COMMUNICATION

[TO THE EDITOR OF THE STANDARD.]

SIR,—As it is best to come out with the
whole truth in all public matters, I shall, in
the first part of this letter, acknowledge the
great change which has arisen in my mind
within the last four years, regarding the ten-
dency of our Public institutions, and admit
the evil effects which our contracted system
has produced upon the Province.

Those persons who came to this Colony at
the peace of 1783, were men of stout hearts
and determined minds. Many of them left
happy homes and a fine climate, to settle in
a wilderness; regarding the privations and suf-
ferings resulting from such a step as of little
consideration, when contrasted with what they
believed a sacred duty—their motives were
generous and exalted, but many of them lived
in doubt; at least, the prudence of such re-
moval, and very many of their children now feel
such doubt more pointedly than did their Fa-
thers. I am one of these.

The hostile manner in which liberal views
respecting self Government have heretofore
been treated in this Province, until, at length,
have had the effect of crushing every tenden-
cy towards their introduction; and the full
shame of such abuse as bitter prejudice could
cast upon any attempt to change the public
views, has been unparagonably awarded to the
modicum of power which shall be given, in
all Governments, to the people, is now the uni-
versal theme—it occupies Europe, and is
much considered and commented upon, in all
the Colonies of Great Britain in America—
This Colony is now, at length, engaged in
the conflict—we feel that by confining power
to the few, we have neither advantaged those
few, nor the Country at large—the system has
been bad from the first; unfit for a young
and poor Colony it certainly has been, and
the universal voice seems now to have pro-
nounced its doom. The people are drawing
contrasts between their own condition, and
that of those who perform like services else-
where; they begin to find that they remain
powerless, having neither such institutions as
must make their voices of importance, even
in spending the money exacted from them for
County expenditure, or in selecting officers.

With many, hope even has died, and every
prospect of a favorable change, until of late,
seems to have been destined to flicker for a
short time, and then expire. I think the
more approaches. Public meetings are be-
ing called in various parts of the Province,
and resolutions passed in favour of self Gov-
ernment. Let this Country do the like; let
every man who values the growth, prosperi-
ty, and education, of his neighbors, boldly
step forward and claim his just inheritance.
The place holders in the Legislature last ses-
sion, feeling that they must concede some-
thing, passed an Act which they were pleas-
ed to call a Municipal Corporation act—
What is it, why it is an act authorizing the
people to nominate parties to fill such offices
as High-ways, Fence viewers, and the like—
to fill such offices, in short, as the magistrates
have much difficulty in finding persons to ac-
cept; but the appointment to every such of-
fice as confers honor, or, to any material ex-
tent, gives reward, is strictly kept from the
nomination of those best able to judge of the
qualifications of parties seeking office, and
best entitled to such guidance, by being the
parties who have to pay the taxes. Let the
Legislature take back such a mockery, let
them yield Municipal Corporations in full—
or deny giving any. May the people reject
with contempt, the paltry, insincere, and mi-
serable boon offered, nor ever exercise the
powers it so grudgingly yields. Let each
county select its own officers, high and low,
let worth and talent have a fair claim in the
race of life, and worth and talent can wish
for no more, nor should they accept less—
Give like powers to the people here, as have
at length been yielded to the Canadians, and
like results will follow, wealth will then be
fairly taxed, which it is not now, and even
those who have to contribute largely to the
education of all around them, would soon be-
come sensible, that what they so give, will be
returned ten fold by the increased value of
their property. Land will not then be hoard-
ed up; and kept waste, for the purpose
of allowing the industry of others to create a
value for it; no, such land owners must ei-
ther be taxed, sell to avoid taxation, or must do
what so few holding large tracts of land have
done—they must work it, so as to make it
productive, and thus enable them to pay such
necessary taxation.

If Municipal Corporations are introduced,
we will soon cease to hear of fast property
values fallen 50 to 75 per cent. in value, and
of thousands of the inhabitants leaving the
country; we will hear no more of annexa-
tion, or of the want of work for such as are
inclined to labour; and property would soon
be duly estimated, and the youth of the
country would speedily become anxious to
exert themselves—aware, that by so doing,
they would not only be made wealthy, but of
more importance in their respective Coun-
ties.

He who supposes that the possession of
wealth in all young men aspire to, is only
a libel against his species; give man a
fair education, place him in a position to be
able, yearly, to aid in electing or rejecting
the officers of his County, and rest assured
he will soon rise in the scale of society; his
acquirements will act as a stimulus to others
near him, and mind, being thus created, will
act upon and enhance the value of all prop-
erty in its vicinity. Had the State of
Maine, when it separated from Massachu-
setts a few years since, a greater population
than that of New-Brunswick—Has it a bet-
ter climate—has it an equal soil, or a great-
er extent of land—has it finer rivers, or a
better inland navigation—has it equal fish-
eries or lumber—has it more plaster, grind-
stones, mines or minerals—has it, for a long
course of years, had a highly protected trade
both with the West Indies and the Mother
Country? yet has Maine now thrice the
inhabitants of this Province, and her inhabi-
tants are educated, and, consequently, ener-
getic and ambitious.

Are the people of this Province inferior to
their neighbors? Let the speedy rise of
such of our youth as go to the States, an-
swer in the negative. It is our system that
is in fault, and which has kept the Country
behind, and has introduced ideas, and a
style of living, which we must get rid of—
We must learn to forget much; and the first
lesson, which will soon be forced on us, that
we are, as yet, a poor Country, but one in
which the desire to appear rich is very pow-
erful. What good has resulted from the
large, the preposterous salaries given to our
Provincial Officers? Has not poverty, gen-
erally, been the fate of their families; the
result of living upon, and in very many in-
stances far beyond, even the large and crimi-
nally allowed them.

