T. A. FOSTER THREW AWAY HIS CRUTCHES AFTER YEARS OF TERRIBLE SUFFERING.

STATEMENT OF MR. WM. MCNEE. For eight years I was troubled with sore on my leg which resulted from aving it broken. The doctors kept me having it broken. The doctors kept me in bed five months trying to heal it up, but all to no purpose. I tried all sorts of salves, liniments, ointments, pills and blood medicines but with no benefit. In 1883 it became so bad, that I had to sit on one chair and keep my foot on another for four months. I could not put my foot on the ground or the blood would rush out in a stream and my left swelled. to twice its natural size.

ush out in a stream and my leg swelled ELEVEN RUNNING SORES eveloped on it which reduced me to living skeleton (I lost 70 lbs. in four onths). Friends advised me to go to the Hospital; but I would not, for I knew ey would take my leg off. The doctor then wanted to split it open and scrape the bone, but I was too weak to stand the operation. One old lady said it had turned to black crysipelas and could never be cured. I had never heard of Burdock Blood Bitters then, but I read of a minister, Rev. Mr. Stout, who had been cured of a severe abscess on the neck by B.B.B., after medical aid had failed, and I thought I would try it. I washed the leg with the Bitters and took them according to directions. After using one bottle I could walk on crutches, after taking three, I threw away the crutches, took a scythe and went to work in the field. At the end of the sixth bottle my

came back to their natural places again.

That was nine years ago and it has never broken out since. I can walk five miles to-day as fast as anyone, and all this I owe to B. B. B., which certainly saved my leg, if not my life. I cheerfully recommend it to all sufferers. ive B. B. a trial, it will cure you as Yours truly, Wm. McNee, St. Ives P.O., Ont Mr. F. C. Sanderson, the druggist of St. Marys, Ont., certifies to the entire truthfulness of the remarkable statement truthfulness of the remarkable statement made by Mr. McNee and says that several other wonderful cures have been made in

Tinela's Revenge. NOTED TRAVELER TELLS OF SCENES IN THAT

Alone in a dark corner of his tent, toying with the beads of his rosary, sat Osmani ibn Seyf. His swarthy Arab face was lined and areworn and his eyes were downcast in

For six weeks this famous slave raider had led his cavern of Manyema marauders and aptives through the dismal depths of the reat African forest in search of human prey. ay by day they had trudged through orny undergrowth, beneath the impenetrable canopy of primeval trees; and each night they had slept, hungry, upon the sodded ground, in the vitiated atmosphere of decay-The region that they had traversed was

That afternoon a Manyema follower had een wounded by a wooden spear, adroitly oncealed in the bushes, by the side of a wellworn elephant track. Here at last was an evidence of man zereba, and Osmani had dispatched scouts to survey the vicinity.

"Hodi!" cried a voice from without. Osmani started from his reverie, and ininctively reached towards the loaded rifle v his side "Karib!" A curtain was drawn aside, revealing the

gure of an armed negro. 'Ah! Khalifan. "Salaam Bwana!" the negro crossed his hands upon his breast and bowed. "Khabari gan.? Speak, what news?" "Good news," replied the negro, mindful f preserving a good omen; "the scouts have

her, O Khalifan!" "Vema! And what have they found?" In a few words the negro explained that the scouts had discovered traces of a large ative village, situate about two hours' march to the eastward of their encampment. Osmani's face instantly lightened. "It is well," said he, 'The sun is now setting. Two hours before the dawn we march upon that village. To-night, no fires, no noise.

'Sikia?" "Our master's words are law." "Haya! May Aliah preserve us!" and Osmani waved his hand in token of dis-

With a profound salaam, the negro withdrew. Sentinels were posted, and soon the camp was wrapped in slumber. The night air grew cold. A storm swept ver the forest. The rain filtered through the thick foliage overhead and trickled in streams upon the naked bodies of the miserable wanderers, who grumbled, and crouched together in groups. It was still dark and cheerless when

Osmani emerged from his tent. "Similla! Similla! Make way, there, for Bwana Osmani!" Silent and sullen the Manyema marauders buckled their ammunition belt around their length attracted the attention of several of waists. Each man rolled a strip of dirty white cotton cloth around his head, turbanwise, to serve as a discriminating mark in the coming fray with the naked savages. "Tendele! Tendelel upesi!" The order bring her father." o march echoed through the camp, and in a few minutes Osmavi and his marauders tarted forth in single file. No word was

Beautiful Hard-Burnt Brick.

