CLOSING OUT SALE of dry goods, etc. See advt.

A CHEESE FACTORY—The farmers of Prince William, York County, are building a cheese factory.

DEAKTOWN GAST MILL has made a favorable arrangement with the Canada Eastern Railway for the carriage of grain and solicits a share of public patronage. See advt.

A SACKVILLE KIBBITZ—We understand that it is the intention of the farmers of Sackville to send an exhibit of the products of their County to the World's Fair, Chicago.

FRANCONIER—Barque "Isabel," Capt. Larsen, from Richibouctou to Glaston, N.B., was abandoned waterlogged, in lat. 48, lon. 35. All on board saved.

PREMIER BLAIR'S RESIDENCE—The St. John Globe says: "The residence of Hon. A. G. Blair at Fredericton has been sold, it is understood, to a well-known resident of Fredericton Junction."

DEATH OF THE OLDEST RESIDENT—In the death of James Babson, which occurred Sunday, the 23rd ult., at Port Lorne, Annapolis, in his one hundred and fourth year, Nova Scotia loses its oldest inhabitant.

PROMOTION—Mr. H. A. Price, private secretary to the chief superintendent of the Intercolonial railway was promoted to the position of chief clerk in the general passenger agent's office at Moncton.

BOOK-BINDING—Persons having magazines, or other periodicals to bind, old books to be rebound, or any similar work, can have their orders attended to at the ADVANCE office, where information as to style, price, etc., may be obtained.

A FLOCK OF GEESSE belonging to H. H. McNair, Lower Village, was being driven to a place of feeding in the bay, a few weeks ago was accompanied home by a wild goose that had remained with the flock ever since and is quite tame. It goes into the barn at night with the flock; one of its wings has now been clipped to prevent its flying away.—Toro News.

I. S. S. COMPANY—The International Steamship Company have made a change in the running of their boats preparatory to the winter season. The steamers will now leave St. John on Monday and Thursday, and leave Boston on the same days. The steamers will make connections as usual with Portland and Eastport.

FIVE YEARS FOR PERJURY—On Wednesday, 2nd Nov., the supreme court of P. E. Island gave judgment in the Queen against Thomas McTague, charged with perjury before the stipendiary magistrate in a prosecution before him for breach of the Lord's Day Act. McTague was sentenced to five years in the penitentiary.

THEY SHOT THE BEAR—Messrs. A. L. F. VanWart and William Berry, of Fredericton, went out shooting partridges on the Miramichi on Thursday, the 1st Nov. They met a bear, and notwithstanding their guns were only loaded with partridge shot they fired at the big game. Fortunately for them their shots found a vital spot, as brain ratter and died in a few minutes.

MISS LOGGIE'S FUNERAL—The funeral of the late Miss Jessie Loggie, daughter of Alex. Loggie, Esq., of Chatham Point, took place on Monday afternoon at the rectory. The Rev. Canon Forsyth officiated. A party of relatives and friends of the family went to the funeral from Chatham on the steamer St. Nicholas, which was kindly placed at their disposal for the purpose by Mr. Snowball.

VISIT OF BISHOP KINGDOM—His Lordship, Bishop Kingdom arrived in Chatham on Tuesday evening last and was the guest of the Rev. Canon Forsyth at the rectory. His Lordship proceeded to Richibouctou yesterday where he administered the rite of Confirmation last evening. The bishop will visit Harcourt to-day and proceed to Bathurst to-morrow. He will also administer the services in St. George's church on Sunday next.

PROVINCIAL APPOINTMENTS—The following appointments have been gazetted:—Thomas W. Perry to be sheriff of Queens Co., vice Bator, resigned.

George F. Hibbard to be registrar of deeds and wills for Charlotte Co., vice H. F. Hatch, removed.

George J. Clarke to be judge of probate, pro hoc vice, in the matter of the estate of John Townsland, late of the parish of St. Andrew, deceased.

THE DOUGLASSVILLE BRIDGE—The contract for the construction of the proposed iron bridge at Douglassville, tendered for which was advertised for in the ADVANCE, has been awarded to Mr. Lawrence Doyle. The contract price is understood to be about \$3,400 for the stone abutments. The bridge will be a permanent one. The government tender Douglassville pretty well, considering that its abutments are so largely influenced by species of convass to vult plumpers in the position intended. They ought to get tired of being so often induced to oppose their best friends.