Mr. Editor, I could go much further, in
many respects, but will, for the present,
pause, and call upon you, to give this a
place in your paper; and if you do so, and
thereby show your general approval of the
sentiments it contains, I urge you to call a
round upon the County to have Public Meet-
ings; so that the Legislature may see their
wishes; follow the example so nobly set by
the Editors and the people upon the Gulf
Shore. Shake cloth from our shoulders, and
despondency from our minds, and so do the
best towards staying the downward tendency
of our Country, and the ruin of our private
property. Municipal Corporations, in ad-
dition to what is before stated, will at once
render the collection of one half of the pre-
sent revenue unnecessary, and by the removal
of all the injurious taxes, being relief, to all
parts of the Province, and, in an especial de-
gree, advantage this County.

As the Royal sanction was given to the
Canadian Act, so will it at once be yielded
to any Municipal Act passed in this Pro-
vince; the evil has rested with ourselves,
and if it is our deep reproach—let it be so
no more.

Yours,

counting the cost of stones prefer going to
the life-work four or five miles distant, and
pay at the rate of 23s per 1000 for tiles and
soles, and 20s for the pipe-tiles, which I
believe are preferred by intelligent drainers,
and ought to be more generally used.

The expense of cutting the drains depends
greatly upon the hardness of the subsoil, and
the depth of the drain to be cut, the common
price is from 5s. to 8s. per rod for cutting and
filling the drains. It may be questioned
whether improving the soil in such a manner
in New-Brunswick can pay. I think it will
—provided that we have a tile-work estab-
lished in the Country, and I trust there will
be one before long. Tiles must be much
cheaper than stones for draining, especially
in New-Brunswick, where the price of labour
is so high. For instance, the difference of
the cost of handling and cartage of both kinds
of materials, that one cart-load of tiles and
soles, each 14 inches in length, will lay up-
wards of 100 yards of drain, whereas one
cart-load of stones will only fill from 10 to
15 feet of a drain to a depth of 12 to 16 in-
ches; so that any person will readily per-
ceive that the saving of labour by using tiles
instead of stones must be very considerable; and
they besides make a much more efficient and
durable drain than stones. In 1849
(which was an uncommonly dry season) I
had an excellent crop of turneps, and the sea-
son not at all favorable for them, which I
attributed entirely to the previous draining,
and nothing that I have experienced in farm-
ing has brought such thorough conviction to
my mind, as that draining followed by sub-
soil-ploughing, is one of the greatest practical
improvements in cultivation. I have been
particularly impressed by the way in which
green crops, grain, and grass, stand out after
this operation in dry, burning weather, which
can only be accounted for by the destruction
of pan and the greatly increased depth ob-
tained for the roots—the expense no doubt is
a serious matter, and probably no one would
feel disposed to incur the expense of draining
so extensively as farmers do in this country;
but a farmer, even in New Brunswick might
always manage to get a bit of his land drain-
ed and subsoil ploughed if he likes, once con-
vinced of the advantages. The loss of rich
soil and prime manure by surface currents on
undrained retentive land, is very great. The
portions of soil most thoroughly pulverized,
those which possess the highest intermix-
tures of ammonia, potash, and other food of
plants, are precisely the portions which rain
and surface currents sweep away. Now
thorough draining, in all instances, prevents
by far the greater part of this very serious
loss, and when the land has been sufficiently
drained and subsoiled, the water percolates
freely but slowly into the drains, and every
particle of the loss prevented. That drain-
ing is necessary, on almost every acre of
land in Charlotte County, there can be no
question. The water which is retained in
the soil lying on impervious layers of clay
and ill, is very injurious to vegetation.—
While the ground is soaked with water, man-
ure however abundantly applied, can im-
part no fertility to the soil. It is remarkable
with what ease and freedom the plough pass-
es through subsoil drained land, and where
ordinary sized stones are in its way the
plough can easily dislodge them.

It would be a great advantage to the New-
Brunswick farmer to have his land thoroughly
drained; he could get his crops put in two
or three weeks earlier in the Spring, and
the labour of tillage would be greatly facili-
tated and easier for the teams. I have been
told by experienced farmers, that land, after
it has been drained, ploughs easier with two
horses than it formerly did with four. The
sowing of horse labour however, will require
to be expended by the farmer in the new di-
rection of cartage from increase of crops; but
this is a consequence which every farmer will
very cordially welcome.

Yours truly,
J. M. McDONALD.

CALIFORNIA ITEMS.—A San Francisco corre-
spondent says, that several passengers in the
steamer carried home from \$15,000 to \$25,000
each; also, that a party of three, of whom Mr.
McIntire, an Unitarian clergyman, was one,
recently arrived from Yuba river, with \$70,000,
the result of their summer's work.

A letter says, that business at San Francisco
was dull, and prices of nearly all kind of commodi-
ties had greatly declined within a fortnight. Real
estate would not bring a quarter part what it would
a year ago. The cholera had carried off a large
number of Indians.

There was a destructive fire at Sacramento City
on the 9th of November, which occasioned a loss
of \$45,000.

TWO WHALE SHIPS SUPPOSED TO BE LOST.—
Capt. Roys reports, that on the 1st of Sept.,
while his ship was lying in a Bay upon the West
Coast of Behring's Straits, an Indian chief came
on board, and by signs made known that two
whale ships went ashore, and all hands were
lost. As near as he could understand, the fatal
spot must have been N. W. from Cape East, on
the Asiatic Coast. For four or five days previous,
there had been a heavy gale from the N. E.

RETURN OF H. B. MAJESTY'S SHIP HERALD.—
This ship returned to this port on the 16th inst.
from the Arctic Ocean, having been unsuccessful
in her search for Sir John Franklin.

THE SONG OF THE RAILROAD.

BY C. J. WOLFE.

Through the mould and through the clay,
Through the corn and through the hay,
By the margin of the lake,
O'er the river through the brake,
O'er the bleak and dreary moor,
On we hie with screech and roar!

