PROBING DEATH OF OLIVE THOMAS

Also Rumors of Cocaine Orgies and Champagne Dinners

Jack Pickford, Her Husband, in Bad State of Health in Paris, and Declines to Receive Visitors.

Paris, Sept. 11.—The French police have begun an investigation into the death of Olive Thomas, an American moving picture actress, who succumbed yesterday to poison taken, it is said, by mistake, several days ago.

Investigation of sinister rumors of cocaine orgies, intermingled with champagne dinners which lasted into the early hours of the morning is also being made. These have been ahead in the American colony and among the habitués of the French cinema world during the last week.

Last night in the Sante Prison the police were closely questioning a man named Spalding, said to be a former United States army captain, who was sentenced to six months in jail last Monday for vending cocaine.

In connection with the death of Miss Thomas the police say they desire to interview Jack Pickford, a motion picture actor and husband of Miss Thomas, and also a woman friend of the actress, who is said to have accompanied Miss Thomas during her last pilgrimage to the Montmartre district, on Saturday evening. Mr. Pickford declines to receive visitors yesterday.

The physician who is attending him said he was in a very bad state of health.

RETURNS AFTER ADVENTUROUS OCEAN VOYAGE

Halifax, N. S., Sept. 11.—"We had a good trip across the Atlantic in the Typhoon, and believe me, cooking is more important than navigation," said Frederick W. Baldwin of Toronto, better known as "Casey" Baldwin of Baddeck, C. B., after he landed last night from the Cunard liner Caronia, on which he returned to Canada after his adventurous trip in the forty-five foot auxiliary yawl Typhoon, from Baddeck to Cowes, last month.

The Typhoon is now homeward bound, and Mr. Baldwin will be followed by the ship's crew, which is returning to the Azores. William Wallace Nutting, yachtsman and editor of the Motorboat Magazine, New York; James Donnet, mechanic, of Baddeck, and two English boatmen are bringing the craft back to Baddeck.

"There is nothing to say," answered Mr. Baldwin when questioned about the adventurous trip in the Typhoon, "we met some bad weather off the coast, but on the rest of the trip the weather was good."

FREIGHT DERAILED NEAR TAYMOUTH

(Special to Times.)

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "this is a nice day—I'll tell the world."

"I've seen just as nice," observed Hiram. "But still it's a nice day—if you know what I mean," said the reporter.

"I didn't say it wasn't," said Hiram. "A remarkably fine day—I'll say," went on the reporter.

"See here," said Hiram, "what's all these trimmings about? This 'the world,' an' if I know what you mean, an' so on? If it's a nice day it is a nice day—what's all that? Why don't you say that an' stop?"

"Why," said the reporter, "everybody does it—makes the remark more impressive—don't you think?"

"I don't," said Hiram. "It's like a fifth wheel to a coach. Some feller starts a thing an' then somebody else thinks it's smart—an' the fust thing you know everybody's got it. It's like them there hoops an' bustles the women used to wear when I was a young feller, Mister. You want to make a mark don't follow the crowd. It don't know where it's goin' or why. It just wants to be led. Hey a minor of your own an' you'll sit somewhere—yes, sir."

"You said SOMETHING," said the reporter.

ALL TOGETHER AS IN THE WAR

Governor-General's Call to Canadians at Luncheon in Edmonton.

Edmonton, Alta., Sept. 11.—"We should not rest on our oars, nor follow a happy-go-lucky line of conduct, but take our full share and part not only in the development of Canada, but also in world wide politics," declared the Duke of Devonshire, governor general, at a Canadian Club luncheon yesterday.

A plea for the unity of service that was demonstrated during the war in the province, was made by His Excellency. He emphasized the vital influence of public opinion in the administration of affairs and the solution of questions and urged its debate by persons well informed, well trained and capable of forming mature judgment on questions of the day.

The vice regal party reached Edmonton yesterday morning and were driven around the city on a sight-seeing trip.

QUARTER MILLION DOLLARS IN MONTH

Arrest for Juggling with Bills of Lading

Young Man Arrested in New York on Charge in Connection with Sugar Dealings with Firms in Greece.

New York, Sept. 11.—George Pteriotis, who, although he is only 25 years of age and looks even younger, is said by agents of the department of justice to have been the "master mind" in a bill of lading forgery scheme that netted \$250,000 in a month, was arrested here yesterday.

White Star line pier soon after the liner Adriatic docked last yesterday afternoon. Special agents Kennedy, Fogarty and Weissman arrested also three other men on similar charges.

The local bureau of investigation of the department of justice, made public last night the amazing tale of how, as is reported, youthful Pteriotis rose from poverty to affluence within a few days, and the equally interesting method by which he was induced to return to the United States.

He said that Pteriotis arranged with firms in Greece for his letters of credit with the big banks here. He had quoted the price on sugar so low that he could not have bought the sugar for his own prices in New York at wholesale.

His method of getting money was simple. Agents said he shopped two bags of coffee or two bags of rice to those firms in Greece with whom he had arranged letters of credit. The steamship line would give him a bill of lading. He would create two bags of sugar or rice with a milling machine subterfuge of 2,200 bags, or double bags, of fine granulated sugar.

Then, to put a bit of gliding on his handiwork, the agents asserted, he would give him a bill of lading. He had quoted the price on sugar so low that he could not have bought the sugar for his own prices in New York at wholesale.

He said he had ordered the chauffeur to go to the Automobile Bureau of the secretary of state at Broadway and Sixty-fifth street for a new driver's license and that he believed the man was on his way to that office when the accident occurred.

Fifteen other persons were injured in automobile accidents yesterday, and officers of the state constabulary reported that they had started a campaign to check the ever-increasing toll of human life taken daily by careless automobilists on the state highways. More than 900 persons were arrested on Labor Day in the outlying parts of this city and in Westchester and adjoining counties. Fines amounting to about \$2,500 were collected.

Three automobiles crashed together yesterday at Annadale, Staten Island, and three women were taken to the hospital with serious injuries. An automobile owned by Mark Brois of Metuchen, N. J., collided with a car operated by Edward Aiken of Annadale. A third car crashed into the rear of Aiken's machine seriously injuring Mrs. Catherine Reid of Metuchen, N. J.; Della Ruall and Rose McKenna of Perth Amboy, N. J.; Richard Searies of 789 Bergen avenue, Jersey City, suffered a fractured skull when his automobile was wrecked by a trolley car at Oakland and Hoboken avenues, Jersey City. The members of the car crew were arrested.

Lieutenant Edward H. Trede of the police reserves was knocked off his bicycle at 169th street and St. Nicholas avenue. He was painfully injured, and took leave of his duties at the West 177th street station. Another reserve policeman suffered a fractured skull in an accident in Ocean avenue near Prospect Park, Brooklyn. He was Philip Martinez, cigar manufacturer, of 1,066 Nostrand avenue, Brooklyn. Martinez fell from the running board of an automobile while he was pursuing another car that had violated traffic rules.

