## GERMANS ATTEMPT TO TAKE DUNKIRK ATTACKS ON BELGIAN ARMY ADVANCE NORTH OF ARRAS

### CANADA WILL SEND MORE CONTINGENTS, 10,000 AT A TIME

#### FIFTY THOUSAND MORE CANADIANS FOR THE FRONT

Sir Robert Borden Makes Official Announcement of Intention to Send More Contingents of 10,000 Men Each, Commencing in a Month.

By a Staff Correspondent.  
OTTAWA, Ont., Oct. 18.—The following official statement was given out tonight by Sir Robert L. Borden:  
"During the past week, the government have continuously had under consideration the organization of a second contingent. The prime minister, the acting minister of militia and the sub-committee of the privy council had a lengthy conference on Saturday with Col. Gwatkin, chief of the general staff, and Col. Denison, adjutant-general, respecting the following questions:  
"1. The defence of Canada against any probable raid or attack by land or sea.  
"2. The training, organization, equipment and despatch of further expeditionary forces.

PLENTY OF MEN AVAILABLE.  
"There is no question about the officers and men available. Many thousands throughout Canada are eager for an opportunity to go to the front. The response to the call of duty throughout the country has been most inspiring.  
"Two considerations have to be taken into account in connection with the despatching of further expeditionary forces: The provision of rifles, guns, ammunition and other equipments, and the ability of the British Government to receive further contingents and give them the necessary final training, having regard to the enormous force which is being organized and trained in the British Isles.

HOME DEFENCE FIRST.  
"The first concern of the Canadian Government is the defence of our own territory, including our ports and harbors. For this purpose about 8000 men are now under arms in Canada, and are serving on garrison or outpost duty from the Atlantic to the Pacific. At important points on both coasts the defences have been strengthened and guns have been mounted. Other coast and harbor defences, the nature of which it is not desirable to publish, have also been prepared. Expert military advisers of the government state that this force could be very rapidly increased from the active militia at an hour's notice, and they consider that every reasonable safeguard against successful attack has been provided. As to the organization and despatch of further contingents the following conclusions have been reached:

MORE CONTINGENTS.  
"1. From the present time until the end of the war, or so long as the war office shall deem it advisable, Canada will keep continuously in training and under arms (in addition to the 8000 men above mentioned) 30,000 men.  
"2. As soon as arms, guns and equipment can be provided for a force of 10,000 men, that force will be despatched to Great Britain, as the first instalment of a second expeditionary force. Thereupon additional men will be enlisted so as to keep the number under training continuously at 30,000. This process will continue from time to time. That is to say, as soon as each force of 10,000 men is armed, equipped and despatched, another force of 10,000 will be enlisted to take its place and to bring the number in training up to 30,000.

FIRST FORCE IN DECEMBER.  
"3. It is anticipated that the first force of 10,000 men will be despatched in December and thereafter at regular intervals similar forces will be continuously sent forward as rapidly as they can be armed and equipped.  
"4. Including the forces on garrison and outpost duty, we shall thus have under arms or in training about 40,000 men in Canada, and until the end of the war or until the war office advises that further expeditionary forces are not needed, a steady stream of reinforcements will go forward from our shores to the seat of the war.  
"5. If the expected communication from the war office should make any modification in the above arrangement necessary, that modification will be announced at a later date.

IMPOSSIBLE TO DO MORE.  
"6. The government is informed by its military advisers that it would be impossible to supply arms, guns and equipment on a larger scale than that laid down in these proposals.  
"7. Pending advice from the war office as to the composition of the second contingent, which have not yet been received, infantry to the number of 16,000 or 20,000 will be immediately enlisted, and the organization and training of infantry will be begun thru the Dominion from Halifax to Victoria.

TO ENLIST OTHER UNITS.  
"8. As soon as the expected instructions arrive from the war office immediate arrangements will be made for enlisting such cavalry, artillery, engineers and administrative units as the war office may advise.  
"9. The organization of these units and the forces contemplated by these proposals will be under the directors commanding divisions and military districts and will be carefully carried out by them."

#### TO NOMINATE CANDIDATE FOR DOMINION HOUSE

NAPANEE, Oct. 18.—A convention of the Conservative Association of Lennox and Addington will be held at Napanee on Wednesday, Oct. 28, to nominate a candidate for the next Dominion election. A public meeting will be held in the afternoon to be addressed by the Hon. A. McEwen, solicitor-general, and others. This riding is getting ready for election in the near future.

#### SIXTY-FOUR GERMAN PRISONERS AT PARIS

Canadian Press Despatch.  
PARIS, Oct. 18.—Sixty-four Germans between the ages of 18 and 25 years were arrested in Paris today. They were military service age, they had been allowed to remain here under permits issued to such aliens.  
Two more groups of Germans, Austrians and Hungarians were sent to the provinces this afternoon.

#### GREAT BATTLES ARE RAGING ON EASTERN WING

St. Die Centre of Fierce German Attacks on Sunday.

#### WHOLE BATTALION TAKEN

French Onslaught Dazed Teutons—Turcos Did Deadly Work.

Canadian Press Despatch.  
FROM THE BATTLEFRONT, Oct. 18, via Paris, 19, 128 a.m.—What in previous wars would have been called great battles, were fought today on the eastern wing of the fighting line, stretching from the Belgian coast to Switzerland. In this great battle of nations, however, these fights are regarded merely as incidents. The fighting always has been of the most fierce nature in this district, owing to the strenuous efforts of the Germans to obtain possession of the strong fortresses of Verdun, Toul and Epinal, in order to open a way from Metz into France.  
"Salut Die, on the Meurthe, 22 miles northeast of Epinal, was the centre of today's attacks, which resulted in a repulse for the Germans with heavy casualties. The borders of both Alsace and Lorraine also fell the shock of battle, and in the Vosges the famous French Alpine regiments were in contact with German columns. These mountaineers continually kept the Germans busy by utilizing their remarkable machine guns and baffling their efforts to drive them out.  
"Cut Railroad Communication.  
The German movement in the recent operations was the cutting of railroad communication between Colmar, capital of Upper Alsace, and Mulhouse, thereby increasing the difficulties of the Germans in sending their wounded to the rear and in bringing up supplies.  
The Germans have brought up 10-inch mortars in this district, supposedly for an intended eventual siege of Belfort. In view of this possibility, the French have renewed their attacks from the south and again advanced beyond Altkirch, a great part of the theatre of operations in southern Alsace is illuminated at night by forest fires and by the Swiss frontier, caused by shells falling across the border.  
Along the entrenched line where the armies have been, face to face for six weeks nothing beyond desultory bombardment occurred today; but farther north, on the western wing, where the Germans efforts to break the allies lines have been unsuccessful the fighting still continues.  
Captured by Germans.  
"During a dense fog which overhung the battle line, hindering operations on both sides, a second regiment of French infantry, under cover of the fog, recently made a dash on the Germans on the Somme River, surprised the men in the trenches and annihilated their first line with the bayonet."

#### HEAVY FIRING NEAR DUNKIRK

Destroyers or Gunboats Are Apparently Being Used in Canals—Germans Reported Near.

Canadian Press Despatch.  
LONDON, Oct. 19, 3:41 a.m.—A despatch from Dunkirk to The Daily Mail sent Sunday evening says:  
"Severe fighting is taking place today. Heavy firing has been heard at Dunkirk since eight o'clock this morning. It is supposed that destroyers or gunboats are being used in the canals."  
GERMANS NEAR DUNKIRK?  
LONDON, Oct. 19, 3:45 a.m.—A Rotterdam despatch to The Daily Mail under date of Sunday night says:  
"A message just received from a German source reports that the Germans are between Furnes and Dunkirk and are nearing the latter place."  
Maude Adams is Here.  
Maude Adams, everybody's favorite actress, along with her distinguished company, who will be seen in J. M. Barrie's new play, "The Legend of Leonora," at the Princess tonight, arrived here yesterday from Buffalo.

## ALLIES' ARMIES STOP GERMANS FROM ADVANCING ALONG COAST DRIVING ENEMY FROM FRANCE

### Enemy Met Severe Reverse In Advance Toward Dunkirk

French Recoopert Armentieres and Repulse Germans on River Yser—Allies' Successes Greatly Lessen Enemy's Chances o. Capturing Either Dunkirk or Calais.

Canadian Press Despatch.  
LONDON, Oct. 18, 3:45 p.m.—Two important successes in the battle for Dunkirk and Calais, for the possession of which the Germans are striving, are credited to the allies, in the official communication issued in Paris this afternoon.  
The French are said to have occupied Armentieres, an important railway junction on the Belgian frontier, northwest of Lille, and to have repulsed an attempt of the Germans to cross the River Yser, which flows thru that little corner of West Flanders, which is all of Belgium that remains in Belgian hands. This would mean a check to the German attempt to reach Dunkirk by the coast route. The French also are said to have pushed back still further the German army which is advancing along the Belgian frontier to a coast.  
Hard Fighting for Week.  
The battle which culminated in Armentieres again coming under French influence, lasted a week, during which the fighting was hard and continuous. The town was seized by the Germans last week, owing to its importance as a railway centre, lines diverging from it in all directions. Besides, it is on the road to Lille, which the Germans still hold, despite reports to the contrary.  
The battle opened with cavalry fighting, which gradually developed into a general battle, which indicates that the French are advancing in force toward Lille. The allies also have made an advance north of the La Bassée Canal, between that line and Arras, and at certain points between Arras and the Oise. This latter is a rather long front, but the claims in the French official communication are taken here to mean that the German movement westward has been checked. The Germans, however, are bringing up reinforcements, seemingly determined to resume the offensive either toward Calais or at some other point of the long front.  
Aerial Scouts Busy.  
Berlin says it is not known where these new troops are going, but the allies probably soon will learn their destination, as their aviators are said to be busy everywhere over the German lines. It is thought here that it probably will be some days before the Germans make their presence felt.

### BOTH TO CRUSH MUTINOUS BOERS HIT OVER HEAD AT HOUSE DOOR

Gen. Herzog, His Chief Political Opponent, is Pointedly Asked to Declare Position.

