

SULZER ASKED THOSE WHO CAME TO DENY IT

Tried to Persuade the Contributors to Campaign Fund Not to Testify.

MEMBER OF COURT ASKS FOR LIBERAL RULINGS

Impeachment Proceedings "May be Work of Crooks and Criminals," Says Senator Duhamel of Brooklyn—An Exciting Day.

Albany, N. Y., Sept. 26.—Governor William Sulzer tried to persuade contributors to his campaign fund not to testify against him, according to evidence adduced at his impeachment trial today.

He asked Duncan W. Peck, state superintendent of public works, who gave \$500 to the fund, to violate his oath as the witness stand in the event that he should be called to testify before the Frawley investigating committee.

The Governor, Peck asserted, had told him that he, too, would deny having received contributions. This conversation, he said, occurred in the Governor's office at the capital. The witness was examined by John B. Stanchfield, as to the precise words used by the Governor.

"What did he say?" "The said, 'do as I shall do; deny it.'"

"I said, 'suppose I shall be under oath?' He said, 'that is nothing, forget it.'"

Attorney Hinman, cross-examining for the defence, asked Peck if it were possible that he could be mistaken about a single word that passed between him and the Governor.

"Not a word," Peck replied emphatically.

Peck, at the time of his contribution, held his present position, but, he testified, he told the Governor there were no "strings" on the gift, and that he did not need to feel that he was obligated to reappoint him.

Peck was re-appointed.

"Be Easy on Me."

The governor asked Henry W. Morgenthau, ambassador to Turkey, who contributed \$1,000 to be "easy on him," and to "treat the affair between us as a personal matter."

The House receded from its rate of one-half cent per pound on lead ore and accepted the Senate rate of one cent per pound.

The Senate receded from its rate of 12.2 per cent ad valorem on zinc ore, and accepted the House rate of 10 per cent.

The House gave up its demand that the woolen tariff rates go into effect at once and agreed to the dates fixed by the Senate, namely, woolen goods January 1, 1914; raw wool, tops and waste, December 1, 1913.

The House receded from its provisions as to cotton threads, yarns and cloths, accepting the Senate amendments, which revised the schedules on a new basis of thread count.

CONFERENCE ON WOVEN RILE IS NOW PROBABLE

Prospects for Discussion Between Parties Brighter—Believed Premier and Lloyd George are Discussing Ulster Question.

London, Sept. 26.—The prospects of a conference between members of the Liberal and Unionist parties on the Irish question have improved considerably during the last three days, according to The Nation, which says it is now almost certain that the conference ultimately will be held.

A significant point in this direction was the visit paid to Belfast today by James Bryce, former ambassador to the United States, and at one time chief secretary for Ireland. Mr. Bryce left Belfast tonight for Dublin, but said he probably would return to Belfast to witness tomorrow's review of the Ulster volunteers.

It is generally believed that the Ulster question is being discussed at Brodick Bay, Scotland, by Premier Asquith and David Lloyd-George, chancellor of the exchequer, who cut short his continental holiday to meet the premier.

ELECTED RUTLAND DIRECTORS.

New York, Sept. 26.—At a meeting of the executive committee of the New York, New Haven and Hartford Railroad Company today Howard Elliott and T. Dewitt Cuyler were elected directors of the Rutland Road to succeed Charles S. Mellen and Lewis Cass LeMay.

THE NEW U. S. TARIFF BILL ABOUT READY

Senate and House Cannot Agree on Rate of Tax on Cotton Futures.

SOME SLIGHT CHANGES WERE MADE YESTERDAY

Compromising Spirit Shown on Schedules Dealing with Lead and Zinc Ores, Woolens, Cottons and Threads.

Washington, Sept. 26.—The tariff bill is tonight a complete document, except for the provision taxing trades in cotton futures. After more than two weeks of constant work behind closed doors, the eight Democrats representing Senate and House, as members of the conference committee, late today settled the last of their other differences, and reached the final decision that they could not agree on the cotton futures tax.

The formality of submitting the conference report to the Republicans is not expected to take much time, and it is believed the report will be presented to the House Monday afternoon by Representative Underwood.

In the final session today, a further attempt was made to settle the fight over the cotton futures tax. The Senate conferees changed front, and agreed to give up the Clark amendment altogether, but the House members refused to permit this.

The Senate in turn refused to accept the proposed Smith-Lever compromise, and in the end it was decided to report a disagreement to both branches of Congress, and let the Senate and House determine what should be done to ward regulating or taxing the trading in cotton for future delivery.

The final differences in the bill were adjusted as follows:

The House receded from its rate of one-half cent per pound on lead ore and accepted the Senate rate of one cent per pound.

The Senate receded from its rate of 12.2 per cent ad valorem on zinc ore, and accepted the House rate of 10 per cent.

The House gave up its demand that the woolen tariff rates go into effect at once and agreed to the dates fixed by the Senate, namely, woolen goods January 1, 1914; raw wool, tops and waste, December 1, 1913.

The House receded from its provisions as to cotton threads, yarns and cloths, accepting the Senate amendments, which revised the schedules on a new basis of thread count.

CONFERENCE ON WOVEN RILE IS NOW PROBABLE

Prospects for Discussion Between Parties Brighter—Believed Premier and Lloyd George are Discussing Ulster Question.

New C. P. R. Shops at McAdam

Herewith is shown a picture of the new C. P. R. shops at McAdam Junction, on which work was started only a month or two ago, and which are now rapidly taking shape. The contract is in the hands of Henry Post. The concrete foundation has been completed; the steel work is almost all erected and the pits are about completed. The roof, as will be seen by the picture, is now being put on. All windows and door frames will be finished by the end of the present week. Work was started on June 21st and this building, which is 151 ft. long by 129 ft. deep and 45 ft. high, is an instance of rapid construction entirely creditable to the contractors and very satisfactory to the Canadian Pacific Railway. The shops are to cost in the vicinity of \$50,000, although the figure of the original contract for masonry, steel, etc., was \$39,000.

TRAIN RUNS INTO WAGON, FIVE DEAD

Party of Quebec People Struck By Pilot of Locomotive—Four of Victims Dead When Picked Up.

Montreal, Sept. 26.—Five people were instantly killed by the C. P. R. Quebec express ten miles from this city tonight, when the carriage in which they were riding was struck by the pilot of the engine.

Four of the victims were dead when picked up, the only one showing any sign of life being Albina Lortie.

All were placed on the train and brought in to Montreal. At the Mile End station an ambulance from the Royal Victoria Hospital was waiting.

Mrs. Lortie was placed in the vehicle but died before reaching the hospital. The bodies were placed in the Montreal morgue and an inquest will follow.

QUEENSTOWN COUNCIL IN ARMS AGAINST WHITE STAR

Cutting of Queenstown Call by White Star Liner Olympic Severely Scored—Some Passengers take Involuntary Trip to New York.

Queenstown, Sept. 26.—The urban council at a meeting today severely criticized the White Star Line for the harshness with which the 231 passengers who intended to sail from here on the Olympic yesterday were subjected to by being kept for five hours on board tenders in bad weather when the Olympic failed to come into the Queenstown harbor yesterday. It was stated that the Olympic arrived off Queenstown five hours before high water, and that in this time the passengers and mails could have been put on board had Captain H. J. Hadcock brought his vessel into port.

The council expressed the hope when the question was discussed in parliament the members of the Irish party would talk straight to the post-master-general. One councillor declared that the Irish people and their American friends would not witness the breaking of mail contracts with such alleged impunity.

The passengers and mail left here by the Olympic sailed on the Adriatic today. It appears that several passengers who had embarked on the Olympic at Cherbourg and Southampton, and were bound for Ireland, were not landed and are now making an involuntary voyage on board the steamer to New York.

LIBERALS HAVE HARD TIME IN CHATEAUGUAY

Hon. Sydney Fisher Had Hope of Nomination but Will Not Go After it Now.

Special to The Standard. Ottawa, Ont., Sept. 26.—Liberal troubles in Chateauguay were responsible yesterday for the sudden departure of Sir Wilfrid Laurier for Montreal, where he is reported to have spent the entire day in consultation with his embarrassed Quebec constituents. It seems reasonably certain that Hon. Sydney Fisher, who came up to Ottawa Wednesday, will not go after the Liberal nomination. This helps the Liberal cause, but, on the other hand, the local man who was regarded as the strongest prospective candidate, Mr. McGowan, is said to have flatly refused to enter the contest. Information here indicates that at the convention to be held next week the son of the late member for the county, Mr. J. B. Brown, will be chosen. This choice has been made necessary by the refusal of Mr. McGowan to accept the local Liberal organ announces that Sir Wilfrid Laurier will personally take part in the Chateauguay campaign on the hustings.

Halifax Bank Clearings.

Halifax, Sept. 26.—The bank clearings for this week are \$2,122,875.45, and those for the corresponding period last year \$1,600,776.54.

CANADA MUST WATCH FOR EASTERN COMPETITION

ST. JOHN IS SELECTED FOR NEXT MEETING

Trades and Labor Congress Accepts Invitation to Meet Here.

RELATIONS WITH THE ALIEN LABORERS

President Watters of Vancouver Re-elected to Office—St. John Man Vice-president for Province.

Special to The Standard. Montreal, P. Q., Sept. 26.—St. John has been chosen as next place of meeting for the convention of the Trades and Labor Congress. H. T. Campbell, of St. John Typographical Union, has been elected vice-president for New Brunswick.

Montreal, Sept. 25.—The precept of international trades unionism as opposed to the practice of national trades unionism was strikingly displayed in the remark of Vice-President Bancroft of the Canadian Trades and Labor Congress before that body tonight; that although the constitution expresses the sentiments in regard to our relationship with laborers in other nations, there are times when we have to put these things out of mind and chase the bread that perisheth, or perish ourselves.

The debate arose over a resolution brought in by Delegate Boris of the Montreal Garment Workers' Association which advocated the throwing wide of the doors to all nationalities, providing immigrants were willing to work. The resolution had been considered by the immigration committee, which reported that, as the sentiment was exactly opposite to that of a resolution just adopted, it advised non-concurrence.

The report of the committee recommending non-concurrence was up held.

During the afternoon session the election of officers was held resulting in the re-election of President Watters of Vancouver; Vice-president Bancroft of Toronto; Secretary-treasurer Draper, of Ottawa.

Ballots had to be taken on the Ontario and Quebec executives, as the caucus held in the morning had not resulted in a manner entirely satisfactory to all the delegates from those provinces. The results follow:

Ontario—Vice-president, T. Tait, of Toronto, and delegates Richetts, Barker and Urry as executive.

Quebec—Vice-president, J. T. Foster, of Montreal, and delegates Arcand, Lesperance and Brunet as executive.

New Brunswick: Vice-president, H. Campbell, and Delegates Steeves, McKinnon and Ayre as executive.

Nova Scotia: Vice-president, J. Joy of Halifax, and Delegates McLellan, Quillan and Brooks as executive.

The election of a Prince Edward Island executive was left to the council as there were no delegates from that province to state their wishes.

NEXT CONVENTION TO BE HELD AT OTTAWA

American Association of Commercial Executives Nominates Officers—S. C. Mead of New York for President.

St. Paul, Minn., Sept. 26.—Although the election of officers of the American Association of Commercial Executives is not to be held until tomorrow, nominations, which are equivalent to election, were held today. S. C. Mead, secretary of the New York Merchants Association, was named for president and Emmet Hay Naylor, of Springfield, Mass., secretary-treasurer. Ottawa, Ont., will get the next convention.

