OVER 150 THE DEATH TOLL
OF NEW YORK FIRE HORROR

Trapped in the Upper Floors of
Big Factory, Girls Perished in
the Flames or Came Hurting
Thru the Air to the Pavement
—Heartrending Scenes at
Morgues—Deeds of Bravery.

PROSECUTIONS MAY
FOLLOW AN ENQUIRY

NEW YORK, March 26.—One hun-
dred and fifty persons—ninety-four of
them Jewish and Italian girls from the
east side—were crushed to death on the
pavements or smothered in smoke or
strangled in a factory fire yester-
day afternoon in the worst disaster
New York has known since the steam-
ship General Slocum was burned to the
water's edge off North Brother Island in
1904.

One hundred and forty-one bodies
had been recovered from the ruins at
midnight last night, and seven of the
fatally injured had died in hospitals.
Two more were found to-day.

Mixed marriages formed the topic
for a startling discourse by Rev. Father
Minehan at St. Peter's R. C. Church
last night. The large congrega-
tion manifested keen amusement at the
humorous thrusts envenoming the
sermon.

State Law Not Violated

There was more in the matter than
a quarrel between church and state. It
was not a question of a state law being
violated. The opponents of the decree
charged that the Catholic Church
had broken up the home. There was no
other religion which recognized the
home to the same extent as the Catho-
lic Church. It has the deepest interest
in the home. He did not mean the
habitation, but the union in which the
lives and interests of two became one.

Many Died in Their Chairs

The building stands to-night with
shell intact and barely scoured, rather
only smudged; the partitions of archi-
tectural tiling between floor and floor
were sound, and it is impossible for one
who did not see it to imagine how
flames in so short space could have

Some Notable Fire Horrors.

Two Opposing Views of
Mixed Marriages

Catholic Church Not a Home-
Breaker, Declares Rev. Father
Minehan—No Question of In-
terference With the State—
Definition of True Marriage.

Mixed marriages formed the topic
for a startling discourse by Rev. Father
Minehan at St. Peter's R. C. Church
last night. The large congrega-
tion manifested keen amusement at the
humorous thrusts envenoming the
sermon.

The regular morgue was far too small
to accommodate the dead, and the so-
called Charities Pier bore the bulk of
the charred burden. The bodies were
ranged in long lines down both sides
of the pier, each in a brown stained
wooden coffin, such as the city provides
for its pauper dead.

Every Home Must Be Free From
Outside Coercion, Says Rev. Dr.
Hinks—"Frozen Statcraft"
of Rome an Intruder Where
Woman's Heart is Involved.

Crowded aisles and packed benches
in Broadway Tabernacle last night in-
dicated to some extent the immense
public interest that had been aroused
over the application of the "No temere"
decree of the Roman Catholic Church
in this city. Rev. Mr. Hinks preach-

ed with his usual sincerity and force
and abatement of metaphors, discussing
"Roman Catholics and Betrothals,"
and using the romance of Isaac and
Rebecca as a structural ground. "And
they said unto him, 'Thou art a man of
truth, for thou hast answered, I will
go,'" was the special text, taken
from Genesis xxiv, 68.

Frozen Statcraft of Rome.

Returning directly to the "No temere"
decree, he declared that Roman Catholicism
had intruded in the betrothal for the
first time in its history, the rights of
the betrothal were shown that the
new marriage law was a revival
of one in force 300 years ago.

Canadian Ideal is Freedom.

"The Canadian ideal for its youth is
freedom, but this law is against all
that. Much as we regret mixed mar-
riages, there should be freedom and
equality to all, and special privileges
to none."

WILL CANADA STAND FOR THIS?

MANY INTERRUPTIONS
AT FIELDING MEETING

Audience Was Far From
Unanimous—Finance Min-
ister Says Manufacturers
Are Setting East Against
West—Announcement Cry a
Scandal and a Shame—
Replies to Casgrain and
Van Horne.

MONTREAL, March 26.—(Special.)—
The pro-reciprocity demonstration,
which took place Saturday evening in
the Windsor Hall, was well attended,
although it did not reach the popular
proportions of the meeting that greeted
the Hon. Clifford Sifton a week
ago.

MADE NO CONVERTS

MONTREAL, March 26.—(Special.)—
The demonstration last evening was a
disappointment to the supporters of
reciprocity. At least one-half of
the audience was hostile to the
minister of finance. Questions
were hurled at the speaker,
and the meeting broke up in a
disorderly manner.

Replies to Casgrain.

Mr. Fielding was given a warm
reception. He opened by replying to
Mr. Theo. Chase Casgrain's attack on
him at Mr. Sifton's meeting. Mr. Cas-
grain, he said, had made statements
which were worthy of a schoolboy
when he declared that Mr. Fielding
was an advocate of annexation to
the United States.

Cabinet Changes
Not Acceptable

Montreal Organ Protests Against
Brodeur's Portfolio Going to Dr.
Beland of Beauce—Metropolis
Should Be Recognized.

MONTREAL, March 26.—(Special.)—
A special from Quebec says: "Hon. L.
P. Brodeur will go to the supreme
court bench, replacing Judge Grouard;
Dr. Beland, M.P., will be minister of
marina, Sir Louis Jetté will be retir-
ed and Judge Horace Archambault
will be chief justice of the court of
appeals, while Mr. Horace Gervais, M.
P., will also be appointed to the same
court. Sir Francois Langelier will be
appointed lieutenant-governor of the
Province of Quebec.

