## BRITAIN'S TRADE SUPREMACY SHOWN

Comparative Figures Show That Britain Maintains a Big Lead Over Other Countries—An Imperial Tournament and an Imperial Exhibition Being Planned—Newsy Budget From the Mother Country.

Special Correspondence of The Times—Star

London, Sept. 24, 1910—It has long been a point of controversy between free traders and tariff reformers whether, even with Britain's big increase in Overseas trade, other countries under protection were not increasing their trade at a greater ratio, and if the tariff reformers were correct in their figures, they should have the effect of giving pause to those who in these days decry Britain's progress, and almost appear to welcome her "decadence." This is not to say patriotic and is hardly worthy of those who would rival their opponents in imperialism. It should be matter for rejoicing by both parties that the unbiased figures of the board of trade show that for the six months ended on July 31, Britain's imports increased by the amount of £24,300,000. Germany's imports increased in the same period only by £5,000,000, while United States imports increased by £18,900,000, and France £5,000,000. The exports of all parties, since they show an increase of no less than £28,000,000, as against £24,000,000 from Germany, United States, only £2,000,000, and France, £10,300,000. Such figures hardly bear comparison with the highly satisfactory to loyal Imperialists of all parties, since they show Great Britain still maintains her supremacy in the world of trade and commerce.

"England, Wake Up!"

The New Regime although only begun seems to prove that the old country is following the advice of King George who when Prince of Wales came back from his Imperial tour with the magic warning "England, Wake Up!" There are many signs that the Imperial spirit is now very much alive indeed. The more the interest of political parties is focussed on questions that concern the Empire, the more do domestic differences fade.

An Imperial Tournament.

An Imperial Tournament is one of the signs of the new spirit of the age, and citizens abroad will understand that the old country cannot be said to have a partial or little England Party. It has not been decided by the Military appointment of the Empire is its nature to be regarded as the proud duty

## TUG HELP AGROUND ON THE BREAKWATER

Steering Gear Refused to Work and Tugboat Was Swept by Heavy Seas on the Negrotown Breakwater—Captain and Crew Get Ashore Safely—Probably a Total Loss

Piled high on the rocks on the outside of the breakwater with high waves breaking over her and almost completely hid from view by clouds of spray, the tug Help lies in a dangerous position and will probably be a total loss.

The tug left the city early this morning with a scow-load of mud from the dredge ironworks and after dumping the scow refused to work and with the high wind and heavy sea running the tow boat was rapidly driven on the outside of the breakwater. As the craft approached the rocks Captain David Reid and the

members of the crew, six in all, made preparations to get ashore and when the boat struck a line was thrown on the breakwater, and on this the men were able to get off.

With the force of the sea the tug was soon carried up on the wall of masonry and she commenced to pound and fill with water.

The scow which was cast off by the tug was picked up by the tug Lord Wolsey and she and the tug, Lord Roberts and Lord Kitchener, stood by the disabled craft, but on account of the exposed position were unable to lend any assistance. The boat is the property of the Englewood Pulp & Paper Company.

## TRACING THE LOS ANGELES FIRE FIENDS

Los Angeles, Calif., Oct. 4—The seventh body and part of a backbone have been recovered from the ruins of the Times building. Several bodies are known to be pinned beneath the mass of twisted steel girders, but it will be impossible to remove them until the steel has been removed. The bodies are close together and it is believed that they fell down the elevator shaft.

It is impossible to identify six of the bodies recovered. The police are at present on a twelve instead of eight hour shift at the police station, but the officers found in a brick warehouse near the plant, but which turned out to be a sort of gin mill. Some one had arranged a small electric buzzer with a clock and two dry cell batteries attached, in a tin box and secreted in the warehouse.

The continued buzzing finally attracted attention and the apparatus was rushed to the police station, but the investigation of the explosion. Mr. Rogers said: "We have important information in our possession."

He expressed the hope that the investigation would develop sufficiently today to justify a disclosure of the findings made. Determined efforts are making to trace the launch Peerless in which the dynamite purchased at Giant, California, by the Los Angeles Times was hidden.

A mysterious craft answering in every particular the description given of the launch Peerless has disappeared from Richardson's Bay, Sausalito. Frank Leeman, a fisherman, says the launch came into a cove at Sausalito on the night of Sept. 20. He said he could see three occupants was at it at night, but no trace of its occupants was to be observed by day.

When Leeman returned from his fishing on the morning of Sept. 23 the boat was gone.

From the time the white launch was last seen at Sausalito by Leeman it was not observed until nine o'clock yesterday morning, when William Gorman saw what is believed to have been the same boat anchored off North Sausalito. At noon the craft had disappeared.

