\$7000

Near St. George and Prince Arthur, ten-room brick house, furnace, exposed plumbing, large veranda. Home or large for present owner. H. H. WILLIAMS & CO., 33 King St. East.

PROBS: Strong N.W. to N winds; a few local snowflurries; generally fair and cool.

STANDARD BANK
Space arranged to suit tenants, excellent light, best elevator accommodation.
H. H. WILLIAMS & CO., 33 King St. East.

MAYOR'S SALARY NOW \$7500

REPORT ON DUPLICATE INCREASES ARE GENERAL

City Council Displays Lavish Generosity in Rewarding Officials Large and Small—Experts on Water Situation Recommend Additional Intake Off Scarborough Point.

What the City Council Did

Sat. for 7 hours and 30 minutes. Raised the salary of the mayor from \$5000 per year to \$7500 per year, with only the mayor and Ald. McMurrich opposing.

Received an interim report from the board of experts on the water situation. Received a letter from P. W. Elliott accepting his appointment to the city's electric commission.

Decided to have the city works committee report on the widening of Eglington-avenue from Yonge to Keele-streets to a width of 100 feet.

Waterworks matters took up most of the afternoon session of the city council yesterday and the salary raises recommended by the board of control and some increases not recommended took a considerable portion of the evening session.

Controller Spence sprung a surprise by suggesting that the mayor's salary be increased, and stated that it had been mentioned in private meeting of the board of control.

The mayor expressed no little annoyance that the matter was brought up in council, and protested against any increase being made. He regretted that the matter had been introduced again after it had, as he thought, been dismissed by the board. It put him in a position of making a play and he had no intention of doing so.

Ald. McMurrich opposed the motion, and harked back to the times when the mayors served the city for the honor of it and spending what they had in salary in entertaining. He did, however, think the proposal was a good one providing it was made at the beginning of the term.

Controller Hocken called attention to the fact that the salary has been the same for the past 21 years, and thought the increase should go thru.

It was put to a vote, and the entire council, with the exception of the mayor and Ald. McMurrich, supported it. As the mayor could not vote on it, Ald. McMurrich registered a lone vote in opposition.

In Generous Mood

On Ald. O'Neill's motion \$250 was added to the board's recommendation as to the city architect's salary increase, making it \$4500.

Ald. Baird had City Clerk Littlejohn's salary increased to \$4000, an increase of \$250 over the board's recommendation.

Controller Hocken suggested a raise of \$100 each to the members of the court of revision, and it was adopted.

Ald. Hays, Graham, McBride and others proposed a \$200 increase over the amount suggested by the board for G. F. W. Price, assistant city architect, and it was agreed to. This gives him \$2100 per year.

Hydro-Electric Inaugural To-Night

6.30 p.m.—Banquet at the King Edward Hotel.
8.30 p.m.—Parade from banquet to city hall via King, Bay, Queen and James-streets.
8.45 p.m.—Mayor introduces Sir James Whitney and Hon. Adam Beck to citizens on Queen-street steps of city hall.
8.50 p.m.—Sir James Whitney pushes button which turns on hydro-electric power and starts illumination. This will be followed by brief addresses by Sir James Whitney and Hon. Adam Beck.
9.15 p.m.—Promenade thru the city hall.

PARIS RIOTERS FIGHT POLICE

German Workman Declares His Compatriots Would Refuse to Raise Weapons Against French Comrades—Quiet Elsewhere.

PARIS, May 1.—During the daylight hours the extra troops and those from the Paris garrison and the police had little trouble with the crowds of workmen who gathered to celebrate May Day with great demonstrations, but late in the evening things took on a livelier aspect, and there were many collisions in the streets. About 7 o'clock in the evening hundreds of thousands of persons, for the most part spectators, gathered in the Place de la Concorde and the adjacent streets. The troops and police finally succeeded in dispersing them, and this district and the Champs Elysees took on their habitual aspect.

At 9 o'clock, however, several thousand demonstrators gathered before the big St. Paul Church School, near the Bastille, and listened to internationalist and anti-militarist speeches by the Rev. Louis Lullier. Large forces of police and troops held the surrounding streets. A German workman, wearing a tri-color rosette in his buttonhole, declared amidst thunderous applause, in the name of his comrades, that in case of war the German workers would refuse to raise their weapons against their French comrades. The close of the meeting was marked by serious disturbances. The manifestations fought the police tooth and nail in the narrow streets of the old quarter for an hour before they were finally dispersed.

Many of the rioters were knocked down and trampled on by the charges of police were injured and many of the rioters were arrested. Despatches from the provinces say that the customary labor celebration was held everywhere. They were practically without incident, except at St. Etienne, where the manifestations solemnly burned a copy of the Workers' paper in front of the city hall. The troops had some trouble in dispersing them, and a number of the workmen were hurt or arrested. One of the rioters was in a critical condition.

Quiet Day in London.

LONDON, May 1.—No disorder accompanied the May Day demonstration in London. A procession bearing red banners, bands playing the Marseillaise, marched from Victoria Embankment to Hyde Park. About 10,000 persons, more than half of them aliens, gathered there. Tom Mann, vice-president of the Workers' Union, who was in the principal speaker, said it was shameful that the attendance of the workers was so small.

American Railway Men Out.

CHICAGO, May 1.—Maintenance of way employees of six railroads, numbering 2500 men, struck to-night when their demands for recognition of the union and a wage increase were refused.

The total number of men involved in strikes and lockouts in and near Chicago, as a result of May Day labor troubles, is estimated at 12,000.

The men out include 2500 railroad men, 2500 bricklayers, 6000 in the building trades, 300 master workers and 700 in miscellaneous unions.

The maintenance of way strike affects the Illinois Central, the Chicago, Aurora and St. Paul, and the Pullman and Ohio terminal lines, the Chicago Junction Railway, the Western Indiana Belt Railway and the Indiana Harbor Belt Railway. It is estimated that five hundred bricklayers, belonging to 12 locals of the International Brickworkers' Alliance, struck for a wage increase.

MR. TAFT'S IDEA

How do Canadians like it?

HIGHER LIQUOR PRICES CAST GLOOM ON MAY DAY

Bonifaces Acted Independently, But Will Fix Schedule on Thursday.

The price of those liquors which cheer and occasionally inebriate took an upward turn in Toronto yesterday.

No more will the impetuous individual with a lonesome ten cent piece and a taste for lager that disdains draught bear nonchalantly walk into an inviting barroom to soothe his palate with a bottle of home-brewed beer.

This action is not universal as yet. A meeting of the hotelmen will be held Thursday to fix the rates, but in the meantime most of the down town bars have adopted the "raise."

Wanted in Prescott.

Jerry Shannon, 20 Denbigh street, 28 years old, was arrested last night by Detective Cronin. He is alleged to have broken into a hardware store in Prescott and helped himself to two revolvers, a quantity of ammunition and some other articles. He is a contracting laborer.

PEACE AGREEMENT TO BE FOR FIVE YEARS

According to London Telegraph, British Government Reserves Right, When Vital Interest of Self-Governing Dominion is Involved, to Obtain Concurrence of Dominion Government.

LONDON, May 2.—The Daily Telegraph claims authority to state that the new Anglo-American peace convention is not likely to be signed for at least a fortnight, but that sufficient progress has been made to warrant a forecast of its subject matter.

According to the Telegraph, it is understood the agreement is to be for five years and that it will be a great advance over the treaty of 1907 and at least a fortnight, but that sufficient progress has been made to warrant a forecast of its subject matter.

ANGLICAN PRELATE WAS INCONSISTENT

Father-Mea Counters on Bishop Farthing's "No Temere" Sermon.

KINGSTON, Ont., May 1.—(Special.)—In preaching on the "No Temere" decree, the Rev. Father Mea, referred to the stand taken by Bishop Farthing of Montreal, and held that the Roman Catholic Church could not adopt any marriage law. Other churches recognized man's conscience as supreme, which the Roman Catholic church did not. The law of the land is recognized only in matters temporal. But, said Father Mea, the venerable Anglican prelate, who now voices the supremacy of the law of men to put down the pretensions of Pope Pius X., not long ago pronounced against that same temporal power, overruling his church when marriage was a sacred wife's sister was made legal. There is a lack of consistency, to put it mildly, on the part of the learned bishop. He acknowledges, or not, as it may suit his purpose, the supreme power of man's legal enactments, a power very different from that of the Catholic Church.

TEST OF ILLUMINATION.

Niagara Falls and its product were seen together for a few minutes last night, when the city electrical department made three short tests of the illumination in front of the city hall. The water poured over the painting in front of the hall and the white and colored lights blossomed all over the place, spelling the words "Inaugural Hydro-Electric" in big glowing letters. Evidently the engineers were very well satisfied with the tests, for after a few minutes of the luxuriant glow it was turned off until the great opening to-night.

ANOTHER LARGE FACTORY.

The World understands that the Beverley Robinson property, which was sold some time ago by Mrs. Robinson to Senator George A. Cox, is intended as a site for a large factory for the Robert Simpson Company. This property fronts on Queen and Richmond streets, at the corner of Duncan street.

THE COUNTRY BOY.

The advance notices of "The Country Boy," playing at the Princess Theatre this week, were not any too eulogistic. It is a splendid comedy, interpreted by a thoroughly capable company, and should prove a great success during its engagement here.

May is Here. It came with a warm April shower, did May. The weather man says that we are going to have some chilly days even now, but May is here, and summer is on the threshold. The Dinesen Company is your man's exclusive hatter for every season. Dinesen Company is your man's exclusive hatter for every season. Dinesen Company is your man's exclusive hatter for every season.

MORE DELAY ASKED BY COUNSEL FOR ATLAS

Wishes to Defence Witnesses Reported—Crown Has Much New Evidence.

Crown Prosecutor G. Lynch-Staunton will to-day reply before Sir William Meredith, at the assizes, to the application of T. C. Robinette, K.C., on behalf of George M. Atlas, to have the charge of subornation of perjury which was transferred from the sessions to this court, postponed for 11 days. Mr. Robinette read an affidavit in the court yesterday afternoon, in which William Douglas, solicitor for Atlas, swore that Vlahos, the agent sent across to bring over the defence witnesses, had been wounded and that a further series of accidents had befallen the witnesses, but that he believed that they would be here in 11 days.

For the crown Mr. Staunton asked 111 to-day to prepare his reply. He pointed out that the crown had gone to a heavy expense to bring every man and woman whom they could find and had many witnesses of the matter. He said that there had been ample time and declared his intention of combating any effort to take the case from before the present assizes.