WHERE IS INJURED MAN?

An auto accident occurred at Queen
and McCaul streets last Saturday
night, wherein a man giving the name
of James Edwards, and the address of
125 Dowling avenue, was struck by a
speeding motor car as he was alight-
ing from a trolley.

THIRTEEN VICTIMS.

VANCOUVER, B.C., March 26.—
Thirteen was the death toll in the
foundering of the steamer Sooke off
Sooke Harbor, in Straits Juan de Fuca,
on Friday afternoon. Among the
known dead are:

VIADUCT APPEAL
WON BY THE
CITY

Decision of Privy Council
Makes Grade Separation on
Esplanade Assured—Cost
Will be \$6,000,000, of
Which the City Pays One-
Third—Fight Lasted Four
Years.

LONDON, March 25.—Solicitor, 10-
point: Appeal dismissed after three
days' argument. Original order stands.
Reasons to be given later.—Devart.

This is a copy of the cablegram
received by the city's legal department
a few minutes after 1 o'clock on Sat-
urday. It was a message that was re-
ceived by Corporation Council Drayton,
City Solicitor Johnston and the various
other officials of the legal department,
with the utmost satisfaction. It means
that the city wins in the highest tri-
bunal its effort to make the Canadian
Pacific and Grand Trunk Railways
carry out the order for a four-track
viaduct along the Esplanade. It means
the end of a legal battle which arose
out of an agitation in the council start-
ed in January, 1907, for a separation of
the grades of the railways, entering
the city along the water front. It was
on Dec. 31, 1908, that the order of the
Canadian Board of Railway Commis-
sioners was issued for the relocation
of the tracks coming in from the east
and the depression of the tracks west-
ward. Thus in the dying hours of that
year they started the litigation.

DR. CHAS. M. STEWART
KILLED BY A TROLLEY

His Horse Shied, Throwing Him In
Front of the Car -- Was
Badly Mangled.

Dr. Charles M. Stewart was instantly
killed Saturday night when being
thrown from a horse in front of a
Metropolitan car (southbound). He
was riding out with wife, Balfour, 167
James-st., and Walter, Bedford
Park. The party were returning
from a north Yonge-st. jaunt,
when one of the horses shied at the
noise of an approaching Metropolitan
car, southbound, near Christ's Church
square, frightening the mount ridden by
Dr. Stewart. Dr. Stewart's horse backed
up, his haunches colliding with the
front of the car. The animal reared, throwing
the rider onto the car tracks into the path
of the car.

ANOTHER RAILWAY ACCIDENT

C. P. R. Coaches Went Over Embank-
ment Near White River.

HYDRO POWER SPREADING.

Hydro power was turned on in the
western and northern parts of the city
Saturday night, and gave prime satis-
faction.

Postmaster of Listowel Dead.

LISTOWEL, March 26.—Postmaster
Thomas E. Hay died here to-night,
aged 71 years. He has been ill for
about a year and last fall underwent
an operation in a Toronto hospital. He
was Liberal in politics.

EATON-BRAND---The Young Man's Clothing

There's a fit, style and finish to the EATON-BRAND that appeals particularly to the young man, and there's such a great assortment here that every man can be suited, no matter what price he wishes to pay.

A man who buys a ready-to-wear suit of clothes knows when he makes his purchase how his clothes look and fit. That's the advantage of buying the material you favor all ready made up into a suit.

The man who buys an "EATON BRAND" ready-to-wear suit has the added advantage of knowing that the style and fit he sees in the suit he buys will be retained.

An "EATON BRAND" label in the inside coat pocket of a suit of clothes is a guarantee that that suit is correct in style, designed by an expert, who makes several trips to New York every year to study the latest ideas in Men's clothing. It is a guarantee that the material in the suit is a fashionable pattern. It is a guarantee that

the suit will retain its style, and it is a guarantee that you are getting big value for your money.

In constructing an "EATON BRAND" suit, the cloth is always cold-water shrunk, the details that give a suit style and permanence of shape are worked by hand by high-class tailors, the shoulders, collars and lapels of the coats are formed by hand, padded and reinforced to retain their shape and the fronts are inter-lined with canvas and haircloth that extend the whole length of the coat. The staying materials and tapings used are of pure linen, the body linings and trimmings are of good quality materials, and the button-hole work and fine trimmings are done by hand. The pockets are made on a new plan that prevents them sagging and are lined with good wearing material. The trousers are cut according to the dictates of the season's fashion.

Three Excellent Values for the Man Who Wants an \$18.00 Suit

Eighteen dollars is a popular price for a man's suit and here are described three very popular suits at that popular price:

One is made of a finely finished Scotch tweed of beautiful texture—a light brown two-tone shade in a very neat narrow stripe weave, showing a dark red single thread stripe that gives a very pretty effect. This suit will give excellent satisfaction for summer business wear, being of a material that will stand lots of wear and will not show dust or stain. It is in a single-breasted model with a smartly cut front, shaped and built for style, fit and to be shape-retaining.