Splashing! dashing!
Crashing! dashing!

Over ridges,
Gullies, bridges!

By the bubbling rill,
And mill—
Highways,
Highways,

Hollow hill—
Jumping—bumping—
Rocking—roaring!

Like 10,000 giants snoring!

By the lonely lake and mansion,
By the ocean's wide expansion,
Where the factory chimneys smoke,
Where the foundry bellows croak—
Dash along!

Crash along!
Crash along,
Crash along,
Crash along,

On! on! with a jump,
And a bump,
And a roll!

Here the fire-bell to its destined goal.

O'er the aqueduct and bog,
On we hie with ceaseless jog,
Every instant something new,
Every instant lost to view,

Now a tavern—now a steep—
Now a crowd of gaping people—
Now a hollow—now a ridge—
Now a cross-way—now a bridge—

Gumbo—stumble—
Ramble—tumble—
Fretting—getting in a stew—
Church and steeple, gaping people—
Quick as thought are lost to view—
Everything that eye can survey,
Turns hurly-burly, topsy-turvy!

Each passenger is thumped and shaken,
As physics is when to be taken.

By the foundry, past the forge,
Through the plain and mountain gorge,
Where cathedral rears its head,
Where the silent dead lie,

Monuments amid the grass!
Fit like spectres as you pass!
If to find a friend inclined,
Which! which! he's left behind!

Ramble, tumble, all the day—
Thus we pass the hours away.

The Editor of the St. John Colonial Watchman,
thus discourses on the prospects of the European
and United States Railroad.

THE RAILROAD.

Just as we predicted the subscription for
the Railroad is at a stand still. Where are
all the paraded plans of the Morning-News
and others. Not a word now do we hear of
them. It is not even decided whether this
Railway will be built by a company or by the
government, nor of course whether a subscrip-
tion in New Brunswick be of importance at all or
not.

We doubt much, even if Mr. Howe suc-
ceeds to his wish, and this is still uncertain,
whether the British Government will guaran-
tee a loan to construct the great Western line.
That they would do so for the great Trunk
line, Halifax to Quebec; over it whole length,
granting their yield to Nova Scotia in their
portion, we have little fear, but it is quite
another question to guarantee a loan to con-
struct a Railway to open up a communication
with a foreign country, instead of one which
would form a military road through British
dominions—a road necessary, as things are
now conducted, to preserve Canada in case of
war with the United States.

And who will dare venture to assert that
such a war is improbable. Suppose an at-
tempt of Southern States to form a separate
confederacy, it is so much the interest of the
British people to support such an effort on the
part of these Southern States, that we have
little doubt they have no trifling reliance on
their aid in case of need, and if such an
event should occur, Quebec would be in no
small danger. In fact the military diversion
would necessarily be in quarter.

We may be laughed at for making any sup-
position of this nature, but we care not. We
have seen too many changes in our day to
doubt that one will, at no distant period take
place here. It is not possible that the free
states of the Union can long stultify them-
selves and outrage their consciences by being
connected with human slavery while pretend-
ing to unlimited freedom, and condemning
of slavery in the abstract, and it is as little
probable that the Southern States accede to
it will give slavery up, to suit their North-
western neighbours. The precursors of a storm
appear from time to time and it will one day
break out in thunder over the land.

EXHIBITION OF 1851.

Mr. Cooke, of the Royal Circus, Bristol, has sent £50 to the funds of the Exhibition, being the proceeds of one night's performance. It has been suggested that the crystal Palace should be thrown open at a low charge during the Christmas holidays. This is calculated, would yield a handsome amount to the funds.

The principal commercial houses of Milan have formed a union with a view to facilitate the departure, residence, and return of all the persons who intend to visit the London exhibition.

A German manufacturer, represented by an agent in London, is constructing a musical bed for the Exhibition of 1851. Directly the occupant of this bed presses it, soothing airs will be emitted; and thus lulled, she may sink into the arms of sleep.

At the eleventh hour a royal decree has been issued appointing a commission to promote the transmission of Portuguese manufactures and products to the grand exposition of London. The commission, however, remains, what upon earth they will send, the manufactures of the country being so far behind those of almost all other nations.

An experienced naval architect of New York is now constructing a yacht schooner, of about 150 tons, which will be present on the Thames during the exhibition of the next year. He has carte blanche from the gentleman to whom she will belong; and is so confident of rendering her the model of perfection, which they wish for, that he contracts to build her without charge if she does not prove to be faster than any one which may be brought forward in competition.

Classification of Articles.—The commissioners have adopted the principle of arranging the productions of each country in distinct nations. One-half of the building will be occupied with the productions of the United Kingdom and its colonies and dependencies, and the other by the productions of foreign countries. The principle of exhibiting the articles in "nations" will not apply to machinery in motion, it having been considered advisable to exhibit the whole of the articles working either steam or water power together. The commissioners will be prepared to receive all articles intended for the exhibition until the 1st of March inclusive, after which no further goods can be received.

THE PRIMATE'S OPINION.—The Archbishop of Canterbury has been appealed to by a body of laymen for advice with regard to the prevalence of objectionable practices in some of our parish churches; and whether it is the duty of those who have the Parliamentary suffrage to withhold their votes from such candidates as decline to pledge themselves that they will use all their power to obtain a repeal of the laws which prohibit the Catholics from exercising any future agency in the Established Church of this country by the See of Rome; and in reference to a proposed alteration in the Prayer book, so as to meet the divisions which at present exist in the church. The archbishop replies, that (1) only great unlikelihood and very objectionable practices should induce a layman to leave his parish church for another; but when salvation is concerned, order is a secondary consideration; (2) the occasion is not such as to justify the demand of a pledge from a member of Parliament to any particular measure; (3) men's minds are so excited that any alteration of the Prayer book is further removed than ever; those who object to any part of the Liturgy should be reminded that it treats of subjects on which there always has been difference of opinion among members of the Church. The principal duty of the laity at present is to promote the teaching and preaching of the Protestant faith.

