

REPUBLICANS ANXIOUS TO MAKE QUESTION OF RATIFICATION ISSUE IN POLITICAL CAMPAIGN

Compromise Efforts to Ratification of Peace Treaty Relegated When Indications Pointed to Possibility of Whole Controversy Going into Political Arena—President May Forestall Republican Plans by Not Resubmitting Treaty to the Regular Session.

Washington, D. C., Nov. 21—Compromise efforts to ratification of the peace treaty were thrown into the background today by developments strengthening the possibility that the whole controversy might be transferred to the political arena for a decision by the people in 1920.

Senator Lodge, chairman of the Foreign Relations Committee and Republican leader of the Senate, declared in a statement, "there was no room for compromise" and urged that the reservations of the Senate majority be carried into the campaign.

There was no formal expression to determine whether a like stand would be taken ultimately by President Wilson and the Administration Senators, but it developed that the President's Senate supporters had no definite assurances as yet that he would reopen the subject for compromise by resubmitting the Treaty when the new session of Congress begins December first.

Lodge Turns About. The declaration of Senator Lodge reversed the position he and most of the Republican Senators had taken toward injection of the Treaty into politics, and was accepted in congressional and official circles as clothed with an added significance by Mr. Lodge's conference with Will H. Hays, the Republican national chairman, just before the unsuccessful fight Wednesday for ratification with the majority reservations included.

The statement follows: "I have no special comment to make. The case is very simple. After four months of careful consideration and discussion, the reservations were presented to the Senate. They were purely American in their character, designed solely to Americanize the treaty and make it safe for the United States."

"Under the President's orders the followers of the Administration in the Senate voted down these reservations. It was also shown by a vote that there was a decisive majority against the Treaty with the reservations."

"These presented to the Senate will stand. There is no room for further compromise between Americanism and the super-government presented by the treaty. I ask now is that we may have the opportunity to lay these reservations before the American people. To the great and final tribunal alone would I appeal."

"I wish to carry those reservations into the campaign. I wish the American people to read and study them. They are not like the covenant of the League, they are simple. I do not see that there is one of them which any American can object. I want the people to see them, understand them, and think of them in every household, on every farm, in every shop and factory throughout the land. Then let them decide."

Paris Comment On Action of U. S. Senate

Do Not Deny the Gravity of the Situation Brought About by America's Inability to Fulfill Her Engagements. Paris, Nov. 21—No mention is made in today's issue of the Fresse De Paris of the adjournment of the American Senate without taking definite action on the Peace Treaty.

L'Homme Libre, in its editorial section, devotes thirty lines of comment to the adjournment, saying: "The treaty will go into force December 1. The action of the American Senate does not permit of waiting for America's ratification, which, although evidently only postponed, may not come for a long time. The gravity of America's inability to fulfill her engagements at the present moment cannot be denied."

"Apart from questions of detail which make difficult opposition of our trans-Atlantic friends, it is easy to realize the capital our enemies will make out of application of the Versailles Treaty without the effective participation of the nation whose chief provided its guiding principles."

Sub-Committee of Cabinet Will Look After Relief of Returned Men

Ottawa, Ont., Nov. 21—It is learned that a Cabinet sub-committee will be named to work out the details of the plan for the administration of the forty million dollars voted by Parliament, on the recommendation of the special committee that investigated into the re-establishment problems, to provide necessary relief for returned men during the winter months. The sub-committee will probably be constituted next week, and its personnel is certain to include Hon. J. A. Calder, who was chairman of the special Parliamentary committee; Sir James Loughheed, Minister of the Department of Soldiers' Civil Re-establishment; Major-General Mewburn, Minister of Militia, and Sir Henry Drayton, Minister of Finance. The sub-committee, before definitely deciding upon its plan of action, will consult the various soldiers' organizations.

Gen. Angels May Face The Firing Squad

Famous Artillery Expert, Chief Lieutenant for Villa, Captured by Carranza Forces, Tried by Court Martial.

El Paso, Tex., Nov. 21—General Felipe Angeles, chief lieutenant of Francisco Villa and famous artillery expert, captured last Wednesday by Mexican Federal forces under General Gabino Olivio, near Vallecitos, faced trial by court martial today in Chihuahua city, Mexico. The trial is considered by Mexican authorities as the most important held in that country during a decade of revolution and banditry.

