

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her system, soon loses her personal magnetism. Her general health suffers and she loses her good looks, her amiability and womanly charm. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to woman. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL. Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

SCORES OF DEATHS FROM EATING POISONOUS FUNGI

People of France Eat What They Think Are Mushrooms; Thirteen Die in a Day

Paris, Sept. 3.—Poisonous fungi of the mushroom species are proving almost as fatal in France this summer, as an epidemic of the plague. No fewer than 13 deaths of persons who had eaten what they believed to be mushrooms were registered today in various parts of the country. Near Bethune a man named Bosselle and three of his children died and the lives of Mme. Bosselle and a friend are despaired of. In the vicinity of Saint Die, Chief of Customs Clesment and his wife and five children all were poisoned by a feast on the fungi. Two of the children died today and the remaining members of the family are in a grave condition. This is the heaviest death toll of a single day, but for the past fortnight several deaths daily have been recorded of persons who had eaten the poisonous plants.

LOCKING SUSPENDED AT SAULT STE MARIE CANAL

Steamer Clifford Moll, Jammed in Locks, Inflicts Considerable Damage

Sault Ste Marie, Sept. 3.—Letting no her lines before orders were given by the canal officials to do so, the steamer Clifford Moll, up bound in the Fox lock this afternoon, was jammed between the lock walls and the steamer Venezuela, which was locking up with her. After ineffectual efforts to release herself, she was forced to back out, and after an hour's pulling she was got out, but not until about twenty feet, the top facing of the lock wall on the north side of the lock was torn up. The cement work was broken up two layers down. Locking was suspended for two hours until the damaged portion was repaired sufficiently to avoid further damage.

KISS PROVES WIFE DEAD

Hubband Had Cooked Own Breakfast

Tacoma, Sept. 3.—Bending over his wife to kiss her good-bye before going to work, I. Iveson, an employee of the North End Fuel Company, was horrified to find her dead upon the bed. This morning when he awoke, Iveson seeing his wife lying apparently as asleep, cooked his own breakfast and did not attempt to awaken her until leaving.

An English gentleman writes that he read the little book, "The Road to Wellville," and at a meeting of the Victoria Psychological Society of London (of which he is president) he urged the members to read it carefully, for, as he writes: "I think it the finest little book of Psychological Knowledge I have ever seen."

He is Mr. T. A. Wilson, 22 Hamburg St., Richmond, Eng. The relation of body, food and mind are explained in a simple way in "The Road to Wellville," and a miniature copy is placed in small envelope, and attached to every third package of Grape-Nuts, in order to extend its circulation, in such cases, free.

If interested, you can instruct your grocer to send up a package with the little envelope attached.

The little book is certainly interesting and well worth reading. Canadian Postum Cereal Co., Ltd., Windsor, Ont.

TWO MEN KILLED BY CONDUCTOR WHO SAYS THEY THREATENED HIM

J. T. Trebett Shoots Roy W. Sanford and Otis Sanford Following Argument on Ballard Beach Line

SEATTLE, Sept. 3.—Roy W. Sanford, 43 years old, and Otis Sanford, his son, 22 years old, were shot and almost instantly killed at 9:45 o'clock last evening at the end of the Ballard Beach car line by J. T. Trebett, conductor on the line, who claims that the men had threatened to "beat him up," that he had had shot in self-defense. No weapons were found on the dead men. The shooting took place after Ballard Beach car #16, on which the men had ridden from town, had reached the end of the line and had backed up to the station. Trebett, returning to the city, Trebett claims that Otis Sanford, closely followed by his father, had started toward him, one of them making a move towards his hip pocket as if to draw a revolver, which he opened. Otis, who was in the lead, was shot in the abdomen just below the heart, and fell down. His father, who was in practically the same spot, but managed to scramble down the steps of the car before he fell dead. Trebett was arrested by Patrolman A. F. Evans and S. Stinson and taken to the police station, where he is being held.

According to the story told by Trebett to Deputy Coroner Andy Hill and police officers, Otis Sanford was considerably under the influence of liquor. After the car had passed through Ballard station, both he and his father began making remarks to the conductor relative to his management of the car, particularly after it had passed a woman who was waiting to get on the car, but who was not noticed in time. "To these remarks," Trebett claims he made reply, "and later he heard Otis tell his father to wait until the car reached the end of the line, when they would 'beat up' the conductor after everyone had gotten off. "The car had backing, according to Trebett, he saw the father pass Otis something which appeared to be a revolver. He immediately made preparations to take care of himself, he says, and noticed that they still remained in the car after it was in motion to return to the city. "When Otis and his father got up from their seats and started towards him, the son had a dark object in his hand which he was waving about in a quart bottle of coal oil. Trebett claims he waited until they seemed ready to attack him before he fired. "Owing to the fact that there were no witnesses to the shooting, considerable difficulty was experienced by Deputy Coroner Hill in obtaining information concerning the two men killed. It was learned, however, that they lived at 1233 Twenty-fifth Avenue, Northwest, and were both laborers. Trebett lives at 525 Fifth Avenue North, is married, and has two children. He has been in Seattle for about a year, coming here from San Francisco, where he was formerly employed as a conductor. The bodies of the two men were taken to Butterworth's morgue. Trebett declared that so many beat-up cases have been reported at the Ballard Beach line that he had armed himself, and had frequently observed Otis Sanford and his father, although he did not recall seeing the father before last night.

A DASH THROUGH ALASKA IN SEARCH OF COAL

Expedition Being Fitted Out in Seattle for the Purpose of Proving Property

Seattle, Sept. 3.—With sufficient equipment to make a dash for the pole or explore hidden Thibet, a party of 28 experts, engineers, superintendents and miners will have to Alaska next month for the unromantic purpose of mining coal back of Katala. The expedition is sent by the Bureau of Mines, and its movements are shrouded in governmental red tape mystery. For the last few weeks, experts, members of the expedition have been collecting an \$18,000 outfit in Seattle. The party will be aboard the liner Mariposa when she clears from Seattle for Prince William Sound ports September 15. The party will be landed at Kayak Island, near Katala. Its destination is Trout creek, on the Cunningham group of coal claims that have aroused so much excitement in the last two or three years. The Cunningham group has reverted to the United States. The real purpose of the expedition is to prove the coal of Alaska can be mined, how much it will cost to mine it and how it can be most easily be handled. The expedition is one of the results of the sudden interest the government has taken in the Alaska situation and its efforts to learn the truth about the country. The Bureau of Mines has an appropriation of \$75,000 to pay for the experiment. The party itself will include Dr. J. A. Holmes, director of the Bureau of Mines, a manager, a superintendent, a construction manager, two geologists, a foreman and assistant foreman, a doctor, a commissary superintendent and 25 miners. When the Mariposa lands the expedition will go to Kayak Island and will proceed inland to Stillwater creek. Here camp will be established. A shaft will be sunk on the creek, and an Alaskan coal will be shipped and passed upon. When the expedition comes back it will be prepared to tell just how easily the coal can be extracted and what it will cost to work.

HACKS BRIDE, HER LAWYER AND INFLECTS FATAL WOUND ON SELF

Centray City, Ky., Sept. 2.—When C. O. Dutinger, a tailor, today learned that his bride of two months was at a lawyer's office here making preparations to file suit for a divorce, he seized a hatchet and running to the office attacked both his wife and the lawyer, James Stroud.

