# Carpet Sale White Wear Sale

Carpets and Whitewear are two items of special interest in this month's selling.

Our Display of Ladies White Wear is admitted by all the ladies who have seen it to be the "best yet", both in regard to styles and values. We feel justly gratified at the success of our opening because we have never given quite so much time and trouble in the collection of our display and have never taken so much pains to secure the very best values in the trade.

Tsinkhetchen, Manchuria, Feb. 6.

—A reconnoissance in force was undertaken Feb. 1 by the Russian advanced posts towards Dziantchan, 14 miles southeast of Tsinkehtchen. The troops started at early morning and by noon drove in the Japanese outposts to Santziache, then moving round Vantzee Pass, the Russians fanked the position of the Japanese east and compelled the Japanese to fall back to Chapten Pass. The Russians stormed and occupied a portion of Vantzee Pass at 10.30 p.m., but the Japanese being reinforced by 6,000 men, the position of the Russians was untenable. Having carried out the mission of feeling the enemy's strength, the Russians then withdrew, fighting, capturing a few Japanese. The Russian loss was nine wounded.

At the conclusion of these speeches an illuminated address was presented to Edward Kidd, ex.M.P., on behalf of the Conservatives of Carleton County, With the address Mr. Kidd got a heautiful diamond and opal pin, which marks of esteam he acknowledged in feeling terms.

The proceedings were marked with great enthusiasm.

Mr. Borden's Speech

B. L. Borden received a most cor-dial welcome. He said he was proud to have the County of Carleton as his constituency. His defeat in Hall-fax he attributed partly to the time ale, as the attributed partly to the time that he was necessarily absent from that he was necessarily absent from the time to the other Provinces and he had nothing to regret in this respect. Referring to the defeat in Halifax and Nova Scotia, Mr. Borden said he was bound to speak the bousting of the half are and the Conservative votes had been polled in the last election, and the Conservative party to-day in Nova Scotia were stong the population of the province of the Conservative party in Nova Scotia were not happy in the last election. Thanked Mr. Kidd.

Mr. Borden warmly thanked Mr. Kidd for surrendering his seat. He referred to his acceptance of the leadership of the Conservative party, which, he said, was not altogether in his own personal interest. He had accepted, with some reluctance, be lieving that it was his duty to do so.

lieving that it was his duty to do so.

Mr. Borden thanked his opponents for not bringing on a contest in Carleton. "Not that we would not have done our best to pull through," said Mr. Borden, to the great amusement of the sudience. "But, nevertheless, I appreciate the courtesy from the bettom of my heart."

Mr. Borden called for a more rigid enforcement of the election law and punishment of offenders. He demanded, also, such protection to our agricultural interests as would enable them to have the full benefit of the best markets. Another principle Mr. Borden strongly supported was mutual preferential trade within the Empire.

Mr. Borden was loudly applauded as he referred to the result of the general elections in Ontario. He congratulated Mr. Whitney and the Province of Ontario on the great victory. In conclusion, Mr. Borden spoke of the necessity of a strong Opposition. The present Opposition at Ottawa, he said, would do its duty, not opposing the Government at all times, but criticizing every measure according to its merits. The interests of the country were above party considerations.

The meeting closed with cheers for Mr. Borden.

ADVERTISE IN THE PLANET

#### The Planet.

Business Office ..... ... ... 53 Editorial Room 8. STEPHENSON - Proprietor. MONDAY, FEBRUARY 6, 1905.

THAT MARKET BUILDING.

So much has been said and written pro and con, on the new market building enterprise that the public is oming puzzled with the multiplicity of proposals, and there is a very general dissatisfaction at the manner in which the whole enterprise is being handled.

So far, The Planet has said nothing concerning the matter, except in its news columns, but this journal believes that the Council should very carefully and honestly look into all of the proposals, use the best judgment in passing upon them and proceed with the work.

The whole question in the minds of the members of our Council should be: What building will best serve the city's interests and will result in the minimum expenditure and maximum revenue?

Let the aldermen simply solve that problem justly and honestly and then proceed. Thus-and thus only-will they do justice to themselves and those they represent.

The proposal in the letter of

Messrs. Wilson & Son, which appeared in Saturday's issue, to appoint experts and practical men engaged in the building trade to go over the plans, estimates and proposals with the Council, will meet with public favor. There has been manifest dissatisfaction with the procedure heretofore adopted, and the differences of opinion have occasioned much unfavorable discussion.