FIGHTING IN THE TRIESTE STREETS

Socialist and Government Troops in Clash

Some 200 Plants in Milan, Italy, Seized by Workmen and Red Flag Raised—Italian Troops Seize Lucca Bombs.

Trieste, Sept. 11.—A Socialist revolt in which barricades were erected in the streets and artillery, rifles, machine guns and bombs were freely employed in a struggle between the rioters and the military, broke out here yesterday afternoon. Italian troops and naval forces, however, succeeded in completely restoring order last night. The troops are patrolling the streets and a destroyer is anchored in the harbor commanding the public square.

The fighting was sharp while it lasted. Several of the soldiers were wounded by bullets from the rifles of the entrenched Socialists, while numerous casualties occurred in the Socialist ranks.

In Italy.

Milan, Sept. 11.—More than 200 chemical works here were occupied by workmen at a given signal late yesterday and red flags were hoisted above them on orders issued by the chamber of labor. The chemical plants were occupied simultaneously, the movement being carried out following a signal of three blasts on a large siren. Immediately afterward red flags and banners bearing the Bolshevik emblems of the hammer and scythe were hoisted.

The workers obeyed the order received from the chamber of labor in spite of the fact that they were recently granted wage increases of from sixty to seventy cents a day.

The chamber of labor in explaining the seizure of the chemical works, declared that the move was not in the nature of a general occupation of the plants, but was simply a measure which was necessary to guarantee metal workers the materials they need to carry on their industry.

Paris, Sept. 11.—Three companies of Italian infantry have seized a factory at Lucca, which had been occupied by workmen and have forced the men in the plant to surrender 60,000 bombs, according to despatches received here. Another report states that workers, using armored trucks, invaded a French owned factory at Turin. They are said to have distributed arms to workers and to have searched all the employees not joining in the movement.

PROTESTS EMBARGO ON CANADIAN HOGS

Hon. M. W. Doherty Also Objects to Control of Canadian Bacon on English Market.

Toronto, Sept. 11.—Hon. Manning W. Doherty, minister of agriculture, in a speech at the luncheon of the directors of the exhibition yesterday, protested against Great Britain's embargo on Canadian hogs. He said it has been proved that Canadian hogs were not suffering from pleuro-pneumonia as had been alleged.

"If they want to keep the embargo on our hogs, let them do so," he added, "but let them do it as protection for the Irish farmer or the English farmer and not camouflage it under the false allegation of diseased Canadian stock."

The control of Canadian bacon in the English market was also protested against by the minister.

Many attempts were made to get the men out of the well and a returned soldier did get the victims after a smoke helmet was secured.

REMINDERS

- (1) The election of 1917 was fought under different conditions than now obtain. Hundreds of Liberals voted for Wigmore then who will vote for Dr. Emery on the 20th.
- (2) The few Liberals who signed the Wigmore nomination papers have but one vote each.
- (3) Note the prominent Liberals on the platform at the Tory meeting in the Seamen's Institute Thursday night. Also the number of Liberals who were chosen ward chairmen at that meeting. There was none.
- (4) The Tory-Meighen Government will be swept from office in two years or less. The party represented by Dr. Emery will succeed it. Enough said.
- (5) Every Liberal vote for Wigmore is an endorsement of the Meighen Government. Be consistent.
- (6) The nomination papers of Wigmore were being circulated many days before nomination day. The Emery papers but a few hours. Ten names are all that is necessary from a legal standpoint.
- (7) Albert is going strong for Emery. Liberals here will not have the wool pulled over their eyes.
- (8) Remember, Mr. Working Man, you are described by the "Standard" as the "small fry."
- (9) The group of "malcontents" is growing larger daily, hourly. They are waiting for September 20th. What won't they do with this Government when the time comes.
- (10) The Tories are doing all the crowing. Wait until they get out of the woods.
- (11) Ask it of Meighen who will promise anything. His Government won't be in office long enough to keep a tenth of his promises.
- (12) Last, but by no means least, Dr. Emery has no idea of dropping out of this fight. Paste that in your hat.

HOME FROM CONFERENCE
Mrs. E. Atherton Smith has returned from Montreal where she has been attending a conference of the associated Canadian clubs. She is a former vice-president and provincial vice-president and received an invitation from the executive of the association to be present. She was also asked by the Women's Canadian Club of Digby to be its representative. Speaking of the conference Mrs. Smith said that the attendance from all parts of the Dominion was disappointing. There were only three representatives from the maritime provinces, Mrs. W. H. Shaw of this city, Mrs. Fred Andrews of St. Andrews and herself. The principal speaker at the conference was Sir Arthur Currie who gave a very practical patriotic address. It was decided to hold the next annual conference of the association in Winnipeg. Mrs. Smith came to the city on Thursday to visit the Exhibition. She left last night for her summer home in St. Andrews.

The foundation of the new United Church at McAdam Junction was laid this morning by Grant Hall who gave the land on which it is to be built. All Protestant denominations united in building this church.

The Evening Times and Star

ST. JOHN, N. B., SEPTEMBER 11, 1920.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE EXHIBITION.

The exhibition closes tonight. It has been a great success, despite some unpleasant weather. Many thousands of people have enjoyed its varied features. It has attracted great numbers of visitors to the city, and has undoubtedly brought business to the hotels and stores.

THE REVIVAL OF SPORT.

At the annual meeting of the maritime branch of the Amateur Athletic Union of Canada it was decided to pay special attention for the next year to the younger athletes. This is a very wise conclusion. The Union during the past year has travelled a road beset with difficulties.

MR. BALLANTYNE'S VIEWS.

A word of cheer for St. John comes from Hon. Mr. Ballantyne, minister of marine and fisheries. He has just returned to Ottawa from the Pacific coast, and is "highly optimistic as to conditions in Western Canada."

The Times a few days ago quoted from Canadian Finance to the effect that Vancouver was handicapped by lack of shipping and lack of return cargoes from Europe, but the government, as Mr. Ballantyne points out, is building the shipping, and Canadian Finance said that Vancouver hoped in time to get a lot of the business not only of British Columbia but of Alberta also.

But, someone asks, what has this to do with St. John? Simply that St. John not only anticipates more ocean traffic as a result of the prosperity prevailing and the good outlook for the future.

There will be no objection now to the return to standard time, but the adoption of daylight time for the summer proved a great boon to all who were able to spend the additional hour in recreation and that meant nearly everybody.

THE SKUNK.

Each night around my seaside dwelling there roams a skunk; at break of day the whole charmed neighborhood is smelling of Jockey Club or New Mown Hay. I know not why this midnight vagrant should always to my cottage steer; I only know he renders fragrant a hundred leagues of atmosphere.

NOT EAGER FOR GERMAN DYES

Canadian Manufacturers Can Get Them But Say They Are Not Interested.

Ottawa, Sept. 11.—(Canadian Press)—Canadian manufacturers apparently are not eager to buy shipments of German dyes. The Canadian trade commission, some time ago, arranged with the British government for a quantity of dyes which were to be allocated by Germany to Great Britain under the peace treaty.

