## LABOR PAYS ITS TRIBUTE TO MEIGHEN

Premier is Chief Speaker at Trades Congress Where He Reviews Labor Successes.

## INDIVIDUAL REWARD WAY TO MAKE RACE

Communistic Systems All Fail, He Says, Where Energy is Unchecked.

Windsor, Ont., Sept. 13.—The feature of the opening day of the thirty-sixth annual convention of the Trades and Labor Congress of Canada was an address at the afternoon session by Hon. Arthur Meighen, Premier of Canada, who arrived on a train from the East constantly behind schedule and was unable to reach the armories where the convention is sitting until almost 3.30. He was on his way from Windsor again at 4.15 being away from his private car only long enough to deliver his address.

The Congress had gotten a start on the report of the resolutions committee, shortly after four o'clock, when mounted policemen came unobtrusively through the main entrance to the convention hall followed by a detachment of city police and requested themselves along the back of the hall and President Tom Moore requested the permission of the delegates to interrupt the proceedings in order that they might hear the Premier of Canada speak.

He then introduced the Premier, telling the delegates that should Mr. Meighen feel it his duty to say things which would be not in harmony with which they were not in harmony it was their duty to give him an attentive hearing.

An Ovation for Premier  
Premier Meighen was given an ovation as he rose to speak and an attentive hearing throughout his address. After briefly reviewing the history of organized labor on this continent he intimated that the best way to get results tending to the improvement of the lot of the wage earners was by a steady determined movement of city police and requested themselves along the back of the hall and President Tom Moore requested the permission of the delegates to interrupt the proceedings in order that they might hear the Premier of Canada speak.

Continuing, the premier said that improvement was obtained by exposing the facts and educating public opinion, by loyalty to your organization's respect and power, by studying the advances made in other countries in order to keep abreast, or better than abreast at home, by regarding the rights of others, by fulfillment of contracts, by dependence on the ballot, by seeking success only through the power of public approval. These are the methods, and the only methods, that have in the past brought advance without reaction. I believe they are the principles upon which the trades and labor congress has relied and intends to rely.

(Continued on page three.)

## FULL SPEED IN FOG; SHIP HIT RIVER MUD BANK

Montreal, Sept. 13.—An enquiry into the stranding of the steamer J. A. McKee on August 26th, on Lark Reef, near the mouth of the Saguenay River, was held today in the wreck commissioner's court before the Commissioner, Capt. L. A. Demers. The vessel, of 2,158 gross tonnage, is one of the older boats belonging to the Canadian Government Merchant Marine, and has been engaged for years carrying coal from Sydney, N. S., to Lévis. On this occasion the pilot took the north channel, between Red Islet and Prince Shoal, instead of the more usual southerly course. A fog arose and the pilot took the ship at full speed in order to have better control of the vessel. The Captain thought not obliged to take on a pilot did so, and left him in full control.

Captain Demers announced that judgment would be given at the end of the week and adjourned the court.

## SHIPS RUSH TO AID FRENCH CRAFT NOW IN TROUBLE

Sydney, N. S., Sept. 13.—Vincent Mullins, Sydney agent of the Department of Marine, received word by wireless late Sunday night that the French steamer Huningue was adrift, leaking and with rudder lost and engine trouble, about sixty miles northeast of Seaside Island. The steamer Restless and Douglas H. Thomas have been sent to the vessel's assistance.

## TWO EARLS DIE SUDDENLY IN LONDON

London, Sept. 13.—George Francis William, Henry, Viscount, third Earl of Lonsborough, died today at Lincoln.

Earl Murray, of Ellbank, died suddenly today at Walkerburn, Scotland his country home.

Alexander William Charles Olliphant Murray, first Baron Murray of Ellbank, was born in 1870, the eldest son of the first Viscount Ellbank. He was a director in the firm of S. Pearson & Son, and in that capacity several years ago, in South America, he is said to have obtained valuable concessions.

## Cannot Agree On Policy To Restart Hard Coal Mines

Stormy All-Day Session Ends With Parties as Far Apart as Ever Before.

Hazleton, Pa., Sept. 13.—Failing to reach an agreement on a plan to bring about a resumption of work in the hard coal fields, the "policy" committee of the United Mine Workers of America of the three districts of the anthracite region, after a stormy session late today took an adjournment until ten o'clock tomorrow morning.

## TOOK 15,000 PICTURES ON AIR SURVEYS

Major Owen Back from Labrador After Year's Aerial Exploration.

Montreal, Sept. 13.—Major Daniel Owen, of Annapolis, N. S., who accompanied the planes and flying boat which about a year ago visited Labrador, interviewed here today stated that 15,000 aerial photographs of the country had been taken and elaborated estimates of over 2500 square miles of the country made. The expedition, which was headed by Major Owen, found that behind the 20 miles of coast line there lay one of the most densely forested regions in Canada. In consequence of this exploration, Major Owen said that a new company has been organized, the Southern Labrador Pulp and Paper Company in which United States capital has been interested with the idea of installing a pulp mill with four saw mill units of 50,000 feet per day capacity and will begin operations in the district next year.

## TWO PREMIERS AGREE GERMANY TO ENTER LEAGUE

France and Italy Reserve Right at Conference to Recognize Soviets.

Aix Les Bains, Sept. 13.—The joint official declaration issued this evening by Premier Millerand and Giolitti at the conclusion of the two days' meeting of the premiers says: "The premiers have resolved to study in full accord a solution of the grave problems growing out of the war, and up to the present incompletely solved by peace. The essential aim remains general pacification along equitable conditions in respect to every nation's independence and the restoration of normal economic relations, free from all idea of exclusive domination, either political or economic."

## Must Have Lasting Peace

"M. Millerand and Giolitti recognize that the fundamental basis of such a peace, which in order to be lasting must be just, is a close entente of the Allies in the world, especially in Europe, England, Italy and France. The restoration of political and moral order is founded upon the equitable application and sincerity of the great treaties which terminated the war, as well as those which remain to be concluded, in order to assure definitely European peace."

"These treaties are jointly binding; they must remain the corner stone of new international relations. The victors must bring into them the spirit of kindly moderation."

## Reserve Soviet Recognition

"France and Italy reserve the right to recognize the Soviets or not," Premier Giolitti informed the Associated Press this evening, after the official communication had been given to the press.

"France," continued the Italian premier, "has already declared that she does not wish to recognize the Soviets. Our freedom of action is general or commercial relations, whether political or economic, which she shows willingness to execute the treaty of Versailles. Whether the date be distant or not lies entirely with Germany. The result of my meeting with Monsieur Millerand implies continuation of the close relations between Italy and France, which existed during the war."

## CROWN PRINCE IS WEARY OF LONELY DUTCH RESIDENCE

(Copyright, 1920, by Cross-Atlantic)  
Dorn, Sept. 13.—The former Crown Prince of Germany has asked Holland to remove him from his lonely island at Wieringen, or to permit him to return to Germany, or to send him elsewhere in Holland.

## BISHOPS NOT ABLE TO ROCK SHIP OFF MUD

Stranded Liner Was Held Fast Even When Wash of Liner Struck Hard.

## HALIFAX JUDGE WAS A PASSENGER

Confidence Expressed in Careful Way Capt. Turnbull Handled Vessel in Fog.

Special to The Standard.  
Montreal, Sept. 13.—A rescued passenger from the liner Metagama, which went ashore about a mile east of Centrecore, brought an amusing account of the efforts made to release the liner after the mishap. Under the leadership of the stewards, the passengers, who included four bishops and several clergymen, lined up forward on one side and marched in a body to the other side in the hope of rocking the ship. Then the women were asked to march throughout the stern, and the men to the bow, in an effort to trim the ship by marching from side to side in concerted movements. Great amusement was caused by the passengers clambering over the hatchways.

## All Attempts Failed.

But all attempts to relieve the vessel were unavailing. When the liner Meagantic came up she went by at full speed, in the hope that the wash would break the suction of the mud.

Passengers Express Gratification.  
A private meeting was held in the dining room under the chairmanship of Mr. Justice Ritchie, of Halifax. Before the passengers left, the following resolution, moved by the Bishop of Montreal, was unanimously carried: "We, the passengers of the Metagama, in meeting assembled, desire to express our sincere sympathy with Captain Turnbull in the accident which has occurred, and desire to place on record our appreciation, often expressed amongst ourselves before this happened, of the cautious care exercised by him during the whole voyage, and in particular during the heavy fog through which the ship passed. We feel confident that the accident was not due to any neglect or lack of seamanship on his part, and hope we may have an opportunity of crossing with him again on many future occasions."

## Urges More Control.

A further resolution was passed respectfully suggesting to the Canadian Government careful consideration of the regulations governing the navigation of narrow channels, so that it should not be possible for vessels to anchor in the fairway and thus endanger the passage of other vessels. The passenger committee presented the resolution to Captain Turnbull, and Commander Walsh, who was with him, joined in appreciation of the services of Captain Turnbull during the past 25 years.

## Dominion Wreck Commissioner Demers will open an enquiry tomorrow next day.

## Ship Off the Shoal

After being firmly embedded in the clay bank of the St. Lawrence River channel near Centrecore, twenty-five miles below Montreal, for nearly forty hours, the C. P. O. S. liner Metagama was released tonight under pressure from the united efforts of the wrecker Lord Strathcona, assisted by a group of tugs of the Sincennes-MacNaughton line.

She was able to proceed to Montreal under her own steam, and within three hours was berthed at the Vickers dock, where she will be overhauled for repairs.

Bishop Harting, of Montreal, who was a passenger on the ship, stated in connection with the stranding of the vessel that it occurred about two a.m. Sunday morning, and that the night was misty. The Canada Steamship Lines freighter, Wisley, was anchored in the channel and had swung abreast of it with the drift of the tide. The Metagama went astern of this vessel, and in consequence dived into a bank. No shock was felt on board.

## FEW CAME TO REGISTER FOR DRY VOTE IN WINNIPEG

Winnipeg, Sept. 13.—Opening of registration for the liquor referendum election on October 26, indicated either there is little interest in the prohibition question, or most of the voters are already registered. Up to noon today there had been only a scattering registration in any of the districts.

## More Valuable as Minister

He was interested in his constituents as his past record had proved, and as a cabinet minister he would be able to represent far more efficiently the counties of St. John and Albert than any representative that the Liberal party might elect could possibly do.

## MOOSE MANY IN N. B. THIS YEAR

Twenty Killed by Trains Says the Chief Game Warden.

Fredericton, N. B., Sept. 13.—Hunters are arriving here from the United States for the opening of the big game season in New Brunswick. The season will open on Wednesday, and unless the present rains continue, a most successful season is expected. Chief Game Warden Gagnon declared today that the fact that more than twenty moose had been killed in this province by trains this year illustrated that big game are very plentiful.

## WORLD NEWS TODAY

### CANADA

Halifax is trying to raise a fund to bring Jack Dempsey there to fight O'Dowd.  
Premier Meighen outlines labor policy for Canada in address delivered before Trades and Labor Congress, Windsor.  
Hon. R. W. Wigmore given rousing reception in Albert County in the by-election contest.  
Lumber block that New Brunswick will have a provincial election late in October or early in November.

### UNITED STATES

Carpeteer, the French boxer, arrives at New York seeking a fight with Dempsey and Levinsky.  
Republicans sweep the State of Maine in the elections.  
Brooklyn street car strike is still unsettled but conditions are some better.

### THE BRITISH ISLES

No bluffing on either side in the announcement of the British Government and the Irish in the case of MacSwiney.  
Condition of the Lord Mayor is unchanged but he is steadily growing weaker.

## WIGMORE GETS BIG RECEPTION IN THE COUNTY

Doing My Best to Represent All Well He Tells Hillsborough Crowd.

## SOME THINGS HE HAS ACCOMPLISHED

Albert Railway to be Put in Fine Condition to Handle Local Business.

### (Special to The Standard)

Hillsborough, Sept. 13.—Despite the unfavorable weather and a steady downpour of rain, a large and enthusiastic audience of the voters of Hillsborough and vicinity, including several prominent leaders, crowded the Seaside Hall and greeted with hearty applause the arrival of the Hon. R. W. Wigmore, Minister of Customs and inland Revenue, last night.

John L. Peck, M.L.A., for Albert, was elected to the chair, and on the platform were Lewis Smith, Captain Leonard Martin, Captain J. J. Christopher, Harry Steeves, A. B. Lander, Karl Duffy, Eastman Steeves, W. J. Bishop, J. Nelson Smith, G. P. Steeves and A. Sherwood.

Mr. Peck in his opening remarks reminded the audience that in 1917, after much persuasion, the Hon. R. W. Wigmore had acceded to the wishes of the delegates from Albert and St. John counties to become their candidate for the Commons.

He referred to the fact that the Albert railway had been taken over by the Federal government, largely through the efforts of the present minister of customs.

### Cheer Mr. Wigmore

Hon. R. W. Wigmore was loudly applauded here when he arose to address the audience. He referred to the warm reception he had received at his last appearance in Hillsborough in December, 1917. He was glad that he had had a share in inducing the government to take over the Albert railway after repeated visits to the minister of railways and the members of the cabinet. Since that time the roadbed, bridges and general condition of the railway had been greatly improved and will continue to be until it has reached a state of efficiency equal to the main line.

### Doing His Best

The life of a member of parliament is a laborious one, and he had endeavored, to the best of his ability, to represent his constituency. He was elected a member of the Union government, whose object was to win the war and bring it to a successful conclusion. He was sure that this work had been accomplished largely because of the union of the two political parties in Canada.

Because he had been called by the premier of Canada to the position of minister of customs, a by-election had become necessary, and he had returned to the constituency that returned him with a big majority in 1917 for re-election.

### More Valuable as Minister

He was interested in his constituents as his past record had proved, and as a cabinet minister he would be able to represent far more efficiently the counties of St. John and Albert than any representative that the Liberal party might elect could possibly do.

The government of Canada has done more for the returned soldier than any other country in the world. It had treated the returned soldier fairly, squarely and honorably.

He urged the electors to go to the polls on Sept. 20th.