The close-fitting collar, medium shaped lapels and natural shoulders being moulded by hand, and the fronts reinforced with haircloth. Price 18.00

Another is of black vicuna cloth—a very durable material easily kept clean, and one that will not readily gloss—single-breasted sack of fashionable length—tailored in the "EATON BRAND" style, shoulders are well worked up—lapels neatly formed and of medium length—good linings and trimmings. Price 18.00

Here's a Rare Snap in Workingmen's Suits, \$4.25

Here's the reason why we're able to make such an offer:

We were able to purchase a line of men's spring-weight working suits at a specially low price. There were not enough suits in the line to allow us to place them in our regular stock, so we decided to clear them out as quickly as possible.

They're made of English and Canadian cloths in browns, greys and dark fawns in neat shadow stripes and checks—3-button single-breasted sack style—a few double-breasted models in the lot—well made and lined with good quality Italian cloth. Price 4.25

These Reefer Values Will Appeal to Mothers of Small Boys

Boys' Spring-Weight Reefers—double-breasted model—anchor brass buttons—emblem on sleeve—soft velvet navy blue serge with Italian cloth linings; sizes 21 to 28. Price... 2.19

Boys' Reefers—spring weight, made from an imported English fawn covert cloth—all-wool fabric—three-button double-breasted style—self collar—fancy emblem and neat stitched cuff on sleeve, serviceable body linings; sizes 21 to 27. Price 4.50

Natty Peter Thompson Spring-Weight Reefer—imported all-wool navy blue chev, fancy buttons, cuff and strap on arm—durable linings and trimmings; sizes 21 to 27. Price... 4.25

Boys' Reefers—spring-weight—in patterns of two-tone grey with diagonal and basket weaves and black designs—the season's new double-breasted models with self collars—emblem on sleeve—well serge linings—very smart in appearance; sizes 21 to 28. Price 4.00

VIADUCT APPEAL WON BY CITY

Continued From Page 1.

noted member of the British bar. The opposing forces were headed by Sir Robert Finlay, K.C., the most prominent name in the British courts with the possible exception of Sir Edward Carson, and included E. Douglas Armstrong, K.C.; Angus MacMurtry, K.C.; and A. R. Croftman, K.C., of the Canadian bar, and Geoffrey Lawrence, a prominent English barrister.

With this array of talent a protracted battle was looked for and the news that the case had terminated after three days' argument, came as a decided surprise to the city officials.

The order of the railway board was for all the railways entering the city by the routes along the waterfront and the Grand Trunk decided to comply with it while the C.P.R. refused. It is as follows:

"It is directed that the railway companies submit to the board within sixty days from the date of this order, a plan showing at least four tracks of railway elevated and carried over the street now open in the city between York and Cherry-streets, both included, a height sufficient to give a clear headway of not less than 14 feet at the present level of the street and superstructure at each crossing, and showing John-street, Spadina-avenue and Bathurst-street, carried over the railway tracks by bridges at a height sufficient to give under each

bridge, a clear headway of 22 feet, 8 inches at the rail level.
"2. That within two years of the approval of said plan by the board, the street be extended from the present terminus to the waterfront.
"3. That within two years of the approval of said plan by the board the railway companies alter and arrange their yards and sidings so that no tracks on ground level shall cross York-street, Bay-street, Yonge-street or Church-street in said city.
"4. That after two years from the date of approval of said plans by the board, no locomotive or car be moved on tracks at ground level between Church-street and York-street except between the hours of 10 p.m. and 6 a.m. during the season of lake navigation and 7 p.m. and 6 a.m. during the remainder of the year, provided, however, that cars containing fruit and other perishable merchandise may be moved across the streets within the said limits between 5 a.m. and 10 p.m. when a flagman on foot precedes the train (engine, car or cars) to warn persons on such streets that a train is approaching.
"5. That no amount be to the city as damages or otherwise for any city property which may be taken or used by the railway companies in the elevation of their tracks or the rearrangement of their terminals as shown on said plan.
"6. That the city shall pay one-third of the cost: (1) of the elevation of four tracks, excepting rails and track-laying at John-street, Spadina-avenue and Bathurst-street; and (2) of the substructure of the elevation of necessary tracks at the proposed new union station, with a concourse such as that suggested by the plan presented by the city.
"7. That all consequential damages (other than those of the city and railway companies), recoverable by reason of the elevation of the tracks of the railway companies, in accordance with the plan approved by the board, be adjusted or settled by the city; and that after settlement, two-thirds of the amount required to make such settlement be paid to the city by the railway companies.
"8. That the manner and expense of removing York-street bridge and the extension of York-street as herein ordered be arranged between the city and the railway companies; and that in case they fail to agree, the points at issue be referred to and settled by the board.
"9. That the proportion which each railway company shall pay of the cost of carrying out the provisions of this order and the amount which either of the railway companies shall pay to the other, with consequential damages suffered by it thru the carrying out of the provisions of this order, be determined by mutual agreement between the railway companies; and in the event of their failing to agree, the questions in dispute be settled by arbitration, pursuant to the arbitration clauses of the Railway Act, or by an expert to be chosen by the railway companies or by the board.
"There remains nothing for the C.P.R. to do now but proceed to carry out the order which will go into effect immediately. All that has been gained by the railway company is a delay of a trifle over two years in starting to fulfil the provisions of the order.
"That that splendid," exclaimed Corporation Counsel Drayton when spoken to about the decision. "Now you can see the force of my argument

to send Mr. Dewar over. I knew he would give a good account of himself and he has. I could not have gotten away from the work here anyway. As it is known, we have everything going smoothly and have a favorable decision on the viaduct also."
"It will make things much easier for us in the waterfront improvement scheme," said Controller Spence. "I am pleased to hear it."
"It is good news," exclaimed Controller Hocken, who, with Controller Ward, fathered the movement for grade separation, "and we owe a debt of gratitude to the board of trade in the matter."
"I am certainly glad to hear it," said Controller Ward. "It means a great deal to the city in its schemes for waterfront improvement. I, for one, am delighted that we have succeeded."
City Engineer Rust was delighted with the news. He, like others, was rather surprised that the decision had been reached so soon. He estimates the cost to the city at \$2,000,000. This would make the share of the railways \$2,000,000 each, bringing the total cost up to \$6,000,000.

