**MAKES RECORD AT SECOND BASE**  
Dykes of Philadelphia Accepts 17 Chances.  
The Pennant Race—Addio Guy in Race at Readville Today—Amherst to Have Track Meet—Late Sport News.

New York, Aug. 29.—An American League holding record of seventeen chances accepted by a second baseman was set by Dykes of the Philadelphia team yesterday against St. Louis. The former mark of sixteen was credited to Del Pratt when with the New York Americans last year. Dykes had nine put-outs, one less than the American League record.

The Pittsburgh National League leaders ended their losing streak of six games, when they defeated Brooklyn yesterday two to nothing.  
The New York Nationals won their sixth successive game. Outfielder Wood of Cleveland batted in all three runs, scoring his team's victory over Washington.

The New York Americans lost ground in the league standing by their defeat by Detroit.  
Pitcher Alexander of the Chicago Nationals, pitching the fiftieth game of his career against New York, got his twenty-fifth defeat.

Detroit, Aug. 29.—Announcement that Arab IV, of the Sultanate of the Red Sea, Miss Belle Isle II, of the Detroit Boat Club would start in the second heat of the Gold Cup race yesterday was a more exciting brush for points in the hydroplane classic today. Miss America, that won the first heat in the Yacht Club, second in the initial heat, was also ready for the second three-mile dash.

Much of the caraburion trouble that hampered Miss Chicago, Saturday, had been eliminated over Sunday, and she was working smoothly in trial spins in the water.  
Wife Cape II of the Toledo Yacht Club, winner of the first heat in the Sallan trophy race, and twenty other cabin cruisers were listed for the second heat in that event today.

Big League Race.  
New York, Aug. 29.—The major league season opened with the Pittsburgh National League leaders warring badly in New York yesterday, while the New York Americans continue their neck and neck pace. The Pirates are two and a half games ahead of the Giants and the Indians increased their lead one and a half games by winning yesterday, while the New York Yankees and St. Louis teams are playing splendid baseball, but have only mathematical chances of reaching the top.

**PUTS BLAME ON MOTHER-IN-LAW**  
Chicago Preacher Says She Causes Much Trouble.  
Chicago, Aug. 29.—A "university for the education of mothers-in-law" was advocated by Rev. Charles B. Stevens, of the Third Presbyterian church in a sermon last night.

He asserted the mother-in-law problem had ceased to be a joke and asserted that seventy-five per cent of all matrimonial divorces are precipitated by her interference. "She is an out-law instead of an in-law."

**ITNEY MATTERS AT CITY HALL**  
Some of the Regulations are Gone Into.  
Talk of Frequent Inspection Being Necessary, With Charge Against the Autos—Two-way Hydrants—Street Matters.

At a committee meeting of the common council this morning further consideration was given to the regulations introduced to control the licensing and operation of motor buses. F. A. Campbell appeared in the interests of the Union Bus Company. Commissioner Frink complained that no regard was paid to orders closing streets for repairs and said that considerable damage had been done to street concrete in Douglas and Macadam roads in St. John were a dead issue. People, he said, made them a speedway and then to piece almost as fast as they were laid.

Commissioner Jones made a report on the request of Armstrong and Bruce for water and sewerage connection with property in Dufferin avenue. He moved that the city engineer prepare plans and submit an estimate of cost together with the proper documents. If the plans were approved, he would be ready to issue further city licenses.

The mayor said that cars were being overworked. Some of the union cars were offenders.  
Commissioner Thornton said the mayor was quite right. The jitneys were running wild and he had had a report that one driver had information of the section requiring the applicant to state the name of any company with which he would complete the license. Another section was amended to read "the fare between two given points shall not be more than that charged by any street or electric railway." The question of allowing a jitney to stop within the city limits of white pole was considered and Mr. Thornton said he thought this was a good regulation. He cited market square as instances of the benefit of this rule. A passenger regarding smoking on jitneys was changed to read so that no driver or passenger should smoke on the jitneys. In this was violated the driver might lose his license.

The mayor said that licenses were being issued to men who had no money. In the event of an accident there would be no come-back, as the license had nothing upon which the driver could rely. The mayor said someone would have to be appointed to make inspection of the cars. The break and repair fund would have to be inspected frequently. A fee would have to be charged against each car.  
Commissioner Frink said Road Engineer Hatfield had told him of a bad condition of affairs in Douglas avenue. Mr. Hatfield said about 1,000 feet of work would have to be done again. Signs had been knocked down and general disregard shown. He thought the street should be closed off altogether. Local delivery teams had been allowed to pass, but through travel could go by the Strait Shore road.  
Mr. Frink said the city had the right to close any street for repairs, and he thought there was a penalty. He said he would bring in a resolution covering it.  
On motion an application from A. M. Rowan, Main street, for permission to install a gasoline pump was referred to the commissioner of public safety.  
Commissioner Bullock wanted two-way plugs put in hydrants near the water front as a measure of safety and requested that the department of water and sewerage be requested to install two-way or three-way plugs in Protection street and in the yard at Sand Point.  
Mr. Frink said the Brussels street line weather good progress would be made. He would take up the matter with the Marsh road with the engineer, but he did not think it feasible this fall. A month had been lost through the contractor might do the work. So far as macadam roads would have to be surveyed, these roads were a dead issue. Macadam roads would have to be surveyed with terra or some such substance. People made macadam roads a speedway, and tore them to pieces day by day.  
Mr. Jones read a report from the engineer regarding placing pipe over the highway bridges. The cost for a twelve-inch pipe would be about \$27,800.  
Mr. Frink asked that each member of the council be given a copy.

**URGES PEOPLE TO CALM COURAGE**  
Lloyd George Says Nation Has Seen Worse Times.  
Never were Ministers of the Crown So Hard Worked as at Present.—Seven French Premiers, Six Italian and Nine German During His Rule.

London, Aug. 29.—(Canadian Press)—Premier Lloyd George, while at Barnsley after attending the wedding of his principal secretary, Sir Wm. Sutherland, said there never had been a time when ministers of the crown were so hard worked.