W. R. Brock Answered Summons to Front Door and Was Assaulted—His Assailant Captured.

Canadian Press Despatch.  
LONDON, Oct. 18, 7:15 p.m.—A despatch to Reuters' Telegram Company from Pretoria quotes a telegram sent by Gen. Louis Botha, premier and commander-in-chief of the Union of South Africa's forces, to Gen. Herzog, Gen. Botha's chief political opponent.  
"Nobody regrets the treacherous acts of the traitors more than I," the telegram says, "in view of the fact that a number of inexperienced men were scandalously misled in this way.  
"There are no negotiations being carried on with the rebel leader. The rebellion can only be suppressed by force. The general opinion is that an immediate public repudiation of Col. Hart's acts by you and other gentlemen in his ultimatum and results aimed at. What do you propose further?"  
Silk Hats for Smart Men.  
Fall dress requirements call for a silk hat—one that is correct, that is, not antiquated. At Dineen's, 140 Yonge street you are assured of the very newest blocks introduced. Styles are suitable for young men and stout men and lean men. The silk hat of today has slightly tapered crown and perfectly in keeping with present-day styles of dress. Dineen's are agents for Henry Heath, London, Eng. Their new hats are priced \$8; Christy, London, Eng., priced \$7; Americana silk hats on blocks of Knox and Dunlop, \$5.50, \$6 and \$7. Crush opera hats, in silk and paramatta, \$6 and \$8. Decide to get one today. The occasion for wearing this style of hat may come along hurriedly.

SIX GERMAN CONCERNS ARE SEIZED BY FRANCE  
Government Pursues Campaign Against Teuton-Owned Businesses.

Canadian Press Despatch.  
BORDEAUX, Oct. 18, by way of Paris, 5:55 p.m.—The French government, pursuing the campaign against German owned businesses, today seized six concerns. One was a department store, and the others wine establishments.

Recapture of Armentieres First Step in Important Coup to Rid France of the Germans—Kaiser's Effort to Swoop Down on Dunkirk Has Failed—Fine of \$1,000,000 Imposed on Ostend, From Where Germans Prepare to Retire—Two Violent Attacks Near St. Die Repulsed With Heavy Losses—Notable Advance Made North of Arras—Recent British Casualties 13,541.

FROM THE BATTLEFRONT, Oct. 18.—(Via Paris, 11:41 p.m.)—The allied armies have prevented the Germans from advancing along the coast, and have defeated their object of seizing the French channel ports.  
Dunkirk is surrounded by a vast territory, which is easily inundated, and open country where cavalry and infantry can operate with facility, while there is no opportunity to bring big guns into effective play. Military movements are progressing with much more rapidity in the north of France than when the allies were forced to advance foot by foot with the aid of pick and shovel in order to push the Germans back from their strongly entrenched positions along the rivers Scarpe, Somme, Oise and Aisne.  
The allies on Saturday advanced rapidly, and the British troops carried the important position of Fromelles, to the southwest of Lille, after some very hard fighting.

COURTRAI EVACUATED BY GERMANS.  
AMSTERDAM, Oct. 18.—(Via London.)—A despatch to The Telegraph from Sluis says that 3000 Germans who have occupied Blankenberge, Belgium, have demanded a war contribution of hay and oats to the value of \$25,000. The Germans have evacuated Courtrai, and numerous German troops have hastily left Bruges in the direction of the French frontier. The correspondent adds that it is rumored that the Germans are retreating in West Flanders.

STUBBORN CONTEST UNDER WAY.  
LONDON, Oct. 18.—Sunday was an eventful day along the fighting line in France. With the allied front resting on Nieuport, a Belgian town near the coast, and thence southeastward to Ypres, the effort of the kaiser to swoop down on Dunkirk has missed fire. Between the German hosts and Dunkirk is a formidable army composed of French, British and Belgians. Up to the present the fighting in this zone has been between cavalry for the most part, but both infantry and artillery have come up on both sides, and a stubborn contest is under way.  
Ostend is the last point to fall into German hands, and it is not believed that their advance along the coast can continue further until a major operation takes place. It is probable that English warships will participate in the coming engagements near the shore line, the powerful guns of the fleet being able to command a radius of several miles.

OFFICIAL FRENCH STATEMENTS.  
The official communication issued by the French War Office tonight says: "During the course of last night two violent attacks were attempted by the Germans to the north and east of St. Die. These were repulsed with serious losses to the enemy.  
"No other report of any importance has yet been received on the operations of the day."  
The French official statement issued this afternoon says: "The Belgian army in Belgium has vigorously repulsed several attacks by Germans at crossings of the River Yser.  
"On our left wing, north of the Canal La Bassée, the allies occupy a front on Givenchy. Allies from Fromelles have retaken Armentieres.  
"To the north of Arras yesterday was marked by a notable advance on our part.  
"Between the region of Arras and the Oise we have progressed slightly at certain points.  
"In the centre and on our right wing the situation remains stationary."  
BRITISH DRIVING GERMANS BACK.  
The British official press bureau issued the following announcement tonight: "The British troops have made good progress during the last few days. In the northern area the allies have driven the enemy back more than thirty miles."  
VON KLUK DOWN AGAIN.  
It is again reported that General Von Kluk has lost his command, and that the German emperor is personally directing the fighting on the Aisne lines, commanded by the redoubtable Von Kluk for so many weeks. If this news proves true, it will be hailed with delight by the allied commanders, all of whom agree that Von Kluk is the ablest of the Prussians whom they have yet faced. It is due to his mastery strategy alone that the enveloping movement which threatened his lines was only partially successful.

GREAT CONTEST AT ARRAS.  
Arras is again the centre of a great contest. The French have

made important advances in the neighborhood of that town, pushing the German line eastward, and taking a number of strong positions. They have taken Fleurbax and the approaches to Armentieres.

From Rheims to Soissons the situation remains comparatively quiet, the Germans holding only forces sufficient to maintain their lines along the centre. Considerable numbers of troops have been taken from this region to bolster up the assault on the allied front further west and in Belgium. Snow is falling around Ardenne, which will add to the difficulties of the German centre.

Little information came thru today concerning the French movement against the crown prince's army, and practically none at all of the operations toward Metz. It is stated that desultory fighting has occurred in Alsace, two recent reports from Basle, Switzerland, telling of German reverses in that province. From Berlin it is stated that the French fortress of Belfort, on the eastern frontier of the republic, is now on fire from German mortars.

RECENT BRITISH CASUALTIES 13,541.

An official report by General French, commanding the British expeditionary force, gives the total of British killed, wounded and missing from Sept. 12 to Oct. 8 as 561 officers and 12,980 men, a total of 13,541.

The war office issued tonight another casualty list received from headquarters under date of Sept. 16. It gives 51 non-commissioned officers and men as having been killed, 149 men wounded, and 555 men missing.

Those of the killed belonged entirely to the Royal Scots, the Royal Irish, and the East Surrey regiments. The East Surreys, the King's Own Scottish Borderers and the Somerset Light Infantry figure largely in the missing list.

Of commissioned officers the list gives four killed and five wounded.

TSINGTAU MAY CAPITULATE.

The Pekin correspondent of the Exchange Telegraph Company has sent the following despatch: "The German charge d'affaires here has received from Berlin a lengthy despatch which, it is believed, sanctions the capitulation of Tsingtau (seat of government of the German protectorate of Kiaochau) under certain conditions."

Considerable excitement has been caused by the announcement that three Germans, presumably spies, have been discovered drilling with the citizens' army in Reading.

HAWKE SURVIVORS LANDED.

The steamship Modesta, which picked up forty-eight survivors of the British cruiser Hawke, sunk in the North Sea last Thursday by a German submarine, arrived in Christiania this morning, says a despatch from the Copenhagen correspondent of Reuter's Telegram Company. The Modesta picked up the survivors from a small boat five hours after the disaster, and later transferred them to an English trawler off the Scottish coast.

HOSTILE DEMONSTRATIONS IN TURKEY.

The following despatch has been received from a Russian news agency in Petrograd: "Turkish delusions tend to diminish. Certain liberal Turks are manifesting discontent with German domination. In Constantinople there have been hostile manifestations before the German embassy."

IMPORTANT COUP SUCCEEDS.

Armentieres, around which a sanguinary conflict has been in progress for several days, is now held by the French, the victory constituting one of the most important coups of the allied campaign to drive the Germans out of France. It was a base of supplies for the foe, defended by extensive works. Railroad lines from the east, north and west converge here.

The allies have also scored at Givenchy and around Fromelles, holding most of the trenches before both towns. North of Arras the Franco-British forces broke thru the German lines and gained a stronger hold on the railroads in that section. West of Arras, toward the River Oise, the Kaiser's forces also ceded ground.

A movement of the Germans in an attempted passage of the River Yser, near the channel coast, was completely checked by the Belgians, who again distinguished themselves. This engagement may be the first fruits of a march southward, which was forecasted today by the correspondent of The Weekly Despatch at Flushing, Holland, who wired under date of Saturday as follows:

FINE OF \$1,000,000 ON OSTEND.

"The Germans have levied a fine on Ostend of \$200,000 (\$1,000,000). At an early hour today, great forces began to pass thru. The artillery, in close formation, consisted of about 400 guns, and there were 40,000 infantry and fewer cavalry. More guns arrived at noon. There are indications of a big movement against Dunkirk."

The situation on the centre remains unchanged, the Germans holding heavily fortified positions which can only be carried by assault. The French have been successful in storming these positions, but their importance is not sufficiently great at this time to warrant the loss of life incidental to frontal attacks. In the past week the French advance between Rheims and Soissons is authoritatively stated to be from one to four miles.

GERMANS ARE CENTRALIZING.

The German attempt to resume the offensive in the region around Lassigny, Roye and Noyon has proved futile, and they are now centralizing their efforts to not lose ground on the main Aisne and Oise lines.

It is learned on the best authority that the French advance towards Metz is within nine miles of that fortress, despite heavy reinforcements which the Kaiser has brought up to prevent a bombardment of the position. It is believed that the tremendous attempts to escape this bombardment prove that the Germans have as little faith in their own fortifications as in those of the allies, which up to the present have been unable in a single instance to withstand any very considerable artillery fire from heavy pieces.

St. Mihiel remains in the hands of the crown prince, with the French exerting a steady pressure on his left.

GERMANS SEIZED WAR MATERIAL.

An official message from Berlin, received in Amsterdam and forwarded by the correspondent of Reuter's Telegram Company, declares that considerable war material was seized by the Germans in Bruges and Ostend. The spoils included a great number of rifles and ammunition and 200 locomotives.

GERMANS PREPARING TO RETREAT.