In the city now, in addition to all the witnesses heard at the sessions when Atlas was convicted of the crimes for which he is now serving a six-year term in Kingston, are Rev. A. MacLachlan, a Presbyterian missionary from Smyrna, whose evidence is said to be sensational.

The crown has also secured, thru the special intervention with the Turkish Government by the British ambassador at Constantinople, the presence of one Ali, a Turkish gendarme, who journeyed with Atlas from the Village of Florence to Gorno Nevrolini in Macedonia. The story of the Turk witnesses with that of the other crown witnesses at the previous trial. The other new witnesses are Tapoloff, the mayor of the village, and a Macedonian named De Brannoff, who also made the journey with Atlas from Florence. The widow of the murdered Simeff, to whom Atlas swore that he had the money, has been brought again from Manitoba, as have brother and son of the mayor of Gorno Nevrolini.

THE COUNTRY BOY.

The advance notices of "The Country Boy," playing at the Princess Theatre this week, were not any too eulogistic. It is a splendid comedy, interpreted by a thoroughly capable company, and should prove a great success during its engagement here.

May is Here. It came with a warm April shower, did May. The weather man says that we are going to have some chilly days even now, but May is here, and summer is on the threshold. HOPES FOR ANNEXATION RESULT OF RECIPROCITY

Where Germany Comes In.

FRANKFORT-ON-THAINE, Germany, May 1.—German pretensions to the benefits of the reciprocity agreement between the United States and Canada, on which the commercial bodies are insisting, and which are now the subject of diplomatic negotiations, are reviewed editorially by The Frankfort Zeitung, the leading financial organ here. The Zeitung holds that Germany is undoubtedly entitled to such benefits, under the Washington note of February 1910, promising the most favored nation treatment. The United States in the negotiations then definitely abandoned the old American interpretation, under which the most favored nation clause does not apply to concessions granted third nations, for reciprocal concessions, and demanded and received the benefits of the German minimum tariffs without corresponding concessions, the minimum Payne tariffs being more unfavorable than the Dingley rates. The American Customs Court, says the Zeitung, now wishes to revise the former interpretation, but this is not acceptable.

Representative Madden of Illinois Expresses Aspiration That "Closer Commercial Relations" May Blend the Two Peoples Into One Harmonious Whole.

DEBATE ON THE FREE LIST BILL

WASHINGTON, May 1.—Speeches on the farmers' free list bill in the house to-day again sounded the note of Canadian annexation; traversed the range of argument concerning Canadian reciprocity, already disposed of by the house and came back at times to specific attack upon or support of the free list bill, which has been pending for six days and gives promise of continuing for several more. At times less than a score of members were on the floor to hear the speech-making. Democratic leader Underwood, at adjournment, expressed the hope that a vote may be reached Thursday or Friday, but many members wish to speak, and all desired time will be given.

Rep. Madden of Illinois, in an hour's speech to-day, touched the annexation issue. "My hope is that if we can have closer commercial relations with the people of Canada," he said, "some day this relationship may blend the two peoples into one harmonious whole; and that the territory now being annexed may become a part of the United States, as it should be. I have always believed we should be one people, under one flag, and under one government, and it will be better for us all when such a thing happens, if it ever does."

Messrs. Gillette of Massachusetts and Dyer of Missouri attacked the free list bill because it put jute bagging, used to bale cotton with, upon the free list, thereby threatening the jute bagging industry of this country. Mr. Gillette said the industry would be transferred to India, where cheap labor would make the bagging, and that the cotton would be about three cents on a \$70 bale of cotton.

The "Bagging Trust."

Democrats questioned Mr. Gillette sharply about the "bagging trust," but he declared it did not exist. Mr. Burleson of Texas demanded to know if the whole industry of bagging was not controlled by three firms that parceled out the quantity each should make. Mr. Gillette did not believe this was the fact.

Mr. Cox of Indiana supported the bill and attacked opponents of the reciprocity measure recently passed. He particularly the Democratic proposal to put boots and shoes on the free list. He said American machinery upon which American goods are made is being installed abroad and the U. S. can be flooded with foreign shoes.

Mr. Rucker of Colorado, a Democrat, who spoke against the Canadian reciprocity bill, attacked that measure today in a speech favoring the free list bill. He said he had been ordered by the abolition of the free list of the Democratic caucus in favor of reciprocity, but explained that he opposed the measure because he believed it unfair to the farmer.

ALMOST UNANIMOUS

Penetang Votes 244 to 9 for Hydro Power To-day.

PENETANG, May 1.—(Special.)—Penetang voted almost unanimously for hydro power to-day. The vote was 244 to 9 in favor of the bylaw to spend \$25,000 to adopt hydro-electric installation in connection with the arrangements made by the commission with the Simcoe Power Co.

When the house met to-day, Hon. Frank Oliver said: "I desire, Mr. Speaker, to call your attention to a matter which was brought to the attention of the house on Friday last by the prime minister, who referred to an article which had appeared in a Toronto paper, in which no names were mentioned. Since that time articles have appeared in other papers in which my name has been mentioned. I have not had an opportunity to consider these articles, but I hope to be able to make some observations on the matter to-morrow."

Martin Burrell (Yale-Cariboo) read a newspaper dispatch which stated that, at the instance of Lord Strathcona, the proposed spectacle representing the battle of Chateaugay, which was to have been a portion of the pageant at the Festival of Empire in London, during the coronation celebration, had that it had been eliminated because it might be offensive to American visitors and might be a danger to the adoption of the reciprocity agreement. He asked what part the Canadian Government had played in the matter. Hon. Sydney Fisher replied that the pageant at the Festival of Empire was entirely in the hands of a committee in London. While the Canadian Government had contributed towards the Festival of Empire, the government had not been consulted regarding the composition of the pageant. He believed that Lord Strathcona was a member of the committee, but not in his official capacity as Canadian high commissioner in London.

Canada Not Used Right.

Hon. George Foster said he felt that Canada had not been used right in this matter. "History is history," he urged. He described it as pandering to markish sentimentality, which Sir Wilfrid Laurier remarked that in the old American school books the battle of Chateaugay was not regarded as a Canadian victory. To which Mr. Foster argued that it was regarded as a Canadian victory in the later American school books. The premier agreed with Mr. Foster's attitude, and said that if he himself had been a member of the

What's in a Name?

ASK the man who has tried "Sovereign Brand" Clothes; we will stand back of every suit that goes from our store bearing that name, with a new one or your money for any fault whatever.

Dollar for dollar you cannot equal our values anywhere. We aim to fit every man and fit him properly. After all it's the well pleased customer who builds a business. The foundation of this one was laid forty years ago and has been growing stronger every year, and is to-day the Best All Clothing Store between the two oceans. Some men have said they cannot be fitted with garment all ready to wear; we claim that they have never really tried; we can and do fit Our Customers better than the tailors can.

This is an age of Progress and no man is justified in saying ready-to-wear garments are not as good if not better than the so called made-to-measure clothing until he has come, seen and examined, and we mean every word we say. \$15 to \$35 is our price range and thousands of the most beautiful fabrics are here for your inspection. Be among the best dressed men this spring and summer and see that your suit bears the label

MAYOR'S SALARY \$7500 INCREASES ARE GENERAL

Continued From Page 1.

stead of the \$250 recommended, and it was agreed to. This makes his salary \$2500 per year.

Miss Annie Redican, assistant telephone operator, was granted an increase of \$100 per year, instead of \$50.

A. E. Smart of the city clerk's department was raised from \$1400 per year to \$1550, with a chief clerk's maximum.

Salaries for Foremen. There was prolonged discussion on the question of increases to the members of the fire brigade. The recommendations of the board were thrown out and those of the chief substituted.

Controller Church opposed the part which recommended the abandonment of the proposed 500-foot extension to the intake and the laying of a duplicate pipe into the lake opposite the present intake, having the intake in a depth of 70 feet of water.

The proposed duplicate intake would extend into the lake 2000 feet. This was only a temporary measure and not in the final scheme which the experts propose to present for a permanent supply for greater Toronto. They advise covering the duplicate pipe with cement and state that they are of the opinion that water obtained from this source must either be treated with chlorine or filtered.

Controller Spence moved that the recommendation for a new intake in the report be adopted, and that the city engineer proceed immediately to prepare plans for the supplying and laying of the proposed intake pipe, and the apportionment of the cost, and report the estimated cost of the work.

Controller Church Opposed. Controller Church opposed the part which recommended the abandonment of the proposed 500-foot extension to the present pipe. He was also opposed to the location of the duplicate pipe which he contended was in line with the sewage coming out of the western channel.

Ald. Maguire thought the experts should put themselves on record on a scheme to take water from Scarborough Heights before any arrangements were made for a duplicate pipe.

of immediate action, but believed the extension of the present intake 500 feet should not be abandoned.

Ald. Graham said that while he was not in favor of the entire report, he was opposed to the abandonment of the 500-foot extension. He agreed that there should be another intake.

Controller Church moved that the entire report be referred to the board of control, and that the engineer prepare specifications for the laying of a duplicate pipe.

Ald. Hilton suggested that if they had better engineers in the council than the experts, it was a mistake to engage experts. He thought the report should be adopted.

Ald. Yeomans said if they delayed matters they would be repeating the blunders of previous councils. They were there to use common sense and not to act as engineers.

Church's Motion Defeated. Controller Church's amendment was then put to a vote and the following supported it: Controller Hocken, Controller Church, Ald. Rowland, McBride, McCarthy and Anderson. Those opposed to it were: Controllers Spence and Ward, Ald. Graham, Hilton, McBrien, Yeomans, Sweeney, May, Heyd, Pielan, McCausland, Dunn, McMurrich and Chisholm.

The motion of Controller Spence was then put to a vote and carried with the following voting for it: Ald. Chisholm, O'Neill, McMurrich, Dunn, McCausland, Pielan, Heyd, May, Sweeney, Yeomans, McBrien, Weston, Hilton, Graham, Controllers Hocken, Ward, Spence and the mayor.

Those who opposed it were: Controller Church, Ald. Rowland, McBride, McCarthy, Maguire and Anderson.

P. W. Ellis Accepts. A letter from P. W. Ellis was read, in which he accepted the appointment.

Dr. Chase's Ointment is a certain and guaranteed cure for hemorrhoids, itching, bleeding and protruding piles. See testimonials in the press and your neighbors about it. You can use it and get your money back if not satisfied. See at all druggists or EDWARDS, BATES & CO., Toronto.

DR. CHASE'S OINTMENT.

to the city's electrical commission and thanked the council.