To thus secure experts, to obtain their decision and to abide by it, will surely solve the problem in the only proper way. It is a plan that is fair to all parties and one that will give Matisfaction and the best results to the people who foot the bills.

#### THE LIQUOR VOTE.

The claim that the result of the late election was largely due to the liquor vote is worth investigating. If true it would simply mean that one of the props on which the Government depended, was the liquor traffic, for it is clear that if the Government had not depended on such a prop the Government could not suffer from its withdrawal. The contention, therefore, whether true or otherwise, is practically an admission that while the Government was posing as the original and only genuine friend of temperance, it was depending for its existence in a large measure on the liquor traffic. It may be taken for granted that the liquor support was not given for nothing. There may the a good deal of liquor in politics, but there is very little politics in the liquor business. There, business is business, and politics is business; and if the liquor interests supported the Government it was, presumably, for cause. But what evidence is there that the liquor vote was transferred to Mr. Whitney? The Wine and Spirit Gazette, the organ of the liquor traffic, assured its readers in the last issue before the election that the interests of the traffic were equally safe in the hands of either political party for the next parliamentary term, and that the liquor people were free to vote as they wished. No doubt many men in the liquor business foresaw the result of the election, just as many others foresaw it, and made haste to get on the safe side: but that there was a general movement of the liquor forees in support of Mr. Whitney, or that there was any special reason for such a movement, other than the prospects of a Whitney victory, is open to dispute.

child-like confidence in their "Little Father" they marched to the palace and were shot down in heaps by the soldiers of the Czar. Like bad children who needed chastisement they got it.

On Tuesday last the Czar sent for a deputation of these workingmen to come to the palec at Tsarko-Selo. They immediately responded, were mildly scolded and told they had been bad, and must not do it any more. Then they were allowed to enjoy their Little Father's hosp tality, were served with a good dinner and went away cheering for the Czar. Perhaps the deputation was handpicked and the whole affair arranged for effect on the outside world, If that was the case it was an artistic effort for it demonstrated to the world that the Russian workingman at least, appears to fack the attri-butes of manhood and self-respect that characterize the liberty-loving peoples of other nations. One day themselves, their women and children ire being shot down like animals in the streets by order of the Czar. The next they are accepting his chiding, eating his bread and salt and cheering for the autocrat who trampled them under foot.

If that deputation is representative of the Russian masses, then Russian liberty is a long way off.-Ottawa Citizen.

A CURE FOR ALL.

Not a Patent Cure-All, Nor a Modern Miracle, But Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspepsis and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no farther than this, and any man or woman suffering from indigestion, chronic or nervous dyspepsia, who will give the remedy a trial will find that nothing is claimed for it that the facts will not fully sustain. It is a modern discovery, composed of harmiess vegetable ingredients acceptable to the weakest or most delicate stomach. Its great success in curing stomach troubles is due to the fact that the medicinal properties are such that it will digest whatever wholesome food is taken into the stomach, is in good working order or not. KEEP UP YOUR ENERGY.

Stand Erect and Walk as Though You Were Somebody.

Never allow your physical standard to drop. Keep up your energy. Walk as if you were somebody and were go-ing to do something worth while in the world, so that even a stranger will note your bearing and mark your superior-ity. If you have fallen into a habit of walking in a listless, indelent way, turn right about face at once and make waixing in a listless, inacient way, turn right about face at once and make a change. You don't want to shuffle along like the failures we often see sitting around on park benches or loiling about the streets, with their hands in their pockets, or haunting intelligence offices and wondering why fate has been so hard with them. You don't want to give people the impression that you are discouraged or that you are already failing to the rear. Straighten up, then! Stand erect! Be a man! You are a child of the Infinite King. You have royal blood in your veins. Emphasize it by your bearing. A man who is conscious of his kinship with God and of his power and who believes thoroughly in himself walks with a firm, vigorous step, with his head erect, arm, vigorous step, with his head erect, his chin in, his shoulders thrown back and down, and his chest well projected in order to give a large lung capacity. He is the man who does things. You cannot aspire or accomplish great

or noble things so long as you assume the attitude and bearing of a coward or weaking. If you would be noble and do noble things you must look up You were made to look upward and to walk upright, not to look down or to shamile along its control of the state of t in a ser fhorizontal nosttion. Put character, dignity, nobility, into your walk.—Success.

ILLUSTRATE YOUR BOOKS.

