DAYLIGHT SAVING MEETS APPROVAL

Citizens Asked to Observe New Hours Starting at Midnight Saturday.

OF CITY COUNCIL

DEBATE IS SPIRITED

Council yesterday passed the recommendation of the board of control that the mayor be authorized to issue a proclamation requesting the citizens to observe daylight saving time from 2 a.m. on Sunday, May 2, until 12 o'clock midnight on Saturday, September 25th. About three-quarters of the members of council

voted for the measure. Noted for the measure.

Ald. Blackburn was responsible for the resolution to reject the recommendation, and amendments were moved by Ald. Honeyford to make the new time effective in June, July and August, and Controller Maguire, who wanted it effective in July, August and September. Less than half a dozen members supported the amendments. Controllers Maguire and Gibbons voted against the final and Gibbons voted against the final adoption of the resolution and Mayor Church and Controllers Ramsden and Cameron supported the recommenda-

The issue was debated at length, and a deputation of ladies appeared to offer opposition to the measure. They argued that daylight saving time was a hardship on the women and injurious to the health of the children who went to bed no earlier but were obliged to get up an hour

Ald. Beamish spoke in favor of the recommendation, and Ald. Singer was opposed to summer time unless generally adopted all over the Dominion, Ald. Honeyford thought the arguments in favor of the measure predominated, and moved an amendment to make the

DIRECT DIPLOMATIC RELATIONS SOON BETWEEN CANADA AND U.S.

Announcement at American State Department That Definite Overtures Have Been Made and Geddes to Leave for Ottawa.

Washington, April 26 .- With the approval of the British government, Canada has made definite overtures to the United States for the establishing of direct diplomatic relations between the two adjoining countries, Announcement to this effect was made at the state department tonight, following a conference today between Secretary of State Colby and represen-

tatives of various American print paper manufacturers and publishers concerning the increasingly difficult position in which these interests are finding themselves as a result of the Canadian embargo on the export of pulpwood. It is understood here that Sir Auckland Geddes, the new British ambassador, will soon go to Ottawa and there arrange details of the new relationship, including the selection of the Canadian representatives to be sent to

STRONGLY CONDEMNS

Situation is Graver Than for Centuries-No One Punished for Murders.

FURTHER OUTRAGES

London, April 26 .- In the house of ommons tonight, Lord Robert Cecil strongly condemned the Irish administration. He said the situation in Ireland was graver than for centuries. Sixteen murders were committed in the first three weeks of April, as com-pared with 36 in the last three months and during the last week there was one murder daily.

No arrests thad been made, no one

had been punished, and there was no protection for the public against vio-ence. The government, he declared, and shown serious vacillation and want of resource. If convictions could not be obtained under the existing aw, the law must be altered, and, if necessary to bring prisoners to Engand for trial, soldiers should be used to protect the police.

to protect the police.

The viceroy, said Lord Robert, should not be a soldier unless he had very special administrative capacities. Unless the government proved its capacity to govern, the country would drift thru anarchy and humiliation to an irish republic.

Confidence in French.

Replying to Lord Robert Cecil's strictures, Andrew Bonar Law, the government spokesman regretted that the matter had been raised in the absence of the Irish secretary, and when the new commander-in-chief in Ireland had only just been installed. He emphasized the impossibility of securing evidence, and this would make trials in England useless. Moreover, Irishmen would regard such trials as worse than court-martial. The government, said Mr. Bonar Law, was prejpared to do anything to prevent persons arrested from commiting suicide by a hunger strike and thus becoming martyrs, but he defied anyone to say that these men should be allowed freedom to continue their conspiracies against their fellow-countrymen.

He declared that Viscount French had the full confidence of the government, for he was doing his best in a difficult situation. Confidence in French.

ation. The government desired good re-lations with Ireland, and those who thought normal conditions could be re-stored by sending scores of thousands of soldiers to Ireland were greatly mis-taken.

