D.R.O. Who Did Not Act WAS FIRST APPROACHED BY SIFTON But Got \$15 as a Present

Reward Came in Most Mysterious Way and Was Complete Surprise, Asserts Witness, Who Isn't Too Free With His Information—O'Meara Connected With O'German in the Brantford Election.

The most important evidence adduced at the London bribery enquiry yesterday was supplied by George B. Cooper, from whom, after a good deal of prodding by the crown, it was drawn forth that he had received the sum of \$15 as a bribe to his sore feelings over being displaced in his position of deputy returning officer.

Mr. Cooper's adventures. George B. Cooper got off to a bad start. It was only on the third attempt that he made his oath on the Bible in a manner satisfactory to the court.

Mr. Cooper had been succeeded in the post of deputy returning officer of division seven of the second ward by Alex. Milne. Cooper declared he had not protested against the appointment of Milne.

Cooper's embarrassment visibly increased, and finally he said: "Well, I didn't get any money for anything. I was asked to do something, and I didn't care to do anything."

"Were you very much surprised when you were asked to do anything?" "I was," said Mr. Cooper, with conviction. He didn't want to take the money, but the giver had said he might well have it.

Mr. DuVernet harked back again to the declarations of resentment credited to Mr. Cooper, on his being selected in favor of Milne, and was asked if he hadn't objected.

Mr. DuVernet asked Mr. Cooper if he had any more to say. "I think it was Sifton who was asked to do something, and I was further elicited that the mysterious stranger might also have been Sifton."

Mr. Wikke made vigorous objection to the statements of "three boys," that Cooper had protested against being displaced by Milne, and that a good deal of the evidence that he had accepted would not be allowed to go before a jury.

Mr. Wikke sought to show that the witness was very near-sighted, which would account for his not recognizing the stranger.

John D. McAlpine testified to having received \$5 in the general election, although he then voted for Grey. He was promised ten dollars to vote for Hyman in the by-election, and also received it, though he didn't vote at all.

THE BRIBERY ENQUIRY.

Two important points were made yesterday by Mr. DuVernet. It was shown that O'Meara, the Londoner, is alleged now to have perjured his way to liberty this week, when mixing the Brantford election with the same committee room with O'German.

It was also ascertained, only after the most exhaustive questioning and repeated demands for unequivocal answers, that George B. Cooper had received \$15 to allow Alex. Milne to take his place as deputy returning officer. Milne was the man who exposed the ballots.

There have been about 125 witnesses so far examined, and the end is not in sight. Mr. DuVernet said that there may be some even more surprising facts to be yet brought out.

And speaking over the evidence of Cooper yesterday, the fact of Cooper's testimony, the fact of Cooper's testimony, the fact of Cooper's testimony.

Dr. Weldon Asks Finance Minister For Amount of Money Spent in 1900 Election.

Liverpool, N. S., Oct. 24.—(Special.)—The nomination proceedings in the Shelburne-Queens by-election took place here to-day. A joint meeting in the afternoon was addressed by Hon. W. S. Fielding, the Liberal candidate, and Dr. R. C. Weldon, the Conservative candidate.

Dr. Weldon is making a fight in Shelburne-Queens for the principle and the practice of cleanliness in elections and purity in politics.

During Mr. Weldon's speech this afternoon he put three questions to Mr. Fielding, demanding a frank answer thereto.

Mr. Fielding said he had no answer to make beyond what he had stated in the court, and that he refused to answer any questions regarding former elections, for which he was not on trial.

W. T. Jennings, C.E., Dead End Comes While Abroad

Stricken With Paralysis at Lansing, Michigan—Had a Notable Career in Railway and Other Engineering Enterprises Throughout Canada.

News of the death in Lansing, Mich., yesterday of William T. Jennings, civil engineer, of this city, came as a great shock, not only to members of his profession, but in many other circles in which his activities had made him well known and respected.

William T. Jennings, aged 61 years, consulting engineer of the City of Toronto, died at the residence of his wife, Mrs. Jennings, at 100 St. Nicholas street, at 10 o'clock.