Prominent Liberals had signed the nomination papers, and would be out fighting for one who could do some thing for St. John, and he knew he would go back to Ottawa with an increased majority, and as a member of a government that had a stable policy that would bring prosperity to Canada for years to come.

## MacSWINEY TO EAT OR DIE IS THE DECISION

British Officials Not Bluffing or Ready to Release Prisoner at Last Moment.

## NATIONALISTS WILL NOT RECEDE EITHER

Home Office Says Lord Mayor is Very Weak But is Not in Pain.

London, Sept. 12.—Assurances that there is no element of bluffing in the recent statement of the British Government and the Irish Nationalists relative to the MacSwiney case were obtained from a responsible source of each faction by the Associated Press this afternoon. The Home Office said that the Sinn Feiners think we are bluffing our time and will capitulate when MacSwiney's condition requires a further hour action in order to save his life, they are mistaken. This characterizes the British official view as expressed to the correspondent.

"There can be no doubt or question about our desire or intention of having Lord Mayor MacSwiney recede from the tragic stand he has taken," declared an official at the London headquarters of the Irish Nationalist organization. "If he is not released voluntarily by the Government, he will most certainly go down in history as the first Irish hunger striker to perish in an English prison."

The doctors disagree with the report of relatives of the prisoner who are allowed at his bedside, that the Mayor is in great pain. The Home Office report this morning said that he was noticeably weaker than yesterday, but not in pain.

### Conscious, But Very Weak

London, Sept. 13.—Mrs. MacSwiney, who spent the afternoon with her husband on leaving the prison at six o'clock tonight said he was weaker than when she last saw him. She had not been permitted to speak to him. He was conscious, but still suffering from numbness of the limbs.

### Military Search Houses

Belfast, Sept. 13.—The activities of the military took a new turn today when they made a house to house search for arms in the Union quarter of Londonderry. Fountain street, Wrapping Lane and the small streets abutting them, right in the heart of the Unionist section of the town were visited. The search occupied the whole of the afternoon. Troops were fixed bayonets blocked the entrance to the streets and Republicans have been busy in other places. The Parade head coast guard station at the entrance to Lough Swilly was burned Saturday night. This morning a mail train bound from Milltown to Belfast was held up at Gortalea and all the Dublin and Cork mail was seized.

## ST. JOHN RIVER UP TWO FEET

Crops Rot in Ground from Floods Near Fredericton is Latest Report.

Fredericton, N. B., Sept. 13.—With two and a half inches of rain having fallen yesterday and the total rainfall the first twelve days of September amounting to 4.63 inches, which is more than the average for a whole month, conditions as a result of the heavy fall rains for some years are becoming serious in central New Brunswick.

Root crops are rotting in the ground and oats which were cut but a week ago in some sections are still lying in the fields and will be seriously damaged.

Grave fears are expressed as to what effect the continued rains will have on the potato crop, which has been menaced during the past month or so by unfavorable weather conditions.

The water in the St. John River has risen about two feet in a week while on the Nashwaak River the water has come up about four feet and driving operations have been resumed by the Nashwaak Pulp and Paper Company, whose eight million feet of logs which have been stranded all season are now being rapidly driven out.

## WOODSTOCK MAN KILLED IN WEST

(Special to The Standard)  
Woodstock, Sept. 13.—Word was received today that Douglas Carr, only child of Willard S. Carr, of Woodstock, aged 22 years, was instantly killed in an auto accident at Beltingham, Wash., where he was visiting his uncle, Sabin Carr.

## CARSON'S CASTLE IS BURNED BY IRISH

Belfast, Sept. 13.—Orestis Lambert came in Athlone, County Galway, where Sir Edward Carson, the Ulster Unionist leader, was born, was burned today, presumably by Sinn Feiners.

Galway has been placed under the Curfew laws, making six Irish cities under this law. The others are Belfast, Dublin, Londonderry, Cork, and Limerick, as well as a number of smaller towns and villages.

## Allies Will Send Delegates To The Lett-Pole Meeting

Issue Before the Conference Will be the Boundary Line Dispute it is Announced.

Paris, Sept. 13.—The French Foreign Office announced today that the Allies have acceded to the request of the Lithuanian Government that they send representatives to the conference between Lithuanian and Polish delegates to consider the boundary dispute. The conference will be held in the near future.

## DRIFTED FIVE DAYS IN OPEN BOAT ON OCEAN

"It's All in a Fisherman's Life" Only Comment of Rescued Man.

Halifax, Sept. 13.—"It is all in a fisherman's life," said Fred Wilson of Westfield, Mass., tonight regarding the five days he spent on the Atlantic in a dory, during which time he drifted and rowed about seventy miles and was picked up by one of the life saving crews on Sable Island. Wilson was brought here by the Lady Laurier when she returned from Sable Island and leaves for his home this morning. Wilson spent over five days in the open boat without food, and when picked up at Sable Island was exhausted.

### Lost While Fishing.

He was a member of the crew of the Boston schooner Commonwealth engaged in fishing on the banks of the Bay of Fundy. Wilson got astray from his vessel on the morning of August 25. About noon on August 30, he neared Sable Island. There was a heavy sea running and he got to about two miles off the East Light. The crew of No. 4 life saving station saw him and the lifeboat was sent to rescue him. On reaching the island Wilson was well cared for.

## COULD NOT END BROOKLYN TIE-UP

Governor Smith Abandons Effort to Settle Strike, But More Care Are Running.

New York, Sept. 13.—Governor Smith announced tonight, after conferences with representatives of striking Brooklyn Rapid Transit Company employees and with Federal Judge Meyer, legal custodian of the company, that his efforts to bring about a settlement of the strike had failed.

Another surface line was opened tonight, making five new in all-night operation. Company officials reported operation of 188 elevated and subway trains, and 737 trolley cars during the rush hour today. Service on the East River bridges was reported as nearly normal.

## AUSTRALIANS IN POLITICAL CRISIS

Government Escapes Defeat by Narrow Margin of Two Votes Only.

London, Sept. 13.—The Times Melbourne correspondent says that Australian ministers are seriously alarmed about their position, and the result may be to expedite the appointment in London of the high commissioner and of a representative in Washington. The government narrowly escaped defeat in the House, its representatives only being saved by two votes on a sudden combination of the harbor and country parties in the proposal for soldiers' homes in Queensland.

## APPLES TO COST \$5 IN ORCHARD

Freight and Middlemen to be Paid After That.

Toronto, Sept. 13.—Although Ontario has a bumper apple crop the price will be high, in part because of the increased cost of the orchard and in part because of the strong demand for best qualities of Canadian apples from Britain, owing to the crop failure there.

Inquiries made show that the packers are contracting at \$2.50 in the orchard for the best grade of winter apples. The farmers do their own picking but the packing is done by the contractor, at a cost of \$1 a barrel for labor. Barrels cost \$1.50, as against 80 cents last year. This means a total cost of \$5 before the barrel leaves the orchard. Then there is freight, storage and middlemen's commissions before the apples reach the retailers.

## ELECTION IN PROVINCE FOR NEXT MONTH

Rumor from Woodstock Says Date Will be Not Later Than First Week of November.

## COUNCIL MEMBERS REFUSE TO TALK

None of Them, However, Would Deny Possibility of Early Appeal to People.

Special to The Standard.  
Woodstock, Sept. 13.—Information has been received here from a most reliable authority that it is the intention of the Provincial Government to call on a general election at the end of October or early in November.

The foregoing despatch merely corroborates some very persistent rumors that are current in certain circles in this city. A special meeting of the Executive Council was held in the Government Rooms here yesterday, and it is whispered that the matter of holding an election was one of those under consideration. With characteristic innocence, none of the members of the Government who could be met with later, of course, knew anything about it, however, when the matter was broached to them. The only thing they did appear to know was that when an election had been decided upon it would be announced in the regular way. But they would not deny that an early appeal to the people was a possibility.

## PARKHURST HAS BIG LEAD NOW

Democrat Only Polling About Half as Many Votes in the Race.

Portland, Me., Sept. 13.—Returns from 436 election precincts out of 632 in the State, give for Governor:

Parkhurst (Republican), 91,612;

McIntyre (Democrat), 46,100.

These precincts give the following vote:

Parkhurst (Republican) 102,156;

McIntyre (Democrat) 53,100.

The same precincts gave for Governor in 1916:

Milliken (Republican), 60,843;

Curtis (Democrat), 50,346.

### The Congressmen

Early returns from the four congressional district contests showed Congressman Wallace H. White, Jr., John A. Peters and Ira G. Hersey, Republican, re-elected by large majorities. Carroll L. Beedy, (Republican), was elected to Congress from the fourth district, where Congressman Louis B. Goodell was not a candidate for re-election.

The large increase in the total vote was attributed chiefly to the fact that women voted today for the first time and came out in large numbers, in spite of the heavy rain throughout the state in the afternoon.

### Fought on National Lines

The State campaign was fought on almost wholly on national lines. Both parties sent into the State many of their leaders, including the two candidates for Vice-President. Governor Calvin Coolidge for the Republicans and Franklin D. Roosevelt for the Democrats.

The chief issue which all the speakers emphasized was the League of Nations, the Republicans urging rejection of the League covenant unless accompanied by strong reservations and the Democrats advocating ratification without reservations which would change its terms.

## COAST TO COAST MAIL LINE STARTS BY BIG PLANES

Chicago, Sept. 13.—An extensive daily coast to coast air mail service was begun today when planes left five cities for points across the continent.

One plane will leave each morning from New York with mail for San Francisco, one from San Francisco for New York, one from Cheyenne, Wyoming, to San Francisco, one from Salt Lake City to San Francisco, one from Chicago to San Francisco every day except Sunday and one from Chicago to New York every day except Monday.

## SNEAK THIEF STOLE BIBLE FROM CHURCH

Sussex, Sept. 13.—Some time during the past fortnight a sneak thief of a particularly low brand, broke into the Baptist church at Newton and carried away a Bible that was valued greatly on account of having been presented to the church 52 years ago by Mrs. William Manning. The Bible was a large one bound in leather and much prized on account of the association and memories recalled by it. We have heard of "stealing coppers from a dead man's eyes," but the Newton pirate who stole the Bible certainly holds the record for clever cunningness.

### RECOIL FROM CLASS CALL TO HURT COX

So Declares Ex-Pres. Taft in Review of the Presidential Fight.

(Copyright, 1920, by Public Ledger Company.)

By WILLIAM HOWARD TAFT. Governor Cox has begun the real campaign. The academic League of Nations issue is not enough to attract a considerable body of high-minded persons who sincerely cherish the League as a great advance and who hope that in some way or other the block of hold-over Republican senators can be removed. But Governor Cox realizes that the votes of such persons cannot control the election. He must make available for the Democracy the industrial unrest of the country. He must stir class feeling. He must mass the labor vote behind him. He must cause a radical uprising against capital and business. He must leave the Republican party and candidates a plan to give the government over to selfish capitalist interests to be used to oppress labor.

This is the real issue Governor Cox proposes to push into this campaign. The Wilsonian issue—"The League with Article X or no League"—may be good enough to catch a number of "highbrows," but the masses are to be moved by sterner stuff. He has secured a lot of circulars and publications purporting to be issued by the Bureau of the National Republican Committee charged with the collection of funds, and he produces a paper which on its face is a statement of how much is expected from the large cities, which makes a total of over \$8,000,000. As this does not cover the rural districts, he assumes that nearly double eight millions is to be raised. He introduces bulletins, issued by the bureau, containing notices, encouraging them by reports of quotas raised to renewed vigor in making collections.

No Mistaking Evidence.

No one can be mistaken as to what these documents evidence. The silly words used in them are the lingo of the professional publicity man of the war drives. They revive the memory of those days when no language was too extreme or too fantastic, so that now the success which for other reasons attended those drives has fastened on the present suffering generation the illusion of having the same outrageous methods of publicity adopted in every public movement in which money is sought from any considerable body of people. Do these papers establish that \$15,000,000 or \$8,000,000 will be collected to collect such sums? Of course not. The use of a so-called quota is as a stimulant only, not an assurance. Mr. Hays and Mr. Upham, Republican chairman and treasurer, say there was no such quota to their knowledge. That might well be, for quotas like this were part of the projects of the hideous machinery of those professional "whooper-toppers" to whom the work of collection was assigned. Mr. Hays and Mr. Upham say under oath that the general plan was to make collections not exceeding \$1,000 from each subscriber, that in only thirty-eight cities out of 12,000 had that plan been departed from and that of the thirty-eight only one subscription exceeded \$5,000.

Rely on money.

In other words, they do not intend to rely on large subscriptions from a comparatively few men to carry the campaign. They wish to avoid placing the party or its candidates under heavy financial obligation to any men at the head of great corporate enterprises having axes to grind in the

### SPEAKERS FOR THE CONVENTION

Retail Merchants' Assn. Will be in Session at St. Stephen Next Week.

The following speakers will be heard at the convention of the Retail Merchants' Association to be held at St. Stephen September 22 and 23. W. Stewart, Montreal; E. M. Town, Dominion secretary of the Retail Merchants' Association; William C. Miller, Toronto provincial secretary for Ottawa; and Norman S. Jones, Hamilton, Ont.

### BELGIUM ACCEPTS MILITARY AGREEMENT WITH THE FRENCH

Paris, Sept. 13.—Baron De Gailfiet D'Hestroy, Belgian Ambassador to France, today informed the Foreign Minister of the acceptance by Belgium of the Franco-Belgian military agreement which is to become effective immediately.

Next four years. The place of campaign, exasperating and silly as its methods and languages were, shows conclusively that the purpose of the committee to solicit small subscriptions from many was being carried out and excludes altogether the inference that there was reliance upon the contributions of rich men with great interests.

There is no showing as to how much of the total of quotas can be realized. Mr. Hays and Mr. Upham produce a budget of probable expenses of something more than three millions. Something over a million has already been spent, and as much more will be needed for state organizations.

### ECZEMA

You are not... Experiment... You use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually breaks the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c stamp for postage. Get it at all dealers or Edmundson, Bates & Co., Limited, Toronto.

