# WILL NOMINATE ROOSEVELT LEADER OF PROGRESSIVES IN AN AFTER-CONVENTION

### Unless Contested Delegates Are Ousted, Insurgents Will Launch New Party, Says Colonel, Provided Public Give Support—Roosevelt Men Claim Nomination Will Be Regular One.

CHICAGO, June 20.—(Can. Press.)—Col. Theodore Roosevelt to-night indicated that under certain conditions he might withdraw from the Republican party to take the lead in the formation of a new party.

"If the people want a progressive party, I'll be in it," he said.

Some of the colonel's supporters urged their associates to-night to precipitate the crisis in the Republican national convention at the earliest opportunity to-morrow. More conservative counsel prevailed, and it was determined that there should be no break from the regular convention. It was the plan of the Roosevelt delegates to-night to make their last stand on the credentials committee. If the 78 delegates claimed by them to be fraudulent are seated, the Roosevelt forces will remain in the convention until the end but will not vote. It is their plan to proceed to the nomination of Col. Roosevelt in the Coliseum and claim regularity for him.

Col. Roosevelt has not definitely united himself to the latter part of this plan. He is considering the advisability of delaying his action for several weeks and then summon an entirely new convention. This would not be held until after the Democrats have acted in Baltimore.

It was predicted that the nominating stage of the convention might not be reached until late Saturday. A wide latitude of debate is to be allowed in the convention to-morrow.

Rests With the People.

Col. Roosevelt said emphatically to-night that he would make the independent fight for the presidency if he was convinced there was a popular demand for him. "I shall have no rest if there is a popular demand for me to run," he said.

He added that the situation was such a kaleidoscope one that it was impossible for him to outline what he would do. It might take some time, he said, to ascertain the sentiment of the people and learn whether there was a reasonable basis for the formation of a party he termed a "progressive party."

The colonel said he believed he would be able to count on the bulk of the Republicans in the western states, and that he would also derive considerable strength from the Democrats. He would not express any opinion how soon after the adjournment of the present convention the party would be formed, should such a decision be reached. The opinion was expressed by some of his supporters that the outcome at Baltimore would have considerable bearing upon the situation.

Supporters Are Divided.

Col. Roosevelt said there had been some difference of opinion among his supporters as to the advisability of bolting. The Ohio delegates, he said, felt that under the instructions, they should remain in the convention until after the nomination was made. Other California delegates, including some of those from California, were in favor of withdrawing at once.

The agreement finally arrived at was reached at a caucus in which were two representatives from each of the states having Roosevelt delegates, as well as those states from which the Roosevelt candidates for seats in the convention have been excluded.

The caucus passed unanimously a resolution by Henry Allen of Kansas, said Colonel Roosevelt, explaining the situation. "This resolution," he said, "was to the effect that the Republican party would not submit to the nomination of Roosevelt, and if the convention declined to seat the delegates fraudulently unseated by the national committee, the Roosevelt delegates would decline to be bound by any action of the convention."

A second resolution was passed, after stipulating that the Roosevelt delegates would take part in the convention if the 78 delegates to which they were entitled were seated, and if they were not seated they would remain in the convention and not participate in it.

Dixon Uncompromising.

During the morning Senator Dixon issued a statement that Roosevelt delegates would not remain in the convention unless the "rotten" delegates were excluded, and following a conference at noon with Roosevelt, he said:

"The nomination for president already has been made. The American people have named Theodore Roosevelt, and elected a majority of more than 100 delegates to this convention. These delegates must be recognized or we will not recognize the convention as the regular convention of the Republican party."

He added that further convention developments would be awaited. He also denied emphatically the report that Roosevelt would release his delegates from obligation to support him.

The California delegates met in the morning and prepared a resolution announcing withdrawal from the convention.

## The Revolution in the States Is On!

The United States is in the throes of a political revolution. The World has been predicting this now for several years, and special articles in this paper, which have been widely copied in the States and in Great Britain within the past two or three years, have been in the nature of such a forecast.

The United States and its hundred million of people and the problems which they have to solve—and they are pressing for settlement—show that the constitution adopted nearly 140 years ago calls for a change so widespread that only a revolution can effect it. The revolution may be a peaceful one, but full of political strife; or it may go further and involve bloodshed and another civil war like what they had just fifty years ago.

At this present moment the situation in the States is the greatest political situation before the civilized world.

The British political system is based on a free parliament, unlimited as to what it can do, and, being so, questions of the most far-reaching nature are being settled. A revolution faced England in the matter of the house of lords, but King and parliament were equal to providing the necessary adjustment; the lords were curbed, and the people are ruling. The Irish difficulty is to be settled, also more or less of a struggle is involved; but the system is equal to it. And the British Empire as an empire is gradually working out a free and progressive government.

In the United States, congress, as now constituted, is able to do little. It is restricted by the constitution and by the decisions of the courts and the judges. In other words, there is no government of the people and by the people in the United States, altho Lincoln said that that was what the struggle of fifty years ago was to save and realize. The people cannot get done what they want. The constitution and judges block them. Congress is not free like parliament is free.

Perhaps, therefore, the best way to illustrate the condition of affairs in the States at this moment is to outline in a broad way what we think is necessary to be done in order to meet the situation in that country, and in outlining this, we would not depart from the reasons and facts of history. Let us therefore try and outline what should be done and what Roosevelt is probably trying to do, altho he cannot yet outline a distinct plan.

First, the United States must throw to the winds the state legislatures and the constitution which defines them, and start absolutely afresh as one entity power must be placed in some one body not subject to check, and not subject to revision by courts and not subject to the claims of inferior bodies like the states.

To effect this, therefore, there must be one supreme national assembly or parliament unlimited in any way, or to put it in a more scientific way, elective power must be placed in some one body not subject to check, and not subject to revision by courts and not subject to the claims of inferior bodies like the states.

This supreme national assembly elected by the people may have associated with it some kind of senate, also subject to review by the nation and recognized as a second chamber.

There must also be a president elected by the people who will be the chief executive and very much like the president to-day. He must have wide powers.

Next, this new national and unlimited parliament, made up of president, of an assembly and of the second chamber, must divide up the country into departments, or states, or provinces, which will have assigned to their legislatures of their own to deal with such subjects of local interest as may be delegated to them by the supreme assembly.

This supreme assembly would have also to pass a civil and criminal code and a criminal code which would make the laws in these matters for the whole of the United States. For instance, there would be one law in all the States as to what was a contract, and what was a promissory note and what the rights of the maker and endorser of a note were, and what the rights of the holder of the note were, and the same exactly with a criminal code. What was robbery in one state would be robbery all over the Union.

The same code would define what marriage is, what a husband is, what a parent is, what a child is, and the respective rights of each. There are fifty laws in the United States in regard to marriage and divorce and these laws would have to be put in a code, and the same exactly with a criminal code. What was robbery in one state would be robbery all over the Union.

But if so sweeping a change were made—and it must be made in some way, and that is the point we wish to impress on our readers above all else at this moment—then during the interregnum the supreme assembly would have to appoint a commission of judges to adapt the new laws to the old federal and state law. This would be an enormous work in itself and take a very considerable time for adjustment.