Mr. Jennings was born in Toronto, his father being a Presbyterian clergyman. He entered the profession of civil engineering and applied himself to railway work.

Returning to Toronto, he became resident engineer for the C.P.R., resigning in 1890 to become city engineer. Two years later he retired to take up a consulting practice, and in that capacity in the years which have elapsed undertook many important reports.

QUEBEC ANTI-IMMIGRANTS LIGHTING FIRES OF STRIFE

Men Who Exult Over Premier's Defeat Are Digging Grave of British Institutions.

Warton, Oct. 24.—(Special.)—A meeting in the interest of John Toimie, the Liberal candidate in the by-election for North Bruce, was held here to-night. Speeches were made by the chairman, J. P. Newman, C. M. Bowman, M. L. A., H. H. Miller, M. P., Hon. A. B. Aylesworth, minister of justice.

Mr. Aylesworth pleaded for support from Ontario because it was practically from Ontario alone that the opposition in the commons originated.

There are only two medical men in the district, Dr. Bull, the health officer, who resides some distance off at Lambton Mills, and Dr. Forbes Godfrey, at Eganville. Dr. Bull could not be reached last night, but Dr. Godfrey admitted that the facts were much as stated above.

At the parliament buildings it was learned that no reports had come to the provincial board of health.

TEXT BOOK RING FORTIFIED BY CABINET'S OBSTRUCTION

Publisher Morang Says Ex-Premier Ross and Hon. Mr. Harcourt Bluffed Him Along.

Questions of copyright of portions of the contents, and the comparative value of the Ontario school reading books with those of the United States, and unauthorized Canadian readers occupied the session of the Ontario School Book Commission yesterday at the Normal School, T. W. Crothers presided, and G. Lynch-Staunton examined the witnesses, who were all from the Morang Publishing Company, Limited.

Henry L. Grantham gave evidence of the cost of the Ontario reading books. Part I, First Reader, cost 3-9 cents, and sold for 10 cents, and the Second Reader, cost 11 cents, and sold for 15 cents. The books were poorly made, cost about 8 cents. The Third Reader, cost 10 cents, and sold for 13 cents. The Fourth Reader, cost 12 cents, and sold for 16 cents.

George N. Morang told how he tried to buck the ring, and how Hon. G. W. Ross stood him on.

An agreement, on March 24, 1896, was made by Mr. Staunton, in which Gage Co., the Copp-Clark Co., and the Canada Publishing Co., agreed not to object to the score of copyright, if the publisher elsewhere. They did refuse, however, Mr. Morang applied to the minister personally in 1901, and learned that he could not get any of the contract.

The government obstructed me for years, he protested. He intended to produce a better set, but he got the contract. Both Mr. Harcourt and Premier Ross had kept bluffing and putting him off, he said. Finally, he forwarded his cheque, under the name of the order-in-council.

Mr. Ross sent for him then and told him he could not get any of the contract. So far as he knew, the government never had a list of the copyright, but had purchased, nor had they at present not have cost over \$500, and they wanted \$400, but would not guarantee him from prosecution then.

Copyrights in Readers. J. C. Saul, with four years' experience with Morang & Co., and knowledge of conditions in Manitoba and the United States, testified in the afternoon. The material in the Ontario junior books was all original, with no selection of outside authors. In Part I, nobody outside the government could possibly have had any material, which was manufactured by the government in words used at the head of the lesson.

In Part II, a poem of Lord Hampton's, "The King's Dog," and Charles Kingsley's "The Dog" were in copyright in 1886, at the time the readers were published, but these are all out of copyright now.

He thought \$5 each would pay for the cost of copyright, but the government would not permit the use of any of his copy-righted poems, but as his Canadian agents published the readers, they may have obtained permission.

In the Second Reader, seven pieces were mentioned in copyright at the time of publication, but all but one of them were not in copyright at present. They included selections by George Macdonald, Norman Macleod and Thomas Carlyle.