### GERMAN POLICE FORCE ORGANIZED LIKE ARMY

Plans for "Demilitarizing" Show New Guard Will be Formed Along Lines Familiar in Old Days—Disarming People Difficult.

(Copyright, 1920, by Public Ledger Company.) By S. B. CONGER. Berlin, Sept. 9.—Plans for "demilitarizing" the German security police as a police army of 80,000 veteran soldiers, established by the republic to preserve order against internal foes, in order to comply with the Entente ultimatum at Spa, are virtually completed.

The reorganization is largely a surface one, as could be expected from the brief period granted to accomplish it with the threat of the occupation of the Ruhr basin hanging over the head of the government unless it was completed by September 27. The force preserves a military organization, in companies of 100 men, with generals, colonels and other offices of a military hierarchy and lives for the most part in barracks under strict military discipline.

### Scheme for the Army.

The scheme for a security police army, such as it is, is covered by a certain amount of what is vulgarly called "bunk" for the benefit of Entente critics, including the new name, "defence police," instead of security police. New nonmilitary titles for officers form part of the sweeping scheme for the concentration of the entire police establishment of the empire under a federal and state auspices. Mutual inequalities in losing control of disestablished local police, will gain by being relieved of the financial burden of maintenance, which hereafter will be borne by federal and state budgets. About a score of different kinds of police organizations formed to combat evil doings of various kinds, will disappear and be replaced by a centralized body divided into four branches—the police army, titled defence police; the criminal or detective branch; administrative police; looking after the registration of residents, issuing licenses and other developments of police bureaucracy, of which the Germans are so fond, and the rural police.

The whole force will be under the minister of the interior and direct command will be exercised by two generals and thirteen colonels, probably bearing less military titles. This represents a considerable saving in money and military glory, the security police alone now furnishing posts for five generals and thirty-four colonels.

### Hard Task Destroying Weapons.

Simultaneously with the reorganization of the police, which admittedly can be effective only on paper by the prescribed date, Disarmament Commissioner Peters is laboring on a far more difficult task imposed by the Spa conference of calling in and destroying military weapons and ammunition in the possession of the civil population. He is meeting not only obstruction but also active opposition from elements in the conservative and radical camps seeking to retain arms on one hand or the other for a new military, or monarchist revolt.

### DIED.

WILMOT—Died at Victoria, British Columbia, on Sunday, September 13th, Edward Ashley Wilmot, C. E., youngest son of the late Hon. R. D. Wilmot, formerly Lieut. Governor of New Brunswick.

### SEND GREETINGS TO THE BRITISH PREMIER

Aix-Les-Bains, France, Sept. 12.—At the close of a conference on international questions this morning, Premiers Millerand, of France, and Giolitti of Italy, sent the following telegram to Premier Lloyd George: "Min. Giolitti and Millerand, met together at Aix-Les-Bains, do not wish to separate without addressing in common to His Excellency Premier George, their very cordial and friendly greetings. The Italian and French Prime Ministers have once again occasion to recognize the full accord of their general views and the primordial necessity of the close entente of Great Britain, Italy and France in order to ensure a settlement of European problems and the re-establishment of peace and normal relations between the peoples."

### SLIGHT EARTHQUAKE FELT IN SCOTLAND

Comrie, County Perth, Scotland, Sept. 13.—An earthquake shock was experienced here this morning. The inhabitants were awakened when their beds and furniture were shaken by the shock. A dull, rumbling sound accompanied the tremor.

### FEARS RETURN OF FLU—

Toronto, Sept. 13.—Fears that another epidemic of influenza will sweep

through North America this autumn and winter are expressed by Dr. C. W. Bilba, of the Fort Dearborn Hospital.

### Keep Your Skin-Pores Active and Healthy With Cuticura Soap

### Abbey's SALT

EFFERVESCENT SALT

On the Train or On the Boat

The regular use of Abbey's Salt during a journey will prevent seasickness and car-sickness and enable one to enjoy the trip.

Physicians recommend this reliable Saline.

### "Train up a child in the way he should go" and he will always use a Waterman's Ideal Fountain Pen

Schools are opening now—then the colleges and universities. Every student should have the favorite pen for the opening. It encourages better writing, and the taking of ample notes, forming habits that are invaluable throughout life. \$2.50 invested now supplies a lifelong friend—the Waterman's Ideal Fountain Pen—in a style that exactly suits the individual hand.

### Physician Explains Who Should Take Nuxated Iron

Practical Advice on How To Help Build Up Great Strength, Energy and Endurance.

The accompanying article of Dr. Sullivan should be carefully read by every man and woman who wants to possess perfect health, great physical endurance and a strong, keen mentality. Dr. Sullivan tells how to increase the iron in our blood and thereby gain greater physical and mental power, brighter intellects and better health.

Commenting on the use of Nuxated Iron as a tonic, strength and blood builder by over four million people annually, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, said "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that vital force, the stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians reading blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real cause of their trouble. Without iron in your blood your food merely passes through the body something like poor through an old mill with rollers so wide apart that the mill can't grind.

"One want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all run down, while at 50 or 60 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy.

"But in my opinion it is advisable to feed the blood with iron in organic form—like Nuxated Iron—which is more easily assimilated by the blood, than the cheap, tasteless, resembles good druggists in tablet form only.

the kind of iron found in fresh, green vegetables. Notwithstanding all that has been said and written on this subject by well-known physicians thousands of people still insist on dosing themselves with metallic iron simply, I suppose, because it costs a few cents less. I strongly advise in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble then purchase Nuxated Iron in its original packages and see that this name "Nuxated Iron" appears on the package.

Manufacturers' Note: Nuxated Iron, which is recommended above, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black, nor upset the stomach. Each tablet of genuine Nuxated Iron is stamped and the words Nuxated Iron are stamped into each bottle, so that the public may not be led into accepting inferior substitutes. The manufacturers guarantee successful and entirely satisfactory results to every purchaser for they will refund your money, if it is dispensed by all good druggists in tablet form only.

## LABOR PAYS ITS TRIBUTE TO MEIGHEN

Premier is Chief Speaker at Trades Congress Where He Reviews Labor Successes.

## INDIVIDUAL REWARD WAY TO MAKE RACE

Communist Systems All Fail, He Says, Where Energy is Unchecked.

(Continued from page one.)  
"You tell me, you have been working along these lines for years, and we have accomplished much; but after all our progress has been slow. You say there is a wide gap still between the wealth of the few and the poverty of the many. I admit you are correct. But in coming to conclusions on this subject, there are some very vital facts to be kept in mind. I am going to recite some of them and ask you to ponder over them. I am going to ask you to regard your selves as in positions of responsibility, as, indeed, in the ultimate all the people of this country are, and to realize that responsibility. I want you to give to undoubted facts the serious reflection they deserve."

**The Lesson of Russia**  
"The first place we could never, as a nation, hold up our end, or hold any place at all in the world today, except by reliance on our individual energy and individual reward. If there are any in this country who ever relied upon any communistic system as possible or practicable, or even thinkable in competition with countries that find fast to the energizing principle of individual endeavor, they must surely have had their theories rudely shattered by recent experiments in Europe. Where the so-called theory of production for use has been put into practice, in substitution for production for profit, it has resulted practically in the production at all and has ended in chaos and starvation."

"Secondly, there is a wide disparity between the industry and ability and especially between the good judgment of individuals—a disparity which no legislation can remove. There are unfortunately also varying currents of fortune which legislation at best can only partially control."

"Thirdly, the intervening territory between rich and poor is covered in this young country with a multitude that comprises the great majority of our people. Nowhere in the world is there so large a proportion of those who are neither rich nor poor as there is in Canada, those who stand on the happiest ground of all, the middle ground of moderate means and comfort. To increase that proportion should be the aim of government."

**Where Premier Stands.**  
"Lastly, Canada is only one nation out of many. It is a young and relatively small nation struggling to make its place in a throng of competing countries. We must make our place and hold our place in the world's industrial progress if we expect to maintain a good average prosperity among our people, to sustain our credit and pay our debts. I am in complete sympathy with you that no place in the world's industrial competition must be secured at the price of inflation to wage earners and on the other hand wage earners must also agree that any disability placed upon Canadian industries as compared with industries in other countries and particularly in the United States would react first, and most severely upon the wage-earners of Canada themselves."

## ALLEGES PLOT TO RUIN DRURY

Dufferin County Election Petition Makes Startling Charges Against U. F. O. Head.

Toronto, Sept. 13.—Particulars of the Dufferin County election petition which seeks to unseat Thomas Kerr Black, M. P. P., who was elected on October 20, 1919, in the U. F. O. interests, have been filed at Osprey Hall. John Johnston, William Braiden and George Moffatt are the petitioners. A plan to seize for political purposes the organizations of farmers' clubs and that the members of those were intimidated to work in the U. F. O. interests by penalties in trade and supplies and otherwise, is alleged. It is said that J. J. Morrison, the guiding genius of the uprising against the existing Government, was formerly a resident of the adjoining riding and many of his relatives and friends reside there, which gave him a great opportunity to seek out a candidate and promise assistance and dominate the farmers' clubs.

**What Was Promised.**  
It alleged that Morrison proceeded to promise any candidate who would go into the field that at least one-half and probably all his expenses and less of time would be made good from the central fund or from subscriptions raised by the local farmers' clubs. It is stated that the candidate, in accepting the nomination, promised the delegates and all who would subscribe to a campaign fund that in the event of his being elected he would repay the said subscribers from his first indemnity.

**Farmers' Clubs Named.**  
Twenty-three farmers' clubs are named, and these, it is alleged, took part in illegal acts. The names of twenty-six are given as among those who subscribed and were repaid. The names of twenty-eight persons are given as people who received \$3 for their work and vote.

**Names Given of Sixteen Persons**  
Names are given of sixteen persons into whose hands, it is said, money was placed for corrupting the electorate. Two men are named who, it is alleged, were repaid with jobs.

**LAST HALF DOLLAR WON \$60,000 PRIZE**  
(Copyright 1920 by Cross-Atlantic)  
Rome, Sept. 13.—Giuseppe Biago an eighteen year old unemployed lad bought a ticket for the national lottery with his last half dollar and won a capital prize worth \$60,000.

**Alkali in Shampoos Bad For The Hair**  
If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary, multifoliated coconut oil which is pure and greaseless, and is better than anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get multifoliated coconut oil at any pharmacy, it's very cheap and a few ounces will supply every member of the family for months.

## HAIL RUINS THE GARDENS

One Truck Farmer Near Providence Estimates His Loss at \$200,000.

Providence, R. I., Sept. 13.—Damage estimated at hundreds of thousands of dollars was done by a brief hail and thunderstorm, accompanied by a 45-mile an hour gale in a narrow area extending through Cranston, Warwick and East Providence, today. Thousands of panes of glass were broken, the interiors of homes and business establishments were flooded, and fruit trees were stripped. Street car, telephone and electric light and power service was interrupted. The hail-storms in some cases measured one and a half inches in diameter. A market gardener in Cranston estimated his loss at \$200,000, while one factory near there reported 2,000 panes of glass broken.

## ENGLISH MINERS DID NOT CALL FOR WESTERN AID

United Mine Workers Declare O. B. U. Action Was Just Big Bluff.

Calgary, Alta., Sept. 13.—On being closely questioned, Henry Beard, president of the Miners' Department of the One Big Union in Alberta, now admits that no cable was received from Robert Smillie, President of the Miners' Federation of Great Britain, requesting that the workers here come out on strike on September 25.

Other officials of the One Big Union movement here, when seen, were inclined to still maintain that a cable had been received, but when informed that Smillie had himself denied sending such a message they tried to explain that it was a "letter" that had been received from the mine leader in Britain. A copy of this letter could not be produced, however, the claim being made that it was in the possession of P. M. Christopher, who is kept in close touch with the proceedings from the Alberta district.

**Cannot Conceive of Letter.**  
J. W. Brown, international organizer for the United Mine Workers of America, informed the Canadian Press today that he could not conceive for one moment, knowing Smillie as he did, that he would consider sending any communication at all to such a movement as the One Big Union. If he sent any communication at all, he certainly would have sent it to the

International Organization, and certainly no word has been received from him as far as we are concerned.  
"This bluff on the part of the One Big Union is only just in line with their previous actions," added Mr. Brown. "Fortunately, Smillie has at once sent out a complete denial of their cable, and later on is sure to send another contradiction regarding the alleged letter."

### BLUE-BLOODED STOCK AT WOODSTOCK'S SHOW

Forty-Eight Hour Rain Mars Opening of Fair But Does Not Prevent Arrival of Unusually Fine Display of All Kinds of Stock.

COL. DIBBLEE, THE PRESIDENT OF THE EXHIBITION

#### Special to The Standard.

Woodstock, Sept. 13.—The beautiful plant of the Woodstock Exhibition Society so ideally located on Connell Park, in this city, is now ready to receive the thousands of visitors expected here this week, the advance guard of whom has already arrived to take in the second annual show of the society.

Despite a downpour of rain which began early Sunday, continued throughout the day and night, and kept up its discouraging dismal antics today, the show was officially opened tonight by representatives of the Dominion, Provincial and City, several hundred persons being present at the Exhibition Hall to hear the speeches incidental to the opening.

#### Glad Hand for All.

The citizens of Woodstock who take pleasure and becoming pride in their exhibition grounds have a glad hand of welcome for all. This is no new trait of Woodstock's people. Their hospitality is proverbial, and they are all joining with the management of the exhibition to make the whole affair a success. Success is bound to be, because with each working in harmony with the other for a Woodstock institution there can be no such thing as failure even should the weather continue to act nastily.

#### Live Stock Finest.

Being chiefly an agricultural county, special pains have been taken to secure an agricultural and stock exhibit. The efforts made in this direction have borne excellent results and the display of agriculture and exhibits of stock are well worth a trip to see. The cattle sheds are filled with the finest stock, all grades and breeds being represented. Holstein and Ayrshires are the pick of the dairy herds predominant.