Reports in circulation along the border today were to the effect that General Angeles would be accused of rebellion against his country, and the death penalty would be asked. Many Carranza officials were said to favor his disposition of the case as a warning to all rebel chieftains. Some authorities in El Paso believed the execution would be disastrous to the new revolutionary movement might follow. Villa sympathizers here today were outspoken in their opinion that the bandit leader would make some demonstration over the capture of his chief lieutenant.

Intercede for Angeles

Washington, D. C., Nov. 21—Many officials and private citizens of Washington and other cities have sent cable messages to friends in Mexico, urging them to persuade President Carranza to save the life of General Felipe Angeles, who is reported to be on trial by court martial today at Chihuahua City. The messages pointed out that Angeles served the Allies with distinction in every campaign, was an expert in all matters pertaining to the conduct of military operations and was a man of high character.

The Sinn Fein members of Southdown intimate that they will boycott Southdown Hunt if General Hackett-Paine, lately in command of the troops in Ulster, is allowed to take part in the hunt. This threatened action is in revenge for his programme against Sinn Fein leaders, while commanding the troops. This is the first attempt of a Sinn Fein boycott in Ulster.

Renewed Activity In G. T. R. Affair Expected With Return of Premier

Ottawa, Ont., Nov. 21—The return of Sir Robert Borden will probably be the signal for renewed activity in connection with the acquisition of the Grand Trunk Railway stock by the Government. Shortly after the arrival of the Prime Minister in the capital, it is expected that the agreement, which is to be submitted by Sir Alfred Smithers to the Grand Trunk shareholders, will be passed upon by the Government. This agreement, it is understood, is now in course of preparation. Officials of the Railway Department state that there is no indication yet who will represent the Government before the arbitration board, or the names of the other arbitrators besides Sir Walter Casella. The appointees to the Board of Management have yet to be decided on.

STOPPED CATARRH SUFFERING OVER NIGHT

I Gladly Tell How—FREE
HEALS DAY AND NIGHT

It is a new way. It is something absolutely different. No lotions, sprays or sticky ointments, salves or creams. No atomizer, or any apparatus of any kind. Nothing to inhale, or to sniff. No rubbing, or pouring, or vibration, or massage. No powder, no plaster, no fomenting, or anything of the kind at all. Something new and different—something delicate, and something something instantly successful. You do not have to wait, and linger, and suffer. You can stop it over night—and I will gladly tell you how. I find a doctor and this is not a so-called doctor's prescription—but it freed me of my suffering. It freed my friends. Your suffering will stop at once this night.

BE FREE FROM CATARRH!
Catarrh is filthy and loathsome—it dirties one's mind. It undermines your health and weakens your will. The hacking, coughing, spitting, and sneezing, and the red, swollen, and inflamed throat, and the pain in the chest, and the general debility, and the loss of sleep, and the loss of appetite, and the loss of energy, and the loss of vitality, and the loss of all that makes life worth living. You know it will bring you to your knees. But I found a cure, and I am ready to tell you about it. Write me promptly.

HAD ECZEMA For Over 28 Years

Eczema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed, and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat is almost unbearable. The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done or can do, so much for those who are almost driven to distraction with the terrible torture. Mr. James Walker, 153 Niagara St., Hamilton, Ont., writes:—I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 28 years, and have tried almost everything you could think of. I was recommended to use Burdock Blood Bitters, and I am now clear of my skin trouble. It is certainly a good remedy and I shall recommend it to all my friends. Manufactured for over 40 years by The T. Milburn Co., Limited, Toronto, Ont.

Rooting Out The Reds

The shots from the I.W.W. Headquarters in Centralia, Washington, which killed four veterans of the World War and wounded others in an Armistice Day parade, give dramatic emphasis to the fact that a year after Germany's open war on civilization was defeated, we are still being attacked by sinister forces of revolution and anarchy which Germany, many believe, turned loose upon the world by way of Russia. That the public is rapidly losing patience with the organized and persistent efforts of foreign theorists to destroy American institutions is evidenced in many directions. Not only is the United States Department of Justice rounding up suspects in every part of the country, but there are pending in Congress fifty-two bills which are designed to give the Government all the authority needed to deal with the Bolshevik, anarchist, and other anti-American organizations.

A sample of the teachings brought to light by the Government's raids is the manifesto of the Federation of Unions of Russian Workers of the United States and Canada. It advocates among other things: Capture of all products and means of production; liberation of all political prisoners; the blowing up of all barracks; the murder of law-enforcing officials; the burning of public records; destruction of fences and all property lines; the destruction of all instruments of indebtedness.