How to Add to Interest and Value of Your Library. You are all aware that there are

coming from the presses all the time excellent pictures relating to everything under the sun and especially to the scenes and characters of well known books. The suggestions we would make is that you preserve such of these as may come in your way and then use them to illustrate your own books. It will be easy, for instance, to secure pertraits of the authors in whom you delight, and it often is not at all hard to find pictures of noted places referred to in the text of the book. Do not be in too great a hurry about pasting in what you find. It is wiser to keep an envelope—large enough to hold the pictures without bending them—and collect whatever comes rightfully to hand and is thought fit for the purpose. After you have a fair amount of material you can sort out the best and prepare it for the book. Some grownup people who give would make is that you preserve such out the best and prepare it for the book. Some grownup people who give a great deal of time, thought and money to this "extra illustrating," as it is called, are very finical about the work and have the pictures so prepared as to seem made for the volume. But this would not be worth your trouble. It is to be hoped that you all have something better worth your time and something better worth your time and effort. It will be best for you to mount your pictures on thin paper cut to the size of the book, and then fix these in their places with just a touch of pasts.—St. Nicholas.

Trees That Whistle. The musical or whistling tree is found in the West Indian islands, in Nubis and the Sudan. It has a pecullar shaped leaf and pods with a split or open edge. The wind passing through these sends out the sound which gives the tree its peculiar name. In Barbados there is a valley filled with these trees, and when the trade winds blow across the islands a constant meaning deep forced which is stant moaning, deep foned whistie is heard from it, which in the still hours of the night has a weird and unpleasof the night has a weird and unpleasant effect. A species of acacia which grows very abundantly in the Sudan is also called the whistling tree by the natives. Its shoots are frequently by the agency of the larvae of insects distorted in shape and swollen to a globular bladder from one to two inches in diameter. After the insect has merged from a circular hole in the side of this swelling, the opening, played upon by the wind, becomes a musical instrument equal in sound to a sweet toned flute.

The Feg Waron.

Did you ever hear of a wagon that could make fog? There is such a wagon, and it is used in California. Great fruit orchards there would be almost spolled by a heavy frost. So when the trees are in bloom and there is danger of a frost the fog wagon is driven through the orchards. The fog machine is a big wagon with a grate in the bottom, where tar is kept burning. Above this there is a tank of wet straw and water. The heat from the burning tar passes through the straw, and a great fog rises and protects the trees from frost.

To be told you look green mough to make one feel blue.

Ottaws, Feb. 4.—The resolution conferring special favors on judges appointed to the Chairmanship of the Railway Commission was the subject of a vigorous discussion in the

In the evening, on the same resolution, W. H. Bennett, M.P. for East Simcoe, discussing the Russell-Blair-Graham conspiracy, said that it had been stated by reliable news-\$4,000,000 was formed to take over the construction of the G.T.P., and that the proposition was submitted to the Prime Minister.

that statement? asked the Fremier hotly.
Chaos broke over the House. Half a dozen Ministers tried to speak at one and the same time. Finally the Premier was heard. He said that if

Mr. Bennett had charges to make he should make them like a man.
Mr. Bennett recalled a specific instance when Sir Wilfrid declined to accept responsibility for certain charges which he made against Senter Property of the P ator Drummond.

De Not Accept Challenge.

The Prime Minister, Mr. Fitzpatrick, and Mr. Prefontaine were particularly forward 2 vin repelling the charges. They challenged Mr. Bennett to make the charges on his responsibility as a member, but further than this their courage did not

They had not at the hour of adjournment accepted the challenge which Mr. Dennett in turn laid down to the Government to grant an investigation either by a Parliamentary Committee or a Royal Commission. Out of the whole thing, howsion. Out of the whole thing, however, may come an investigation, as
it is fairly possible that the Government cannot ignore the charges which
are now on the pages of Hansard,
and for the accuracy of which leading Liberal newspapers wouch.

Mr. Logan towards the end of the
discussion made the significant statement that in due time the Opposition would get more investigation
that it wanted.

Mr. Blair's Retirement.

On the motion being put to report the resolution. Mr. Foster renewed his request for a statement from the Government as to the cause of Mr. Blair's resignation.

"Not a single member of the Government," Mr. Fitzbatrick replied, "had any knowledge of his intention to tender that resignation; and all we knew was the statement in Mr. Blair's telegram, that he had resigned. The telegram was received on signed. The telegram was received on Oct. 18, and the res gnation was ac-cepted on the 31st. We had hoped that the cases heard would have been decided, but that was not done.