After hacking them with the hatchet, inflicting mortal wounds on his wife, he ran back to his apartment through a plate glass window, wounding a gasoline stove inside and setting fire to the building.

He then tried to hang himself with a wire rope, but failed. He was hacking himself with the hatchet when firemen dragged him from the burning building.

His wounds also are mortal. The lawyer will recover.

DECLARES JAPAN IS CHINA'S ENEMY

Dr. Sun Thinks Nothing Can Keep Her Out of Manchuria

Necessary for Government's Sake to Move Capital of the Republic

Pekin, Sept. 3.—Dr. Sun Yat Sen, in the course of an interview openly expressed fears that Japan would take aggressive action in Manchuria, and showed himself pessimistic concerning China's ability to save the eastern provinces. He said it was necessary for the government's sake to remove the Chinese capital, owing to the probability of Japan's taking Manchuria and thus coming within striking distance of Peking. Should hostilities break out, Peking's capture would be certain, he said, and such an event would demoralize the people and practically end the war. Nanking or Wuchang, he thought, could be more easily defended. China's Greatest Enemy In reply to a question the first provisional president of the republic said that Japan was China's greatest enemy. When asked if the powers would permit the occupation of Manchuria, he replied that no individual power was strong enough to object effectively. Japan's power in Oriental waters, he declared, was similar to that of Great Britain in the North Sea. When asked if the United States would allow the occupation of Manchuria, he replied that the United States would be unable to maintain the "open door." The Thibetian Question The contention caused by the British Government's demand that China abandon her advance into Thibet is increasing rather than subsiding. It is contended that the British location of the demands are in absolute accord with treaty rights and while this is doubtless a true representation, it is

PHONOGRAPH OUSTS THE "HELLO" GIRL

Telephone Authorities of Berlin Adopt Novel Scheme in Exchanges

By Use of Instrument it is Hoped to Save Voices and Temper of "Central"

Berlin, Sept. 2.—Several of those inhabitants of fashionable Charlottenburg, whose duties or pleasures caused them to use the telephone, the other morning had a strange surprise awaiting them. Instead of the vague, half-hearted interjection "engaged," always more easily divined than heard, there came a thrice repeated cry, clear and unmistakable—clear, that, under other circumstances it might have been a pleasure to hear. Some sharp listeners thought they caught another sound accompanying this business message—the rasp of a phonograph disk. And so it was, for the telephone girl had been ousted by the phonograph, though only in this particular exchange. It seems probable that things will go further in this direction. The telephone authorities of Berlin are nothing if not ambitious, and they hope to see the phonograph save the voices, and to some extent the nerves, of the telephone girls in a far greater measure than this. But for such schemes caution is necessary. When westerners of Berlin had divided themselves between the sands of the Baltic and the hills of Tyrol, then was the time to make an essay. The telephone engineers had phonograph plates ready for several standard replies. "Engaged," "will be free if you ring again in a minutes," "Your number is here; you can speak now," and so forth, but modestly they began with one only. Yet there seems no doubt that the rest will follow. The telephone girl uses her keen ears, grasps the situation and presses a button; she saves her voice for other occasions.

PATRIOTISM OR BUSINESS

Several Eastern newspapers have been engaged for some time past in a heated controversy concerning the obligation of Canada to British capitalists who have invested money in this country. The dispute appears to have had its origin in the desire of the jingo press to find further support for its argument for a cash contribution to the British navy.

The newspapers that represent the other side of the controversy declare that the strongest tie that binds Canada to Great Britain is one of sentiment which is not yet so enfeebled that it needs the support of mercenary considerations. They profess a regard for the British capitalist, not because he is a capitalist but because he is British, having a claim upon their affections no stronger than that of the Britisher who is not a capitalist.

In deciding to which side of the controversy you will give your support it is necessary to know that those who take the latter view are without exception Liberal papers. While, therefore, their statement of the case may seem the more logical it is necessary to remember that, being Liberal, they are not only incapable of the sentiment of loyalty to Great Britain but are known to cherish a positive hatred for the Union Jack and a desire to make Canada as soon as possible a part of the United States.

CANADA AND THE UNITED STATES

In an inflammatory editorial a Winnipeg newspaper which for some time past has been conspicuous for its insane and provocative jingoism, declares that we should mark our disapproval of the Panama Canal bill by refusing to take part in the proposed celebration of the hundred years of peace between Great Britain and the United States. While it is unlikely that a suggestion that can have been prompted only by madness or criminal stupidity will be seriously entertained by thoughtful Canadians, it is nevertheless unfortunate that it should have been made.

COUNCIL ORDERS THE DISMISSAL OF PARKS SUPERINTENDENT

The first one who would be kicking against the poor supply of water. Alderman Samis declared he realized the seriousness of the action in voting against the measure. Still, he thought the citizens had shown by their votes a lack of confidence in the engineer and he could not conscientiously recommend that any further expensive works should be undertaken under the official's direction.

nations. It may be well to remind ourselves that, despite the declarations of a few individual American politicians, that the case must not go to arbitration, the United States has not refused to consent to this course. Until Great Britain has requested that the question be submitted to the Hague tribunal and that request has been refused, we are in honor bound to assume that the United States will abide by the terms of the arbitration treaty which it made with Great Britain in 1908. If the recent action of congress suggests a doubt concerning their possible compliance with this agreement, we may find matter for encouraging reflection in the fact that the action of congress is condemned by the great majority of responsible journals in the United States. Again, it is well to remember that the appeal to arbitration can be made only after the canal is open to traffic and the discriminatory clauses of the bill are in actual operation.

The fact that a difference exists at the present time between this country and the United States affords the very best ground for celebrating with enthusiasm the long continued peace between the two countries. In a recent editorial The Toronto Star has most opportunely called attention to the fact that the interest and value of that celebration lies, not in an absence of differences between the two countries during that period, but rather in the presence of many and serious differences which have been settled without resort to war. It is unnecessary to enumerate the British-American disputes that have been settled during the past century as all disputes between civilized nations should be settled. Suffice it to say that several of them have been more serious than the present. The fact that they have been so settled gives ground for the hope that when the time comes for the settlement of this one it will also be disposed of without resort to the methods of barbarism that can find favor only with those who are utterly brutalized or mentally defective.

POPULATION AND REPRESENTATION

The Toronto Mail and Empire has become suddenly exercised over the dwindling representation of the Maritime provinces in the Dominion parliament, and suggests that the British North America Act should be so amended that a minimum of representation for these provinces shall be established without regard for any possible decline of population.

Under the provisions of the British North America Act the representation of the province of Quebec in the Dominion parliament is fixed at sixty-five members, and each of the remaining provinces is assigned such a number of members as shall bear the same proportion to the number of its population as the number sixty-five bears to the population of Quebec when ascertained by the census. In accordance with this rule a re-adjustment of the representation of the several provinces is made every ten years, after the census has been taken. At present the Maritime provinces hold 35 of the 221 seats in the house. So great, however, has been the increase of population in other parts of Canada, and more particularly in the Western provinces, that when the next distribution is made they will have but 30 of 233 seats.