Officials of the Canadian Trade Commission say that this is probably due to the fact that Canadian manufacturers have become used to substitutions for certain of the dyes and do not wish to change back to them. There is a large quantity of German dyes available and the commission which now has them on order, will be open for orders from Canadian manufacturers.

Great Bargains In Ladies' American High Class Footwear Offered By Waterbury & Rising, Ltd.

Read the Reason Carefully

The 80 p.c. duty on shoes and the exchange on Canadian money, makes it impossible for us to give our customers value in American boots and shoes, it really means about 50 p.c. added, for which no value is received.

Therefore, we have decided to close out all our Ladies' fine American shoes at startling prices, including 573 pairs of the famous "Dorothy Dodd" quality in Black, Grey, Brown and Patent leathers as follows:

- 10 different styles at \$ 8.00 per pair, present value \$11.00 to \$12.50.
- 8 different styles at \$11.00 per pair, present value \$13.00 to \$15.00.
- 10 different styles at \$12.00 per pair, present value \$16.00 to \$21.00.

A great many of these goods were bought before the big advance and have even better stock than if purchased today.

Call early for first selection. Positively no sale goods on approval.

Would you like to own a New Edison? Our Budget Plan will show you how to "swing" the purchase, without cutting in on your present necessary expenditures.

Now is a good time to buy. The New Edison has advanced in price (United States price) less than 15% since 1914; this includes War Tax. Mr. Edison has kept prices down by absorbing increased costs out of his own pocket.

"I do not know how many have heart failure when anyone says 'Utah,' but whatever the prejudice, no one questions the fact that under intense national and international prejudice the Utahns have survived wonderfully. Today one little county in Utah has in the world's arena some of the best artists, sculptors, singers and instrumentalists in America—more, probably, than any state of ten times its population. In Boston alone, last year, Utahns won the highest prizes in sculpture, musical composition and on the violin."—Dr. A. E. A PIE EATER STABS THREE (N. Y. Times)

Salzar Alejandro, a Filipino seaman, was charged with felonious assault yesterday following an alleged attempt Monday night to get his fill of apple pie without paying for it at eating house at

215 Bowery. Abraham Siegel and two of his waiters were in Gouverneur Hospital with knife wounds which, the police said, the Filipino had inflicted with a 6-inch pie knife. According to police reports, Alejandro entered Siegel's restaurant at its busiest hour and while no one was looking began helping himself at a pie cupboard. The two waiters caught him, but

Siegel intervened and told the seaman he could have the pie if he would be content to "accept" it and not "take" it. Asks the Filipino fiddled toward the door he snatched up the pie knife and whirled upon Siegel and the two waiters. Before he was knocked out by a blow on the head from a coffee cup, Alejandro had gashed Siegel in the back and slashed the faces and hands of the two waiters.

TO PROVIDE FOR COTTAGE HOSPITALS

Requests from Kent and Charlotte counties for the establishment of cottage hospitals in these counties by the Red Cross Society, in accordance with its peace-time policy were considered at a meeting of the cottage hospital committee of the society, presided over by the convener, Mrs. H. Lawrence, and held in the Church of England Institute. It was decided to establish a hospital at St. George, in Charlotte county, if certain conditions regarding its support were complied with. The establishment of a hospital in Kent county was left for later consideration. The cottage hospitals, as proposed, will share from three to five beds and be used as emergency hospitals. As it was felt that central organization for the cottage hospital committee was essential, it was decided that the committee would be composed of twenty members, including the minister of health, members of the Victorian Order of Nurses, the presidents of local

branches and other Red Cross members. Miss Ethel Jarvis was appointed secretary and Mrs. Ferguson of Moncton, was appointed convener of a sub-committee to draft a constitution.

FOR Y. W. C. A. GIRLS.

The house girls of the King street Y. W. C. A. home spent a very happy evening last night when they were entertained at a social gathering by their new general secretary, Miss Taggart. There were about thirty girls present and the evening's programme which consisted of games of many kinds, followed by the serving of refreshments was most thoroughly enjoyed. Miss Taggart made some suggestion as to the winter plans for the house girls and these were discussed with much enthusiasm. Miss Sellers, the dietician, assisted with the serving of the refreshments. It was hoped that the gathering might be the first of many during the coming winter.

W. N. Collins of the C. N. R. local staff, was a passenger in an airplane flight over the city yesterday and greatly enjoyed the experience.

THEIR FIFTIETH ANNIVERSARY

Friends of Mr. and Mrs. Charles W. Thorne called at their home, 214 Rockland Road, last evening and assisted them in celebrating the fiftieth anniversary of their marriage. Rev. Dr. Hutchinson extended congratulations and, on behalf of those present, presented to Mr. and Mrs. Thorne a sum of money. Other addresses were made and the party broke up after refreshments were served.

VISITING SALVATIONIST.

DECISION GIVEN IN LUMBER SUIT

The case of C. H. Hayes, of Head of Millstream, Kings county, against H. C. Hens and Carl Duffy, composing the Coal Creek Lumber Company, of Chipman, Queens county, which was commenced on Thursday last in the Kings county circuit court at Hampton before Chief Justice McKeown and a jury, was concluded last evening. The plaintiff's claim was for \$7,540, the balance alleged to be due for the price of logs sold by the plaintiff to the defendants, in April, 1919. The defendants had paid \$2,500 on account and tendered \$2,100 in full settlement of the balance due, which amount the plaintiff refused to accept and brought this action. The jury, after being out three hours, found a balance due the plaintiff of \$4,008.95. On motion of counsel for the defendants, his honor deferred the entering of a verdict until the end of this session of the court, and adjournment was made until September 22. E. C. Weyman of Innes, Weyman & Hazen, for the plaintiff; R. St. J. Freeze and K. A. Wilson for the defendants.

When whiskey was selling for 10 cents a drink in Girard, O. drunks were fined \$5 and costs. Mayor Blackstone says that a man who can afford to pay 50 cents now for a drink of raisin jack should be able to pay a corresponding fine, and so now the fine for drunks is \$25 and costs.

THE EXHIBITION

TODAY'S PROGRAMME

(The exhibition is operating on Atlantic standard time.)
3.00 p.m.—Band concert before the grand stand by 62nd Regiment band.
3.15 p.m.—Alton & Wright, aerial act; Ada's troupe of heavy weight lifters; Paika troupe of Arabian acrobats; Marion Brothers in Elflet tower act before the grand stand.
4.30 p.m.—Airsplane flight.
7.30 p.m.—Band concert before the grand stand by 62nd Regiment band. Battle of Connetti, amusement hall.
8.15 p.m.—Vaudeville acts repeat.
9.15 p.m.—Grand display of fireworks.

The total attendance at the exhibition up to last night was over 71,000 and with reduced fares today it is expected that these figures will be augmented by 15,000 or more. Yesterday was children's day and about 22,000 children from the Protestant Orphan's Home and St. Vincent's Orphanage were guests of Manager Charles Robinson. A feature yesterday afternoon, a parade of prize cattle about the show ring in front of the grand stand. The performance in front of the grand stand was also enjoyed, the evening being enjoyed. Two aeroplane flights were made yesterday afternoon by Lieutenant Barnhill.