Letters forming the name "Peerless," which was the name of the craft that called at Giant, Calif., were purchased from a local firm on the evening of September 22, by two men who talked with the description of two of the trio of suspects who bought dynamite at Giant.

## WOULD SEE DEMOCRACY SPREADING

Australian Premier Looks Forward to Greater Power for Federation.

THE CABLE SERVICE

Agitation for Reduction in Pacific Cable Rates Likely to be Successful—Stowaway Discovered on a Steamer in a Ventilator Where Temperature Was 130 Degrees.

Times' Special Cable

Melbourne, Oct. 4—The premier of the Commonwealth at a dinner in Sydney delivered a speech in which he claimed that greater and more democratic power should be given to the federation. He foreboded further the interests of the party, referring to the linking together of the nations of the earth as the result of the English speaking democracy. He said he looked forward to the time when the English speaking people would be bound together by the common object of helping bring them ashore. None of the four were again seen alive.

The agitation for the reduction of the Pacific cable rate has received an impetus since Sir Joseph Ward, premier of New Zealand, interested himself in the question. At present he is urging, on behalf of his government, that Australia should make striking representations to the Pacific cable board to reduce the present rate to nine pence. Mr. Fisher has declared his opposition to the reduction. Deducted action is, however, unlikely until May next when a conference on the subject will be held in London.

According to a wireless telegram, received from the Makura, the Makura was three days out from port on her way to Vancouver, when a stowaway was discovered hidden in the steering room ventilator where the temperature was 130 degrees. The unfortunate man had merely a small bottle of water and three sandwiches. The heat at all times prevented sleep.

Wellington, N. Z., Oct. 4—Premier Ward speaking at the Laboral labor federation meeting expressed great satisfaction at the financial position of the dominion.

CITY OF CALGARY GROWN DURING THE PAST FEW MONTHS

The city of Calgary has every reason to feel well satisfied with her growth during the past few months. Her building permit for August of this year show an increase over those of the same month a year ago of \$1,702,980. The bank charges for the same time amounted to \$13,062,190 while for August, 1909, the amount was \$8,292,216. Custom House receipts amount to \$84,990 against \$33,730 for August 1909. The growth of the city seems to be assured a continuance throughout the rest of this year.

## HEARD SWEET MUSIC AND SAW MANY COLORS

This Was the Effect at an Explosion on a Spokane Man Who Was Blown up into the Air by Giant Powder

Spokane, Wash., Oct. 4—Peter Bahfor, a laborer, was hurled into the air when several tons of broken stone by the explosion of 65 sticks of giant powder while blasting in North Division street here, sustaining only a slight scratch on the fourth finger of his left hand. He was standing directly over the charge when the blast was made. Workmen on the scene believed the man had been blown to pieces, but in a few moments Bahfor emerged from the debris, shook himself and asked to be taken to his home. He was sent to the emergency hospital, where Steward Dare and two city physicians made a thorough examination, but found only a scratch on the finger. Bahfor returned to work in an hour, none the worse for his experience. Afterward he said that he will show the aviators where to turn off through space was the sound of sweet music and a display of brilliant colors. However, he added, he does not believe he saw consciousness from start to finish.

## LONDON SCHOOL TEACHERS COMING OUT TO CANADA

League of the Empire Endeavoring to Find Situations for the Unemployed—General Cable News

Times' Special Cable

London, Oct. 4—The League of the Empire is endeavoring to find situations for London's unemployed teachers. Already many have gone to Canada, and it is expected more will go in the winter and spring. It is suggested that a loan should be raised to promote the emigration of teachers generally.

Montreal, Thursday, to meet Godech, Deriaz, the Swiss wrestler, sails for London's unemployed teachers. Already many have gone to Canada, and it is expected more will go in the winter and spring. It is suggested that a loan should be raised to promote the emigration of teachers generally.

The Times referring to the Hudson Bay route says the east will presently see there is plenty of work for its railways and for a new route as well. Anyway the west cannot be denied when it has fairly made up its mind. "On the whole it seems pretty clear that the Bay has been regarded too severely; a better knowledge dispels much of the bad reputation it has hitherto borne. It is certain the thing will some day come to pass, and that day is probably much nearer than most people anticipate."

The Brazilian, Canadian and General Trust Co's net profit for the year ending Sept. 30 was \$28,277. A final dividend of 8 per cent on ordinary shares, making 8 per cent for the year, and a final dividend of 10 per cent on preference shares, making 20 per cent, has been declared. \$18,000 has been added to the reserve.

