Vol. 17.

, 1883, No. 1 MONTREAL, FRIDAY, AUGUST 24, 1883.

Leading Wholesale Houses of Montreal

First Prize Dominion Exhibition, 1880.

GAULT BROS. & CO...

Having made special arrangements with a number of the leading Mills in the country, we shall be prepared, during this season, to offer unusual advantages to intending purchasers in our "CANADIAN MANUFACTURES DE-PARTMENTS." We will show a large and varied stock of the best value in the following lines:

Canadian Tweeds.

Canadian Flannels,

Canadian Shirts and Drawers, Canadian White and Grey Blankets, Canadian Wool Scarfs and Clouds. Canadian Hosiery,

Hochelaga, Valleyfield and Stormont Cottons.

Orders through our Travellers, or otherwise, will receive our usual careful and prompt attention.

GAULT BROS. & CO.

MONTREAL FELT HAT WORKS.

Some 9,000 cases of canned lubsters, saved from the SS. "Brantford City," will be offered for sale by anction in Halifax next week.

THE burning of Mr. Robt. McCready's boot and shoe factory in this city last Sunday throws three hundred operatives out of work. The property is insured for \$75,000. Loss about three-fourths. Patterns all saved.

MESSRS. SEAGRAN & Roos, general merchants, millers and distillers, Waterloo, Ont., have dissolved. The business in all its branches will be continued as heretofore by Mr. Joseph E. Seagram of the firm.

THE MONTREAL "Open Stock Exchange" is being revived, the principal promoters being Messrs. L. A. P. Barthe, T. E. Haurahan, Arthur Ross, of Lachine, W. J. Turnin, Col. F. Bond and others.

The first load of the new crop of barley was delivered in Belleville last Tuesday, and was considered a good sample. Une or two lots of the new crop have been received at Coteau Landing also, and pronounced as favorable.

THE Boston Rubber Boot and Shoe Company have returned to last year's prices, by making their discounts on first quality 30 per cent and on second quality 37 per cent. New Para is quoted in Boston at \$1/22 and old Para at \$1.06.

Mr. B. FRESHMAN, who is reported to have absconded from Winnipeg after embezzling \$8,000 from Mr. M. A.' McLean, wholesale grocer and liquor dealer, of that city, with whom he was employed as bookkeeper, was formerly in business in London, Out.

THE bonus by-law for the establishment of manufacturing industries at Ottawa was defeated on Monday last,-largely, it would appear, because many citizens who favored the proposition did not record their votes. Thirtysix ladies manifested their interest in the progress of the city by exercising their right to vote on the question. General regret is said to be expressed at the defeat of the by-law.

MANUFACTURED BY

WM. LUNAN & SON.

SOREL, QUE.

Sold by leading Grocers in Canada, Newfoundland, the West Indies, Bermuda and South America

AT A meeting of the directors of the South Eastern Railway on Tuesday last, Mr. T. A Mackinnon, assistant General Manager, was appointed General Manager, vice Hon. Bradley Barlow.

GEORGE MIDDLETON, general dealer at Dundalk Station, Out., has settled with his creditors at 60c on the dollar, in 2, 4, 6, 8 and 10 months, secured. His liabilities footed up \$5,300, and assets about \$4,000. Middleton is reputed to be an honest, respectable business man, but trade was bad, and lacking capital, he tell behind.

THE Montreal City Council at their last meeting voted \$25,000 for the construction of new sidewalks throughout the city, a much needed improvement.-The St. John Telegraph urges that the principal streets of that city be placed in first-class order for Exhibition week. It is also suggested that the ferry approaches at St. John be lighted by electricity.

T. H. HAYES, boot and shoe dealer, Beeton, Ont , has assigned to Mr. E. R. C. Clarkson, of Toronto. Messrs. Orr, Harvey & Co., of Hamilton, have sold the stock under a chattel mortgage at 60c on the dollar, and it is thought that after the mortgage of \$480, expenses, and judgment creditors have been paid there will be nothing left for outsiders. Hayes, who has been in business some three or four years, owes iu all about \$2,000.

Leading Wholesale Trade of Montreal.

FALL

DUNCAN McKENZIE, dealer in dry goods, groceries and clothing, Beaverton, Ont., has assigned in trust, after a career of about three years. He has assets amounting to about \$3,000, and owes \$5,825, of which \$2,413 is secured by the transferrence of book accounts to a Toronto house. The trouble is attributed to lack of capital and insufficient business. A meeting of creditors, who are chiefly in Toronto and this city, will be held shortly, when an offer of compromise will be submitted.

CHARLES HICKLING, the Toronto grocer, whose assignment was noted in our last issue, shows stock valued at only \$250, and has real estate valued at \$2,300, on which there is a collateral mortgage for \$1,600 made for the benefit of his wife. He owes about \$4,000, of which \$3,000 is due to a Toronto wholesale firm. A law sait is pending in the interests of his wife, Mrs. Hickling, it is said, and it is feared that the estate will be eaten up in cos ts.

L. & J. Armstrong, carrying on a general store and saw mills at McKellar, Ont., previously referred to, have arranged with all the larger creditors for a settlement at 50c on the dollar. Their liabilities amount to about \$23,-000, with assets nominally the same, but spread too much. The failure is attributed to want of profits on the timber boom branch of their business. They get out large quantities of timber, logs, etc., and furnish the lumbermen with supplies from their store.

R. S. WATT, tea merchant, Toronto, assigned in trust a few days ago, with liabilities of about \$8,000, due in Toronto and this city. The assets are said to be only about \$5,000, although no statement has been prepared yet. Watt has been about two years in business, and attributes his difficulty partly to dishonest agents through the country who sold goods and fled with the proceeds. He is said, however, to have attempted to de too large a trade for the capital at his command. A meeting of creditors will be held shortly.

TRADE.

Joseph Hawke, a Toronto tailor, recently compromised with his creditors at 75c on the dollar, depositing slender securities. He owed about \$5,000, and paid the first note at maturity; a few days ago, before the second note fell due, the assignee discovered that Hawke had disposed of his stock by auction, and also owned some real estate, of which the creditors had not been informed. A lispendens was at once filed against the property, and a warrant issued for Hawke's arrest, but through the agency notification sheet lie learned of the proceedings in time to elude the officers and escape. The creditors expect to realize the greater part of the compromise offer from the security.

HENRY P. Cook, who carried on a large general store business at Gravenhurst, Ont., assigned in March last, after one year's experience. Shortly before the assignment his creditors were surprised to learn that a fire had occurred in his premises, and that Cook and his brother were under arrest on a charge of arson, which however was not proven. An investigation revealed liabilities amounting to \$15,000 and stock valued at \$6,000; notwithstanding their surprise at this state of affairs the creditors were induced to accept 60c on the dollar,-20c cash, and the balance in two and four months-and the trustee, Mr. Clarkson, of Toronto, was instructed to place a receiver in charge. Some time afterwards Cook was suspected of secreting goods when a detective was employed, and goods, notes, and cash to the aggregate value of about \$7,000 were unearthed from various hiding places. Cook was arrested and sent to jail, pending his trial, which was fixed for to-day, 24th inst. Meanwhile the stock-in-trade, valued at \$6,637; has been sold at 73c on the dollar.

Two new stores are to be opened in Belleville on 1st September, one of them by Smeaton & Munro, dry goods, in the large store lately occupied by Geo. Ritchie & Co. Mr. Smeaton is a Belleville man, and Mr. Munro was, until lately, a member of the firm of Munro & Alexander, of Peterboro. Messrs. Alex. Leslie and and J. S. Barber will, on the same day, open out a stock of haberdashery and gentlemen's furnishings, under the firm name of Leslie & Barber.

MESSES. A. SILBERSTEIN and Geo. Bury, of this city, have been in business for a few years as manufacturers of silk fringe and tassels. During last winter they disagreed, and began suits against each other in order to a dissolu-tion of partnership. Several of the creditors also on the partnership. Several of the creators are entered suits, and some made seizures before judgment in order to protect themselves. About the middle of March Inst, Mr. J. M. M. Duff was appointed sequestrator to the estate. During the time the stock was under seizure, and before the sequestrator got possession, it was reported that some of the goods had disappeared most mysteriously, and various clues have since been carefully followed, with the result that on the 20th Augustians 20th Aug. inst. a quantity of silks, etc., was re-covered in the office of Mr. Abrahams, St., James st., where it had been deposited by Silberstein. An action in court at the instance of Mr. Bury is now pending, and the end is not yei known,

D. McKenzie, general storekeeper, Beaverton, and Moorehouse & Godson, retail dry goods dealers, Toronto, have assigned to Mr. E. R. C. Clarkson, Toronto. Moorehouse & Godson's liabilities are estimated above \$45,000, and their assets under \$29,000. The principal creditors are said to be in Great Britain.