Our selected stock brick will look as well in the front of a building as some of the so-called face or repress brick, nor are they liable to chip or split with the frost. So far as tested they have not shown any of the WHITE SUBSTANCE, which so disfigures some brick buildings, and we believe them to be entirely free from this ingredient. We aim to keep on hand a large quantity, so that the trade can always rely upon being supplied with good brick.

Having a good wharf on our property and a siding of the W. & A. Railway, we can ship either by vessel or rail.

WEDNESDAY, MAY 31st, 1893.

-Until quite recently the Australian colonies were supposed to be the most prosperous portions of the globe. Since their first settlemen there has been almost one continuous boom. The discovery of its rich of Dr. Brown, deceased. gold mines at the outset of the island's history inflated prices and begot a spirit of extravagance and recklessness which has ever since characterized her people. When the ments of the various colonies entered upon a policy of borrowing on a gigantic scale and spending with a lavish hand. The favorable mines became less productive the governspending with a lavish hand. The favorable climate, fertility of soil and vast resources of the island gave the various colonies splendid credit abroad, and this was used almost beyond the bounds of reason. As a result, New South Wales, with a population of 1,100,000, now has a public debt of \$230,-000,000 and an annual interest charge of \$9,000,000. Thus, with a population of about one-fourth of that of the dominion of Canada, her public debt is equal to ours. | works, will have one hundred men at work The colony of Victoria has a population of 1,100,000 and a debt of \$190,000,000, with an annual charge for interest of about \$7,-500,000. South Asutralia has 300,000 inhabitants and a debt of \$103,000,000. With but two-thirds the population of Nova Scotia, South Australia has four or five times in Massachusetts a few weeks ago was described in the papers, is on a visit to his native place, Eel Brook, in Yarmouth county. our debt, counting both our provincial and our proportion of the dominion debt. Nor is the great debt of these colonies the only onable feature of their financial condition. Within the last decade the people | be engaged in the Boston trade. have been continually crowding into the cities. Of Victoria's 1,100,000 inhabitants, the city of Melbourne contains over 500,000, and four other cities 140,000 more. Thus, over one half of the entire population of the colony of Victoria is in the cities. New South Wales, with her 1,100,000 people has one city, Sydney, with a population of 400,000, while South Australia has one city, Adelaide, with 130,000 people, out of her entire population of 300,000. Without the unnatural state of affairs created by the lavish expenditure of the large sums of borrowed capital, the one condition of the people all crowding into the cities, is calculated to bring disaster upon the country, sooner or later. In all ages of the world's history.

The property of the late Robinson Marprices inflated, and real estate rose in price

a government to borrow money, and it may seem a good thing while the money lasts to have it to spend. But borrowed money all has to be paid back, principal and interest, and in a few years these become a heavy burden upon the people and a constant drain upon the country. The borrowing and spending lavishly beget habits of reckless-Granville Ferry.

NARROW ESCAPE.—Frank Brooks, son of their folly. The present generation has been spending extravagantly what the next one nust pay for by the most rigid economy.

There is surely in this a lesson for us, as a love and a dominion. Our public men we been wont to point to Australia as extings prosperous, although her debt was times that of ours. Fortunately, our public here.

Granville Ferry.

NARROW ESCAPE.—Frank Brooks, son of Mr. Benjamin Brooks, of Centreville, while attempting to board the working train of the W. & A. Railway at Centreville on Monday, slipped and fell between the platform and the track. Although fortunate enough to escape being killed outright, he is quite badly bruised and battered, and it will be some days before he can do any work.

HOME AGAIN.—A fine display of brusing the Women's t ness and extravagance which again require

committee of the House of Commons, and the second one of these clauses was passed only by Mr. Gladstone agreeing to a radies amendment moved by a member of the opposition. These two clauses comprise the first twenty lines of the bill. As the bill contains four hundred lines in all, it will be seen that it will take several months yet to complete the committee stage. The opposition to the measure has lost none of its strength as the details become known to the country, and it is thought if another general election were to take place now, the Gladstone government would be overwhelmingly defeated. At the opening of the Imperial Institute in London the other day, Mr. Gladstone was greeted with a storm of hisses and hoots wherever he appeared. The audience was composed of 20,000 of the most cultured and in telligent people in England; and although the premier was the guest of the Prince of Wales, who was everywhere received with applaane, he was greeted with storms of hisses and shoots of derision. Clearly education in New York to a building of the speaking up of all the relation of friends. The processing of the language on the bench of the United States Supreme Court, in his remarks on the Geary Chinese Science Assign the premier was the guest of the Prince of Wales, who was everywhere received with a storm of hisses and shoots of derision. Clearly education and the breaking up of all the relation of friends, to whom and the breaking up of all the relation of freeds and The Connection State of the whore.

