NINETEENTH YEAR

NEW WESTMINSTER

The Whole City Destroyed by Fire on Sunday Morning—All Business Houses,
Churches and Public Buildings Gone—Loss Amounts to
Millions—Homeless People Who Need Help.

New Westminster, the erstwhile capital of British Columbia, in New Westminster District, B. C., is beautifully situated on the north bank of the Fraser River, 75 miles from Victoria. Lat. 49 degrees 12 minutes 47 seconds N., long. 122 degrees, 33 minutes west. 16 miles from the Gulf of Georgia. Seagoing ships load at the wharves with lumber and canned salmon. It contains six churches, Episcopal, Reformed Episcopal, Roman Catholic, Presbyterian, Methodist and Baptist, and Salvation Army. Most of these have two or three church buildings. The residences of Episcopal and Roman Catholic bishops are here also. Columbian Methodist College has six teachers and about sixty pupils; Central Public School has thirteen teachers, and there are two ward schools; also Roman Catholic convent and college, and some private schools, as well as the Provincial Asylum for Insane and Dominion Penitentiary. The public and business buildings are of brick. The principal streets have been practically rebuilt in recent years, and are considered the finest in the province. The city owns its electric light system, which is self-supporting, and, as a consequence, the streets are brilliantly lighted, and the citizens get electric light for the cost of coal oil. The city also owns waterworks, with a supply by gravitation from a mountain lake, giving in business districts 170 to 180 pounds' pressure. The city also owns a free public library, and there is a ferry on the river. There is communication with river and Vancouver Island ports, daily or oftener, by steamer. A station of the C. P. R. is in the city, and of the Great Northern Railway immediately opposite, on south bank of river. Electric railway makes hourly trips to Vancouver, 12 miles off. There are two newspapers, electric street cars, sawmills, iron foundries, carriage and furniture factories, wood working establishments, feed mill, tannery, etc., etc. New Westminster is the headquarters of the salmon-canning and agricultural interests of Fraser Valley, and the distributing point for the river trade. It has two public parks. The streets are well kept, with good sidewalks. The climate is mild and equable, and the city is morally and materially clean and healthy. The taxation is 15 mills per cent. Improvements are assessed at half value.—Excerpt from Lovell's Gazetteer of British North America.

Mr. S. C. Wood of The Globe, in his write-up of the place the past summer, said: "The town has all the ambition of the west, but has got over its boom at an early age, and is prepared for a substantial development. A waterworks system, costing half a million, and an electric plant, worth \$116,000, are some of the extensive undertakings for a population estimated at 9000." The city was equipped with an excellent fire protection system and an efficient brigade, which was the admiration of the members of the Western Fire Association, who visited the city six years ago. Then, inside of two minutes from the ringing of the gong, the brigade was throwing a strong stream over the streets in the business portion of the city, and to all appearances, was capable of coping with any fire confined to a reasonable area.

HEART OF THE CITY BURN'T OUT.

Half a Mile Square of Fine Buildings Reduced to Ashes—Eleven Hundred Homeless.
Vancouver, B.C., Sept. 11.—(Special to The World.)—New Westminster, B.C., is a heap of smoldering ruins and her citizens are wandering aimlessly about the streets, dejected and hopeless. Fire, fanned by a fierce wind, went from the water front to the heart of the city, burning everything out, for seven blocks, spreading east and west, wiped out Columbia street, with its score of handsome business blocks. The extent of the fire is half a mile square. The estimated loss on buildings and stock is \$2,500,000, and the insurance about half of that.
Start of the Fire.
The fire started at 11:15 at Brackman & Ker's wharf among some straw stored in a

THE Y. M. C. A. BUILDING.

portion. In the meantime the fire had burned itself out, in an easterly direction, performing strange freaks, such as leaving a Chinaman's shack and saloon standing, where the building ten feet away was consumed.
Vancouver Boys' Great Work.
At 6 o'clock the Vancouver force had succeeded in checking the flames, the citizens having spread along the water front by tearing down six or eight Chinese buildings.
Partial List of Losses.
Partially list of buildings destroyed is as follows:
Front-street-South market wharf, partly insured; Brackman & Ker's wharf and contents, \$10,000; New Vancouver Coal Company's wharf and contents; C. P. N. Company's wharf and contents; Standard Canning Co., including season's pack; Western Fishing Co.'s Cannery; No. 3 fire hall; Gilley Bros' wharf and warehouse; C. P. N. station; freight sheds saved by efforts of J.