The Bordeaux correspondent of The Times says: "Opinion here continues satisfied with the military position. According to popular expression, Gen. Joffre is thrusting the enemy out of doors without any unnecessary fuss."

"It is apparent from the official communications that the enemy is being superbly held along the immense front. The enemy's attempt to envelop the allies between Lille and the sea has failed. The Germans visibly are preparing to retreat by forming a line between Namur and Metz, and a second line with a base at Aix-la-Chapelle."

BERLIN CLAIMS NEARLY 260,000 PRISONERS.

Directly copyrighted Cable to The Toronto World. BERLIN, Oct. 18.—The minister of war publishes the following list of prisoners up to and including Oct. 1: French, 2050 officers and 123,000 men; Russian, 2150 officers and 92,000 men; Belgian, 470 officers and 30,850 men; British, 180 officers and 8600 men—a total of 4850 officers and 254,450 men, or 259,300 in all.

AUSTRIA CALLS ON THE UNFIT.

VENICE, Oct. 18.—(Via Paris)—The Austrian and Hungarian governments have decided to summon to the colors all men between the ages of 24 and 36 liable to service in the Landsturm who hitherto have not served owing to physical disability or other causes.

GERMAN MINES IN SCHELDT.

AMSTERDAM, Oct. 18.—(Via London, 9.07 p.m.)—The Germans, according to The Handelsblad, have laid mines in the River Scheldt, near Antwerp. Skippers bound for Antwerp have been requested to ask instructions how to proceed at Hansweert, a port in the estuary of the Scheldt.

WASUNIVERSITY; NOW A HOSPITAL

Birmingham University, Bournbrook, Selly Oak, has been converted into a hospital and now shelters 500 wounded French and English soldiers. A number of them have their eyes gouged out and others their hands cut off, while the majority show marks of brutal

treatment by the Germans, according to a letter received by Miss M. Hudson, Bathurst Hill, from her mother, who lives in Selly Hill. In the same village are also a large number of Belgian children, a number of whom have their hands cut off.

Mrs. Hudson also states that wounded soldiers are arriving daily at the Birmingham railroad station. She has two sons at the front with the 3rd Hussars. One of them, writing from an unnamed place, stated that the Germans had nailed a woman to a door, driving spikes thru her hands and feet.

MANY QUERIES ARE AIMED AT BRITISH CABINET

Royal Family Members Serving Enemy? is One Question.

GERMAN SPIES FEARED

Signaling and Courier Service From London to Germany Alleged.

Canadian Press Despatch. LONDON, Oct. 18.—Notice has been given that the following questions, among others, will be addressed to the ministers on the reassembling of parliament:

One—Whether the large number of military and naval officers employed in the press censor's department cannot be replaced by trained journalists, thus enabling the officers to place their experience at the disposal of recruits.

Two—How many months have elapsed since the committee on imperial defence held a meeting, and whether in view of the rumors of a possible invasion, a meeting is planned.

Three—What authority had the secretary of the board of trade for stating that Zeppelin dirigible balloons would attack London at the end of October, and whether he is aware that his statement caused an increase in insurance rates, adding greatly to the expense of business men.

Four—Whether the secretary for Scotland is aware that Methil harbor (Scotland, on the Firth of Forth) is brilliantly lighted during the night, and that the lighting is that of signaling takes place with the enemy.

Five—Whether more than one member of the royal family having pecuniary interests in the British treasury are serving in the ranks of the enemy, and what steps are proposed to be taken.

Courier Service. Six—Whether the foreign courier service exists between London and the headquarters of the German army, and whether he will instruct the passport department to exercise greater stringency.

Seven—Whether the under secretary for war is aware that soldiers are being overcharged in the canteens, in some cases, 500 per cent, and what steps are being taken to halt this robbery.

Eight—Whether the under secretary for war is aware that an offer of 20,000 horses was made to the war office, and that the person making the offer was told to communicate with an address in Canada, and whether these horses subsequently were sold to Germany.

Nine—Whether the under secretary for war is aware that in a large depot near London the canteen department is in charge of two Germans.

Khaki of Poor Quality. Ten—Whether it is true that many of the men sent to Antwerp had been only a few weeks in training.

Eleven—Whether the under secretary for war is aware that the khaki for uniforms is of an inferior quality, and that the catering for the troops in many cases is inferior; whether the under secretary will order an enquiry into the prices paid for articles acquired by the war office.

Twelve—Whether any soldiers have died at Colchester as the result of vaccination.

THINK HE KILLED HIMSELF AFTER FIGHT WITH FAMILY. Body Found Drowned Identified as that of Steven Diplock.

This body that was found in about 18 inches of water in Glenmont Park, East Toronto, Saturday morning, has been identified as that of Steven Diplock, 41 Cassell avenue. It is thought he had a fight with his family and committed suicide. He left home at 8.30 Friday morning and was not seen again till he was found dead in the water about noon Saturday by a number of children. Coroner W. A. Graham is investigating the case.

SIDES OF CHURCH BULGED WIDE WHEN DR. HUGHES SPOKE

So large was the congregation at Dale Freewillier Church last night that the fire department found it necessary to send an inspector to the church service. The inspector lodged a complaint, saying that the church was overcrowded. Rev. J. D. Morrow, when speaking to The World last night, said that he had never seen so many before his church at one time. The reason for the record congregation was a lecture on "Great Britain v. Kaiserism," that was delivered by Dr. James L. Hughes.

CANADIAN CAMP NOW PRESENTS LIVELY ASPECT

Air Damp and Chilly, But Cheery Feeling is Shown.

SNAP - SHOOTERS CHASED

Dead-Line Fixed for Camera Men - More Newspaper Eulogies.

Canadian Associated Press Cable. LONDON, Oct. 18.—Sunday has been anything but a day of rest on Salisbury Plains. The camp now begins to wear the aspect of great liveliness. The weather has been rather chilly so far. There has been no rain, thanks to its situation, the even weeps of downpour would not render the camp permanently uncomfortable. The general health among the contingent is excellent. A few minor casualties have been reported, chiefly among the men handling in the open and badly needed grooming.

Every department is working smoothly, effort being an ample supply of wholesome food and comfortable bedding.

The Sunday papers contained many appreciative references to the arrival of the Canadians as well as photographs, the photographer so far has had a rather lean time among the Canadians, who are so well equipped especially to Plymouth, east to glory the first Canadian to step ashore, but all such hopes were dashed by the inextinguishable and persistent towards press representatives of every kind, despite the official intimation that descriptive accounts of the landing of the Canadians would be welcomed.

Camaraderie Shown. The Weekly Despatch cartoonist has been given a good time by the many and Austria as babes in the woods with the Canadian robin bringing a maple leaf to assist at their burial.

One Sunday paper writer observes: "When the troops were landed, one of the things that struck the onlooker was the freedom and good fellowship among them. The soldiers and officers and men fraternized, and some were seen arm in arm, but when on duty the discipline is of the strictest kind."

The secretary for war has appointed Colonel Sir Edward Ward to represent him in all matters connected with the general comfort of colonial contingents and the administration in connection therewith.

FIRST OF SERIES. The first of the series of free public lectures, offered by the University of Toronto, on "The War and its Causes," was given by Professor Wrong in the physics building this evening at 8.15. This lecture will deal with "The Germany of Bismarck." The rise of Germany is a subject of profound interest, and those who wish to know more about it would do well to arrange to attend the lecture.

The whole series, which will be given on successive Monday evenings, has been planned to cover all of the points of general interest in connection with the political and economic conditions which gave rise to the present struggle.

BRITISH GAINED NAVAL VICTORY AT LIGHT COST

One Officer and Four Men Wounded - Destroyers Slightly Damaged.

THIRTY - ONE PRISONERS Sinking of Four German Destroyers Revenge for Cruiser's Loss.

Canadian Press Despatch. LONDON, Oct. 18, 12.21 p.m.—The admiralty announces that the British loss in the engagement Saturday off the Dutch coast, in which four German torpedo-boat destroyers were sunk, was one officer and four men wounded. Damage to the British destroyers was slight.

The announcement adds: "There are 21 German survivors, prisoners of war."

REPRISAL WAS SPEEDY. Speaking of the bridge which the city wanted to be built to connect the Toronto-Hamilton road to eliminate the dip down by the Valley Inn, Controller Jutter declared on Saturday that he was working on a scheme which would likely result in the structure being erected by the time the new highway reached within half a mile of the Valley.

Money For Unemployed. The finance committee of the Hamilton United Relief Association reports that \$48,500 has been collected for the relief of unemployed. The city for \$20,000 was given by the city and \$500 by the Hydro-Electric Commission on Saturday.

To Start on Sewer. Controller Cooper announced on Saturday that he expected to have the work on the new east end sewer started some time this week.

Fight With Police. A small riot occurred in front of the Terminal Station, 9 o'clock Saturday evening, when a large crowd of people gathered to prevent the arrest of Isaac Heaver, an Indian from Grimsby, who was raising a disturbance and was ordered to move on by Constable Cobourn. Several of those who interfered with their heads bruised while Heaver was taken to the hospital yesterday afternoon.

Death of Mrs. Burch. Mrs. Catherine Burch, Burlington, died suddenly while sitting in a radial car at the Terminal Station Saturday evening. A physician was summoned and declared death to have occurred. The body was taken to her home in Burlington.

Faces Grave Charge. Eliza Murray, James street north, was placed in the cells Saturday afternoon by Constable McBeath on a charge of false pretences, laid by David McCormick.

Made Murder Threat. During a scuffle on Saturday evening, Samuel Ross, 461 Main street and as a consequence was locked up by Constables Bucket and Crocker.

Dr. Leslie Dead. Dr. James W. Leslie, who has practiced medicine in this city for over 40 years, died suddenly at his residence, corner of Park and Main streets, yesterday. The funeral arrangements will be made today.

READING ROOM OPENED. A recreation and reading room for the men of the Mississauga Horse was opened Saturday evening in Exhibition Park, under the auspices of the Brotherhood of St. Andrew. The Bishop of Toronto opened the institution, assisted by Canon Dixon and Archdeacon Ingle. W. L. Baynes-Read, chaplain of the regiment, took part in the ceremonies. The Brotherhood of St. Andrew, which has equipped and will maintain the reading room, plans to extend its work among the troops greatly when the raising of a second division gets under way.