China and Japan Our Future Customers and Our Keenest Competitors.

HON. GEORGE E. FOSTER IN THRILLING ADDRESS

Great Trade Possibilities with East and Antipodes Pointed by Minister of Trade and Commerce—The Eastern Problem.

Ottawa, Sept. 26.—The East as the future market for Canada, its millions of gaping mouths turned towards the Dominion to be filled with No. 1 Hard; the East as our coming competitor in every line of manufacture when education should have given its countless mass. Such was the subject with which Hon. Geo. E. Foster, Canadian Minister of Trade and Commerce, dealt with at the Canadian Club luncheon today.

Hon. Mr. Foster is just returned from a 35,000 mile trip in which he visited Australia, New Zealand, China, Japan and Korea.

The direct results of his visit to Australia, China, and Japan, Mr. Foster did not refer to, but he was not wanting in emphasis in pointing out the extent and nature of the trade possibilities of the eastern and Antipodean empires. China and Japan had done wonders in the way of intensive cultivation of their half-acre farms, and that was just the reason why, with their growing industrial population, they would not be able to do any more to supply their own increasing demand for food stuffs.

Therein, said Mr. Foster, lay Canada's opportunity.

But the East, in presenting a possibility, brought a problem as well. Nine hundred million of Orientals, descendants of an ancient civilization and still true to its ideals, despite the introduction of modern methods, were the human factors in it. However prevalent the notion might have become, they were not Anglo-Saxons, their ideas were not and their aims were not; they were going to be neighbors and, in view of the improving facilities of transportation, comparatively near neighbors, and therefore must Canadians seek as the first step to understand them as they must understand us.

China and Japan Compared.

The picture the minister drew of China was one of many millions of people at present ruled by a misbegotten, mis-called Republican government; ninety-eight per cent of them are even ignorant of what form of government prevailed. That of Japan, on the other hand was almost the reverse of the coin, a race of clever, capable people, carrying out their aims and ambitions through a splendidly systematized administration and making a bold bid for a business efficiency that would in time make them formidable competitors of the western countries.

Referring to his visit to New Zealand and Australia, Mr. Foster said he found the people a race of almost exclusively Anglo-Saxons, a shade less strong in national spirit than Canadians, but animated, possibly, by a deeper regard for the Empire and the Mother Country.

Discussing the political situation in Australia, Mr. Foster thought the country would be far better off with longer parliamentary terms than three years. "There you have in a sense what we have here," he said in describing the curious situation which exists in that the Liberals control the house by one vote while the labor party is in the majority in the senate.

New Zealand Mr. Foster described as "one of the most compact little principalities in the world." It was fortunate in its native population, the splendid Maori aborigines.

CARLETON COUNTY MAN VICTIM OF TYPHOID

Go Over, Gibson, Minto and Central Railway in Special Train—High School Team Wins.

Special to The Standard. Woodstock, N. B., Sept. 26.—Maitland Hovey, a highly respected citizen, died this afternoon at the hospital after a brief illness from typhoid fever. He was in his 64th year. He is survived by three sisters, Mrs. Jas. W. Woolverton, of Woodstock; Mrs. W. T. Kerr, of Boston; and Miss Grace Hovey, of Los Angeles, and one brother, Frank Hovey, of Los Angeles. He was unmarried. Of late years he was employed as a night watchman of the woodworking factory.

Special to The Standard. Fredericton, Sept. 26.—In the first game of the season at College Field today Fredericton High School by a score of 9 to 3.

G. P. R. OFFICIALS ON TRIP OF INSPECTION

Special to The Standard. Fredericton, Sept. 26.—Although the election of officers of the American Association of Commercial Executives is not to be held until tomorrow, nominations, which are equivalent to election, were held today. S. C. Mead, secretary of the New York Merchants Association, was named for president and Emmet Hay Naylor, of Springfield, Mass., secretary-treasurer. Ottawa, Ont., will get the next convention.

St. Paul, Minn., Sept. 26.—Although the election of officers of the American Association of Commercial Executives is not to be held until tomorrow, nominations, which are equivalent to election, were held today. S. C. Mead, secretary of the New York Merchants Association, was named for president and Emmet Hay Naylor, of Springfield, Mass., secretary-treasurer. Ottawa, Ont., will get the next convention.

St. Paul, Minn., Sept. 26.—Although the election of officers of the American Association of Commercial Executives is not to be held until tomorrow, nominations, which are equivalent to election, were held today. S. C. Mead, secretary of the New York Merchants Association, was named for president and Emmet Hay Naylor, of Springfield, Mass., secretary-treasurer. Ottawa, Ont., will get the next convention.

ROYALISTS IN PORTUGAL PLAN AN UPRISING

Premier's Death was to Have Been Signal for Revolt—Forces Gather Along Portuguese Frontier.

Lisbon, Sept. 26.—A confession that they intended to assassinate the Portuguese premier and instigate a revolt was made today by the five men arrested last night while placing bombs around the premier's villa at Praia Das Mascas, a watering place near Cintra.

According to the Mundo the men were delegated by a syndicalist group to explode the bombs in Dr. Alfonso Costa's garden. His attention was to be attracted in this way and they intended to shoot him down when he appeared at the window to find out what had happened.

Dr. Costa's death, they declared, was to be the signal for a revolt. Armed bands, they said, were ready to rush the prison amid the confusion, and to liberate the prisoners.

The syndicalists, they asserted, had plotted also to kill the minister of war.

The Mundo avers that the royalists, radicals and republicans were implicated in the conspiracy.

Madrid, Spain, Sept. 26.—Hands of Portuguese royalists have gathered along the Portuguese frontier, according to despatches from Badajoz, where they intend to carry out a carefully laid plan to create slight disturbances at various points so as to attract the attention of the Portuguese while the main body of the royalist army marches on Lisbon from the north.

DRAW RULES OF THE AIR

German Conference Will Seek for International Legislation for Uniform Control of Aviation.

Frankfort-On-Main, Germany, Sept. 26.—The conference under the auspices of the International Law Committee of Aviation today adopted the following principles, on which they will endeavor to secure international legislation for the uniform control of aviation.

Rights of private property do not entitle land holders to prohibit aviators flying over their lands if such flying is done without occasioning inconveniences, but any abuse of this privilege by a flier will make him legally responsible.

The owner of an aircraft shall be responsible for damages to persons or property, except to persons on board an aircraft; but the owner of the aircraft may recover against a person who causes damages and also may plead that damages were due to forces beyond human control.

After passing these proposed measures, the conference adjourned.

DOMINICA TO HOLD GENERAL ELECTION

San Domingo, Sept. 26.—A general election will soon be held in the Dominican Republic under proper conditions as a result of the suspension of hostilities agreed to by the rebels at Puerto Plata after a conference between their leaders and James M. Sullivan, the American minister. The chief clause of the agreement was that conditions in the republic should be allowed to remain as they were before the revolt. The Dominican ports which have been blockaded are expected to be opened shortly.

HERE IS W. H. TAFT AS HE WAS AND AS HE IS

The news that William Howard Taft has lost eighty pounds through his own exercise and scant breakfasts since leaving the White House last March is here borne out by photographs. One shows Mr. Taft when, in spite of Presidential cares, he weighed 326 pounds. The other shows his new 246 pound look, which he wears at present. The photograph was made while Mr. Taft watched the qualifying rounds at Brookline, Mass., for the open golf title.

BOYS RIFLED CAR AND MADE A BIG HAUL

Used Dynamite to Open Express Safe—Made Successful Getaway—Deputy Shot in Mistake for Robber.

Cottonbale, Alta., Sept. 26.—Two mere boys were the bandits who early today rifled the mail car and dynamited the express safe on the Alabama Great Southern train near this place and escaped with booty variously estimated at from a few hundred to fifty thousand dollars.

In the search for the bandits Deputy Sheriff James Bonner, of Birmingham, was shot and killed by a member of another posse from Montgomery, who mistook Bonner for one of the robbers.

LONDON MAY HAVE EXPRESSMEN'S STRIKE

Fifteen Thousand Men Will be Involved—Strikers Try to Hold Up Traffic in Streets

London, Sept. 26.—London is threatened with another strike which if materializes, will involve 15,000 employees of the various parcel express delivery companies. At the present time the dispute is confined to one firm, but following the tactics of the busmen in their recent strike, the express employees threaten to call out all the members of their union unless the employers recognize the transport workers' union.

Attempts to hold up vans tonight resulted in several conflicts between strikers and the police.

SAVING OF THOUSAND DOLLARS A CARLOAD

Canadian Butter and Farm Produce Being Held in Bond Awaiting Passage of Tariff Bill.

St. Paul, Minn., Sept. 26.—Canadian butter and farm produce are being shipped to commission men here and held in bonded warehouses until the passage of the tariff bill, which is expected to lower the duty approximately \$1000 a carload. Several large shipments of produce also are being held on the Canadian side of the border.

MARRIED.

DOUGLAS-STRATON—On Wednesday evening, September 24, at Simonds, by the Rev. Canon Hoyt, William G. Douglas, to Miss Daisy V. Stratton, both of Lattermore's Lake, Simonds.

DIED.

COWAN—In this city, on the 24th inst., Mr. Isaac M. Cowan, aged 71 years, leaving a wife and three children to mourn. Funeral from his late residence, 111 Main street, Saturday afternoon at 2.30.

MEAHAN—At St. Andrews, on the 25th inst., Margaret A. Meahan. Funeral at St. Andrews on Saturday morning at 10 o'clock.

TOBACCO TRUST SEALED UP IN GERMANY TO BE PROBED. Business Men Have Asked for Investigation—Combine has Been Watched by Government for Some Time.

Berlin, Sept. 26.—Preliminary steps for an investigation of the operations of the "tobacco trust," in connection with the German cigarette industry, have been taken by the government. The secretary of state for the interior, replying today to the petition sent him by the Hansa league, an association of business men, on September 17, asking him to order an inquiry into the subject, the German government has long had its eye on the operations of the "trust."

BOTH INDICTED FOR CONSPIRACY TO COUNTERFEIT. Federal Grand Jury Indicts Hans Schmidt and Dr. Muret on Charge—Alienists Mure Schmidt's Sanity.

New York, Sept. 26.—The federal grand jury today returned an indictment against the confessed slayer of Anna Amneller, Hans Schmidt, and his associate "Dr." Ernest Muret, charging both with conspiracy to counterfeit. The two men will not be arraigned in federal court until next week.

Three alienists examined Schmidt for an hour and a half today at the office of District Attorney Whitman, who was present. Schmidt will be further examined next week by the end of which a report is expected on the slayer's mental condition. The alienists, Dr. Wm. Mabon, Dr. Charles F. McDonald, and Dr. Charles H. Kirby, Dr. Kirby is clinical director of the State Hospital for the Insane on Ward's Island.

WHAT IT MEANS. According to Worcester's Dictionary, satisfaction means "the state of being pleased, contentment, comfort." We know of no way to reach this enviable state quicker or more completely than by sitting in front of an open fire of our Broad Cove Coal, or good dry Hard Wood, granulating, of course, that you have laid in a supply of equally good hard coal for the long winter ahead. The Consumers' Company can supply your every need in this respect and it is their aim to make each load of coal a load of satisfaction as well. Consumers' Coal Co., Ltd., 321 Charlotte St. (opposite Broad St.), Phone M 2670.

FERNS BESTS CHICAGO MAN IN TEN ROUNDS. Kenosha, Wis., Sept. 26.—"Wildcat" Ferns, of Kansas City, had the better over Billy Walters, of Chicago, in their ten-round bout in the Kenosha Arena tonight. Ferns was carrying the fight to the naval champion most of the time and Walters took a severe beating.