Another commission would have to be appointed to take over the running of the railways and devise some kind of financial arrangement for the national securities taking the place of the securities of the railway company. This would involve a physical valuation of the individual properties and this would be an enormous task, but it is not beyond realization.

There would also have to be an efficient army for police and other purposes.

We believe something like this is in the mind of Roosevelt, and more or less vaguely in the minds of the people, and they are working as best they can to effect it, and, but as we said, it means a revolution—but it means a revolution much more sweeping and dangerous than the other. WHICH IS IT TO BE?

The mere incidents from day to day that now turn up in the United States are but incidents in the mighty political drama that was ever played before the world, and the curtain is rising in our presence and the scene enacted in our time, tho we do not all see it so plainly. But it is now on the stage. A revolution has begun in the United States. And Roosevelt, having begun it, must go on with it. W. F. M.

### DRIVER ARRESTED

Taken Into Custody When His Wagon Injured a Boy.

Jack McLean, 14 years old, a messenger boy for the R. D. Fairbairn Co., was knocked from a bicycle he was riding on Queen-street in front of the city hall yesterday afternoon at 4:15 o'clock, by delivery wagon No. 13 of the T. Eaton Co. He was carried into Dr. Bates' office, 173 Bay-street, and his knee, which had been badly bruised, was given treatment. He was much better in about half an hour, and the driver of the wagon was arrested.

### WINNIPEG IMPROVING

Better Conditions Are Very Noticeable, Says Rev. Dr. Moore.

That Winnipeg will soon be a moral city is the opinion of Dr. Moore, secretary of the Methodist Temperance and Moral reform board, who arrived from the west yesterday after spending six weeks investigating conditions in the west and attending conferences at Victoria, B.C., Edmonton, Moose Jaw and Winnipeg. The white slave traffic is being energetically fought in the west, said the doctor, the improved conditions in Winnipeg being particularly noticeable. In regard to the temperance cause, Dr. Moore said that plans are now being made for an active prohibition campaign in the western provinces.

### GUN WILL NOT GO BACK.

BROCKVILLE, June 20.—(Special.)—In reply to a protest from Brockville citizens against the Canadian government's handing over to a Boston Historical Society the gun which was captured at Bunker Hill, Hon. Sam Hughes said that the requisite number of men were entertained unless every specimen of armament taken from the British by Lord Sam is returned.

### BANK CLERK STILL MISSING.

KINGSTON, June 20.—(Special.)—A private detective is in the city working on the case of a young bank clerk, Arthur of the Merchants' Bank, who is missing. There is no trace of Arthur.

## H. P. Dwight Very Ill

Mr. H. P. Dwight, president of the Great North-Western Telegraph Company, and one of the best known telegraphers in America, has been confined to his home, 107 St. George-street, for several days with lumbago and attendant complications. His condition was somewhat improved last night.

## PARKER CHOSEN BRYAN SNUBBED

### Peerless One's Protest Against Judge's Election as Chairman Didn't Avail at Baltimore.

BALTIMORE, June 20.—(Can. Press.)—Former Judge Alton B. Parker of New York was selected to-day as the temporary chairman of the Democratic national convention by the arrangement committee. The choice of Judge Parker was made against the protest of William Jennings Bryan, whose friends on his committee submitted the name of four other candidates for the honor. Eight of the sixteen votes of the committee went to the New York jurist, while Representative Henry of Texas secured three votes, Senator-elect Ollie James of Kentucky three votes, Senator Kern of Indiana one vote and Senator O'Grady of New York one vote.

As the campaign managers of those seeking the presidential nomination were playing for position with respect to the nomination, the vote in opposition to the nomination, which was in consequence split up.

Judge Parker the committee chose Urey Wood of Kentucky as temporary secretary and John I. Martin of Missouri as temporary sergeant-at-arms. The selection of the arrangement committee in no sense indicates and must be passed upon next Monday at a full meeting.

Report had it tonight that a telegram had been dispatched to Chicago to William J. Bryan asking that he come at once to Baltimore. Several national committees said after to-day's meeting that they expected a fight by Mr. Bryan and his friends would be made on the floor of the convention against Judge Parker's selection.

## OLD BELT LINE ELECTRIC ROAD

### Mackenzie & Mann Interests Intend to Run Suburban Electric Cars Into North Toronto.

The Mackenzie & Mann interests are constructing a high power electric transmission line up the old Belt Line Railway from Queen-street to Davisonville, thereby entering North Toronto over their own right-of-way, leased from the G.T.R. It is also rumored that Mackenzie & Mann have purchased the old Belt Line from Rosedale station north, which they propose to use as an electric road.

## BOLTERS MUST STAY BOLTED

### Rules Committee to Place Legislative Lid on Further Outbursts of Insurgency.

CHICAGO, June 20.—(Can. Press.)—Bolters in the national committee from the party nominee will be given short party hereafter by reason of an amendment to the rules governing that committee made by the rules committee of the Republican convention to-day. It provides that the national convention in the future may remove and appoint a successor to those who refuse to support the nominee. The change is said to have been inspired by the situation in which the national committee now finds itself as the result of the Taff-Roosevelt battle.

Another change provided for the recognition of the members of the national committee elected in those states which have preferential primaries, and making compulsory their endorsement by their respective state delegations in the convention.

## THREE BOYS DROWNED WHEN STEAMER BROKE THRU GATES OF CANAL

### Government Survey Steamer Crashed Thru Lock 22 of Welland Canal at Thorold, Was Forced Against Rocks and Sank, and Children Playing on the Bank Were Caught in Water and Drowned.

THOROLD, Ont., June 20.—(Special.)—Three small boys were drowned and damage amounting to several thousand dollars was caused this evening when the Canadian Government survey steamer La Canadienne broke thru four gates of lock 22 and sank to the bottom of the Welland Canal. In addition to the drowning of the boys and the severe damage to the canal and the steamer, all the belongings of the crew were destroyed.

The steamer was on her way from Quebec to Lake Superior, and reached lock 22 in safety. After the gates had been partially closed, an order was given to go ahead. The tying line had not been secured fast on the rubbing post, and before the engineer could give an order to reverse the steamer had been pushed into the upper gate. The rush of water caused her to collide with the foot-gates, which snapped and floated on about 200 yards.

Water poured into the lock and forced the steamer back onto the rocks, tearing a great hole in her side. The pumps proved of no avail, and within half an hour she had sunk. A number of the members of the crew escaped barely with their lives and lost all their belongings. A large quantity of maps and official records, charts, etc., were saved. A huge section of the bank along the west pier was torn and the road as far as 18 was damaged.

## CAUGHT IN THE SWIRL

Five small boys were playing on the bank of the canal, and when the water rushed out of the lock they were caught in the swirl. George Bretherick managed to save his life by running away. Hugh Maguire, government surveyor, saved the life of David Bouck. The three other lads, Willie Tacke, aged five; Willie Wallace, aged five, and Leonard Bretwick, four years old, were drawn into the water and drowned. Their bodies had not been recovered at a late hour, altho searching parties worked from 6 o'clock. When the bodies are recovered, Dr. Herod of Thorold will hold an inquest. The children were the sons of English people who had been living in this vicinity only a short time. They were in the habit of playing on the banks of the canal. Had they hurried across to the waste weir bridge, a short distance to the west, they would have escaped, but the flood of water from the upper level caught them and swept them over the embankment.

