beg are ready to strike; that the Canadian Pacific Railroad trainmen Sopwith Machine Picked Up Off Irish Coast, But Identity Uncertain --- Admiralty Has Sent Out Ships to Search For Daring Aviators.

> London, May 19.—London spent the day in tense excitement and suspense, awtiting the result of Hawker's bold attempt to fly across the Atlantic, and after a day of anxious enquiries and unverified rumors and speculation, the fate of the gallant aviators, Hawker and Grieve, is still unknown. A Sopwith machine, supposed to be Hawker's according to an admiralty wireless report, descended to the surface of the ocean 40 miles west of the

mouth of the Shannon. Later admiralty reports said that this information was The early unverified reports had it that the Sopwith machine encountered a gale which reduced its speed to 40 miles an hour, and finally compelled it to

descend owing to exhaustion of gasoline.

Crowds of people waited the day long at the Brooklands airdrome, where Hawker learned to fly, believing that the aviator would make his landing there, altho experts had expressed the opinion that Hawker would not likely be able

The fate of Hawker and Grieve cannot be definitely stated, and tonight it is impossible even to assert that the machine found at sea is Hawker's.

The weather off the Irish coast Monday was boisterous, with rain and haze. The admiralty has sent out all ships possible to search for the aviators.

According to The Daily Mail, admiralty quarters in Queenstown, when questioned at 11.15 o'clock last night, denied receiving a wireless despatch from

the Castletown station, saying Hawker's machine had landed 40 miles west of the mouth of the Shannon, or any other wireless.

Moreover, it was asserted, the especially sensitive wireless plant at Ballyday in the minds of millions of men and bunnion, on the northwest coast of County Kerry, Ireland, did not receive the

MAYOR ENDEAVORS TO AVERT STRIKE

Conferences Held With Employers and Employes to Consider Situation.

COMMITTEE OF FIVE

Labor, Capital and City Representatives Chosen as Peacemakers.

Mayor Church was busy yesterday doing his best to effect a settlement of the metal trades strike, and to prevent further threatened industrial trouble. In the morning he had a conference with labor men and in the afternoon he saw representatives of the Manufacturers' Association, the Board of Trade, and Mr. Merrick of the Sheet Metal Employers' Association. As a result of these meetings it was proposed that there should be at noon today, in the mayor' office a noon today, in the mayor's office, a conference between two representatives of labor and two of the employ-ers, with a fifth member to be chosen. The representatives of labor and em-ployers were not to be members of the rganizations, parties to the dispute. The mayor urged upon the Labor council representatives to use their

good offices to prevent any future strikes, pending the conference to settle the present dispute.

Industrial Survey.

There was a conference in the mayor's office at 3.30, p.m. yesterday afternoon, between President Dunstan, Secretary Morley, representing the Board of Trade, two representatives of the Manufacturers' Association and the Manufacturers' Association, and G. Merrick of the Sheet Metal Employers' Association, when the suggestion was made that the employers and the labor organizations shou each appoint two representatives who, with the mayor or a representative of the City, would be a committee to make a survey of the whole industrial

FOR LISBON TODAY

Expected to Attempt Entire Flight to Portugal, With Stop at Ponta Del Gada.

Washington, May 19 .- Rear-Admiral Jackson at Ponta Del Gada, Azores, cabled the navy department tonight that the American naval airplane, NC. 4. in command of Lieut.-Commander A. C. Read, would leave Horta, Fayal, tomorrow at seven o'clock, Greenwich time (3 a.m. Washington time), if weather conditions possible Aston will be made. ditions permit. A stop will be made at Ponta Del Gada, the message said The early hour set for the start of the flight to Ponta Del Gada was in-terpreted by naval officials here to mean that Commander Read would attempt tomorrow to make the entire trip of more than 925 nautical miles to Lisbon, Portugal, the real end of speedy travel is to be an airship of size Ponta Del Gada was thought to be engines in numbers sufficient to relieve

heavy seas, the missing seaplane And it is this airship that the finest en-NC-3, flagship of the American naval gineers are working at now, with every transatlantic flight squadron, entered hope of success. A plane that will carry Ponta Del Gada harbor today under twenty men, spare engines, stores of her own power nearly 60 hours from gasoline, is, in fact, built in more than the time she was forced down by fog one shop now, and will be ready to go

tidings to the navy department by torchbearers of greater feats, if not ex

Chippawa and Welland Canal Operatives Present Ultimatum Which, if Not Acceded to, Will Affect One Hundred and Thirty Municipalities.

That Toronto and 129 other municipalities might be without either light or power after Thursday night as the result of a strike of 5,000 employes at the Chippawa Canal and Welland Canal power plants, was the startling information received yesterday afternoon from Niagara.

The men at a large meeting held at Niagara-on-the-Lake on Saturday night decided to walk out unless the Hydro-Electric Commission and the Electrical Development Company acceded to their demands for an 8-hour day and recognition of trades union ism. Respecting the probable strike on the Hydro development scheme, the commission received a notice in the form of a telegram from the Niagara District Federation notifying the commission that in view of the fact that the commission had not granted any concessions to their de-mands the federation have decided to empower their executive to de-liver an ultimatum immediately that unless a satisfactory conclusion is arrived at by the commission, a suspension of all work on the power plants at Niagara Falls will take place at a date to be set by the executive

Will Suspend Work At a meeting of the commission held yesterday it was decided that should the various trades working on the power plants at Niagara Falls decide to suspend work the commission will notify the 130 municipal ities in the Niagara district who have contracts with the commission to send representatives to the city of Toronto with a view to conferring and advising with the commission as to

The engineers of the commission have advised that if the demands of the various trades are acceded to it will increase the cost of the Chippawa development alone at least \$5;-000,000 or \$6,000,000, and would also seriously delay the completion of the work beyond 1921, when the franchise rights of the Toronto Street Railway Company will expire, and the city of Toronto will take over the company's

Eight-Hour Basis. It was learned on excellent authority yesterday that the Hydro-Electric Commission operates on an 8-hour basis on every piece of work except the Chippawa Canal development scheme, which was primarily considered as a means of giving work to thousands of men suddenly faced with an acute situation some time ago. It was pointed out that the scheme ha to be consummated by 1921 if To-ronto was to be enabled to take over the Toronto Street Railway in 1921. So much for the Hydro-Electric system. Conditions are alleged to be different at the works of the Electrical Development Company, which works thruout on a 10-hour basis.

One prominent Torontonian, touching upon the situation, expressed the opinion that the workers in fighting the Hydro-Electric Power Commismission and forcing upon it additional overhead charges, amounting to \$6,-000,000, would succeed only in preventing its sense of competition against private interests and thus crippling one of the foremost public utilities of Canada. In other words, he said, the workers would spite their nose to save their face. They would succeed in gaining a mediocre de-mand by sacrificing a principle in per-

Would Be Impossible. "It just happens that an 8-hour basis upon this development work on the Chippawa Canal would be impossible if the work is to be completed by 1921," said this man. "It would be impossible to put more men on the job, thru lack of space." Another man pointed out that three shifts of eight hours each might help

to solve the problem. The Big Air Ship is at Hand.

At the best, the airplane only points the way. The new instrument of world-wide. planned for the purpose of obtaining one another and carry on continuously in After weathering a 60-mile gale and shifts till the journey be accomplished And it is this airship that the finest enwhen almost in sight of the Azores on the record-breaking flight from Newfoundland for Lisbon and Plym-Searching battleships and destroyers little fighting plane that did such great were scouring the seas and naval offi- things in the war. was based largely on the ground that while immigration was decreasing expenses on salaries were increasing.

To this, Hon. J. A. Calder replied that the work of the Ottawa department was increasing. Officials had to be maintained at the border. The immigration problem, Mr. Calder declared, would never be settled if Canada pursued a niggardly policy. pursued a niggardly policy.
Salaries of Judges

Hon. Arthur Meighen stated in reply to Mr. J. H. Sinclair that there were 36 senior judges in the province of Ontario, including four vacant judgeships and 24 junior judges. The salery was \$3,000 each, except in York county, where \$3,500 is paid. He said there were seven county count judges county, where \$3,500 is paid. He said there were seven county court judges in Nova Scotia, including one vacant judgeship. The salary paid was \$3,000, with the exception of Halifax, where the salary was \$3,500.

Hon. J. A. Calder gave notice that he would move the resolution in con-

nection with technical education to-morrow, and General Mewburn that ne would move the pensions resolu-

Third reading was given to the Do-

supply on the immigration estimate. The vote first under consideration was one of \$139,767 for salaries, an increase of \$11,650 over the estimate for the previous year. Mr. Cabill salaries the previous year. Mr. Cahill asked what immigration was coming into the country. If there was less immigration, he thought the vote⁹ for salar-

gration, he thought the vote for salaries should be decreased.

Coming From the States

Hon. J. A. Calder, minister of immisgration, said there had been a marked increase in the work of the Ottawa office. In addition to bringing people in, there had been the duty imposed of watching the border. He thought there was very little chance of getting many people from Europe in the ting many people from Europe in the near future. Immigration from the United States continued, however, and this year it was expected that about 75 to a hundred thousand people would enter Canada from the south.

and contained many bright summaries. He had to omit much of the detail in his exhaustive survey, but the sion left was of earnest; honest think

There was no reason to be discouraghad emigrated from the ed, he said. Britain had surmounted every crisis since William the Conquer-State of Kansas or that vicinity.

