or pork, the public chorled and figured this would throw back immense reserves on local markets and run prices down, but the retail butchers, with great unanimity, desire to know "where you get that stuff!"

Retailers say the demand for cured and smoked beef and pork products in this country is small. It was these products Europe was buying. Now, there is no market for them, the price of chops and loins, the "luxury" cuts, must be advanced to enable the packers and retailers to make up what they will lose by the cutting off of European demand.

Wholesale pork shoulders have jumped from 18c to 23c in the past two weeks, and spare ribs have advanced from 17c to 22c.

Butchers also point out that until two years ago, they were able to sell all the poorer parts of beef and pork to the Polish, Bohemians and Italians. Now these people are demanding the choicest cuts and will accept no other. This results in vast waste and raises the prices on all meats to make up the loss.

### MESSANGER GIVEN LONG PRISON TERM FOR BIG BOND THEFT

NEW YORK, Feb. 20.—Leo Julofsky, the broker's messenger, who calmly remarked when extradited from Los Angeles that he expected a suspended sentence for stealing \$141,000 of securities entrusted to his care, was sentenced yesterday to three years and six months to seven years in state prison.

His brother, Milton, found guilty of receiving the stolen goods from him was sentenced to from a year and six months to three years. Arthur Miller, also convicted of receiving some of the securities, was given a suspended sentence. It was said that he did not profit by receiving the bonds and aided in the recovery of many of them.

### BREACH OF PROMISE SUIT FIRST MAN HAS HEARD OF PROPOSAL TO MARRY GIRL

PITTSBURGH, Feb. 20.—Anna Rogers has entered suit against G. W. Boone for \$25,000 damages because he refuses to carry out his promise of marriage. Boone, on the other hand, in answering the complaint, declares that it is the first time that he knew of a proposal made to Miss Rogers, but that it probably being a "leap year" proposal, he is too gallant to refuse and will marry the young woman on sight.

He further declares that he has asked Miss Rogers to wed since the suit was filed, but that she consistently refuses, yet the alienation suit against Boone has been listed for trial. Miss Rogers refuses to talk about the suit.

### What Has Been Accomplished in London, Chatham and Guelph Reviewed at Get Together Meeting Last Night in Collegiate Institute.

The Community Get-together, held last evening at the Collegiate, in connection with Chamber of Commerce campaign turned out much more successfully than even the directors of the campaign anticipated.

Those who were present received direct information as to what the Chambers of Commerce of London, Chatham and Guelph had done since their reorganization under the plan which is being used here, and the effect was very evident from the frequent applause which greeted the statements made.

Ald. E. C. Graves presided and after a short statement as to the opportunity which St. Catharines has at the present time for development, he introduced the speakers of the evening as follows:

Canon Broughall who spoke of the spiritual growth of a city, M. M. Maxwell, Secretary of the Chamber of Commerce of Chatham who told of the fine work of the Industrial Relations Committee of his organization and how it had developed the real spirit of community co-operation; J. H. Laughton, a director of the London Chamber who described in some detail the conditions which existed in London prior to the organization of the Chamber of Commerce, and the fine feeling which now existed there.

Mr. Laughton's talk was frequently interrupted with applause, as he made point after point which showed community spirit. T. J. Hannigan of Guelph stated that he had come to St. Catharines on business and with no intention of speaking at the meeting, but that he was only too glad to speak his mind and give such statements as would be helpful. He said that the Chamber of Commerce of St. Catharines would be just what the men of the city made it; that Guelph had done things because they had pulled together, and that they were going to continue on the same basis.

Ex-Mayor Burgoyne spoke very briefly endorsing what the speakers had said.

Hugh M. Bell, the Campaign Manager, briefly outlined the plan of the team organization, and called attention to the need for working.

### WILL SHOOT ON SIGHT

Drastic Martial Law Ordered Enforced in Saar Region.

LONDON, Feb. 20.—Martial law has been proclaimed in the Saar region, now occupied by Freyh troops and under control of an Allied commission, in consequence of new disturbances, according to an Amsterdam despatch to the Exchange Telegraph company.

General Wirbel, commanding the French forces, issued instructions to the inhabitants of the region not to show themselves at the windows of their homes, the despatch says, declaring that the troops had been instructed to shoot at sight all those going so.

### IRISH HOME RULE BILL

Andrew Bonar Law Says It Will be Presented Today.

LONDON, Feb. 20.—Andrew Bonar Law, the government spokesman, stated in the House of Commons today that it was hoped to introduce the Irish home rule bill today.

The second reading of the bill would be taken as soon as the house had time to digest the bill.

family have had a lot of a result of the use by the of liquor. Were it not for defendant is a highly resident. However, when arrested and brought into magistrate has no power to the hospital, even though most be made. Editors of should be well enough to know that the magazine, no such power, but the four contemporary made as though the magistrate hearted and cruel. This is was not the case, as I happened. Thanking you, Another Old Friend.

## TO DARKEN YOUR GRAY HAIR

Bring Back Color and Shine with Sage Tea and Sulphur.

you darken your hair with a and Sulphur, no one can cause it's done so naturally. Preparing this mixture, at home is messy and time. At little cost you can find a drug store the ready preparation, improved by the use of other ingredients called Sage and Sulphur Compound. You just dampen a sponge of with it and draw this with your hair, taking one small time. By morning all gray appears, and, after another day or two, your hair is beautifully darkened, glossy and shiny. Faded hair, though no more a sign of old age, and as we see, get busy at once with Sage and Sulphur Compound look years younger.

POLITICS AND CLASSES.