The concern of these provinces at the decline of their representation in the house is natural. The sympathy of The Mail and Empire for any scheme that would strengthen the Eastern provinces in the house at the expense of the West is also what might be expected from a paper that represents interests hostile to those of the West. It is difficult to see, however, what can be done in fairness to change the condition which it deplors. The basis of representation for all provinces must be alike and must be determined by population. Discrimination in favor of any one province will rightly be resented by the rest. All are entitled to representation proportioned to their population, no less and no more. If such an amendment were made to the British North America Act as would prevent the further reduction of the representation of the Maritime provinces it would be necessary at the same time to provide that the remaining provinces should still have the same relative voting strength in the house.

The lesson for the Maritime provinces is plain, as indicated in the following hint from the Toronto paper that has espoused their cause. "It is to be hoped," says The Mail and Empire, "that their plight will stir them to efforts on their own behalf, irrespective of constitutional changes. The danger of further loss of Dominion representation should rouse the provincial government to energetic action for the building up of their several provinces."

directed to Mayor Mitchell, enquiring of that official if the recent resignation of Dr. Medical Health Officer Estey had been withdrawn. "The council refused to accept Mr. Estey's resignation," stated his worship referring to the last meeting, "by a vote of four to three. The council did decline to accept the medical officer's resignation."

Hornby is Persistent
"But has the health officer withdrawn his resignation?" persisted Hornby. "The council refused to accept it and that is all there is to the matter," asserted the mayor.

Alderman Hester then introduced the resolution, seconded by Alderman Samis, ordering the commissioners to take immediate action on the recommendation of the investigating committee and dismiss Medical Officer Estey and Sanitary Inspector Fox. It was lost by one vote, the mayor's ballot deciding.

Then Alderman Morfit, seconded by Alderman Hester, moved that Parks Superintendent Iverson be discharged on the question of the park board which seems to be up in the air. In the opinion of the city solicitor, the park board has not yet legally been dissolved though the councilmen apparently voted at the last meeting. Solicitor Moffat advised the councilmen that Superintendent Iverson was under the park board, and they were the only ones who had authority to discharge him. "Then," declared Alderman Samis "I move that the commissioners, as members of the park board, be instructed in the interests of the city to secure the dismissal of the park's superintendent. He is costing the ratepayers money every day and it is no doubt in my mind that the general feeling of the citizens is that he is not the man for the place."

Vote is Overwhelming
The motion was put to a vote and Mayor Mitchell announced it carried without resorting to a roll call, as the vote against the parks superintendent apparently was overwhelming.

The last gun fired by the opposition was a motion introduced by Samis and seconded by Alderman Hornby that the city commissioner be instructed to advertise for a new City Solicitor. It was lost by one vote, the mayor casting the deciding "Nay."

The Boxing Bylaw
The proposed new boxing bylaw suffered a reverse when Alderman McDougall, who has been asking that the measure be submitted to the people for a decision to end the controversy once for all, withdrew his support of it last night. On the recommendation of Mayor Mitchell, the whole matter was laid over until the next meeting of the City Solicitor's Board of opportunity to enquire into the matter. When a petition against the boxing bylaw was presented, Alderman McDougall moved that a plebiscite vote be taken on the subject.

"I have voted for the measure and I have also voted against boxing," declared the alderman. "From what I can learn, the people do not seem to want this measure now, but I would like to have the question settled once for all, and let the people settle it themselves."

Bylaws Too Easily Made
These bylaws that we make up here are too easily made, if the people voted on this question it would be ended one way or another once and for all."

Alderman Minchin, who introduced the bylaw, also opposed to submitting the measure to the people. He thought the council could settle it themselves quite well enough. Later in the meeting he announced that he was against the boxing bylaw.

Alderman Morfit, who introduced the bylaw, also opposed to submitting the measure to the people. He thought the council could settle it themselves quite well enough. Later in the meeting he announced that he was against the boxing bylaw.

Is Old Bylaw Repealed
Alderman Samis, seconded by Alderman Morfit, then introduced a motion asking that the resolution purporting to repeal the former anti-boxing bylaw be rescinded and the former bylaw stand. This led to a lengthy discussion as to the question of whether Alderman Minchin's original motion to repeal the former anti-boxing bylaw had been repealed.

City Solicitor Moffat, when appealed to, said he had been away and didn't know just what the situation was. He couldn't repeal a bylaw by a resolution. The only effect a resolution could have would be to give notice that a bylaw repealing a bylaw would be brought in at the next meeting.

More discussion followed, with the result that it seemed to be agreed that the resolution was ineffective until the bylaw repealing the former bylaw was brought in.

McDougall Stands for Old Bylaw
If it is a fact that this bylaw has never been repealed, said Alderman McDougall, "then I'll withdraw my motion to submit the question to the people and stand for the old bylaw as it was."

In order to give the city solicitor an opportunity to determine the question definitely, the proposed bylaw was laid over another week by agreement. Rev. Mr. Marshall, representing the Calgary Ministerial association in the question, was present, and agreed also to having the question laid over to the next meeting.

Among numerous other matters acted on last night by the council were the following: Authorizing the city commissioners to improve the Manchester subdivision with sewerage, which is imperative needed, at a cost of some \$4,000, to be charged against industrial bylaw.

Waste Paper Receipts Authorized. Giving the commissioners power to act in the matter of a receptacle for waste papers, etc., which an advertisement agent desired to place at various city corners, agreeing to have them emptied regularly and kept in a sanitary condition.

The council also voted for a bylaw amending the bylaw fixing a certain width on Twelfth avenue in order to enable the Bank of Commerce and the Cookshaw Plow company to construct buildings on that avenue near First street west, to the present building line.

Fur Fashions For Fall
Formal Exhibition
OUR formal showing of fur fashions for fall and winter, commences today and continues all week. It will be a most magnificent display featuring hundreds of pieces and of the finest peltry procurable. Long experience in the fur business has had a great influence on our selections as can readily be seen in their high quality, beauty, and general excellence. Every fashionable fur, from the humble western sable to the queenly royal ermine, is represented and in the cream of the season's creations. All furs shown in this exhibit were bought before prices advanced, so that we are fortunate in being able to offer far greater values than it is possible for stores which bought after the rise. Women who desire accurate knowledge of the popular furs and styles for fall and winter are cordially invited to visit this exposition. We are showing Fur Coats, Fur-lined Coats, Muffs, Neck-pieces, and in many novel and useful styles. Some of the popular furs for the new season are: Mink (northern and Labrador), Hudson Seal, White Fox, Ermine, Persian Lamb, Chinchilla, Opposum, Baby Lamb, Muskrat, Russian Rat, Black Fox, Pony, Orenburger, Marmot, etc. See Windows HUDSON'S BAY COMPANY

They are made of a good grade ruled writing paper, in size 8x5 inches. They contain 50 pages with blotter and have artistic cover. Special value \$5c.