The chief objection to the Mennonites, which was largely responsible for the feeling of apposition to them in the feeling of opposition to them in the west, was that they objected to sending their children to the public worry about in Canada till the present Mr. Calder explained that when the century. The immigration of the past 16 years had created most of the profirst Mennonites proposed emigrating to Canada the government of that day had promised that they would have their own schools. Some of them took the ground now that they had a right to insist on the government's observing that agreement. As far as he was its who after 50 years were as Scotch

overnment which made that agreement had not the right to do so.

McKenzie Criticizes

D. D. McKenzie said it was startling of find that the cost of the immigration o came head of the department, it should have been handled with great care, and extravagance should not be charged, but as the number of imnigrants fell off the cost grew larger and larger.

Hon. J. A. Calder said the leader of the opposition appeared to be trying to give the impression that the immigrant

ment was the most important of all should have been established love. The should have been established love. "Now is our time to clean house. We

our undesirable." he said. "We want no codding of anarchy in this country."

Careful Direction.

Canada, he expected, would have 25,-000,000 of people in 1950. If British sentiment was to prevail there must be careful direction. At the same time honest censure was a patriotic duty. He advocated a ministry of health, and thought there should be no delay in carrying out reforms. It should be made a criminal offence not to send a child to school, and the children should be inoculated with the spirit of the empire.

The press was the great medium The press was the great medium for educating the masses. He proposed an all-red wireless system for the disemination of British empire news to every part of the globe.

The soldiers had every right to expect Canadians to be in peace what they were at war, and able to hold their own with any country.

any country.

The country should not be divided in three factions, farmers, laborers and manufacturers. They must co-operate. The farmers were the backbone of the nation, and would always be a bulwark against the etherized principles of socialism.

cialism.

Among his other proposals was one to take the tariff out of politics by means of a joint commission of farmers and manufacturers. Great Britain was abandoning free trade, he said. Labor can only make protection effective for themselves by the adoption of the principle which enables the work of production to take place in Canada.

He would tax all luxuries, establish a faculty of commerce in the universities: improve trade relations by having competent trade consuls representing Canada; improve political standards by compelling the publication of all campaign subscriptions; this would save some people subscribing twice, he said, and political slackers must get the same treatment as military slackers.

WON DEBATING SHIELD

Donlands Methodist League were the winners of the shield in the recent Toronto east district debate in which all the leagues partici-The subject was: resolved "That women ought to have a place in the legislature." The reply in the affirmative was debated by Mrs. F. Moore and Miss Amy Phippen and the pro-ceedings aroused considerable inter-

WHY NO ROSES?

The decision of the parks department to omit the growing of roses in Withnow Park this season occasoned much adverse criticism at last night's meeting of the Riverdale Horticultural Society executive committee held at J. McCrombie's residence, 83 Ferrier avenue.

A. J. Smith, chairman, stated that there is no better soil in Canada for growing roses than Withrow Park. The soil consists of black loam, sand, clay and blue clay and is perfectly adapted for the purpose. "The west end is catered for at the expense of the east," said the chairman. the east." said the chairman.

Final arrangements regarding the show program were made. There was a good attendance.

Final arrangements regarding the heart in all the good things provided for their benefit on that day Every school. a good attendance.

EAST TORONTO

BIG BROTHERHOOD CLASS

An inaugural meeting of the men of Hope Methodist Church was held last night in the schoolroom, when the rganization of a Big Brotherhood Class for Sunday afternoons was in-formally discussed and each phase of the movement outlined. It was decided to bring the matter forward at tomorrow evening's meeting in the Rev. A. I. Terryberry, pastor, presided.

Rev. J. Bailey, representing the Do-minion Alliance, spoke on Prohibition at Hope Methodist Church on Sungay evening and pointed out that liquor men had imported an imm amount of money to fight the prohi-bition referendum both in Canada and the United States. The speaker told in a quiet and deliberate manner of the coming struggle and explained to his audience how to vote when the

time came. There was a response of \$189 to the speaker's appeal for funds.

EARLSCOURT

NEW BRANCH G.W.V.A.

A new branch of the G.W.V.A. is about to be formed in Fairbank, a mile or two north from St. Clair. A large number of men are residing in this section, and they look upon the trip to the Earlscourt branch as a hardship, especially after the day's work is done. The branch will probably work in conjunc-

court and district. A number of cricket enthusiasts were practising on the grounds of the Oakwood Collegiate

THE CURRELL FAMILY

Ernest Currell, the death watch in the sensational escape of Murderer Mc-Cullough, who is charged with aiding and abetting, comes up in court

HAMILTON NEWS

Cullough, who is charged with aiding and abetting, comes up in court again this week, and rumor has it that the girl. Vera de Lavelle's sentence has been postponed until Currell's case is disposed of. Currell is out on \$2000 bail, secured thru the efforts of the Earls-court branch of the G.W.V.A. The Currell family, who live at Fairbank, are in poor circumstances, and Currell's Hamilton, May 19 .- Thirty-two applicants for naturalization appeared bea poor circumstances, and Currell's fore Judge Snider at the general ses-lealth is said to be very indifferent. sions of the peace in the county court house this afternoon. Twenty-seven were successful in being granted Canadian citizenship.

> been issued by Howard M. Sweeney and Mrs. Elizabeth Sweeney agains the Barton Sand & Gravel Co part of the claim being for \$1000 damages caused to the property of the plaintiffs, and \$5000 for injury to the

health of the woman.

Besides being fined \$10 for speeding, Lorne Carby, Herkimer street, was informed by Magistrate Jelfs today that if he did not observe the daw in the future his car would be confirmed. future his car would be confiscated Legal circles were more than interested today when it became known that Strathearn B. Thompson has forwarded a complaint to Edwin Bell, secretary of the Law Society of Upper Canada, alleging unprofessional conduct on the part of John L. Counsell, a local lawyer, in reference to a false affidavit made by Philip Bradley, a broker, in connection with the latter's share of the cost of the celebrated Mercantile Trust Company law suit.

Another branch of the G. W. V. A. is to be formed in Hamilton. It will be known as the Regent, and owing to the fact that both the west and east branches are becoming unwieldy on account of their large memberships, it is expected that the new branch

will grow quickly. Members of the Women's Canadian Club, Women's Wentworth Historical ociety, I.O.D.E., and other organizations who are going to take part in the thrift stamp campaign here next week, attended a special meeting in the Y. W. C. A. this afternoon.

AURORA

TAKES DALE PRACTICE

Under the auspices of the Beach Avenue Methodist Men's Club, the wives and sweethearts of the members were entertained to a supper and social evening recently. J. Cummer, president, occupied the chair, and upwards of 80 guests were present.

A program of vocal and instrumental numbers was rendered and an enjoyable time was spent. Rev. A. T. Dr. Clifford Devins of Markham st., pronto, has purchased the practice Dr. Dale, who was recently accepted as physician at Manhattan Maternity Hospital, New York, Dr. Devins takes over the practice on June 1. joyable time was spent. Rev. A. T. Addison, pastor, was also present.

THE DAY ATOTTAWA

By TOM KING

Ottawa, May 19.—Nero fiddled at the burning of Rome which showed upon his part a certain amount of energy, however misdirected. Our house of commons is less energetic. One member did ask this afternoon whether the government had any informa-

"Some of the Bolshevite destroyees are reported to have been hit. The arrival operation of the beautiful positively the first stime. The control of the beautiful positively the first stime. The control of the first time. The first stime of the first stime of the first stime of the first stime. The first stime of the first saw the light of day in Victoria, the first saw the light of day in Victoria, the first saw the light of the government only nkew what it had learned from the newspapers. He added that the minister of labor was going to Winnipeg tonight but apparently with little hope of accomplishing anything, as he was of the opinion that nothing would have been accomplished by his going sooner. Then government and opposition alike made for the dug-outs as the house hurried into committee of supply. The subject of the strike is tabooed in parliament. Every minister and member is naturally the friend of the workingmen when he is not the friend of Calder's estimate remained under review. Some of the discussions, and much of the criticism, related to appointments and removals, and the usual much of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual much of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism, related to appointments and removals, and the usual function of the criticism is naturally the friend of the workingmen when he is not the friend of the farmer, the miner, the fishermen To this Mr. Calder replied the avenue, scratch football games were indulged in by several clubs in this neighborhood.

Toronto West District Epworth League annual meeting was held in Wesley Methodist Church last night. Rev. J. Walker presided. The speakers of the evening were Rev. E. H. Richard and Rev. G. H. Foper of China.

Another moving picture theatre is to be erected on West St. Clair avenue, in the Oakwood section. Ground has been broken, and the building is expected to be ready in the fall. Its seat-

while Hon. Mr. Calder, minister of immigration, put thru his estimates. At one time there were only three members of the opposition present and the government merely kept enough members on their side to maintain a quorum. The Liberals had the excuse of the conference going on be tween Judge McKenzie and the pro-vincial leaders, and many perhaps were hastening to salute that rising sun of Liberalism, Premier Martin of

is a boom on today for Billy" Martin as leader of the Liberal party. He can claim to be just as zie, for his father was a minister of kirk. He is much younger than the judge, which is a big asset in a young country like Canada. He hails from the west, whose political power work and to settle upon the farme is ever increasing, while the political Ontario. Agriculture was declining power of the maritime provinces is this province, and the movement daily diminishing. He supported conscription in 1917, but never said a more a arming every year. He was harsh word against Sir Wilfrid Lauri-er. He is liked by the men and much adored by the ladies and, in many re spects, would make a popular and preentable leader, tho not especially brilliant.