Through all the day the welfare booths in the annex continued to attract large crowds and they have easily proved the most instructive and helpful displays in the building. The hostesses at the Red Cross booth yesterday were Miss Allison and Miss Donville, of Miss Allison; Mrs. Murray MacLaren, Mrs. W. B. Bonpett, Mrs. J. Y. Anglin, Mrs. Stanley Elkin and Miss Ethel Jarvis. On Thursday some of the members from Fredericton were hostesses, among them Mrs. Richards, Mrs. Estabrook, Mrs. Hagerman and Miss Schreyer. One of the largest audiences has yet addressed at the exhibition heard Mrs. Hagerman's splendid talk on child welfare in the Red Cross hall during the afternoon. She gives her last address of the series in the hut this afternoon at 3.30.

The only exhibits left unjudged are those in the art department and these awards will be made this morning. There was keen competition yesterday for the prize of \$50 offered by the exhibition management for the most attractive booth in the building and the annex. After a series of eliminations all the principal displays being exceptionally fine, the prize was awarded to the landscape gardening exhibit of H. E. Gould, of Sussex, and the award was considered a very popular one.

Fill Your Blood With Iron
If You Want To Be Strong
WITH PLENTY OF ENERGY AND POWER

Says Physician—Explains How Organic Iron Like Nuxated Iron Often Increases the Strength of Weak, Nervous, Run-down People in Two Weeks' Time.
You cannot expect to forge ahead in life with plenty of energy and power if your blood is thin and watery any more than you can hope to run an automobile on water instead of gasoline. It takes pure, red blood—rich in iron—to keep the human machine working right. Without iron your every action lacks power, your red blood corpuscles die by millions, the strength goes from your body and you drop among the weaklings and failures.
"But when such men and women supply the right kind of iron to their blood, a most surprising change often takes place," says Dr. John J. Van Horne, formerly Medical Inspector and Clinical Physician on the Board of Health, New York City. "The weak, colorless blood which had been moving sluggishly in the veins becomes rich and red and courses through the body, building healthy tissue, giving renewed force and increased strength. Without this rich, red blood with plenty of iron in it, there can be no physical perfection or force to carry on one's work. Yet to take the wrong kind of iron may prove worse than useless, just as putting any more food will often fail to give the proper nourishment. Organic iron—Nuxated Iron—by enriching the blood and creating new blood cells, strengthens the nerves, rebuilds the muscles and helps instill the whole system with fresh vigor and endurance whether the person be young or old. I strongly advise every man or woman who is fagged out by worry, work and other strains to build up strength and health by taking organic iron—Nuxated Iron—for I consider it one of the foremost blood and body-builders, the best to which I have ever had recourse."
Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.) New York and the Westchester County Hospital, says: "I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles. To supply this iron deficiency and to help build strong, healthier men and women, better able physically to meet the problems of everyday life, I believe physicians should at every opportunity prescribe organic iron—Nuxated Iron—for in my experience it is one of the best tonic and red blood builders known to medical science."
If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day for two weeks, then test your strength again and see how much you have gained.
Manufacturers' Note: Nuxated Iron, which is recommended above, is not a secret remedy but one which is well known to druggists everywhere. Unlike the other inorganic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped as follows and the words Nuxated Iron are stamped into each bottle, so that the public may be led into accepting inferior substitutes. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home
Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. "One man says, after trying it: 'I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more.' At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses. It is believed that thousands who wear glasses can now discard them in a reasonable time and hundreds more will be able to strengthen their eyes so as to be spared the trouble

X-RAY FINGER TIP BEATS FINGER PRINT

Paris, Sept. 6.—X-ray finger-tip identification is a much surer method than the finger-print system, Dr. Henry Becquer told the Academic of Sciences. "An X-ray photograph taken of the entire finger tip," he said, "shows the precise depth and shape of the nail, which differs in all persons. A slight surgical operation can utterly change the finger prints, but there is no method of camouflaging the interior of the finger except cutting it off."

NEWS BUDGET FROM THE WEST

Bootlegging Makes Things Bad in Crow's Nest Pass

Calgary, Sept. 11.—"Conditions in the Crow's Nest Pass are becoming rapidly intolerable, and even dangerous, with respect to lawlessness resulting from wholesale bootlegging. Bootleggers abound. They are open in their disregard of the law, and they boast about it. Many of them carry guns, and I fear that even life itself is becoming cheap where the big profits of bootlegging are in the balance. "Liquor of any kind can be bought openly in the little bars and Chinese joints up and down the Pass. The present climate is one of lawlessness and disregard of the law, is becoming lawless itself. They are all armed, and a very serious situation may arise suddenly some day if something is not done as to the check this lawlessness. You will not believe me perhaps if I told you that it would almost be as much as my life were worth to attach my name to this interview."

Many Offenders Carry Guns — A Search for Big Aluminum Deposits—Special College Terms for Soldiers.

It was in this manner that a prominent resident of the Pass conversed recently with a reporter while discussing the conditions in the Pass and the revelations which had been made in connection with the case of the late C. P. R. train at Sentinel. Bootlegging is said to be the root of the whole trouble in the Pass.

Saskatoon, Sask., Sept. 11.—Representing a big New York syndicate and making a rapid survey of mining from Ontario west in search of heavy deposits of aluminum, R. E. Barthol, a mining engineer, passed through Saskatoon recently to Northern Alberta and British Columbia to make an inspection of those territories. Mr. Barthol has been travelling in Ontario since the month of August, and is now in the province which gives promise of bearing the mineral he is looking for in considerable quantity. The idea of Mr. Barthol's company is to mine aluminum in heavy quantities for the manufacture of automobile motors and parts.

Winnipeg, Man., Sept. 11.—Three years' sanctuary by virtue of provincial statutes prohibiting the shooting of prairie chickens in Manitoba, by a number of other sportsmen will have one week in which to shut without fear of itinerant game guardians and lesser minions of the government will declare an open season for prairie chickens on October 15 to 22, inclusive, and by so doing make it legal to slaughter them in all parts of the province since 1917, when the lid was put on as a result of the scarcity of the birds in Manitoba.

Calgary, Alta., Sept. 11.—Work on a skeleton of the ceratopsian or horned quadruped dinosaur, the Dendrodon, is being proceeded with by W. E. Cutler, at Steepleville, Alta. One side of the skeleton is almost intact, and part of the other side has been sawed off a finely preserved specimen. Mr. Cutler was obliged to remove rock amounting to 100 cubic yards during winter, the covering being more than 12 feet in thickness. The skeleton is one of the Red Deer river fossils.

