FISCAL REFORM DEAD ASQUITH DECLARES

(Canadian Associated Press Cable.) LONDON, Jan. 18.—Mr. Asquith speaking at Love's... what could be more remarkable than the verdict given by the great ports and centres of industry.

"I wish to put it on record at the earliest possible moment," he said, "that I draw from this inference, whatever may happen the remainder of the election, that the one thing is absolutely certain, that in the new parliament, tariff reform, in the sense in which the phrase is used, that is, the abandonment of free trade and the substitution for it of a fiscal system of more or less disguised protection, is a political impossibility (Loud cheers)."

"No statesmanship, however ingenious or audacious, can attempt to construct a tariff in defiance of the opinion of so many great industrial representative centres."

Mr. Asquith added that he promised no legislation of any kind until they had settled conclusions with the house of lords.

Lloyd-George at Newtown, Wales, also declared that the Liberals would not legislate until the lords' question was settled, and it must be made perfectly clear that if the lords rejected the bill sent up by the commons, a second time, it would be sent straight thru to the throne (Cheers).

YESTERDAY'S POLLING

Unionists Had Better Success, Proportionately, Than on Previous Days.

LONDON, Jan. 18.—The elections to-day resulted in the return of the following:

Unionists 21
Liberals 19
Laborites 3
Nationalists 1

Unionist gains 12; Liberal gains 1. The standing of the parties at conclusion of to-day's polling was as follows:

Unionists 120
Liberals 98
Laborites 20
Nationalists 28

Total gains—Unionists 51; Liberals 9; Laborites 1.

The Unionists had decidedly the better of the elections held to-day. Of 44 seats contested they won 21, of which twelve were represented by ministerialists in the last parliament.

The only consolation for Liberals was in Bernerside division of South-west, where the government candidate, H. G. Glanville, recaptured the seat which went over to the Unionists in the by-election last November. J. Humphreys, who was elected then, had but one opportunity to re-assert his claim that being on the day of his introduction.

Liberals Lost in Three-Corner Fights. Several of the Liberal losses, on the preceding days, were caused by three-cornered contests, the intervention of a labor or socialist candidate precluding the success of the government supporters.

Fourteen of the London boroughs returned eight Liberals and six Unionists as compared with eleven Liberals and three Unionists in the last parliament. The Unionist gains include South-west, Mile End, a division of Tower Hamlets, where H. L. W. Lawson, manager of The Daily Telegraph, was elected; Bow and Bromley, Chelsea, one division of Liverpool, Whitehaven, Boston, Warwick and Leamington, Kidderminster, Coventry and Mile End, in the last parliament, were Unionist before the great Liberal victory of 1906.

Two Notable Defeats. While there were not so many contests to-day as on Saturday and Monday, there were more prominent political contests with fortunes at stake. Two of these, Col. J. E. B. Seely, under-secretary for the colonies, and R. K. Causon, paymaster.

Three members of the board of directors of the board of trade; Sydney Charles Buxton, postmaster-general, and Walter Runciman, president of the board of education, retain their seats. Mr. Churchill, with his labor colleague, A. Wilkie, substantially increasing the majority usually given by Dundee.

Sir W. S. Doherty, the attorney-general, also holds his old seat for South Shields.

T. P. O'Connor's grip on the Scotland division of Liverpool was unshaken by the increase of 600 which he received over his big majority of four years ago.

Unionists' Successes. In the other party, among the prominent men who go back to Westminster are the right hon. A. Lyttleton, for St. George's, Hanover-square; John S. Harwood-Banner, for the Everton division of Liverpool; H. L. W. Lawson, son of Lord Burnham, who captured the Mile End seat which he held before 1906, and which he once occupied as a Liberal; and J. K. Foster, a prominent writer on fiscal questions, who won against Silas Hocking, the novelist, in Coventry, which was previously represented by another literary man, A. E. (Continued on Page 7.)

THE CANADIAN GLADIATORS IN LONDON

LONDON, Jan. 18.—The visiting Canadians are still doing yeoman service, Joe Martin says he was at the last instance by an oration in St. Paul's church, Robinson of the Toronto Telegram, Lord Charles Beresford, took the people of London to George Gooderham and his pair of motors from Toronto (how close we are getting when a Toronto man takes his auto over to London to help a candidate friend on election day. Premier Asquith is in great fear that he may go down to defeat if Stewart Lyon is not on the spot in the supreme moment of struggle. John R. Wilson hurried to the rescue of John R. Wilson, but was knocked down by a street car; other, who might have saved him. Geo. Tait Blackstock, the colonial superintendent of debate, and of dining out speaks in dinner dress to thousands of eager-eyed men and tells them in sonorous periods how Birehall had died for the cause in a Woodstock (Canadian) jail; and how the ex-minister, who had been used by the government, who won thousands of votes to drink by reciting on the electoral slump.

"On London where the sun was low." The picture of Colonel Denison coming down the steps of the Toronto police court to save the empire is the best selling in the print shops.

But the Canadian contingent are not too busy for other things; a delegation have arranged to go to Windsor and ask Edward the Peacemaker to intervene in the case of the Ontario and Quebec dispute and make the non-conformist periodicals so stirred as when the news of this great disruption in Toronto began to reach these shores. The Canadian pressmen are besieged by divines, and church editors to give them accounts of the two men. Belfast is at fever heat, it being known that Reverend Milligan has Blackstock of loyalty and homage to his person, and the assurance of his absolute devotion to his empire. A cable message was sent to the Pope, praying for his blessing.

PROFESSES A PLAN TO CURB THE COMBINES

Mackenzie King Would Give Judges Power to Call for a Court of Enquiry.

OTTAWA, Jan. 18.—(Special.)—In the house this afternoon, Hon. Mackenzie King, minister of labor, introduced his bill to provide "for the investigation of combines, monopolies, trusts and mergers, which may enhance prices or restrict competition to the detriment of consumers."

"It is believed," said Mr. King, "that the bill will afford a ready and convenient means whereby parties who have reason to believe that any combination is unduly enhancing prices or unfairly restricting competition, will be able to obtain an investigation, and an effective remedy against any evils which may be found to exist."

"This it is sought to obtain in the first place by providing that six or more persons who feel that a combine exists, and that prices have been enhanced or competition restricted by reasons of such combine to the detriment of the consumer, may make application to a judge of the high court for an order to grant an investigation of such a combine."

"The judge may call before him witnesses, but all that it is necessary for him to assure himself of, before granting the order, is that a prima facie case has been made out."