Mystery of Woman's Disappearance Cleared Up by Discovery of Body in Attic.

Indianapolis. April 26.—A mystery of 20 years standing was cleared up today when the skeleton of Miss Carrie T. Selvage, who disappeared whi an inmate of an Indianapolis Hospital March 11, 1900, was found in the attic of the building that had been ormerly occupied by the hospital.

The skeleton was identified by the woman's two brothers thru the cloth-ing draped about it, a dark blue flannelette wrapper and black felt

ouse slippers.
The woman's remains were found in a second attic, a small corner about three feet by four. The Selvage brothers said today that when their sister disappeared they searched the building thoroly and did no learn of the existence of the second attic. The coroner declared it would be impossible to determine whether the woman hid herself in the place and starved to death or was carried

TALES OF CLEAVAGE BETWEEN ALLIES 'SLANDERS' AND "CRUEL." SAYS CURZON

London, April 26.—Stories published in France and England asserting that there is dissension among the members of the supreme council are termed "slanders" and "cruel," in a statement issued by Earl Curzon of Kedleston, the British foreign secretary, and telegraphed to the foreign office from San Remo today.

Almost simultaneously the foreign office received an official message from the United States, saying the reports of the alleged dissension, which had been republished in America, were creating a "deplorable" situation.

Earl Curzon's telegram said that the British delegation in San Remo "is at a loss to understand the reports of cleavage" and that "there is not the slightest foundation for these slanders." The message added that the reports "seem to us cruel, when the allies are bending every effort to reach a common agreement."

In his message Earl Curzon did not mention the German situation, but he said the supreme council had worked continuously for a week on the Turkish treaty and had unanimously agreed on every point.

The supreme council will sit at least until Tuesday night, the message of Earl Curzon said.

ABANDONS ATTEMPT TO REACH THE POLE

Amundsen, Icebound Off Siberian Coast, Awaits Opportunity to Sail South.

Washington, April 26 .- The Amundsen polar exploration party, in the steamer Maud, is icebound at the mouth of the Kolyma river, Siberia, and awaiting an opportunity to sail southward, it was indicated in radio despatches made public today at the navy repartment. Amundsen, who discovered the south pole, apparently had abandoned his attempt to reach

the north pole. The expedition left Dixson island, in the White sea, in September, 1918, and had not since been heard from until the navy radio station at Cordova, Alaska, established com with the party recently. The first message from Amundsen was picked up at Cordova on March 25 from the station on St. Paul's island. It said: "St. Paul reports S.O.S. from Russian station at Anadir, stating Amund sen expedition icebound in Kolyma

handle important despatches." Later radio messages were inter-changed between Amundsen and his family in Norway, but no information regarding the condition of the mem

river (Siberia), and requesting we

bers of the expedition, or the reasons for turning back, were given. A despatch received today in answer to a message to the Cordova sta-tion, asking for all available information regarding the polar party, said that a messenger had started south, and that Amundsen intended to take the steamer Victoria at Nome, Alaska, for Seattle, but that the time would depend on when the expedition could get clear of the ice. This message came from the Anadir, Sibema, station, several hundred miles from the mouth of the Kolyma river.

Officials at the navy department said it was probable that the Maud, Amund-sen's ship, was still icebound in the Kolyma river, and that a party had been sent overland to the trading post radio station on Anadir bay to establish communication with the outside world. It was not considered probable that the explorer had been able to get the Maud around to Anadyr thru the

TOWNS TO SEEK FOR RADIAL GUARANTEE

Deputation to Visit Parliament Buildings Concerning Toronto-Eastern.

A deputation representing the towns on the line of the proposed. Toronto and Eastern radial railway, neluding Pickering, Whitby, Oshawa and Bowmanville, will visit the partament buildings on Thursday to interview the government on the question of guaranteeing the bonds of the foronto and Eastern radial railway.