STILL MURDERING HARMLESS VILLAGERS IN MEXICO. Piedras Negras, Mexico, Sept. 26.—Despatches to constitutionalist headquarters here, via Acapulco today, reported fifty Americans and as many Germans in peril in the Mapimil mining district of Durango, following a raid by supposed bandits. Several townspeople were murdered, it is said but the fate of the foreigners is unknown.

THE MESSAGE NOTES OF THE WORLD

STEAMSHIP NOTES. The steamer Thors, 633 tons, C. Hansen, arrived in port yesterday from Boston to load for Havana. The Empress of Britain arrived Quebec at 12.45 yesterday morning. The Ruthenia, from Trieste, arrives at Quebec at 10 p.m. today. The Montague docked at Vancouver at 2.50 p.m. Tuesday. The Allan line stmr Corsican arrived at Quebec at 5 o'clock Thursday evening.

The Allan line stmr Scandinavia was 170 miles east of Belleisle at 6 o'clock Thursday evening, due at Quebec at noon, at Montreal Monday morning. The White Star Dominion Canada was 85 miles east of Belleisle at 7 o'clock Thursday night, due at Quebec Sunday at noon; Montreal, Monday morning.

MOUNT TEMPLE FLOATED. Montreal, Sept. 26.—The C.P.R. Mount Temple has been floated. 5.30 this morning six tugs pulling full power effected the release of the ship. It will take some time to ascertain how much damage was done. The ship is now at piers are looking her over. About large loads of her cargo had lightened on Thursday in order to mit the ship to rise above the water line.

WILL LOAD GRAIN. Portland Argus: The charter of first tramp boat to load grain this fall was announced yesterday. The British steamer Fishpool has been engaged to load 30,000 quarters for Avonmouth or Rotterdam. The steamer was last reported as from Barry on August 27 for Rio de Janeiro. It will probably be in October when she reaches this port. She was chartered at 2s. 6d per ton, an unusually low rate, only 10 p more than one would expect to see for steamer loading here last season.

ST. JOHN, N. B., SATURDAY, SEPTEMBER 27, 1913.

MR. HAZEN'S SPEECH.

It was not to be expected that Liberals would take much satisfaction out of Hon. J. D. Hazen's address to the members of the Borden Club, on Thursday evening.

Those who heard Hon. Mr. Hazen on Thursday evening, or who read the report of his address as published in The Standard of yesterday morning, can readily understand the attitude of the Pugsley supporters and the Pugsley press.

This being the case, does it not verify the predictions of the Conservative leaders, and abundantly justify the action of the Canadian electorate when they refused to swallow the Taft-Fielding-Patterson bait?

Passing on, Mr. Hazen pointed out that Canada had never made greater progress than during the last two years. Again he spoke by the book and if proof of his statement is needed it is found in the following dispatch, taken, headlines and all, from the first page of yesterday morning's Telegraph:

Canada's Trade Growing Fast. Ottawa, Sept. 25.—Canada's trade figures for August show striking increases, the total for August being \$97,742,581, or \$7,719,677 more than August last year.

Yet, while the Liberal papers, unwittingly perhaps, occasionally publish the truth in their news columns, they attempt, editorially, to make their readers believe that Canada has not prospered under the Borden government.

Mr. Hazen next referred to the work being done to improve the ports of Canada. It is professed that the government is doing this work in St. John? If so, a visit to Courtenay Bay or West St. John will furnish it.

Continuing, Mr. Hazen explained why the Borden government did not award tenders for the construction of cruisers and torpedo boats, and his reference to this almost drove the Pugsley organs into a condition of hysteria.

A CHANCE TO BOOST ST. JOHN.

St. John will have an opportunity, next autumn, to show its progress to the world, if the decision of the directors of the St. John Exhibition Association, reached at its meeting yesterday afternoon, is endorsed by the association shareholders.

The association directors have reached their decision early enough to give ample time to provide for the 1914 fair being the largest and best ever held here.

As the metropolis of the revitalized East, St. John has much to advertise. Let the citizens respond to the limit of their ability when the definite announcement of next year's exhibition is given out and with a grand united effort make the St. John exhibition of 1914 the best ever held in this prosperous city.

THINK OF THE OTHER FELLOW.

To those who are of a reflective turn of mind the tang in the air during the last few mornings will bring suggestions of the approach of winter, a season hailed with delight by the youthful sport-loving portion of our city's population; eagerly awaited, too, by the children to whom it brings thoughts of Santa Claus and Christmas joys.

And now Sir Wilfrid Laurier is going into Western Ontario to tell British Canadians why they should become little Canadians.

CURRENT COMMENT

Railway Irony. (Manchester Guardian). The permanent way had evidently been badly laid, for the carriages swung from side to side and the passengers jolted up and down.

Threat or Promise? (Vancouver Province). A man of 70 years of age won the first prize for a crochet quilt at the Ottawa fair.

Rent and Wages. (Winnipeg Telegram). The industrial unrest in Ireland and Great Britain is a curious outbreak.

Another Aviation Victim. Johannesburg, Germany, Sept. 25.—L. Schultz, a German military aviator, was killed today when his monoplane crashed, and fell with him to the ground from a height of 450 feet.

CONVENTION OF BAPTISTS CONCLUDED

It Was One of the Most Successful Ever Held by the Association.

GOOD ADDRESSES AT FINAL SESSION

Dr. Catten of Acadia Reports Great Progress Baptist College—Prof. Kierstead's Discourse.

The eighth annual convention of Association of United Baptists of New Brunswick was brought to a close evening in Brussels street church when interesting addresses were given by Rev. Dr. Catten of Acadia, Prof. Kierstead of the U. N. B., and attendance at the final session large, and the keen interest which had been a characteristic of the whole convention was evident at last night's meeting.

Rev. Dr. Catten, after the devotional exercises, which were conducted by Rev. Miles McCutcheon, gave a very interesting address on the work which is being done at Wolfville, the aim of the college and the needs of the institution.

The past decade, Dr. Catten told hearers, had been marked by rapid progress in all departments, and present year finds the institution with over seven hundred students enrolled, the largest student body in the province, whereas in the previous year there were only four hundred and thirty students.

There are now forty-seven teachers on the staff, whereas in 1903 there were but four buildings, there are now ten and there is the new library which is to be added to the group. The finances have doubled in the past years, generous gifts have been received, but there is still much to be done and funds are needed to pace with the growing demands.

Dr. Catten pointed out, in an important point in an educational situation and Acadia is making this of the important phases of her curriculum.

Dr. Catten was followed by Prof. Kierstead of the U.N.B., one of the United Baptists in New Brunswick to the public schools.

In the organization of school life, he said, there is developed a sense of unity and of brotherly co-operation and a genuine sympathy that religious worth in our public schools of every race and sect.

It is a mistake to affirm that the public school is irreligious because it does not give instruction in the mass of religion. If the school is the perfection of personality, an attainment of an ideal society, religion is not merely a selfish search of "ferrying a soul into a heaven sure safety, but is elementary devotion of life to service, then the education is one with the religion.

The body of the child has been long neglected. We have learned lately that the mind is not an apart from the body, and as the physical growth is essential for education and morality. The significance of this fact is modifying in a profound manner the methods of education. There was a time when education so intellectual that it was inefficacious must be a socializing education; it must recognize that the child is a social being.

At the morning session Rev. Newcomb preached a short and stirring sermon on the beauty of this life.

Rev. Dr. Cousins, moderator, ed the business of the session. The report of the Home M Board was discussed by Rev. Bynon, who made reference to vision of the mission field by thoughtful persons. The speaker pleaded for greater connection the field secretary, because if congregations had been imposed by heterodox preachers and some objectionable to the Baptist nomination.

Rev. Dr. McIntyre further developed the points made by the chief speaker, particularly the vision of the home mission field. He mentioned the work of the Home M Board in certain districts that have been the scene of painful disturbances in the work of the church.

Dr. Crowell, temporary editor of Maritime Baptist, speaking of missionary conditions in the Maritime Provinces, made an aptly executive work, and for closer in the home mission work of Brunswick and Nova Scotia.

Rev. A. C. Berrie, of Woodville, advocated the placing in the field of strong evangelists to stimulate work in New Brunswick.

The report on Home Missions discussed at length by the Rev. Porter, who made an appeal for work in New Brunswick.

Rev. Wellington, camp speaking on the necessity of greater endeavor in the home mission

CONVENTION OF BAPTISTS CONCLUDED

It Was One of the Most Successful Ever Held by the Association.

GOOD ADDRESSES AT FINAL SESSION

Dr. Cutten of Acadia Reports Great Progress at Baptist College — Prof. Kierstead's Discourse.

The eighth annual convention of the Association of United Baptists of New Brunswick was brought to a close last evening in Brussels street church when interesting addresses were given by Rev. Dr. Cutten of Acadia and Prof. Kierstead of the U. N. B. The attendance at the final session was large, and the keen interest which has been characteristic of the whole convention was evident at last night's meeting.

Rev. Dr. Cutten, after the devotional exercises, which were conducted by Rev. Miles McCutcheon, gave a very interesting address on the work which is being done at Wolfville, the aims of the college and the needs of the institution.

The past decade, Dr. Cutten told his hearers, had been marked by rapid progress in all departments, and the present year finds the institutions with over seven hundred students enrolled, the largest student body in any of the other colleges in the province. There are now forty-seven teachers on the staff, whereas in 1903 there were but four buildings, there are now seven and there is the new library which is to be added to the group.

The financial development of the students, Dr. Cutten pointed out, is an important point in an educational institution and Acadia is making this one of the important phases of her curriculum.

Dr. Cutten was followed by Prof. Kierstead of the U. N. B., on the attitude of United Baptists in New Brunswick to the public schools.

In the organization of school life, he said, there is developed a sense of honor, a spirit of brotherly co-operation and a genuine sympathy that has religious worth. In our public schools children of every race and sect and class meet on a common level to be trained for citizenship.

In this little democracy is developed a sense of justice and equality, a spirit of tolerance and respect for the feelings and rights of others, a feeling of moral and spiritual unity that is essential for national unity and for religious life.

Along with increase in the power, scope and mission of government has gone the enlargement of the sphere of the public school. Educational movements of profound significance are finding their way into our schools; movements relating to health, vocational training, and fitting for citizenship, and social culture.

Is it not our religious duty to recognize the spiritual significance of our public schools? It is a mistake to affirm that the public school is irreligious because it does not give instruction in the dogmas of religion. If the school aims at the perfection of personality and the attainment of an ideal society, and if religion is not merely a selfish scheme of ferrying a soul into a haven of future safety, but is essentially the devotion of life to service, then the aim of education is one with the aim of religion.

The body of the child has been too long neglected. We have learned recently that the mind is not an entity apart from the body, and normal physical growth is essential for education and morality. The significance of this fact is modifying in a profound manner the methods of education. There was a time when education was so intellectual that it was inefficient. Education must be a socializing process; it must recognize that the child is a social being.

Morning Session. At the morning session Rev. Mr. Newcomb preached a short and interesting sermon on the beauty of Christian life.

Rev. Dr. Cousins, moderator, opened the business of the session. The report of the Home Mission Board was discussed by Rev. Mr. Bynon, who made reference to the invasion of the mission field by unauthorized persons. The speaker appealed for greater connection with the field secretary, because different congregations had been imposed upon by heterodox preachers and by persons objectionable to the Baptist denomination.

