40TH YEAR—ISSUE NO. 14,410

TWO CENTS

## Legislature Asks Ottawa to Check Rising Commodity Prices Raney Given Sharp Rebuke in Board of Commerce Statement

### FARMER-UNIONISTS DIRECT VOLLEYS AT MUCH-ABUSED OLEO

But Bill to Extend Time Limit  
for Manufacture and Im-  
portation Slips Thru.

#### SOME DRAMATICS

Ottawa, April 30.—During the afternoon and the greater part of the evening the House today discussed oleomargarine. The debate arose on a government resolution to extend the time limit for manufacture and importation of oleo to August 31, 1921, and for sale to March 1, 1922. But criticism, curiously enough, came chiefly from rural members on the government side of the House, although George Boyce of Carletonton himself a farmer—declared that if a man wanted oleo and was prepared to pay for it, there was no reason why he should not have it.

John Best of Dufferin took occasion to charge responsibility for dear food on the city dweller. To get shorter hours, labor was leaving the farm for the city, "Thank God," exclaimed Mr. Best—"Thank God the farmers have got into a position where they can say and they are doing it, and will continue to do it, we have this country by the throat long enough and now we will defend ourselves."

On the other hand, supporters of the resolution urged that the extent to which oleo was used indicated the need for permitting sale. There were those who could afford to buy it. But, on all sides, there was the urgent plea that regulations should be stringent enough to prevent substitution. Rather unexpectedly, the resolution passed without a division and the bill based thereon received first reading.

Back to Supply  
The House subsequently went into supply, taking up the trade and commerce estimates. The administration of the Canada grain act, estimated to cost \$1,000,000, as against \$1,500,000 last year.

D. D. McKenzie raised the question of establishing a code of prices on wheat grading, as decided by legislation at a previous session. He asked if the fight between factions for the location of the court at Port Arthur and Winnipeg had anything to do with it.

GOVERN IRELAND  
ALONG NEW LINES  
Three Basic Changes in Policy  
Discussed by Viceroy and  
Lloyd George.

London, April 30.—An Irish conference attended by Premier Lloyd George, Andrew Bonar Law, Field Marshal Viscount French, lord lieutenant of Ireland; Sir Hamar Greenwood, chief secretary for Ireland, and Denis Henry, attorney-general for Ireland, discussed the situation on a basis of three fundamental changes in the government's policy.

SCARE IN HARTFORD;  
TROOPS CALLED OUT  
Report That Capitol, State  
Armory and Bridge Would  
Be Blown Up.

Hartford, Conn., Saturday, May 1.—Colonel Charles W. Burpee of the 1st State Guard Regiment here at 1:10 this morning, called his staff out. There was much secrecy in the summons.

### BOARD OF COMMERCE SCORES RANEY FOR SHARP CRITICISM; CHARGES ARE STRONGLY DENIED

Investigation Into Foodstuffs  
Prices Declared to Be Pro-  
ceeding Steadily—Allegations  
That Witness at Hamil-  
ton Inquiry Was Badly  
Treated Warmly Refuted.

#### INDIAN AGITATION IS MORE VIOLENT

London, April 30.—Agitation by the Khalifa extremists is increasing in violence, says a despatch to The London Times from Simla, dated last Wednesday. Delhi is the focus of the movement, and during the past few days speeches of marked disloyalty have been delivered there.

Some disquieting reports also have been received from the Sind region in the extreme western part of British India. Shaikh Ali and other leaders are advocating the migration of Indian Muslims to Afghanistan and Asia Minor.

HUMAN HAND  
GIVEN BURIAL  
Finder Still Claims Hand Not  
Dissected, Chief Coroner  
to the Contrary.

For the first time in the history of Toronto a burial certificate was issued yesterday at the city hall for one human hand. The death certificate for the member was signed by Coroner A. Jukes Johnston, who gave as the "cause of death" that it was a hand that had been in a preserving fluid, and that it had been dissected as to tendons and muscles.

A Unique "Death."  
Aldio a burial order was issued by the city, the death has not yet been registered, as the authorities do not quite understand the procedure in such a unique "death." The whole matter will be referred to the registrar-general for a decision before the "death" is entered in the record book.

SUSPENSION OF WORK  
EXPECTED IN BERLIN  
Berlin, April 30.—May Day will be extensively celebrated by the workers of Berlin. The street cars and electric and suburban train services will be suspended. Newspapers will appear only early in the morning, and no further editions will be printed until Monday. All the schools will be closed.

Potatoes, Sugar and Cement  
All Jump Another Notch  
Members of Legislature Ask That Government Action  
Be Initiated—Committee of Inquiry Into  
High Prices Is Demanded.

Potatoes, sugar and cement were five topics in the legislature yesterday afternoon. The high prices of all three of these commodities was the subject of vigorous complaint. It was the minister of labor who started the ball a-rolling. He read a report that sugar was likely to take another jump. At present it was said to be worth 29c a pound and the only reason people were not paying that sum now was because old stocks were first being disposed of. He was successful in having a resolution passed asking the Dominion government to take measures to prevent any further increase in price.

Cement is Up Too.  
Dr. Stevenson (London) next complained about cement prices. They should be inquired into. There were at present in the province 14 idle cement mills. There was a great demand for cement and the reason for closing down the mills should be inquired into. House builders were suffering. The matter will probably come up again.

M. M. MacBride (Labor, Brant) informed the house that potatoes for the last few years had steadily advanced in price—had doubled, in fact—and this in spite of the greatly increased acreage. The government should not at once. Seed should be provided. Mr. MacBride gave the fol-

#### AMUNDSEN HAS NOT ABANDONED EFFORT TO REACH POLE

London, May 1.—Roald Amundsen, the Norwegian Arctic explorer, has not abandoned his expedition, but after his impending visit to Nome, Alaska, he intends to enter the ice pack around Wrangel island, off the northern coast of eastern Siberia, and thence drift across the Polar sea, says a despatch to The London Times from Christiania.

A message dated from the Maud, somewhere in the Arctic, the first received from the explorer since he began his tour of exploration, begins with the departure of the Maud from the vicinity of Cape Chelyuskin, says The London Times. It came by Anadir and Nome. The message was undated, but probably was written about Christmas time.

"We left our winter place," says Amundsen's message, "Sept. 12, 1919, after having mined and forced our way thru 2500 yards of unbroken ice from two to three yards thick. We were detained the next day by heavy pack ice at St. Samuel's islands, but got thru on the 14th, and continued on our way to the east, being again detained by ice on the 15th, and the newly formed ice offered considerable resistance. We succeeded, after a vigorous battle, in penetrating this intricate and shaggy passage, and on the 16th we were in our passage outside."

Antwerp, April 30.—The Falcons of Winnipeg, winners of the Olympic hockey championship, were presented with diplomas and commemorative medals last night at the close of the first series of events in the seventh Olympiad.

STREET CAR STRIKE  
LONDON WALKS  
Turn Into Barns at Midnight  
—New Wage Scale  
Demanded.

London, Ont., May 1.—In accord with their strike program the employees of the London Street Railway Co. turned their cars into barns at midnight and Londoners will walk today. The cars will be brought out again when the demands of the men for an increase in wages from 44 to 65 cents an hour are met, say the employees. The demands cannot be met until the right to increase the fares is given, say the men. The question of the right to increase the fares is given, say the men. The question of the right to increase the fares is given, say the men.

DAYLIGHT SAVING  
At 2 o'clock on Sunday morning, May 2nd, Toronto will again adopt daylight saving, and all clocks, with the exception of those in railway offices and in courts, will be advanced one hour.

That of Bakers Serious—The  
Others Will Temporarily  
Delay Work.  
Twelve hundred bread drivers and journeyman bakers are on strike. 120 sheet metal workers are out, and the milk drivers and employees of the City Dairy are still out. Aside from these three unions, there is no known trouble in the labor world in Toronto.

USED HIS NAME  
AND HIS SUITCASE  
Sergt. John A. Kinney Finds  
Alleged Thief Very Near  
Namesake.  
He who gets much, wants more and loses all. This ancient proverb was well exemplified in the case of John J. Kinney, Simcoe street, who, because he wanted more, was arrested yesterday afternoon by Detectives McMahon and Sullivan, charged with the theft of two suitcases from the Union Station.

SAD EFFECT OF WAR  
ON ZOO AT BUDAPEST  
Budapest, April 30.—Six hundred animals are all that remain of the 1,800 specimens, which the Budapest Zoo boasted before the war. There was a constant lack of food for the animals, and as a result they perished. Those surviving are in an emaciated condition.

### U. S. SENATE WILL DEBATE RESOLUTION ENDING WAR INVOLVING A NEW TREATY

Proposal to Retain All German Property Until Pact is Made  
Providing for All Claims Against Germany.

Washington, April 30.—A joint resolution proposing repeal of resolutions by congress, declaring a state of war with Germany and Austria-Hungary, was reported out today by the senate foreign relations committee by a strict party vote.

Introduced by Senator Knox (Republican, Pennsylvania) as a substitute for the Republican resolution recently passed by the house, the measure was formally presented by the senate late in the day by Senator Lodge, the Republican leader, with the announcement; by Senator Knox, that he would open debate on it Wednesday.

Leaders of both parties predicted several weeks of discussion, with little prospect of action until near the time set for the national conventions. In some quarters, the opinion was expressed that President Wilson, in the midst of the debate, might return the treaty of Versailles to the senate.

The resolution would repeal the resolutions declaring war with Germany and Austria-Hungary, and would request the president to effect friendly diplomatic and commercial relations with Germany and the nations set up in the former Austrian empire. Will Temporarily Retain Property.

BREADLESS MONDAY FACES  
ALL TORONTO HOUSEWIVES  
Bakery Drivers Strike for Higher Wage—Five Hundred  
Wagons Out of Commission—Vote for Walk-Out  
Almost Unanimous.

After Monday, very little bread will be baked in Toronto for the housewife until the agreement for increases in wages and better conditions has been signed by the master bakers on behalf of the Canadian Bakers' Union, according to information received from officials at a late hour last night.

Practically unanimous was last night's vote of the bread drivers at a meeting to go out on strike on Monday morning in consonance with the bakers. This means 1200 men out, and a tie-up of the baking industry in Toronto, and Hamilton unions have also taken similar action.

MAY DAY STRIKES  
ARE THREE IN ALL  
That of Bakers Serious—The  
Others Will Temporarily  
Delay Work.

Twelve hundred bread drivers and journeyman bakers are on strike. 120 sheet metal workers are out, and the milk drivers and employees of the City Dairy are still out. Aside from these three unions, there is no known trouble in the labor world in Toronto.

USED HIS NAME  
AND HIS SUITCASE  
Sergt. John A. Kinney Finds  
Alleged Thief Very Near  
Namesake.

He who gets much, wants more and loses all. This ancient proverb was well exemplified in the case of John J. Kinney, Simcoe street, who, because he wanted more, was arrested yesterday afternoon by Detectives McMahon and Sullivan, charged with the theft of two suitcases from the Union Station.

SAD EFFECT OF WAR  
ON ZOO AT BUDAPEST  
Budapest, April 30.—Six hundred animals are all that remain of the 1,800 specimens, which the Budapest Zoo boasted before the war. There was a constant lack of food for the animals, and as a result they perished. Those surviving are in an emaciated condition.

### OFFICIALS EXPECT MAY DAY VIOLENCE WILL BE SPORADIC

Those Menaced by Assas-  
sination Plots Will Be  
Amplly Protected.

Washington, April 30.—After checking over confidential reports from all parts of the country, government officials expressed confidence tonight that the threatened May Day demonstrations by radicals would not result in any nation-wide attempt at violence.

Assistant Attorney-General Garvan, who directed raids on communist and communist labor party organizations in January, declared that late reports indicated that whatever violence might occur would be sporadic.

It was disclosed by Mr. Garvan that several members of congress, three federal judges and an attorney recently active in investigating radical disturbances had been marked for assassination. With the early discovery of the plots, however, Mr. Garvan believed the officials against whose lives the plots were directed now are amply protected.

Mr. Garvan called attention to the apparent unlimited amount of money employed by the communist labor party in fomenting disorders, declaring that, at no time in history, had a radical movement been so plentifully financed. He traced the source of these funds to Amsterdam and thence to Russia.

Much Radical Literature.  
The amount of radical literature circulated within the last week was described by Mr. Garvan as "amazing," as he pointed to scores of different pamphlets, pamphlets and circulars, together with special editions of radical newspapers, piled in his office.

Mr. Garvan declared that Tom Millouka arrested on a deportation warrant, which was later cancelled by Assistant Secretary of Labor Post, had been found in Chicago, distributing the May Day proclamation of a communist party. Millouka, Mr. Garvan said, was freed by the Post because he said he did not know the nature of the communist creed.

Germany May Intervene  
In Territory South of Ruhr  
Berlin, April 30.—The German government probably will have to revoke its previous decision not to intervene in the territory south of the Ruhr, because the chief burgomaster of Hagen has declared that he can no longer assume responsibility for the maintenance of order there.

12,000 N. S. Miners to Strike;  
Protect 'Peg Leaders' Sentences  
Sydney, N.S., April 30.—Upwards of 12,000 miners will be idle tomorrow, having decided to tie up the coal mines, as a demonstration of sympathy for the Winnipeg strike leaders, now in Stony Mountain Prison. This statement was made by Secretary Jas. B. McClellan of the United Mine Workers in district 26 today.

DRIVES TAXI OVER DOCK.  
It has been said by someone that there is a special providence that looks after a drunken man. This was amply exemplified in the case of Joseph Gleason, a licensed chauffeur, 208 West Queen street, who last night narrowly escaped with his life when he drove his taxi cab, license number 17319 over the edge of the dock of the Standard Coal Co., at the foot of Church street. Only the fact that a yacht was anchored at the dock prevented the car and its intoxicated occupant from plunging into the bay. Gleason was placed under arrest by P. C. Morris, No. 303, on a charge of drunkenness.

DINEEN HATS.  
When you buy a Dineen hat you are sure to get the best value that money can buy. They are not only exclusive in style, but are very different from the ordinary. You have noticed the new Soft Hat the young men are wearing upon the street today? It is quite a chance from the broad brim of last season. The London hat-ers introduced it and the American manufacturers went after it. But the English makes are quality. Christy and Henry Heath of London are leaders in this new English hat. We have them. Spring Overcoats, Raincoats and Tweed Caps, as well as Dineen's 140 Tonge street.

### AMAZING LITERATURE

Washington, April 30.—After checking over confidential reports from all parts of the country, government officials expressed confidence tonight that the threatened May Day demonstrations by radicals would not result in any nation-wide attempt at violence.

Assistant Attorney-General Garvan, who directed raids on communist and communist labor party organizations in January, declared that late reports indicated that whatever violence might occur would be sporadic.