REUNION SERVICE

Principal Gandler Preaches at Dale Presbyterian Church.
Prof. Gandler of Knox College preached yesterday morning at the special services in Dale Presbyterian Church. It was a reunion service for the old members of St. Mark's, and Prof. Gandler, who was a former pastor, received a great ovation from the congregation.
His sermon was on the first seven verses of the 54th Psalm, and he strove to show the power and influence of the house of God at all times, and at all seasons. The people of to-day place God too far away, he stated.
The afternoon service was the formal opening of the Sabbath school. His Honor Lieutenant-Governor J. M. Gibson presiding. His honor gave a very interesting address to the officers and children, impressing upon them the great need of earnest work. Short and pointed addresses were also made by Col. Turner of the Salvation Army and Rev. J. C. Robertson, secretary of the Presbyterian Sabbath Schools.
It was very interesting to see the children come up on the platform and donate their mite boxes towards the building fund. Four hundred and thirty dollars was contributed, the adult Bible class giving \$200.
T. C. Robertson, K.C., delivered a strong address on "Indifference" at the evening service, showing that there was a great deal of indifference in the attitude of the people of to-day, and on account of that crime and suffering were on the increase. Two or three hundred people were turned away from the evening service.
Next Sunday will be "red letter" Sunday, and it is aimed to raise enough to the services to clear the note in the bank. Mr. Morrow especially desires all envelopes that are still out among his friends thruout the city to be brought in at these services.

GIFT WOULD BE ACCEPTED BY JINGLE SAM AS A RIGHT

Weak and Foolish Suggestion to Conciliate Americans by Saying Nothing Against Reciprocity.
(Canadian Associated Press Cable).
LONDON, March 26.—A special article in the Sunday Times says agents of the peace movement, "being particularly weak and foolish suggestion is being made. We are being told that to conciliate the U. S. A. we must say nothing at all against reciprocity, on nothing at all against reciprocity, on nothing at all against reciprocity."
"Now, if I know anything about Uncle Sam, this sort of generosity will not at all impress him. He will take it as a weakness, accept the gift as a right and renew negotiations from a stronger position. This arbitration treaty must be between the British Empire and the United States, not between England and the United States. The United States respects us as an empire. Merely as England, we are a European power of no great importance. As an empire we can "do a trade." As England we can offer no things. Therefore we give away our position if we offer the United States part of our empire before we negotiate.
"If this point of view were put to Laurier it might help him out of his present awkward position. He might be able to force a stronger question of an alliance of the empire and the United States. It might be suggested to him that he should drop reciprocity until the alliance were carried thru."
"The whole thing might be discussed at the imperial conference. It is a really big thing and should be looked at from a big point of view."

FOUND SOUTH'S BODY

Had Been Washed Quarter Mile Down Stream—Partly Covered With Gravel
BRAMPTON, March 26.—(Special.)—After a two weeks' diligent search the body of Kenneth South was found this afternoon. The young man was working on the mill dam at Meadowvale with Henry Brown, the owner of the mill. The ice gave way, both losing their lives. Mr. Brown's body was found the third day after. From that time on large forces have searched constantly for the body of young South, but without success, until to-day, when the water was drained from the river-bed below the dam. It had been washed about a quarter of a mile down the stream and was partly covered with gravel.

WELCOMED NEW PRESIDENT.

There was a large congregation last evening at the service of the British Welcome League to welcome the newly-elected president, Mr. Benjamin Westwood. The lecture hall of the institution was filled to overflowing. Hon. Thomas Crawford introduced Mr. Westwood, and congratulated the League on their selection of so worthy and able a man as successor to the late president, Mr. Albert Chamberlain. During the service upward of 50 newcomers arrived from the steamers Gramplan and Victorian, who were refreshed with tea and bread and butter. They all remained at the league for the night.

Dunlop Leadership Supreme

The three big auto shows of Canada are over, and the spirit of automobilism is broadcast as it never was before.

To you, the man who owns a car; to you, the man who intends to purchase a car, the tire verdict of the shows is important.

DUNLOP TIRES MADE THE HIGHEST TOTAL SHOWING, JUST AS THEY DID LAST YEAR, AND THE YEAR BEFORE THAT, AND SO ON DOWN THE LINE.

The Winnipeg Automobile Show proved that Dunlop Tires lead in the West.

The combined Toronto and Montreal Automobile Shows proved that Dunlop Tires lead in the East.

No other individual Canadian maker, at the Western Exhibit, had as high a showing of sets of tires equipped to cars as Dunlop.

No other individual Canadian maker, at the combined Eastern Exhibits, had as high a showing of sets of tires equipped to cars as Dunlop.