Premier Foster of New Brunswick, a new man in politics, but a successful business man of St. John, N.B., joined in today's conference as also did Attorney-General Daniels of Nova Scotia, torney-General Daniels of Nova Scotia, ary to eighty-six thousand tons who spoke as the personal representative of Premier Murray. The Liberals all seemed in good humor when the conference broke up at six o'clock. They to Winnipeg?"

There was a better attendance in t

evening than there was at the after noon sitting of the house, and M Calder's estimate remained under re-

in Nova Scotia, where the is said to be a good opening for far mers. Judge MacKenzie lamente that the farms were being deserte in the neighborhood of Sydney, be use young men preferred to in the coal mines, and in the stee factories.

Sir Sam Hughes, a staunch nation policy man, said no doubt the in dustrial development in Cape Breto had made the farmers in that part o the country more prosperous, but the Liberal leader said in reply that ninety per cent. of the food consumed by the industrial workers in Cape Breton was imported from Ontario Prince Edward Island and other pro vinces.

Donald Sutherland of South Oxfor said we must have more men on the land and that we ought to bring it farm laborers from the British Isles to work and to settle upon the farms of

ple got out on the land.

Dr. Clark of Red Deer saw no re son why people in the British Isles should emigrate to Canada. Eighty per cent. of the soldiers in Britain had been re-absorbed into civil life. Shi building on the Clyde was smashin all records, the output having increased from fifteen thousand tons in Janu

THE SITUATION IN EUROPE

Not alone has Count Von Brock-orff-Rantzau, the chief German pleni-otentiary, returned to Versailles from Spa, where he went Saturday for a conference, but he brought back with him Herr Landsberg and Herr Glesberts, two of the main members of the German delegation who had been in Berlin going over the situation with the authorities, and also a large retinue of naval, military and financial experts.

Thus the indications are that the Comman intend to approximate the first that the comman intend to approximate the first transfer that the comman intend to approximate the first transfer that the comman intend to approximate the first transfer to the comman intend to approximate the first transfer to the comman intended to the first transfer to the comman intended to th rmans intend to enotinue their efforts to come into agreement with the allied and associated representatives on peace terms that will be satisfactory to the German government and people.

Meantime from Germany continue to emanate reports of discretizations.

emanate reports of dissatisfaction over the terms laid down for Germany to sign and a reiteration by President Ebert that the Germans will never affix their signatures to the treaty as it stands and that foreign countries will

stands and that foreign countries will protest with Germany against "this peace enslavement."

On the other hand, Field Marshal Von Hindenburg is reported to have told the members of the German cabinet, representatives of political parties and other leaders during a meeting in Berlin, Friday, that resistance was impossible, and that the military leaders considered it necessary to seal the compact as desired by the allies.

With almost informality attending the proceedings, an exchange of credentials between the Austrian peace delegates and the representatives of the allied and associated powers, has taken place at St. Germain. The belief is expressed in Paris, that the Austrians will be delayed, possibly until

The Associated Press issues the fol- next week, owing to the impossibility of completing the draft.

The council of four discussed Monday the question of the German religious missions abroad, and also

matters dealing with Bulgaria and Turkey. The council of foreign min-

isters met and considered Belgium's claims as they affect Holland.

Bolshevik forces in Russia have suffered a severe defeat at the hands of the troops of General Denikine, which have made 10,000 of the enemy prisoner, and captured 28 of his guns operations against Tsaritzin he Volga River. British warships have put to rout a Bolshevik flotilla in a fight in the Gulf of Finland, One emy ship was sunk and another

President Wilson and General Pershing wen over on Monday, the details of the final demobilization of the American forces in France, and on former German territory. The withdrawal of the American forces from the Archangel front in Northern Russia is planned to commence within the days, with the transportation of the 339th Infantry to England. 13th Engineers on the Archangel front, and the railway troops on the Murman coast are to be the last of the American forces to be withdrawn.

Men's All-Silk Half Hose, "Multiplex Brand," in black, white, cordovan, tan, navy and pearl; with double-ply heels, toes and soles and fine ribbed cuff. Sizes 10 to Pair, \$2.50.

A The coat, as one may see by the illustration, is in the single-breasted, full-fitting, outton-through Raglan style, and has a convertible collar. The material is a union gabardine, chemically treated to make it shower-proof. Shoulders and sleeves are lined, and there are also wind-cuffs in the sleeves. It's in sand and light or dark fawn shades. Such a coat proves such a sensible buy, Soat proves such a sensible buy, for reason of the fact that it serves two purposes: as a top coat in chilly weather, and a reliable shower-proof in wet weather. Sizes 36 to 44. Price,

One More Win for Toronto

Another Game Cinched and a Stronger Hold Gained on the Lead Two Sensational Catches by Breckenridge the Feature of the Opening Game With

Breckenridge certainly carried off all the honors of the game. His sensational shoe-string catch of Weiser's line drive in the fourth was a rare piece of fielding. He tumbled headlong in an effort to grab the ball, and came up on the grass with it safely nestled in his glove, thus robbing the Reading batter of what looked like a sure hit.

Breckenridge again drew another applause from the fans in the sixth by a nice funning catch to the right-field foul line. Once more he snatched the ball as he fell forward in a somersault.

Breckenridge was prominent also at the bat. His single in the sixth paved the way for Toronto's second and winning run. How Toronto's two tallies were made in the fourth and sixth innings

is briefly told: In the fourth Gonzales singled to centre, Whiteman sacrificed him along to second. Freddie Walsh, Reading's new shortstop, booted Onslow's liner and Gonzales galloped in with the first run of the game. A nice double play by Reading prevented my further scoring in this

innings. In the sixth, Breckenridge again came to the fore by cracking out a sharp single over second Gonzales doubled to the right-field bleachers and Breckenridge reached third. Whiteman grounded to third and was thrown out at first. Onslow was then retired at first on a close decision, while Breckenridge crossed the plate with the run that gave the Leafs the game. Bugs Herche came out but once on the coaching line, and, as

usual, his funny pranks kept the fans in good humor. It was Hal Justin's first performance on the mound for a complete game, and his peculiar side-arm delivery and troublesome curves kept Dooinites puzzled at times, and they received but six hits from him during the whole afternoon.

Sandberg was robbed of what might have been a triple in the seventh, when Burns made a splendid running catch back into deep

There was plenty of hitting by both teams, but they were usually fielded up in clean style, and altogether there were only 14 legitimate clouts during the game. To ronto receiving 8 and Reading 6.

If the Leafs keep up their present pace there is no doubt whatever but what they'll remain in first place. Manager Gibson is quite confident that his boys can take two more games from Reading again today.

TEN TALK AT ONCE ON WIRELESS WIRE

Multiplex System of Telephony is Among Marvels of Age.

CANNOT GET MIXED

Any Wire Does, Including Power and Telegraph Lines.

How many times have those words annoyed you when you have been in a particular hurry to get on the long distance line. All our worries and troubles in this respect are soon to be pressed out when multiplex telephony and telegraphy are adapted and adopted for univer-

Without repeating the title of the newest communicating invention we may at once say that in plain English it means wireless waves guided by

The Canadian Independent Telephone Company are conducting for Sir Adam Beck a demonstration of multiplex telephony over the long distance telephone wires of the Provincial Hydro-Electric service. The principle adopted is simple to the extreme, and ought to reduce the charges for long distance calls to a minimum. At the present time it is minimum. At the present time it is only possible to have one conversation at a time over a phone wire. By the multiplex system ten conversations can go over the same one versations can go over the same one wire, and not necessarily to the same town, and not in any way get mixed up. For instance, if ten persons wished to speak at the same time to ten different western towns, even if there were hundreds of miles apart, they could do so, and none of the "talk" could get mixed up. If one of these instruments were in Winnipeg at the present moment, Toronto could be flooded with news of the doings of the people in that city.

The invention makes it possible to supply transcontinental Canadian telephone connections over the copper wires of the telegraph companies. To put a copper telephone line from Toronto to Winnipeg would cost for wire alone \$200,000. By the new invention an expenditure of \$50,000 for special line equipment would make possible the simultaneous holdings of ten conversations.

ten conversations.

United States Invention.

The "wired wireless" was invented in 1911 by General Squires, chief signaling officer in the United States army. It was not then commercially possible owing to the cost of motor generators, which were necessary to create the wireless waves. When the possibilities of General Squires' ideas were put before Dr. Lee DeForest, he promptly invented the "audion." and romptly invented the "audion." and the same to create high frequency waves, and thus solved the problem by the Rev.

A. Simpson.

The pallb of the commercial use of the general's invention. As a comparation of the departments of the Grand Trunk general manager of the exhibition, remotor generators necessary by the original invention would have cost some ten thousand dollars; the presentation of the departments of the Grand Trunk general manager of the exhibition, received a wire from Brigadier-General Cruikshank notifying him that the initial shipment of fifteen cars was on the way from Montreal. This shipdate by Dr. Lee DeForest can now be put in for some two thousand dollars, and as the telegraphic wires, Those Present.

The way from Montreal. This shipment comprises about thirty guns recently unloaded from the S.S. "Vindent S.S." Other shipments are to follow

lines paralleled and crossed the high power transmission lines of the Hydro service, the messages were in no way interrupted or made "blind." claimed by this invention, conversations can be carried on at any length of distance, but Professor Culvert could not say if it were possible to telephone by his system from Canada to Europe. He trusted before long it would be made so.

Burke, Henry.