THE \$26,000 loss on the cargo of the propel ler "Potomac," on the upper lakes, recalls the tactics of the Chicago Marine Insurance Pool adopted for the present season. The efforts to induce all the companies to join having failed, owing partly to some previous contracts for the season, some of the agents formed a combination among themselves, called the "Chicago Marine Ins. Pool," hoisted the black flag against outside companies, and began such a slaughtering of rates as was never heard of. " For several months,' says the Tribune, "risks have been taken at 10 cents on \$100 to Buffalo, which is a sweeping reduction from last year's rates. Since Aug. 8 the companies belonging to the pool have had it all their own way, so far as a mahave had it all their own way, so far as a majority of the business is concerned. The outside companies wrote policies at pool rates until they had grown tired of doing so. Since the 8th of the present month they have refused to insure any cargoes beyond a few for which they held season contracts. A few losses like the one on the Potomac will make a large-sized hole in the margins of some companies.

ONTARIO WHEAT CROP.—The secretary of the Ontario Bureau of Industries in his August circular says:-The reports on the wheat crop of the Province, made to the Bureau on the 1st of Aug., are not wholly satisfactory. They show that as regards both quantity and quality much of it is inferior to last year's crop—that, in fact, its market value at present quotations must be less by several millions of dollars. But it should be borne in mind that last year's crop was an be borne in mind that last year's crop was an extraordinary, one, and consequently that comparison with it as the standard cannot be accepted as fair. We have not yet sufficient data to ascertain confidently what an average, wheat crop in Onlario is. For this purpose it is necessary to obtain returns for a series of successive years giving as accurately series. successive years, giving as accurately as possible the acreage and the produce for each possible the acreage and the produce. for eachyear. The present harvest is probably below, an average over the whole Province, but no one can state positively whether it is or not. Last year, according to the statistics collected by the Bureau, the area under wheat was 1,775,337 acres, the produce 40,921,201 bushels, and the average widd are area? 2,2 bushels. and the average yield per acre 23 bushels. This year the area is 1,691,603 acres, the produce (as estimated by correspondents) 27,398,duce (as estimated by, correspondents) 27,385,-393 bushels, and the average yield yer acre 16 bushels. For the two years the average would therefore be 19.7 bushels per acre. It is possible, however, that the results of the threshing season may modify to some extent the figures for this year. The uneven character of the crop makes it difficult to estimate the yield of. Fall Wheat, and Spring Wheat is liable to be affected by rust and the attacks of insects. be affected by rust and the attacks of insects,

ST. CLAIR BALFOUR

G. W. ROMBLE, alias W. T. Soule & Co., of Chicago, has hit upon a new scheme to catch the unwary speculator. His grain investment plan is becoming too well known. The new circular would lead the reader to believe that his cattle ranch enterprise was started in 1875 instead of about amonth ago, and that he owns several ranches in the west. Monthly dividend payments are promised investors in the new scheme, as in the system of Flemming & Merriam, who are probably fresh in the minds of many people in Canada whose pockets were lightened by them only a few months ago.

MESSENS. B. & S. H. THOMPSON, hardware merchants, strenuously deny the existence of any adulterant or mineral mixture in the boiled linseed oil concerning which the trade is considerably exercised just now, and have instituted legal proceedings against one of our leading paint and oil firms to compel them to pay for a quantity of the article recently returned by the latter. Other firms have also refused to buy or sell it. While the Messes. Thompson rely chiefly on the reputation of the manufacturers, Chas. Price & Co., they produce

certificates from a city painter and a public analyst in its favor. We have procured some specimens, and will have them analyzed on their merits.

M. P. HAYES, banker, Scaforth, Ont., formerly agent of the Consolidated Bank, and later of the Bank of Commerce at that place, is, we regret to learn, in difficulties. Mr. Hayes started in 1880 on borrowed capital, but shortly afterwards inherited, as stated, some \$25,000 from a relative in Ireland. This he largely invested in getting out railway ties, posts and cedar poles at St. Joseph's Island and Pine Tree Harbor, Lake Huron, as well as in timber lands at the latter place. In his banking business, which was confined chiefly to discounting for farmers, he was tolerably successful. The deposits amount to about \$3,100. His difficulty is largely referable to ill health, which latterly prevented his devoting any personal attention to his timber business, and everything was left to the supervision of agents. The unrealizable character of pine and cedar in the woods is too well known, especially in unfavorable seasons. It is an

of the Winnipeg firm, would secure the remaining 15c required. Mr. Bryce will probably give the new firm the benefit of his experience -for instance as to partner's drawings-and in other ways render the estate more valuable. Eastern creditors appear to have had in view throughout, in dealing with the insolvents, the interests of their other customers in Winnipeg, and Mr. Alexander evidently felt this when he agreed originally to pay 90c, of which Mr. Mc-Lachlan was to be security for 75 cents, in the dollar. The keenest of business men however, do not feel it beneath them sometimes to consuit their bankers, and if there were more of it there would be fewer mistakes.

FINANCE AND INSURANCE REVIEW.

MONTREAL, AUGUST 24, 1883

THE DUTY OF AN ARBITRATOR.

The Toronto Mail has given it as its opinion that it was the duty of the arbitrators appointed to determine the boundaries of the Province of Ontario to be the advocates of the claims respectively presented by the Dominion and Ontario Counsel. This is the first time, so far as we are are aware, that any such doctrine has been broached, and we feel thoroughly convinced that on such terms the arbitrators would not have undertaken the duty which they were requested to perform. It is singular enough that during the controversial discussion, which has been carried on during the last five years on this subject, it has been repeatedly alleged, on the part of the opponents of the award, that justice was not done to Ontario; that that Province was entitled to much more territory than was awarded to it; and that for that reason a new reference was indispensably necessary in justice to Ontario. The Mail now declares that Chief Justice Harrison "did his duty

"as the representative of Ontario on the "board of arbitrators, and with all the "force of his vigorous character." The Mail had better refer to Chief Justice Harrison's own letters, cited by Sir Francis Hincks in his lecture at Toronto. One passage in the Chief Justice's correspondence is singularly applicable. It is:-" Men, who, regardless of the demands " of fair dealing, write for a purpose, and "that political, may assume to point out "faults where none exist, but in the "long run their attacks are as harmless "in execution as they are venomous "in conception." Again, referring to an article published in this journal in August. 1878, the late Chief Justice wrote :- " I "should like to see it reproduced in the " Globe, as being a perfect demolition of "the partizan articles of the Mail. The "latter were inspired for mere political, "that is, party effect." As the Mail expresses a desire to obtain from Sir Francis Hincks the reasons " for placing the southwest angle where the award fixed it," in which case he promises "to confess our error," we recommend him to read Sir Francis Hincks' lecture at Toronto, and to study it carefully. His recent articles prove conclusively that he does not comprehend the subject on which he has undertaken to instruct the public.

QUOTED PRICES.

Information lately derived from some country merchants would seem to indicate a disposition on the part of one or more dealers or manufacturers to cut prices below a paying basis, a practice which, it is needless to say, is one of the surest signs of weakness. For example, one or two grocers in the Capital claim to be able to retail granulated sugar at 83c a pound, the quotation given in our prices current. It is a long existent and well-known fact that the retailer's profit on sugar is almost nil, nevertheless we cannot help fancying that all cannot be healthy behind the scenes with the house which supplies him who is enabled to retail sugar at one-eighth of one cent per lb. above the price at which it can be bought in this city by the carload. It is not improbable, notwithstanding the reports of the Government analysts, that glucose has begun to be employed as an adulterant, in which case the grocers referred to might easily sell at the figure mentioned. But our quotations are for cane sugar, and not for any admixture of glucose or grape sugars. The latter have hitherto been chiefly employed in Canada in the manufacture of candy, syrups, molasses, etc., but nothing save the high character of our refining companies is

likely to prevent so facile an admixture being used ere long to the same extent as it is in the United States. Even the Glasgow sugars brought to Canada in former days were not free from cheapening ingredients. Of course cases are not unknown of hard-pressed brokers buying sugars on long credit from the refineries, and selling them at or below cost in order "to finance" along, and in this manner both wholesale and retail grocers are now and then able to get goods at or below cost. We need hardly remark that the prices at which such transactions are made, while they may be referred to in market reports, cannot afford any true index for prices-current tables.

Horseshoes are said to be retailed by a firm in Perth at \$3.90 per keg-the inside figure at which they are quoted in our tables. It goes to prove that either there is something wrong somewhere, or that the retailers in question are making of horseshoes a "leading line;" but if they can afford to sell them at that price the profit must be obtained from other articles in stock. No man or firm can afford to continue selling goods for mere philanthropy, and we do not think our Perth friends are inclined to favor the neighboring blacksmiths to the extent of keeping goods purely for their accommodation. not to mention the cost of interest, insurance and other similar, but often unconsidered, expenses. It is scarcely necessary to mention the usual discount of 15 cents per keg allowed on purchases of 100 keg lots and over.