Rumors have been current that the its not to blame for the sky-rocketing government is doubtful about the wisdom of helping the Hydro Commission to build this road from To-ronto to Bowmanville this year, and those towns which have voted by large majorities to guarantee the conds of the road are anxious to have a definite statement from the Drury cabinet. They want construction to start at once, but the Hydro Electric bonds have to be guaranteed by the provincial government before they can be marketed. The bonds of the various municipalities are merely neld by the Hydro Electric Commission as collateral.

T. A. Gibson, counsel for Coppen, conveyed the decision of the appellate division to the doomed man in his cell at the jail yesterday, immediately after the decision was given. Coppen showed no anxiety, and was quite cheerful, said Mr. Gibson. "He was undisturbed over the verdict. It was marvelous the way he kept his composure." The condemned man did not volunteer any statement and expressed appreciation of the efforts made on his behalf. Mr. Gibson suys he has not yet given up hope, and intends to ask the trial judge to grant a short reprieve so that the case could be taken to Ottawa. CURB EXPORT TRADE URGE THE WOMEN

Consumers' League Determined to Control Cost of Living.

FOR CANADA FIRST

Osgoode Hall yesterday refused a new trial to the condemned man, George Coppen, who presently lies in Toronto jall, under sentence of death for the murder of his wife in their home in Merton street, North Toronto. The stated case was granted on the ground of alleged improper procedure at the jury trial, presided over by Mr. Justice Latchford.

The Canadian Manufacturers' Association believes that while it is evident that the postoffice must secure of the zone system, placing a higher bought carload lots of potatoes in the country at \$2 a bag, selling them in the city at \$2.25 a bag. In this way the wholesaler made a profit of 10 per cent. upon money invested. Today he may be making a slightly increased profit. There are cases where profit teering can be shown to be a strong factor in the high cost of living, but in the main, the real cause of the trouble is the failure of the government to control the export trade of Canada. This, at least, was the gist

posed immediately, would place a neavy burden on publishers.

The association is opposed to the introduction of the zone system, because it tends to sectionalize publications. It is most desirable that the various parts of Canada should be kept in touch with one another, and this can best be done thru the wide circulation of publications, especially

The Price of Bread Has Advanced One Cent A Loaf

Who Gets the Extra Cent? Certainly Not the Baker

Because of the increased cost in your daily loaf you are inclined to think yes, and to say the baker is a profiteer, and at the same time you are very apt to forget that

The Price of Every Other Food Stuff Has Advanced About Seventy Per Cent

The Bakers of

have been slow to advance the cost of bread-for although the price of flour advanced from \$11.00 to \$13.25 a barrel on December 19th, 1919, no change was made in the price of bread until January 17th, 1920, when the price was advanced one cent, and this did not cover the actual advance in the cost of the flour, but we still had some stock left purchased at the former price, and have up to now given the public the benefit of that purchase-

Considerable sugar is also used in the making of CANADA BREAD—and this ing has advanced three hundred per cent.

The advance of one cent a loaf has not been a matter of choice but one of necessity to the baker. As a matter of fact, the extra cent you pay for your loaf of bread does not stay in the hands of the baker at all, for behind him stands that long, long line of contributors to the loaf-all with outstretched hands demanding a share of it-

The grocer—the jobber—the miller—the shipper—another shipper—the grain elevator keeper-shipper No. 3-all these with their helpers-and back of them the farmer and his helpers—and amongst them all you'd wonder that there would be enough in your one cent to go around all of them-

Instead of being a profiteer, in reality the baker has done more than any other one factor in standing between the public and the high cost of living—the bread he bakes—CANADA BREAD—represents your greatest food value—wholesome nutrition in its least expensive and most economical form-

If you really want to keep down the cost of living-if you want to pay less for your breadthere is one sane helpful way you may do so-and that is

To Eat More Bread

and this is the way—Eat two slices for the one you are eating now—this will, of course, double the volume of bread production and thereby reduce the cost of bread production so that the bakers of CANADA BREAD can afford to bake bread at the lowest possible margin of profit—and will not be forced to raise the price of bread again in order to meet the excessive increases that now beset on every side.