A correspondent who signs himself "One of the Workers" has sent a letter to The Journal, stating that he cannot agree with an editorial in these columns on Wednesday under the caption of "Municipal Experiences." The article drew attention to the mistake attending the projection of any one class as such in a community into municipal government. It contended that the results of political combinations and alliances, formed and fostered ostensibly for the purpose of forcibly securing certain advantages for individual classes, were not in the interests of the highest citizenship and the greatest domestic harmony.

The opinion expressed by the correspondent seems to be that the so-called "workers" of any community are as much entitled to organize parties and enter municipal affairs as are any other groups of men and women, and that the sentiment of The Journal's article was to condone such organizations among all but the working class. To the credit of the subscriber, however, it should be acknowledged that he is anxious to hear more on the subject, and does not want to be biased in his judgment.

In justice to the correspondent and The Journal a further analysis of the question may be permitted.

In the first place it may logically be contended that there are comparatively few in a city of this size who are not workers of one kind or another. There are some, it is true, whose wealth or position is such as to place them in affluence and ease. There are those who are known, as employers, and as such give the major part of their lives to management, direction and financing, an occupation which looks to the mechanic and artisan to be both lucrative and delightful. Behind the scenes the facts may be different. Then again, in the professional class, limited in its numbers, which may be regarded by their neighbors as socially a degree apart from those who are tradesmen and trades workers.

If one wishes to draw sharp lines of demarcation in this way he could go on ad infinitum, for even a city of twenty thousand persons comprises a large variety of vocations and pursuits, but the thinker who would insist upon such lines, is committing an offence. In the older countries of the world, where centuries have settled estates and fortunes, moderate and ponderous, upon a few families, there is to be found a rather bold demarcation between the upper few and the lower many, but in Canada, in the smaller centres at least, ninety of every hundred residents are workers in one department of life or another, just as much as the man is a worker who earns a daily wage by laying brick, pounding an anvil or painting a building. Differences, if there be any, are due generally to the frugality of one man and the shiftless temperament of the other, the high moral principles of the one

and the coarseness of the other, the strowl economy of the one and the wanton waste and expenditure of the other. These elements in human nature play more of a part in locating men and keeping them located than the mere fortune of birth and prosperity. This is amply proven by the numerous examples of men who were born obscure and poor, but who by devious ways and hard toil get on the upper rung, still holding the esteem and confidence of their fellows. The mechanic of today may be the employer of tomorrow. On the other hand memory can recall many who were given opportunities and advantages, but who went down hill rather than up. Surely the whole history of Canadians from our hardy pioneer forefathers till now undeniably establishes that this is a land where social caste and accident of birth are not considerable barriers. It is a land, we claim, which has heard little of class distinctions until those movements began among trades unionists to form close societies for mutual protection and promotion. So long as these unions are for the purpose of bettering the working conditions of humanity, getting wages more in keeping with the part they play in production and improving the social and economic status of the worker their motive and work are perfectly legitimate. The same may be said of any other groupings of persons who follow the same callings in life and whose earning conditions are technically similar.

What the writer of the letter has overlooked, and what indeed most men ignore who organize and belong to certain classes, is that all classes form the community, the province and the state. What may be of vital importance to a plumber in his every day trade and relation with his employer may be of very minor interest to the manufacturer, exporter, teacher or merchant. What may be of immediate concern to either of the latter may have no significance for the plumber, but where public legislation and administration are concerned all of these groupings have a right to be heard and recognized, not by seeking to dominate affairs as one class but as units in a government for all in the interests of all.

It may be said here that old line political parties have held the reins of government in Canada alternately since Confederation, then why not the farmers or the Labor party? The difference is that political parties as we have known them have embraced, in their membership the dark and the white, the Catholic and Protestant, the Jew and the Gentile, the tradesman and the employer, the farmer and the consumer. There was no class distinction recognized, but when a United Farmers' party is formed it politically excludes from its membership all but farmers. Similarly with the Labor party, it radiates a subtle prejudice against all who are not of its ilk, and most of those who are not wage earners are considered scarcely eligible for membership.

A concrete example may be found in the selection of a purely rural and farmer, candidate for the Federal House in a riding where part of the population is urban. The United Farmers' party would seek to gain control as a farmers' organization, regardless of the will or the wishes of people in city or town. On the other hand the Liberal and Conservative parties represent all classes regardless of their daily calling. Each took in every conceivable occupation.

While not maintaining that Liberal and Conservative are the only parties, for the same comprehensiveness may apply to a Nationalist, Unionist or other party, what we do hold is that the unification of any one particular section of a community is wrong in principle. How would it be, for instance, if all the merchants of Canada were to combine and form a political party? If all the employers created another and all the professional men and women, still a third? Each has as much moral right to create a party organization to influence municipal and other political activities as the Farmers or the Laborites. And yet is such a thing were to happen the defects of

the whole caste system would be thrown into bold relief and the strife and contention consequent of it would teach a permanent lesson.

Not only the loftiest ideal but the most practical solution of our present social, economic and industrial problems is to get away from class distinctions and encourage the doctrine of "the greatest good for the greatest number."

THE PROPORTION AND THE FORM.

Assuming that music has a place in public education and that it is the right and privilege of every boy and girl to receive a part of the general training of specific routine in music, there remain yet two important matters to be considered; (First) the proportion of such training, and, (second), the form that it should take. The proportion of music work as compared with the sum total would probably vary considerably with each individual outlining the course—but then that is not peculiar with music.

An enthusiastic mathematician can wax eloquent over equations, while the enthusiastic agriculturalist will sing of corn and hogs in lays befitting a minstrel. The man whose heart is not in his work minimizes the importance of that work; so we have no quarrel with the musician who wants to include more music training in the scheme of things than the general public is willing to accept. Surely if he is not enthusiastic about musical education, nobody else may be expected to be. However, it is only fair to state as a fundamental requirement that the music in a public school education shall serve the same general purpose as any other element in that education.