Tin plates are also being sold very close by retailers. IC Coke, for example, is being retailed at the outside figure of our quotation, \$4.40 to \$4.50. One of the leading firms of this city refused an offer at the rate of \$4.35 for a lot of 500 boxes last week, and for this and other reasons we fancy our quotations are sufficiently close. We may return to this subject again, and shall be glad to receive further communications from subscribers. It will be observed that our figures compare favorably with other sources of information, and this inclines us to the belief that the Journal of Commerce is fulfiling its duty to its subscribers in furnishing them with fresh and valuable market reports at the lowest possible price. Infallibility is not found in the best regulated commercial journals, but while admitting this, we claim to be as free from errors as is possible with the best facilities; and our endeavers in the direction of improvement-keeping pace with the requirements of the age-should not fail to meet with due recognition on the part of the business community.

THE CHANNEL.

It is, we fear, vain to make an effort to convince those who are determined not to listen to argument. The Globe, in the face of facts that cannot be denied, remains of opinion that if the channel of the St. Lawrence should not be improved, the only consequence would be that Quebec. instead of Montreal, would be the chief. shipping port of the Dominion. How does it happen that at the present time, and ever since the completion of the railways, the percentage of goods destined for the west, that have been landed at Quebec, is insignificant? It is not Quebec that is feared as a rival. The tolls have been taken off the canals in the State of New York, and port charges have been reduced to a minimum at the ports on the Atlantic. The Globe finds nothing to condemn in the expenditure of public money on strictly local works at Toronto and Port Arthur, but when an expenditure is advocated for a public work that over forty years ago was deemed to be strictly national in its character, the cry is set up that the cost must be borne by the trade. No answer has been given to the points that we called attention to. that in the United States a similar class of public works has been invariably constructed by the General Government. In reply to the demand to show that "merchandize from Great Britain des-" tined for any city in Ontario may not be "transported as cheaply, if put on board "the railway cars at the Quebec docks, as "if taken to Montreal and transferred to "the railway there," we have simply to point to the fact, that it is not so transhipped at present at Quebec, and that the demand for further improvement has not been caused by the slightest apprehension that Quebec is likely to divert any of its present trade from Montreal. The Globe surely must be aware of the serious competition with the St. Lawrence route that has existed for the last few years on the part of the principal Atlantic cities. The same motive which led to the immense expenditure on our canals should induce us to persevere in our efforts to secure for the St. Lawrence as large a share as possible of the foreign trade.

Since writing the foregoing remarks we have read an article in the Hamilton Evening Times which deserves notice. It starts with a mistatement, which has been so frequently corrected, that we are surprised that it should have been repeated, although we feel assured it has been owing to misapprehension. There has been no "liberal assistance from the Dominion Treasury granted or

asked" for harbour improvements at Montreal, although with regard to such expenditure Montreal occupies an exceptional position. Surely the Evening Times must be aware that the expenditure on the channel has been principally at Lake St. Peter, some 90 miles from Montreal. The Times admits one point that we have contended for, which is that the Western farmers and consumers are gainers by improvements which cheapen the cost of carriage. After admitting all that the Montreal people have contended for, the Times raises the free trade point, and argues that for the same reason that it is desirable to reduce the cost of carriage, it is equally desirable to reduce duties. As the Times puts it his argument appears plausible, but it is easy to show that it has no weight whatever as regards the question at issue. It is true that our consumers pay heavy duties, and even had we strictly revenue duties, those duties would be increased by our internal improvements. Our neighbors in the United States pay even higher duties, but these duties do not affect the cost of carriage. The high duties exacted in the United States did not prevent the abolition of Canal tolls. or the reduction of port charges. Times is well aware that goods are imported notwithstanding the high tariff, but the point at issue is the cost of carriage between the sea ports and the interior, and the object to be gained is to make the St. Lawrence route preferable to that by New York or Boston. As regards this special point there is no force whatever in the argument of the Times.

THE BANK STATEMENTS.

The usual summary of the Bank returns for July will be found at foot. There is a slight increase in the liabilities and assets. Government deposits are about a million more than in June, the falling off in the Dominion deposits, owing to the payment of the subsidies, having been more than covered by an increase in Provincial deposits. There is a considerable increase in the amount in the hands of agents in the United Kingdom, which has raised the available assets, which have likewise been strength. ened by an addition to the specie and Dominion notes. The amount of discounts has been reduced. The increase in the business of the banks during the last ten years is about \$50,000,000, while the paid up capital is not much over five millions in excess of what it was in 1873. The enormous increase in the deposits from the public is the striking item in the statement of liabilities :-

그 없는데 그들이 그렇게 얼마나 살아내는 그 모자	July, 1883.	June, 1883.	July, 1882.	July, 1873

July, 1879

LIFE OF SIR JOHN A. MACDONALD. By J. E. Collins.

No. 5.

At the close of our last notice, the coalition administration of 1854 had been formed, and it was very generally admitted that its real leader, at least of the Upper Canada section, was Mr. Macdonald. After summing up the situation at the time of the resignation of the Hincks-Morin Cabinet, Dent proceeds :- "The "active mind of Mr. John A. Macdonald "was not slow to take in these various "phases of the situation, and it is com-"monly understood that his was the hand "that shaped the course of subsequent "negotiations. Since his entry into "Parliament, ten years before, he had "outgrown many of the party traditions "of those times, and his mind had under-"gone a considerable transformation in "the direction of liberalism." seems to have entertained a very similar opinion as to the predilections of Mr. Macdonald, who certainly inspired more confidence in the Reform members of the newly formed Liberal-Conservative party then its nominal leader, Sir Allan Macnab, who had been during his long public career identified with the old Family compact party, the name by which the Conservative or Tory party was popularly known. In a very few weeks after the formation of the Government, its Lower Canada leader, Mr. Morin, accepted a seat on the bench, and this was deemed a sufficient ground for the resignation of all his Lower Canada colleagues. The late Colonel Taché was asked by Sir Allan Macnab to reconstruct the Lower Canada. section, and invited Messrs. Drummond, Cauchon, Cartier and Lemieux to join him.

No further change took place for more than a year, nor were there any vital political questions before the country. Mr. Macdonald had violent personal conflicts with Mr. George Brown and Colonel Rankin, but they had no special bearing on politics. It appears, however, that the old Reformers were far from satisfied. Dent was doubtless correct when he said in his "Forty Years:" "The truth of the "matter was that the Liberal-Conserva-"tive party, more especially that portion "which had once owned allegiance to Mr. "Hincks, were dissatisfied with the leader-"ship of Sir Allan Macnab, and desired to "see a younger and more energetic man "installed in his place. There could be "no difference of opinion as to who the "successor should be. Mr. Macdonald was "the ablest Parliamentarian in the Liber-" al Conservative ranks, and was looked up "to as their leading spirit." A good deal of difficulty had to be encountered before the party could obtain the leader which the great majority desired. The decision of a caucus meeting produced no effect.

A NEW CRISIS.

While the Reformers were in a state of dissatisfaction Sir Allan Macnab must have been considerably embarrassed by a motion made by Mr. John Hilyard Cam. eron for papers based on a charge against a Lower Canada judge of partiality on a criminal trial. Mr. Cameron was one of a few Conservative members who opposed the measures of the administration, and he was looked on as sharing the views of Sir Allan Macnab much more than those of Mr. Macdonald, indeed, at a later period, Sir Allan endeavored in vain to obtain for him the succession to the leadership. Mr. Cameron succeeded in obtaining a considerable support to his motion from the ranks of the Upper Canada Reformers, and it was after a protracted debate carried against the Ministry by a vote of 48 to 44. The administration was extricated from an awkward dilemma by a vote of confidence, and in reply to the address the Governor was advised that he had no means of procuring the judge's' charge. Shortly after the Hon. John Ross, one of the two representatives of the Reform wing of the Ministerialists, resigned on the ground of the expressed dissatisfaction of the Reform supporters of the Government, who held that the object of the coalition had been obtained, and that they were not inclined to support Sir Allan Macnab any longer. Mr. Ross' resignation would have had more effect if his colleague Mr. Spence had resigned with him, and if he had not been promptly succeeded by Mr. J. C. Morrison. who was of the same political stripe as

himself. As it was, no immediate result followed. Meantime the seat of Government question, which was for several years an element of discord between the two sections of the Province, led to a crisis. A vote of £50,000 for the erection of public buildings at Quebec having been placed in the estimates, Mr. Holton moved "that the course of the administration, "with reference to the question of the "seat of Government, and other impor-"tant public questions, has disappointed "the just expectations of the great "majority of the people of this Province." Although this amendment was defeated by 70 to 47, yet there was a majority of 33 to 27 from Upper Canada. This vote led to the resignation of Messrs. Spence and Morrison, whose immediate followers had almost all voted in the majority, and they were followed by the other members, notwithstanding Sir Allan Macnab's opposition.

THE TACHÉ-MACDONALD ADMINISTRATION.