ITALY.—Rome.—The affair relative to the Pope's Bull dividing the British dominions in Catholic districts or sees is under the secret management of the Propaganda Fide, and is, therefore, extremely difficult to penetrate. The impression made, however, both on the clergy and the intellectual part of the Roman citizens, is that the Pope has been ill-advised, and that the act is precipitate and imprudent; the Pope now regrets the step that has been taken. Such is the alarm created in the body of the Sacred College at the anti-Catholic demonstrations in England, that the Roman Government now clearly sees the expediency of arranging matters with Piedmont.

A letter has been received in Paris, dated Rome, the 10th ult., which mentions that a letter addressed by Lord Minto to a high person in that city on the subject of the Roman Catholic hierarchy in England has been communicated to the Pope by the French Minister. It was believed that the Pope would adopt some measure to calm the excitement which has been created by the publication of this Bull.

PROTESTANT WOMEN IN ROME.—In a letter addressed to the Times, the Earl of Winchester corroborates the statement recently made by Mr. Walter to the effect that the English Protestants are not allowed to have a chapel within the walls of Rome. The present place of worship is an old granary over the Pig market, the noise and stench of which render it the most disgusting place of the kind I ever entered.

AWFUL ACCIDENT AT MACAO.—Hong Kong Oct. 30.—By an express this morning from Macao we learn that a fearful and melancholy occurrence took place there yesterday, the 29th inst. It was the anniversary of the birth of the consort of the Queen of Portugal. The Portuguese frigate, the Donna Maria, fired the usual salute at noon. The Captain and all the officers but two were on board, and it is said, some officers from the United States ship Marion, on whom were to have dined at three o'clock on board the

Portuguese frigate. About halfpast two o'clock the latter vessel blew up, and with officers and men about 200 in number, perished, with the exception of one officer and fifteen men, picked out of the water by the boats of the Marion.

TWO WEEKS LATER FROM GALICIA.

More Gold arriving.—The *Chalera* Disappearing, &c. &c. The steamship *Georgia* arrived at New York on Monday last, with California dates to the 1st of December. She brought 550 passengers, the mails, and \$200,000 in gold. The steamer *Oregon* arrived at Panama with two millions in gold dust. The steamer *Republic* also arrived at Panama with two millions of dollars on freight, and one million in the hands of passengers. The *Georgia* left Chagres on the 26th ult., with 924 passengers, but left 400 at Havana, to go to New Orleans. The *Crescent City* was at Chagres, waiting gold dust; she had 130 passengers. Those remaining on the isthmus would leave in sailing vessels. Chagres is becoming more healthy. Havana was quiet—five or six Californians were in prison for violation of Spanish laws. Howland & Aspinwall's train was robbed on the isthmus of \$200,000.

The accounts state that the *Cholera* has almost disappeared from Sacramento, and that business there has consequently revived. The Mayor of Sacramento is dead.

Recent rains have opened the upper rivers so that small steamers can now navigate. The rains also give the miners in the dry diggings a better chance to work. Many new veins have been discovered, and gold strikes continue very favorable.

Many miners were preparing to winter in the mountains. The deaths in San Francisco are not so numerous in proportion to the population as they were twelve months since.

Many streets are planked, and many other improvements going on. The rainy season commenced in earnest on the 19th.

SAN FRANCISCO MARKETS.—The wet season and heavy arrivals have a disastrous effect, and many goods have been forced off at less than cost. Flour, steady; building materials dull, and declining; Coal dull; Domestic heavy; Stout Boots in demand; Provisions lower; Furniture, nothing doing; Druffs on Atlantic cities par.

ANNUAL LOSS OF LIFE AND PROPERTY ON THE LAKES.—The Buffalo Commercial Advertiser publishes, from reliable sources, a detailed statement of the disasters on the lakes during the past season, from which it appears that they involved the loss of thousands and ninety-five lives, and \$358,926. Ten steamboats, twenty-one sail crafts, and seven propellers have gone out of existence. Of the lives lost, 250 resulted from the burning of the steamer *Griffith*, 65 from the explosion of the *Anthony Wayne*, and 39 from the collision of the steamer *Commerce*.

Atlantic and St. Lawrence Railroad.—The stockholders have had an informal meeting at Portland to consider a proposition of the Directors to issue bonds to the amount of \$725,000, so that the road may be opened through to Montreal in July, 1852, or in season for the fall freights of that year. The discussion turned upon the question of issuing the bonds at par, or at a small discount. Many gentlemen expressed the opinion that the whole money could be readily raised, and Mr. John M. Wood offered to lead off the subscription with \$25,000 on his part. The meeting was not a regular one and we do not perceive that any positive vote was passed, but the Portland Advertiser states that a large number was present, and that the entire opinion was in favour of the success of the project.

Quebec Jan. 3. The Hon. Mr. Merritt has resigned his office of Chief Commissioner of Public Works because, according to the *Globe*, his financial schemes could not be possibly harmonised with the avowed policy of the government. What is that? What is the avowed policy of the government? We regret Mr. Merritt's retirement having fancied that some of his financial schemes would have turned out to the public advantage, although they might cost a few thousand dollars more than the estimate. [Chronicle.]

Reduction in the Army.—We understand, says the Montreal Herald, that the following changes are to be made in the Military establishment of the Province.—Colonel Pritchard, Capt. Claremont, and the Earl of Errol leave the Staff; Mr. Commissioner Elliott, at present one of the principal officers of H. M. Ordnance, is to leave this city for England; and there are to be reductions of one Clerk in the office of the Military Secretary, and of two in that of the Master General. Hereafter there will be but three commandants instead of four, allowed for the Province. We believe that Mr. Elliott is appointed to the English Commission on reduction in the expenses of the Army.