In the Third and Fourth readers, a number of other selections were cited as having been in copyright, which had now expired. A dozen pieces were still copyrighted. Three pieces altogether were mentioned. In Toronto the order for junior readers was equally divided between his firm and the others, with the result he declared, that Morang's books were used, while the others were left on the shelves for ornament.

Ontario Is Behind. He thought there was no objection to dealing with a single firm, if the government was properly protected. If the trade was laid open to the various competing houses, they would provide the very best material. This plan was adopted by every province, except Ontario.

As an ideal, Mr. Saul considered Mr. Cooper's suggestion of a uniform set of national school books very beautiful and desirable, but it was not a condition, as the provinces differed so greatly in their requirements. Opinion was now given against such a hotch-potch of history, geography and science as the present readers consisted of, and it was desirable to have a purely literary set of readers.

In the States, competition had been directed to getting out a book of the greatest excellence, the standard prices generally observed. Royalties payable to authors came to 10 per cent. on retail rates, on an average, and the publishers often failed to net as much. On the whole, the United States textbooks, he considered, were superior to those in use under the agreement with the late government.

The most wretched books ever published were in California, when the state undertook to get out its own set, and made a fizzle of the project, which was quickly abandoned.

WOMEN WANT TO BE JAILED SENTENCED TO TWO MONTHS

Suffragists, After Being Evicted From Court, Create Hubbub and Are Rearrested.

London, Oct. 24.—Ten women suffragists, who were arrested yesterday for rioting within the precincts of the house of commons, were arraigned in a police court to-day and were bound over to keep the peace for six months.

The striking women continued to make a demonstration outside the police court, until Miss Pankhurst, who took a most prominent part in the disturbances in the ladies' gallery of the house of commons on April, was again arrested.

When the disturbances had somewhat subsided, the police re-assembled the defendants, who were then informed by the magistrate that they must immediately find sureties for their good behavior or be imprisoned for two months.

The whole ten women refused to enter into recognizances and were re-arrested in custody.

PRICE OF GAS REDUCED AS GIFT TO THE PUBLIC

Only 75 Cents Per 1000 Now—President Cockburn Will Retire From That Position.

Thanksgiving Day came a week too soon this year, else to-day every citizen who uses gas could have paid due tribute to the Consumers' Gas Company. Yesterday the directors of that corporation, on motion of Mayor Coatsworth, decided to reduce the price of gas from 80 cents to 75 cents per thousand, to go into effect at once.

When the profits of the company reach a certain figure the price of gas is to tumble automatically. Under the agreement the reduction is not due until October 1 next year. The financial report for the company's year just ended showed an increase of nearly \$10,000 below the amount requiring the reduction.

"But we felt that the returns then would amply warrant us, so we just got in ahead and did it voluntarily this year," said Manager Pearson.

The last reduction—from 90 to 80 cents—was made in 1903. In the early days gas was \$5 a thousand. In 1893 a reduction was made from \$12.12 to \$10, and in 1896 to 90 cents. There are 4,000 consumers in the city now and the estimated saving is about \$70,000 a year.

The resolution will come before the shareholders at the annual meeting on Monday next. The city will ask that the price of gas for street lighting be at the same rate.

At yesterday's meeting G. R. R. Cockburn, president of the company since September, 1905, announced that he would withdraw from that position. In a letter to Mr. Pearson he said: "In view of the present excited state of public feeling, regarding the Ontario Bank, with reference to which my name has been so prominently associated as its president, I have considered whether I should at that meeting offer myself for re-election as director and president of the Consumers' Gas Company. Had time permitted me the vindication which I confidently expect, I should have had no hesitation in offering myself for re-election. Under the circumstances, however, I have decided that it is in the best interests of the company that I should not do so, and, accordingly, I beg to withdraw my name from nomination."

REGENERATING SPAIN. Budget Proposals Are of Especially Progressive Nature. Madrid, Oct. 24.—The budget proposals of the government, which were read at the opening of parliament yesterday, involve sweeping financial reforms, including the institution of the gold standard.