The council approved of the bill for the acquisition of waterlots between Dufferin-street and the Humber River, the cost to be defrayed out of receipts from tax sales. The bill has been delayed as certain aldermen wished to know where the money was to come from before they would give their assent.

A bill to afford relief to the fruit commission merchants in the vicinity of Church-street and Colborne-street, who have been haled to police court for obstructing the sidewalks with their wares, occasioned considerable discussion and was referred back to the legislation and reception committee.

Will Merge Committees. Ald. Yeomans succeeded in getting a majority vote in favor of his motion for the merging of the is and committee and parks and exhibition committee. Those who voted in favor of it were: Ald. McCausland, McCarthy, Heyd, May, Sweeney, McBrien, Yeomans and Weston, and Controllers Church, Ward, Hocken and Spence.

Those who lined up in opposition were: Ald. Chisholm, O'Neill, Maguire, Baird, Dunn, Anderson, McBride, Hilton and Graham.

CLAIM COMPENSATION Will Try to Hold City Responsible for Typhoid Case.

OTTAWA, MAY 1.—A claim for compensation for a typhoid fever case has been put in against the city by E. J. McVeigh, 134 Osbourne-street. Mr. McVeigh's daughter, Dorothy, took typhoid fever during the epidemic and Mr. McVeigh figures the cost, including medical attendance, at \$118.10. He asks the city to pay this amount, claiming it is responsible for opening the emergency valve, for failure to test drinking water, for its general responsibility to supply pure drinking water, and for failure to take proper measures to protect the public after the commission found the water was impure.

48 TO 8 AGAINST PACT Overseas Club, After Strong Debate, Strongly Opposes Reciprocity.

The reciprocity agreement was discussed before the Overseas Club last evening in Decider Hall. E. W. Carter occupied the chair.

R. N. Jackson of The London Bally Mall, and J. W. Light spoke against the agreement, while J. Knight and A. R. Macdonell spoke in favor of the pact.

The following resolution was moved, "That the reciprocity agreement is in the best interests of the Dominion of Canada."

The men decided at the meeting yesterday to fight the issue to the bitter end. The international organization has sanctioned the fight, and written by Mayor Hopenell in May, 1910, to Sir Wilfrid Laurier, the city will this year reap \$8610 in local improvement taxes from the Dominion Government for property on Sussex-street. In addition to this there will also be taxes on improvement commission property.

Montreal Fire Association. MONTREAL, May 1.—The elections of the Montreal Bar Association were held to-day and Sir J. Brown, K.C., was elected attorney by acclamation.

Mr. A. C. Harwood, K.C., was returned unopposed as syndic, and Mr. S. Morin as treasurer. The council members were as follows: A. E. Delorme, Arnold, Wainwright, R. DeLafosse, Pierre-Belloc, S. Letourneau, C.A. Guertin, Frank J. Curran and Mr. A. Brown, K.C.

Mr. J. E. Boulton was elected secretary.

IRON-WORKERS' STRIKE TIES UP LOCAL WORKS No Settlement in Prospect, Tho Numerous Interests Are Affected.

The Bridge and Structural Ironworkers' Union, Local No. 4, two hundred strong, walked out yesterday almost as one man. As the rainy weather did not permit of working outside on the buildings, the full extent of the trouble cannot be told until the weather clears.

A mass meeting was held in the Labor Temple yesterday morning, when reports were obtained from Hamilton and Ottawa that the unions there had followed suit. Midland workers also walked out, and all the outside bridgemen have left their jobs.

The big concerns affected in Toronto are the Dominion Bridge Company, constructing the new museum, the Lawrence bread factory on Denison avenue, the old wing of the parliament buildings, and the Burt wash building at Victoria College; the Canada Foundry Company, who are constructing the Imperial Trust building on Victoria street, the annex to the Kent building, the new wing of the parliament buildings, and The Telegram building; the McLaughlin Construction Company, who are building the new post office street viaduct.

Mr. Watt, general manager of the Canada Foundry, stated that the reports of the number of men involved were grossly exaggerated. Both Mr. Watt and Mr. Adams, general manager of the Dominion Bridge Company, stated that they were not aware of any trouble as yet, and that all the weather was suitable for outdoor work nothing would be known of the situation.

USE THE ELECTRICITY Of Your Own Body TO CURE INDIGESTION

Andrew McConnell, the discoverer of this Science of Human Electricity, has proved that digestion is purely an electrical process.

The Peristaltic Action (churning movement) of the stomach necessary to keep the food from fermentation, is due to the presence of electricity in the blood and the nerves which form the gastric fluids. It is a galvanic process. As long as this electricity exists, when this power is not present.

When the normal amount of electricity is not flowing in the stomach, also, there is thus a great decrease in the supply of building material for the body, a large falling off of the production of electrical energy, and the circulation of the blood and life processes of the whole organism are interfered with. Indigestion is its primary cause of almost every form of disease.

Andrew McConnell has discovered the electrical laws whereby a greater percentage of the electricity in the body can be drawn to the digestive organs, giving the invalid digestive power of a well man. These are electrical treatments which every one can give himself and which cure indigestion even when the best specialist fails to give help.

Indigestion requires SOME power for their digestion, and when, as is the case with indigestion, there is insufficient energy supplied, no method of dieting or drugs can effect a cure. If drawn to the stomach, there is enough electricity in the body, even when one is in the most weakened state, to digest ordinary food. This new system of self-cure, removes the necessity of dieting, and every one, through utilizing the electricity in his body, cure indigestion, and consequently, rheumatism, nervousness, and all ailments connected with indigestion.

Send for literature explaining this scientific system for the attainment of health.

CADETS FOR BISLEY GIVEN GREAT SEND-OFF Parade to Station from Armouries Was Witnessed by Thousands.

The reception accorded the six fortunate cadets who left Toronto last evening for England lacked nothing in enthusiasm and good wishes.

At five o'clock they reported to General Cotton and Colonel Langton, who wished them bon voyage and success at the Bisley targets. In the evening they were entertained to dinner at the King Edward Hotel by E. W. Hagarty, principal of the Harbord Collegiate, at which Cadet Sergeant Hughes and Cadet Lieutenant Heaks were honored guests. The six lucky boys who were chosen from Ontario to compete at the boys' Bisley this year were: Cadet Lieutenant Hagarty, Toronto; Cadet Colonel Sergeant Genet, Bramford; Cadet Corporal Burt, Bradford; Cadet Corporal Danick, Bramford; Cadet Corporal Kerr, Hamilton; and Cadet Corporal Pulling, Hamilton.

At 8 o'clock six companies of cadets formed up at the armouries under the command of Col. J. T. Thompson. The order of march was as follows: Public school bugle band, companies from Harbord and Jarvis Collegiates; in grand order, then followed the chosen cadets, after which came one hundred high school cadets, two battalions of public school cadets, each 250 strong, the first battalion consisting of Parkdale, Dufferin, Ryerson, Glens and Wellesley. They were dressed in scarlet tunics with black belts. The second battalion comprised Huron, Bolton, Ave, Oden, Denison and King Edward, who wore white belts instead of black.

The battalions were led by Parkdale and Huron because they tied for the Lord Roberts colors last year. The line of route was down University-ave, along Queen, Yonge, King, York-st. to the upper entrance of the Union Station. The public school boys were allowed down station street, and the six cadets chosen from the Province of Quebec, while in England they will visit Aldershot, Portsmouth, where they will go for a cruise on H. M. S. Dreadnought, Whale Island gunnery school and will cross to Belgium and visit the field of Waterloo, which will also be inspected by the King and Lord Roberts. They sail at daybreak tomorrow by the Royal Geordie for Bristol and return to England on the morning of July 1. They received a splendid ovation at the station, and Cadet Lieutenant Hagarty was carried shoulder high amid the applause of the boys. Hearty cheers were given for the King, Canada and Principal Hagarty.

Customers' Deposit Account Office now on Fourth Floor.

Clothes of Such Good Style as These Are Good For a Boy

The well dressed boy has a feeling of confidence of self-reliance that is almost impossible with the boy who knows his clothes are ill-fitting and shabby...

An imported tweed suit in a mid-grey shade in a diagonal weave with a faint stripe effect. The coat is a double-breasted model with long roll lapels...

In either double or single-breasted models we show a line of suits made from imported tweeds in dark shades of grey and brown with faint colored stripes...

Pyjamas Are Cool Sleeping Apparel for Summertime

These suits were made in our own workrooms. The material used is an English cashmerette in cream color with neat silk stripes of pink and blue...

The Right Weight Underwear for Summer Wear

Balbriggan underwear is very popular for summer wear, being light in weight and comfortable. These garments are made of double thread in a nice even weave...

Got Mine at EATON'S Too!

In rather light shades of grey we offer suits in imported tweed materials in stripe effects, the stripes also being grey and about two inches apart...

In medium shades of grey with fine stripe effects, and also in fine basket weave effects there is a line of suits in imported tweed cloths in stylish models...

A Drill Working Shirt, 29c

It's an unusually low price, because quantity is very limited. The shirt is made of a good quality black drill with small white stripes and has an attached collar...

Nifty Neglige Shirts That Are Big Value at 69c

There are a lot of pleated front shirts in this showing, and the materials from which they are made include those neat stripe effects so much favored this season...

THE T. EATON CO LIMITED

NEW LIGHT THROWN ON MYSTERIES OF NATURE

Sir E. Ray Lankester Deals With Modern Knowledge Given in Encyclopaedia.

Sir E. Ray Lankester has just published an interesting article on the many new discoveries brought to the attention of the public in authoritative form in the new Encyclopaedia.

Remarkable New Theories

Many remarkable new theories respecting light, color and air are described. Discoveries respecting the habits of animals render the article in natural history romantic.

Cause of Harvest Moon

The following observations are of interest. Agriculturalists and farmers have often been grateful for the series of nights in September when a full moon illuminates the sky for many hours...

OPENING MUSKOKA LAKES NAVIGATION

Leave 9:40 a.m., C.P.R., for All Points in Lakes. You can take the 8:40 a.m. Canadian Pacific train from Toronto and make immediate connection at Bala for all points in the lakes...

Soldiers Need to Eat

One of the impelling causes to the restoration of peace in Mexico will be a shortage of food. The farmers of Northern Mexico, who are the seat of the full moon rice and seeds for several evenings, with a daily retardation of only 15 to 20 minutes...

But Not a Speaking Likeness

Father and son were walking the streets and passed a large park in which were many statues. One of them—the largest of all—was of a woman. "Father, what is that?" asked the son, pointing to this particular one...