In CANADA BREAD "The quality goes in before the name goes on"-insist on qualityall breads are not equally nutritious—let the taste be your guide—for the loaf that tastes best-has the most delicious and tempting flavor-will certainly have the greatest food value—CANADA BREAD is the best bread baked—

To Limit the Sale.

On second reading of the bill, Mr. Rowell explained to Dr. Andrew Thompson, Yukon, that Canada was a party to the international opium convention which had been signed at Shanghai, in 1909, and which subsequently was made a part of the treaty of peace with Germany, It was provided that when the peace treaty was ratified, such action would automatically ratify the opium convention. Canada was now taking steps to limit and control the sale and distribution of opium and its derivatives, in accordance with the regulations of that convention.

prove a misfortune to the laboring class has been expressed by at least one Canadian economist. James Murdock, labor commissioner on the board of commerce, asked for his opinion on the movement, stated:

"If the gentlemen who, it is alleged, are going to wear overalls (no doubt many of them for the first time) will wear them until the articles require patching, or longer, the campaign may have a beneficial effect. If, however, a temporary fad only is to be indulged in, the result will no doubt be to increase the price of overalls to the laboring man, who has to wear them."

FALCONS WIN WORLD TITLE; DEFEAT SWEDEN HANDILY

Canadian Speed Merchants Had an Easy Time in

Cans, Czecho-Slovaks and Swedish Play for Second Prize.

The goal that Sweden scored in the final against Canada last night was likely a girt. Tho the same team had tallied nine against Belgium and France they were evidently no match for the Falcons. In Europe they have evidently a lot to learn about hockey, and will hardly become expert until they import players from Canada, like the United States and then develop some kind of form by contact. Then perhaps at the next Olympiad a Swedish team, say, with a couple of naturalized Canadians in the line-up, might put up a good fight in the competition, after the manner of the Americans at Antwerp.

Tonight's victory of the Canadian team was fully expected, it being regarded largely as a question of the size of the score the Icelanders would run up against their sturdy but less experienced opponents. The real test in the series came Sunday night, when the Falcons, after a fast game, defeated by a score of 2 to 0 the team representing the United States. That was looked upon generally as the deciding factor in the champion-ship tests.

The Swedish team, which won handily the Swedish team to the final against Canada last night tallied nine against Belgium and France they were evidently no match for the final against Canada last night tallied nine against Belgium and France they were evidently no match for the falcons. In Europe they have evidently no match for the falco

as the deciding factor in the champion-ship tests.

The Swedish team, which won handily from Belgium in the preliminary canter, was composed of star skaters, who lacked, however, the long and arduous training in the game that would fit them to cope with a first-class team. The Swedes played desperately from first to last, working heroically to score, and, despite the fact that they were hopelessly outclassed, their stubborn defensive work kept the tally away below what the balance of play indicated.

It is a noteworthy fact that the result of every contest in the Olympic hockey series to date, except tonight's, has been a "whitewash" for the losing team. The Canadians, in carrying off the world's championship, have figured in three games.

Under the Olympic rules, all teams directly beaten by the champion team must compete for second prize. Thus, the American, Czecho-Slovak and Swedish teams will now play off.

The American team will play Sweden Tuesday night, and the victor in that match will play the Czechs, who have drawn a bye, on Wednesday. The Americans are easy favorites in this series.

SHORT STORIES

thru the season without defeat.

