**LINTON & JOOPER,**  
MANUFACTURERS AND WHOLE-  
SALE DEALERS IN BOOTS AND SHOES  
524, 525 & 523 St. Paul st., Montreal.  
We invite the attention of Merchants, East and West,  
to our large and varied stock of Boots and Shoes now  
on hand, and in process of manufacture for the Fall  
trade. Goods in every conceivable style will be found  
in our establishment, from the finest Kid or Satin  
Gaiter, to the strongest Stoga or Hungarian Boot.  
Men's, Boys', Youths', Ladies', Misses' and Children's  
wear, in over 200 different patterns. Special notice is  
requested to the fact that all our goods are hand-made,  
and of the very best material. The introduction of  
Pegging Machines having thrown a large number of  
workmen out of employment, and consequently re-  
duced the cost of labor, we are thereby enabled to  
manufacture neater and more substantial Boots and  
Shoes, at no greater cost than if made by machinery;  
and are prepared to offer the choicest goods at the  
very lowest possible figures.  
Orders personally or by Post, will have our immedi-  
ate and most careful attention. 1-ly

**J. TIFFIN & SONS,**  
GENERAL MERCHANTS, IMPORT-  
ERS OF TEAS, SUGARS, and GENERAL GRO-  
CERIES, WINES, BRANDY, &c., Nos. 184 and 186 St.

**THE TRADE REVIEW**  
 AND  
**Intercolonial Journal of Commerce.**

MONTREAL, FRIDAY, JANUARY 18, 1867.

We have received the statement of imports at this  
 Port for 1866, but too late for publication this week;  
 but we hope to lay it before our readers in our next  
 number. The following are the total imports for 1865  
 and 1866:

	1865.	1866.
Dutiable Goods . . . . .	\$15,331,189	\$22,413,682
Free Goods, Coin & Bullion . . . . .	913,541	76,618
Other Free Goods . . . . .	3,699,738	6,344,221
	\$19,944,468	\$28,794,521

The following is a statement of the amount of Legal  
 Tenders in circulation, Jan'y. 2nd, 1867, and the specie  
 held for their redemption:—

	In circulation	Specie held.
At Montreal . . . . .	\$1,973,307	\$438,000
At Toronto . . . . .	1,146,673	222,000
	\$3,120,000	\$730,000

Debentures held by Receiver General \$3,000,000.  
 The specie at that date was nearly 23 per cent. of  
 the circulation, being nearly 3 per cent in excess of  
 the requirements of the Provincial Note Act.

Notice is given in the official Gazette of application  
 for charter by a company in Richmond, County of  
 Richmond, under the name of "The Richmond Steam  
 Mill and Manufacturing Company" for the purpose of  
 manufacturing flour and lumber, the capital to be  
 \$2,000, in 800 shares of \$25 each.

Notice is also given that application will be made by  
 A Rankin, Esq., for letters patent for a new descrip-  
 tion of fuel composed of coal dust, coal tar, &c., in  
 combination with peat, of which Wm. Halsted, of  
 Truett, N. J., was the original inventor.

It is rumoured in England that Lord Monck will  
 not return to Canada, and that he will be succeeded by  
 Lord Naas, at present Irish Secretary.

The list of English subscriptions to the Quebec Re-  
 lief Fund is published, and exhibits a noble generosity  
 to praise which would be to gild refined gold. The  
 sum total of the subscriptions amounts to \$111,600!

The direct trade between this country and France is  
 yearly increasing. The number of vessels entered in-  
 wards at the Port of Quebec for 1866 was 22, tonnage  
 5222, and cleared from Quebec 22 vessels, 222 tons. In  
 the list of Canadian exports to France are 7 vessels of  
 2,277 tons, amounting to \$131,880.

Tenders for the deepening of the Grenville and  
 Carillon canal were opened on the 15th inst. in the  
 Public Works Department, Ottawa. The deepening  
 of the canal is deemed of such importance by lumber-  
 men and saw mill owners on the Ottawa, that they  
 have guaranteed upwards of thirty thousand dollars  
 to the Department of Public Works to enable the  
 work to be commenced at once in anticipation of a  
 grant from Parliament.

**MORLAND, WATSON & CO.,**  
 WHOLESALE  
**IRON MERCHANTS,**  
 AND  
 IMPORTERS OF HARDWARE,  
 Offices and Warehouse 385 and 387 St. Paul Street  
 MONTREAL.  
 Manufactories on Lachine Canal.