Skeletal

"In three months from now," said the man cheerfully. "I expect to own my own home." "How long," enquired his cynical friend, "is your wife expecting to be away?"—Cleveland Plain Dealer.

CAMPAIGN TO START DOWNTOWN SETTLEMENT

Plan is to Secure One or More Buildings to Serve as Social Centre.

A meeting was held at the city hall yesterday afternoon for the purpose of establishing a neighborhood house for Central Toronto. J. J. Kelso occupied the downtown Toronto, to promote a high type of citizenship...

Magistrate Kingsford Says Immorality in Standard Works Doesn't Affect Issue

Albert Britnell, Yonge-street bookseller, was fined \$50 and costs in police court yesterday morning by Magistrate Kingsford for the sale of obscene books, "The Yoke" and "Three Weeks."

MONTREAL PLANNING MOTORISTS' PARADISE

Automobile Boulevard Across the Island With No Limit on Speed.

MONTREAL, May 1.—Dr. J. P. Gadbois, ex-alderman, is planning the construction of a large automobile boulevard from Point Aux Trembles to Rivière des Prairies, directly across the island. Dr. Gadbois, who has been working on the scheme for some months, announced today that all the land necessary had been purchased...

TREATMENT OF INSANE IS SCORNED BY JUDGE

Should Not Be Herded With Criminals — Law is Disregarded.

In his charge to the grand jury of the criminal cases which opened at the city hall yesterday afternoon, Chief Justice Sir William Meredith denounced the practice of holding insane persons in the county jail. Sir William declared that, in a best furnished hospital, it was shown that there were at least 200 persons in the jail on April 28 last...

NO DANGER TO WHEAT

LETHBRIDGE, ALB., May 1.—The recent frosts have done no damage whatever to winter wheat. Well-informed farmers say that the frost will bring moisture instead of damage. The frost was not enough to injure under ordinary circumstances. Spraying is progressing fine, being about half done. The land is in splendid condition. During April the precipitation was 39 inches, against 32 last April and 25 average for April for the last nine years...

QUEEN ACCOMPLISHED KNITTER

Queen Mary is no public speaker, tho a widely read woman, without being in any sense a bluestocking, and is proficient in Italian, German and French, playing the harp and piano well and being a great knitter and the most expert needlewoman in the royal family. She is rarely without a needle in her hand when at leisure and when she stayed at country houses before her accession the lady in waiting would bring her as a matter of course her needlework bag, after dinner and she worked while talking. She is quite accustomed to the sewing machine and thinks so highly of knitting and crocheting that her sons have been taught to make mittens, simple lace and stockings, while she and her daughter have knitted many stockings for the royal children.

Pimples Broke Out All Over Her Face

Pimples are caused, almost entirely, by bad blood, and there is only one way to get rid of them, and that is to get at the seat of the trouble by using a good reliable blood purifying medicine. Burdock Blood Bitters has been on the market for 35 years, and is one of the very best blood medicines procurable. After using it you will find that the pimples have disappeared, and you will have a beautiful clear complexion. Mrs. Robert McNab, Badjeros, Ont., writes:—"I am greatly pleased to report the benefit I have derived from the use of Burdock Blood Bitters. About a year ago I became so weak and run down I could scarcely walk, and pimples broke out all over my face. I tried one thing after another, but nothing seemed to do me any good. I was advised by a lady friend to try B.B.B. and before I had used one bottle I felt it was doing me good so I used three bottles, and I am now well and strong, and the pimples have all disappeared. Burdock Blood Bitters is manufactured only by The T. Millburn Co., Limited, Toronto, Ont."

MORE SPADINA AVE. TRACKS

Street Railway's Application Comes Before Railway Board Next Week.

Application was made yesterday by the Toronto Railway Co. to the Ontario Municipal and Railway Board for a permit to lay tracks on Spadina-avenue, south of King-street. The board will be heard on May 12, the same date as the other Toronto applications.

REPORT OF NORTH COUNTRY

Sale of Mining Properties Bought \$425,000 to Government Offers.

Hon. Frank Cochrane's report, which has been delayed in the King's printer's department by rush of work, is out. It shows that the sale of 12,775 acres of land for mining purposes brought in \$425,331, while the sale of 22,266 acres of agricultural land brought in \$127,151.

Careless Milkman Fined

James Trueman, a milk wagon driver, yesterday was fined \$5 and costs for filling an unwashed milk bottle from his car, instead of replacing it at the door step with a filled bottle from the wagon.

The Dealer Who Holds Back

The DAVIS "PERFECTION" 10c CIGAR because he makes less profit on it, is something like the ostrich that buries his head in the sand to shut out facts.

The fact is, although the dealer makes less on a single "PERFECTION" than on other brands—he sells more and makes his profit all the same.

The "PERFECTION" CIGAR

is a new discovery in tobacco. It is as far ahead of other 10c brands as the Mauretania is ahead of Robert Fulton's first steamboat. Don't be put off with "something as good." Insist upon getting what you know to be the best—the Davis Perfection 10c Cigar.

Mild, yet Exquisitely Fragrant.

"A Blend of the World's Choicest Tobaccos."

S. DAVIS & SONS, LIMITED, MONTREAL. Makers of the famous "Noblemen" two-for-a-quarter Cigar.

LAWTON WIGGINS, 12-1 WINS FROM OAKHURST

Waterloo is the Only Favorite to Land at Pimlico—Results at Lexington.

BALTIMORE, May 1.—But one favorite won at Pimlico to-day, and that was Waterloo, who finished a head in front of Shannon in the fifth race, and equaled the track record of 1:21-5 for six furlongs. Sam Ball, the favorite in the steeplechase, stumbled and spoiled his chances, the race going to Diana Ken.

Weather clear; track fast. FIRST RACE—Maidens, six furlongs: 1. Actna, 36 (Killingsworth), 5 to 2, 4 to 6 and 2 to 1.

SECOND RACE—Two-year-olds, four furlongs: 1. Thirty-Four, 110 (G. Burns), 5 to 1, 2 to 1 and 1 to 1.

THIRD RACE—Three-year-olds, one mile: 1. Judge Monk, 110 (McCahey), 5 to 2, 7 to 10 and out.

FOURTH RACE—Three-year-olds and up, one mile: 1. Danna Ken, 142 (Henderson), 6 to 1, 5 to 2 and 7 to 2.

FIFTH RACE—Three-year-olds and up, six furlongs: 1. Shannon, 107 (Shillips), 4 to 1, 1 even and 1 to 1.

SIXTH RACE—Three-year-olds and up, one mile and sixty yards: 1. Sam Barber, 81 (C. H. Sprague), 5 to 2, 3 to 1 and 2 to 1.

SEVENTH RACE—Maidens, six furlongs: 1. Irish Gentleman, 100 (Garner), 8 to 1, 5 to 2 and 1 to 1.

EIGHTH RACE—Six furlongs, selling: 1. Sam Barber, 81 (C. H. Sprague), \$5.50 and \$4.50.

NINTH RACE—Four furlongs, purse: 1. Klug Bromstick, 112 (Howard), \$15.00, \$7.50 and \$6.00.

TENTH RACE—Six furlongs, selling: 1. Royal Captive, 112 (Kennedy), \$8.50, \$4.25 and \$3.50.

ELEVENTH RACE—One mile: 1. Joe Morris, 110 (Koerber), straight \$12.00.

EXCISOR DUCKPIN LEAGUE. Excisior—1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The World's Selections BY CENTAURE

PIMLICO. FIRST RACE—FitzHerbert, The Squire, Herpes, etc.

THIRD RACE—Mon Ami, Ossabar, Malting, etc.

FIFTH RACE—Les Boe, Delibutal, Love Day, etc.

SEVENTH RACE—Sal Volatile, Royal Onyx, Lily Paxton, etc.

LENGINGTON. FIRST RACE—Uncle Jim Gray, Irma, Helene, etc.

THIRD RACE—Enfield, Crystal Maid, Govind, etc.

FIFTH RACE—Capt. Carmody, Messenger, W. Phillips, etc.

SIXTH RACE—Wing Ting, Indian Maid, Marion Casey, etc.

TORONTO GOLF CLUB Preliminary Round for Oler Trophy To Be Played Next Saturday.

Owing to the very large entry—57—the Toronto Golf Club has found it necessary to play a preliminary round on Saturday next for the Oler Trophy.

W. Walker v. Dr. A. Penrose, C. C. A. Doulson v. H. B. Scandrett, D. R. Wilkie v. D. Waters, etc.

SUNDAY BASEBALL IN MONTREAL NOT IN DANGER. MONTREAL, May 1.—Sunday baseball, as played by the Montreal professional league team at Delorimier Park, and elsewhere by other professional and semi-professional organizations, is going to be stopped.

Mr. Roberts said to-day that he made a determined effort yesterday when he heard that Sunday games were to be played at Delorimier Park, and an admission fee charged, to stop the games.

Soccer Notes. The Oxford versus Western game will be played on Dovercourt Park, and the sand pit, as announced.

Toronto Bowling Club Excursion, \$2.00. Buffalo and Return \$2.00, Saturday, May 6th.

Via Grand Trunk Railway System. Tickets good going via Grand Trunk 9.00 a.m. Buffalo Express. Return the limit Monday, May 8.

Chessers. Mr. Irwin of the Checker Club added a few more points to his score for the week.

To-day's Entries

Pimlico Program. PIMLICO, May 1.—Entries for Tuesday are as follows:

FIRST RACE—Four-year-olds and up, six furlongs: 1. Herpes, 103, 5 to 1, 2 to 1 and 1 to 1.

SECOND RACE—Two-year-olds, owned in Maryland, West Virginia and Pennsylvania, 4 1/2 furlongs: 1. Remarkable, 104, 5 to 1, 2 to 1 and 1 to 1.

TUESDAY MORNING, MAY 2, 1911.

THE POWER CELEBRATION.

Toronto will to-day celebrate with official recognition the establishment of the hydro-electric system as a part of the municipal activities of the city.

There are still headshakings and warnings and repetitions of the old saw about not shouting until out of the wood, in quarters where the public operation of civic utilities is not approved.

There are still headshakings and warnings and repetitions of the old saw about not shouting until out of the wood, in quarters where the public operation of civic utilities is not approved.

The truth is that they had some grounds for their fears, when they based them on the records which were to be obtained elsewhere.

It has been a long fight and there have been times in the seven years past when even the most ardent supporters of cheap light and power feared that the strong combination against the policy might defeat it.