WASHINGTON'S DRASTIC LAW IS UPHELD
Olympia, Wash., Sept. 3.—The constitutionality of the law providing for the sterilization of habitual criminals and those guilty of unnatural crimes, was upheld by the supreme court today in sustaining a sentence imposed on Peter Fields of Seattle, who also is under sentence of life imprisonment. The court found that medical authorities agreed that the operation was neither dangerous nor painful, and held that such punishment was not cruel or inhuman. The case was the first of its kind to come before the supreme court of the state. Department Store for Winnipeg: Moose Jaw, Sept. 2.—The National Construction Company of Winnipeg has secured the contract for the best Shell department store here, the building permit for which has been taken out at \$150,000. Ottawa, Sept. 3.—E. J. Grisdale, director of the St. J. Grisdale, firm, has left on an extended tour through the Canadian west. He will go through to the coast and eventually be absent about six weeks. WRIGHTS Indestructible WALL BOARD: Absolutely the finest substitute for lath and plaster on the market. Coming Events

Prasa Club Meeting.
The members of the Women's Prasa club are urgently requested to attend a business meeting which will be held at 3 o'clock in Mrs. Clark's office at the Y. W. C. A. Annex on Saturday afternoon.

Toronto Undergraduates' Dance.
The Calgary undergraduates of the University of Toronto have issued invitations for a dance to be held on September 4th in Unity Hall. The patronesses are Mrs. John Irwin, Mrs. Frank Miller, Mrs. T. P. English and Mrs. J. G. Tempest.

Cost of Living Increased.
Wellington, N. Z., Sept. 3.—In the report of the commission instituted to inquire into the cost of living, it is estimated that the cost has increased 16 per cent in the last 17 years. Rent, food, and clothing have increased 20 per cent; household necessities have remained unchanged. The wages of domestic labor have doubled. The price of exports has increased 40 per cent, and those imported 4 per cent. The rise in the standard of living has been considerable. The chief practical recommendations are the abolition of the duty on all foodstuffs and on the necessities used in the primary industries as well as a stricter control of trusts.

Weather Right in Moose Jaw.
Moose Jaw, Sept. 3.—The best reports from all over this district continue to come to hand regarding the harvest. Today was warm and at night there was high temperature. A bumper crop with no damage is highly probable. Saturday should see almost the whole of the heavy yield down before the binder.

Power Company Increase Capital.
Montreal, Sept. 3.—That they would issue five million dollars of new stock was the unanimous decision of the shareholders of the Shawinigan Water and Power company today. The stock will be issued when the directors deem advisable. The directors immediately ordered the issue of five million dollars worth of new stock to shareholders at \$120 per share.

for which 10,000 invitations were issued and which was attended by 8,000 guests, has brought out a discussion in the newspapers as to the origin of the expression garden party. It seems to have been a growth of the mid-Victorian period and Queen Victoria was one of the last to adopt it. In June 1868, for instance, when she signalled her partial return to social life after the death of the Prince Consort by a function of this character, her invitations commanded her guests to attend a breakfast in the grounds of Buckingham Palace. There was some laughter at the time over the idea of a breakfast beginning at 4 o'clock in the afternoon; but the queen retained the phrase for many years, although other great hosts adopted the expression garden party or lawn party.

BOTHA HAS BEEN MADE A BRITISH GENERAL

Twelve Years Ago He Was Commander of the Boers and Fought the British

Was Field Cornet When Boer War Broke Out, But Soon Demonstrated His Ability

London, Sept. 3.—One of the romances of South Africa is compressed into the formal phrasing of the following announcement issued by the British office recently:

"The Secretary of the War Office announces that the King has been graciously pleased to appoint the Right Honorable Louis Botha, Premier and Minister of Agriculture of the Union of South Africa, to be an honorary general in the army."

Twelve years ago it would have seemed an unimaginable dispensation of fate that General Botha, who was commander-in-chief of the Boer forces should ever be premier of a vast British territory and the holder of almost the highest rank in the army against which he fought so strenuously.

Twelve years ago General Botha, with a force of 8,000 Boers entrenched round Lydenburg, was fighting a series of desperate actions against the British troops under Sir John Buller and Sir Reginald Pole-Carew. Today in a ceremonial procession in London General Botha could walk side by side with these officers, wearing the same uniform and holding the same rank in the British army as then.

Louis Botha was only a field cornet in the Boer army when he broke out, but he soon proved that he was a great soldier, with the intuitive genius for leading men in the field that is possessed by few, and that a lifetime of scientific military training cannot impart.

Born at Greytown, Natal, in 1862, he represented Vryheid at the first Transvaal Volksraad, acted as field cornet for that district at the opening of the war, and succeeded General Joubert as commander-in-chief. He was in command of the Boer forces at the battle of Colenso.

The victory of Colenso, where Sir Redvers Buller, received his first decisive check was the result of his strategy. This made him famous, and from that hour the eyes of the burghers were turned on him as the one man fit to lead them.

When Joubert, the commander-in-general of the Boer army lay dying he was asked who would fill his place. With his dying breath he gasped the name of Botha. To describe all his exploits from 1899 to 1902 would be

to retell most of the chief incidents of the war. After the peace of Vereeniging in 1902, he went back to his farm. In 1907 he became Premier of the Transvaal, and in 1910 Premier of United South Africa.

When General Botha was in England in 1907, he was specially granted the right to use the title of general, which he held in the Boer army. Five years after the peace he was a premier under the British flag.

ANTI-TUBERCULOSIS SOCIETY WILL MAKE APPEAL FOR FUNDS

The Anti-Tubercular society, finding it necessary to extend their work, will on Thursday next invite the public to come to the aid of this most needy cause.

Several nurses dressed in uniform, or in white attire, and wearing the Anti-Tubercular badge—a double red cross—will ask that contributions be placed in their boxes.

The society are working toward a permanent sanitarium and have now under consideration the choice of a suitable site. Good work has been done in the temporary hospital, where twenty-three patients have been cared for. A number have been discharged pronounced by their doctors well enough to return to work. While others have made marked improvement. Funds are necessary to spend on this most important movement. The society feel assured that their appeal will receive a hearty response. The work is quick to recognize a cause that is worthy of support and will heart and hand to further the work in which the Calgary Anti-Tubercular society is engaged.

WELCOME ADDRESS IN BEAUTIFUL SILVER MOUNTED CASKET

Mayor Mitchell Will Hand the Illuminated Scroll to His Royal Highness

Distinguished Gathering Will Witness Ceremonies at 2 P.M. Thursday

Presentation on Platform in Front of City Hall; Party Then to Visit Stampede

The official address of welcome to the city of Calgary will be delivered to His Royal Highness, the Duke and Duchess of Connaught, on an illuminated scroll enclosed in a beautiful silver mounted casket. City Clerk J. M. Miller, who, by virtue of his office, will read the address, will hand it enclosed in the casket to Mayor John W. Mitchell, who, in turn, will present it to the Duke. As Governor General of Canada, His Royal Highness will then make a suitable reply.

These ceremonies will take place at a few minutes before 2 o'clock tomorrow afternoon in the presence of a distinguished gathering on the platform erected in front of the city hall. Besides the Duke and Duchess, the members of the city council and their wives, there will be present on the platform many of the leading officials of Alberta. Invitations have been sent to Premier A. L. Sifton, the ministerial officers of the province, members of the provincial and dominion parliaments, the supreme court judges and district judges, and their ladies. Only those officials connected with the ceremony will occupy the platform as the room is decidedly limited.