The Rev. Dr. McIntyre further developed the points made by the preceding speaker, particularly the invasion of the home mission field by Mormons, Adventists, Geopreachers, who in certain districts had caused painful disturbances in the work of the church.

Dr. Crowell, temporary editor of the Maritime Baptist, speaking of missionary conditions in the Maritime Provinces, made an appeal for the unification of the home missionary executive work, and for closer union in the home mission work of New Brunswick and Nova Scotia.

Rev. A. C. Berrie, of Woodstock, advocated the placing in the field of a strong evangelist to stimulate mission work in New Brunswick.

The report on Home Missions was discussed at length by the Rev. F. S. Porter, who made an appeal for unity in the field.

Rev. Wellington Camp spoke feelingly on the necessity of greater endeavor in the home mission field. He

MADAME POLAIRE AND HER PEARL NOSE RING.

MME. POLAIRE

Mme. Polaire, the French actress, self-styled "the ugliest woman in the world," is now in America. She has a wasplike waist and a mouth of generous proportions. It would be ungalant, perhaps, to go into a detailed description. She wears the cutest pearl ring in her nose—oh, it is delightfully barbaric. When Madame is angry, which is not uncommon, she grabs the pearl ring from her nose and stamps on it. She is very cruel to the harmless ring.

appealed for more enthusiasm on the part of the pastors. The Rev. J. H. Jenner, of Campbellton, appealed for greater generosity in donations to all the great objects of the church. He said that these donations far from being a loss to the individual church were a distinct gain.

Rev. A. C. Berrie moved the adoption of the report, seconded by Rev. A. J. Archibald, and the report was adopted.

Rev. F. S. Porter moved and Rev. W. S. Parker seconded a resolution to recommend to the Board of Home Missions the consideration of the consolidation of efforts in the home mission field of the Maritime Provinces.

Rev. Dr. McIntyre said that this movement for consolidation would disperse the interest of the people in home mission work and render their work less effective.

Rev. Dr. McIntyre moved to refer the resolution to the association of next year.

An interesting discussion, Dr. McIntyre's amendment was lost, 17 to 21, and Rev. Mr. Porter's resolution was carried.

At the afternoon session the report of the temperance committee was submitted. Rev. F. S. Spence, secretary of the Dominion Alliance, gave a spirited address.

The business left over from the previous sessions was then disposed of. The convention has been one of the most successful ever held by the association. The attendance was large and the interest keen all through. A hundred and forty delegates were present at the convention.

HOTEL ARRIVALS.

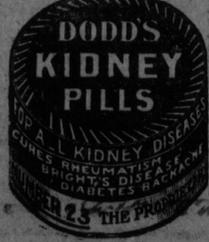

Royal.

The Burden of Wealth.

Thomas W. Lamont, one of the Moray partners, showed early in life his appreciation of the evanescence of money. He was about 10 years old, and lived in Saugerties when, by a husband's arduous labor, he earned a nickel. He held it in his fat little palm and sighed as he said: "I want to spend a penny of that, but, oh, dear, dear, it's gone." "Why don't you do it?" asked his brother.

"Why haven't you noticed that when you break a big piece of money the rest of it goes like the dickens?"

WEDDINGS.

Earle-Allaby.

The home of Mr. and Mrs. James T. Allaby, Norton, was the scene of an interesting event Wednesday evening, September 24, at 8 o'clock, when their eldest daughter, Grace Helena, was given in marriage to Corey Vincent Earle, of Tennant's Cove, Kings county.

The wedding ceremony was marked with solemnity, being performed by Rev. Robert Mutch, grandfather of the bride, in the presence of immediate relatives and friends of both parties. The house was beautifully decorated for the occasion with autumn leaves and cut flowers.

The bride looked charming dressed in Altce blue voile over silk. After refreshments were served the happy couple left for their future home in Central Norton.

The Ishmaelite.

Paying Teller—You must get someone to identify you before I can pay this check. Have you any friends in this town?
Stranger—Not one. I'm the dog-catcher.—Our Animals.

CAPTAIN STORER, HARVARD.

STORER, HARVARD TACKLE

R. T. P. Storer, Harvard football captain for this season, is in excellent condition and his playing position is at tackle, in practice better than ever, and that is saying a great deal. Storer is powerful and fast, and has every angle of tackle play at his finger's end.

IN FAVOR OF AN EXHIBITION HERE IN 1914

Directors Association will Recommend It—Would Make It Greatest in History of the Provinces.

There was a meeting of the Exhibition Executive held yesterday afternoon when it was decided to recommend to the shareholders that an exhibition be held next year to commence on Saturday, September 5th, and continue to the following Saturday.

Mention was made at the meeting of the success of the fairs all over the Maritime Provinces, and reports from the different fairs showed exceedingly large attendances while the exhibits were numerous and of the very best variety. Reference was made to the fair held in Fredericton recently and to the pleasant visit to it by the delegation from the St. John Association.

The secretary also reported on his visit to the Nova Scotia exhibition, and mentioned among other things the almost unanimous regret of the live stock exhibitors that the splendid equipment at St. John should be idle every other year.

The convention has been one of the most successful ever held by the association. The attendance was large and the interest keen all through. A hundred and forty delegates were present at the convention.

THEY CAME, THEY SAW AND WERE DELIGHTED

The Standard "At Home" Yesterday Brought Many Visitors—The Building and Plant a Revelation.

The invitation extended by The Standard to the public generally to inspect its building and plant, was very widely accepted yesterday afternoon. During the day upwards of four hundred people came to this office, fully half of them being ladies.

The visitors were, for the most part, deeply interested in the composing room where the operation of the Linotype machines was regarded as something out of the ordinary. As a matter of fact such machines have been in use in St. John for the past twenty-five years, or longer, but it was apparent yesterday that to the great majority the work was altogether new.

The various processes through which the metal goes until the press is reached were all carefully explained and proved very entertaining to the callers, most of whom had but very vague ideas as to the manufacture of a newspaper.

During the afternoon the colored supplement, which accompanies today's paper was run off on the press. This of necessity takes some hours in adjustment, and the press did not start until about four o'clock. After that the run was continuous, and the vestibule of the building was thronged almost all the time, while many other persons watched the machine through the street windows.

All were immensely pleased with the appearance of the office, which is in its

LEBLANC HANDED OVER TO ASYLUM GUARD

Fredericton Police Swoop Down on Pool Room and Seize Large Quantity of "Wet Goods."

Fredericton, N. B., Sept. 25.—Liquor to the value of upwards of \$200 was seized by the police today in a Scott Act raid on William Walls' pool room on King street. The raid took place about 3 o'clock this afternoon. Detective Roberts and Officers Marshall and Smith being the officers to make the seizure. All kinds of liquor were included in the seized goods.

Bennie LeBlanc, escaped lunatic, who was arrested for the Fredericton Junction post office robbery, was taken to Fredericton Junction from Burton jail today by Sanbury county authorities and turned over there to Guard Brownell, of the Provincial Asylum at Fairville.

Scores Getting High. The bowlers are gradually getting into their stride at the Victoria alleys as the season advances, and yesterday Blake Ferguson won the daily robot with a score of 123, and for a prize captured a silk umbrella.

Samuel Standing, head waiter in the Dufferin Hotel, accompanied by his wife, left this morning for Boston to spend his vacation.

Among the visitors were many from out of town who, though limited as to time, spared an hour in The Standard office, and felt amply repaid for their trouble.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

WEEKLY LETTER CLOSING STOCK MARKET MONTEREAL MARKET

(F. B. McCURDY & CO.)
 Montreal, Sept. 26.—During the past week the local stock market has not been any too encouraging, although prices have held moderately steady. There have been declines here and there and buying has not been as brisk as it was previously. This, which is disappointing to many, need not cause a great deal of surprise, inasmuch as the stock markets ordinarily show a disposition to this character around this time of year, owing to the fact that the crops are beginning to move and money is beginning to grow scarcer. There has been some talk locally on both sides of the money market. Financial people are divided in their opinions as to what is likely to take place. For instance, several bankers express the view that the minimum discount rate of the Bank of England will be advanced before the end of October, while others do not agree with this view, being of the opinion that the present rate of 4-1/2 per cent should be enough even though the position of the bank should show a falling off. It should be remembered that the proportion of reserve to liability has been extraordinarily high for many weeks past and that on this account alone it would have been justifiable under ordinary circumstances to have reduced the rate, nor would it be easy to find a record of the Bank rate being as high with the proportion of reserve as high as it has been of late. For this reason many think that the bank simply held its rate steady, feeling that before long it would have to go back again to the present level and that now that these conditions have developed the rate will still be held steady unless the position should become considerably worse than it is at the moment. As for the local money situation, one or two large banks have expressed the view that the supply will rather show an improvement next month than otherwise and that more will be available for stock market purposes. As to the rate this will likely not be altered for some time to come. Notwithstanding this assurance on the part of these banks, contrary views are held by others and these latter views are to a considerable extent sustained by the present situation. At the moment there is a feeling that the improvement in the general situation which all are looking forward to has to a considerable extent been discounted by recent stock market movement and that this movement has been a little overdone, thus causing a recurrence of conditions prevailing only existing. It is stated that the banks have frowned upon the recent stock market activity and that the tendency is to curtail business activity as much as possible.

(F. B. McCURDY & CO.)
 New York, Sept. 26.—The market opened quiet but generally firm and marked strength soon developed in Union Pacific. This stock on aggressive buying, accompanied by reports that action would soon be taken on an extra distribution to the stockholders, advanced to 161 as against a close last night of 153 1/2 and its strength favorably affected the entire list. Elsewhere, however, the buying was confined almost entirely to short covering, the outside public remaining indifferent to the course of prices. On circumstantial details that anything has been decided in regard to the Union Pacific matter the stock sagged off but its undertone remained strong. The rest of the market lost its early advance, and closed but little changed from last night's final price. The known movements of money indicate a large cash gain by the banks, so that the renewal of gold exports to Canada created no great and quotations for time funds showed a somewhat easier tone.

(J. C. MACKINTOSH & CO.)
 New York, Sept. 26.—The foreign markets were heavy, Paris being notably weak. Business in our market for foreign account was small, and was chiefly on the selling side, the only buying done being the purchase of a few thousand shares of Union Pacific. The feature of the market here was an advance in Union Pacific to near the best price of the present season, the rise being based on a revival of rumors of a large extra distribution to stockholders of the road. There was nothing, however, to indicate that these rumors were likely to materialize into fact in the near future and the only real news bearing on the stock which was published in the course of the day was not favorable, this being the statement of earnings for August, which showed a decrease of only \$10,000 in gross but a reduction of \$53,000 in the net, by comparison with the corresponding month last year. The general market did not respond to the rise in U. P., and when the advance in that stock was checked by the publication of the August statement, prices as a rule sagged off from the best. The reports of renewed fighting in the Balkans today had little effect on the market. Prices at the close were practically the same as yesterday's closing.

(J. C. MACKINTOSH & CO.)
 New York, Sept. 26.—The market opened firm with all positions making new high records on the strength of Liverpool, and the reported bad weather in the southwest. First prices were 3 to 18 points higher. There was very heavy realizing at the new high prices and the market was extremely active with business general, the market which had become comparatively quiet after the opening firming up again around mid-day on the detailed weather reports and the rumors of a better turn in the Washington situation, prices made new high records. The market showed evidence of strength during the afternoon making new highs on a continued broadening of demand. With October contracts selling at 13.91, or within nine points of the 14 cent level, here was heavy buying by old bulls on the advance while wire houses were also large buyers.