Johnson and men, shed packed with freight. Northern side, all Chinese houses, some 10 to 12 up to the Telegraph Hotel; Canadian Hotel; five buildings owned by Quong Onowoo & Co.; Webster Bros block; Brackman, Ker & Co's block, containing full stock; Front-street butcher shop; Douglas Elliott block; Society for Propagation of the Gospel block; James Cunningham's building; James Wise's building; Bushbee block; Dupont block; Holbrook Hotel; Charles McDonough block; Holbrook's block; Holbrook building; Armstrong's English block; Armstrong's frame building; Holbrook Hotel; McGilvray building; Vulcan Iron Works; Elliott & Tate's livery stable; Townsend building.
Columbia street, south side—Occidental Hotel; Armstrong brick block; Hanbury block; Cunningham buildings; Bank of British Columbia.
North side—Begbie block; Westminster Furniture Factory; Baker's bakery; Y. M. C. A. building; fire hall No. 1; Duncan McBeaver's block and customers house; Elford building; Racle building; Colossal Hotel; Globe House Mead building; Galchou Hotel; Burns-Curtis block; Armstrong Young block; Trapp building; Masonic Temple; Oddfellows' building; Lewis buildings; four buildings of James Cunningham; Central Hotel; Depot Hotel, Pales' Furniture store; Merchants' Exchange block.
Area between Clarkson and Macgill street—53 Chinese buildings; three livery stables; Chinese mission; Miss Robson's mission building; six dwellings of James Cunningham's; three of James Blackie's; two of F. D. Turner's; six of J. O'Sullivan's;

C., WIPE OUT ANOTHER ARREST IN NAPANEE CASE BLOODTHIRSTY ANARCHIST AGAIN

An Italian Fiend Stabbed the Empress of Austria to the Heart—The Scoundrel Was Arrested and Gloated Over His Crime—Great Sorrow of the Aged Emperor and All the People.

Frank Lefebvre Had Forged Bills in His Possession.
He Was Arrested at Gentilly, Quebec—Had Been Trying to Open a Bank Account at the Hochelaga Bank in Three Rivers, But the Account Was Declined—Bail for Mackie.
Montreal, Sept. 10.—(Special.)—Frank Lefebvre has been arrested at Gentilly, near Three Rivers, Que., and it is evident that the arrest will have an important bearing on the coming trial of Ponton, Pare, et al. Napanee. It has already been told of the passing of some of the Dominion Bank Napanee forged ten dollar bills at Three Rivers during the recent exhibition, of the arrest and honorable acquittal of a well known Montreal saloon keeper. With his acquittal came the search for the men who were handling the bills. They had been passed on many people, and there was no doubt that a great number were in the hands of the people in the neighborhood.
Secretary Collins of the Montreal Detective Department went to Three Rivers and took up the search. He learned that an effort had been made by a man to open an account at the Hochelaga Bank. Manager Herbert of the bank declined to do so, as the man wanted to open the account, but from the description of the man who wanted to open the account, he arrested Frank Lefebvre, who admitted that he had forged bills, knew that they were forged and passed some of them. He said that he got them from his wife, and she in turn said she received them from a bank but declined to say which one. She too is held to await enquiries.

THE Y. M. C. A. BUILDING.