CREATING CAPITAL

Saving small sums creates capital. It is the only method by which the average man can become possessed of the ready money which will enable him to avail himself of the opportunities constantly presenting themselves in this "Canada's century."

No sum is too small to be deposited with us, and the "savings" interest we add materially assists the increase of the capital. Put yourself in a position to grasp your opportunities.

CANADA'S PARLIAMENT ABASES ITSELF

AT THE FEET OF THE C. P. R. (From The Toronto Telegram.)

There was a humiliating and discreditable scene which was enacted in the Canadian House of Commons when W. P. Maclean, M.P. for South York, introduced an amendment providing that the capitalization of railways be placed under the control of the railway commission.

The most important, economic and political problem before the people of Canada (and of the U.S., too, for that matter) is this very question of capitalization—or over-capitalization.

It lies at the very root of nearly all our economic controversies, yet the Ontario parliament can hardly be induced to glance at it, and treat it with a stupid, sneering hostility nearly every effort to compel it to look the question in the face.

Mr. Maclean made the record of the C.P.R. the subject of illustration. Although it may be said, in justice to the C.P.R., that its financial methods have not been worse than those of any other Canadian railway, a brief glance at that record may be interesting.

The specified cost of the transcontinental line, from Callander to Vancouver, was, according to the commission, \$85,000,000. The actual cost, however, was \$191,500,000. To "aid" the company to finance this project it got from the Dominion, cash \$25,000,000, constructed railway \$35,000,000, selected lands 25,000,000 acres, exemption from taxes on its railway property and on its land grant for twenty years.

The railway when built belonged, he is reminded, not to the people who had made the magnificent donations (Mr. J. S. Willson's expression), but to the company. And the company had to pay the shareholders for the stock.

The company raised by the new finance on stock \$24,500,000, and have devoted to dividends \$21,000,000. In other words, the company has taken \$3,500,000 out of the pockets of the shareholders.

Listen to the solution of the mystery by Hon. Edward Blake, presented to the house of commons on June 17, 1883.

"The company raised by the new finance on stock \$24,500,000, and have devoted to dividends \$21,000,000. In other words, the company has taken \$3,500,000 out of the pockets of the shareholders."

Manufacturers' Lumber Co. v. Deacon-R. T. Harding (Stratford) for plaintiffs. R. S. Robertson (Stratford) for defendant. An appeal by plaintiffs from an order of a divisional court of Dec. 9, 1910, allowing with costs an appeal of defendant from the order of Middleton, J., of Oct. 8, 1910, allowing an appeal from the local judge at Stratford dismissing an application by plaintiffs for an order continuing the appointment of the sheriff of Perth as receiver of all moneys coming to the defendant from the City of Stratford.

Re Carruthers v. Toronto and York Radial Railway Co.-I. F. Hillmuth, K.C., and C. A. Moss for defendants. J. R. Carruthers, for plaintiffs. An appeal by Carruthers from the judgment of Mulock, C.J., of Jan. 27, 1911. An action by the widow and three children of Robert Carruthers for the loss of \$10,000 damages for the death of the said Robert Carruthers on Sept. 10, 1910, who while standing at a platform at the station at North Toronto was crushed between a moving car and the platform and killed. At the trial judgment was given plaintiffs for \$2000 and costs. Appeal argued and judgment reserved.

Re Kenz-Lenz v. Lenz-I. F. Hillmuth, K.C., for official guardian of infants. E. D. Armour, K.C., for C. A. Moss, and Emma Lenz, J. Bicknell, K.C., and W. M. McClelland (Hamilton) for Mary B. Lenz, H. J. Hartshorn for executor. An appeal by the official guardian on behalf of infants from the judgment of Middleton, J., of Feb. 9, 1911, in which he confirmed the will of Charles Frederick Lenz and held that upon the true construction of the said will the sum of \$15,000 covered by three policies reserved to the said Charles Frederick Lenz, disposed of and that there was no intestacy as to that amount. Appeal argued and judgment reserved.

Dispute Over Estate. After reading in the papers about the claim made by Mrs. Ida Sewell against the John Graham estate for over \$1100 for nursing the deceased, A. D. Nicol, manager of the T. Woodhouse Co., rang up Judge Winchester by phone the next morning and said he refuted the statement of Mrs. Sewell that Mr. Graham, who was dying, had given her his passbook, telling her it was hers.

When Mr. Miller, acting for Mrs. Sewell, asked for a summons on Monday to present further evidence on behalf of the claimant, his honor granted it.

Why the New Encyclopaedia Britannica is sold at A LOW PRICE and upon such easy terms of payment as bring it within the reach of every reader

1.—The issue of the new edition of the Encyclopaedia Britannica, by the press of the University of Cambridge (England) has been received as an event of international importance, a triumph of organized scholarship for the benefit of the whole English-speaking world.

"Scholarship and research in no country have produced anything on the same scale."—Westminster Gazette. "Something more than a merely literary event. It attains the dignity of a historical incident."—Daily Telegraph.

2.—But the distinguishing feature in connection with the new Encyclopaedia Britannica is to be found in the fact that this great effort of organized scholarship has been made in the service of a popular book.

The leading authorities and specialists in every department of knowledge and activity, and from all parts of the world, have here collaborated in the production, not of some wonderful monument of learning for the use only of their brother scholars, but of a book which appeals to the whole body of readers without distinction of class or occupation or interests.

Their efforts were given to the production of a "complete circle of instruction" (for this is what the word "encyclopaedia" implies), a work of which the value in these days is so evident as fairly to entitle it to be called a necessity.

3.—The need for such a book as the Encyclopaedia Britannica is a growth of "modern times." It has been said of Goethe that he was the last of those giants who, with Bacon, could take all knowledge for his province. The Encyclopaedia Britannica first appeared in 1768, when Goethe was in his twentieth year, as a fruit of the general intellectual ferment which in France was preparing the way for the Revolution.

Already specialization was developing the arts and sciences beyond the reach of the individual mind, and the subsequent growth of the Encyclopaedia Britannica, its attainment of a position unique in the world of letters, were the consequence of such an expansion of knowledge as the first publishers could never have conceived.

4.—Were it still possible for a man to acquire—from his own experience, from his intercourse with others, from the ordinary course of his reading—even a passing acquaintance with the history, geography and biography of the world, with its beliefs, speculations and laws, with the sciences and their practical application, with the arts and industries, the need of "a circle of instruction" might be felt only by the studious. But the reverse is the truth.

Wide interests, the desire for information, the belief that knowledge tells, and tells in the most practical fashion, are features of our time—features reflected in its most characteristic product, the daily newspaper. In the pages of his newspaper the reader's interest is claimed for every conceivable topic, and his instinct is to refuse interest to none.

5.—Thus, in the 11th edition of the Encyclopaedia Britannica there appears, as one reviewer phrased it, "the right thing at the right time." And it appears, he added, "in the right way." For, while the cost of producing a new edition, which contains fully twice as much information, has inevitably risen to more than double that of the edition of a generation ago, it is at present being sold at a rate which is little more than half what the ultimate cost will be, and it may be paid for in such instalments as bring it within the reach of all.

That the new Encyclopaedia Britannica should be cheap and easy to buy may be described, then, as a feature no less essential than the thorough preparation of its contents.

It is to be remarked, however, that its present cheapness is temporary, and any reader who is acquainted with the work only through report, should use at once the form printed below. He will thus obtain interesting material from which to form his own judgment of a most interesting book, as well as an order form showing the present prices and terms upon which it may be acquired.

THE ENCYCLOPAEDIA BRITANNICA NEW ELEVENTH EDITION. A completely new work, founded on a fresh survey of the world in every department of knowledge at the end of 1910.

28 quarto volumes (12 inches by 9 inches) of text, each containing 960 to 1,000 pages; and Index volume containing 500,000 references. 40,000 articles, aggregating 41,000,000 words; 7,000 text illustrations; 450 full-page plates; 417 maps.

The production of the work cost \$1,150,000 before a single volume was printed. The 1,500 contributors include the great scholars, leading authorities and the best practical experts in all civilized countries.

The employment of India paper reduces to one-third the weight and bulk of the volumes, and makes the work one to read, not merely to refer to.

NOTE—Those who possess copies of the 10th edition of the ENCYCLOPAEDIA BRITANNICA (now out of date) are requested to advise us of the fact (giving name of publisher and number of volume), and if they wish to purchase the new edition, will be informed how they can dispose of their old editions at a fair valuation.

Cambridge University Press Encyclopaedia Britannica Department Royal Bank Building, 10-12 King Street East, Toronto. Please send me your Illustrated Prospectus (40 pp.), 56 specimen pages on India paper, 4 specimen plates, and form of application showing the special advance terms.

One arrest was made, but there was little disorder.

Labor Trouble at Kingston.

KINGSTON, May 1.—(Special.)—With the carpenters, masons, bricklayers and other helpers out on strike, Mayor Day brought considerable trouble. The carpenters asked for an increase last month and after being out a couple of months the matter was left to arbitration and they were beaten. There was a promise that an increase would come this year, as the request was made and return to work to-morrow. They have been getting \$3.50 for eight hours, but the offer was increased to \$4.00. The masons' helpers have been getting \$2 for eight hours, and want \$2.25. The contractors stated this afternoon that the helpers may be getting \$2.25 until it is granted.

Wages are not involved in the walk-out of the masons and stone masons, but out of the masons and stone masons, but out of the masons claim they should do the cutting on the corners, but the stone cutters will not stand for it. The masons claim they are endeavoring to get both sides together for an agreement, but thus far it has been without success.

Plumbers Strike.

PAWTLUCKET, R.I., May 1.—A strike was declared by the 100 plumbers of Pawtucket and its sister city, Central Falls, to-day, following the decision of the employers to raise wages.

Carpenters Go Out.

WOOSICKET, R.I., May 1.—Fifty carpenters employed by some of the smaller contractors struck to-day because their demand for a minimum wage of \$3 a day was not granted.

Harper, Customs Broker, McKinnon Building, 10 Jordan St., Toronto.

YOU CAN'T CIRCUMVENT NATURE

Mr. George Robins of Malvern, an ex-president of the York Farmers' Institute, has been experimenting for some years in the breed selection of hens in order to raise a hen whose eggs will all be double-yoked. He has succeeded, but confesses that it is foolish to try to improve on nature, for this super-egg that, by the selection of the fittest, she has produced, has got something wrong inside it never hatches. And what is more, this kind of hen lays less frequently than the average hen; but when the eggs do come they're big 'uns.

Miss Banks' Recital.