Other countries solved the problem by working them in shifts which they changed frequently. "Since I have been prime minister, I have never been in bed for more than a few hours at a time. That is one way of getting through your work but in no country is the minister's lot happy. State work is a hell of a job, especially in times of excitement at home and abroad. "Some people," continued the premier, "do not have enough fighting in the war. For two years we have had constant excitement and a larger number of industrial disputes than ever we had in the history of the world. We have settled the greatest industrial dispute we ever had and in a way which is not to be repeated. Although there is a hopeful sort of person because in the long run I think we adopt the system which will hold all the way across that England has passed through and I want to proceed in that confidence. "When I went to France recently in foreign ministers said, 'You're an extraordinary person, the quietest in the world. You never get quite what we expect you to do, and never the sort of thing that we do. We don't understand you.' "That is the thing that is giving us confidence in Great Britain. It is a calm courage that will British people in the fall of the year get through all our troubles and keep on a steady path of common sense and experience. Keep the message and the world will be wiser."

**TO SEND BODIES HOME ON WARSHIP**  
HOME ON WARSHIP  
The Dauntless to Convey the Remains of Victims of Drigible Disaster.  
London, Aug. 29.—The bodies of Lieut. Commander Emery Cole, U. S. navy, and A. D. Patti, a rigger, were recovered in the fall of the dirigible ZR-2, which was recovered yesterday. The air ministry reports a crew of fifty men and a flight lieutenant, who was in command of the dirigible, were killed. The cause of the disaster was attributed to a weak structural part of the dirigible which broke in two, which caused it to fall. The bodies of the United States naval men, victims of the disaster, will be sent home on the British cruiser Dauntless, which probably will sail from Falmouth.

**CHILD PROBLEM IN THE QUEBEC RURAL DISTRICTS**  
Quebec, Aug. 29.—Le Pays after an analysis of the general conditions which exist in the rural districts of the province, comes to the conclusion that the position of the children is deplorable. "Take the ordinary family," the newspaper says, "and it is not rare that it consists of ten children. This is more than an average man is able to lodge, maintain and clothe properly. He cannot keep the children at school and take care of them in the event of illness. In order to aid their parents, the children commence work at too tender an age. The labor they accomplish is often beyond their physical capacity. Some of them are physically ruined before they are twenty years of age. Are we not bound to see here the chief reason for the desertion of the country districts?"  
Le Pays advocates compulsory education and public medical care of children in the rural districts, and adds: "We believe this is the only means by which more than fifty per cent of our population can be guaranteed against being physically worn out by the time they reach the age of 30 years."

**CONVICTS KEEP IT UP IN PRISON**  
Ossining, N. Y., Aug. 29.—Convicts who deal in spurious checks before becoming inmates of Sing Sing prison have continued to ply their trade behind prison walls. It was learned today, when it developed that checks totalling \$14,000 had been forged by prisoners assigned to office duty. Some of the forged checks were said to have been returned to the prison, paid and cancelled.

**LEAVING CANADA**  
Victoria, B. C., Aug. 29.—Disappointment was caused as a field of operation for a British company, Sir John Jack-son (Canadian) Limited, builders of the Ogden Point breakwater, and an off-Halifax shoot of the Great Britain firm of the same name is winding up its affairs here and elsewhere throughout the domain. **As Hiram Sees It**  
A quarter section of delicious, deep-squid pie so absorbed the attention of the reporter that he forgot to ask a second time how the reporter liked it. Even then the process of absorption went on for a full minute before the reporter could hastily apologize and answer the question. "Mrs. Hornbeam," he said, addressing himself to the lady of the house, "I would not be there now, or it would not be there now."

"Well," said Hiram, "I don't know as I blame you much—no, sir." "Not unless you're sufferin' from loss of memory," quoth Mrs. Hornbeam. "And tongue-tied." "And tongue-tied," said Hiram, "is a good thing to be. It's a good thing to be tongue-tied."

**THIEF AT HIS BEDSIDE GETS AWAY WITH \$50**  
Daniel McCarthy, of Truro, is Robbed While Asleep and Intruder Escapes.  
(Special to The Times).  
Truro, N. S., Aug. 29.—Truro continues to have its share of crimes and attempted crimes. On Saturday night Daniel McCarthy, who conducts a store in Young street, was robbed of \$50 when he went to bed on Saturday evening. He left the money in his trousers, which he hung over a trunk at foot of his bed. Yesterday morning the money was gone.

Investigation revealed that a window downstairs had been opened and that the door of the house was unlocked. The thief apparently had entered by the window, gone upstairs, taken the money, then unlocked the door and escaped. The crime was reported to the police.

**OBSTRUCTIONS ON TRACKS; MORE CARS DERAILED**  
Spike in One Case, Bolt in Another, on the West End Line.  
Three cars were derailed in West End street Friday night as a result of spikes and bolts being placed in sections of grooved rails, was a statement made this morning by an official of the New Brunswick Power Company. He said that they had found what was thought to be some kind of an explosive on a rail where a car was derailed Friday night and other cars were derailed on the same car. In the first instance a large spike was the cause of the derailed car. In the second instance a bolt was the cause of the derailed car. The first car was derailed at the corner of Laddow and King streets on a steep grade near the D. S. C. R. Hospital. The second car was derailed in Lancaster Heights and was derailed near the spike the suspected explosive was found. No damage resulted, but the service was tied up for some time.

**SALESMAN STABBED; NEGRO IS HELD**  
Buffalo, Aug. 29.—Bernard Connelly, a traveling salesman of Ulica, is believed to be dying in a hospital from stab wounds. Chas. Robinson of New York, a negro, is held on an open charge pending the outcome of Connelly's injuries. A dispute over baggage is said to have led to the fight in which Connelly was injured.

**EDMONTON HAS A BIG FIRE**  
Edmonton, Aug. 29.—Some \$100,000 damage was done by fire which broke out in the kitchen of the Shasta Cafe yesterday and spread to numerous business houses. It was the most disastrous fire to occur in some years.

**NO DEMONSTRATION AGAINST NEGROES**  
Quiet Today at Barnstable When Prisoners were Taken to Court.  
Barnstable, Mass., Aug. 29.—A small crowd surrounded the court house and jail here today and extra guards and state motor cycle policemen were on duty when three Cape Verde island negroes were transferred from the jail to the court house for hearing on charges of assault on a white girl two weeks ago. The men were threatened with lynching at the time of their arrest, but today's crowd showed no indications of intent at mob violence.