The high school does not pretend to turn out specialists in English or mathematics or manual training or domestic science. Its business is to furnish an all round basis upon which the higher and specialistic development may gradually be built. In the same way the music teachers in the public schools have no right to aim at nor to expect preparation, even in a slight degree, for professional activity in the young men and women who have completed the high school course. The aim of the music-teaching in the school should be first, an acquaintance with some of the best musical literature and some idea as to its standards. Necessarily the music must be adapted at all points to the mind of the child, so that while the child in the lower grades may feel most at home with simple ditties on a par with "Mother Goose" and the other literature which is dear to the childish heart, the taste gradually forms and matures until the high school boy or girl ought, if properly led to it, be able to appreciate the classic in music as much as in literature. This does not in any sense presuppose nor include intensive technical training. It means acquaintance with the compositions themselves rather than the attempt on the part of the immature child to perform such compositions adequately. You may call it "appreciation," or anything else you please, but this is the first and most important thing that needs to be done along the line of music study in the schools.

THE MARRIAGE BOOM NOW ON IN FRANCE. PARIS, Feb. 19.—France has a marriage boom. Figures for 1920 so far break all records, doubling the number of the first two months of 1914. The civilian population of France has decreased 750,000 in four years.

Double murder and suicide

... but for the Grace of God NOT long ago a shamefully wronged husband started out to do away with his wife and the destroyer of his home

HE was intercepted, reasoned with, pleaded with. After two days and two nights spent in prayer and meditation, through the manifestation of the Holy Spirit he was turned from his intense and terrible passion to a magnificent attitude of forgiveness.

THE instrument through which husband and wife were reconciled—and a ghastly tragedy prevented—was a Salvation Army Officer.

SUCH a change of heart wrought by the spirit is not rare in the world-wide experience of the Salvation Army.

OTHER VIEWS

TRADE UNIONS AND POLITICS

(Toronto Globe.) The attempt of the Communist element in the trade unions of Ontario and Western Canada to divert these organizations from their legitimate purpose of dealing with the economic side of the relations between Capital and Labor to direct political action is of a piece with what is happening across the border in Great Britain. Direct action everywhere is advocated as the only effective means of unhorsing Capital and putting Labor in the saddle.

These "Reds" are impatient of the results obtained by the trade unions. Increase of wages, reduction of hours of labor, the improvement of conditions in the workshop or factory, unemployment insurance, old age pensions—all such measures of practical reform are anathema to the Marxists because they make the workers less discontented and postpone "the emancipation of the proletariat." The Communists ignore the economic conditions that have followed hard upon the setting up of Marxism in Russia. Even if emancipation and starvation and wretchedness indescribable go hand in hand they are all for "emancipation."

The workers of this continent, who have no desire to reproduce the Russian inferno here, begin to understand that Trade Unionism cannot keep company with Red revolution without defilement. There is a growing feeling that separation must come, that the Trade Unions must continue to pursue their policy of economic betterment of the condition of their members in the time honored way, and that the members of the Unions must be left free to make whatever political affiliations appeal to them.

DANCER ENDS ENGAGEMENT TO MARRY TITLED GIRL

PARIS, Feb. 19.—Carl Randall, of Chicago, internationally famous as a dancer, has ended his engagement here to marry an English girl of a wealthy titled family, the Paris Mids stated yesterday.

COOK'S COLIC CURE COMPOUND. A safe, reliable, regulating medicine. Sold in bottles of 10c, 25c, 50c, 75c, 1.00, 1.50, 2.00, 2.50, 3.00, 3.50, 4.00, 4.50, 5.00, 5.50, 6.00, 6.50, 7.00, 7.50, 8.00, 8.50, 9.00, 9.50, 10.00. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT., CANADA.

SUBTLE AND OTHERWISE

Winnipeg has a considerable thirst even under "prohibition." With a population of less than 200,000, the doctors of that city last year issued over half a million prescriptions entitling the holders to 156,71 gallons of liquor. This is pretty high proportion for a city of that size, even if it adds considerably to the incomes of the doctors, remarks an exchange.

Object: Cocktails.

A New York newspaper recently contained an advertisement which stated that "a lady with a bottle of vermouth would like to meet a gentleman with a bottle of gin; object, cocktails." It is a pity that the lady stepped in, because it would be interesting to know whether the parties met.

Who Won the War?

"Monsieur" Tommy is American "Doughboy." "What's the meaning of all them stripes and things on your sleeves?" "Doughboy."—"This is for the length of service in the States, this one for going over, this one for service in France, that one for being wounded."

Father, Dear Father, Come Home.

Recently there appeared in the Muggleton Times the following advertisement: "If John Jones, who deserted his wife and babe some twenty years ago, will return, the said babe will knock the stuffing out of him."—Exchange.

ONTARIO RURAL SCHOOL FAIRS

During the year 1919 the Ontario Department of Agriculture, through its agricultural representatives, distributed seeds and eggs to 78,946 pupils in 3,278 rural schools of the Province. R. S. Duncan, B. S. A., writing in the Agricultural Gazette for January, states that the following quantities were distributed:—1,500 bushels of potatoes, 432 bushels of grain, 12,875 packages of root seeds, 30,700 packages of vegetable seeds and 41,045 dozens of eggs of a bred-to-lay strain of Barred Plymouth Rocks. These figures give some idea of the magnitude of the school fair movement in Ontario.

The first school fair was organized in 1909 with three schools taking part. Ten years later 357 rural school fairs were held in the Province and the pupils had 69,848 home plots and made 111,823 entries. It is estimated that about 250 people saw the first school fair in which 58 pupils took part, while last fall 92,600 children and 107,690 adults attended the school fairs in Ontario. This is truly a wonderful growth.