ABOUT BARR—It is said that the order in council further prohibiting bass fishing on the Miramichi was issued, in a great measure, by a local paper stating that large numbers of bass were being caught and preserved in freezing during the past few months. It is also said that the statement was made with a view of securing the continuation of the prohibitory order. We do not credit this, however, but believe that the statement referred to was simply a mischievous invention of a writer over-zealous to furnish an item which no level-headed man would write and no decently edited paper would publish.

MONROE IN THE LAW COURTS—We understand that the City of Moncton has no less than six law suits pending. They are Captain's Womb, of Parrsboro, for damage for the loss of his vessel, which he alleges was due to negligence of harbor officials; L. T. Jodary, for damages to his property, caused by the diversion of a natural drain on the Mountain road, so called; Thompson, of Bass River, who sues for a share of the city award of \$250 offered for the capture of the desperado "Jim," all of which was paid to Detective Carroll; Abraham Wilbur and Geo. H. Allen, who sue for false arrest for taxes and Miss Woolfe, who sues for damages sustained from falling into a sewer excavation which it is alleged was not properly lighted and otherwise protected.

GALANT RESCUE—The crew of barque "Isabel" Captain Larsen, above reported waterlogged and abandoned on the voyage from Richibouctou to Glaston, N.B., were saved by the Russian bark "Zerba," from Richibouctou for Rhyt. The captain of the "Isabel" reports that his vessel encountered a terrific gale, in which she was thrown on her beam ends. After three days of continuous labor the crew succeeded in sawing off the masts and in jettisoning the deck cargo, but still the vessel would not right. The crew had abandoned all hope of saving either the vessel or themselves when the "Zerba" was in sight. The rescue of the "Isabel's" sailors was effected with difficulty,

Miramichi Foundry and Machine Works

The public generally will be glad to learn that the Miramichi Foundry and Machine Works at Chatham are to be started, in full operation, next week, after being shut down for about a year.

The establishment has been for a good while the subject of litigation, but the end is now practically reached, the title to the property having passed, by purchase, to Mr. Joseph M. Ruddock, who is generally acknowledged to be the owner of the property. He is also putting in new machinery, tools and other plant, as well as a stock of necessary material to meet the requirements of mill-owners and other users of machinery, of whose orders for new work, as well as repairs, he intends to make specialties. He is also preparing to make the casting department a very efficient one and to give attention to the construction of stores and other light work of this description. Our reporter, who visited the old place yesterday, was much interested in the progress that had been made in a few days in the way of getting things in order. Mr. Ruddock said he wasn't quite prepared for a rush of work for a day or two, although—between his new shops and the old one—he wouldn't see any shop hung up very long with any ordinary kind of jobbing work, however, he said, he "could see along the work and we will put it through." Referring to the range of work he intended to do, he said his chief aim would be to gain the confidence and patronage of the steam and other machinery users of the North Shore and Miramichi river generally by doing their work well and expeditiously. He expressed sufficient confidence in the business of the town to justify his large investment in an establishment which he thought would keep a good deal of money at home which now went to outside places. He said he was ready to build and equip steamboats, make edging machines, shingle machines, steam engines of any size and only hoped he would get enough of such work to do, so that he might employ as many, or even more men than the works had ever before.

A Disgusting Scene—On Thursday last a scene characteristic of the administration of the Scott Act, and one calculated to disgrace our usually well-conducted community, occurred on Henderson street. It appears that Scott Act Inspector Menzie, having procured a warrant from police magistrate McCulley to search the premises of James Conway for liquor, proceeded to the place in the afternoon, accompanied by town policeman Kelly and Wood, who were detailed by magistrate McCulley to protect the Inspector in his work. It is said that the Inspector called upon the door, just as soon as he opened, the inmates of the place being evidently prepared for the attack. Finally the battering-ram was applied to the upper part of the door and the latter was again thrown open. The Inspector then proceeded to search the premises, who was prevented from doing so by the door being shut. Menzie, who was in the way through the door, in which it is said Conway stood brandishing an axe and warning him not to advance, while the two men, who were in the doorway, were also prevented from doing so by the door being shut. Menzie, who was in the way through the door, in which it is said Conway stood brandishing an axe and warning him not to advance, while the two men, who were in the doorway, were also prevented from doing so by the door being shut.