DEMONSTRATION CAR. The Dominion Government demonstration car, which is touring Ontario with wool and eggs exhibits, will stop at Clarendon (9.15 a.m., 2.30 p.m., Locust Hill (3 to 6 a.m., 2.30 p.m., Agincourt at 6.40 p.m.). The car will leave Agincourt tomorrow afternoon at 3, making its next stop at Milton Wednesday morning.

REJOICING AT HARWICH. Canadian Press Despatch. HARWICH, Eng. (via London), Oct. 18 11.45 a.m.—The news of the British cruiser Undaunted's victory was received with great rejoicing here. She did not leave this port until Saturday morning, and six o'clock the same evening came the news that four German destroyers had been sunk.

It is understood here that the engagement occurred near the mouth of the Scheldt.

MURRAY HENDRIE KILLED IN WEST

News of His Death Received at Home in Hamilton.

STOLEN GOODS FOUND

Gift of Silver to Hamilton Minister Taken by Thieves.

By Staff Correspondent. HAMILTON, Monday, Oct. 19.—Mrs. John S. Hendrie, president of the Women's Hendrie Historical Society, unveiled a memorial portrait of the late Mrs. John Hendrie, ex-president of the society, Saturday, in the society's club house on the Stony Creek battlefield. Col. John S. Hendrie, lieutenant-governor of Ontario, and Sir John M. Gibson delivered addresses.

Gift to Dean Stolen. It was reported yesterday that the beautiful silver set composed of 250 pieces, which had been given to Dean Abbott by the members of Christ Church Cathedral, before his departure for Cleveland, had been stolen during its shipment. The theft was committed by a party named Hamilton and Bridgeburg. The set was valued at about \$600.

Stolen Goods Recovered. The police recovered a large quantity of goods which had been stolen from cars in the Grand Trunk freight yards yesterday. The goods were found under the James street bridge. Many thefts had been reported to the police during the past few days, but so far no trace of the offenders has been found.

Concert For Relief Fund. A sacred concert in aid of the Hamilton United Relief Association was given by the East Hamilton Progressive Band in Queen's Theatre yesterday.

Death of Murray Hendrie. Word was received here Saturday of the accidental death of Murray Hendrie, youngest son of the late William Hendrie, at High River, Alberta. It is believed that he was thrown from a horse. Mr. Hendrie was in the west for the past six years and owned a large ranch at High River. He was well known in Hamilton, having been one of the most prominent members of the riding club and a great lover of horses, a trait which he inherited from his father, who owned some of the best horses ever bred in Canada. He was a veteran of the South African war.

Judge Snider, who is conducting the inquiry into the civic works department stated on Saturday that no one would be protected in this investigation, and that prompt action would be brought into the limelight, just the same as the workmen, should there be any trace of wrong-doing on their part. The investigation was adjourned until November 2.

Suspicious Unjust. Alderman Waiters stated that several letters had been received complaining of Mayor Allan and Controller Cooper, but that the investigation could not reveal any wrong-doing which they had committed.

Plan to Build Bridge. Speaking of the bridge which the city wanted to be built to connect the Toronto-Hamilton road to eliminate the dip down by the Valley Inn, Controller Jutter declared on Saturday that he was working on a scheme which would likely result in the structure being erected by the time the new highway reached within half a mile of the Valley.

GEN. JOFFRE PROVED MASTER TACTICIAN

Sir John French Throws More Light on Battle of Marne.

HEARTY CO-OPERATION

Joffre Always Cordial and Sympathetic in Dealings With Allies.

(BRITISH OFFICIAL) Canadian Press Despatch. LONDON, Oct. 18, 7.17 p.m.—Two long reports by Field Marshal Sir John French, covering the operations of the British army from Aug. 25 to Oct. 8, were issued tonight. The first report, dated Sept. 17, calls special attention to the fact that "from Sunday, Aug. 23, up to the present date, from Mons back almost to the Seine and from the Seine to the Aisne, the army under my command has been ceaselessly engaged, without one single day's halt or rest of any kind."

Further along Field Marshal French says: "In spite of very determined resistance on the part of the enemy, who tenaciously held the positions which commenced on the evening of the 12th inst. (September) has so far forced me back from his first position, and the great loss upon him, including the capture of over 2000 prisoners and several guns."

Pursuit Gives Details. The despatch gives details of the retreat on Aug. 23 and 25. General Gough and Chetwode, with the third and fifth cavalry brigades, covered the retreat, repulsing the Germans with great loss.

"The pursuit of the enemy" continues the report, "was very vigorous. Some five or six German corps were on the Oise at some two corps were advancing toward my front and west of Ham; three or four more German corps were opposing the sixth French army on my left."

"This was the situation when at 11 o'clock I tribute to Joffre. 'I received a visit from Gen. Joffre at my headquarters. I strongly represented my position to the French commander-in-chief, who was most kind, cordial and sympathetic, as he always has been. He told me he had directed the fifth French army on the Oise to move forward and attack the Germans on the Somme with a view to checking the pursuit of the enemy.'

"I finally arranged with Gen. Joffre to effect a further short retirement towards the line between Compiègne and Soissons, promising him, however, to do my utmost to keep always within a day's march of the front, and to draw the enemy on to points where a favorable situation was created from which to assume the offensive. Gen. Joffre found it necessary from day to day to change the methods by which he sought to attain this object, owing to the development of the enemy's plans and a change in the general situation."

When Offensive Started. On Sept. 5 Gen. Joffre decided to take the offensive, as he considered conditions very favorable to success. Field Marshal French believes that the reason for the 6th the enemy realized that a powerful threat was being made against the front and east and began the great retreat which opened the battle. This battle, so far as the sixth French army, the British army and the fifth and ninth French corps concerned, was concluded on Sept. 10 when the Germans had, with the loss of thousands of prisoners, many guns and enormous masses of transport.

Turning of Tide. "The change in the German plan appears to have been made on Sept. 5. Describing the various stages of the advance against the Germans, Field Marshal French praises the cavalry, especially Gen. De Leslies' brigade with the 9th Lancers and the 11th Hussars."

On the 8th both the first and second army corps made large captures and took some guns. On the 9th, after forcing the passage of the Marne, they inflicted a heavy loss in killed and wounded on the Germans, while the second division took some hundreds of prisoners and a battery of eight machine guns. On the 10th thirteen guns, seven machine guns, 2000 prisoners and quantities of transport fell into British hands, and the enemy left many dead on the field.

In conclusion the report says: "Altho I deeply regret to have to report heavy losses in killed and wounded throughout these operations, I do not think they have been excessive in view of the magnitude of the great fight and the demoralization and loss in killed and wounded which are known to have been caused the more by the vigor and severity of our pursuit."

DIED AT MERCER. Eliza Lewis, an elderly prisoner at the Mercer from Peterboro, developed cancer some time ago and died on Saturday. An inquest will be held at the morgue tonight by Coroner Kennedy.

CONCRETE VIADUCT INTER-CHURCH TO PROVIDE WORK ATHLETIC MEET

Claim That Steel Should Not Be Used for Floor Street Structure. Athletes of West Toronto Churches Compete for Honors at Lambton.

RATEPAYERS' MEETING TRACK IN GOOD SHAPE

North Toronto Transportation Again Subject of Much Debate. Frank McCullough Acclaimed All Round Champion of the Year.

The principal subject for discussion at the meeting of the North Toronto Ratepayers' Association on Saturday night was the floor street viaduct. The matter was introduced by E. V. Donnelly, who thought in view of the present condition of the labor market that the city council should be asked to consider the advisability of constructing the viaduct with cement instead of steel.

The sixth annual athletic meet of the Inter-Church Association, West Toronto, took place under ideal weather and track conditions on Saturday afternoon at Lambton Athletic Field. The meet was held under the joint auspices of five West Toronto churches, Indian Road Baptist, Davenport Methodist, Victoria Presbyterian, St. John's Anglican, and High Park Methodist, each of which had a large team of competitors entered for the twelve events.

The following are the winners of first, second and third places in the various events: Half-mile race, under 17-1, Cliff, St. John's; 2, Sinclair, High Park Methodist; 3, Williams, St. John's.

The all-round championship was won by the Victoria Presbyterians, with 31 points; St. John's Anglican were second with 13 points, and the Victoria Methodists, High Park Methodists (tie), and St. John's Baptists finished with 7, 7 and 5 points respectively.

The West Toronto Company, Home Guard Sharpshooters' Association, are holding their first company drill at the Annette Street School tonight. A number of men have enrolled since its formation, and more than a week ago, and over 100 men are expected to attend the parade tonight.

The Girls' Auxiliary of the Red Cross Association is drying a quantity of apples to be sent to the soldiers at the front. The apples are being contributed by Sir William Mulock, W. H. Fleury, J. L. Truett, J. B. Spurr, W. H. Fleury, J. L. Truett, and others. The apples are packed in the Colie-Cockerill Manufacturing plant.

The town council is making an appeal to the citizens for contributions to the Canadian Patriotic Fund, and in support of the movement were given by well-known residents at a meeting in the town hall Friday night.

Today the electors in the municipalities which would be served by the proposed hydro-electric radial from Toronto to Port Perry with a branch to Newmarket, will vote on bylaws authorizing their municipal councils to make agreements with the Provincial Hydro-Electric Commission for the construction and operation of the line.

Voting will take place today in the following municipalities: Townships of Pickering, Uxbridge, and Whitchurch; Villages of Newmarket, Uxbridge and Whitby; and the townships of Markham, Simcoe, and Port Perry.

Judge Ben Lindsay says of the author: "He is one of the most competent, if not the most competent, in America on the subject of which the book treats."

Rev. Emil G. Hirsch (the great Jewish Rabbi) says: "Dr. Lydston's book could be placed in the hands of every adult and adolescent. Prudery and ignorance unholy alliance have brought more misery upon the race than perhaps any other conspiracy."

## A Letter from One of the Lonely

By WINIFRED BLACK

Copyright, 1914, by Newspaper Feature Service, Inc.

Here's a letter that made me wonder. It is written by a lad of 20, without doubt a man of unusual ability. How long will he have to wait before somebody finds him out and gives him a chance?

Is it true, what he says, that we are all blind and deaf and dumb? Do we pass such people as he, day after day, and never give them even a thought? Are they all around us on every hand, the lonely people, drifting to and fro and despairing just because we are all "too busy" to pay any attention to them?

If what is written in this letter is true, what are we going to do about it, you and I?