Thoughtful men and women who have the future welfare of the country at heart will read with the deepest interest the article in this week's LITERARY DIGEST, dated November 22nd. It shows what steps the Government has taken to suppress violent outbreaks, suggestions for the punishment of those arrested, and a clear explanation of just what the un-American forces of violence are attempting to accomplish.

PRESERVING OF INSECTS.

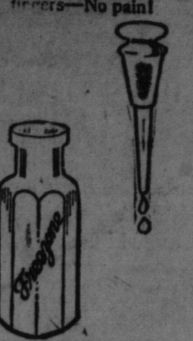

The collecting and preserving of insects and the mounting of insect collections has become an important part of the work of the students in many of our schools. The teachers who have specialized in agriculture have learned something of the methods of collecting and preserving insects and are arousing the interest of their pupils in this fascinating subject. In order to assist those desirous of securing accurate information Entomological Circular No. 12 "Directions for Collecting and Preserving Insects" has been prepared by J. H. McDunnough, M. A., Ph. D. This circular may be obtained free upon application to the Publications Branch, Department of Agriculture, Ottawa. It indicates concisely some of the most essential features in connection with the collection of insects, and aims to arouse an interest for intelligent collecting of insects. Insects are very delicate creatures and unless the greatest care is observed in both collecting and packing for shipment an otherwise valuable collection may be rendered practically worthless from both the aesthetic and the scientific standpoint.

LIFT OFF CORNS!

Any few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

NAVY ISLAND.

T. H. Bullock, Commissioner of Public Lands, is taking up the matter of the proposed evacuation of Navy Island, following the request from the Board of Health, and is now going into the question of the leases. He said yesterday that he hardly thought it justifiable to turn the people away from the island now that the winter weather was coming on, but the matter would be followed up and conditions remedied so soon as circumstances permitted, without causing unnecessary inconvenience and suffering to those affected.

That's what it cost to perfect the only instrument that RE-CREATES music so faithfully that no one can tell whether it is the living artist he hears or the phonograph—when one is heard in direct comparison with the other. Add to that three million dollars, Thomas A. Edison's genius, his vast knowledge and his indomitable will and you realize how much was required to make

The NEW EDISON

LABOR BRANCH OF LEAGUE OF NATIONS PUZZLED AS TO STATUS OF UNITED STATES

Failure of the Senate to Ratify Treaty Places Difficulties in the Way of Delegates to the International Labor Conference—Canadian Employers' Group Believe They Should Not Assent to Conventions to Which U. S. is Not a Signatory.

Washington, D. C., Nov. 21.—(By the Canadian Press staff correspondents)—Delegation of the Peace Treaty by the United States Senate is widely discussed today among delegates to the International Labor Conference. There is general regret that the United States will not be a signatory of the conventions adopted by the conference. At the same time there is a general feeling that the labor branch of the League of Nations should go ahead with its work irrespective of what the United States may do. Canadian employers have all reached the view that Canada should not assent to labor conventions to which the United States is not prepared to assent. Canadian labor takes an entirely contrary view. From Moore, president of the Trades and Labor Congress, holds that steps taken by the United States should not hinder the adoption of progressive legislation by Canada.
"Even though the United States is not a member of the League of Nations," Mr. Moore said, "I am of the opinion that the United States will eventually be forced by economic conditions to adopt progressive measures similar to those provisions to those determined upon by the labor conference. If Canada does her part along with the Latin American republics the workers of the United States will demand the same protection as that secured elsewhere on the American continent. If they do not secure it, industrial disputes in the United States will be inevitable."
The conference this afternoon takes up consideration of the proposed convention forbidding night employment of women in industrial establishments. A series of amendments are to be submitted. The general employers' group will propose that "in industries where work will have to be arranged in two shifts, giving to application of the eight-hour day, the employment of women shall be authorized between 4 a. m. and 10 p. m., or between 5 a. m. and 11 p. m., providing that the work of each shift be divided by one hour of rest (for each shift four hours of work, one hour of rest, four hours of work)."
Ginoi Baldesi, Italian workers' delegate, will propose that the night rest terminate at 8 a. m. instead of 5 a. m., as proposed by the committee in the case of industries in which two shifts are worked. A rest of half an hour for each shift would be included in the period of work.
The committee on standing orders has considered complaints made by workers' delegates that sixteen states represented at the conference have sent government delegates only. "There is a positive obligation, according to the committee, that delegates should be sent representing employers and workers as well as governments, but the Peace Treaty does not separate any penalty for non-fulfillment of the obligation. In view of the fact that in some of the countries, such as Persia and Spain, there are no workers' organizations, the committee agreed that no action should be taken so far as the present conference is concerned, and that the government delegates representing countries which have not sent any non-government delegates should not be deprived of their votes.