The monetary loss will be very heavy. It is expected that the steamer will be floated by to-morrow night, and it will then be taken to Port Colborne for repairs. Four new gates for the locks will have to be brought from Port Dalhousie. Lock 21 also was badly damaged, as were also the protecting banks at the waste weir.

The government will order a thoro investigation into the accident.

## Last Outstanding Lease In Eaton's Carlton Block

### H. Withers Will Be Given Another Store on West Side of Yonge St. Worth \$3000 a Year, for \$25 a month—Street Widening Bylaws Are Being Prepared.

A deal is on to retire what is thought to be the only outstanding lease in Eaton's Carlton block. It is for the lease of a store on the corner of Carlton-street, and it looks as if they will be secured within a week or so. In the meanwhile bylaws are being prepared to close the street from the former owner at \$25 a month. Wood-street and probably to widen the lease here was never raised. This College-street, are being drafted for lease here about two years and a half submission to the city. One report frontage on the west side of Yonge, Church and Yonge—Yonge-street in just above Buchanan-street, at the front of the big block is also to be same rental he is now paying, and widened by twenty or thirty feet. A with a three, four or five-year term of lease may be cut off the Church-street possession. If this deal goes thru Mr. frontage as well.

## Only Two Liberals Survive Carnage in New Brunswick

### Premier Flemming's Government Has 40 Seats, With 2 Independent Conservatives and 2 Oppositionists-Elected and Gloucester Elections Yet to Be Held—Opposition Leader Copp Badly Defeated.

ST. JOHN, N.B., June 20.—(Can. Press.)—The provincial elections to-day resulted in practically a clean sweep for the government, only two opposition members, Dugal and Pelletier, in Madawaska, being elected. In Northumberland, where three independent Conservatives ran on the government ticket, two of them were elected. In St. John City, York and Sunbury Counties, the opposition candidates lost their deposits. A. B. Copp, the opposition leader, was badly defeated in Westmorland. Premier J. K. Flemming headed the poll in Carleton.

The result of to-day's voting gives the government forty seats, independent Conservatives two, and opposition two. Gloucester polling (four seats) takes place Monday.

There were 46 seats in the New Brunswick Legislature at dissolution, besides two vacant ones, newly created. The parties stood: Government, 34; Opposition, 12.

Complete details have not been received and majorities are about as near as can be figured out yet. Majorities are always on hand. Remember the address, 140 Yonge-st.

## SHOCKING FIND THE HEART OF TORONTO

### The Terrible Conditions Under Which People Live in the Ward Disclosed at Inquest Into Death of Woman Who Died of Acute Alcoholism—Jury Criticized Civic Officials

Medical Health Officer Hastings, and in fact, the entire health department of the City of Toronto, indirectly came in for much adverse criticism in the evidence given and in the riders attached by the jurors to their verdict at the inquest held in the morgue last night into the cause of the death of Florence Hardy, who was found dead in one of the rooms at 14-1-2 Teraville-street about a week ago. The cause of death was given as pneumonia and heart failure, superinduced by alcoholism and accelerated by neglect and by her filthy surroundings. Recommendations were made that stricter supervision should be observed over the blocks of buildings of which the house at 14-1-2 Teraville-street was one; that greater supervision should be exercised over the mode of life of the occupants of such tenements, and that there should be a system of supervision with frequent reports over similar buildings; that greater responsibility be placed upon the owners of single and double room apartment houses, so that similar conditions would become impossible.

Terrible Conditions.

Perhaps never before in this city's history have such conditions of filth and degrading habitations been disclosed as were revealed at last night's inquest in the evidence given by the various witnesses.

Not the First Death.

This woman's death is not the first that has occurred in the row of houses on Teraville-st. Two women have died there—practically parallel cases—in the last five months. The last woman to die, Florence Hardy, was living with two men in flagrant delinquency in the small room, and was the husband of a man who was a drunkard and a woman who was in poor health. Often she had so much liquor that she became very ill. The room was never cleaned after these sick spells and its condition, when an officer of the police department arrived, after notice of her death had been received at headquarters, was such as to cause him to leave immediately without obtaining the information he sought. The stench and foul appearance was so nauseating as to make it impossible for anyone to remain in the room until it had been cleaned. The men she had been living with—William Stockwell and William Smith—had been under the influence of liquor the night she died, that the time of her death she severely gave did not agree. One died at 11 o'clock, the other that she died at 5 o'clock. William Stockwell said she had been ill for six weeks and that during all that time no doctor had been called until the day before her death, when a medical student had been sent to see her, but the same had been drunk and did not know the exact time of her death.

## Orders Carried Out

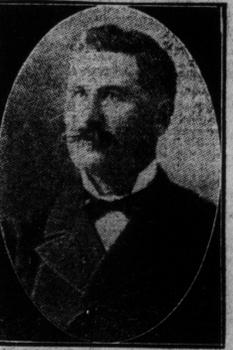

The house where this death occurred is one of a number of tenement houses owned by Louis Seaward, who has a cigar factory over the dwellings. Seaward testified that Dr. Hastings had visited the dwellings and that the M. H. O. had told him to put in another lavatory, which he did. That made two lavatories in the house for the use of ten "families" who lived in the various dwellings. Before one had been repaired, Seaward swore that the doctor had been filled with conditions after his orders had been carried out with regard to the extra lavatory.

## Shocking Conditions

On Saturday nights and all day Sunday the drinking and general debauchery in these tenements is said to be shocking. The men and women living in the same rooms are not, in the majority of cases, man and wife, and in some instances one woman is living with more than one man and in one room.

## Visitors Should Not Overlook Shopping

This is the day when we welcome the man from the north—the intrepid man and his family. Toronto we are sure will do all it can to make them feel right welcome. We know that the visitors will do some shopping while in Toronto, for this is the largest opportunity of the year. In every line of goods the merchants' stock is perfectly complete, especially in men's hats. The Dineen Company are showing some exceptional styles in exclusive lines of straws, felts and Panama. Special attention is called to the genuine lines of English sailor hats for men, in notched or plain straw, made by Henry Heath of London, who manufactures hats for His Majesty and for whom the Dineen Company are sole Canadian agents. Dineen also handles exclusively in Canada the Dunlap straw of New York. A full line of English raincoats are always on hand. Remember the address, 140 Yonge-st.

Mississauga Golf Club. The qualifying round in the Highland Cup competition will be held on Saturday next, the 22nd inst. It is desired that as many of the members as possible will take part in this competition. The course is in good shape and the captain desires to meet as many of the new members as can be present to take part in this competition.

but three of them declined the issue. From his Toronto race Gun Metal has installed the favorite, but a new one, a converted stallion, was marked around 2:08 had a great yellowing and it was not long before the friends of the latter had him on the race was Gun Metal, but on no stage of trouble. He won in three straight heats. Alastair drew sixth position and finished tenth in the first heat, Black Oak finishing a good second to Gun Metal, with Wick Britno third and Ned Wilkes fourth.