Saskatoon, Sask., Sept. 11.—The I. O. O. F. E. War Memorial scholarship for Saskatchewan has been awarded to Miss Mary Gatside of Moose Jaw, a high school senior, who died of wounds in France. She was a member of the 78th Battalion (Winnipeg Grenadiers). Miss Gatside was the daughter of James Gatside, a well-known business man. Her scholastic course so far has been a brilliant one.

Edmonton, Alta., Sept. 10.—A. L. Sawle of the Northern Trading Company, who has returned from the top of the map, brings back a story of wheat at Fort Simpson that headed out thirty-seven days after seeding. It was sown on June 7 and by the middle of July was in head. This is the farthest north that wheat is grown in Canada. The crop that Mr. Sawle tells about is on the Dominion Government's experimental farm, where tests of northern soil productiveness have been going on for several years. Fort Simpson is on the Mackenzie river near the mouth of the Liard river, in a little short of latitude 62.

Winnipeg, Man., Sept. 10.—Returned soldiers will not be required to pay tuition fees for non-professional courses such as arts, it is learned from the University of Manitoba University. Soldier students in professional courses will be required to pay only half fees. These include courses such as medicine, engineering, and others. The discrimination between the professional and non-professional students is made owing to the greater cost of the professional courses, requiring much laboratory work. The policy of permitting special conditions to returned soldiers is one that the University of Manitoba established last year. It is a permanent benefit, and returned soldiers may always benefit by it.

To Keep Hair Curly, Wavy and Beautiful

Here is how your hair can be curled nicely, easily and harmlessly. Before doing it up, apply a little liquid silicone with a clean tooth brush. In three hours you will have just the prettiest curls and waves—and they will look and feel so natural you'll never think of doing without silicone thereafter. You won't be troubled any more with hair stringing around your face—with burnt, uneven ends nor with that dull, dead appearance. The hair will remain in curl ever so long.
Any druggist can of course supply you with liquid silicone, but a few ounces will last you a long time. It is neither sticky nor greasy, and is really a delightful thing to use. It is doubly useful because of also serving as a beneficial dressing for the hair.

"DANDERINE" Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application or "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, may color and thickness.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength.

This preparation for the removal of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. It will get a better effect. A letter should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you get a bottle of "Sage Tea and Sulphur Compound" at any drug store. Millions of bottles of this old-fashioned Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriously dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

SPECIAL TAXES TAKE BIG LEAP IN FIVE MONTHS

(Canadian Press Despatch.)
Ottawa, Sept. 10.—Receipts from inland revenue, as a result of luxury and other special taxes imposed, have taken a big leap forward. For the five months closing with the end of August, receipts from inland revenue were \$20,885,859; during the corresponding months of 1919, they were \$7,778,401. For the month of August alone, inland revenue receipts were \$5,807,114; in August, 1919, \$1,833,840.
The figures appear in the monthly statement issued by the department of finance today.

15-CENT AUSTRIAN PAPER SUIT SHOWN IN WASHINGTON EXHIBIT

Washington, Sept. 11.—Paper clothing and other articles made from paper in Austrian factories were placed on exhibition by the Department of Commerce. Later the exhibit will be offered to clothing and other interested manufacturers for examination.
The exhibit includes workmen's suits, a table cover, collars and cuffs, a laundry bag and a wall decoration. One paper suit is made of thirty-two crowns or about fifteen cents in United States currency, while another sells for 120 crowns, or about fifty-five cents.

\$300,000 BET ON ELECTION

Most of this is Place 2-1 and 3-1 on Harding—One Man Has \$100,000.
Between \$300,000 and \$400,000 has been wagered in the financial district of New York on the result of the Presidential election. Most of this has been placed at 2 to 1 and 3 to 1 that Harding will be the victor. There has, however, been a fair sprinkling of special bets, according to James W. Ball & Co., these differ from those prevailing as to the amount placed on the election it is asserted that fully \$100,000 has been supplied by one man, a Harding supporter. Democratic enthusiasts continue to ask 3 to 1, while the Republicans believe that 2 to 1 is a fairer proposition.

BOARD OF HEALTH

The postponed monthly meeting of the board of health was held yesterday afternoon and a delegation of milk dealers waited on the board to take up matters in connection with the charges instituted in the police court recently by the board. The dealers were asked to appear next week before a full board meeting. The delegation consisted of Messrs. Porter, Humphrey, Geldard and the Victorian Order of Nurses reported on child welfare work and Miss Crosby reported on the tuberculosis situation. Dr. Fred Johnston, dairy and food inspector, reported on his work, Dr. H. L. Abramson on the city water supply and Dr. Edmund Flewelling reported on the health of the school children. A committee to interview the telephone company regarding the telephone installation at the isolation hospital was appointed.

CANNOT FIND ENOUGH SAILORS

Sailing vessels at New Brunswick ports are having a difficult time to keep supplied with sailors. Years ago there was no trouble to find men, especially in St. John, but just now few deep sea sailors are to be had. The captain of the Danish barkentine Saga, now loaded at Chatham, was in the city this week looking for men, but obtained only two. The captain says that four of his men ran away recently and left him so short-handed that he was unable to sail. Several other vessels loading in Miramichi lost sailors, who ran away at various times, and in one case two men who were engaged in St. John, after being given clothing and a complete new outfit at the expense of the captain, made their get-away before they even set foot on the ship's deck.

**200,000 IN BONDS
BURNED BY THIEVES**

Negro, in Confession, Implicates Mail Driver in Disappearance of Securities.

The mysterious disappearance on July 10 of railroad bonds, valued at \$200,000, mailed from Milwaukee, Wis., to Payne, Feffer & Co., stock brokers, of New York, was cleared up by the admission of Thaddeus Joseph Van Buckley Rainow Starkey, a negro, of 416 West Thirty-sixth street, New York, that the bonds were stolen from a mail sack and turned when it was realized that an attempt to sell them might lead to the arrest of himself and his brother-in-law, James Johnson.

According to the confession Starkey alleged to have made, his brother-in-law, who was the driver of a mail wagon up to a few weeks ago, when he was arrested for rifling the mails, gave him the package of bonds at Seventh avenue and Twenty-ninth street on the night of the arrival of the securities in New York, the branch office of the brokerage firm in Milwaukee.

They did not know what the package contained until they opened it, according to Starkey, and they immediately turned the bonds to prevent detection. Johnson also gave him several other parcels taken from the mails, and the police and post office officials now are endeavoring to trace them, although Starkey said they were destroyed.

Johnson was arrested on Aug. 12, following the finding of several empty mail pouches in a lake at New Rochelle by others. Post office inspectors discovered that the pouches had been entrusted to Johnson for delivery from the general post office to a branch post office. He was arraigned before United States Commissioner Hitchcock and sent to the Tombs in default of bail.

The police learned that Starkey was a brother-in-law of the prisoner and when he called at the Tombs to see Johnson they arrested him. After being questioned Starkey is alleged to have admitted that he not alone received the bonds, but that on July 28 last Johnson gave him two mail pouches and instructed him to take them to New Rochelle, where Johnson later met him. They took the mail pouches to a woods, ripped them open and extracted several hundred dollars, in addition to packages containing an assortment of jewelry and two badges issued by the license bureau of the Secretary of State. Starkey declared that he received only \$30 from his brother-in-law as his share of the loot.