The newspapers regard the legislative work ahead of parliament, especially the enactment of the law of associations, and the suppression of octroi dues (the tolls upon all goods entering all cities and towns) as the most important undertakings for 1907, and as foreshadowing the moral and material regeneration of Spain.

enged; fares to two cents a mile by any railway company has resulted, either in increasing freight rates or in abolishing return-trip tickets or excursion tickets.

Fortunately we have a very modern instance. For many years an agitation for the two-cent fare was in progress in the State of Ohio.

At every session of the legislature, a bill was introduced fixing the maximum passenger rate at two cents. At every session, for years, this bill was sent to some friendly committee and

strangled. In 1905, however, the Democrats nominated for governor John M. Pattison. Mr. Pattison was confronted with the fact that only a few months before Ohio had gone Republican by 250,000 majority.

It was up to him to create an issue upon which to divide the people, irrespective of old party lines. He had against him the tremendous popularity of President Roosevelt, and he had also against him the magnificent party organization manipulated by Senators Foraker and Dick. He declared for the two-cent fare. Upon this issue he was elected. He carried the lower house, but not the senate; yet, as soon as a two-cent-fare bill was introduced in the house, the Republicans in the senate introduced a similar measure. The railroads prepared to strangle this reform in their usual way. They undertook to play one house against the other, but, by this time, the attention of the people had been focused on this question, and some newspapers, notably The Ohio State Journal, turned a calcium light on the state house, and the lobbies and hotels adjacent thereto. The result was that both houses, by a unanimous vote, passed the two-cent bill, and about the last act of the governor—for he died in office—was to sign this bill.

The act became effective March 1. There was the usual howl from the railroads that they would all be ruined, that receivers would be appointed for them, that freight rates would go up, that round trip tickets and commutation tickets would never again be issued, and so forth. As a matter of fact, what happened? We have before us the reports of the railroads themselves as to how this law worked out during the first six months of its operation. The gross receipts for passenger fares increased enormously. The net profits of the roads from passenger fares largely increased. So far from Ohio desiring to take a backward step, her example has stimulated other states in the same direction. Moreover, the railway companies between New York and St. Louis, in their effort to head off the two-cent fare, have now agreed upon a thousand-mile route, transferable to bearer, which may be used by a party of two or more at any time, and is for sale at all stations for \$20. This is in effect a two-cent rate, except that it discriminates against the poor man who has not \$20 to invest. That the real two-cent fare will be soon established by law between the Atlantic Ocean and the Mississippi River is no longer in dispute. So far as Ohio goes, the steam railways frankly admit that owing to this reduction in fare they have recovered a large part of the local passenger traffic which had been diverted from them by the various radial railways. That a part of this traffic is still retained by the radial railways is due to the fact that their usual charge is about one cent a mile.

As to return trip tickets and excursion tickets, the facts are eloquent. Any current issue of The Cincinnati Enquirer, Cleveland Plain-Dealer or Ohio State Journal contains a column or more of advertisements inserted by the steam railway companies offering excursion rates to points, in and out of the State of Ohio, at a rate not much above one cent a mile. Indeed the usual week-end rate of \$1.25 for the round trip still obtains from Columbus to Toledo, Cleveland and Cincinnati respectively. Toledo is 120 miles from Columbus, Cleveland is 130 miles, and Cincinnati is about 125 miles. The Big Four, the Pennsylvania, the Hocking Valley and the B. & O. are selling these excursion tickets at less than half a cent a mile.

These facts must be known to Mr. Aylesworth. Under all the circumstances, he could not avoid knowing them. When, therefore, he pretends not to know them, and, on the contrary, asserts theories and principles flatly contradicted by them, he is resorting to the cheaper and more unworthy piece of skulduggery than did John Tolmie when he hid in the cellar or elsewhere to avoid voting upon the two-cent-a-mile amendment.

Another Dodge. Report current indicates that the Ontario Power Company at Niagara Falls will furnish the Hydro-Electric Commission with power so cheaply that it can transmit and distribute electric current to the municipalities of Ontario at an even lower figure than that estimated. This should carry joy to the Globe, which so persistently has lambasted the inability of the commission to make its promises good. At least, it should cause to rejoice the editorial department, which has howled for cheap power and denounced delay, even to the business office might suffer from a cessation in the letters from "Veritas," "Pro Bono Publico," "Old Citizen" and other correspondents who are paying 15 cents a line for the privilege of discouraging the com-

mission, and every form of public ownership.