On Wednesday morning, after the litany was said at 9 o'clock, the Rev. W. J. Wilkinson, Secretary of the Desany Chapter, presided at the meeting of the Chapter, which was held at the rectory, at 10 o'clock. After the usual office of devotion, an instructive paper was read on "Lay Baptism" by the Rev. W. J. Wilkinson, which was followed by an interesting discussion.

The next meeting of the Chapter was appointed to be held in Newcastle on the 1st of February, 1893, and after the arrangement of work then to be done the Chapter adjourned.

On Wednesday evening the usual desany service was held in St. Mary's chapel. Evening was presided by hymns 215 A. & M., "The Church's one Foundation," by a very professional. The other hymns were 353, "O Thou who Makest Sun's to Shine, etc., 316, "What time the evening shadows fall, etc., and 274, "Through the night of doubt and sorrow, etc." A recitation of the psalms were chanted, and the canticles to the usual chant from "The psalter and canticles" by Monk and Baker. The sermon, a very instructive one, was delivered by the Rev. A. A. Slipper, from the text, "Grow in grace, and in the knowledge of our Lord and Saviour Jesus Christ."

On Thursday afternoon there was a rehearsal of the music for the annual choir service of the desany, which was sung with spirit as the chorists and clergy entered by the western door and proceeded towards the chancel. Tallis' festival choral evensong was read by Rev. W. J. Wilkinson, the responses being those made. The last lesson, Isaiah 48, was read by the Rev. A. A. Slipper, and the 2nd, Rev. VII. verso ix to the end, by Rev. O'Neil Bayles. The Magnificat and Nunc Dimittis were sung by Woodard, and the anthem by Sir George Elvey, "Praise the Lord," etc. The hymn before the sermon was 427 A. & M., "Who are these like stars appearing," etc. After the sermon the Offertory hymn was 337 A. & M., "How blessed from the bonds of sin, etc., and after the benediction hymn 437 A. & M., "For all thy saints," was sung as a recessional. The sermon was delivered by the Rev. Canon Roberts, M. A., Rector of Fredericton, from the text "Let anything that hath breath praise the Lord." The discourse was an instructive, eloquent, and most appropriate one. The preacher began with a reference to the bright, hearty and joyful service in which the clergy and congregation had been taking part, and proceeded to show how it illustrated the beautiful ideal of choral worship for which such admirable provision is made in the Prayer Book and services of the Church. He dwelt upon the sacredness and dignity of the office of those who are called to lead the congregation in the worship of God, and illustrated by a beautiful legend of the need of all prayers and praises being from the heart and not merely with the lips. He showed how by the employment of the best music in her choral worship the church on earth takes her part with the saints in paradise and with angels and archangels in lauding and magnifying God's glorious name. The reverend speaker's discourse was listened to with close attention and much appreciation.

After the service the clergy, choir and members of the congregation sang a social hour in the school room, where tea, coffee and other refreshments were provided.

And the company separated the well thought-of man that ever wore the badge of Oonto citizenship, then I shall consider my humble effort in paying a passing tribute to the memory of my dead friend unrepented.

FRANK X. MORROW.

[Mr. Nelligan, above referred to was a native of Essex in this county.]

Oatmeal and Dairy.—In making up the ration, even for cattle, it is better to give a good variety. A little extra care now will be worth double the amount the middle or latter part of the winter.

The grades of cattle take the name of the sire; if the bull is a Shorthorn with a scrub sire it is a grade Shorthorn.

While all the elements of growth are in the skin-milk, yet as soon as the calf is old enough it should be taught to eat. Thus, full grown or good grades are necessary in cattle to be able to endure early maturity; scrubs need a longer time to grow.

If growing cattle are to be wintered largely on hay, it is very important to provide good shelter in order to keep in good condition.