OLD BOYS' REUNION AT U.C.C. SATURDAY

The old boys of Upper Canada College should have the happiest re-union in years on the occasion of the annual cricket match on Saturday, May 24, when a team composed of present members of the school will ngage the old boys team. ceptional arrangements are being

npleted to make this a gala day.
e game is scheduled to commence at eleven o'clock, and during the after-

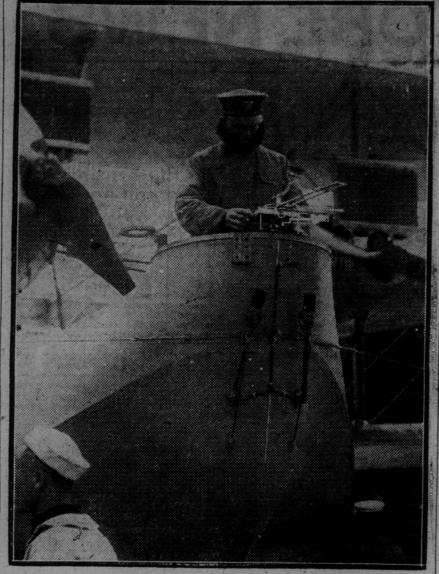

noon tea will be served.

Every old boy is heartily invited to attend, as there will be on hand this year many who have not been seen by their fellow old boys for several seasons recause they have been on active service overseas. All old boys of Upper Canada who see this item should take it as a personal invitation Citizens' to attend the game. It will be an opportunity to renew many old acquaintances and all can be sure of a very enjoyable day. very enjoyable day.

JOINS WILLYS-OVERLAND

J. F. MacKay, formerly business manager of The Toronto Globe, and, until lately, treasurer of the Russell Motor Car Company, has been appointed secretary-treasurer of Willys-Overland, Limited, West Toronto, In his new work, Mr. MacKay will be associated with T. A. Russell, president of Willys-Overland, who is also president of the Russell Motor Car Company.

That Never Fails

How the Money was Lost

You see I had only a few thousand dollars left after the estate was settled-

brother borrowed some to help him along; of course that went and then

simply had to help father with his business

and I thought it best to invest something in real estate at once. Well, that failed-

and, really, if it were not for the monthly income cheque from the Canada Life I don't know how I should be getting along now."

LODGE DISSATISFIED

Administrative Service

Reorganized in Cilicia

It is all so simple and effective!

Just a few dollars set aside regularly, and the Canada Life will guarantee to your home a continuous monthly income.

What a relief to know that no matter what may happen, the monthly cheque that never fails, issued regularly by the Canada Life, will come to your home!

Your present Life Insurance will no doubt "clear the mortgage," pay off the obligations of your estate, and leave something for your family, but

Consider This:

In addition to a "lump sum" of money, you should provide a definite income that cannot fail.

A weekly or monthly income is the natural thing for most people.

A woman can keep a family together on even a small income, provided it is regular.

Financial problems should not be thrust upon a woman who is not used to business deals.

The hands of unscrupulous men are always outstretched for money held by the unwary.

The Monthly Income Plan

You will be surprised to learn what a reasonable proposition can be made to you; how only a few dollars saved and set aside from your regular earnings can be multiplied into a substantial income for your Beneficiary.

TELEGRAPHED JOHNSTON FOR RENOWNED BABY

Inspector of Detectives Guthrie stated last night that he had telegraphed the London police to ask Mr. and Mrs. Johnston to appear in police court here today with the baby which they were given by Mrs. Gill for adoption from her unlicensed "baby farm." Mrs. Gill will appear in court this morning. Asked by The World if the Johnstons would be summoned in the event of their failing to appear in court today, the inspector said that rested entirely in the hands of the defence. It is up to Mrs. Gill to produce the child, now that we have been assured that lothing has happened to it. It is unnecessary for the police to force the Johnstons to appear in court," he said.

The mayor had a busy day yester-

packing houses, which had agitated many employes yesterday morning, will be settled by the board.

F. J. Peel, secretary of the bulletin committee of the Metal Trades Council, stated yesterday that the psychology of the workers of Toronto was rapidly being readjusted, due to the phenomenal amount of organization work that was at present going on amongst them. The present strike, he said, had given an impetus to trade union activities that was unprecedented in the labor movement here.

unprecedented in the labor movement here.

The "One Big Union" idea was taking root, said Mr. Peel. The phrase itself seemed to have a fascination, bespeaking as it did solidarity and strength.

"It is my opinion that what opposition has been expressed to the One Big Union idea or the principle of industrial trade unionism does not express the sentiment of the rank and file of the labor movement by any means, although the self-interest and fossilized ideas may obtain amongst a few men identified with the labor movement, some as leaders," said Mr. Peel.