Dunlop Tires led all foreign-made tires represented at the Winnipeg, Toronto and Montreal Shows.

Not only is it well for car owners to know that Dunlop Tires led all others at both the Western and combined Eastern Shows, but it is well for them to remember this fact:

THERE ARE MORE DUNLOP TIRES EQUIPPED TO MOTOR CARS THROUGHOUT CANADA THAN ALL OTHER MAKES COMBINED.

Dunlop Tires Serve You Best

TORONTO CITY BRANCH AND TIRE REPAIR DEPOT:
86 Adelaide St. West — Phone Main 5140

and able a man as successor to the late president, Mr. Albert Chamberlain. During the service upward of 50 newcomers arrived from the steamers Gramplan and Victorian, who were refreshed with tea and bread and butter. They all remained at the league for the night.

Caught a Heavy Cold. It Left Him with a Hacking Cough.

Mr. J. H. Richards, 1832 Second Ave., East, Vancouver, B.C., writes:—"Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this hacking cough would become a lung splitting one. It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup. I told him I was willing to try anything I thought would cure, and on the same day bought two bottles. Before half the first one was used my cough began to get much easier, and by the time I had used a bottle and a half my cough was gone. I am keeping the other half bottle in case it should come again but I am quite sure it has a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind."
Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents.
Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

DR. A. W. CHASE'S CATARRH POWDER 25c
is sent direct to the diseased parts by the Improved Blower. Heals the inflamed, cleans the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. See lower leaflet. Accept no substitutes. All dealers or Edmondson, Bates & Co., Toronto.

The Toronto World

FOUNDED 1840. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, 100 KING STREET, CORNER JAMES AND RICHMOND STREETS. TELEPHONE CALLS. MAIN 5200—Private Exchange Connecting All Departments.

MONDAY MORNING, MARCH 27, 1911. CITY LIGHT AND POWER.

Apparently the enemies of public ownership of electric light and power dislike to yield the last shred of hope without protest. The Mail and Empire, which has never been enthusiastic and only mildly approving of the government's policy when it seemed as if it might fail, on Saturday expressed its high disapproval of the proceedings going on.

The Mail and Empire seems to think that the Electric Light Co. might very well continue to compete with the city in the electrical business. "Who would blame it for declining the city's offer?" asks the Bay-street organ.

And The Mail and Empire objects to the city council having anything to do with the appointment of the city electrical commission. Perhaps this is just to be on the other side of the question from The Globe, which objects to the Hydro-Electric Commission having anything to do with it.

We believe that the new commission will be a business-like body. It will be composed of men who are in it for their public spirit, and not for their private gains. Beyond its immediate object, which is to secure an efficient and successful administration of hydro-electric affairs in Toronto, we expect it to set a high standard in civic life.

Those who understand the genesis and development of the hydro-electric scheme can have no objection to the city having a share in the appointment of the local commission or in the city co-operating with the other municipalities thru the Hydro-Electric Commission in appointing another of its members. The Hydro-Electric Commission represents all the municipalities concerned, Toronto included, and one of its members is a representative of Toronto in the legislature.

We have not the slightest fear of the outcome so long as due care and precaution are observed, and the plan agreed upon is well calculated to attain the results desired. The name of Mr. P. W. Ellis has been mentioned as likely to be selected by the city for a position on the new commission.

RECIPROCITY AND CONGRESS. In preparation for the approaching special session of congress the ways and means committee of the house of representatives is engaged in formulating plans for tariff reduction and these will be considered early next month at the Democratic caucus.

A movement is on foot among the little heresy-mongers to have Rev. George Jackson indicted for being a better Christian than he ought to be. If Mr. Jackson keeps on he will be almost as pestilent a fellow as Paul himself.

King George is said to be gaining popularity by a determination to gain an insight into the everyday life of his people. He should not neglect an opportunity to attend a session of the city council when the waterworks is under discussion.

forced either to veto it in order to prevent further interference with the Republican policy of protection or to sanction what he has already declared he would not permit. President Taft was no doubt sincere in his endeavor to carry reciprocity partly on its own account and also as a means of placating public opinion and restoring his party in popular favor. The latter motives accounted for the unexpected extent of his proposals and the pressure he brought to bear on the Republican senators.

NEGLECTED CITY CEMETERIES. An appeal has been made to the authorities for the repair and care of the military cemetery on Strachan-avenue. The spot which should be sacred, is utterly neglected, and in the opinion of those who have visited it, shamefully and disgracefully kept. Rather than have him buried there, his comrades raised enough money to have a soldier, who died a short time ago, interred elsewhere.

THE VIADUCT VICTORY. After only three days' argument, the judicial committee of the privy council has dismissed the appeal of the Canadian Pacific Railway against the order of the Dominion Railway Board, requiring the construction of a viaduct along the waterfront, and regulating the use of the tracks at ground level between Church and York-streets. The decision will be received with general public satisfaction and should help the railway companies and other big organizations to realize that the parliament of Canada is as supreme in its own sphere as that of the United Kingdom.

A TRAGEDY OF FIRE. New York's latest tragedy presents almost every element of horror. The flames seem to have spread with extraordinary rapidity, so much so, indeed, as almost immediately to have prevented escape. As is only too common also, the panic-stricken employees, many of them women, destroyed their only chance of descent and were reduced to the only less dreadful extremity of leaping from the burning building. The calamity invites a searching examination into the construction of skyscrapers and the provision made for the public safety in emergency.