The London Railway News and Joint Stock Journal  
 states that the Canadian Delegates have settled all  
 points at issue with the N. B. and N. S. Delegates  
 on the one hand, and with the Imperial government  
 on the other, regarding the Confederation of these  
 Provinces, and that a bill on the accepted basis will be  
 introduced at the opening of next session, to confirm  
 the arrangement. It also says that the Imperial  
 guarantee of £3,000,000 for the Intercolonial Railway  
 will be increased to £4,000,000 if necessary, and that  
 the line can be completed in two years, to connect the  
 Grand Trunk with Halifax.

Mr. A. Michel, the well known mining engineer  
 attached to the Canada Geological Commission, and  
 on whose statements reliance may be placed, writes  
 that although he was not permitted to make in the  
 Richardson gold mine near Madoc, the works required  
 for a thorough investigation of the discovery, he saw  
 enough and assayed a sufficient quantity of earthy  
 matter and rock to be persuaded of the existence in  
 the Township of Madoc "of an auriferous deposit as  
 extraordinary for its wealth as for the conditions of  
 its existence"

A nugget of gold, weighing forty ounces, worth  
 about seven hundred dollars, was found a few weeks  
 since at a depth of 32 feet, on the DeLory property in  
 the Chaudiere district; and in the same place was  
 found a few days previously a smaller nugget weighing  
 eight ounces.

The advance which has taken place in the London  
 Stock Market in Canadian Government securities is  
 very gratifying, resulting as it does without doubt  
 from the harmonious manner in which the Confedera-  
 tion delegates have arranged the details of the scheme.  
 The following is a comparison of the quotations in  
 London at the 1st of October and in December 23th:—

	1st Oct.	23th Dec.	Adv.
6's January & July . . . . .	92 a 94	96 a 98	4 p. ct.
" February & Aug. . . . .	90 a 92	94 a 96	4 "
" March & Sept. . . . .	90 a 92	94 a 96	4 "
5's January & July . . . . .	75 a 77	80 a 82	5 "
" Inscribed . . . . .	75 a 77	78 a 80	3 "

The Quebec Fire Relief Committee held a meeting  
 on the 15th, when the Report submitted by the Treas-  
 urer showed that up to date \$338,734 had been received,  
 of which amount only \$96,248.05 have been expended,  
 the balance remaining on deposit in various banks.  
 The number of families receiving relief is 3,268.

The following are the imports of dry goods at the  
 Port of New York for the last ten years, those for 1866  
 being in excess of any preceding year:

1857 . . . . .	\$ 90,634,129
1858 . . . . .	60,151,679
1859 . . . . .	113,152,624
1860 . . . . .	103,927,160
1861 . . . . .	97,635,689
1862 . . . . .	66,121,227
1863 . . . . .	67,274,517
1864 . . . . .	71,689,752
1865 . . . . .	91,965,138
1866 . . . . .	126,222,855

The Wool Growers' Association of Illinois recently  
 held a meeting at Springfield in that State, at which  
 speeches were made and resolutions adopted in favour  
 of high duties on wool, and they pledged themselves  
 without distinction of party hereafter not to support  
 any person for either state or national office who was  
 opposed to the protection of American industry.

It is proposed to establish an universal green back  
 currency in the United States, the national Bank notes  
 to be replaced by \$300,000,000 legal tenders. The sup-  
 porters of this scheme claim that by retiring 6 per  
 cent. bonds to that amount, a saving of \$18,000,000 per  
 annum to the country would be effected. The imme-  
 diate effect would probably be an advance in the  
 premium on gold.

**EXPORT TRADE OF MONTREAL.**

WE publish elsewhere a tabular statement of the exports of Montreal by sea and rail for the years 1835 and 1836. In goods not the produce of Canada there is a decrease of \$839,416, but on the other hand, of the productions of Canada \$1,925,934 worth more have been exported from this port in 1836.

The following are the totals:—

	1835.	1836.
Goods the produce of Canada....	\$5,331,184	\$7,289,474
" not the produce of Canada.....	2,151,693	1,322,152
<b>Total export from Montreal.....</b>	<b>\$7,482,877</b>	<b>\$8,611,626</b>

This increase has taken place chiefly in the items of Barley, Oats, Oatmeal, Peas, Flour, Butter and Cheese, the shipments of Oats being nearly a million bushels in excess of 1835.

If the trade of Montreal is to be taken as any index to that of the whole Province, a very great increase in every respect may be looked for. The shipments of lumber in 1836 we know to have been very heavy, and also of horses and cattle from various parts of the country, and there is no reason to apprehend any falling off in other articles.