All other departments of a well regulated exhibition, planned and designed to please and satisfy, are well stocked with the best the province produces. The merchants of the city have outdone themselves in the fancy and attractive display of goods at the exhibition hall, and with good weather Tuesday, so the people can get to the grounds, there will be

found much to admire, instruct and entertain. At 8.30 Woodstock's event was formally opened when Col. Dibblee introduced Deputy Minister of Agriculture Brandt to set the wheels in motion. Mr. Brandt said he was only a substitute and had come to Woodstock on short notice. The minister of agriculture, who was to have been present and as the government representative officially open the exhibition had been suddenly called to an important meeting in St. John. He praised the ardor and enthusiasm among the citizens of Woodstock, which had prompted the undertaking that has produced such a magnificent equipment for exhibition purposes.

The beautiful plant, he said, is a credit to any community, and it will surely prove of great educational value in the future. Properly conducted and keeping in mind the intent and purposes for which exhibitions of this nature are planned it should be a factor along with the public schools for the better education of the youth.

Mr. Brandt spoke of the hearty and friendly competition which has its part in helping to produce the best of everything, and that is what was wanted. The competition entered into at this exhibition shows that this province has the best of natural resources and New Brunswick is second to none.

#### The High Class Apples

He referred to the high place taken by apples from the province on the western markets last year. This he attributed not only to the superior quality of the fruit, but also to the care taken in grading, a matter which his department is endeavoring to impress upon the people. He referred to the boys' clubs organized throughout the farming districts, and of the great work they are doing. Mr. Brandt said the province had many things to feel proud of, notably the high place given to its creamery products, citing the accomplishments of the Moncton creamery. He spoke also of the great advance in stock raising, and said the time had come when Brunswick to see what they had here that would help elsewhere.

In passing, he told the people that there was now at the experimental farm an Ayrshire heifer that was leading all the dominion in tests. Mayor Hodson followed Mr. Brandt, and in a few well chosen words extended a hearty welcome to all.

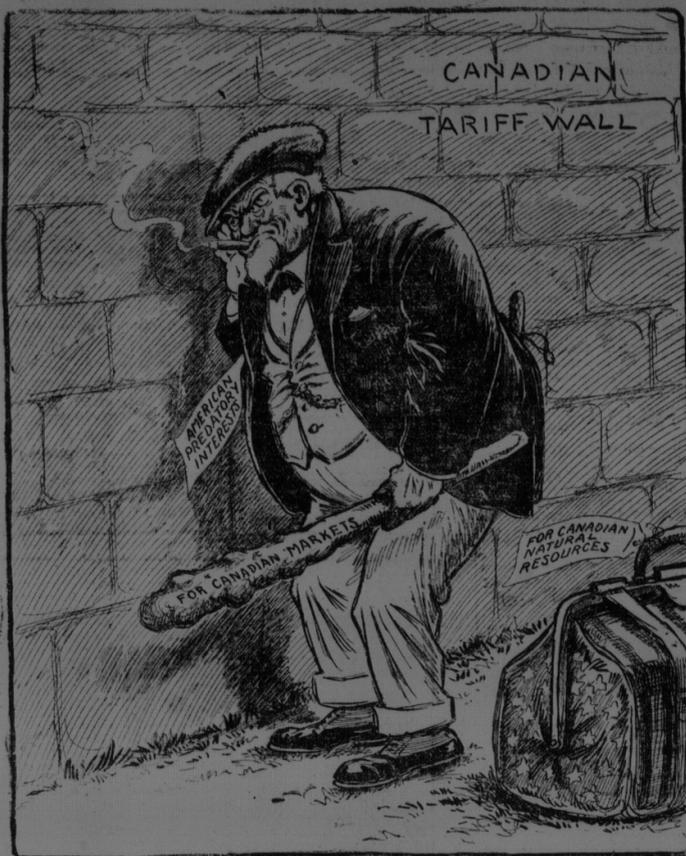

He spoke in glowing terms of the city and county, and advised the young men to stay here. "It is not necessary," he said, "to go to the United States to make your fortune; too many have had that idea, and had to walk home. Your fortune is right here at your feet. Grasp the chance offered and do your part in the further development of the province."

It was impossible to hold any of the races today. Today's racing events will be on the card tomorrow, weather permitting. The 2.15 mixed, the 2.30 trot and the 2.30 pace are the events scheduled.

There is a great field of horses here for all the classes, and some fifty brushes are expected. The judging of live stock will begin at 10 o'clock tomorrow and continues until time for the races to be called at 1.30 o'clock. The night fireworks are on the programme.

# WHERE IS DR. EMERY?

LET EVERY PERSON VOTE

ELECTION DAY  
SEPTEMBER 20th

#### THE WALL THAT SAFEGUARDS US

Anxiously waiting for the success of the opponents of Canada's politicians who announce their intention of tearing down our protective tariff wall and letting in the American profiteer to exploit Canada.

Since nomination day Hon. Rupert W. Wigmore has been very much in evidence in this constituency. Everyone who reads the newspapers, walks about the streets or takes any interest whatever in the affairs of the country need not be in doubt as to where he is. During the past week or ten days Mr. Wigmore has been hustling about from one end of the united counties to the other, addressing meetings, aiding in organization and, generally speaking, actively participating in the present necessary but unavoidable campaign.

Since nomination day, when Dr. Emery made his appearance in the sheriff's office, he has not been in evidence; he has not addressed meetings, and insofar as can be ascertained he is not leading his supporters in the work of organization.

Politically, Honorable Rupert W. Wigmore's position is abundantly clear. He stands on the record of Union Government, on the platform of the Meighen administration, which is in itself a modern version of the national policy with amendments to suit the requirements of the present day and to meet the broader views of those former opposing forces now brought together to form the great National Party. In every phase of Canada's administration his position is known, for the policies of the party to which he belongs are the policies which have made Canada what she is today and which will make of her an even greater nation in the future.

Politically Dr. Emery is "Agin the Government." That is all there is to him and to his party. It may be that at the present moment he, too, like "Br'er Fox" is laying low awaiting the senatorship which current gossip states has been promised him by those whom he serves in return for his self-sacrifice on the altar of political expediency. Dr. Emery has announced no policy; he has no platform; he does not represent the Liberal party; he does not represent the Farmers; he does not represent Labor; he does not represent any opposition whatever in the House of Commons except a disgruntled few in the City of St. John who have turned sour on their former friends and who are endeavoring to make trouble wherever it is possible to do so. These are the ones whom Dr. Emery represents. These are the ones who might just as well have been represented by any one of the two or three others whose nomination papers were prepared and ready for any eventuality on nomination day.

The duty of the electors of St. John-Albert on September 20th is not merely to return Hon. Rupert W. Wigmore as representative in this constituency but to send him back with a greater majority than he enjoyed in the 1917 contest, a majority such as will make perfectly plain to the few agitators now backing Dr. Emery just where they stand in popular estimation.

## LET EVERYBODY VOTE

### AMERICAN ADVENTRESS IMPRISONED IN FRANCE

(From the 12th by Public Ledger) Paris, Sept. 12.—The method of an American adventress, Catherine Talator, nee Gray, for meeting the "cost of high living" has now placed her behind French prison bars. The method, which was simple enough, consisted in buying thousands of francs' worth of robes, hats, etc., either on credit or giving worthless checks in payment. Paris dressmakers are out more than 75,000 francs on her account, while the bills of other creditors in Paris and Aix-les-Bains bring the total well above 100,000 francs.

#### Lived in Luxury

She came to Paris in April with letters of introduction, took a sumptuous apartment in one of the best hotels, hired a limousine and began her visits to dressmakers. Her first purchase was a fur-trimmed coat for 65,000 francs, for which the store respectfully presented the bill—naturally it could not afford to demand immediate payment from such a customer. With that bill to show as her credit, Catherine proceeded to a jeweler, where she got 25,000 francs' worth of gems and gave an order for a diamond rope five feet long. She used these tactics next to have fourteen hats made, a "mere caprice," as she explained. Later she varied her system by buying 4000 francs worth of gloves on the strength of a worthless check.

#### Went to Hospital

She next contracted a fashionable disease and ran up a bill of 11,000 francs at an American hospital near Paris. That necessitated, it seems, a cure at Aix les Bains, where she proceeded to add to her wardrobe, and to her list of dupes. Meanwhile her Paris creditors were beginning to have doubts, called more often at her apartments. Catherine always happened to be "out" but the various creditors soon met at her door and compared notes. That led last week to the arrest of her husband, who kindly gave the creditors a few pawn tickets which they redeemed at their own expense. Now Catherine has joined her husband, after giving back some of her purchases, but is leaving her hotel keeper to pay for her luncheon.

(Special to The Standard) St. Stephen, Sept. 13.—The town is rapidly filling up with strangers for the opening tomorrow of the big exhibition, and only good weather is needed to make the enjoyment of all complete.

## INDIA'S MOSLEMS VERY RESTLESS

### Peasantry at Fever Heat, Believing Sultan Imprisoned and Constantinople Burned

By GEORGE PILCHER (Copyright, 1926, by Public Ledger) Calcutta, India, Sept. 14.—A great part of India is now in the throes of another agitation not widely differing in inspiration nor ultimate object from that which all but caused a general rebellion in this country in the spring of 1919. The ostensible grievance on this occasion is the imprisonment to the prestige of the Khalifa—the successor to the Mahomet—the Moslem world, imposed by the peace terms on Turkey.

Personally, I should say that the vast majority of the interested Moslems in India are not in the least sorry to see the reduction of the authority of the Sultan of Turkey. The Sultan's historical claims to the Khalifa are very shadowy, and the association with the religion of Islam—of a temporal power indelibly associated with mosques and domes and minarets—has done Mohammedanism no good.

Reflections such as these, however, are useless in estimating Indian political movements. The responsible portion of the public is invariably silent, while the agitating class seizes on any and every opportunity to cause inconvenience and irritation to the British authorities.

During the war, when the more dangerous agitators were interned under the special war powers, no complaint was heard when the king of the Hedjaz rebelled, shook off the Turkish yoke and assumed sovereignty over Mecca, the holiest Moslem shrine.

Now that the war is over and the agitators are free to do their worst the extremist Gandhi, with his Hindu faith, and Shaikhul Ali, the Moslem extremist are touring the entire country inciting the unemployed classes to boycott the government and emigrate to Afghanistan, the pretext being the allegation that the British and Indian Governments have invaded the Moslem faith.

The lamentable part of the affair is that peregrinations of these two extremists and the inflammatory addresses delivered by them and their supporters have raised the temper of the peasantry to the fever heat of the Moslem areas to fever heat. In response to the stories that the British have burned, massacred, bombed Mecca, imprisoned the Khalifa and so forth, no less than 30,000 wretched peasants have been induced to sell their all to financial vultures who lurk round the villages and then set out on a trek for three, four or five hundred miles to Afghanistan.

## VERY CLOSE RACE IN NATIONAL AND AMERICAN LEAGUES

Brooklyn Increased Lead in National Yesterday to Five Ball Games by Winning Double-Header — Ruth's Homer Won Game for New York — Leaders in American League Both Won.

**NATIONAL LEAGUE.**  
Brooklyn, Sept. 13.—Brooklyn increased its lead in the National League pennant race to five full games today in winning a double-header from Chicago 7 to 3 and 7 to 2, while Cincinnati lost to Philadelphia. It was the Dodger's tenth straight victory on their home grounds since returning from the West.

Brooklyn continued its hard extra-base hitting and virtually knocked Alexander out of the box in the first contest for their first victory over the star borman this season. Twelve hits for a total of 21 bases were made off Alexander and Carter, who relieved him after the fifth inning. Pfeiffer was in good form and received sensational support.

The Cubs' ragged fielding in the second game made it easy for Uncle Robbie's men to win. Four double plays stopped the visitors' whenever they threatened to rally, except in the fourth inning when two doubles and a single accounted for two runs. Marquard, who is credited with the victory was taken out in that inning for a pinch hitter.

## Halifax Is Full of Fight

Now Trying to Have Dempsey and Dowd Meet in Sister City.

Halifax, N. S., Sept. 13.—Local business men are endeavoring to raise a fund to bring Jack Dempsey here to fight Dan Dowd, Boston heavyweight, who made a big impression on local fans here two weeks ago. It is understood that Jack Kearns, manager of Dempsey, is ready to give Dowd a chance should there be a good purse in sight. The local club is able to accommodate 7,000 or 8,000 spectators and such a match would draw big here.

**NEWS OF THE MOVIE STARS**  
"The Bronze Bell," by Louis Joseph Vance, will be the next of the Vance novels to be filmed by Thomas H. Ince. Courtney Foote will play the leading male role.  
The Howell Productions Company is filming "Longbow," "The Village Blacksmith" at the Hermans studio in Santa Monica.  
Mary Pickford is back at her old quarters at Brunton selecting a cast for her new picture, a comedy-drama written by Frances Marion.  
May Allison and twelve members of the company working on "The Marriage of William Ashe," her new Metro picture, have returned to Hollywood studios after a location trip to Brent's Mountain Crag, where many exterior scenes for the picture were taken. Edward Sloman is directing this story. Mrs. Humphrey Ward is the author and Ruth Ann Baldwin adapted it for the screen from the stage version by Margaret Mayo.  
Ruth Roland has started on her new feature serial at Brunton, which will be called "The Avenging Arrow," and is being directed by W. J. Bowman. Eddie Herr is leading make-up.  
Robert Hughes, one of the eminent studio men, has arrived at the Goldwyn studio in Culver City to collaborate on the production of one of his stories now being put in film form.  
Bessie Love has returned to Hollywood after her long visit in the East.  
Katherine Macdonald filmed the final scenes for "The Second Latchkey," her seventh picture for First National, recently.  
Allen Dwan is making circus scenes for the "Forbidden Theater," his first production for the Associated Producers.  
Herbert Standing, who has recovered from his injuries, received the street car accident some time ago, has returned to work in a Reelart feature.  
Barbara Bedford, who plays the female lead in Maurice Tourneur's first Associated Producers' subject, "The Cooper, inherits her father's professional ability that of designing. She paints all her own creations for her moderate fee.  
"Her Beloved Villain," Wanda Hawley's third Reelart feature, has been completed, including cutting and titling.  
Harold Lloyd has just begun a new comedy under Director Hal Roach, called "Wrong Number."  
"Love, Honor and Behave," Mack Sennett's new five-reel comedy feature Charles Marry, Phyllis Haver and Ford Sterling, with Charlotte Mearns, Kela Pusta and Eddie Gibbon in supporting roles.  
Sidney Ainsworth has been added to the cast of "Caravan," the Tom Moore picture now in the making at Goldwyn.

