**Government Refuses to Ac-

 Cruisers and Destroyers on
 Terms of "Wasteful Ex-
 penditure"—Liberals From
 Maritime Provinces Insist
 That Reciprocity is Want-
 ed Still.**

**MONK WILL EXPLAIN
 ATTITUDE TO EMPIRE**

OTTAWA, Nov. 21.—(Special.)—The
 monetary comedy continues. Without
 the full paraphernalia of the modern
 three-ringed circus, it has developed,
 to the limit of wearisome iteration a
 loud-lunged chorus of antipathetic
 cant, with the navy and reciprocity as
 the alternate. Hon. Dr. Pugsley sup-
 plied the heavy tragedy.
 In the cones of a Jeremiah he called
 on the people of Ontario to repent of
 their sins in withholding the fiscal
 aid held out by the late government
 from the defunct and down-trodden
 electors of the maritime and prairie
 provinces. To a weary length he
 drilled on revamped election arguments
 in support of a dead issue.
 He drew a glowing picture of the
 disintegration which he declared
 would spring from the government
 proposal of federal aid to the provin-
 ces in the improvement of the high-
 ways.

Tenders Thrown Out.

Hon. J. D. Hazen, who followed him,
 declared that the ex-minister had no
 right to speak of the down-trodden,
 oppressed electorate of the maritime
 provinces. He had hardly been out of
 his constituency so hard he had to
 fight for his seat.
 Mr. Hazen made the important an-
 nouncement that of the nine tenders
 received for the construction of the
 four cruisers and destroyers con-
 templated by the late government for
 the Canadian navy of which, they re-
 ceived five months before the election,
 they had not been able to make an award.
 The lowest, that of Camell, Laird &
 Co., was \$11,000,000. That of Swan
 Hunter was \$12,174,000, while another
 was \$12,065,000. This did not include
 armor plate armament of special sup-
 plies and under the terms of the con-
 tract the ships could not be completed
 till six years hence, when they would
 be obsolete. He would have been re-
 mitted in his duty, he said, if he had
 signed a contract for any such waste-
 ful expenditure.

Clings to Illusion.

F. B. Carvell, (Carleton, N.B.) de-
 clared reciprocity was not dead as far
 as the maritime provinces were con-
 cerned.
 J. A. M. Atkins (Brandon) explained
 the result of the election in Alberta
 and Saskatchewan by the influence of
 government immigration and home-
 stead agents and recent American set-
 tlers.
 "Yet the recent Alberta by-elections,
 he called to the attention of the house,
 had all gone in favor of the Conserva-
 tive candidates.
 E. M. Macdonald (Pictou) fulminated
 against what he called the capitulation
 of Borden to the Nationalists, and
 drew from Mr. Monk the promise that
 he would declare to the house when
 the time came his stand on aid to the
 empire.

Bluenoses Want Reciprocity.

F. B. Carvell, (Carleton, N.B.), re-
 cited the post-mortem of the reciprocity
 agreement by a full dress parade
 of parliament.
 "I wish to tell my hon. friend the
 minister of trade and commerce," he
 said, "that reciprocity is not dead as
 far as the Maritime Provinces are con-
 cerned. The admission of natural pro-
 ducts into the United States would be
 the greatest boon that could be of-
 fered the Maritime Provinces in a gen-
 eration.
 "The minister of trade and commerce
 says that we should sell in the home
 market. Why, we can't sell 1000 feet
 of our lumber in the Maritime Pro-
 vinces."
 A Pertinent Query.
 Major Currie (Simcoe): "What have
 you been doing with St. John harbor,
 that you can't ship to the foreign mar-
 ket?"
 Mr. Carvell: "I will tell the hon. gen-
 tleman that we have been developing
 St. John harbor in a way his friends
 never thought of doing." (Cheers from
 the Liberal members, followed by ironi-
 cal applause from the treasury benches,
 remembering Dr. Pugsley's estimates
 of last session.)
 At least three-fourths of the exports
 in natural products, he declared, had
 gone to the American market and
 would continue to go there. No one
 could say that these people did not
 want reciprocity.
 The government, by their home mar-
 ket policy, have done this.

BRANTFORD, Nov. 21.—(Special.)—A
 conference was held here to-day be-
 tween Mayor Armstrong, Paris, and
 Mayor Rastall Brantford, in regard to
 securing Hydro - Electric power for

 municipalities will meet and joint ac-
 tion by both municipalities will prob-
 ably result. The agreement with the

**SUFFRAGETTES
 WERE REPULSED**

**Demonstration Before House
 of Commons Was a Failure
 Because of Police Control
 —Arrests Were Many.**

LONDON, Nov. 21.—The suffragettes
 fared badly at the hands of the police
 to-night. They had threatened to force
 their way into the house of commons
 and make a protest on the floor of
 the house against the prime minister's
 refusal to pledge the government to a
 bill giving equal suffrage to both sexes,
 but they failed even to reach the en-
 trance to parliament.
 Thwarted by the police, who made
 upwards of 200 arrests, the suffragettes
 resorted to a campaign of window
 smashing. Driven from Parliament
 square by the police, 1800 of whom
 were on duty, the women, accompanied
 by sympathizers and gangs of rowdies,
 proceeded from Whitehall, armed with
 bags of stones concealed under their
 coats, and broke the windows in the
 public office of the Liberal headquarters
 and the National Liberal Club. They
 even extended their operations to the
 Strand, where windows of the post-
 office, bank and other private concerns
 succumbed to the onslaughts.
 The militant tactics of the suffra-
 gettes followed a statement by Prem-
 ier Asquith that the government was
 unable to introduce a bill to enfran-
 chise women, as the cabinet was divid-
 ed on the question, but would allow
 an amendment to be introduced to
 the proposed manhood suffrage bill,
 giving it to the house of commons to
 decide whether women should be given
 a vote.
 For "Dangerous Service."
 The suffragettes had made ample
 preparation to renew their attacks on
 parliament with a battle which was
 expected to surpass all previous efforts.
 They met early in the evening in Cas-
 ton Hill, less than a mile from Parliam-
 ent-square, and after adopting a
 resolution declaring that the prime
 minister's denial of their request was
 a grave and unadmissible insult to
 women, called for volunteers for "dang-
 erous service." A deputation of 50 women,
 accompanied by immense crowds, start-
 ed shortly for the house of commons
 to present the resolution or take what-
 ever action was deemed advisable. The
 police, however, were too much for
 the women, in spite of all their prepara-
 tions, and the assistance of hundreds
 of sympathizers.
 The women were Masters.
 Strong detachments of police, both
 on foot and mounted, guarded the
 streets from Cannon Row to the house
 of parliament. They broke up the
 deputation into units, which, when they
 reached the corridors surrounding the
 square, were thrown back, or if too
 persistent, were arrested and passed
 along to a receiving squad in the
 square, and thence thru a double line
 of constables to the police station.
 The greatest confusion prevailed.
 Several women were injured in the
 scramble, while others fainted or be-
 came hysterical and required the at-
 tention of the ambulance men. The
 battle was fierce but short.
 Damage Was Heavy.
 An hour after the women emerged
 from the hall Parliament-square had
 been cleared of the attacking forces
 except half a dozen women who had
 chained themselves to the railings, and
 whose chains the police had to file or
 break.
 The demonstration was not so large
 as those of last year. The damage to
 property was greater than ever, how-
 ever, and the number of arrests es-
 tablishes a new record. Canon-row
 station in Whitehall was crowded with
 prisoners and the police were occu-
 pied for hours in making charges
 against them. Among those arrested
 was Mrs. Lawrence, who is joint leader
 for "Votes for Women"; Lady Con-
 stance Lytton, sister of Lord Lytton,
 and the Hon. Mrs. Evelyn Herford.
 Altogether 230 women and three men
 were arrested. They were liberated on
 bail.
 Among many buildings where win-
 dows and glass doors were smashed
 were the offices of The Daily Mail and
 Somerset House. The latter building
 contains public offices. The window-
 breaking was systematic, the motive
 apparently being to ensure arrest.
 Many of the women carried stones in
 a cloth bag attached to long tapes.
 These were used like slings.