**MORE TROOPS TO DISTURBED AREA**  
Pitiful Tales of Torture and Looting in India.  
Region of Rebellion Has Extended, According to Despatch to London—Seriousness of the Situation is Recognized.  
Calcutta, India, Aug. 29.—British troops, including cavalry, arrived here from Bangalore Sunday and proceeded to the disturbed area.  
Numerous refugees who have arrived here from the Ernad district relate pitiful tales of torture and looting. It appears the rebels have deserted Tanur and other places and have taken to the hills.

London, Aug. 29.—The rebels in the Calcutta district have increased to 15,000 and the area of the rebellion has been extended, says a despatch to the Daily Mail from Allahabad. The expectation is that the uprising will be confined to the local area and will not spread to other parts of the province.  
A despatch to the Exchange Telegraph from Bombay, says the whole of the beautiful forest tract surrounding the Nilambar Palace has been laid waste and every Hindu house in the district looted.

London, Aug. 29.—(Canadian Press)—A British cable from India reports that Indian troops are proceeding from Calcutta to the northern districts to quell the rebellion of the Khasi tribes.  
A Calcutta despatch says the losses to date are several Europeans, many Hindus and about twenty men of the 1st Battalion and seven native police men missing and about 700 of the rebels killed.  
The revolutionary army is more isolated from the other portions of India than it has been for some time. It is expected that the operation in the movement if any were forthcoming, but it would not surprise officers here if at least the fanatic Mohammedans along the northern frontier should take this occasion to sever the connection with their almost continuous warfare against the British.

**STRIKE BALLOTS**  
Sending Them Out Shows Difference Among Railway Men's Unions.  
Cleveland, Aug. 29.—Strike ballots on the acceptance or rejection of the recent \$400,000 wage reduction recently ordered by the railroad labor board have been mailed to the 840,000 members of the "Big Four" North American unions.  
The ballots revealed a difference of opinion among the chief executives of the five organizations. The Brotherhood of Locomotive Engineers, Brotherhood of Railway Conductors and the Switchmen union joined a joint ballot, while the Brotherhood of Railroad Trainmen sent out a separate ballot.  
Chicago, Aug. 29.—The apparent break in the harmony that has existed among the Big Four railroad brotherhoods and the switchmen's union of North America in connection with the mailing out of strike ballots to the membership, was today minimized by union officials here. Strike ballots were mailed out to 65,000 workers, went on a separate sheet.  
The trainmen withdrew because, they officers explained, the ballot drafted by the other four organizations "did not in our opinion, contain an impartial and unbiased recital of all that is involved, nor did it convey the assurance that the wishes of the men, if against working for reduced wages, would determine the question, and that they would be permitted to leave the service."  
The joint ballot declared that if the members voted to reject the wage reduction it was understood they would be permitted to withdraw from the service. His tips the first day were \$18. Without waiting for a reply, he strolled from the street, placed a dynamite cap on his mouth and bit it. He died in a hospital several minutes later.

**ASKS OPINION ON SUICIDE AND THEN KILLS HIMSELF**  
Salem, Mass., Aug. 29.—A group of men stood conversing on a street corner here last night. One of their number, John I. Whelan, casually asked his companions whether they considered a man who committed suicide a criminal. Without waiting for a reply, he strolled from the street, placed a dynamite cap on his mouth and bit it. He died in a hospital several minutes later.

**ARCHIE IS AWAY**  
Archie Walsh, one of the leading can- didate pin bowlers in the world, who was spending the summer at the Cedars, left on Saturday evening on the Governor Harding in six hours actual flying time for the 614 1/2 miles, broke a world's record, the department of agriculture announced today.

**GRAVE TIME FOR GERMAN LEADERS**  
Government's Troubles Increased by Erzberger Murder.  
Labor Attitude Against Activities of the Pan-Germans Makes Difficulty—Also Question of the United States Treaty.

Berlin, Aug. 29.—Political conditions in Germany, which during the last few days assumed a grave aspect were considered by the cabinet today. The assassination of Matthias Erzberger on last Friday, has appeared to have set a match to the piled-up combustibles and the cabinet is believed to find itself in a serious state.  
One of the features of the situation which is troubling the government is the attitude of organized labor, supported by the socialist and communist parties, in demanding the definite suppression of the activities and machinations of the pan-German. This party has been annually active of late, holding battle anniversaries, "steel helmet" athletic meets, "front stoop excursions," and other affairs at which Field Marshal Von Hindenburg, Gen. Ludendorff and other military leaders have been present. These functions have, for the most part, taken on the character of anti-republican manifestations.  
The government must decide in the next few days whether or not it will call the Reichstag into session before September 27, the date fixed for that body to meet. There is a disposition on the part of Chancellor Wirth not to take this action, because if his desire to avoid debate upon the United States peace treaty before that date is realized, the United States senate.

It is a foregone conclusion that the nationalists, if the Reichstag should convene, would promptly attack the government because of its acceptance of paragraph 231 of the treaty, by which Germany and her allies accepted responsibility for the war.  
Ratification of the treaty is believed to be certain through the votes of the three Coalition parties and the independent, which command 27 out of the 469 votes, in the Reichstag.  
The government is about to undergo a decisive test in the Reichstag in connection with the forthcoming tax legislation and other measures and its other difficulties are being vastly increased by the feeling aroused over the Erzberger episode.

**DEL MONICO'S DOORMAN MADE A MILLION**  
Death of James W. Hebron, Who was Employed at \$1 a Day.  
New York, Aug. 29.—Bon vivants of bygone days learned today of the death of James W. Hebron, who made a fortune as a doorman in the heyday of Delmonico's down-town restaurant. He died in a hospital several minutes later.

**MURDER TRIAL IS STILL GOING ON**  
(Special to Times).  
Newcastle, N. B., Aug. 29.—Hearing in the Ross murder case was continued this morning before Magistrate Lawlor with the reading of the evidence given by John Savoy and sworn to by him. Joseph Latulippe was then called.  
On Saturday John Savoy was examined by A. A. Davidson and cross-examined by George M. McDade. He swore that Stewart had said that the Latulippe would go back into his house or he would kill Ross. He told of driving to a house with Stewart and Miss Latulippe and of Stewart leaving the wagon. A few minutes after he said he heard shots. He had no idea that any one was firing at Ross. Hon. Robert Murray is counsel for Savoy.

Fredericton, N. B., Aug. 29.—In the police court this morning Chester McBean of Nashwaak was sentenced to the county jail for one month by Police Magistrate Limerick on charge of driving an automobile on the public highway while intoxicated.