Old timers remember Andrew Friedman, who was supposedly owner and really the president of the New York Giants from 1895 until 1992, was the champion stormy petrel of baseball, including any magnate, manager, player or groundkeeper the game ever had. In eight seasons Andy hired and fired twelve managers, which included Capt. Anson and "Scrappy Bill" Joyce. Friedman had many battles, both verbal and fisticulfs. He suspended the greatest and most valuable pitcher the game had at that time. When the mighty Rusie was at the height of his carrer as a hurler and a drawing card equal to Walter Johnson, he was suspended for the season for refusing to sign at Friedman's figures. Rusie's absence cost Friedman many thousands of dollars and a possible pennant. Yep, the aggressive Andy was the champion stormy petrel, all right.

Two teams were playing in a semipro game in Kentucky. The score was
2 to 2 when the home team went to bat
in its half of the ninth. The first man
up met the ball fairly and it started toward the right field fence. On its way
the ball split into two parts. One 'ell
on the field, the other part just cleared

Toronto Intercollegiate Handball League Officers and the Schedule

The Intercollegiate Handball League held an organization meeting at De La Salle Collegiate, Bond street, for the purpose of organizing and drawing up a schedule for the coming year. Mr. H. Daley occupied the chair. Representatives were present from De La Salle, University Schools, Jarvis C. I. and St. Michael's College. After a short deliberation it was decided to leave the playing rules unchanged, but it was universally agreed that the Harry Phelan Trophy should in the future go to the school that won the most number of games. Formerly the cup was presented to the player winning the gold medal. The retiring president, Mr. H. Daley, gave a short synopsis of the playing activities of the past s son, pointing out that the trophy had en awarded to the U. T. S., and that E. Wells of U.T.S. and Cawkell of D.L.S. ad received medals

Boots Carlyle has a cultivated soprano voice and carries off the honors in this respect without much serious opposition. She landed solidify with "Dardanella" and was forced to provide four encores. Florence Radellife cops the appearance honors of the female contingent pulled up to a walk. Other members of the cast are Lulu Beeson, who is a graceful dancer; Will Fuller, Bill Blett and Donald Trent.

The chorus is a thard working aggregation and go about their work in a businesslike manner. It is composed of many striking girls, several of whom give promise of cast material.

There is no questioning the right of "The Sporting Duchess." Vitagraph's picturiaztion of the famous Drury Lane melodrama, to be deemed a production of merit and magnitude. The racing atmosphere for which the stage play was so remarkable, has been splendidly maintained in the film version. Alice Joice is the star of this photoplay, which is being presented at the Madison Theatre the first half of this week, and her every move adds dignity to dramatic situations.

Well-Known Business Man Says He Has Gained Sixteen Pounds on Four Bottles of Tanlac, and Feels Many Years Younger.

"I am now able to eat three square meals a day for the first time in two years," was the emphatic statement made recently by Joseph A. York, well-known business man and highlyrespected citizen of Portland, Maine.

respected citizen of Portland, Maine.

"I am now sixty-nine years of age, and in all my life I have never run across a medicine that I consider in a class with Tanlac. I have just finished my fourth bottle, and this medicine has benefited me even beyond my greatest hopes. Besides gaining sixteen pounds in weight, I have been built up and strengthened until I feel all of twenty years younger.

At the annual meeting of the ladies of the Lakeview Golf Club, the following were elected as the executive for 1920: Mrs. McMullen, president; Mrs. W. Forsythe, captain; Mrs. J. Snider, vice-captain; Miss Francis Cassidy, secretary; Mrs. Peter Griffin, assistant secretary.

LAST PLANS MADE FOR BLIND TAG DAY

Institute's Efforts for Sightless Show Promise of Assured Success.

If preparedness makes for success then the success of the tag day for the blind, May 12, is assured. The meeting of captains held at Government House yesterday afternoon was well attended and enthusiastically conducted, the convener, Mrs. Lione Clarke, presiding. Something of what Clarke, presiding. Something of what is being done was reviewed by Mrs. Clarke, who showed that, whereas, formerly those afflicted by blindness were left pretty much unaided, now, thru effort, this class of the community are being put in a position to be eventually self-supporting. In the workshops that have been opened in Toronto, and where women and men are being taught different trades and avocations, girls and women are now are being taught different trades and avocations girls and women are now earning from \$9 to \$13.50 a week, and men from \$9 to \$16. The work done is rought by the Institute for the Blind at a price agreed upon, and if the articles sell for more, this is given to the worker; if it sells for a less represents the institute of the sells.

en to the worker; if it sells for a less price; the institute is the loser.