It was disclosed by Mr. Garvan that several members of congress, three federal judges and an attorney recently active in investigating radical disturbances had been marked for assassination. ### UPHOLD DISMISSAL OF THE PROFESSORS

#### Judges Rule That University of Saskatchewan Acted Strictly Within Powers.

Regina, April 30.—Judgment was rendered in the court of King's bench today by the three judges who are appointed to exercise the university powers conferred by the University of Saskatchewan act upon the lieutenant-governor in the matter of the dismissal of Professors MacLaurin, Hogg and Mackay and Mr. S. E. Greenway, director of extension work, by the board of governors of the university. The judgment unanimously finds that the board of governors in dismissing these men not only acted strictly within their powers, but that "the facts disclosed in the exhaustive inquiry of 12 days prove that the course of action by the president and the board was necessary, that a state of affairs in the university had been created such as made it impossible that these men should remain any longer in the service of the university." On this point the judgment says, "there is no room for doubts."

Rectifying the charges made by Mr. Greenway to the minister, in conclusion, the judgment says:

"We are of the opinion that the recommendation of President Murray and the proceedings of the board of governors in dismissing Professors MacLaurin, Hogg and Mackay and Mr. Greenway, were regular and proper, and necessary in the best interests of the university; and that neither the president nor the board of governors acted oppressively in the matter, nor is there the remotest suggestion of any corrupt or indirect motive and that their decision should, therefore, be confirmed."

### DANGER OF STRIKE NOT YET AVERTED

#### Hamilton Building Trades May Still Walk Out Today.

Hamilton, April 30.—Reports from the various sections submitted to the Hamilton branch in regard to Canadian building industries indicate that the danger of a strike on May 1 is by no means removed. Nearly all the sections reported failure to come to terms.

A strike committee, on which all sections are represented, was appointed to handle the situation in case of trouble.

The Industrial Council proposals to the Building Trades Council, which met with the approval of the association, were followed up by the appointment of a council to act for the association, as follows: J. F. Bremner, F. A. Magee, Samuel Howard, R. K. Palmer and W. H. Dennis.

### FIRE DEPT. STRIKE NARROWLY AVERTED

#### Quebec Firemen Stay on Job Upon Offer of Increase.

Quebec, May 1.—A general strike of the national union of employees of the Quebec fire department was narrowly averted here at midnight, and was only held off when the mayor and members of the council offered to pay all the men \$2 a week increase instead of \$1, as originally decided, in response to the men's demands for an increase of 25 per cent.

### LITIGATION THREATENED OVER CANEEN DISPUTE

Hamilton, April 30.—Litigation is threatened in connection with a dispute that has been developing since the establishment of a canteen in connection with the local Boy Scouts. The quarrel is between the scoutmaster, Godfrey White, and the ladies of the B. O. Hooper Chapter, L.O.E., which has been supporting the local troop. The ladies have withdrawn support from the Scouts until such time as matters which they complain of are adjusted. The trouble has been taken up with Capt. H. G. Hammond, provincial secretary of the Boy Scouts, and following some rather acrid letters between Mrs. R. B. M. Potts and Scoutmaster White, Mrs. Potts has placed her case in the hands of her solicitor, W. M. McClelland.

### MAY DAY IN JAIL

#### Agent of Hat Workers' Union Charged With Intimidation.

Hamilton, April 30.—Harry Thomas, Toronto, business agent of the Hat and Cap Workers' Union, will start his May Day in police court. He was arrested by Detectives Goodman and Thompson this afternoon, charged with intimidating an assault. The Hamilton Uniform Cap Company is the complainant.

### "HANDS OFF CRIPPLES"

Fred Marsh, provincial organizer of the G.A.U.V., stated in an interview last night that the association is taking an active part in the proposal of the government to move disabled soldiers from Euclid Hall, to Burlington. The G.A.U.V. intended, with the co-operation of returned organizations, including the G.W.V.A., to insist that the government keep its hands off disabled comrades in Euclid Hall. Convinced, Fred Marsh said: "We feel it is a case of history repeating itself. Now that the war is over the government is forgetting the services rendered by these unfortunate comrades. The government's action only strengthens our opinion that more unity is needed among veterans to enable us to attend to the welfare of disabled men, widows and orphans who have suffered during the war." Arrangements are being made for an indignation meeting to be held on Sunday.

### HAMILTON

Hamilton, April 30.—Reports from the various sections submitted to the Hamilton branch in regard to Canadian building industries indicate that the danger of a strike on May 1 is by no means removed. Nearly all the sections reported failure to come to terms.

A strike committee, on which all sections are represented, was appointed to handle the situation in case of trouble.

Isaac Bainbridge, secretary of the May Day committee, announced today that the organization had secured a permit to hold a public meeting at Dundurn Park tomorrow afternoon, and that a workers' rally will be held around the band stand.

Harry Thomas, Toronto, business agent of the Hat and Cap Workers' Union, will start his May Day in police court. He was arrested by Detectives Goodman and Thompson this afternoon, charged with intimidating and assault. The Hamilton Uniform Cap Company is the complainant.

### PAYS HIGH TRIBUTE TO CANADIAN CORPS

#### Hero of Kut, at New York Luncheon, Eulogizes It as Fighting Machine.

New York, April 30.—A high tribute to the gallantry of the Canadian corps was paid by Major-General Sir Charles Townshend at a luncheon given in his honor by the Canadian Club here today. He eulogized the Canadian corps as a fighting machine, and in the course of his address referred to the fact that one of his ancestors fought in Canada during the early troublous pioneer days there.

There was enthusiastic cheering as the "hero of Kut" arose to speak. He gave a graphic account of the advance on Erzurum, the retreat in the face of the overwhelming Turkish force, and the subsequent prolonged and heroic defence of Kut, followed by the Turkish massacre of the Canadian corps as a fighting machine, and in the course of his address referred to the fact that one of his ancestors fought in Canada during the early troublous pioneer days there.

General Townshend leaves for Toronto tomorrow morning. He will address the Canadian and Empire Clubs in Toronto on Monday, and will spend Tuesday and Wednesday in Hamilton and Montreal respectively.

### OBTAIN PERMIT FOR MAY DAY MEETINGS

#### Hamilton Laborites Complete Arrangements—Many Will Continue Sunday.

Hamilton, April 30.—Isaac Bainbridge, secretary of the May Day committee, announced today that the organization had secured a permit to hold a public meeting at Dundurn Park tomorrow afternoon, and that a workers' rally will be held around the band stand, commencing at about 2:30 o'clock. The committee in charge of the arrangements for the demonstration is composed of representatives of the Amalgamated Garment Workers' Association, the Stone Cutters' Union, the Painters and Decorators' International Union and the general unit of the O. B. U. H. G. Fester, secretary of the Trades and Labor Council, has consented to act as chairman, and among those who have promised to address the gathering are: John Dunn, labor councillor of Winnipeg, John McDonald and Thomas Maclellan of Toronto.

The May Day celebration will be continued on Sunday afternoon, when a platform meeting will be held in the Princess Theatre. The subject which will be discussed at this meeting will be the labor fight in Winnipeg, and the significance of May Day, and the speakers will be Mrs. Joseph Knight of Edmonton, Ald. A. A. Heaps of Winnipeg, Louis Braithwaite, Toronto, and Samuel Lawrence of this city.

At the Sunday meeting a collection will be taken up for the appeal fund for the Winnipeg strike leaders, who were recently freed for violating the criminal code of Canada.

### CONTROLLER HITS HOSPITAL BOARD

#### Says Work Should Change Hands if Governors Not Capable.

Hamilton, April 30.—A hot shot for members of the hospital board emanated from the board of control this afternoon, when Controller Aitchison declared that if the governors were not capable of looking after the maintenance of the institution, this work should pass into the hands of the board of control.

The view was endorsed by Controller O'Heir and Mayor Booker. Controller Jutten reminded his brother controllers that it was the board of control who engaged the architect in charge of alterations at the hospital and his suggestion that the control of the governors be sent to that official was endorsed.

The problem of reorganizing the works department was shelved until next week.

The parks board sent along a bill for removing a tree from in front of the home of a West avenue resident. The complaint was decided, property owners would have to pay for this work.

and the bill will be forwarded to the individual in question.

Application of the Grand Trunk Railway Company for permission to reconstruct bridges crossing MacNab, Catharines, Huxton and John streets was referred to the city engineer.

A grant of \$100 to defray the expenses of nursing help at the Infants' Home during the recent influenza epidemic was recommended.

### YORK COUNTY AND SUBURBS TOWNSHIP RATIFIES RED CROSS NURSE

The York Township Red Cross committee, eastern section, met in the provincial Red Cross and school trustee board of S. S. No. 26 in Second School, Barrington avenue, yesterday afternoon for the purpose of ratifying the appointment of Miss E. Smith as part time medical nurse at Second School.

The following speakers addressed the meeting, urging the need of Red Cross work in the district: Rev. A. I. Terryberry, pastor Hope Methodist Church; Rev. Dr. Abraham, Messrs. Bessey, Grant and Davis, school trustees; Mrs. Lake, Principal Anderson, Inspector Jordan and the chairman, W. C. Curtis.

Mrs. Plumtree spoke on the work of the provincial Red Cross and expressed her willingness to sanction the appointment of Miss Smith. Mrs. Gunn, superintendent of Toronto General Hospital, spoke briefly on the advisability of creating a minister of public health under a separate portfolio.

After a brief outline of her work by Miss Smith, a tour of inspection of the school buildings and the new annex at present under construction, was made. The visitors expressed surprise and appreciation of the excellent equipment all ready provided. Tea was then served in the corridors by the teaching staff.

On the motion of Rev. A. I. Terryberry, votes of thanks were tendered to the chairman, W. C. Curtis, visitors and teachers at the conclusion of the meeting.

### CHINESE TAUGHT HOOVER.

Herbert Clark Hoover, the Iowa boy who began his life mining and rose to be the greatest relief administrator since the days of Joseph—such is Georges Clemenceau's opinion of him—was once engaged by the Chinese government to organize their mining department at a salary that was so large from the Chinese point of view that they spent money caring for Hoover and guarding his life and health as if he were the son of heaven itself. Elaborate and quaint expeditions conducted him to the various mining districts of the Celestial Empire, and Hoover was as happy as a hungry boy with free run of a well stocked pantry until he discovered the frugality of the Chinese, the armistice was on the point of being signed.

General Townshend leaves for Toronto tomorrow morning. He will address the Canadian and Empire Clubs in Toronto on Monday, and will spend Tuesday and Wednesday in Hamilton and Montreal respectively.

### Want Minister of Health.

The following resolution was also adopted, moved by Inspector Jordan, and seconded by Rev. Dr. Abraham: "That the East York Red Cross committee, school trustees and teaching staff of S. S. No. 26 request the immediate attention of Premier Drury and the Ontario government to the advisability of creating a minister of public health under a separate portfolio."

After a brief outline of her work by Miss Smith, a tour of inspection of the school buildings and the new annex at present under construction, was made. The visitors expressed surprise and appreciation of the excellent equipment all ready provided. Tea was then served in the corridors by the teaching staff.

On the motion of Rev. A. I. Terryberry, votes of thanks were tendered to the chairman, W. C. Curtis, visitors and teachers at the conclusion of the meeting.

### BUILDER BLAMELESS

Regarding the housing problem, A. J. Smith of the North Riverdale Ratepayers' Association said at a recent

## NEW "HIS MASTER'S VOICE" RECORDS

### OUT TO-DAY

If you love music there are many selections in this month's list that will make a special appeal to you. Music of the kind you like best to have in your own home once you have heard them.

### ST. JOSEPH'S GIVE MINSTREL SHOW

#### Talent of Almost Professional Calibre Delights Critical Audience.

Before an audience which completely filled every part of the large auditorium, Joseph's Club, Leslie street, gave their most successful annual minstrel entertainment last night. Every available seat was occupied, and the play was loud and prolonged. The voices were of superior excellence, and the entire performance was a real professional calibre. George Troman sang "Macaulay," as only he can sing it, and Loyal Leigh's vocal abilities are equal to his pitching on the baseball diamond, and that is saying much. "My Baby's Arms," by Frank Cannon, tickled the fancy of the audience, and "Cotton Pickers' Picnic Day" went over with lots of pep, as given by Frank Clancy. William Daly's sonorous voice was heard to advantage in "The Big Bass Viol," and Jimmy Smith always causes much merriment in his droll songs. Charles Foote also made a good impression, and Ed Early was a capital intercomer, and pleased in his single solo. George Troman, the director, got splendid results from the chorus.

### HOPE METHODIST SOCIAL

Under the auspices of Hope Methodist Men's Circle, a concert and social gathering was held last night in the auditorium, Danforth avenue. Ross Smith, president, occupied the chair. A musical program was contributed by the Methodist Book Room choir, under the leadership of E. M. Shildrick. Selections were also given by the Beaches Hawallah Glee Club, by Miss Louise Webster, organist. There was a large attendance.

### EARLSCOURT REAL ESTATE.

Crang avenue, St. Clair, is nearly finished and the new stores will soon be open for business. The apartments above the stores are already rented. There is little probability of the Bank of Nova Scotia erecting new premises at the corner of Oakwood and St. Clair this year, owing to the high price of building materials and labor.

### NAVY LEAGUE TO CANVASS

The Earls court branch of the Navy League are about to make a canvass of the district, with a view to adding to the membership of this branch. The merchants and residents will be asked to line up and take an interest. In view of the fact that Admiral Sir David Beatty is to visit Earls court on May 30, when the anniversary services are held in connection with the Jutland battle, a large membership is asked for. The memorial meeting will be held in the Oakwood Theatre, corner Oakwood and St. Clair, for which the Crang management are making special arrangements to accommodate the crowds.

Besides the Earls court Navy League branch, the British Imperial Association, the committee of the Earls court Fair, temperance associations and local churches will be represented. The Army and Navy Band, with a detachment of sailors, will also attend. John R. MacNeil is president of the Earls court branch.

### BOYCOTTERS BUSY

A large meeting of West Toronto residents was held last evening in Annette Street School to join forces in the potato boycott. The gathering was convened by the Mothers' and Teachers' Association. Mrs. R. Howie, president, occupied the chair. Emphatic protests were made by the various speakers, and the meeting pledged abstinence from buying potatoes for the period of one month. Among the speakers were Rev. D. T. L. McKelroy, Mrs. A. C. Courtice, Judge Moit, W. Spears, Miss M. A. Cherry and Mrs. H. W. Parsons.

### Todmorden Branch, G.W.V.A., Buys Property on Gowan

Todmorden branch of the G.W.V.A. held a special meeting last night to consider the purchase of property now being used by the Baptist Church on Gowan avenue. It was decided to authorize the trustees to purchase the land and building. A deputa-tion called on Mrs. Gough, who owns the property, and made her an offer, which was accepted.

### PAPE SEEKS PAVING.

According to the statement of a well-known Todmorden resident, York Township Council should speed up the paving of Pape avenue, north of Fulton, in the interest of the large number of residents who use the thoroughfare several times daily going to and from the city.

### EAST YORK POULTRY CONCERT.

A number of new members were enrolled at a recent meeting of the East York Poultry Association in Snell's Hall, Main street, and the following artists contributed an excellent musical program: The Benlomon Glee Club, seven youthful instrumentalists; Mrs. C. Johnson, Miss Jessie Phillips, Frank Fellows, Percy Crowley, Ernie Brown, W. Goldsmith, W. Trollope, R. B. Fox, raconteur, and Josh Hodgson. During the evening a report was served under the supervision of George McKillop, president, and S. Foster, the energetic secretary.