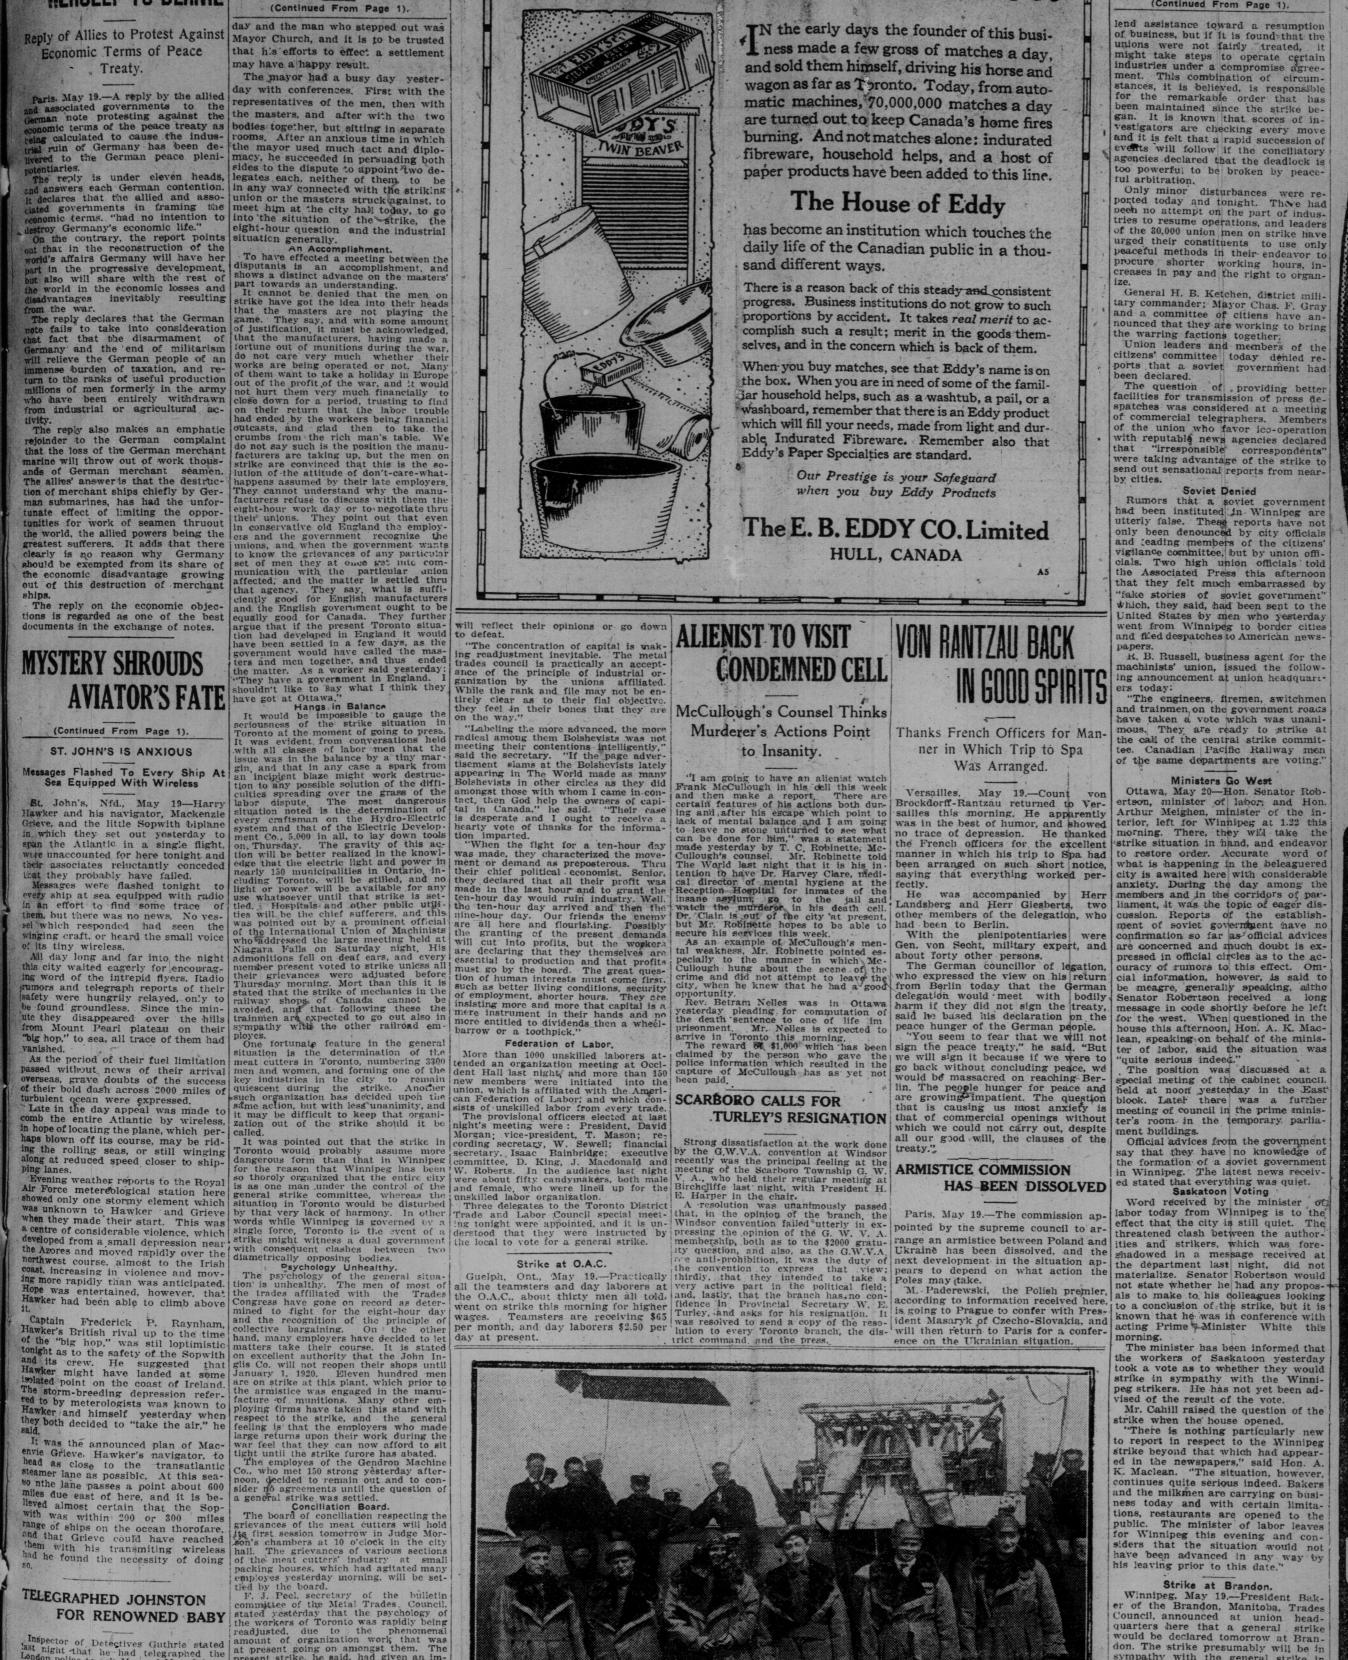

More Insistent.

"A large number of workers, especials of the self-interest and se

Thought of a Tire Bonus, Mr. Truck Owner?

Say, for example, you gave your driver \$1 on every single tire and \$2 on every dual for every thousand miles over the maker's guarantes.

How advantageous such an arrangement — you save from \$10 to \$20 per thousand miles, just by spending a dollar or two.

And fancy your driver—bow careful. How he would ease the truck over bumps, how he would refrain from spinning the rear wheels, for instance, lest he grind off dollars.

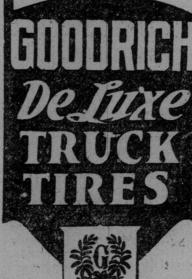

With GOODRICH DE LUXE Truck Tires under your load and 100% co-operation from your driver, you would write off your original tire investment several times.

-for DE LUXE Truck Tires have in their deep, specially-toughened treads a natural thrift that can easily be broadened by the method

TUESDAY MORNING, MAY 20.

Labor and the Hydro-Electric.

At Niagara labor men have set out in some degree as an emergency mea- Labor: sure. The development of 300,000 finally understand that labor is not a commodity; it is not something which Poronto Street Railway, it was decided to go ahead with the work.

Lakor men have adopted public wnership as a principle, and have supported the Hydro-Electric Commission on every opportunity. The commission has had no difficulty with its men and is now at Niagara paying them that at no one given time are the jobs higher wages than anywhere for the same class of work except in Detroit and Boston. The work is on a ten of labor," and if the balance tips the hour basis for three reasons. In the other way, we face unemployment first place the installation must be in Unfortunately for the workers, when first place the installation must be in by 1921, or it will be impossible to lowest wages; and after a long siege of unemployment followed by low

Burking the Convention.

The World has frequently urged upon the Conservative party of Ontario the wisdom of calling a convention and elaborating a platform on a new and comprehensive basis arter the manner of the party in 1904, when Sir James Whitney was chosen to represent a series of reforms which represents a series of reforms which is not unlimited. I will close with an expectation their own well-fare, to use a portion of their representatives to further their representatives to work without moral support?

If the problem is to be solved, there must be a real get-together, All the cards must be on the table and perfect frankness on both sides.

Remembering that newspaper space is not unlimited, I will close with an expectation would wonder why I was so anxious.

But you speak, Bab, as if Neil needed some good influence. You aren't worried over anything in connection The World has frequently urged Since the war, the necessity for such

a convention has become more urgent. When Sir James Whitney died it was ties man your discussion.

Albert E. Edgington. party to have had such a convention, and it was the general desire of the rank and file to meet and reorganize. Since the armistice was signed and the reconstruction period has been entered upon, it has become imperative in the interests of the party and the welfare of the province that such a general convention should be called. The need is obvious. There is neither a government policy nor an opposition policy. The swirl of new forces in society is such and so vehement that policy. The swirl of new forces in society is such and so vehement that no man is able to say in what relation he stands exactly to any party. The independent Labor party formulated a platform two years ago and it is the only articulate political utterance before the public. The Conservative party in Ontario, if it exists, if it has party in Ontario, if it exists, if it has quires bolstering up with such palpleaders, if it is not moribund, should able untruths. now, if ever, gather its energies, embody its ideas of public policy and make its conscience clear to the peo-

We believe there has been an expectation among the rank and file of the party that a convention would be summoned, and that it would meet on the same straightforward and honorable basis as that of 1994. But we fear this expectation, like that awak-tied out with the same sane methods the regrettable shooting. The same the first arrest of McCullough been carried out with the same sane methods the regrettable shooting. The same triangle of the capture of McCullough would only be common humanity. I hope Citizen's and Taxpayer's sons will re-

World that the same Ottawa diplomats who manoeuvred the appointment of Sir William Hearst to the premiership have again been on the scene. The Conservative party will have a convention, but it will be after the event. It will be a camouflaged affair, and the party will be flimnammed. There will be an election first and a convention afterward, and all the party will be able to say will be: "Me too! Tweet, tweet!"

It is perhaps of little importance, under such cincumstances, whether a

convention be held at all or not. The strength and vigor, of a party can never be elicited by such manipulaion. If the party be not independent t cannot be in any useful sense at all. The day has gone past, apparently, when the watchword for leadership was to be "honest enough to be bold, and bold enough to be honest."

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

A Labor Man's View.

Editor World: In view of the fact that the Royal Commission on Indusstrike the heaviest blow against trial Relations is to sit at Hamiston their own plank of public ownership on May 21 and 22, and at Toronto on of public utilities that has yet been May 26, 27 and 28, I would ask you to delivered. The evident intention to throw open your columns to a discussivitie on the Chippawa development sion of the causes of industrial unrest. work of the Hydro-Electric Commission is one that should be reconsidered er Olander of the State Federation of

had been decided upon before the war, we buy and sell-except in the slave at prices and costs then prevailing.

The war came along, and increased the cost of the Chippawa development trecost of the Chippawa development tre-inendously. But in view of its neces-sity to the further public ownership policy involved in taking over the the product of it. So we cannot speak of 'capital and labor' as being equal." We as workers have all exper unemployment and even if the shortage of work has not caused our families to suffer, we have had to use up our savings, which should have been kept for old age.

The chief cause of unemployment is that at no are siven time.

Foronto civic railway when the system wages, the worker regains his financial

is taken over by the city. If four hours a day are cut off the work it will be impossible to finish in time.

Two shifts a day are run, and it is not possible to run three, as four hours are necessary on the job for repairs and other purposes between the shifts.

Wages, the worker regains his financial position very slowly.

The fluctuation of the labor market is one of the most difficult phases of the whole subject. A farge building may have 50 men working today and 10 tomorrow. Owing to lack of orders a factory may have to reduce its staff.

I tried to talk naturally, and Frederick immediately followed my lead.

at mid-day, which does not give time to eat and fully discuss labor problems.

On the part of the men, the fault lay in lack of interest in the doings of the council. If the workers do not take sufficient interest in their own wells.

Tather liked that Mr. Frederick; what do you know of him?"

"Oh, we have known him a long time! He is always just as you saw time! He is always just as you saw him today. A plain blunt man but

is not unlimited, I will close with an appeal to the workers to write their with him, are you?"

Werner Horne to Be Tried for Blow-ing up International C.P.R. Bridge Near Vanceboro, Maine.

GERMAN DYNAMITER

Fredericton, N.B., May 19 .- Werner Horne, one of the arch criminals of the German dynamiters in America in the early stages of the war, is to be tried in Fredericton for his crime of blowing up the international bridge of the Canadian Pacific Railway between Vanceboro, Maine, and McAdam, N. Vanceboro, Maine, and McAdam, N. B., early on the morning of Feb. 2, 1916. Sheriff John B. Hawthorne, of York county, is now at the international boundary waiting to have the German turned over to him by law officers of the United States government, in whose custody Horne has been since his arrest, upwards of four

DYING WOMAN'S REQUEST REFUSED BY MILITARY

ndignation at Kingston Becaus Ottawa Officials Would Not Grant Her Husband's Return,

Special to The Toronto World. Kingston, Ont., May 19-Kingstonians are very much incensed at a rul-ing of the militia authorities regarding ing of the militia authorities regarding the request of a dying woman, Mrs. Jessie Rosebush, that her husband, who is overseas, be allowed to come home as soon as possible, that he might be with her during her last days. A doctor's certificate was sent to Ottawa with a recommendation that Private Rosebush, who was waiting to be sent home, be returned immediately. The authorities replied that the facts disclosed did not warrant an application being submitted overseas for return on compassionate grounds. This morning the woman died, leaving her husband, who is still overseas, and a son, whose eleventh birthday was today, when his mother passed away. The cause of the woman's death was heart disease, from which she had heart disease, from which she had suffered for two years.