Call for a Board. "When the judge issues an order for an investigation, the order is directed to the minister of the departments, and the minister then calls upon each of the parties concerned to name a member of the board of investigation. The act in this particular procedure along lines somewhat similar to the procedure under the industrial investigation act. The complainant and the parties accused are called upon to name representatives on the board and the two men thus chosen confer together with the view of selecting a chairman, who in this case must be a judge of the courts."

"The board thus constituted shall have all the powers of a court of record. After due investigation the board must draw up a report and submit that report to the minister, who thru The Official Gazette and to distribute copies to the press, if so desired."

Publicity As a Cure. "There are certain classes of evils in the remedying of which it is believed publicity is the remedy. It is not that publicity will in all cases prove an effective remedy, but in industrial matters it has many times in the past proven to be effective. While this act provides machinery of a nature calculated to let in the light on the working of the great corporations, the legislation does not rely entirely upon publicity to bring about the desired remedy."

There are other remedies proposed, one is the remedy of certifying in connection with such articles as are protected by the tariff. The estate in this particular gives authority to the governor-general in council, where the reports show that prices have been unduly enhanced or that competition is being unfairly restricted to a particular article or to remove the tariff altogether.

Control of Patents. "Then there is another class of combination which it is hoped this measure may be the means of preventing. I refer to the case of persons holding a patent, and in section seven of the act there is a provision that in case the owner of a patent makes use of the exclusive rights he controls so as to unduly limit the manufacture or supply of such article in a manner to the injury of trade or commerce, such patent shall be liable to be revoked."

"Then there is a further clause which provides that in the event of its being found that any combination unduly enhances the price or unfairly restricts competition, and if the guilty party persists in the conduct which has been reported against, then in such case he is liable to indictment and to a penalty not exceeding \$1000 for each day after the expiration of ten days from the date of the publication of the report of the board in The Canadian Gazette that the parties continue to offend."

SENT CABLE TO THE KING

Testifying to the Loyalty of 200,000 French-Canadians.

OTTAWA, Jan. 18.—(Special.)—Representative French-Canadians from all parts of Ontario assembled here today for the opening of the French-Canadian Educational Congress, which has for its object the establishment of bilingual schools in the French-Canadian sections of the province, the encouragement of education generally, and the promotion of temperance among the lumbermen of the shanties in the northern part of Ontario. Among those present are Hon. Dr. Reaume and Messrs. Aubin, Morel, Racine and Phamam. To his presence, Judge Constantineau said that a French-Canadian newspaper for Ontario was proposed.

Senator Belcourt was elected president of the congress, and a cable message was sent to the King, declaring that 200,000 French-Canadians in the Province of Ontario begged his majesty to accept their tribute of loyalty and homage to his person, and the assurance of their absolute devotion to his empire. A cable message was also sent to the Pope, praying for his blessing.

Another Election Within Year

(Special Cable to The World.) LONDON, Eng., Jan. 18.—The elections are proceeding exactly along the course foreshadowed in previous cables to The World. The Liberals are holding their seats exceedingly well considering the lavish expenditure of time and money on the part of the Unionists to make the clean sweep which has not happened.

There have been regrettable losses on both sides, many promising and established parliamentarians being momentarily compelled to exercise patience and hope till next time.

Ecclesiastical influences have resulted in Unionist victories in cathedral cities, including York, where Hamar Greenwood has just failed of re-election by a small majority. Will Crooks (Labor) has gained the other hand, Lord Robert Cecil at Blackburn and other well-known Unionists elsewhere have dropped out.

London constituencies have remained fairly faithful to Liberalism, although none have reverted to their normal complexion of Unionism. Present indications point to a majority for Liberalism, with the Irish holding the balance of power. The county constituencies will show to the advantage of Unionism. It is certain that the Liberal propaganda has the strongest hold on the bulk of the electorate.

Politicians are beginning to predict another election within a year.

OBEDIENT IN SIX MONTHS OR FORFEIT FRANCHISE

Terms of Street Railway Expropriation Bill Before Board of Control.

A motion that the city apply for power to expropriate the street railway along the lines of its application made to the legislature four years ago will be submitted to the board of control to-day by Controller Church. As Mayor Geary and the other members of the board have expressed themselves as favorable, there seems no doubt of the outcome.

The application of 1906, which the legislature laid over, to await the outcome of litigation then in the courts, asserted that the company had undertaken, when granted the franchise in 1891, "to give a service as determined by the city engineer and approved by the city council" and "to lay down new lines as recommended by the city engineer," that the company had not given, and declined to give, an adequate service.

For these reasons the city asked the right to cancel the agreement and take possession of the entire plant on these conditions: Within 60 days after the passing of an act empowering expropriation, or such time as the city council should determine, the city engineer should furnish the company with a time-table and the company be given six months to provide the service as therein specified. The company should also be given six months to lay down such lines and extensions as asked for by the city engineer, and in default of the carrying out of such orders, the city council on a two-thirds vote could cancel the agreement.

HORSES MUST RACE TO MAIN-TAIN SPEED

And if There is No Betting, Then Racing Would Die—Evidence Before House Committee.

OTTAWA, Jan. 18.—(Special.)—The special house committee on H. H. Miller's bill to wipe out the clause in the criminal code which permits betting on races courses, and to make more stringent the prohibitions of betting elsewhere, held its first sitting this morning, and was faced by a strong array of talent, representing interests that would be injuriously affected by the passage of the bill in its present terms.

Mr. Miller presided and all the members were present except F. D. Monk of Jacques Cartier. W. E. Raney, K. C., H. E. Irwin, K. C., and Rev. Dr. Shearer, all of Toronto, appeared in support of the bill, which is the production of the Moral Reform Council. J. H. Moss, K. C., appeared for the Canadian Thoroughbred Horse Society; Leighton McCarthy, K. C., for the Ontario Jockey Club; F. Meredith, K. C., for the Montreal Jockey Club; J. L. Counsell for the Hamilton Jockey Club and G. E. Powell for the British Columbia Thoroughbred Association. Other interests, including that of the harness horses, thru Hartley Dewar, K. C., and Ald. Sam McBride of Toronto, are expected to be invited to-morrow to the forces of the opposition.

Mr. Raney was called by Rev. Dr. Shearer to open the evidence, but as his testimony is to consist chiefly in putting in documents and expatiating on the moral standpoint, it was decided to take up other evidence first.

To Make Betting Illegal. Mr. Raney said the bill sought to make all bookmaking, on or off the track, illegal, and to prohibit the business of the tout or the tipster, as well as the publication by papers of racing odds and advertisements calling for bets with the opposition that the absurd requirement of movement on the part of a bookmaker at a race track to keep within the law should be wiped out.