NOVA SCOTIA.—His Excellency the Lieutenant Governor, by the advice of Her Majesty's Executive Council, has accepted the resignation of the Honorable Herbert Huntington of the Office of Financial Secretary, and the other Officers held by him, together with his seat at the Council Board, and His Excellency, with the consent of the said Office of Financial Secretary, and to appoint the Honorable Hugh Bell as the Commissioner to discharge the duties of that Office, until some other arrangement shall be made.

ANNEXATION.—An exchange paper says

that there are 4000 Nova Scotians in Boston, and 200,000 Canadians in the United States. Can any person inform us how many New Brunswickers are now residing in the neighboring Republic? There must be a goodly number there. We are rapidly annexing ourselves by emigration. [Gleaner.]

Charlotte County Agricultural Society.

The 31st annual meeting of the Society took place in the Town Hall, on Tuesday last, and a larger and more interesting meeting we were never at. The Farmers and people generally evinced the greatest interest in its proceedings, and welfare. Several useful topics connected with agriculture were discussed and Committees appointed to report on them at the next quarterly meeting.

Among them a suggestion from L. Donaldson Esq. that the Society offer a premium to any Farmer who would build the best Barn of stone and earth, and keep eight head of cattle with proper sheds for receiving and making manure. Several members spoke upon the subject, some contending that double boarding and finishing the barn inside properly would answer the purpose of keeping the cattle warm. Capt. J. J. Robinson suggested that a proper medal for the Society be cast, and given as a premium, instead of money. Committees were appointed to revise the Rules and Regulations of the Society—also for model orchards, manure sheds, roots, fowls, bees, and fat cattle—likewise on models of improved agricultural implements.

We regret that want of space obliges us to omit the interesting remarks of the Hon. James Brown, L. Donaldson, J. Wilson, Jos. Walton, Jas. Stevenson, Esqrs., Capt. Robinson and several other gentlemen. The Reports were read and ordered to be published, together with the Committee's reports on the Grain and Domestic manufactures. The election was preceded with, when the former Officers were re-elected, with a small change, in the Directors. In our next we will give the weight of the Grain, which beats all New Brunswick!

At six o'clock a large number of the members and guests sat down to dinner at Driscoll's Hotel. Hon. Col. Hatch presided, ably assisted by Col. D. Mowat & Joseph Walton Esqrs., Vice Presidents. The usual loyal and patriotic toasts were given and drank with that loyalty and good feeling which invariably distinguish the entertainments of this Society. In truth there was a hearty determination on the part of those present, to persevere in promoting the objects connected with the prosperity of the County.

The company were addressed by the Hon. H. Hatch, Hon. James Brown, L. Donaldson, Esq., John Wilson, Esq., Capt. Robinson, Geo. D. Street, Esq., Lieut. Hyrcen, and other gentlemen, on many topics of interest. In our next number we will give a list of the toasts, &c. Several good songs were sung, and the company separated at eleven, highly pleased with the entertainment.

MUNICIPAL CORPORATIONS.—On our first page we have published a Communication on this subject from a Correspondent at St. George, to which we invite attention. It is one of those topics of interest, brought before the Legislature in 1842, by Sir Wm. Colebrooke, in his first address to that body, and which we regret to say only received sufficient notice to elicit a discussion, which proved that the Members generally did not understand it, or that they were resolved to give it no go-by. The time has arrived however, when the people will, and must select their own County officers, and in fact manage their own affairs. They, surely, are the best judges of qualifications of parties who seek offices. But we must conclude for the present, as we intend referring to this subject in future Numbers, and give the fol-

lowing extract from the *Carleton Sentinel*, which shows that the Act passed in 1850 by the Legislature for the election of Parish officers, will not answer—no, nothing less than Municipal Corporations in full, will satisfy the people!

"A Public Meeting for the purpose of electing Parish Officers for the ensuing year, was held in the Hall of the Institute on Tuesday last. All that we can say in favour of the meeting is, that it was a new thing, and very good men were selected to fill the different offices. This may be thought by some to be quite enough; we think otherwise however, as we like to see at such meetings both system and order, neither of which were to be seen here. Many voted who were not by law entitled to do so, and several attempts were made to enforce the gag-law, but the good sense of the majority finally prevailed, and order was in a measure restored."

FISHERIES OF NEW-BRUNSWICK.—No. 1, is the title of an article which we received this week from our respectable friend, "A Grand Manx Fisherman." Owing to its length, and the necessity of writing out a clean copy to place in the hands of the Compositor, it cannot appear in our present issue, but will be published in our next Number. The writer has our thanks for the pains he has taken to obtain and embody the important information on the Fisheries, for our journal.

THE WEATHER for the last few days has been very mild—indeed we have had something like a January thaw, so much required after the excessively cold weather for the last three weeks.

The Fredericton Committee for the relief of the sufferers by the late fire, gratefully acknowledge the following contributions:— Benjamin Smith, Esq., St. John, £12 10 0. An additional sum forwarded from St. Stephen by Mr. David Upton, of which £1 12s 6d was collected in the Parish Church of St. David, 3 12 1.

From the New Brunswick. THE GOVERNMENT GONE!—In our last and previous numbers, we prepared the public for a crisis in the present Government, which will eventually in the political death of the members of the present Cabinet. It is now reported and generally believed that the Hon. Mr. Hazen has also tendered his seat in Executive Council. The Government may therefore be considered as fairly smashed! What the next dodge will be, it is difficult to determine, but we shall endeavour to keep our readers advised of every move which may be made on the political chess-board.

A correspondent writing from Fredericton, under date of Thursday evening, says:—"Commotion still reigns in the Council. It is stated that Messrs. Hazen and Chandler have resigned, and that others contemplate doing so. The Government is tottering to its fall. Mr. J. A. Street, it is supposed, will be the new Attorney General. On Thursday, His Excellency and the Executive Council were occupied with an appeal from the Supreme Court, in an important cause, viz; Raymond vs. Wilnot. After hearing counsel, the judgment given for the plaintiff was affirmed with costs. J. A. Street and A. Mackenzie, Esquires, for the plaintiff, and D. S. Kerr and W. & G. Ritchie, Esquires, for the defendant.