BRITISH SHIP MERGER IS BEING PROPHESIED

Montreal, May 19.—In local shipping circles keen interest is taken in reports that a gigantic merger of all the British shipping companies will soon take place, as the outcome of efforts on the part of Great Britain to maintain against the United States, the premier place in the world's trade.

Interest in Canada centres naturally in the premier place. Interest in Canada centres naturally in a possible merger of British shipping, chiefly because an amalgamation of the fleets of England without the co-operation of the fleets of the Dominions would have its work paralyzed if its necessary "feeders" should be under independent and possibly inimical control.

TO BE TRIED IN CANADA PERLEY DESCRIBES KITCHENER'S VIEWS

Declared That Britain Had Shown Great Courage in Taking Up the Challenge.

London, May 19 .- Sir George Perley, Canadian high commissioner, probably without deliberately intending it, has added an interesting contri builtion to the discussion now proceeded regarding Viscount French's memoirs of the 1914 operations. Speaking at Dudley, Sir George spoke of meeting Lord Kitchener, when the first Canadian division was inspected. first Canadian division was inspected by the King on Salisbury Plain, and added, "Kitchener told me at that time, a good deal about the unpreparedness of this country for war. He said the government had shown great courage in taking up the German challenge, in fact, he doubted if they realized themselves how much courage they had shown. He said he would not have minded being without rifles, guns and shells if there were any factories available for making them, but as a matter of fact, he would have to put up buildings to provide the necessary facilities before manufacturing these vital things. He felt sure the war would last two years at least, probably three. I doubt if any one had as sure a vision of the reality of the struggle as of the reality of the struggle as Kitchener himself."

The Daily Mail, which has been pointing triumphantly to Viscount French's articles as vindicating its bestile relief to the struggle.

hostile policy towards Lord Kitchener in the early stages of the war, says today: "The tragedy of it all was that while Kitchener, with mistaken energy, was trying to command the armies in the fighting, he was neglecting the provision of shells." armies in the fighting, he was neglecting the provision of shells, guns and munitions. When questioned in the headquarters regarding these articles, Winston Churchill was able to show fairly conclusively that Viscount French was committing no breach of military discipline in writing his memoirs at the present time, but all the same there are not a few sober critics who consider it would have been better taste at least if Viscount French had held his pen before starting to criticize those who Viscount French had held his pen pefore starting to criticize those who
still occupy official positions, and from
whom he sharply differed. What the
people are inclined to ask is whether
if Viscount French may put his case
forward so publicly, others are not to
be allowed to do likewise, and if so,
are we not in for a bitter and painful
season of wrangling.

"What SHALL I Do?

What will come next?"

These are the questions which are to-day causing keen mental anxiety to many business men and making them old before their time. After the four years of exceptional

strain during the war many a man finds himself now burdened down as never before with problems-financial and otherwise-which are more than he can solve. Is it any wonder that the nervous system gives out? Is it any wonder that there comes moments of discouragement

and despondency? There is nothing which breaks down nerve cells so rapidly as mental anxiety or

worry if you choose to call it that. And it is under just such circumstances that Dr. Chase's Nerve Food proves of very great benefit, for it supplies to the human system the very ingredients from which Nature rebuilds the wasted nerve

cells and restores the mental vigor.

The headaches, the brain fag, the sleep-lessness and indigestion, which are the usual accompaniments of exhausted nerves, soon disappear when the upbuilding process is established by the use of Dr. Chase's Nerve Food.

For the man in the office as well as for the woman in the home Dr. Chase's Nerve Food has proven the best means obtainable of restoring tired, starved nerves to health and vigor.

Try it when you are tired and brain weary and feel inclined to look on the dark side of things, for these are the indications that your nervous system is in need of nutrition which it is not obtaining from the food you eat.

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.75, all dealers, or Edmanson, Bates & Co., Ltd., Toronto. Look for the portrait and signature of A. W. Chase, M.D., the well-known Receipt Book author, on the box you have on the box you buy.

JOHN CATTO & SON TORONTO

PUPILS STRIKE FOR SHORTER SESSION

Oakwood Collegiate Children Follow Adult Example by Ultimatum.

If the shade of Oliver Twist were today invoked, and once more made its home upon this terrestrial sphere there is no doubt that it would at once take up residence among the pupils of Humberside Collegiate, who have resolved to go on strike this morning, if their demands for a horter session" are not met by the

powers at the school.

Unlike Oliver Twist of deathless fame, these pupils have complained not of the quality of their soup, instead they are very anxious to have actual school attendance shortened by some fifteen minutes, and so encouraged by the example set for them by some of the labor unions, the by some of the labor unions, the pupils, after serving an ultimatum on their principal, decided for the mo-ment to quench the light of learning, and inoculate the school with a dose

of Winnepegitis.

and inoculate the school with a dose of Winnepegitis.

The pupils of the school waited upon their principal, F. C. Colbeck, last Friday, and served notice on him that they wanted their hours of attendance to be from 9 a.m., with 45 minutes for lunch, school to convene again at 1 pp.m., and work till 2.30 p.m., as opposed to the present system whereby they now work from 9 a.m. to 12 noon, with one hour and a half for lunch; school resumes again at 1.30 p.m. to 3.30 p.m., while some of the unfortunates remain till 4 o'clock.

To Benefit of All.

The pipils claim that the new short session system is in vogue among some of the other schools, and that it is working out to the benefit of everyone concerned.

To a reporter for The World last night. Mr. Colbeck, principal of the school, said that after due consideration, he had announced to the spokesman for the pupils that he was willing to change the hours from 9 a.m. to 12 noon, and then from 1 p.m. to 3 p.m. He would not give the pupils the hours suggested by themselves, because he claims that if they were granted the pupils would be infringing the school laws, which call for a five-hour per day attendance as a minimum. He does not yet know what the pupils will do, but he was informed that they would consider their decision today. Principal R. A. Gray, of the Oakwood High School interviewed by The World last night stated that hours at his school were 9 a.m. to 11.50 a.m. with a five minute intermission during the morning, and then a resumption at 12.35 p.m. to 2.35, altho some classes remained a half hour more to catch up with any work that they might be behind in. Mr. hour more to catch up with any work that they might be behind in. Mr. Gray states, however, that his school does not infringe the five hour law, when one considers the intermissions at the other schools which are almost eliminated in his system.

ONE-RUN VICTORY FOR THE LEADERS

Leafs Use Clubs at Right Toronto Time to Down Dooin's Crowd.

Red Dooin, Mike Doolan and the rest of the Reading Roosters made their bow to Toronto fans yesterday. It might be said it was the first peek for the local regulars. Reading are a brand-new entry in the Fultz league, and started off the season like pennant-winners, until George Gibson and his Leafs blew into the Pennatown, and then the skids were put under the Reading hopefuls. The Leafs poured more sorrow on the brilliant head of Charile Dooin yesterday, when they beat his colts, 2 to 1, in an interesting fixture. Hal Justin brought the Leafs thru the afternoon. Brother Hal handed the R's, Red and Reading, their only tally with a wrong fielding stunt, but he kept their hits well conough scattered to stop them from tying it up. Our Breck—he in the right field—was a big factor in the win, with two circus catches to cut off hits. Our handsome boy from Havana. Gonzales, was another bright spot in the Monday performance. Gonzy had a very useful afternoon at the short station. He hobbed in with a single, scored the first run, and boosted Breck around to third later with a slashing double. Breck came home ghortly after with the winning tally. Good enough for Blue Monday!

The first few rounds were rather draggy, when the Leaflets failed to get on the cushions, but once they learned the right road they had plenty of life and gave the faithful ones a little cheering time. They handled themselves as a leading team, and, in fact, there was not much to find fault with during the whole performance. The first three rounds went off as smoth as glass, as far as Dooin's frightfulness was concerned. Justin had his hierd well tamed. Breckenridge got in his first nice stunt in the fourth. Walsh nit smartly to right and Breck raced in reached down to his shoes, gathered in the liner, rolled over, and came up with the pill.

The lone Reading tally was squeezed out of the fifth sponge. Sheridan sent

other than that he handled himself in style.

Brockenridge was the star performer in the field for the day, getting a couple of hard babies that certainly looked to be billed for the fence. Gonzales is back in form and doing fine, thank you. Was is slashing out with the willow at a great rate, which means that he is just naturally bound to gather in a few hits. The rest of the regulars were also in the pink.

With a few good pitchers this same Toronto Club would be just about five laps ahead of the entire league, that is at the rate at which they are now traveling, but until such creatures make their appearance the fans must depend

their grounds at Lakeview Park, at the foot of Bathurst Street, where some good scores were made, considering weather conditions. Dr. Serson and H. Peterman were the spoon winners. Sweepstakes will be the feature for next Saturday afternoon, May 24. Arrangements are rapidly being completed for the Eastern Canada trapshooting tournament, to be held on these grounds June 11, 12 and 13, when a large number of shooters are expected, and some valuable prizes will be competed for. The program is in the hands of the printer and will be ready for distribution this week. The following were the scores: The members and friends of the Balmy Beach Gun Club turned out in full force to celebrate the recent victory of their member by holding the shoot in his name, "Jennings Day." Some very good scores were made and after they were thru the president, R. C. Harris, called Mr. Jennings to receive from the members of the club a solid gold watch in upholding the honor of his club and Canada, A. A. Laird was the winner of the spoon.