"So far as the Government was concerned, the resignation came to us as a bolt from the blue."
"Well; that's an answer at any rate." Mr. Foster observed.
"Yes," said Mr. Fitzpatrick, "and perhaps I should have stated that at the outset I had it on my notes to do so, but omitted to mention it."
He added that the Prime Minister would bring down Mr. Blair's telegram.

The resolution was then reported, the bill founded upon it read a first time, and the House adjourned at 11 o'clock.

THREE RESIGNATIONS.

Gouin Weir and Turgeen Retire From Quebec Cabinet.

Quebec Cablest.

Quebec, Feb. 4.—There is nothing definite yet in the Provincial Cabinet crisis, but it is stated that the resignations of 'Hon. Messrs. Gouin, Weir and Turgeon will be in the hands of Prime Minister Parent before the next Cabinet meeting today. It is stated that the Provincial Treasurer, Mr. McGockill, will follow. Mr. Alexander Taschereau is spoken of as a future member of the Cabinet. Hon. Mr. Parent, who was to start for South America in the interest of his health, has cancelled the trip.

Mr. Bordenl n Ottawa

Ottawa, Feb. 4.—R. L. Borden arrived at noon yesterday from Halifax, and was met at the Central Station by quite a gathering of Conservative members and city admirers, who escorted him to the House of Commons. The Opposition leader was much impressed with the heartiness of his welcome. To-day at 10 o'clock Mr. Borden, accompanied by 40-odd members of the Opposition, will take a special train to Stitts-ville, on the C.P.B., and drive from that station to Richmond, where Mr. Borden will be nominated.

### MILLIONS FOR A NEW STOMACH

One of the greatest American millionaires once said to his physician, "A million dollars, Doctor, for a new stomach," and then the sick man groaned and turned away. One of a man's greatest pleasures is that born of a keen appetite, vigorous digestion and a good dinner, and this belongs to many a good fellow who is living on small wages, but the rich man without a stomach has to forego the good things of the table because his stomach rebels. Without a healthy stomach and a good digestion, our blood is thin, watery and poor, our heart action is weak, our liver does not do its duty, and man is miserable and unhappy. In this condition man is prey to the germs of influenza, consumption, malaria and all the ills that he is heir to. Consumption can be treated by natural methods which are as close to nature as possible.

Dr. R. V. Pisrce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., years ago understood this disease, and after a long period of experiment discovered certain roots and herbs which were nature's remedies, and succeeded in putting them up in a form that would be easily procured and ready to use. This he called Dr. Pierce's Golden Medical Discovery. It gives no false stimulation because it contains no alcohol and no narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood. Instead of a cod liver sil, against which the already sensitive stomach wild declare open rebelion, this tonic has a pacifying action upon the sensitive stomach and gives to the blood the food elements the tissues require. It maintains the patient's nutrition by enabling him to eat, retain, digest and assimilate sutritious food. It overcomes gastric irritability and symptoms of indigestion, and in this way fever, night's sweats, headaches, etc., are done away with. It fortifies the body against the germs of consumption, grip and malaria, and it builds up the tissues and puts on healthy flesh.

A Nerve Tyying Ordent.

Some years ago the students at the Japanese Naval academy were accus-tomed to attend an annual banquet They sat at a circular table around a slowly revolving cannon loaded with a ball and trained to the level of their heads. The trigger was so arranged that it could be touched from a hidden source outside of the banquet hall. That at some time during the banquet the cannon would be fired every one at the table knew, but just when or in what direction it would be pointing was a mystery.

Of course there was a possibility that the ball might crash harmlessly between the heads of two banqueters. but it was equally probably that it might carry off the head of some student. Yet no one flinched. The chances were equal to all.

The picturesque object of destruction revolving during the jovial hours of the banquet, pointing from student to student and ready at a given moment to blow any one of them to pieces, was considered in Japan admirable training to steady the nerves of a fighting man.

Ancestor Worship In China.
Every Chinaman is supposed to possess three souls. One goes into the ground at burial, one into the "ancestral tablet" and one into the realm of spirits. It is partly in order to pro-vide the last with those things which are requisits to its well being that ancestor worship is kept up, departed ancestors often taking revenge on the living for any negligence on their part in the performance of the customary rites for the dead by bringing some calamity upon the household. These "rites of the dead" are performed for all over ten years of age, with the hope of delivering them from hades or of improving their condition there. They last for periods that vary according to the age and wealth of the deceased-for children and young people from seven days to a month, for a middle "The Government had no intimation up to that time?" Mr. Foster asked.