"There is also great excitement about who shall have the seat in the House, vacated by Mr. Wilnot; four or five candidates are already in the field; but the most popular one appears to be Asa Coy, Esq., and I doubt not you will be glad to hear of his election. If he is a good Liberal and a very intelligent man. The people of York are opposed to sending any more lawyers at present to the Assembly, and I cannot but concur in this opinion. I shall endeavour to keep you well posted up in everything which transpires."

LATEST FROM FREDERICTON.—We received a telegraph despatch last evening from our Agent at Fredericton, announcing the appointment of J. A. Street, Esq., as Attorney General. Notwithstanding the rumours about relative to a number of resignations, the only member of the Government who has yet thrown up his seat in the Council is Mr. Fisher, who intends to stand for the vacancy in York County, caused by the elevation of Mr. Wilnot.

We understand that a man who witnessed the late tragedy at Montgomery's is now in Jail here, in consequence of his inability to furnish bail for his appearance at the next Circuit Court. This may be a very necessary proceeding and perfectly correct, but it is a hard case nevertheless, and is another strong reason why a Special Court should be appointed for this County at an early day. If it be right or necessary to imprison a witness under such circumstances, it is surely no more than right to make that imprisonment as short as possible. Independent of the extra expense it will be to the County to keep him in confinement until next September, it will be an act of great injustice to the man himself, and calls loudly for the interference of the Executive.—*Woodstock Sentinel*.

CANADIAN LEGISLATURE.—The Legislature of Canada is summoned to meet for the despatch of business on the 5th day of February.

WOLF KILLED.—We understand that Mr. Robert Tweedie, living at the Williamsstown settlement, on the South West branch of this River, shot a wolf on his premises, one night last week. Mr. Tweedie heard an unusual noise among the sheep in the barn. He took out his gun, and proceeding to the building discovered an animal which he at first mistook for a dog, worrying one of the sheep; he fired and killed it. It proved to be a Wolf. [Gleaner Jan. 6.]

FIRE.—The dwelling house owned and occupied by *George Rogers*, pilot, situate about half a mile from Chatham, was totally consumed by fire about three o'clock, on New Year's morning. The cause of the fire is not known, but it is supposed to have originated from a spark escaping from the cooking stove. The inmates had barely time to make their escape, and consequently saved nothing. [lb.]

Any Bilious Complaints, Indigestion, Flatulency, or Affections of the Liver, cured by *Holloway's Pills*.—Symptoms indicative of these disorders are a feeling of nausea, distension and spasmodic pain in the stomach, sense of oppression and sinking after eating, want of appetite, heaviness, languor, derangement of spirits, and general debility. *Holloway's Pills* possess such cleansing and renovating properties that, by their means, the action of the liver is speedily corrected, the redundancy of bile carried off, the stomach strengthened, the spirits revived, and the patient by their means is thus restored to perfect health even where every other treatment had failed.

Chancery Sale.

To be Sold, on Wednesday the Twenty-third day of April next, at the hour of one o'clock in the afternoon, with the approval of the undersigned, one of the Masters of the Court of Chancery in this Province of New Brunswick, at the Court House in the town of Saint Andrews, in the County of Charlotte, pursuant to a Decreeal Order made in the said Court on the fifth day of November now last past, in a cause depending in the said Court between the President, Directors and Company of the Frontier Bank of Eastport, Complainants, and George McKenzie, James W. CURES FOR THE UNCURED.

Holloway's Ointment.

AN EXTRAORDINARY CURE
OF SCROFULA OR KING'S EVIL.

Extract of a Letter from Mr. J. H. Alliday, 200,
High Street, Chesham dated the
22nd of January, 1850.

To Professor HOLLOWAY.

SIR—My eldest son, when about three
years of age, was afflicted with a Glan-
dular swelling in the neck, which after a short time
broke out into an Ulcer. An eminent medical
man pronounced it as a very bad case of Scro-
fulin, and prescribed for a considerable time
without effect. The disease then for four
years went on gradually increasing in viru-
lence, when besides the ulcer in the neck, and
the formed below the left knee, and a third
under the eye, besides seven others on the
left arm with a tumour between the eyes,
which was expected to break. During the
whole of the time my suffering boy had received
the constant advice of the most celebrated
medical Gentlemen at Chesham, besides
being for several months at the General Hos-
pital, where one of the surgeons said that he
would amputate the left arm, but that the
blood was so impure, that if that limb were
taken off it would be then even impossible to
subdue the disease. In this desperate state I
determined to give your Pills and Ointment
a trial, and after two months perseverance in
their use, the tumour gradually began to
disappear, and the discharge from all the ul-
cers perceptibly decreased, and at the expira-
tion of eight months they were perfectly healed
and the boy thoroughly restored to the bless-
ings of health, to the astonishment of a large
circle of acquaintances, who could testify to
the truth of this miraculous cure. Three
years have now elapsed without any recur-
rence of the malady, and this boy is now as
healthy as heart can wish. Under these cir-
cumstances I consider that I should be truly
ungrateful were I not to make you acquainted
with this wonderful cure, effected by your
medicines after every other means had failed.

(Signed) J. H. ALLIDAY.
CURE OF ACUTE RHEUMATISM OF FOUR
YEARS' STANDING.

Extract of a Letter from Mr. John Pitt, Dudley,
13th Jan. 1850.

To Professor HOLLOWAY.