### A MEAN TRICK.

During a performance at the Empire Theatre, Dublin, an auxiliary postman emptied the pockets of the coats of all the members of the orchestra. The judge behind the bars for four months, his record saving him from a longer term.

The Box Handle Bars allow plenty of knee room. The Eadie Coaster Brake is dependable, as all Eadie Coaster Brakes are.

The Frame is of military drab color, with 1/4-inch maroon panels, bordered with hairline stripe along each side, of the frame and through centre of mud guard. The whole of the front fork is nickel-plated. Chain is of the roller type. Tires are "Dunk v" Traction Cord. Pedals are full rubber tread. Saddle is of the "Troxel" padded motorcycle type, with beehive cushion springs. Handle Bars are of the box bar extension type, with bull-dog leather grips. Equipment consists of tool bag, wrench, and telescope frame pump.

At \$52.50 is the "New Emblem"  
A Man's Bicycle in 3 Sizes, 20", 22" and 24"

With the Eadie Coaster Brake, fine piano finished frame, and fine quality crank fitted with reversible cones. Frame is of heavy

tubing, enamelled in a rich maroon. Chain is of the roller type. Mud Guards are of steel with raised centres and flat braces and are enamelled to match frame. Rims are Colored, having maroon centres and black edging, with hairline striping. Handle Bars are of the forward extension type, nickel-plated, and have leather grips. Tires are Studded and of the "Goodyear Brand." Saddle is a 3-coil "Gough." Equipment consists of a tool bag, wrench and frame pump. Price, \$52.50. —Fifth Floor, Main Store.

### 'PEG STRONG FOR MAY DAY PARADE

No Trouble Expected — All Unions Will Be Represented.

Winnipeg, Man., April 30.—Winnipeg labor will be solidly represented in the May Day parade, it was claimed at the office of the defence committee today. All the One Big Union units and practically every local of the various international unions will take part, although some of the latter will be represented by individuals only. Tomorrow's parade will start at 10 a.m. and after passing thru the principal business districts, will dissolve at the board of trade building, where a mass meeting will be held at 2.30 p.m. Full street car facilities are assured, as only employees off duty will participate in the celebration. As far as Winnipeg is concerned, the May Day labor situation indicates no serious trouble of any kind, no strikes being in sight.

#### ORDER NOT GUARANTEED.

Montreal, April 30.—In connection with the Socialist parade here on May Day, it was learned that the Trades and Labor Council do not intend to assume the responsibility for the orderly conduct of this demonstration as they were requested to do by the city administrative commission, when permission was given to hold the parade.

#### TIME EXTENDED

Montreal, April 30.—Owing to the shortage of English income tax forms, the time allotted to citizens for sending in their payments has been extended one month from April 30.

### VICTORIA LABOR COUNCIL PROTESTS LEADERS' TERMS

Victoria, B.C., April 30.—Under the auspices of the Trades and Labor Council, a mass protest meeting will be held tomorrow evening against conviction of the Winnipeg strike leaders, Robert Cassidy, K.C., or J. B. Bird, who appeared for R. E. Russell, convicted of seditious conspiracy, will speak on the conduct of the trial. T. S. Woodward will preside.

### COST OF CLASSIFYING IN THE CIVIL SERVICE

Ottawa, April 30.—Some interesting answers are being given in the house these days on reclassification, under the civil service, led by C. A. Gaudreau (Tarnisconata) and J. H. Sinclair (Antigonish), members of the opposition benches, have placed questions on the order paper designed to show the cost of what they term "so-called experts," or "classification" engineers. Hon. A. L. Sifton gives the following statement of expenses: Fees \$88,228.26; traveling and telegraph expenses \$4,320.31; subsistence, \$17,625.00, or a total of \$108,173.57. Replying to Mr. Sinclair's query as to what estimate is fixed for completion of the work, the minister places the figure at about \$7000.

### SUGAR SHIPMENTS HELD UP.

San Juan, P.R., April 30.—Shipping in all Porto Rican ports is paralyzed as a result of the strike of longshoremen and dock clerks, which commenced last Monday. Sugar shipments are being held up and all communication with the United States has been interrupted.

### BATTLEFIELDS MEMORIALS.

Ottawa, April 30.—(By Canadian Press).—The first session of the special joint committee of senators and commoners on the question of battlefield memorials will be held next Tuesday afternoon, it was announced today.

### TO HOLD SITTINGS ON PUBLIC ACCOUNTS

Pilot Rates For and Below Quebec Are to Be Altered.

Ottawa, April 30.—(By Canadian Press).—Indications that the public accounts committee will sit this session was given in a motion by Sir George Foster and adopted by the house this afternoon. The motion was for extension of the auditor-general's report to the committee. Hon. C. C. Ballantyne, minister of marine, introduced a bill to authorize alteration of the pilot rates for and below Quebec. An arrangement he said, had been reached between the pilots, the shipping interests and the department of marine for new rates in the coming season. The bill would make provision for the change. It was read a first time. Third reading was given to the bill to amend the soldiers' settlement act, 1919.

### Montreal Will Care for Two Hundred Homeless Families

Montreal, April 30.—The city of Montreal will care for 200 families who, tomorrow, "general moving day" here, will find themselves without homes. This announcement was made this morning by E. R. Dreary, chief commissioner of the city to the Tenants' Protective Association, which wanted on him at the city hall and pointed out that these families had been compelled to leave their residences and could not find any others in the city to live in, owing to the house shortage. Mr. Dreary said the city would house the homeless ones in the Meuring Refuge, feed them at cost prices and pay the charges on storing their furniture until such time as they secured homes.

### RED FORCE BROKEN IN SOUTH UKRAINE

Poles Now Moving South Along Dniester River.

Warsaw, April 30.—The resistance of the Bolsheviks has been broken in South Ukraine, according to today's official communique, which announces that the Poles have captured Mohilev and are now moving southeast along the Dniester. The Poles have captured 15,000 prisoners, 60 cannon, hundreds of machine guns and 76 locomotives since their offensive began, the communique adds. Polish and Ukrainian troops, driving toward Kiev, have occupied the town of Malin, on the railroad about 60 miles northwest of Kiev. The advance is continuing toward the Dniester river, except on the southern sector of the front, where the Russian Bolshevik forces are making a stand along the right bank of the Bug river and are fighting stubbornly. The Bolsheviks are rushing the fifth and eighth divisions from the Caucasus region to reinforce the 12th soviet army, which has its headquarters at Kiev. In an action which resulted in the occupation of the village of Kozatin, southwest of Zhitomir, Polish cavalry captured 2000 prisoners, 10 cannon, one tank and the colors of the 8th Bolshevik division. Airplanes, armored trains and automobiles are being used by the Poles, and crack cavalry divisions have been brought into action. Posen troops, which fought during the great war in the German army, are engaged in the advance. A wireless communication regarding the Polish offensive has been sent to Polish newspapers by the press bureau of the soviet foreign office. It as-

### MEMBERS OF COMMISSION ON INTERSTATE COMMERCE

Washington, April 30.—Henry Jones Ford, professor of politics at Princeton University, and James Duncanson of Quincy, Mass., a former vice-president of the American Federation of Labor, were nominated today by President Wilson to be members of the interstate commerce commission. Mr. Ford will succeed Commissioner James S. Harlan, whose term expired more than a year ago, and Mr. Duncanson is to take one of the two new positions on the commission created by its enlargement under the transportation act. Professor Ford is a native of Baltimore. He has been professor of politics at Princeton since 1908, and has written a number of books on political science and related subjects. Mr. Duncanson was born in Scotland, was educated at Aberdeen and for many years worked as a statue granite cutter. He was editor of "The Granite Cutters' Journal," served successively as secretary and president of the Granite Cutters' International Association, and was a member of the commission sent to Russia in 1917 by President Wilson.

### KILLED IN SMASH.

Sydney, N.S., April 30.—Engineer Murray Dick was instantly killed and property damage, estimated at \$25,000, was done when two switch engines collided head-on in a dense fog in the railway yards of the Dominion Steel Corporation here early this morning. Both locomotives were running at a fair rate of speed, and each was followed by a long string of cars. Both were practically demolished.

### BLAMES BRITISH NEWSPAPERS.

London, April 30.—(By Canadian Associated Press).—The speaker of the house of commons has published a lobby notice, directing the attention of journalists to the fact that papers delivered to members and marked confidential should not be used by correspondents. The Daily Express suggests that the speaker should address himself to members instead of blaming newspapers.

### BRITISH TO AID TURKS IN ASIA

Offensive Against Nationalists is Thought to Be in Course of Preparation.

Constantinople, April 30.—British troops, it is believed, plan to support the sultan's forces in the movement against Turkish nationalists in Asia Minor, and even join in an aggressive offensive against Mustafa Kemal. Lieut-General Sir G. F. Milne, commander of British forces here, has gone to Ismid on an inspection tour, and elaborate preparations are being made by the British along the Anatolian coast of the Sea of Marmora, where they have occupied Mudania, the port of Brusa. The occupation of Mudania was effected with East Indian troops, and it is expected the British will soon take over Brusa, which is a prominent nationalist centre. The "underground route" from Constantinople to Anatolia has been thru the Marmora ports, which the British now apparently intend to control. Fragmentary reports of the San Remo council session have been printed in the Constantinople papers. The messages were heavily censored. The nationalists expect that the actual delivery of the completed peace terms with Turkey will help their cause.

### Rome Bitterly Criticizes Attack on Royal Guards

Rome, April 30.—An attack was made last night on the military police, called here the Royal Guards, which resulted in the killing of one guard and the wounding of others, including some officers and police officials. The attack has caused much indignation and has evoked protests from the people and the newspapers.

### CONSIDERS COPPEN CASE.

Ottawa, April 30.—Although still unwell, Hon. C. J. Doherty, minister of justice, returned to his office today to consider the case of George James Coppen, condemned to die in Toronto on May 5. This morning counsel for the condemned man were in conference with Mr. Doherty. Coppen was convicted of the murder of his wife.

### CHALLENGES ACTION OF BOARD OF CONTROL

Dr. Hastings Will Employ Students, Whether Board Agrees or Not.

#### COMMITTEE BACKS HIM UP

Resenting the action of the board of control in referring back his recommendations for appointments on the isolation hospital staff, Dr. Hastings, M.H.O., yesterday called a special meeting of the board of health and had a resolution put thru, calling upon the city auditor to O.K. any salary vouchers from the medical health department without waiting for approval by the board of control. This arrangement would be in entire accordance with the medical health act, the doctor declares.

Commenting on a board of control motion the other day that the positions of house surgeons at the isolation hospital be given to returned soldiers, Dr. Hastings spoke as follows: "We cannot have the work of the department jeopardized by any such action on the part of the board of control. The public health department is just as anxious as any other department to provide positions for returned soldiers, but it would be an insult to offer a medical man, who had been overseas, a position at \$100 a year, which is more of an honorarium than a salary, which is paid to these young men who have just graduated in medicine. They accept the position simply to get the experience. As a matter of fact, the medical men in the militia are getting about \$2,000 a year and are allowed to practice as well."

#### Conditions Serious.

Dr. Hastings read the following statement to the board meeting: "Inasmuch as a most serious condition has arisen in connection with the administration of the Isolation Hospital at a time when that institution is filled to the doors with severe infectious cases, this board has been called together for the purpose of deciding on some definite policy, whereby medical officers of health will be empowered to make such appointments of interns, students or other help as may be deemed necessary by him from time to time."

"At the present time both the assistant medical superintendent and one of his house physicians are in their beds, and I therefore ask your board to authorize the city auditor to pass for payment such salary vouchers as may be submitted by the department of health in covering appointments necessary at the hospital, not only in the present emergency, but also in the future."

Ald. Maxwell thought it would be better to take up the matter in dispute with the board of control first, but Dr. Hastings said that was not necessary and the resolution was adopted.

### CITY TURNED DOWN BY LEGISLATORS

Municipal Committee Declines to Reopen Education Boards Estimates.

Once again the city's representatives, headed by Mayor Church and C. H. Geary, appeared before the municipal committee of the legislature yesterday, asking to reopen the discussion on the city's bill to force the board of education to submit its estimates on Nov. 15 of each year.

Hon. Thomas Crawford thought that the whole thing merely amounted to whether the board should control its own expenditures, or whether the city council should.

The mayor assured the member for Northwest Toronto that the council had no desire to control them. Mr. Geary said that the city council merely wanted to know on the aforementioned date what the expenditures for the year were going to be, so that they could govern themselves accordingly. The committee decided against reopening the subject.

**Exempt From Taxes.** When the amended assessment bill was introduced to the committee by A. W. Curry, K.C., it was passed. The new bill means the exemption from municipal income tax for householders from \$1700 to \$2000, and of non-householders from \$1400 to \$1700, and from \$500 to \$800. Heenan's amendment carried an amendment giving an additional \$200 exemption for each child under 18 years.

Mayor Church's appeal to tax rolling stock of any electric railway, tramway, or street railway was thrown out.

However, a clause which will provide for the assessment of persons in respect of dividends derived from shares in the stock of corporations carrying on mercantile or manufacturing businesses was adopted. Another clause passed provides for the making of a return of income in cities of 200,000 by every person liable to assessment.

A further clause was adopted, which makes contractors, advertising agents, private detectives, employment agencies, accountants, assessors, auditors, osteopaths, and chiropractors liable to income tax as well as business tax.

### Actress Tells Secret

Tells How to Darken Gray Hair With a Home-made Mixture.

Joice Williams, the well-known actress, who was recently playing at the Imperial Theatre in St. Louis, made the following statement about gray hair and how to darken it:

"Anyone can prepare a simple mixture at home that will darken gray, the desired shade hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Olex Compound, and 1/2 ounce of glycerine.

These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off.

### CITY HALL NOTES

The city's bill to authorize the construction of the Mount Pleasant car line without a vote of the ratepayers will be before the private bills committee next Thursday at 10 o'clock.

The appeal of the city made to the governor-general-in-council against the order of the railway board permitting an increase of telephone rates has been set down for hearing at Ottawa on Monday next, Mayor Church has been informed.

Acting Premier Sir George Foster has written to Mayor Church to the effect that the protest against the closing of Euclid Hall, on Jarvis street, and the removal of the soldier inmates to other points will receive careful consideration.

Five losses in April totaled \$108,555, and there were 219 alarms, of which 19 were false calls.

The question of the division of taxes paid by the Toronto Hydro-Electric System, between public and separate systems will be left to the city council to decide.

Assessment Commissioner Forman estimates that the city will derive between \$200,000 and \$1,000,000 additional revenue from the taxation of dividends of mercantile and manufacturing concerns. It is believed assent will be given the city's bill in June authorizing such taxation.

### REFUSE TO REINSTATE NOTED STRIKE LEADER

Rev. Wm. Ivens Will Remain Out of Ministry, Decides Church Court.

Reinstatement of Rev. William Ivens, Winnipeg strike leader, was yesterday refused in the court of appeal, held in the board room of the Wesleyan building. The appeal was brought in by Rev. John A. Haw, secretary of the Manitoba Methodist Conference.