Starter Glasford had exercised a great deal of patience, as it was a very hard job of horses to start on a track only wide enough to score five horses, but his work was quite satisfactory. Unfortunately when the word was given for the second heat, Black Cat, who had finished second in the initial heat, went to a break, which spoiled her chances and she was drawn at the end of the second heat, almost broke the heart of his friends and supporters, was in good form and gave the winner a good argument for the last two heats. In fact he was only nosed out in the last heat in the good time of 2:17 1/2.

The running race concluded the day's sport. A great number of very prominent harness horsemen are here in attendance from all parts of Canada, as well as the United States. A familiar face and figure to the majority of harness horsemen is that of Senator John Bennett of St. Augustine, Fla. He has followed the circuit since 1895 and knows them all. The summary follows:

First race, stake \$100, for 2:24 trotters: Gun Metal, br.h., James J. Crowe, Toronto (Crowe) 1 1 1 New Wilkes, b.g., W. A. Collins, Sunderland, Ont. (Bedford) 2 2 2 Wick Britno, b.g., C. Johnston, Springfield, Ont. (McEwen) 3 3 3 Princess Eleanor, b.m., R. J. Patterson, Toronto (Fleming) 4 4 4 Alta Coast (Special) 5 5 5 Tommy S. 6 6 6 Bina 7 7 7 Shaun Rhue 8 8 8 Prince Wm., b.g., J. H. Simms, 9 9 9 Bill Bailey 10 10 10 Black Cat 11 11 11 Time 2:17 1/2, 2:18 1/2, 2:12 1/2.

Second race, purse \$40, 2:22 pacers: Crescent Simmons, b.h., T. H. Wickert, Tillsonburg (Wickert) 1 1 1

Kelley's Men Make It Four Straight Rudolph Trims the Redskins 4 to 1

Leafs Use Their Bats When Hits Mean Runs and Take the First of Series—Higgins With Newark—International Scores.

NEWARK, N.J., June 20.—Joe Kelley and his band of Maple Leafs blew into town today and added another victory to their string by scaping McGinnis's band of Redskins 4 to 1.

This makes four victories in a row for Kelley's Klouters and five wins out of the last six games played.

Richard Rudolph did the flinging for Toronto and was very busy in handling out hits. The Indians could only connect for five hits and this only netted Newark one run.

Nine times did the Kelley men swing their bats in telling fashion. Meyer, the first man up in the initial innings, worked Schardt for a free ticket and immediately policed the middle station.

O'Hara popped out and Snaw took three swings. Mighty Jim got in one of his extra base knocks and in trotted Meyer. Bradley batted out.

Schardt held the Leafs for the two innings. But they broke loose again in the fourth. Shaw blazed out and Jordan drew a charity. Bradley poked to left for two corners and Big City counted. McConnell grounded out. Along came Holly with a single to centre and Bradley scored. Bemis fared Holly at second.

Rudolph opened up the fifth with a single and Meyer sacrificed. O'Hara scratched an infield hit. Shaw's one corner was rapped in. O'Hara stole third and Shaw did the criminal act, setting the middle station. Jordan fanned and Bradley flew out.

Bob Higgins, the ex-leaf, batted for Schardt in the fifth and finished the same behind the bat for Newark.

# 3 REASONS

HOME HEALTH INVESTMENT

Why It Will Pay You to Investigate the Opportunities of

## GLEBE MANOR

NORTH TORONTO, BETWEEN YONGE and BAYVIEW AVE.

Home Health Investment

A convenient spot for a home. It is along the Metropolitan car line, within a short distance of the city centre, nearer than either High Park or Balm Beach. A large public school and Upper Canada College are near, and homes are built up on all sides of the property. Arrange to have us motor you over Glebe Manor.

The land is high above lake level, and the air is fresh and invigorating. The water is pure. Each lot is large enough for home and garden. A garden well tilled cuts down the cost of living, and is a most profitable and healthful form of out-door exercise. See the property in one of our motor cars.

Present prices \$22 AND UPWARD PER FOOT. TERMS ARRANGED, offer a splendid opportunity to purchase lots that must increase in value. This property is so close to the city that it is now needed by home builders. Buy at our low opening prices and you will have sure profits in sight. Phone, call or write for appointment to be motor over the property.

## W. M. FITZGERALD FAVORED BY BOARD

Claims Agent in Property Department May Be Promoted to Position of Commissioner — Another District Wants Annexation — Eastenders Want Hospital Retained.

Supported by Controllers Foster, Hocken and Church, William Fitzgerald, claims agent of the property department, was nominated by the board of control yesterday morning for the position of property commissioner. The motion that Mr. Fitzgerald be appointed met with no objection, and thus the board took direct issue with the recommendation made by the property committee on Monday. Mayor Geary did not vote, but when pressed by Controller Church, he admitted that he would support the board's nominee for the position.

### A Warm Debate.

A warm debate is sure to result when the appointment is being considered by the city council on Monday. Both men have a strong following, but it is admitted that Mr. Fitzgerald has the advantage, since it will require a two-thirds vote to substitute the name of Mr. Chisholm for that of the board's nominee. A bare majority, however, is sufficient to refer the matter back. If this course is taken there is a possibility that the board may agree to the appointment of the alderman from ward one, as the controllers admitted that both candidates are good men.

### A Good Man.

Mr. Fitzgerald has been connected with the property department for over twenty years. It is claimed that he has an intimate knowledge of the workings of that branch. He is supported by those members of the council who are pledged to the principle of promotion in the civic service.

### Want Annexation.

Asking for annexation of the large district south of Eglinton-avenue, east of Dufferin-street and west of the limits of North Toronto, a deputation of about 150 property holders of that section appeared before the board and asked that their case be given consideration. Frank Rowlin, who acted as spokesman, said that they were willing to come into the city unconditionally. If the district were assured of a water service and other city conveniences, it would be built up in a very short time, he said, since it was only about two and one-half miles distant from the city hall. All the property holders, he contended, were anxious for annexation. Mayor Geary, however, said that it would be necessary for them to come before the city council before the city council could pass upon the matter, and before leaving it was promised that this would be submitted at once.

Controller Hocken contended that the district should be taken into the city along with North Toronto. According to Controller McCarthy, there was no reasonable objection, since the territory they represented constituted a natural expansion area for the city.

Retain the Hospital. W. D. McPherson introduced a large deputation from the east end, who advocated that the old General Hospital be retained by the city as a municipal hospital. It was argued that Toronto had no sufficient accommodation in this respect and that if some such steps were not taken the city would suffer in the near future. The vacating of the General Hospital in December offered

Opens specially June 22nd to cater to the big Euclid Avenue Methodist Church Excursion. Why not take this rare opportunity and visit this famous hotel? Special train and hotel rates. For particulars see Church advertising, or write E. W. MAXSON, Mgr., Royal Muskoka P. O., Ontario.

An opportunity which should be taken advantage of, because after that date there would be no accommodation for the sick in the east end, Mayor Geary, however, explained that at the present time a report was being made upon the matter, and the deputation's wishes would be considered when this was received.

The board agreed to recommend that a \$50 increase in salary be given to the Magistrate Kingsford since this had been originally provided for in the estimates.

202 Kent Building Main 6571

Will buy, sell and exchange business properties, city lots and farm lands.

HOUSE MOVING

HOUSE MOVING and Raising done, J. Nelson, 106 Jarvis-street.