**He Goes So Far as to Say That
 Every Child Should Have
 Working Knowledge of Eng-
 lish but "Not Necessarily
 English Alone"—Good Rally
 at Lindsay.**

LINDSAY, Nov. 21.—(Special.)—
 Bilingual schools and New Ontario
 were dealt with by N. W. Rowell, K.C.,
 Liberal leader, to-night in his first
 fighting speech of the campaign. Mr.
 Rowell challenged Sir James to answer
 some questions with regard to his acts
 in the past and his policy for the fu-
 ture.
 "Our concern is that every child
 should learn and know English, not
 necessarily English alone, because a
 man who knows two languages may
 be a little better off than the man who
 knows only one, but every child should
 have a working knowledge of English.
 On our policy of teaching in those
 schools and policy of maintaining
 peace and harmony between French
 and English races, the Liberal party is
 prepared to stand or fall," he said.
 With regard to the statement of Hon.
 J. J. Poy, attorney-general, that the
 law did not authorize bilingual schools,
 Mr. Rowell said: "It is not the law,
 but the administration of the law
 which has created trouble."
 "If Sir James is ignorant of present
 conditions with regard to bilingual
 schools, then there must be incompe-
 tency in management of our educa-
 tional affairs, more than we had
 even expected," said Mr. Rowell.
 Insulted Temperance People.
 On the temperance question Mr.
 Rowell said that Sir James Whitney
 "could be almost insulting" to tem-
 perance people when they went to him,
 but the spoils-faction wants to use
 the license system to further its in-
 terests.
 The meeting was held in the opera
 house, C. E. Weeks of Woodville, local
 Liberal candidate, and Dr. J. A. White,
 chairman of the meeting and president
 of the Liberal Association, also spoke.
 About 800 were present.
 It would be foolish to say that the
 Whitney government is all bad, said
 Dr. White. "Intelligent people would
 not accept that statement." He ad-
 mitted that the hydro-electric policy
 and prison farm project were good work.
 The stage was cleverly set, much
 better than at any previous meeting.
 Banners and flags decorated the plat-
 form, and at the appearance of each
 new speaker, an orchestra of seven
 pieces rose and played something such
 as "The Maple Leaf."

Says Whitney Wobbles.

The failure of the government to
 frankly state its position on the ques-
 tion of bilingual schools and its eva-
 dent desire to run with the fox and
 hunt with the hounds is largely re-
 sponsible for a widespread agitation
 which is disturbing the public mind to-
 day in this province, said Mr. Rowell.
 "Sir James evidently hoped to avoid a
 declaration of policy by bringing on
 the elections before the receipt of Dr.
 Merchant's report, but, like Banquo's
 ghost, it will not down."
 "Sir James seeks to evade the ques-
 tion."

**BRINTNELL GUILTY
 OF WILFUL NEGLECT**

**Jury Returns No Verdict on Man-
 slaughter Charge—Sentence
 Will Be Imposed To-day.**

It was a serious-looking Roy Brint-
 nell, standing in the dock of the
 criminal court, yesterday afternoon,
 who heard the jury's verdict
 "guilty on the third count," the of-
 fence with which he was charged was
 three-fold: manslaughter, wantonly
 driving, and wilful neglect, in con-
 nection with the death of Mrs. Salter
 on Oct. 5 last, and it was on the charge
 of "wilful neglect" that he was con-
 victed.
 The maximum penalty is two years.
 Justice Riddell remanded the prisoner
 for sentence till this morning.
 When the verdict was announced Mr.
 Riddell addressed the jury. "This is
 the first case, as far as I know, in
 which a motor driver has been charged
 with killing or injuring a person by
 wilful negligence. I am glad to see
 that you have followed the evidence
 carefully. I entirely agree with you
 that it was wilful negligence on the
 part of the prisoner in doing what he
 undoubtedly did. I am not going to
 dispose of this case in a hurry, be-
 cause it is a very painful one," and,
 turning to the prisoner, Roy Brint-
 nell, I remind you until called on for
 sentence, and that will be to-morrow."
 T. C. Rivinette, the prisoner's coun-
 sel, asked for bail, but Mr. Riddell
 said: "I only wish my duties were
 lighter."

Foy's Remarks "Brutal."

MONTEREAL, Nov. 21.—(Special.)—
 Speaking on the assumption
 that Attorney-General Foy
 was correctly reported, The
 Devoir says: "The attorney-
 general's action is very regret-
 table as he belongs to a reli-
 gious minority that should
 know the value of liberty. The
 Devoir writer also says that
 Hon. Mr. Foy's remarks are
 the most brutal yet pronounced
 on the question, and says that
 the attorney-general should
 know that the men who are at-
 tacking the bilingual schools
 are the same who threaten the
 unity of the empire."

**LINDSAY NOT GUILTY
 IN FARMERS' BANK CASE**

**Conspiracy Charge Not Proved—
 W. R. Travers Gives Evidence
 as to Relations.**

W. J. Lindsay charged with conspir-
 acy in connection with the formation
 of the Farmers' Bank was declared
 "not guilty," yesterday afternoon, by
 the jury sitting before Mr. Justice Rid-
 dell in the criminal court.
 W. R. Travers was on the witness
 stand for about an hour and a half,
 and was cross-examined by George Tate
 Blackstock and E. E. A. DuVernet. The
 main object of Mr. Blackstock's exam-
 ination was to show that the relations
 between Travers and Lindsay, so far
 from being intimate at the time the
 bank got its charter, were very strained.
 Letters were read by Mr. Blackstock
 which showed that there had been fric-
 tion, but when Mr. Blackstock, after
 reading several of that tenor, asked
 Travers if he would not admit that their
 opinions of each other were not very
 flattering, Travers denied it. Where-
 upon Mr. Blackstock said: "Well, I
 haven't letters for every day, but I've
 read one for every month, which proves
 it."
 Travers swore that Lindsay had had
 nothing to do with the getting of the
 bank's charter. He only acted as stock
 selling agent.
 About half a dozen farmers were
 called, who had purchased stock from
 Lindsay, but they all admitted that
 they had done so.

BRANTFORD, Nov. 21.—(Special.)—
 The body of Frank Waugh, traveler
 for the Adams Wagon Works and a
 well-known resident, was recovered
 from Brantford Canal near Headgates
 at river, at 3 o'clock this afternoon.
 Deceased had been seen in a nearby
 hotel at noon and it is believed he
 walked into the canal.
 He had become despondent since his
 return home from a road trip on Sat-
 urday night last. In his possession
 was found a note to a member of the
 firm relating business trouble. The
 body had been in the water less than
 an hour when recovered, as the watch
 had stopped at 2:25 p.m.
 A widow, one son and daughter sur-
 vive. Corner Ashton was called, but
 an inquest was not deemed necessary.

**PREMIER HOTLY

 CRITICS**

**Abominable Falsehoods Have
 Been Printed About Bilingual
 Schools, He Tells Fer-
 gus Gathering — Predicts
 Fresh Impetus Because of
 Hydro Power.**

FERGUS, Nov. 21.—(Special.)—
 "Abominable and absolute falsehood"
 is the way Sir James Whitney to-
 night described the newspaper articles
 being published on the bilingual school
 question.
 Doughty warrior that he is, Sir
 James asks no quarter from his polit-
 ical opponents and gives none. The
 agitation over the bilingual school
 question roused the premier to-night
 to say something and say it straight
 on this much discussed topic.
 "In this land of peace and warm
 good feelings should be fostered and
 encouraged owing to the racial differ-
 ences of the people, we see news-
 papers filled with abominable and
 absolute falsehoods about this bilingual
 question," he declared.
 Sir James calmly reiterated his state-
 ment again to-night, that there is no
 such thing in Ontario as a bilingual
 school. "Let's get the idea of teaching
 young French-Canadian children the
 public school subjects in French until
 they can understand the English lan-
 guage," he suggested.
 Cordial Reception.
 It was an audience that completely
 filled the opera house that listened
 to-night to Sir James Whitney and
 several other speakers tell the story
 of honest government in Ontario dur-
 ing the past seven years. Vigorous
 applause greeted the premier's remarks
 as point after point in the achieve-
 ments of the present administration
 was recited.
 Sir James said he was especially
 pleased with Col. Craig's record and
 attitude in the legislature. There was
 a great big streak of independence in
 J. V. Craig and he was the better for
 it. He was not a hide-bound party
 candidate unattentive to the interests
 of all his constituents. Sir James was
 glad to see this spirit of independence
 both in the legislature and out of it.
 Sir James is interested in the farm-
 ers. "Even in providing the
 added grades to the university
 the farmers have been a considera-
 tion because a great percentage of the
 university undergraduates are sons of
 farmers, and if this had not been so
 we wouldn't have given that money,"
 said Sir James.
 Cheered Hydro Power.
 As for hydro-electric power, every-
 body knows its advantages. It is one
 of the trump cards of the government
 and applause greeted every mention
 made of it by Sir James. "Electric power
 at cost to the farmers" was a statement
 of the government's intention that
 brought forth much applause.
 "We have now a sympathetic gov-
 ernment at Ottawa, who will not at-
 tempt as the Laurier administration
 did to block the progress of hydro-
 electric extension in Central and East-
 ern Ontario. Hon. Frank Cochrane,
 the new minister of railways and
 canals, worked with Hon. Adam Beck
 in aiding the project in Ontario, when
 Mr. Cochrane was a member of my
 government," he said.
 Shouldn't Hoard Up Surplus.
 "No government, provincial or Dom-
 inion, has any right to pile up surplus
 for which the people have no use. I con-
 tend that the money should be spent
 in the interests of the people and not
 to be hoarded up or disposed of in a
 haphazard way."