—Justice Field, one of the ablest judge on the bench of the United States Supreme Court, in his remarks on the Geary Chinese in the bench of the United States Supreme Court, in his remarks on the Geary Chinese in the bench of the United States Supreme Court, in his remarks on the Geary Chinese in the bench of the United States Supreme Court, in his remarks on the Geary Chinese in the bench of the United States Supreme Court, in his remarks on the Geary Chinese in the proper of the State States and the breaking up

heed the lesson the recent Aus-alian expe

the breaking up of all the relation of friendship, family and business there contracted."

And as to its brutality, he says—

"According to its theory Congress might have ordered executive officers to take the Chinese laborers to the ocean and put them into a boat and set them adrift, or might have ordered executive officers to take then to the borders of Mexico and turn them loose there, and in both cases without any means of support; indeed it might have sanctioned towards those laborers the most shocking brutality conceivable. I utterly repudiate all such notions, and reply that brutality, inhumanity, or cruelty, sare not elements in any procedure for the conforcer of the co

For the present Mr. and Mrs. Piggott will reside in the pleasant dwelling over their store.

—The first meeting of the Women's Miestonay Aid Societies, in connection with the Western Association, will be held in Paradisc, on Friday afternoon, June 16th, at 3 o'clock. This meeting will be for hear ing reports, prayer, and a helping together in the work laid upon us. Let us come from our closets to these meetings and then will the work be advanced. Let each Society set to it that at least one delegate is present.

AMY E. JOHNSTON,

N. S. Proc. Sec'y. W. B. M. U.

Dartmouth N. S., May 27th, 1893.

Dartmouth N. S., May 27th, 1893. DON'T LEAVE PARIS GREEN ABOUT.-Mr. Don't Leave Paris Green About.—Mr. Stephen Walker, of Carleton's Corner, recently suffered the loss of a fine ox and a two-year-old steer by their gaining access to part of a can of Paris Green which had been left in the potato field since last season. Although considerable care had been exercised in covering up the poison, the cattle came upon it in their wanderings, and partook of such quantities as to cause death within a few hours. The loss is quite a heavy one to the owner, and should prove a warning to all persons who have to resort to the fatal poison in exterminating the destructive potato-bug.

—Following are the reduced rates offered

.—Green Wire Cloth and Spring Hinges, for sale at Shipley's.

ONYX BLACK HOSIERY.—The great success of "Onyx" dyed hosiery is due entirely to its superior quality, and the fact that it does not stain the feet or garments, and that it will withstand the effect of repeated washings as well as perspiration. I confidently recommend the "Onyx" to my customers as the best article for purity of dye and wearing quality ever offered to the public. J. W. Beckwith.

—The Columbian Exhibition is likely to be a great financial failure. In order to pay expenses the daily gate receipts will require to exceed \$80,000 for 183 days from the lat of May to November 1st, Sundays included. That means 160,000 paid admissions each day, which is about four times the average number up to date.

—Miss Clara Killam has presented the town of Yarmouth with a handsome drinking fountain. The fountain is in the shape of a bronse statue of a horse and is 11½ feet high. Basins for horses project from the north and south sides of the bases, while lower down at each corner are smaller basins for dogs, sheep and other small animals.

ter of the late John Vroom, of Deep Brok, took place on the 24th inst., the remains being interred in the old churchyard at Clementsport.

—The window of Taylor's drug store has been made attractive by a display of some pretty oil paintings—the work of Miss Hart—a piece of "trout" being very realistic and giving evidence of fibe work.

—The assignees sale of the furniture fac-

and giving evidence of fine work.

The assignees sale of the furniture factory and plant of J. B. Reed & Sons came off on Saturday afternoon last at three o'clock. The property was sold by Coroner Fowler to J. W. Beckwith, who represented a number of the leading citizens of the town.