## TROOPS AMBUSHED AND 16 KILLED

They Were Pursuing a Notorious Band of Brigands in the Caucasians

Vladikav, Caucasus, Oct. 4—Troops sent in pursuit of the notorious brigand, Zelin Khan, were ambushed by his band and a rural captain, three officers and twelve soldiers were killed and many others injured.

The provincial government has ordered through Agent-General Turner in London, a presentation of a silver plate for honor to the cruiser Rainbow on her first arrival here. The design is heartily approved by Admiral Kingsmill.

It provides for a very handsome vase, centrepiece, the handles formed respectively of wappa and big horn sheep of British Columbia, emblems of a nautical character being at the base and the inscription will be as follows:—"Presented by the province of British Columbia to H. M. C. S. Rainbow in welcome recognition of this being the first vessel of the Canadian navy to be stationed on the Pacific coast of the Dominion. It is signed from great and belief that the Rainbow and her successors may fulfill their part in the union and strengthening of the naval defence of the empire."

## SILVER PLATE FOR CRUISER RAINBOW

Province of British Columbia to Present a Handsome Vase to the First Canadian Cruiser When She Arrives on the Pacific Coast

Victoria, B. C., Oct. 4—(Special)—The provincial government has ordered through Agent-General Turner in London, a presentation of a silver plate for honor to the cruiser Rainbow on her first arrival here. The design is heartily approved by Admiral Kingsmill.

It provides for a very handsome vase, centrepiece, the handles formed respectively of wappa and big horn sheep of British Columbia, emblems of a nautical character being at the base and the inscription will be as follows:—"Presented by the province of British Columbia to H. It is signed from great and belief that the Rainbow and her successors may fulfill their part in the union and strengthening of the naval defence of the empire."

## ALLEGED MAIL ORDER FRAUD IN TORONTO

Toronto, Oct. 4—More than 100 letters complaining of the operations of Samuel Goldsmith, 207 St. Clarendon avenue, led to his arrest by the police upon a charge of obtaining money by false pretences the specific charge being that through the Toronto Outfitting Company he secured \$25 from William Chisholm of Loch Lomond, Cape Breton.

Goldsmith's office was originally in Yonge street. When the police had troubled him there too frequently with requests to make good promises made in mail order business he moved to another office and continued the same business. He operated by advertising to outfit anyone with anything. The ads were inserted in papers in distant parts of the Dominion. Witnesses may be brought from all parts of the Dominion to testify at his trial.

## RADIUM NOW ONLY \$2,100,000 AN OUNCE

A Drop in Price of Nearly a Million Dollars—Radium Banks Being Established

New York, Oct. 4—Radium is growing cheaper. Sir William Ramsay in a recent London lecture, stated that the present market price is only \$2,100,000 an ounce, a drop of \$900,000 from the quotation given out by scientists in January last. A radium bank has existed for some time in Paris. Last January one was started in London, and similar institutions are to be established in New York and other cities. These banks loan the precious substance to scientists and physicians. The cost is enormous as much as \$200, has been charged for the use of 100 milligrammes for a single day.

## ST. JOHN AMBULANCE ASSOCIATION FORMED IN CHARLOTTETOWN

Charlottetown, Oct. 4—(Special)—The provincial branch of the St. John Ambulance Association was organized here last night by Col. Jones, and Captain Birdwhistle, of Ottawa, Lieut. Governor B. Roberts, presided at the meeting. All the maritime provinces are now organized and there is promise of good work in first aid in the east. Col. Jones and Captain Birdwhistle leave today for the West.

## THE WEATHER

Fresh to strong southwest to south winds; fair, higher temperature, local showers on Wednesday.

## THE G. T. P. ROUTE IN BRITISH COLUMBIA

Vancouver, B. C., Oct. 4—It is almost a certainty that the proposed branch of the Grand Trunk Pacific between Fort George and Vancouver will traverse the Lillooet district and strike the Canadian Pacific at or near Agassiz station.

An engineering party is now working north of Agassiz. Its objective is Lillooet. It is a route on which low grades can be secured all the way from Lillooet to the Fraser to Agassiz where the line will parallel the Canadian Pacific into Vancouver.