GENUINE CANADIAN MINK.

The richest of all furs for small gar-
 ments, such as ties, stoles, mufflers,
 capes, or hats, is Canadian mink.
 Let us tell you, however, that it will
 pay you to buy only the real mink—
 that good dark striped Canadian mink
 that is so much superior to the light-
 colored American mink with which
 the market is flooded. The question
 of "hand-painted" mink is one of the
 big causes for the demand for a "pure
 fur" law in the States. The stripes on
 the mink are put on by hand by a
 special process, but do not last. The
 D. N. S. Company handle only the best
 Canadian Hudson Bay and Ungava
 mink. Every pelt is carefully selected
 before going into the workrooms.

Dress Suits Tuxedos AND Prince Alberts

This is the season when a demand is made upon a man's wardrobe for the ultra fashion in dress for evening wear, dinners and weddings.

As a rule men never think about the fine arts in dress until almost the last moment, and as a matter of fact, it isn't necessary, for we carry all the needful lines for all occasions. Just now, our showing is the finest in Toronto, and we specialize Dress Suits at \$30, made from a beautiful Vicuna and cut by our special artist on Dress Suits—the same can be said of our Tuxedos and Prince Alberts. We also carry a very wide range of Fancy and Full Dress Vests for all occasions.

CONTROL OF RAILWAYS STOCK AND BOND ISSUES

President Tart-Will, it is Understood, Forbid Capitalizing Beyond Physical Value.

The New York American, which appears to have program for the further regulation of railroads in the United States, publishes a despatch from Washington which is in part as follows:

The report of the special stocks and bonds commission of which President Hadley of Yale is chairman, and which was appointed by President Taft to ascertain how much of the capital stock and bonds of the railroads in the United States represents actual value, how much is water, and how the issue of stocks and bonds could best be controlled, is now in the hands of the president.

It is understood that the commission makes the following important recommendations:

Federal supervision and control of all issues of stocks and bonds.

A special valuation of railroad properties by the government.

Publication of actual values or conditions approximating thereto.

Legislation making it a criminal offense for organizers of interstate corporations to capitalize beyond the actual physical value of the property and a reasonable estimate of good will where such enters into the capitalization.

An estimate of the physical valuation of the chief railroad lines is undoubtedly included in the report.

Victimizing the Public.

It is understood that Professor Hadley in questioning financiers who testified before the commission, intimated that he thought the overcapitalization concerns by stock watering involved a moral turpitude when such securities were thrown on the stock market for public purchase.

The subject is said to be treated in the report. It is believed the president will use it as a strong political argument should he decide to send the report to congress with a special message.

So eager are the magnates in the railroad and industrial world to ascertain the findings and recommendations of the commission, that several days ago they sent a special committee to the White House to get advance information.

In this committee were: Albert H. Harris, vice-president of the New York Central Railroad; Alfred P. Thom, general counsel of the Southern Pacific; Frank Trumbull, chairman of the board of directors of the Chesapeake & Ohio, and Walter D. Hines.

They approached the president most diplomatically. They asked him if he did not wish a conference with them on the recommendations of the commission.

President Non-Committal.

The president did not stop to ask the railroad lawyers how they happened to know he had the report of the commission. He informed them that while the report had been in his hands for several days, he had not read it, and could not discuss its recommendations with them because of his lack of knowledge of what they were.

Further, the president told the railroad lawyers that even if he had digested all of the information in the report, he did not think he could discuss the recommendations or the report with them at any time. He believed it his duty to transmit the report before he should make any recommendations it contained. Since then the president has had no discussion of railroad lawyers calling on him.

It is accepted here that some of the recommendations must have been known to the railroad men or they would not have been so eager to see the president and ascertain his views.

These close to the president are inclined to believe the commission has made recommendations exceedingly objectionable to the railroad heads, that it intimated the work of his commission with respect to control of stocks and bonds, and that the railroad men are fearful of the consequences.

Hydrotherapy in Ontario.

Hydrotherapy, the applying of water in the cure of disease, is to-day one of the most important treatment methods for the public, and withal one of the most pleasant to undergo. The ill susceptible of favorable influence by the proper use of water cover a very wide range, and Ontario is not lacking in the necessary curative mineral waters. At the springs at Caledonia Springs, at Preston, and again at Chatham, is found every possible convenience for treatment and bathing. There are comfortable hotels at each resort, which are all quickly reached by the Canadian Pacific Railway. Full particulars of accommodation, train service, etc. C. P. SOCIETY

It is notified for the information of all concerned that "evening dress, decorations and medals" will be the order of dress for the dinner at the Government House on Monday evening, in honor of T.R.H. the Governor-General and the Duchess of Connaught.

At her concert in Massey Hall last night, Margaret Versker was gown in white and black satin, veiled with gold embroidered black net and trimmed with gold fringe. Her bouquet was of orchids and lilies. Among those noticed in the audience were: Mrs. Walter Beardmore, with whom Miss Versker is staying; Miss Helen Beardmore, Lady Moss, Mrs. Henry Cavendish, M. de Champ, Prof. and Mrs. Michael Hambourg and Mr. Boris Hambourg, Mrs. Albert Austin, Mrs. M. A. St. Luke's Church was the scene of a wedding yesterday, when the marriage was solemnized by Miss Arundell Tyrwhitt, daughter of the late Lieut. Col. Tyrwhitt, and of Mrs. Tyrwhitt, of Admiral-rd., to Mr. Elliott Grasset Barrie, a cousin of the late Mr. Barrie, and of Mrs. Strath of Bedford-rd. Hamilton Dicker performed the ceremony, and Mr. Killmaster organist of the Church of the Redeemer presided at the organ. During the signing of the register Miss Gladys Ardab of Barrie, a cousin of the bride, sang "Perfect Love." The church was decorated with white chrysanthemums, palms and ferns. The bride, who was given away by her brother, Mr. Raymond Tyrwhitt, wore white satin trimmed with old Chantilly lace, chiffon and pearls, the lace being caught in front with beautiful Tyrwhitt hairloom of Indian flange gold set with emerald crystals. Her veil, which had been worn by her sister on her marriage, was held in place by a coronet of orange blossoms, she carried a shower of roses and lily of the valley, and wore the groom's gift, diamond ring. Miss Dorothy Tyrwhitt was maid of honor, and the bridesmaids were Miss Muriel Strath, the groom's sister, and Miss Marjorie Lennon, a cousin of the bride. They were gown alike, in yellow satin veiled in nylon, and large black velvet hats, trimmed with black tulle bows. They carried bouquets of crimson roses and each wore the groom's gift, a brooch, pearl and diamond necklace, and the ushers were Mr. Hedley Snider, Hamilton, and Mr. Grant Fletcher. To each the groom gave a pearl waistcoat set. After the ceremony Mrs. Tyrwhitt held a reception at her house in Admiral-rd., which was decorated with yellow chrysanthemums and ferns, and was wearing mauve satin with old lace, a black velvet toque and bouquet of lily of the valley and violets. Mrs. Strath, the groom's mother, wore mauve nylon on black satin, with black velvet toque, and carried crimson roses. Mrs. Nicol, Aurora, a sister of the bride, was in champagne miter, crepe and black velvet hat. Miss Tyrwhitt wore pink velvet hat with Paisley nylon, large black velvet picture hat and carried large black velvet picture hat and carried yellow roses. Miss Strath, the groom's sister, wore green velvet willow hat to match. Mr. and Mrs. Strath left later for a trip to New York, the bride traveling in a brown fur-trimmed hat to match and mink furs.

The presentation of the freedom of the City of London to Earl Grey, which will take place at an early date, will be held in the Guildhall. This will probably include the only four other ex-governors-general of the Dominion still living—the Duke of Argyll, who as Marquis of Lorne accepted that position in 1878; the Marquis of Lansdowne (1885); the Earl of Aberdeen (1888), and the Earl of Minto (1888). The assembly will also include Lord Strathcona, the secretary of state for the colonies, and representatives of all the great Canadian commercial enterprises in this country.

Start Your List of Christmas Gifts With "Ensignettes"

One of these little cameras is really an ideal gift. At Christmas time a camera is always a source of good fun for snapshots of the party, the outings—the good times all through the holidays.