(F. B. McCURDY & CO.)
 Montreal, Sept. 26.—The market opened quiet but generally firm and marked strength soon developed in Union Pacific. This stock on aggressive buying, accompanied by reports that action would soon be taken on an extra distribution to the stockholders, advanced to 161 as against a close last night of 153 1/2 and its strength favorably affected the entire list. Elsewhere, however, the buying was confined almost entirely to short covering, the outside public remaining indifferent to the course of prices. On circumstantial details that anything has been decided in regard to the Union Pacific matter the stock sagged off but its undertone remained strong. The rest of the market lost its early advance, and closed but little changed from last night's final price. The known movements of money indicate a large cash gain by the banks, so that the renewal of gold exports to Canada created no great and quotations for time funds showed a somewhat easier tone.

(F. B. McCURDY & CO.)
 New York, Sept. 26.—For some time past scattering long interest has been liquidating and their contracts have been absorbed on comparatively slight reactions by the buying of strong trade or speculative bull interest. This strengthened technical position of the market rendered the bullish news of the day doubly effective. The advance began in Liverpool which again reflected the uneasiness of the foreign trade over continued bad crop accounts. The weather news from the southwest, combined with the Liverpool strength, reports of a more active spot demand, and reassuring advices from Washington, started many recent sellers to rebuying, and while some of the more recent strong buyers took profits freely, their realising was readily absorbed by the broadening demand. Slight reactions occurred from time to time but the market sold 28 to 33 points higher during the early afternoon with October touching 13.91.

(F. B. McCURDY & CO.)
 New York, Sept. 26.—European speculators are reported to have been sellers of Steel. Trading operations we think much of it is for New York bear account. In connection with the strength of stocks under fire from Washington it is pointed out that after dissolutions the price has increased in every case.

(J. C. MACKINTOSH & CO.)
 New York, Sept. 26.—The market opened firm with all positions making new high records on the strength of Liverpool, and the reported bad weather in the southwest. First prices were 3 to 18 points higher. The market showed evidence of strength during the afternoon making new highs on a continued broadening of demand. With October contracts selling at 13.91, or within nine points of the 14 cent level, here was heavy buying by old bulls on the advance while wire houses were also large buyers.

(F. B. McCURDY & CO.)
 Chicago, Sept. 26.—Wheat—The seven days decline placed the market in a position to readily respond to any bullish developments which occurred abroad over night. On the declines from the present level what is better purchase than sale situation. Corn—Buying by the leading bull interests on an opening break sent prices up about one cent over the low point, shorts covering in liberal volume. Oats—Showed marked strength due to buying by the leading bull interests and on short covering. Provisions—Higher on buying of shorts in September and October yard. Small advance increases the offerings.

(F. B. McCURDY & CO.)
 New York, Sept. 26.—Due—4 to 5 1/2 higher. Opened strong and irregular, 9 to 11 1/2 higher. 12.15 p. m.—Quiet, September 6 1/2 higher. Others 3 to 9 higher. Private cable—Continued, unfavorable weather reports. Buying orders from America and Continent. Late cables 1 higher than 12.15 p. m. Spots quiet & sales 7,000, American 1,000; imports 7,000, American none.

(F. B. McCURDY & CO.)

Perfection
 EDINBURGH.
 BIRMINGHAM & LONDON
 SCOTCH WHISKY.

"You're the Razor for Me!"

"I never dreamed there was a razor made that could give me so quick and smooth a shave. What a fool I've been to go without you for so long!"

Thousands of men go through just this experience, for there's such a wide gap between the best shave you have ever got with an ordinary razor, and the velvet shave the

Gillette Safety Razor

is ready to give, right from the first time you pick it up.

The Gillette is so easy to handle—it works so naturally around the awkward spots—and it carries an edge so superlatively keen—that once you adopt it the troubles of shaving yourself vanish into thin air. Instead, you find yourself really enjoying the refreshing five minutes you spend daily with the Gillette.

You don't need to hunt around for a Gillette. Right in your own home town your Druggist, Jeweler or Hardware Dealer will gladly show you a Gillette assortment. Standard Sets cost \$5.00—Pocket Editions \$3.00—Combination Sets \$6.50 up.

VIOLET REID ON TRIAL FOR CHILD MURDER

Case Opened Yesterday
Morning Before Judge
White in Circuit Court

JURY KEPT TOGETHER
UNTIL TRIAL ENDS

Several Witnesses Called
During the Day--Testi-
mony as to the Finding
of Infant's Body--Cord
Around Its Neck.

In the Circuit Court, yesterday morning, the case of Violet Reid, charged with murdering her infant child, was begun before Mr. Justice White. The case was heard morning and afternoon.

At the morning session three witnesses were examined, Lawrence Alexander, who first found the body of the child at Fredericton Junction; Samuel Alexander, his father, who had seen the body and later buried it; and Dr. George W. Bailey, who made the first medical examination, and ascertained the cause of death.

The charge of murder of her infant child was read to the defendant. Her plea was "not guilty." P. A. Guthrie, of Fredericton, appeared for the defence, while the prosecution was conducted by Attorney General Grimmer and E. L. Gerow. After the panel was read the following jury was chosen: George F. Vincent, Fred deBoo; Percy C. Cullinan, Charles S. Christie, Alfred Burley, W. Norman Earle, Harry N. deMille, C. W. Stackhouse, Richard H. Irvine, Charles H. Ballie, Charles J. Ward and George A. Stevenson. Two members of the panel were challenged for cause, Donald S. Currie and Augustine Kinsella, both of whom stated their minds were made up on the case.

Mr. Gerow outlined the case for the crown to the jury, describing how the defendant had entered the Salvation Army Home, where her child was born. When she left there she drove to the Dufferin Hotel with the child and it was never later seen alive. The same day she was seen at Fredericton Junction with a suit case. The case was very heavy, whereas when it had left the home it was light.

Lawrence Alexander testified to the finding of the child's body. About the neck was a string. Samuel Alexander said he was present when the doctor made the examination. In one hand were some dried leaves and in the other was a twig. Doctor Bailey said the covering over the child's face was light enough to interfere with its breathing. The cord on the neck appeared to be fairly tight. Decomposition had set in on one ankle.

"I took the pins out of the clothing later," he continued, "and they stuck slightly, as if from dampness. One of its hands, the left, was lying by the child's side, while the right was holding a stem. I unclasped the fingers. The stem did not appear to be as thick as a pencil, and was 12 or 14 inches in length. The child had a considerable quantity of black hair. Outside of the mark left by the cord, there was no sign of violence, but the flesh was discolored where the cord had been, indicating that it had interfered with circulation and that the child was alive, or at least not yet cold, when it was placed there. I would say the child had only been dead two or three days; unless artificially preserved, otherwise, decay would be more rapid."

Examined by Mr. Guthrie, witness stated that the child's clothing had been fastened on with ordinary safety pins, which would rust quite quickly in the open air. "I do not think the body could have been there more than two or three days before it was found. I do not recollect clearly what the weather was like, but my impression is that it was cold. Until I opened the left hand I did not see anything in it, but then some particles of earth dropped out of it. It is possible that the child moved its hand and picked up this earth. The body would remain stiff for some time after death. The shrub which the infant was holding was rooted to the ground. Its grip was firm. The child's clothing when it was found appeared fresh and clean, as if they had not been there long."

His Honor—When a person is asphyxiated does the arterial blood change color?

Witness—Yes, it becomes bluish in color.

His Honor—Can this be ascertained at a post-mortem examination?

Witness—I don't know. Congestion of the lungs and other organs would be the indication of choking.

Mr. Grimmer—What would you say death was due to?

Mr. Guthrie—That's re-examination I object.

The objection was sustained, and witness stood down.

Afternoon Session.

David Duplisse, the first witness called at the afternoon session, stated that he met the prisoner at Fredericton Junction station. She appeared to have come off the train. Witness asked her if she was going his way and was offered to carry her suit case, which he did. He carried it for a quarter of a mile down the track. It was very heavy. The prisoner appeared to be weak and unable to carry the suit case. She said she wasn't going

WHAT'S DOING IN NEW YORK PLAY HOUSES

Important Theatrical
Events of the Week--
Bills at Important The-
atres and Length of Runs

New York, Sept. 26.—The important theatrical events of last week included the introduction of grand opera at popular prices in the Century Theatre; Jessie Abbott, in Rob Roy, in the Liberty, and Fannie Ward, in Mme. President, in the Garrick. In the following tabulation the figures indicate the number of weeks the play will have run at the end of this week:

New Amsterdam—Christie McDonald in Sweethearts, 3.

Geo. M. Cohan's—Fotah and Perlmutter, 5.

Century—Grand Opera, 2.

Garrick—Fannie Ward in Mme. President, 2.

Liberty—Jessie Abbott in Rob Roy, 2.

Gaiety—Nearly Married, 4.

Empire—John Drew in Much Ado, 4.

Knickerbocker—Julia Sanderson in Sunshine Girl, 4.

Globe—Richard Carle and Hattie Williams in The Doll Girl, 5.

Lyceum—Where Ignorance is Bliss, 4.

Pulton—Richard Bennett in Damaged Goods, 7.

Criterion—William Collier in Who's Who, 3.

Grand—Oh! Oh! Delphinia, 4.

Belaço—Temperamental Journey, 4.

Hippodrome—America, 4.

Winter Garden—Pasing Show of 1915, 10.

Orpheum—De Wolf Hopper in Leiber Augustin, 8.

Comedy—Her Own Money, 4.

29th Street—Believe Me Xantippe, 6.

Playhouse—The Family Cupboard, 6.

18th Street—Kiss Me Quick, 5.

Hudson—The Fight, 3.

Lyric—When Dreams Come True, 7.

Manhattan—Old Homestead, 4.

Edgington—Within the Law, 54.

Longacre—Adela, 4.

Cort—Laurette Taylor in Peg o' My Heart, 40.

Soyaly—When Bunty Pulls the Strings, 2.

10th Street—Kiss Me Quick, 5.

Hudson—The Fight, 3.

Lyric—When Dreams Come True, 7.

Manhattan—Old Homestead, 4.

Edgington—Within the Law, 54.

Longacre—Adela, 4.

Cort—Laurette Taylor in Peg o' My Heart, 40.

Soyaly—When Bunty Pulls the Strings, 2.

10th Street—Kiss Me Quick, 5.

Hudson—The Fight, 3.

Lyric—When Dreams Come True, 7.

Manhattan—Old Homestead, 4.

Edgington—Within the Law, 54.

Longacre—Adela, 4.

Cort—Laurette Taylor in Peg o' My Heart, 40.

Soyaly—When Bunty Pulls the Strings, 2.

10th Street—Kiss Me Quick, 5.

Hudson—The Fight, 3.

Lyric—When Dreams Come True, 7.

Manhattan—Old Homestead, 4.

Edgington—Within the Law, 54.

Longacre—Adela, 4.

Exhibiting Stunning Gowns Now in Theatrical Fashion

M. Paul Poiret of Paris, Inventor of the Slit Skirt, Harlem Skirt and Other Novel-
ties Now Doing Brand New Stunt in Wanamaker's in New York.

MRS. AND MISS PAUL POIRET

Paul Poiret, of Paris, inventor of the bobble, harem, slit, shadow, Turkish and the minaret gowns, is now in America with his wife. Mr. Poiret will deliver a number of lectures on fashion in the larger cities of the East and West. The lectures will be illustrated with cinematograph pictures in color. These pictures will embrace not only his present creations, but also his past ones. Mrs. Poiret has with her a large number of gowns which she will exhibit while on the lecture tour with her husband.