## THE TIMES' NEW REPORTER

JOY IN WOODSTOCK

Woodstock, Oct. 4—(Special to the Times new reporter)—The news that Ald. McGoldrick, Potts and Willet will attend the Union of New Brunswick Municipalities, as delegates from the water port, is regarded here as ensuring the success of the convention, and a record attendance is expected. The citizens have long desired to gather civic wisdom from the principal source, and will hang on the words of the St. John solons all the time they are here. Ald. Willet will be asked to address a Mothers Meeting, and Ald. McGoldrick the school children, while Ald. Potts will address the city masters and such others as may be able to come in from the outlying districts. There have been many talkfests in this town, but this is universally regarded as the best ever. A discussion on "What is the Hasam method," will be introduced at an early stage in the convention, in order that the St. John aldermen may appear at their best. Several local men of influence believe that the Hasam method will ultimately be adopted by the trustees for the construction of the Valley Railway and for this reason a clear exposition of the method is desired. A motion picture will be screened the first night of the convention at Woodstock. The C. P. R. will offer special rates in order that all who desire may have opportunity to see and hear the St. John aldermen.

A SERIOUS DANGER.

Mr. Peter Binks said this morning that the aldermen are fully justified in proceeding with great caution in the matter of paving and boulevarding a portion of German street. Mr. Binks points out that if the city council proceeds in this case with a reckless disregard of precedent the residents on some other street may come along with a proposal to pay the whole cost of paving the street in front of their houses. Such a result would paralyze the whole street department, and result eventually in having no street work to do at all.

"Such a thing could not be thought of for a moment," said Mr. Binks.

## PREPARING FOR THE BIG AVIATION MEET

Signal Arrangements for Chicago—New York Race Next Saturday—European Flyers

Chicago, Oct. 4—Plans for blazing the route of the aviators in the Chicago-New York race, which is scheduled to start next Saturday have been completed. Indian "boats" giving out thick, black smoke by day and a dull red glow at night, alights spread over the roofs and captive balloons are among the signals which will designate the 78 stations on the route. Generally speaking the aviator will follow the route of the Lake Shore and Michigan Southern to Buffalo, and the New York Central the remainder of the way. In approaching towns signals will show the aviators where to turn off the path of the railroad to fly around a good landing place.

A pathfinding automobile will be used today to establish a relay service of motor cars all the way to New York. A fact car will be engaged at each important town on the route to be in readiness for a telephone call to carry radios, supplies or medical aid to the aviators.

Biarritz, France, Oct. 4—M. Tabuteau made a splendid flight over the Pyrennes from Biarritz to Pau last evening. The aviator rose at San Sebastian and directing his course between the lofty peaks of Haya and Pignatol, followed the valley of the river Neva twice, crossed the course of the river Bidassoa to the sea over the head of Biarritz.

St. Petersburg, Oct. 4—The first aeroplane flight over St. Petersburg was made yesterday by Lieutenant Budneff in a Farman biplane. The aviator followed the course of the river Neva twice, circled about the spire of St. Isaac's cathedral and in returning passed over an island in the Finnish gulf.

## COURT CASES AT FREDERICTON

Huntsmen on Miramichi Get Many Moose and Caribou—General News from the Capital

Fredricton, N. B., Oct. 4—(Special)—Judge Wilson presided at the regular term of the County court which opened this morning. There were no criminal cases to come before court. The docket is composed of one appeal and four non-jury cases. Beverly Grease and Obed. Naoum are suing the city of Fredericton for damages sustained by colliding with the steam roller some time ago. The case of John E. Wilson vs. J. H. Vanburen was postponed, owing to absence of A. J. Gregory, the defendant's counsel. John Katsen and William Neuzin applied for naturalization papers.

Judge McLeod presided at the Chancery division this morning, but there was no business.

Tom Holmes, in Sunbury jail for criminal assault will be tried before Judge White on October 13.

F. H. Bailey, an English sportsman who was taken ill with appendicitis while hunting in the Miramichi woods, arrived here today in company with Dr. Holden. He is at the Victoria Hospital, and is resting comfortably. Before being taken ill he shot a moose with an antler spread of sixty-two inches, the largest of the season. Dr. Holden also shot a moose.

Sportsmen returning from the Miramichi today brought with them heads of ten moose, and four caribou.

Richard A. Ester left last night for Nelson, B.C., where he will locate.

The Palmer Company have decided to accept the concessions offered them by the city council, and will remain here.

## MAN AND WIFE REWEED; FEAR FIRST MARRIAGE VOID

Darham, Conn., Oct. 3—Alton W. Stone, and his wife, who was Miss Hubbard, of this place, were remarried in the hospital at Middletown, last week, on advice of a lawyer, because of the fact that their marriage ceremony, about a year ago, was performed by the Rev. Chester H. Sweet, the marrying parson, formerly pastor of the Durham church, now awaiting trial on a charge of misappropriation of the church funds.

The Rev. Mr. Sweet, according to the investigation of the church officials, was never ordained to the ministry. This fact came out after his arrest.