The Ensignette is a new idea in photography—it makes postcard size pictures, and yet the camera fits easy in a vest pocket.

The Ensignette costs less to operate than any postcard camera—the films cost less, the developing costs less.

As a Christmas suggestion the Ensignette is an inspiration—Come in and see this little camera and the wonderful work made with it.

The Weakness of Liquor Drinkers

Alcohol is a Cumulative Poison That Unhinges the Mind and Wrecks the Body—The Gatlin Treatment Cures the Liquor Habit in THREE DAYS.

LIQUOR makes a man's whole life a lie. It poisons his brain and he believes that he feels good when he feels bad. Under its influence he believes himself strong when he is weak and growing weaker every day. He believes his business prospering when it is on the verge of bankruptcy; he believes he is talking like an intellect; he believes that he has the confidence of his friends when they wouldn't trust him for a minute in an important matter.

Why not wake up? THINK just a little, if you can. What has liquor ever done for you? What is it doing?

TO you? Has it ever made you any money, any friends? Come to the Gatlin Institute and be cured. But THREE DAYS of your time will be required. You will be accepted for treatment under a legally executed contract that you are to be cured in THREE DAYS—cured to your entire satisfaction—or the fee you pay shall be refunded at the end of the third day and treatment shall cost you NOTHING. You judge the cure—not the Gatlin Institute. There are no hypodermic injections, no strong drugs, no disagreeable features—nothing to be afraid of. A child could safely take the Gatlin treatment. There is not a poisonous ingredient in it.

If you cannot come to the Institute for THREE DAYS, send for the Gatlin Home treatment. It carries practically the same contract to cure as Institute treatment, the only change being one to protect you against unscrupulous persons.

QUARREL OVER GIRL RESULTED IN STABBING

Young Man Victim of Murderous Assault Near Kingston, But Will Recover.

KINGSTON, Nov. 21.—(Special.)—Suffering from a knife wound in his back, Arthur Johnson, a young man employed on a construction gang for the Canadian Northern Railway at Perth-road, came to the city this morning and swore out a warrant for the arrest of Jas. Campbell, aged 43, paroled from the penitentiary on a charge of housebreaking.

Johnson's story is that he was at a party last night and took one of the young ladies home. As he passed some bushes, a number of stones were hurled at him. He had his companion go on and he went back to investigate. Campbell, knife in hand, rushed at him and he started to run, but the knife struck him in the back and he fell. He got up and moved on as fast as he could, blood streaming from his wound, whereupon Campbell threatened to murder him, but eventually allowed him to go. He collapsed at a farm house and had his injury dressed.

FOUR SETS OF ELOPERS WED AT NIAGARA FALLS

Three Couples United by Baptist Minister Accused of Commercial Methods—Pretty Romances.

NIAGARA FALLS, Ont., Nov. 21.—There were four eloping couples married here to-day. All but one couple were married by Rev. A. E. Quinn, pastor of the Main-street Baptist Church, who recently resigned from membership in the International Interdenominational Ministerial Association when the organization demanded that he appear before it to show cause why he should not be expelled from membership for "commercializing marriage."

A Syracuse couple indulged in the most sensational of elopements. They came here early to-day and purchased a marriage license from the Michigan Central station agent, Jackson. Jackson admitted that he sold the license. He also refused to give minister's name who performed the ceremony. The bride's father followed the elopers here, but arrived too late to prevent the wedding.

Joseph Geiger, aged 24, North Collins, N.Y., and Catherine Spangler, 19 same place, and Richard Silvester, 23, North Marlboro, N.Y., and Hester Munroe, 24, Buffalo, were married by the Baptist minister.

The elopement of sixty-year-old James Hubbard and Julia Plummer, aged fifty, both of Buffalo, N.Y., was the most pathetic of all. They had been schoolyard sweethearts, but had become estranged after planning an elopement. After reconciliation, a few days ago they decided to carry out their former plans and eloped to this city.

Delaying the Street Cars

In view of the complaints about the street car service at this time of the year, the Company desires to acquaint the public with the conditions which at present hamper the freedom of car operation, some of the difficulties that motormen have to contend with to keep their cars on schedule time, and instances of the frequent delays and interruptions to the service caused by circumstances over which the Company has no control.

One of the causes of congestion and delay down town is the work now going on of putting in the new intersections at Queen and Bay, Richmond and Bay and Richmond and Victoria Streets, which made necessary the temporary changing of some of the routes, more cars having to operate over the same track, thus retarding their movement, some of the lines being delayed from five to fifteen minutes. Another result of the new construction work is that at the intersection of York and Queen Streets, the westbound Queen, Dundas and Bloor cars having to be diverted along Richmond and York, have to cross the eastbound cars of these lines, which was not necessary when all these cars operated one way around the loop, with the result that the movement of cars on these lines from down town is much slower than heretofore.

The streets being torn up also affects the northbound vehicular traffic, which is diverted largely to Yonge and York Streets, adding to the congestion at the intersections on those streets. At Queen and Bay, while the construction work is going on, all vehicular traffic in both directions must use the south side of Queen, and it is not uncommon to see both cars and vehicles blocked there while the latter are trying to pass on the narrow strip of roadway.

The effect of this congestion of cars downtown is that instead of each car moving freely on schedule time, at a regular distance from the others, and carrying its proper quota of passengers, all are delayed, so that when the first cars come along so many people have congregated that they fill them before leaving the down town districts, and there is no accommodation for people waiting further along the line. This is one reason why people have to wait on Queen Street at McCaul Street and Spadina Avenue in the evenings for westbound cars, while any number of cars are running down town, whereas, if it were not for the congestion above mentioned, the cars would be running on their scheduled headway of but one minute apart. When any longer delay is experienced on these lines, it can be attributed to the delay down town or to some other cause beyond the Company's control, as the cars are put out on the street to give a one-minute service on each of these lines. This illustration applies to other lines as well.

In addition to the congestion there are many other causes of delay to the service, such as horses falling and wagons breaking down on the tracks. When possible in these cases cars are diverted from their routes in order to keep up the regularity of the service on the lines affected. An instance occurred a few days ago, when a lorry heavily loaded with iron pipes was crossing the tracks at Front and Bathurst Streets. One of the wheels dropped into an excavation and the wagon settled down across the tracks. This occurred at an hour when many citizens were on their way to their places of business, but, fortunately, it was possible to divert the Bathurst cars along King Street, and the passengers were subjected to very little inconvenience. It was more than two hours before the track could be cleared.

On Saturday afternoon about two o'clock, several hundred intending passengers were observed to be waiting on Yonge Street north of Queen for northbound cars, which were blocked at Adelaide Street, owing to a heavy wagon sinking in the temporary pavement over the trunk sewer at that point. The citizens at Queen Street could no doubt see what was causing the delay, but people waiting for cars further up the line would be inclined to blame the Toronto Railway Company, not only for the delay, but for the fact that the first cars, which would be filled before leaving Queen Street, would be unable to pick up other passengers along the route.

It is the intention of the Company to give from time to time instance of delays to the service, showing the public that the Company is blamed for much that is caused by circumstances over which it has no control.

JAMES GUNN, Superintendent Toronto Railway Company.

RECEPTION TO MEMBERS EATON MEMORIAL CHURCH

Handsomeness of New Edifice a Monument to the Noble Generosity of the Late T. Eaton.

Several hundred members of the congregation were last night the guests of Mrs. Eaton and the trustees and their wives of the Timothy Eaton Methodist Memorial Church.

The commodious and beautiful auditorium of the Sunday school was the scene of the reception in all respects appropriate to the opening of the edifice.

R. J. Fleming, who was introduced as representing "everybody," gave a sidelight on the sterling character of the late Mr. Timothy Eaton by relating a personal experience. When mayor of the city, Mr. Fleming made a tour of the proprietors of the large stores to secure their consent to close on Saturday during the week in which Christmas Day fell on the Friday.

Unusual Generosity. Rev. Dr. Griffin declared that after a short investigation he had failed to find a parallel in the American continent for the expression of generosity manifested by the founders of the church.

Another feature of the campaign is that there is little or no enthusiasm prevalent. Neither of the political parties has opened up rooms as yet.

Lacrosse Big Four Officers Rugby The Teams At Practice Bowling League Scores

Note and Comment

The organization of the Big Four Lacrosse League makes a peculiar complication. Two Toronto clubs and two Montreal teams comprise the circuit, and it is bound to prove a success no matter what interests they hurt.