New York, Sept. 26.—"It is Paris in America. I certainly did not expect anything as great as this. My gowns shown in such a beautiful frame seem prettier to me than when I see them in my showrooms," said Paul Poiret of the gowns he had made for the Wanamaker store, as he looked at them posed in a Persian garden, yesterday in the Wanamaker auditorium.

The Persian garden, with its minaret effect, is banked with the flowers peculiar to Persia, the land of brilliant flowers, and is the setting for the new gowns from Paris. For the very latest note is Persian. Doucet, Worth and other Paris dressmakers are all inspired by the colors and styles of Persia.

To the music of "The Persian Garden," by Liza Lehman, on sees the new clothes by all these famous designers. The songs cease, the music is soft and dreamy, the mysterious blackness of the Persian garden is very dispelled by a radiant vision. A woman appears wearing Alfs, a morning

gown, which is embroidered with motifs copied from an ancient toupou of the inhabitants of the Orient.

Before one is content to say goodbye to that pretty model, Septine makes her appearance. This costume was inspired by an ancient Oriental document representing the uniform of a Tunisian warrior. The belt, of green leather, is embroidered like the harness of the horses of that country.

Next is seen Cantal, a charming costume for the morning, embroidered with the roses of Persia, a design taken from a Persian document. Then comes Pavana, a velvet gown with a wonderful scarlet tunic, which recalls the characteristics of style and embroidery seen in the Transcaucasian region.

That each model is uncensored goes without saying. The new gowns must of a necessity be worn either without any corsets or with corsets that have almost no supports and are very low in the bust.

The presentation is arranged. In three tableaux, "Morning," "Afternoon" and "Evening." Songs from "The Persian Garden" are heard before each tableau.

The afternoon gowns are more décolleté than ever and very brilliant in color and of splendid materials. The evening gowns and mantles are so characteristic of the East that one recalls instantly the Queen of Sheba.

The black and white evening gown Medco, was inspired by a Persian miniature representing a young Princess of Bagdad. The light crinoline which spreads in graceful waves around the waist represents the corolla of a flower or the wings of a butterfly as in the Persian prints.

Another evening gown of yellow velvet is trimmed with a lace seen in the Byzantine frieze in the Church of St. Sophia, in Constantinople. A splendid wrap of yellow velvet is adapted from that of a Hindoo Prince. The lining represents the design of an ancient jar of Oriental porcelain.

ST. JOHN STOCK SEASON TO OPEN MONDAY OCT. 6TH

"BIG TIM" A PROMINENT PROPRIETOR

His Death Expected to Pre-
cipitate a Crisis in Some
of His Many Theatrical
Holdings.

New York, Sept. 26.—The death of Timothy D. Sullivan, "Big Tim," may precipitate a crisis in several of his many theatrical holdings. Report has it that the United Booking Office interests will now purchase his stock in the Sullivan & Conditine Circuit. Should this be done the effect will be momentous upon vaudeville affairs. Marcus Loew will be seriously cramped in his advancing small-time aspirations, for his present alliance with Sullivan and Conditine gives him opportunity to secure his attractions on long season routings and makes him formidable as a growing and promisingly tremendous opposition to the United Booking Office interests. Sullivan's interests in the theatricals have always had an important bearing upon the burlesque and vaudeville situation. His estate includes the Dewey and Gotham theatre properties in New York. His interests include control of the Sullivan Billposting Co., in New York; interest in the City Theatre, managed by William H. Fox; interest in the Sullivan and Kraus Amusement organizations; the United Theatres Co., operating theatres in the west; Dreamland, Coney Island, Florida State Fair Association, Maryland State Fair Association and other amusement interests not specified. When he died he was a member of congress from New York city, but had never occupied his post actively, his salary being paid by special agreement of congress to the commission which was some time ago designated by the courts to administer the business affairs of the mentally incompetent politician, showman and public idol.

STRINGENCY IS OVER NOW SAYS SIR WILLIAM YOUNG

Magnificent Harvest Safe,
West Cannot Feel Effects
of Tightness Much
Longer.

Winnipeg, Sept. 26.—That the financial stringency is now practically a thing of the past was the declaration of Sir William Young, one of the directors of the Grand Trunk Pacific, who passed through Winnipeg last night on his return from a trip of inspection to the end of steel. With a magnificent harvest now safe, Sir William said the west could not possibly feel the effects of monetary stringency very much longer.

Assassina's Plot Failed.

Lisbon, Sept. 26.—What is believed to have been a skillfully laid plot to assassinate the Portuguese premier, Dr. Alfonso Costa, and members of his family, has been frustrated by the capture by the police of five men in the act of hiding bombs close to the premier's villa at the seaside resort, Pasa Das Macas, near Cintra. All the men are notorious syndicalists. Several other syndicalists charged with being implicated, have also been arrested.

An Unexpected Gift.

London, Sept. 26.—The British treasury received an unexpected windfall from the estate of the late Anthony Nichols Brady, of Albany, N. Y., who died in London in July and whose property in the United Kingdom has been valued for probate at \$6,575,640. Death duties amounting to \$1,950,000 will be paid over to David Lloyd George, chancellor of the exchequer.

offices, who have employed several of his inventions and may take this one. He connected a built over phonograph and a player piano and gave a very pleasing and interesting entertainment. The singing record was Rudolph's song from "La Boheme." The roll on the player piano was made by a musician who had accompanied the phonograph record until the result was satisfactory. His playing is preserved on a recording piano. The phonograph and the piano get along famously with their dust and the silent monitor concealed in the workers seems to be always alert.

The company's policy is to give ten performances a week, playing every night and with matinees on Wednesday, Thursday, Friday and Saturday afternoons.

First Attempt to Establish
a Permanent Stock Com-
pany in This City.

SOMETHING ABOUT
PLAYS AND PLAYERS

Company Selected From
Stock Actors of Long Ex-
perience and Good Pro-
ductions of Popular
Plays Promised.

St. John's first permanent stock company will open an engagement at the Opera House on Monday, October 6th, presenting on that occasion, "Alias Jimmy Valentine," Paul Armstrong's play, which ran for two seasons at Wallack's Theatre, New York.

The company, which will be owned and operated by Messrs. Thompson and Woods, who have successfully conducted permanent stocks in other cities, will be under the personal direction of Mr. Walter Woods while Mr. W. L. White will be manager. Included in the company's personnel are stock actors of much experience in permanent stocks in other cities. They are now rehearsing in Boston and will leave there for St. John on Friday next, arriving here a week from today and opening their season a week from Monday.

Among the members of the company who will assist in entertaining St. John theatregoers are the following:

Miss Frances Brandt, leading lady, has been for two seasons leading lady of the Winnipeg Permanent Stock Company, one of the very best stocks in Canada. Prior to going to Winnipeg she played leads for the Willis Wood Stock in Kansas City, the famous Alcazon Stock in San Francisco and Boyd's Theatre Stock in Omaha.

Miss Winona Bridges, characters, has a splendid reputation as a capable actress. She has played character parts in Boston, Washington, Lynn, Brockton, New Haven and Albany stock companies.

Miss Marie Louise Berton, heavies and emotional parts, has played long stock engagements in Brooklyn, Brockton, Detroit and Worcester and was also leading lady for the Holyoke Stock Company.

Miss Marjorie R. Davis is a charming little ingenue from the West. Her principal stock engagements have been in San Francisco, Seattle and Denver and after coming east in Montreal and in other prominent eastern stocks, Catherine McGregor and Catherine Armstrong, children, who will appear in Alias Jimmy Valentine and other productions calling for them created in the original production the parts they will play in the opening bill of the St. John engagement.

Of the gentlemen in the company the leading man will be Samuel A. Meharry, who has played in some of the best stock organizations in America including the Burbank Theatre Stock in Los Angeles, the Kansas City Stock, Tanhauser Stock in Chicago and a St. Louis stock company.

Cecil Lurkin, characters, has had a long experience in Springfield, Hartford, Lowell and at the Academy of Music in New York.

Edwin Hodde, the juvenile man, has played juveniles in stock in Toronto, Haverhill, Lowell, Boston, Rochester and Syracuse.

Comedy roles will be entrusted to W. A. St. John, a stock company favorite with long records in Baltimore, Washington, Brooklyn, Jersey City, Philadelphia, and Boston.

Verleyn Green, who will "do" the villains during the engagement, has won hisses from gallery gods in Milwaukee, Minneapolis, Omaha, Cleveland and Savannah, and has the reputation of a splendid actor in heavy parts.

Robert Lee, another old stock man, will be stage manager and utility man of the new company.

In the advance announcement of the permanent stock the management state that "a different play is to be offered each week, and it is the purpose to offer, for the first time in St. John as stock productions, the most recent New York successes, as well as the leading plays of other seasons, insuring the local theatre going public an opportunity to see at popular prices, plays that have never before been offered except at high prices.

"Perfection of detail in scenic embellishment, costumes, properties and stage furnishings, and other accessories of production, is absolutely guaranteed, and in no way will the productions we offer suffer in these respects from their original presentations as they were made during the period of their metropolitan success.

"The play for the opening week, 'Alias Jimmy Valentine,' will be followed by productions of such well known successes as 'Get-Rich-Quick Wallingford,' '45 Minutes from Broadway,' 'The Man from Home,' 'Father and the Boys,' 'The Fortune Hunter,' 'The Country Boy,' 'The Woman,' 'Mrs. Wiggs of the Cabbage Patch,' 'When Knighthood was in Flower,' 'The Talk of New York,' 'The College Widow,' 'The Man Who Owns Broadway,' and other plays of equal merit."

The company's policy is to give ten performances a week, playing every night and with matinees on Wednesday, Thursday, Friday and Saturday afternoons.

is Honor—When a person is as-
phyxiated does the arterial blood
change color?

Witness—Yes, it becomes bluish in
color.

His Honor—Can this be ascertained
at a post-mortem examination?

Witness—I don't know. Congestion
of the lungs and other organs would
be the indication of choking.

Mr. Grimmer—What would you say
death was due to?

Mr. Guthrie—That's re-examination
I object.

The objection was sustained, and
witness stood down.

Afternoon Session.

David Duplisse, the first witness
called at the afternoon session, stated
that he met the prisoner at Fredericton
Junction station. She appeared to
have come off the train. Witness asked
her if she was going his way and was
offered to carry her suit case, which
he did. He carried it for a quarter
of a mile down the track. It was
very heavy. The prisoner appeared
to be weak and unable to carry the
suit case. She said she wasn't going

Q—Who is Dave Mersereau?

A—A C. P. R. operator at the Junction.

News to most women!

Oven-tested flour is for sale. Instead of buying ordinary flour you can buy flour whose baking ability has been proven in an oven:

A ten pound sample is taken from each shipment of wheat at the mill. This is ground into flour. The flour is baked into bread.

PURITY

If this flour bakes into bread high in quality and large in quantity we keep the whole shipment of wheat and grind it. Otherwise we sell it.

More bread and better bread from this flour is a certainty!

"More Bread and Better Bread" and "Better Pastry Too" 328

BETTER THAN MEAT MORE EASILY DIGESTED COSTS MUCH LESS

All the body-building elements in the whole wheat grain, steam-cooked, shredded and baked into crisp, golden brown Biscuits or little loaves. The world's universal, staple breakfast cereal. Try

SHREDDED WHEAT

for breakfast or for any meal with sliced peaches and cream or with any fresh fruits. The combination not only gives the maximum of nutriment in smallest bulk, but keeps the stomach sweet and clean and the bowels healthy and active. Always clean, always pure, always wholesome.