"The traces in the Canadian racing associations he divided into two classes. The Woodbine was essentially a social and sporting event, with race betting on the side, managed by strong men and Canadians. The Fort Erie, Windsor and British Columbia tracks, he said, were business propositions softer and controlled by foreigners. On he was challenged with regard to the control of Windsor and British Columbia tracks he accepted correction, and withdrew the statement. He added that, while admitting a genuine sporting and horse interest at Woodbine, Hamilton and Montreal, all the tracks were on the same basis under the law.

"The bill, he said, was a broader one, morning sitting were Dr. Rutherford of Ottawa and Dr. Quin of Brampton, the evidence of the latter not being couched when the sitting ended.

Dominion Veterinarians' Evidence. Dr. Rutherford is the Dominion Live Stock Commissioner and Veterinary Director-General. He has had many years of experience as a breeder and manager of breeding establishments in Canada and the States. His evidence was of the most direct and positive kind as to the absolute necessity of thoroughbred blood and of raising to preserve the desirable qualities of that blood. He said in effect:

"This thoroughbred horse is the foundation of all light horse breeding. All our breeds of light horses owe their best qualities to his blood. The American trotting horse is directly descended from imported Messenger, and Blais is the tap root of the Hackney. Our common horses, half breeds and military horses derive their endurance, strength and courage from the infusion of the blood of the thoroughbred. Foreign governments spend large sums for winners of big English races, such as Galtee Horse and Ard Patrick for \$100,000 each. On account of the Japanese war, the Russian Government resold the latter to Germany for \$80,000, and Count Lehndorff, the German master of horses, and one of the greatest authorities on breeding, said that it paid Germany well to give high prices in Britain for the best horses to use on the common stock."

Italy pays great attention to the use of the thoroughbred, and the Italian cavalry horse is a very superior animal. The Argentine and the Indian Govern-

PEOPLE MAKE THE LAWS RECOMMENDED AS IDEAL REMEDY

Justice Riddell's Instructive Address at Ottawa on a Subject of General Interest.

OTTAWA, Jan. 18.—(Special).—The annual convention of the Eastern Ontario Live Stock and Poultry Association was opened to-night by Hon. Jas. Duff, minister of agriculture for Ontario. There was a large attendance. The chief address was given by Justice W. R. Riddell on "The Courts and the People."

"I am brought up on a Canadian farm, and associating all my life with Canadian farmers, believe that I know these countrymen of mine. I know that I believe in them, and am proud of them. I know, moreover, that the more that pride is increased, the more the other people and occupations, the more the chief address was given by Justice Riddell, in preference to his address.

"The civilization of the people depends largely upon the existence of strong and independent courts, and for any reason, the courts are not far distant. A court was an institution organized and conducted for the purpose of declaring rights, but the courts had no power in themselves. The power is in the legislature, which erected them. Our law consists largely of rules, which are the same as those which governed our ancestors," he said, referring to the duties of a judge called the English common law. This law is the basis and substance of our law. I cannot too strongly impress upon you the fact that judges do not make the law. The duty of a judge is to find out what the law is. He may express an opinion that he has no right to change it. He must apply the law as he finds it. A body of 12 men in the higher courts, or of five in the division court. These are a part of the court—as much a part as the judge, and quite as important. The duty of the judge, whether they think the law wise and just or not.

"I am in the habit of saying to jurors that of the two highest rights possessed by a Briton, the one is the right to select those who will make the laws for him, and the other to assist in the administration of the law. The latter is, to my mind, the more important and the more honorable. To enforce the law is the duty of every able-bodied man of the country, if necessary, he is called upon to do so. The military, navy and civil, of the Dominion of Canada may be impressed to make effective the judgment of 12 jurors in the jury box. The country has a right to expect the highest degree of intelligence of which he is capable, and all feelings of prejudice and sympathy that he will to be on hand promptly and thus avoid unnecessary delay and inconvenience. With absolute honesty apply his mind to the question to be determined, and that will allow nothing—race, religion, politics, or anything else to influence his verdict according to the evidence. A juror who dishonestly gives a wrong verdict is as bad as a thief, and a juror who dishonestly or weakly acquiesces in a wrong verdict is as bad as an accessory, and worse."

The Witness.
His lordship next referred to the importance of the witness in court.

Attention is drawn to the notice in our advertising columns that the plan for subscribers to \$2.00 seats for the Mendelssohn Choir concerts open to-morrow at 9 a.m. Subscribers are asked to consult carefully the time schedule on their notice cards and endeavor to be on hand promptly and thus avoid unnecessary delay and inconvenience.

Mme. Liza Lehmann's concerts thus far in America have created a tremendous amount of interest on account of their charming and novel character. Lehmann at the piano conducting a quartette of eminent vocalists composed of Miss Palgrave-Turner, contralto, Miss Ines Barbour, soprano, Mr. Berrie Von Norden, tenor, and Mr. Frederick Hastings, baritone.

For Mme. Lehmann's concert on Wednesday evening, the sale begins at Massay Hall on Friday.

ON KNIGHT MOTOR.
Lecture Under Auspices of Engineering Society to Be Given by Inventor.

Arrangements have been completed for a lecture on Tuesday evening, January 25, by Mr. Charles Y. Knight, inventor of the Silent Knight automobile motor, under the auspices of the Engineering Society of the University of Toronto. The lecture will be illustrated by use of drawings, showing the radical difference between Mr. Knight's invention and the valve type of motor heretofore used.

This will be the first opportunity which a Toronto audience has had of hearing Mr. Knight, and will also probably be the last for some time, as he returns to Europe shortly after his visit here.

The Knight engine has been such an object of interest in motoring circles, owing to its spectacular tests by the Royal Automobile Club of Great Britain and Ireland, and its adoption by a number of automobile manufacturers, that Mr. Knight will doubtless have a large audience.

Our law consists largely of rules, which are the same as those which governed our ancestors," he said, referring to the duties of a judge called the English common law. This law is the basis and substance of our law. I cannot too strongly impress upon you the fact that judges do not make the law. The duty of a judge is to find out what the law is. He may express an opinion that he has no right to change it. He must apply the law as he finds it. A body of 12 men in the higher courts, or of five in the division court. These are a part of the court—as much a part as the judge, and quite as important. The duty of the judge, whether they think the law wise and just or not.