GlenGrove Annex

Newest Offering

Tanner & Gates will place on the market in about two weeks a new subdivision on the east side of Bathurst-street and just west of Glen Grove.

The thru streets from Yonge-street will run thru the property, thru which roadways and sidewalks are being built. The tract, which is about thirty acres in extent, will be divided into forty and fifty-foot lots with an average depth of 130 feet, and called Glen Grove Annex.

It will be marketed as a high-class residential district and, at reasonable terms and prices.

B. McCarten's Estate.

Bernard McCarten, who died intestate on March 28 last, left an estate valued at \$11,571.50, consisting of bank deposits, letters of administration were applied for in the surrogate court yesterday, which will entitle the widow, Mrs. Jane McCarten, to \$3,283.50, a sister \$1067.18, and thirteen nephews and nieces will share the remainder.

Send for This Beautiful Book--NOW

Connaught Bridge Crossing Cedar Vale Ravine

We have published a book which tells all about the wonderful landscape work and other improvements now being made at

CEDARVALE

Owned by the British and Colonial Land and Securities Co., Limited. H. H. Macrae, Managing Director.

You cannot afford to overlook Cedar Vale. Get this book now. Then ask us to motor you out and show you the elaborate improvements being made there.

See the boulevards, drives and avenues, where two hundred and fifty men are now working to create the most beautiful suburb in all Canada. See the magnificent ravine, the site for the Country Club, and the work now commencing on Connaught Bridge. Remember—all these improvements are being made for the exclusive benefit of the residents of Cedar Vale.

Lots in Cedar Vale are selling fast. The best locations grow fewer every day. You should act at once. Phone us, making an appointment, at any time convenient to yourself.

LOST.

A REDDEN Scottish terrier, dog lost, months old, name and address on round leather collar. Reward if returned at once. Anyone detaining him after this notice will be prosecuted. Phone Main 11 or North 264.

EDMONTON

Millions of Dollars Have Been Made in Western Canada Lands in the Last Few Years.

Millions upon millions will be made in the next few years. Western Canada has just begun upon the greatest era of prosperity that any region of the world has ever known.

It is probable that even you have been offered lots in Edmonton or other western cities, a few years ago, at a few hundred dollars per lot or less than to-day are selling for as many Thousands Dollars per lot. It is a well-known fact that hundreds of men who walked in the ordinary paths of life in Eastern Canada have, through their investments in Edmonton properties alone, been made wealthy and raised from regions of obscurity to influence and power. Undoubtedly you have heard of many cases of vast increases of values in property, but what little you may have heard is a very small proportion of the thousands of circumstances of this kind which have really taken place.

We are now offering a limited number of close-in residence lots in Alberta. This property is part of East Delton, Subdivision, located in a part of Edmonton fastest growing in value. This part is by no means out-of-the-way property. Lots have been sold two miles further out in every direction from East Delton. East Delton is one-half mile from North Edmonton Postoffice. East Delton is close to the Canadian Northern and Grand Trunk Pacific Stations at North Edmonton. Both on the east and west of East Delton property has been sold for \$350.00 per lot.

The street car line is now within three-quarters of a mile of East Delton Subdivision. And it is proposed to run an extension right alongside of this property. This, when constructed, in the near future, will lift it to an advance of 100 per cent. in the value—that is, from \$300 per lot, the present price, to \$600.00 or more per lot.

We tell you that East Delton property is a good investment for your money, whether it be \$150.00 or \$30,000 you have to invest.

You may have passed up other opportunities to make money in the development of Canada, and you have since been sorry when you saw how highly profitable these same opportunities have turned out to be. This is another one of those opportunities. You should not pass it by. You probably cannot afford to pass this by.

The price of these lots will never be as low again. NOW is the time to buy.

PRICES TO-DAY, \$300 PER LOT. TERMS ARRANGED.

WESTERN LANDS. SASKATOON

WELLAND is fast becoming the greatest manufacturing city in Canada.

WITH seven railroads, the Welland Canal, cheap power and cheap gas, it has grown from 100 people to 5000; from one factory to 28, and from an annual payroll of \$60,000 to a payroll of \$1,000,000, and all this has taken place within the past five years.

IF the future can be judged by the past, then Welland will soon be the Birmingham of Canada. Welland South is the only high-class restricted workmen's residential district adjoining the factory section of Welland and within five minutes' walk of the largest industries and the Union Station.

LOTS which to-day are selling at from \$8 per foot up, should make you 100 per cent profit in a short time. For particulars write to Canadian General Securities Corporation, Limited, 29 Scott street, Toronto.

TO RENT.

COMMODIOUS store, Walton street, Port Hope, Ont., at present used as a lunch room. Possession as required. Apply to E. Outram, Port Hope, Ont. ed

FARMS FOR SALE

CHOICE WESTERN FARM LANDS FOR SALE

MR. C. J. PRATT, who has had 28 years farming experience in Western Canada, has for sale in Manitoba, Saskatchewan and Alberta, 20,000 acres of unimproved lands, ranging in price from \$6.00 to \$7 per acre, also several choice improved farms from \$15 to \$20 per acre, all on easy terms of payment. Mr. Pratt will be at 17 York street, Toronto, until 26th inst., when he will return west and will accompany any prospective purchaser to examine any of those lands, without it entailing upon them any obligation to buy.

ADVERSE CROP REPORTS SEND WHEAT UP AGAIN

Chicago Hears News of Damage in Kansas and Poor Conditions in Canadian West—Corn and Oats Close Higher.

CHICAGO, June 20.—Assertions that an important belt on both sides of the Canadian border in the northwest had been missed by rains and was beginning to have a burnt look, switched the wheat market to-day to the bull side.

Prices finished steady at a bid advance of 1/4 to 1/2 cent. Corn closed 1/4 to 1/2 cent up. Oats at a gain of 1/4 to 1/2 cent. Provisions varying from unchanged to 1/2 cent increase in cost.

Dry weather complaints relating to wheat came from the upper part of Minnesota and North Dakota and from a large area in Southern Manitoba.

The difficulty at present was said to be confined to fields where the seed had been sown in the fall, but predictions were current that a better yield would make the distress more widespread, as heavy winds seemed to have checked the remarkable amount of moisture.

Reports of drenching rains and grasshoppers in Oklahoma had considerable influence in stirring up sentiment against the wheat bears. Freshly, however, optimistic crop predictions were dragging the market downward.

Corn and Oats Strong.—Corn developed strength as a result of some good sized quantities of the grain in elevators here being posted as being of condition. Sept. futures advanced 7 1/2 to 7 3/4 and 7 1/2 to 7 3/4, closing steady 1/2 cent higher at 7 1/2. Cash demand was better.

Although the oats market seemed slow to join the upward march of other cereals, there was a substantial advance late in the day. Outside limits touched for September proved to be 70 1/2 to 40 1/2 with the close 1/4 cent up at 70 1/2.

A light run of hogs lifted provisions up despite unloading by packers and dealers. The advance in no case, however, exceeded 1/2 cent.

Northwest Receipts.—Receipts of wheat at northwest primary points with usual comparisons are as follows: An. Now. Prev. Chicago 107 107 107

European Markets.—The Liverpool market closed to-day unchanged to 1/2 cent lower than yesterday on wheat, and unchanged on corn.

