By a Large Audi-

Lord Milner's address last night to the Canadian Club attracted a brilliant audience, which might have been a little larger but for the limited number of tickets issued. A few who were turned away lacking tickets might have

Two reases for the fire department. The list leaves out Deputy Chief Noble, for whom the controllers ask as increase of \$500, and also ignores the district chiefs. The mayor says that the trict chiefs. The mayor says that the board will listen to no proposition which considers only increases for the

fire department. On the other hand it is said that the firemen are satisfied as a result of their canvass of the aldermen that they can canvass of the aldermen that they can get a two-thirds majority to support the committee's recommendations. In view of the controllers' report against it, such a majority is necessary.

One argument which is being used against the \$500 increase for Mr. Noble is that next month he will be eligible for a retiring allowance equal to half his salary, as he will then have reached the age limit of 55.

The deputy says, however, that he has no intention of retiring, and it is generally felt that he is fully entitled

# Baseball Our New . Football Rugby and Bowling Brunswicks Roll 2769

### NOTE AND COMMENT

New representation in the Canadian ouse of commons fairly sparkles with sporting blood. There is, first of all, our own Joe Russell of East Toronto, well known owner and driver of harness horses. Then Capt. Sam Sharpe, North Ontario, baseball, lacrosse and ex-tennis champion; Capt. Tom Wallace, Centre York, lacrosse, etc.; Maj. John Currie, North Simcoe, well-known soldier and rifle shot: Dr. Morley Currie, Prince Edward County, champion weight-thrower at Varsity 15 years ago; Mackenzie King, North Waterloo, athletic devotee, ardent supporter of the gymnasium at Varsity 12 years ago, and frequently acted as announcer at the annual games, and last, but by no means least, Hal McGiverin of Ottawa, still an active cricketer and once a player on the champion Tigers' Rugby team of Hamilton.

So Joe Kelley is to come back to Toronto again, according to the despatch from New York. When he landed the pennant for us two years ago without assistance from an untried board, how much easier will Joe turn the trick next summer with the aid of the experience gained by President McCaffery in that time?

Nothing could be learned locally as to the accuracy of the news, as Lol Solman, the majority stockholder, is with the lacrosseurs in Manchester; Jess Applegath does not bother much about baseball, while Pop Burger, the remaining director, is not in receipt of daily messages from the president.

Regardless of the statements of the Ottawa papers, the Argonauts are satisfied with their play last Saturday. Their backs unfortunately muffed disastrously, but that was not the only mistakes that helped the enemy to score. The referee was unique and gave rulings that are worthy of note. The oarsmen's line was impregnable, and not once could the Rough Riders gain their yards by bucking. So the official reasoned that it should be l'e-wise on both sides. After gaining their yards once on two downs, the referee called "Argonaut's ball, third down." "No," they objected, "it is first down, as we have just made ten," to which the arbiter retorted, "But you may lose them in another down." Then Williams essayed to drop a goal from field, when the ball hit the post and bounded back into one of the Rough Riders' arms, who went over for an off-side try. The oarsmen objected vehemently and the referee compromised by allowing a rouge. His name is Burland of Montreal. Can you beat him? Regardless of the statements of the

The three-cornered race which is scheduled to take place on the half-mile track at De Lorimier Park, Mont-real, to-morrow between the pacers, Gallagher (2.03 1-2), Jennie W. (2.041-4) and Maj. Brino (2.041-4), is attracting a great amount of attention in harness horse circles up this way, particularly as the competing horses are well known to local horsemen. Gallagher and Maj. Brino are Canadian products, and Jennie W. is known as once being stable mate to the dead Angus Pointer, 2.01 3-4, the fastest harness horse ever bred in Canada.

For Thursday's race, the owner of each horse puts up \$500, and the winner takes the whole amount. Nat Ray, the well-known local horseman, and Ed Baker, secretary of the York Riding and Driving Club, are going down to witness the race. to witness the race.

Fast England Two-Year-Old.

