However that may be, the Conservative party in Haldimand is determined to sift the whole business to the bottom, and for that purpose the present proceedings are instituted. This modest little country town is all agog with excitement, the champions of Dr. Montague being out in strong force to watch the course of events.

Court opened at 10 a.m. sharp, with His Honour Judge Fsleonbridge on the bench; registrar for the judge, H. J. Wickham. The legal talent consists of Dalton McCarthy, Q.C., assisted by C. G. Snider, counsel for the appellant; while A. B. Aylesworth and A. K. Goodman upheld the cause of C. W. Colter, respondent.
The first witness called was Wm. Parker, ex-secretary of the Reform association and at present registrar of the county of Haldinmand, who was examined by Dalton McCarthy, Q.C., and questioned regarding the usual method of procedure at the association in selecting candidates and conducting a elections, and particulars as to the different ion in selecting candidates and conducting lections, and particulars as to the different neetings held for the purpose of promoting the interest of the party. He testified that Mr. Colter had been connected with the organization ince 1879 or 1880, and was always very active in connection with its reactive.

ADIEU TO THE SCIENTISTS.

Last night saw the final proceedings of the A. A. S. in Toronto. A general session of the council was held at 10 a. m., at which

J. R. Dodge in which he fully demonstrated the superiority of manual training schools over those which did not admit this feature into their curriculum. Chairman Prof. Charles S. Hill of Washington, delivered a stirring address at the close of the proceedings of the economic science section, in which he took occasion to refer to the criticisms which had been launched forth on his opening address. The address was full of generous enthusiasm for the reception accorded to visiting members, and successfully cleared away any misinterpretation of the speaker's former utterances. He wished to see a large turn

Hamilton, Sept. 3.—The three daily papers here are fairly wild over the pro-posal to have a summer carnival in Toronto in 1890. The Spectator froths at the mouth. Here is a specimen of its lingsgate: "At the best, Toronto is pauper of the province—the city that milks the Ontario cow. Its population is largely made up of the felons, lunatics, paupers, prostitutes and politicians which other communities thrust out from them. Its business instinct is to beg—to get something for pothing. Its sense of competition

Can the Toronto people hope to get up a carnival that will have better attractions than are advertised for their exhibition?"

Nannie Scruggs, the unfortunate woman who has been confined in the county jull for months past, was brought before Judge Sinclair this morning and finally committed as a lunatic. Honora Lawless, aged 55, was also committed as a lunatic. Some excitement was created this morning in the excitement was created.

Through various channels the information is soming to us that of late there have been extensive fires raging over large sections of the Rocky Mountain region. These fires began weeks ago; but it is only within a few days past that people out there began to suspect what a tremendous damage was being done. The fire has swept over the woods of the mountains and the prairies of the plains, taking in British Columbia and so on essaward to Washington territory, Wyoming, Colorado, Montana and Idaho. The smoke from this extensive burning stretches almost across the continent, and has been observed on the lakes, One despatch from Montana areas is in a contract of the mountains areas in the mountains and the prairies of the plains, taking in British Columbia and so on essaward to Washington territory, Wyoming, Colorado, Montana and Idaho. The big mining companies, such as the Drum Summon, Anconds, Boston and the Montans, contract each year for immense quantities of cordwood and tumbers, to be delivered at the works during August and September. These fires started just when the contractors had prepared to 'fulfill their contracts, and almost without exception the result has been a total loss. In addition to this sawmill after sawmill has been wiped out, and with this the destruction of the timber, throwing hundreds of men out of work.

The fires cover a vast territory; and people in these regions say nothing less than a week's rain will put, them out. Last week closed with the destruction still going on.

The Great Struke.

The Great Strike.

The week has opened rather discouragingly for the strikes in London. After having given out a manifesto calling for a general strike all over the country, the leaders of the strike all over the country, the leaders of the strike all over the country, the leaders of the strike all over the country, the leaders of the strike all over the country, the leaders of the strike all over the country.

trike all over the country, the leaders thought etter of it; and at one o'clock Sunday morning this was recalled. In its place an appeal as issued, asking for financial help from all the trades unions in England and abroad.

Among the Secieties.

Bristol Ledge, S. O. E., had routine business last night. Bro. Toogood presided.

Court Rose, C. O. F., had 5 propositions last night. Bro. G. J. Watson presided.

The smoke from this extensive burning stretches almost across the continent, and has been observed on the lakes. One despatch from Montana says it is certain these fires were started by campers, and that they have been kept going through the cupidity of half breeds and squaw men. In the prairie districts the loss from destruction of cattle is great, but still more serious is the loss caused in the mountain districts through the destruction of valuable timber. One of the best authorities in Montans astimates that within its limits the damage has for some time past been going n at the rate of at least \$100,000 a day. Thousands of acres of virgin timber land have been denuded and thousands of cords of cut wood destroyed.

For a number of months I was troubled with Costiveness, in consequence of which I suffered from Loss of Appetite, Dyspepsia, and a disordered liver. My eyes also troubled me. I was compelled to wear a shade over them, and, at times, was unable to bear exposure to the light. I was entirely

I suffered from Constipation, and, consequently, from Headache, Indigestion, and Piles, for years. Ayer's Pills, which I took at the suggestion of a friend, have given me effectual relief. I commenced taking this remedy two months ago, and am now free from Constipation, the removal of which has caused my other troubles to disappear, and greatly improved my general health.—W.