But, strange to say, even the editorial column of The Globe shows no sign of happiness or relief. It is afflicted by the fact that the Ontario Company is controlled by American capital; a company doubly cursed as interfering with our own beloved electric trust.

"It is worthy of remark," The Globe states, that the Ontario Power Company is essentially an American organization, while the other two are Canadian companies. This is a feature of the situation which is more than merely curious, even at this stage, and which may yet become very important.

As a matter of fact, two of the three power houses at Niagara Falls are owned by stockholders residing in the United States. The point—if there is any point—seems to be that the Hydro-Electric Commission should deal, and deal only, with the Cox-Nichols-Globe gang, and at their own figure.

Another thing. The Globe has harped upon Mr. Whitney's procrastination. Heretofore the commission has been too slow. The Globe simply could not wait. Heretofore its watchword has been "hurry." On Oct. 19 it gravely announced that "the people look to the Hydro-Electric Commission and to the Ontario government for prompt and efficient action." In the matter of hurry it has been like a tramp looking for work; it had to be served immediately.

But the tramp looking for work is in hopes that he may not find it. Now that electric power for municipalities is at hand, The Globe is in no hurry. It does not bid the municipalities to make haste. "Don't bother; take your time," is now its motto. The province having acted promptly, are the municipalities urged to hurry? On the contrary, between yawns, The Globe languidly counsels delay. It urged the commission and the Ontario government to "prompt" action on the 19th; on the 22nd, it thus gives counsel to the parties next to move—the municipalities.

Of course much remains to be done in the way of preparing by-laws and taking preliminary steps under the authority of the Hydro-Electric Power Commission Act of last session, and indeed the municipal authorities cannot proceed too cautiously in the matter. It would be very unfortunate to have a few power by-laws quashed at the very outset. As there will be more and more municipalities in the transmission area, municipal authorities everywhere can afford to proceed as leisurely as may be necessary in order to keep well within the safety line.

And yet people wonder how sin can exist, with the sainted Globe in our midst!

REAL FLYING MACHINE UNSUPPORTED BY GAS

Santos Dumont Wins \$10,000 Prize After a Successful Flight.

New York, Oct. 24.—The Herald prints the following special despatch from Paris:

M. Santos-Dumont won the Archdeacon Cup yesterday on the field at Bagatelle, with his Bird of Prey, a flying machine. Not only did he succeed in covering the necessary 25 metres, but in the opinion of every competent witness summoned in council immediately after the flight, it was agreed that he left the ground well over 50 metres from the point where he descended. His flight was free, with sustained balance. There was no hesitation.

The huge contrivance, propelled by a 50-horse-power motor, shot four or five metres into the air and continued at this height until M. Santos-Dumont cut off the power, and allowed the movement was replaced by an inclining movement and with a thud which smashed the wheels and a portion of the lower frame as well as the rudder, the Bird of Prey came to a standstill.

M. Santos-Dumont said: "I really do not know why I did not go on. For an instant it seemed to me that the machine was making a sideward movement, and I foolishly cut off the gas. This all arises from the fact that I shall be able to travel many kilometres. The sensation was delightful."

"When the wheels left the ground I felt just as though I were in a balloon, propelled by some hidden force. I am absolutely confident that when I have made a few alterations I shall be able to fly about with comparative ease."

The Deutsch-Archdeacon prize is worth \$10,000. It was promised to the first man to transport a machine, supported by gas, should make a circle of at least one kilometre without coming to the ground.

NEW ZEALAND POSTAGE CUT.

U.S. Postmaster-General Makes Two Cent Letter Rate From Islands.

Washington, Oct. 24.—Postmaster-General Cortelyou has issued an order to the effect that on and after Nov. 1, letters originating in New Zealand and prepaid by postage stamps at the rate of one penny, or two cents, for each half-ounce, will be delivered to addressees in the United States without surcharge or the collection of additional postage.