Bayardo, the undefeated 2-year-old of the English turf, has put another clincher on his claim to the championship by a bloodless victory in the Middle Park Plate at the Newmarket Second October meeting. No such hollow victorys has ever been recorded for the event, which is regarded as the "2-year-old Derby," and the race which is supposed to ünearth the following year's Derby winner. Bayardo had 129 pounds in the saddle and he was steered by Danny Maher, who simply let him gallop over the Bretby Stakes course of six furlongs without a touch of whip or spur. Opposed to Bayardo was Sir Daniel Cooper's crack filly, Vivid, winner of the big 2-year-old race at Kempton Park, but she never had the slightest chance. The starting price was 6 to 1 on Bayardo, 10 to 1 against Vivid. There was another good youngster in Blankney II., his price being 100 to 6 against.

Vivid was in receipt of the filly allowance of three pounds. Maher got away at the start and was never headed, winning easily by a length. Bayardo is owned by Mr. Fairlee, and the colt has one more engagement before going into winter quarters, and that is in the Dewhurst Plate. He is by Bay Ronald, out of Galicia, and is nominated for next year's Two Thousand, Derby, and several other big races. The Middle Park Plate this year was worth \$250.

ing laws, came to-day with the swearing in of Curtis as the first witness of the defence.

Before calling the former president of the suspended Bank of North America to the stand in his own behalf, former Judge W. M. K. Olcott, Curtis attorney, announced that he had persuaded his client to "tell all the facts."

Overdrafts \$40,000,000.

Mr. Curtis testified that as cashier of the Bank of North America he had over certified cheques to the amount of \$40,000,000.

Morse was at the time vice-president and director of the bank. During an absence abroad Mr. Morse was deposed by President Edwards. Upon his return he obtained control of the bank by purchasing a majority of the stock, Mr. Curtis recounted, and after ousting Edwards justified Curtis as president. Morse, the witness testified, carried a balance of between \$100,000 and \$150,000 with the bank, and had brought a great many customers and depositors to it. When the Caroll loan on 4000 shares of ice stock came up for renewal in the name of Braun of Primrose & Braun, Mr. Morse had instructed him, the witness said, to put it thru, telling him that he would stand back of it and guarantee it. At the time. Curtis testified, he supposed back of it and guarantee it. At the time, Curtis testified, he supposed Morse to be a very rich man, having heard his wealth estimated at \$22,000,-

Morse to be a very rich man, having heard his wealth estimated at \$22,000,000. It was, therefore, not extraordinary, he thought, that he should accept Morse's guarantee as fully protective.

The witness then went into details relative to the transactions whereby 2000 of the 4000 shares of ice securities held by the bank had been sold to Mrs. Gelsheen and later disposed of by her at a profit of \$24,580. The remaining 2000 shares had also netted a profit of \$24,580, and this Mr. Morse had turned into the bank, refusing to accept it for himself, altho clearly entitled to it. Other loans, with ice stock as collateral, had been made by the witness, he declared, notably those of Davidson Brown, but always on the recommendation of Mr. Morse, and after he had signified that he stood back of them and guaranteed them.

Hanbridge Beat Zienap in Handicap-Glasner Rides Two

CINCINNATI, Oct. 27.—(Special.)—The beokmakers reaped a harvest at Latonia this alternoon, six straight favorites going down to defeat. The nearest a first choice came to scoring was in the six furiouse race, fifth on the card, when Lens just beat our Marbles, the heavily-played favorite. Lens was well played, closing at 7 to 5. Hanbridge proved himself quite a horse by defeating Zienap and other in the 1 mile and 70 yard handicap, which was fourth on the program. Zienap was made favorite for this event, but Hanbridge proved much the best. Zienap was second and Sally Preston third. Opening at Aqueduct.

NEW YORK Oct. 27.—The fall race meeting began at the Jamaica track today, with a small attendance and an ordinary card. The heavy rain made the track muddy, and the fields were greatly reduced by withdrawals. The feature event was the handicap at six furlongs, and resulted in a good contest, Fountain-blue winning in a hard drive by a length from Cressina, with Question Mark third. The other races were well contested.

In future if a jockey causes the least trouble at the start, or is any way saucy to the starter, the starter is empowered to inflict a fine of \$50 on the offender and to report the matter at once to the stewards. The new Rule 37 reads as follows:

"The starter has power to inflict a fine not exceeding ten sovereigns on any jockey who misconducts himself at the post, and should a jockey be so fined the starter shall report the fact at once to the stewards. He shall also report to the stewards any jockey who refuses to obey his commands in any respect whatever."