RUPEE ADVANCING ADDS TO THE COST OF TEA

A cable received yesterday states that the rupee has now advanced in value to 2s. 11½d. Before the war the rupee was worth 1s. 4d. and, as money has to be changed into rupees to buy Ceylon and India products such as tea, this greatly enhanced the cost to purchasers here.

NO CLOTHING TO COVER NAKEDNESS

Destitute Jewish Children of Eastern Europe Suffer Terribly From the Cold.

The destitute Jewish children of Eastern Europe are almost entirely without clothing to protect them from the ravages of the winter weather. It is not a question of their being without shoes, or without underwear, or without any one thing, it is a question of their being without any clothing to cover their nakedness, and to protect them from the cold. There is almost a total lack of linen, cotton or woolen clothing in Eastern Europe, and what there is sold at a prohibitive price. The ragged, poverty-stricken Jews have worn all through the winter the same old, worn-out, and falling apart, coats and trousers that they had almost on the day the food problem today.

The help already given by the Joint Distribution Committee of Jewish Funds, the Red Cross, and the Fish Funds, and American Relief Administration is all that has kept on face alive this long in Eastern Europe. I was an eye-witness to the suffering that comes by millions of people in America they would all be dead now, except a very few. Only America can keep them alive through the winter that comes on in Poland. There is almost no wood in Poland, even for those who have the money to buy it, and thousands of refugees and families whose homes have been destroyed are almost on the streets. Almost none of them has sufficient clothing.

SIX MILLION JEWS HAVE LITTLE FOOD Heart-Rending Stories of Suffering and Death Coming From Eastern Europe.

BLACK TYPHUS IS KILLING THOUSANDS Hundreds Upon Hundreds Children Become Orphan and Wander Until Overcome by Starvation.

The tragedy of the wandering orphans of Poland and the other parts of the mothers of that wretched country to care for the help less ones, is an appealing phase of the big heart-breaking story of affliction that relief workers bring back from abroad. Thousands of youngsters, not less and fatherless through the ages of the "black typhus," trudge wearily from village to village in the desolate country seeking food they can find to keep their starving bodies. Some bands of refugees find the little food and take them in charge. Now then some almost equally poor men give them shelter and give them their small portion of food. And in the course of a day or two, children take up the tramp again and in many small groups. Once while a woman will mother the travellers and aid them until she is overtaken them. Jacob Bashein, who had been charge of a relief unit for the Jewish Relief Committee and the Jewish fund-raising relief organizations, told of these tragic pilgrims. The Canadian Jewish War Relief Committee is appealing for funds to alleviate this terrible suffering.

## Niagara District Hydro-Radials to Ask for a Report

(Continued from page three)

and report will not cost the municipalities anything and need not be acted upon unless they want to. Certainly the local municipalities cannot hope to get the same benefits from a railroad operated as part of a national system as they would be operated by local municipalities as would be the case should the Hydro take over the N. S. and T. R.

Mayor Foley of Thorold spoke of the big business coming out of Thorold. The N. S. and T. R. had not seen fit to do anything to take charge of this increased carrying business from Thorold so if the Hydro shows enterprise in the matter Thorold would welcome it with open arms.

Leslie McMann of Thorold, wished to know if the Hydro doesn't get the N. S. and T. R. will its lines be duplicated through this district. He spoke of the inflated freight rates prevailing. Will these rates be continued or perhaps they may be increased. The freight rates today are simply awful, he said. The future must be considered. He hoped the report would be the freight rates today and what were four years ago.

Reeve W. G. Sutton of Port Dalhousie said his town is anxious to get the report.

Mayor Lovelace and Ald. Rose moved that municipalities served by

the N. S. and T. R. ask a report and survey from the Hydro Commission on the whole situation.

Mayor Hastings of Merriton said it was time the Niagara District towns got busy and woke up to the possibilities of the power passing their doors, to their own benefit. He said Merriton was behind any enterprise looking to this object.

Manager Yates spoke of what Mr. Gaby of the Hydro had told him and Mr. Burgoyne as to the Chippawa-Queenston development. A year from next fall about 125,000 h.p. will be available from it and the following Spring there will be another 125,000 h.p. available. The forebay at Queenston is capable of a million h.p. and as soon as this present development is completed it will be in order to proceed with more development. This will, Mr. Gaby said, serve a population of 8,000,000 people. From two to three million h.p. is expected to be developed on the St. Lawrence.

Mr. Yates replied to the criticism about power passing the doors of the Niagara District municipalities. In the beginning just twelve municipalities all west of Hamilton but Toronto, went sponsor for the millions of cost of developing the Hydro in its first stages. Niagara District came in later. He advised Niagara District coming in this time on the ground floor in the new development.

"Let's get in—first come, first served," advised Mr. Yates.

In reply to Ald. Dixon of Niagara Falls, Mr. Yates said the proposed million h.p. will be developed by ex-

tra water from the Niagara River under treaty with the U. S.

The Chairman said Mr. Gaby said St. Catharines extensions would be made almost immediately.

Secretary Hannigan of the Hydro who had just arrived said now that the war was over, the question is will the Hydro proceed with an enterprise it had got well started with. He pointed out on the map that all municipalities between Toronto to Hamilton, St. Catharines, Welland, Port Colborne and Fort Erie had passed bylaws for the Hydro radials. Further lines were projected.

Outlining the history of the Hydro enterprises Mr. Hannigan declared that in 350 municipalities from Fort William to Ottawa and Niagara Falls to North Bay the Hydro has submitted estimates and carried out the work and not one has exceeded the estimated cost. Today 96 and a half millions in Hydro enterprises are in

the hand of the people of Ontario. Lines have been surveyed for over 2500 miles of hydro radials in Ontario at the request of 300 municipalities. The best systems of electric railways have been investigated with an eye to the best service at the lowest cost, information which no individual municipality could possibly have procured.