The postmaster-general of New Zealand, who is now prime minister, was a delegate to the universal postal convention at London, and on his return from the convention called upon the postmaster-general, and at that interview, as well as in recent correspondence, strongly urged the United States in the interest of the people of New Zealand who desire to trade with the United States, and who find themselves at present in the position of having to pay five cents letter postage on correspondence delivered in the United States, while correspondence carried in the same way from the United States to the territory of the United States for delivery in Canada and Great Britain, is carried at the rate of two cents for each half-ounce.

Since penny postage was established between Great Britain and her colonies some years ago, the question of two-cent postage between the United States and Great Britain has been advocated by people on both sides of the Atlantic, but as yet no official action has been taken by either country.

The effect of the recent order will no doubt be to bring the people of New Zealand into a valuable business relations with the merchants and manufacturers of the United States. The domestic rate of two cents an ounce is already in effect between the United States and Canada, and the United States and some of the West Indian islands.

DALTON IMITATORS TAKEN

After 36 Hours' Pursuit Sheriff's posse Captures Barling Sheriff.

Minot, N. D., Oct. 24.—After a chase lasting 36 hours, the sheriff's posse last night captured five bandits who robbed the Sawyer, N. D. bank early Monday morning, when a battle ensued with citizens, during which 300 shots were fired, the robbers getting away with \$4800.

The men were discovered on a farm near here. Escape was attempted, but which followed on a robbery was wounded in the leg. Another ran into a slough with \$900 in gold and bills and dropped the money into the water. Money was also scattered on the prairie by the bandits. Chief of Police Hagen recovered \$3000 of the money.

Four of the captured men are young and well dressed, none being over 25 years old.

The money was being carried in bags and was composed of gold and bills, all the heavy silver having been thrown away.

POPE'S HEALTH IMPROVES.

Rome, Oct. 24.—Dr. Lappino, notwithstanding the unsatisfactory condition of his health, is in the vigor of his youth this morning. He found him improved, the pains in his knee had decreased and his temperature, which yesterday was above normal, had diminished.

In view of his improvement, the Pope decided to receive the English pilgrimage to-morrow.

Settled. Sarah Creagh's action against the C. P. R. has, on her consent, been dismissed, without costs.

John Searle and others have an action pending against the Macdonald Engineering Co. L. Shirley, a foreman of the company, is leaving on Saturday for San Francisco. As he is believed to be an important witness, an order was obtained from the master of the court, allowing his evidence to be taken by deposition.

A Bad Endorsement. Endorsing a promissory note for his brother has brought trouble to John Tait. In 1887 he was sued by William A. Tait, as endorser on a note for \$127.87, and judgment was entered against him. Last March he, with his wife, was about to start for British Columbia, when an order was made for his arrest. On the 15th May the county judge discharged him from custody. William A. Hill, the plaintiff, appealed to the divisional court to set aside the order for discharge. The appeal was dismissed with costs.

A Valuable Agent.

The glycerine employed in Dr. Pierce's medicine greatly enhances the medicinal properties of the extract, and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Cherry Bark, Golden Seal, Stone root and Queen's root, contained in "Golden Medical Discovery," in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal, Stone root, Queen's root and Black Cherry Bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, by local and large local troubles, and chronic sore throat with hoarseness. In acute coughs it is of great value, and in the lingering, chronic coughs, or those of long standing, when accompanied by "ceding from lungs," that it has effected its most marvelous cures. See the little book of extracts, giving the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn why this medicine has such a wide range of application in the cure of diseases. It is sent free. Address Dr. B. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drugs. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter. Free. All correspondence is held as strictly private and absolutely confidential. Address Dr. B. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound copy.

UTES LOOKING FOR TROUBLE MAY BE INDIAN RISING.

Omaha, Neb., Oct. 24.—Word was received here to-day from the scene of the Indian depredations in Wyoming, to the effect that Capt. C. P. Johnson, with an orderly and a scout, overtook the Utes on Little Powder River. It is said the Indians absolutely refused to return to their reservation, and declared they were going to Dakota.