UNIFORM NEWSPAPER POSTAGE.

That Is What Canadian Press Association Will Try and Secure.

Toronto, Feb. 4.-The Canadian Press Association concluded its business yesterday morning by passing several resolutions on matters of benefit to the newspaper business. The question of postage was well direct than the pressure of the pr discussed. A new regulation issued by the Postal Department requires publishers to weigh their papers before mailing, make up the bundles for route distribution and prepay the amount due on the week's issue This brought complaints from several members, and a resolution that there should be a uniform rate on news-papers. A sub-committee will be ap-pointed to follow this up.

Mr. Whitney Likely to Be Called Upon Monday.

Toronto, Feb. 4.—"We are just about at the jumping-off place," observed Hon. A. G. Mackay at the close of yesterday's meeting of the Ontario Cabinet. But neither Mr. Mackay nor any of his colleagues were able to say just when the jump would be taken.

Another Cabinet meeting will be held this afternoon. It will be the last of the old regime and there is every reason to believe that Mr. Whitney will be summoned by Lieut. Gov. Clark on Monday. If this program is carried out he will submit the names of his colleagues to the Lieutenant-Governor on Tuesday.

MAN AND THE HORSE.

Epochs in Civilization.

The conquest of the horse by man and its final utilization for all pur poses which are discharged by steam and electricity today marked one of the great turning points in the history of civilization. In the great earth and sand preglacial deposits of Europe the true wild horse is as widespread, though not as vatied, as in America. It is not at this stage associated with the remains of man, because no preglacial mar except the pithecanthroous or trinil man of Java has been found. In the interglacial or postglacial period the remains of man and the horse are first found together. The first association occurs in the middle of the paleolithic or rough hoplement period. The discovery of all the possible uses of the horse came very gradually, however, for there is abundant proof that man first hunted and ste, then drove and finally rode the and

The prevailing drawings of the pa leolithic horse represent him as hog maned, with no forelock to conceal the low bred Roman nose. A second type in the Mouthe cave, a bearded horse with long, bristling mane, long ears and convex forehead, is regarded by M. Riviere as another species. But it is not clear to my mind that these drawings represent more than the summer and winter coats of the same animal. Besides these Roman nosed types, to which Ewart traces the mod ern cart horse, there are others with small heads and flat noses, which Ewart associates with the Celtic pony and possibly with the origin of the thoroughbred. Other cave drawings, reproduced, by M. Capitan, leave little doubt that the ass was known in Eu rope. It is also certain from abundant evidence in the caves of France that there was a larger horse toward the south perhaps, while the smaller breeds may have frequented the colder northern regions.-Century.

THE FORCE OF FEAR

Animal Conquest Marked One of the Fright Was the Cause of the Death

of Frederick I. of Prussia There are several well authenticated rases where fright was the cause of death. An English surgeon tells of a drummer in India across whose legs a harmless tizard crawled while he was half asleep. He was sure that a cobra had bitten him, and it was too much

for his nerves, and he died. Frederick I. of Prussia was killed by fear. His wife was insane, and one day she escaped from her keeper and, dabbling her clothes with blood, rushed apon her husband while he was dozing in his chair. King Frederick imagined her to be the white lady whose ghost was believed to invariably appear whenever the death of a member the royal family was to occur, and he was thrown into a fever and died in

But perhaps the most remarkable death from fear was that of the Dutch painter Pentman, who lived in the seventeenth century. One day he went in to a room full of anatomical subjects picture he intended to paint. weather was very sultry, and while sketching he fell asleep. He was aroused by bones dancing around him and the skeletons suspended from the ceiling clashing together. In a fit of horror he threw himself out of the window. Though he sustained no serious injury and was informed that a slight earthquake had caused the commotion among the ghostly surroundings, he died of nervous tremor.

THE WREN BUSH.

An Old Custom Still Observed In-Ireland at Christmas.

Among the many odd customs still observed in Ireland at Christmas few are more curious than the practice of carrying about "the wren bush" on St. Stephen's day, and antiquaries are puzzled to explain why the poor little "king of all bitds" should be put to death on the fescival of the first mar-

The most probable explanation is that the wren was sacred to the Druids and was used by them in divination and other pagan rites at the festival of the winter solstice, which almost coincided with Christmas, and consequently the clergy urged their converts to destroy the birds which were associated with such unholy rites, just as St. Patrick's relentiess destruction of the images of serpents, used in the ancient pagan worship of Ireland, gave rise to the legend that he-

Gave the snakes and toads a twist And banished them all foreve;! This seems the more likely, because "drean," the old Irish name for "wren," also means "a Druid," and old folk still call "Jenny" the "Druid bird" and say that she has the gift of prophery and that those who can interpret her twitterings as she hovers about a house or flies from bush to bush can read the future. In the library of Trinity college, Dublin, there is a curious docu-ment describing how to interpret the notes of the wren.—Maud E. Sargent in Longman's Magazine.