The judgment reads: "The court decided that the appeal be dismissed, because in the opinion of the court, section 127 of the Discipline permits the 'location' forthwith if the ministerial session of the annual conference has satisfied itself that a minister has ceased to be willing to devote himself to the work of our ministry."

When a minister is "located" it means that he is deprived of his functions as a minister. Rev. Dr. S. D. Chown, superintendent of the church, was in the chair, and present were T. A. Moore, D.D., J. S. Ross, D.D.; Andrew Stewart, D.D.; John W. Graham, D.D., LL.D.; Victoria College; J. S. Shorey, D.D.; Judge S. A. Chesley of Nova Scotia; A. W. Briggs, K.C.; Hon. Justice McLaren, Alex. Mills.

Rev. John J. Ferguson, pastor of Bathurst Street Methodist Church, appeared for Rev. John A. Haw. He pointed out the serious nature of "location" and said that Mr. Ivens had been left without a station by the ministerial conference of 1918. He appealed for action in 1919, but instead the conference had "located" him forthwith. Mr. Ferguson contended that "location" required two notices with a year between them.

Rev. M. C. Platt, president of the Manitoba Methodist Conference, supported the action taken. He stated that Mr. Ivens was not willing to return to the ministry and insisted on being left without a church the second year. There was no provision for a second year's notice of grace, he maintained, and, therefore, no notice had been given.

### CALLING FOR BIDS ON BLOCKS OF LAND

Builders Will Be Asked to Estimate on City Architect's Plans for Houses.

At a special meeting of the board of control yesterday afternoon the board decided to call for tenders for blocks of land of 500 feet frontage more to be sold to the city at a foot or less as sites for houses to be erected by the civic guild or under some other plan.

The board was inclined to instruct the city architect and the fire chief to map out areas in which cheap frame houses might be erected under authority of an amendment to the building by-law, but the architect, Mr. Price, was not anxious to assume such responsibility. The board suggested that the city architect should have everything ready for a start with construction if council approves the action of the board.

**Three Types of Houses.** City Architect Price has prepared plans for three types of houses of four, five and six rooms. Building in groups of 8 or 10 it is estimated that the four-roomed house can be built for \$2,500, not including grading, and the others proportionately higher. The board decided to ask builders to tender on construction of these houses, and in the meantime the architect will complete his drawings and have everything ready for a start with construction if council approves the action of the board.

**TORONTO RAILWAY APPEAL FAILS.** The first divisional court has affirmed the judgment of Judge Denton awarding \$400 damages to C. R. Peckover for injuries to his automobile when it was struck by a Canadian Transfer Co.'s wagon which was hurled by a Toronto Street Railway car against it, necessitating repairs which cost \$24. Plaintiff had alleged that the street railway car was speeding and that the accident was due to the negligence of their employees.

**WIFE GRANTED ALIMONY.** In granting alimony at the rate of \$10 per week to Mrs. R. W. Hunt for herself and two children against her husband, a returned soldier and working as a chauffeur, Mr. Justice Middleton said that he did not think anything could be accomplished unless the parties had a home of their own. The parties had some disagreements, and, prior to the final ruling, had been residing with defendant's parents on a farm near Brantford.

### "REMINDO" OUR SERVICE

To get the most from any Service is to use it when and where needed. That's the point. When you require plumbing repairs in your home, call SEANON, Park 738—and one of our cars will be at your door at once. Just a "Remind" of OUR SERVICE.

### APPROVE EXTENSION OF FIELDING AVE.

Works Committee Moves to Expropriate Land for Bloor West Widening.

A proposal to extend Fielding Avenue westward, cutting thru Jones Avenue to Longford Avenue, was approved by the committee on works yesterday. Ald. Hillz, who owns the land which would form the street allowed, said that anticipating such a step, he had carried out a preliminary survey. If the city did not want the street he proposed to build on this land at once.

Assessment Commissioner Forman expressed the opinion that Fielding Avenue should be opened westward as far as Moscow Avenue, which would cost about \$80,000. The committee decided to endorse only the opening of the Jones-Longford block at present.

**Dundas Bridge.** A resident of Dundas Avenue appeared before the committee and suggested that a rearrangement be made of the roadway and tracks on the Dundas street bridge to do away with the crossings. Chairman Birdsal said the works commissioner had a plan for cleaning up the situation at this bridge, but owing to the financial situation it could not be gone on with at present.

**Strip on Leader Lane.** J. H. Spence, representing the King Edward Hotel Company, appeared before the committee that a 9-foot strip of land on Leader Lane had been decided to the city to widen the street, and he asked for the privilege of erecting a hanging porch projecting 5 feet over the door of the Leader Lane entrance to the hotel addition now under construction. The application was approved.

At the suggestion of Ald. Maher, it was decided to advise the addition to this year's works program of a pavement on Keele street, from Annette street to St. Clair Avenue.

On the recommendation of the commissioner of works, the committee approved the expropriation of land for the widening of Bloor street from High Park Avenue to Jane street.

A deputation asked that the sidewalk in Pacific Avenue, east side, from Humberdale Avenue to Annette street, be moved out to the curb.

The closing of O'Hara Avenue by the Gutta Percha Rubber Company was approved by the committee.

The National Trust Company is asking the city for approval of a plan to subdivide the old General Hospital grounds on East Gerrard street into building lots. In a report to the works committee, Commissioner Forman and Commissioner Harris and the city solicitor state that they see no objection to the subdivision providing the usual conditions as to grades, improvement rates, etc., be complied with.

### ALTERATIONS IN TRAIN SERVICE ON CANADIAN PACIFIC RAILWAY, EFFECTIVE MAY 2.

**Departures From Toronto.** 1.00 p.m., train No. 38, for Ottawa, via Lake Ontario Shore Line. 3.20 p.m., train No. 63, for London, Windsor and Detroit. 4.40 p.m., train No. 64, for Guelph Junction and intermediate stations. 5.20 p.m., train No. 70, for Owen Sound and intermediate stations. 7.0 p.m., train No. 27, for Sudbury, Sault Ste. Marie and intermediate stations. 8.00 p.m., train No. 9, the Trans-Canada Limited, all sleeping car train, for Winnipeg and Vancouver.

**Arrivals at Toronto.** 6.30 a.m., train No. 33, from Ottawa. 7.00 a.m., (at Yonge street), train No. 32, from Montreal and Vancouver. 7.23 a.m., train No. 62, from Guelph Junction and intermediate stations. 9.0 a.m., train No. 10, "Trans-Canada," from Vancouver and Winnipeg. 11.47 a.m., train No. 630, from London. 4.00 p.m., train No. 4, from Vancouver and Winnipeg.

### RESIDENCE SOLD

The property at 5 Whitney Avenue has been purchased by A. R. Butchart for \$30,000. The property fronts 50 feet on Whitney and has a depth of 150 feet.

### MURINE Night and Morning

Has Clean, Healthy Eyes. Itchy, Tired, Smart or Burnt, if Sore, Irritated, Inflamed, or Your Eyes Granulated, use Murine often. Soothes, Refreshes, Safe for Infant or Adult. At All Drug Stores and Opticians. Write for Free Eye Book. Name for Brand G, Canada.

### CONSUMERS CALL FOR EMBARGO

Ask Government to Prohibit the Exportation of Potatoes Till Price Lowers.

The Toronto Consumers' League meeting in the city council chamber yesterday, passed a resolution calling on the Dominion government to place an embargo on the exportation of potatoes until the exorbitant "spud" can be purchased at a price within the reach of even the poorest citizen. The resolution was passed after a great deal of discussion; but when Mrs. A. M. Huestis, the chairman, put the motion, it passed with some money in distributing potatoes to the poor.

One of the members of the league pointed out that Canada is dependent on the U. S. A. to a much greater extent than the Americans are dependent on Canadian trade, and that they, accordingly, might reciprocate Canada's action. Mrs. Huestis was insistent on the embargo, and declared that the league is playing into the hands of the Americans by allowing it to be exported. The resolution was placed in the hands of the executive committee to forward to the government and to various officials.

**Buy "Made in Canada" Goods.** Mrs. Campbell Melver introduced a resolution urging Canadians to buy made in Canada goods whenever possible, as a means of reducing the H. C. of L. Mrs. Melver showed the importance of keeping Canadian money in circulation in Canada, at least until the exchange situation returns to normal. A touch of humor slipped into the meeting when Mrs. Melver recommended that Canadians should one and all refuse to buy clothes for twelve months, when she said, the prices "will be down where the money is distributed in Canada, at least until the exchange situation returns to normal. A touch of humor slipped into the meeting when Mrs. Melver recommended that Canadians should one and all refuse to buy clothes for twelve months, when she said, the prices "will be down where the money is distributed in Canada, at least until the exchange situation returns to normal. ### Charming Voiles

All bloom with summer time appears the Section where the lovely new voiles are displayed. Never were there so exquisite as to color harmonies and originality of designs as they are this season. The great variety of patterns offers a wide selection for those who desire individuality in dress.

One particularly lovely one that took my fancy was of navy blue with a most natural looking rose spray scattered over the surface. Foliage, in sand color, formed a connecting pattern between the rose—the whole thing forming a beautiful color scheme. One in a pale blue, with delicate flowers of orchid color, just touched with black, was equally beautiful. There are lovely sand-colored ones, with floral and formal designs in the new reds, all shades of blue, the vivid greens, delicate orchid and yellows, all delightfully intermingled in most harmonious patterns.

Then there are such dainty ones in solid colors, with garlands, clusters and geometrical designs embroidered in floss. A grey, with sprays done in black, is quite smart; matie with white is dainty. These also come in white and black, light blue and other combinations. Something quite new is a novelty voile for sports skirts in two colored stripes; one has a green and blue stripe, broken with diagonal stripes in red, green and white colors. There are many other colors, and all so smart.

I must not forget to tell you of a handsome white voile of finest even weave. This is an imported English voile of unusual beauty and fineness. It is thirty-eight inches wide and only sixty-nine cents a yard. I could not refrain from mentioning this, for it is just the thing for graduation dresses or smart sheer waists. The Shopping Hydro-Bureau will make a selection for an out-of-town reader. Write today.

## WANT BETTER DISTRIBUTION OF HYDRO-ELECTRIC POWER

Committee of Legislature to Be Appointed to Inquire Into Charge That Distant Points of Province Are Discriminated Against in Matter of Price.

Hydro matters were again uppermost in the legislature yesterday afternoon. The discussion arose over a resolution by J. G. Lethbridge (U.F.O., West Middlesex), calling for an inquiry with a view to securing a more equitable distribution of Hydro-electric power. The premier also took the occasion to repeat that he was disappointed that Hydro matters were not understood by the Hydro Commissioners, but in some parts of Ontario \$75 a horse power was being charged, while in other places the price was \$14.

Mr. Lethbridge wished it to be understood he was not finding fault with the Hydro Commissioners, but in some parts of Ontario \$75 a horse power was being charged, while in other places the price was \$14. "My idea is to go into the whole matter and consider the question of price," he added. "With \$75 per horse power being charged the farmers of my part of the province can not take full advantage of this great public utility. There should be a better distribution of the power resources of the province."

San Clarke (Northumberland) thought the government in Hydro matters was pursuing a wise policy in not allowing themselves to be stampeded. He thought, however, there should be a better distribution of power—it was a public utility that belonged to the whole province. K. Homuth (Waterloo) thought there should be a fairer distribution and equalization of rates.

Dr. Stevenson looked forward to the day when scientists would be able to distribute power from Labrador to England. The premier repeated that the government was favorable to Hydro. However, it might be necessary for the province to put on the Hamilton. G. G. Halcrow (Labor, Hamilton) approved the resolution, but not the idea of a flat rate for the whole of the province. It was impossible to supply distant points at the same price as prevailed at the source. He believed Hydro as an investment would pay a hundred-fold. Hydro was such a big thing that frightened the people, because of its magnitude. It should be considered to the full for the whole of the province. In accepting the appointment of this committee, it must be understood the government is not prepared to the rate for the whole of the province. The government proposed to study the whole question from all

angles. It was not the municipality but the province which was assuming all responsibility in the matter.

M. M. McBride (Brant) reminded the house that the province had entered into contracts with municipalities and the people and carried by them, must in duty bound be lived up to. Municipalities could carry their own responsibilities, and he thought they could very well sell their own bonds with a provincial guarantee.

Hartley Dewar inquired if the Central Electric System would be taken over by the Hydro Commission. He called for thorough inquiry into the system, so that if the Hydro took it over the province was not buying a dead horse.

What Is Called For. Mr. Lethbridge's resolution was as follows: That in view of the evident necessity for more equitable distribution of Hydro-electric power throughout the province, and, further, in view of the fact that the prices at present paid for power discriminate against those living at a distance from the source of power, and tend to centralization in large centres, especially those near the source of supply, this house is of opinion that the government should at this session appoint a committee of five members of this house to go into the whole question with the Hydro-Electric Power Commission during the recess and endeavor to devise some more equitable system of distribution for the province and a more uniform price throughout the different portions thereof, and to report to the government as soon as convenient. The resolution was passed.

ON A PEDESTAL.

Miss Elsie Hill of Newark, Connecticut, one of the illustrious arrested while climbing upon the Lafayette statue recently to hold a "protest demonstration," brought forth a case of laughter in court and caused Judge McMahon to rap vigorously for order when she announced, "During my years of suffrage work I've been told and read that women's place is on a pedestal and the first time I get on one I'm arrested"—Springfield Republican.

## BREAD DRIVERS DECIDE ON STRIKE

(Continued from Page 1)

which will be partially crippled will be the Canada Bread Company, the Ideal Bread Company, Zepf Brothers' Bakery, the Naamith Bakesies, Snell's Limited, the Webb Bakeries, and many lesser firms.

Issue Weeks Old. The issue between the union and the master bakers goes back several weeks. Some weeks ago the agent for the union advised the management of the bakeries of demands for the ensuing year, at the same time requesting conferences to adjust the matter of wages and conditions. No reply has been made by the master bakers, with two exceptions. Hence the action taken last night, and which will be ratified by the Journeymen's Union at Occident Hall tonight. The journeymen bakers demanded \$40 and \$38 a week and the bread drivers demanded \$30 a week with a 12 per cent. commission on all retail sales above \$270 a week and seven per cent. commission on all wholesale sales.

Charles Clay, general secretary of the Canadian Federation of Labor, stated to The World last night that a month ago Hon. Gideon Robertson, minister of labor, in a letter to him pointed out that it would be advisable always to consider the baking industry as a public affect the public. Not a week ago F. C. Acland, deputy minister, in a letter to E. N. Compton, fair wage officer, Toronto, stated that the industry did not come under the term public utilities. For this reason no board of conciliation could be appointed except by mutual consent of both the union and the master bakers.

Tom Watt stated that had the board been appointed and taken action it might have been possible to discover exactly what profits, if any, were being made by the master bakers. "Do you think the bakers have been making any profits?" asked The World. "No, I do not," was Mr. Watt's terse reply. "But I do know that the board could have devised ways and means to both give us a living wage and at the same time give the master bakers profits to make the industry worth while."