Two Saloons Left.
There are two saloons left in town reported, the Telegraph and East End. No hotels are left standing. The Catholic Church is the only church not destroyed. The bank vaults stood the test of the fire.
Insurance Companies Hit.
Sun Life Insurance Company are the heaviest losers. The company had mortgaged a handsome Columbia-street block to the extent of \$500,000. Other insurance was held by the Commercial Union, London three hundred thousand. Their losses are estimated to be over a million dollars. Other insurance companies affected are London and Lancashire, Liverpool, London and Globe, Atlas, Guardian, Alliance, Manchester Phoenix, Lancashire, North American, National of Ireland, Scottish Union and Northern.
The City Hall was insured for about \$200,000, but the Government buildings were not insured. Campbell, tailor, had a stock

Restored to His Rank.
Ceil Rhodes' Brother Dismissed for Participation in Trans-Canada Expedition.
Calro, Sept. 11.—Queen Victoria has restored to his rank in the British army Col. Frank Rhodes, brother of Cecil Rhodes, who was dismissed from the service for his participation in the armed raid into the Transvaal, led by Dr. Jameson, in December, 1895. Col. Rhodes was wounded at the battle of Omdurman, while acting as war correspondent for The London Times.

Some Excitement.
Rosland, Sept. 10.—(Special.)—The Iron Horse mine has been purchased by George Pfunder, superintendent of the Virginia, for his principals. It will be developed on the same lines as the Virginia. Reports say the price was \$125,000. Work begins within a week. The sale has caused considerable excitement and promises to cause a big flurry in the stock market. This will be soon an assessable company, and the principals have taken enough stock to work the mine continuously for next year.

Old Venustus is Rumbling.
Naples, Sept. 11.—There is a distinct recrudescence of eruptions from Mount Venustus to-day, accompanied by rumblings and explosions.
Coming Event at Dincaen's.
This is the week when new hats will be rushed in at Dincaen's. There will be new arrivals of new hat styles at the new store every day for the culminating event—Dincaen's annual fall hat opening party, Friday and Saturday. The ambition of this great hat house is to make their fall hat opening this season the greatest and most interesting effort in the quarter century history of their business.

Toronto Man Elected Vice-Pres.
Cleveland, Ohio, Sept. 11.—At the annual convention of the United Order of Plumbers of the United States and Canada yesterday, M. J. Maxwell of Toronto was elected a vice-president and member of the Executive Board.

Geneva, Switzerland, Sept. 10.—The Empress of Austria was assassinated at the Hotel Beauvage this afternoon by an Anarchist, who was arrested.
The Empress had been stopping at the hotel for several days.
It appears that Her Majesty was walking from her hotel to the landing place of the steamer at about 1 o'clock when an Italian Anarchist suddenly approached and stabbed her to the heart. The Empress fell, got up again and was carried to the steamer unconscious. The boat started, but, seeing the Empress had not recovered consciousness, the captain returned and the Empress was carried to the Hotel Beauvage, where she expired.
Her Majesty was carried to the hotel on a stretcher, which was hastily improvised with oars and sail cloth. Doctors and priests were immediately summoned, and a telegram was sent to Emperor Francis Joseph.

All efforts to revive Her Majesty were unavailing, and she expired at 3 o'clock.
The Medical Examination Showed that the assassin must have used a small triangular file. After striking the blow he ran along the Rue Des Alpes, with the evident intention of entering the Squares Des Alpes, but before reaching it he was seized by two cabmen, who had witnessed the crime. They handed him over to a boatman and a gendarme, who conveyed him to the police station.
The prisoner made no resistance. He even sang as he walked along, saying, "I did it," and "She must be dead."

Was After the Duke of Orleans.
The assassin, while being interrogated by the magistrate, said he came to Geneva with the intention of killing the Duc D'Orleans, but the latter had already left.
Lucecci (or Luchetti) followed the Duke to Evian, about 25 miles northeast of Geneva, on the lake, where he was again unsuccessful. He then returned to Geneva and learned from the papers of the presence of the Austrian Empress. Yesterday he dogged her footsteps, but found no opportunity to carry out his purpose, though he watched the Hotel Beauvage all day.
This afternoon, about half-past 1, he saw the valet of the Empress leaving the hotel and going toward the landing. He inferred from this that the Empress was going to take the steamer, and he hid himself behind a tree on the quay, with the file concealed in his right sleeve.
In a few minutes the Empress, accompanied by her lady of honor, appeared, and the assassin struck the file home.
Anarchist All His Life.
Lucecci confessed that he had been an Anarchist since he was 13 years old. "If all Anarchists did their duty as I have done mine," he said, "bourgeois society would soon disappear."