Colonel Taché was then called on to form a Government, and invited the assistance of Mr. Macdonald as Upper Canada leader. His old colleagues, Messrs. Cayley, Spence and Morrison, resumed office, and Mr. Vankoughnet, a distinguished member of the bar, and who was subsequently Chancellor, succeeded Sir Allan Macnab. As Colonel Taché was a member of the Legislative Council, Mr. Drummond, Attorney General for Lower Canada, claimed the leadership in the Assembly, which had been assigned to Mr. Macdonald, and on his failure to obtain it resigned, and was succeeded by Mr. Terrill. Mr. Macdonald was much blamed by his opponents at the time, on the ground that he acted a treacherous part to his leader. Sir Allan Macnub, History does not sustain the charge. Collins seems to have adopted Dent's view, which is likewise that of Turcotte. The change effected in 1856 was inevitable, and without it the Government could not have been carried on. Towards the close of 1857 Colonel Taché retired from the administration, intending to withdraw from public life, although several years later he consented to re-enter the Mr. Macdonald Government. became the Premier, and selected Mr. Cartier as his Lower Canada colleague, with whom he continued to co-operate up to the time of that statesman's death. The most important question disposed of in 1857 was the reference of the seat of Government question to the Crown.

THE DOUBLE SHUFFLE.

Two days, after the formation of the Macdonald Cartier Government there

was a dissolution of Parliament, the elections coming off in December, 1857, and January, 1858. There was a very exciting election, as the questions of "separate schools" and "representation by population" were brought prominently forward, and were calculated to produce antagonism between the two sections of the Province. Messrs. Cayley, Morrison and Spence lost their elections, but the first named gentleman obtained a seat in Renfrew. The result was a large ministerial majority in Lower Canada, and an anti-ministerial one in Upper Canada, Mr. Brown having obtained a double return, and having been elected for the city of Toronto. Shortly after the commencement of the Session, the seat of Government question was brought up for discussion, and, although the sectional feelings were so strong that it had been found impossible to agree on any particular city as the capital, and that in consequence a reference to the Crown had been agreed to, it soon became apparent that the majority were prepared to oppose Her Majesty's choice. A vote against Ottawa was carried by 64 to 50, whereupon Mr. Brown moved an adjournment of the House, which Mr. Macdonald accepted as a test question, and defeated Mr. Brown's motion by 61 to 50. He felt, however, that his inability to obtain the ratification of Her Majesty's choice from the House rendered his resignation absolutely necessary, and he therefore placed it in the hands of Governor Sir Edmund Head. The crisis which followed has been generally designated the "Double Shuffle," and the conduct of the Governor was most violently assailed by the opposition of the day and the press which supported it, especially the Globe. Quite recently, in his "Life and Speeches of Hon. George Brown," the Hon. Alexander Mackenzie has revived these charges. Concurring generally in the view taken by Dent of the entire proceedings, we own that we think that he has been harsh to Sir Edmund Head, although he admits that "he was sincerely desirous of acting up "to the spirit and letter of the constitu-"tion and of holding the balance fairly "between the rival parties." Again, "It " was clearly the Governor's duty, as he "alleged, to exhaust every possible alter-"native before dissolving a Parliament "that had been elected only seven "months before."

COLLINS AT FAULT.

We cannot congratulate Sir John Macdonald's biographer on his account of the celebrated crisis. He states plainly and distinctly that there was no adequate

ground for the resignation in the vote of the assembly antagonistic to the Queen's decision, adding: "It was simply done "to lure Mr. Brown into a pitfall, and into "the pitfall he went eyes and mouth "wide open." Again, he has referred to two crises in England: one the well-known one of the bed-chamber ladies in 1839, and the other in 1873, when Mr. Disraeli declined office. Collins' remarks correctly, that there was no election in these cases. The difficulty in 1858 was caused solely by the blundering of Mr. Brown. In Sir Edmund Head's first communication he offered Mr. Brown "a seat in the Council as the leader of a new administration," and begs him, in case he accept, to signify his acceptance in writing, "in order that he may be at once in a "position to confer with you as one of his "responsible advisers." "His Excellency's "first object will be to consult you as to "the names of your future colleagues, "and as to the assignment of the offices "about to be vacated to the men most "capable of filling them." Mr. Brown simply replied that he undertook the formation of an administration, which he did without any consultation whatever with the Governor. Now, in view of the state of parties, Mr. Brown's course can only be designated as a blunder. It was well known that Sir Edmund Head was the adviser of the Queen as to the choice of Ottawa, and he must have been anxious, if possible, to obtain the support of the House to that decision. Mr. Brown formed his ministry without any consultation, and when cautioned as to dissolution, and reminded that the Governor was not to be understood as bound to take such a course, he concealed from his own. colleagues the Governor's communications, insisting on their being sworn in before he would bring the subject up for consultation. All the complication which led to the "Double Shuffle" was owing to Mr. Brown's not having followed the English course of learning the intentions of the Crown before accepting office, and declining to accept, if those views were not in accordance with his own. It may fairly be urged that as the "Double Shuffle" was legal, it was excusable. New elections of ministers would have caused serious delay and inconvenience. Sir Edmund Head acted throughout with prudence, and caution, and strictly in accordance with the principles of the constitution. Mr. Macdonald was entirely blameless, notwithstanding the opinion of his biographer, and history will place his conduct on that occasion immeasurably higher than that of Mr. Brown.

THE NEW ROOFING CEMENT .- A practical acquaintance in the roofing business for many years in this city, where the climatic changes afford probably the best possible test of workmanship and materials, has enabled Messrs. Joseph James & Co., to tender the public some valuable advice on the subject. While not decrying the merits of the roofing materials hitherto in use by themselves and others, and which even with good workmanship were not always proof against the severe test of alternate freezing and thawing in our early spring weather, the firm began early the present year to manufacture a new patent cement roofing from Actinolite, a fibrous mineral of the bornblende family to which belong also asbestos, tale, etc., and so evident were the merits of the new material that it soon came into request. The firm own large deposits of this material in the counties of Hastings and Lennox. Their mill at Bridgewater has been noticed already. A noticeable result hitherto arising from the introduction of the new rooting has been some actions for damages on the part of a rival coment company whose material is no longer employed by Messrs, James & Co. for reasons best known to themselves. The new article is said to be more fibrous than the former one and will adhere to a steep roof where other kinds would slip off. But the circular of Messrs. Joseph James & Co on the last page of this issue tells the story in brief detail, and is commendable for its moderate tone and practical

The cotton manufacturers have been in secret conclave during the week, and so carnest has been the discussion, that on Thursday they forgot to attend to the inner man from 9 a.m. to p.m. The object of the meetings is to regulute the output of cotton fabrics and bring prices to a paying basis.

" FIRE RECORD.

ONTARIO.

Owen Sound, Aug. 16.—The Coulson House partly destroyed. Loss \$10,000; covered by insurance. Toronto, Aug. 16.—The boat houses owned by the Riverside Rowing Club destroyed with contents. Loss \$1,000; insurance out in Messrs. Wright & Paytor's pump factory and spread to T. de Sentel's blacksmith shop, Moore & Son's marble works, and A. Comstock's Moore & Sou's marble works, and A. Comstock a cabinet shop, all of which were destroyed. Messrs. Wright & Payton lose \$900; insured for \$600. T. de Sentel loses \$1,500; insured for \$600. A. Comstock loses \$2,500; insured for \$800. A. Comstock loses \$2,500; insured for \$1,000. All buildings were awared by G. \$1,000. The buildings were owned by G. Paylor, his loss is \$3,000; insured for \$1,500. London, Aug. 18.—The Bonus Ten Association warehouse destroyed. Loss heavy. Belleville, Aug. 19.—J. Haggerty's residence damaged. Insured in Liverpool & London & Globe. Creemore, Aug. 19.—The station on Northern & Northwestern Railway destroyed with contents. Loss not known. Toronto, Aug. 22 .- Messrs. Pears & Booth's brickyard destroyed. \$1,000.

OUEBEC.

Montreal, Aug. 17.—W. Moore's workshop damaged to the extent of \$300. Aug. 19.—Messrs. Robt. McGready & Co., boot and shoe manufacturers, almost completely destroyed. Loss \$50,000; insured for \$75,000, in the following companies:—Lancashire, \$5,000; Western, 55,000; Scottish Union and National, \$15,000; 55,000; Isourance, \$5,000; Queen, \$5,000; Quebec, \$5,000; North British, \$10,000; Guardian, \$5,000; British American, \$5,000; National of Ireland, \$5,000; Sovereign, \$6,500.

NEW BRUNSWICK.

Moncton, Aug. 17.—A building used by the Intercolonial Railway as a blacksmith's shop destroyed. Loss \$700.

MANITOBA

Rat Portage, Aug. 20.—The new mills of the Rainy Lake Lumber Company destroyed: Loss \$30,000; insured for \$30,000.

Correspondence.

BEET SUGAR INDUSTRY.

Mr. EDITOR,—I have read the communication of Mr. Alfred Limoges, of St. Eustache, in your issue of the 17th inst., on this subject.

It appears that notwithstanding the enormous protection already enjoyed by those engaged in that industry they want likewise \$1 a ton for all beets raised for manufacturing purposes, to be paid presumably out of direct taxes to be levied on the commercial classes. Mr. Limoges should bear in mind when he objects to imports that it may be more profitable to the community at large that our farmers should raise produce for which there is a foreign demand, and the proceeds of which will pay for articles which can be furnished cheaper than they can themselves supply them. Hitherto the raising of beets has not been found as profitable as grain and other crops,

Yours truly, ECONOMY.