Curiously, the new league jumped into N.L.U. territory without asking permission, as they would have done in organized baseball. However, there can be no penalty meted out to the offenders on account of the lack of a lacrosse law along this line, and all the old association, the N.L.U., can do is to fight back according to the best of its ability.

Fred Thompson has been negotiating with the owners of the Rosedale grounds and the latter have given some encouragement, but they are not ready to let the club must run the show. Furthermore, Rosedale would prefer to keep out lacrosse rather than to have anything on the list that might prove a failure. They are getting along nicely in the club business with many hundreds of active members.

With three lacrosse teams in Toronto, where is the room for two baseball teams? Very easy the answer. Of course outside interests cannot but interfere. He can only be named McCaffery, who would decidedly object to anyone besides himself showing organized baseball between Muro Park and the Junction, and the president would be upheld by the National Commission.

However, Toronto will have a Canadian League outfit under the protection of the Maple Leaf. They'll perform at the Island when Joe Kelley is on the road, and on Saturdays when the Leafs are at home, the bush leaguers will figure as the front end of the baseball-lacrosse double-header.

Tommeahs and Toronto are both scheduled in the National Hockey Association, the official list of games being arranged in Montreal some time between last Saturday and Monday. The contractors of the Toronto arena sent assurances that they would have the rink ready by Jan. 23, on which date Canadian and Tommeahs open the new building in Mutual street.

The representatives of the clubs in the association which undertook to draw up the schedule had no easy task. Each of the six teams had to meet the other five four times. Four games had to be staged before ice was expected. The games scheduled before Jan. 23 will have to be played off on open dates later in the season, and with a view to this necessity several open dates have been provided. These dates are Jan. 10, Jan. 15, Jan. 20.

The Dufferin Driving Club are making the races at to-day's meeting all right. The top of the course is nicely frozen and it will be the first ice race of the season.

Whether a spectator at a baseball game has the right to call a player a "bone head" will be determined in a \$5000 game suit brought by Ernest E. Smith of Minneapolis against the St. Paul Baseball Club. Erving alleges in his complaint that he was ejected from the grounds for applying this name to a St. Paul player named Halston.

HOCKEY GOSSIP.

The Maple Leaf Hockey Club of West Toronto held their organization meeting Monday evening and elected the following officers: Honorary President, T. E. Houghton; president, E. Reardon; vice-president, W. Collins; secretary-treasurer, C. E. McLaughlin; executive committee, P. B. Averill, R. Smith, E. D. Leonard, trainer, T. Sprat, who have entered a team in the Intermediate O.M.A. and will play at the new Ravina Rink, West Toronto. This is their first season in O.M.A. company, but they expect to make a good showing, as they have a first class man to manage the team.

Lourdes Club hold a meeting to-night at 8 o'clock to organize their junior O.H.A.

All Presbyterian churches desirous of entering a team in the hockey league are respectfully requested to correspond with Mr. F. H. Ross, Lumsden Building, Toronto. If the teams responding to the request are not sufficient to form a league, surplus money will be handed over to some charitable society.

The annual meeting of the Eaton A.A. House Hockey League was held last evening, when the officers were elected and other business transacted. The reports of the president and secretary were read and showed the league to be in a flourishing condition. The league last year was composed of 29 teams and while only ten were represented last night, the outlook is for even a larger entry than ever before, with the brand of hockey also promises to be better. The league expressed their confidence in the old officers by re-electing them all, with one addition to the executive, as follows: Hon. president, Mr. R. Y. Eaton; president, Jas. Stewart, B. Y. Eaton; vice-president, F. Forsythe, Basement; secretary, W. J. Smith, General Office; executive, F. C. Waghorn, Sports Goods; H. Stewart, Mail Order; W. Franklin, Printing Department; W. Sheardown, Third Floor.

The Cobalt District Amateur Hockey Association held its annual meeting in Cobalt when the officers were elected for the coming year as follows: Past president, Frank Evans; president, Robert F. Kellogg; vice-president, George A. Adams; secretary, W. C. Flinders; treasurer, Angus D. Campbell. The clubs entering teams this year in this senior series are: Silver City of Cobalt, McKimley-Darragh Mines, O'Brien Mines, Nipissing Mines. The cups up for competition are the McKimley-Darragh cup and the Standard Explosives Cup, both of which are handsome silver trophies. The association will this year seek affiliation with the A.A.U. of C. and recognition from the Allan Cup trustees.

The annual banquet of the Civil Service Baseball League will not be held until some time in January.

BIG FOUR ORGANIZE FOR COMING SEASON

Will Be Called Dominion Lacrosse Association—Next Meeting on Jan. 25th.

The Big Four Lacrosse Union, which will in future be known as the Dominion Lacrosse Union, met here yesterday, and the following delegates were present: Tommeahs—Charles Quarris and Fred Hamby.

Nationals—Joe Catterinich, Dr. Cousineau and A. W. Caron. Irish-Canadians—Geo. Kennedy, W. A. Mason and Newey Lalonde. Toronto—Percy Quinn and R. J. Fleming.

Each club is reported to have put up a bond of \$1000, which binds the clubs for five years, and is ample protection for any organization.

The matter of president was left over until the next meeting of the organization, which will be held in Toronto on Thursday, Jan. 25. James Murphy of Toronto, Ed. St. Pierre of Montreal and Wm. McInyre of Ottawa have been mentioned for the presidency.

The teams decided to play ten men a side, and all persistent players will be substituted. Persistent offenders will be suspended for various periods.

The drawing up of the constitution has been placed in the hands of Charles Quarris, who will submit same to the meeting of Jan. 25, when amendments to same will be submitted, and the final constitution decided on.

The Irish-Canadian Club, under the direction of George Kennedy, will play all their games on the grounds of the Shamrocks. Kennedy will pick his team from Shamrocks, Capitals, Central and Mount Royal.

Each club will present a list of twenty players to the meeting on Jan. 25, which same list must be out to sixteen on the first day of May. This will prevent any club from grabbing up and holding players that might be useful to other clubs in the union.

In the meeting was a most unanimous one, and George Kennedy was able to present a most formidable case as to why he should be admitted to the league. He has already gathered together a very formidable team, which will be managed by Newey Lalonde.

Everybody in connection with the organization was well pleased with the meeting, and look forward to a very successful season of lacrosse.

Central Boy Wins Junior Fencing Championship

The junior fencing championship of Canada was decided last night at the Central Y.M.C.A., the result being a victory for Giuseppe of Central Y.M.C.A. C. A. Lightwood, Central, second, and Montgomery of Varsity, third. They fought in the pools, Lightwood and Giuseppe being one and two in the first, and Lightwood and Villiers (Central) the second. There were altogether sixteen competitors.

The team sabre championships will be on to-night. The officials were Messrs. Osborn, Blundell, Walters, Nordheimer, Loring and Clark.

SOCCER PROGRAM.

The games for Saturday in the T. & D. are as follows: Pioneers v. Thistles (C. Dickson). Davenport v. Carpenters (C. H. Binford). Baracas v. Stanley Barracks (S. Lettice, 38 Carr-street). Intermediate—Scots v. St. Pauls (A. Lovell). Varsity v. Moore Park (J. Buckingham). Garretts withdrawn.

Pioneers v. Builders (C. H. Carter). N. Riverdale v. Wychwood (T. Walsby). Royal Beas v. Barnes (St. Francis). Wychwood v. Elwathia (G. Ready). Weston v. Sunderland (J. Dobb). Toronto v. Toronto.

Little York v. Parkviews (G. E. Mills). Home team selects time of kick-off unless mutually agreed on. Kick-off shall not take place previous to 2.15 p.m.

VESELS CONTROLLED BY WIRELESS.

Within the last three or four years a number of striking experiments have been made in controlling, from a distance, the motions of small vessels, torpedoes and balloons, but the most elaborate apparatus of the kind seems to have been worked out by Christoph Worth of Nuremberg and several backers. In the tests in Germany during the last few months two unmanned motor boats—33 and 50 feet long—were manipulated in every way by electric waves sent from shore without wires.

The boat equipment included an antenna, a receiver, a tuning device, a distributor, electric steering apparatus, signal guns, lights and fireworks, and the Ruhmkorff coil on shore not only started and stopped the motors, which gave a speed of eight or ten miles an hour, but steered perfectly, fired the guns, rang the bells and discharged the fireworks. This was all controlled by a single train of waves broken into Morse signals by a key. A prolonged pressure of the transmitting key changed the tuning of the receiver, and by frequent changes and the use of many useless signals it was made impossible for an enemy to intercept waves of the right pitch to interfere. Firing mines, sending lifeboats to wrecks and controlling self-propelled torpedoes are among the uses suggested.