The case came under an amendment to the criminal code providing for a sentence without option of a fine in such cases. McBean was enjoying a joy ride about town last evening with a party of friends in a silver when the romance of the law intervened. A fine of \$10 or an additional thirty days in jail was imposed upon the accused for being drunk, and a further thirty days will have to be served unless the costs in the case are forthwith paid.

In Maryland Thomas O'Leary is in opposition to the present councillor. The Kingsclear Ward Executive is retiring and will be succeeded by Alfonso Kelly. John Doherty of the Springhill Hotel has taken the field in this parish, making a three-cornered fight. Norman Hanson will run in St. Mary's in opposition to the present councillor. Councillors Clarkson and Cowperthwaite and Douglass will offer for re-election in Mainland Sutton.

The rifle championship at the Guides' Tournament last week was won by Moses Weaver with Rev. E. W. Lester, second, and Russell Morrison, third. The Nova Scotia team composed of Sheriff Smith of Digby, Jack Leonard of Truro and J. McLaughlin of Halifax, since their shooting match was won by Sheriff Smith and C. McLean won the 22 rifle championship.

A conjurer was performing in a Durston village. Addressing a crowd of children, he asked for the loan of a half-penny. The coin was produced, whereupon the conjurer threw it into the air and returned the modest coin had taken the color of a sovereign.

Up stepped the pitman who owned the half-penny and asked to see the coin. The conjurer placed the sovereign in his hand.

"And this is really my ha-penny?" "Certainly" was the reply.

"Well, then," said the owner as he slipped the sovereign into his pocket and walked off, "I'll not trouble ye to change her again."

Brown and Jones, of the club, were lamenting the absence of their mutual friend Robinson, who had got married. "We don't see much of Robinson now," said Brown. "I fancy his movements are not so free as they used to be."

"That's true," replied Jones, dryly. "Since he tied the knot he's not had so much rope."—T.H.-Bita.

Bald to Grow New Crop of Hair, Says Preacher at a Fredericton Meeting.

Fredericton, N. B., Aug. 29.—"God's kingdom of peace is near at hand; therefore millions now living shall never die," was the subject of an address delivered by T. E. Barker of Boston, traveling representative of the International Bible Students' Association, in the Opera House here on Sunday afternoon.

Those who are now bald will grow a new crop of hair, he said, while the owners of false teeth will be able to discard the "store" variety and substitute with a brand new set of their own, provided they live until 1925, which was the date set by the preacher for the new order of things, when those who live shall wait for nothing.

William Matheson said that he heard the defendant calling scab and that Mitchell offered to fight any of the workers. Matheson said the defendant did not seem to be sober. The case was postponed until Friday morning at 10 o'clock.

THEN THEY MOVED

During the war much was spoken and written about fighting persons, but a suburban residential resort, not many miles from the city must be accorded the credit of turning out a fighting person in peace times. The reverend gentleman was, in his younger days, by way of being an accomplished boxer, and the same punch of which he delivered himself in his boxing days is evident today in his sermons. Recently he was passing along the road in his automobile when suddenly he found himself confronted by an automobile placed squarely across the road. In it were four young men, who surveyed him insolently and displayed no intention of removing their car that he might continue on his way.

In his usual courtly manner the reverend gentleman requested them to move their car that he might continue on his way. By way of reply one of them got out of the car and approached the minister in a friendly manner. The minister, however, the latter calmly divested himself of such cumbersome clothing as his coat and vest and then proceeded to administer a sound trouncing to his would-be assailant, much to the amusement of his companions. He then donned his abandoned garments and stepping into his car drove along the suddenly cleared highway.

### FRANCE IN DANGER FROM ASIA'S PLAGUE

Has Not Adequate Sanitary Inspection to Keep Out Plague from East.

Paris, Aug. 29.—With 2,000 miles of frontier and the rest of Europe alarmed over the spread of cholera and typhus, France's health experts are beginning to worry over the fact that this country has not yet established a system of sanitary inspection of immigrants, which would prevent the spreading westward into French territory of the plague which is sweeping Russia. At French frontier stations passports are still examined, but the gendarmes never think of observing whether a traveler shows external signs of contagious or infectious disease.

The ministry of hygiene insists that the government is not able to appropriate a fund necessary to carry on more than the most meagre health propaganda. Therefore, the proposal that she follow the lead of the United States, England and Germany and institute a rigid system of sanitary inspection along her borders has fallen on deaf ears.

While the spread of disease from Russia may be arrested by German sanitary measures, France's great danger is to be found in the constant arrival in this country of persons from Spain, Madagascar and Poland.

Official reports received here from Senegal and Madagascar state that the Asiatic plague has appeared there, in Senegal one town reporting 200 deaths in a single week. Despite her rigid preventive measure, Waraw also is reported to have several cases of plague, brought in by refugees from the Volga region of Russia, where the disease is one of the direct results of the famine.

### FIND GOLD NEAR AUSTRALIAN CITIES

Melbourne, July 18.—(Associated Press by Mail)—Prospecting for gold is one of the most alluring charms of life in Australia. It may be enjoyed only a few miles beyond the boundaries of the larger cities, and there are still many eager adventurers on the trail for surface gold. This is attested by the frequent success.

Thirty miles from this city two prospectors in June spotted approximately \$1,200 worth of gold, obtained from the quartz; and during their sojourn on the one site realized \$8,000 worth of the precious metal.

Precious stones are also available. During June large deposits of sapphires were discovered in the basalt country of New South Wales. Two syndicates are prospecting the field and have obtained some exceptionally fine gems.

One of the finest pearls in the world found in Australian pearling waters, was a gem larger than a sparrow's egg, recently exhibited by James Clark, a Queensland farmer and pearl magnate.

### THE EXHIBITION

We are within a few days of the opening of the St. John Exhibition of 1921. The last of the weeks of preparation sees matters well advanced and a satisfactory entry list of exhibits promises much to interest the visitor.

Products of the farm and field and factory will give good evidence of work that is being done in the province and the competition will lend encouragement to efforts for further advancement along the various lines of industry.

Exhibition week should see many people from outside points in temporary domicile in the city. The farmer will have garnered his crops by that time and might well consider a trip to the provincial metropolis with members of his family. General business, the exhibition and a call upon friends all can be included in the programme of a visit at this time.