Dear Miss Black: Quite often I take pleasure in reading your "heart to heart" talks in the paper, and the one today, "Foreign Missions and a Lonely Little Girl," struck me as especially adequate, as I was in a mood to appreciate it or any talk on this subject. I always am, for I am in a position to understand the meaning of the word "loneliness."

It is the thing which has caused the downfall and ruin of many a good-looking and honest young man and girl, and it is the thing above all else which turns us into pagans and atheists. For after we have stood it as long as we can, or perhaps until it has driven us into mental insanity, instead of praying to our God for assistance, we curse Him and all creation and blame Him for our troubles. But God knows, you can hardly blame us.

I am just 20 years of age, but far older in knowledge than my years warrant. I am a Yankee born of Canadian parents, honest, hard-working people who can trace their lineage back to an earl in Scotland, a family that produced one of the best known generals in the United States army. I had always had all I wanted up to my ninth birthday, when my father was accidentally killed. Since then I have been shifting for myself.

### Wanted, a Friend

I came here to win my way to fame

Winifred Black

and fortune; but, mon Dieu! what a time. I am working in the office of an engineer at a salary under \$10 a week, which was previously the lowest I ever worked for. It is hardly enough to keep me going, and no one cares whether I win or lose.

My employer takes more interest in me than the average business man takes in his employees, but he cannot take the place of a good friend. I would not care so much if I even had one good friend that I could rely upon, some one to whom I could tell my woes and other little daily occurrences which go to make up a sincere friendship. In the year and a half that I have been in this city I have not made a really true friend of my own age.

It is the loneliness of the big cities which kills many an honest young man and girl. Personally, I know from my own experience that if I were ever to fall in with a bad set of fellows I would be apt to go wrong.

What are the church-going people coming to, anyway? You can go in and out of church, year in and year out, and never a soul will stop to say a kind word to you.

What good are the missions? Why

don't they start at home and try to prevent us young people from going astray instead of trying to bring us back after the trouble is done?

### The Doll Girl

Why, not many months ago, while eating lunch in one of the restaurants I frequent, a very nice young girl came in and sat down at my table, and I could tell by the expression in her eyes that she was eating her heart away with loneliness, so it was not long before we got into a conversation. After that I was out with her quite often for a time. She was an orphan about 18 years of age and working in a store at about \$4 a week. She was one of the doll face type of girls, least able to take care of themselves, and it seemed a pity that she should be alone.

I tried to interest her and get her to go to church, but it was useless. She had gone too far. If someone had only taken some interest in her two years ago it might have been different.

But now I don't know where she is or how she is getting on. If she gets in with a bad set of fellows it will be farewell to her forever, for a doll face girl can never take care of herself. It seems a shame that there is no place for decent young girls to go to, some place where they will be welcomed and can make friends. Yes, the Y.W.C.A. would do in some cases, but if it is anything like the Y.M.C.A. in a good many cases, they could not afford it. Why don't some of our mission societies take this up and organize girls' clubs in the different churches and not let it go at getting just the church members to join? They are not the ones that need it; it is the friendless and lonely girl who will not go to church because she is lonely and will not know anyone if she does go, who needs some such place to go to. It is the girls of this city who need something or someone to look after them. The young men are better able to look out for themselves.

You have heard the question—men and women—what's the answer?

## MME. VANDERVELDE APPEALED FOR AID

### Case of Belgians Presented in Massey Hall Before Big Audience.

Splendid assurance of sympathy and assistance to the Belgian cause was the big audience and representative character of the gathering at Massey Hall, Saturday night. It was the biggest reception accorded Madame Vandervelde in the course of her American tour, and while human recognition is almost inadequate to explain what is due to Belgium for the noble struggle it must have been encouragement for this splendidly patriotic woman to have her efforts met with so spontaneous a response.

The appearance of Madame Vandervelde was the signal for the audience to rise to its feet, and cheering and waving handkerchiefs testified to the warmth of Toronto's greetings. "I thank you from the bottom of my heart for the kind reception you have given me. I know you are thinking of my compatriots, of the men who are fighting, the women who have given of their best and of the children who are beginning life under such awful circumstances. They are the same people of whom Caesar, in 55 B.C., declared that they were the bravest of all the Gauls." The speaker then outlined the course of events from Sunday, August 6, when, after Belgium had been given to understand that her neutrality would be respected, the ultimatum was sent from Germany, to which the answer was that Belgium would always be faithful to her national obligations. Madame Vandervelde also quoted Britain's equally proud answer, given through the mouth of her minister, Sir Edward Grey, that "fear of consequences could hardly be regarded as an excuse for breaking solemn engagements."

Willing to Sacrifice. Describing the Belgian Parliament on the day after the reception of the despatch, the speaker said no one who witnessed it would ever forget the scene; everyone from the king down was willing to make any sacrifice for the country fighting for its existence. Farly feeling, which had been higher than in any other country, had become a thing of the past. Everyone swore to make every sacrifice so that Belgium might remain a free country and not under the heel of the oppressor.

After touching on various battles of the war, Madame Vandervelde said she had spoken to many of the wounded after Ghent. One regiment, composed of Belgian students, had fought through for days, and the women of the countryside had brought them food. One of the wounded was lying in hospital, just able to whisper to his wife: "I want to go back to the front." On August 12, she had been at Louvain. Two weeks after the city was in ashes, the beautiful cathedral of St. Peter, the magnificent library of the university, with its 150,000 volumes, and other monuments, all destroyed.

German Atrocities. Mme. Vandervelde cited numerous cases of atrocities that had been sworn to and otherwise verified before the commission. One instance was that of a Belgian officer who had been picked up wounded, placed against a tree by the Germans and shot. A woman of sixty had been found killed by sixty bayonet thrusts. A boy of fifteen had his hands tied behind his back and his body riddled. A person's friend had written that he had seen the Germans killing their own wounded to save labor and time.

After expressing appreciation of what Canada had already done and renewing her appeal for assistance, Mme. Vandervelde finished her address by declaring "We are fighting for the dignity of humanity, and that one nation may live in Europe without being under the heel of others."

City Will Help. President Falconer moved an eloquent vote of thanks to the speaker, which was seconded in a patriotic speech by Colonel George Denison. Mayor Hogg read a list of what had already been sent from Toronto to the Belgian exiles, and promised his influence that the city should send the board of control \$10,000 or \$20,000. Mr. Rowell added his tribute to the bravery of Belgium, and acknowledged the obligation of the audience to the speaker of the evening. The Belgian Consul and Frank Arnoldi, K.C., were seated on the platform.

Thirty Boy Scouts went round with the plates. While this was being done a beautiful little white German puppy was taken from its basket by its mistress, Mrs. Howarth, of Grimby, and auctioned, going to Dr. Norman Allen for \$100, which was added to the generous collection taken up.

When Honor Counted. In opening the meeting Colonel Ryerson said: "We are here tonight to express our sympathy with Belgium. Canada has in a land of peace, preserved to them through the efforts of their forefathers. Belgium too was a beautiful country, but much had been destroyed thru the barbarous and ruthless hand of war." The chairman outlined the events of the last few months up to the moment that England took action, because "the honor of England counted something." England went to war for the scrap of paper upon which her pledge was given.

Hon. Mr. Hearst expressed his pleasure at having the privilege of introducing Mme. Vandervelde and honoring her of the hospitality of Ontario. When Belgium declared its determination to maintain its neutrality, said the premier, it had thrilled the world as men had never been thrilled before. The struggle would be great, but at any cost we must succeed. On the object of Mme. Vandervelde's coming the speaker said, "Many demands are being made, but no appeal could be greater than that of tonight."

A Long, Long Way. Patriotic environment was given the occasion by the flags of Britain and Belgium, the latter owned by the Belgian consul, and presented him by the Belgian Government, and by other flags draped about the galleries. The United Empire Loyalists, under whose auspices the gathering was held, were represented by their coat of arms, which centred the platform. The Grenadiers Band did much to enliven the proceedings by their playing of alternate British and Belgian airs, and the singing of "It's a Long, Long Way

## FORTY MECHANICS TRANSFORM STAGE

Royal Alexandra Theatre is Now Ready for Production of "Pinafore."

## DEEP TANK INSTALLED

Hippodrome Spectacle Will Be Most Elaborate Ever Staged in Toronto.

The most extensive alterations ever made upon the stage of the Alexandra Theatre were under way at that playhouse all day yesterday and until long after daybreak this morning in preparation for the presentation there of the New York production of Gilbert and Sullivan's light opera classic "H.M.S. Pinafore," which begins a week's engagement tonight.

More than two score mechanics were employed in the installation of the enormous tank which is such an essential part of this production. Practically the entire stage had to be ripped up to accommodate this tank and great beams were required underneath in shoring it up to prevent the possibility of collapse from the great weight of water with which it will be flooded this morning. This water is turned into the tank from three special feed pipes especially installed for the purpose. It fills the tank to a depth of nearly three feet and it is estimated that its weight is between fifty and sixty tons.

The task of erecting the enormous reproduction of the good ship "Pinafore" which apparently floats upon this mimic sea, also required much time. The masts of this vessel are more than fifty feet high and to raise them requires much dexterous manipulation even on such a large stage as that of the Alexandra.

Upwards of a dozen small boats are launched upon the water in the tank. During the performance these boats are to be used in ferrying the characters from the shore, supposed to be at a point hidden inside the wings, to the ship in full view of the audience. This is an effect which has never before been produced on any stage except that of the Hippodrome itself.

Worked Fourteen Hours. So anxious are the Messrs. Shubert to make the production of "Pinafore" in Toronto a success that they sent Arthur Voegtlin, the presiding genius of the Hippodrome and the man who devised the stage setting, here to supervise things. Mr. Voegtlin, who is conceded to be the most gifted designer of stage effects now living, was at the theatre for more than fourteen hours yesterday giving every detail his personal care and supervision. The company arrived by special train yesterday afternoon from Montreal, where it played to immense business all week.

## SPECIAL SERVICES.

A series of special services was begun yesterday at the Missionary Tabernacle, Bathurst street, under the auspices of former Commissioner Robert McHenry, an evangelist whose headquarters are in Toronto. Services were held in the morning and evening each night this week. The Alexandra Church is taking part in the meetings, which were well attended yesterday.

## WILL OPEN TOMORROW.

The day's presentation and employment of the will open tomorrow morning at 10 o'clock at 197 West Adelaide street.

