Oue Ministerial journals have become extrava-gantly marry, because they found in a New York happer a description of various lots sold by the Corstecting to pay the taxes. The mere stat just now they fancy that they cannot better of the Canadians towards Anthen by telling them :- If you join the size, do not fancy you will be more than you are now-for behold even he owners of real property are so poor, mot pay for their taxes—and in conlands are sold by the Corporation. If we left the public exposed to the influence of such of the Registrar, and the sums represented carried statements, we should be neglecting our duty as out in figures in the margin, as well as in writing journalists; even if we were not advocates of Re- in the body of the books, to be more visible. By publican institutions, but being so, we are the more required to furnish the whole truth, and, having done so, to leave the public to draw their ons-neither dictating to them, nor intimidating them, offences with which we have been (we know not on what grounds) charged.

New York is a city, which contains a popula-tion of six hundred thousand, composed of men we conceive, in every way practicable, and dedrawn thisher from every quarter of the globe in pursuit of wealth—there are not less than minety sand Germans alone in that city-and the foreign population far exceeds the native born. rcial dealings of New York have, year after year, rises in magnitude and importance, se each fresh Canal or Railroad brought its tribute to the common receptacle of the produce of the West, and the riches acquired by this growing internal and external commerce, have induced men to devote a portion of their thus acquired wealth to the purchase of landed estate. Now the reader must be told-that the operation of buying one or a hundred lots of land in New York what simpler than with us. In Montreal, he who desires to buy an emplacement, goes before a Notary with the vendor, and, at an expense of from one to five dellars, obtains a deed of salethis deed of sale confers no security as to the soundness of the title—the purchaser, who is apprehensive of latent claims, must apply, at an ex pense of forty deliats, to the Court for a ratifiation of title, and at the expiration of six months receives that ratification. Then again the the laws which govern the pessession of land, and nguished evils of the Feudal Tenure, are so many obstacles to a rapid interchange of property in Montreal. In New York the features ally different—one man sells, and anin buys, one hundred lots of land, worth d dollars each. The vendor draws out and signs the terms—the purchaser reads the document and signs likewise—two friends sign as ses -a dollor sets all doubts as to the validity of the title at rest, by securing the certificate of the Registrer. We think we have said enough to referring to the issuing of Writs might have been prove that thousands upon thousands of lots change ands youtly that strangers purchase as freely. writers need not argue that New York is going to ruin, because some of these strangers, who have bought last should not be on the spot, when the tax-gatherer goes his rounds, prepared to pay the assessments due. There is another feature connected with this subject, new that we are discussing Corporation matters, we may notice:—in Menteral, when a proprieter has neglected to pay if he be disable to pay his taxes, with the additional cents of suit, his property would not be sold, as in New York, for a term of years—but forever. In New York the process is simple and unexpensive—if a proprietor neglects to pay his assessment, the Corporation at the expiration of a year, n of his lot, the lease of which publish a description of his lot, the tease of union alone they can sell. The proprietor has the right before the sale to discharge all claims by the paying the sale to discharge all claims by the paying the sale to discharge all claims be sale.

more of the taxes sund, even if the lease be sold; he sady resume his rights by paying the purchaser ments. We shall now show the difficulties st-tending the doctrine, as laid down by them. First, that the Act amending the former Judies-ture Bill was continued by an implication of Lea bonds of the per cent.
Those in Cabaida, who talk short our timehoused fastinations when our most constants
Pear is not ton years old, are just the men to be gialative intention, in direct opposition to the di-rect declaratory terms of the Act itself. Second, that that implication was brought into existence lured into a blander—such as we have expected.

They tell our people that New York is going to rule, because a few stray lots are in the hands of by another Act, which had no legal existence, ruin, because a few stray lots are in the hands of until a long time after the amending Act from a ordained in the United States. If California and the Corporation for laxes day, the case was investigated, it, would be come dead. And, third, that 12 Vic., c. 38. 1,141, and the Churches 1,133. Editor, a very doubtful shape.