It should be regarded as a duty by us all in the city to lend support to the fair by attending as frequently as may be. Men busy in their own affairs have given of their time and experience generously to make all run smoothly and have the exhibition prove a credit to the city and province; we owe them at least the courtesy of support by our attendance. A good plan is that of a family day on the grounds. This is made feasible by the excellent dining room arrangements. The time will not lag, for there will be much to amuse and entertain in addition to the more substantial and educational features. The management, the staff and the exhibitors will be found to have done well their part; we must then do ours and make the 1921 Exhibition a decided success.

### WAGES AND THE WORKLESS

Everywhere the question whether a man should work unless he receives a certain wage satisfactory to himself or remain in the ranks of the unemployed is cropping up. They have it in Ottawa. A correspondent of the Journal tells of a farmer who was offered six dollars per day for a team and a man to hurry along the construction of a piece of highway. He was asked for two teams and agreed to send them if he could get teamsters. He went to the government employment bureau and found men lined up there looking for work. Not one of them would go with him for less than three dollars a day and board. They would only have to drive the dump wagons, shifting a lever twice with each load of stone, and look after the team. The farmer could not afford to give three dollars and board to a man and accept only three for his team, and the result was that both men and teams remained idle and an important construction work was delayed. The correspondent adds that a neighbor of the farmer had the same experience, and his teams are idle. But there is also objection to the wages paid for relief work in Ottawa, which is solely provided for relief purposes, and the Journal indulges in this plain language: "Twenty-five or thirty-five cents an hour is not approved by Controller John Cameron, nor perhaps by other professional labor spokesmen, as suitable wages for men for the relief of whom work is created by public bodies. The work on which the wages complained of by the controller are paid is highway construction. The working day on this work is nine or ten hours. The man who finds employment at it in this period of idleness, therefore, at a wage of thirty-five cents an hour will earn upwards of \$3. It is not a large wage, but it should enable him to keep his family from suffering. It is better than no wages and no work. There is more hardship in Ottawa due to unemployment in this month of August than there was in the middle of the winter of 1913-14, the worst period of business and industrial depression in recent years. In the circumstances, \$3 or \$3.50 a day at work that would not be undertaken at this time except as a means of providing relief at the public expense, might be regarded as something to be thankful for rather than criticized."

In the matter of wages there are two extremes. Undoubtedly there are some employers who would take the fullest advantage of the necessities of persons seeking work, but there are also workers who would be quick to take the same advantage of an employer. The present, however, is not a time when the worker can afford to throw away opportunities for work. The conditions are such that great numbers are unemployed, production has been reduced, and money is shy of investment in enterprises which might prove too costly for any profit at all. It is not, therefore, a question of how much wages shall be paid, but whether enough work at a very moderate wage for the time being can be provided to provide work for all of the workless.

When industry and trade revive the question of the rate of pay will again become a subject of proper discussion, but for those who are now without work the great problem is to get any wages at all. This condition of affairs has not been produced by the capitalist, for he suffers, but by the awful destruction and dislocation of industry wrought by the war. The greatest need today

### is that employers and workmen get together on a friendly basis, recognize the economic conditions and unite their efforts to bring about more rapidly if possible a revival of industry.

The Weekly Review says: "All of the Daily Eireann are pledged to the establishment of an independent Irish republic. This, apart from all other circumstances, presents an almost insurmountable obstacle. Almost, but not quite. A way of escape is furnished by the possibility of referring to the Irish people the question whether the splendid prospect of essential independence opened up by the British government's offer should not be accepted as a triumph for the Irish cause sufficient to justify an act by which seven centuries of misery shall be happily forgotten. The alternative is a plunge back not merely into the horrors of the past two years, but into a state of war infinitely more serious and with little or no prospect of leading to a successful outcome."

It was a happy thought that led to the outing given the orphans at Seaside Park on Saturday, and the promoters of the project had full recompense for their time and trouble in the happiness reflected on the faces of the little ones. Nothing goes unrewarded that is done for the fatherless; there is the very highest authority for that.

The maritime field and track championships to be contested here on September 10 will be a fitting closing to a wonderful summer season of sporting competition in St. John. They should draw a great crowd.

## OHIO PRESERVES FISH AND GAME

### A Remarkable State-wide Organization Representing 100,000 Sportsmen.

The co-operation between the sportsmen's associations and the Bureau of Fish and Game has enabled the state of Ohio to make rapid strides in reducing violations to a minimum in all parts of the State as well as increasing the work of restocking with both fish and game, says a bulletin of the American Game Protective Association. Through the associations the department has a direct point of contact with all sportsmen. Ohio has 110 fish and game protective associations affiliated through club membership with a State organization, known as the League of Ohio Sportsmen. Every county in the State has a local organization of sportsmen formed with the following objectives:

- (1) To co-operate with the State Fish and Game Department in the enforcement of the fish and game laws.
- (2) To assist in restocking the streams with fish and the forests and fields with game.
- (3) To support good fish and game legislation and to kill legislation that is undesirable.
- (4) To use their influence to prevent stream pollution.
- (5) To interest and educate the general public in the more sportsmanlike methods of taking fish and game.

The League of Ohio Sportsmen represents directly 100,000 sportsmen, and its influence is so wide that it speaks for approximately half a million hunters and fishermen of the Buckeye State.

James W. Shuler, Assistant Chief, Bureau of Fish and Game of Ohio, in the bulletin of the American Game Protective Association says:

"To give an example of what can be done in any country when the sportsmen take upon themselves the task of enforcing better hunting and fishing conditions and to support the 'more game' movement, I want to mention the sportsmen's organization is so strong that it is unpopular not to be a member of the association. Practically every farmer in the county is a member and at their annual banquet last year held at Washington Court House, the county seat, a city of about 7,000 inhabitants, more than 1,000 hunters and fishermen were present."

"Most of these associations have been perfected under the auspices of the State Fish and Game Department. Each organization has a restocking committee. These committees are so zealous in their co-operation that the Fish and Game Department sends pheasant eggs and live birds direct to these committees for distribution. In many cases the Fish and Game Protector in the district is Chairman of the restocking committee of the local association. The committee makes all arrangements for conveying fish from the fish car to the streams or lakes, where they are planted under the supervision of the local protector."