## WANT 5000 MORE WORKERS IN FIGHT AGAINST DISEASE; THREE-DAY CAMPAIGN OPENS

Two hundred women, captains and teams of the Samaritan Club—workers all—seated at lunch at Central Y. M. C. A. on Saturday at noon, figured a splendid success for the whirlwind membership campaign which starts this morning and continues tomorrow and Wednesday.

The present members of the Samaritan Club are faced with a problem too big for their members and their finances, namely, to provide for the consumptive poor and those dependent upon them in their homes in the city this winter. As the campaign literature puts it, "this winter more than ever, it is a serious matter to be poor. Yet there are those who must face worse things than poverty alone. Pluck and persistence can often resist poverty, but when insidious consumption strikes also, there is little chance. Nothing appears ahead but utter black despair."

"Five thousand new members in three days," is the slogan, and if the prophecy of G. A. Warburton, general secretary of the Y. M. C. A., counts for anything, the slogan will carry them to success. Mr. Warburton was the principal speaker at Saturday's luncheon. Frank Veigh will address the workers at 1 o'clock lunch today at the Y. M. C. A. central branch. Archbishop McNeil speaks tomorrow, and Dr. James L. Hughes on Wednesday.

The campaign is in charge of an executive committee of the ladies of the club. Mrs. McElroy is chairman. Ladies in sympathy with the work and anxious to help should send in their names to Mrs. R. N. Burns, president of the club, 486 Jarvis street.

## MONDAY MORNING, OCTOBER 19.

### Mobilizing the Farmers

Today, right on the borders of Toronto, is to be fought a battle not less important for the future bearing it will have upon the civilization of Ontario, than some of the war struggles of the past. It is the battle of the ballots on the issue of a hydro-electric radial railway service for the counties of York and Ontario.

There should be little doubt about the result, but the emissaries of the corporations have been more than usually busy, in a quiet and insidious way, trying to mislead the farmers of the territory interested, and to make them believe that it is not a good thing for them to be able to control their own transportation rates and own their own radial railway lines.

In farming and in business, as in war, mobilization is a prime consideration. The power that can mobilize most easily has a tremendous advantage over others. The farmer usually mobilizes with a horse and wagon. The up-to-date farmer is learning to mobilize with a motor wagon and a motor car. There is another phase of farm mobilization which Sir Adam Beck and the Hydro-Electric Power Commission has placed within his reach. It is mobilization with radial railways. By it he makes his own rates and gathers his own profits by owning his own lines.

The corporations want the farmers to pay them for mobilizing their crops and their supplies, but this has been found to be an expensive and unprofitable way, and the farmers of York and Ontario counties have now an opportunity to do their own mobilization by accepting the offer of the Ontario Government to build the lines on the without risk according to the calculations of the government engineers.

The estimated cost of the line is \$4,346,938, and it is to be remembered that the hydro-electric system was built at a cost considerably under the estimates, so no fears need be entertained about the reliability of the government figures. The annual revenue is estimated at \$776,400, and the annual expenses \$469,374. A sufficient margin, therefore, to cover all charges is assured, for we can accept the estimate which Sir Adam Beck has endeavored after the fierce criticism which was directed against the hydro-electric estimates, and shown to be wholly mistaken.

### New Zealand Occupies German Samoa

On Sunday, Aug. 23, Colonel Robert Logan, commanding a New Zealand expeditionary force of 1500 men, took possession of the German islands of the Samoa group, in the name of the New Zealand Government of King George V. This was a notable imperial event, because for the first time in history a British dominion overseas had sent an invading force across the ocean and captured a foreign territory. The enterprise was not without risk, owing to the fact that two powerful German cruisers—the Scharnhorst and the Gneisenau—were known to have come down from the China Sea to the Pacific, and their whereabouts were unknown, and they were much more than a match for three light cruisers from New Zealand waters that escorted the transports from Wellington, the dominion capital, to Noumea, the capital of the French Island of New Caledonia.

The expedition sailed from Wellington on Aug. 15, only eleven days after the declaration of war between Germany and the United Kingdom. No doubt it was the embarkation of this force which led to the rumors that the Australasian contingent for Europe had left for the front, and to the circumstantial reports that it had proceeded across Canada. The expedition, however, had another object in view, and on its arrival safely at Noumea was immediately joined by the

strength of the farmers' credit and French cruiser Montcalm—a name familiar to Canadians—and later by his majesty's Australia ships Australia, a battle cruiser and the flagship of the Australian squadron, and the cruiser Melbourne of the Bristol type.

Noumea gave the transports and British war craft a splendid reception and the entente cordiale was much in evidence. By permission of the governor of New Caledonia the New Zealand troops were allowed to march thru the town and its environs, being greeted with the utmost enthusiasm by the white, black and brown inhabitants. On Aug. 23 the expedition sailed for Samoa, which was reached six days later. No resistance was offered at Apia and the landing was accomplished with remarkable despatch and without accident other than a broken leg. Mr. Malcolm Ross, the representative of the New Zealand Government, in his official report, says that the successful occupation reflected credit on all concerned, and our sister dominion deserves to be congratulated on its rapid and efficient action.

### Frenzied Railroad Finance

More startling disclosures regarding the devious methods of railroad financing in the United States promise to be made in the enquiry just opened by the Interstate Commerce Commission into the stock operations of the Chicago, Rock Island and Pacific Railway Company. At the opening of the investigation on Friday before Commissioner Judson C. Clements, in the New Welland Hotel, Washington, D.C., the principal witness examined was Frederick C. Sharrod, an expert accountant for the commission, who had examined the books of the Rock Island Company. His evidence developed the facts which caused the wrecking of what should have been a prosperous and profit-earning property, and the consequent loss of many millions of dollars to the stockholders.

In his explanation of the purchase of the St. Louis and San Francisco road by the Rock Island Company, Mr. Sharrod stated that the negotiations were carried on by J. P. Morgan and Company, who purchased 283,224 shares in the "Frisco" road at an average of \$120 a share. When in 1909 the latter was turned over to B. F. Yoakum it was bought for \$37.50 a share—the total loss to the Rock Island on the transaction being \$25,000,000. This loss, Mr. Sharrod explained, was charged up as an asset instead of a loss and credited to railway stock. Several other transactions involving large losses were detailed by the witness who closed his testimony by stating that if the Rock Island had been operated simply as a railroad and without stock juggling, and financial finance it would be on a sound financial basis at this time. It appeared from the facts brought before the commissioner that the stock of the original operating company was watered from \$71,000,000 to \$350,000,000, or practically five times the original amount.

### Our Share of a Million

Now that the Canadian contingent has reached England and is training for the front, which some of the men hope will be reached in December, it is time to begin to get the next contingent in readiness for despatch.

There may be some who think that when the Canadians are not sent to the front immediately there may be no pressing need for them. This, however, is a mistake. Two things may be deduced from it. In the first place, it shows that the British military authorities are exceedingly careful of their men. They are not sending raw recruits into the fire. Those who go out to face the Germans will be in every way capable of their duties. The Germans will not find them of the quality of reserve men or in any way inferior. It is also, for the good of the men themselves that they should be thoroughly trained, equipped, and made familiar with all the manoeuvres of mass formation and active field service. Some time will probably also be necessary to get the commissariat department into perfect working order, and the services of the A.S.C. thoroughly organized.

In the second place, if men are needed at the front, and the Canadians have not been sent there directly, it is clear that there must be better men ready to go, and this is a cheerful reflection for those who read the despatches from the front these days. No better body of men has ever been sent out to battle than the Canadian contingent, barring the possible lack of training and finish. When other troops are sent ahead of these it means

## THE N.Y. "YELLOW KID" AND THE FIRE

that there are excellent men in the English ranks ready for immediate service.

The troops sent so far to the contingent are only an advance guard, as The Times has pointed out. By this time next year, observes that sanguine authority, we shall be able to put up a good fight with a million men on the ground. We have heard, even quite recently, the remarks of some who still seemed to think the war might be over by Christmas. Lord Curzon commented upon that attitude a few days ago. Let us at once make up our minds that it is going to be a long pull. But it will also be a strong pull and a pull all together.

We must take our place in the empire, and if the empire must have a million men in the field, Canada ought to have a tithe of that force. So 100,000 men should be our objective. This week, it is hoped to have the call issued for the second contingent. The sooner the better. Delay does no good in any way, and creates a lot of indecision and hesitation in business. It is like the delay in any big firm before a contract is let. Nothing can be done. Let us know what we are to do, and let us get about doing it. When we have the war program settled, and that much of our minds, we shall be able to tackle business in a better frame of mind.

Two years to thrash the Germans is not so much when you come to think of it. It has taken more than ten years to build the Union Station, and it is not even started yet. That is the difference between a Kitchener and a railway president, or between efficient government control and private corporation management.

Let us get at the next contingent. An esteemed contemporary humorist has been citing harrowing specimens of the split infinitive from various sources. We dare him to reproduce the horrible example in the Duke of Connaught's speech from the throne at the recent closing of parliament.

### IS HE CRAZY?

The owner of a large plantation in Mississippi, where the fine figs grow, is giving away a few five-acre fruit tracts. The only condition is that figs be planted. The owner wants enough figs raised to supply a co-operative canning factory. You can secure five acres and an interest in the canning factory by writing the Eubank Farms Company, 824 Keystone, Pittsburg, Pa., U.S.A. They will plant and care for the trees for \$6 a month. Your profit should be \$1000 per year. Some think this man is crazy for giving away such valuable land, but there may be method in his madness.—Advt.

### NO DETAILS OF CONTINGENT.

OTTAWA, Oct. 18.—DETAILS of the composition of the second contingent have not yet been received from the war office. The Canadian Government is urging that these details be furnished without delay, in order that organization, preparation and training may proceed immediately. It is expected that the war office will forward these details within a few days.

## BLOOD OF BELGIUM SEED OF FREEDOM

Archdeacon Cody, at University, Lauds Action of the Buffer State.

### GREAT BRITAIN'S DUTY

Every Man Should Strike a Blow at Menace Threatening the World.

An eloquent appeal for service in the Christian life and in the struggle which England and her allies are waging against Germany was voiced by Archdeacon Cody in his sermon to Varsity students yesterday morning in Convocation Hall, when that building was filled to overflowing with a congregation which hung on the speaker's words. "The whole province is looking to the university to see what it will do," Archdeacon Cody told the Varsity men. "Every man in this university should be preparing himself if his country needs him."