From what has been inserted in Rule 38 it is evident that the starter will have to be careful in the details of his office. Heretofore, as soon as he got the horses away, he was thru with that narticular race, but Rule 38 now reads: "The starter shall report to the stewards the time at which each race was started, and by whom, or for what cause, any delay was occasioned. He shall also report to the stewards, for transmission to the registry office, all cases in which the starting gate was dispensed with, and the reason therefor."

rough one from start to finish, and the crowd, which was the largest since the reopening of the club, was kept on the tip-toe of excitement every second the men were in the ring.

Stewart had considerable advantage in weight, and he also had height and reach on Wille, but the sturdy western man was the aggressor at all times, and he tried his best to end the contest in each round. Want Loueks Reinstated.

It is likely that the Varsity athletic board of governors will recommend to the C.A.A.U.. which meets Nov. 9, that Loueks, the former Meaford athlete, borelnstated. It will be remembered that Loueks played lacrosse with Hamilton the first year they were out in the C.L.A. the team then being a semi-professional one. Owing to the fact that Loueks was a member of that team, the university authorities debarred him from all their sports, especially football, lacrosse and hockey, in which he is a good blayer. Now the governors feel that he has been punished enough, and the chances are that on Friday, when the next meeting is held. Loueks' application for reinstatement will be approved of.

### The Sherlock Holmes of The Slater Shoe

HE was not disguised!
And, he modestly disclaimed being the great
"Sherlock."

"Sherlock."

He protested that he was not even "the Doctor."

But, he was a sure-enough S. H. Sleuth and knew how to in-

terest an uninterested Client.
'Said he could do us some good if we would sit up and listen.

'Said there were only 9 Stores
in Montreal that had genuine Slater Shoes to sell, but there were over 29 Stores claiming to

Said he could prove it.

'Said he could give us names and dates, witnesses and full par-

'Said he would need a month, may be, to properly cover the City and procure the evidence.

He got the job,—did that Sleuth,—and his Assistant. Sleath,—and his Assistant.
And, we're mighty glad he

got it.

Because, we had no idea how widely "The Slater Shoe" was being substituted and fraudulently misrepresented.

His typewritten report and evidence make startling reading. Shoe Retailers who would not steal a dollar to save their lives steal a dollar to save their lives deliberately lying to steal a Market built up around "The Slater Shoe" brand through years of effort, square-deal, quality, fixed-price and continuous advertising.

Good Churchmen who did not besite to "equipoceta" in order

hesitate to "equivocate" in order to steal a march on the intellitricky quibbles on the word "Slater" to sell other Shoes than 'The Slater Shoe."

Salesmen who thought it clever to deceive their Customers into thinking they were being shown

"The Slater Shoe" when the Shoes shown had never been within a mile of the Slater Shoe Factory. Here and there were some honest men who frankly said, "No, we don't keep 'The Slater Shoe,' but we have Shoes which we consider just as good,' etc.

Other fairly honest men who said, "No, we don't keep them, and wouldn't if we could," etc.

All honor to the "Square Heads," friends or foes, who came out candidly and said : "No, we don't keep the Slater Shoe," even if they damned it in the next

Shoe Retailers, or their Salesmen, who, when asked by Sherlock for "The Slater Shoe" (they never had a pair of), said :-

"Oh, yes; we have Slater's make of Shoes!" "Oh, yes; we have Frank Slater's Shoes!" "Oh, yes; we have George Slater's Shoes!"

"Oh, yes; we have Ben Slater's Shoes!" "Oh, yes: we have Slater's Strider Shoes!"
"Oh, yes; we have Slater's Invictus Shoes!"

Now, Reader, we have no fault to find with any retailer who tries to sell his own Shoes against "The Slater Shoe" in fair, square, open

We do not even lift an eye-brow at the man who finds it necessary to talk down "The Slater Shoe

in order to sell his own.

But, what we do object to is
the dishonest attempt to deceive
consumers into thinking they are

getting the genuine 1869 "Slater Shoe" when they are being offered something entirely different from it, staged perhaps for the very purpose of deception.