Restored to His Rank.
Ceil Rhodes' Brother Dismissed for Participation in Trans-Canada Expedition.
Calro, Sept. 11.—Queen Victoria has restored to his rank in the British army Col. Frank Rhodes, brother of Cecil Rhodes, who was dismissed from the service for his participation in the armed raid into the Transvaal, led by Dr. Jameson, in December, 1895. Col. Rhodes was wounded at the battle of Omdurman, while acting as war correspondent for The London Times.

Toronto Man Elected Vice-Pres.
Cleveland, Ohio, Sept. 11.—At the annual convention of the United Order of Plumbers of the United States and Canada yesterday, M. J. Maxwell of Toronto was elected a vice-president and member of the Executive Board.

murder to be the result of a plot of Italian Anarchists, and that the assassin is identical with one Lucecci, who is wanted by the Bologna police as a dangerous Anarchist. The man known as Lucecci was implicated in the recent troubles at Milan, after which he fled to Zurich. While at Zurich Lucecci was present at a meeting of Italian Anarchists, when seven were selected, including Lucecci, to assassinate the principal European sovereigns, including the King of Italy.
A French detective, who was present at the meeting in disguise, warned the French Foreign Office, which communicated its information to the Italian Government. As a result, King Humbert was carefully guarded, as was also M. Faure.
About a week ago another meeting of the same band of Anarchists was held at Zurich, and those who had been selected at the previous meeting were accused of cowardice.
Thereupon Lucecci said: "I will show that I am no coward; I will kill someone."
The following day he left Zurich and went to Basle, proceeding thence to Geneva.

SWITZERLAND'S GRIEF.
Federal Council in Special Session Telegraphed Condolence to the Aged Emperor.
Berne, Switzerland, Sept. 11.—The Federal Council met this morning and sent the following telegram to Emperor Francis Joseph:
"The Swiss Federal Council has the honor to express to Your Majesty its profoundest grief and deepest indignation at the horrible crime which Her Majesty Empress Elizabeth has fallen victim. Our pain and indignation are all the greater owing to the fact that the crime has been committed on Swiss territory, where the departed, as she had often done before, was seeking refuge from bodily sufferings which, as on previous occasions, she had every hope of finding."
The Council hastens to assure Your Majesty, at the same time, of its own warmest sympathy and that of the whole Swiss people in the irreparable loss Your Majesty, the imperial house and the peoples of Austria and Hungary have suffered through your exalted lady's death. The flag of the federal building is at half-mast. The Council re-assembles this afternoon to consider measures regarding the crime and to direct the steps to be taken. It is expected that the judicial authorities of the cantons of Vaud will conduct the enquiry and the trial.