Argentine Estimates.—The weekly Argentine estimates with usual comparisons follow: Wheat 2,400,000 2,300,000 1,800,000

CROP CONDITIONS.—The Price Current (Cincinnati), says: Widespread rains have occurred within sufficiently to meet the existing needs.

LIVERPOOL GRAIN EXCHANGE.—LIVERPOOL, June 20.—Wheat: The market opened with a steady undertone and was higher, being influenced by the news of a fire in America yesterday.

ST. LAWRENCE MARKET.—Wheat, fall, bushel, \$1.05 to \$1.08. Rye, bushel, \$0.95 to \$0.98. Oats, bushel, \$0.85 to \$0.88.

GRAIN.—Wheat, fall, bushel, \$1.05 to \$1.08. Rye, bushel, \$0.95 to \$0.98. Oats, bushel, \$0.85 to \$0.88.

FRESH MEATS.—Beef, forequarters, cwt., \$8.00 to \$10.50. Beef, hindquarters, cwt., \$10.00 to \$12.00.

FARM PRODUCE WHOLESALE.—Hay, car lots, per ton, \$10.00 to \$12.00. Straw, car lots, per ton, \$5.00 to \$6.00.

HEAVY HOG OFFERINGS BIG FEATURE OF MARKET

Grass Cows Off From Quarter to One-Half Cent—Choice Butchers Scarce—Look for Break in Hogs

Practically all of the high grade cattle with the anticipated taking place, a drop in grass-fed cows from a quarter to one-half cent was noted.

The Montreal market was over-loaded with hogs last week, and a fresh lot of hogs has been turned to Toronto.

The ending toward a lower price on grass-fed cows was noted in the market, and a quarter of a cent was clipped from the average on the lot.

With the market practically unopposed of stalled stock, the consensus of opinion is that the seller's market cannot be maintained for any length of time.

A slight decrease in the number of calves offered caused the price to remain firm and the tendency on the part of the higher market.

There was no change on the horse market with only one offered and buying rather slow.

It was freely predicted yesterday that the opening of the week will see a gradual decline in the price of hogs.

The number of packers offered were slightly in advance of instances as a result of the price ranging from \$7.00 to \$8.00 on choice hogs.

Prices did not change, holding steady at the old figures, with a good offering of hogs.

Extra Prizes of \$25.00 Each in Canadian Gold

will be given to the owner of every animal (horses, cattle, sheep or pigs) winning a First Prize at the Canadian National Exhibition held at Toronto, 1912—the only condition being that the prize-winning animal must have been fed regularly three times a day from July 1st, 1912, on the Original

MOLASSINE MEAL (Made in England) The best feed for live stock known to science.

MOLASSINE MEAL is a food and replaces other food stuffs. It will keep all animals in good health. Prevents and eradicates worms.

MILK COWS will give an increased flow and better quality of milk when fed on Molassine Meal—also Molassine Meal will prevent any milk when fed on Molassine Meal.

STOCKERS can be fattened quicker on Molassine Meal than anything else. It aids and digests their other foods and keeps them free from worms.

POLY will be ready for the market ten days to three weeks earlier when fed on Molassine Meal than when fed on any other food.

SHEEP AND LAMBS, fed on Molassine Meal, produce the finest mutton and meat obtainable, securing top prices.

POLY will be ready for the market ten days to three weeks earlier when fed on Molassine Meal than when fed on any other food.

# Renewed Public Interest in Mining Stocks--Market Is Strong

## COBALT "CATS AND DOGS" ARE IN THE LIMELIGHT

### Lesser Lights of Silver List Come to Front--Sharp Recovery in Hollinger and Dome Extension Features of Porcupine Section.

World Office, Thursday Evening, June 20. A sharp recovery in Hollinger and Dome Extension, which had borne the brunt of yesterday's decline, and the raising of prices on some of the cheaper grade Cobalts, were the predominant features of the mining exchanges today.

Trading was of a fairly active nature, and the buying demand so established as to plainly demonstrate the fact that public interest has been revived to a certain extent. The general list of securities, however, accomplished nothing at all. The bidding up of some of the lesser lights in the Cobalt section of the market has come about so gradually that it has escaped the notice of many speculators. Nevertheless, there is a decided change in sentiment in regard to many of the "cats and dogs," as to the traders in the list have come to be known. The assurance that several of the companies heretofore counted among the "dead ones" will be given another chance is itself evidenced by the unwillingness of holders to sacrifice their stocks at the dead-level quotations now ruling.

In the market-to-day several issues in this class responded to the steady demand by reaching a price level considerably above that ruling yesterday. Foster rose to 10 cents, a gain of about four points for the day; and bids on such shares as Peterson Lake, Silver Queen and Silver Leaf were raised from a large fraction in the former to a full point in the latter without attracting sales.

In the general list of Cobalts a buoyant tone was plainly perceptible. Yesterday's rise to 81, Chambers-Perland to 30 and City of Cobalt to 100, some of the others were also inclined to improve, thus evidencing the more confident feeling in respect to the silver as a whole.

The Porcupine section was brightened by a sharp upturn in Hollinger, which more than made up the decline of yesterday, the shares rising to 51 1/2, a net gain for the day of 55 points. Dome Extension, on the other hand, advanced to 28, or three points above yesterday's low record. Elsewhere quotations were comparatively unchanged.

### PORCUPINE'S EYES ON STAMP MILLS

Alex. Miller, president of the Miller Porcupine Gold Mines, is at the Kings Edward. He came to the city to attend the Stewart-Banning wedding and will leave for the north Friday evening.

A slight revival of interest in the Porcupine camp has set in the last few days, said Mr. Miller. "Visitors are more frequent now than during the last two months. The Hollinger and the Vponad Mills have been the attraction. There is a strong tendency to regard better things for the north now than any time since spring opened. The movement into the production period, also gradual, has had its effect."

### CUTTING TO VEIN AT THE MCINTYRE SHOULD CUT VEIN IN MONTH'S TIME

The 27-foot lead of quartz which was cut three weeks ago on the 200-foot level in the west end of Pearl Lake, on the McIntyre, with a diamond drill in the cross-cut, and was supposed to be the extension of the Hollinger bonanza, is being driven for in the cross-cut. The management of the Pearl Lake Gold Mines, adjoining on the north, is watching the work with anxious eyes, as the big lead strikes in the northeast direction.

The McIntyre main cross-cut at the west end of the lot is now connected up by 80 feet, which was cut with a diamond drill in order to hurry matters. It is in this stretch of uncut rock that the big vein was found.

### BIG PORCUPINE DEAL PENDING? PUSH SHAFT TO DEPTH AT HUGHES PROPERTY

Engineers sent from London, Eng., to inspect the Scottish-Ontario mines in Northern Whitley are on the ground. The underground work is being done very thoroughly. After the formation of the Scottish-Ontario Company calls for underwriting the stock were made. The entire amount it is said, was taken care of, but in the meantime buyers for the property came to light. The inspection now being made, it is averred, is on behalf of these prospective buyers.

### CROWN RESERVE'S PORCUPINE HOLDING

Four feet of ore has been cut at the 200-foot level at the bottom, showing a widening of the vein from 12 feet at the 200-foot level, where values were very consistent. In the south drift on the 200-foot level, work is proceeding and free gold shows in streaks. At the 100-foot level the vein narrows in a fault.