SIR—It is with the greatest pleasure that
I write to thank you for the benefit I have
received from your Pills and Ointment, which
have completely cured me of the Rheumatism,
under which I suffered for this last four years,
at times I was so bad as hardly to be able to
walk, I had tried every kind of Medicine that
was recommended without receiving any bene-
fit. I at last thought I could give your medi-
cines a trial, and purchased from Mr. Hollin,
Chemist, of this Town, two Boxes of Pills,
and two of Ointment, and in three weeks,
through them and the blessing of God, I was
restored to health and am now as well able to
walk as ever I was in my life. I am well &c.
I am in this parish, having been sixty-five years
in it, with an exception of ten years I served
in the 24th Regiment of Foot.

(Signed) JOHN PITT.
CURE OF A BAD LEG OF SIXTY
YEARS' STANDING.

Mr. Barker, of No. 5, Graham's Place, Drypool
near Hull, had ulcers on his leg from the age of
eighteen until upwards of eighty, and although
for many years he had sought the first advice, in
the country, he was found to cure them. He
very often suffered most excruciating pain for
long periods together, which incapacitated him
from attending to his business. He had given up
all hopes of getting well, and was about to re-
turn to his native land, when he was per-
suaded to try Holloway's Pills and Ointment,
which he did, and he was so much benefited
that he was able to go to his work, and he is
now as well as he can be, and he is more active
than most men of fifty.

N. B.—The truth of this extraordinary state-
ment can be verified by Mr. J. C. Reinhardt,
22 Market Place Hull, February 21st, 1850.

CURE OF A DESPERATE CASE OF RING-
WORK OF SIX YEARS' STANDING.

—Lima, 13th of November, 1849.

One of the most eminent Surgeons in Lima (the
Capital of Peru) had a child covered with Ring-
work for more than 6 years; in vain he exhausted
all his art in his endeavours to effect a cure. Not
succeeding, he consulted among his brethren, the
best and most medical practitioners of the City,
but nothing was found to do the child service.
When he was persuaded by Mr. Joseph P. Hagne
the English Chemist and Druggist, residing at No.
74, Calle de Paezco, to try Holloway's Pills and
Ointment, which was done, and after using six
large Pots of the Ointment, with a proportion
of the Pills, the child was radically cured, to the
surprise of the whole medical profession. The
same of the parent, from motives of delicacy, in
withheld.

The Pills should be used conjointly with the
Ointment in most of the following cases:—
Bad Legs, Bad Breasts, Burns, Bunions,
Bile of Mucous, and Sand Flies, Itchiness
Coco-Bay, Gout, Glanular Swellings, Lambo-
Piles, Rheumatism, Scalds, Sore nipples,
Chico-foot, Chilblains, Chapped hands,
Corns (soft), Cancers, Connected & Stiff-joints,
Elephantiasis, Sore throats, Skin diseases,
Scurs, Sore heads, Tumours, Ulcers, wounds,
Yaws.

Sold by the Proprietor, 244, Strand, (near Tem-
ple Bar) London, and by all respectable Vendors
of Patent Medicines, and by all the principal
Wholesale and Retail Druggists, and by all the
World, in Pots and Boxes, at 1s. 1-2d. 4s. 6d.
11s. 2s. 6d. each. There is a very consid-
erable saving in taking the larger sizes.

NOTE.—Directions for the guidance of Patients are
affixed to each Pot or Box.

ODELL & TURNER, St. Andrews.

CAUTION!—None are Genuine unless
the words "Holloway's Pills and Ointment,"
London, are engraved on the Government
Stamp, pasted on every Pot and Box; with
the same words woven in the water-mark of
the Boxes of directions wrapped round the
medicines.

Should unprincipled Vendors recommend
parties asking for Holloway's Pills and
Ointment not to buy them, but to take
something else in their stead, they do so
only for the purpose of getting a greater
profit by what they wish them to purchase.

GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE TO
Scientific and Practical Agriculture.

By HENRY STEPHENS, F.R.S.E.,
Author of the "Book of the Farm," Editor
of the "Quarterly Journal of Agriculture,"
&c. &c.

Assisted by
JOHN P. NORTON, A. M.,
Professor of Scientific Agriculture in Yale
College, New Haven, Author of Agricultural
Prize Essays, &c. &c.

This highly valuable work will comprise two
large royal octavo volumes, containing over
1400 pages, 18 or 20 splendid engraving, and
more than 600 engravings on
wood, in the highest style of the art, illustrat-
ing almost every implement of husbandry
now in use by the best farmers, the best meth-
ods of ploughing, planting, haying, mow-
ing, &c. &c., the various domestic animals
in their highest perfection; in short, the pecu-
liar feature of the book is unique, and will
render it of incalculable value to the student
of agriculture.

This great work is the joint production of
two of the most talented agricultural scholars
of the day; the one eminent as an author, and
editor in Great Britain, and the other as a
Professor in Yale College. Both are emi-
nently practical as well as scientific men, and
all they say may be relied on as the result of
profound research, tested and sustained by
practical experiment. The contributions of
Professor Norton are chiefly designed to adapt
the British portion of the book to this country,
and thus make it an Anglo American work,
giving to its readers all the really useful agri-
cultural knowledge at present attainable in
either country.

The work is divided into four departments,
distinguished by the four seasons of the year
commencing with Winter, and Prof. Nor-
ton's notes will be published as an appendix
to each part. The first chapter treats of the
following subjects, under the head of
HYDRAULIC.

On the best of the existing Methods for ac-
quiring a thorough knowledge of Practical
Husbandry.

On the Difficulties to be encountered in
learning Practical Husbandry, and on the
Means of overcoming them.

On the Different kinds of Farming.

On the Persons required to Conduct and
Execute the Labor of the Farm.

On the Branches of Science most applica-
ble to Agriculture.

On the Institutions of Education best
suited to Agricultural Science.

On the evils attending the neglect of
Landowners and others to learn practical
Agriculture.

On observing the details and recording the
facts of Farming by the Agricultural Student.