The Geneva Cantonal Government met to-day and decided to issue a proclamation expressing the horror of the Government and people of Geneva, and a decree directing a popular demonstration to-morrow. All the civil officials will march past the Hotel Beauvage, followed by the citizens, all of whom are invited to participate. During the procession the great bell of the cathedral, associated with all Swiss national demonstrations of grief and joy, will be tolled.
The Wound Caused Death.
Emperor Francis Joseph telegraphed the Austrian Minister, Count Von Kuefstein, to order a post mortem examination. Dr. Reverdin, Dr. Magvras and M. Guldoy, Mayor of Geneva, were entrusted with the examination of the wound, on behalf of the judicial authorities, and accordingly proceeded to the Hotel Beauvage, where they carried out their instructions. At the close of the examination they announced that the wound was caused by the lateral branch of a bullet from a triangular incised wound. They decided that the injury was of a character to lead to no ground for the theory which had been advanced that the Empress, who suffered from weakness of the heart, might have succumbed simply to the shock of the blow.
The Geneva Council will lay upon the countess wreaths intertwined with the Austrian and Geneva colors, bearing the inscription, "A token of sorrowful sympathy from the people of Geneva."
Throughout yesterday's examination of the assassin, his demeanor was one of revolting cynicism.
Plans Which Were Frustrated.
Empress Elizabeth was about returning to Ouz, France, when she was murdered. Her suite had preceded her by train, leaving with her only lady-in-wait, Baroness Von Rothschild, and a maid servant. The officials, who visited the hotel to see the officials upon the baggage, according to the strict law in force, found that the suite's luggage had accompanied the suite.
The last words of the Empress were addressed to the attendants on the steamer. Recovering consciousness for the moment, she feebly asked what had happened.
As yet the authorities have found no confirmation of the report that the murder was part of an Anarchist conspiracy, but a dozen persons with whom the assassin is associated have been arrested for examination.

BRITISH ROYALTY'S SYMPATHY.
Horror at the Crime and Sympathy for the Bereaved Emperor.
London, Sept. 11.—Queen Victoria and the Prince and Princess of Wales telegraphed their condolences to Emperor Francis Joseph last evening.
The Countess Sotary, one of the Empress' ladies in waiting, telegraphed the news to Adjutant-General Count Paar, who received the message about 4 o'clock this afternoon, and upon him fell the painful task of informing the Emperor. When Count Paar informed the Emperor of the murder His Majesty was wholly overcome. He sank to the ground groaning, and cried: "Am I not to be spared any pain or grief in this world?"
Late this evening the Emperor sent to the Lord Chamberlain, Prince Lichtenstein: "It is incomprehensible that anyone should lay a hand upon a woman who throughout her life has done nothing but good actions."

"I WILL KILL SOMEONE!"
Thus Spoke the Assassin on Leaving a Meeting of Out-throats.
Paris, Sept. 10.—The police here believe

50 CO WEAK MEN

The B. C. Properties of the B. A. Corporation.

From the Le Roi This Company Has Large Holdings and is Doing a Lot of Development Work in Rossland and Other Camp-Mining Stocks.

The British America Corporation, of which Lord Dufferin is president and ex-ecutive, has acquired a large number of properties in British Columbia. Aside from the Le Roi, which is now the subject of litigation, the corporation owns the mines named below, and has done the work mentioned upon them. The list and particulars of development, as prepared by the Ross-land Times, read thus:

Jose-Ore Red Mountain, being lot 533, group 1, West Kootenay District. Drifting from the east and west of the 300-foot level, the work is of an exploratory character, and is being carried out with a view to ascertaining the trend and character of the ledge at that level.

West Le Roi and Jose—Composed of the Annie mineral claim, being lot 730, group 1, on Red Mountain, and the Rockland frac-tion, being lot 731, group 1, will shortly be opened up through the Jose work-ings.

Norman—Being lot 623, group 1, on Red Mountain. This property will also be worked through the Jose.

Nickel Plate—Being lot 837, group 1, and Ore-or-Ore mineral claim, being lot 695, both on Red Mountain, West Kootenay District. All records for land mining are being broken by Superintendent Haskins at the Nickel Plate. Mr. Haskins, with a single machine working two shifts, has driven a drift over ten days, and has reached a depth of only about 75 feet, yet it has been following ore all the way, and now the pay-chamber has been reached.

Number One—Being lot 687, group 1, on Red Mountain. The development is the most optimistic friends of that magnificent property. Although the tunnel is in only 120 feet, and in that distance has reached a depth of only about 75 feet, yet it has been following ore all the way, and now the pay-chamber has been reached.

Number One in surprising even to the most optimistic friends of that magnificent property. Although the tunnel is in only 120 feet, and in that distance has reached a depth of only about 75 feet, yet it has been following ore all the way, and now the pay-chamber has been reached.