Major Grierson, it is said, has determined to await reinforcements before trying to force the removal of the band, as cowboys report that the Utes are holding night dances and are in a mood for trouble.

SETTLING WITH INDIANS.

Commissioners Return After Having Made 915 Agreements.

Indian treaty No. 9 has been completed by Messrs. Stewart & Scott, of the Dominion Indian department, and Commissioner McMartin representing Ontario. It embraces some 90,000 square miles north of the height of land and east to the Quebec boundary. Last year 600 Indians were treated with, and this year 215 have agreed to the terms, making 1805 in all. Reserves have been set aside for each band of Indians, these sums to be paid by the provincial government. It is stated that some very choice pine timber land is included in these reserves, and there may be more to be heard about this phase of the treaty.

Besides the reserves, each Indian gets \$5 for the first year, and \$4 for each succeeding year. These sums to be paid by the province. The Dominion pays all the expenses of the commission and cost of education and other matters subsequently.

The Dominion was anxious to get the matter closed in order to clear the way for the G. T. P. Railway.

While at work in the north, the commissioners made a treaty also with a band of 1400 Indians north of the Albany River.

Compromise to Jews.

New York, Oct. 24.—President Roosevelt's proposed appointment of Strauss to a place in his cabinet is not only a well-deserved compliment to the man and his qualifications, but at the same time a recognition of the good citizenship of the Jews of the United States.

Piles

Suffered for 23 Years—Tried Everything Without Avail —"Pyramids" Doing the Work.

A Trial Package Mailed Free to All. The return, like the mouth, is lined with that soft, satiny material known as mucous membrane. Piles is a disease of that membrane and the blood vessels that lie under it.

Pileure and Fistula affect the same membrane and belong to the same family. Pyramid Pile Cure, slipped into the bowel, relieves the irritation, soothes the inflamed and painful surface and act just as a salve would the trouble was on the outside of the body and could be easily seen and gotten at.

The immediate relief they give even the most agonizing cases will startle you, as it has already started many thousands of "doubting Thomases" before you, who have tried everything and sent for the sample package, firmly convinced that they would again be disappointed.

"But they weren't." Pyramid Pile Cure don't disappoint. They cure. They are for sale at all druggists at 50 cents a box and are worth an even hundred to the person who needs them.

"This is to certify that I have used three 50c boxes of Pyramid Pile Cure and it has benefited me more than any other pile remedy I have ever used. I used the sample which you sent me, together with the three 50c boxes, and I am so much better, but not entirely cured, as my case is one of twenty-three years' standing. I did not expect to be cured at all, and I had almost lost all hope of ever getting any remedy that would help me until I tried Pyramid Pile Cure. I believe you will entirely cure me if I continue their use, which I intend to do as long as I can get the money to pay for them. I do not think any one ever suffered very much more than I have at times. Then I would be so nervous I could not get any ease in any position I would place myself. I cannot express my gratitude for the good your medicine has done me. I will continue to tell my friends of their merit. Yours, Emma Bodenhamer, Bedford, Ind."

Or if you want to prove this matter send your name, before purchasing, Pyramid Drug Co., 36 Pyramide Building, Marshall, Michigan, and receive a trial package free by return mail.

COMMISSIONER MAY TRAVEL FOR GRAND STAND POINTERS

Rebuilding the Exhibition—Trunk Sewer Proposal—City Hall Notes.

The parks committee and Dr. Orr yesterday afternoon visited the exhibition grounds and looked over the scene of the fire. It was decided to commence the work of clearing away the ruins at once and to push forward the new work as soon as possible.

The committee is in favor of tearing down the fruit and flower building, the agricultural hall, Webb's dining hall, and the manufacturers' annex. They will also present a recommendation to the board of control that the park commissioner, city architect Chairman Vaughan, Dr. Orr and the architect of the Exhibition Association visit the large cities in the States with a view of getting ideas and plans for the erection of a grand stand.