Montreal, Aug. 20th, 1883.

Market Reports.

MONTREAL WHOLESALE MARKETS.

THURSDAY, 23rd Aug., 1883.

In several leading departments the present is a sort of between seasons period; travellers have returned from their first Fall trip, and purchasers have not yet commenced to arrive in numbers. Trade, therefore, is not expected to be active, on the whole, but no serious complaints are heard from wholesale merchants; on the contrary, the Fall outlook is generally regarded with satisfaction and confidence. Remittances continue fair, a good average harvest is now assured, and in the North-west, the temporarily dark spot in the trade horizon, a much more than average yield is promised; speculation has been checked, importations are uncommonly light, stocks from over productionare being got under control, and altogether it is generally believed that a safe, if not a surpassingly large, Fall trade will be done. The Stock market has remained steady and lifeless for the most part during the week, values during the last few days have inclined to firmness; and Bank of Montreal shows an advance of I per cent for the week; Ontario an advance of 11 p.c., Molsons and Toronto, each 1 p.c., Merchants and Commerce each 3 p.c., Telegraph has advanced 21 p.c., City Passenger 1 p. c. City Gus 2 p. c., North-west Land has advanced 6d. and Uanada Pacific & p. c., while St Paul, M. & M. has declined & p. c. See table on another page.

Asurs.—Receipt of Pots have been heavy the past few days, but prices have been pretty firm; the range for the week is \$5.00 to \$5.20, closing at \$5.05 to \$5.15 as to tares. Seconds \$4.75. Thirds \$4.30. Pearls are easier at \$5.75 for First Sort. Receipts since 1st January 5,438 barrels Pots, 342 barrels Pearls. Deliveries 4,629 barrels Pots, 313 barrels Pearls. Stock in store at six o'clock on Wednesday evening 1,124 barrels Pots, 121 barrels Pearls.

CATTLE, ETC.—At the local markets last Monday, there was a fair supply of shipping cattle, but the demand was poor; sales were reported at from 51c to 64c. About 200 head of butchers' cattle were offered, and prices paid varied from 5c to 5jc per lb., live weight. There were about 1;100 sheep and lambs, which met with fair enquiry, the former selling at from \$5 to \$5.50 per 100 lbs., and the latter at from \$2.50 to \$4 per head. A number of calves were disposed of at from \$4 to \$10 each, according to size and quality.

DAIRY PRODUCE.—There is still no animation to note in the Butter market; the demand. apart from the local jobbing trade, is confined to the lower ports dealers, to whom sales of about 200 tubs Townships were made yesterday at 17c to 18c, the outside figure being paid only at 17c to 18c, the outside agure being paid only for the finest offerings. A carload of fine Eastern Townships butter, understood to be for shipment to England, was sold in the country yesterday at 17½c. Transactions in reamery, on lower ports account, are also reported at 20c. Values show little change from less tweet but the advantage for the hunter. nest week, but the advantage is on the buyers' side. At Ingersoll this week, thirteen factories offered 3,115 boxes cheese, mostly last half July make. Owing to a further decline in the English market, buyers were apparently without orders, and only 340 boxes July cheese sold at 9c and 94c. 23 factories and 11 buyers present. Cable, 5 p.m., 48s. At Little Falls, 1,000 boxes sold at 9c to 94c; better feeling, which promises higher prices next week. At Utica, 20th August.—10,200 boxes sold at 8c to 91c; ruling price 9c; 1,500 boxes consigned. The Cheeke market continues steady and quiet, more so in the city than in the country, where some rather reckless contracting seems to have been going on this week, but it is attributed to a "put-up job" among the buyers: Several sales have occurred at 81c to 9c, and fair to fine qualities are quoted at 8c to 9c, fancy lots commanding a fraction more. The New York market is somewhat firmer, 94c being paid for finest factories. Liverpool cable is still quoted at 48s.

DRUGS, ETC.—Trade remains very quiet, confined almost entirely to small country orders, to supply immediate wants. The city retail demand is very light. Price-list remains unchanged. English market steady and unaltered. The continued absence of the Steamer Ludwig is a matter of serious consequence to our wholesale houses, as we are informed she had on board large supplies of chemicals for this city. Remittances quite satisfactory.

DRY Goods .- Trade is fairly active, though there is less life and animation in business than a year ago. Buyers have been exercising extreme caution, as a rule, and orders received have been lighter than usual. But as August advances and there is no longer scarcely any doubt regarding the harvest the spirits of country werchants have become more cheerful, and travellers returning home report a 'decidedly improved feeling pervading the general retail trade. It is expected, therefore, and from the limited orders given, that a good many Western merchants intend visiting this market next month, and also that the volume of business in October and November this year will be considerably larger than usual. Stocks in this market will be found well-assorted, and as stated by some in the trade, cheaper cotton goods are being offered this season than ever. Dress goods this season are a striking feature, a steadily increasing demand for large checks being noticeable. The city retail trade continues about as usual in the suburbs, but in the city proper complaints of quietude are general, many of the better customers being still absent at summer resorts. The light importations this year constitute a healthy factor in the generally satisfactory, outlook; it is believed that importations even as 25 persons. lieved that importations average 25 per cent. less than last year. The recent severe floods on the banks of the rivers Thames and Maitfland, near London, Ont., had a local depressing effect upon trade, but several applications for the reduced railway tickets are being received

daily, and an influx of buyers is expected early next week. Remittances reported fair for August, which is always a dull month in this respect.

Fish.—Cape Breton Herrings are commencing to arrive, and sales have been made at \$6 per barrel net cash. New Salmon, in barrels, has been offering at \$20, \$19 and \$18, respectively for Nos. 1, 2 and 3; stocks are very light, however, and there is little doing yet. Dry Cod fish may be quoted at \$5.25 to \$5.50, sales having occurred at the outside figure. The market for canued fish is firm and advancing under an increased enquiry for Western shipment. Prices have advanced 20c to 30c per case for mackerel, and are quoted at \$4 to \$4.30 per case. Lobsters have gone up to \$4.50 to \$4.60 per case, and a further advance seems likely to occur before all the orders are filled.

FLOUR AND GRAIN.—English breadstuffs markets have been dull all week, owing to fine weather and brilliant crop prospects; to-day a decline of 3d to 6d occurred all round for wheat cargoes in Britain. Imports in the United Kingdom for the week show an increase of 20,000 brls. flour and of 30,000 qrs. corn, and a decrease of 95,000 qrs. wheat. Chicago wheat market was dull and unchanged to-day, while New York was quoted easier and about the per bush lower. The local grain and flour markets are as dull as is possible to represent them, under the influence of foreign advices. Values are firm but nominal.

FREIGHTS are easier, and quoted at 3s for spot engagements, and 3s 3d for forward grain space to Liverpool.

FRUITS. - Receipts of Apples, chiefly American, have been large, but the quality of the offerings was poor and trade has been dult. Sales have been principally in car lots at from \$2 to \$3 per barrel; a car load of fine Canadian Dutchess was sold at \$4 per barrel. Bartlett Pears are a glut in the market, and barely saleable; ripe stock brings \$3 to \$5 per barrel, and green fruit from \$5 to \$7. Of Peaches receipts from New York have been heavy, and sales have been made at \$2.50 to \$3 per crate; a few baskets of Canadian have been marketed and sold at \$1.25 per basket. Lemons scarce and in good request at \$6 to \$6.50 per box. In Grapes a small local trade is being done at 12c per 1b. for Concord, and 15c do. for Delaware. Blueberries from the Saguenay selling at 70c to \$1.25 per box, as to size of box.

Gnocenes.—Trade has shown some improvement the past week, and values have ruled pretty steady. Some improvement is also noted in remittances. Fruits.—The opening price in Denia for new Valentia Raisins was \$5 per quintal, and this unexpectedly high figure has strengthened the hands of holders both hiere and in New York, but no actual advance has yet been established. Stocks of Currants light and firmly held at \$\frac{1}{2} \text{c.}\$ In old Malaga Fruit the movement is very light. Sugars are moving off very well, but at exceedingly low prices, unremunerative to the producers. Tobuccos.—Owing to the position of the leaf market in Virginia and Kentucky, manufacturers have withdrawn prices for the present. In Teas there is an improvement in the turn, over of new Japans, and any good lots offering at from 35c to 40c find ready purchasers. In Kiec, Spices, and other articles, nothing new to report.