Both Teams Practicing Hard For Big Game

Varsity had a great practice yesterday and in some of the finest work of the season. There was a host of substitute players out, but close observation revealed the fact that both Gorman and Green will be available for Saturday's game.

This fact is of great satisfaction to the Varsity people, as it is thought that these two men are about the best pair of middle wings playing the game.

Jeff Taylor was tried out at flying wing, and it looks as if he and McDonald will have a battle royal for the position. McDonald has played great football for Varsity this fall, and will take a lot of beating before he is replaced.

Barring these players taken about the usual team will line-up. Knight, Bell and Curtis are a hard trio of scorers, and when supported at inside wing by Cory and Clarke it will make a great team to back them.

The back division are working very smooth, and with a dry field will elect the large crowd with their running and passing.

Varsity, the college paper, says: "The winners will give Varsity a good game for its next Saturday especially if Smirle Lawson plays. It is not that he is so valuable a man, but he is spectacular and liable to tear off a long run at any time. His presence on the team adds a great deal to the confidence of the season. He has been playing regularly with the Argonauts for the last few games and ought to finish the season with them. Varsity does not want the championship unless the team is the best in the country. The Argonauts will not be at their best without Smirle and every inch of the man in him ought to rebel against quitting before the final struggle. That means so much to both teams. He should let no false sense of loyalty stand in his way now."

There is no chance for an Albert-Tiger game for the city championship. The Tiger executive met last evening and decided that the challenge filed by the Alberts would not be accepted. The Tiger players have all gone out of training, and do not fancy starting over again just for the one game, especially with the present weather conditions. The matter was left to the players for a decision.

Billy Foulds had the full Argonaut squad out on St. Andrew's Campus last night for one of the best workouts of the season. Practically every man was in uniform and they were kept on the jump all the time. Dr. Smirle Lawson was one of the first out and was a willing worker all evening. All the boys are in excellent shape and are ready to put up the hardest battle of their career against the students on Saturday.

Billy Jarvis made his first appearance since he hit his collar bone broken early in the season. Last night Jarvis donned a uniform for the Argos' and he was in excellent shape. It is not likely that Jarvis will play against Varsity.

Ottawa Citizen: "The Varsity-Argonaut battle of Saturday next will be the main event in sports, and consists of a bottom layer of ordinary cement concrete, a middle layer of cement enclosing the strengthening piece of flat and circular iron, and a top layer of closest stone pressed into the cement.

Formed into plates of moderate thickness twenty-eight inches long by nineteen wide, the pavement readily supported an evenly distributed load of thirty tons or a load of eight tons concentrated at one point. The surface has been found very resistant to the wear of heavy traffic and its smoothness—giving a striking contrast to stone pavement—is a special advantage.

In places where the plates are too expensive to use over the entire width of the roadway, it is recommended that a narrow track be laid to receive the wheels of vehicles.

A NEW ROAD MATERIAL.

The reinforced macadam of Quiet, a French engineer, is a new road material that is claimed to have given superior results in his tests of the last year or two. It is made in plates of various sizes, and consists of a bottom layer of ordinary cement concrete, a middle layer of cement enclosing the strengthening piece of flat and circular iron, and a top layer of closest stone pressed into the cement.

Battling Nelson Here. Battling Nelson, ex-champion, arrived in the city last night. He will go into training at Boland's roadhouse at the Humbert for his twenty-round match with George Sisco of New York, before the National Sporting Club, on the night of Nov. 30. Local boxes have been clamoring for a chance, and now they will get it. Flaagan wants to meet Frankie Fleming and Harry Westerbeek at noon to-day.

Tenpin Bowling

In the Business Men's League, at the Toronto Bowling Club last night, Hayes Plumbing won two out of three games from St. Lawrence (limited), the latter winning the last game, with 85, the biggest total for the night. Jimmy Lehan, for the Plumbers, was night roller, with 82, while his 2nd course in the first game featured. Bob McKinney, for the Saints, was also there with bells on, collecting 83, with his middle game netting him 213 pins. Manager Hayes tried himself out in the first game, with disastrous results, and hereafter it is likely F. J. will be content to "hang from the bench. Score: Hayes Plumbing—175 187 150—512. St. Lawrence—168 143 146—457. McKinney—183 188 148—519. J. Lehan—231 196 175—502. F. J. Hayes—109 138 138—385. P. McBride—129 138 138—395. Total 824 791 876.

In the Printers' League, at the Toronto Bowling Club last night, Acton Publishing Company won two out of three games from MacLean Publishing Company. The latter now under the management of George Martin, made a creditable showing, considering the class they were up against, George having practically a new team of boys on his hands to develop. Bob Elliott for Actons was high for the night, with 83, while Fred Wilkes of the same team put the last over the 500 mark, with 95. George Martin for MacLeans was high, with 498. Score: Acton Pub.—168 147 147—462. Wilkes—158 143 138—439. C. V. V.—198 197 198—593. Weeks—143 130 138—409. Chapman—139 138 138—415. Elliott—207 187 147—541. Total 778 684 700 2322.

In the Public Utility League at the Toronto Bowling Club last night, Parliament Buildings just avoided a shut-out by grabbing the last game from the Canadian Express Co., their opponents, by only one pin. It was a close call for the government all right, but Bill McKinlay says it goes and will be chalked up on the right side of their ledger just the same as if it were won by 1000. Why do Canadian Express was in a class by himself for the night, finishing with a 24 score, while Crow was best for Parliament Buildings with 49. The scores: Can. Exp. Co.—1 2 3 T. Way—154 154 200—554. McCreary—141 154 162—457. Rice—151 168 130—449. Corley—138 138 138—414. Anderson—106 130 158—394. Total 691 740 746 2177.

In the Gladstone Novice League game last night resulted as follows: Clubs—1 2 3 T. Walker—170 140 143—453. Brayden—158 138 138—434. F. J. B.—133 138 138—409. Stokes—131 143 138—412. McCullough—176 154 140—470. Total 686 699 681 2066.

HYDRO POWER IN EASTERN ONTARIO

It is evident that the hydro-electric commission will soon be able to offer to a group of municipalities in Eastern Ontario the advantages of cheap power now being enjoyed by the Niagara group.

The remarkable tests made this week at Port Credit by the engineering staff of the commission prove that all intents and purposes the whole province is capable of being supplied with power from Niagara.

In Eastern Ontario, however, there are such facilities for the production of power, that it could only be in case of accident that it would be necessary to draw upon Niagara.

GLEBE FARM UP YONGE SOLD FOR HALF MILLION

Church of England Property Purchased by the Davenport Land Company.

One of the biggest real estate transactions in Toronto and neighborhood has just gone thru. It involves half a million dollars.

The lot was a crown grant to the Church of England over 30 years ago, under the old law, which established the Church of England in Canada, and which has subsequently been repealed.

The income from these two properties is divided between 20 and 31 rectories in the City of Toronto, and goes to pay the salaries of the rectors.

WOULD COST OVER \$1,000,000

Continued From Page 1. It certainly meant that Canada would have higher protection

Mr. Foster rose to explain that this did not follow

While Mr. Foster might have discussed the economic aspect of reciprocity, Mr. Carvell said, practically the only thing the Liberals had to fight in the Maritime Provinces and Ontario was the moon-reciprocity furnished and the contemptible of race and creed and religion; this was shown by the proud boast of the Orange Sentinel

MISLED BY DECREE SAYS ARCHBISHOP PROGRESSES

He Points Out Conditions Under Which Marriages Are Valid—Shaughnessy-Graham

MONTREAL, Nov. 21.—Archbishop Bouchette has issued a manifesto dealing with the Ne Temere decree, by means of which he intends to correct a number of misconceptions which he states evidently exist throughout Canada

After saying that people should not be misled by newspaper articles and conversation which he has overheard, he does not seem to understand the meaning of the decree and that it is often spoken of as if promulgated for Canada alone, whereas it has been in force throughout the world since Easter, 1908

POSTMASTERS RESTLESS

Will Send Delegation to Ottawa for More Pay.

The rural postmasters throughout the Dominion are appealing for an increase of salary, so it has been decided by the Ontario Postmasters' Association to send a delegation of seven to interview the postmaster-general at Ottawa next February. An increase of 25 per cent. for the larger offices, and 35 per cent. for the smaller ones, is suggested, and is thought reasonable. Minimum salary at present paid is \$35 per annum. The delegation intends to make the salary question the chief issue.

The delegates will be James Scott of Clinton, who occupied the chair; A. B. Foran, Winton; H. S. Moore, Norwich; P. V. Cate, Oakville; William Forbes, Grimsby; Hugh Sinclair, Beamsville; G. A. Burgar, Welland; J. L. Tamblin, Oshawa; A. A. Wright, Renfrew; W. R. Cummings, Ottawa, and H. E. Proctor, secretary, Aurora.

