THE BYE ELECTIONS.

The result of the bye elections so far have not been unfavorable to the government. They lost Richelieu and have gained Solongues and Lennox from the liberals, thus standing one seat better than at the close of the recent session.

One seat in our province, that of Queens county, has been handed over bodily to the government party. Mr. King, whose election misfortunes in the past have been such as to evoke the sympathy of every person who believes in fair play, is still in ill luck.

BETWEEN HERE AND THE JUNCTION

Many complaints are being made regarding the train service between Fredericton and Fredericton Junction. This service is one of the most important to and from Fredericton; it makes the Boston and Montreal connections, and carries a class of passengers which ought, in any discrimination, to be first considered.

LAWYERS ADMISSION FEES.

At the meeting of the barristers the other evening a committee was appointed to consider and report upon the subject of the fees now payable on the admission of students at law, attorneys and barristers, with a view to the increase of the fee.

NASHWAUK.

NASHWAUK, Feb. 3.—Mr. Chas. Young came home from the coast today unable to work. He slipped on the ice and injured his right arm. This arm was still weak from the effects of the compound fracture sustained almost a year ago.

SCOTCH LAKE.

SCOTCH LAKE, Feb. 1st.—Charles Hawkins, of Kentwick, when putting his horse in Moses Fleming's barn, the horse fell and hurt itself so, that it died a few days afterwards. He was insured for \$100.

FROM THE FAR WEST.

Interesting Letter from Chas. E. Loggia.

Going down town today I noticed roses in bloom in a garden, climbing roses covering a window. Last week I was out in the country and picked a bunch of chrysanthemums out of doors. A day or two ago riding down on an electric car I composed the conductor on his huge bouquet of geraniums and other flowers.

Coming home I stopped over night at Fairhaven, a three-year-old town—7,000 people—electric cars and lights—and in the morning went back on the hill to the minister of customs promised to spend in building a second canal in Solongues, and which more than sufficed to carry the county for the government, is actually expended, we will be paying a high price for the liberal reverse in Solongues.

On the whole what you call in New Brunswick reasonable December weather is pleasant than what we have here when it rains; but when it is fine here there is nothing better to be desired. The weather is "catchy." To use a piece of coast slang "you can't bank on it" half an hour ahead in the winter, except when the wind is from the north and then it is delightful; but the wind does not seem to like hills and pay them out always before time.

LET ME GIVE YOU A LIST OF PRICES OF SOME ARTICLES.

PRINCE WILLIAM.

PRINCE WILLIAM, Feb. 4.—George Graham lost a valuable horse last Saturday, it dropped dead as he was returning from having a load of logs at the river. He had purchased another from W. Vanwart. William Boddy and David Burden have traded horses. David will have time to talk to his girl when he drives her home now.

PENNAC.

PENNAC, Feb. 3.—A large number of the members of Star council paid a fraternal visit to Banner council last Saturday evening, and on Monday evening a lady from the latter returned the visit when a special entertainment was enjoyed.

QUEENSBURY.

QUEENSBURY, Feb. 3.—On account of the mildness of the winter, the ice at Bear Island and Hog Island is conspicuously absent, and those farmers owning lots have difficulty in getting to them. Thomas Jones is the owner of Hog Island. At this point the river is entirely open and on this island are two large farms filled with hay that soon will be wanted on the mainland for stock. We understand it is his intention to press the hay, and bring it ashore in a scow.

STANLEY.

STANLEY, Feb. 3.—The average depth of snow on the Nashwaak now, is two feet.

The following is a list of parties hauling logs for Alexander Gibson this winter, and the number of teams employed by each: John and James McBean & Co. have eleven pair of horses hauling into the lower Nashwaak lake; Angus Urquhart has eight pair hauling in below the lake; John Angus McBean has eight pair hauling in opposite Napsadogan; John Deinyer has ten pair hauling in at Grand John brook; Frank Densmore has eight pair hauling in at Grand John; John B. Young has seven pair hauling in at Grand John; Thomas Nowlin has two pair hauling in at Grand John; Jeremiah Bell has six pair hauling in at Grand John; Alexander Fraser has ten pair hauling into the South Tay stream; David Evans has four pair hauling into the South Tay; Albert Strickles has three pair hauling into the South Tay; Young Bros. on Arnold brook has twelve pair hauling in; Josiah McComb has seven pair hauling into Arnold brook; Cameron Bros. has three pair hauling into Arnold brook; George Pray has two pair hauling into Arnold brook; James Hamble has six parties in the woods on McLean and Ryan brooks with twenty-two pair horses. His contract is for three million feet of lumber.