## WAS EVE 600 FEET HIGH?

Jedidah, which was selected for the meeting between Lord Allenby and the King of the Hedjaz in 1918, is the chief landing place for pilgrims proceeding to the holy cities of Mecca and Medina. It is also a spot that should appeal to every member of the human race, for just outside the city walls of Jedidah, is the traditional tomb of Eve. Our reputed first parent lies with her feet towards Mecca; and her grave has gradually grown until it is now of colossal dimensions. As roughly calculated by Sir Richard Burton, the mother of mankind must have measured 120 yards from head to waist, and 80 yards from waist to feet, and "presented the appearance of a duck," but then the "dead" in many of the Palestine tombs have grown with the imagination of the times.

## ONE EVERY MINUTE.

By BILLY SCOTT

## AIN'T YOU OFTEN WONDERED

Why them as has gits? Why the grocer guys don't pull some sad stuff about the early closin', so as a dame could buy her mornin' Shredded Wheat at night? How certain birds hold down big jobs when they ain't got enough grey matter to tell them to come in when it rains? Why you never want the doctor till he's out on his back? What scenic artist painted some of the mugs seen on Yonge street on a balmy afternoon? Who was the Tommy, who, when asked if he were really mayor of Toronto, said, "I are?" How some dimes breathe in them new adhesive sleeves? Why somebody don't start somethin' startin' and fetch down the price of eats? Why some people kid themselves that they mean no harm when they throw a match into a can of gasoline? Who is Buddha, and is she any relation to Weesee? How it's better to follow the crowd and keep movin'? Who'll be a hero and wear the first straw hat?

## DRURY WILL EXPEDITE BUSINESS OF HOUSE

Serves Notice on Legislature That Session Must Terminate Soon.

The Drury government served notice on the legislature yesterday that the business of the house must be expedited, and to this end the premier secured the passage of a resolution that select and special committees be allowed to sit concurrently with the house. "Beginning next Monday," explained Mr. Drury, government orders will take precedence. We will also get at the budget which we propose

Table with 4 columns: Mileage of Provincial Highway, Population, Assessment, No. of Towns. Rows for Western, Central, Eastern, and Totals.

## Parades in Vienna to Protest Against Taxes and Price-Fixing

Vienna, April 30.—Two enormous marching demonstrations took place yesterday in protest against the government's taxation demands, and in favor of the abolition of government control of price fixing for various commodities. Business men and merchants formed one class, which demanded that leather, silks and free goods should be released for free trading and the stamp taxes on them abolished.

## MEMBERS OF LEGISLATURE ASK FOR MORE INDEMNITY

Increased indemnity is asked by members of the legislature, and yesterday the whips of the three parties waited on Premier Drury and presented a round robin signed by 77 members of the house, urging that the seasonal allowance be raised from \$1400 to \$2500. The names of all the Liberal, Conservative and Labor members appeared upon the document, and

## CHILDREN'S PROTECTION ACT

R. Cooper, Welland, introduced a bill to amend the children's protection act by enabling counties to establish homes for educating and caring for neglected children.

Replying to Provincial Secretary Nixon, Mr. Cooper said this would be independent of the provincial scheme and would entail no cost to the province.

J. W. Curry introduced a bill to amend the religious institutions act, and also one to establish a fair rentals court.

Replying to F. W. Hay, Premier Drury said the government would conform to the city's action on day-light-saving.

## GOOD ROADS WORK

The minister of public works said complaints had been received that certain sections of the province were not getting what they thought they were entitled to in the matter of good roads. He submitted the following to put an end to any more complaints:

Table with 4 columns: Assessed Population, Total Assessment, No. of Towns, No. of Miles. Rows for Western, Central, Eastern, and Totals.

## CANADIAN BANKERS WILL LEND TWENTY MILLIONS TO FRANCE

Paris, April 30.—Representatives of the city of Paris and of a Canadian banking syndicate have signed a contract for a loan to France of \$20,000,000 payable in ten years. The loan is to enable Paris to purchase foodstuffs in Canada. Proposals for the loan were made by the Canadian bankers were accepted by the municipal council on March 31.

## TURKEY NEGOTIATING LOAN

Constantinople, April 30.—Damad Ferid Pasha, the grand vizier, announced that he is negotiating with the British for a loan on railway construction thru the Hedjaz territory towards Mecca. The loan, if obtained, will be used to pay the interest on the Turkish debt and defray expenses of the campaign against Mustafa Kemal Pasha, the Nationalist leader.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

SATURDAY MORNING, MAY 1

Radials Versus Steam Roads.

Is there a difference between transportation services supplied by steam railways and by radial railways to their cities and towns? A substantial difference.

Steam railways, because they are single track propositions and because their main revenue comes from freight and not from passengers, limit the passenger service.

They confine themselves mainly to supplying transportation between big cities; they object to stopping at smaller places. As everyone knows, even accommodation trains refuse stops.

At this very moment the Canadian Pacific is recasting its timetable in trying to cut out some of the stops hitherto given to local stations.

Steam railway trains, especially express trains, are long and it sometimes costs more to stop and start these long trains than is earned from the people of these stations, and this is especially true where the station is on a grade.

When a train has to run up grade the loss in time thereon and in starting up again means several minutes, and is expensive for the steam and air required. It is no trouble to stop an electric train of a couple of cars, or three or four cars for that matter, whether going up a grade or not.

But you ask the Grand Trunk or the Canadian Pacific to stop their great big thru trains at local stations and they will deny you.

Radial electric railways seek to give service at every point. Steam railways have one object apparently, and that is to make connections and the big centres.

And then there is another difference. Radial trains are short and run at higher speeds, not hindering many stops than do the steam railways.

Radials give service; they give frequent service, and stop any place on every place, and run faster than the steam railways.

Steam railways serve big cities and centres and object to stopping at small places, even for passengers.

The radials give service at the door of every town and village, are intensely local and frequent and build up smaller places. The radial railway is for the small place, as well as for the big place.

Anyone who has seen the result of the radial services out of Hamilton and out of Galt does not need to be told of the difference there is in building up the business at their stations, compared with any service the steam roads may give the same places.

In fact, the answer invariably has been when a steam railway has been asked to improve the transportation for any small place on its line: "Sorry, but we can't afford to make the stop. Get a radial."

Those people who say that radial railways are to be run in competition with, and to destroy, either the National Railways or the Canadian Pacific, ought first to interview the railways themselves. It is not the steam railways who oppose the Hydro radials, but it is the people who are most interested in the distribution of Hydro-Electric power in competition with public-owned power who are making the most row about the so-called competition between the two systems of transportation.

The same people who fought against the rights of the municipalities before the railway committee at Ottawa and in the senate at Ottawa and tried to promote the interests of privately-owned companies are the same people who are fighting the public-owned radials in the province of Ontario.

The same people who fought public rights in the past are mainly the people who are fighting Hydro radials. They talk about unfair competition as against the steam railways in is most every case pure bunk. The managers of the steam railway are not afraid of radials. They'd like to see them handling the local business and thereby building the small places up as producers of freight traffic.

Propos Fergusson.

Just before he left the city for a sojourn in South America the Hon. Howard Fergusson explained that his trip was arranged some months ago, and had nothing to do with political events in Ontario.

As the French say, who excuses himself excuses himself. Mr. Fergusson would rightly be indignant if an opposing ex-minister happened to go off just as an investigation into his department was coming on.

South America could have waited for Mr. Fergusson. No public service is to be rendered near the equator by the acting leader of the Conservative party. But he could have rendered notable service to Ontario by explaining how it happened that, on the eve of an election, many timber limits were sold by him without respect to the ordered processes of publicity and competition.

Mr. Fergusson was always regarded as the "practical" politician of the Hearst government, and was sturdy opponent of every demand for a party convention before the government went to the country. When steps were taken lately for a Conservative convention next fall it was announced that the choice of a leader would be one of its duties. When that event approaches we may learn that months before, Mr. Fergusson arranged for a trip to Ungava, so that the convention may be as free to make inquiries about him as the Forestry and Lands Commission is? After all when the transactions of a minister of the crown are under scrutiny, it is a natural weakness of commissions to wish to hear him rather than to hear about his vacation.

Was April Churlish?

A British officer was before a court-martial for being drunk on night duty. His faithful servant testified that he was sober when he returned to his quarters, and walked easily upstairs to bed.

"Was he all right in other ways?" asked the prosecutor.

"Yes, sir."

"Was his speech normal?"

"Quite, sir."

"Did he say anything to you?"

"Oh, yes, sir. He spoke quite natural like."

"What did he say?"

"He gave me orders about the morning."

"Was he quite coherent?"

"Absolutely, sir."

"Then tell us exactly what he said."

"He said I was to call him early, for he was to be queen of the May."

What is there in climatic state just now to make anybody want to be queen of the May? We enter this allegedly merry month in a funeral humor. Every April is the worst on record. If the late lamented wasn't, it ought to be. A word our eighteenth century forebears used when they felt about a day as we feel about the longest departed month was "churlish." April has been that, goodness knows, and any amount of contrary testimony by the weather man, backed by statistical averages, will not diminish public feeling. If we haven't had the longest period of churlishness from the sky, it has been like the married life of which an old husband, who, when asked if married life is not longer than single blessedness, replied: "I don't know, but it seems longer."

The truth is that we are still in bondage to old-world saws about the weather. "March winds and April showers bring forth May flowers." We expect April winds to bring forth April flowers, and we believe they don't come. But they do, and we might have the grace to recognize "meries" that are denied the north and west.

A bowl of hepaticas blesses the table. Mother, suffering from a frightful headache, has been cheered by crocuses red and scillas blue. Hepaticas are climbing out of the bulbs, almost ready to unfold. Lilac buds are showing dark, wherever you will look for them. Irises are inches high, and the tulip buds are coming into view. Syringas and spruces are spotted with green.

All these things are the product of the out-of-doors during the unkindest April (we say) we have ever known. Why swear and be lugubrious about the promise of May? It is too early to throne the queen in verdure. The first of May isn't really May Day. Wait till one really fine day comes along—and it will arrive sure day comes along—and then hear yourself burlie: "This is Ontario weather." And it will be. There may be prohibition in town, but inside the wine of life will flow, when the sun remembers and the ground is full of growing pains.

Labor Advances.

British labor is out to accomplish two things that may mean much to democratic statesmanship. It will reorganize its electioneering methods, and will master the conditions that govern international politics, so as to be prepared for the day when the government will be on its shoulders.

Labor did not do as well in the recent by-elections as was expected, although in each case it showed that the old bi-party situation is as hopeless as it has appeared to be for several years. Some of the factors are attributed to the unsuitability of the party's candidates. Extremists have been too evidently spoilers of their own nest.

There is also difficulty about finance. It is complained that certain local organizations were more ready to run candidates than they were to bear the costs of the fight. To be laid for election purposes is to be raised, and the movement is to be run with greater recognition of the vital necessity of monetary support of democratic progress.

Labor can only be a class movement unless its leaders become international in a wider sense than obtains in the international demand for the substitution of capital. Labor must recognize that the world is a very complex, very organic organism, and that it can no more be reconstructed overnight, than a wage earner who ories aloud for a six-hour day can secure a six-hour day for the wife who cares for his home. The new internationalism of labor will, of course, repudiate the devious methods of the old diplomacy. It will not be difficult to improve upon them.

Seats of the Wise.

The attorney-general is working great marvels in the legislature. When he speaks the opposition changes sides, because, to sit where they can't hear him transforms their places into cross benches. Mr. Raney mainly addresses himself to his friends, even if it means turning his back on the Speaker, who, hearing him in legal oratory, doesn't mind.

Mr. Raney is probably paving the way for a parliamentary revolution. When the legislature is being encouraged to lead the government, why speculate the traditional custom of speaking always to hon. gentlemen opposite? To be able to hear is the first requirement of a legislator.

At Ottawa the idea has been mooted of rearranging the seating so that nobody is behind anybody. The American houses sit in semi-circles. Manitoba has a new and gorgeous legislative dome that cost eight million dollars. In the chamber the members are in circular array, so that there is no back-turning, and a plenty of audibility.

There is nothing Median about the customs of deliberative chambers. There is no more reason for retaining a seating fashion if it can be improved than there is for continuing the routine of the speaker's back, because it is a relic of the days when men wore powdered pig-tailed wigs, which they tucked into a little pocket under the rosette, so as not to fringe black and white.

MR. PUBLIC: What I want to know is: Is this an early fall or a late spring?

HUGE CANNIBALS ATTACK EXPLORERS

Two Killed, But Expedition in South America is Forced to Turn Back.

Newport, R. I., April 30.—Chester Ober, geographer with the expedition of Dr. Alex. H. Rice in South America, in a letter received by his parents here and made public today, said that two natives were killed by Dr. Rice and Ober in warding off an attack on the Amazon River by the Negro and thence up a tributary of the latter river, where the attack occurred. The attacking party leaped from the brush on the river bank toward the explorers and were frightened away by the party firing shots in the air. The natives apparently took ambush, Ober said, because they made an other attack. Ober wrote that he and Rice fired at them this time, killing two. On the advice of guides the expedition turned back.

Accompanying Dr. Rice is his wife. According to Ober's father, the party is on its way back to the United States by the Panama route. The expedition left last June to explore parts of South America unknown as the white race.

Body of Sheffield Farmer Found Floating in Lake

Kingston, April 30.—The dead body of Michael Carroll, farmer of Sheffield Township, was found floating in Stinson's Lake. He has been missing for a week. He was 57 years old and a bachelor. The coroner who investigated, decided that an inquest was unnecessary.

CAPT. BRACKENBURG DIED.

London, April 30.—(By Canadian-Associated Press.)—The death is reported of Capt. Brackenburg, member of parliament for Louth, Lincolnshire; Lord Guthrie, Scottish judge; Sir Henry Burdett, hospital expert; Lieut.-General William Briscoe and Frederick Weir, Scottish musician.

O.B.U. BUSY IN MONTREAL.

Montreal, April 30.—Numerous complaints have been received at police headquarters, alleging that agents of the so-called One Big Union have been busy distributing propaganda in different sections of the city. The activities of these agents seem to be confined to placing "stickers," printed in red and calling upon the workers to "stop, look and listen—then join the O.B.U.," and to repudiate their unions, which, the poster tells them, they do not control.

NOMINATED IN DAUPHIN.

Dauphin, April 30.—At a Liberal convention held here last night, Dr. W. J. Harrington, the sitting member, was unanimously chosen as the Liberal candidate for the Dauphin constituency, in the provincial elections this summer.

QUEBEC RIOTS' VICTIMS.

Ottawa, April 30.—(By Canadian Press.)—"No information" is the answer given by Hon. A. L. Sifton to George Parent, member for Quebec West, who asked for a return on the claims made on behalf of innocent victims of the Quebec riots in 1919.

WESTERN UNIONISTS CONFER ON BUDGET

Feeling is Against Elimination of Tariff—Lowering on Some Lines Favored.

Ottawa, April 30.—(By Canadian Press.)—Western members of the commons supporting the present government held their caucus today to decide on several lines of action in connection with matters which are expected to come up in the budget. There was a large attendance, despite the fact that since last year the National Progressive party has been formed, a majority of the members of which comprises westerners.

By far the most important item discussed today was the budget as it affects the tariff.