The Crown Reserve of Cobalt is buying the McNeany lot on the west side of the McIntyre, and another payment is to be made very soon. The company will test out one hundred tons of ore in the McIntyre mill.

## Seasonable Attire for Every Occasion In and Out of Town

A certain self-confidence comes to the man that knows that his attire is absolutely correct. With that kind of clothing comes hot weather comfort.

You'll be outwardly satisfied by the style and fit of Broderick's Suits, and inwardly satisfied by their economy.

Designed with taste, made with skill, and of materials chosen for durability as well as style.

Priced and sold to give lasting satisfaction.

Prices \$22.50 to \$45.00

## Broderick's LIMITED TORONTO CANADA

## GOLD IN 10 FOOT SHAFT AT PORCUPINE LAKE

Promising Indications in Development of Well-Known Property--Values Are Consistent.

Gold in the porphyry at the 10-foot shaft of the Porcupine Lake Mining Company, located on the east bank of Porcupine Lake, is causing considerable interest to Porcupine. Shaft sinking started on this property a week ago, and due haste will be made in getting to the 100-foot depth.

Values are not of the splashy kind, but carry consistently across several shafts of the porphyry in the base of the shaft.

Diamond drilling was done at this property in the lake bottom during the spring, and when the lens went out the drills were shifted to the banks of the lake. One shear has been well punctured with holes, and down to the 400- and 500-foot depth unofficial reports state encouraging results were obtained.

## OIL OCTOPUS ALLOWED NO COMPETITION

NEW YORK, June 20.—James A. Moffett, vice-president of the Standard Oil Company of New Jersey, in the hearing of the Water-Pierce Oil case, explained to the commissioner how the Standard Oil Company and the Water-Pierce worked together. He said that the Standard Oil Company of Indiana, 800 1/2 products in Indiana, Missouri, while the Water-Pierce sold in southern Missouri. It was shown that the dissolution of these two companies did not compete in many localities, especially in Oklahoma. The assets of the Standard Oil Company of New Jersey and as such did not enter into competition.

Mr. Moffett said that so far as he knew, Mr. Moffett said that there were as absolutely independent of the Standard Oil Company of New Jersey as the Standard Oil Company of Louisiana, the witness said, did business in eastern Louisiana and kept out of the western part, which territory was covered by the Water-Pierce Oil Company, although Mr. Moffett said no agreement existed to this effect, so far as he knew.

Mr. Moffett said that one reason was that the Standard Oil Company of Indiana had the business in that section, and there, it would have meant a fight and a costly one.

Low Rates to Hamilton for the R.C.P. Via Canadian Pacific Railway

Only \$1.25 from Toronto, Saturday, June 22. Tickets valid returning until Monday, June 24. \$1.25 return, June 20 and 21. Tickets valid returning date of issue only. Particular attention is called to the convenient train service offered by the Canadian Pacific. By leaving Toronto at 11.30 a.m. Hamilton is reached 12.15, affording passengers plenty of time for lunch before starting of first race. Return trains leave Hamilton at 7.30 and 8.30 p.m. Secure tickets at city office, 18 East King-street, Toronto.

## NICKEL MAINE NEAR KELS0

Country Adjacent to Porcupine Comes to Front as Nickel Producer--Shipments Already Sent Out.

The Kels0 Nickel Mines property, located three miles to the west of Kels0, 22 1/2 miles north of North Bay on the T. & N. O., has joined the regular shippers of nickel in the province. Railway tracks are now being run in a siding on which to load cars. A tramway is being built and the ore will be hauled by mules from the mine to the siding. One carload a day is to be sent out regularly now, following the eighteen cars sent out two months ago.

There is every evidence that the ore from the Kels0 mine will run to a high average, the cars shipped already showing six per cent copper. The ore occurs in serpentine schists. Considerable of the country surrounding Kels0 has been staked and the vein worked in search of nickel. The vein on the Kels0 property averages from four to six feet in width.

All ore shipments so far made and those to come in the future go to the Monnell Nickel Company at Sudbury.

## COLLAPSE OF TIN BOOM IN LONDON

LONDON, June 20.—The boom in Nigerian tin shares, which was a feature of the London markets about two months ago, has now completely collapsed. Strictly speaking, it collapsed a month ago, but many unfortunates speculators were holding on in the hope of a revival. The principal feature in the boom was Anglo-Continental shares, which had advanced to 100.

The directors now state that they are quite unable to account for the wide divergence of opinions of the present manager of the property and his predecessor. The present manager says there is no properly defined tin lode at all. What there is is a lode six feet wide, containing about one-half per cent tin, the disconnected out

# Financiers Hold Conference—The Market Watches Closely

## NEW HIGH RECORD REACHED BY RIO

Street in State of Ferment Regarding the Conference—Market Backs and Fills—General List Buoyant.

Rio showed decided strength again in the Toronto stock market yesterday, the shares continuing in sustained demand through the session. A new high record was reached, but the price backed and filled from that time, renewed activity on every sign of reaction making any material decline impossible, which meant that the signs of hesitancy checked the upward disposition. On the whole, it was a remarkably erratic market, with one interest in the Rio stock, the closing bids at 147, a figure only a shade above the quotation at the previous close.

The exclusive announcement in the World that Dr. F. S. Pearson, Sir W. Mackenzie and the Rio directors would hold a conference regarding the affairs of the company during the afternoon, attracted a great deal of attention. Dr. Pearson's arrival in the city during the morning and the meeting was under way shortly after noon. The street, meanwhile, was in a state of ferment as to what was to be expected, and many speculators found it hard to go home without learning the result of the deliberations. The largest all-day buy was for Rio, the general anticipation that something big was in store, for on top of so extensive a rise in the stock, no information was forthcoming as to the meaning of the conference.

While Rio was the star performer in the stock market, it was by no means the only feature. The speculative movement was broader than in the past, and the buoyancy spread to several other stocks, which have been more or less prominent of late. Maple Leaf common rose three points to 71, making a gain of 9 points in two days. There have been rumors of a new point to 108, and Twin City got up over a point to 103. Another strong spot was Spanish River, which reached 62 1/2. Sao Paulo gained over a point during the morning at 24 1/2, but was off to 24 1/4 later on, a fraction up from the previous day's close.

## POLITICS ON WALL STREET

New York Market Broadens—Considerably on More Favorable Developments at Chicago.

NEW YORK, June 20.—Political considerations obtruded themselves to the attention of all other matters in the New York stock market. News from the convention was too conflicting as to the outlook to stimulate the professional element to any degree of activity, but later when developments pointed to a possible solution of the more serious complications, the list broadened and became distinctly strong.

Anthracite coal shares were again foremost in the upward movement, both Lehigh Valley and Reading adding substantially to their gains of the previous day. Buying of these stocks suggested accumulation, but may have been nothing more than an attack upon the short interest. Their strength, however, was popularly attributed to the announcement that the interstate commerce commission does not intend to proceed against the so-called monopoly until the fall. In the final hour, when prices were highest and speculation most pronounced, the weakly of comparatively inactive issues came to the front. These included Rock Island preferred, Louisville and Nashville, American Sugar and International Harvester.