Your correspondent has been informed that Alexander Gibson's lumber operations on the Nashwaak and all the tributaries this winter, will be eighteen million feet of spruce and four million feet of cedar. This does not include his cut on the C. E. R. and Miramichi. No school in the village of Stanley this winter term. Eighty-two children have to remain at home for want of teachers. The stockholders of the cheese company had a meeting on Saturday night and no word of going to build the cheese factory in the spring.

On the southwest of the Miramichi there are three feet of snow in the woods. Welsh and Lynch Bros. and William Richards are all doing good business in the woods and putting lumber in fast now. Simon Bros. new steam mill on Cross Creek is running full blast. They employ ten men. This winter there has been a very fine one, and not much sickness. The men in the woods have been healthy as a rule.

DOAKTOWN.

DOAKTOWN, Feb. 3rd.—There is quite stirring times about Doaktown now. S. Freese is cutting quite a large amount of pine lumber for sash and doors and shipping it to Fredericton, to Risteen's factory. Quite a large amount of bark is being hauled into Doaktown station. A question of building a Baptist parsonage is in agitation now. The ladies of the Baptist church have organized a sewing circle for the purpose of raising money for the object. Rev. Jas. A. Porter, (Baptist), preached at Upper Blackville on Sunday morning the 31st ult., at the Morchouse settlement at 3 p. m., and at Lower Blackville in S. Farley's hall, in the evening. There was a large congregation and the best of attention. Two double teams drove down from Upper Blackville loaded with young people and attended the meeting. Mrs. Jas. A. Porter returned to-day from a short visit to Lower Blackville. Deacon Burke Archibald who has been ill for some time, is quite smart and is able to be out again. Rev. Jas. A. Porter's eldest daughter was quite with sore throat a few days but is getting better. David Mott of Queens county, (collecting agent), came off the train this afternoon with his horse and sleigh and drove to New Salem to his son-in-law, David Nason's.

BLOOMFIELD RIDGE.

BLOOMFIELD RIDGE, Feb. 4.—George Spencer met with an accident yesterday. He was in the act of loading two sleds from a yard and had about completed the load when one of the top logs came off and fell upon him breaking his collar bones and five ribs. Dr. Weir who is tending him, has little hopes of his recovery. Spencer was in the employ of Jas. S. Fairley on the Dunbarton. Miss Maggie Hayes, of Hayesville, fell and broke her arm and also put the same arm in with an accident yesterday. The injuries were painful at first, but she is mending rapidly under the skillful treatment of Dr. Weir. J. S. Fairley is breaking in a new driver which seems to be very contrary. If J. S. would put the horse in the shafts head first he might get on better, as the horse appears to like going backwards the best.

JOHNSTOWN'S GREAT SENSATION.

JOHNSTOWN, Penn., Feb. 3.—Nothing since the awful flood in the spring of 1889 has caused so much alarm as a series of mysterious murders that have been committed here recently within a radius of thirteen miles. Apparently all the five murders were done by one hand, but so far detectives have been unable to discover its owner. December 4th the body of a well dressed man was found in the woods near Galitzin, with a bullet hole in his head. The remains were those of a prosperous looking man. The theory of suicide, which at first prevailed, was dispelled by the position in which the body was found. No clue could be obtained as to his identity, and he was buried. A week later the body of another man was found about 12 miles away, with a hole through his head. At this time it was learned that George Myers, a prosperous citizen of Frigality, had disappeared, and the body was identified as his. Myers had \$800 on his person when he left home and he had been murdered for his money. Less than a week ago that decomposed body of another man was found in the woods near Bethel. The clothes were of good quality and nothing could be discovered to establish his identity. The horrible murder of old man Krug and wife, and the cremation of the bodies a few nights ago, is attributed to the same mysterious murderer, who is evidently hiding in the mountains ready to pounce upon any victim he supposes has money.