"Once a year a sportsmen's congress is called by the Fish and Game Department in Columbus. Each association sends a delegation, and in convention assembled the plans and policies of the department for the coming year are perfected and all legislative matters discussed and held down to a concrete form. This does away with much fric-

## IN BURMA OLD ORDER CHANGES

### Government Has Been Reorganized—Modern Ethics are Replacing Pagan Customs.

There is to be a change in the government of Burma, following the recent reshaping of the governmental machinery of India, according to a despatch from Washington, D. C., headquarters. A committee of parliament has been considering whether a constitution shall be granted and whether the country should eventually be severed from the empire. That there have been changes in Burma is shown in the following bulletin of the National Geographic Society issued from Washington, D. C., headquarters:

Recently in Burma the old pagan order of things has been passing and modern ethical ideas and manners are gradually seeping into the Oriental mind and replacing many picturesque and amusing customs, says the bulletin.

Perhaps the most characteristic custom of the Burmese men, women and children's appearance is the inevitable "whacking" white cheroot. It is said that a mother often transfers her lighted cigar from her own mouth to that of the child in her arms; and no lady would start on a dress parade without taking a necessary stock of "smokes" to supply her while she is out. This cheroot is more like an overgrown cigarette than anything else, and is said to contain but a small portion of the real tobacco leaf.

Women Not Only Smoke, But Chew.

Another Burman custom common to boys, girls, men and women is chewing. The Burman has been to smoke between chews and chew between smokes, but to have little time for anything else. The betel nut is chopped into a red line paste is spread on a certain kind of astringent leaf, and all are jammed into the mouth together. Then the chewing begins. To extract the last bit of flavor for the combination, the chewer coughs his face, while his cheeks puff out more and more, until finally discomfort compels him to start again with a fresh "charge."

The Burman has a pride that makes him, in his own estimation, second to none on earth. He is descended from angels who came on earth and gradually

adopted the ways of human beings. His kings, before the days of Theban and his queen, Supplywint, had complete power over their subjects and wore a list of titles which make the letter-abbreviations of orders after the name of a British celebrity seem few by comparison. These potentates were content, however, to be known as "Lords of the White Elephant" for short.

There is no elaborate caste system among the Burmans like that which prevails among the Hindus, but certain classes are outcasts; the pagoda slave remains a pagoda slave generation in and generation out; a grave digger never hopes to rise above his occupation and his benighted social position; and the lepers, beggars, and the deformed or maimed are believed to suffer the stigma of some terrible sin of a former existence.

Silk Shirt Spenders in Burma.

The Burman is the cleanest and dresstiest of the races of his country, but his gaudy silk shirt is no indication that his pockets will give forth the merry tinkle of coin. In this sparsely populated country one finds Chinings, Shans, Karens, Kachins, and the Chins, whose manner of dressing would call for little comment if they would only keep their clothes on.

As strict Buddhists, these people are not supposed to take life in any form, and the most unbecoming habits being reserved for fishermen and hunters; but few of them manifest any unwillingness to eat the quarry when it is served as food.

One respect in which the Burmese shine as a people among the other Orientals is in the position of their women. Though they consider a man far superior to a woman, and though her freedom and puff her cheroot to her heart's content. She takes part in, and quite often has complete charge of, the business affairs of the family, retelling her wares in a stall in a bazaar or market, figuring her accounts in her head, for the never has any schooling—and meeting her husband's friends on the same plane with him in the household.

Courtesy in Burma is a more open and natural flirtation that it is in almost any other part of the east. The young man usually manifests his interest at one of the pagoda feasts by shy attentions; he then calls in company with his boy friends, to find that the young lady with a bevy of her friends is awaiting him. He means business, however, and if the families consent he persuades her to eat a meal with him in public, and by virtue of this procedure his bachelorhood is brought to an abrupt end.

Before the young girl in Burma makes her debut she must have her ears pierced for earrings. The holes are kept open and enlarged by wearing in them glass or metal tubes of increasing size until they are half an inch in diameter, capable of carrying weights similar to the enormous wares from the South Sea Islanders. He often times the fashion demanded much larger holes than those in vogue at the present time, and many an old Burmese lady uses hers as holders for her cheroots, somewhat after the manner of the English's conceit of wearing a cigar behind his ear.

A dead man in Burma carries up his face across the mystic river of death with a small coin which he carries in his mouth. The curse that rests on grave diggers as a class probably comes from the fact that most of the men of this trade have no scruples about digging the poor wretches up for their coins. It is believed that this causes the spirits of the disturbed ones to return to this world to suffer all the ills that the Burman imagination can conjure up for them.

### BARON BYNG'S GOOD WISHES TO WAR VETERANS

Toronto, Aug. 29.—"Boys, I want to wish you good luck from the bottom of my heart," declared Baron Byng to the veterans, after he had formally opened the exhibition on Saturday afternoon. He did not want the wish to be one of formality. He wished the boys good luck in all their pleasures, in their home life, and in everything in which they are interested.

"Good luck from the bottom of my heart and God bless you," he concluded. Twelve thousand veterans were in a parade which passed in review before the former commander-in-chief. The amputation cases were given a great reception as they took their places in the reserved section to the left of the new governor-general.

## Send Him Back Smiling When The School Bell Rings

Five days a week at school, besides Saturday for play and Sunday for dress-up, takes a lot of clothing and furnishings to keep a boy going. We have the kinds of boys clothes built to give long wear—the kinds boys like best. Your boy will need some of these things right away, that's sure.

### Jack O' Leather Suits For Long Wear

Manufacturers have put a lot of extra value and service into these suits. All points that get excessive wear and strain are made extra strong. Some are lined at elbows, knees, seat and all pockets with soft, pliable leather; others are reinforced at these points with cloth same as in suit. This is a very desirable feature, for, should a hole wear through in time, the patch is right in place, and just a few stitches and the weak spot is scarcely noticeable. We have all sizes from 6 to 18 years.

### SAYS CANADIAN HAD DUAL LIFE

Wife of Grandson of E. B. Eddy, Hull Matchmaker, Brings Sensational Suit For Divorce.

(Canadian Press Despatch.)  
New York, Aug. 28—Summons and complaint in an action for divorce brought by his wife were served yesterday at the Hotel Astor on Ezra Butler Eddy, grandson of Ezra Butler Eddy, match manufacturer of Ottawa.