The late movement coincured with a flood of rumors from Chicago. Traders received these reports with some enthusiasm, regardless of the fact that the stock market had been moving towards the end of the market against a state of dullness with resultant recessions from the top, but the closing favored the big account.

More Labor Unrest.—The market was a mixture of good and bad, the latter including despatch news from Pittsburgh indicating greater tension in the labor situation of steel and iron industries. One of the most important subjects of the day was the suspension of all operations until the strikers meet the company's demands. Crop news was mainly favorable, the weekly summary of a leading authority stating that from present indications the yield of spring wheat is likely to offset the loss in the winter crop. Conditions with regard to corn and oats also showed marked improvement, following recent rains.

## POWER UP TO NEW RECORD IN MONTREAL

MONTREAL, June 20.—A sharp advance in the Montreal market yesterday, the highest price of the day being 147, a figure only a shade above the quotation at the previous close.

The exclusive announcement in the World that Dr. F. S. Pearson, Sir W. Mackenzie and the Rio directors would hold a conference regarding the affairs of the company during the afternoon, attracted a great deal of attention. Dr. Pearson's arrival in the city during the morning and the meeting was under way shortly after noon. The street, meanwhile, was in a state of ferment as to what was to be expected, and many speculators found it hard to go home without learning the result of the deliberations. The largest all-day buy was for Rio, the general anticipation that something big was in store, for on top of so extensive a rise in the stock, no information was forthcoming as to the meaning of the conference.

While Rio was the star performer in the stock market, it was by no means the only feature. The speculative movement was broader than in the past, and the buoyancy spread to several other stocks, which have been more or less prominent of late. Maple Leaf common rose three points to 71, making a gain of 9 points in two days. There have been rumors of a new point to 108, and Twin City got up over a point to 103. Another strong spot was Spanish River, which reached 62 1/2. Sao Paulo gained over a point during the morning at 24 1/2, but was off to 24 1/4 later on, a fraction up from the previous day's close.

## SHARP RALLY IN CONSOLS IN LONDON MART

LONDON, June 20.—The supply of money was somewhat restricted today, owing to the payment of recent new issues. Discount prices hardened. The stock market continued dull and uncertain. Consols recovered sharply on a rumor that 3,000,000 pounds of the sinking fund will be used for redemption purposes. House prices fractionally lower, and consols were weak on the late trading.

American securities opened steady and a fraction higher. Prices advanced until the end of the first hour, when support was withdrawn and most of the list eased off. In the afternoon the market was quiet until New York selling orders further depressed values and made a weak closing.

## MAPLE LEAFS UP

Maple Leaf common sold at 71 in the Toronto market yesterday, an advance for the day of three points and 6 points up from the price at the first of the week. The company is stated to be doing record business and the mills are booked up for some time ahead. The advance has been inspired by the more bullish feeling in the market yesterday morning, and the World reported that the capacity of the Port Colborne mill is to be increased from 4000 to 7000 barrels per day. The company last year showed profits of \$280,000, and after paying dividends on the preferred stock has equal to 4.4 per cent. on the common issue left in the treasury. No dividends are paid on the common stock as yet. The range on the stock in the market follows:

High	Low
1910	67 1/2 40
1911	100 29 1/2
1912 to date	71 81

## ON THE CURB

The feature of the curb market yesterday was another sharp advance in Consols, the price of the 2 1/2 per cent. which rose to a new high record for the year at 73. At that figure the stock stood five points above the previous high, and 20 points above the price at the first of the year. The company's fiscal year closes this month and it is understood that the much-talked-of dividend of a million and a half has been entirely wiped out, and the report will show that there is not only \$100,000 on cash on hand, but that there is matter in transit and ore on hand valued in excess of half a million. A dividend is being anticipated on this ground.

## HERE'S PLAN TO BEAT OUT N. Y. MARKET

NEW-YORK, June 20.—The Consolidated Stock Exchange has conceived another plan for outdoing the New York market, and it is being carried out by which they will beat out the New York market.

It proposes to open at 9:30 in the morning. This is half an hour earlier than the stock exchange begins business, and in fact, the Consolidated would be the only stock market in this country buying and selling securities before the New York market.

The Consolidated would thus get the first whack at the arbitrage business with London. A regular system of arbitrage between the Consolidated and Consolidated members was established some time ago, and is being continued with success.

Moreover, the Consolidated believes that it would receive a good deal of out-of-town patronage in the first half hour of business.

When security markets are excited there is always a rush to carry through transactions at the minute of opening. The Consolidated started at 9:30 in the morning, and it is believed that the advantage over the larger board.

## TWIN CITY RUMORS

Higher prices on Twin City during the last few days have revived talk of an increase in the price of the stock. The shares yesterday rose to 103 1/2, a net gain for the day of over a point and nearly three points above the price at the first of the week. The earnings of the company for the first four months of the year were 2.5 per cent. on the common stock, or at the rate of 6.25 per annum. The range of recent years follows:

High	Low
1908	87 78 1/2
1909	112 86 1/2
1910	117 103 1/2
1911	111 103 1/2
1912 to date	108 74 1/2

The Chicago Convention.

Messrs. Chas. A. Stoneham & Co., McKinnon Building, mining brokers, have a special view direct to the Republican Convention at Chicago, for the benefit of their clients and the public at large.

## Wall St. Comment.

Erickson Perkins & Co. (J. G. Beatty) wired: To-day's developments at Chicago were generally construed here as meaning that Roosevelt is rapidly losing ground. The concurrent rise in stocks looked significant.

Many times of late stocks have advanced on rumors of Roosevelt's loss of the nomination. The strength of the past two days has been even more emphasized today, and after a slight recession immediately following the opening, prices strengthened and again secured gains of a point or more in many issues. Rubber was conspicuous, rising 2 1/2 to 57. Traders who have been playing the short side were impressed by the underlying and continuing strength of the market for the past two days that many changes have been made in the bull position. In the last hour business became active and prices advanced to the highest point of the day. Lehigh touching 115 1/2, and Steel 70 1/2 upon rumors that the two prominent opposing candidates at the Chicago convention would retire in favor of more acceptable nominees. Closing was quiet but strong at substantial net gains in many quarters and the outlook favoring further advance for the more acceptable nominees of the leading bankers.

## For Your Holidays

Get full enjoyment from your holidays with a camera. Complete stocks of cameras, which range in price from \$1.50 to \$50.00, will give you full information as to the advantages of the different styles. If you finish your own pictures, remember that we carry a full line of all apparatus required for this work, all ingredients used in our developers, etc., all of the "Simpson" quality, and fresh. This is most important. If you do not enjoy finishing your own pictures, we will do this part for you. Let us also enlarge some of your small snapshots. The results will surprise you. This is a specialty—

**CAMERA SUPPLIES**

Developing, printing, and enlarging for amateurs, best results guaranteed. Picture Department—6th Floor.

## "New Ontario" Delegates

who would see the Old Ontario citizens at their best will meet a most representative throng at the Simpson Store. At the same time, our wonderful stocks will offer endless object lessons that show how the Old can help the New in providing for comfort and luxury for the new homes; a fit return for the pioneer work of Empire Building.

Visit the Lunch Room at any time between 8 a.m. and closing time. You will like it.