HARDWARE AND IRON.—Trade continues sensonably quiet, sales being small and restricted to sorting up orders from country merchants, received chiefly by letter. Remittances fair. Dealers in Pig Iron report enquiries from Western consumers more numerous, and freights from Glasgow having advanced is, per ton, this market is firmer for all grades, and an ad-

vance of 25c per ton all round is reported, but our quotations still cover the range. Sales of 500 ton lots of Summerlee have occurred at \$20.50, and Glengarnock and Carnbroe have changed hands in round lots at \$19.50 to \$20; for small quantities probably \$20.50 would be asked. Sales of Calder for fall delivery have been made in the West at about the basis of last week's quotations. Hematites in mixed lots changed hands at quotations. have also Canada Plates are in botter request at \$3.10 to \$3.15 for large lots of Penn. and equal brands, while for small parcels \$3,25 is charged. Plates, Bar Iron, etc., fule quiet and un-changed; in Liverpool tin plates are quoted firm at 16s 3d for cokes. A Liverpool report, dated 9th Aug, says: Iron remains as last reported, with a fair business doing, and most of the works supplied with orders for a month or two ahead; present rates are likely to exist until the close of navigation. In tin plates, prices have shown no alteration for some time, and while the demand is sufficient to keep quotations singularly level, any advance seems impracticable.

Hous & Skins.—Market steady, and values nominally unchanged. The butchers are not killing many beeves this hot weather, and prices of good cattle continuing high, owing to the export demand; the offerings of hides are small. For native stock dealers are paying 8½c to 9c for No. 1; 7½c to 8c for No. 2; and 6½c to 7c for No. 3. An advance of ½c to ¾c per lb. on these prices is obtained for inspected hides. Western States and salted hides unaltered. Sheepskins and Lambskins coming forward more freely, and all wanted at 50c to 55c each, as to size. Culfskins nominal at 10c per lb, the season being over

LEATHER .- On the whole trade is not so active as usual at this period, and it is generally believed that the bulk of the fall business will be done later this year. A good enquiry for desirable plump Sole continues to be experienced, and prime Slunghter finds a ready sale at from 27c to 28c. There is a fair demand for the better grades of crimping Splits at from 25c to 27c. In black leathers, there is not much movement to note; there have been fair sales of Upper, but the market is by no means active. Stocks of black leathers have not been so low for years as at present, and values are generally steady. Advices from New York and Boston state that the demand for Sole leather has decidedly improved, and the tone of these markets is stronger, better prices being secured in some instances. Rough and upper leathers are un-changed, but prices are steady, and the demana has been active.

LOWDER.—No change in the state of the lumber market. Trade continues, dull, the offerings being considerably in excess of the demand.

Outs.—For Steam Refined Seut the market continues firm at 70c to 72½c per Imperial gallon for large lots, which have been sold this week at 70c; stocks are not heavy, and the tendency is upward. Cod Oil rules inactive, the demand being only moderate, but stocks are light, and Newfoundland is held at about 62½c for round lots, while Halifax A is worth 58c to 60c. Cod Liver Oil is quoted at \$1.25 to \$1.30, without much movement. Cable advices report an advance in England of 6d sterling for Linseed, but there is no change to note in this market. Spirits of Turpentine is firmer at 62½c to 65c, as to quantity; the demand is fair, but stocks are light, and sales are small. A shipment of about 600 brls is expected here this week.

Statement of Banks acting under Charter, for the month ending 31st July, 1883, according to the Returns furnished by them to the Department of Finance.

Provisions,-The Chicago market seems to have dropped into stronger hands recently, and is being manipulated with a tendency towards higher prices; during the week pork in Obicago has advanced about 50c per brl., while lard is about 60c per 100 lbs. higher than last week. Yesterday, however, there was a slight reaction, and pork closed easy after quite a spurt, at a decline of 2½c to 5c per brl., while lard was also weak, and closed 12½c to 20c per 100 lbs. lower than on Tucsday. 12½c to 20c per 100 lbs. lower than on Tuesday. Business in this market has improved, and the demand for Western Mess Pork is considered very fair for the time of year, while prices continue firm at \$17 to \$17.50 per barrel, and 12½c to 12½c for Western Lard; round lots have changed liands during the week at these quotations. Canadian lard is worth about 12c. Hams scarce, but in limited request, at about 15c for city cired. Breakfast Bacon nominal, at 13½c to 14c. Hyps stendy, at 17½c to 18c, as to freshness; receipts fair for August, but demand is light.

Tobaccos.-Raw leaf tobaccos show an upward tendency, and in all probability an advance in prices may be seen ere long. Mean-while trade is quiet at quotations.

AMERICAN MARKETS.

Boston, Aug. 23. - Flour firm, steady demand. Superfine sold at from \$3 to \$3.75; Extras from \$4 to \$4.50, including choice Bakers' from from \$4 to \$4.50, including enoice basers from \$5 to \$6. TORONTO WHOLESALE MARKETS.

(Revised by Telegraph.)

Tonoxto, August 23, 1883.

General trade continues rather quiet. There was a slight improvement two weeks ago, which has probably been maintained, but it has not developed into anything better. Payments are said to have been rather light for some weeks past, Discounts unchanged. Sterling exchange is quiet at 108} between banks and 108g over the counter, for 60 day bills; demand bills are 1 per cent higher. New York drafts are sold at par between banks and at & premium to customers. Stocks quiet, and sales seasonably light. Among banks Montreal, Dominion and Hamilton have shown some advance. Miscellaneous shares show little change, Ontario and Qu'Appelle Land Co. was offered on Tuesday at 125 with 116 bid. Loan companies quiet. Following are the bids to-day, compared with those of last Thursday :-

Banks.	Bid Aug. 16.	Bid Aug. 23.	Loan Cos.	Bid Aug. 16.	Bid Aug 23,
Montreal Toronto Ontario Merchants Commerco Dominion Hamilton. Stand'd Federal Imper'l Molsons	114 121 1324 2004 116 1143 159	1843 1144 1214 133 2013 1164 116 160 142	Can. FLOUR.-The market has been gradually improving during the week, although up to Saturday there was not much change. On Friday a lot of Superior Extra sold outside at equal to \$4.95. On Saturday there was a sale of 500 barrels Superior Extra sold at \$5, and although the market is steady it does not seem that more than that would have been paid on Tuesday. The local wants appear to be the ruling element in regulating prices just now, for there is no export demand spoken of; and the price in the United Kingdom has not

given any reason for the advance here. was quoted on Tuesday at \$4.00; and Spring Extra, of which there is very little on the market, at \$4.75 to \$4.80. A lot of bags, Extra and Spring Extra, 100 lbs., bags included, sold on Saturday at \$2.371, which was the price asked also on Tuesday. The market to-day was still very quiet, with no improvement. Superior Extra could have been bought at \$5, but there is no demand. Stocks on Monday were 1,575 bbls.; against 1,340 bbls. on Aug. 13; against 475 bbls. Aug. 21, 1882; and 375 bbls. Aug. 22, 1883. Outneal is quiet, offered at \$5.10 for Standard, but probably \$5 would now be accepted. Cornmeal nominal at \$3.75 for small lots. Bran held at \$10.50, with \$10 bid. Extra, of which there is very little on the market

WHEAT .- There is still much difference of opinion as to what values will be during the coming season. The latest reliable opinions, based on information gathered on the spot, incline to the belief that the wheat crop in Europe will not be so deficient as to cause eager buying in the old country. The large crops of other food products, such as oats, rye. and potatoes, would alone nearly off-set the deficiency in wheat; but to these advantages must be added the immense reserves in store in nearly all the importing countries; and it is maintained that the short wheat crop has no significant bearing on the question of high prices. The United States will have on the crop year of 1893-84 with supplies, new crop and reserves of nearly 500,000,000 bushels; while Great Britain has reserves now of 33,000,000 bushels, which is double that of the deficiency in her crops. Prices here are steady. The market on Tuesday was quiet. A sale was reported on last Friday of No. 2 Fall at \$1.11.0 n Tuesday No. 2 Fall was quoted at \$1.11 to \$1.12, and No. 3 at \$1.10; No. 2 Spring was quoted at \$1.31 to \$1.14; and No. 3 at \$1.11. Goose nominal at \$1.03, which had sold on \$1.00 at \$1.00. At the market to-day prices seem to be rather easier, but there is no significant bearing on the question of high prices seem to be rather easier, but there is no change. Good opinion leans to the chance of lower figures. Stocks on Monday were 116,241 bushels; against 117,845 bushels August 13; against 84,477 bushels August 21, 1862; and 43,000 bushels August 22, 1881.

COARSE GRAINS, - Barley is quoted nominal at 75c for No. 1; 70c for No. 2; 60c for Extra No. 3; and 50c for No. 3. There is not much guessing at the figures for the opening of the barley season, but some of the dealers here would for October delivery at these prices. Stocks on Monday were 23,076 bushels; against 25,576 on August 13; against 4,802 bushels August 21, 1882; and 18,574 bushels August 22, 1881. Outs are easier, and prices are certain to be lower than they are now. Sales have been made of No. 1 at 41c, and it is probable that 40c would be accepted to-day; and bable that 40c would be accepted to-day; and No. 2 is quoted at 38c. Stocks on Monday were 700 bushels; against 1,100 hushels August 21, 1882; and 2,180 August 22, 1881. Peas are held steadily in value, and round lots would be bought at 78c for No. 2; and 80c for No. 1. Prices in Liverpool have been firm at 7s: 2d per cental. Stocks are 772 bushels; against 1,083 bushels August 13; against 4,723 bushels August 21, 1882; and 631 bushels August 22, 1881. Rye is quoted nominal at about 56c; and there is no enquiry and none offering. Stocks have been unchanged for some weeks at 341 there is no enquiry and none othering. Sickes have been unchanged for some weeks at 341 bushels; against 6,284 bushels August 21, 1882; and stocks ml August 22, 1881. The total quantity of grain in store here on Monday was 141,130 bushels; against 144,845 August 16; 100,386 bushels August 21, 1882; and 64,455 bushels August 22, 1881.