Always heat the Biscuit in the oven to restore crispness. For breakfast serve with milk or cream or fresh fruits of any kind.

MADE IN CANADA
A CANADIAN FOOD FOR CANADIANS

The Canadian Shredded Wheat Company, Limited

Niagara Falls, Ont.

Toronto Office: 49 Wellington St. East

With Every Batch of bread you make with Regal Flour successfully, you will wonder why you didn't try it before. No use waiting. Get

REGAL FLOUR

now, and avoid baking-day troubles. Too many cooks spoil the bread by using inferior flour. Don't you make this mistake, but always insure success in baking by using only REGAL FLOUR. Acknowledged to be the most uniformly excellent of any flour sold.

Get a barrel from your grocer. If it isn't satisfactory, we'll refund your money. The St. Lawrence Flour Mills Co., Ltd., Montreal, Canada

OF INTEREST TO WOMEN

Business Women Make Good Wives

A YOUNG man who has fallen in love with a pretty stenographer, but who fears that she will not make a good housekeeper and manager because she has had no domestic training, writes to me for my opinion on the business girl as a wife.

What do I think of the business girl as a wife?

I think she is the preferred matrimonial risk, son, and if I were a young man looking for a real help-meet and not a parlor ornament, no girl would get me who hadn't had the benefit of the education, the discipline and the experience that come from having earned her own bread and butter. Commercial life has got a college course or a financial school or European travel or society left at the post when it comes to fitting a girl for real life.

She will get busy with the cook book, and before you know it, she will make the cooking of the girl who has learned to do things the way that mother did them seem like a child's lunch joint compared to Delmonico's.

Advantages.

Mother makes the angel cake in many a home where the daughters sit in the parlor and do fancy work.

On marrying a business girl there are many compensating advantages that make up for her not being a good free hand cook to begin with. The first of these is, of course, that the woman who has earned money is invariably a better manager with it and more careful than the one who has not. The woman who has never

made a dollar can't get over the idea that money grows like leaves on a tree, and that when a man is away from home at work he is engaged in the pleasant pursuit of picking them off.

Experience Counts.

The business girl also makes a more reasonable and sympathetic wife than the domestic girl possibly can. There are certain things that we are obliged to have suffered in our own person before we know how to appreciate what they mean to another. Ordinary woman worries her husband about trifles, and the minute he comes home begins pouring upon his unfortunate head all the accumulated mischiefs of the day simply because she does not comprehend how heavy the burdens he has borne, how nervous he is, how he is engaged in a struggle in which it has taken every ounce of his vitality, every particle of his intelligence and every bit of his courage to get through the day.

The business girl has been through that mill. She knows that there were times after a strenuous day in store office, when she felt that if just one other featherweight of annoyance, a single disagreeable suggestion even were added to the burden that she had borne, it would crush her. This remembrance will give her a fellow feeling for her husband that will make her wondrous kind and patient with him.

Self-Control.

Above all, the business girl will have

been taught how to control her temper and her tongue. That is the first lesson of the counting room and it is the best guarantee of successful married life. No girl can keep a position who cannot be told of her faults and have her mistakes pointed out to her without flying into a tantrum. It's only after you are married to a woman, son, that you appreciate how much above rubies is the price of a wife who can be told that she may possibly have a little remedy, twenty defect in her character without breaking into a tempest of tears, or going into a case of the sulks.

But if you marry a business girl remember, son, that you are getting a business partner and not a slave; that you are dealing with one who is wise to the ways of men, and not a credulous little goose that you can bamboozle into believing anything. She'll be reasonable, because she knows that a man can't always come home to dinner on the stroke of a clock, and she won't make a fuss about giving you occasional evening out, because she knows that big deals are often pulled off across a supper table. But she will expect a fair divide of the family income and to have her share handed over in a lump sum regularly instead of being doled out to her by quarters.

She will also expect you to play fair and aboveboard with her and there will be no use in trying to hand her fairy stories about sick friends and lodge meetings.

The Young Women Who Would Be Pretty

By Marie Vantini

No young woman need be ugly. When a girl is conscious of her plainness, she is unhappy and often morbid. She should say, "I will not be ugly," for she readily lies in her own hands. The culture of beauty is the duty of every woman, for you cannot separate people from their looks. Beautiful forms are most alluring. The impression of form is the earliest realization of beauty, and the discovery of a face or figure to which we are powerfully attracted marks an era in our lives.

Any pretence of ignoring or belittling beauty is vulgar and absurd. By cultivating her possibilities the unattractive girl will not only be rewarded by the frank approval of her friends, but will gain so enormously in assurance and happy ease of mind that by a natural process she will become a much more amiable and sympathetic companion.

To hide and waste beauty should be a criminal offence, yet much beauty is so wasted. Upon the face, therefore unsuspected, and its possessors get no credit for it. I have

never seen a hopelessly ugly girl, but I have met many who suffered tortures because they believed themselves to be plain and unattractive beyond hope of improvement. Of these girls, the sensitive ones became sly, shy, and sad, sinking into nonentities; others, resenting an unkind fate, cultivated an inferiority complex, seeing slights where none was intended, fitting with a sad lack of humor every cap to their head.

Charming Though Plain.

The social success of her friends is the tragedy of the plain girl. She naturally envies the admiration they receive, the deference accorded them; the best seats, and the best partners at a dance which are theirs by right. How it would comfort the unattractive girl if she could realize that in nine cases out of ten the natural advantages of her rivals are no greater than her own, the difference being that they are beauty-wise and she is not.

Now any young woman who wishes to be attractive, and to go to look like the best of her good points, and by using intelligence and common sense, will find no more need

to envy her more beautiful friends. To make the most of good points, and to minimize bad ones, means a great deal, yet if a girl is earnest she can transform herself beyond her most sanguine hopes. This is no extravagant claim, but sober fact. A girl may have a nose far removed from the ideal Greek, but she may have an exquisite ankle and an arched instep calculated to delight the soul of a sculptor. She will be wise to live up to her pretty feet, and discarding flat squared-toe footwear, and cashmere stockings, encase them in smart low cut shoes and silk hose.

"Making the best of oneself usually means making-up," a rather silly woman once said to me. Now I am not concerned with the ethics of "make-up" and am utterly incurious about them, but I do think that a girl afflicted with hair that is more colored than the ideal Greek, but she may have an exquisite ankle and an arched instep calculated to delight the soul of a sculptor. She will be wise to live up to her pretty feet, and discarding flat squared-toe footwear, and cashmere stockings, encase them in smart low cut shoes and silk hose.

Foolish Risks

THE daughter of the house had been to a party the night before, and had not got to bed till midnight. That was when it happened that she was still asleep when her mother and aunt stepped into her room the next morning. One slender pink foot was thrust out from between the clothes, and as her aunt caught sight of it, she gave a gasp of dismay.

"Why, Laura's foot is almost deformed," she exclaimed noticing how the foot was hollowed at the instep and how the heel had been pressed forward. Then as she caught sight

of a pair of dainty white shoes beside the bed, with high, stilt-like heels, she added, "And I don't wonder, if she wears such shoes as that."

It is hard to convince the girl who likes high heels that there is a chance of their doing her an injury. She sees only that the high-heeled shoes makes her feet look shorter and smaller, and she is really to run the risk of future mischief. For a long time doctors have claimed that the wearing of high heels was likely to lead to weakness of back, to headaches and to trouble with the eyes. A big surgical instrument house which manufactures the

metal arches and insoles used to correct a painful disease of the foot known as breaking down of the arch, reports that during the past two or three years the demand for these metal arches has more than doubled. And the doctors who are sending their patients to get the insoles declare that the greater part of the trouble is caused by the wearing of high-heeled shoes.

It is only the girl herself who knows or cares very much whether her foot looks large or small. It is much more important that it should be neatly and sensibly shod than that it should be made to appear a size or so smaller than it really is.

Tried Recipes

Boiled Bass.

Put enough water in the pot for the fish to swim in easily. Add half a cup of vinegar, a teaspoonful of salt, an onion, a dozen black peppers, and a blade of mace. Sew fitted to its shape. Heat slowly for the first half hour, then boil eight minutes at least to the point of fast. Unwrap, and pour over it a cup of drawn butter, based upon the liquor in which the fish was boiled, with the juice of half a lemon stirred into it. Garnish with sliced lemon.

Graham Nut Bread.

Two cups of graham flour, 1 cup white flour, 1 cup milk, 1 cup broken walnuts or pecans, 1 scant cup molasses, 1 teaspoon soda. Mix dry ingredients together, then add the molasses and milk. Bake in shallow pan, so as to cut in slices about 1 1/2 inches high.

Floating Island.

Let a quart of milk come to a boil (reserve a little cold). Put on top of it the stiffly beaten whites of four eggs

to harden. Mix a slightly rounding tablespoon of flour or cornstarch with the reserve milk, add to the boiling milk after removing the egg whites, cook five minutes. To the mixture add yolks of four eggs add a pinch of salt and four tablespoons of sugar, pour on a little of the hot milk, stirring meanwhile, then add to the rest of the milk; stir till well blended, remove from fire and flavor. Pour into a glass dish, put the egg whites on top with bits of jelly on them if desired.

Minute Pudding.

Set some milk on the fire and, when it boils, add a little salt; stir in as much flour as will make it of a proper thickness. Let it boil quickly a few minutes, beating it constantly while on the fire. Pour it into a dish, and it may be served with butter and sugar, milk and sugar, or a sweet sauce.

Mixed Pickles.

Mixed pickles are preferred by many housekeepers. They are much less trouble than some of the methods of pickling, for when they're done

they're done, and that's the end of it. The following recipe is a general favorite. If you do not have all the varieties of vegetables you may vary the proportions. Separate one large cauliflower into tiny flowerets, remove the seeds from four green peppers and chop the pulp fine. Slice enough green tomatoes and large cucumbers to make one quart of each. Add one quart each of small whole cucumbers and small button onions. Mix the vegetables in a large granite or enameled kettle, and pour over them a brine made of four quarts of water and one quart of salt. Let them stand 24 hours, then bring it to the scalding point and drain in a colander. Mix one cup of flour, 1 level teaspoon of tannic acid, stir to a smooth paste with cold vinegar, then stir this into two quarts of boiling vinegar, add one cup of sugar and stir as it thickens until well heated through, then turn it into jars—fruit jars preferred—and seal as usual.—*Portland Express and Advertiser.*

Haste And Hurry

HASTE is one thing, and hurry is quite another. Haste, like a railroad train, goes straight and swiftly on its way to its terminal. Hurry, like an aeroplane in a counter-goes zigzag.

Haste helps. Hurry is but haphazard. It is usually a fearful mind that seeks to do things in a hurry. The trained mind hastens methodically.

Speed is not necessarily determined by the number of times the wheel goes round. There is such a thing as lost motion, or the wheels may be slipping. Hurry merely marks time, while haste marches directly into camp. Ordinarily there is no call for either. Haste or hurry, but when the urge is on every force must be marshaled and swift results are brought about by making haste.

Behind the work must be the careful, predetermined plan and the resolute, forceful mind which accurately aims the efforts, but there must be no hurry. Hurry misdirects energy. Hurry makes friction. Plan your job in advance. Go at it calmly and with reserve power. Be sure you are right, and then go ahead—swiftly, accurately whatever you do, do not hurry.