## BABE HITS 49TH

Detroit, Sept. 13.—Babe Ruth knocked out his 49th homer of the season today in the sixth inning against Detroit with one man on base. Ehmeke was pitching for Detroit.

## Penobscis

Penobscis, N. B., Sept. 10.—Labor Day, the last holiday of the summer, was taken advantage of by nearly everyone of this place. A large number went to St. John to the Exhibition and races, while others went to Moncton to witness the sports that were held there. Those who remained in the village were treated to one of the best ball games seen on the diamond this season, when the local boys went down to defeat before the Anagnone side. It was a game with lots of hits and filled with close decisions that brought the crowd to their feet time and time again. In the eighth inning with the top of the Penobscis batting order up a batting rally was started which looked like a sure win, but "Bobby" Lockhart out in centre field gathered in a couple of long hits that brought the scoring to an end.

Notwithstanding the very unpleasant weather last week two very pleasant social events were held. On Thursday evening the friends of Miss Rena Martin gathered at the home of Mrs. Hobart McQuinn and tendered her a variety shower. Miss Martin was taken completely by surprise, having had no intimation whatever of the affair until entering the house. Again on Friday evening the home of Mr. and Mrs. Luther Hall was the scene of a pleasant event when their daughter, Hazel, was made the recipient of pretty and useful gifts by a large number of her friends. Both young ladies are soon to take part in much more interesting events and we are glad to add that after these events both are to remain in the village.

The blueberry season is drawing to a close. It has been a good one for both the pickers and shippers, as the price has held up better than in former years. It is estimated that about 150,000 quarts have left here already, which means that over 45,000 have been brought into the place. Miss Gifford, principal of the school, spent the weekend and holiday in New castle, attending the wedding of her brother on Monday.  
Mr. and Mrs. Milton Perry and daughter, who have been guests of Mr. and Mrs. Arch. Robinson for the summer, returned home yesterday.  
Mr. George Perry, Moncton, was the guest of his brother at the paragon for the weekend.  
Mr. Edward Freeze, of Hampton, accompanied by his niece, Miss Marquette Freeze, Boston, were guests of Mrs. May on Friday.  
Mr. and Mrs. A. D. Freeze and some motored to Moncton on Sunday.

## DARING AUTO DRIVER MAKES RECORD

Two brothers, Gaston and Louis Chevrolet, warm rivals in the automobile racing game, fought a great duel on the Sheephead Bay Speedway in Long Island in a 150 mile race in which there were the unlucky number of thirteen starters. First it was Louis, then it was Gaston who led the field. At the end it was Gaston who flashed across the field a winner in his Frostenc, and he succeeded in beating the record of 150 miles.

## Carpentier Is After Dempsey

Stung to Quick French Fight Comes to Seek Battle With Levinsky and Champ

New York, Sept. 13.—Georges Carpentier, the French boxer, arrived here today on the steamer La Lorraine. He intends to meet Battling Levinsky and Jack Dempsey. Carpentier intended he had been stung by adverse criticism in American newspapers, and that he eagerly awaited an opportunity to show what he could do in the ring.  
"I hope it is a tough match; I would so prefer it," he said, speaking of his proposed fight with Levinsky on October 12. "I am confident that I can defeat him, and I want to show the people I am a fighter. After I have fought Levinsky, then I will negotiate with Dempsey or his manager."  
Bands to Meet Boxer.  
Georges said there would be no battle with Dempsey until after December 31, as he is tied up by a contract which prevents him meeting the champion on American soil this year. Unless the contract if he meets Dempsey this year, it would have to be in London. Carpentier said he would probably not fight Dempsey until next summer.  
Francis Descamps, Carpentier's manager, said the training camp would be at Summit, N. J. There was a big crowd and two brass bands at the dock to meet the French giant.

## French Champion Reaches New York

New York, Sept. 13.—Delegation from twenty-five French societies greeted George Carpentier, European heavyweight boxing champion, arriving here early today on the S. S. La Touraine. Carpentier was accompanied by Marcel Deschamps, his manager, who has planned to start immediately preparations for a bout with Battling Levinsky at Ebbetts Field, Brooklyn, on Oct. 12.  
"I hope it is a tough match; I would so prefer it," he said, speaking of his proposed fight with Levinsky on October 12. "I am confident that I can defeat him, and I want to show the people I am a fighter. After I have fought Levinsky, then I will negotiate with Dempsey or his manager."

## REDS ASK SAFETY OF RIGA ENVOYS

Will Not Participate in Peace Conference Without Poland's Guarantee.  
Warsaw, Sept. 13.—M. Chicherin, foreign minister for the Soviet government, notified Warsaw today the Bolsheviks would not participate in the peace conference at Riga unless immunity were guaranteed and accommodations provided for all members of the staff. Immunity is to include even the minor members. The housing accommodation, he declared, must consist of one house large enough to care for the entire party, or a series of small houses.  
Premier Sapieha advised him that these demands were entirely outside the original stipulations. He hoped so serious and important a matter as making peace would not be delayed by incidents, but that while this rest, aid primarily with the Estonian Government he would see what could be done. He wired the Estonian authorities, asking their consideration of the new request. He also advised the Poles.

Mr. and Mrs. G. Talbot Morton and Mrs. Louise Morton, Sackville, were guests of friends here on Sunday.  
Miss Edith Thomson, Sussex, spent the weekend with her cousins, the Misses Mary and Mabel Hall.  
Mr. and Mrs. Joseph Robinson and Mrs. Mrs. Lewis McCready spent Sunday with friends in Waterford.  
John McLeod, of Salem, Mass., spent 2 or 3 days of last week with friends here.  
Mrs. Henry Harner, of Moncton, accompanied by Miss Lutz of Boston, were guests of Mr. and Mrs. C. W. Osbourn for a few days last week.  
Miss Elizabeth Davies, Moncton, spent the holiday here, the guest of Mrs. A. D. Freeze.  
Edgar Wallace is showing his black Percheron stallion Montgomery Ward, at the Provincial Fair in St. John this week.  
Many people of Penobscis saw an airplane for the first time on Sunday when the Curtiss biplane which will give exhibition flights in the St. John this week, flew down this valley about 3 p.

## Too Many Cooks Spoiled Chances

Nicholson Blames the Crew and the Crew Blames Nicholson.

Southampton, Eng., Aug. 31.—When Mr. Nicholson, the designer of Shamrock IV, arrived in England, he placed the superior seamanship of the Resolute's captain and crew among the reasons for the challenger's failure to lift the America's Cup.  
Members of the Shamrock's crew, who have returned to England, resent the slur which they consider Mr. Nicholson has thrown upon their efficiency as yachtsmen and declare that the Shamrock's faulty handling was largely due to the interference of Mr. Nicholson.

Arthur Diaper, one of the crew, said in an interview with The Associated Press correspondent it was a case of too many cooks, and he pointed to the fact that on the only occasion Captain Burton was free from interruption and advice the Shamrock won. Diaper took all of the crew felt convinced that had a professional skipper been in full command Shamrock would have won the first three races. He claimed that the work of the men was made extremely difficult because they were required to do on Shamrock IV. On the occasion in setting the mainmast they had 36 men on the balliards and could not move the sail.  
"In fact," said Diaper, "I have never before seen such heavy canvas on a racing yacht." And then, on the return of the yacht to City Island, after the races, they found a complete set of light racing canvas for Shamrock IV stored in Jacob's yard.  
"Another fact," said Diaper, "is the constant changing of the crew which was in progress throughout the period of the races. The topmast was changed no less than seven times in the course of three weeks, and eventually they finished with the original one."

## Schooner For America's Cup

Commodore Ross Says People Want Honest to Goodness Race—Opposed to Freaks

Toronto, Sept. 13.—Commodore A. C. Ross, of the Cape Breton Yacht Club, who is here after visiting New York says in an interview that public opinion across the line is all opposed to freak yachts which can sail only in certain kinds of weather. There is a longing for a real honest to goodness sailorman's race. Commodore Ross says he proposes to try for the America's Cup with a sea-going schooner much as used in the Nova Scotia fisheries and she will be manned by men whose every day at sea witnesses not a race for sport but a race for their livelihood.

## Grand Circuit At Syracuse

Nine Races With Approximate Value of \$28,500 Will be Contested Today.

Syracuse, N. Y., Sept. 13.—Nine races, with an approximate value of \$28,500, will be contested at the Grand Circuit meeting at the New York State Fair, tomorrow. The classic Empire State stake for 2-year-old colts, carrying a value of \$10,000, heads the programme. The Matron stake for three-year-old trotters, and for which \$5,500 will be divided among the money winners, is the second top-liner. The remainder of the programme consists of the Lieutenant-governor's stake for 2-year-old trotters, the Syracuse for 2-year-old trotters, the Yates Hotel Cup for two-year-old trotters, the St. Cloud Cup for three-year-old pacers, the 216 class trotters, and a 212 trot for amateur drivers.  
Rain prevented the running of today's card, and the programme has been coupled with that of tomorrow.

## OLD COUNTRY FOOTBALL

London, Sept. 13.—Blackpool and Clapton tied today, two all, in a second league football fixture.  
London, Sept. 13.—League football results today were:  
Second division—Stockport, 1; Fulham, 1. Northampton, 0; Millwall, 2.

### THE TARIFF QUESTION.

The most important question before the country at the present time is undoubtedly that of the tariff, and it is in order that the fullest information as to the most satisfactory method of arranging this may be obtained that the Tariff Commission is now about to open its sessions. Every one who can render any assistance by furnishing information likely to be useful in framing a tariff that will produce a reasonable proportion of revenue, will not hear too hardly on any particular industry or interest, will be gladly heard. It is under a protective tariff that Canada has been able to attain her present prominent position in the commercial world, and through it the wealth and prosperity that her people now enjoy; and to go back on the principle of reasonable protection would be nothing short of a grave disaster. It is the policy of the Meighin Government to adhere to the principle of moderate protection, so that the prosperity of the country and the welfare of its people may be maintained.

The party that Dr. Emery would support, if elected, places before the people a mixed policy, sometimes free trade, to try and meet the views of the agrarian element, sometimes tariff for revenue, sometimes protection. In a word, it is trying to be all things to all men, trying to run with the hare and hunt with the hounds. Tariff for revenue as always practiced was, and is necessarily the same as moderate protection, and the very same as we have now.

It has been stated over and over again by responsible leaders of the opposition party that there is no difference between their platform and that of the United Farmers. If we accept their statement, here is their platform: The avowed claim of those who initiated the United Farmer Movement in the West, and who are using it to gain power, if possible, for themselves—at the most critical time in the history of trading and production conditions in the world—is to overthrow our trading policies which have been so successful in the past, and substitute free trade.

They do not tell us in a definite or understandable way how the money is to be raised to pay the interest on our war debt, to pay pensions, to take care of the wounded and maimed soldiers, to carry on government. They ask us to go it blind. They do not, as practical men should, take the national balance sheet in their hands and tell us specifically or definitely how the monies are to be raised in a better way than they are now being raised.

The carrying out of their policy would practically mean wiping out most of the large revenues derived through the Customs tariff, and nothing is offered in substitution except vague suggestions that we should get what is necessary from Income Tax, which, in the minds of those of our people who come forward as good citizens and say that tax is as high as it can safely be put, the Canadian Income Tax is higher than the United States tax on all incomes, higher than Great Britain, Australia, New Zealand, or any other country on large incomes. Is this fact generally known? If it is raised again, is it not likely to keep out capital, to drive out capital and people as well.

They also talk about imposing a Land Tax, forgetting that that great Imperial statesman, Lloyd George imposed such a tax in England some years ago with a great flourish of trumpets and recently had to abandon it as impracticable; forgetting also that a commission appointed by the Manitoba Government to enquire into the question of land taxation, of which commission two reputable and responsible farmers—members of the Canadian Council of Agriculture—formed part, unanimously reported against the imposition of that kind of a tax which, in the minds of those of our people who come forward as good citizens and say that tax is as high as it can safely be put, the Canadian Income Tax is higher than the United States tax on all incomes, higher than Great Britain, Australia, New Zealand, or any other country on large incomes. Is this fact generally known? If it is raised again, is it not likely to keep out capital, to drive out capital and people as well.

There is a type of person going about today prophesying the prompt dissolution of the British Empire. "Look at Egypt," he cries, "Look at Ireland! Look at India!" We are quite prepared to contemplate all these countries not only with equanimity, but with cheerfulness. Both Egypt and India are going through a process of change inevitable as East and West came more in contact. The pace of this growth has been immensely stimulated by the world shock of the war. Naturally there are growing pains—that is all. This vitality is a sign of life, not of death. It would indeed be time to despair of the Empire if its Constitution and governing minds were so fast set in the old ways that they did not permit of local native self-government. Even Ireland is in no worse a state than she has been at least twice in the last hundred years—and that at least we have made much progress in grasping the Irish problem. The reply to the pessimist is the counter-attack, "Look at the loyalty of the Antipodes to the Prince; look at what all the Dominions did in the war!" After the American War of Independence the croakers said the British Empire was ruined. It was just the reverse. And so it is today.

President Wilson, in connection with the troubles in the U. S. anthracite coal region, has declared that there is no difference between an arrangement by the men concerned collectively to take a vacation and a strike. So he declines to re-open the questions which he has settled by recent proceedings which he approved. The logic is on the President's side. Events may show, however, that the strength is with the men.