slating the Central Committee in its task. A sub-committee on trusts has been empowered to obtain whatever technical and expert assistance may be required.
In scope, the act applies to "any article or class of articles which is one of a kind in common use by the public" or to any "material, machinery or accessories used in the production of such articles." The act does not apply to "controlled" articles, such as butter, sugar, beer, flour, liquors—commodities for which maximum prices were fixed by wartime legislation.
A clear-cut definition of the term "profiteering" has been a point which has given local tribunals much difficulty in the prosecution of their tasks. So far, the definition laid down by Sir Archibald Gordon, president of the Board of Trade, has been accepted as a basis for prosecution. It follows: "The making of an unreasonably large profit, all the circumstances being known, by the sale to one's fellow citizens of an article which is one, or one of a kind, in common use."
On the moot question of what constitutes an "unreasonable profit," O. A. McCurdy, parliamentary secretary to the Ministry of Food, recently declared, "One of the causes of profiteering is the fact that the public seems to have lost all sense of what is a reasonable profit. A good principle for tribunals to work upon is not to ask themselves whether the profit is higher than someone else is charging, but is the profit arrived at on any reasonable business principles or is it merely dictated by avarice and greed?"
Mr. McCurdy has characterized the Profiteering Act as "an abnormal remedy for an abnormal state of public feeling—an act not intended to harass British trade, but to help it restore it to normal and healthy conditions."
Critics of the government's anti-profiteering machinery point to official figures just published in the Board of Trade's Labor Gazette showing that, despite efforts to beat down living costs, the general level of retail prices on October 1 was about 12 1/2 per cent above pre-war figures, or an increase of five per cent as compared with the level of September 1 last, when the local tribunals were just getting under way. But it is not contented, even by these fault-finders, that the increase would not have been larger had the government made no effort to bring the profiteers to book.
Against such objections may be set such testimonials as that of the Yorkshire Profiteering Committee which claims that a reduction in wholesale prices by as much as thirty-five per cent has been noticeable in that locality.
Membership of the local tribunals is fixed at from seven to twenty-five two of whom must be women. All complaints are heard in public except in special cases when under authority of the Board of Trade, proceedings may be in private. Books or documents produced at private hearings are to be treated as confidential if the person producing them so desires. Labor is represented on the local tribunals and on the Central Committee, among the members of the committee being J. H. Thomas, executive head of the railway men during the recent strike and G. H. Stuart-Bunning, president of the British Trades Union Congress.

Local tribunals have been empowered to investigate all claims brought before them and if the allegations of excessive charges are established, to institute proceedings against the seller before a court of summary jurisdiction where, upon conviction, fines of not more than \$1,000 or imprisonment for terms not to exceed three months, or both, may be imposed.
Questions before local tribunals are decided by a majority of the members

COURT RECORDS REVEAL ENGLAND'S STUPENDOUS EFFORT TO GRAPPLE WITH PROFITEERING

1,600 Tribunals Have Been Engaged in Prosecution of 7,350 Offenders, Securing 1,320 Convictions, With Fines Aggregating \$35,000.

London, Nov. 21.—(By the Associated Press.)—Great Britain's stupendous effort to grapple with profiteering is just disclosed by the work of 1,600 tribunals which have prosecuted 7,350 offenders and secured 1,320 convictions, with fines aggregating \$35,000.
Besides setting up these local tribunals to which complaints against dealers are submitted, appeal tribunals have been established in specified areas of England, Scotland and Wales. In addition Central Committees also

have been formed to investigate supposed trusts or monopolies which may be manipulating wholesale prices. This has been done under the Profiteering Act.
Apart from the prosecution of complaints, the Board of Trade, which is charged with the administration of the anti-profiteering law, is independently investigating prices, costs and profits of a large number of articles in common use. It has formed a Costings Committee, composed of distinguished accountants, which is as-

present and voting. Any seller aggrieved by any finding of a local tribunal, other than a decision to take proceedings before a court of summary jurisdiction, may appeal to the Appeal Tribunal for the area in which the local tribunal is operating. The institution of court proceedings is not the only function of the local tribunals—they may dismiss the complaints entirely, declare the price which would yield a reasonable profit on the article in question, or require the seller to repay to the complainant any amount paid by him in excess of this stipulated price. It is declared to be certain that Parliament, during its present sitting, will extend the time during which the Profiteering Act shall continue in force. This is cited as an indication of the public's belief that it has been at least partly successful.