Clarkeson Home.

The girls' home called "Clarkeson" is another care and a new residence which will accommodate 30 is being opened. Since the beginning of activities of the Canadian National Institute for the Blind, the blind have come from many parts of Canada and all will be benefited by the "tag."

Mrs. Clarke pointed out that the government has a splendid institution at Brantford, but this is for those below the adult stage, who, if opportunities were not given, would in many instances return to their homes without any means of putting into practice the things they had learned. What is being taught in the shops will be shown on May 11 and 12 at the Hydro nead-questies on Volge street where three on May 11 and 12 at the Hydro head-quarters on Yonge street, where three men and two girls will demonstrate. Samples of articles which are the product of home workers from all over Canada will also be on hand. It is estimated that there are 6,000 brind in Canada, the number regis-tered with the institute being 2.729, and cases in Toronto, 488. Since its establishment two years ago, the Can-adian Institute is operating and main-

There are several origins from which she might have sprung. In England, she appears most frequently as a convenient contraction for the dignity of Cordelia. The truly Irish flavor of Bedelia and the popularity of Delia in that country might give rise to the contention that the latter name is the diminutive of the

old song-favorite.

But Delia, according to the best etymological authorities, is a separate and independent name, which has its source in no less an exalted realm than the mythology of ancient Greece. It was Artemis or Diana, the moon goddess, who, being born at Delos, caused the place of her nativity to be immortalized in Greek mythological his-

York.

A reception was given by Montreal nursing-sisters who had served overseas, in honor of Miss Margaret C. Macdonald, R.R.C., matron-in-chief of the Canadian Army Medical Corps during the war. The reception was held at the Venetian Gardens, and was attended by doctors and their wives as well as nurses. Miss Young, lady superintendent of Montreal General Hospital, Mrs. Scrimger, Mrs. Spalding, Mrs. MacMillan, and Miss Massey, composed the reception committee, and received with Miss Macdonald, and Miss Rayside, R.R.C., who accompanied Miss Macdonald from Ottawa. Miss Macdonald was wearing a navy blue satin dress and black and gold hat, and a corsage bouquet of Ophelia roses presented by the nurses. Following the reception, tea was served at tables decorated with flowers, and dancing went in to the accompaniment of an orchestra.

At the annual meeting of the ladies of nine name Delia was evolved from Delos, and sprang to instant fame in American poetry. Lovely shepherd-

and it was straightway autored that country.

Since Artemis was the moon goddess, it is fitting that Delia's talismanic gem should be the moonstone. It will bring its wearer good fortune, and will prove an exceptionally lucky jewel if it is a gift from a sweetheart. It is said that lovers can read the future by looking into, its depths when the moon is full. Monday is Delia's lucky day, and four her lucky number. Dewart, K.C., moved a resolution of deep regret at the death of Mr. MacKay, and an appreciation of the valuable services he had rendered to Ontario and Alberta.

Premier Drury rose to second the resolution saying that the deceased was a man who had done much for the province. "He had a brilliant mind," said the premier, "a mind of which Ontario might well be proud."

WHEN YOU EAT LET IT BE THE BEST.

GOES THE PRICE

You knew it would, and have perhaps been expecting the price to be raised before now. As has always been the case, the Geo. Lawrence Bakery does not raise its price until absolutely compelled to, and brings down its price the moment it is possible to do so. That is the history of Lawrence's dealings with the public. It can be epitomized in a few words—the best bread a baker can make and the lowest price it can be sold for.