Terms of the Work.—The American edi-
tion, the first number of which is already is-
sued, will be published in semi-monthlies of
64 pages with an English steel engraving in
each number, of which there will be about
22 in all. PRICE, 25 CENTS PER NUMBER.

CLUBBING.
Three Copies will be sent to one address
for \$15: 5 copies for \$18. Cash in all cases
to be remitted direct to the Publishers, and

House of Assembly, 8th March, 1848.

Resolved, That no Bill of a private na-
ture, or Petition for money or relief, shall
be received by the House after the four-
teenth day from the opening of the Session,
both inclusive; and that the Clerk of this
House do, one month previous to the meet-
ing of the Legislature, cause fifty printed
copies of this Rule to be sent to each of
the Clerks of the Peace in the several
Counties for distribution, and the same to
be inserted in the Royal Gazette, and two
Newspapers in each County where
Newspapers are published.

CHAS. P. WETMORE, Clerk.

House of Assembly, 7th April, 1849.

Whereas the number of applications for
Grants of Money have been from year to
year increasing; and whereas it is desir-
able that such information should be fur-
nished as would enable this House to arrive
at just and equitable conclusions; therefore
Resolved, That this House will in future
sustain no application for allowances to
Teachers of Common or Parish Schools,
unless it shall be certified by at least two
Trustees of Schools for the Parish where
such School has been taught, showing the
time actually taught—the Teacher to be
licensed—the cause why such Teacher was
not certified to the Sessions in the ordinary
way—and that such Teacher was not com-
pelled to discontinue his or her School on
account of any improper conduct.

HEALTH where 'tis SOUGHT!

Holloway's Pills.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

Extract of a Letter from Mr. Matthew Harvey, of Chapel Hill, North Carolina, dated the 15th of January, 1850.

Sir—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent doctors, who after doing what they could for me, stated that they considered my case a hopeless one. I thought to try the Pills, and by preserving in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and right side, I have by their means, got completely cured, and am now the proprietor of myself and every body who knows me.

(Signed) MATTHEW HARVEY, CURE OF A CASE OF WEAKNESS AND DEBILITY, OR FOUR YEARS' STANDING.

Extract of a Letter from Mr. Smith, of No. 5, Little Thomas Street, Dublin Street, Lambeth, dated Dec. 12th, 1849.

To Professor Holloway, Sir—I beg to inform you that for nearly five years I have known what it was to have a daily health suffering from extreme weakness and debility, with constant nervous headaches, palpitations, and sickness of the stomach together with a great depression of spirits, I used to think that nothing could benefit me. I had been to many medical men, some of whom after doing all that was in their power, pronounced me incurable. I was then told of your Pills, and I resolved to give them a trial, and to my great surprise, I found myself better by taking them, and I went on increasing in their use for six months, when I am happy to say they effected a perfect cure.

(Signed) WILLIAM SMITH, (formerly called EDWARD) CURE OF ASTHMA, OR TWENTY YEARS' STANDING.

Extract of a Letter from Mr. J. K. Hopley 78 King Street, Sydney, dated 10th of November 1849.

To Professor Holloway, Sir—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One of these is a Lady residing near the "Razorback," who after having for twenty years been unable to do the slightest exertion, suffering very severely from shortness of breath, coughing, and spitting, but is now, to use her own expression, able to run up to the top of the mountain. Another case is that of Mr. Eaton, Fairview, Hants, a Building, Cleaver, Farmer, who was so dreadfully bad that he was confined entirely to his bed-room for six months, prior to his commencing with your Pills, and attended regularly by his medical man, who pronounced him to be in a dying state, yet he, likewise, to my knowledge, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest.

(Signed) GEORGE HEYDON, ANTONISHING CURE OF THE EARL OF ALDBOROUGH.

By this Marvellous Medicine after every other means had failed.

A Copy of a Letter from the Earl of Aldborough dated Villa Maiana, Leghorn, 21st Feb. 1845.

To Professor Holloway, Sir—Various circumstances prevented the possibility of my thanking you for the cure of my Asthma, which you effected by your Pills, and your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and at the same time, to state that your Pills have effected a cure of my Asthma, and I am now in the best of health, and all over the Continent had not been able to effect it, may I not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of Ointment in case any of my family should ever require either.

I remain, with much respect, Your most obliged and obedient servant.

(Signed) ALDOROUGH, TIME should not be lost in taking this Remedy for any of the following diseases: Ague, Consumption, Fits, Rheumatism, Tumors, Asthma, Debility, Gout, Retention of Urine, Uterine, Bilious Complaints, Dropsy, Head-aches, Sore Throats, Venereal Affections, Blotches on the skin, Dysentery, Indigestion, Scrophulous, or King's Evil, Worms of all kinds, Erysipelas, Inflammation, Neuralgic Complaints, Fever, Frequent Urine, Jaundice, Stone and Gravel, Colic, Liver Complaints, Secondary Symptoms, Weakness from whatever cause, Lumbago, Constipation of Bowels, Fevers of all kinds, Piles, The Dolorous, &c. &c.

These Medicines in England are sold at 1s. 12d. 2s. 9d. 4s. 6d. 11s. 2s. and 3s. each Box and Pot. There is a considerable saving by taking the large sizes.

Sold by all Vendors of Medicines throughout New Brunswick, and by A. H. Thompson, St. Stephen, Billings & Dyer, Eastport, and

ODELL & TURNER, St. Andrews. Wholesale Agents for Charlotte County. CAUTION!—None are Genuine unless the words "Holloway's Pills and Ointment, London," are engraved on the Government Stamp, pasted on every Pot and Box; with the same words woven in the water-mark of the Books of directions wrapped round the medicines.

Should unprincipled Vendors recommend parties asking for Holloway's Pills and Ointment not to buy them, but to take something else in their stead, they do so only for the purpose of getting a greater profit by what they wish them to purchase.