Man Whom French Police Call Bluebeard and Who Is Suspected of Several Murders.

(A. P. Correspondence.) Paris, Aug. 28.—Henri Landru, whom the police call the Gambais Bluebeard and hold responsible for the disappearance of eleven women to whom he had promised marriage, shows no sign of weakening under the continual and gruelling eighteen months of examination and preliminary investigation which Judge Bonin has conducted. "You seem wan and tired today," he said to Judge Bonin solicitously when he last appeared before the judge. "Don't you think you will be able to take a vacation this year?" It was a fine bit of irony, as last summer Judge Bonin, after six months of examination of the alleged bluebeard, gave up in despair and went to the country for four weeks. In the lobbies of the courthouse the

PORTUGAL IS FEELING COAL SHORTAGE KEENLY
Lisbon, Aug. 22.—(Associated Press Correspondence)—A coal shortage is being keenly felt in Portugal owing to the prohibition of coal exportation from England and the absence of any good coal producing districts in this country. All coal for industries was imported chiefly from Cardiff and Newcastle, and since that has ceased and orders placed in the United States have been cancelled, the situation threatens to become serious and people are looking forward with alarm to the coming winter. Abnormal conditions exist as a result, all restaurants, cafes and places of amusement must close promptly at midnight and external illuminations are prohibited. There is but little coal produced in Portugal, which has been entirely dependent on imported coal. For domestic purposes charcoal is chiefly used all over the country in small earthenware stoves specially made for its use. Now, however, even that has disappeared as the price of fuel rose to such an extent that the government was obliged to enforce fixed prices. In consequence, although there is plenty of charcoal farmers are not sending it to the market, hoping to obtain ever increasing prices for wood. In the mean time all Portugal is suffering from utter absence of coal and people are obliged to buy wood when it is obtainable. Middleclass and poor people burn sawdust in small iron stoves expressly invented during the war for that purpose and also use impervious boxes lined with straw that finish cooking the food, after it is removed, boiling from the stove. Many families unable to cook at home are having their meals at the restaurant.

He takes his first step in business affairs, is examined by the doctor, and creates an estate of \$5,000.

He improves the shining hour and impresses upon an important person that he is in possession of an "estate."

His tendency to save and invest is noted by his employers.

He finds his savings of great assistance in buying a home.

And as time goes on he is enabled to enjoy many of the good things of life.

Absolutely guarantees the return at the end of twenty years of all annual deposits, with accumulated profits, after giving you insurance protection for twenty years.

Easily Understood:

- 1st. Deposits are made yearly. This is what you are saving, and at the end of 20 years the Canada Life guarantees the return of every dollar paid in.
- 2nd. Your life is insured from the day you make the first deposit,—for \$5,000, or whatever amount you decide.
- 3rd. Dividends are paid at stated intervals in addition to the return of all deposits at the end of 20 years.
- 4th. These dividends may be used to reduce the amount of your yearly deposits, or be allowed to accumulate at interest for 20 years.
- 5th. The cash value of Policy and Dividends represents a valuable asset, useful in business, and your "estate" is protected by the insurance.
- 6th. At the end of Twenty Years you can draw out all you have paid in, along with the accrued dividends—

you can draw a Special Cash Guarantee, together with the Accumulated Dividends, making a substantial sum, and leave the \$5,000 Policy fully paid for and continuing to earn Dividends as long as you live—

this Special Cash Guarantee may be applied to increase the amount of your policy to more than \$7500.

An Immediate Estate

The great advantage over any other form of investment is that a small percentage paid yearly creates immediately an estate of \$5,000, or more. These active, progressive years of life in which you are earning the most money are the years in which premiums can be more easily met.

BIG DIVIDENDS OF SUGAR COMPANIES OF PORTO RICO ISLAND

San Juan, P. R., Aug. 25.—(Associated Press Correspondence)—Dividends declared by the South Porto Rico Sugar Company and the Fajardo Sugar Company, which it was announced recently in New York, would reach 100 per cent. and the only large sugar dividends that are being declared this year.

The Santa Isabel Sugar Company has declared a cash dividend of 100 per cent. which is probably the highest dividend in Porto Rico this year. Other sugar properties may yield a return equal to or in excess of the Santa Isabel dividend, but so far they have not been reported as having been declared in the form of dividends.

The Santa Isabel dividend is all in cash, while the dividend of South Porto Rico Sugar Company has been declared in the form of a stock dividend, new common stock being issued for cash share of common stock now outstanding.

The 100 per cent dividend of the Fajardo Sugar Company amounts to 30 per cent in cash and 70 per cent in stock. Most of the sugar companies in the island, it is believed, will declare dividends that will probably reach 50 per cent.

PAY \$400 A MONTH ALIMONY

Suit for Separation Brought Against Millionaire — A Counter-Claim.

New York, Sept. 11—Robert H. McCarter Potter, a retired carpet manufacturer, noted as a sportsman and breeder of race horses, who is a cousin of Uzal H. McCarter, President of the Fidelity Trust Company of Newark, and said to be worth more than \$1,000,000, agreed this week to pay his wife, Mrs. Mabel Lawrence Potter, \$400 a month alimony pending a suit for separation on the ground of abandonment.

Mrs. Potter had asked for \$1,000 a month and the case came before Justice Guy for a hearing when the agreement as to alimony was made. Mr. Potter denied that he left his wife, and makes a counterclaim for separation on the ground that she had left him.

Mr. and Mrs. Potter were married at Lake Forest, Ill., in 1897, and have two children. In her affidavit, Mrs. Potter stated that four years after their marriage she and her husband came East from Chicago and he built a factory on property worth \$1,000,000 which he owns in Holoken. They spent part of their time at his country place and stock farm at Andover, N. J. She alleges that in 1912 he bought an elaborately furnished yacht and entertained men and women friends over week ends.

The plaintiff alleges that on one occasion she found her husband entertaining another woman at the Waldorf-Astoria and at another time she found a bill from the Lexington Hotel at Lakewood, N. J., for "Mr. and Mrs. H. H. McCarter Potter," but that she was never there. She says she had to move into an apartment at 372 West 141st Street because her husband cut down her allowance, and that once when she went there unexpectedly she found a woman wearing her negligee. She alleges that she investigated and found that the woman lived in a house at Ridgewood, N. J., which she says Potter aided her to buy. She asserts that she knows of no relationship between her husband and the woman, but learned that he had been represented to be her wealthy uncle.

Mrs. Potter said that her husband owned many race horses, and paid as high as \$50,000 for one. She mentioned Tantalus, Bow Belle, Clarence, Queen of the Hills, Edna Marie and Luminous.

MYSTERY IN FALL OF MAN TO DEATH

Suicide Say Police; Accident Declare Relatives of New York Silk Dealer.