"I am in the habit of saying to jurors that of the two highest rights possessed by a Briton, the one is the right to select those who will make the laws for him, and the other to assist in the administration of the law. The latter is, to my mind, the more important and the more honorable. To enforce the law is the duty of every able-bodied man of the country, if necessary, he is called upon to do so. The military, navy and civil, of the Dominion of Canada may be impressed to make effective the judgment of 12 jurors in the jury box. The country has a right to expect the highest degree of intelligence of which he is capable, and all feelings of prejudice and sympathy that he will to be on hand promptly and thus avoid unnecessary delay and inconvenience. With absolute honesty apply his mind to the question to be determined, and that will allow nothing—race, religion, politics, or anything else to influence his verdict according to the evidence. A juror who dishonestly gives a wrong verdict is as bad as a thief, and a juror who dishonestly or weakly acquiesces in a wrong verdict is as bad as an accessory, and worse."

The Witness.
His lordship next referred to the importance of the witness in court.

Mendelssohn Choir.
Attention is drawn to the notice in our advertising columns that the plan for subscribers to \$2.00 seats for the Mendelssohn Choir concerts open to-morrow at 9 a.m. Subscribers are asked to consult carefully the time schedule on their notice cards and endeavor to be on hand promptly and thus avoid unnecessary delay and inconvenience.

"Way Down East" Coming.
"Way Down East," the pastoral play that is known all over the continent, and which is always a favorite visitor during the theatrical season in this city, returns to the Grand next week and will be presented by the big New York company with the production that is being offered in the high priced theatres in the United States.

Mme. Lehmann's Concerts.
Mme. Liza Lehmann's concerts thus far in America have created a tremendous amount of interest on account of their charming and novel character. The Spirit of Omar (Chayyam) has been beautifully expressed in the musical setting she has given a number of lyrics from that notable poem. These will be interpreted by Mme. Lehmann at the piano conducting a quartette of eminent vocalists composed of Miss Palgrave-Turner, contralto, Miss Ines Barbour, soprano, Mr. Berrie Von Norden, tenor, and Mr. Frederick Hastings, baritone.

For Mme. Lehmann's concert on Wednesday evening, the sale begins at Massay Hall on Friday.

ON KNIGHT MOTOR.
Lecture Under Auspices of Engineering Society to Be Given by Inventor.

Arrangements have been completed for a lecture on Tuesday evening, January 25, by Mr. Charles Y. Knight, inventor of the Silent Knight automobile motor, under the auspices of the Engineering Society of the University of Toronto. The lecture will be illustrated by use of drawings, showing the radical difference between Mr. Knight's invention and the valve type of motor heretofore used.

This will be the first opportunity which a Toronto audience has had of hearing Mr. Knight, and will also probably be the last for some time, as he returns to Europe shortly after his visit here.

The Knight engine has been such an object of interest in motoring circles, owing to its spectacular tests by the Royal Automobile Club of Great Britain and Ireland, and its adoption by a number of automobile manufacturers, that Mr. Knight will doubtless have a large audience.

WOMEN IN SOCIAL SERVICE

Miss Florence Keys Lectures to Women's Canadian Club.

Miss Florence V. Keys of Vassar College lectured to the members of the Women's Canadian Club on "Women in social service," yesterday afternoon.

Miss Keys, who is a sister of Professor David Keys of Toronto University, and a graduate of the same institution, gave a most interesting address on the work performed by American women in social matters.

After referring to the good work done by Judge Lindsey in the children's court in Denver, she cited the case of a six-year-old boy in Louisville, Kentucky, who had been sentenced to 22 years for stealing a horse twice in seven hours. This outrageous sentence had resulted in the women of the city organizing a juvenile court, similar to the Denver one, had been established.

Miss Keys gave an interesting sketch of the conditions prevailing in the shirt waist strike in New York, which she said had brought out the fact that more than anything else women must become workers in their own right.

Mrs. Falconer, wife of Dr. Falconer of Toronto University, presided.

ENDORSED R. L. BORDEN.

ARTHUR, Jan. 18.—The annual meeting of the Conservative Association of the North Riding of England was held to-day. The officers were elected as follows: President, A. Hamilton, Arthur; vice-president, J. A. Lambert, Mount; secretary, Treasurer, R. T. Smith, Arthur.

The convention endorsed R. L. Borden's attitude on the navy question.

The American Excess of Good Living

The Principal Cause of the Great Prevalence of Indigestion and Dyspepsia.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Man inhabits every part of the globe where external influences can be successfully resisted. Food is an important element in effecting this and nature has provided for it accordingly.

The colder the climate the more animal food and oily substances are required; the warmer a preponderance of vegetables and fruits is necessary in one's diet.

The whole-blubber of the fur-clad Eskimo, and the rice of the nude African, are as much necessities of locality, as matters of choice. The same indications exist in civilization. Thus, the diet in America and England is essentially different from that in Italy, Spain and Egypt.

The effects of universal communication are nowhere more obvious than in the luxurious table. To furnish the staid cuisine, all climates, both sea and land, are in universal contribution. The colder the climate the more animal food and oily substances are required; the warmer a preponderance of vegetables and fruits is necessary in one's diet.

The heavy substantial dishes of this climate accord badly with the thermometer at 80 degrees, and an inflexibility in regulating the kind and quantity of food is a cause of a large proportion of the ill-health and stomach troubles among the English and Americans.

Thousands of people who have suffered from stomach troubles, and a general ill-health resulting therefrom, because of a badly regulated diet, and the ingesting of an excessive amount of food at the table, have obtained speedy and permanent relief by means of a simple expedient—that of using one or two of STUART'S DYSPEPSIA TABLETS after each meal, or whenever any of the well-known symptoms of indigestion are present.

These powerful digestive tablets contain every element that exists in the stomach to digest the food, and in the exact proportion as found therein. They take the place of the natural digestive juices when the latter are deficient in quality or quantity, and do their work for them, removing the indigestion by digesting the food, and restoring, strengthening and purifying the digestive tract.

There is no other digestive remedy on the market which has been found to be so effective in relieving the symptoms of indigestion, and which is so rapidly and powerfully efficient, or which removes discomfort, banishes stomach-pain, and relieves and cures all of the symptoms of dyspepsia and indigestion in so thorough and pleasant a manner as these marvelous little tablets, a single grain of which is capable of digesting 1000 grains of any and every kind of food.

All persons who are annoyed with stomach troubles of any kind should use Stuart's Dyspepsia Tablets, which will remove such troubles in a very short time. Purchase a box from your druggist, and send us name and address for free sample. Address F. A. Stuart Co., 150 Stuart Building, Montreal, Mich.

"Baby" Bliss Insane.

PEORIA, Ill., Jan. 18.—Leonard Bliss, better known as "Baby" Bliss, at one time supposed to be the largest man in the United States, is hopelessly insane. Bliss weighs 320 lbs. During the bicycle craze he rode a wheel over the United States, Canada and Europe as a demonstrator of the make of a machine. He is 57 years old.