The matter affected Mr. Stone so that he became ill and was removed to the hospital in Middletown. His condition became serious and it was thought best to have the marriage ceremony performed by a lawyer who was consulted as to the former ceremony's legality.

A Middletown minister performed the ceremony in the presence of witnesses. Mrs. Stone is a sister of F. P. Hubbard, treasurer of the church, who was instructed on advice of the lawyer to charge against the Rev. Mr. Sweet.

Soon after Mr. Sweet's arrest Mr. Hubbard was attacked with heart trouble and died suddenly. It is said he worried over the affair.

## A SOCIALIST RUPTURE

James Simpson Resigns from the Ranks of Party at Toronto

Toronto, Oct. 1—James Simpson, chairman of the Board of Education, member of the Commission on Technical and Industrial Education, and up till yesterday one of the foremost leaders of the Socialist party, has resigned from the latter body.

Though this has been predicted for a long time when the news leaked out last night it caused no mild sensation.

The rupture is over the refusal of Mr. Simpson to make known the nature of his report on technical education to the Socialists before submitting it to the government.

## HON. MR. LEMIEUX TO SAIL FOR SOUTH AFRICA

London, Oct. 4—The Hon. Rodolphe Lemieux, Canadian Postmaster-General, and the Dominion representative at the opening of the Union Parliament of South Africa, sails from Southampton for Cape Town on Saturday, October 8, in the Keeworth Castle.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.

FAMOUS GEMS OF PROSE

OHIO. By George Bancroft

From an oration at the dedication of the Oliver Hazard Perry statue at Cleveland, O., Sept. 10, 1890.

OHIO rises before the world as the majestic witness to the beneficent reality of the democratic principle. A commonwealth younger in years than he who addresses you, not long ago having no visible existence but as that of all England when it gave birth to Raleigh and Bacon and Shakespeare and began its continuous attempts at colonizing America.

Conscious of the dynamic power of the mind in action as the best of fortresses, Ohio keeps no standing army but that of her school teachers, of whom she pays more than twenty thousand; she provides a library for every school district; she counts among her citizens more than three hundred thousand men who can bear arms and she has more than twice that number of children registered as students in her public schools.

THE LONG FUR COAT ALWAYS A FAVORITE

There seemed a fear at one time that the new high-length jackets over which Paris is so enthusiastic, would oust the graceful long coat from favor, but more long fur coats than ever are to be worn this season.

The Evening Chit-Chat

By BETH CAMERON

"I'm so discouraged," said the sick lady across the street. "Here I've been dieting and doing without candy and eating eggs, and taking exercises and cold baths, and doing everything else that doctors tell me to do, and I don't believe he's much good."

The sick lady across the way broke down after six years of overwork. For six years she worked in an office where she had to work overtime three or four days in the week.

And now after six months of hygienic living, she is complaining because she is not entirely well yet.

It takes two or three days to tear down a house, that it takes as many weeks to build.

Just why should one expect to reverse the ratio and build up one's body in about one-hundredth the time it took to tear it down?

And yet, how many men and women lose faith in their doctors because they can't accomplish that miracle.

Does it seem exactly sane or reasonable or fair, that a woman making a very extravagant purchase the other day, or rather, I heard her telling about it.

"But I think it was nice to give the boy fifty cents for taking anything so nasty as castor oil," she protested. "I don't see why he shouldn't have a reward."

Neither do I. But that wasn't reward. It was a bribe. He wasn't given it because he had been good. He was offered it on condition he would be good.

And I think there's a world of difference between those two.

Canadian Visitors

Rarely has the old country been so constantly the resort of Canadian statesmen as during the past summer, and the newspapers in the quiet summer season have found interviews with them of increasing interest.

One of our latest visitors has been the Hon. A. S. Bannister, the Minister of Mines and Emigration in Nova Scotia. Like Sir Jas. Whitney, his vacation has so far been of rest and health seeking.

Ontario Fruit in England

The big consignment of peaches from Niagara to Covent Garden market which I mentioned last week has been altogether successful. The fruit has stood the transport very well, and has been sent all over the country and fetched a good market.

A hearty welcome to Bristol and the West of England has been extended to the party of journalists just arrived on the interesting errand of reporting upon Bristol as a landing place for Canadian shipment. The members of the party are now exploring Devonshire and the West of England, and especially the port of Bristol, and important results are expected.

British M. P.'s in Canada

The political vacation this year has been well spent by many of our prominent politicians, who are interested in Canada. Great interest is felt in the big scheme launched in British Columbia by two of our popular M.P.'s who are also influential men of business.