Any Retailer, or Salesman, who will countenance such tactics is not to be trusted.

He will "do" his Customers in other ways if he will "do" them in

And, our "Sherlock Holmes Records" prove that many Shoe Dealers in Montreal are ready to "do" Customers in that way if the

"do" Customers in that way if the Customers will stand for it.

This is why we will, in future, play up the Slate feature of our trade-mark more prominently, although the Courts have ruled that we (The Slater Shoe Co., Limited) have exclusive right to the use of "The Slater Shoe" name as our brand.

Observe that no Shoe is a genuine "Slater Shoe" unless it bears the Slate mark on it with

bears the Slate mark on it with the Makers' price stamped on it to prevent possible overcharge. Therefore,—when you want the genuine 1869 Slater Shoe, you will forestall deception, make fraud more difficult, and help along the Square Deal, by asking for it as— "The Slater Shoe," and observing that it is branded with a Slate.

Slater Shoes are made from the most carefully selected materials.
Always have been. Always will be.
Also, they are made by the wonderful machines of the Goodyear Welt system in their most improved form, insuring comfort and durability.

P.S .- Our "Sherlock Holmes" is now working up evidence in other cities. His book of experiences, giving names, dates and particulars of interviews with Substituting Dealers will make interesting and amusing reading. Do you want a copy when published?

# OF THE BIBLE LEAGUE

Prof. W. G. Moore, Head of Xenia, Ohio, Delivers Inaugural Address to Large Audience.

The autumn conference of the To-ronto Bible League was auspiciously of the Son of Man. To men its was opened last evening by Prof. W. G. impossible. Moorehead, D.D., of the United Theological Seminary of Xenia, Ohio, whose address on "The Moral Glory of Jesus as Attesting the Inspiration of the Gospels," was listened to with inbr. N. W. Hoyles, K.C., presided, and the various Christian denomina-

tions were well represented by their spiritual leaders. spiritual leaders.

The proposition which Dr. Moorehead undertook to illustrate and establish was this: That the moral glory of Jesus Christ as set forth in the four Jesus Christ as set forth in the four gospels could not be the product of the unaided human intellect, that only the spirit of God was competent to exe-

cute this matchless portrait of the The glories of the Lord Jesus Christ were threefold: essential, official and moral. His moral glory consisted of the perfections which marked His earthly life and ministry. His essential and official glories were commonly veiled during His earthly sojourn. His moral glory could not be hid; could not be less than perfect in every-

thing; it belonged to Him; it was Himself. This moral glory now illuminated every page of the four gospels, as once it did every path He trod.

The lecturer gathered together a very few of the beams of Christ's moral glories as they shine everywhere on the pages of the gospels. What a stu-pendous portrait did they form! Noth-ing next to or like it was to be found in the annals of the whole race. Here was one presented who was a true and genuine man, and yet He was the ideal, the representative and pattern man, claiming kindred in the catholicity of His manhood with all men; sinless, yet full of tenderness and pity; higher than the highest, yet stooping to the lowest and the most needy; per-fect in all His words and ways, in His

life and in His death.

Who, the speaker asked, taught the evangelists to draw this matchless picture? Here were four brief rec-ords of our Lord's earthly life. They dealt almost exclusively with His pub-lic ministry; they did not profess even to relate all that He did in His official work. Penetrated with the pro-foundest admiration for their Master. they yet never once dilated on His great qualities. Despite the absence of the smallest attempt to delineate a character, they presented the world with the portrait of a divine man, a g'orious Savior. They wrote from little pieces about the person and work of Jesus which the study and research of

# Stock in Publishing Company

CHAPTER 1.

An opportunity to obtain stock in a publishing company is extremely rare. There are gold, silver and other mineral mines galore, and most of them are enabled to carry on operations through the capital invested by the public. Many of them go down and out, and Jones was a lucky man to get in on the ground floor of that H. B. stock. Some people envy him; and it is possible that many people will be envying Jones a few years hence because he took up stock in the publishing opportunity now presented.