A large audience, representative of Toronto's foremost in musical and social circles, attended the recital of Miss Gladys Banks dramatic soprano, assisted by Leo Smith, cellist, and Mrs. Gerard Barrow, pianist, in the Margaret Eaton Club, last evening. The affair was under the patronage of Mrs. and the Misses Gibson, who have presented an Imperial Order of the Daughters of the Empire.

Bartender Arrested.

Walter F. Parks, a young bartender, and former roomer in the rooming house of George Moore at 213 Church street, was arrested last night by Detective Tippon. Moore declares that he saw Parks in the rooming house, where two stitches were required to close a wound on his forehead. After the surgical treatment he went home.

Presentation to Edward Verity.

Edward Verity, for 30 years in the service of the old Northern Trust, was retiring from that service, was presented with a purse of gold on behalf of his fellow-employees.

THE WEATHER

OBSERVATORY, TORONTO, May 1.—(8 p.m.)—A depression situated last night in the Upper Mississippi Valley, which centered over the Ottawa Valley. Its advance has been accompanied by heavy rains from Saulx Ste. Marie to the Gulf of St. Lawrence. Westward the weather has been fine, but continued cool in Manitoba.

Minimum and maximum temperatures: Vancouver, 44—52; Kamloops, 34—42; Port Arthur, 32—40; Boston, 46—54; London, 55—70; Ottawa, 48—62; Montreal, 40—56; Quebec, 48—64; St. John, 48—64; Halifax, 48—62.

Probabilities—

Lower Lakes and Georgian Bay—Strong northwesterly to northerly winds, decreasing at night; a few local snow flurries, but generally fair and much cooler.

Ottawa and Upper St. Lawrence—Strong westerly to northerly winds; decidedly cooler; a few passing showers of rain or snow during the day.

Lower St. Lawrence and Gulf of St. Lawrence—Strong westerly; showery to-day; turning much cooler to-night, with a few local snowflurries.

Atlantic Provinces—Strong southerly to westerly and northerly winds; fresh northwesterly winds; fine and cool.

Alberta—Fine and warm.

Saskatchewan—Fine and warmer.

AT THE THEATRES

At the Princess.

"The Country Boy."
A rattling good comedy with half a dozen star parts, a first-class company and excellent setting combine to make "A Country Boy," which opened at the Princess last night, one of the hits of the season. Edgar Selwyn has taken one of the good old-fashioned drama plots and dressed it up in a modern garb with all the latest New York slang and the point of view of Bohemian life and the result is a hilarious night of laughter interspersed with some excellent sentiment, which is not allowed to grow stale.

The story is a simple one. Jane Belknap and Tom Wilson have grown up together. She is the rich man's daughter and he is the poor widow's son. She has grown up to be a beauty and he has grown up to be a "country boy."

"A woman can't see the crisis of her life sooner than a man," she says. "I have reached that crisis now."
"You're kidding," he tells him. And he has nothing to offer. He is only an irresponsible boy, so he must go to New York and acquire a manhood. After four months there he loses his job, gets entangled with a chorus girl, and finds himself moved around in the boarding house he patronized until he finds himself next to the sidewalk and with no money in his pocket. The friends he finds and the experience he gets, the humiliations that come and the ultimate success are cleverly, naturally and humorously worked out. The second act shows workers in Mrs. Bannan's (Mrs. Stuart Robinson) arriving for dinner. Frank Merkle (Robert McWade) is a cynical, rheumatic newspaper man, who is the right stuff in the act of metropolitan nature. This scene fairly brought down the house, and the applause was immense when the curtain dropped, but it was nothing to the next act, which is in the parlor bedroom where Tom has been selected for the leading part. Miss Dunstun (Miss F. Elberta) has a part which is a great support to the comedy. The whole act, including an interview with the show girl, who has decided to become an actress, and the man about town, is on a high level of comedy, and at the fall of the curtain there was a really notable ovation. The act is a really notable one. The act is a really notable one.

At the Royal Alexandra

"The Kissing Girl."
Last night "The Kissing Girl" had a warm reception from the audience that all but filled the Royal Alexandra. German comic operas and German humor are not always appreciated when transported to another stage, but in this case, the adaptor has succeeded in turning out a highly attractive musical comedy. That this is so, needs no more demonstration than afforded by the comedy's highly successful run in Chicago and in the larger cities of the west. Toronto now sees it under the same experienced auspices.

No one expects much of a story in a musical comedy. It suffices if the musician responds to the motive and furnishes attractive melodies and appropriate accompaniment to the stage lyrics. All these requirements, all those concerns in the production have certainly furnished and the result is a musical comedy that thoroughly provides what the people want. That after all is one of the chief functions of the theatre and if amusement is harmless, it should rather be encouraged than prevented.

At the Grand.

"Honeycomb Trail."
The musical comedy, "The Honeycomb Trail," which opened at the Grand last night, kept its audience in the Grand's laughter from start to finish. The company throughout is an excellent one, the supporting chorus being particularly strong. Fred Wycoff as "Daniel Mason," was simply perfect in the comedy line, and with his smart sayings and clever acting, he carried the audience greatly. His side partner, "Tommy Perkins," which part was admirably filled by Fred Dunham, provided a great support to the comedian. Perkins' chief characteristic being that he was ever on the look out for a customer to whom he could sell one of his "Barlow" baskets.

At Shea's

Andrew Mack Heads Bill.
The presentation at Shea's Theatre this week is headed by Andrew Mack, who has a bill of many new and interesting comedies. The first of these is "The Big Guy," which is a comedy of the type that has been successful in vaudeville in Toronto.

At the Star

"The Rollickers."
The show at the Star this week is one of the best that has been seen on the stage this season. The Rollickers is the name of the company, and their presentation of "A One Night Stand in Sikeville," is a funny and cracking comedy. The play is a comedy of the type that has been successful in vaudeville in Toronto.

The play is a comedy of the type that has been successful in vaudeville in Toronto.

A MAGNIFICENT DISPLAY OF PICTURES.

has recently been placed in windows of Grand Trunk City Ticket Office, northwest corner King and Yonge streets. These series of slides are displayed in handsome Cresson Walnut frames 3 1/2 x 4 1/2 in. and illustrate the beauties of the Upper Grand Trunk Pacific Railway in Western Canada. The next time you are down town make it a point to see these, as they are attracting considerable attention and Rogers are a classy comedy pair, while the original German creation of Cole and Warner called "The Fox Hunters," is also very good. "Dainty" Macle is a good dancer, and Sam Giddens' singing was by no means the least.

NOT SUPREME NEED OF WEST

Continued From Page 1.

committee he would have acted otherwise. George H. Bradbury (Selkirk), after referring to the appointment of a royal commissioner by the Manitoba Government to discover if the titles to the property of the St. Peter's Indians, recently sold, were good, said that to enable the commission to arrive at a decision it was necessary to have the original documents, and asked if the settlement would go into commission. Bradbury and Rogers had been charged by the Indians, but this could not be done until the matter was cleared up.

Mr. Oliver said he was not desirous of impeding the work of the commission, but he had a certain responsibility regarding the documents. He promised a statement to-morrow.

Emigration Statistics.
On the motion to go into committee of ways and means R. L. Borden discussed the question of statistics of emigration from Canada to the United States, and from the United States to Canada. He quoted American statistics to show that during the year 1910 94,096 Canadians entered the United States as emigrants. He said that if these figures were correct the balance in favor of Canada was a little less than 22,000. This was hardly what he would have expected.

Mr. Borden enquired if it was so that no statistics were available in Canada as to the number of departures to the United States.

Mr. Borden expressed the belief that it would be advisable to have comprehensive statistics as to the number of Canadians who had entered the United States. The people had been led to

BADLY RUN DOWN

Dr. Williams' Pink Pills Came to the Rescue After Doctors' Treatment Failed.

The life of any constant traveler is always a hard one, but those whose work compels them to take long treks over rough roads, exposure to the elements, and in constant danger of losing their health. The extreme heat of summer or the piercing winds of winter sap their strength, and they become diseased or rheumatism sets in. What is needed to withstand this hardship is rich red blood—the pure blood that Dr. Williams' Pink Pills for Pale People is. I am a frequent traveler, sometimes very long. I returned home from one of these trips last summer very much fatigued. I was overworked and tried to cool and rest myself by lounging on the veranda till late at night. I caught cold and the next day I did not feel at all well. I had a headache, pains in my stomach and was very weak. I went to see a doctor, but he said I would be all right in a day or so, so I started on another trip. I had not gone far before I felt very ill and had to return home and go to bed. I had chills, headache, pains in my stomach and kidneys. The doctor came to see me and he said I was overworked. He treated me for several months, but instead of improving, I continually grew weaker. I wasted away almost to a skeleton and really thought I was going to die. One day my wife returned from the village with a supply of Dr. Williams' Pink Pills. She urged me to take them and she said they had been very highly recommended to her. I did so and by the time I had taken four boxes, I felt better and really thought I was going to die. They fully cured me and I find today I am able to go about my work without feeling fatigued.

Fatigue, on the least exertion is a sign that the blood is poor. Replace the bad blood with good blood and Dr. Williams' Pink Pills make pleasure. Dr. Williams' Pink Pills make pleasure. Dr. Williams' Pink Pills make pleasure.

Dr. Williams' Pink Pills for Pale People is a medicine designed or by mail at 25 cents a box or six boxes for \$2.50 from the Dr. Williams' Co., Brockville, Ont.

SUPREME COURT I.O.F. IS IN SESSION TO-DAY

Representative Body from Order Visits New Consumption Sanitarium at Rainbow Lake, N. Y.—A Splendidly Equipped Institution Free to Affiliated Members of I.O.F.—Sited in Choicest Part of Adirondacks.

The triennial meeting of the Supreme Court of the Independent Order of Foresters will begin at the Temple Building at 10 o'clock this morning, under the direction of Supreme Chief Ranger Elliot G. Stevenson. Like the annual general meeting of any large corporation, the two hundred odd delegates who attend this gathering will "review the past and plan for the future." They will take seriously into account past experience and the present condition of affairs.

In this connection it is important to note that the two hundred and more delegates represent a membership numbering over 240,000, that are distributed among 5000 subordinate courts. No other fraternal society can show such a splendid financial condition coupled at the same time with sound prosperity. The progress of the society is best illustrated by considering the finances. At the last session of the Supreme Court the accumulated funds of the society amounted to \$1,000,000. On the first of April last the accumulated funds amounted to \$1,170,440.45, making an increase of \$170,440.45. This financial condition reveals on the one side what the membership does on the other. The personnel of the I. O. F. is made up of men in every station in life, and in

the New York Central, in the heart of the mountains of that name, about thirty miles southerly from Montreal, midway to Utica. The route of the railway runs from Montreal over the St. P. R. bridge, southwesterly thru Valleyfield and then almost southerly to Malone, and on to the mountains. Striking the foothills shortly after leaving Malone, the land rises quickly until on one section of twelve miles the grade is equal to 900 feet to a land well wooded, well watered, delightful site to mind and body.