All arrangements have been completed for the reception of the vice-regal party by the reception committee of which Alderman R. S. Whaley is chairman.

Will Arrive at 1:45 P.M.

Their Royal Highnesses, the Duke and Duchess of Connaught, and the Princess Patricia will arrive in Calgary at 1:45 o'clock tomorrow afternoon on the Canadian Pacific railway, accompanied by the vice-regal entourage of aides-de-camp, attendants, and other staff. The party will be met by Mayor Mitchell, Lieutenant Governor Bullock of the Province of Alberta and Premier A. L. Sifton. The Duke and Duchess will occupy the first carriage when the procession starts down Centre street, and will be accompanied by the butler which will open the gates in the big arch of welcome.

The carriage will come the carriages of the vice-regal party escorted by the aides-de-camp and members of the Household Cavalry in command of Captain Collison who have been drilling for some time in anticipation of this event.

The streets all the way from the Canadian Pacific depot to the city hall, and the entire force of city constables and mounted police will be lined up to receive them. The Royal Scouts and Cadets will stand at attention. These guards will extend right up to the door of the railway station where the royal route will be kept entirely clear.

All Streets Roped Off Along Route.

Ropes will be stretched along the sidewalks on both sides of Eighth, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

MRS. ROGERS DIES IN EASTERN RAILWAY TRAIN

JOHN D. ROCKEFELLER CAN'T SUPPORT CHILD

Los Angeles, Sept. 3.—Judge Monroe today granted a petition to his grand-mother for the adoption of a daughter of John D. Rockefeller.

When the court heard the name of the wealthiest man in world he straightened up and took another look at the papers and then at the baby.

"What did you say was the name of this child's father?" asked the judge.

"John D. Rockefeller," Attorney McCarty replied.

"Is he an oil man?" persisted the court.

"Yes," replied the attorney.

The child was adopted by Mrs. Sarah Rockefeller of Kern County, the father's mother. The child's mother, it is said, secured a divorce from her husband about six months ago, on the ground of desertion, and is unable to provide for her baby.

WED PARENTHETICALLY

San Francisco, Sept. 3.—Clifford Goldsmith and Miss Rosaline Schurr slipped into matrimony today between a comma and a period.

The parenthetical occurred in Police Judge Deary's court. The couple wanted to catch a train for the East. An attorney stopped in the middle of a sentence, pausing while the pair were united and continuing without repeating when they had left.

AUSTRALIA BUILDING SHIPS FOR NAVY IN HOME WATERS.

Melbourne, Aug. 31.—The statement made at Winnipeg yesterday by Rear-Admiral A. Tait to the effect that Australia was building a navy but was doing the work done in England in the building her ships by Englishmen, was laid before Prime Minister Andrew Fisher today, who said that the admiral's statements were not correct.

It was true, said Mr. Fisher, that some Australian warships had already been built in England, but one had already been constructed in Australia. It was hoped that in future all the Australian warships would be built there. The next ship for the navy will be built at the government docks at Sydney, said Mr. Fisher.

The Australian navy, emphatically declared Mr. Fisher, intends to be entirely self-supporting both in regard to the construction of the ships and the manning of them. When the Australian programme is completed in 1915, it will have some 30 old ships, and it remains to be seen whether she will be able to grand success as an imperial unit.

MME. ALBANI'S WEALTH HAS TAKEN WINGS; FAMOUS SINGER IS TEACHING MUSIC

LONDON, Sept. 3.—Mme. Albani, the American singer who took her operatic name from the city of Albany, N. Y., who has lived in London for several decades and who has published her memoirs under the title "Forty Years of Song," is in desperate financial circumstances, according to a report quietly circulated among her friends.

Albani's career belongs to the last generation, as she made her debut in 1870. But, like Patti, she has regularly given a concert each year in London, which English people have crowded to hear because they loved the singer and remained loyal to her personally in spite of the decay of her powers. Patti is one of the richest among the operatic song birds, but she has taken her yearly toll from London audiences and they have given it to Albani with the same generous fidelity. Yet comparatively few among them have realized how great has been Albani's need in recent years.

Victoria and Daughters Fond of Her

She leaped into fame in Bellini's "La Sonnambula" in Italy, and then in a repertoire of Italian operas in London became established as one of the greatest prima donnas in the world. She was anglicized court singer in Berlin through the influence of Empress Frederick, who, like Queen Victoria and all her other daughters, loved herself Albani's devoted friend. She toured in Russia, Ita-

lia, South Africa, and many times came over to the United States and Canada. Victoria gave her years ago the English order of merit, which Florence Nightingale's friends were not able to obtain for her until shortly before she died. The king of Denmark and the German emperor also decorated Albani.

In the height of her world-wide popularity she married her manager, Ernest Gye. He helped her amass a fortune on the operatic stage, and then, as younger stars were arising, she retired with enough to live upon in luxury for the rest of her days. But Mr. Gye conceived the idea that he could turn it over several times upon the Stock Exchange, and his wife gave him every penny they possessed, only to find in a few years that it was all lost.

Albani then returned to the music stage, and her concert tours, while not so richly productive as her operatic career had been, were simply successful, and in a few years the family was established in Park house, South Kensington, one of the stateliest mansions of the district, where the singer received her friends among English royalty with as much dignity as if she had been a duchess.

There were numerous entertainments there of the quiet order, which Princess Christian, a great friend of Albani, particularly liked, and which Queen Victoria herself enjoyed. They were not fashionable during King Edward's reign,

but they have come into vogue again with King George and Queen Mary. And many people remembering what a favorite of Queen Victoria Mme. Albani was, have wondered why she was not among the hostesses of the new reign, along with so many other quiet, conservative women who have returned to active leadership in London society.

Old Home is for Sale or to Let

But visitors going past Park house these days will find it shut up and dilapidated, not having been occupied for several years, and with forlorn signs of "To Let" and "For Sale" conspicuously upon it. For Mr. Gye staked his wife's fortune for a second time upon the tickle rise and fall of the Stock Exchange.

And Albani, the most devoted wife in the world and Queen Victoria's model of what a great prima donna should be in her private life, finds herself now in an obscure little dwelling, not far from Park house, trying to keep the home going by giving vocal lessons. Her only child, a young man who is in a banking house in the city, addresses his mother and has signified his intention of taking care of her in her old age.

Albani herself has taken the final reverse of fortune with the greatest courage and is indefatigable with her pupils, showing no false pride and frankly soliciting all the assistance her friends could give by sending her purple to her. Proudly she informed The World correspondent this week that three of her scholars will take part in the coming Hereford festival, one of the chief musical events of the year.

She will be 40 years old on the first day of November.

LINK UP THE STEEL IN TWO YEAR'S TIME

Morley Donaldson is Satisfied With Progress of the Grand Trunk

Three Thousand Men Are Working in the Mountains; Twenty Steam Shovels

Men Who Are Over the Age of 30 and Wish to Marry Do So at Their Peril

Edmonton, September 3.—"Early in 1914 steel will be connected between east and west on the Grand Trunk Pacific Railway system, or such at least is the present outlook," declared Morley Donaldson, vice-president and general manager of the Grand Trunk Pacific Railway on his return to the city this morning after a tour of the system from east to west. A special in which Alfred Smithers, chairman of the board of directors of the G.T.P., and Miss Smithers, B. J. Chamberlin, president, and Mrs. Chamberlin have travelled through the Dominion during the past two months.