Viola Allen, who will be seen in her latest success, "The White Sister," at the Royal Alexandra next week.

Public Amusements

Viola Allen's New Play.
Miss Minna Gale, the talented actress, who is playing the part of the Countess Chiaromonte in "The White Sister," to be played by the Viola Allen company at the Royal Alexandra Theatre, during next week, with matinees Thursday and Saturday, just recently announced that, due to the influence of the beautiful character of Giovanna (the white nun, played by Miss Allen), she finds herself in the possession of a strong tendency toward Catholicism. For several months, the actress writes, this inclination has been growing on her. She says: "I believe that my tendency toward Catholicism has been strengthened by such close association with Marion Crawford's beautiful story of 'The White Sister,' sister Giovanna is so charming and exceptional a character for any one—Protestant or Catholic."

Minstrels Next Week.
The greatest minstrel show on the road is coming to the Princess and his week when George Evans and his

honey boys will appear under the direction of Ochan and Harris. Mr. Evans has acquired a new repertoire of jokes, and will sing several new songs of his own composition. Many notable singers have been secured this year, including Vaughn Comfort, Will Oakland and Jim P. Rogers, an eminent bass, who has graced many a famous minstrel organization. The seat sale opens to-morrow.

The Toronto World

FOUNDED 1851. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO.

THE NEW FORCE UP NORTH.

Again The World says this morning that the greatest asset of the Province of Ontario has in her northern country, rich in minerals, rich in timber, soon to be rich in agriculture over large areas.

But there is also another wonderful asset Ontario has, which has been ignored up to the present, but which is to-day, and is bound to be, a vital factor in the development of that country.

The prospectors cannot be held back. They are flowing over the country like an army of locusts, making finds here, finds there, blazing trails for settlers, staking the ground so that it is at times impossible to get a township, and in a hundred different ways are creating an amazing area of activity.

A M'PHERSON STRAPHOLDER. Editor World: The citizens of Toronto have no reason to be proud of their members in the Ontario Legislature, judged by their statements in your columns as to what they propose to do—not to do, rather—for the cure of the street car grievances of their constituents.

DREADNOUGHT PETITION. Prominent Citizens Ask Mayor to Call Public Meeting. That Canada should come to the assistance of Great Britain with at least two Dreadnoughts is the cry of a number of Toronto's prominent business men, who are circulating petitions requesting the mayor to call a public meeting to discuss this project.

PERFORMANCE, NOT TALK, TELLS. The board of control, including Mayor Geary, have their duty before them to-day: to shake up the legislation that the city must seek at the forthcoming session of the Ontario Assembly, in order to cure our street car troubles? It is easy under the guise of care for the city's welfare, under the guise of a dozen things, to sidetrack the issue and do nothing. We shall see to-day.

Acquitted on One Charge. SANDWICH, Jan. 18.—W. J. Bell, farmer of Leamington, charged with obtaining about \$100 under false pretences by the Union Bank, was acquitted. The judge reserved decision on a charge by the Traders Bank. It was alleged that he had made false statements of his finances in order to secure loans.

PORT ARTHUR'S ELECTRIC POWER. After a prolonged struggle in Port Arthur with James Conmee, M.P., a ketchikan who always asserts his profound consideration for the interests of the people, but whose efforts ever appear to be directed towards

THE CHRISTMAS GIFTS OF A GREAT LIFE INSURANCE COMPANY.

The Metropolitan Life Insurance Company, during all the period covered by its remarkably successful conduct of life insurance as a purely business proposition, has created and consistently maintained a bond of human sympathy between itself and the great multitude of people who are beneficiaries of the company's prosperity and dependent upon it for their own relief in time of need.

CANADA'S INTEREST IN BRITISH POLITICS.

All Canada appears to be taking an unusual interest in the pending British elections, and in no place is this interest more pronounced than in Toronto. It almost reminds one of the spirit that prevailed on the night of the surrender of Paardeburg. At all events one can see a feeling of kinship and common interest and pride in upholding the great empire, and participating in the great political struggles of that empire, dominates many Canadians with increased force rather than in a lesser degree as some people think.

So strong is this feeling that no one need question the soundness of the suggestion made in parliament that Canada might well contribute a Dreadnought towards the empire's defence, and meet with no opposition from the great bulk of the Canadian people.

BANK OF HAMILTON.

From the report of the directors submitted to the 38th annual meeting of the shareholders of the Bank of Hamilton, appearing in another column of this issue of The World, it will be seen that this institution has followed the high policy which it holds among Canadian banks. The profits for the year to November 30, last, after deducting all charges and conditional allowances, amounted to \$282,322.41, which with the sum of credit of profit and loss account and the premiums on new stock issues, made \$710,569.60 available for distribution.

Editor World: The citizens of Toronto have no reason to be proud of their members in the Ontario Legislature, judged by their statements in your columns as to what they propose to do—not to do, rather—for the cure of the street car grievances of their constituents.

EATON'S JANUARY SALE NEWS

Have You Heard of the New Price On EATON Sewing Machines

It's been in force all during January Sale, but good news such as this is worth repeating.

Every woman who has a home is ambitious to possess a sewing machine. Sooner or later every woman buys one. The question is, which is best? We've been selling the various qualities of the various machines, and now we can confidently point to the machines we offer and say emphatically there are none better on the market to-day for the money.

For a first-class, thoroughly high-grade machine—in fact, as good as can be produced in America—buy the Standard Rotary. Our price for it is 35.00

Any time you wish to call, we'll demonstrate any of our machines, and no matter which one you buy, we'll give with it our guarantee of ten years.

A Brief Description of the EATON Drop Head

A special feature—the belt can't come off—it's self-adjusting. The case is made of selected quarter-cut oak, with the most improved automatic lift. The only machine we know of having a guard on both head wheel and drive wheel, which prevents belt slipping off whether running or not.

JOHN CARNEGIE, EX-M.L.A., DEAD

Was Old Resident of Peterboro and Prominent Conservative. PETERBORO, Jan. 18.—(Special).—John Carnegie, ex-M.L.A. of West Peterboro, died at Guelph to-day as the result of a prolonged illness. He sat in the first parliament of Ontario and subsequently from 1882 to 1888. He was a staunch Conservative, identified with the work and progress in interest of the Trent Valley Canal and prepared the evidence submitted to the commission appointed to investigate its feasibility. He was also a member of the old board of agriculture and arts of the province for many years and occupied positions of trust in the municipality.

FIRE INSURANCE RATES.