R.C.Y.C. Ball.

For the ball to be given in the armory in honor of the Duke and Duchess of Connaught by the R. C. Y. C. on the 14th inst. the work is well advanced. The floor to be laid will accommodate 1500 for dancing. The electric lighting and decorations will be unusually brilliant, and includes a model of the yacht Patricia formed of flowers and electric lights.

Reciprocity Not Beaten.

LONDON, Nov. 21.—The Westminster Gazette, referring to Laurier's speech on the advocacy of reciprocity, are pointing out that, although in a temporary minority, certainly in all the coalitions in our experience we have had no such example of such diverse elements as the Borden cabinet presents.

Prof. Dr. Ehrlich's 606 Cures Blood Poison—Syphilis

Every man or woman suffering from blood poison, no matter how long standing, ought to know that this fearful disease—syphilis—can be cured positively and permanently cured with the world-famous drug made by the world-famous chemist, Prof. Dr. Ehrlich, of Germany. Prof. Dr. Ehrlich's 606 cures blood poison, and cures all the effects of the disease. As many a sufferer who had had symptoms was suddenly cured a few years afterward, it is not surprising that the world-famous chemist, Prof. Dr. Ehrlich, has had many a sufferer who had had symptoms of the disease, such as Heart Failure, Blindness, Lost Memory, etc., etc., can you take this terrible disease, and cure it before it is too late? No one who takes this terrible disease should get married before taking 606, for although the symptoms may have disappeared, they will surely reappear in later years, or your offspring will be affected. For thousands of cases cured in Europe and America. The treatment recommended by the greatest medical authorities in the world. Articles concerning "606" are all over the world. They will be forwarded on request.

The success of this most marvelous remedy depends almost wholly on the manner in which it is administered. Don't allow yourself to be experimented upon, but call and consult.

DUNLOP TRACTION TREAD TIRES

30,000 Square Feet More Floor Space

GREAT DEMAND EXCEEDS SUPPLY

You motorists who have patiently waited your turn for getting Dunlop Traction Treads, here is good news for you: We are adding 30,000 square feet more floor space to our automobile tire plant. Operations have already begun. This big addition will be devoted to the manufacture of Dunlop Traction Tread Tires. Thus we hope to catch up on all back orders, and to keep up somewhat better with the tremendous demand which this tire's great success on the road has brought about.

DUNLOP TRACTION TREAD

While Dunlop Traction Tread is a tire any motorist might be proud to own the season through, it is a tire whose virtues will be especially appreciated from now right on to next April. The reason for this tire making good at a time of the year when motorists formerly thought automobile driving was unsafe, is because Dunlop Traction Tread is a real, downright scientifically built, Anti-Skid tire; a tire the virtues of which can be seen with the naked eye; a tire which can make headway through slush, rain, mud, or grease, without the aid of chains. There are no fears for the car owner when Dunlop Traction Treads are used.

A True-to-Life Picture

The accompanying illustration truthfully portrays the likeness of the tire which has been the talk of motorists this year. It shows as far as human hand can do the exceptional depth of the lateral sipes, the solid corrugations and cover, and the great resistance to the road—in a word, the extra thickness of rubber signifying more tread and better tread.

"Simply Great for Hill-Climbing in Sand."
 Sherbrooke, P.Q., October 25th, 1911.
 Dunlop Tire & Rubber Goods Co., Limited, Toronto, Ont.
 Gentlemen—I have made several long trips on wet and muddy roads and have never found it necessary to use a tire chain. My experience thus far would go to show that these Traction Treads are real anti-skid tires and they are simply great for hill-climbing in sand.
 Yours truly, (Signed) Walter H. Wilson.

"Non-Skid Device an Excellent One."
 Sedgewick, Alberta, Nov. 2nd, 1911.
 Dunlop Tire & Rubber Goods Co., Limited, Toronto, Ont.
 Gentlemen—The Traction Tread Tires you supplied for our car this summer have now traveled about 4,000 miles and are in excellent condition, showing very little signs of wear. The Non-Skid Device is an excellent one and holds the trail well.
 Yours truly, (Signed) Clemens Bros.

Costs More to Make—You Get the Benefit

—Dunlop Traction Tread is the only Anti-Skid tire where the corrugations form an integral part of the surface.

—The only tire where the skid-resisting surface is greater than the total depth from the carcass through to the inner fabric.

—The only tire in which the Anti-Skidding surface is deeper than chain links.

—The only tire that duplicates in rubber that staunch grip on the road of the iron traction wheel.

—The only tire not necessary to cover with chains on genuine slippery days.

—The only tire constructed so as to keep the carcass proper clear of the road, thereby practically rendering it puncture-proof.

—The only tire that was built for a purpose—the purpose didn't make the tire.

—The only tire that gives comfort you can feel, mileage you can see, and safety you can know.

You are Entitled to Further Evidence—We Have It

It is tremendously important that you so familiarize yourself with the complete facts concerning Dunlop Traction Tread's superiority over all other Anti-Skids as to feel it judicious to your own best interests to postpone making a test of this great tire. If your arrangement has not one of these tires to show you, drop us a line and we will do the rest.

Forty-foot right of way from Devonport-road, and other streets, \$350,000.

Carriage charges—interest and sinking fund during construction, \$250,000.

Engineering contingencies, \$50,000.

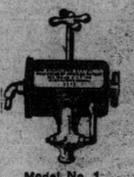

\$1 down and \$1 a month

Most emphatically it is cheaper to buy a Jarvis Filter than to buy bottled water at so much per 5 gallons.

A Jarvis Filter, Model No. 1, priced at \$15, can be bought for \$1 down and \$1 a month.

The Jarvis Filter is installed in many hundreds of Toronto homes, over 100 factories, 75 public and private schools, theatres, hotels, shops and restaurants.

Jarvis Sanitary Filter

Is commended by medical and public authorities. It is the only filter which shows what it does and that can be thoroughly cleaned and sterilized in 5 minutes.

An Invitation—See this filter demonstrated at our Showrooms, 23 Richmond Street West, from 8 to 6 daily.

THE STRONG MAN WINS

Every day we have evidence that the weakling has no place in the busy, humdrum life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter.

I can make just such men of weaklings. I care not how long they have been so, nor what has failed to cure them. Let them wear my

Dr. McLaughlin's Electric Belt every night as I direct, and in place of a weak, debilitated being, I will show you a strong man—full of vigorous life, with nerves like steel, and ready to look any man in the face and feel that he is equal to the best of them and can do what they can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for thousands of weak men, and every one of them has spent from \$50 to \$300 on drugs before he came to me as a last resort.

I want no man's money if I can't cure him. There is no deception about this offer, either in making or carrying it out. All I ask is reasonable security that I will get my pay, and you can

Wall Street in a Very Optimistic Mood--Market on Up Grade

Favorable News Developments--Put Sentiment on Better Basis

Decided Change in New York Market, With Strong Undercurrent of Evidence--Toronto Exchange Irregular.

NEW YORK, Nov. 21--A decided change was apparent in the securities market, which shook off the weakening tendency of the last two days of trading. Both the railroad and the industrial stocks advanced. Spectacularly in the copper industry, which was affected favorably by several occurrences and bull operators displayed more confidence. The opening was more confident than the closing, and the gains recorded have been small, they have been sufficient to indicate a more favorable sentiment existent in investment circles.

The following table shows the price movements in some of the more active bank shares for a term of three months:

BANK STOCKS IMPROVE.

One of the features of the Canadian financial situation of recent months has been the improved demand for bank stocks. This has resulted in advancing prices almost throughout the list of such securities, and while the gains recorded have been small, they have been sufficient to indicate a more favorable sentiment existent in investment circles.

The following table shows the price movements in some of the more active bank shares for a term of three months:

Stock	Nov. 20	Nov. 21	Nov. 22
Am. Banknote	100	100	100
Black Lake	100	100	100
Can. Bank	100	100	100
Imperial	100	100	100
Union	100	100	100

The recently revised interest in the copper stocks, after a long period of comparative obscurity on account of conditions in the copper trade, was heightened to-day by further reports of better business and the copper shares were perhaps the most conspicuous of any. The opening was more confident than the closing, and the gains recorded have been small, they have been sufficient to indicate a more favorable sentiment existent in investment circles.

U. S. Steel Rallied.

The steel stocks also were strong. The speculative position of United States Steel was strengthened by the expectation that the Stanley Iron and Steel Company would be terminated shortly. There were reports that prices of some steel products might soon be advanced. Present prices in many cases are virtually at the low level of the last decade.