"No fewer than 3,000 men with 20 steam shovels are at work on the line which is being built through the mountains from the eastern end," said Mr. Donaldson. "The chairman and president are thoroughly satisfied with the progress that has been made. We are shipping coal to the west through, and if it be found that the road is in good shape west of this point the regular service will be extended some miles west in the near future."

"The large dry dock which is now being built at Prince Rupert will cost when completed from \$700,000 to \$800,000. It will be the largest dry dock north of San Francisco."

Discussing the labor situation Mr. Donaldson said that great improvement had taken place. While the company could make use of more men, the work of construction was not being seriously impeded at the present time. From 50 to 70 men are leaving Prince Rupert daily by boat to take jobs on grade and on steel gangs.

"There is now no strike, or at least the company is not affected by any," said Mr. Donaldson. "A considerable number of men have left construction to come down to the plains for the harvesting."

Labour Day in Toronto

Toronto, Sept. 3.—The celebration of Labour Day in Toronto was marked by the usual feature of a big parade of the trades unions, a record breaking attendance at the exhibition, huge invasion of visitors and a varied program of sports.

The day was dull but after a brisk shower at noon the rain held off. Over 5,000 men walked in the labor parade from Queen's Park to Exhibition Park where the annual games were held. The railway and steamboat officials report that the crush of traffic exceeded all expectations.

The soccer game between Cleveland and Toronto, the Tecumseh-Toronto lacrosse match, the Winnipeg-Toronto cricket matches, and the international polo match were all well patronized.

New York, Sept. 3.—Officers of the New York Coal Merchants' Association are agreed that there will be a serious shortage of coal throughout the east this winter, no matter how much is mined during the next two months. The suspension of mining in April and May, it is declared, will be under the most favorable conditions, a supply one-tenth less than normal this winter.

Independent operators, who are not bound by the schedule prices of the coal carrying companies, have begun to sell anthracite at a premium of 25 cents a ton and upward. The officers of the Coal Merchants' Association insist, however, that there is no necessity for becoming alarmed, because the anthracite will be distributed in such a way that there will be no serious distress.

ALBERTA LADIES' COLLEGE, RED DEER, ALTA.

The above cut of the Alberta Ladies' College at Red Deer, illustrates to the people of this Province the way education in all its branches is advancing in the West.

The board which is composed of several prominent gentlemen throughout Alberta, at their last meeting decided to order four Heintzman & Co.'s Pianos, and it is very gratifying to Heintzman & Co., as it was entirely on the merit of the Piano alone that the order was given.

SPORTING - FACTS - AND - FANCIES

ALL roads will lead to Calgary's new arena this morning, where the lightweight championship of Canada will be decided.

ARE the other three teams in the Western Canada league combined to beat the Bronchos out of the pennant? It certainly looks that way.

Red Deer has mysteriously been strengthened for the final fight by the cream of the material from the other three teams.

They have won the pennant on their merits and only shrewd jockeying by the other three teams will keep them from winning the gonfalon for the "Miniature World's Series."

TAKing a tip from the baseball club, Sammie Lichtenhein will have his Montreal Wanderers, train at the Toronto Arena for at least two weeks before the N.H.A. season opens.

Seditious Spreads in Egypt. Cairo, Sept. 3.—The spread of the sedition in Egypt brought about the suppression today of the nationalist journal El Lena.

Facts of Today's Battle

PRINCIPALS—Joe Bayley of Victoria, B.C., present holder of the Lightweight championship of the Dominion, vs. Billy Allen, of Ottawa, ex-champion of the Dominion of Canada.

return to seven-man hockey this winter. The six-man stuff cut down the salary bills, but it also cut down the gate receipts, for the fans did not take to it and the owners do hate to see the gate receipts diminish.

The Ottawa club for one, is said to be ready to jump to the new league should the six-man rule remain in force. They claim the two Toronto clubs will jump and that two clubs would be organized in Montreal.

This looks good on paper, but it is doubtful if the new league materializes. The Toronto teams and the Ottawa teams draw crowds that are too large for the N.H.A. magnates to overlook, and they will likely make peace.

Ottawa are after a coach, and in the absence of Marty Walsh, they are endeavoring to get Frank Shaughnessy, who is part owner of the baseball club. Shaughnessy is an expert on the American game and familiar with the Canadian. His experience in handling men on the baseball field will be of assistance to him in training the Ottawa team.

If the Ottawa Rowing club absorb the football team, Fred Chittick threatens to organize a new team and it is said that the majority of the football players will follow him.

The Montreal players are practicing on a regular basis now, and things are looking bright for a successful season. McSweeney, the Halifax boy, is showing up well.