BUTTER .- Trade is exceedingly dull. The local business is over-supplied with ordinary store-packed goods. There are reported large

stocks in the farmers cellars, which are held for better prices. Dealers here say they have no encouragement from English houses to buy at the prices asked for selections in this market. It was said this morning that an agent had offered 13½c for shipping lots, but he could not get what he would have taken, at the price. There are increasing fears that the large quantities of butter will depreciate in quantity, and that heavy loss will fall on the holders. The local trade is supplied with ordinary grades at 13c to 14c in tubs; and 14½c for crocks and pails.

Hardware.—The wholesale trade is reported pretty good for the season, but retail men say now that this summer has been a failure, as far as general lines of hardware are concerned. It is thought that the aggregate business done by the wholesa'e trade will not foot up so large as last year, leaving the Winnipeg trade out of the count. Prices have been remarkably steady in the face of a reduced consumption, and nearly all manufactured metals here sold at good prices. Quotations are:—Barbed fencing wire, galvanized, 8½c; painted, 7c; Canada plates, Boar's head, \$3.35c; Ponty pore; \$3.35; cut nails, per keg, 10d to 60d, \$3.10; 8d and 9d, \$3.35; 6d and 7d, \$3.360; 4d and 5d, \$3.85; 3d, \$4.60. Copper, ingot, 19e to 20c; sheet, 25c to 26c; bar, 30c to 33c. Bar iron, Nova-Scotin, \$2.50; ordinary, \$2 to \$2.10; hoops, coopers', \$2.50 to \$2.60; band, \$2.50. Manilla rope, 13c to 13de per 10; deep sea, 14c to 16c. Window glass is rather quiet and unchanged. Steel is steady, at prices 12c to 13c for cast, and 2|c to 2|c for sleigh shoe. Tin steady, bar, 26c to 28c; ingot, 24e, to 25c.

Grocraies.—The business keeps rather quiet at the small advantage recently reported; and it is admitted that there is no likelihood of any boom in the trade this fall. Country buyers are pursuing a very strict policy of keeping their orders small. But a somewhat better trade is certain during next month. Quote, Coffices quiet at 18c to 25c for Juva; 10c to 11c for Rios; and 30c to 38c for Mocha. Ruisins are improved in tone, and Valentias are steady at 6c to 7c. Spices quiet; allspice 17c to 20c; Cassia, whole, 18c to 20c; cloves, 25c to 40c; ginger, ground; 25c to 35c, root, 23c to 27c; nuture, 75c to 81.15. Sugars, Porto Rico, dark to fair, 7c to 74c; bright to choice, 74c to 8c; Canada refined, 63c to 84c; Standard granulated, 83c to 9c; Paris lump, 10c to 104c; Seotch refined, 63c to 74c. Syrups unchanged. Teas steady, but promising firmness. Tobaccos, dark, 313c to 323c; Western Leaf, 314c to 342c; bright, 48c to 55c; choice, 70c to 75c.

LEATHER.—Trade is still rather quiet, but an improvement is looked for about the beginning of September. Any great improvement, however, is not expected. Prices are nearly stationary. Sole leather is rather firm. Spanish sole, all weights, 28c to 30c; and for No. 2, 25c to 28c; slaughter heavy, 28c to 30c, and light, 27c to 29c. Hemlook harness, leather, 28c to 33c; oak harness, 45c to 50c; hemlook belting, 34c to 43c, according to quality kips, French, 75c to 95c; English, 70c to 75c; Ohicago slaughter, 65c to 75c; native slaughter, 45c to 60c; splits, large, 28c to 33c; buff, 16c to 18c; pebble, 14c to 18c; russets, shoc, 40c to 50c; sadlers, \$8.50 to \$9. Hemlook calf (36 to 40 lbs. to the dozen), 75c to 90c; light, 60c to 70c; French calf, \$1.10 to \$1.40. Ood oil, 65c to 70c; per gal. Straits-oil, 55c to 60c; gambier, 7c; Sumach, 42c to 5c.

Live Stock Trade.—The market has been irregularly well supplied during the week. Prices are easier for nearly all animals. At Tuesday's market there were some 10 loads of cattle. There were about 40 head of shipping cattle; beasts ranging from 1250 to 1300 lbs., brought \$5.50, and has cattle from 1350 lb, up-

wards brought \$6 per 100 lbs., live weight. Butchers' cattle are easier also, and brought for ordinary to good, \$3.50 to \$4.50 per 100 lbs; and fine beast of 1,200 lbs. sold at \$5 per 100 lbs. live weight. There were no sheep offered, and prices are quoted at about 5c to 5½c per lb. live weight. The supply of lambs has been very fair at recent markets, up to that upon last Tuesday when there was a falling off in the supply. Prices are still fair, at \$3 to \$4 for lots; and for choice beasts, \$4.50. Calves are not in much request, and prices are almost nominal; good animals are worth 7c to 9c per lb. dressed weight.

Provisions, ETC .- Trade is pretty good, meats are moving freely in ton and box lots, but the prices are disappointing, and dealers here will net a loss. Bucon is unchanged at 92c to 10c for tons and cases of long clear. Cumberland at 9e to 9le. Hams are scarce and firm ; pickled sell at 12c to 12lc in tierce lots; smoked at 14c Lard weak, and offered in large lots at 12c; small lots of pails at 12½c to 123c. One dealer is said to have a large lot of tubs which he offered to day at 11c. Pork nominal at \$18. Beef moving at \$16 for prime and \$17 for mess. Butter quiet at 13c to 14c for store-packed. Cheese easy at 10 to 11c for small lots. Eggs firm at 16c to 17c for fresh in cases; no pickled offering. Dried Apples very slow at 10c for common, and 15c for evaporated. Brans moving in small lots at \$1.60 to \$1.80 per bushel. Polutoes stendy at \$2 per barrel. Hops quiet, offered at 35c, but buyers holding off for lower offered at 35c, but buyers holding of for lower prices. Fruit, green, steady, and in only moderate supply; peaches 75c to \$1 65 per basket; pears 70c to \$1 per basket; apples \$2.20 to \$3 per barrel; plams \$1.35 to \$1.50 per basket; huckleb-tries \$1.35 to \$1.50 per 16 qrt. crate. Petroleum steady at the for common, and 17c for carbon safety Canadian, and 25c for prime and 25c for prime and 28c for water white American. Salt steady; coarse Liverpool in bags, 65c in car lots; fine Liverpool, 5-15s bags, a 50c in small lots; Canadian \$1.35 per barrel in car lots; dairy salt in 3 lb bags, at \$3.75 per barrel in small lots.

Woon.—There is no change in the way of improvement. Consignments are arriving in the city in greater quantity, and movement of stock is more general; but prices are not improving. There is still only a very unsatisfactory inquiry from the United States dealers, and prices offered do not prompt to transactions. The U.S. markets are reported moderately active, but prices are not expected to advance. Prices puid here are 19c to 194c for selections of Leicester fleece, and 16c to 17c for cotswold. Rejected at 12c to 14c. Southdown pure bred is worth 26c; part bred 22c to 23c according to quality. Selling to factories is still only in moderate extent. Pulled wools are selling at 25c to 26c for Supers, and 30c to 31c for extra Supers.

We have much pleasure in announcing that our Stock for the approaching Autumn and Winter Seasons will be one of the most complete in all respects we ever imported. As heretofore, our object will be to have the

LATEST NOVELTIES

in every department; and this season we are safe in saying that we shall far excel all former efforts; so that our customers may rely upon seeing the

VERY LATEST DESIGNS

in French, British and other European products.

We beg to call special attention this season to our carefully selected and fashionable stock of

Fancy Dress Goods,

ALSO TO OUR

French Cashmeres and Merinos,

all of which will be quoted at special prices.

In Cloves, Hosiery, Laces, New Fringes, Trimmings, &c. our stock will prove exceedingly attractive.

Our Fancy Woolens, Knitted Goods, &c., have been specially manufactured for us, and we shall be prepared to offer extra value in these goods.

The HABERDASHERY STOCK will, as usual, be very complete, especially in French, English and American Buffons. New designs in Cretonne Fringes, Stylish Plain and Fancy Braids, in Blacks and Colors. Full lines of Men's Silk Handker-chiefs and Braces: Special attention called to our Fingering Wheeling, Shetland, and Berlin Wools.

WHAT THE PUBLIC WANT.

PRIVILEGES. CONDITIONS

On their Life Policies.