BRITISH CAPTAIN CHOOSES DEATH TO GIVING UP SHIP

Schooner Sirocco of St. John, N.B., Helpless in Atlantic With Crew on Roof of Afterhouse.

New York, Oct. 24.—Somewhere far out in the Atlantic, off the coast of Florida, half a dozen men, perched on the roof of the afterhouse of the waterlogged British schooner Sirocco, are struggling against wind and sea to reach a Cuban port with their almost helpless charge.

The plight of the men is due in part to the heroic devotion of their captain, who, when help was at hand, chose to face death rather than abandon his ship and her cargo of lumber. He declined an offer of assistance from the steamer Parima, which ran down on him last Sunday, when she was wallowing in the seas 500 miles east of Florida.

The captain asked only that he be given supplies to replace those which were ruined when his ship filled with water. When this request was granted the captain and his crew settled down in their precarious quarters on the roof of the afterhouse, and announced their determination to sail the Sirocco to Cuba.

The Sirocco sailed from St. John, N.B., on Sept. 22, with a cargo of lumber for Cardenas. At went well until Oct. 5, when off the coast of Maryland she ran into a fearful hurricane. Foundered and battered by wind and sea, the Sirocco was thrown about like a cork, some of her seams were ripped open and she began to fill.

Before the storm had abated her hull was filled, her decks awash and the decks were flooded. All the stores for the voyage, which were in and the men were ruined by the water, down on him last Sunday, when she was wallowing in the seas 500 miles east of Florida.

STOCK MARKETS EASIER ONE LIGHT TRANSACTIONS

No Buoyancy at New York and Toronto Market Sadly Needs More Support.

World Office, Wednesday Evening, Oct. 24. The Canadian stock market situation is badly in need of a stimulus.

The cotton market is waiting for the cotton ginning report, which is due to-morrow.

The net loss of currency this week and three succeeding weeks will approximate \$35,000,000 to \$38,000,000.

Twain City earned 5 1/2 per cent, in nine months on common stock.

Light demand for stocks in the loan market.

Several cargoes of pig iron due to arrive in this country from abroad this year.

International paper surplus after preferred dividend is equal to 3 1/2 per cent.

Contracts for steel rails booked for next year aggregate 1,500,000 tons.

Banks lost \$1,770,000 to sub-treasury since Friday.

Norfolk & Western has been placed on a 5 per cent. basis; it was 4 per cent. before.

Pittsburg.—The directors of the Pressed Steel Car Company will meet this afternoon and declare the usual quarterly dividend on the preferred stock of 3 1/2 per cent.

It is claimed that buying of B.H.T. in good Boston houses are bullish, and there is no question about the earnings which have been steadily increasing.

Concerning the sale by the Pennsylvania Railroad Company of part of its holdings of Baltimore & Ohio and Norfolk & Western, it has been removed to the United States.

The market to-day after early strength, London operations were not important, but there appeared to be some liquidation of stocks bought to protect the leading issues last week.

made to settle the balance in cash at a future date.

Resumption of specialty improvement is imminent, according to information received by us. Generally speaking, we continue to recommend the purchase of standard issues on soft spots for turns at least.

The ease with which St. Paul stock advanced about 2 points above yesterday's closing level indicates a very favorable outlook.

Speculation broadens for the Cobalt stocks. And the Mining Market is Strong in Face of a Weak General Stock Exchange.

World Office, Wednesday Evening, Oct. 24. The local demand for the Cobalt mining shares showed a further broadening today.

The buying in the Cobalt stocks was of a most substantial nature, and the resulting supply of this issue is becoming very materially lessened under the steady investment absorption.

Local Fruit Market: Canadian fruits as a rule are steady and show little change from the prices prevailing for the last month or so.

Toronto Sugar Markets: St. Lawrence sugars are quoted as follows: Granulated, \$4.84 in barrels, and No. 1 golden, \$4.08 in barrels.

Manitoba Wheat: At the Winnipeg option market today the following were the closing quotations: Oct. 75c bid, Dec. 74 1/2c bid, 73 1/2c bid, May 75 1/2c bid.