How many publishing companies will sell stock to you? Very few, indeed. What would you give to have a nice holding in such a firm as Cassell & Company of London, Paris, New York, Melbourne and Toronto? Or, say, the Amalgamated Press of England, which many of you will know is Harmsworth's firm, with Lord Northcliffe at the helm ? Take the company controlled by Sir George Newnes. Remember Curtis and the "Ladies' Home Journal." and Munsey and the "Argosy" magazine, with his millions of dollars' profit. too late for inclusion in the 16,000 shares, it is doubtful whether you will get another opportunity.

### IDICTMENT HOLDS GOOD AGAINST, THE RAILWAYS

Justice Mulock Declines to Quash Grand Jury's Charge Following Death of Miss Cummings.

Yesterday afternoon Chief Justice Mulock refused to quash the indictments charging the Grand Trunk Railway Company and the Toronto Railway Company and the Toronto Rallway Company with criminal negligence in connection with the accident on Front-street on Oct. 7, when Miss Belle Cummings lost her life. D. L. McCarthy, counsel for both the companies, had applied for a quashing of the indictments on the ground that the information contained in the indictments was much too meagre and McCarthy, counsel for both the companies, had applied for a quashing of the indictments on the ground that the information contained in the indictments was much too meagre and too general, and argued also that the crown would have to receive permission of the railway commission before it could prosecute the Grand Trunk Railway Company.

In refusing to grant the request for the quashing of the indictments, his lordship said in part:

by counsel for the companies, I am referred to the legislation of the Ontario Legislature, and the action of the Ontario Railway Board, a creation of the provincial legislature. The action of the board is claimed to relieve the railway of certain liabilities, in fact, it is claimed to supersede to a certain

extent the criminal law.
"I can't think that any legislature or machinery of its own creation can affect the liabilities to the public of railway companies, or relieve them of criminal responsibility. If they break the law they are liable under the crim-

inal code. "For these reasons I think there is jurisdiction to deal with the indict-

ment against the Toronto Street Rail-"As to the objection that the crown could not proceed against the street railway company under the criminal law because the railway board made an order under the provisions of the Ra'lway Act. I am of the opinion that they cannot invoke that order in their

behalf.

"Moreover," continued the judge,
"under section 278 it is provided that
where an electric railway intersects a
steam railway on the level, before the
electric railway car shall cross the
electric railway on the level, before the
electric railway car shall cross the
electric railway on the level, before the
electric railway on th board has given leave to pass. Irre-spective of this it would, therefore, be spective of this it would, therefore, before the street railway as a matter of defence to show if they did not stop, why they did not stop. That is a matter of evidence. But if the electric radium of the railway as a matter of evidence in favor of peace with comfluence in favor way is in the habit of running its cars pensation. across the steam railway tracks without first coming to a stop, the onus, it would appear to me, is upon them to show why, they did so, in order to

displace a charge of negligence."

His lordship also ruled that the Grand Trunk could be proceeded against because it was the duty of all steam railways to operate with due. steam railways to operate with due regard to public safety. He then ruled BORROWED PLUMES TOO RADIANT. that the crown prosecutor could amend his indictment to bring it up to the mark outlined by Mr. McCarthy, tho the latter objected to that. with some addition to its fighting strength. There is as sound and important public work to be done in opposition as in office. While it is natural that politicians should desire to capture the treasury benches, and while it is certain that the government deserved to be beaten, there is every reason to think that during the next four or five years the Conservative party on the opposition benches can do far better service for Canada than will be performed by Sir Wilfrid Laurier, burdened by all the difficulties which he faces and by the charge-ter of a considerable section of the support with which he will have to deal in the house of commons."

"The lesson of it all is," said a member-elect to The World, "that the opposition must be like Caesar's wife, above reproach; that they must be ten times as honest as the government. There is no doubt whatever that the people believe that graft and corruption prevail at Ottawa, and their support of the government must not be taken to mean that they condone wrong-doing. But they want the opposition to clean their own door-step. If the opposition were spotless the public would turn to them, but until the party is rid of the petty grafters the party is rid of the petty grafters they will not believe that there is much to hope for from that source. The immediate future looks almost desperate to the party in office, and it is well that the government which made the situation will have to deal with it. There is serious danger that if Mr. Borden had now carried the country he would have become a sort of Conservative Mackenzie, and have gone out of office four or five years hence as a vicarious sacrifice for the offences of his predecessors.