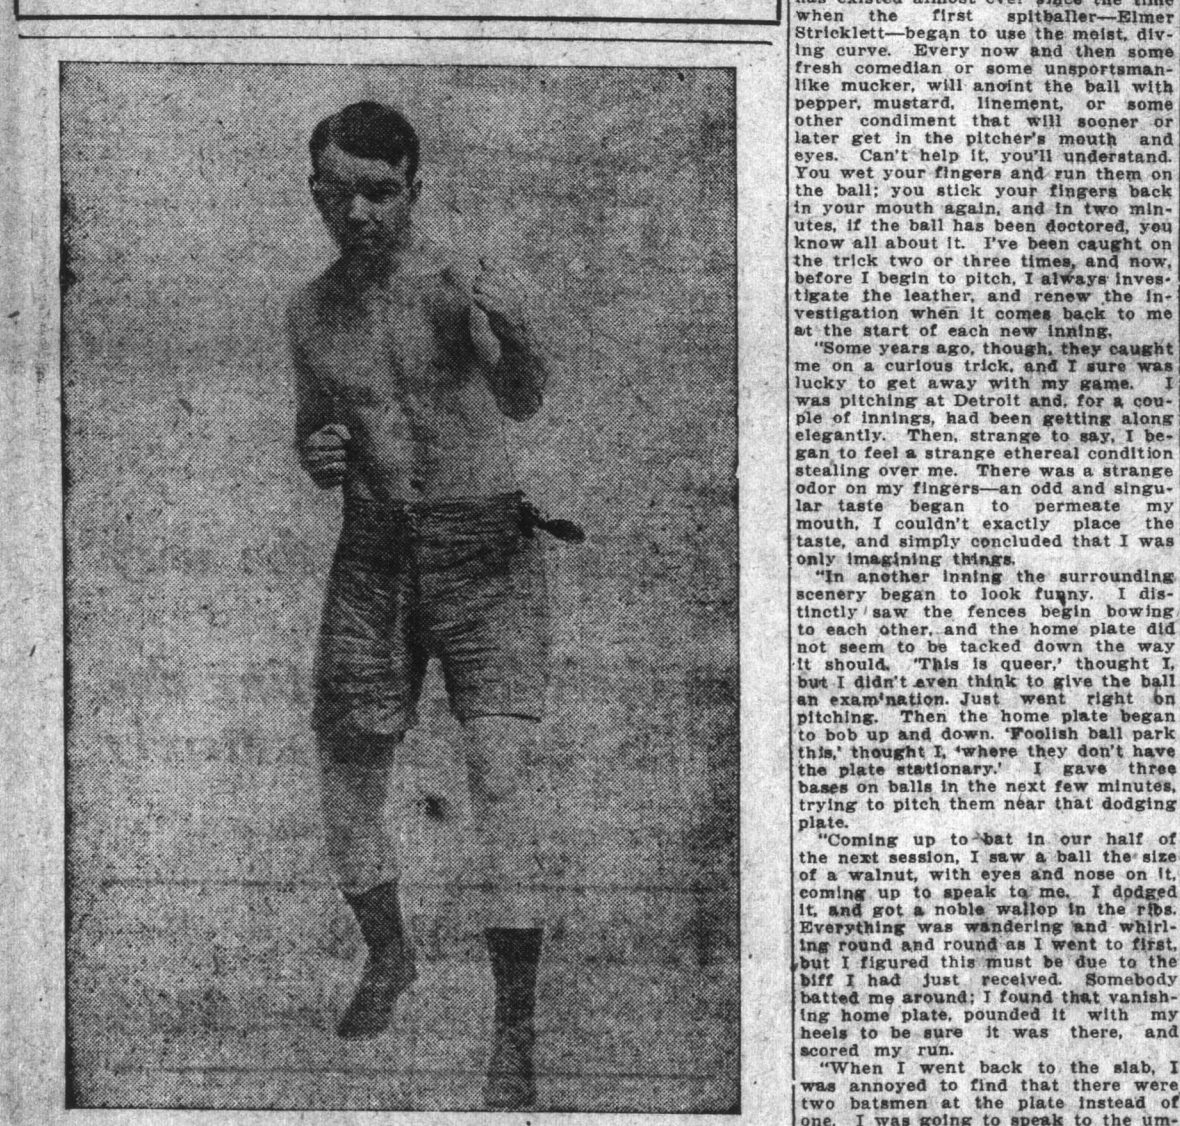

BILLY Foulds, one of the greatest quarter-backs Toronto university ever turned out, will be found on the Winnipeg Rowing club's line-up this year.

McGill offered Jack Williams, the Ottawa rugby player, \$800 to travel to Montreal twice a week during the rugby season, and coach the collegians, but Jack refused it. He may turn out with the Big Four team again.

HILTON LOSES GOLF TITLE TO C. G. WALDO. Champion Almost in Tears When He Saw Honors Go A-Glimmering.

Wheaton, Sept. 3.—H. H. Hilton, golf champion of the United States, was defeated two up and one in the first round of a match played today by C. G. Waldo, of Brookline, Mass.

Little Stories About BASEBALL. "Putting stuff on a ball to annoy a spitball pitcher," says Frank Smith, the big piano mover, is an old story and has existed almost ever since the time when the first spitball—Eimer Stricker's—began to be used.

BILLY ALLEN Ex-champion lightweight of Canada, who will try to regain the honors lost at Bassano to Joe Bayley.

JOE BAYLEY, Lightweight champion of the Dominion of Canada, who will defend his title against Billy Allen this morning at Calgary's new arena.

Joe Bayley vs. Billy Allen

Figures, statistics and dimensions, may have but very little to do with the deciding of a championship battle. Nerve, stamina, experience and the ability to deliver the tell-tale punch are more potent factors, but, nevertheless, the comparative measurements of the two men who will participate in the battle for the lightweight championship of Canada this morning is interesting reading, to say the least.

Probably in all the history of lightweight championship battles, never were there two men who were more evenly matched men physically than Joe Bayley and Billy Allen. Yesterday afternoon at three o'clock each of the men climbed upon the scales. The weight was set at 130 pounds. Each man tipped the scales at exactly the same weight.

UNION MEN OF MOOSE JAW OBSERVE LABOR DAY

Men of the Allied Trades Parade Streets and Enjoy Program of Sports

Moose Jaw, Sept. 2.—In fine weather the Railway City, as became the allied trades, celebrated Labor Day by a great parade, and between its own sports were sandwiched those of the Saskatchewan branch of the C. A. W. championship. An enormous crowd was present to witness the crack athletes of the province contest for honors.

Another feature was the work of W. A. Forsythe, who appeared in his Canadian Olympic uniform and was given a great reception. He had no trouble annexing the one-mile run, besides winning the special five-mile race in the splendid time of 23 minutes 33 seconds.

The following were the principal results: 100 yard dash—Hammond, Regina, 1; Wesdale, Winnipeg, 2; J. J. Ross, Moose Jaw, Y. M. C. A., 3. Time, 11 seconds.

One-mile motor cycle for Wilson—Mayhew cup—E. M. Rudd, Regina, 1 (time, 1:18.91); Emmer Hall, Regina, 2 (time, 1:20.15); Budd, Regina, 3 (time, 1:21.15).

THERE IS WORK FOR THE CLERK IN THE LAST BEST WEST

Charles Stokes, Writing From Calgary to London, Tells of Opportunities

Writes of the Equality That Exists Between the Employer and His Employees

And There is No Prejudice Against the Englishman Who Can Prove His Ability

LONDON, Sept. 3.—The clerk is always discouraged from emigration. The Canadian Government in its official emigration propaganda, lays emphasis on the fact that the only class which is wanted in Canada is the agriculturist; and the clerk, imagining that even in the new country he will be called to face the rigors and hardships of a farming life, remains a shilly-shally fellow, struggling "between the millstones" of increasing competition, a downward-trending salary, and a rising cost of living.

Even if the latter were true, it is only logical that in a new country, which is on the flood tide of an amazing all-round development, the humblest servants of commerce, the ledger-keepers and correspondents, should be in as great demand as shovellers and builders. Villages become towns, and towns cities, with such rapidity in Canada that hardly before the prairie grass has disappeared from the new "towns" large office blocks and stores stand waiting for occupants.

The great railway and express companies, the banks (which every day are opening new branches in new towns), the insurance offices, real estate agents, hotels, manufacturers, all are in need of clerical help, and are willing to pay for it a price that has not yet suffered by competition.

A Western office has altogether a freer and breezier atmosphere. Between the "boss" and the "boys" there is a spirit of equality and comradeship; the attitude of the big man towards his "stenographer" is more that of a genial comrade than of a junior member of his own club.

DISARMAMENT IS ONLY A BEAUTIFUL DREAM

So Says German Minister of Foreign Affairs in Dealing With Subject. Claims France is Peaceful But Erratic, and Difficulties Make it Impossible.

Berlin, September 2.—An enterprising French journalist has taken advantage of the quiet holiday season to board the German minister of foreign affairs in his forest lair and has succeeded in making that most cautious of diplomats make some very interesting statements in regard to relations between Germany and France.

Difficulties of Disarmament. In regard to disarmament the minister said that it was at present merely a beautiful dream. "Do you think," he asked, "that in order to realize a general disarmament it would be sufficient for two or three states to proclaim it? And if a fourth, for one reason or another, should refuse its consent, how could compulsion be exercised unless a force sufficient to impose it had been kept in reserve? Thus we come back by a roundabout way, to the idea of a force organized not for war, but for peace."