The recent advance in price of the best flour and the increase in wages has compelled us to raise the price of bread. Many towns and cities round about have been paying 13c a loaf for some time, but we would not raise our price until we absolutely had to.

SAVE A DIME EVERY TIME

As is always the case, Lawrence is meeting the public with a generous concession; in a conscientious effort to combat the high cost of living, the Lawrence bakery offers

DISCUSS ADDITIONAL LEVY BY RAILWAYS

Demand for Payment in U. S. Currency Means Considerable Fresh Impost.

Montreal, April 26.-No decision was arrived at today in the conference held at the board of trade here between the transportation bureau committee of the board of trade and representatives of the New York tral, Delaware and Hudson, Cana-Central, Delaware and Husson, Canadian Pacific and Grand Trunk Railways as to the incidence of the recent order issued by the railways regarding prepayment of freight from the United States to Canada so as to avoid the difficulty of differences in

ferences will be held, as it was felt today that the discussion had cleared today that the discussion had cleared the air in regard to many points of the new arrangement. The general rule will probably go into effect May 1, but it is possible some modifications may be made, as to which further notice, if any change is made, will be issued.

but toward the last there was some lessening of the eagerness of bidders. In this connection, it was said that, owing to the swift advance of pr.ces, fresa export dealings in rye and wheat had come to a halt.

Topmost prices ever known were reached by oats available for immediate use. It was predicted that, as a result of adverse field conditions, re-seeding to an unusual extent would be necessary. Provisions averaged higher with grains and hogs.

M THE PRICE TREND

Wall Street Buoyancy Does Not Have Much Influence on Domestic Stocks.

MAPLE LEAF DOWN AGAIN

Wall street presented a more buoyant position yesterday and left some, leeway for making a better market for the Canadian specialties, particularly the paper stocks. Abit.bi was put up 25 points from Saturday on the Montreal market, but Brompton the Montreal market, but Brompton and Spanish River were much more sedate in their movements. Other Canadian stocks were firmer with fractional advances, but this was not confirmation of any real change in the trend of prices. Maple Leaf was the one feature of weakness with a further decline to 163. Some activity was given to the Steamshis shares, but neither the common nor preferred responded much to the inside prodding. The preferred, after selling at 83, was not wanted higher than 82. Internationally held stock showed no resiliency. Brazilian was up % and C. P. R. to 131. Both sterling and New York funds showed unfavorable changes, and were not beneficial to the market. Investment issues, such as banks and war bonds, were about unchanged and the latter are thought to be dragged along the bottom of the decline.

INVESTMENT POSITION IS STILL ADVISABLE

Coleman & Reitze, New York, Make the New York Market.

The immediate trend in the share are really more formidable now than in the past seventeen months. With prominent American corporations prominent American corporations doubtful as to financing even at 7½ to 8 per cent., and with liberal added inducements in many instances; it is quite obvious that this position is so overextended that it is almost ready to crack wide open. It should also be remembered that the previous high record in commodity prices (around the first of May last year) was reached when the Victory oLan was floated and when the entire community was willing to overlook many forms of financial extravagance. This week we have reached still higher week we have reached still higher commodity price levels and the amount of new financing pressing against the market is not exactly a favorable stem because it favorable sign because it apparently will not be successful. The strictly investment position is still advisable.

movement of Cupan American Sugar was arregular, this stock selling from 58 down to 55% and back to 58. The other down to 50% and back to 58. The other industrials were comparatively quiet.

Brokers as Listless as in Midsummer, in Absence of Public Order

OIL STOCKS ARE FIRMER

Practically no change could be noted on the Toronto Mining Exchange in the opening for the week. Brokers were as listless as in midsummer. Quotations occupied most of their time on the floor and the infragrent transcriptors, gave avidence of their time on the floor and the infrequent transactions gave evidence of a distinct disinclination to trade by the public. Just what is to break up the lethargy nobody can say, and the market simply drops until something develops to bring about more activity. About 75,000 shares comprised the day's business, and a good deal of this came from stocks which represent mighty little money for the transfer. Sliver was quoted unchanged at 1.18, but silver stocks if anything were slightly lower. Little change was effected in the golds, but the support for McIntyre was lowthe support for McIntyre was low-ered from 205 to 204. The bid for Hollinger is still held firm at 6.30. Some business developed for the oil shares and Vacuum and Petrol were

WALL STREET IN

Better Showing of Banks Cheers Traders-Reading Up on Court Decision.