BOUKBINDING.

Orders for bookbinding should be left at this orrice, It is surprising how nice a volume can be made of these magazines, even though they are somewhat soiled from much handling. Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order. All work warranted first sless.

Marconi has a striking personality. Quite six feet in height, powerfully built, the young inventoh has none of that physical frailty which so often distinguishes men great is mind. Many of the published photographs make him boyishly good-looking; in reality his face is the stigma impassive one of a strong man Somewhat pallid, with clear cold eyes, and a towering white forehead, he has a touch of the dreamer as well as of the remorseless student of facts. He crosses the room with a speaks to new acquaintances reservedly, almost distantly. To the casual observer there is not a spayk of enthusiasm in the young man whose enthusiastic researches have resulted in a discovery which has made him famous all over the world. But once break beneath the surface, made him famous all over the world. But once break beneath the surface, and you will find Mr. Marconi a keen and clever talker. He has a wenderful gift of expression, with that cold eloquence that convinces rather than persuades. And yet some af our hardest-headed men have been beth convinced and persuaded after a talk with Mr. Marconi.

Crown Attorney Scores a Young Lawyer Who Had Sought to Annoy a Lady Witness.

The Crown Attorney and J. G. Kerr had a little passage at arms at the had a little passage at arms at the Police Court this morning. A young girl was accused of stealing money from the head dressmaker at the Gordon Store. The evidence was circumstantial. J. G. Kerr defended the girl and appealed for fair play, and urged that Otto Lee, a young man, a stranger in the city, had as much chance to capture the pocket-book as the prisoner. Mr. Kers, in his crossexamination of the head dressmaker, had hurt her feelings with sugges-

the prisoner. Mr. Kerr, in his cross-camination of the head dressmaker, had hurt her feelings with suggestive questions.

In reply to the defendant's lawyer's plea for fairness, the Grown Attorney said that the only time that a spirit of fairness entered into consideration of Mr. Kerr's conduct of a case was when he wanted it extended by others. The Grown Attorney had never seen a woman so brutally attacked in the witness box in his experience. And this had been done merely because he had come to court to assert her rights, and the evidence had developed that she had been paid attentions in a young man.

The Crown Attorney then continued his arraignment, fitting in the links as best he could in the chain of circumstances furnished by the evidence.

Judge Houston reserved his design ion for a week. He said that there was no doubt the money had been taken. The question was, where did

This was an appeal from an assessment put on Rochester's roads and lands by the Council of the Township of Tilbury West. After the appeal was launched it was arranged between the two counsels that the assessment should be somewhat reduced and an agreement between them was prepared and by-laws passed for its execution. The agreement was submitted to the referee for condirmation by a formal order. The request was greated without costs to either party.

Japanese Casualties 7,000-Russians Over 10,000.

Annihilated, But By Charging Turned the Tables and Practically Annihilated Fourth Russian Regiment-Japs Charge Enemy With Mutilating Their Wounded -Operations Growing Larger.

Tokio, Feb. 4.—Manchurian head-quarters, telegraphing Thursday, says that on that day the Russians resumed their activity in front of the Japanese left, and that there has been constant skirmishing along the fronts of both the opposing forces, exchanges of heavy artillery fire taking place. The Japanese again charged the Russians with mutilation of their wounded.

Fortions of the report follow:

"On Wednesday, Feb. 1, in the direction of the right, small bedies of the enemy attacked us in all directions. Our outposts repulsed them. On Thursday, Feb. 2, from 6 o'clock in the morning, Russian artillery on Tokio, Feb. 4.-Manchurian head-

Subsequently a Russian division entered the village of Chengtun and despatched a brigade to attack us. We repulsed the brigade. Our pickets, consisting of an officer and 28 ets, consisting of an olicer and 28 men, was surrounded near Huanglashatzo, Jan. 26. Our picket resisted to the last, when most of the wounded surrendered. The enemy mutilated all our wounded."