The Liberals of Ottawa are preparing a big welcome home to the pre-mier and are getting enthusiastic over the matter. Nothing is yet known as to which constituency the premier will sit for. There will be a keen fight for nomination between the factions if he does not retain Ottawa.

Jeannette Miller
Countess Dagmar ....Grace Campbell

George Barr McCutcheon's splendidly written novel, "Graustark," was presented for the first time in this city at the Grand Monday night, judging by the attendance at the opening performance, the company will play to capacity business at every performance, as everyone who has read the book is anxious to see the dramatized

version.

"Graustark" as presented last night is one of the best of all the book plays ever seen here, with love and loyalty, adventure and hate all brought out in the most impressive way, each act growing in intensity of sentiment until the climax is reached, the young ruler of the little country of Graustark confessing her love for the American and all ends happily. In the course of the five acts there is the course of the five acts there is much love-making and enough comedy to dry one's tears at least. The motive of the play is a popular one—the love of a wealthy American for the princess of a pretty principality in Germany, and the record of her adventures in overthrowing objections and winning his lady love make a most interesting story. The company presenting the play is entirely adequate, and great praise is due particularly to George D. Baker, as the hero, "Grenfall Lorry," and Miss Gerfrüde Perry as the "Princess Yetive," both of whom charmed the audiences by clever work. Mr. Baker is an ideal lover-impetuous the course of the five acts there is clever work. Mr. Baker is an ideal lover—impetuous, daring and chival-rous, as a lover should be—and people will hear more of clever Miss Perry at no very far-off detection. will hear more of clever Miss Perry at no very far-off date. Another actor who received a cordial welcome is Atkins Lawrence, whose Baron Douglass is as fine a piece of work as anything he has achieved in the past, and that is saying a great deal, recalling Booth and Salvini to many. These three players alone would grace any play, but they were ably supported as a whole. Both scenery and costumes were appropriate and attractive, and gave the various 'tings an atmosphere of realism Grace Campbell, who is well-known to a number of Torontonians, is seen to advantage as the Countess Dagmar, displaying marked ability in the role. ed ability in the role. The audience was apparently de-ighted with the production, the prin-

There is a noticeable improvement Alexander, by Alexander away of Hyde. The bride was given away of her father, and was attended by Miss Florence May Jeffery as bridesmaid. Mr. Jack T. Elmes was best man. During the signing of the register Mr. Will J. Baggs sang "Because," the wedding march being played by Mr. H. A. Irving.

Miss Janis, who is a great favorite in Toronto, has the role of a lone girl student, who turns the heads of all the "cather, and being played by Mr. That! boys" in the institution, whose filtrations are varied, and who masquerades as her cousin Willie with very humorous effect. Miss Janis has appreciate this was shown by the two large audiences which again saw the production of "Shadowed by Three" at the Majestic yesterday. The story tells of a young girl's adventures in the productions at the popular price whose flirtations are varied, and whose flirtations are varied, and masquerades as her cousin Willie with very humorous effect. Miss Janis has several pretty solos allotted to her, which she renders with softness of inflection, and in the third act she shows the mimetic talent which first brought her to the front. ### At Shea's.

Of the seven-piece program presented at Shea's this week, "An Upheaval in Darktown," by the Jack Wilson and Company trio, easily won the greatest appreciation. The little piece is full of fun and pleasing travesty, arousing special enthusiasm from the audience in the burlesque on the sheath

Wentworth and Vesta, comedy acro-Wentworth and Vesta, comedy acrobats, won the approval of the audience by offering a feature act, in which a dog plays a part displaying unusual intelligence in a new and difficult stunt. Al Carleton is here again with a new dress suit, and its pockets filled with fresh jokes, songs and side-steps. He has not gained in avoirdupois, however, and starts a smile in his introduction by complaining that a fat woman sat on him and apologized with the remark that she thought he was "a crack in the seat."

Banks and Breazeale, in a refined musical duo, presented in court costume, offer a very pleasing entertain-

"His Last Performance," a one-act playlet, is the story of a fallen star in the theatrical world, an actor of the old school, ridiculed and despised by the modern day celebrities, and almost in despair receives a chance by accident to take the role of King Lear, and makes good. The supporting actors furnish humor and skits that create the laugh side of it.

furnish humor and skits that create the laugh side of it.