AN UNDESERVED ATTACK. Calgary Albertan (Liberal), March 16. Mr. Maclean's office is that he fights for the people on all occasions against the greedy corporations. He carries on the battle in The Toronto World, which he controls, and he carries it on in the Dominion Parliament. He is persistent and aggressive, and never lets up.

OBITUARY. Herbert A. Stone. Herbert A. Stone, son of Charles A. Stone, accountant of the I.O.F., died at his father's home last night, after a month's illness, at the age of 35. He was secretary-treasurer of the W. J. McGuire Co., Montreal, which position he resigned on account of illness a month ago.

Low Round Trip Rates to Ninety Western Canada Points. Exceptionally low rates to principal points in Western Canada, on Canadian Pacific Home-seekers' excursions, leaving Toronto, Tuesday, April 4, at 2.00 p.m., and every second Tuesday during the summer. Reduced Photograph showing difference in size between the volumes of the New (11th) Edition of the Encyclopaedia Britannica on ordinary paper and on the famous India paper. Note that, though the contents of corresponding volumes are identical, the bulk and weight are reduced by two-thirds in the new format.

The India Paper Edition of the Encyclopaedia Britannica NOW IN COURSE OF ISSUE BY THE University of Cambridge.

The Preliminary offer of the new Encyclopaedia Britannica in advance of publication, at substantial concessions in price, was planned with a very practical object in view.

To make the Encyclopaedia Britannica two-thirds lighter in bulk and two-thirds lighter in weight, and this at no cost of either strength or capacity in the paper, was an experiment whose advantages, it was decided, might not appeal to many who had been accustomed to the work in the format which had existed without change or attempt at improvement for many generations.

The verdict of book-buyers is almost unanimous in favor of the India Paper Edition of the Encyclopaedia Britannica. 90 per cent of the orders for the new edition of the world's greatest work of reference call for sets printed on India paper.

By common consent of all competent authorities the demand for the new Encyclopaedia Britannica has been accumulating for years. The first volume of the edition that is in use to-day will be displaced and superseded by the New (11th) Edition, which was published in 1875.

The New (11th) Edition of the Encyclopaedia Britannica is a Fresh and Original Survey of Human Thought, Learning and Achievement in 1910. A Complete and Authoritative Exposition of Knowledge. It consists of 28 Volumes and Index, comprising 27,000 Pages and 40,000 Articles, and will supersede and Displace all Previous Editions and Unauthorized and Garbled American Reprints.

In view of the extraordinary demand for the New (11th) Edition of the Encyclopaedia Britannica it is apparent that all preliminary estimates of the probable size of the advance-publication sale will have to be disregarded.

The plan of first issuing a limited number of sets for which subscriptions are being received, will enable those who register their names now to obtain the work at a substantial concession in the price.

Until publication is complete, applications will be accepted at the advance-of-publication price. Orders will be entered as received, and filled in rotation.

The English Edition for Canada: Canadian subscribers will be supplied with copies of the English Edition of the Encyclopaedia Britannica and not of that which for purposes of copyright had to be printed in the United States.

The fact that over 150,000 orders have already been received in London and New York, is evidence of the extraordinary interest excited by the "advance-of-publication" offer of the new edition of the Encyclopaedia Britannica at large concessions in price.

The List is Open for ADVANCE SUBSCRIPTIONS. (1) ON INDIA PAPER (very light and opaque), in Three Styles of Binding—CLOTH (\$6.25), FULL FLEXIBLE SHEEPSKIN (\$8.25), and FULL FLEXIBLE MOROCCO (\$6.75).

Cambridge University Press. Encyclopaedia Britannica Department, Royal Bank Building, 10-12 Street East, Toronto.

Form for advance subscription to the Encyclopaedia Britannica, including fields for Name, Profession or Business, Residence, and a section for the prospectus.

Each Volume Less Than 1 Inch Thick... of the Britannica... secondary demand for the Encyclopaedia... a limited number of copies... complete applications will be received...

An Overheated Furnace.

An overheated furnace did \$1000 damage to the premises of J. C. Kelley, 45 Vermont-street, at 10.15 Saturday night.

OVER 150 THE DEATH TOLL

wrought such havoc. Seven hundred hands were then women, were employed by the city water company. They sat in rows at their whirling machines, the tables of most piled with flimsy cloth, the floors littered with lint, the air itself full of flying inflammable dust.

When the first breath of flame curled over the edge of a pile of shirting on the eighth floor, five minutes before quitting time for the day, a fire broke out in the building across Washington-place scores of men detained beyond the hours of their work.

Wire Snapped Like Whipcord.

Six girls thought their way to a window on the sixth floor over the bodies of fallen fellow workers and crawled out in single file to an eight-inch stone ledge, running the length of the building. The strands parted and two above the sidewalk they crept along their perilous pathway to a swinging electric feed wire spinning Waukesha rotary whippersaw, their companions to catch up at the end of the ledge, and the six grabbed the wire simultaneously. It snapped like rotten whipcord and they crashed down to death.