At the meeting of the common council yesterday afternoon the resolution to transfer the west side lots to the C. F. R. was finally carried by a vote of 10 to 5. It was decided on motion to authorize the mayor, with the common clerk and recorder, to go ahead and execute the necessary deeds and conveyances.

ALDERMAN BAXTER APPOINTED RECORDER

West Side Alderman Will Succeed The Late Hon. C. N. Skinner

(The Standard.) John B. M. Baxter, K.C., will be sworn in as recorder of the city of St. John in succession to the late Hon. Chas. N. Skinner. He was appointed to this office at the meeting of the Provincial Government on Friday evening, and will probably be the last of the city recorders to be appointed by the government, as it is understood that in the future the appointment will be vested in the city.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that has been able to cure in St. John, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being positively cured by this medicine, restores the mucous surfaces of the system to their normal condition, and thus destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

COMPLIMENTS FOR C. A. P.

The Washington Correspondent of the London Times and the Enterprise of the Canadian Associated Press.

The deliverance of The Hague court in the Fisheries dispute was covered by the Canadian Associated Press from staff to finish. The award was announced on the morning of the 7th of September, and at 11:07 P.M. the London manager of the C. A. P. called from The Hague the text of the award, which was received in papers. The C. A. P. gave the questions and answers verbatim.

The Washington correspondent of the London Times states in his cable despatch on that paper on Sept. 11:—"The better the Fisheries award is understood the greater is the satisfaction expressed by American public opinion. The early disappointment of the interests concerned appears to have been mitigated, if not entirely removed, by the fuller account of the award on Question 5, with which, thanks to the enterprise of the Canadian Associated Press, we have been furnished."

The American papers contained only a general summary, which did not embody the information to give an intelligent understanding as to the effect of the award.

WHERE HALIFAX SHAMES ST. JOHN

St. John, N. B., Oct. 3rd. Editor Times.

Sir,—I was a visitor in Halifax one day last week and passing up one of the principal thoroughfares at night saw a modern patrol wagon drive briskly into a crowd of people, and take away a couple of drunken brawlers, one a woman. The wagon was enclosed and a warning bell caused the street to be cleared for the vehicle. Actually my face burned with shame to think so-called up-to-date St. John is still dragging its screeching, dishevelled woman prisoners to King street east on slovens and other chance teams. The inhumanity of it, the expense of it, the bad moral effect of it, and the antiquity of it, is a standing smirch on the civic record. Now that the Local Council of Women have secured over \$200 with which to procure a patrol wagon for St. John, why in the name of all that's sensible is the Common Council demurring? Does it expect some philanthropist to keep the horse and pay for its driver? Last spring \$200 was granted for public hand concerts and it is safe to assume the present trust established will be followed in 1911. This is a luxury of questionable value, a patrol wagon is a crying necessity. The Local Council of Women should not be treated indifferently any longer, and while I think of it, it strikes me the ladies of this excellent organization might easily have made public some appreciative word about the ladies of the Natural History Society, the Kings' Daughters, the St. Stephen's Guild and other affiliated bodies who were part earners of the Exhibition \$200, which is said to be in the bank towards the much mooted patrol. This is a city not yet large enough to withhold credit in detail.

OPERATION HER ONLY CHANCE

Was Cured by Lydia E. Pinkham's Vegetable Compound

Lindsay, Ont.—I think it is no more than right for me to thank Mrs. Pinkham for what her kind advice and Lydia E. Pinkham's Vegetable Compound has done for me.

When I wrote to her some time ago I was a very sick woman, suffering from female troubles, inflammation of the uterus, and a number of other ailments. I had been to the doctor and he had advised me to have an operation, but I refused to do so.

For Skin Health

A lifetime of disfigurement and suffering often results from improper treatment of the skin or neglect of simple skin affections. Cuticura Soap, assisted by Cuticura Ointment, affords the purest, sweetest and most economical method of caring for the complexion, preventing minor eruptions from becoming chronic, and speedily dispelling severe eczemas and other tormenting humors, itching and irritations, from infancy to age.

For the Girl's Clothes

Now comes the time when the college girl's clothes must be prepared. She has already gone to her studies, and her wardrobe must follow. She is probably now turning over in her mind the clothes she will wear. Being very young and feminine she naturally first turns to the fluffy things or crocheting wear and the very best dresses and suits. A coat suit is one of the first things needed, and this should be given the first attention.

Some of the late coats are quite extreme in length—about 10 or 12 inches from the ground—and there are others more modified, just a trifle below the knees. Where many girls only plan one suit it is much wiser to choose a medium dark color. There is no end of charming colors—blue in a wide range of colors, as well as staple navy, will be much worn this season, and in the newer tones there are many lovely browns, with a great deal of white in the trimmings.