UKRAINIAN NAT'L COM. OF U. S. PROTEST TO COUNCIL AGAINST POLAND'S MANDATE OVER GALICIA

Protest Declares That East Galicia Shall Never Be Ruled by Poland and That Ukrainians Will Fight Until World Sees Their Right to Govern Themselves.

New York, N. Y., Nov. 21.—Protest against the reported decision of the League Council of the Peace Conference to give Poland a treaty-drawn mandate over East Galicia was de- signed to Premier Clemenceau and Lloyd George and Frank L. Polk, American representative in Paris, from the headquarters of the Ukrainian National Committee of the United States.

East Galicia "never shall be ruled by Poland," the protest declared, and a supplementary assertion made public by the committee said that the Ukrainians "will fight until the world sees their rights to govern themselves."

The cablegrams despatched to the Peace Treaty heads, signed by the Very Rev. F. Fustel de Couhades, president of the National Committee, read:

"Ukrainians of East Galicia have believed justice would be given to them, as to other nationalities of the former Austro-Hungarian Empire. Even enemies, such as German-Austrians and Hungarians, were given self-determina-

tion. The Supreme Council, July 11, pledged a plebiscite for East Galicia, but now recognises the right of invasion and occupation.

"Giving Galicia to her hereditary enemy, Poland, is against the people's will. Ukrainians protest the Supreme Council's decision of Nov. 21, and de- clare that East Galicia never shall be ruled by Poland."

Telegramms similarly worded were sent to President Wilson, Secretary Lansing and Sir Robert Borden, Premier of Canada. Ukrainians in the Dominion have been requested to de- spatch the protest. A statement issued here regarding the Supreme Council's decision declared that the million Ukrainians in this country re- spected by the National Committee "cannot believe that America will con- sent to the enslavement of the mil- lion Ukrainians in East Galicia."

According to Polish statistics, it was asserted, East Galicia's population is 74 per cent. Ukrainian and only 18 per cent. Polish.

PREPARATION FOR COMMUNION SERVICE

Service Held in St. David's Last Evening—Rev. J. A. Clark Preached, His Subject Being "God's Love Prov- ed."

The service held at St. David's church last evening was a preparation for the communion service to take place on Sunday morning, and the sermon preached by the Rev. J. A. Clark was of a preparatory nature, the subject being "God's Love Prov- ed." The choir of St. David's church was in charge of the music, an anthem, "Oh Come to Our Hearts, Lord Jesus," being beautifully rendered. Rev. J. A. Clark read the Scriptural lesson from the fifth chapter of Romans, and took his text from the 8th verse: "But God commendeth His love toward us, in that, while we were yet sinners, Christ died for us." Dr. Clark said that at the present time and under the pres- ent conditions it was hard for people to believe that God's love prevailed. It was felt that there was no love in the world only strife and discord. God's love as exemplified by Christ's sacrifice on the Cross was all power- ful and all wise. The love of God on the Cross was a supreme act, for it meant the giving of Himself. Man's love is imperfect, so that it is impos- sible for us to realize or comprehend what it meant for God to give His Son. Dr. Clark said that there is no love without sacrifice, and went on to il- lustrate this fact with many illustra- tions. Speaking of the humiliation of the Cross, the preacher pointed out that Christ who said, "I am the Truth, the Life, the Light of the World," yet gave Himself to the death on the Cross. The greatest proof of God's love is the absolute surrender of the Son on the Cross for all the bad and the good. His last words were a prayer for His enemies, there- by differing from people who usually love those who love them. In the love of Jesus we see the love of God, all embracing, triumphant His love as shown by the sacrifice on the Cross was righteous in that He died to satisfy divine justice. With- out that sacrifice the sinner had no hope. Christ's sacrifice shows God's love. This is incomprehensible yet absolutely true.

After the service Rev. J. A. MacKegan received twenty-six new mem- bers into the church.

RECONSTRUCTION TASKS IN PARIS

Parisian Visitor Speaks of Great Changes That Have Come Over French Capital — The Averting of Coal Shortage.

A Parisian who is visiting the city and is stopping at one of the leading hostels here has heard last night as- tonishing news of many changes that have come over Paris since that joyful town has turned her energies, joyful so phenomenal during the war period, into the greater tasks of reconstruction.