**LACHINE HYDRAULIC SCHEME.**

THE great project originated by enterprising citizens of Montreal of damming the Lachine Rapids, is attracting considerable attention from the press of the Province and from private individuals. One leading Western Journal speaks of it as a work of "tremendous magnitude and transcendent importance," whilst many others commend the public spirit and enterprise which prompt the efforts about to be made to realize it. Had it not been for the astonishing advancement the world has made of late years in carrying out great undertakings, the idea of placing a dam across the north shore of the St. Lawrence at the Lachine Rapids might well have been scouted as impracticable. But the skill of man is becoming omnipotent. Our Victoria Bridge, the Atlantic Cable, and half a dozen other important undertakings, fully attest this, and this new project, so creditable to the enterprise of our principal citizens, and so necessary to the manufacturing progress of the city is by no means impracticable. Heron Island and the other smaller ones above it, can, without doubt, be connected by a dam to the shore—not, of course, without a large expenditure of time and money. But in judging of the propriety of entering into the work, its great importance and utility must be considered. Fifteen years ago it was probably unnecessary. The manufactures of Montreal were then but small compared with what they are now. In no particular has the city advanced more rapidly during that period than in the number and extent of its manufactories, the benefits of which are too well known and appreciated to require to be pointed out by us. The Lachine Canal does not now afford sufficient water-power, and unless some means were found of increasing it, it would not be long until our industrial progress received a check. If the Lachine rapids are successfully dammed across at Heron Island—not to speak of the contemplated canal—the motive force obtained will be enormous. It will completely settle the water supply for Montreal for many years, and when the canal is finished, we will literally be able to say that we have "enough and to spare." The great importance of this gigantic undertaking to Montreal, and indeed to the entire Province, can hardly be over-estimated. There are many reasons why this city should become the chief manufacturing district in this country. To begin with, we have cheaper labour probably than any other place; this fact, added to our unequalled water-power, give this city an advantage over many other localities, and when to those advantages is added the superior market which Montreal affords, we have said enough to show why it ought to become the chief manufacturing place in the country. The project of the St. Louis Hydraulic Canal, any, if successfully carried out, will do much to ensure the manufacturing supremacy of this city. Two million of dollars is undoubtedly a large sum to contemplate spending on any single private enterprise. But when we considered the immense advantages which that expenditure may produce—the mills and factories it may set in motion—and the workmen to which they will give employment, we believe it will be money well and profitably spent. The same journal to which we have already alluded, gives its opinion that this great undertaking—adding as it will so immensely to the water-power of Montreal will

cause it to double its population in ten years! This may appear to some rather an extravagant estimate, but we should not be the least surprised if it were realized. One thing at least we may be certain of—it will greatly augment the already rapid progress of this city, and served to render it more than ever—the commercial metropolis of Canada.

**TRADE AND FINANCE.**

SOME interesting particulars regarding the Trade and Finances of Canada have recently been published. On both of these points, very satisfactory statements are given by our government officials—showing, as they do, that this country continues to enjoy a large share of prosperity.

During the last fiscal year, the balance of trade, for the first time in many years, was in our favour. The total returns of our trade foot up to no less than \$10,130,626, of which we exported articles to the value of \$55,328,339, and imported from other countries to the extent of \$58,922,319. This is a large trade for a young country like Canada, and it is gratifying to know that it has been as profitable as it has been extensive. Of our imports, we bought most largely from Great Britain, the amount being \$28,984,530. Before the late civil war across the lines, the United States held the foremost place in this respect; but during last year they sold us only to the value of \$21,424,635. The difference now in favour of the mother country is thus over \$8,560,000—a fact which shows how injuriously the high taxation and prices in the States have effected their foreign trade. Of our exports, on the other hand, our American neighbours took most; we sold them to the value of \$34,770,201 whilst we only took from them articles worth \$12,951,641. Striking a balance between the amounts we sold the Americans and they sold us, we find that the balance of trade is in our favour to the large extent of \$14,315,576! This is a very significant circumstance when viewed by the light of the abrogation of the reciprocity treaty, and may serve to give brother Jonathan a little light on the question—who pays the duties he has so senselessly imposed.