One of the greatest drawbacks of many an inland town are the high fire insurance rates that have to be paid, and only in a few towns is the rate at all moderate. New Liskeard is one of the few. The insurance rate in this town is lower than that of any other town in Northern Ontario. The reason for this is that New Liskeard is well supplied with water, and has an excellent water and fire service. This again many of the buildings are of a substantial character, being of brick and concrete. This has been made possible by the brick-yards and concrete works located in New Liskeard.

M.P. NEARLY PUT OUT FOR ASKING QUESTIONS

Speaker Marcell Makes an Arbitrary Ruling to Back Up Mr. Paterson's Ruffled Temper.

OTTAWA, Jan. 18.—(Special).—Among the many grave mistakes which Hon. Charles Marcell has made since he became speaker of the commons, none was more serious than one this afternoon. Hon. Mr. Paterson resumed the budget debate in his usual breezy manner, drawing many questions from the opposition. He treated it all good-humouredly for a while, for he himself is one of the most frequent interrupters in the house. At one point, Major Currie asked him, if when dilating upon the increased postal revenue, he was taking into account the fact that the government had imposed a postage rate upon newspapers, while the old government had transmitted them free. Mr. Paterson replied that he would answer this question when he had finished his argument.

Meanwhile, the minister of customs had been heckled by Mr. Borden, as to his declaration that postage stamps were a tax, but railway tickets were not. He had apparently lost his temper, and when Major Currie, at the close of the minister's argument, rose to ask his question again, he refused to implement the promise.

The speaker then remarked that, except upon points of order, Mr. Paterson could not, without his permission, be interrupted.

Mr. Speaker Threatens. Major Currie was pointing out that he was only asking the question upon the permission of the minister, when the speaker said, without any apparent provocation, "I will have to name the hon. gentleman, if he continues in his present course."

To "name" a member would result in his removal from the house by the sergeant-at-arms.

Hon. Wm. H. Paterson added: "When I and the leader of the opposition taking part in these interruptions, then it is for the dignity of the house that I am concerned, for they are continually lowering it by their continued interruptions."

Mr. Borden objected, "I do not think the hon. gentleman has any right to allude to me in that manner. I asked him three or four questions I understood with his consent. If he had objected to permitting the questions, he should have said so. I think he ought to withdraw the expression he has used."

Mr. Paterson withdrew the expression. Harper, Customs Broker, McKinnon Building, Toronto.

UNIONISTS GAIN 12 DEFEAT COL. SEELY

Continued From Page 1.

W. Mason, who retired from parliament at the beginning of the year. Trend to Tariff Reform.

With the exception of North England, Scotland and the big manufacturing towns, the result at the polls shows a steady trend toward the fiscal policy of the Unionists, but the political oracles maintain this will be insufficient to overcome the big Liberal majority obtained in 1906.

Of course, there are many side issues, such as a cry of a weakened navy, which have influenced the voters, particularly at naval ports, and in English counties where the landlords wield a great influence more Unionists gains may be expected.

There will have to be a big turn over, however, before the government is put out. A conservative estimate now places the Liberal majority over the Unionists at between 80 and 90.

This, with a compact party, would be a working majority, but with the unreliable Laborites, backed up by the Irish when it suited them, the government would have to go warily to avoid pitfalls.

Surfragettes Not Strong. The Laborites are not likely to be so strong in the new parliament as in the last. They have already lost several seats and several of their members have won only by narrow majorities.

This loss ground by the workmen's party has been one of the surprises of the election. Suspicion that they opposed a larger navy doubtless had its effect, for a number of other opponents of the government's related action in meeting Germany's building program also suffered defeat.

The surprised which the surfragettes were expected to spring have not yet materialized. They have been actively canvassing against the government and they made a strong stand against Sydney Buxton to-day, but this far they have not engaged in the militant tactics.

UNIONISTS ELECTED.

NOTES OF THE FRAY

Of six returns announced yesterday morning the Unionists gained two in Sunderland, where J. Knott and S. Storey turned out the Right Hon. J. Stuart, Liberal, and T. Sumner, Lab. The defeat of the Unionists as he is the proprietor and editor of the London Morning Leader and The Star, which were prominent in the campaign against the peers and Tariff Reform.

In Wandsworth Warren claims a recount, which will be granted.

One of the chief losers Monday in Portsmouth was George Goodwin, a seaman whose two motor cars were high-g geared and carrying voters to the polls for Deereford.

THE LIGHT THAT NEVER FAILS CHRISTMAS ANNOUNCEMENT

THE Company has allotted extraordinary BONUSSES to its Industrial policy-holders payable in 1910. These are CASH BONUSSES which may be used in payment of premiums upon their Industrial policies. They were not promised in the policies, either expressly or by implication, the policies being strictly non-participating. No such bonus has ever been given by any company to its policy-holders, and no such bonus ever will be given by any other company.

BONUSSES TO LIVING POLICY-HOLDERS

To every holder of an Industrial whole life policy of the Company who shall pass the age of 75 during 1910, a bonus on its anniversary date thereafter equal to premiums for 52 weeks. To every holder of an Industrial policy in force issued in 1879 and 1880, a bonus on its anniversary date equal to premiums for 26 weeks. To every holder of an Industrial policy in force issued in 1881-2-3-4-5, a bonus on its anniversary date equal to premiums for 20 weeks. To every holder of an Industrial whole life policy in force issued in 1886-7-8-9-1890, a bonus on its anniversary date equal to premiums for 15 weeks. To every holder of an Industrial whole life policy in force issued in 1891-2-3-4-5, a bonus on its anniversary date equal to premiums for 10 weeks. To every holder of an Industrial whole life or increasing life and endowment policy issued in any year from 1896 to 1905 inclusive, a bonus on its anniversary date equal to premiums for 5 weeks.

These bonuses are thus for percentages varying from about TEN to ONE HUNDRED PER CENT. of the amount of weekly premiums for a year. It will be observed that the bonuses are graduated by the age of the policies. The whole life policies issued between January 1, 1907, and July 1, 1909, have received a reversionary dividend of about ten per cent. of their face during the past year (that is, have been increased in amount about ten per cent.). This cost the Company \$600,000 in 1909; and will cost many hundreds of thousands of dollars in subsequent years in increased Reserve. The whole life policies, issued since July 1, 1909, have been increased about ten per cent. in amount above the amount of insurance previously provided for the same respective premiums.