LIBERTY BONDS FIRM

New York, April 26.—An undercurrent dence pervaded today's moderately active stock market, sentiment among traders being very much heartened by the better showing of the fed-

amonig traders being very much heartened by the better showing of the federal reserve bank and clearing house at the end of last week.

The railroad strike was considered on the street to have lost some of its recent threatening aspects, aitho freight congestion was still acute. The street was inclined to pay less attention to the Mexican situation, judging from the strength of stocks involved in the affairs of that country.

There was an abundance of call money at 7 per cent., the local supply being fortified by offerings from interior banks, but time funds gave not the slightest indication of relaxing from their long-sustained tension.

The decree of the United States Supreme Court directing the disintegration of the so-called coal combine proved to be the real development of the day, coming after the session was more than half over. Reading, the central features of the alleged combination, made a net gain of 13% points and affiliated anthracite and bituminous coalers were two to five points higher at their best.

Much of the early and intermediate movement converged as usual around steels, equipments, motors and oils 'at extreme advances of 2 to 15 points. These were subjected to occasional realizing sales, but railied briskly before the close, General Motors overtopping all others at a gain of 18½ points.

Shippings, tobaccos, sugars and textiles were prominent for the large dealings, American Woolen gaining 10% on reports that some announcement favorable to the stockholders may accompany tomorrow's publication of the annual report. Sales amounted to 1,033,000 shares.

Trading in bonds was light, Reading 's gaining six points. Liberty issues also made a good showing, all but the 3½'s closing at gains. Total sales (par value) aggregated \$12,775,000.

PLOWING IN ALBERTA.

Better for them financially and for the progress of the mining industry if they abstained entirely from exploration until they acquired some real knowledge of ore deposits. It is a lamentable fact that in sheer self-defence prospectors have been compelled to refuse to these companies all ordinary rights of examination. Don't Overlook the Chauffeur's Uniform

A Smartly Uniformed Chauffeur Adds Distinction to Your New Roadster

In the spring of the year the chauffeur should have a smart uniform. Glittering in paint and polish under the sunshine, the car moves gaily down the street, and the man at the wheel should fit into the scheme with becoming garments.

Today, Simpson's Men's Store is offering seasonable clothing of this character. Smart uniform and overcoat effects, and also a series of dusters at various prices. Dusters for the man who likes to "tinker about" or more elaborate ones for country driving.

It is a good time to secure these mooring accessories.

Miss Rhoda James, Expert Knitting Teacher

-who is now in our Art Needlework Department daily, for the very purpose of making wool-knitting and crocheting a genuine delight. And though pullovers are the chief theme upon which color harmony is developed this season, you may learn to make sweater-coats, scarts, whole sets of adorable wool baby-things, afghans, lounge throws, tea-cosies and dear knows what not. Indeed, there's never a new note in knitting or crocheting but Miss James is versed upon it, and never a problem but she can solve it quickly and helpfully. No fee is charged for these splendid instructions and demonstrations.

Famous French Signed Etchings From the Continent

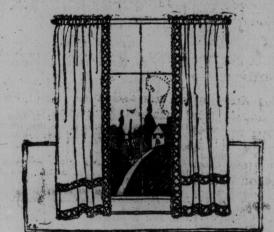

From Devembrey of Paris, a folio of important etchings, printed in color, with limited editions signed by the artists. Sizes vary from 14 x 18 to nearly 30 x 40 inches.