Arturo Bernardi presents a farce comedy, playing all the parts himself in an impersonating manner. His lightning-like changes of costumes and impersonations give the piece all the appearance of being played by a half dozen persons—male and female. He also gives impersonations of the great music masters in a masteriy style.

The Juggling Jordans conclude the performance with a whirlwind of deft juggling stunts with several novel features.

### At the Star.

The Yankee Doodle Girls are the attraction, and they are well up to the mark of previous successes. The principal fun-makers are Harry Seyon and Harry Hearn.

She is tilled as the only rival of the great Houdini, he who electrified Toronto in past times by his wonderful escapes. She is equally as good.

### At the Gayety.

With unusual alertness, Phil Sherida has siezed an opportunity to burlesque New York's latest craze. "The Devil," over which two rival play producers recently had so much trouble as to which had the priority of ownership. Burlesquers don't lose much time as a rule in handing out parodies on the latest song hits or satires on the most popular books and plays, but this instance nearly approaches a record. And the take-off is very cleverly worked out indeed. Election day gave the Gay-ety Theatre even a better endorsation than it did the new government. The show drew to a royal flush, and will

show drew to a royal and certainly stand pat thru-the week's engagement.

The first deals with the "Troubles of a Burlesque Company," and introduces many bright incidents from behind the scenes of the histrionic "profesh."

The "catch" of the olio is Sheridan's by Bell Ballet, an aggregation of tweive dancers that look good from anywhere you sit. Miss Ida Gladstone scored as success as a versatile comedienne. Fred Barnes and Nick-Conway have some good dialog, and Dunham, Edwards and Farrell have an ambitious musical enearce comedy in "The Three Musketeers."

The "Black Bird Dance," by Mile. Sanford, is a thriller. She is a captivating grace and very charming stage presence.

No artist in Canada is better known or more popular than F. M. Bell-Smith, and in private collections in all parts of the world. His versatility and the equal facility with which he handles a wide range of subjects make his pictures very attractive and peculiarly suitable to the adorning of Canadian homes. It is many years since his works were offered in this way, and such an opportunity to secure some of his pictures at prices below their real value may never occur again.

The interest is a large one, hardly comprehensive to the casual observer who glances at the stock quotations. A great deal of interest exhibited is centred in the shipping mines or at least in those properties that show fair values for the different stages of development.

# CLAIMS OF BONSALL'S

While Doing Assessment Work, These Prospectors Opened Up a New Territory.

COBALT, Oct. 27.—(From the Man on the Spot.)—The "Man on the Spot" has made frequent predictions that Cobalt will not be the only great mining came in this part of northern New ontario. This has long been apparent to anyone familiar with the conditions here, and now it is known that many camps are bound to make good within a few months.

Some have already made good and heve research the embryonic stage.

Some have already made good and have passed the embryonic stage.

The name of Charles Gifford seems bound to be connected with many successes. He will always be known as the man who had sufficient faith in the Montreal River district to buy and send in the first plant, and the Moose Horn has justified his confidence in its possibilities.

Cobalters recognize the great opportunities offered in this north country and the Miller, Mineral, Bloom, Silver and Gowganda Lakes sections have been staked by men who are well

been staked by men who are well known here.

Cobalt camp has demonstrated its greatness, and the new shippers in the silver camps of the northland will show equally satisfactory results.

The Bonsall Brothers, Jimmy Blackburn, Tommy Saville, Messrs. Gates, Otisse, La Houg, Ehrenhaus, Shirley Crass, Armstrong, Cryderman, Lozeau, Mann, Gordon, Monroe are only a few of probably a thousand operators who are well known thru their efforts in making known the riches of this district. The Otisse, Moose Horn, Blackburn, Cartwright, Craig, and Big Six properties are all well known, but the Bonsall and the Barlow Syndicates have been of particular interest to Cobalters. It must be remembered that prospecting has been going on up the Montreal River for three years, and encouraging finds have been steadily made. It was in June last that Jack Bonsall and James Blackburn of Cobalters. made. It was in June last that Jack Bonsall and James Blackburn of Cobalt went up to do assessment work on five claims originally staked by Fred La Houp, and sold by him to the Gates Syndicate. It was while doing this work that the vein of sliver was discovered four inches wide, and these claims are now known as the Big Four. Having completed the as-

> genuine development work has been done from the day the claims were staked. The first valuable discovery was a silver-calcite vein showing pure

native silver in places where the calcite had leached out. Five sacks of silver nuggets and black silver sulphide muck have been bagged and the vein has been stripped for 100 feet. The vein runs in a northeasterly direction and charge and strong all the way.