The examples set by the universities of Oxford, Cambridge and Edinburgh were pointed to as object lessons, and the speaker lauded the manner in which they had responded and would still respond to the call to battle which was a matter of life and death. It was for the University of Toronto, Archdeacon Cody declared, to teach true ideals of sacrifice and of national life. The call of duty was emphasized by the speaker, who asserted that every man owed a duty to his country and to civilization to strike the menace which was threatening the world. Taking his text from St. Matthew, 23:33: "He that saveth his life shall lose it, and that loseth his life for My sake, the same shall find it." Archdeacon Cody referred to Belgium as that little nation which stood not its national existence, but that of the British Empire. "That shall be true of the French," said Archdeacon Cody. "She is pouring out the best of her blood and her life, and in proportion as she gives of herself so much will she find herself. It is the blood of the martyrs, even today, that is the seed of the Christian church."

### RIGHT TO TITLE PROVEN BY CANADIAN PACIFIC

C. P. R. Placed Trackage and Ships at Disposal of Imperial Government.

When the C.P.R. was in the building it was said that it would be a great imperial highway, over which the British Government could convey troops to India. That was one of the arguments in its favor; but the commercial one was probably the strongest. At the same time, the company has played an important part in connection with the present struggle—proving that the phrase "an imperial highway" was not used in vain.

When the problem of transporting troops arose the Canadian Pacific placed 49,000 miles of track at the disposition of the federal government, bringing St. John and Halifax close to the prairies of the west, and made a journey greater than that between Liverpool and Quebec a matter of hours by the rapid transformation of ordinary cars into commissary cars, and by the use which the government was able to make of the C.P.R. fleet, the system was able to render, at the moment, a most effectual service. The boats were requisitioned by the government and transformed into auxiliary cruisers.

The C.P.R. took an imperial stand with regard to the Canadian Patriotic Fund. The company itself gave \$100,000, while the employees contributed \$150,000 more. The arrangements made by the C.P.R. for the handling and caring for the troops were all carried out without the slightest disarrangement of the time table.

SOCIETY

A magnificent audience greeted Madame Vanderveide in Massey Hall on Saturday night when, under the auspices of the United Empire Loyalist Association and other patriotic societies she spoke on the wrongs and sufferings of the Belgians.

The engagement is announced of Miss Charlotte A. Chapin, third daughter of the late Mr. and Mrs. J. W. Chapin, of Mr. Dalton Davies, Canadian Bank of Commerce, Toronto. The marriage will take place very quietly in November.

Mrs. Frederick Mercer, Glendover, Moore Park, who has been on Saturday of a buffet luncheon, her beautiful and spacious home making an entertainment of sixty people, very much enjoyed.

Mrs. S. H. Allen, president of the Red Cross auxiliary, North Toronto, has kindly consented to receive subscriptions in that locality for the fund now being raised by the Imperial Order Daughters of the Empire in aid of the Belgian refugees.

Mr. Schneider and Dr. Goodside are bringing Cecil Fanning to Massey Hall on the 19th of November under the auspices of the Toronto Relief Fund.

Mr. and Mrs. Edwin McDonald (formerly Miss Cosgrave) have returned from their honeymoon and are at Upper Canada Apartments, Lansdale road.

St. Joseph's College Alumnae Association have issued invitations to a lecture by Dr. James J. Walsh, celebrated author and lecturer of Fordham University, New York, on Tuesday, Oct. 20, at 4.30 o'clock, in the college auditorium, Breda-bane street. Subject: "Education: How Old the New."

In the Church of St. Thomas, on Saturday afternoon, the marriage was solemnized of Mary Gladys, second daughter of Mrs. J. A. M. Alley, to Mr. Herbert Ferris Secord, younger son of Mr. H. S. Secord, of the Canadian Bank of Commerce. The service was taken by the rector, the Rev. Ennor Sharpe, Mr. Taitell presided at the organ and played soft music through the ceremony.

The chancel and altar were decorated with white flowers and palms, the guests' seats being tied with bunches of Madonna lilies. The bride, who was brought in and given away by her father, wore a lovely soft white chiffon gown, trimmed with pearls, the basque and long train of brocade satin. Her veil, which was of fine unhemmed net, was caught with orange blossoms, tied with bunches of Madonna lilies. The groom's gift to her was a diamond and ruby ring. Miss Florence Smith presided at the organ and played the wedding march. The bridesmaids, dressed alike in lily green, long frocks with sleeves and overskirts of lace and long basques of nylon. They carried bouquets of white flowers and wore the groom's gift, blue enamel flower pendant, with chain. Mr. Bruce Langmuir was best man, and the ushers were Mr. George Delamere, Mr. Charles McMichael, Mr. Auber Secord, and Mr. Herbert Ferguson.

After the ceremony Miss Alley, aunt of the bride, held a reception, wearing a black velvet, and white brocade chignon with fur and black and white hat to match. Her little daughters, the Misses Armine and Margaret Alley, wore lingerie and lace frocks. Other relations present included Mr. and Mrs. H. C. Secord, Miss Doris Secord, Mr. and Mrs. Harry Alley, Miss Emma Alley, Mrs. Allen, Mrs. Ince, Mrs. Harry Crew, Mr. and Mrs. Secord left later for the Catekill Mountains and New York, the bride traveling in a taupe broadcloth tailor-made, and velvet hat to match, with yellow and black feather. On their return they will reside in Spadina avenue.

SEEN MONTHS WAR COST TEN BILLIONS

Each of Greater Belligerents Spends Fifty Million Dollars Weekly.

Canadian Press Dispatch. PARIS, Oct. 18.—Paul Leroy Beau- lieu, the French economist, estimates that each of the greater belligerents is spending an average equivalent to \$200,000,000 monthly.

In presenting these figures to the Academy of Moral and Political Science today he considered it probable that the war would continue for seven months from Aug. 1. Accordingly, the five greater powers engaged were committed to an expenditure of \$7,000,000,000. Each of the smaller states, including Japan, all governments are having recourse during the war, and third, by delaying payments for military necessities, the larger part of the savings of the world will be absorbed by the taking up of national loans and economic progress will be seriously checked.

M. Leroy Beau lieu continued: "We must say that the war will cost the fighting powers roughly from \$9,000,000,000 to \$10,000,000,000. These figures, which don't take into account the losses of revenue during hostilities, will be met first, by the issuance of notes against the accumulated gold in the government banks; second, by the issuance of short term treasury bonds, to which all governments are having recourse during the war; and third, by delaying payments for military necessities, the larger part of the savings of the world will be absorbed by the taking up of national loans and economic progress will be seriously checked."

**FORTUNE** may be  
fickle --- but success  
never is. Once achieved,  
it continues in the pos-  
session of those who  
constantly endeavor to  
maintain the standards which  
won it.

There are fixed standards which have made our lines of Suits and Overcoats at \$15 to \$25 pre-eminent popular. Styles change—a lapel is cut longer and wider—a coat a little snuffer—a new fabric pattern comes out—tailoring, details never change.

**Will Hold Next L.S.S.A. Regatta At the Alexander Y.C. in August**

**J. C. Hancock of Hamilton Elected President at Annual Meeting—C. Turrall Presents Challenge Cup for Competition.**

The evidences of a successful past sailing season and the indication of a big one ahead were everywhere apparent at the annual meeting of the Lake Sailing Skiff Association Saturday afternoon at the military institute. The date for the next annual regatta was changed to the beginning of the second week in August, instead of the first week of July, and this year the big event will be held in front of under the direction of the Alexander Yacht Club, which was chosen as Commodore T. A. E. World, one of the organizers of the original L.S.S.A., was unanimously elected an honorary member.

**Montreal Again Wallop Ottawa**

MONTREAL, Oct. 18.—Keeping up their aggressive tactics before the greater period of their second meeting with Ottawa, Montreal repeated their decisive victory of the previous week by beating the capital players in the Westmont grounds on Saturday afternoon by a score of 21 to 11. Thru winning this match the local team assumed the leadership of the Interprovincial Rugby Union, position that the club has not held since 1907, when they carried off the honors. The objective of the match was to decide yesterday were anything but productive of brilliant football, the grounds being more like a quagmire than a rugby gridiron, owing to the recent heavy rains. During part of the playing period a heavy rain fell, making it almost impossible at times for the backs to handle the ball.

In the majority of the punting duties between Brophy of Ottawa and Tucker of Montreal, the honors went to the local player, he gaining ground for his side with few exceptions. Montreal's victory was accounted for thru their superior coaching, they playing better together than Ottawa. The tally came for Montreal three tries, a goal, Brophy scored their points thru a try by Emmeron and a single. Perhaps the most spectacular play of the afternoon was the goal dropped from the field by Williams. This was handed out during this season that Brophy has dropped a goal from the field, adding on each occasion three points to Montreal's score. The play was well handled by Referee Kent and Foulds of Toronto, they keeping the players well in hand at all times. Three penalties were handed out during the afternoon, two being imposed on Montreal players and one on Ottawa. Williams and Alex Cameron were the local men penalized, while Murrugh was the visiting player to decorate the side line.

Montreal (1)—Flying wing, Cameron; half-backs, Tucker, Brophy, Barwick; quarter-back, McGill; scrimmage, Hulme, Williams; three forwards, Mowbray, Abonitich; middle, Potticary, Ross; out-back, Bailie, Dawson. Ottawa (2)—Flying wing, McCann; half-backs, Brophy, Bouchard, Conyars; quarter-back, Sculling; scrimmage, Ingram, Raitt, Emmeron; inside, Stalker, Wharman, Murrugh, Vaughan; outside, Tubbs, Johnson.

Referee—Kent. Umpire—Foulds. Notes:—(1) Flying wing, Cameron, who was purchased by the New York Yankees, \$1, has been returned to the Pittsburgh Nationals, from whom he was bought. It is announced that New York declined to pay the balance of the purchase price. O'Toole has signed a 1915 contract with the Pirates.