The annual meeting of the Bay of Fundy S. S. Company was held on Tuesday. The old beard of directors was re-elected. It is composed of Messrs. H. D. Troop, W. H. Thorne, James Manchester, S. Hayward, S. W. W. Pickup, H. B. Short, and John E. Ervin. No dividend was declared.

The mass Rivmer and Frank Wright.

W. W. Pickup, H. B. Short, and John E. Ervin. No dividend was declared.

—Thomas Brimmer and Frank Wright, two of the crew of the fishing schooner Edward A. Rich, went astray in their dory during a fog on the Georges last Wednesday. Brimmer was married and Wright was single. The former was a native of Cape Breton, while Wright belonged to St. Mary's Bay,

N. S.

Don't Forget to Make Your Mark.—
A register is to be kept at the Canadian Pavilion in Chicago, in which the people of our Dominion who visit the Fair may sign their names and place of residence in Chicago, and also state the length of time they intend remaining in that city, for the information of friends.

Newfoundland—The big four-masted ship King's County, Capt. Milledge Munro, arrived at St. John last week from Antwerp with 1,300 bbls. of cement and 420 tons of old rails. She was 32 days coming out. On the 22nd ult, in lat. 48, lon. 49, Y. Gersen, one of the sailors, fell from aloft and was lost. The Kings County is a handsome ship and the first four-master that has been in the harbor of the John for year.

of friends.

Newfoundland closed on Wednesday. Among the important measures passed were bills for the construction and operation of railways and for the promotion of higher education. This is the last session of the present Newfoundland parliament. General election takes place in November.

—A trunk factory is to be established at Amherst by Messrs. Christie Bros. & Co., who have engaged J. C. Harlow of Shelburue, one of the most experienced trunk manufacturers in the Maritime Provinces, to take charge. A large three story building is being erected for the factory and the business promises to be very successful.

—Last week the Canadians at the World's

ministry.

—The property of the late Robinson Marsthall, situate at Port Lorne, was sold at public auction on Saturday last for the sum of \$154.00. Mr. Charles Brinton bought what might have been expected has recently happened. For a time the borrowed capital made money plentiful. Wages were high, prices inflated, and real estate rose in price last week from Port Angelo, W. T. taken away from him, and he was warned against him using the name "society" or "organization" in any of his addressess. Dr. (lark will attend the National Convention for Christian Endeavor for England, to be held in Bradford about the middle of June,

there is hardly one left, and through all the island there is now widespread financial ruin and disaster, such as will require a quarter of a century to efface.

The new double dwelling house erected on the southern side of the bridge by Mr. Edward Rickertson is about completed and ready for occupancy. The location is one of the most commanding, while the architectural design and tasty finish render the new about one of the most commanding, while the architectural design and tasty finish render the new abode one of the most pleasing.

Forest fires along the line of the Western Counties Railway destroyed large quantities of hardwood piled near the track and the intense heat caused the rails to warp. A special had to be sent out from Yarmouth as sooner or later the end comes. It is easy for a government to borrow money, and it may

The heigentine Felicard D. of Western Counties Railway for the company is now and the expenses of the plant and furnish the street lights without cost to the taxpayers.

TO FRUIT GROWERS!

Bridgetown, April 4th, 1893

Special Bone Fertilizer for Fruit has been on trial for years, and is proved to be a specific, not only for apple orchards, but for all kinds of fruit. Its foundation is Pure Animal Bone, made sufficiently soluble to afford immediately available food, while not rushing on undue growth of wood. The best known chemicals are introduced to keep the Fertilizer in balance so that heavy fruit-ing and healthy wood growth are induced. Get out of the old ruts by making at least a

small trial of what has proved a great suc-Special Potato Fertilizer of highest possible grade will be sold through the season.

Bradley's XL, which has made for itself a world wide reputation, and which stands well ahead of all others as a profitable, lasting Fertilizer, for all kinds of garden and hoed crops, will be sold through the various agencies throughout the province. Send for circular, find out what you want first, then buy,—not the lowest priced barrel,—but the brand that has the most genuine plant food for the money. G. C. MILLER, MIDDLETON. POPULAR BRED STALLION!

SIR WILLIAM, 8287. our Stock of Boys', Misses',
Men's and Women's

Sire MESSENGER WILKES, 3743; record 2 23. He the sire of Palm, 3 years, 2 284;

Gene Briggs, 4 years, 2 28; Narka, 4 years, 2 29; Grenadier, 2 years, 2 40, and eight others winners of contested races. Messenger Wilkes is by Red Wilkes, the greatest Wilkes Sire, and is the sire of seventy-three with records from 2.11½ to 2.30.