Service of the papers was made in dramatic fashion by Mrs. Eddy's attorney while the young Canadian was at dinner with his wife at the hotel. As Eddy was passing the bread to his wife, the attorney handed him the summons.

Another unusual feature of the incident was that a woman named as co-respondent in the divorce proceedings accompanied the attorney and pointed out Eddy as "that man."

In her petition Mrs. Eddy asks that her husband's funds be withheld from his use temporarily. Her affidavit charges that he is a "hard and consistent drinker, a waster, and that she fears he will imperil his income of not less than \$100,000 a year."

The co-respondent, whose name has been withheld, is said in the petition to have resided with Eddy in New York for a considerable time as his wife. Mrs. Eddy discovered the alleged dual life of her husband.

A blanket of smoke hung over the Kennebecasis and St. John rivers for several miles yesterday. The smoke came from a fire in the vicinity of Acma. There were fires also at Boat's Head, and near Lock Alva, in the area of the Westfield fire of a month ago.

### LET N LIGHT BUT NO HEAT

Chemists in Convention to Hear of New Glass—Also Discuss Substitute for U. S. Coal.

Montreal, Aug. 29.—(Canadian Press.)—Noted chemists from this continent and Great Britain gathered here today for the convention of the Society of Chemical Research and the Canadian Institute of Chemistry. The convention of the Society of Chemical Research will last three days, during which interesting papers will be read. Tomorrow night a banquet will be held. Right Hon. Arthur Meighen is expected to speak. This morning Mayor Martin extended a civic welcome to the delegates. The convention was formally opened by Sir Charles Fitzpatrick, lieutenant-governor of the province.

Sir William Pope, president, will preside over the meetings of the society. He was knighted under the British Empire Order for his special services in connection with mustard gas for the war office during the war. Among the papers to be presented at the sessions is one dealing with a glass which, while admitting unlimited daylight, eliminates the heat rays so that no warmth penetrates a room illuminated by it. Other papers will describe steps being taken to replace coal with peat and lignite so as to make Ontario and Eastern Canada largely independent of fuel from the United States.

After the convention the delegates will visit Shawinigan Falls, Ottawa, Toronto and New York.

The meetings of the Canadian Institute of Chemistry will be presided over by Professor J. Watson Bain of the University of Toronto. Those attending will include: Dr. Harold E. Rigolew of Mount Allison University, Sackville, N. B.; Prof. B. A. Lehman, University of Alberta, Edmonton; E. G. R. Ardagh, University of Toronto; Leonard T. Acton, Toronto; Dr. J. S. WATER SPORTS  
AT WESTFIELD

Very successful water sports were held at Westfield on Saturday. These were the sports scheduled for the fall Saturday about a month ago when the whole countryside was so suddenly enveloped in flames. Nothing daunted, the committee in charge cast about for an opportunity to hold the sports, and the success of Saturday's events fully justified their optimism. At the conclusion of the race the cups were presented to their winners by W. E. Golding, president of the Westfield Country Club. During the afternoon the spectators were tagged by young ladies under the condescension of Mrs. D. W. Ledingham and Mrs. Thomas, the proceeds to go to the Westfield fire fund. Clubs participating in the sports were the club of St. John, Epworth Park, R. K. Y. C. and the Westfield club.

ST. PETER'S WIN FIRST; LOSE SECOND

Defeat South Boston Team in the Afternoon Contest, but Lose in the Evening.

St. Peter's played two games on Saturday with the South Boston All-Stars on St. Peter's grounds. The locals played championship ball in the afternoon and copped the game by the score of 3 to 1. Hansen's pitching was backed up in excellent style and the team made their hits count.

**A ST. JOHN SUSPECT**  
Sydney, N. S., Aug. 28.—The Dominion Street police are tonight still holding the foreigner Jerbac, arrested by them Saturday on suspicion of being the man wanted in the St. John murder case. They have forwarded photographs of the suspect to St. John and are waiting word from the detectives there. Jerbac is a German. He is said to have appeared suddenly in Cape Breton without money or a job and tried to get a berth on a steamer going to a foreign port. When arrested he admitted, the police say, having been in New Brunswick at the time of the murder, saying that he was in a forest fire fighting camp near St. John.

**N. B. TELEPHONE STAFF ENJOY ANNUAL OUTING**  
The New Brunswick Telephone Company's employees held their annual outing and picnic at Torribon on Saturday afternoon and evening. The 250 employees were taken to the grounds on the suburban and in automobiles belonging to the company. The directors of the company were present as guests of the employees. The first event was a ball game between the ladies office staff and the ladies operating staff. The latter were the winners by the score of 16 to 1. The winning team divided the prize, a box of chocolates. An amusing sport during the afternoon was a pillow fight. The contestants were a greased pole, armed with pillows and endeavoring to knock each other from the pole. This event was won by E. Smith and he received a safety razor as a prize. A pole climbing contest, for the year, was won by M. J. McCarroll in three minutes and twenty-five seconds. A baseball game in the evening between the inside and outside staffs ended in a tie, with the score of 5 to 5. Other races for men and boys and ladies were held and a nice prize was awarded for each event. The refreshment committee provided an abundance of good things for the hungry picnickers and the cartoon was well patronized by the thirty crowd. The various committees deserve great credit for the workmanlike manner in which arrangements were carried out.

Republican-Coalition Organization for Mayoralty Contest—Hylan Likely to Run Again.

New York, Aug. 28.—(Associated Press)—Three hurdles are in the path of the Republican-Coalition organization in the race for the New York City mayoralty nominations on September 15—Major F. H. LaGuardia, president of the board of aldermen, former State Senator W. M. Bennett of Brooklyn and Judge Reuben L. Haskell of Brooklyn.

appreciate each other's viewpoint, and that this can be overcome by mingling together and putting forth an honest, vigorous effort to bring about a "better understanding." He points out that in the opinion of Bancroft, American historian, the great Civil War was brought about not by slavery or state rights but by a lack of mingling and understanding between the people of the two sections, whereby they grew suspicious and resentful towards each other. Mr. Mikel refers to a statement appearing in the Canadian press last week reporting an address of Archbishop Mannix of Melbourne, Australia, to the effect that he found more bitterness than existed in Ireland.