It is proposed to eliminate the duty on small, three-cent binders and farm household commodities, such as washing machines, cook stoves, etc., and upon such things as leather for pegged boots, etc. In lieu of this it is advocated that an excise tax should be levied. Many columns of figures have been examined by members to see the effect of this, and after calculations are made it is figured that through the proposal of an excise tax the farmer would pay more taxes and still enjoy the same amount of protection from similar industries across the line.

The feeling generally toward the tariff, it is understood, was that it should not be entirely eliminated, but lowered to the extent named. The caucus also heard a lengthy report on the question of natural resources, and another on the Hudson Bay question. In both these cases assurance has been given that the government will do something this session, and members are apparently satisfied with this.

The most important item was the question of method of handling the year's wheat crop. Plans for this are under discussion, but no inkling is given as to what the government will do to get R. W. French, commissioner of taxation, to address a caucus some time next week on the working of the scheme as it affects farmers.

Transfer of natural resources caused some discussion. The special committee contended that while the resources to be transferred to the provinces, it was conditional on an agreement being reached between the

25 Minutes to Answer This.

How would you subdivide this mitre-shaped diagram into four sections, all of the same shape and size? It is a simple proposition, but not quite so easy of execution as first appears.

ANSWER TO NO. 175. COWL minus OWL plus RABBIT minus BIT leaves CRAB. (Copyright, 1919, by Sam Loyd.)

GRAND TRUNK RAILWAY SYSTEM.

Time Table Changes, Sunday, May 2nd, 1920.

Commencing Monday, May 3rd, train No. 30 leaving Toronto 5.30 p.m. daily except Sunday, will leave at 9 p.m. for Montreal and certain intermediate stations.

Commencing Monday, May 3rd, train No. 33 will leave Cobourg 6.20 a.m. daily except Sunday, arriving Toronto 8.45 a.m.

Commencing Monday, May 3rd, train No. 36 will leave Toronto 5.10 p.m. daily except Sunday, for Cobourg and intermediate stations.

Train No. 41 leaving Toronto 7.45 a.m. daily except Sunday for North Bay and intermediate stations, now runs via Muskoka Wharf.

Commencing Sunday, May 2nd, train No. 47 will leave Toronto 7.45 p.m. (instead of 11.30 p.m.) daily except Saturday (instead of Tuesdays and Thursdays as at present), arriving North Bay 8.20 a.m.

Train No. 9 "The National," now leaving Toronto 2.15 p.m. daily for North Bay, Cobourg, etc., will be run Tuesdays, Thursdays and Saturdays only, for Winnipeg and West.

THE GIRL WHO SMILED THRU

By MAKION RUBINCAM

THE GLORIOUS CITY.

CHAPTER 71.

"This week-end," Christine decided, "we're going to explore the city."

Christine usually decided, and Alice usually acquiesced. This time, however, she protested. "This time, however, I have a biology test Monday and I should study for it. If I pass, I'm going into that new class that's being formed."

"Oh, yes—well, you'll have lots of company. They say the new Prof. Deems is so homely he fascinated me. I sit and look at him with so much attention I never hear a word he says. Consequently, I never pass the exams." Christine began to draw a caricature of the head of the biology department, a clever piece of work that accentuated the worst characteristics. Alice laughed at the drawing. Christine was always a delight to her.

"So we won't study till Sunday?" Christine decided, jumping up. "Come along. It's cold enough for your fur coat. I've went to Alice's closet and unceremoniously pulled out the squirrel coat and cap the Mrs. Alarow had sent, and from her own wardrobe a wrap of satin and seal with a vivid green lining. She pulled a small hat of black velvet over her curls, and was ready—looking more elfin than ever.

They were in striking contrast, these two. Alice was always blue and gray and posed a quiet harmony of color that suited her serene temperament. Christine was always vivid green and black. Alice looked at her with quick, bright expressions and a comical grin. Alice hunted the peace and joy of life, Christine, its amusement.

This sunny, cool October morning they walked till they found a bus, climbed on top of it and swayed and jolted past a park and finally down Fifth avenue. Christine got off at the big museum and took Alice on a tour of exploration that included all the Ruben's paintings and the Rodin sculpture, which she herself liked, and three several galleries of ancient armor and Egyptian relics, that left Alice with a confused impression and a swimming headache.

"Now we walk down the avenue and upon the other millionaires walking up it, and then we'll have lunch," Christine decided.

They dined in a huge hotel where an orchestra played soft music, and where Alice, in the novelty of her surroundings, lost her headache.

"My first hotel," she remarked. "What a crowd! And the music, the lights—that's what you say for They say it's 'overhead.'" Christine explained. "Maybe, there's 20 stories overhead—no wonder it's steep."

"Awful," Christine grinned. "But as I can't make good ones, I make them as bad as possible. Now, next we are going to show you the Atlantic Ocean."

To reach the shore they went into the subway, and finally climbed on board an elevated train. This was another new experience to Alice. Having ridden down the cellars of the city, she found herself now crawling over the spans of one of the greatest bridges in the world, with a panorama of the lower end of the island spread out for her dazzled eyes, and then, running along over the city's roofs.

Christine watched her curiously and delightedly. Alice's face mirrored her emotions so well.

Then they came out and walked to the beach, and Alice for the first time saw the Atlantic. It had been clear weather and the sea was mild, with almost a summer blueness.

"What do you think of the Atlantic?" Christine asked, pulling her little hat more snugly over her ears.

"Alice's nothing I can say about it," said Alice. "I simply want to stay here and look and look at it."

For half an hour they sat on the sands and Alice gazed far out over the water. Then, Christine becoming restless, they wandered thru the amusement resort near by—another new spectacle for Alice.

"It's gay enough and colorful enough in the summer," Christine said, "and there are crowds of people. But a summer amusement park out of season always reminds me of a broken heart grown cold and sodden."

Alice laughed again. Christine gave her a hundred new ideas a day. And so they amused themselves, ending the day with dinner in a queer restaurant in Greenwich Village, going to a theatre in the evening.

"Such a glorious city," Alice said happily and sleepily that night. "I feel as tho' the unexpected was always happening here."

THE UNEXPECTED.

CHAPTER 72.

The two girls were so tired from their Saturday outing that both overslept Sunday morning breakfast. Alice

awoke at 11 o'clock with a guilty feeling. She had "napped" in the course of her energetic life slept so late, "I always sleep till 10 or 11 at home." Christine said, stretching herself lazily in bed. "Gracious, I do long for a cup of coffee. Alice, hey, hunt up some of those white enamel restaurants that look like the inlaid of bathtubs, and have rolls and coffee."

"If we were at my place," Alice said, slipping into her blue negligee, "I would make you smoking hot popovers and the best coffee you ever had."

"She looks like a Fifth Avenue heiress and she talks like a cook," Christine murmured drily. "Are you going to make popovers for your fairy prince?"

"I'm afraid not," Alice answered. "My fairy prince has a lot of money, and he'll have servants to make him coffee and breakfast goodies."

"You speak as tho' that were a misfortune," Christine commented, beginning to get up.

Alice laughed, but while her roommate had gone for her bath, she sat up in bed and thought. She used to feel that it would be quite lovely to keep house for David. She wanted to help him on with his overcoat, and she kissed her goodbyes in the morning. She wanted to make him good cakes—she was an adept at that, and delicious bread and desserts full of frothy whipped cream. She wanted to keep house for him, to watch for him when he would come home in the evening—a vision of the model farm near her home came back to her, and she stopped dressing, staring moodily out the window.

That was all over—David was gone—she did not know where. He might be in this very city, he might be a thousand miles away. She had none of these domestic ideas about marriage with Lawrence. When she thought about life with him, it was a vision of country clubs, of learning to dance, to run his car, if being frivolous—and when she pictured herself doing the work she was now studying for, it was rather as a relief from the tiresomeness of having a good time.

"You do look gloomy," Christine remarked, coming in. Her green kimono was devoted as usual to her short, red-gold hair, which she had decided upon a shampoo as well as a bath—and she was vigorously rubbing her head with a huge bath towel.

Alice was quiet most of the day. She spent half the afternoon and all of the evening studying for the next day.

"After all," she remarked to Christine, "I came to this college to study, and I must do it. I couldn't afford to think of anything else, and I took it because I expected to learn enough to pay it back someday."

"Why work when you have a fairy prince as devoted as yours?" the other girl answered. "Farewell, I'm going to tea with the only good looking student in the place."

Alice passed her test easily, and went into the newly-formed class of advanced biology. She had several advantages over the other students, which she made up for the many disadvantages she suffered from. She was older, consequently more mature, and she was more earnest than most of the young girls—a most valuable asset. She worked very hard to overcome the handicap of poor preparation years before.

So she smiled in rather a superior manner as she listened to the younger girls speculating about the new professor. At 27, years one might be quite excited because the teacher was young and reputed to be handsome! But at 27, what difference did that make? Besides, she was engaged—her interest in all men but Lawrence was a very impersonal one.

She felt much older and wiser than these girls. She was considered the laughing rival for the front seats, and much buzzing about this new man. Alice deliberately went to the very last row and sat down, smiling at the interest the other girls displayed.

"He's probably married and wears glasses," she said teasingly to one classmate.

The buzzing stopped as the door opened to admit the new teacher. Alice's heart stopped for an instant. It was David Thorne who walked into the room.

For one time the whole place swam around her. She was conscious of the respectful silence of the other girls and the few boys in the glass, and of the old professor's deep voice introducing her before.

"Mr. David Thorne, who is to lecture once a week to this class."

She had one great desire to get out of the room, but if she kept her face down on the last row, and she meant that David and everyone in the room would see her. Besides, she felt she must look very queer, she felt so odd.

But David must not see her. There was a new face in the room. Perhaps he would not recognize her. She bent over her notebook, glad she had learned to wave her hair and dress it fashionably, so even the colour of her head was different. David's familiar voice began talking, in quiet, even tones, giving an outline of the work proposed for the term.

NEAR SETTLEMENT IN LOAN TO CHINA

Britain Offers Counter-Proposal, Regarding Railways, Which May Be Accepted.

London, April 30.—The negotiations between Great Britain, United States, Japan and France, aiming at the agreement whereby a loan would be granted to China, have reached a stage which, it is believed, in financial quarters here, will speedily result in a settlement.

Each government is working as rapidly as possible in the hope that details of the agreement may be settled.

The proposed loan is to be secured by joint control of China's railroads by the interested financiers.

Polish Armored Vessels Sank and Captured Others.

Warsaw, April 30.—Simultaneously with the Polish cavalry and the Polish armored boats sailed down the Pripiet River and met the Bolshevik flotilla head on.

A great amount of food and stores of ammunition and army supplies and a wireless station were taken with the occupation of Czernobyl.

General Petlura, the Ukrainian leader, has left Warsaw for the front.

It is understood that is preparatory to joining forces with Gen. Pludski, the commander-in-chief of the Poles, is planning to enter Kiev at the head of the Ukrainians, who are fighting side by side with the Poles in the advance toward the independent capital of the Ukrainians.

STRIKING RAILWAYMEN RAN PRINCE'S TRAINS

Auckland, N.Z., April 30.—The Prince of Wales and his entire party, with the governor and his staff, were brought into Auckland today in four special trains run by the striking railway men.

Scotch "Dry" Resolution Surprises British Labor

London, April 30.—Officials of the British trades union congress were surprised by the Scottish trades union congress resolution in favor of prohibition as against state control of liquor.

Advocacy of prohibition by a section of British unionized labor is declared to be regarded by British union officials as little short of revolutionary, especially in view of the fact, they say, that it is this element on which the liquor interests have been concentrating their appeals in an effort to outmanoeuvre the prohibitionists.

Ald. Newstead of Guelph Dies After Long Illness

Guelph, April 30.—One of Guelph's most prominent citizens passed away at a late hour last night in the person of Ald. John A. Newstead. He had been ill for more than a year and a half and death was not unexpected.

Winnipeg, April 30.—Announcement is made of the sale of \$2,500,000 provincial bonds to J. P. Morgan & Co. of New York.

JOHNSON USED IN TEN-OPENING GAMES

Beating Given Him by Boston Worst of the Lot.

Ten times Walter Johnson has started the season as the Washington pitching selection.

Previous to Griff's entry as the Washington manager, Johnson hurled one lid-lifting tussle for Jim McAleer, and then nearly got into the "hall of fame."

In 1912, which was the year Griff took hold of the Nationals, Johnson hooked up the No. 1 with John Wesley Coombs, now coaching the Tiger twirlers, and the decision went to the Mackmen, 4 to 2.

Five Wins in a Run

The next five seasons found Johnson on the pitching peak of Washington on opening day and produced five victories for him and his team.

Johnson has won more games on opening day than any pitcher of present times, and possibly more than any of ancient times, too.

Four men have better records in percentage than Johnson, one of the four, oddly enough, being Walter's boss—the Old Fox.

STILL ARGUING ABOUT SKILL OF FRENCH BOXER

Who Has Advantage? Experts Can't Agree—Plenty Prefer Aggressive Dempsey Style of Going.

New York, April 30.—With the atmosphere charged with talk since the arrival of Georges Carpentier, most of the arguments simmer down to the question of whether the aggressive type of boxer like Dempsey or the elusive, shifty sort like the Frenchman, has the advantage.

At the present time, Mike O'Dowd and Jack Dempsey are probably the best examples of the fighters who are never on the retreat.

Previous to Griff's entry as the Washington manager, Johnson hurled one lid-lifting tussle for Jim McAleer, and then nearly got into the "hall of fame."

In 1912, which was the year Griff took hold of the Nationals, Johnson hooked up the No. 1 with John Wesley Coombs, now coaching the Tiger twirlers, and the decision went to the Mackmen, 4 to 2.

Five Wins in a Run

The next five seasons found Johnson on the pitching peak of Washington on opening day and produced five victories for him and his team.

Johnson has won more games on opening day than any pitcher of present times, and possibly more than any of ancient times, too.

Four men have better records in percentage than Johnson, one of the four, oddly enough, being Walter's boss—the Old Fox.

Create National Cemeteries Along Lines of Former Front

Paris, April 30.—The commission charged with framing laws concerning the graves of soldiers of France has adopted unanimously a proposal providing for the creation of national cemeteries along the lines of the former front armies.

### HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON

P. O. Box 123, Parrsboro, N. S. "I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back. In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since."

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

JOHN E. GUILDERSON, Contractor and Mason.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

### CANADA NEEDS CHEMICAL INDUSTRY

Not Enough Attention Paid to Dyes and Glass, Says Dr. Cossley-Batt.

A large attendance of members of the University Women's Club heard an address by Dr. Cossley-Batt at the Laura Mathilda Tea Rooms yesterday afternoon. The need for greater interest in the industrial operations of the nation was impressed upon her hearers by the speaker. From her observations since coming to Canada, she stated that far too little attention is given to the development of raw materials, which are found in large quantities in many localities, as in Saskatchewan, where sodium sulphate is found 98 per cent pure, and in Alberta, where clay and sands are largely present.

Great Britain, which formerly imported largely from Germany, is now concentrating on chemical dyes, glass and other products. Young men and young women going into factories in Canada should learn that education, to be effectual, must not be narrow. People must learn to do the work they now consider menial, the only way to thorough knowledge being to begin at the bottom. The speaker said that no skilled help need be expected from Great Britain, which had lost 75 per cent of this class in the war and was now paying good wages to keep those she has with her. Canadians must learn French and German if they want to do the best work, was advice given. Not to see this, was pointed out as narrowness and a great mistake, the literature of German containing the principles of the science upon which the key industries of the world must be built up in order that production may be prosperous.