One anti-suffrage editor called suffrage the "Useless fifth wheel in politics." To which a suffragist retorts that the fifth wheel is sometimes the most useful wheel in a carriage.

splendid prospect ahead of us, we should cling fast to that which we know, cling fast to sane, orderly, stable government for all classes, a government based upon the best Anglo-Saxon practice, and not allow ourselves to get tangled up in class movements based upon class consciousness, with selfishness as their motive, which can only lead to chaos, if not disaster.

### WILL THERE BE A PROVINCIAL ELECTION?

Dame Rumor is notoriously a lying jade, but, just the same, occasions have been known when the Dame told the truth. Just at present reports are current that the Provincial Government will likely call on a general election within the next couple of months, on the off chance that a snap verdict may strengthen its position in another House. There are more unlikely things than this reported decision of the Executive is correct. It is known that Premier Foster would feel considerably happier if he got rid of some of the weaker timber in his Cabinet. The Hon. J. P. Byrne, the Attorney-General, is said to be anxious to retire from office. His health is not as good as it might be by any means, and he feels that the cares of office can very well be transferred to some other shoulders. Then there is the recent rumour between Dr. Smith and his colleagues, which cannot be smoothed over unless the general Doctor "takes backwater" from the Minister of Agriculture, something that no self-respecting man would ever think of. He would doubtless be glad to get out also. The Hon. C. W. Robinson would be equally willing to make room for somebody else. The Hon. Robert Murray isn't needed at all, because the Comptroller-General does all his work under the personal direction of the Premier. Hon. Mr. Dugal, is from his lack of touch with affairs, more ornamental than useful, and can also readily be dispensed with. And it may also be that the Premier may think the time opportune to get a really live, practical man as head of the Agricultural department. So that some reconstruction in the Executive is not only quite a possibility, but might easily be advantageous to the Government.

Naturally, of course, no authoritative information can be got as yet on the subject, but if the Premier feels that by calling on an election with as little notice as possible he can catch the Opposition napping, it would be good tactics to do it. It was by following just those tactics that Premier Murray did so well in Nova Scotia, and Premier Foster may be under the impression that they would serve him just as well. The point for the Opposition is not to be caught napping.

### NOT DEAD YET.

There is a type of person going about today prophesying the prompt dissolution of the British Empire. "Look at Egypt," he cries, "Look at Ireland! Look at India!" We are quite prepared to contemplate all these countries not only with equanimity, but with cheerfulness. Both Egypt and India are going through a process of change inevitable as East and West came more in contact. The pace of this growth has been immensely stimulated by the world shock of the war. Naturally there are growing pains—that is all. This vitality is a sign of life, not of death. It would indeed be time to despair of the Empire if its Constitution and governing minds were so fast set in the old ways that they did not permit of local native self-government. Even Ireland is in no worse a state than she has been at least twice in the last hundred years—and that at least we have made much progress in grasping the Irish problem. The reply to the pessimist is the counter-attack, "Look at the loyalty of the Antipodes to the Prince; look at what all the Dominions did in the war!" After the American War of Independence the croakers said the British Empire was ruined. It was just the reverse. And so it is today.

President Wilson, in connection with the troubles in the U. S. anthracite coal region, has declared that there is no difference between an arrangement by the men concerned collectively to take a vacation and a strike. So he declines to re-open the questions which he has settled by recent proceedings which he approved. The logic is on the President's side. Events may show, however, that the strength is with the men.

One anti-suffrage editor called suffrage the "Useless fifth wheel in politics." To which a suffragist retorts that the fifth wheel is sometimes the most useful wheel in a carriage.

### WHAT OTHERS SAY

**Decay of the Home?**  
(Belleville Daily Ontario.)  
Of the insidious evils that beset society and endanger the country's future none is more to be feared than the decay of family life. In creating the home, humanity achieved its greatest social triumph for the reason that it insures its perpetuation upon a true and enduring basis. With no comparable substitute in sight, it would be folly to disregard this crowning result of age-long experience established upon Christian principles. For its permanent preservation it is a publicist and pulpiter can unite upon the common ground of a paramount need. To the present and to posterity it asserts an equal obligation.

Modern tendencies conspire against the home. The exactions of business life, the opening of so many pursuits to women, multiplying organizations and the swirl of town diversions distract and divert from the household. The American type of life in flats, while adapted to the elderly leisured class, is far removed from the desirable family-rearing habit. Small wonder that someone has put into the mouth of modern civilization the caustic reproach: "When my father and mother forsake me then the community will take me up."

**A Happy Phrase.**  
(Lethbridge Herald.)  
When it comes to happy phrases, "Field of the cloth of gold," used by one of the visiting British editors, to describe the western wheat fields ripening for the harvest, was a very appropriate one, conveying an intensity of meaning.

**Labor's Future.**  
(Winnipeg Free Press.)  
Nothing can prevent a far more rapid and steady advance in the future if Labor sticks to the road it has thus far travelled; but if it wanders afield in the home of finding a paradise for the masses of disappointed hopes and lost opportunities.

**The French-Canadians.**  
(Montreal Gazette.)  
The French offer vivacity, picturesque imagination. In these qualities the British-Canadians are deficient. They are practical, and, if it dared to be whispered, a trifle stolid. Only—they have a genius for doing things they did in the past, and they recall their early work of civilizing and Christianizing on a silent and unknown continent. That, perhaps, produces a certain resentment toward those who have no traditions, and can only remember yesterday. But there is room to grow and touch elbows and be friends. And this brotherliness is all the more important in that Canada, as Sir Arthur Currie pointed out, is now a nation with the consciousness of nationhood.

### A BIT OF VERSE

**JUST SUPPOSE**  
If all that we say  
In a single day,  
With never a word left out,  
I'd wear printed shoes alight  
In clear black and white,  
I would prove queer reading, no doubt.

And then just suppose  
Ere one's eyes he could close,  
He must read the day's record  
through,  
Then wouldn't he sigh,  
And wouldn't one try  
A great deal less talking to do?

And I more than half think  
That may a kink  
Would be smoother in life's tangled  
thread,  
If one-half that we say  
In a single day  
Were left forever unsaid.  
—Unknown Author.

### THE LAUGH LINE

Chicken-hearted people are always ready to hatch up an excuse.

**Defined.**  
"What does it mean by 'being candid,'" asked one of our correspondents, "speaking out to others as you would not like them to speak to you."—Boston Transcript.

**A Desperate Criminal.**  
Warden—"Your wife's here to see you."  
Prisoner (desperately)—"Tell 'er I'm out!"—Fairplay (Vancouver, B. C.)

**Tempted Fate.**  
What became of that girl Masherton who was flirting with last summer?  
You mean the girl that Masherton thought he was flirting with? She married him.—London Opinion.

**Bright Student.**  
"Now," said the professor of chemistry, "under what combination is gold most quickly released?"  
The student pondered a moment. "I know, sir," he answered. "Marriage."

**Plumed himself on His Knowledge.**  
Mrs. Casey (with fashion paper)—"What are agrettes, Mike?"  
Casey—"Weren't you ever in casley, woman? Shure, it's what ye send when ye can't go."—Boston Transcript.

**The Impossible.**  
Woman—"Big, strong man like you bezzing? You ought to look around for work."  
Tramp—"Excuse me, lady, but I've got such a stiff neck I simply can't look around."

**Misaligned.**  
It has come to our ears that a bricklayer who has been resting for the last six months suddenly decided last week to return to work, but unfortunately could not remember where he had left it.—The Passing Show.

## Inquest On Death Of Recent Suicide

Jury Last Night Found William Ambrose John Came to Death by Self-Inflicted Wound.

"We the jury empaneled to enquire into the death of William Ambrose John, which occurred on the evening of the eighth day of September 1920, at the Peoples Palace, 36 St. James street, in the city of St. John in the county of St. John, find that his death was caused by a bullet wound through the heart inflicted by himself while in a despondent mood." (Signed) E. J. Todd, foreman; Hugh Millie, John B. Magee, Charles Hanson, I. D. Sparks, W. V. Hatfield, T. S. Hill.

**W. H. JOHNSON**, of Portland, Ore., who says no one could have done him any greater kindness than the friend who advised him to try Tanlac—Gains fifteen pounds.

"Not in a long time have I enjoyed such good health or felt so well generally as I do since taking Tanlac," said W. H. Johnson, 315 East 10th St., Portland, Ore., who holds a responsible position with the Northwest Transfer Company.

"After every meal there was a dull, nagging pain in the pit of my stomach that kept me feeling miserable for hours. The gas from my sour, undigested food would blow me up terribly and my nerves were so upset that I would be awake half the night unable to sleep. I was constantly having blind, dizzy spells and could not bend over and straighten up quickly but what everything seemed as dark as night to me."

"I was selling a friend one day how bad I felt and he advised me to try Tanlac and I just want to say he couldn't have done me a greater kindness."

"I've picked up all of fifteen pounds in weight, my appetite is fine, and although I am eating just anything I want my stomach never gives me a particle of trouble. My sleep is sound and restful and my strength and energy have been so renewed that my work is no longer a burden to me."

"Tanlac is sold in St. John by Ross Drug Co. and Dr. W. Murray MacLaren, personal director of a special Tanlac representative—Advt."

## Seamen's Institute Home For Sailors

Man of War-men Being Entertained—Great Changes Being Made to Interior.

Walter Brindle, manager of the Seamen's Institute, has made arrangements to have men and women of the crew of H. M. S. Constance every evening while the warship is in port. Mr. Brindle would like to have had a concert for the men but this is impossible on account of the renovating work that is going on at present in the institute. The men are being made welcome and the writing room and reading rooms have been thrown open for their benefit as well as sleeping accommodation for those who are on shore leave. Free street car tickets and free writing materials are being provided the numbers of the crew and Mr. Brindle is also changing money for any of the men who want it.

**Being Renovated**  
The institute is at present in a state of renovation and repair and extensive changes are being made. A gallery is being built in the concert hall which will allow of a total seating capacity when completed of 600. An extra emergency exit has also been added.

All the rooms upstairs have been cleaned and painted while the billiard room has been made into three separate rooms, and now consist of reading and rest room, billiard room and a dining room. The addition of this dormitory will increase the number of beds that the institute has at its disposal from seven to twenty. Several other changes will be made so that by the time the winter season opens the institute will be real comfortable and attractive.

## Given Three Years Suspended Sentence

Peter Yapp and Peter Wood Charged With Stealing—Other Police Court Cases.

A suspended sentence of three years each was given Peter Yapp and Peter Wood by Magistrate Ritchie yesterday afternoon. The two were charged with stealing together and stealing a coat, a suit, and a pair of blankets, the property of Mustafa Abraham.

Considerable evidence was given in the case Saturday and other evidence of Detectives Biddesscombe and Donahoe completed the case for the prosecution when the case was taken up yesterday morning.

George Brooks charged with the non-support of his wife was remanded. Victor McLaughlin pleaded guilty to being a habitual loafer, and to the charge of vagrancy. Officer Gibbs stated that the mother of the defendant had complained of ill treatment at the hands of her son, that he refused to get up in the morning and would not work. The case will come up again Tuesday.

William Williamson, a coachman, was fined \$2 for not standing in the right place at the depot when a train was arriving.

A dozen drunks were remanded. Two prohibition cases, one against a man named Hoffman, the other against Louis Huerria, were resumed after a month's adjournment and were again postponed.

## GUESSING CONTEST AT THE EXHIBITION

Close Contest in Guessing at Protestant Orphans' Booth

The guessing contest in connection with the Protestant Orphans' Home booth at the exhibition, which the number of 350 was given by four persons viz: Leslie Rolston, Germain street, West St. John; Mrs. S. C. Matthews, Dal street, city; Mrs. H. Roberts, First street; and George Bridgen of Forest street. The three adults will settle the winner of the two annual theatre passes to the Imperial and the Opera House theatres among themselves; but Master Rolston is the winner of the first prize in the child's contest and receives a mechanical electric toy railroad, with tractors, etc. The second prize, the child's mechanical boat, was won by Stanley Rankin of North Sydney, a visitor to the city and the exhibition.

Master Rolston was the victim of a recent shooting accident and is now in the hospital being treated and his winning at the booth may help to cheer him during his time of confinement in the hospital.

There were thousands of guesses as to how many of the new small Canadian pennies were in the jar. It was baffling as the cents were mixed with beans. It was a novel exhibit as every person won a prize and the total amount went toward a good cause.

## CANADIAN NATIONAL SUBURBAN TRAINS

Effective Monday, Sept. 13th, account change from Daylight to Atlantic Standard time, Suburban trains, Nos. 331, 337, 333 and 335 will run one hour later than shown in this table.

Suburban trains will leave Hampton as follows: 6.45 a.m., 10.10 a.m., 1.40 p.m., 7.20 p.m.  
Suburban train will leave St. John for Hampton as follows: 9 a.m., 12.30 p.m., (Saturdays one hour later, 6.15 p.m., 10.20 p.m., (Saturdays 11 p.m.)  
Train No. 24 (Sussex train) will leave St. John 6.15 p.m. Train No. 23 will leave Sussex for St. John 6.30 a.m.

She is "Ex"-pensive.  
They had spent the day—and he a deal of coin—at the Fair. Howward bound, she said to him: "What makes you so penny-wise? Check up. I've got over that feeling long ago." "Yes," said he sadly, "I've noticed the difference."

**OBITUARY.**  
Many friends in Rexton and other parts of Kent County learn with regret of the death at his home in Sackville, N. B., on Monday, Sept. 6th, of Charles D. Lucas at the age of fifty-nine years. Mr. Lucas had been bitten by a fly while working about John D. Walker's mill in Rexton. Blood-poison resulted which caused his death. Deceased was a native of Coalgate, Kent County, and is survived by his wife, who was a Miss King from Nova Scotia, one daughter, Mrs. Marshall Anderson of Port Elgin, N. B., and two sons, Augustus of Moncton and King, at home, also two brothers residing in United States. Mr. Lucas was a highly respected citizen. The burial took place at Port Elgin, N. B. The pall-bearers were Hanford Palmer, Silas Copp, William Teed and J. C. Hickey.