KIDNEY

Guelph, May 19.—The soccer football season opened in Guelph Saturday night with game between the G.W.V.A. and the Partridge Rubber Company. The weather was cold and wet with a strong wind blowing across the field, but both teams played good football from start to finish, the result being that neither team succeeded in scoring. Mayor Carter kicked off the ball. The veterans had all the better of the last half of the game, but the rubber workers' defense was too good. The teams lined us as follows:

G.W.V.A.: Goal, J. S. Darnforth; backs, L. Pearce, R. Fells; half backs, G. Henshall, J. McGowan, W. Walker; forwards, C. McGohachy, A. Leach, T. Mackin, A. Fell, G. A. Pearson,

COUNCIL FAVORS EARLY CLOSING

Grocers and Fruiterers Bylaw Passes First and Second Reading.

SHORE PROTECTION

Rules Suspended to Consult

Rules Suspended to Consult

Commissioner of

Works.

Toronto City Council again frittered away a lot of time yesterday. It took four and one-half hours to dispose of business which should have been cleaned off the slate in a third or half of that period. The notion seem to have a tirm grip on controllers an adermen when there is anything white gives the sligatest excuse for taik that bearly all should participate. For instance, a moderately important matter like early closing for grocers and truiterare was seized as an occasion for something like a full dress debate, with the crowd in the gallery rapturously applauding at times.

At the beginning of the meeting, when deputations were heard, the mayor had to warn the large band of enthusiasts who clapped that they were attending the city council, not a public meeting. Somehow or other the presence of the crowd had a stimulating seffect on councillors, half of whom at any rate in committee must have expressed their views, the not always stroller Alfred Maguire was declained by the supporters of early closing; who were far more numerous than the opposition, as the hero of the day. The controller's eloquence got the crowd going. They simply couldn't resist such fine-sounding terms as humanitarianism and other expressions with a democratic ring. If the men in the gallery clapped loudly once, they did it six times, Chairman Medulkin vainly attempting to stay the demonstration. At length, when the applause subsided the chairman read the folks in the gallery a lecture, telling them that they were not at an ordinary public meeting, and must desist. Controller Maguire can be provided the chairman read they the supporter of early closing, who were far more numerous than the opposition, as the hero of the day. The controller Maguire was greated the view of the provided when something must be done and maintained that the city and the provided when something must be done to protect the brack and the transfer to the provided when something the controller Maguire was declained

bought their fruit late in the afternoon, and if they were not able to dispose of it by evening it would spoil, and in that way the price would be advanced to make up for what was damaged. Seven o'clock closing would prejudicially affect the fruiterers. They were willing to curtail the sale of groceries and deal entirely in fruit.

"We object to this bylaw," said W. J. Street, Parliament street, "because you haven't 75 per cent. of the fruit men as a line, and you haven't 75 per cent. of the grocers."

cost"?

Controller Maguire: Would the builder care to sell his houses at not exceeding \$2,600?

Ald. Hiltz: Ask them.

In reply to a question as to whether the houses would exceed \$2,600 the answer was that such was not expected, with very few exceptions.

For Men and Women

The controller, proceeding, said he objected to combining the two trades He maintained the petition did not have three-fourths of either the fruiterers or the grocers. He was in favor of employes getting away early, but he did not believe the council had a right to say to a man in business that he could not work if he wanted. That was the opposite of British fair play.

Controllers Maguire, Robbins and Cameron favored the bylaw. The firstnamed said it must be proven by affidavit that there was the 75 per cent required before the act became law. He did not consider the hardship spoken of would be inflicted. People who bought after picture shows came out and at such late hours would do their purchasing earlier.

Ald. Hiltz thought there should be ar Deputations were heard for and against the early closing bylaw, the majority in favor being overwhelming-ly the larger body.

E. E. Wallace, who appeared for the protestors, stated that the fruiterers bought their fruit late in the afternoon, and if they were not able to dispage of Controller.

encourage opposition to constitutional law and order was passed.

The matter of a bylaw for the conversion of No. 2 Sussex avenue into an apartment house was referred back to the property committee, on the suggestion of Ald. Ball. The question of the Chestnut Park asphalt pavement was sent back to the works committee. The Margueretta street sewer bylaw will also be reconsidered by the works committee. MRS. SMALL LEAVES

ment were passed nothing could be Ald. Ramsden was of a similar view Valedictory Tells How the

Merchants' Association, spoke strongly for the bylaw, stating that 1450 out of 1700 grocers and fruiterers were in favor.

The tendency of the times for shorter hours was referred to by others, one speaker, amid cheers, declaring early closing was "in the interests of decency and morality."

When the recommendation of the board of control for leave to introduce the bylaw came up in committee, Controller McBride assailed Mr. Miller, saying before he got his present position to ming from the council.

Ald. Hiltz, but urged him to withdraw, as it might be construed as opposition coming from the council.

Ald. Hiltz, however, stood by his view. The recommendation carried, with the Ward 1 representative alone dissenting.

Ald. F. M. Johnston wanted the proposed grant of \$2,000 for the reception of the 75th Battalion cut down to \$1,500, the same as was recommended for the 19th and 20th Battalions, but it was pointed out there were special circumstances, and the two last named battalions had asked for \$1.500, the amount recommended. Chairman McMulkin: "Cut out the for \$1.500, the amount recommended. The council agreed to grant \$2,000 for the 75th.

FARMERS A child at DAIRY play needs a quart a day

> ILK is the best food in the world for growing children. Food values considered, it is also the cheapest. Isn't it foolish economy therefore to be sparing with milk?

> Sometimes a farmer tries to raise a calf on skimmed milk and bran or middlings, and the calf doesn't make the steady growth and continual gain in weight that it

Simply because in whole milk, and whole milk only, is contained "vitamines"--the substance absolutely essential to bodily growth.

Doctors, food specialists and health authorities all agree that a child should have at least a quart of milk a day.

It is real health insurance. For grown-ups, too. Don't try to make a pint do the duty of a quart. Double your regular milk order today. Get extra milk for the summer monthsthe time of the year when you need light nourishment. See how much you save. See how you improve the health of all your

It is worth while to be sure of getting Farmers' Dairy milk-fresh from the finest farms in Ontario richer in nourishing butterfat. Made safe by scientific pasteurization in the best equipped dairy on the conti-

family.

CONVENTION ENDORSES

CENTRAL'S DEMANDS

Central Toronto branch G. W. V. A. woundelegates, Comrades C. E. Wilson, J. V. Conroy, A. E. Everingham, B. P. plied. Brockbank, and A. Cowan, returned to the city on Saturday last after atending the provincial convention of he Great War Veterans' Association at Windsor. All are highly pleased with the work which had been accom-Out of the numerous resolutions

of the Central branch, but one failed to receive the endorsement of the convention, and that was the famous Calgary resolution, calling for \$2,000 \$1,500 and \$1,000 grants to returned veterans.

Heartily Approved

The passing of the resolution calling upon the government to provide legislation to compel landlords to accept families with children met with a great deal of enthusiasm, and called forth an expression forth an expression from President Jeakins who stated that this was a resolution of which he heartly ap-

In view of the action taken by the convention in referring the member-ship question to a referendum vote thruout the province, the result of which will be forwarded to the Domnion convention at Vancouver next nonth Secretary Brock ank has alrady nut in motion the ma hinery for taking the vote of Central branch

ards will be mailed to every member f the branch within the next few days. A preliminary report from the delegates who attended the convention will be presented to the executive at a meeting tonight.

A reunion of the 41st Battery will be held at the Heliconian Club rooms, 80

Yonge street, this evening at eight o'clock, when all 41st Battery men will be cordially welcome.

DISCRETION.

It was at the Palace du Chatelet, Paris and a small crowd of about fifty convalescents was gathered together. The following dialog went on between one of the wounded and an inquisitive

"Well, old chap, where were you wounded?" "In my foot," the soldier quietly re-

"But in what country?"
"Would you mind asking my captain?" the soldier answered after a
moment's hesitation.

BRITISH PAPER PRAISES BORDEN

Says It Was Lucky That When War Broke Out, Man of High Ideals Was Premier.

London, May 19.—In connection with Sir Robert Borden's departure for Canada, The Daily Telegraph says editorially: "It has been a happy circumstance for our commonwealth of nations that a man of Sir Robert Borden's cool courage and high ideals was prime minister of Canada when the war broke out, and that he has enjoyed the confidence of the vast majority of his fellow countrymen. Caneda where the confidence of the vast majority of his fellow countrymen. London, May 19. In connection majority of his fellow countrymen during the whole period of its continuance. We hope that the intimate personal association set up between Sir Robert Borden and the British government may not be broken until the British constitution is firmly established on its new lines of development.

personal association set up between Sir Robert Borden and the British government may not be broken until the British constitution is firmly established on its new lines of development.

"Borden's phrase 'equality of nations within the British Empire' was the enunciation of a doctrine which will come to mean as much to the British dominions as the Monree Doctrine means to the United States. The problem is the intensely practical one of how best to give constitutional expression to the principle of equality of nationhood and, accepting the establishment of an imperial cabinet as the most promising step in that direction. Now to plan its working articular in the settled until the promised conference on the imperial constitution has taken makes and means to the until the promised conference on the imperial constitution has taken most promising a mortsage and amount of legacy. UNWELCOME RAIN PUTS CORN HIGHER

Firmer Quotations for Hogs Also a Factor-Oats Also Advance.