The latest Rainbow Lake is by no means the least of the sanitarium maintained in the health-giving district of the Adirondacks, or for that matter, the least of the I. O. F. philanthropies. Rainbow Lake is virtually the hub. Two east about fifteen miles to Saranac Lake, the delight of all true rest lovers, northeast, at somewhat similar distance, lies Lake George, and farther on Lake Champlain, a few miles to the north, the railway passes Skoywood in Kishwaukee County, an establishment maintained exclusively for women, whose ample rustic beauty suggests comfort and healing; nearby—two miles in fact—the Gabriel sanitarium, supported by a religious order, contributes its quota of kindness to those upon whose health the white plague has cast its ravaging symptoms; while fifteen miles in another direction the state sanitarium at Westbrock is to be seen.

Much has been written about the Adirondacks, and the subject is by no means exhausted. One often hears about the infinite variety of landscape, hills and mountain, brook, but the Adirondacks present unending kaleidoscopic scenes of beauty and grandeur. In the superlative, it is life-giving. The altitude of 1750 feet above mean sea level combined with the location removed as it is from the dust and grime of industrial activity—eliminates all those deteriorating elements of urban life that foster germs and food disease. Muskies or swamps are not found in the district, but clear limpid lakes, nesting between the peaks that grip with sinuous arms, tent-like, the narrow valleys and interstices of the land, sparkle beneath the clear blue sky, or again reflect mirage-like the wonderful blue of the sky. One can enjoy the Mecca of the disciples of Eastman, while in the twilight the outlines of the higher hills in the distance dissolve into the misty air, and the mingled mythical monster of an age before history, crouching for their prey, the district a trifle wild, but perhaps more rustic than wild, and the dignity of mild and animal and peacemaker life. Fish abound in large quantities, trout, bass and pickerel sport in the waters of the Adirondack lakes. Deer haunt hill and dale, and an occasional black bear makes bold to enter the hunting grounds of the hunter. Folk of the feathered fold, too, are plentiful and the voices of the spring songsters fill the woods with music. The woods are not only close and touch maintained with the busy marts and centres of civilization fills one with a touch of nature and a sense of security and comfort.

The administration building of the sanitarium is practically new. The supporting work is concrete, the finishing hardwood. Accommodation is maintained for 100 patients, and this is to be increased soon to 100. It is three stories in height, with dimensions of 33 by 190 feet. Each story is flanked by wide, airy verandas, protected by glass in winter and screens

not rendering, and all this for what is a dollar. Not a dollar of cost is levied on the patients. The sanitarium is maintained at the expense of the I. O. F. Members of the order can there and receive treatment free of any expense beyond the transportation, and many within the short year that it has been open have gone away permanently cured or much improved.

The genius of Rainbow Lake Sanitarium is two-fold. Its chief aspect is commendatory to a remarkable degree. In this respect the I. O. F. is one of the foremost to move towards securing for its affected members the best conditions that make for restored health and prolonged life. Then, too, it is one other aid—a formidable aid at that—to the noble army of men and women who are striving hard to wrest from the dread terror the fear, its symptoms strike into the heart of even the bravest. Also from a business standpoint, the wisdom of the institution can be discerned. Insurance, the primary element of the social progress, is life prolonged among the members of the I. O. F. Society's membership is money and the insurance funds and so in the order. The policy is a sound reason for the success of the order, and its triumph is assured.

Too much cannot be said of the right in its charity and its fight against tuberculosis. The order has been successful in curing many patients by means of separate an splendid building on the lake from the subject to the success of the order.

EASTERN ONTARIO COMMAND.

KINGSTON, May 1.—(Special).—Col. Benson, retired, and Capt. Clarke, retired, from Ottawa this afternoon to assume duty in the Eastern Ontario command. Col. Clarke, Ottawa, is not coming here. He will likely be retired.

Owing to press of the parliamentary duties of Chairman Orl. Sam Hughes the inspection of the visiting board to the Royal Military College has been postponed. They will likely make their respective college in the latter part of the month.

A WORD IN FAVOR OF THE MONOCLE.

The monocle, so much derided, has found a defender in Dr. Oppenheimer, a German oculist. The origin of the fashion of wearing a single lens, held in place by the muscles surrounding the eye, is uncertain, but it does not seem to date back many generations, and the discredit of the custom is chiefly due to the extent of its adoption thru sheer fogginess.

Theoretically, it is the ideal eyeglass. The simple monocle costs little, is easily kept in place when properly fitted, and if one could be worn in each eye, spectacles and eyeglasses of the pince-nez type would be superfluous. An oculist has specially advantages as an aid to a person's eye and for improving impaired vision affecting only one eye.

International Power Banquet.

The banquet to the guests of the I. O. F. in connection with the 350th anniversary of the birth of Edward the Great, will be held at the Hotel Windsor to-night will be informal.

WAS PROBABLY AN ATTEMPT MADE TO KIDNAP THE KING

The king's escape from the clutches of the assassins who were waiting for him at the railway station in London, was a narrow one. Small Advancements in Cobalts the Feature of the Market

Cobalts Are in the Limelight Porcupines Not So Prominent

Strong Demand for Silver Stocks, and Small Gains Are Made—Porcupines Generally Easier.

World Office, Monday Evening, May 1.

Sentiment favored the cobalts at the opening session of the week on the mining markets, and the silver mining issues continued in strong demand, with higher prices ruling in a number of instances. This again detracted from the breadth of trading in the Porcupines, and the gold stocks showed as pronounced a disposition to drag as their sister issues did to advance.

From the present condition of the market it is apparent that the cobalt shares are going to prove the feature for some little time to come, and this is likely to prove somewhat of a deterrent factor as far as the Porcupine stocks are concerned. With the gold camp practically isolated owing to the spring break-up, this is only a natural outcome, however, and there is no thought that the new securities will be long held back when transportation is again renewed.

There were numerous advances in the cobalts today, but the majority of these were confined to fractions of a point, the market being held back by realizing from tired holders and scalpers who were willing to take advantage of small profits. McKinley-Darrah was the only issue to record any material change in price, these shares moving up five points to \$1.75, and closing only a point lower.

Hollinger constituted about the only feature in the early dealings, and at one period these shares sold as high as \$10.33, an advance of 18 points over Saturday's level. The high price was not held, however, and the stock dropped back to its former figure during the afternoon session.

The cheaper Porcupine issues were generally easier. Vipond dropped two points at 52. Swastika was off a like amount at 54 and Pearl Lake sold as low as 54. Foley-O'Brien repeated his former performance being again under pressure, the shares declining to \$1.51, and closing with that price bid at the last call.

ROCHESTER STARTS WORK

Syndicate of Montrealers Are Quiet Bidders for the Stock.

The announcement that the Rochester Mining Co. have sufficient money on hand to thoroughly develop the property, and also that the rich find at the Lumsden had been traced practically to the Rochester line, has had considerable influence on the price of Rochester shares.

These were good news, beginning a few weeks ago at around 4 cents, which they are now going wanted at 7 cents. Many brokers have orders for the stock, but these are difficult to fill at present prices, as the Montreal syndicate is picking up all the stock possible without showing its hand.

The Mines Power Co. is again supplying power and the Rochester start up yesterday with a good staff. The first work will be to deepen the main shaft to the 300 foot level. This will possibly take about six weeks.

WATCH THE DEVELOPMENTS.

"You will see some smart trading in Peterson Lake shares before the annual meeting," remarked a mining broker yesterday. "I know that practically all the stock which is now being bought is going to New York."

Asked further as to his information on the company, he simply shook his head and said, "Watch the developments."

New York Curb.

Chas. Head & Co. report the following prices on the New York curb:

Buffalo, close to 21. Central, 4 to 7, high 7, low 6. Granite, 3 1/2 to 4. Kerr Lake, 9 1/2 to 10. 200 sold at 9 1/2. La Rose, 4 1/2 to 11 1/2. Mich, 11 1/2 to 14 1/2. 4 1/2 to 5. McKinley, 11 1/2 to 14 1/2. 300 sold at 14. May Oil, 61 to 62. Nipissing, 10 1/2 to 10 3/4. 500 sold at 10 1/2. Dome Ex., 40 to 41. 100 sold at 40. 400 sold at 40. 60 to 61. 100 sold at 60. 1000, 1000, 200 sold at 60. Vipond, 56 to 64. High 55, low 55. 1000, 1000, 1000 sold at 55. West Ex., 2 to 3 1/2.

Toronto Stock Exchange Curb.

W. Dome 1 1/2 to 2. 100 to 150

May List La Rose in Boston.

Directors of La Rose Consolidated Mines Co. have under consideration the advisability of listing the company's stock on the Boston Exchange. Definite action will probably be announced at the next meeting of the directors on June 20.

INDIAN BURNED TO DEATH.

MONTREAL, May 1.—Mrs. Saleswoman Stacey, the 66-year-old wife of Tarrington Stacey, a venerable Indian resident of Caughnawaga, was burned to death in the destruction of her home by fire this morning between 2 and 3 o'clock. Her husband, a man of 72, escaped serious injury by leaping from a second story window. He is as a result suffering from a badly contused shoulder and internal injuries.

Customs Receipts Increase.

The Toronto customs house earnings for April totaled \$1,103,000, or \$200 more than the corresponding month of last year. This increase is in reality greater than the figures show, as Eastern left one day out of April this year. Had the months contained the same number of days, April of 1911 would have gone nearly \$100,000 better than last year.

Body Picked Up at Detour.

SALTY, N.B., May 1.—A Special Word reached the Soo this morning that the body of Fred Parker, drowned in a boating accident with two other men here last November, has been picked up at Detour.

Week-End Trips

are always looked forward to by those who enjoy a short outing after their week's work is over. Commencing Saturday, May 6, the Grand Trunk Railway System will issue return tickets at single fare (plus ten cents) from Toronto to 200 points in Ontario, good going Saturday and Sunday, valid returning Monday following date of issue.

Cat Has Adopted Rat.

Down in the cellar of the Elias Rogers office building, near the King-street is a cat with a family rather mixed. She guards three kittens and a big rat and it is apparently as careful not to let one escape as the other. Maybe the rat will be kept as a steady boarder, but the chances are that if the cost of living continues to rise the family may be divided amongst itself.