SIR WILLIAMS' dain, Sadie L., is a full sister to Nelson, 2.10. Her sire, Young Rolfi, sired Nelson, 2.10; Aubine, 2.19½, and others with records better than 2.30.

GRETCHEN, by Gideon, produced Nelson, 2.10; Edna, 2.24; Sadie L. and other fast ones. It is needless to tabulate the list of producing sires and dams with which this fine young horse stands connected, as they are too well known to require further tracing back.

SIR WILLIAM is a dark bay, foaled 1887, bred at Maple Grove Farm, Auburn, Maine. He is very symmetrical and highly finished, with plenty of substance: this, with his very speedy conformation, gives assurance that he will not only be fast, but that he possesses the power of his ancestors to transmit their good qualities to their offspring, as his colts are beginning to prove.

It will be observed that he carries the same per cent of the producing blood that produced Nelson as if he were a son of that noted horse. That, combined with the blood of Messenger Wilkes, 2.23, makes him a very desirable young horse to breed to. In 1891, as an eight-year-old, at the meeting of the New England Trotting Neeting at Mystic Park, Messenger Wilkes obtained his record of 2.28. A few days after he made an exercise mile in 2.27, going the last quarter in 324 seconds—a 2.10 gait. Sir William would have gone into training this season had he not come east. Sir William will stand at GRANVILLE FERRY and ANAPOLIS certain days during the season, of which notice will be given in a few days. lkes Sire, and is the sire of seventy-three with records from 2.114 to 2.30

Breed to no other till you see him.

Making Dynamite.

HOW THE WORK IS CONDUCTED SO a large upright revolving cylinder of lead, cooled by a series of surrounding cold water pipes, the acids and the glycerine are thoroughly mixed, being admitted in due proportions by other pipes from above. The such fodder will be sure to shrink in milk acloud by harping on failure. Life is worth such fodder will be sure to sirring in lining actionary narping on larger of the misapplication of things to time and place.

In the such fodder will be sure to sirring in lining actionary narping on larger of living if its pleasures are not murdered by the misapplication of things to time and place. Let your out-of-business hours drive the siliceous sand and farinaceous meal, after through that trying ordeal. Horses, kept wrinkles from your brow, and strengthen which it is perfect dynamite powder. The on maintenance rations through the winter, your manhood for the effort the future will cartridges, however, are made of another form of it called "explosive gum." This contains some extra ingredients, and is a of their sustenance from the straw stack, sort of paste. One of the elements is gun need now to be prepared for the severe labor cotton highly charged with nitrate. The of spring, plowing and preparing the ground inster farmer cured his horse of a balky freak most delicate work at Isleton is done by for spring crops and assisting in sowing and by gentle means. three women sitting at a table. One works | planting the seeds. They should have the a small bronze molder -- that is, a small best of hay and a grain ration, small at first to the wood lot for a small load of wood. cylinder—the diameter of which is that of the intended cartridge. As the compressed full work standard. Oats are a better did not beat him, but tied him to a tree and powder, which, being of an oily consistency, spring grain than corn. They contain more "let him stand." He went to the lot at sunnow assumes comparative solidity, issues from this tube or cylinder in the shape of a heat-forming elements. But oats and corn not straighten a tug. "I made up my mind," sausage or of macaroni it is cut by the woman or the left hand into equal lengths of about two of oats to one of corn by measure, make the barn, he would take that load of wood. three inches. Each piece is then carefully the ideal horse feed for the spring work, I went to the barn, got blankets, and covered taken up by the third woman, who wraps it is oiled cartridge paper, which she fastens, foods now, for wheat, is the lowest in price Then he refused to draw. At noon I went closing both ends and covering it to exclude moisture. The tremendous little instrument will be mode if equal parts, by measure, of lonesome. He drew that load of wood the is now complete.

She Tallies Deals.