**TRINKWON FIRST IN DUNLOP RACE**

**Was Never Headed After First Turn—Brought Team Mate in Second.**

Five thousand people saw the twenty-first annual Dunlop Trophy bicycle race on Saturday afternoon, and this feature of the cycle world in Canada was bigger and better than ever. The crowd saw some grand riding and they lined Danforth avenue for over a hundred yards, three deep. W. Trinkwon of Herb McDonald's bicycle club won the race with a handicap of six and a half minutes. He rode a good race all the way, and was never challenged after the first turn. W. Taylor, his fifteen-year-old team mate, was on the limit mark, and was caught him the little fellow pulled in behind and hung on. Trinkwon coasted him all the way and brought him home in second place, three yards behind. Trinkwon will hold the coveted trophy for one year and will also receive a good prize.

**FORDHAM FRIENDS TO DICK RUDOLPH**

**Present Watch Fob to Their Old Pitcher—Baseball Gossip.**

Dick Rudolph, the Brave pitcher, received an ovation just before the Fordham-Middlebury football game at Fordham Field, New York, on Saturday. With him leading, and escorted by a thousand cheering undergraduates, the old Fordham twirler proceeded from the administration building to the football field. The Athletic Association president, Dick Rudolph with a gold Fordham watch fob. Lester Patterson, president of the senior class, made the presentation in front of the grand stand. The following inscription was on the fob: "To 'Dick' Rudolph, a Fordham twirler, the World Champion Braves, from the Fordham University Athletic Association." Accompanying Rudolph was Charlie Deal, who played third base for the Braves in the world's series.

Mr. W. B. Craig, Dick Rudolph's father-in-law, gave a dinner party Saturday evening at the Carle-Rite Hotel in honor of Dick's recent success in the world's series. The following guests were present, viz.: Messrs. W. B. Craig, A. E. Pierce, Slater, Priestman, L. Har-greaves, G. Pierce, F. Bewick, H. Slater, K. Rennie, H. Miller, A. Chadburn, V. R. Ransley, and also Miss Ethel Craig, Mrs. Rudolph's sister. A musical program was also arranged, which was greatly appreciated, and a very pleasant evening was spent thanks to the efforts of Mr. Craig and the management.

There were forty-five entries, including one from St. Thomas. Last year a limit man also took the prize, when Blake of Galt rode his head off and grabbed the initial position. E. J. Watson captured the time prize that time, but in Saturday's race twentieth place was the best he could do. The result of the race was as follows:

Pos'n.	Name	Time	Hdp.

Are You Helping the Empire?  
There are other ways, if you are not going to the front, by which you can help Canada and the Empire.  
You can keep every cent you spend circulating in Canada by buying Canadian instead of foreign products.  
No matter what you require, it's your duty to help the Empire by insisting upon having Canadian manufactured goods.  
If you do this your money will circulate in Canada and you will pay less for foodstuffs this winter.  
Therefore, don't drink imported lagers, but **KINGSBEER**—a real Canadian product, made by Canadians for Canadians.  
If your dealer cannot supply **KINGSBEER**, order direct from us.

CANADA FIRST-BUY AT HOME

Keep Factories Running—means that for the sake of prosperity the wheels should be kept going and the payroll sustained. It expresses the truth that the basic fact of prosperity is the payroll. It says nothing about profits or dividends. It recognizes the dynamic efficiency of one thing only—the wages of labor.

It is a self-protective purpose to maintain in a state of earning efficiency the hundreds of thousands of men who depend on the factories of Canada, for their livelihood. But unless the people who buy spend their money for goods made in Canada, the payroll can't be maintained.

The merchants of this country need the dollars of the workmen. Cut off the wages of labor and you close the doors of business. Keep wages going at full strength and the buying power of the country stays up. Buy the products of Canadian factories and you help keep up the payroll, your own safety.

Buy foreign goods and you work against your own safety. The going factory is usually conditioned on the home market for goods made in the country. If its products are bought by a Canadian people a Canadian factory can keep up its payroll. If not, it must shut down, lay off hands or reduce wages.

As believers in practical economy combined with patriotism we can't practice the principle of self-preservation unless we buy goods made in Canada and keep the wheels of the great organism, symbolized by smokestacks and power-houses, running as near as possible to a peak load.

It's the going factory and the sustained payroll that keeps the country united in a time of dislocation caused by a world war. The dollars of Canadians spent for goods made in Canada that guarantee the going factory, the sustained payroll, and a new era of prosperity to the whole country. And it's everybody's business, from the financial magnate to the man with the dinner pail, to see that the dollars of Canada are spent for this practical, patriotic purpose.

LONG WAR FEARED BY WALL STREET

Protective Measures Are, However, Making Good Progress.

BUSINESS SHRINKAGE Steel and Copper Outlook Grows Darker—Banks' Position Improves.

NEW YORK, Oct. 18.—The war news this week was regarded in many quarters of the financial district as making for a prolongation of the conflict and the consequent disturbance of the world's finances. Measures for coping with the situation, however, made steady progress.

The call on subscribers to the \$700,000,000 gold pool for a 25 per cent. payment increased the foreign exchange resources of the pool committee, but the sustained strength of rates revealed the extent of the requirements to be met. Domestic money conditions improved further, rates for mercantile paper receding to 4 per cent. and call loans in Wall Street to 7 per cent. and under.

Projects for the relief of cotton holders, both among bankers and legislators, were watchfully scrutinized. Unstable cash prices for cotton restricted buying, but the census figures of the September domestic consumption gave satisfaction and cotton exchange bills against exports were in larger supply at this centre.

Heavy Food Exports. Large food exports continued and while export orders for steel showed moderate expansion, domestic buying shrank. The Lackawanna Steel Company's third quarter earnings were an unpromising harbinger of the forthcoming report of the U. S. Steel Corporation. Reduction of output and further shading of copper prices were reported and the drastic reduction of the Amalgamated Copper dividend was accepted as a logical result of conditions in that industry.

Railroad gross earnings and traffic returns showed sharp shrinkage. The field of permitted dealings in securities was slightly enlarged, but under careful restrictions. Capital operations are at present limited almost entirely to the refunding of maturing obligations at higher interest rates.

Further reduction in the cash reserve deficit was the notable feature of the weekly bank statement, that item now standing at less than \$1,000,000 against a depletion of \$45,000,000 recorded in the middle of August.

NEW YORK STATEMENT SHOWS RESERVE INCREASE Amount is Still Below Legal Requirements—Loans and Investments Decrease

NEW YORK, Oct. 17.—The statement of the average condition of clearing house banks and trust companies for the week shows that the cash reserve increased \$6,857,300, leaving a deficit of \$934,150 below legal requirements. The statement follows: Average condition: Loans, decrease \$4,423,000; specie, increase \$4,678,000; deposits, decrease \$3,793,000; circulation, decrease \$2,048,000; deficit cash reserve \$934,150, decrease \$6,857,300.

Summary of state, banks and trust companies in Greater New York, not including clearing house statement: Loans and investments, decrease \$4,423,000; gold decrease \$1,461,600; currency and bank notes, increase \$498,300; total deficit, decrease \$934,150.

COBALT SHIPMENTS. Cobalt ore shipments for week ended Oct. 16 were: Tretlow, 1,360; Peterborough, 1,380; Casey Cobalt, 1,380; Minn. St. Paul & S.S.M. common, 1,380; Dominion Reduction Co., 1,380; Penn-Canadian, 1,380.

LONDON BAR SILVER. LONDON, Oct. 17.—Bar silver, 23 3/4 per ounce. 100 lbs. of England today received £2000 in bar gold and £1,226,000 in American coin.

DULUTH-SUPERIOR EARNINGS. Duluth-Superior Traction earnings for the second week of October were \$24,261.44, against \$27,155.56. For the year to date earnings were \$1,015,682.24, an increase of \$28,803.14.

C.P.R. EARNINGS DOWN. MONTREAL, Oct. 17.—Canadian Pacific Railway earnings for week ended Oct. 14 are \$2,224,000, a decrease of \$1,072,000, compared with the same week last year.

UNION STOCK YARDS. There are 246 carloads of live stock reported since Saturday morning, comprising 1,300 head of cattle, 1,300 sheep and lambs, 349 calves and 512 horses.

EAST BUFFALO CATTLE. EAST BUFFALO, Oct. 17.—Cattle—Receipts, 1250 head; slow. Veals—Receipts, 300 head; active; \$5 to \$11. Hogs—Receipts, 400 head; slow; heavy and mixed, \$8.15 to \$8.25; Yorkers, \$7.50 to \$8; pigs, \$7.25 to \$7.50; rough, \$6.50 to \$7; stags, \$6.25 to \$6.75. Sheep and lambs—Receipts, 1600 head; steady; unchanged.

CHEESE MARKETS. CORNWALL, Oct. 18.—On the cheese board here Saturday there were offered 1160 boxes of white and 50 of colored. The highest bid was 15-16c; 1010 boxes were sold at 15-16c. The balance was refused.

ST. HYACINTHE, Que., Oct. 18.—On the dairy board here Saturday 200 packages of butter sold at 27 1/2c, and 426 boxes of cheese at 15c.

Discovery of a Big Oil and Gas Field in Western Ontario EUREKA!

Map of new gas and oil field, showing location of Eureka Syndicate's gas and oil properties and pipe line to Tilsonburg.

In the Tilsonburg district, less than 100 miles from Toronto, there is already development sufficient to stamp this Oil and Gas field one of, if not the most important, in Canada. Large Gas Wells are steadily flowing and many influential syndicates are already operating. This Tilsonburg Oil Field has been endorsed by departmental and outside experts. We want YOU to join us in our syndicate operations. We have no stock to sell. On payment of \$15 you become absolute owner of a participating lease, which lease you can use to your own development and at the same time share in the profits of the syndicate's wells. On the Eureka Gas and Oil Development Syndicate's property there is now one well with 400 feet of high-grade oil. It is the intention of the syndicate to sink an additional well on this first ten acres, now being offered for sale, of the syndicate's holdings of 521 acres, and every syndicate holder will participate pro rata in the profits of these wells. As sold a well will be sunk on each ten-acre lot, making altogether 53 wells, in the profits of which all leaseholders will share.

REMEMBER PETROLIA. These oil fields made millionaires, as the leases were held among close corporations. Our proposition will divide up the large profits and give each leaseholder a goodly share. If you are interested in a large profit-earning Canadian industrial proposition write or call on us for fuller particulars.

With a daily recovery of only 20 barrels of oil a day from our first two wells a bonus of 20 to 100 per cent. could be paid to each leaseholder. Experts say that 100, or even a 5000 barrel well a day, is not improbable. Think what this will mean to fortunate participants in the syndicate's wells.