The Auditor General has recently published an official statement of the receipts and expenditures of Canada during the six months ending the 31st December, which is the first half of the fiscal year 1856-67. This statement must also be very gratifying to the people of Canada for it shows that our revenue has been more than sufficient to meet the government expenditures, and that there is a handsome surplus over. The figures are as follows:—

	Receipts.	Expenditures.
July .....	\$147,223	\$1,065,600
August .....	1,322,657	1,140,681
September .....	1,175,843	716,931
October .....	1,171,071	922,259
November .....	982,115	1,217,126
December .....	794,118	461,282
<b>Total .....</b>	<b>\$5,956,097</b>	<b>\$6,163,778</b>

A balance in favour of the Province on the six month's transactions of \$728,249, must be considered quite satisfactory. Had a surplus been a common feature of our financial management, there would not have been much cause for comment on the present occasion; but it is well known that we have suffered from a long series of deficits, which have added largely to our public debt, and done not a little injury to the credit of the country. We hail this large surplus as a harbinger of better financial management, and we trust we have seen the last of deficits in our Provincial revenue for some years to come. Another fact bearing on this point also deserves to be mentioned. We refer to the fact that during the period for which the above returns are given, the government has been put to a larger expenditure than usual, on account of the arming and equipping the volunteers, and putting down the Fenian raid. That the greater portion of this outlay should have already been paid, renders the fact of the above balance in our favour all the more satisfactory.

Whilst touching on this topic, we may also mention that a statement regarding the Provincial notes in circulation, is made every month. Up to the 2nd Jan. last, the notes in circulation were \$1,975,307, the amount payable at Montreal being \$1,146,693, and at Toronto \$828,614. The amount of specie held in Montreal to redeem these notes was \$438,000, and at Toronto \$292,000. Three millions of Debentures are held by the Receiver General under the Provincial Note Act. These notes are now to be found in almost every section of the country.

**BANKING IN THE UNITED STATES.**

THE banking interest in the United States is in a peculiar position. Ever since the New York banks, at the beginning of the war agreed to loan the government fifty millions to carry on operations, they have been so involved with it, that under all circumstances they must sink or swim with it. Unlike bankers here and in other parts of the world, the discounts of the banks are comparatively small,—in many cases not amounting even to their capital. This all confirms what has been so often said during the last few years, that the credit of the government in various shapes had been universally substituted for the old forms of mercantile credit. Cash payments it was said, were the rule, and credit the exception, consequently discountable paper was restricted to very narrow limits, compared with the amount formerly current. Cash payments, however, were really only credit payments in another form, the actual truth being that instead of so many millions being found in the books of traders as due from one to another, or found in the bill cases of bankers as discounted for such traders, the whole mass has been agglomerated into a debt of the government to all and sundry, whoever may be the holders of their bonds or bills for the time being. The fact that a vast portion of the cash current in the country is that of national banks does not affect the question at all, for the notes of these banks rest on Government securities. The vastness of cash current in the country is therefore only an evidence of the indebtedness of the Government. This consideration will enable us to understand how it is that the loans and discounts of the banks are so low. Instead of private individuals owing one another, Government owes them all, and thus, instead of the banks holding bills representing private indebtedness, they have the larger part of their funds employed in bonds and securities representing the indebtedness of the Government. We have before us a printed statement of the condition of the National Bank of Commerce, New York, the bank of the largest capital, and probably the largest business on the American Continent. This bank has always maintained a high, conservative character, and taken the lead amongst the banks of the United States. When its adhesion was secured to the loan of fifty millions before referred to, the Secretary of the Treasury felt secure.

As a matter of interesting comparison, we have placed the statement of this bank and that of our largest institution side by side. The points of agreement and of contrast are worthy of note, as affording an index not only to the course of business pursued by the two institutions, but of the condition of business in the places where it is carried on.

COMPARATIVE STATEMENTS.		
	Bank of Commerce, New York.	Bank of Montreal.
Capital .....	\$10,000,000	\$6,000,000
Reserve .....	3,822,000	1,000,000
LIABILITIES.		
Circulation .....	5,521,000	2,429,000
Due to other Banks for deposits, &c .....	3,497,000	465,000
Due to depositors, including Government .....	10,034,000	9,100,000
	\$19,052,000	\$11,994,000
RESOURCES.		
Specie and Local Tenders .....	7,870,000	2,100,000
Government Securities .....	12,100,000	2,384,000
New York City Stock .....	235,000	
Due from Banks .....	351,000	3,047,000
Notes and Bills of other Banks .....	4,323,000	541,000
Bank Premises .....	400,000	350,000
Loans and Discounts .....	7,277,000	11,285,000
	\$32,603,000	\$19,711,000