The unconditional policies of the

SUN LIFE ASSURANCE CO. of Montreal,

contain not one condition, but have the following privileges on them:

- 1. Liberty to travel anywhere without extra.
- 2. Liberty to engage in any occupation without extra.
- 3. Thirty days of grace for premiums.
- 4. Policy may be revived within a year after lapse.
- 5. Paid up policies given for definite amounts after three years.
- 6. Loans made after two years.
- 7. Policy indisputable after two years.
- 8. Any difference to be referred to arbitration. Compare this with ordinary policies.

The Company is very strict in admitting persons to these benefits, but it is evident those who get them get privileges no other Company in Canada gives.

It is universally admitted to be by far the simplest and most straight-forward policy in use in this country.

Leading Hotels in Canada.

ST. LAWRENCE HALI

THIS HOTEL WAS OPENED on the First of May, 1879, by the former Proprietor, so long and favorably known throughout Cauada, the United States and British Empire, who has spared no expense in entirely Re-Furnishing the whole thouse; also adding ALL MODERN IMPROVEMENTS, which will considerably enhance the already enviable popularity of this First-class Hotel.

H. HOGAN, Proprietor.

S. MONTGOMERY, Manager

OTTAWA.

THE PALACE HOTEL OF CANADA.

This magnificent new Hotel, fitted up in the most modern style, is now Re-opined. The Russell cintuins accommodation for over FOUR HUNDRED GUESTS, with passenger and baggage elevators, and continuous a splendid view of the city, Parliamentary grounds, river and canal. Visitors to the Capital having business, with the Government find it most convenient to stop at the Russell, where they can always meet the lending public men. The entire Hotel is supplied with escapes, and in case of fire there would not be any confusion or danger. Every attention paid to Guests.

JAS. A. GOUIN.

PROPRIETOR.

Preston Mineral Baths & Summer Resort PRESTON, ONT.

EXPERIENCE has proved that the continuous use of the water with which the Preston Mineral Baths are supplied, used internally and externally, is of great benefit to invalids suffering from Gout, Nervous Debility, Diseases of the Stomach, Liver and Kidneys, but more especially Skin Diseases. Sufferers from Rheumatism, will find that using these waters will almost always effect a cure: Stage Line between Preston and Berlin meets G. W. R. and G. T. R. Trains.

Guarantee Capital Government Deposit,

WRITES LIBERAL POLICIES

Without burdensome conditions.

NON-FORFEITABLE POLICIES.

Example:—Age 35—\$1,000 Ordinary Life Policy. Payment of three annual Premiums will keep the Policy in force 5 years and 298 days. The same number of Premiums on an Endowment or Term-payment Life Policy will keep it in force a longer farm. DAVID DEXTER,

Managing Director.

Head Office, Waterloo, Ontario.

DOMINION DEPOSIT, - - - \$56,207.00.

The only Purely Mutual Life Company in Canada.

Total number of Policies in force, Dec. 31, 1882, 4,335 \$5,504,478 00 Covering Assurance to the amount of Net Cash Assets 365,328 71 Net Reserve to Credit of Policy-holders, 383,044 59

The Company's Reserves are based on the Actuaries'." Table of Mortality," and four per cent. interest—the Highest standard adopted by any life company in Canada, and one-half per cent. higher than the standard used by the Dominion Insurance Department.

The rapid growth of the Company may be seen from the fact, that in 1870, the first year of its business, the total assets amounted to only \$6,216, while last year they reached the handsome total of \$427,429!!

THE ACCIDENT INSURANCE COMPANY OF NORTH AMERICA possesses a record for both reliability and liberality, one proof of which is that it has paid over two thousand losses and has NEVER contested a claim at law. It has ample fin netal resources, and has made the Special Deposit with the fusurance Department at Ottawa. It is, moreover, the only Company whose capital and funds are solely applicable to Accident Insurance.

CEMEN

A great deal has been said and written within the past few weeks about Cement Roofing. The Sparham Fire-Proof Roofing Cement Company claim a number of things to which they have yet to show their right. Amongst other assertions they claim that we will not be allowed to lay Roofs with the compound called "Sparham Cement."

To this we reply—and state to the public,—that we will continue to use this Cement on Roofs when such is contracted for by us, in

the same manner as heretofore.

If the Sparham Company have any legal means of preventing us from supplying our customers in this manner, they are at liberty to use them. -but our opinion is that this Company is not entitled to any monopoly in the matter,

Our Price for Roofing with this Cement is \$6.00 per Square.

We would direct your attention to

Actinolite Roofing Cement

Patented in United States, January 2, 1883. Patented in Canada, January 5, 1883.

This is a new cement composed in part of a material never before used for roofing. Actinolite is a fibrous material, found in large quantities in the Township of Elezever, County of Hastings, and in the Township of Kaladar, County of Lennox. Large deposits of this mineral are owned by Messas. James Bros. & Co., who have, during the past two years, been working them; they also have a mill with a capacity of about 400 bags per 24 hours, situated at Bridgewater, Ont., where they grind the Actinolite ore, preparatory to its being

a capacity of about 400 bags per 24 hours, situated at Bridgewater, Ont., where they grind the Actinolite ore, preparatory to its being mixed with Coal Tar, thus forming the cement.

JAMES BROS. & Co. do not sell the cement ready for use, they only sell the ground Actinolite in bags, each holding sufficient quantity of material to cover one square of roofing. The purchasers have the right to complete the mixture and lay on the roofs. Every roof laid with this cement will be stamped, thus indicating to all interested the material of which it is composed.

We are prepared to lay on this cement at a price far below that heretofore charged for such work. This we are enabled to do, as the ground Actinolite is sold by James Bros. & Co., at 75 cents per bag, while the Sparham Co. sell their cement at \$1.40 per bag; the contents of either bag will do the same amount of work.

If the Sparham Co. had sold their material cheap enough to enable roofers to lay it on at a popular price, Mesers. James Bros. & Co. might never have started their present business, but the Sparham Co. did not choose to do so, therefore the trade is taken by those better

able to satisfy the public.

We do not say that the Roofing known as Sparham Cement is anything but a good article; it has proved itself to be such when properly laid, but unless it is carefully put on it is likely to prove a failure, for it must be a very good article that cannot be injured by faulty workmanship. All the Sparham Cement roofs laid on by us have thus far given satisfaction, and we will endeavor to keep up our reputation.

It is no argument, however, that if one article is good, another cannot be as good or better. What is required is a test, and that can be had without waiting a great while, if those interested will take the trouble to compare the merits of the

different articles.

We now offer for comparison, without taking the difference of price into calculation; the Actinolite Patent Roofing Cement and that

known as "Sparham Cement."

The cement sold by the Sparham Fire-Proof Roofing Cement Company, is compased of Soapstone and Mica, mixed with Coal Tar. Soapstone and Goal Tar cannot make a good roof alone, something being required to keep the cement from cracking, therefore the Mica is put in. This Mica makes the "bond" that prevents cracking, and if it is not put in in proper proportions and thoroughly distributed in the Soapstone, uneveness of texture occurs which results in a defective roof.

Actinolite requires nothing more than itself to make a "bond." The fibre cannot be destroyed in the process of grinding in Attrition mills and its texture is perfectly even and regular throughout.

It makes a better "bond" than flakes of Mica, or it would not remain perfect in some of the angular positions in which we have

placed it.

If the cement composed of Soapstone and Mica should be so placed, it would at once slip off the roof. This has happened with Sparham Cement, and although Actinolite Cement is on some roofs where we would not dare to put the other, it has not come off yet,—

what it may do time will tell,—but experienced men say that it cannot make anything but a good job.

Another point:—Neither the Actinolite nor the Soapstone and Mica would make a roof if not mixed with Coal Tar, therefore the more of the latter the better, if it does not run off the roof, and we claim that if the same quantity of Coal Tar was put into the cement composed of Soapstone and Mica, as is put with the ground Actinolite, it would flow like water and would not require a trowel to spread it. This difference can be easily demonstrated, as we have both cements at our shop, and will mix them in the presence of any one wishing to see the above result.

If there was no fibre in ground Actinolite, a bag of it ought to weigh about the same as a bag of the same size filled with Soapstone and Mica,—the result, however, being that a bag which will hold 150 lbs. of Soapstone and Mica, will only hold 100 lbs. of ground Actinolite. A careful investigation of the two articles is what we ask.

The advantages of the Patent Actinolite Roofing Cement over that composed of Soapstone and Mica are as follows:-

A NATURAL BOND-Not foreign to the material. MORE TENACIOUS-Will never run. MORE ELASTIC—Will never crack.

This we claim places the Patent Actinolite Roofing Cement in the front rank, where we expect it to remain; and that it is second to none.

The Trade supplied with this cement by James Bros. & Co., Bridgewater, Ont-Agents Wanted in all Cities and Towns in the U.S. and Canada.

OUR PRICE FOR ACTINOLITE CEMENT ROOFS IS \$4.50 Per SQUARE.

Yours truly,

JOSEPH JAMES & CO..

Corner Latour Street and Busby Lane.

MONTREAL, AUGUST 9th, 1883.