### GOES TO CHURCH DRUNK, CHARGED WITH B.O.T.A.

Kingston, Ont., April 30.—(Special).—James McEwen of Crow Lake was before County Magistrate George Hunter for a breach of the O.T.A. It is alleged that McEwen was under the influence of liquor at the dedication services of the new Methodist Church at Crow Lake and distributed all the speakers by his loud applause. The case was enlarged for further evidence.

### TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sunbair added will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is dingy, streaked or gray. MISHING'S Sage Tea and Sulphur Compound at home, though, is troublesome. An easier way is to get a bottle of Wynth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

White wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wynth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just compound a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

### DATA GIVEN IN TIMBER LIMITS

Memorandum Produced of Concessions Alleged Granted Without Competition

### PRIOR TO ELECTION

In the continued investigation held before Justices Riddell and Latchford as to the granting of timber limits by the Ontario government, F. J. Niven, of the department of forests and mines, submitted a memorandum showing the grants obtained from the late government, a large portion of which, approximating 1,727 square miles, were granted without competition, prior to the election last October.

The memorandum produced by Mr. Niven includes the following names of recipients: McNamee Township—Lots 28 and 29, concession No. 1, about 200 acres; to R. J. Hutchison and the Muskoka Wood Manufacturing Co., Huntsville, Ontario, 21, 1918. Cash deposit, \$100. Hardiman Township—81 square miles, to R. B. Herron and Co., Toronto. Cash deposit, \$20,000; bond, \$40,000.

Cook Township—38 square miles, district of Timiskaming; to R. S. Potter, of Matheson, October 28, 1919. Cash deposit, \$1,000; bond, \$3,000.

Foley and Ivanhoe Townships, along the line of C.N.R., north of Sudbury—81 square miles each; to Canadian National Railways, October 27, 1919. No deposit.

Middleboro township, along line of C. N. E. north of Sudbury, 28 square miles, to Harris Tis and Lumber Co., Ltd., Ottawa, October 27, 1919. Cash deposit of \$2,000.

Township 9, Z (east half), Mississauga Forest Reserve, 18 square miles, to P. H. Shannon, Blenheim, October 20, 1919. Cash deposit, \$2,500.

Berth of 405 Square Miles. Hayward township and unurveyed territory south of Mildred and Hook townships in district of Algoma, 405 square miles, and territory lying along line of C. N. R. north of Sudbury, to W. E. Bigwood, Toronto, October 4, 1919. Cash deposit, \$1,500; bond, \$2,500.

Notman township part, 12 square miles, to Spanish River Pulp and Paper Mills, Ltd., Sudbury, October 8, 1919. Cash deposit, \$6,000; bond, \$18,000.

Gilson township, part 8 1/2 square miles, to MacLellan Lumber Co., Penetang, October 8, 1919.

Berth W. R. 7 A in district of Kenora, west of Lake Superior branch, G. T. P., 35 square miles, to George E. Farlinger of Sioux Lookout, Ont., October 4, 1919. Cash deposit, \$2,000; bonds, \$6,000.

Township No. 222, northwest 1/4 north shore of Lake Huron, 8 square miles, to Hope Lumber Co., Thessalon, September 24, 1919. Deposit, \$2,500.

Cherriman township, district of Sudbury, 38 square miles, to William Hamilton Stubbins, Toronto, September 15, 1919. Bond of \$1,000. No cash deposit. This township abandoned by former timber licensee.

East parts Moffat and Beulah townships, in Sudbury district, adjacent to C. N. R., 42 square miles, to Marsha Lumber Co., Ltd., September 22, 1919. Cash deposit, \$2,000; bond, \$6,000.

Lyman township, lots 2 and 3, concessions 5 and 6, 1/2 square mile, to Tomiko Lumber Co., Toronto, September 15, 1919. Cash deposit, \$1,000.

Stanley township, district of Sudbury, 81 square miles, to James D. Kingston, New Liskeard, September 3, 1919. Cash deposit, \$2,500.

Notman township, lot 7, concession 3, September 2, 1919. Cash deposit, \$50,000; bond, \$100,000.

Notman township of 3, concession 4, to William Mine & Sons, North Bay, September 2, 1919. Cash deposit, \$500.

Berths 45 and 49, Quebec Forest Demesne, district of Ranby River, 21 square miles, to Cheylin Clark Company, Ltd., Minneapolis, Minn. Cash deposit, \$50; bonds, \$100,000.

Flight Canceled. Shearton township, east half, 15 square miles, to Monteth Pulp & Timber Co., Ltd., Toronto, September 3, 1919. Cash deposit, \$1,000. This deposit not paid in at the time, and Mr. Bowman, present minister, cancelled the right.

Berth Z. D. district of Kenora, 39 square miles, to the New Ontario Contracting Co., Ltd., Port Arthur, license granted May 13, 1919. Cash deposit, \$1,000; bond, \$5,000.

Berth Z. C. district of Kenora, 28 square miles, to New Ontario Contracting Co., Ltd., Port Arthur, May 13, 1919.

Notman township, Lots 1 and 2, Concession 4, to William Mine & Sons, North Bay, April 1, 1919. Cash deposit, \$1500; bond, \$5000.

Carter township, district of Sudbury, 38 square miles, to James McCreary, sr., Sudbury, March 27, 1919. Cash deposit, \$1000.

Lyman township, Lots 1 and 2, Concession 1; 2, W. part 1 and 2, Concession 8, including part Lot 12, Concession 3, west of Lake Timon, to Tomiko Lumber Co., Toronto, 1919. Cash deposit, \$2000.

Clancy township, Algonquin Park, to J. R. Booth, to cut 3000 birch logs, Jan. 5, 1919.

Bethune township, Lots 24, 25, 21, 32, Concession 1; 31, 32 and 33, Concession 2, to Bethune Pulp & Lumber Co., Ltd., Huntsville. Cash deposit, \$300.

Bernhardt township, Timiskaming district, 35 square miles, to Robert S. Potter, Matheson, and Frances E. Sayre, Toronto, Dec. 5, 1918. Bond for \$500. No cash deposit.

Garvey township, north half, 15 square miles, to Marsha Lumber Co., Ltd., Toronto, 1919. Cash deposit, \$1000.

Lyman township, Lot 1, Concession 8, to Tomiko Lumber Co., Aug. 31, 1919. Cash deposit, \$500.

Whalen township, 36 square miles, to Harris Tis & Lumber Co. of Ottawa, deposit, \$2500.

Adair township, Lots 1, 2, 3 and 4, Concession 4; Lots 2, 3 and 4, Concession 5, to Canada Fibre Co., Toronto, Aug. 7, 1918. Cash deposit, \$300.

Area north of Gooderman township, 10 square miles, to MacNamara Lumber Co., Toronto. Cash deposit, \$1000.

Aylmer township, Berth 1, 9 square miles, to George Caswell, Coldwater. No deposit.

Lyell township, 1 square mile, to Wm. Whalen, Admaston Station, April 8, 1918.

Berth G 58, 1 square mile; Berth G 59, 20 square miles, to George E. Farlinger, Toronto. Cash deposit, \$1000.

Frochette township, 33 square miles, to Marsha Lumber Co., September, 1916. Cash deposit, \$2000; bond, \$5000.

Some Large Areas. Delamere township, 36 square miles, to Wm. H. Stubbs, Toronto, Dec. 21, 1913. Bond, \$1000.

Berth 195, north shore Lake Huron, to C. Beckman Co., Penetang, Feb. 19, 1914. No deposit.

# PLAYER'S

## NAVY CUT CIGARETTES

10 for 18 cents  
20 for 35 cents

Among smokers, a cigarette is judged by its smoothness, its fragrance, its mildness and its CONSISTENT high quality.

That is why men prefer Player's!

### COMMISSION WANTS TO SELL ITS LANDS

Board of Control Asked to Decide Question of Selling in Open Market.

The Toronto Housing Commission, which have decided to wind up their affairs and do no more building, have written the board of control that the commission have still over 2000 feet of land on hand to be disposed of. Mr. Swaine, the secretary, writes as follows: "Consequent on the building program of the Toronto Housing Commission being terminated, the following lands are not required: 'Coxwell avenue, fronting on the east side, bounded by Stacey street on the north and Hanson street on the south, 600 feet 10 inches by 100 feet; Hag avenue, fronting on south side, 510 feet by 100 feet; Currie avenue, fronting on north side, 128 feet 6 inches by 100 feet; Ardagh street, fronting on

### COMMISSION WANTS TO SELL ITS LANDS

Board of Control Asked to Decide Question of Selling in Open Market.

Ardagh avenue, 464 feet by 105 feet; Durie street, fronting on Durie street, 120 feet by 100 feet; Evans avenue, fronting on Evans avenue, 522 feet by 114 feet 1-4 inches. "In order that the accounts of the commission may be closed, and the cost of the houses ascertained, it is necessary to dispose of these lands. Either of the following methods may be adopted: (1) To sell in the open market and to repay the proceeds into the city treasury as a repayment on account of the funds supplied by the city to this commission, or (2) to convey the lands to the city.

### ANOTHER VETERAN DIES.

Ramsden Harrison, a veteran of the 3rd Battalion, died in Knox D. S.

### PILES

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c a box; all dealers, or Edmanston, Bates & Co., Limited, Toronto.

### Three Groups Compete in Y.W.C.A. Singing Contest

Three groups of girls took part in a singing contest in the rooms of the West Toronto Y.W.C.A. last night, those appearing being the 'Livingston & Scott' representatives, under the direction of Miss Jennie Allen, the 'Canadian Kodak' group, under Miss Clark, and the 'Clarkwood' group formed of 29 blind girls from the industrial department of the National Institute for the Blind, who were taken out in motor, and under the direction of Miss Jean Wood. The cup for which the competition was undertaken was the gift of Mrs. R. C. Donald, and was presented by Mrs. Clendinning. The Livingston & Scott group were the winners of the cup.

### IMPROVED SERVICE—ALGONQUIN PARK.

For the spring, fishermen and others who desire to visit Algonquin Park during May and June, the Grand Trunk will operate, commencing May 4, a through standard sleeping car, leaving Toronto Tuesdays and Fridays at 7:45 p.m., reaching Algonquin Park station Wednesdays and Saturdays at 11:52 a.m. Returning will leave Algonquin Park station 3:30 p.m. Mondays and Thursdays, arriving Toronto 7:30 a.m. the following day.

### KITCHENER STATISTICS.

Kitchener, Ont., April 30.—(Special).—Vital statistics, as recorded here, for the month of April, show 27 deaths, 27 marriages and 50 births. The building statistics showed considerable increase over last year, being \$160,770, as compared with \$68,405 for April of last year. This brings the total for the first third of the year to over a half-million. Customs returns also showed a marked increase, being \$192,697.33, as compared with \$97,885.17 for April last year.

SHEET METAL MEN NOW ON STRIKE

But Only Against Firms Refusing Ninety Cents an Hour.

About twelve building contractors are understood to have signed the agreement with the Sheet Metal Workers' Union for a wage of 90c an hour.

The other seventeen firms remain outside the pact of the union. Employees of these seventeen were on strike yesterday, according to reports.

Mr. Davidson expressed the opinion that the union should be outlawed by the Building Trades Council for refusing to submit its grievances to the joint industrial council for arbitration.

The Sheet Metal Workers' Union are members of the Joint Industrial Council of the Toronto Building Trades. This council was formed by the Dominion government, and was the first council of its kind in the Dominion of Canada.

In the face of the adoption of this recommendation by the union, the Sheet Metal Workers now refuse to arbitrate or place their grievances before the Joint Industrial Council, and by so doing I fall to see where they are entitled to the sympathy of the other unions in the industry, who have enjoyed the confidence of the contractors' associations for many years, all to the general benefit of the industry.

John Doggett, an official of the Building Trades Council, replying to queries from The World, stated that the Sheet Metal Workers' Union was acting with full assent of the council.

Montreal, April 30.—Notification was today given various leading coal merchants of the city and also to the transportation bureau of the board of trade that the Delaware and Hudson Railway had decided to withdraw the clause in their recently issued tariff which charged prepayment in United States currency for all charges on freight coming from United States points to Canadian destinations, no matter what was the length of the haul on Canadian railways.

Winnipeg, April 30.—(Canadian Press.)—Reports from all parts of Canada received by the Canadian Credit Men's Trust Association, indicate an improvement in trade following better weather conditions. This is particularly noticeable in the east, reports from Toronto, Montreal and St. John showing increased activity in wholesale and manufacturing materials.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich.

When your kidneys feel like lumps of lead, your back hurts, or the urine is cloudy, full of sediment, or you are obliged to seek relief about four times during the night—if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will thank you for it.

"Sliding" Billy Watson Show: Why say more? He comes to the Star Theatre on Monday for a week's engagement, being the star of an organization which has been named in his honor by the producer, I. H. Herk.

PLAYS, PICTURES AND MUSIC

"Frivolities of 1920"

"Frivolities of 1920," the G. M. Anderson revue, which skips into the Royal Alexandra next Monday evening for a week's engagement, will be welcomed as a form of entertainment that is full of frivolous, flippant fun-makers, adroit steppers and lark-noted song birds.

Nineteen different scenes, ranging widely in color and design, are used to set off the capers of the aggregation, and some three hundred costumes are required to properly clothe it. Seats will be on sale today.

"Bird of Paradise" this week's attraction at the Royal Alexandra has lost none of its charm as amply proven by the fact that for the first time in the history of this attraction it has been found necessary to give an extra performance in order to accommodate those wishing to see it.

"Keeping Up With the Joneses." The hit of the season may be aptly applied to the latest comedy, "Keeping Up With the Joneses," which is to be the offering at the Grand Opera House next week.

Original Watson at Gayety. Billy Watson has been long regarded as one of burlesque's most progressive artists.

At the Allen. The River's End, James Oliver Currier's great story of the Canadian north-west, "The River's End," is considered by many the author's most popular work.

"The Idol Dancer"

"The Idol Dancer," and stands out as one of the most unique productions of this season. It is unique in many ways. It is D. W. Griffith's first picture having such a large amount of comedy. It is this production that took Mr. Griffith and his company away to the South Sea Isles.

"All-of-a-Sudden Peggy." Real humor, unforced and sparkling, and the kind of romance that fairly warms the heart—such is the rich, rare combination found in "All-of-a-Sudden Peggy."

"The Robins Players." The notable array of artists who will be seen this summer under the management of Edward H. Robbins as members of his international troupe, the Robins Players has been commented upon by the New York press.

Paris, April 30.—An economic conference between delegates representing France and Germany was arranged yesterday by Premier Millerand and Dr. Geppert.

QUESTION REMOVAL OF HALIFAX TROOPS. Result of Deliberations in April Does Not Indicate Early Prorogation. G.T.R. BILL TO FORT. Franchise Bill Another Leading Theme - Little Supply Voted Thus Far.