An experienced eye on looking over these figures will at once interpret their meaning. On a capital of \$5,000,000, the Bank of Montreal discounts \$11,200,000, while the Bank of Commerce, with \$10,000,000 of capital, discounts only \$7,200,000. But while the Bank of Montreal has lent the government only \$3,300,000, or little more than a third of its capital, the Bank of Commerce has lent in the same manner \$12,100,000, or its whole capital and one-fifth more. The very existence of the Bank therefore rests on the strength of the government. The volume of the daily transactions of a bank may be estimated by the amount of other bank notes and cheques it holds from day to day. The amount held by the Bank of Commerce is eight times that of the Bank of Montreal, and as the whole of its business is done in one office, while the statements of the Montreal Bank includes notes held at its numerous

branches, we may form a conception of the enormous volume of the days' transactions in a great New York bank. To judge by this statement, and from other sources of information we should say there must be some \$10,000,000 passing over the counter, in receipts and payments every day. This, of course is in the depreciated currency of the United States. The Bank of Commerce it will be observed owes a large sum to other banks. These are banks for whom it acts as agents, and whose balances are held at call, the item therefore, does not, as in the case of banks here, indicate a drawing on foreign credits.

The respective strength of the two institutions is an interesting subject of comparison. The Bank of Montreal has in available means about 42 per cent. of its liabilities, the Bank of Commerce about 41 per cent. The last of course is inclusive of government securities, which, in the case of the New York institution, are as available as any other of its assets, from the fact that they can be sold in Wall street at any hour.

### INAUGURATION OF THE BLUE LINE.

THE completion of the third rail of the Great Western Railway, whereby passengers and freight can be carried from the Atlantic to the Missouri without change of cars, is an event of great importance indirectly to Canada—directly to the States lying to the East and to the West of her. The benefit, however, of this new line of uniform gauge will be chiefly to the great North-West, for the carrying of freight to and from which it will be mainly used.

The completion of the undertaking was duly celebrated at Hamilton last week, when a number of gentlemen from Chicago, and Detroit were hospitably received and entertained by the officers of the Great Western Railway and the Hamilton Board of Trade. An address of welcome from that Board was read, and speeches were made and toasts drunk in honor of the guests, of the Great Western, and its manager, Mr. Swinyard, &c. &c. Everything passed off very pleasantly and cordially, good wishes being freely interchanged between the Hamiltonians and their guests from the West.

We trust the "Blue Line" will prove a great success, and that the Great Western Railway Company may reap all the benefits they deserve for their enterprise and energy in planning and carrying to a successful termination so important an undertaking.

### British Exports

The following statement shows the value of British and Irish produce and manufactures exported from the United Kingdom during the three first quarters of the years 1855 and 1856, with the countries to which they have been chiefly exported.

	1855.	1856.
Russia	2,355,039	2,435,676
Prussia	1,632,658	1,311,629
Hanse Towns	11,127,923	9,672,517
Holland	5,743,008	6,657,199
Belgium	2,688,519	2,125,294
France	6,721,280	8,598,242
Portugal	1,519,588	1,519,112
Spain	1,629,233	1,585,218
Italy	1,131,577	3,979,571
Turkey, European	3,431,741	4,545,371
Egypt	3,919,158	5,726,874
China	3,711,611	5,539,825
West Indies	3,991,188	4,100,922
United States	12,333,326	22,695,239
Mexico	15,151	1,019,429
New Granada	17,583	2,272,141
Chili	1,258,956	1,133,568
Brazil	4,696,613	5,424,836
Argentine Confederation	1,476,224	1,988,472
Gibraltar, Malta & Gozo	1,379,151	1,337,595
British Provinces in Africa	2,189,637	1,872,625
India	11,300,691	14,764,779
Singapore & Eastern Straits	1,163,897	1,463,562
Australia and New Zealand	9,165,197	9,676,415
British North America	4,922,018	6,317,622
Other Countries	12,782,988	11,816,164
	111,717,377	141,939,898

The total exports to British possessions in various parts of the world are:—

	1855.	1856.
To British Possessions	£ 36,569,637	£ 40,614,655
To Foreign Countries	83,297,720	101,322,243
Total	£119,717,377	£141,939,898

The exports to the United States show by far the greatest increase in 1856, amounting to over £10,000,000. British North America, France and Egypt, figure next in order, as increased importers of British produce and manufactures.

### EXPORTS OF MONTREAL.

Comparative Statement of the Quantity and Value of Exports at the Port of Montreal, being the Growth, Produce and Manufacture of Canada for the years 1855 and 1856, from official sources.

**MONEY MARKET.**

**MONEY** still continues very abundant, and on good collaterals, has been offered as low as 6 per cent., and even under. Sterling Exchange is firm at 109½ for 60-day Bank Drafts on London, the rate in New York being 109½ to 109¾. Gold sight drafts on New York are scarcer at ¼ to ½ premium. GOLD in New York has been higher during the past week, averaging 184½, and closing at 187, the highest point reached. About a million of dollars were shipped from New York last week. SILVER without much change, buying at 4½ to 4¾, and selling at 4 to 3½ per cent. discount.