NEW BUILDING RECORD

Nearly Seven Millions is Total for Last Four Months.

The value of building permits in Toronto for the first four months of the current year totaled almost \$7,000,000 according to the statement issued by the city architect. This is almost a million and a half over the same period of last year.

SUCCESSION DUTIES.

Ontario succession duties for April reached \$135,837.50. The amount included \$100,000 from the Golden Smith estate from which \$23,000 more will be paid. From the estate of the late G. J. Foy, \$25,265.82, and a final installment of \$23,908.72 from the estate of the late A. H. Campbell. The total since Nov. 1 is \$24,207.58, compared with \$29,451.22 for the same portion of the preceding fiscal year.

Baby's Narrow Escape.

One of the John Macdonald delivery horses ran away yesterday afternoon and dashed into the plate glass window of W. M. Adam's drug store, 257 East Queen-st. One of the horse's hoofs struck against a baby carriage, breaking the wheels and narrowly missing an infant in it.

FREE MILLING ORE OR NOT, THE QUESTION

But Porcupine Engineers Are More Concerned With Proving Up Ore Bodies—Decision Postponed.

PORCUPINE CITY, April 28.—(From Our Man Up North.)—Just whether the Porcupine ore is to be handled with stamps or cyanide plants, or both, is not a matter that so much engrosses the attention of the engineers engaged in the district now, as does the question of "ore bodies."

Every mine man in the camp is now seeking to determine if the property under his charge will yield an ore body sufficiently large to warrant the building of mills. Ore bodies are what count, and on properties where machinery has been placed, work will proceed full haste to explore the interior of the ridge and quartz deposits to determine their true material.

With ore bodies blocked out and dump piles filled with milling rock, the question of stamps and cyanide plants will be threshed out later on.

It is a question whether the rock is altogether free milling, or whether cyaniding will be worked into the fabric of the mill equipment.

At the Hollinger and the Dome, cyanide plants are being planned for in connection with the stamps. Nevertheless, engineers are most emphatic in their statements that the camp will furnish an enormous quantity of free milling ore, and that it will not be entirely necessary to install cyanide plants at this early stage.

The McArthur-Fortescue Engineering Company, represented in the camp by Messrs. Dempster and Thornton, two eminent metallurgists and assayers, takes a strong view on the cyaniding question, and says that values that will be wasted in the free milling process. But, that cyaniding must come now, they are not so emphatic, for better expensive cyanide plants are built, it is well to know more of the ore bodies, their character, etc.

When the summer in the aggregate, the work that lies before the Porcupine mine managers this summer is not an easy one, and, while mines are in the making, judgment as to what kind of a cyanide plant will be needed later may well be suspended.

Chas. Fox.

PROVING UP DISTRICT NEAR NIGHTHAWK LAKE

Cody, Carman, Thomas and Langmuir Townships the Scene of Active Mining Operations.

PORCUPINE CITY, April 27.—(From Our Man Up North.)—Although little being said of the district in and around Nighthawk Lake, where staking last summer was so prominent in the kind of ships of Cody, Carman, and Thomas, Langmuir being staked the winter before, work in this district is moving as rapidly as possible.

Only prospectors took a hand in the Nighthawk Lake mining till this spring. Nighthawk Lake, a mining district, is to be prospected on six claims near the northwest corner of Shaw, with a New York syndicate to operate the Madison and the Cartwrights of Langmuir, while the Cartwrights of Hailybury are now prospecting on four claims in the centre of the northern part of the district. A number of small firms are also staking and developing along the ridges and in the quartz leads, that appear from every side, and are interpreted as veins of the lakes. Diabase ridges are a feature in this section.

In Cody and Carman work was continuing all winter by prospectors, and as a result, also so far not exploited by the owners, quartz deposits, that have every indication of being veins of purpose.

It is worth your time to think about it as a business proposition, but act quickly before the sites are selected. Every mile of advance of the railroad adds dollars to the value of the sites now offered for sale.

Choice Hotel sites on the Lake Front, ideal locations, convenient for business men or tourists, the chance of a lifetime for wide-awake business men and there are over three hundred buildings already. The fact that the government has recognized the importance of the camp to construct the railroad, assurance of its permanency. Choice lots for residences are offered in the different sections of the town.

Local maps or charts of the town will be sent if requested, and selections will be held for a limited time on receipt of deposit, and lots will be sold in easy payments.

Write at once, address and make money orders, cheques, payable to

The new gold field in Quebec Province, immediately adjacent to the Larder Lake District. Remarkable discoveries have been made recently.

Eldorado Selling Well

The demand for the Eldorado Porcupine Mines stock at 10 cents per share is stronger in Porcupine than any other part of the country. Over fifty thousand shares have already been sold in the Golden City, which stamps the stock as one of merit.

We employed one of the best engineers to report on the company's property of 150 acres, and the report gives us greater confidence than ever in recommending the purchase of the stock.

Eldorado is capitalized at the modest sum of \$500,000. Compare this with other flotations. The total offering at 10 cents was only 200,000 shares, and this has already been largely subscribed. No stock will be offered after that at less than 35 cents per share, and we believe that the money received from the first issue will make it worth more than that.

If you consult your best interests your order for Eldorado should reach us by the first mail.

Dainty Dress Fabrics That Will Wash

Every girl knows that for summer wear nothing can approach the dainty, fresh, washing fabric for a dress. A hundred and one occasions occur when it is the only appropriate thing to wear, be it morning, afternoon or evening.

The department devoted to the display of washing fabrics at Simpson's is, perhaps, the most comprehensive in Canada. This year the stock is complete, designs are exclusive, and for daintiness, beautiful coloring and originality far exceed anything manufactured for past years. This is our special showing for to-morrow:—

A full range of Pretty Printed Muslins, in white, navy and black grounds, spots, stripes and figures, sky and mauve, printing **.7½**

A tremendous range in two qualities, hundreds of patterns to choose from, rose, wreaths, sprays, polka dots, etc., in every conceivable color **.20 and .15**

The popular bordered Batiste; this material makes ideal dresses for spring and summer; the border can be used for trimming the waist; 60 designs **.25**

40-inch Bordered Batiste, bold and striking designs, with deep border, in floral, spot and geometrical effects. Very special. Note width **.29**

Black and White Shepherd's Check, 42 inches wide; nothing better for a hard knock-about tub dress, and always looks well after washing **.25**

40 pieces only Fine English Print, spots, stripes and figures, white grounds and blue grounds. Worth 12½c. **.6**
(No phone orders for prints.)

A "Coat Day" in the Mantle Department

You must certainly pay a visit to the Mantle Department on Wednesday morning. We know the values of the girls' and women's coats then on sale, and early visitors will appreciate these money savers on sight. Anyone requiring one of these garments must come on time to get the best selection.

Women's \$25.00 Coats for \$8.49.

On Wednesday morning at 8 o'clock we put on sale a selection of Women's Spring Coats, the oddments, broken sizes of our best selling styles, to which we have added a number of sample coats; all this season's manufacture, and in the fashionable styles, materials and colors; the variety is too great to give a description of each coat; but in this collection are some plain tailored; others have self strappings; some have the large collar, which is so much in demand this season; others have plain tailored collar and lapels; the materials are serges in cream or green; broadcloths in tan, black and navy; worsteds in a variety of grey or green mixtures. The regular selling prices of these coats range from \$15.00 to \$25.00. Wednesday's price only **8.49**

Girls' \$4.00 Reefers for \$1.49.

Clearance sale of 75 Girls' Reefer Coats, in smart single or double breasted styles, tailored collar and lapels, plain sleeves, with either turn-back or stitched cuffs, and trimmed with novelty buttons; the materials are all-wool serges, imported Panamas, vicuna cloths and striped worsteds; in the lot are the following colors, green, grey, black and brown; sizes are 10, 12 and 14 years. These coats are regular \$4.00 values. To clear Wednesday **1.49**
(Cannot accept phone or mail orders.)

GUEST TOWEL LENGTHS 19c.
100 only, all linen Huckaback Towel lengths for guest towels, size 15-27 inches, fine figured goods, in a large range of patterns. Wednesday **.19**

Sample and Counter Soiled Nightdresses

There will be rich selection for women who come early to-morrow for Whitewear. We have gathered together all the mused and slightly soiled night dresses from our counter stock, and have added our factory spring samples, and marked the whole lot at about the half-price mark. These beautiful garments will go quickly, and if best choice is desired an early visit will be necessary. A great variety of styles is included, combining both embroidery or lace trimming. All sizes in the lot of nearly three hundred. Wednesday about half-price.

Attractions in the Blouse Department

Wednesday's sale of Imported Blouses will this week be devoted to:

Lingerie at \$5.00

A little collection of 50, consisting of fine cobwebby sheer batiste, clear organdie muslin, also heavier makes, in pure linen, trimmed real cluny laces, and all handwork; the finer numbers are simply exquisite in their daintiness and originality; all are of this season's designing; the only reason for the merely nominal price being our determination to clear each week all oddments of size ranges, thereby keeping our store in perfect condition. A regular \$7.50, \$8.50, \$10.00 or \$12.50 waist on Wednesday for **5.00**

Values to \$3.95 Framed Pictures For 90c

550 Framed Pictures, selling every day at prices up to \$3.95, must be cleared out on Wednesday morning. This is one of the important series of picture sales we advertised recently, so that further details are not necessary. Inspect samples in window.
N. B.—No phone or mail orders filled. Packed free for city delivery only. No dealers supplied.

A Great Spring Showing of Rugs, Carpets, Lino'eums, Mattings, Lace Curtains, Portieres, Curtain Nets, Cretonnes, Scrims

- In Our Carpet Dept.**
We are displaying one of the largest and most complete assortments of rugs to be found on the continent. Over 4000 room-sized rugs are piled on this floor.
Axminsters—Deep piled and luxurious, plain centres and artistic borders, in the very popular brown shades **25.00 to 45.00**
Wiltons—Close textured, with a smoothness of finish that gives a silkiness of appearance akin to Persian antiques **20.00 to 70.00**
Velvets—The most serviceable of rugs for the price, standing any amount of severe usage. The colorings and designs are worthy of wiltons. **17.50 to 24.50**
- In Our Drapery Dept.**
The display of printed fabrics has more originality, charm and serviceableness than the productions of any former season.
Colonial Scrims—In all-over and bordered designs of surpassing beauty, sun-fast and washable. Per yard **.30 to .50**