In that precious article; he says there were present His Honors Chief Justice Day, and their Honors Judges Smith Manner Chef Justice Day, and their Honors Judges Smith Manner Chef Justice Day, and their Honors Judges Smith Manner Chef Justice Day, and their Honors Judges Smith Manner Chef Justice Lays, the bere gives us not only a clumy scattence, but states what is not the case; there is no Chief Justice of the Superior Court, if the Britter of the Transcript were a Lawyer, he would know the fact of there being no Chief Justice this not knowing the fact of there being no Chief Justice this not knowing the fact of there being no Chief Justice this not knowing the fact of there being no Chief Justice this not knowing the fact of there being no Chief Justice this not knowing the Britands, 23; South Georgetowa Congregation, that what fullows is incorrect.

In that specious article, he says there were present His Honer Chief Justice Day, and their Honers Judges Smith and Farfelson. Now, Mr. Editor, he here gives us not only a chumy sentence, but states what is not the case; there is no Chief Justice of the Superior Court. If the Britter of the Transcript were a Lawyer, he would know the fact of there being no Chief Justice is in not knowing it, is a strong presumption that what follows is incorrect. However, how can he presume to give an opinion on the conduct of a Q. C., when he is unacquainted with the constitution of a Court I Does he know that it question may have arisen as to the sime, electrostance, or manucrist or under which the prerequitve of the Crown is to be exceeded, and that in order to try such question, and it is necessary to take certain steps, and retain a certain position I is took not.

I would suggest the propriety of having all doubts on the question of "Is the Editor of the Transcript, or is he not question. I have been at the stated against himself in Court Thomas B. Judah, who seems an amusing fellow, if I may judge from the lough he risked against himself in Court is the day alladed to in the Transcript, be resimed for the purpose of obtaining the decision of the Judges on that question. I would further suggest, that should Mr. Judah he employed, he he required to appear, on the secondary secondary thanks, an ender for two cords of firewood, for the suggest of the Transcript, to restained for the purpose of obtaining the decision of the Judges on that question. I would further suggest, that should Mr. Judah he employed, he he required to appear, on the secondary secondary were a great simuly he was and my particular stress upon the lengthy of time that he amployed, he he required to hide any legal inability as the complete are supposed, be the required to hide any legal inability and the complete of the day alladed to in the Transcript, to restain the surface of the distriction. Form a manuface of the day alladed to in the Transcript, to cords of fire wood, from a member of Zion Church, for the Juse of the Institution.

Snow fisten, Escale.—The event, which excited a good deal of interest in the appring and fashionable circles of this city, same off or Thursday, according to notice, on the free flace Coarse at 8t. RESTORATION OF VOICE BY KEATING'S COUGH LQZENGES.

GLASGOW, 12th January, 1847.

Sin,—1 have great pleasure in informs g you of the great good your excellent COUGH LOZENGES have done me. In Desember, 1843, I caught a severe cold from riding two or three miles, one very wet night, which settled in my langs, and quite took away my voice, so that I could not speak above a whisper from that time until December last. I tred all kinds of medicines, but they were of no avail. I was then advised to try your Lozenges, which I did only to please my friends; but before I had finished a 2s. 9d. tin, my voice, to my great joy, came back as strong as ever.

Marriage requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic wretchedness, be related and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attention of its proposition of the several could have a several could have a several could have a several could have a several could be received and their attention of its profits outcome of misches, and of greater of less injury to the constitution and wital powers.

The particular excesses on the nature and consequences of which this Treatise professes to dilute, are productive of greater misery to the human frame than eny other to which it is subject.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor-are these the sole contents of the work a the means of secape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens, that, the unhappy victim of accessive indulgence and victous habits, whether adquired in early life, or from the failure of advanced age, while suffering from the failure of advanced age, while suffering from the failure of advanced age, while suffering from the failure, he forgets the focusion for relief.