**THE DRY GOODS TRADE.**

|                            | Winks, George & Co.     |

**WE** have nothing new to notice in this department of trade. Importers are doing little or nothing, and we understand that the retail country trade from sundry causes is not as active as was anticipated.

The imports of Dry Goods at this port for 1866 are heavier even than was supposed, and are very greatly in excess of those of 1865. Most of the wholesale merchants are holding over heavy stocks, the greater part of which has been taken out warehouse.

The following figures show the comparative imports of the several classes of Dry Goods, with the amount remaining in warehouse on the 31st Dec., 1866.

	1865	1866	Being in Whous.
Cottons.....	\$2,613,994	\$4,098,100	\$ 51,818
Woolens.....	2,856,432	5,427,566	105,218
Silks & Velvets.	460,532	651,014	7,015
Fancy Goods....	154,333	206,048	977
	\$3,184,321	\$10,382,718	\$165,028

Showing an increase in 1866 of \$4,198,297, or nearly 68 per cent. over 1865. In Woolen goods the increase has been over 83 per cent., and so far these have been slow of sale, and constitute the largest portion of stocks on hand.

Cotton in Liverpool has been less active and a fraction lower, closing at 14½d., for middling uplands. The Manchester markets continue to show more activity, and the tendency was towards higher prices for manufactured goods.

**THE GROCERY TRADE.**

- |                         |                        |

|                         | Winning, Hill & Wara.  |

**SINCE** our last issue we have very little increased activity to report. A light jobbing trade, which is fair for the season of the year, prevents the jobbers from being entirely idle.

Some transactions have taken place in raw sugars during the week at an advance of ¼c. to ½c. per lb. on previous rates; and a considerable inquiry for teas has arisen, but generally buyers' and sellers' views can not be reconciled.

**SUGARS**—Sales of the week about 300 hhd's Barbadoes; part sold at \$7.90, the balance at about \$7.50, \$7½ was offered for some 200 hhd's, and refused. Market firm; stock very light.

**Imports of Sugar for 1865 and 1866:**

	1865	Value	1866	Value
Raw...lbs.	30,685,668	\$1,874,400	36,210,446	\$1,547,867
Refined...	724,202	\$42,181	262,606	\$18,006
Cane Juice .....			616,481	\$18,779
	31,409,870	\$1,416,581	37,089,533	\$1,579,452

**MOLASSES**—Very little doing, buyers' and sellers' views being apart. Stock is light. Very little in first hands. Holders are asking 28c for Muscovado, and 40c for Br. Islands.

**Imports of Molasses for 1865 and 1866:**

	1865	Value	1866	Value.
2,075,583 gals.	\$425,271	7,892.97 lbs.	\$279,648	
		561,568 gals.		

**TEAS**—A very good inquiry has arisen for teas principally for uncoloured Japan, but few transactions

have taken place. We hear of sales of some 500 or 600 chests at prices which have not transpired.

**Imports of Teas for 1865 and 1866:**

1865	Value.	1866	Value.
6,454,468 lbs.	\$2,212,920	4,526,145 lbs.	\$1,602,714

**COFFEE**—We have nothing to note.

**Imports for 1865 and 1866:**

	1865.	Value	1866.	Value.
Green.....	820,429	\$177,620	604,166	\$79,920
Ground.....	6	2	960	182
	820,435	\$177,622	605,166	\$80,102

**WINES AND LIQUORS**—Very little doing, and no change in prices.

**Imports for 1865 and 1866:**

	1865.	Value	1866.	Value.
Wine, gals.	294,466	\$183,603	562,838	\$382,422
Whisky.....	22,710	15,661	23,178	22,714
Brandy.....	72,912	89,995	203,955	219,817
Gin.....	107,887	24,802	111,993	30,887
Rum.....	25,389	10,271	74,917	26,018
	524,364	\$318,332	976,896	\$674,953

**SALT**—Lower; sales of from 500 to 1,000 bags coarse at 80c.

**THE LEATHER TRADE.**

- |                 |                 |
|-----------------|-----------------|
| Brown & Childs. | Seymour, M. H.  |
| Seymour, C. E.  | Shaw F. & Bros. |

**BUT** little change has taken place in this line of business during the week. Stock has caved in rather more freely, especially Sole, but from the previously limited supply, no depressing effect has as yet been produced in prices.