BONUSSES ON DEATH CLAIMS

Death Claimants on whole life policies issued between January 1, 1907, and July 1, 1909, whose claims had been settled, have received in the last six months a payment of mortuary bonuses of about ten per cent. in addition to the amount previously received, at a cost to the Company of over \$250,000. Payment on Death Claims in 1910 will be increased over and above the face of the Industrial policies by amounts determined by the following scale: When death occurs after policy has been in force over 5 years... 5%. When death occurs after policy has been in force over 10 years... 10%. When death occurs after policy has been in force over 15 years... 15%. When death occurs after policy has been in force over 20 years... 20%. When death occurs after policy has been in force over 25 years... 25%. When death occurs after policy has been in force over 30 years... 30%.

The cost to the Company of these CASH bonuses is estimated at \$5,204,639.95

Added to the bonuses heretofore paid for the last sixteen years OVER AND ABOVE THE PROMISES MADE IN THE POLICIES, this will bring the total CASH bonuses up to

Twenty-one Millions of Dollars in CASH in 17 Years!

The Additional Cost of Concessions in Reserve Liability has been Four Millions of Dollars

- 1. Decrease in expenses—TEN PER CENT. in nine years to the close of 1908. 2. Saving in the Mortality which was expected when policies were issued. 3. Gains in Interest actually earned over the amount required by statute for accumulation of Reserves. 4. SUGGESTS INVENTORY OF NATURAL RESOURCES

Hon. Clifford Sifton's Opening Address to the Conservation Commission.

OTTAWA, Jan. 18.—(Special).—The Conservation Commission held its opening session this morning under the presidency of Hon. Clifford Sifton. In his address, Mr. Sifton described the commission as an independent national body, whose object was to help and co-operate with other bodies. The first work, he said, ought to be to make a complete and thorough inventory of natural resources so far as available information permits. In order to make information available for public use, and to permit of an intelligent and comprehensive policy of conservation being carried out.

A sub-committee could take up the question of fighting the white plague. The pollution of rivers and streams was getting to be a serious question. It was being dealt with only in a partial, perfunctory and haphazard fashion. There was need of systematic legislation by the provinces and the Dominion.

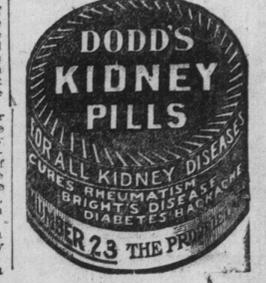

Mr. Sifton suggested the creation of two great forest reserves, one of all the forest land on the east slope of the Rockies, and the second embracing all the provincial government land south of the height of land extending from Sudbury to the neighborhood of Port Arthur, except such portions along the railway as are fit for cultivation.

Endorsing the hydro-electric power policy of the Ontario Government, he said there should be a fundamental law governing the development of all water power, retaining public control of water, and asserting the right of the government to participate in the profits on a scale, small at first, but providing for increase and revision in the future.

Incidentally, Mr. Sifton let fall a few remarks which hinted at his early retirement from politics. Earl Grey was glad that Mr. Sifton had determined to divest himself of his party coat in order that he might put up his shirt-sleeves and fight effectively in the interests of a conservation. The future prosperity of Canada, he said, depended on scientific research, and upon the efficient application of the results of that research to the industrial and physical life of the people.

WOULD ENUMERATE SLAUGHTER.

WASHINGTON, Jan. 18.—Striking a blow at the alleged manipulation of slaughter house products and effect on high cost of living, the Crumpacker bill, providing for enumeration at the coming census of all cattle, calves, sheep, lambs, hogs, goats, and kids slaughtered, was ordered favorably reported to-day by the house census committee.

B.C. COAL LAND AFFAIRS ATTRACT ATTENTION

Rumored That Secret Agreement Exists Between C.P.R. and Dunsmuir Interests.

VICTORIA, B.C., Jan. 18.—It is understood that the contemplated purchase of the mines and extensive interests of the Western Fuel Co. at Nanaimo, by the Toronto syndicate, which is virtually the Crown's Nest Pass Coal Co., has fallen thru, altho the special report of Engineer McEvoy upon the properties to the prospective buyers was highly favorable. The stumbling block is reputed to have been the question of price.

There has also been a suggestion that the Crown's Nest Co. might acquire by purchase the Dunsmuir coal interests on Vancouver Island, but collectors men declare that sufficient capital was not available to swing the deal, which would mean a multi-million transaction.

In semi-official circles there are again whispers of pending developments in the matter of the taxation of the Dunsmuir coal measures. These, estimated to be worth at least \$100,000,000, are by the terms of the Esquimalt & Nanaimo Railway land grant, immune from assessment and taxation so long as they (as part of the grant) remain unalienated from the railway. When the railway was acquired on purchase by the C.P.R., the land grant of roughly a million and a quarter acres would have become a quarter million had it been retained by Ex-Governor James Dunsmuir, as originally contemplated. This chiefly owing to enabling the C. P. R. to secure the lands with the railway at a bargain price of approximately \$2,000,000, a secret agreement being simultaneously executed between the C. P. R. and Dunsmuir interests, which agreement included a number of leading men of Victoria claiming to have seen, including several provincial public officers, under which all coal rights are retained by the Dunsmuirs.

BUOYANCY HAS VANISHED.

The first batch of real liquidation of speculative holdings faced the Toronto market this morning. The selling was doubtless precipitated owing to the continued and decided weakness at New York. Mackay, Penman, Twin City and Sao Paulo were among those discarded by holders, and at lower prices than yesterday. Dominion Steel and Coal were both heavy, and as a rule, the undertone to the market was soft. Even in the investment shares there was a tendency to shy off from purchases. All buoyancy has undeniably vanished for a time.

Rallies Are Only Temporary In New York Market as Yet

Stocks Still Pumped Out by the Big Financiers—Local Traders Get Scared and Liquidate Long Stocks.

World Office, Tuesday Evening, Jan. 18. Without any special value reason for selling, otherwise than the sentimental influence of Wall street, speculative stocks in the Toronto market to-day were weak. The outstanding speculative long interest in this market is not considered to be very large, but it is evidently nervous as stocks were shot out this morning with celerity.

Yesterday's supposed break in Mackay 40 to 50 on the New York Market, brought good many long local holders to time to day, and they appeared to be well satisfied to be relieved of their stock two points above what the New Yorkers made the shares appear to be worth.

Liquidation in Dominion Steel and Dominion Coal is well restrained and in the former it looks more like a species of hypochondria than anything else. Twin went with the rest of the market freely traded in issues, but the market has upset affairs for sometime and nobody is likely to be bold enough to try and inflate quotations until the present scare has worn off.

Joseph says: New York Central is being well watched, and attention is being given to the Hawley stocks will be well in the van of any tangible betterment. Fractions should be held. Buy Pacific for turn.