Field Marshal Oyama's Report. Field Marshal Oyama, telegraphing Thursday, reports that the extreme Japanese left holds a line along the Hun River, with its extreme left established on the right bank. The main body of the Russians, after their defeat at Heikoutai, retired across the Hun River and occupied Muyupso, Shufangtai and a portion of Changtan. On Wednesday the Russians began constructing defensive works in the neighborhood of Shu-fangtai, Chungchiawopeng and Chang-Russian cavalry patrols were

seen Wednesday along the line of Tzuyuta, Pipaetzu and Yuhpaotazu. The Russians made a series of small attacks on the right army and the left flank of the left army, but were

repulsed in each instance.

Details of the fighting from Jan.

25 to Jan. 29, which Field Marshal
Oyama officially designates as the
battle of Heikoutai, shows that the operations were more extensive, the forces engaged larger and the fighting more desperate than the first reports indicated. The Japanese casualties totaled 7,000. According to the Japanese estimate, the Russians lost over 10,000. The army fought in a driving snowstorm. It was bitterly cold and very difficult to see. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stagnas been able to cure in all its stag-es, and that is Catarrh. Hall's Ca-tarrh Cure is the only positive cure now known to the medical fratern-ity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send tor lat of testimonials.

Sensational Speech By Civil Lord of the Admiralty.

Looks With Anxiety, Though Not With Fear, to the North Sea-In Any Cases Would Get Its Blow in Before Other Side End Time to Rend War Declara-

London, Feb. 4.—A speech delivered in the Hampshire village of Bast Leigh Thursday evening by Arthur Hamilton Lee, Civil Lord of the Admiralty, has created a sensation.

In dealing with, the recent distribution of Great Britain's naval forces, Mr. Lee frankly declared that Great Britain had not so much to keep her eyes on France and the Mediteranean, but had to look with anxiety, though not with fear, towards the North Sea, and the fleets had been so distributed as to enable them to deal with any danger in that direction, should it unfortunately occur. If war unhaphily should be declared, he continued, under existing conare unmaphily should be declar-ed, he continued, under existing con-ditions the British navy would get its blow in first, before the other side had time to read in the papers that war had been declared.

He maintained that "by recent nav al reforms Great Britain's strength as a naval fighting power had been practically doubled during the last few weeks."

The speech, which was delivered at

a railway dinner, in no wise political in character, is commented upon in some of the London morning newspapers as exceedingly indiscreet and likely to be resented by Germany, at which it evidently pointed. The Daily Chronicle suggests that Premier Palfour should muzzle his Civil mier Balfour should muzzle his Civil Lord of the Admiralty.

The Pound of Flesh Story. Eleven different versions of

pound of flesh story exist in the early literature of Europe, none of which is founded on a historical basis, save one related by the biographer of Pope Sixtus V. The original tale runs as follows: Simon Cenada, a Jew, enters into a wager with Sechi, a Christian, staking a pound of his flesh against a large sum of money of the Christian. The Jew loses the wager, and Sechi insists on his forfeit. The case is referred to the governor of the city, who in turn places it before the pope, who condemns both to lifelong imprisonment, from which they are finally released on the payment of a heavy fine. An Italian, Giovanni Florentino, in the sixteenth century was the first to change the roles of the Jew and Christian, and in this altered form the Bard of Avon found the story. The poet himself could scarcely have known any Jews personally, since they were expelled from England 300 years before his time and were not read-mitted until after his death. From stage presentations, from descriptions in books or from popular reports, which were always derogatory to the Jewish character, the poet derived his knowledge of the Jew.—Menorah.

#### Disewn Deputation

St. Petersburg. Feb. 6.—The work-men to the number of 4,000 in the car shops here have drawn up a manifesto disclaiming the delegates who were put forward as representing them in the deputation which visited Emperor Nicholas at Tsarkoe-Selo on Wednesday, Feb. 1. They assert these men were selected by the employers and were not representatives of the workmen. The employes of one or two other factories may follow suit, but the workmen in general are inclined to stand by the deputation,

#### ACCUSED MURDERER CAUGHT.

#### Wanted in Winnings, Ic Finally Arrested in St. Paul, Hinn.

Winnipeg. Feb. 6.—Followed by the police for over three weeks and with certainty that, if captured, he would have to face a charge of murder, Frederick Sweredas' race for liberty was brought to sudden termination at St. Paul, Minn., Saturday morning, where he was arrested by Detective Johnson of the Thield Detective Agency, on a description sent south by Chief McRae, who has wired Johnson to bring the prisoner to Winnipeg.