**SPANISH SOLE**—For medium grades and No. 2 there is a fair demand, but best No. 1 is for the most part neglected.

**SLAUGHTER SOLE**—There is still a scarcity of this stock, but prices are unchanged.

**HARNES**—Continues without change.

**WAXED UPPER**—Has been quite inactive, while at the same time the stock on hand is small.

**BUFF AND PEBBLED**—Have been in fair request, especially Buff, which is less plentiful.

**PATENT AND ENAMELLED**—The latter has been in demand, selling readily at quotations, whereas Patent has not been much asked for.

**CALFSKINS**—The demand has been light, and so also have been the receipts.

**SPLITS**—Receipts have been more liberal than heretofore, but no difficulty has been found in making sales at fair prices.

**SHEEPSKINS**—Colored Linings are in demand, and there is ready sale for Russets of medium to light substance.

**HIDES**—The stock in market is greatly reduced, and prices remain firm.

**THE HARDWARE TRADE.**

**BUSINESS** still remains quiet, but with a little more activity than hitherto noticeable. Cut Nails are firm, and a fraction higher. Manufacturers have already taken as many orders as will keep them busy till spring, and are indifferent about receiving more at present. Bar Iron is in better request, with a brisk business springing up. Some sizes of rounds and horse-shoe are very scarce, and are worth rather more than quotations. Canada Plates are quiet, but firm at quotations. In Tin Plates there is no change to report: the stock on hand is sufficient for present requirements. For Iron Wire there is a good demand, and some sizes are already very scarce.

The Montreal Custom House returns for 1866 shew a great increase in the imports of Hardware as compared with 1865. They are as follows for the two years:

1865.....	\$ 498,754
1866.....	1,068,415
	\$ 569,661

Of manufactured iron, such as plates, bar, hoops, &c., &c., full returns are not given, being only for the period during which it was subject to duty: but even for that time in 1866 the imports exceeded those for the whole of 1865.

**THE BOOT AND SHOE TRADE.**

- |                          |                     |
|--------------------------|---------------------|
| Ames, Millard & Co.      | Linton & Cooper.    |
| Hunter, Duffy & Johnson. | Popham, James & Co. |
|                          | Srith & Cochrane    |

**WE** have no change to note in boots and shoes this week. Trade very dull.

**MONTREAL PRODUCE MARKET.**

- |                            |                      |

**FLOUR**—Receipts continue liberal, and with a restricted consumptive demand, stocks go on accumulating, making an increase of rather over 5000 bbls. during the opening half of January. The higher grades have almost run out of stock, and the small sales made are at high and irregular prices. Little variation in the prices of Superfine can be noted, as those hitherto buying on speculation have continued to absorb a large proportion of the receipts, the balance being needed for local use. Competition has however abated in some measure, and an easier feeling was manifested toward the close. In the lower grades little has been done, and rates quoted are mostly nominal, latterly however, these grades have been more inquired after, and a better demand is now looked for. **Bag Flour**—The supply from all sources has been fair and prices have been barely maintained, \$3.56 being now the extreme figure for best samples.

**OATMEAL**—A fair demand continues, and all desirable samples sell freely at about \$5.

**WHEAT**—There is little offered in the hands of agents, the receipts being mostly direct to millers. There has been less enquiry latterly, and quotations are obtained with difficulty.

**PEAS**—Sell as offered at from 80c. to 82c. per 60 lbs., or about 90c. per 68 lbs., and same rates are offered for future delivery.

**OATS**—A few cars are daily selling, mostly at 82c., from car or store. The demand is good, and prices likely to be well sustained.

**PORK**—The demand is entirely nominal, and in anticipation of lower prices, dealers prefer awaiting the actual and pressing requirements of their trade to buying a single barrel ahead—the local demand is supplied by hogs in the carcass, which come in at lower prices than holders would be willing to sell packed pork for. **Dressed Hogs**—Arrivals during the week have been largely in excess of the capabilities of this market either for consumption or packing. Prices consequently continue to decline, and sales even of choice heavy weights are difficult to effect: most of the packers have partly from necessity retired from the market as the packing houses are fully stocked with work for several weeks yet to come. It seems likely therefore that prices will remain during the remainder of the season at a lower point than have been lately ruling.

**BUTTER**—Presents no new feature to vary the reiterated accounts of dullness both here and in all the other markets of the world—no outlet at present appears to offer itself, and holders have no resource but to continue holding until some purchaser comes forward to clear the market. Stocks are not heavy, receipts having been light for some time past, and several parcels continuing to be shipped to Britain on Upper Canada account; so that a moderate export demand would now absorb all the stock on hand.

**ASHES**—Pots have fluctuated violently during the week, rising or falling day by day according to the presence or absence of speculators, the whole of the stock is now in their hands, and prices depend in a very great measure on their ideas of probable value and demand. *Pearls* quiet and unchanged.