Ottawa, April 30. - Removal of troops from Halifax was discussed in the senate today by Senator Crosby. He stated that for years there had been from two to four imperial regiments maintained at Halifax and ample accommodation had been created for them there by the imperial authorities. Five or six years ago the Dominion had undertaken to garrison Halifax and the property of the imperial government had been turned over to the Dominion authorities. The Dominion had undertaken to remove from two to three thousand men there.

Ottawa, April 30. - With the budget still to come and little supply voted, parliament has completed its second month. During the last four weeks progress has been slow and by means indicative of prorogation so early as the more optimistic at first predicted.

Earlier in the month, Col. J. A. Currie (Simcoe North) had named as a point on a motion that the arbitrator in connection with the taking over of the Grand Trunk should regard as a liability of the company, "the amount required to make good these pensions."

London, Ont., April 30. - All hopes of averting a street car strike in London appear to have vanished. It is expected to awaken on Saturday morning to find the city without car service. The company to the Dominion authorities that it cannot meet their demands for increased wages. The men are now receiving 45 cents per hour, and ask 45 cents per hour, while the company offer to compromise at 55 cents per hour.

London, Ont., April 30. - (Special.) - Mayor Edson issued a proclamation here today placing Kitchener under daylight saving time, beginning Sunday night at midnight. Considerable dissatisfaction is expressed through the city.

CHATHAM EX-MAYOR DIES FOLLOWING ILLNESS. Guelph, April 30. - At the regular meeting of the railway and manufacturers' committee, held this afternoon, it was recommended that a new set of wages be adopted for the street railway employees. The committee will recommend to council that men be paid 45 cents per hour, foremen 47 1/2 cents per hour, conductors and motormen, first year, 41 cents per hour; second year, 43 cents per hour; and third year men 45 cents per hour, and that each foreman be paid a salary of \$26 per week, an increase of \$1 per week. The maximum scale for conductors as motormen at present is 41 cents per hour.

Wodstock, April 30. - (Special.) - The Karn Morris piano factory building, which has been vacant for some time, has been purchased by the Cross Press and Sign Company, a local concern engaged in the manufacture of outdoor advertising signs. Factory space is nearly at a premium in the city. The board of trade has received many enquiries of late from American and Canadian companies wishing to establish here.

Guelph, Ont., April 30. - A class in wireless telegraphy has been formed at the collegiate institute under the direction of Mr. Green. The science master's wireless outfit has been installed and messages have been despatched and received from many places in the surrounding district.

Charge That Cop Incited Attack on Revenue Officer. Montreal, April 30. - Chief of Police Belanger has before him a case where a policeman in uniform is accused of having incited a gang of men in a West Dorchester street restaurant to attack a revenue officer and a provincial revenue officer and a friend who was accompanying him. The case will be investigated by the chief in his office tomorrow morning.

Canon Hepburn Dead. Sherbrooke, Que., April 30. - (By Canadian Press.) - Rev. Canon James Hepburn, rector of Christ Church, Sherbrooke, passed away this afternoon after a brief illness. The deceased was 74 years of age and was nearing the completion of fifty years in the ministry, which would have been attained next September.

Guelph, Ont., April 30. - A class in wireless telegraphy has been formed at the collegiate institute under the direction of Mr. Green. The science master's wireless outfit has been installed and messages have been despatched and received from many places in the surrounding district.

Food and Drugs Act. During the month, the house gave three readings to a bill to amend the food and drug act, and reported a bill to amend the opium and drug act. The bill was passed and approved the peace treaty with Bulgaria. There was the opening skit of the government measure to create a purchasing board for the purchase of departmental supplies.

The Estimates. Of the main estimates, \$200,000,000 (less one-sixth voted in the interim supply bill) still remain to be voted. Actual votes so far are \$20,000,000 for shipbuilding; for ocean and river service, \$1,610,000; for an ice-breaker on the St. Lawrence, \$2,000,000; and for dredging the St. Lawrence (maintenance and operating dredging fleet), \$478,000; restoration of parliament buildings, \$2,000,000.

Five-sixths of the supplementary estimate of \$12,500,000 for civil service bonus also remain to be voted.

FOR UNIFORMITY IN MINING LAWS

Royal Commission on Unification of Labor Acts Makes Recommendations. DISCUSS MINIMUM WAGE. Forty-Eight Hour Week Also Favored Except in Agricultural Pursuits.

Ottawa, April 30.—Dominion-wide application of the principle of a minimum wage and a 48-hour working week for all women and girls, excepting those engaged in domestic or agricultural employment, was strongly favored by the royal commission on the unification of labor laws at the session here today.

Other important items at today's session included the adoption of a motion that a committee of five be appointed to report upon the unification and harmonizing of law on industrial disputes within Canada, and further recommendation that all laws at present existing in any province dealing with the improvement of sanitation or the protection of life should be made general to such other industries as may be possible throughout the Dominion.

The five named for the committee on unification were Messrs. Moore, Gillis, Coughlan, McEwen and Leckie, with F. A. Acland, deputy minister of labor, and ex-officio. The conference will resume its sittings tomorrow.

The resolution dealing with the pay and working hours for women came from the committee on minimum wage, and read as follows: "We approve the principle of a minimum wage for women and girls, and recommend that a competent authority be created in each province in the Dominion to establish a minimum wage adequate to maintain self-supporting women and girls, and such authority shall be empowered to fix hours of employment for such women and girls not already provided by legislation, and further recommend that such hours of employment should not exceed 48 hours per week, except of employees engaged in domestic or agricultural employment."

The committee on mines and mining laws reported that it had investigated the departmental policy on mining laws, item by item, for each of the various provinces. The committee found that many minor provisions exist in the various acts of Canada, which are made necessary by local conditions, and concerning which no practicable uniformity is possible. The members, therefore, directed their attention to those principles or provisions of a general character which are applicable to all provinces.

The following recommendations on mines and mining laws were adopted: 1. That the minimum wage for boys working on the surface (ground), and that no boy be allowed to work on the surface unless he has attained the age of 14 years, shall be no boy under 18 years of age power machinery used for moving more than a man of power, or person other than a man of power, shall operate any power machinery, or over raising or lowering persons in a mine.

2. In order to bring uniformity in mining laws, we recommend that all mining laws providing for not more than 48 hours of work, and that no person shall operate any power machinery, or over raising or lowering persons in a mine, shall be enacted in all provinces.

3. That legislation providing for miners' compensation in all provinces, and that every person who performs work for wages shall have a lien thereon.

4. That payment of wages at least once a month be made compulsory by law in all provinces in existence, such payment to be made by cheque or current account, and that every person who performs work for wages shall have a lien thereon.

5. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

6. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

7. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

8. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

The five named for the committee on unification were Messrs. Moore, Gillis, Coughlan, McEwen and Leckie, with F. A. Acland, deputy minister of labor, and ex-officio. The conference will resume its sittings tomorrow.

The resolution dealing with the pay and working hours for women came from the committee on minimum wage, and read as follows: "We approve the principle of a minimum wage for women and girls, and recommend that a competent authority be created in each province in the Dominion to establish a minimum wage adequate to maintain self-supporting women and girls, and such authority shall be empowered to fix hours of employment for such women and girls not already provided by legislation, and further recommend that such hours of employment should not exceed 48 hours per week, except of employees engaged in domestic or agricultural employment."

The committee on mines and mining laws reported that it had investigated the departmental policy on mining laws, item by item, for each of the various provinces. The committee found that many minor provisions exist in the various acts of Canada, which are made necessary by local conditions, and concerning which no practicable uniformity is possible. The members, therefore, directed their attention to those principles or provisions of a general character which are applicable to all provinces.

The following recommendations on mines and mining laws were adopted: 1. That the minimum wage for boys working on the surface (ground), and that no boy be allowed to work on the surface unless he has attained the age of 14 years, shall be no boy under 18 years of age power machinery used for moving more than a man of power, or person other than a man of power, shall operate any power machinery, or over raising or lowering persons in a mine.

2. In order to bring uniformity in mining laws, we recommend that all mining laws providing for not more than 48 hours of work, and that no person shall operate any power machinery, or over raising or lowering persons in a mine, shall be enacted in all provinces.

3. That legislation providing for miners' compensation in all provinces, and that every person who performs work for wages shall have a lien thereon.

4. That payment of wages at least once a month be made compulsory by law in all provinces in existence, such payment to be made by cheque or current account, and that every person who performs work for wages shall have a lien thereon.

5. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

6. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

7. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

8. That legislation be enacted in all provinces providing that no employer shall employ a person who is under 14 years of age, and that every person who performs work for wages shall have a lien thereon.

COBALT COPPERES THEIR VENTURES

One Strikes Dry Hole, Another Salt Water—Kerr Lake's Mistake. Cobalt, April 30.—In their search for an option on the Nipissing has found a "dry" hole, and the Hollinger Consolidated and the Hollinger Mining Corporation have been moving round the world at such a rapid pace that no reports of mishaps are as yet received.

The Kerr Lake has been distinguished itself in the same field. Its recent action in regard to the Mondouan, now known as the Pelee Island Mining Company, is fairly characteristic of the methods of the Cobalt companies.

Not long ago the Kerr Lake had an option on the Mondouan—and spent some time and money in digging and otherwise examining the property, but when the time for the first payment arrived they asked for an extension. This was refused and they retired exultantly from the field.

Apparently during the whole tenure of their occupation they failed to observe anything unusual about the property, and yet it is one of the most remarkable which has been discovered in the province for many years. The chance at the ore is sufficient to arouse deep interest in any one having even a moderate knowledge of minerals, and we are sympathetic with the fact that many other men of the same kind of mind have been particularly interested in the Kerr Lake.

FOURTH BUSINESS TRADING MARKET

Transactions Are Small, But Prices in the Main Are Firm.

TRADING HARD TO EFFECT

Business flattened out to further extent on the Toronto Mining Exchange yesterday, partly due doubtless to the two days' impending holiday. Together with this might be associated another decline in silver to a new low of 111 1/2.

COBALT SHIPMENTS FROM FIVE MINES

Over 238 tons of ore and concentrates, or 625,613 pounds, comprised the weekly output from the Cobalt camp, ending yesterday afternoon, sent out by five mines, according to official information received by Hamilton B. Wills over his private wire from Cobalt.

Silver bullion apparently continues to be accumulated by the Mining and Metallurgical Corporation, inasmuch as during April no such shipments have been reported. Operations were again the leader in the output of the refined product in now storage at both mines.

SILVER PRICES

London—6 1/2 d per ounce. New York—\$1.11 1/2 per ounce.

BRADSTREET'S TRADE REVIEW

Toronto reports to Bradstreet's say that there is not a great deal that is new to report in the wholesale trade in this city. Some dry-goods merchants say there is a slight falling off in business, but they attribute this to a tendency to go slow on repeat orders after the placing of the spring trade.

STUDEBAKER EARNINGS

New York, April 30.—Studebaker Corporation declared a regular quarterly dividend of 1 3/4 cent per share on common stock. Following a directors' meeting President Brainerd reported profits of the corporation and its subsidiaries for the first quarter of the year were \$5,272,092 before taxes.

HAMILTON'S CLEARINGS

Hamilton, April 30.—(Special.)—Local bank clearings for April were \$32,500,000, as against \$22,420,000 for April last year, a net increase of \$10,080,000 for the corresponding month in 1919.

LONDON OILS

London, April 30.—Calcutta linned, 4 1/2; Lined oil, 10 1/2; Petroleum, American, 12 1/2; Petroleum, 2 1/2; Rosin, American, 5 1/2; Turpentine spirits, 21 1/2; Tallow, Australian, 20.

INCREASE IN CUSTOMS

Ottawa, April 30.—(By Canadian Press.)—Customs shows for the month of April, 1920, show an increase of \$1,000,000 over the corresponding period last year. Comparative figures are: 1920, \$17,763,082; 1919, \$11,424,989.68.

NO SHORTAGE OF STOCKS

Stock market promoters are making certain that there shall be enough securities to go round, even if, as in the case of the Spanish River Company, new preferred stock has to be issued to pay dividends. Like the issue of paper money in the European countries, the printing press is a fine thing for a time, but when the point of saturation is reached, then the trouble commences.

"MOVING DAY" ADDS SELLING PRESSURE

New York Stock Market Experiences Tenth Consecutive Reversal.

New York, April 30.—The stock market experienced its tenth consecutive reversal today, tomorrow's recess following moving day adds selling pressure. The market was characterized by unfavorable developments, however, including further signs that the Federal reserve bank is continuing its policy of contracting credit by all the means at its command.

NEW YORK CUBS

New York, April 30.—Trading during the afternoon displayed a slightly firmer tone as compared with the previous session, but the whole was lower than yesterday's action. There were some issues that sustained losses amounting to as much as 10 per cent. In the mining group Boston and Montana was featured.

BANKS BEING INVESTIGATED

New York, April 30.—The New York Federal Reserve Board is making a sweeping investigation of bank acceptance or bill market. This body has sent to banks and dealers throughout the country a comprehensive questionnaire containing 39 queries on all discount markets. The reserve board feels the privilege of bank acceptance is being abused in some instances, and this class of paper should be more carefully scrutinized and bear its share of burden in the present deflationary program of the government.

MONEY AND EXCHANGE

London, April 30.—Bar silver, 64 1/2 per ounce. Bar gold, 106 1/2. Money 4 1/2 per cent. Discount rates, short bill, 5 1/2 to 6 per cent. Three-month bills, 6 1/2 to 7 per cent. Gold premiums at London, 140.00.

A Safe Place for Valuables—SAFETY DEPOSIT BOXES

HIGH MONEY RATES

Must be Influenced

Newer Issues on Toronto Market Quite Buoyant in the Day's Trading.

ROYAL BANK SHARES FIRM

Banks are now charging seven per cent to Toronto brokers on loans now outstanding, but this was without influence on some of the stock deal in yesterday. Spanish River preferred relapsed sharply on the announcement of bonus stock instead of cash for back dividends.

ANOTHER G. T. R. PLAINT

London, April 30.—(By Canadian Associated Press.)—The Financial News, commenting on the assertion of Norman Smithers and the meeting of the shareholders of the Grand Trunk Railway, that the industry inflicted on the company's interests by government purchases was nothing to the catastrophe avoided, remarks that this may be true, but if the company had had fair play the catastrophe would never have menaced.

NEW YORK STOCKS

CURB STOCKS

We specialize in New York Curb stocks, and are prepared at all times to give latest market quotations, as well as authentic and dependable reports on the various companies.

An Awakening

VISIBLE signs of an early resumption of big activity among the New York curb issues are indicated, and heavy inside accumulation is reported now in progress. The rapid advance in Boston & Montana may be taken as a barometer of coming events in the coppers, oils and industrials. A number of powerful pools are now being formed, and such action is generally followed by wide upward swings.

LEGISLATION IN YUKON. Dawson, Y.T., April 30.—The Yukon legislature after being in session for three weeks, adjourned Wednesday, after passing 11 bills, the most important of which was the one prohibiting the sale of intoxicants for beverage purposes. Other legislation enacted included the reconstituting of the wild game laws, providing for the licensing of non-resident big game hunters and fur traders. The export of moose and caribou hides will be prohibited to prevent the slaughter of these animals.