LEAVES \$500 OF ESTATE
TO HIS UNBORN CHILD

"To my unborn baby I leave \$500 to be placed to his or her credit in the bank or such other investment as may seem best to my executors."

This pathetic clause was disclosed in the will of the late Frederick Hughes Dennis, druggist of Schomberg, who died June 19 last, leaving an estate of \$3208.07. The child was born shortly after the father's demise. She is named Helen Frederica Dennis.

Under the will the estate is divided

Port Elgin, \$2183; to Charles McLavie Dennis, son, \$525, and to the baby, \$500.

The entire estate of the late Dr. Wm. Nattress, whose will was filed for probate yesterday, goes to the widow, who is also named as executrix. The estate includes, life insurance, \$5000; stocks, \$3635; accounts on books, \$500, and a horse valued at \$86.

Happy, glorious Manhood—the strength that pushes the world! Success in its completeness! And what is weakness? Failure, despair! But why be weak, when a cure is within your reach for the asking? All men with very few exceptions were made strong and should be so through life. Many have abused this grand privilege and through dissipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, varicocele, rheumatism, lame back, etc., and are mere, playthings in the hands of their associates. Grand Master Lays Corner Stone in North Toronto-Suburban Items of Interest.

NORTH TORONTO, Oct. 27 .- The Masonry Hall, under construction on Yonge-street, has so far advanced that the corner stone was officially laid this afternoon by the Most Worshipful Master, A. T. Freed of Hamilton, assisted by the Grand Lodge officers.

The building was designed by Architect Siddall, and Harry Jennings is the contractor. Its dimensions are 61x 37 feet. The ground floor contains large supper room and a concert hall. , 32x45 feet, lavatories, waiting room and reception hall On the floor above is the lodge room, candidate's preparation, cloak anterooms. ### PRINCE A HIGH FLYER IN ZEPPELIN AIRSHIP

Another Successful Flight of Huge Machine With Quite Successful Results.

FRIEDRICKSHAFEN, Oct. 27 .-Prince Henri of Prussia spent several hours in the air to-day as the guest of Count Zeppelin, who made an ascension in his remodeled airship at a comparatively early hour. Not only did the prince thoroly enjoy his experience, but he sat at the steering wheel for many miles of the flight, guiding the movements of the craft

guiding the movements of the craft and compelling it to execute all kinds of complicated manoeuvres.

Prince Henri's satisfaction at the great flight was unbounded, and he gave expression to it in a telegram which he sent to the emporor:

"Under Zeppelin's guidance I felt just as safe as on my own flagship."

Captain Mischke also was a passenger when the start was made, in the direction of Uberlingen, to the northward of Constance. With Count Zeppelin himself at the wheel, the airship rose to an altitude of 600 feet, and, moving rapidly against a strong wind, moving rapidly against a strong wind, soon disappeared behind a bank of clouds. Soon messages began to arrive from the towns in the Rhine Valley announcing the passage of the air-ship, but about 2 o'clock in the afternoon a sonorous sound from the sky indicated that the craft was returning. Scon it appeared above the thronged streets of Constance, where the prince gracefully saluted in acknowledgment of the ovation from the cheering crowds below.

crowds below.

After manoeuvring above Lake Constance in full view of the city for some time the airship made its way toward the Swiss frontier, disappearing in the direction of Tyrol. It returned to its moorings about sunset. Captain Mischke said that the prince was anxious to remain for a few more flights. Mischke said that the prince was anxious to remain for a few more flights, but that he was uncertain whether his engagements would permit. The prince expressed himself as astonished to find that the lengthy body of the airship showed only the slightest vibration. He regarded the vertical steering gear as simply perfect.