Adolph L. Unger, a silk manufacturer, either plunged or fell down the elevator shaft from the thirteenth floor of a loft building at 432 Fourth avenue, in which his plant was situated one day this week, and was killed. He was recorded as a "suicide" on the blotter of the West Thirtieth Street Police Station. The police assert Mr. Unger told a man over the telephone a little while before his fall, "I'll be dead when you arrive," when this person promised to go to Mr. Unger's office and pay a sum of money he owed him. This man arrived at the building just as the silk manufacturer's mutilated body was being removed, the police assert.

Chief Medical Examiner Norris, on the other hand, while declaring it a suicide, said he did not make a careful investigation, but on the ground that there has been a great decline in the silk market recently, considered that Mr. Unger might have suffered losses which made him despondent.

Members of the office force denied that their employer had committed suicide and disclaimed knowledge of the telephone message which the police say had been received. Mr. Unger was financially solvent, having met with no great losses in spite of the slump in silks, it was said at his office. His rating last week was between \$50,000 and \$75,000, according to Dun's. His health

was good, his mind normal, and his spirits high it was said. A few minutes before his death he telephoned to Joseph P. Berger of the Shirley Silk Company making an appointment with him for later in the afternoon. Furthermore, Mr. Unger was said to have lived happily with his wife, Mollie and their two children, Sylvia, 7 years old, and Harold, 5 years old. They spent the summer at the Edgemere Club, Edgemere, L. I., returning to a newly furnished apartment at 218 West Eighty-ninth street last Thursday.

Mr. Unger left his office on the thirteenth floor, at about 2:30 and rang for the elevator. When he entered the car he told Peter Merz of 218 East Twenty-fifth street, the conductor, that he had lost a valuable diamond ring, and requested Merz to aid him in searching the floor of the elevator, according to the story of the police. With the car still at the thirteenth floor, Mr. Unger and Merz searched the floor on their knees, but failed to find the ring.

The silk manufacturer then asked Merz to raise the elevator so he could feel along the ledge under the door, the police said. Still on his knees and with his arms outstretched, Mr. Unger reached the end of the car. Whether he lost his balance and fell through the opening between the thirteenth floor and the bottom of the elevator, as his friends and relatives believe, or whether he made the plunge deliberately, as the police say, is the question which the finding of his mangled body at the bottom of the shaft, presented.

Mr. Unger was born in Germany thirty-five years ago. For the last eighteen years he had been in the silk business.

A model of the Hindenburg line, which has been exhibited in Washington by the Department of History of the State of Tennessee, is an accurate miniature of his mangled body at the bottom of the battle front of France.

Are Your Funds Waiting Investment?

Close to \$1,000,000,000 is now being distributed from coast to coast in connection with our crops. This will shortly result in a freer circulation of funds throughout Canada's industrial, mercantile and financial world.

Our foreign trade is running 25 p. c. over the previous year. Our domestic trade, as shown by bank clearings, is over 28 p. c. above the previous year, and bank deposits are over \$150,000,000 higher than the record year ending June, 1919.

At this time, during the past few years, Canadians have had an opportunity, through great public loans, of purchasing Victory Bonds, and over one million Canadians evidenced their approval of Canada's Premier Security by purchasing in the aggregate over \$2,000,000,000 worth.

Beyond doubt Canadians are financially able to make further substantial investment records. We cannot conceive of any better form of investment for the large funds now accumulated than Victory Bonds, which undoubtedly will be bought up freely.

NOW IS NO TIME FOR IDLE FUNDS

The new prices for Victory Bonds make them the greatest investment bargain in Canada. There will be no public loan this year. The present supply is not large. Do not let your funds lie idle and "rust." If you have funds available we cannot too strongly recommend that you purchase Victory Bonds to the limit.

Your orders will receive our best attention.

DETECTIVES WORK 3 MONTHS AS WAITERS

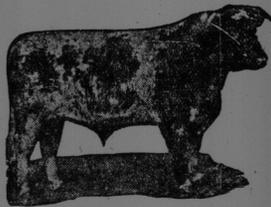

Then They Arrest "Jim the Butch" in Connection with an \$8,000 Payroll Robbery.

New York, Sept. 11—Two detectives garbed in the uniform of restaurant waiters, arrested James Moralo, twenty, alias "Jim the Butch," of 104 Jackson street, Brooklyn, as he entered a Broadway restaurant in Brooklyn, on a charge of assault and battery. The detectives had been serving in the restaurant nightly for several weeks in an endeavor to

trace Moralo's alleged connection with the robbery of an \$8,000 payroll from Joseph Bassett, cashier of the European Skin and Dyeing Co., 11 Anthony street, Brooklyn, on Dec. 19, 1919.

Three men took part in the robbery, two of whom have been convicted and sentenced. The police believe Moralo is the third man.

When arrested Moralo developed an aggravated case of acute indigestion and had to be removed to the Williamsburg Hospital. He was arraigned before Magistrate Short in the Bridge Plaza court and held in \$5,000 bail for a hearing.

It Pays to Feed Empire Feeds!

Cattlemen, farmers and dairymen have learned that it is profitable to buy stock feeds by proteins and that the feed containing the proper amount of proteins is the feed that brings results.

Another consideration steps in, however, and that is, that beyond a certain point, protein ingredients may be present in too great quantity for the animal to use, and there is waste.

EMPIRE FEEDS are rightly balanced

Empire Dairy and Hog Feeds contain not less than 16% proteins (guaranteed), which will be used for the nourishment of the animal, without waste.

We aim to put up feeds that will pay the user. Only good sound grains and other ingredients are used, and certainly no filler or other useless stuff will ever enter into EMPIRE FEEDS. Try a quantity for a fair testing time. We will abide by the resulting improvement in your stock. Ask your dealer for the honest feeds—EMPIRE BRANDS.

What Republicans Offer In Place of the League

Senator Harding's mention of putting "teeth" in his proposed reconstructed Hague Tribunal evokes only jeers from the Democratic friends of the League of Nations. "Political dentists," observes the New York World (Dem.), "will tell him that without a League only false teeth are possible now," and the Richmond Journal's (Dem.) title for an editorial on the subject is "Harding's False-Teeth Proposal." On the other hand prominent Republican newspapers are enthusiastic over the Republican candidate's plan, the New York Tribune declaring that while the Harding program "promises no millenium, it is definite and affirmative, whereas the Cox program is vague and negative."

So that the public may more fully understand just what is offered by both parties, THE LITERARY DIGEST in its issue of September 11th, publishes an enlightening article, drawn from editorial statements by American newspapers, comprehensive, unbiased, and deeply interesting. **BRIAND AGAIN
FRENCH PREMIER?**

Rumor Names Millerand for President

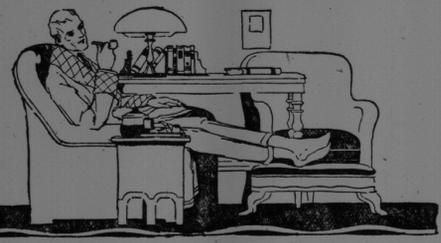

The Duke of Connaught's Mission to India—Rogery with Bookmakers as Victims—Topics of a Week in London.