## PROFITTEERING RESPONSIBLE FOR HIGH COSTS

Inverness Mine Workers Make That Assertion in Trades Congress Resolution.

**PROFITTEERING RESPONSIBLE**  
Windsor, Ont., Sept. 13—President F. J. Ciancio, of the Windsor Trades and Labor Council, welcomed the delegates to the Annual Trades and Labor Congress, which opened here today at the armories in the name of organized labor of the city. Mayor J. B. Winter, Hon. Walter Helle, minister of labor and health, in the Provincial Government; Walter McGregor, representing the Border Cities Chamber of Commerce, and W. C. Kennedy, M.P., also gave addresses of welcome and Tom Moore, president, formally declared the convention open.

A feature of the morning session was the address of Hon. Mr. Helle, who declared that the present Ontario Government had adopted many of the planks of the labor platform and had made a record in passing progressive legislation on the statute books of the province. He also warned the delegates that the greatest danger to organized labor lay in disension within its ranks. He declared that the Farmer Labor Government had placed more progressive legislation on the statute books last session than had ever been done in the same length of time in the history of the province. He asked that the government be given a chance. He declared that though the government was not a labor government, it was sympathetic to labor and anything it had done in the past or would do in the future would be for the greatest good to the greatest number.

President Tom Moore, acknowledged the welcome on behalf of the delegates, and declared the convention open.

## CONDEMNNS LAXITY OF WEDDING PERMITS

Port Arthur, Ont., Sept. 13—"With reference to the laxity of the issue of civil marriage licenses as a marriage license, the Ontario Public Health Commission, during a discussion introduced by Magistrate Patterson, at St. William, at the hearing here on Saturday. The magistrate, during examination, introduced the subject of marriage by magistrates of Ontario and followed with a statement that "the peddling of marriage licenses in the city of Port William was a joke."

"You can buy a marriage license in any place from a grocery store to a junk shop," said the magistrate, who also declared many couples in the city procured a license, hung it up at the head of the bed and considered that sufficient ceremony.

## LUX

for Voiles, Linens, Batistes, Cottons  
Do not think of LUX as a cleanser for only georgettes, chiffons, tricolettes, crepe-de-chines. The bubbly LUX lather means double life to anything you can wash—anything that pure water will not harm. Chiffon or linen, it's all the same—use LUX.

LUX free booklet, "The Care of Dairy Clothes" sent on request.

Nor Does Consumer.  
The milk producers had a busy day yesterday trying to prove that they don't get the cream of the milk business.

## See it Whip!

For every whipped cream need try this  
Set can in a succession full of cold water, allowing water to cover face of can. Being in boiling point and when water begins to bubble, remove can and chill until ice cold. Then pour into deep bowl and whip with egg-beater until it is stiff. Sweeten to taste. Recipe Book Form.

### Borden's ST. CHARLES MILK

125 BROADWAY, MONTREAL

THE STANDARD'S FINANCIAL SECTION

LISTED SECURITIES AT MONTREAL ARE WEAK AND ERRATIC

Papers and Steels Show Tendency to Seek Lower Levels in 5,223 Share Day.

Montreal, Sept. 13.—The trend of the market in listed securities on the local exchange, today, was irregular, with losses extending gains at the finish. Prominently stronger stocks were Atlantic Sugar and Cement, and prominently weaker ones were Abitibi, Spanish River, Bell Telephone, Merchants' Bank, and Hochelaga Bank. In no case did the price change exceed two points, however, and no group showed any definite trend.

Cement Up Two Points. Atlantic Sugar netted 1 1/4 points at 141 3/4, and Cement two points at 64, in general. Abitibi sold down to 79 1/2, a loss of 1 1/2 points. Bell Telephone created a new low record price for the year at par, and the two banks mentioned above lost a point each. Hochelaga at 158 and Merchants at 178.

Both the Spanish Rivers opened weaker and continued downward, the common, at 118 1/2, losing a point, and the preferred, at 125, losing two points. The steels were steady to weak, with Dominion of a fraction at 56 3/4. The textile group was neglected, and the transactions also were quiet.

IN THE PUBLIC EYE

Samuel W. Cohen, M. E.

Samuel W. Cohen, M.E., president and general manager of the General Asbestos Company, Limited, Montreal, is one of the best known mining engineers in Canada. He first began his mining career as assayer and chemist with the Consolidated Gold Mines and Development Company, Mancoos, Colo., in 1903; assayer and miner, respectively, for Adler Mining Company, Virginia City, Mont., and B. and M. Co., Butte, Mont., 1904-1905; superintendent, Gill Edge Mining Company, Florence, Idaho, 1905; superintendent, Kerr Lake Mining Company, Cobalt, Ont., 1906-1907; general manager, Crown-Reserve Mining Company, Ltd., Porcupine, Ont., 1907-1918; and general manager of the Bluestone Mining and Smelting Company, Moose, N.S., from 1918 to 1920.

JEWISH HOLIDAY TOOK SPIRIT OUT OF WALL STREET

Sales Were Only 335,000 Shares and New Low for Sterling Demand at \$3.45

New York, Sept. 13.—Dullness and an uncertain movement of prices were the salient characteristics of today's stock market, observance of the Jewish holiday accounting largely for the smaller dealings.

The stronger reserve showing of the Federal Reserve and Clearing House Banks nullified some short covering at the outset, when part of last Saturday's losses were retrieved. In the main, however, declines prevailed among leaders of the industrial and special groups. Sales amounted to 335,000 shares.

Gold Imports Assumed More Impressive Dimensions, some \$1,000,000 more received for the French account, with an additional \$2,800,000 from South Africa via London. From this last source the inflow so far on the current movement approximates \$30,000,000. Domestic monetary conditions were the object of more than ordinary solicitude because of the heavy payments to be made during the month for federal income and excess profits taxes by many large industrial companies as well as individuals.

Call Loans 7 Per Cent. This prospective drain was without material effect on money rates, all of the day's call loans being made at 7 per cent. Very little time money was obtainable at 1 1/2 to 3 1/4 per cent. for 60 and 90 days, no over-year loans being reported. There was fairly active trading in the new French 8's, which made the new record of 102 1/4, reacting later to 101. Liberty issues again lost ground, but the general domestic list was steady. Total sales, per value, aggregated \$7,800,000.

Old United States 2's and 4's rose 1/4 per cent. on call.

N. Y. QUOTATIONS table with columns for Open, High, Low, Close and various stock symbols like Am Beet Sug, Am Car Fdy, etc.

CLAIM GIRL WAS HIDDEN 17 YEARS IN DARK CELLAR Only Light That Came Was from a Small Window High up in Cell.

Joliet, Ill., Sept. 13.—State and county authorities at today preparing an investigation to determine persons responsible for the condition of Marie Kolwiski, a crippled, aged 19, who, they say, had been hidden for 17 years in the cellar of her home here. Officials announced that they had learned that the girl was placed in the cellar when she was two years of age.

TORNADO LOSS IS ESTIMATED \$400,000 St. Catharines, Ont., Sept. 13.—Reports this morning from the lake shore section of Louth and Crathorn towns, devastated by the terrific wind and hail storm of Saturday, indicate that the damage will total at least \$400,000. W. H. Banting had 1,500 bushels of late tomatoes to pick this week. Today he says he will not be able to get fifty baskets. George X. Walker says he will not be able to realize \$1,000 from his crop, which Saturday was worth \$11,000.

Latest Market Quotation. In the list of altituding prices we discern that an ounce of prevention is worth today as worth three pounds of cure.

IN THE PUBLIC EYE

H. W. Austin

The firm of P. K. Company, Limited, which was incorporated a year ago for the purpose of merging the interests of the well known glove manufacturing firm of Perrin Freres and Cie, of Paris and Grenoble, France, with the silk products concern of Julien Kayser and Company, Limited, of Sherbrooke, Que., has just adopted the incorporated name of Perrin Freres and Company, Limited. The firm will have headquarters in Montreal.

H. W. Austin, the managing director of the amalgamated companies, was general manager for Canada of Perrin Freres and Cie, up to the date of the new incorporation, and for several years previous was associated with Canadian and American firms. Mr. Austin is also president of Hoopers, Limited, Woodstock, Ont.

Wheat Almost Cut. Wheat cutting is practically completed and threshing is general in all districts in Saskatchewan, according to the weekly crop report issued today by the Provincial Department of Agriculture.

Rumor About Forgings. The advance in the price of Canada Forgings' shares in the trading, was accompanied by a rumor that the company had disposed of its Buffalo subsidiary, Delaney Forge and Iron Company on advantageous terms. The report could not be verified locally.

Turpentine and Rosin. Savannah, Ga., Sept. 13.—Turpentine firm, 140 1/2; sales, 248; receipts, 332; shipments, 88; stock, 11,859. Rosin firm, sales, 1,484; receipts, 1,147; shipment, 4,232; stock, 40,515.

"WHITE HOUSE" FOR TOKIO (Copyright 1920 by Public Ledger) Tokio, Sept. 13.—An exact copy of the White House as an American embassy in Tokio is the plan of Stephen G. Porter, of Pennsylvania, chairman of the House foreign affairs committee.

DEPARTMENT OF THE NAVAL SERVICE. A limited number of ratings with previous service in either the Canadian or Imperial Navy are required immediately. Ratings entered will be sent to England to join vessels about to be commissioned for service in the Canadian Navy. Applications, accompanied by Service Certificates showing previous naval service, and medical certificate of fitness, from local practitioners should be forwarded to the Naval Secretary, Department of the Naval Service, Ottawa.

SUGAR MILL IS READY TO START ON BEET CROPS

Situation is Very Complicated With Prices Likely to Drop.

Chatham, Sept. 13.—The last day of the cane factory run at the Westchester factory of the Dominion Sugar Company is over. At conclusion of the day's operations preparations were immediately started for the beet run, which is expected to commence in a few days. The Chatham factory of the Dominion Sugar Company stopped refining cane sugar some three weeks ago.

It is understood that the past season has been a very protracted one for the sugar refiners all over the country. There has been a very heavy demand throughout the whole season, although of late the demand has been decreased owing to the tightening up of bank credits.

The great proposition which the refiners have faced during the past season, however, has been the high price of the raw sugar. The Cuban contraband sugar reached a top price of 24 cents a pound during the season which, had this price been maintained, would have meant about 31 or 32 cents for the ordinary granulated sugar.

The Outlook Bad. The thing which is uppermost in the minds of the people today in reference to the sugar question is: "What will be the price in the future?" The general impression is that with the coming of the beet run and the increasing supply of sugar, the price will come down. Those who are watching the conditions, however, while they hold an optimistic view, do not look for a great drop in the price of sugar, owing to conditions which surround the sugar market and which, of course, have to be considered.

One of these circumstances is that all of the refineries of the country are at present stocked up with sugar. The price of raw material was at its highest. Some of the refineries have an average cost of production, which is higher than the present price of sugar. If they sold out all their stock now, they would be compelled to do so at a loss, and if the price takes a big drop it will mean that the loss in a great many cases will be a very serious one. Students of the situation seem to be of the opinion that sugar will not take a very great drop until the stock made from high-priced raw sugars is disposed of.

The price of raw cane sugar has recently taken a drop, but the Cuban operators are not selling much at the reduced price. It is a fact, however,

DEPARTMENT OF THE NAVAL SERVICE. A limited number of men are required for entry into training in the Royal Canadian Navy in the ratings mentioned below. Applications should be made to the Department of the Naval Service, Ottawa; Commander in Charge, H. M. C. Dockyard, Halifax, N. S.; or to the commander in Charge, H. M. C. Dockyard, Esquimalt, B. C.

DEPARTMENT OF THE NAVAL SERVICE. Ratings required are: Engine-room Artificers, Stokers, Ordinary Seamen, Boys, Signal Boys, and Telegraphist Boys.

G. J. DESBARETS. Deputy Minister of the Naval Service, Ottawa, Ont. September 13, 1920. Unauthorized publication of this advertisement will not be paid for.

MAHON BOND CORPORATION Ltd. 101 Prince William Street, St. John, N. B. Mails 4184-S. P. O. Box 752.

DEPARTMENT OF THE NAVAL SERVICE. Ottawa, Ont., August 27, 1920. Unauthorized publication of this advertisement will not be paid for.

SUGAR PRICES ARE LOWER IN NEW YORK

price would go still higher, many private consumers stocked up their cellars with sugar. This is a circumstance which affects the calculations of the refiners in disposing of their present stocks.

New York, Sept. 13.—The Arbutle Sugar Refining Company today reduced their list price of fine granulated sugar from 17.10 to 15 cents a pound. All refiners in the market now are quoting this price.

On account of conditions in the money market Victory Bonds are now selling at lower prices. These prices have just gone into effect and afford investors an unusual opportunity to buy the highest grade bonds at abnormally low prices.

Just at a time when the whole world is talking lower prices for the necessities of life comes an opportunity to buy more bonds for a given sum, than at any time in history.

Table with columns for Due, Price, and Yield, listing various bond issues and their respective values.

Eastern Securities Company LIMITED James MacMurray, Managing Director 92 Prince Wm. Street

Why the Reduction in Victory Bonds? Money, like everything else, costs more these days. Money invested earns more. Bonds must therefore be sold at a price which ensures a rate of return equal to that earned by other securities.

As commodity prices decline, as they must, money becomes cheaper and as well as earning power the value of Victory Bonds are thus further enhanced. Hence the opportunity of a lifetime which now presents itself to the wise investor. Write For Particulars.

CANADA THE SOBEREST OF ALL COUNTRIES

English M. P. Says She Has Set Mother Country a Good Example.

IMPRESSED BY THE NEED FOR WORKERS

Praises Canadian Method of Land Settlement for Discharged Heroes of War.

(Copyright, 1920, by Cross-Atlantic News Service.)

By SIR RICHARD WINFREY, M. P.

(Sir Richard Winfrey, M. P., one of the rising politicians in the British House of Commons, and a former Parliament Secretary to the Board of Agriculture, has returned to England after a three months' tour of Canada.)