The people of Ontario have become convinced that the Hydro has been a boon in the way of cheap lighting, and in power. The coal it has saved in the number of years is a big item in the power situation. Whether the people decide to take over the N. S. and T. R. is for them to say but there should be no hesitation in asking for a report on it, Mr. Hannigan said. If it does not seem a paying investment, the Hydro Commission will not recommend taking over the N. S. and T. The fullest information will be given be-

fore a vote is taken by any municipality.

Ald. Dixon repeated his question about the Hydro radials paying taxes.

Mr. Hannigan said that would be a question to be decided between the Government and the municipalities. The Hydro now pays taxes on land. The Hydro would take over railroads subject to the tax questions being settled later.

Mayor Stephens of Niagara Falls said the tax question was an exceedingly vital one with that city. A present the Hydro is fighting the paying of about \$60,000 taxes a year to the city. If the Hydro succeeds it will be a body blow to the city.

The Chairman said the tax question will be dealt with in the report the Hydro will present.

Mayor Lovelace's resolution was carried, after which the meeting adjourned.

Canada's estimated population is now about 8,500,000.

WOOD'S PHOSPHODINE.

The Great English Preparation. Tones and invigorates the whole nervous system, makes new blood in old veins. Used for Nervous Debility, Mental and Brain Weakness, Dependancy, Loss of Energy, Palpitation of the Heart, Failing Memory. Price 21 per box, 49 for \$5. Sold by all druggists, or mailed in plain wrapper on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

## Canada's National Biscuit

THE soda biscuit is a Canadian institution—it is found on the big majority of Canadian dinner tables.

And of soda biscuits, McCormick's Jersey Cream Sodas are the leaders in Canada.

They have a reputation of sixty-one years' standing. What a test of the value of a food product!

Every one of the hundreds of thousands of Canadians who eat them know that the high quality is consistently maintained.

# McCormick's Jersey Cream Sodas

Sold fresh everywhere. In sealed packages. Factory at LONDON, Canada. Branches at Montreal, Ottawa, Hamilton, Kingston, Winnipeg, Calgary, Port Arthur, St. John, N.B.

## Constipated Children Gladly Take 'California Syrup of Figs'

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."

# Announcing Red Rose Orange Pekoe Tea

During our twenty-five years in business, Canada has made wonderful progress in education, refinement and wealth.

The scale of living and the tastes of the people are more luxurious than a quarter of a century ago.

Realizing this we have decided that—in addition to our well-known standard brands of Red Rose Tea, the sales of which are increasing faster than ever before—the time is opportune to introduce a tea of extra quality. It is an Orange Pekoe Tea of very fine quality under the popular Red Rose brand, and called Red Rose Orange Pekoe Tea—a special tea of extra quality for people who are willing to pay a little extra price.

To ensure the quality and success of this new tea we have concentrated on it all the resources, the experience and the advantages possessed by our big organization.

The Orange Pekoe Teas we use are selected with a knowledge born of long experience in buying teas abroad.

Red Rose Orange Pekoes are grown on the best plantations; —from tested seed; —on carefully cultivated soil; —at a high elevation (mountain

grown teas are very superior to low-land teas.)

They are gathered at the time of the year when the flavor is most fully developed in the leaves.

The manufacture and final preparation are carefully and skillfully done.

When brewed, Red Rose Orange Pekoe Tea has all the characteristics of fine quality tea.

It has a bright, sparkling amber color in the cup.

The aroma is delicate and delightful.

After the liquid is poured off, the leaves in the pot are a greenish copper color.

The flavor is of rare charm and distinction. The more cultivated your taste the more you will appreciate it.

The strength is rich, satisfying and invigorating.

Red Rose Orange Pekoe Tea is sold only in our sealed waxed board cartons which fully protect its fine quality.

Ask for it by the full name: Red Rose Orange Pekoe Tea. The words "Orange Pekoe" are in orange on our new waxed board cartons.

Our well-known Red Rose package, the sale of which is increasing faster than ever before. Red Rose consists chiefly of Assam teas, the richest and strongest in the world and therefore very economical. (The Red Rose Orange Pekoe package is a little different in design.)

Mountain grown Orange Pekoes from the best plantations. A tea of extra quality at a little extra price.

T. H. ESTABROOKS COMPANY, LIMITED  
St. John, Montreal, Toronto, Winnipeg, Calgary, Edmonton, St. John's, Nfld., and Portland, Maine.

To Grocers:—Our travellers are on the road taking orders for the NEW tea. If our traveller hasn't reached you, better phone or mail an order immediately to our nearest office. There is sure to be a considerable demand at once for this fine quality tea.

## Chamber of Commerce Activities

"Building a Chamber of Commerce  
for St. Catharines of 400 or more  
members without at the same time  
providing an income adequate to the  
needs of the enlarged organization,  
would be largely a waste of effort,"  
according to one of the supporters  
of the campaign, who told a St. Catharines  
representative today how the  
new chamber will be financed.

He said that the income of the  
chamber will depend directly upon  
the confidence reposed in it by the  
community, because that income will  
arise from membership. "The pay-  
ment of dues in the acid test by which  
it can be determined whether the  
organization is trusted or not," he  
said.

"The income plan under which the  
chamber is being expanded is a  
uniform pledge of \$25 dues a year  
for three years. The reasons for  
adopting this scale and the period  
named are entirely sound. They are  
founded on actual experience, not in  
one city, but in scores of them.

"Membership dues of \$25 a year  
will provide the least amount the  
chamber should have to insure effi-  
ciency; to be the really big, capable  
civic-commercial organization a city  
like St. Catharines should have, and,  
I am convinced will have.