Importance Of The Tooth Brush

The regular use of the toothbrush is necessary not only to remove the acid encrustations that eat holes in the teeth, but also to sweep away the germs of many terrible diseases. These find the nests of the teeth an ideal resting place; they multiply a millionfold in a few hours unless washed away, then they go down the throat, enter the lungs, the stomach, the cutaneous tubes and the passage behind the nose. There they give rise to consumption, diphtheria, scarlet, ca-

trarrh, bronchitis, tonsillitis—in fact, it would be difficult to say with certainty what diseases may not arise from the germs that have grown upon the teeth. It is now considered almost certain that many cases of appendicitis have this as their origin. Hence there is no process of the teeth so important as that of brushing the teeth.

SHOPPING NOTES.

A satin that is designed specially

for use in making bathing suits, is lustrous and of heavy quality. It is woven with a cotton back.

A new window cleaner consists of a pair of long, into which the cloth for cleaning is fastened. The tongs are manipulated from inside so as to reach every part of the window, and this without leaving out the window.

Silver fruit baskets, wicker-lined, come with and without handles, says the Newark News.

NA-DRU-CO RUBY ROSE COLD CREAM

Imparts a soft and velvety charm to the complexion, and counteracts the effects of raw, cold winds and over-dry indoor air. Splendid for cracked lips and chapped hands. In 25c opal glass jars, at your Druggist's.

200 NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED, MONTREAL.

Calvert's Tooth Powder

Time spent using Calvert's Tooth Powder is time spent well!

—and none know it better than the people who have used this dentifrice for years and years, and are therefore in a position to judge the value of its services—the cleansing action and antiseptic properties—which mean so much to the welfare of the teeth.

YOUR DRUGGIST SELLS IT. This 10c. jar. 25c. Special Jar of 100 for 50c. For a Trial Sample send no stamp to F. C. CALVERT & CO., 30, Dorchester Street West, Montreal.

Minard's Liniment

Beware of Imitations Sold on the Merits of Minard's Liniment. THE ORIGINAL AND ONLY GENUINE

Price 25 cts. per bottle. Wholesale and Retail Dealers. H. S. ROBERTS & CO., 100, WATER STREET, MONTREAL, N.S.

Table Silver

Grace, beauty and quality are all combined in silver articles marked 1847 ROGERS BROS.

This brand, known as "Silver Plats that Wear" is made in the heaviest grade of plate. There are many designs from which to choose.

Sold by Leading Dealers

WORTH KNOWING.

A pinch of baking powder added to the mashed potatoes when they are being beaten to a fluff makes them lighter.

A particular laundress always has a piece of fine sandpaper tucked securely to one end of the ironing dale. She says this is the best thing she knows for keeping the irons smooth and clean.

The fat from the boiled ham or bacon drippings will be found an excellent substitute for butter in seasoning vegetables or in making a roux for vegetable soup.

When the nickel chafing dish becomes dull, wipe it off with a soft cloth moistened with ammonia, and then polish with another soft rag.

Fat is easily clarified if a few pieces of raw potato are added to it and then it is heated slowly in the oven or on top of the stove. When it ceases to bubble, strain through cheese cloth and let it stand till firm. Keep in a cool place.—*Hartford Times.*

Washable ripplette Bloomer dresses, made on the Russian model, come in white striped with pink, blue or brown. The belt, collar and cuffs are of plain color. They are most practical for summer wear for the small child.

Old Dutch Cleanser

Utensils Quickly Cleaned and Cleared Away with

A dash of Old Dutch on a damp cloth quickly removes the caked flour from the rolling pin and the bread board, cuts away the burnt-in crusts on the baking pans.

Many other uses and full directions on large Sifter-Can 10c.

TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

Halliburton, P.E.I.—"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars."

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound."—Mrs. Geo. COLLICUT, Halliburton, Lot 7, P.E.I.

Read What This Woman Says: New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CASSIE LLOYD, New Moorefield, Clark Co., Ohio.

ALFALFA Fattening Poultry For Market

(The Journal of Agriculture and Horticulture.)

The common practice in poultry packing houses is to feed each lot 21 days or less. The market or trade supplied and the results secured by the feeding period.

Methods of Fattening. MILK Fattening. Practically all of the special feeding in this country involves the use of milk, thus producing "milk-fed" chickens.

Practically all of the special feeding in this country involves the use of milk, thus producing "milk-fed" chickens. These have been exported to some extent.

Various Methods in Vogue. The English feeder does not consider that the bird has been properly fattened until it has been finished with a crammer.

Milk or Buttermilk Essential in All Rations. Milk is used entirely in mixing the various rations used in fattening, and is considered an essential ingredient.

Number of Times to Feed Daily. Birds are fed from two to five times a day, but the more common practice is to feed either two or three times.

Beef tallow is used by many feeders, but has been discarded by others, who claim that it produces a poorer quality of flesh.

Many of the large poultry feeders after trying various feeds and rations have found that a very simple ration, made up of only two or three grains, is best suited to economical gains.

of days which the birds have been in the feeders. The tallow may be shaved directly into the feeding trough but this method does not seem as practicable as to mix the melted tallow into the feed.

Consistency of the Feed. The feed is mixed to the consistency of thick cream, or so that it will drip from the tip of a wooden spoon.

Feather Picking Resulting From Excessive Grain Feeding. Birds often become very restless on forced feeding of a highly concentrated ration, and commence feather eating and plucking each other.

Grain Mixtures. In selecting a ration the feeder must be influenced to some extent by the market price and supply of grains.

There are many other rations which have been used with good results, and which may be specially suited to certain localities on account of the relative prices of grains.

Grain Mixtures. In selecting a ration the feeder must be influenced to some extent by the market price and supply of grains.

Selecting Fruit For Exhibition

(The Journal of Agriculture and Horticulture.)

Although the crop of apples is light one this year, many people will be able to find plenty to make an exhibit as usual at the fall fairs and exhibitions.

disqualify them or at least put them down to 2nd or 3rd place. A good rule to follow is that no apple that will not come within the No. 1 grade under strict interpretation of the Fruit Marks Act.

color for the variety, and one's chances of winning first place are good. An apple that is overly large for the variety is not a desirable one for exhibition.

LIVE TOPICS OF SPORT AT HOME AND ABROAD

MEN WHOM BASEBALL HAS MADE RICH

FRANK NAVIN, THROUGH "MON" RANDALL'S EYES.

The president of the Detroit American League club is the second of the shoeing brothers, the other being Murphy of the Cubs.

To elucidate: Navin and Murphy came into the National drama with just about enough cash to ward a crutch, and today never complain of a snawing sensation in the region of the solar plexus, due to hunger.

Navin is a native of Adrian, Mich., and was admitted to the Michigan bar (judicial) before he graduated from the Detroit College of Law, thus demonstrating how bright he was at an early age.

Having graduated, he hung out his shingle as barrister. He was interested (extent not reported by biographer) in the "booky" end of the Canadian Racing circuit, although not a bookmaker himself. But he followed the gee gees so successfully that he made money, meanwhile permitting Blackstone to suffer for want of exercise. Today Frank Navin is one of the best posted race followers in Detroit and can shed a tip at any time without exertion.

FRANCIS QUIMET, WORLD'S CHAMPION GOLFER.

THE CHAMPION'S RIDE ON SHOULDERS OF ADMIRERS.

Mr. Francis Quimet, the ponthal world's champion golf player, is nearing twenty-one and was born in Brookline, Mass., where he attended school until a year or two ago. His parents are French-Canadians, who moved from Montreal to Brookline some years ago. Mr. Quimet is at present employed by a Boston business concern, but when he was attending public and high school here he played and captained the Country Club course, which he knows like a book. It is this knowledge which helped him to overcome the advantages of experience and age possessed by his two competitors, Hay and Vardon, of England.

GIANT'S PLAYERS INJURED

Brooklyn, Sept. 26.—The supporters of the New York Giants in the world's series got a double shock today when they learned that Captain Larry Doyle had been injured in an automobile accident, and Outfielder Fred Snodgrass had sprung a "Charley Horse" in the game at Ebbets field. Both are not likely to play again for a week, and may be out of the series with the Athletics for the world's championship.

Doyle received his injury last night as he was driving home in the automobile he won as the best all-around National League player of 1912. Pitcher Fromme of the Giants, was a passenger. Doyle became bewildered by the fog and steered the machine into a tree. Doyle was thrown out of his shoulder. Fromme escaped with only a slight shaking up.

Doyle did not realize until this morning that his fall had possibly injured him seriously. A physician said the right arm was dislocated, or the shoulder possibly broken. Manager Snodgrass said he would have Doyle placed under the X-Ray.

Snodgrass opened the game today with a single to centre, and slowed up turning first. He limped around a minute and then retired in favor of Cooper.

QUIMET ADDED TO HIS LAURELS

Brookline, Mass., Sept. 26.—Champion met champion today and Francis Quimet, America's national golf title holder, added to his recent laurels by vanquishing Jerome D. Travers, the national amateur champion. Their match spread over the links of the Country Club after the Quimet-Travers match to the entire neglect of the wronged green at the twentieth hole as to commit what President R. C. Watson, of the United States Golf Association declared to be "the worst exhibition of partisan feeling in American golfing history, and a disgrace to the sport."

The outbreak followed Travers' ill-fortune in driving into a trap beyond the twentieth hole on his approach. The champions had tied at eighteen holes and had halved the nineteenth and Quimet had reached the green in the twentieth with two strokes, Travers' mishap was appreciated to be the deciding break, and the gallery, or a small portion of it, gave vent to its feelings by clipping hands.

The crowd on the green he looked Travers came on the green he looked and then turned to the business of exclaiming his ball. He almost tripped himself again, then fell on a 12-foot putt, and saw the match go to Quimet when the latter sank a two-foot putt after falling to run down one of eight feet for a three.

LARGE FIELD OF HORSES IN GRAND CIRCUIT YESTERDAY

Columbus, Ohio, Sept. 26.—All three of the class races, which, with the finish of the 2.09 trot that was started on Thursday, comprised the programme for the fifth day of Columbus Grand Circuit racing, were split up so that fourteen heats were raced during the afternoon. Compared to that of previous days, the time average was slow. The fields were large.

Grand Marshall took the one heat needed to settle the 2.09 trot. Blama, of the Proctor stable from Readville, Mass., was favorite in the 2.19 trot, and won after the first heat had been taken by Maria Bellini, the second choice. True Salt fell after the first turn in the opening heat had been reached, but a pile-up of horses following was averted. Driver Erskine was able to continue, driving Handy Jim in the 2.11 pace.

Judges hesitated about declaring the 2.11 pace completed after the fifth heat, done in 2.18 3-4, with a sprint through the last quarter in 2.18 3-4 seconds, had been won by Colonel Franklin. Hyde won the fourth heat, but was out-brushed in the fifth. After a delay, the race was held to be ended.

Great Scott, except in the second heat, when a path along the rail was blocked, had no trouble in leading the 2.18 pacers home. He was second choice, Lady Richmond being the favorite.

The summary:
2.09 Trot—3 in 5—Purse \$1200—Four Heats Thursday.
Grand Marshall, blk g, by Es H. Kay (Snow) . . . 5 1 1 6 1

CLEVELAND AND PITTSBURG PLAY A SERIES

Cleveland, Sept. 26.—President C. W. Somers, of the Cleveland American League Club, announced today that he had received a formal acceptance from President Barney Drefusa of the Pittsburgh National League Club of his challenge for a post season series of games.

The series will be under the jurisdiction of National Baseball Commission, which will decide the date and place of the first game.