Princess Marie, Apologues. AND THEN MARRIES HIM. Princess Marie, Sept. 3.—A month ago Miss Nellie Theresa Carroll accidentally drowned William Joseph Corea, while she was spraying the front lawn of her home. She apologized very prettily and a mutual friend, passing the two were introduced to one another.

PRINCESS WHO DESIRES TO BECOME A VOTER

Blood Relative of Napoleon May Become a Citizen of the United States

Hopes for Restoration of Napoleonic Dynasty When Present President Dies

SEATTLE, Wash., Sept. 3.—Princess Estelle Gabrielle Bonaparte, Harcourt, Le Moine-de-Leon, granddaughter of Prince Joseph Alexander Bonaparte, blood relative of the great Napoleon, emperor of France, and daughter of the Comte Le Moine-de-Leon, would be an American citizen.

It seems that the princess would like to have the deputy clerk of the federal court, who issues first papers, bring them to her at her hotel, inasmuch as a painful injury to her foot prevents her from entering the building where the federal offices are situated; and upon the opinion of the district attorney as to the legality of that proceeding depends the princess' chances of voting in the sovereign state of Washington, for the present, at least.

In her suite of rooms—incidentally the most expensive and elaborate at the Raleigh hotel—Princess Bonaparte yesterday explained just why she wanted to be a citizen of this country just why she intended to make Seattle her home, and numerous other things.

Known Merely as "Countess". In the first place, it should be known that to ordinary persons she is not known as the "princess," merely as the "countess." Her small comes to her at the hotel directed to that title. She says that she finds the title of "princess" attracts too much attention in America, and that of "countess," to which she is entitled through her father, is eminently satisfactory.

Her brilliant bronze hair, bobbed in girlish fashion, framed an aureole round her head, while her large, serious eyes illuminated a face saddened by many sorrows. Beside her desk stood a pair of crucifixes, the only indication of an injury she received while walking with a friend on a muddy street, confining her almost entirely to her rooms.

Princess Bonaparte speaks English faultlessly. She explains this through the fact that she has spent practically all of her life among English people. She has resided, she says, to make Seattle her home. Princess Bonaparte is highly connected with persons of wealth in America, her foster relatives being persons of affluence in the East. Practically all of her life has been devoted to her literary and art work. She is the author of several sketches, many poems, and at the present time has a book under way.

decided to become a notary myself. That will save me lots of bother. Princess Bonaparte was very reluctant to discuss any details of her personal or family history. Her mother, who said, died at the birth of the daughter, and her father, fleeing shortly afterwards upon the confiscation of his estates, committed suicide when she was but 5 years old. Since that time she has been a wanderer in America.

Hopes for Restoration. "I believe the Bonapartes are coming into their own again in France," she declared, with a prophetic far-away look in her eyes. "I believe when the present president dies Victor Napoleon will get into control—possibly as president first. Among the poorer people he is very popular."

Victor Napoleon, the princess asserts, is her cousin. "Take the French people of today. Have you noticed how, during the recent uprisings they have resembled the people of the French revolution? They are being driven to it. The moneyed men of France today are as oppressive as the kings of old were, and when the next uprising comes there will be a Bonaparte called in as there was in the day of the great Napoleon."

CARTIER STATION BURNS. North Bay, Ont., Sept. 2.—The Canadian Pacific Railway station at Cartier was totally destroyed by fire which started at two o'clock this morning and spread so quickly that the occupants barely escaped with their lives. OIL IS FOUND CLOSE TO THE TOWN OF TABER Taber, September 3.—With the drill of the Sullivan machinery company resting in a small bed of crude oil, with the assurance of drillers that this is a sure indication of existence of natural gas, Taber citizens are jubilantly looking forward to a strike of a substantial flow of gas before the end of the week.

EDMONTON IS OUT FOR AN INDUSTRIAL CAMPAIGN Alberta's Capital to Make Effort to Build Herself Up as Manufacturing Centre

Edmonton, Sept. 3.—Edmonton is making a steady bid for industrial development. The position of Alberta's capital is particularly strong on this point. The city has a constant of 60,000,000 tons under the city and this coal—high grade lignite—is sold for export at \$2.50 per ton.

NO FIRM IN CANADA HAS MET WITH BETTER SUCCESS THAN THIS Let us show you the next subdivision we are going to offer. It is going to be a great Money Maker and we are proud of it.

F. C. LOWES & CO. 807 FIRST STREET WEST

Some Idea of what Investors have made, who have purchased lots in sub-divisions sold in the past by F. C. LOWES & CO., may be gained by the following: Elbow Park Lots—first sold at \$75 to \$150 per lot, now selling at from \$500 to \$1600 per lot.

Glencoe Lots—first sold at \$200 to \$450 per lot, now selling at \$1000 to \$1800 per lot. Bow Park Lots—first sold at \$150 to \$250 per lot, now selling at from \$1000 to \$1200 per lot.

Rideau Park Lots—first sold at \$350 to \$500 per lot, now selling at from \$1000 to \$1200 per lot. Windsor Park Lots—first sold at \$70 to \$100 per lot, now selling at \$225 to \$375 per lot.

Stanley Park Lots—sold by F. C. Lowes & Co. in Oct. 1911, are already being transferred at large advances. Cepeear—portions of this property sold in November, 1911, at \$550 and \$600 per lot, are now selling at from \$900 to \$1200 per lot.

We Are Slightly Disfigured, But Still In The Ring

On account of remodelling and refitting our offices---which by the way, when completed, will be the finest in the city---in keeping with

LAKE VIEW HEIGHTS

which is by far the highest class residential property inside the city limits of Calgary, and at prices much below anything in the city with half the natural advantages

THEN WHEN YOU REMEMBER that we are spending over \$100,000 in improvements in Lake View Park, which is in the center of Lake View Heights, and are setting out next spring 10,000 Russian Poplar Shade Trees, which means two trees in front of each 25-foot lot in the entire property, which means, of course, the lots we have sold or will sell up till then, and now we ask you to stop and consider these facts just one moment.

LAKE VIEW HEIGHTS is just three miles from the Post Office, inside the city limits and the car line now is less than a mile from us. Does it not seem reasonable to expect the car line to be extended that distance to Calgary's only lake and the finest park in Western Canada. Furthermore, we know we will not only get a first class street car service, but all other city improvements before your lots are paid for on our easy terms.

LAKEVIEW PARK, AS IT WILL BE WHEN COMPLETED IN 1913.

Don't Leave Calgary Without Making An Investment in Lake View Heights

which will make you more money than you have ever made in proportion to the amount invested. *Don't forget the fact that Calgary is the most progressive, up-to-date, metropolitan city on the American Continent today*, and that her growth up to now has been made with only one railroad and less than one-tenth of the tributary farming community developed, then imagine what it will do with **three trunk line railroads** coming in this fall and the vast, rich, raw lands are under cultivation. Is there any reason why Calgary should not continue to grow to a city of at least 100,000 population or perhaps two or three times that size? Then, when this is so, can you realize what your profit will be from an investment of a few hundred dollars? Will you come in and talk it over with us? *Let us show you that it will be much to your advantage to secure one or more pair of lots in Lake View Heights*

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea or in paint, or in most other articles. Cheap cut lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a staid and cheap look making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality considered, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.