Women are now engaged in many occupations that were formerly in the hands of | ing. men entirely, but probably there is no business that a woman is less likely to engage in han tallying deals. Yet visitors to Indianing sunshine or storm, will see a young several later on. woman who follows that occupation. Miss Mary Humphreys is her name. She is employed by Messrs. Stetson, Cutler & Co., varieties, and a sandy loam for the red or at Indiantown, and her chief occupation is suckering kinds. tallying the lumber that is being loaded on the schooners. She has been at this work for | more than two or three inches deep near the over a year, and gives as much satisfaction trees. Many an orchard has been either as any man, hardly making an error and her killed or so badly injured by deep plowing our scenery, of forest and mountain and lake, scoring being clear and neat. All through | that it is almost worthless. the severe weather of the past winter she ally. Her father is employed as a surveyor with a notebook and pencil in her hand, she is thoroughly at home among the small army seedlings of merit. Try them. of mill-hands. Should anyone attempt to impose on her he would make a very grave.

Seedlings of merit. Try them, ment of its highways. Good roads are a meroy to heart of departs of depart mistake. -St. John Globe.

-Dr. Benjamin Ward Richardson, one tal standpoint. Too many temperance advocates have so much gush and sentimentalism night deprive the heart of its needed rest, so by starting early, or before they have got far as the influence of the tipple goes. Dr. | into the roots of them. Richardson includes by saying: "But when I take wine or grog, I do not allow that rest, for the influence of alcohol is to increase the number of strokes. Instead of getting repose the man who uses alcohol puts on something like 15,000 extra strokes, and he rises quite unfit for the next day's work until he has taken little more of that 'ruddy bumper,'

which he calls 'the soul of man below.' -The season for the annual house clean ing and general clear up of back yards is here, and we wish to impress it on the minds of our citizens that they cannot be too careful or particular in cleansing their premises. The work of purification should not end and the receptacle for the sink refuse should have our careful attention. Death lurks in that carelessly guarded cesspool and filthy dumping place so often seen disgracing the back yards of some of our residences. There is a strong possibility that with the heat of summer, that dread scourge -cholera-will again break out in Europe and may be introducing into this country. If the necessary and commonest forms of cleaning and purifying are attended to, the cholera may come but it can't stay. Cleanliness is death to it. Whitewash is one of its greatest enemies. Carefully attended drains and sewers will not harbour it. Therefore let every citizen of this and the neighborng towns see that his premises are well cleaned and purified.

-Boasters are never worth a button with the shank off. Long tengue, short hand. Great talkers, little doers. Dogs that bark must run away when it is time to bite. The leanest pig squeaks the most. It is not the hen that cackles most that lays the most eggs. Saying and doing are two different nothing in them. Good men know them-selves too well to chant their own praises. "No," he replied, "for strawberries." "Is Good cheese sells itself without puffery; and the land poor?" I enquired. "No it is very when men are really excellent people find it out without telling. Bounce is the sign of foly. If a man is ignorant and holds his tongue, no one will despise; but if he rattles on with an empty pate, and a tongue that on with an empty pate, and a tongue that it is a FOOL.

Middleport, May 29th. Mr. Archie Rymal of Brantford, was an old time resident of this place. As his many friends believed this place. As his many friends believed his case incurable, it may be imagined that the following paragraph from the Courier was gratifying to everyone:

"Mr. Rymal's case which is known to be true, proves beyond a doubt that Dodd's kidney pills are of great merit for the purposes they are intended, viz: Bright's disease of the kidneys, rheumatism, backache, etc. It has certainly attracted the attention of the public by several marvelous cures. of the public by several marvelous cures, and Mr. Rymal's case occurring in this city brings the truth home to every fireside in Brantford and vicinity."

Cultivating Potatoes. A potato field should have been so thoroughly cultivated and eleaned from weeds and is a nuisance to everyone who handles before the blossoms appear that no deep it, unless thoroughly conversant with your

stirring would then be needed. Deep cultivation and pulling of large weeds from the hills late in the season is un- uring five sixteenths of an inch, although it favorable to a large yield, as many feeding is composed of nine letters, and should occopts are broken or badly disturbed. Such cupy not less than one and one-half inches, deep cultivation of corn or other crops is al- and better if two. - American Grocer. so injurious. Shallow, surface cultivation is usually advisable till the crop is too large to drive amongst with team.

large to drive amongst with team.