We find the following stocks bought with caution, for stocks have been generally well on a scale down. Atlantic, Canadian, Southern Pacific, Pennsylvania, Rock Island and Southern Railway. We think they should be taken whenever soft and averaged if necessary.—Financial Bulletin.

Will Pay Increase in March. The next quarterly dividend of the Canadian Bank of Commerce in March will, it is stated, be at the increased rate of 9 per cent. per annum, as announced at the annual meeting by Mr. Laird.

On Wall Street. Erickson Perkins & Co. had the following: The stock market had rallying spells during the day, but these were promptly used to sell on, as we have pointed out from time to time. Prices broke badly in the last half hour, with the grangers touching the lowest on the movement. Hill stocks led the decline. The afternoon rally was accompanied by a rumor that the government would dismiss the Union Pacific suit. This met with denial and prices broke after that. U. S. Steel held as well as anything, yet closed with a small net loss.

Liquidation promises to continue and we see nothing but receding prices in sight, interspersed with occasional rallies. Reduce long lines on all bulges. The presidential policy of corporate legislation cannot fail to disturb sentiment.

Charles Head & Co. to B. R. Bonnard: Market opened at fractional decline in correspondence with London quotations. A slight rally occurred in the day following a period of dullness.

and would draw attention to the salient factors that determine the value of a stock investment, viz: THE CHARACTER AND STANDING of the men controlling the affairs of the enterprise.

INTERNATIONAL TOOL STEEL CO., LIMITED

INVESTORS OF FORESIGHT realize that the time to invest in a proposition of this kind is now, as the stock is first offered for subscription. It is then that the investor is most apt to receive the greatest return on his investment, because it is then that the stock is at its lowest price.

In the course of time, when the International Tool Steel Company Limited shall have reached a prominent position among Canada's industries of the first rank, and is on substantial dividend-paying basis, it is natural that the stock of the Company will be much sought after, consequently will have a market value much greater than the figure at which it can be secured to-day.

It is confidently anticipated that the earning power of the Company will be sufficient to enable it to pay a dividend of 100 per cent. of preferred dividends, for distribution among the holders of the common shares.

The preferred shares are offered for public subscription at their par value—\$10 per share—substantially at a discount, a bonus of 100 per cent. of common stock for a limited period.

N. TORONTO COUNCIL TALKS DOUBLE TRACKS

Engineer Has Report on Yonge Street Work—Council Appoint Assessor—County News.

NORTH TORONTO, Jan. 18.—(Special.)—To-night's meeting of the North Toronto council, attended by all the members, and dealing as it did with a number of important topics, was full of interest from start to finish. Two or three contentious matters were under fire, notably the appointment of an assessor, and Councillor Reed's sub-committee on the tubes question, each of which evoked a long and heated discussion. In the first, John Cleland was nominated by Councillor Pears, while R. B. McQueen was brought out by Councillor Muston and Councillor Howe. Arguments pro and con regarding the relative merits of the rival candidates were advanced by their nominators, but Mr. Cleland was the choice, the vote being as follows: For Cleland there were Mayor Brown and Councillors Murphy, Lawrence and Pears, and for McQueen, Councillors Howe, Muston and Reed. The salary was fixed at \$400. This office was formerly held by J. M. Whaley, who resigned, owing to ill-health.

Talked Double Track.

Mayor Brown stated that at the invitation of the Metropolitan Railway, an informal conference had been held, at which the question of double-tracking Yonge-street was under discussion. No progress was made, but Engineer Brooks had prepared a report relative to the cost of macadamizing and kerbing Yonge-street from the southerly end to the north limits, and this will later be submitted.

Regarding the failure of the railway company to live up to the order of the railway commission as to the improvement of the roadbed, the company have referred the matter to the court of appeal, and the decision is now pending. "The question of the Sunday car service can be discussed at the same time as the double-tracking of Yonge-street," said the mayor, and there the matter ended.

North Toronto has a number of justices of the peace, but many a man of ability and high character, and for this reason it is proposed to secure the services of Police Magistrate John A. Ramsden to deal out even-handed justice in the local courts. The proposition to-night to appoint Mr. Ramsden was favorably viewed, and the mayor and Chairman Lawrence will see the latter as to the remuneration. Councillor Frank Howe took exception to the report appearing in certain papers that the \$30,000 voted by the council for the expansion of the water supply to the parallel roads would not be sufficient. "We have said nothing of the kind," said the worthy councillor, "and moreover, we are now endeavoring to give these fellows just what they are asking for."

The communication of Robert Cook re the widening of Yonge street, considered for the present, and the recommendation of the committee that Engineer Black get an advance of \$100 to his salary making it \$900 was adopted. Chief Collins estimates of \$81.50 for uniform and sundries throughout the year was adopted. The report of the committee that a water supply in the neighborhood of the pumping plant, and the report of the Engineer Black's report as to the amount of water pumped and the cost was submitted and adopted. Incidentally it was shown that the quantity of coal consumed would triple over 30,000 lbs. at a cost for pumping of 2-4 cents per 1000 gallons for coal alone. This was considered satisfactory.

Wants Special Committee.

The council took in moving for the appointment of a special committee to confer with the heavy one control re the "tubes" with himself as chairman, and to act independently of the council, did not meet with very hearty approval. "I think we are more capable to deal with this matter of the tubes than any other member of the council," said he, "and I want to go down and speak with authority to the city. "There are other things to be considered beside tubes," said Councillor Lawrence, "and when we go there, we must go as a committee of the whole. Incidentally he mentioned sewerage. "I don't want it mixed with the sewerage, but kept clean," said Councillor Reed.

REFUSED MEDICAL AID WILL OPPOSE EXTENSION

And Now Her Child is Dead From Scarlet Fever. PORT HOPE, Jan. 18.—Lina Elizabeth Ennis, the juvenile daughter of Mr. and Mrs. Albert Ennis, Elgin-st., passed away this morning from complications, the effect of acute scarlet fever. Mrs. Ennis is a Christian Scientist and refused medical aid. The child was out sleigh-riding on Saturday in a raging fever, and much local interest has been aroused in the case. Two others in the family have the disease and were not reported.

What One Alderman Did.

CHATHAM, Ont., Jan. 18.—On the inspiration of a moment, in the midst of a hot council squabble last night, Ald. Frank E. Baxter sprang a new one, "Ald. John McCorvie hunkered-caddled on that last vote," he burst out. The mayor called him to order for slang. "It's not slang," yelled Ald. Baxter. "It's the truth; he hunkered-caddled." The council of ministers has decided that the United States proposal for the neutralization of the Manichurian Railways is not acceptable to the Russian Government at present.