Interesting to the St. Johnite was his description of the way Paris is cutting down her coal consumption, by reducing the number of street lights and lessening the power of those in use, thus averting to a certain degree the coal shortage that is threatening the French capital.

Asked by a local man for a compar- ison of the lighting of Paris and St. John, the visitor was loath to answer for a while, but later admitted that Paris, even under present restrictions, is better lighted than the Loyalist City.

All Ready For The Big Game

Harvard and Yale Will Meet in Their Yearly Conflict on the Cambridge Stadium This Afternoon.

Boston, Nov. 21.—Harvard and Yale are both through with their training, the die is cast, and only the game re- mains to be played. The Crimson squad held its final secret session yester- day afternoon while Yale was hav- ing the same thing down in the Bowl. This afternoon when the Yale squad arrives in Boston, the Harvard crowd will be bidding good-by to the Stadium. The next time Plater's men trot on the football turf will be Sat- urday afternoon, just before game time.

Both squads are in splendid condi- tion, with one large exception. The premier dropkicker of each team is just coming through from an extend- ed period of inactivity. Ralph How- ven of Harvard and Thorne Murphy of Yale will both be fit to get into the contest, but neither of them can last for long. It is even likely that both will be held on the sidelines until the time is opportune for a field goal—if such a time arrives.

CRIME ON INCREASE IN CANADA DURING YEAR 1918

Ottawa, Ont., Nov. 20.—A consider- able increase in crime throughout the Dominion is shown by the Blue Book, dealing with criminal statistics for the year 1918, just issued from the office of the Dominion Statistician. Accord- ing to the returns there were during the year 21,747 charges and 17,870 con- victions for indictable offences in the several provinces, as compared with 19,623 charges and 14,616 convictions the year before, being an increase of 2,124, or nearly twelve per cent for charges and an increase of 3,254, or slightly over eleven and one half per cent for convictions during the year. The per centage of acquittals ran from twelve per cent in Prince Edward Is- land to over twenty seven per cent in Nova Scotia.

CARLETON SERVICE LARGELY ATTENDED

Sunday School and Young People's Night — Rev. Dr. Rees Preached Sermon Entitled "College Chums."

The evangelistic services held in the City Hall, Carleton, last evening, was one of the most interesting of the series so far. It was Sunday School and Young People's night, and each Sunday School class attended in a body and contributed something to the programme, readings, songs or other features. The applause which greeted each number by the class was evidence that the audience was well pleased.

Following this programme Dr. Rees delivered a striking sermon entitled College Chums, taking his text from Daniel 2, 16 to 18. He emphasized the principle that God takes care of those who are on his side. He advised young people going to school or college to stand up for principle, for God takes care of those who are true to principles. He denounced compro- mise and characterized it as a sign of weakness. Those who are going to follow the Master and reach the high- est ideals of spiritual life will not allow themselves to be influenced by the weakness of compromise. Compromise made church work so hard a difficulty, it explained why the church failed to reach the unaved and had so little influence on the community.

Dr. Rees led the singing in her usual capable manner, and the music was much appreciated.

Sunday at three o'clock Dr. Rees will preach to men only, and will deal with the reasons why more men in St. John are not Christians.

A Happy Home

Happiness is life—and real happiness is found only in a real home. And by a real home I do not mean a home with a yard or farm around it. Oh, no! A real home is the place where the happy and united family gather together for mutual enjoyment and recreation. And the Edison Amberola makes this possible, for it stands supreme as the greatest home entertainer. It will mean more than entertainment and merriment, more than an hour of amusement—yes, it will mean genuine pleasure of the lasting sort—helpful entertainment and culture of the most beneficial kind. It will mean the family united—a new home.

Such a variety of entertainment! Hear the latest up-to-date song hits of the big cities. Laugh until the tears stream down your face and your sides ache from laughing at the funniest of funny minstrel shows. Hear the grand old church hymns, the majestic choirs sing the famous anthems just as they sing them in the cathedrals of Europe. Hear the pealing organs, the crushing brass bands, the waltzes, the two-steps, the solos, duets and quartettes. You will sit awe-stricken at the wonderful grand operas as sung by the world's greatest singers. You will be moved by the tender, sweet harmony of quartettes singing those old melodies that you have heard all your life. Take your choice of any kind of entertainment. All will be yours with the Edison Amberola in your home. Send the coupon today.