MILLVILLE.

MILLVILLE, Jan. 28.—Mrs. S. H. Clark has so far convalesced as to be able to pay her parents' visit.

Edward Clute, who was so badly injured in the woods a short time ago, still shows no symptoms of improvement. His wife lies quite ill from effects of anxiety and watching. Miss A. F. Bligh is daily improving from the effects of her accident. Trade is looking up and fast recovering from the stagnation that usually follows the holiday season. All are forecasting a boom in the summer. The school was opened on the 19th. R. W. Parker, teacher. The attendance this term is quite large. The people are a great people, and often put forth puzzling questions. One from here is now sending the brain of one of the weavers of the "army," and from the "length" of time taken in deciding, his honor must be puzzled; and we are living in hopes of a decision "some time."

There is heard a very faint tingling of the wedding bells. It is hoped that the music will increase until it bursts forth in one grand peal of thumping at the great consummation. Query: Who is going to be the best man? Miss J. M. Wells arrived a few days since and has opened private classes for the training of some of our young ladies for entrance to that great "mart of matrimony," "the Training school." Dr. Owens left on Monday on an extended tour through Carlton county and the outlying portions of "Tack-Saw's" most eastern territory. We trust he will be successful and enjoy his holiday which has been fairly earned. Dr. Morehouse is in attendance upon his patients from well to patronizing him. Large quantities of wood, bark and lumber are now coming in for shipment via the C. P. railway. Most of our notables have taken up their abode in the fragrant woods for a season. Dr. Owens takes possession of his new residence, on Brook street, the first of February. J. L. Hawkins appears to be doing a rushing business in sleighs, sleds, blacksmith work, etc. He has just turned out an unique specimen of water tank for J. F. Richardson, to be used in rejuvenating his lumber roads, and claims it will work to perfection. He is prepared to fill all orders sent him. Dr. Campbell, the travelling dentist, is in town at present. Those who should know pronounce him perfect at his trade. We are always glad to see him and receive the friendly grip.

BROOKWAY.

BROOKWAY, Feb. 4th.—There is not quite enough snow in the woods to make good hauling, but despite all, lumbering operations are still being pushed forward. Quite a number of teampasses through here last week on their way to Vancouver. They were in good luck, and the prospect for good prices in the spring is not at the present time very bright. The Chilian difficulty is by no means fully settled. The United States minister Egan's residence at Valparaiso is in danger of being mobbed, which fact the dispatch states, threatens to bring about the re-opening of the difficulty with the United States. Antonio Lalla, a member of the New Orleans Mafia, made a desperate attempt on the life of Mrs. Ross Campagna on the 4th at San Francisco and slashed her in a horrible manner with a razor. Only the timely interference of the police prevented her murder. It is announced that the government intend to pay Larkin, Connolly & Co. all that is due to them on the various public accounts contracts on which balances are due them, and the government will take \$100,000 security for any amount they may obtain judgment for. The C. P. R. and the I. S. S. Co., have issued circulars to the fruit dealers notifying them of an increased rate of freight. The new tariff went into effect on February 1st. The rate on pears, 5c. per. bbl. on apples, and 10c. on pears, while on strawberries and other summer fruits the rate is almost doubled. A telegram has been received from Captain Murphy of the ship Shenandoah, saying that he arrived in New York, Saturday, thirty-six days after leaving Havre, France. The Shenandoah was racing from Havre to New York with the English ship Shenandoah, on a wager of \$1,000. The Englishman had not been signalled Sunday night. A slight shock of earthquake was felt at Omaha on Wednesday night, lasting a few seconds. Pictures were thrown from the walls, and crockery and glassware smashed. A shock was also felt at Portland, Oregon. Buildings were shaken and windows rattled. The people were badly frightened. The shock lasted thirty seconds. No serious damage was done. Ward Waterbury, the eight year old son of Charles F. Waterbury, a wealthy farmer, Pond Ridge, New York, was kidnapped by an unknown man Monday morning while on the way to school. Mr. Waterbury received an unsigned letter demanding a ransom of \$6,000 in cash for the boy. He was returned on Friday by his abductors one of them having confessed. Rev. Mr. Wardell made a vicious assault on William Loveday in Winnipeg, cutting him badly about the head and face with a whip. Wardell is chief ranger of the Court of Foresters. The assault arose about some dispute at the recent session of the lodge. The police magistrate fined Rev. Mr. Wardell \$20 and costs, remarking that the attack was most brutal and unprovoked. Chas. Hadon Spurgeon, the famous preacher died at Montreal, Eng., after a brief illness on Sunday evening last. The deceased was born at Kelvedon, England, June 19th, 1834, and began life as usher in a school at Newmarket. He adopted Baptist views and joined Robert Hall's congregation at Cambridge. His fame reaching London he accepted a call to the New Park street chapel. He opened the Metropolitan tabernacle in 1853 and continued in its pastorate till his death. The Electeur makes a serious accusation against the Lieutenant Governor. It charges that the reason the subsidies to the Temiscouata railway have not been included in the instructions to the royal commission is because, like the Lake St. John railway subsidies, "out of which Sir Caron took toll to the extent of over a hundred thousand dollars." The investigation would show that Sir Hector and Sir Adolphe got ten thousand each out of the Temiscouata road subsidies. Bridgeport, Conn., was terribly excited on the 31st ult., because the St. John schooner Glendon sailed into that harbor with the British flag flying at the mast-head. A mob threatened to pull it down but Capt. Grady of the schooner swore he would shoot the first man who touched the halyards. It appears he was perfectly right as he violated no law. Montreal people are raising a subscription to purchase a British ensign, which along with an address, will be presented to the capt. as a mark of appreciation of the pluck and loyalty he displayed in defending the national flag.