Market Turns Firmer.

The New York market turned firmer yesterday, a steady recovery in prices being made as a result of the more optimistic sentiment in evidence. Prices were on the up-grade most of the day, but the trading was decidedly lethargic, and the advances did not amount to very much in the majority of instances. The decision of the court in the Third-avenue railroad case was used as an argument, but it proved hard to enthuse the market, and while the bulls held the whiphand through, they did not accomplish much. It will take something new in the way of developments to stimulate trading up to a pitch sufficient to warrant broader dealings.

TORONTO STOCK MARKET.

The Toronto stock market showed no indications of breaking away from the apathy which has characterized dealings during the last few sessions, and some further symptoms of weakness developed, giving the whole an appearance of heaviness which proved rather disappointing to traders. Transactions were of small volume, and none of the erstwhile leaders came in for any particular attention, even the traction issues being left pretty much to themselves. As far as the specialties were concerned, these were all intent and purpose completely ignored.

Predicts Good Steel Buying.

CLEVELAND, Ohio, Nov. 21--The Iron Trade Review quotes an official of one of the largest steel concerns in the middle west as saying that before the first of the year orders will have been placed by railroads for a grand total of 100,000 cars and locomotives. The publication says that the statement is made upon excellent authority that the entire purchases of the New York Central Lines now total 22,000 cars.

Cost of Paper Making Less Here Than Across the Border.

Statistics recently compiled by the United States Government show that a ton of newspaper paper can be manufactured in Canada for 35.85 less than in the United States. The average Canadian cost is given at \$27.85 and the average American cost \$63.70. Canadian mills which are equipped with the most modern machinery show an even smaller cost per ton than \$27.85.

There are several reasons which account for this difference in the cost between the manufacture of paper in Canada and the United States. Among these is the nearness to raw material, the more abundant supply of waterpower in Canada and the fact that the Canadian mills are, for the most part, equipped with more modern machinery than their American rivals.

ON WALL STREET.

Erickson Perkins & Co. (J. G. Beatty) advised the stock market that a new restraining power and the bears gave over early trying to get it down. Even Charles Hecht Co. to E. Osborne. The copper showed great strength, helped by the better metal market. Various specialties, such as Atlantic Coast and Louisiana, advanced sharply. Those who have been bearish recently for numerous reasons now see that a broad view of the future does not justify such a position. Note the further favorable court decisions, such as the approval of the Third-avenue reorganization plan. Public service bodies are beginning to realize that they cannot issue arbitrary orders regardless of vested rights. Recent decisions of the interstate commerce commission have been moderate. Influenced no doubt by the temporary injunction granted the western railroads in the Inter-Mountain case. On the whole the outlook is encouraging. Continue to buy good stocks on all such advances as we had this morning, with gains of one-half point in the leading issues. After the early dealings, which totaled somewhat more than 100,000 shares in the first hour, business grew dull, only 25,000 shares being traded in between noon and one o'clock. In the late afternoon the market straggled and was helped by the court decision in the Third-avenue railroad case, the bonds of this company rising two points. Copper metal remained strong, and the railroad stocks stronger, selling at new high points in the late dealings. Traders who had been bearish yesterday, and an opening changed their opinion and position as the day advanced. The borrowing demand for stocks is said to be still large. London was reported a buyer of possibly 20,000 shares, largely Amalgamated Copper. Time money remains easy at unchanged rates. Closing was strong and especially for the Coppers at about better prices and with outlook good for further advances tomorrow.

Traders Bank Building. Toronto, Ont. TELEPHONE—MAIN 5607

Map of Portion of the Porcupine Mining District Showing the General Trend of Veins and Dykes in the Vicinity of the Martin Porcupine Mines, Limited, Property. Taken from The Mining Investor of November 6th, 1911.

In the very near future we shall offer for investment the Treasury Stock of the MARTIN PORCUPINE MINES, LIMITED, now in process of organization.

We know personally the original owners of the MARTIN property. We know they are representative men who stand well in the various communities in which they live.

We are firm in the belief that the stock will prove to be a sound investment, surrounded by wonderful speculative profit possibilities.

The owners of the MARTIN property have refused comparatively large amounts of money for the property, feeling confident that development of the surrounding properties would amply justify them in making a flotation.

We are advised that the mine operations will be in charge of John W. Wilson, E. M., and we know Mr. Wilson personally; have confidence in his ability as a mine maker.

We shall offer the stock full of confidence in its future. We shall advise our clients, our friends and the world at large to buy it, to put it away and to hold it as an investment.

The development on the "Preston East Dome" ground, lying directly east of the MARTIN claim, is reported to be most favorable. The development on the "Big Dome," directly north of the MARTIN property, has been so widely advertised that it is not necessary to dwell on the subject.

As quickly as incorporation and organization is complete, we shall announce the initial offering of Treasury Shares.

Correspond with us at once, and as quickly as papers are ready, we shall be pleased to furnish you with full details and prospectus.

BULL CATTLE MARKET AT WEDNESDAY'S DECLINE

A 15c to 25c Lower Quotation on the Bulk of Offerings—Cheap Stuff is Hit.

The railways reported 80 carloads of live stock at the City Market, comprising 1200 cattle, 1700 hogs, 1200 sheep and lambs and 120 calves.

The quality of cattle generally was not good. Selling cattle yesterday was no easy start.

Selling light steers and heifers yesterday was a matter of hard peddling. Some of the salesmen who had been on the job from the opening of the market to the close had not been able to make a clearing.

Butchers. Geo. Rowntree bought for the Harris Abattoir Company 27 cattle, as follows: 1000 steers, 1000 heifers, 1000 cows, 1000 calves, 1000 pigs, 1000 hogs, 1000 sheep, 1000 lambs, 1000 goats, 1000 rabbits, 1000 birds, 1000 fish, 1000 other animals.

Stocks and Feeders. The market for stocks and feeders was quiet, but many buyers were on the market, especially farmers.

Milkers and Springers. There was not so much activity displayed on the market for milkers and springers, especially for the medium class.

Veal Calves. There was a heavy run of roach, heavy, heavy calves, 1000 lbs. each, at \$1.50 to \$2.00.

Sheep and Lambs. Another heavy supply of over 2000 sheep and lambs of the two markets might be expected to keep prices down.

Hogs. Mr. Harris was buying \$2.75 for select, five yearling hogs, 100 lbs. each, at \$2.75 to \$3.00.

Representative Sales. Charles Zeeman & Sons sold 20 head of mixed bred, cows, heifers and steers; 1000 lbs. each, at \$1.50 to \$2.00.

Market Notes. The Harris Abattoir Company are anxious to purchase 10,000 turkeys, alive.

New York Live Stock. NEW YORK, Nov. 21.—Beaver-Belmont 100 head, No. 1, 100 lbs. each, at \$1.50 to \$2.00.

Winnipeg Grain Market. WINNIPEG, Nov. 21.—The local market opened strong, but on receipt of lower cables became easy and nervous.

Splendid Furs on the Third Floor at Prices Distinctly Below the Average

It has been said that "the quality of your furs depends on the standing of the shop at which they were purchased," and there is a certain amount of truth in that. Simpson Furs are reliable and the finest obtainable for the money asked. The "style" of our furs, too, leaves nothing to be desired. Read about these on sale Thursday:—

New Mink Furs, handsome designs, in stoles, scarfs and muffs. Only the best eastern Canada and Labrador mink skins are used. This fur was never more popular, and the wearing qualities surpass most other furs. Muffs from **\$25.00** to **\$125.00**, stoles and scarfs from **\$35.00** to **\$200.00**. A nice selection of smaller neck-pieces from **\$17.50** to **\$35.00**.

Hudson Bay Sable Furs, a number of very handsome sets of this beautiful fur, wears like mink, but looks richer. It is a soft and lustrous fur of golden brown shade that cannot be imitated. These sets are mostly made with loose skin effect so popular this season. Muffs from **\$75.00** to **\$190.00**. Stoles from **\$112.50** to **\$600.00**

New Black Fox Furs, in the very latest designs; exclusive shapes in stoles, scarfs and muffs, long, soft silky fur, a brilliant black that nothing but the Leipzig dyers can produce. These will be scarce goods later on. Neck Pieces from **\$17.50** to **\$125.00**. Muffs from **\$17.50** to **\$75.00**

AN EXTRA SPECIAL FOR THURSDAY'S SELLING ONLY.

25 only, Orenberg Mink Marmot Stoles, extra wide shoulder, with loose skin effect at back, long stole fronts, trimmed with heads and tails, lined with fine brocade or plain satin, regular price was **\$19.00**, Thursday **14.25**