**AN IMPLIED REBUKE**  
(Toronto Globe)  
Lloyd George the other day, in thanking Japan for her naval aid in the Pacific during the war, embraced Australia and New Zealand in his eulogy. "The Pacific," he said, "was being raided by fast German cruisers; our ships were being sunk, and we had to depend upon the help of Australia and New Zealand."

**MAKE THE CROWD FOLLOW YOUR PATH**

Emerson said that if a man made a better mousetrap than his neighbor the people would beat a path to his door to buy it. He was wrong.

Selling strategy must overcome competition in the open market.

A man today must first make a better mousetrap—then take it to the public—tell them why it is better—what it costs—and where to buy it.

Does your sales manager realize that a 10,000 line campaign in every daily newspaper in Canada costs less than the three-cent stamp on one letter to each family.

Make the crowd follow your path to the retail store.

W. Thomas and R. Simpson (D. C.) defeated M. Lamb and H. Gregory (R.), 4-6, 6-4, 6-2.  
S. Clark and D. Fowler (R.) defeated A. L. Harding and J. McLaughlin (D. C.), 6-2, 6-3.  
A. C. Clark and R. Evans (D. C.) defeated W. Cooper and W. Clarke (R.), 6-2, 6-1.  
The totals of the three tournaments show that Renforth has won fourteen events for 310 points and Drury Cove defeated the home club. After the last set would have been at the least a score 9-1 one.  
The most closely contested event in the men's doubles was the one between M. Lamb and H. Gregory, Renforth, and W. Thomas and R. Simpson, Drury Cove. The game of the last set did not give credit to it as each point was fought for.  
Supper was served on the grounds by the ladies of the home club. After the last set would have been at the least a score 9-1 one.

DRURY COVE WINS TENNIS MATCH  
A third tennis tournament between Renforth Tennis Club and the Drury Cove Athletic Association was played on Saturday, and was exceptionally well contested on account of it being the decisive match. The first was played at Renforth and won by Drury Cove, the second was won by Drury Cove Club, giving the Drury Cove Club the lead of two matches to Renforth's one.  
The mixed doubles were very hard fought events, one having to be called off on account of darkness. This one, Miss G. Price and J. McInerney, Renforth, vs. Miss J. Knight and J. H. Drumme, Drury Cove, was so evenly contested that the last set would have been at the least a score 9-1 one.

**PRIZE WINNERS AT SEASIDE**

It was a Great Time on Saturday for the Orphans.

Due to the generosity of interested citizens, the orphans of St. John enjoyed a wonderful day at Seaside Park on Saturday. The following institutions were represented: Silver Falls, St. Vincent's Convent, Provincial Home for Children, Protestant Orphanage, Protestant Orphan's Home and Children's Aid. The children were taken to and returned from the park in automobiles. A troupe of kiddies under the direction of Mrs. Jack Hoadley, gave a tabloid musical revue, after which a two-hour programme of singing, dancing and juggling was given. C. Cromwell entertained the children with bagpipe selections during the afternoon.

The orphans received 106 pounds of candy in fancy boxes, twelve gallons of ice-cream, four bunches of bananas, a cake and peanuts galore. Three hundred and fifty boxes containing toys, shoes, ties, ribbons and blouses were placed in the festoon and each child was allowed to fish.

The results of the races, with the prizes won, were as follows: Boys, eight to ten, first, Herbie Mullin, St. Patrick's, blouse; second, George Mullin, Britain street, hat; Girls, eight to ten, first, Evangeline Sapier, St. Vincent's, doll; second, Alice Donovan, Britain street, hat; Girls, ten to twelve, first, Gertrude Ewing, West Side, sweater; second, Mary McMahon, St. Vincent's, hat; Boys, ten to twelve, first, Harvey Crossman, West Side, cap; second, Kenneth Donnelly, Britain street, knife; Boys, eight and under, first, Woodrow Zakie, Britain street; second, Charlie Clarkson, Britain street; Girls, eight and under, first, Madeline Tousser, St. Vincent's, cloth coat; second, Mary Hogan, St. Vincent's, hat; Boys, four and under, first, Helen Donovan, Britain street, blouse; second, Russell Ward and Templeton, St. Vincent's, doll; Boys, six to eight, first, George Campbell, West Side, blouse; second, Russell Ward and Eddie Wood, Children's Aid, knife; Girls, six to eight, first, Winnifred Bettison, West Side, blouse; second, Rosetta Zalis, St. Vincent's, hat; Boys, twelve and over, first, Walter Appleton, Britain street, rubber coat; second, Gordon Steves, Silver Falls, blouse; Girls, twelve and over, first, Gertrude Appleton, Britain street, gold bracelet; second, Alice Armstrong, Britain street, boots.

**PORT SITUATION**

Need for Development of the Grain Conveyor Equipment—Congestion at Montreal.

The Board of Trade has been making enquiries into the port situation at Montreal, with a view to considering its bearing upon the port of St. John. The suggestion has been made that the congested situation at Montreal might be relieved by the utilization of pier space for a portion of the traffic and by the extension of the grain conveyor equipment here. All six of the city piers on the West Side are provided with grain conveyors, but piers 14 and 16 of the government piers have no conveyors.

It has been learned from the head office of the C. P. R. that the steamers at Montreal must discharge their wheat-bound cargo at that port, where 80 per cent of the same is consigned, the balance being for points west. As the liners are refusing to call at Quebec for out-bound wheat, it is not considered likely that they will want to berth at St. John. The suggestion at Montreal is reported to be temporary, due to low water at certain berths.

Other advice received show that the Montreal situation is serious. The Montreal Shipping Register says that the extra berths for tramp steamers and of having the grain conveyor system extended is badly in need of the congestion is attributed by the register to the enormous amount of grain that has been shipped from Montreal.

A despatch from Winnipeg says the grain shippers there are growing weary over the enormous movement of American grain through Canadian Atlantic ports. This statistic further says that Montreal elevators are all full with American grain and there are 3,000 cars of wheat waiting to unload.

The situation is one that indicates the pressing need for increased utilization and development of the grain conveyor equipment of this port. It might be worth stating here that in September of last year the inadequacy of the present grain loading facilities at St. John was pointed out to the authorities at Ottawa, through Mr. Wigmore, and the suggestion was then made that the grain conveyor at No. 6 berth be extended to government berth No. 7. No action was taken by the government on this suggestion, but it was said today that it should be attended to at once, as it could be made available for use this winter, while it might take a longer time to provide conveyors at the other government berths.