AROUND THE WORLD.

The Week's Events in Brief—The Ocean of our Exchanges.

Smallpox continues to spread in New York city. An attempt was made on Sunday to fire the royal castle at Königsberg, Germany. The Nova Scotia Legislature is summoned to meet on March 3rd for the dispatch of business. O. S. Weeks, ex-M. P. P., died at Halifax on the 4th. He was at one time attorney general of Nova Scotia. Lieut. Maurice Shea, the oldest surviving veteran of the Revolution, is now at death's door at Sherbrooke, Ont. He is 99 years old. Frederick Zenner, who shot and killed his sweetheart, Maggie Weismuller, on the 3rd, shot himself dead on the 5th inst., at New, in 1872. The president has issued his proclamation promulgating a reciprocity treaty with the British West India colonies—Trinidad, Windward and Leeward islands. Hon. Mr. Bowell has determined upon a thorough reorganization of the militia department, his chief aim, under Sir Adolphe Caron, has fallen into a condition bordering on chaos. Sir Morell Mackenzie, the distinguished physician, whose illness with bronchitis was announced a few days ago, died on the 3rd. He was born at Leytonstone, Essex, in 1827. General Manager Sergeant of the Grand Trunk has issued a message to the employees to vote as they please in the provincial elections but to take no public part on either side. Supt. VanZile, of the C. P. R., after an investigation into the recent accident at Grand Falls, has dismissed conductor Carvill and the rear brakeman, Eiter, of the freight, for gross carelessness. W. J. Clarke, the Seckville singing master, arrested for bigamy some time ago, was taken before Judge Landry at Dorchester Monday, and sentenced to three years in the penitentiary. La Gripe is playing havoc in the lumber camps in the district north of Belleville. Some of the camps have been closed in consequence of the prevalence of the disease. In one shanty there were four deaths. The three story brick building shop of John A. Robbings, Sons & Co., Trenton, was burned Thursday. The loss is \$150,000. The fire was caused by an explosion, resulting from spontaneous combustion in the storage vault. Meredith Stanley and his young and handsome wife, both dressed in tight-fitting jumpsuits, jumped from the top of the Chesapeake and Ohio railroad bridge at Cincinnati 100 feet into the Ohio river on Thursday. Neither was hurt. A cablegram received at Charlottetown last week reports that the price of oats has still further declined in the English market, with large quantities in store. The prospect for good prices in the spring is not at the present time very bright. The Chilian difficulty is by no means fully settled. The United States minister Egan's residence at Valparaiso is in danger of being mobbed, which fact the dispatch states, threatens to bring about the re-opening of the difficulty with the United States.