Do not wait a day longer to provide shelter for the calves and growing cattle. They are full of life and must be kept comfortable. What is lacking in warm and dry shelter we pay for in feed and consumed fat of the animals.

The New England Farmer quotes the following as some of the facts which are taught the pupils in the Dairy School at Oatfield, N. Y.

Church Warden, F. E. Winslow, followed by stating how he felt the hour was too late to say much, but it had been suggested that he might say that although the congregation was a good one for a week evening, and some were prevented from attending by illness, he felt that the service was one that many more had not been in attendance.

On Friday morning the clergy returned to their various parishes.

Don't Forget—That to remove curts, wains, banisters in a few days, all that is required is to apply the old and well-tested corn cure—Patman's Painless Corn Extractor. Safe, safe, painless! The Corn Extractor makes no new spots hard to heal, acts quickly and painlessly on hard and soft corns.

Barnaby River.—A Barnaby River correspondent writing to the "Adv." says: "Our people learned with great regret on Friday last of the removal of another field of labor of our beloved pastor, Rev. Father Walker. Our regret is the greater because owing to the suddenness of his death we were unable to express, as we would otherwise do, our great love for him and the high appreciation in which we all held him. By great zeal for our spiritual welfare and that of our children, he won a people almost unknown to us, and we shall never forget him with gratitude, and wherever he may go our thanks and prayers will follow him, as well as our good wishes, whom we all love and respect so greatly."

OUR PATRONAGE.—For the last four months we have exceeded that of the corresponding period of any previous year and has been more than double that of the average year. We gratefully acknowledge this evidence of public appreciation.

Our determination is to provide man ever active in the most desirable in Canada, and we have the facilities for affording the determination.

CIRCULARS—giving terms course of study; also specimens of business mail form to any address.

REBR & PRINGLE, Stationery, etc., 101 St. John, N. B.

WANTED.—A second class female teacher for District No. 4, in the township of St. John, N. B. Salary, One Hundred and Twenty Dollars per annum. PHINEAS WILSON, Secretary.

THE HIGH SMOKESTACK.—In Brookley's manufacturing concern is doing what might be done in a great many places. Instead of high smoke stacks a fan is used, and the smoke, dust and gas from several furnaces are drawn into a big brick chamber, wherein a spray of water throws down all the solid matter and permits the smoke and gases to escape through an ordinary chimney.

CREMATED FOR IRON.—By a new method of cementing iron the parts cemented are so effectively joined as to resist the blows even of a sledge-hammer. The cement is composed of equal parts of sulphur and white lead, with a proportion of about one-sixth of borax. When the composition is to be applied it is wet with strong sulphuric acid and a thin layer of it is placed between the two pieces of iron, which are at once pressed together. In five days it will be perfectly dry, all traces of the cement having vanished, and the work having every appearance of welding.

THE SEASON'S LOSS AT GLOUCESTER.—GLOUCESTER, Mass., Nov. 2.—During the past fishing season twelve vessels aggregating 77,710 tons valued at \$30,000, and insured for \$33,237, all from Gloucester, were lost. No lives were lost by the wrecks, but eighteen fishermen lost their lives by the capsizing of their boats, five going ashore in five days of their being knocked overboard, eight by being washed overboard and ten by other means. The season is remarkable in that no vessel foundered with her crew, which has not before been the case in any season since the business has been pursued on an extensive scale.

Coughs, colds, asthma, hoarseness, bronchitis, etc., are cured by Dr. Wood's Norway Pine Syrup, the successful Throat and Lung Specific.

Young Men's Christian Association of Chatham.—Meetings held every week in their rooms upstairs, Barry's Building, as follows:—Prayer and Bible study, every Monday evening at 8 o'clock, for Prayer and Praise. Tuesday evening at 8 o'clock, for Bible Study. Wednesday evening at 8 o'clock, for Training class.

All young men are most cordially invited to all of these meetings.

MARRIED.

At the residence of the bride's father, on Wednesday, Nov. 2nd, by the Rev. C. O'Dell Bayles, Rector of St. Nicholas, Chatham, N. B., Mr. W. J. Wilkinson, of Chatham, N. B., and Miss M. S. Melnyk, daughter of Mr. Geo. Melnyk, of Richibouctou, N. B.