**GRAND TRUNK RAILWAY OF CANADA.**

(Including the Receipts of Montreal & Champlain and Buffalo & Lake Huron Railways.)

**RETURN OF TRAFFIC, Week ending Jan. 12, 1867:—**

Passengers.....	\$81,758
Express Freight, Mails and Sundries	5,500
Freight and Live Stock .....	78,228
Total.....	\$115,481
Corresponding Week, 1865.....	118,332

Increase..... \$ 2,149

**W. J. STEWART,**

315 ST. PAUL STREET,

MONTREAL,

**H**AS been appointed Sole Agent for the following Manufacturers:—

**FINLAYSON, BOUSFIELD & CO**—Manufacturers of Patent Linen Threads, Machine Thread Shoe Thread, and Gilling Twine. Mills, Johnstone, near Glasgow.

**GEO. & WM. WAITES**—Spinners, Twine Manufacturers, and Yarn Merchants, 8 Marsden Square, Manchester. Works, Clayton West, near Huddersfield, and Spring Vale Works, Penistone

**WM HOUNSELL & Co.**—Manufacturers of Twines, Lines, Nets, Seins, &c., &c. Laid by Machinery, secured by Royal Letters Patent. North Mills, Bridport, Dorsetshire.

**JOHN & THOMAS JOLLEY**—Manufacturers of Lancashire Files, Tools, &c., &c. Excelsior Works, Warrington.

**THOMAS BOOTH & SONS**—Manufacturers of Agricultural Implements, and all kinds of Machine Knives, &c. Gainsbro' Mills, near Rotherham.

**WILLIAM CLARKE & SONS**—Manufacturers of Needles, Fish Hooks, &c., &c. Mount Pleasant Mills, Redditch.

Montreal, Jan., 1867.

**CAMERON & ROSS,**

**COMMISSION MERCHANTS,**  
448 Commissioners Street, Montreal, are regularly receiving and selling on Commission all kinds of country produce—such as Flour, Grain, Butter, Cheese, Pork, Pot and Pearl Ashes, Leather, Wool, Clover, and Timothy and Flax Seeds; also purchasing on country account, Dry Goods, Groceries, Hardware, and General Merchandise.

**FLOUR.**—We have heard of no large sales during the week. The Market is steady, and holders feel a confidence that prices will not be lower for some time.

**BUTTER.**—The Market is very bare of the finer qualities, which would readily sell for 16c to 17c per pound in silver for local trade. We might state that owing to our being situated in the principal thoroughfare of the city for the provision trade, and having command of a large local business, we are always enabled to work off to good advantage any choice lots that arrive,

We have heard of sales being made of inferior and medium as low as 11c to 12c per pound. We, as yet, returned no sales as low as the above. We might refer to a custom which is very prevalent and very injurious to the trade—to none more so than country merchants themselves;—that is, of sending their butter to parties not engaged in the trade. It is not an unusual occurrence to have a representative from a Dry Goods, Grocery, Hardware, and Boot and Shoe establishments trying to effect sales of, or asking what we would give for a lot of butter—all in one day! Now we can assure our friends in the country that none of our regular traders are likely to pay within one to two cents a pound of what they would otherwise pay if they were buying from those in the trade. It is always observed when the regular buyers cease going through the country, very often on account of the high prices asked—higher than any market they could send it to would warrant them in paying—that it is sent, as we already referred to, into so many different hands, that the price cannot be maintained as it otherwise would, if it was kept within the limits of the trade. We would advise parties holding good parcels to send early to market.

**DRESSED HOGS.**—The arrivals are large, and, with a full Market, prices have somewhat given way. \$5.40 to \$5.60 per 100 lbs. are the nominal quotations for the past few days. Prices are likely to be still lower here. If a thaw should set in soon, which is very likely, prices will materially decline.

**CLOVER SEED**—Is not likely to prove so short in supply as was once anticipated from the unfavourable season, there is as yet but little coming forward. Hence there is no established price fixed. 10c per lb. would be about the outside figure good quality would bring at present.

**ASHES**—Per 100 lbs.—Pots are lower. Firsts sold at \$6.22 and \$6.15; \$6.00 to \$6.07 offered at the close. Seconds, nominal \$4.75 to \$4.80 nett. Thirds, \$3.95 to \$4.00 nett. Pearls \$7.10 to \$7.15.

Country orders receive immediate attention, and all obtainable goods forwarded with as little delay as possible. All sales and purchases have our personal attention. Charges as low as is consistent with a view to responsibility.