Chicago. May 19.—Unwelcome rain, toszether with higher quotations on hogs,
put strength today into the corn market.
The finish, altho unsettled, was at 1%c
to 2%c net advance, with July \$1.61¼ to
\$1.61½, and September \$1.55% to \$1.55½.
Oats gained %c to %c, and provisions
12c to 75c.

Corn traders acted for the most part on
the assumption that wet weather would
retard the crop movement as well as delay planting. At the same time, advances
in the hog market showed that the feeding value of corn was again a bullish
factor. Besides, country offerings to arrive were small, and the visible supply
decreased to a total of less than onequarter of the aggregate a y-ar ago..

Oats sympathized with the firmness of
corn. In addition, export sales of 300,000
bushels were noted, and a decided falling
off in the visible supply.

off in the visible supply.

Word that vessels had been designated for June and July shipments of provisions helped to lift provisions. On the bulge, however, stockyard interests turned sell-

ON CHICAGO MARKET

Hughes, Harcourt and Company, 307 Royal Bank building, received the following wire at the close of the Chicago market yesterday: There was new buying of corn futures of sufficient quantity to take the slack out of the market today. This buying was induced by rains that extended over a large portion of the corn belt, as well as light marketing of long corn. Prices advanced early about 3 cents. There was some selling pressure about midday that caused a temporary setback, but good buying on the break started an upward movement. Oats were some higher, with very little interest on the buying side by local traders. Crop conditions are of the most favorable kind and offerings give very little incentive for new speculative opmimtments. On the other hand, the large decrease of 1,505,000 reduces the visible supply to well below last year. The light movement and lack of country offerings promise to have present stocks further reduced materially before new oats are available in this market.

Impression Made by Statements From India May Affect the Problem.

Paris, May 19.—Depositions that have been made before the council of tour by Edwin Samuel Montagu, British secretary for India, the Maharaja of Bikanir, and Mussulman delegates from India, have, according to The Temps, produced an impression which may effect the settlement of the Turksh problem in some particulars. The Mussulmans laid emphasis upon the fact that they had taken a preponder-

Special to The Toronto World.

DIES IN HOSPITAL DAVIDSON IS MILLING

RICH ORE ALONG MONTREAL RIVER

Within Few Miles of Source It Enters West Shining Tree Area.

The Montreal, the principal western affluent of the Ottawa, should be called the mineral river for it drains all the the exception of Kirkland lake. With in a few miles of its source it enters large amount of attention. Then after a big bend to the northeast it turns outheastward thru the heart of

a big bend to the northeast it turns southeastward thru, the heart of Matachewan. Later it drains the Elk Lake-Gowganda silver areas and finally passes thru South Lorrain before losing its identity in the Ottawa.

The drainage hasin of the Montreal is now important as a mining region and will no doubt increase in importance as the years go by. At present there is something like an old fashioned boom at West Shining Tree. It is, however, a boom based on solid grounds: in fact a somewhat tardy recognition of the surpassing merits of the camp.

It is a region of andesites and rhyolites, of sericitic and chloritic schists and diabasic intrustions with the igneous complex of the ancent Keewatin era for the basement rock. It has brought forth a group of five great properties all in a row from east to west or nearly so, and all with frontage on expansions of the Montreal river, named respectively Michakawakenda, Caswell and Wasapika lakes. Lakes are often caused by faults and this may account for the fact that West Tree, Wasapika, Churchill, Herrick and Atlas properties are all in the combined river and lake basins.

The Herrick is the most westerly of the group. On it there is uncovered for 1,006 feet a strong well defined vein of quartz and ferro-dolomite about 30 feet wide. It is highly payable for a width of five feet in the centre. The shaft is now down 50 feet and the work is being pushed with unusual vigor.

On the Churchill there is a vein system of great prominence. Five parallel veins all carry excellent values and the two outer veins are barely 120 feet apart. This property and the Herrick are only very partially prospected, but the veins already uncovered are suggestive of highly favorable results from adequate exploration.

The shaft on the Wasapika is now nearing the 100 foot level. A crosscut at this depth will give satisfactory indications as to the future of the property at all events in respect of the preperty and important unprospected areas.

ant part in the operations against Turkey. Germany's ally, and recalled an engagement that had been made that advantage was not to be taken of a victory to humiliate Islam in the serson of the sultan.

Altho no decision has been taken, and the plan adopted will respect the integrity of Turkey proper, excluding the notably Arabic countries. Under this solution the sultan would retain Constantinople and the mandate to appropriate the allied and associated powers, each receiving the mission for a distinct geographic sphere, according to this plan—the United States for Constantinople and France for northern Anatolia.

Building of Guelph Mission

Paris, May 19.—The official German press report, which has been publish and the hear deposits are more manifestly deep seated than even the hear deposits are more manifestly deep seated than even the heart from Versailles. All the articles are ticles are written by the German correspondents at Versailles under the direction of Count. Von Brock-tor of Turkey. Proper, excluding the notably Arabic countries. Under the sasts Turkey. German sequence in Berlin, is now being issued from Versailles. All the articles are ticles are written by the German orrespondents at Versailles under the appropriate special developments. One trench shows payable ore for a width of to the German press. A special edition is published for this plan—the United States for Constantinople and the mandate to the passage and the mandate to the german newspapers are beging the allied and associated powers, each receiving the mission for a distinct geographic sphere, according to this plan—the United States for Constantinople. Greece for the western coast of Asia Minor, Italy for southern Anatolia.

The German newspapers are beging the allied and associated governments consider if the German press. A special edition is published for the first plan and the plan adopted will respect the insistence of the season of the one shows payable ore for a width of the feet of this values run telegraphed to the German p

McKINLEY'S PERCENTAGE OF EXTRACTION IS HIGH

Cobalt, May 19.—McKinley-Darragh mill, to treat old tailings from Cobalt Lake, is operating up to expectations. An average of about 240 tons daily is being treated. The extraction secured by oil floation is understood to be high, indicating a good ratio of profit.

As this mill did not get in operation until late last summer, its production last year was small in comparison with what will be treated this summer. As the production from the mine is being well maintained, and with a higher price for silver, 1919 should be a good year for the company.

EIGHTEEN-DOLLAR ORE

South Porcupine, May 19.—Davidson's mill is running steadily, and while small is turning out an appreciable amount of gold. Heads to the mill are running around \$18. per ton. This ore is being taken from drifting, and gives a good idea of the grade of ore being encountered in development work.

The management proposes to continue underground workings, now at a maximum depth of 500 feet, to 700 feet. The capacity of the mill will also be increased to about 200 tons. At present about 40 to 50 tons a day are being treated.

FIND ON TIMISKAMING NOT HIGH-GRADE VEIN

According to official information given. The Northern Miner, the reports of rich ore in the vein on the 500 foot level of Timiskaming have been greatly exaggerated. While some good ore has been developed, the vein has not yet developed into a high grade vein. It has, however, developed a considerable quantity of good grade milling rock. Over sixty feet of drifting, and some raising, has been done on it

AT ONTARIO KIRKLAND .

Kirkland Lake, May 19.—The No. 1 or main vein has been cut in a crosscut at a depth of 300 feet on the Ontario Kirkland mine. The vein, which dipped out of the shaft at a depth of about 190 feet, was encountered only about 30 feet from the shaft at the 300-foot level, and shows a width of about five feet of good grade milling ore, and some visible gold. The crosscut is being continued to cut veins Nos. 2 and 3 and when these are reached, drifting operations will be carred out on each.

RECORD PRICES IN TORONTO MARKET

Maple Leaf and Canada Steamships Common Well Above Previous Figures.

Maple Leaf, the Canada Steamship is-ues and Brazilian stood out with promi-ence on the Toronto Exchange yesterday, these stocks contributing considerably more than two-thirds the aggregate day, these stocks contributing considerably more than two-thirds the aggregate of transactions in all stocks. Maple Leaf and Canada Steamships common achieved distinction by selling at the highest prices on record, while Steamships preferred and Brazilian rose to the best figures of the year to date. Maple Leaf, which rolled up a total of 1500 shares, opened at 165½, sold up to 167½, 2½ points higher than it had ever reached previously, and then reacted a point, the net gain being 3½ points. The stock was on offer at the close at 166, with 165 bid. There was a complete absence of news to account for this fresh bullish demonstration, which fitted in with the big movement in milling stocks in Montreal. Canada Steamships preferred opened at 31, half a point higher than the previous high record reached on Saturday, and continued the advance to 52, the closing price, 51½, showing a net gain of 2½. Steamships preferred sold as high as 87, and closed at 86½, a net gain of ½. Trading in each of these issues ran a little more than 1100 shares, and was accombanied by the report that the Canada imperial shipping merger designed to retain for Britain the premier place in the world's trade against the competition of the United States shipping interests. Brazilian exchange is continuing to improve, and, as the company is showing good increases in net, its all-round position is much improved.

There were a number of lesser features. The Atlantic Sugar issues established new high records, the common at 33%. Brazilian exchange is continuing to improve, and, as the company is showing good increases in net, its all-round position is much improved.

There were a number of lesser features. The Atlantic Sugar issues established new high records, the common at 33%. Tucketts, for which the closing bid last week was 32, opened at 34½, and in the afternoon on jumped to 38. Apparently the "street" is hearing a new merger rumor. Canada, at 64, off 1¼. N. S. Steel, however, held firm at 59. The war loans were quiet and steady.