(From Our Correspondent)
London, Aug. 19.—Current diplomatic gossip says that M. Briand will soon give way to M. Briand (the French Asquith, who was premier early in the war), and will himself replace M. Deschanel, who is secluded at the president's shooting-box at Rambouillet, where King Edward used to shoot, but who shows no sign of improving. One of the signs of M. Deschanel's malady, which is of a mental kind, is the delusion that everybody is laughing at him. The consequences of his illness is that the projected visit of the King to Paris in the autumn will not take place. Meanwhile our chief need is stronger support for Lord Derby in Paris. He gets on excellently with the French, and is very popular with them, but he needs more assistance.

India's Royal Visitor
India, it seems, is not to be disappointed of a royal visit this year. The announcement first made in this column that the Prince of Wales would have to abandon his projected tour proves to be only too correct. As I stated in conveying this information to your readers some weeks ago, His Royal Highness is really tired out by his continuous travel in the Antipodes. He has scarcely known a day's rest since he arrived in Australia, and the ordeal has proved too much for his strength. There was naturally much disappointment in India over the abandonment or postponement of the prince's projected tour in the East, but the announcement is now made that the Duke of Connaught has been asked to take the place of the prince and will go out to India in the late autumn.

The Duke of Connaught knows and loves India. Whilst he was in the army he spent some of his happiest years there, and will welcome this opportunity of revisiting old scenes. There had been suggestions that the Duke of York might take the place of the Prince of Wales, but though this idea was once entertained, there was a feeling that his youth would be rather a handicap in the somewhat difficult role he would be called upon to play.

Tricks of Dishonest Backers.
The department of sleuths who deal with frauds committed by dishonest backers on bookmakers through the post or telegraph has never been so busy. A great many cases are being investigated, and there will be prosecutions, only in a minority of cases, however, since the detective authorities act only in cases where misconduct of someone in the postal service is involved, whether by mis-timing a telegram or other dereliction. The public belief, which is, of course, very much exaggerated, in irregularity in the posts since the war has been a great help to these rascals.

MERCURY MILLS, LIMITED, Hamilton, Canada
Makers of Mercury Underwear and Hosiery for Men, Women and Children.

Here is a simple recipe. You post a letter to yourself the night before the race, leaving the envelope open and addressing the letter lightly in pencil. It is delivered to you in the morning, and when the race comes on at two o'clock and you get the winner you write out your bet, slip it in the envelope, close it down, rub out your pencil address, and substitute the bookmaker's in ink. You then go round to his address, wait till the next postal delivery, and when the postman has shot his letters into the box, shot yours in too. The letter, therefore, comes to the bookmaker in the middle of a post and its postmark shows it to have been posted on the day before the race. Its a sad world, and one is caught sooner or later. The profits are, however, considerable while they last. One woman whose case has been examined (for women apparently have gone heavily into this business) made more than £1,000 a week before suspicions were aroused.

Dancing Revivals.
Dancing mistresses are again mobilising their forces for the autumn season and are looking round them for prospective pupils to initiate into the art. As usual new and intricate dances are being announced by those who make their living by instruction, in the hope of swelling the ranks of their pupils, but it is more than probable that these adaptations of the old tango and the new steps said to come from Spain will go the way of so many other novelties, and get no further than the floors of those small rooms where "select classes" are put through their paces. The amusing thing is that these dancers, which are proclaimed as the latest thing from

Spain, are not being danced in the really fashionable Spanish clubs. A friend who is living in Madrid writes that dancing there is almost identical with that of Paris where smoothness of rhythm is more admired than intricacy of step. One well-known London instructor has made a determined effort to reintroduce the tango for two years and tells us once more this season that in a rejuvenated form it will be danced everywhere this winter. The truth of the matter is that London is quite satisfied with the simplified fox-trot and one

step and is far too lazy to learn anything elaborate. Dancing is an amusement, not a business.
The New Skipper
The change in the captaincy of the M. C. C. team for Australia has excited some criticism. The withdrawal of H. Spooner not only means the loss of a most able and experienced captain but a reduction in the batting strength of the side. Mr. Douglas, his successor as skipper, has all the experience, but old cricketers would have been better pleased if he had been relieved of the responsibility of captaincy. The bowler they say does not make the ideal leader. Especially when he is a good bowler he has always to fight against the temptation to go on himself, or, it may be, that he hesitates to do so when the situation demands that he should take the ball into his own hands. Even by the professionals Mr. Douglas is regarded as one of our best fast wicket bowlers and peculiarly suited to Australian conditions. This year he has bowled better than ever, for to his pace and accuracy of length has been added a puzzling flight. It is said that Mr. Douglas has studied the arts of the baseball pitcher who is able to make the balls swing three or four ways in the air. The Essex amateurs' most baffling trick is to give the ball a curious lurch just before it reaches the batsman. He beats a man in the air as well as off the pitch.
HALIFAX APPOINTMENT.

HARVEST FESTIVAL.
One of the most successful harvest festival services and gift sales that has been held in years by the No. 2 corps of the Salvation Army was held last night in the corps hall, 640 Main street. A stirring service was conducted by Ensign Goodwin, during which the Girl Guards of the No. 1 and No. 3 corps sang some fine choruses. Addresses were given by Captain McKinnon of New Hampshire, and Adjutant Wells. The people of the locality were very generous in their presentation of gifts for the harvest sale and large quantities of vegetables, fruit, house-cooking and other good things to eat, as well as large supplies of clothing, were among the articles auctioned. Sergeant Major Sparks officiated as auctioneer and bidding reached some high prices. A large sum of money was realised and it will be devoted to the expenses of the corp in its own locality.
A Baltimore man visiting Detroit on a hot day went across to Canada for a specific purpose, but was so much interested by the sights he saw that he forgot what he went for, until he was reminded as the steamer he was on started on the return trip by seeing on the Canadian shore a billboard with the legend: "Last Chance—Ice Cold Beer, 10 Cents a Pint."

Saw It, Nail It Like Other Kinds of Lumber

As a matter of fact Beaver Board is lumber. It is knotless, crackless, manufactured lumber. It is built up into large, flawless panels from fibres of the white spruce.

Beaver Board walls and ceilings never will crack. Warping is prevented by the "Sealtite" process by which every panel of Beaver Board is protected. The size is more than three times the width of the average tree and every panel is absolutely perfect.

Like oak and many other building materials the result of Beaver Board depends upon the way it is used. It is just as applicable to a beautiful dining room built by skillful carpenters as it is to the simple finishing of an attic. In both cases the Beaver Board is the same, the only difference is the amount of time and skill given to its application.

The result is sure if genuine Beaver Board is used. You can easily identify it by the Beaver Board mark printed on the back of every panel.

Our book "Beaver Board and Its Uses" will give you many practical suggestions for the use of this good building material in both home and business. Write for a copy to-day.