One very nice style of gown should be of a soft batiste in white or color, silk muslin or cotton crepe. Rose colors will be worn for evening costumes this year. Black is very good, but it is not so desirable for young women. It is a town of gray chiffon worn by a young woman. It has a satin lining of wistaria and is trimmed in the same material.

ABOUT A PARROT. A Wonder That Sings and Talks and Improves Every Day. Teddy is his name, and in one respect at least he is like the sturgeon cologne, for he is a polished talker, though he does one thing that the cologne never does.

With a head but an inch and a half wide says the Boston Globe, the abundance of gray matter displayed by this good-natured little chap, whose value is set at \$1,000, but who will never be for sale at any price during the lifetime of Mrs. Carlton, is truly wonderful.

One of the bird's greatest accomplishments, and he is frequently heard whistling usually in the proper key, of Yankee Doodle. This was taught him several years ago, and he is frequently heard whistling it now without solicitation.

The parrot has contracted a number of colds, but only twice has he been dangerously sick, during which time he has been the most careful nursing kept him alive and brought about his recovery. No baby receives more careful attention than does this wonderful bird.

SOME FAMOUS DEAD HEATS

A dead heat on the race course is an event of extremely rare occurrence, which has occurred between the Derby winner, Lemberg, and Neil Gow in the Eclipse stakes of £10,000 at Sandown park race course on the 12th of September. The race was a dead heat, and so far as the spectators were concerned, there were only the two above named in it.

HOME LIFE IN JAPAN

Career Cut Out for the Japanese Wife is Not Easy. "The Japanese child," writes Jiro Shimoda in the Japanese Magazine, "is required to honor its parents and to sacrifice itself for the sake of the family. The parents must not spare themselves for the good of their children. The children must reflect this attitude."

First Class Cruiser "Oochran," says: "One day I slipped and fell with my arm on an exhaust steam pipe, which fairly frizzled the skin. At once the ship's surgeon dressed my arm, but from the friction the burn took the wrong way, owing to a lot of dirt from the pipe having got embedded in the flesh and setting up blood-poison. It was very sore, and from underneath the festering flesh matter oozed out. I was in fearful pain and did not know how to get ease."

At the ministers' meeting yesterday afternoon it was decided to organize a band of from 20 to 30 personal workers, ten or more from each church, to assist at the Torrey meetings at the Queen's Kirk in November. Tonight at 8 o'clock at the Y. M. C. A. there will be a meeting of all interested in the campaign.

## FREE KINDERGARTENS

A Review of the Work of the Last Month—What the Children Have Been Doing

The three free kindergartens opened September 6, and have had rather a trying month. In one kindergarten ten children were to go to the public schools, but when the time for opening came all had gone except ten, some of these only being in attendance a very small part of the year. This is only one of the discouragements. The facts are that the mothers should leave the children with the kindergarten until she says they are sufficiently developed to attend a primary school and this education of the mothers seems to take longer than was expected. The enrolment in each room is really larger than it should be, which goes to show that more kindergartens are needed.

Brussels street kindergarten has been moved up to the primary Sunday school room of Brussels street Baptist church. The association are much indebted to the Baptist church for their kindness. This leaves the little Assyrians out in the cold, more or less, as they are too far away to attend, and if they are to become citizens of St. John, now is the time to influence them for good.

The topics for the month have included the family thought, the home, the people in the home, home life, the finger families, and the Autumn thought of fruit and vegetables has been begun.

Assistance is needed in the Kindergarten work, especially in the room on Waterloo street. Young ladies who will volunteer to help will be gladly welcomed in any of the three rooms and the association would like to see a class of young ladies. High school graduates, applying to Mrs. W. C. Matthews, 39 Sewell street, for the training, as in the future there must be openings for more kindergartens. Kate Douglas Wiggin says: "To be a kindergarten is the highest development of womanhood."

## ARGUMENT HEARD IN de FOREST CASE

Adjourned Session of the Chancery Division Held This Morning by Chief Justice Barker

The adjourned September sittings of the Chancery Division were resumed this morning at 11 o'clock in chambers. His Honor Chief Justice Barker, presiding.

In the matter of J. Leslie Kennedy, administrator of the estate of David Kennedy, deceased vs. Andrew J. Slater, administrator of the estate of Helena M. Slater, His Honor, Justice McLeod, concurring, dismissed the originating summons granted on behalf of the plaintiff, without costs and referred the matter to the probate court of Carleton county.