A thirteen-year-old girl hung for three minutes by her finger tips to a wire at a nearby window. Her body of flame licked at her fingers and she dropped into a life net. Two women fell into the net at almost the same moment. The strands parted and two were added to the death list. A girl threw her pocketbook, then her hat, down. A moment later her body came whirling after them to death. At a ninth-floor window a man and a woman appeared. The man embraced the woman and jumped. Both were killed. Five girls smashed a pane of glass, dropped in a straggling angle and were crushed into a shapeless mass.

A girl on the eighth floor leaped for a fireman's ladder, which reached on to the sixth floor. She grasped the edge of a life net and was picked up by her back broken. From one window a girl jumped, and a woman, a man and two women were their arms about one another three moments to the ground in rapid succession. The little girl, who had been in the hospital in an automobile, she screamed as the driver and a policeman lifted her into the hallway. A surgeon rushed about 13 yards, a woman, a man and two women were their arms about one another three moments to the ground in rapid succession.

Beaten to Safety.

Jimmie Lehane, a traffic warden policeman, dashed up eight flights of stairs when the fire broke out in his building. He found a score of girls mad with fright. He ordered them down by the fire escape, and beat them down to safety. Not one of the number perished.

Blouses Where No Blouses Should Be. John Joel, 258 Ossington-ave., and Walter Dixon, 63 Mutual-st., also searched for blouses. They were arrested by Detective Newton Saturday night charged with stealing two silk blouses valued at \$65 each, from the T. Eaton Co. As soon as they were suspected, the city detective department was notified and Newton followed the trail to the Eaton Co. one of the blouses tucked inside of one of the men's capers, and nabbed the three.

THE TORONTO WORLD

debris, wrapped in oil cloth and lowered by pulleys to the street. Rescuing the Bodies. Across the street there rested on the sidewalk a hundred pine coffins, into each was placed the body of a dead man as this was done, the coffins were carried away in patrol wagons, automobiles—any kind of a vehicle that could be pressed into service—to the morgue at Bellevue Hospital, and to the Charles Pler morgue, opened for the first time since the Boston horror.

On the tenth floor of the building adjoining the burning structure, is the law department of New York University. Here twenty odd students were listening to a lecture on law by Frank H. Somers, former sheriff of Essex County, New Jersey, who had his back to the smoke, saw the human fire brands falling like rain and saw the girls trapped on the roof. He led his class to the roof of the building, their quarters. There they found two ladders. The boys seized these, bore them down two flights to the roof of an adjoining building, availed out of the windows and raised them to the roof of the burning structure. Forty girls were rescued in this manner.

A Rigid Investigation.

City officials announced to-night that the usual rigid investigation which follows such disasters will be instituted at once. Said Fire Chief McLaughlin: "The fire had its origin in the pine coffins. A man whose face was marked by a scar of flame found his brother among the dead. The two had worked side by side in the same factory. The man who had the scar identified his sweetheart by her ring and purse. It contained her week's wages.

Hysteria Ran Riot.

Sobbing women became so hysterical that an improvised hospital ward was fitted up on the pier. Hysteria ran riot and nurses were busy tending those who collapsed. The fire had left a small sum of money, keys and a receipt made out to A. S. Cimminella of Portchester, N.Y. A young man found his sweetheart, burned and blackened, and fell across the coffin in a faint.

Nerves Are Exhausted

And Nervous Prostration or Paralysis is Creeping Steadily Upon You. DR. CHASE'S NERVE FOOD. You hear of people suddenly falling victims of nervous prostration or some form of paralysis. But when you get all the facts of the case you find that they have had months or years of warning.

NEW LUTHERAN CHURCH.

NEW HAMBURG, March 26.—The new Trinity Lutheran Church, costing about \$15,000, which is built upon the site of the old church, was opened here to-day. The dedication ceremonies at the three services held were attended by overflowing audiences. Special trains were run from both Stratford and Berlin, bringing over 500 people. The local choir was assisted by choirs from Stratford, Waterloo and Berlin.

HELD CONFERENCE ON SEWER QUESTION

About 25,700 Feet of Private Property Required For Easements - Engineer's Fee \$1000.

NORTH TORONTO, March 26.—(Special.)—Special interest attached to the meeting of the town council on Saturday evening, when a committee of the whole met to hold a conference with T. Ald Murray, C.E., along the lines of sewerage installation and sanitary matters in general. It was an important meeting, and following the ratification of the measure by the ratepayers was the first real step toward the active undertaking which means so much for the town. In addition to the work of getting the scheme under way, it was to be decided whether the sewerage system to be installed in the town should be a separate system or whether it would be better to connect with the main sewerage system of the city.

Mr. Murray, speaking relative to the land required for easements, etc., stated that about 25,700 feet of private property would be needed, and the matter was left in the hands of the council for their consideration.

Mr. Murray, speaking relative to the land required for easements, etc., stated that about 25,700 feet of private property would be needed, and the matter was left in the hands of the council for their consideration.

CLAIMS ESTATE OF \$45,000. KINGSTON, March 25.—(Special.)—J. W. Curry, K. C., of Toronto, is here conducting an examination into the case of Albert Cottenden of Toronto, against Mrs. Joseph George, Kingston, Quebec. George died in this city last summer, and the plaintiff recognized as an illegitimate son of his. He claims he is entitled to the estate of George, valued at about \$45,000. At the time of George's death his will could not be found, and the body was exhumed, it being the belief that it was placed in the coffin, but it was not found. Mrs. George was recently granted letters of administration.