"Some men will ask: 'What are you  
going to do with all this money?'"  
He will overlook the fact that the  
Board of Directors, which includes  
some of the shrewdest business and  
professional men in St. Catharines,  
have examined the plan for the or-  
ganization with as much care as  
they would give to their own busi-  
ness affairs, and have agreed that  
\$25 a year is the least sum required  
from each member.

"Eighty-five per cent. of the com-  
mercial organizations of the country  
have membership dues of \$25 a  
year. The number of such organiza-  
tions is steadily growing, this prov-  
ing that more and more of them are  
finding the truth of what the Cham-  
ber of Commerce specialists learned  
six years ago. The Rotary Clubs of  
the continent started with member-  
ship dues of \$5. Today most of them  
have raised their dues and they are  
all tending toward \$25.

"The lowest actual cost of main-  
taining a Chamber of Commerce that  
is worthy of the name is from \$15  
to \$19 a year per member. This  
fact has been well established. This  
minute a Chamber of Commerce be-

comes a real live organization, its  
necessary expenditures begin to climb  
from those figures.

"The modern Chamber of Com-  
merce must maintain suitable quar-  
ters; that means rent to pay. It  
must have efficient management; this  
means the employment of a trained  
and capable secretary. In such a  
city as St. Catharines the Chamber  
of Commerce should have one or  
more bureaus to give special ser-  
vice to the members and the citi-  
zens; this involves the employment  
of men of ability. It must have an  
office system; this means clerical and  
stenographic assistance. There are  
other items of expense, every one of  
them legitimate and necessary, which  
amount to a considerable sum each  
year.

"Uniformity of dues needs no argu-  
ment." The days when the small  
storekeeper was admitted to the  
Chamber of Commerce for \$2 or \$5  
a year, and the big corporation asked  
to subscribe \$200 are past.

"The relations of the small store-  
keeper and the big corporation have  
been accurately defined in the mod-  
ern civic-commercial organization.  
Each becomes a member with equal  
obligations and equal rights.

"In place of the disproportionate  
membership payments of the old  
days, the modern Chamber of Com-  
merce says to the big corporations,  
in effect: 'Your larger interests in  
this community increase your re-  
sponsibilities for its well being. You  
have more at stake than the small  
storekeeper, and therefore you should  
support the Chamber of Commerce  
in proportion to your investment in  
this community.'

"To make this possible, the plural  
membership plan has been devised.  
Under this plan the corporation, firm  
or individual subscribes to a number  
of memberships. Since, however, the  
chamber cannot permit the plural  
subscribers to dominate its affairs,  
it allows each subscriber to have one  
vote only, the same as the smallest  
storekeeper in the organization.

"It is the custom for the subscrib-  
er to plural memberships to assign  
them to the younger men in its em-  
ploy, the assignments being absolute  
and carrying with them the power  
of one vote each. This brings into  
the Chamber of Commerce the young-  
er men of business. It interests them  
in community work early in their  
careers and makes certain of the  
presence of men who will be the  
leaders in the community in a few  
years.

"The three year guarantee is an-  
other outgrowth of experience. A  
Chamber of Commerce can do much  
in one year, but a program of work  
that covers three years is vastly bet-  
ter than a one-year affair. To make  
it possible, though, the directors  
must know what the income is going  
to be. The one-year plan is univer-  
sally unsatisfactory; the three-year  
plan has never yet been abandoned  
where tried."

## BUY CLOVER SEED EARLY

Prime red clover seed was quoted  
at \$35.55 per bushel on the Toledo  
market of the 6th instant. Toronto  
prices then ranged about \$3.00 per  
bushel in advance of Toledo prices.  
Clover seed that would grade "prime"  
on the Toledo market could be bought  
in Toronto at \$38.50 and, because of  
exchange conditions, delivered to  
United States points at approximat-  
ely \$33.00 per bushel, or about \$2.50  
less than the Toledo price. The money  
situation, short supplies and a livelier  
demand in the United States will  
explain the heavy exports of clover  
seed.

The price of red clover seed has  
advanced almost \$14 per bushel on  
the Toledo market since May last.  
The world supply will not be suffi-  
cient to meet normal requirements. In  
these circumstances, Canadian farm-  
ers who delay the purchase of their  
clover seed requirements until seeding  
time may be unable to obtain sup-  
plies at any price.

**DR. DEVAN'S FEMALE PILLS** monthly  
medicin for all Female Complaints. \$5 a box,  
or three for \$10, at drug stores. Mailed to any  
address on receipt of price.

## DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well, that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

## NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE. There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

## RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS. Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

**Two-Party Line Telephone Service**

**N** ECESSARY curtailment of new construction during the war, followed by the unprecedented development since the armistice, have resulted in a universal shortage of telephone material.

In order to utilize our supply of equipment to the best advantage, to reduce delay in installations to a minimum and to avoid refusing service to anyone, we ask those intending to order telephones to consider the advantages of Two-Party Line Service

With the central energy system in use here the operator can ring either of the telephones on a two-party line without disturbing the other. The cost to the user is substantially lower than for individual line service.

The rate for two-party line service is, for Business telephones \$30.80 and for Residence \$22.00 per annum.

We will be glad to furnish full information to anyone interested.

Tomorrow a large number of men of the 19th battalion, some from this city and district will attend the reunion of the battalion at Hamilton.

The great racing play "Checkers," is drawing large and well pleased audiences to the Griffin Opera House this week. It is well worth seeing.

Mary Pickford in her new picture "Pollyanna," is having a big run at the Grand Opera House this week and it is a production all will want to see.

The death occurred this morning at the Sanitarium of Mrs. Emma Ann Morgan, wife of William Morgan of McNab, aged 37. The funeral will take place Sunday.