On a prior day W. P. Jones K.C., for the plaintiff, obtained an originating summons which was returnable on the opening day of these sittings. The late Helena M. Slater was a grand-daughter of the late David Kennedy. Mrs. Slater's mother who was a daughter of Kennedy, pre-deceased him. The administrator of the late Helena M. Slater claims that her estate should participate in the personal estate of the late Mr. Kennedy.

Mr. Jones, for the plaintiff, contended that as the mother of Mr. Slater pre-deceased the late Mr. Kennedy, that according to the Statute of Distributions, the word "children" had a natural meaning, therefore the heirs of the children would not take. M. G. Teed, K. C., argued contra.

This morning His Honor referred the matter to the Probate Court of Carleton county as previously stated.

Argument in the suit of H. W. deForest Limited, per L.P.D. Tiley, assignee vs. H. W. deForest was then presented.

This is an action for a decree to compel Harry W. deForest to assign to the assignee of the company, the Union Blend Tea trade mark on the ground that it is part of the good will of the company. The case was heard at the September sittings.

M. G. Teed, K.C., appeared for the plaintiff, and D. Mullin, K.C., for the defendant, deForest, and A. A. Wilson, K. C., for the defendant, J. Harvey Brown, who was joined by Mr. Mullin.

Mr. Teed, K.C., for the plaintiff contended (1) That the plaintiff is entitled to the trade mark by virtue of the agreement made between the company and the defendant at the time of incorporation of the company, when the defendant in consideration for certain shares and stock in the company transferred the tea business together with the good will (2) That the trade mark is assignable as part of the good will (3) That under the Canadian statutes the trade mark is assignable in law (4) That the trade mark is a species of property in respect of which this court will grant specific performance.

Mr. Mullin, K.C., for the defendant, contended that this is a question of whether or not the trade mark was ever conveyed to the company. He argued that the agreement does not expressly mention this. He also contended that the trade mark being a personal one was not included in the terms of the agreement. Mr. Mullin cited a number of authorities in the course of his argument.

His Honor announced that he would consider.

**Y. M. C. A. IS OUT AFTER MEMBERS**  
Ten Teams of Ten Members Each Working to Swell the Ranks of the Association—Winners to Get Prizes

With an encouraging swing which would seem to give promise of success, a membership boosting contest was started yesterday in the Y. M. C. A. and for the first day's work the results show that there are some real active workers laboring zealously to increase the roll of the association. Eight new members were added to the lists yesterday.

The scheme arranged for the contest is slightly different from that of last year, as instead of two teams, there are ten of ten members each, making 100 men in all, who will endeavor to swell the ranks of the "Y." The names of the captains and the numbers of the teams by which they are known, are as follows: No. 1, J. C. Henderson; 2, Murray Jarvis; 3, W. C. Cross; 4, J. L. Brown; 5, W. Latham; 6, L. H. Bertson; 7, H. Kinnear; 8, W. D. Robertson; 9, D. S. Robillard, and 10, R. W. Drinan.

As an incentive towards progress, prizes are being offered to the winning team, and to the three highest individuals, irrespective of teams. In addition to this the five teams in the lead at the end of the contest will be treated to a turkey supper, while the losers will have to be satisfied with a less tempting bill of fare.

**LED MR. LAW A MERRY CHASE**  
Percy Hill Charged With Theft of Money From Cloak Room in Dearborn & Co's Covered Much Ground

From the evidence of George A. Law, driver for Dearborn & Co., Prince William street, this morning in the police court, it would seem that Percy Hill, a young man hailing from Lynn, Mass., had led him a merry chase yesterday afternoon, when Mr. Law attempted to question him concerning a little over \$5 which was missing from his coat pocket. Mr. Law said that he had left his coat in the cloak room adjoining the office, and when he came back to the place, he saw Hill dart outside, and on finding his change missing made after him; one was not included in the chase.

Then a lengthy chase began, the route embracing Prince Wm., Church, Germain, King, South Market, Charlotte, Princess, Sydney, and Leinster streets, until Hill was finally caught and brought to central station. On being searched he had in his pockets over \$5 in silver, but said he had got it at the post office. He was remanded this morning.

The high winds this morning played havoc with the headgear of many of the male citizens. One man in particular, is probably wondering what became of his hat, namely, a citizen who came out of a store opposite Sheriff street and as he did so, the breeze wafted his brown Stetson over a street car, and a gust of wind from an opposite direction, sent the "lid" on the front of a passing street car, on the doopstep, where it remained, unknown to those aboard, until many blocks had been passed.

Stores open tonight till 6 o'clock.