Porcupine Gold Camp

QUICK ACTION NEEDED TO MAKE CAMP SANITARY

Perplexing Problems Face Government Health Inspector—Organization of Townships Desirable.

PORCUPINE CITY, March 23.—(From our own man up north.)—The cleaning-up problem and the preservation of all sources of drinking water for townships is the big undertaking which Provincial Health Inspector Parker has on his hands...

Organization of Whitney and Tisdale townships has been pointed out as a means for partially solving the difficulty...

In the meantime each township is asked to make preparations for cleaning. A dump ground on which the refuse may be burned cannot be secured...

Along the lake shore in Golden City rows of shacks built at the very water's edge are ordered removed while the winter's garbage lies on the ice to fall into the lake water during the thaw...

To determine the standing of the water in this lake for house consumption, Inspector Parker has sent several bottles of water to Toronto for analysis...

Now is the time, say the inhabitants of all the townships, for the cleaning process to start, but with no dump grounds and no one willing to contribute one or even permit the authorities to use their premises for this purpose...

Organization of the townships seems to be the only quick remedy and to this end all Porcupine is hoping that no time will be lost on the part of the government in making it possible for the townships of Whitney and Tisdale to organize and get down to quick civic action.

CLAIMS TO BE PROVED

Mulholland Properties to Be Developed Before Public Will Be Admitted.

PORCUPINE CITY, March 18.—(From Our Man Up North.)—Large Mulholland, the original owner of the two Mulholland claims in N. ribbon Whitney, in which he is now interested with W. E. Edwards of Chicago, visited the camp to-day...

At a depth of 18 feet the vein had dipped to the south, the same direction and about the same slant as the Scotch-Ontario vein, and now the south wall of the shaft just touches the north side of the pay streak...

Under the announcement made by Mr. Mulholland it is possible that no stock will reach the market before fall as time will be required to develop the two claims.

Reservists for Coronation. S. JOHN'S, Nfld., March 25.—The British admiralty have invited 200 of the local naval reservists to join the colonial forces at the coronation ceremonies...

The shipments for the week were 82,198 pounds, or 431 tons. The shipments from Jan. 1 to March 25 were 11,280,945 pounds, or 626,719 tons...

PORCUPINE MINES AND PROSPECTS

Honest and intelligent endeavor—real mining day by day—adds new proof to the evidence in favor of the belief that Porcupine is destined to rank high among the great gold-producing centres.

There are some mines and many good prospects which should develop into mines under proper handling. Money may in some cases be profitably used in assisting these prospects.

We have compiled the essential facts as to both mines and prospects. This information is available to our clients and all others to whom the subject is of interest.

Efficient and intelligent service rendered in the execution of commissions entrusted to us.

GOWGDAN LEGAL CARDS. H. F. WILLIAMS, Barrister, Solicitor, McFadden & McFadden.

Abundance of Cheap Money But Market Does Not Boom

Banker Clews Recites Arguments in Favor of Rising Market and Says Conditions are Improving.

Henry Clews & Co. in their weekly letter say: The better undertone noticed in these articles during the past two weeks is making slow but certain progress. Notwithstanding the dulness in business there is a distinctly more cheerful tone in financial circles. The main influence contributing to this change is the abundance of cheap money. In all parts of the world there is a surplus of funds at low rates, and this is especially true in the United States. Europe owns large sums on account of security purchases and in payment for our exports, and under present conditions it pays better to allow these sums to remain abroad as loans.

WALL-STREET TRADING

NEW YORK, March 26.—The week-end of the stock market was a fitting wind-up to the days immediately preceding. Trading in the first hour amounted to about 3,000 shares, and the total for the two days' session was under 55,000 shares. The net result was a slight advance, with a decline in the first hour followed by a recovery, with a few gains. News bearing upon financial, industrial and mercantile conditions was not of especially favorable import.

LONDON ON FINANCIAL CONDITIONS

NEW YORK Evening Special Cable. LONDON, March 26.—A general idea of the outlook on the world's money market of the next three months may be gathered from the fact that large stock exchange speculators are borrowing at 4 per cent. on loans running to the end of June. For a term of twelve months, the rate is 5 per cent. On the other hand, the rate on exchange settlement you people called in London is 4 per cent. At this rate of exchange settlement you people called in London is 4 per cent. At this rate of exchange settlement you people called in London is 4 per cent.

WAITING FOR STORM

Supreme Court Decisions Hang Dominantly Over the Market. J. S. Bache & Co. in their weekly circular say: The situation in iron is not particularly reassuring as to bottom prices being reached. The country is heavily overstocked. Some of the southern iron producers recognize this and are apparently pursuing the policy of under-cutting the market. The price of steel is heavily overstocked. Some of the southern iron producers recognize this and are apparently pursuing the policy of under-cutting the market.

ON WALL STREET

We have had an irregular week in stocks, with indications of as much distribution by leading interests as the market would absorb. This is not surprising in view of the fact that the market is heavily overstocked. Some of the southern iron producers recognize this and are apparently pursuing the policy of under-cutting the market.

WALL STREET POINTERS

Mills in British cotton spinners' federation vote to continue on full time. Charles S. Clark resigns as vice-president and director of Mo. Pacific to take Rubber mill employees in Massachusetts and Rhode Island numbering about 600, will be cut beginning to-day, from one to three weeks' working time.