In Switzerland are made cloaks that do not require hands and faces. The timepiece merely stands in the hall and he presses a button, which by means of the phonographic internal arrangements calls out the time.

The funeral of Mary Marie Flynn took place yesterday afternoon from her late home to St. Catharines R.C. Church, where Rev. Father Morgan conducted requiem high mass. The bearers were Hubert Tracey, Frank Griffiths, Hubert Sheahan, James O'Brien, John Patterson and Samuel Brennan.

All that was mortal of late Ronald Pierson was tenderly laid to rest in Victoria Lawn cemetery yesterday afternoon. Rev. William Pinches of Niagara Falls assisted by Rev. Dr. George Clark officiated at the house and graveside. The children of Alexandra School, of which the deceased was a pupil, attended in a body. The bearers were Howard and Harry Wilson of Niagara Falls, Roy Pierson of Gainsville; Edward Chase, Win. Robertson and William Walker of this city. The numerous floral tributes from friends testified to the sympathy of friends.

**THE HIGH WAGES AND HIGH PRICES**

(Clint C. Houston, in Labor, Washington, D.C.)

Senator Calder of New York called at the Department of Labor on official business the other day. Exercising a senatorial prerogative, he took occasion to assert that high wages are responsible for the high cost of living. "Here's an illustration," said the senator, who voted for the anti-strike clause in the Cummins railroad bill, "Yesterday I paid \$12 for the pair of shoes on my feet, and before the war they retailed for \$6.00. High wages are the cause." Ethelbert Stewart, one of the expert investigators and statisticians of the department, was present, and heard the senator's grief against labor. "Suppose we get the facts on the high cost of shoes," suggested Stewart. "This department has just completed statistics on wages and costs of production in six of the largest shoe manufacturing plants in the United States. Before the war the average cost of labor in a pair of shoes was about 37 cents. Since 1914 the wages of shoeworkers have been increased 65 per cent, and the average labor cost in a pair of shoes today is 68 cents. It requires about three square feet to make a pair of shoes for a man. This leather costs the factory on an average of 87 cents a foot, or \$2.61 for a pair of shoes. Add to this the 68 cents paid the shoemaker and you have a total labor and material cost of \$3.29. The difference between this sum and the \$12.00 you paid was added after the shoes left the workman's hands. With this showing of facts it is hardly fair to charge high wages with being responsible for the exorbitant cost of shoes." The senator said the information was both interesting and important, and that he would in the future be more careful in holding labor to account for the high cost of living.

**SIX MILLION JEWS NEAR STARVATION**

**Cold and Disease Add to Sufferings of Destitute Peasants of Poland.**

Eastern Europe is the only part of the world to-day that really understands the meaning of conservation, in the grim sense of the word, according to reports brought back to the American Jewish Relief Committee by relief workers recently returned from these stricken lands.

Not a particle is wasted of any of the relief supplies sent from America by the Joint Distribution Committee of American Funds for Jewish War Sufferers or by other organizations.

Garbage cans and dump heaps are nationally unknown quantities in a region where 6,000,000 Jews—men, women, and children—are at the point of starvation. Typical of the extreme thoroughness with which these people utilize everything to-day was the use recently made of a shipment of flour, sent to eastern Europe by American Jewish relief agencies.

The flour itself was used to feed destitute Jews at the soup kitchens. White bread is a luxury in these lands to-day; the taste of it forgotten by the poor, and none of the flour sent from America is made into bread as yet. It goes farther stirred into the soup issued at the Jewish relief stations.

In order to make sure that not one atom of the flour was going to waste, the seams were ripped from the sacks, which were then shaken over the soup receptacles. The next thing to be done was to use the sacks themselves. There is practically no cotton or linen in eastern Europe to-day, and every scrap of cloth is put to use.

In this particular case, the sacks were needed both as shrouds for the dead, and as cloths in the operating rooms of the hospital. A part of them was devoted to such purposes. Both shrouds and bandages in eastern Europe to-day have to be made by sewing hundreds of tiny bits of used cloth together, so these flour sacks proved most valuable.

The thread which had stitched the bags together was carefully saved, also, and used to patch together the rags that form almost the only clothing of the destitute Jewish children in these lands, and to sew together the scraps of cloth that they wear around their feet, in lieu of shoes.

In order to help these sufferers, Canadian Jewish Relief Committee is making an appeal for funds.

**MOTHERS WATCH CHILDREN STARVE**

**Lack of Clothing Adds to Suffering Among Jewish Residents of Poland.**

The patient resignation with which a mother in Poland accepts what the fates have in store for her children who frequently die of starvation before her eyes, is one of the things that leaves a lasting impression on relief workers there.

Jacob Basha, who has just returned from abroad, when he had charge of a relief unit for the Joint Distribution Committee, which disbursed funds raised by the American Jewish Relief Committee and other bodies, said that food is distributed to the children in Lodz on a ration basis, and that where the small folks were unable to appear in person because of lack of clothing or illness from the "starvation sickness," the allotment was given to the mother. On one occasion a little woman with a terrible suffering appeal for funds for four nations. The following day she appeared again and asked for only two.

"Two," repeated the distributing agent. "Why you received four yesterday?" "Yes, but to-day I need only two, because," and the worker may have only imagined that he caught a note of relief in the utter hopelessness of the curiously quiet answer, "two of my little ones died during the night."

For the purpose of relieving this terrible suffering appeal for funds is being made by the Canadian Jewish War Relief Committee, of which full details will be given later.

**JEWS STARVING IN JERUSALEM**

**Terrible Destitution Caused by Lack of Employment and Shortage of Food.**

The street cleaners of Jerusalem form a picturesque but pathetic testimony to the terrible destitution of the Jews of that ancient city, according to the latest reports received by the Canadian Jewish War Relief Committee from relief workers abroad.