If one has neglected his potatoes till the ground is overgrown with weeds and the crop is in bloom, it becomes a question which to choose of two evils, and one should use to choose of two evils, and one should use to choose of two evils, and one should use to choose of two evils, and one should use to choose of two evils, and one should use the frozen part. Chas. Longmuir, Alameda, W. T. with the house. The back and front yards ground is overgrown with weeds and the the best judgment at command. Destroying the weeds will injure the crop but letting them alone may injure it more. I never intend to get caught in any such scrape. If I did I should have to pocket have to be good for anything. Hardship and the loss as punishment.

In cultivating potatoes or other hoed crops one should do all the cultivation possible before planting. Get the ground mellow and as free from weeds as possible. Then cultivate often while the crop is small. Cultivate more and more and shallow as the season advances. When the weeds are all killed by early cultivation there is no call for any but the shallowest stirring possible, just enough to keep the surface from crusting. An inch of loose earth prevents excessive drying of the soil beneath. Such shal-

low stirring is always in order. Soil For Strawberries

Passing one day a piece of ground that a young man was covering four or five inches things. Drums sound loud because there is thick with an extra good article of manure, brags he will write out his own name in berries." "Yes," I replied, "I have seen capital letters, and they will be these- that statement, but if you should see him and talk with him in reference to the ground you are preparing, I think he would hedge a little." As a rule people are not apt to get ground too rich, but still it is possible to do so. What strawberries need is the fertility that nearest approaches a virgin soil; a soil that contains the remains of a plant and animal life after it has been prepared in nature's laboratory. Such soil as you find in the corners of old Virginia rail fences, in blackberry thickets, in old stumpy clearings, anywhere in fact that cropping has ceased and nature has had her own way for a time. The nearest approach to this in cultivated farms is a heavy sod of grass or clover, plowed under, and subdued by growing one

or two crops of potatoes or wheat. The testimonials frequently published in this paper relating to Hood's Sarsaparilla. They are from reliable people, state simple facts, and show beyond a doubt that HOOI'S CURES. Why don't you try this medicine? Be sure you get Hood's.

I have noticed that the

my hands on a level with my body for fifteen gas seems to be at full height at almost any minutes. I arise as refreshed as though I | hour of the night. had taken a whole night's sleep." St. Peter-You say you led a wild life, -Wet velvet, if not completly saturated, but repented the eleventh hour? and consequently ruined, can be made presentable by a little judicious treatment Applicant-Yes; can I come in? Shake it well, so that all the drops will fly St. Peter-Perhaps so, eventually; you out of the nap, then hang it somewhere, well kept us so busy that we shan't be able to get spread out, to dry. Then take a soft, clean you posted up for some time yet. brush, a velvet whisk with soft, fine hair is

-A Yorkshire Vicar once received the surface, brushing briskly where the nap is following notice regarding a marriage from particularly flat and stiff. This often will a parishioner-"This is to give you notis freshen it wonderfully. Steaming it is also that I and Miss Jemima Arabella Brearly is good if worn or soiled. Put a wet cloth over comin' to your church on Saturday afternoon next, to undergo the operation of martrimony at your hands. Please be promp, as the cab is hired by the hour."

-" What a good thing it would be if men were angels!" said one young lady to another. 'Well, my dear, all those who made love to me were." "How so?" eagerly asked the former. "Why, because they have all

-Neighbor-I wuz s'prised to hear lately, Brudder Wampus, dat you's drinkin' hard. Mr. Wampus-Yas sir. Dey's a man out west says the worl' am gwine to come to an end in 'bout two weeks, an' I's bound I won't let dis here bar'l o' cider go to waste!

Sunday school teacher-What lesson are we to learn from the story of Jonah and the

Pupil-To stay on dry land. "This parrot I can recommend. He has

only one fault, he makes a terrible row if he does not get his dinner promptly." Widow -I shall take him. He will remind me of -Van Burst--" Every time you make me a pair of trousers you measure me a little

short." Tailor-" That isn't my fault, omc-made bread a day or two old in slices | You always come in that way." -A young man blackened his moustache with a crayon, and then took his girl out for a moonlight stroll. When the fair one appeared in the bright light of the family circle a few hours afterwards her face looked very

much like a railway map. A. L. Brackett, of Boston, writes that Hawker's Liver Pills are the only medicine his children will take. He says, also, that these Pills are the best he ever used.

-Changes will be made in connection with the sealing of goods in transit through Can ada, passing from one part of the States to another part of the States. Canadian officers at the frontier are authorized to seal cars in transit, and if the Canadian seal be broken before leaving the Dominion, then the goods will be subject to our custom law.