Sweredas is believed to have been the prime mover in the murder of the negro, George King, whose dead body was found lying on the track in the C.P.R. yards on the morning of Jan. 17. Two men, Cynear and Raga, have been charged with the murder of King, and four other Gallicians, Ren Slobogion, Shnad Nasaruk, John Raga and Stefan Stodola, are held, charged with aiding and abetting.

Creshes Argestina Revolt.

Buenos Ayres. Feb. 6.—In the course of an attack on a police station on Saturday morning several rioters were killed, about 30 were injured and some 250 arrested. Order has been completely restored and resterday the city presented a normal spect. The revolution being practically crushed, the Government has annulled the decree calling out the reserves.

#### HAVE RUSSIANS WON!

Paris, Feb. 6.—The close of the testimony before the International Commission inquiring into the North Sea incident has been followed by a rather noticeable diminution of condidence in British circles con-cerned with the case, and a corre-sponding elation on the part of the Russians.

sians have virtually won their case the usually conservative Temps and Journal asserting positively that the majority of the court now favors the Russian theory that torped boats attacked Vice-Admiral Rojestvensky's

On the contrary, intimations are made that the tendency within the court is rather in the opposite direction. The reports favorable to the Russian view appear to result mainly from the positiveness of the testimony of Captain Clado and other Russian officers, that they saw tor-pedo boats attack the squadron, pedo boats attack the squadron, whereas the strongest British witnesses did not swear that no torpedo boats were there, but merely that they did not see them there.

out.
The Cabinet held its final meeting The Cabinet held its final meeting Saturday afternoon, and at the close it was unofficially announced that the Premier would proceed to the residence of the representative of the Crown on Monday afternoon and submit his resignation.

Mr. Whitney will probably hand the names of his Cabinet to the Lieutenant-Governor as soon as he accepts office from his hands.

#### KILLAM IS CHAIRMAN.

The Railway Commission Vacancy Filled

Ottawa, Feb. 6.—Justice Killam has been appointed Chairman of the Railway Commission, and will enter upon his new duties right away. The choice of his successor on the Supreme Court Bench has not been made.

#### "Pro-Auglica Cathelies."

Rome, Feb. 6.—Reports have just reached the Vatican of the formation of a large Roman Catholic party in England under the leadership of the Duite of Norfolk. The new league, styled the 'Pro-Anglica Catholica,' counts as members all the prominent Roman Catholics of the Duited Kingdom, including several peers of the realm. Its purpose is to abtain more favorable Roman Catholic legislation from both Houses of Parliament, especially regarding the partial support of Roman Catholic schools by the Government. All regulations and details concerning the new league have been submitted to and approved by the Vatican authorities.

Farent Wasts Postpanessest.

Montreal, Feb. 6.—As soon as Premier Parent received the resignations of his three colleagues, he called a Cabinet Council and postponed the meeting of the House from Feb. 9 to March 22. So far this minute of Council has not received the approval of the Lieutemant-Governor, and Hon. Mr. Gouin's friends believe that Sir Louis Jette will decline to grant the postponement. The anti-Parent Mimisters declare that they have fifty members out of a House of seventy-four who will vote against any motion made by the present Premier.

London, Feb. 6.—The West Linerick Executive of the United Irish League foresees in the recent statement of Sir Henry Campbell-Bannerman the removal of the cattle embargo by the next Liberal Government. The executive views the removal as highly detrimental to the tenant farmers and urges them, when purchasing holdings, to pay no more than Asbourne prices.

Up Fermalities.

Toronto, Feb. 6. — Premier-elect Whitney is expected to arrive on Tuesday, though on this point he is extremely reticent. Having regard to the eternal fitness of things he is no doubt waiting till he is "axed," but the invitation will probably go forward to-day. Nobody seems to entertain the sidea that the Lieutenant-Governor will call upon anyene else to form an Administration.

It is the desire of the present Cabinet that there shall be no "interregnum." There is a feeling that Premier Ross has sought to glorify himself by his action in "inviting" Mr. Whitney to be on hand when he steps out.

Even a store is entitled to a "square deal"-a "fair show." That's a point upon which all good people agree. Now let us inquire.

is it fair to us when you conceal a disappointment or a wrong you have suffered in your buying at our store, and allow us no opportunity to make amends?

We tell you of the goods and when they are examined at home, if there is a disappointment or a regret, if 'money back' would please you most it is only necessary to tell us of your wishes. We do not want, and will not have, if we know it, any dollars to come to us at the cost of a patron's good-will.

Try us and see how it will work out.