The problem of employment is so great in Jerusalem that it is almost impossible to find work in the natural way. For this reason, the Joint Distribution Committee of Funds for Jewish Sufferers from the War hired fifty of the most poverty-stricken Jews who applied to them for aid, to clean the streets in the Jewish quarter. The youngest of these street cleaners is fourteen years old. Seven of the street cleaners are between seventy and eighty years old, and eighteen more are between sixty and seventy years old. None of them have adequate clothing or food.

Among uncivilized peoples the custom of shaking hands is unknown, and it always affords them a great deal of amusement to see white men engage in the practice.

**TO THE EDITOR**

**HAS HIS OWN OPINIONS.**

Editor The Journal:—Your article in Wednesday's Journal on municipal experiences may have been well written, and I guess it was, but I don't agree with it. Why the workers of this city or any other city should not organize and enter politics here or anywhere else is more than I can understand. It looks to me as though every other class of people—can organize and get into the game, but as soon as the laboring class do it there is something wrong, I would like to read a little more from you on the subject. Perhaps you can change my mind, and perhaps you can't, but I don't mind reading both sides of a question, particularly when it is handled without bias. Yours,

One of the Workers.

In all the Catholic churches a circular has been read by direction of His Grace Archbishop Neil McNeil, setting forth the duties of Catholics during the Lenten season. Special attention is directed against dancing, theatres and moving picture shows. The faithful are urged to attend church, and observe the fasts.

The season opened on Ash Wednesday, when at all the masses ashes were blessed and distributed.

The regulations are:

1. All work days of Lent are fasting days.
2. The law of fasting binds those who have completed the twenty-first year of age until the beginning of the sixtieth year.
3. Fasting means restriction to one full meal a day, with two refectations in past years.
4. The law of abstinence from meat

**SALTS FINE FOR ACHING KIDNEYS**

**We Eat Too Much Meat Which Clogs Kidneys, Then the Back Hurts.**

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

and from soup made of meat, which all over seven years of age.

In Lent the days of abstinence are all Wednesdays and Fridays, the Saturday of the second week, and Holy Saturday till noon. Eggs, milk, cheese, butter and seasonings made of animal fat are allowed on days of abstinence.

6. On Holy Saturday the obligations of fast and abstinence cease as

not extend to the sick, the infirm, women nursing or bearing children, or those engaged in exhausting work, such as regular manual labor, teaching school, etc.

8. In cases of individuals or individual families, pastors can dispense from fast or abstinence, or both, for good reasons.

9. The period of Easter Communion is from the fourth Sunday in Lent to Trinity Sunday.

10. Besides the binding regulations there are pious observances proper to Lent, especially the following:

- (a) Avoiding all public amusements, such as theatres, moving picture shows, dancing, etc.
- (b) Assisting at Lenten devotions in the parish churches, such as the Way of the Cross on Fridays;
- (c) Family prayers. The members of the family assemble at a convenient hour to say together five minutes of the Rosary, on days when they have not taken part in this devotion in church.

**Thick, Tender Savory Meats**

or chops—the kind, you know, that make your guests praise your hospitality, your cooking, your entertainment. Why not this kind of meat instead of the doubtful cuts and inferior meats? We want you to know our meats. A sirloin or porterhouse steak, a roast, chops from the loin, etc., will enable you to judge quality.

**BOARD OF EDUCATION HAS ANOTHER WITH BUS**

Will Send Deputation Representatives to the Collegiate and Money Needs.

The Board of Education had another drive at the business in hand last night and finished up what was over from the two previous sessions.

City Clerk Pay, secretary of the Board of Health, wrote the Board of Education with reference to the case of Alma McDonald, the Collegiate pupil who contracted smallpox some time after she, it is claimed by relatives, had been asked by the Collegiate science master to hold the book for another pupil, Vera Coons, who was ill with smallpox, while he furnished the book.

Principal Coombs wrote: Concerning the complaint made by Wm. E. Emmet regarding the matter in which the books of Vera Coons were fumigated I wish to make the following statement:

On the afternoon when Mr. Coons' house was placarded for smallpox, Mr. Bonham called at the Collegiate Institute and notified us and that her books and desk should be fumigated. I asked Mr. Jackson, science master, if he had any fumigating in the laboratory and told me what I wanted it for. It was intended to sprinkle the books over in the evening when the caretaker was at leisure to do so. Mr. Bonham wished them to be fumigated into the class room about 10 while half a dozen girls were still there and took the books from the desk and without anyone else touching them he sprinkled them on both sides and on the edges and also sprayed the desk. He then opened the books and proceeded to spray the pages by allowing them to slip over quickly between his thumb and finger and using the spray (a very small one) with one hand. One of the girls who was standing by (it has since been learned that Alma McDonald was the one, although no particular girl was asked to do it) was entirely voluntary and solicited assistance (she gave) of me to run over the leaves so as to see Mr. Jackson the use of both hands for the spray. The draught from the spray was not directed towards the girl. The books had been in the desk for a week before the case had been diagnosed as smallpox although Vera Coons had left school about a week before. As the first case reported from the school and as a week had elapsed of us were fully aroused regarding an impending epidemic. A fumigation took place on Novem-

ber 11, 1919.

CHICAGO, Feb. 21.—No unnamed girl, Municipal Judge John J. Cass said today, has a right to present, such as jewelry and wearing apparel, from a man under intentions are serious and in contemplation of matrimony.

Helen Klein refused to marry Joseph Pepekis, who works for the Metropolitan Iron Company in West Park. So she was forced to return his diamond ring, for which he had paid \$46: a fur coat, \$75; a muff, \$25, and a hat, \$16.

"Must I give them all to the pulpit?" Helen appealed, as she pulled her spring bonnet more firmly over her head.