In the following article, he gives his impressions of the tour.

London, Sept. 12.—I claim to be a Canadian, not only because I have spent some of my life in that country, but because I have seen the need for workers in all parts of the Dominion.

It is not only in the agricultural areas, but in the industrial areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

It is not only in the industrial areas, but in the agricultural areas, that the need for workers is felt.

is the most sober country I have ever visited, and that on my return to the old country I saw more drinking and more signs of excessive drinking in one night in Liverpool than I had seen in 6,000 miles of travel in the Dominion.

The enormous betterment that must arise in the condition of the people who spend their money in other ways than in alcoholic liquor goes without saying, and Canada has set the Mother Country a noble example.

Would that our public men at home could see for themselves what has been and is being done all along the line in the Dominion to solve the Drink Problem.

Aid in the War.

And last but by no means least is a realization of the gigantic effort which was put forth to help the Mother Country in the great European conflict.

It is, I really believe, only by a visit to Canada that the average Englishman can realize this to its full extent.

Everywhere our people in their offices and shops and warehouses, when he visits them in small townships out West, on the wide open prairie, in the lumber camps and indeed in every walk of life, then he finds that practically every young man, and very many middle-aged ones too, answered the call of duty, left their business at great sacrifice and came over to help us.

The losses too were as terrible as they were here at home. And when we remember that Canada only has now a population of some eight millions, the homes that were bereaved are, I believe, quite as numerous as ours.

The money that was raised for the Red Cross and other war work was correspondingly great. The women acted an equally noble part in keeping the home fires burning. And the result of it all has been that never before in its history has Canada been so attached to the old country.

Everywhere our kinship is proclaimed. Everywhere the Englishman is welcomed as a comrade and a brother.

There is a oneness that nothing but this war could have engendered. It is the ardent desire of all true Canadians that their country should be peopled by men and women of the English-speaking race.

It is to them the preference will be given, and it is they who must make haste to possess a land of great possibilities, teeming with wealth for the steady worker.

This is the opinion is rapidly growing that a great deal of unemployment here and elsewhere in the world is caused by labor.

I can safely say this, that Canada

PARIS PAPER QUOTES TAFT.

(Copyright, 1920, by Public Ledger.)

Paris, Sept. 13.—L'Homme Libre, formerly M. Clemenceau's newspaper, reprints today as its leading article the entire text of Mr. Taft's editorial of August 13, in which Mr. Taft indicates the probable course of Republican acceptance of the League of Nations, with reservations, in the event of Harding's election.

The newspaper calls attention to the fact that the reader must not misunderstand the great interest America has on the subject of the League of Nations.

Eighty-five per cent. of the nation's wealth is directed by women. This will be good news to married men who thought heretofore the percentage much higher.

A Cough Won't Last Long

After You Start on a Bottle of OLIVEINE EMULSION

The Great Health Restorer

You will get rid of the cough and get back your health and vigor just as quickly as did Mrs. J. A. Stonehouse, of Williamsdale East, N.S. who writes:

"I took a bottle of OLIVEINE EMULSION last spring when I was a weak, consumptive and had a nasty cough. My cough left me and I also regained my health and strength."

This favorite home remedy is pleasant to take, agrees with the weakest stomach and is suited to every member of the family, young and old.

Outcome of Row Will Have Important Bearing on Polish Peace Forming.

(Copyright, 1920, by Public Ledger.) Warsaw, Sept. 13.—The departure of the Polish delegation to Riga for opening of the peace conference again was delayed by a conflict breaking out today in the Foreign Affairs Commission of the Diet between the Nationalists and the Pilsudski adherents, which is a part of a bitter political struggle the Nationalists are waging against the domination of the Pilsudski Socialist, Daszynski.

The Polish Affairs Commission met to consider the peace terms submitted to the Bolsheviks at Riga, but a discussion was prevented by a wrangle over a successor to Daszynski, who forfeited the chairmanship of the expedition upon accepting the post of vice premier.

The Nationalists—more fortunate than in the recent offensive, wherein they were accused by their opponents of dallying with the idea of a pro-German alliance—controlled a majority of one and installed their candidate as chairman, whereupon the opposition withdrew from the session.

The outcome will have an important bearing on the formulation of Polish peace proposals. The Nationalists are sharp critics of the various details of the peace policy favored by chief of the state and his supporters, the approval of which by the commission is now unlikely.

Under the circumstances the government may fall back on the approval of the Council of National Defense which controls a majority, as a sanction for instructions to the delegates to be sent to Riga.

Council's Big Powers. The council was entrusted by the Diet upon adjournment with sweeping powers for the conduct of the government as during the critical period of the Bolshevik invasion and remains in formal control until the Diet resumes its sessions later in September, the Nationalists having failed in an effort for immediate reconvening.

Difficulties even in the council are not removed. The delegation probably will not leave before Sunday, traveling by way of Danzig instead of the direct route by way of Lithuania. The conference is not apt to open before the 16th of the month, or even later, unless the administration hopes of getting instructions for a final draft approval by the end of the week.

Every indication points to the development of uncompromising hostilities between the two factions of the Diet immediately after that body resumes its sessions.

The Nationalist press, particularly its leading Warsaw organs, is launching ever sharper attacks against Pilsudski.

## Do Women Cheat More Than Men?

Storm of Protest Raised by Statement Made by London Magistrate.

By LYDIA K. COMMANDER. (Copyright, 1920, by Cross-Atlantic.) London, Sept. 13.—Recently the London Railway Companies of London have been carrying on a regular campaign against cheating passengers. In consequence a genial city magistrate, Sir John Knill, who presides at the Mansion House, has raised a storm of protest by declaring that women are more prone to cheat than men. He based his statement on the fact that the majority of the cheating passengers brought before him are women, which at least proved that more women than men got caught.

The first effect of this bold declaration was that Sir John himself got caught in a perfect hurricane.

The storm broke when Sir John received a letter, and, judging from the number of letters he has received, promises to last for many days to come.

"My wife," said Sir John, "nearly 'bit my head off' when she heard what I had said. I feel that I must go carefully in future. After all, we are all of us 'tarea with the same brush,' and many possess elastic consciences. There has been a great increase in the number of women who have been brought up before me for cheating the railway companies recently. I can larger number of women who use the railways today.

"I do not say that they set out with the intention of cheating the railway companies, but the ease with which they may be done has an irresistible appeal, and they fall."

Sir John Knill's statement is borne out by the anecdotes of a leading railway official.

"Women," said this official, "have a passion for travelling first with a third-class ticket, and are really offended if a ticket collector points out the evil of their ways."

"The dear old lady who is so full of herself at the mere thought of travelling, and invariably finds herself in the wrong class, has become a by-word on the railways."

"The most glaring case of cheating I can remember is that of a mother and two daughters, who shared one season ticket between them. The mother used the ticket in the daytime; one of the daughters used it at night, and the other when it was going begging."

The fact is, it is too easy to cheat the English public service companies. All of them are run on the honor system, which is a high tribute to the general honesty of the community, but which puts too great a strain on the individual of weak conscience. There are so many easy ways of cheating that it is no wonder the feeble fall.

Mrs. Helen Normerton, M. A., who is a leading feminist and was one of the first two women law students in England, warmly opposed Sir John's point of view. She was asked, "that women are worse cheats than men?"

"Much depends upon the tests employed," was the reply. "If men are cleverer than women, of course, fewer of them would be detected, and so the white flower of blamelessness would be sent to the wrong address. I do not say this is the case, for I am not an inspector, but it might be true."

"But even if Sir John Knill's strictures are just in a narrower sense, are they right in a wider one? Do not men as a sex shamelessly and continuously cheat women of their just material dues?"

"Suppose that, instead of railway travelling, women chose to make the ers, though hampered by a sensitive ident Pilsudski, and the radical leadership and being subject to criticism of the chief of state and his policy of government. His faction, on the other hand, has a supply of damaged ammunition against the Nationalists, derived from the developments of the Posen movement conducted under the Nationalist auspices, which he characterizes as treasonable and as an attempt to split the nation and detach former Prussian provinces from Poland."

HAIR HINTS. Helpful Advice for Care of the Hair Worthy the Attention of Everyone Who Would Avoid Dandruff, Itching Scalp, Gray Hair and Baldness.

If your hair is getting thin or you are troubled with dandruff or itching scalp, use Parisian sage daily for a week and you will surely be surprised to see how quickly it checks falling hair and removes every sign of dandruff and itching scalp.

"Before going to bed I rub a little Parisian sage into my scalp," says a woman whose luxurious soft and fluffy hair is greatly admired. "This keeps my hair from being dry, faded or scraggly, helps it to retain its natural color and beauty, and makes it easy to dress attractively."

If you want a fresh, clean scalp, and a wealth of live-looking hair, radiant with health and beauty, don't delay, start using Parisian sage tonight. A large bottle is inexpensive and money refunded if not entirely satisfactory.

## MRS. SOLOMON SAYS—

By HELEN HOWLAND

### Being the Confessions of the Seven-Hundredth Wife

My DAUGHTER, not all the Temptations of Woman have been pictured in the movies, and not ALL the Villains have appeared upon the screen. For the subtle ones go softly, and are exceedingly insidious. Now, behold, there dwelt a damsel in the city who was called "Nice Girl," which is to say "dull-but-quiet-regular."

Lo, her hair was always quarrelled, and her smile worked automatically; her clothes were "just right," and her favorite color was pink. She loved Ethel Barrymore, and was "crazy" about golf, doted on Douglas Fairbanks, and was "passionately fond" of maple fudge, Michka Simka, old mahogany, and May Sinclair.

Yea, unto her a "Theaurus" was an extinct animal, and a dictionary merely something to stand on when talking at the telephone. And all her days were pleasant and placid, and her dancing partners and her flirtations sufficient to make life interesting.

And those who came near her were strangely soothed and comforted. For MARRIAGE was her Mecca, and she had never been troubled with a "Mission," nor with a pang of artistic temperament.

Now, it came to pass, that a VILLAIN espied her, and was smitten with an evil desire to wreck her happiness. For, behold, he wooed her with afternoon tea, and serpentine flatteries, saying:

"Why dost thou hide thy light under a bushel of commonplaceness? Yea, WHY hast thou never sought to 'express thyself'?"

For lo, thou hast PERSONALITY—and SUCH a "bright mind!" And the scales fell from the villain's eyes, and she was bitten! And, straightaway she hastened unto a barber-shop, and was "hobbed," and thereafter she appeared, arrayed in garments which seemed to have been designed in a bad temper and donned in a wind-storm.

And, whosoever she read a "clever thing," she learned it by heart and quoted it from beginning to the end. Lo, when men called upon her, she read them passages from the poets, and spake fervently of "complexes," and "automatic writing," and her SOUL!

And they fled from her in confusion and returned no more. But her women friends were stricken with wonder and said: "For heaven's sake!"

And it came to pass, that the damsel was cast out amongst the Free Verse poets, where there are NO eligibles, and no Marrying Men. And she ended her days in a job and a studio-flat!

Verily, verily, nothing more cruel, nothing more tragic, nothing more terrible can happen to a "Nice Girl," than to be told that she possesseth a "Bright Mind!"

For these were the words of the Serpent, when he offered the Apple unto Eve. And the Woman fell for it. And LOOK at her, now!

POWER NOVEL HERE IN MOVIES. Gertrude Atherton's "Tower of Ivory" Under Film Name, "Out of the Storm," at the Imperial.

"Out of the Storm," adapted from "The Tower of Ivory"—by Gertrude Atherton, the latest Eminent Authors production, which opened at the Imperial yesterday and concludes today, is an absorbing plot played before a background of London society.

A prominent figure in the politics of Great Britain, finds himself in love with a girl, a famous singer, and a girl with a past, while he is engaged to Mabel, a girl from an American girl, who is immensely wealthy.

The scandal-mongers of London society spread rumors which react by making Mabel the recipient for undevoted sympathy. It was unserved because few seemed to realize that the match between John and Mabel was nothing more than a business transaction, where a title was exchanged for money. Walter Driscoll, a young man, lover of Mabel's, saves John from the embarrassing situation, by becoming indignant about the trend of affairs between Mabel and John, and marries Mabel, thus releasing him from his loveless tie. Free to satisfy his heart's desire, he hastens to Mabel, and asks her to marry him. Mabel, believing that her past is buried and forgotten, accepts him.

John Orham, Lord Brigadier, Driscoll's cousin, and husband of her past, Mabel, pleads with John to save his diplomatic career from disaster, by releasing her, but in his overwhelming love for the girl, he refuses to consider her from his loveless tie.

To accomplish what she believes in, her blind devotion will save John, Mabel, and Driscoll. Leaving in her room at the close of a concert, he enters the room he finds Mabel in the arms of Driscoll, caring him fondly and drinking. Just as he turns away in disgust, matters shape themselves quickly and unexpectedly, as you will see.

The Imperial enjoyed generous patronage yesterday, and besides this big feature, portrayed a fine bill of travel and tropical pictures.

crime of food and milk adulteration the test of honesty, how would men fare? What would a magistrate say as to the proportion of offenders of women traders to men? Can the sex that consistently saps the sugar and waters the milk say very much? And all this cheating cuts at the very physical existence of the working classes and their defenceless children.

Equal Pay. "What, too, of the laws of primogeniture, whereby daughters for ever yield place in the wealthier families to the eldest son, even though he be their junior? Suppose that Henry VIII. had entered into a few more matrimonial adventures, and reared a few more 'young cubs,' like Edward VI., then good Queen Bess would have been forestalled of her chance, and England would have missed her greatest sovereign."

"What of daughters in humbler families who are given less training and approval than their brothers, and forever must earn less money?"

"But, of course, the greatest robbery of all is that in which a woman is just because she is a woman."

"Why women teachers, civil servants, and so on, do not constantly tender some four-fifths of the price of everything from railway tickets on wards, is simply inconceivable. They are paid only four-fifths, roughly, of the price of their work."

## Brunswick Chapter Authority On Regular Meeting

Large Attendance at First Session and Considerable Business Transacted.

With a large attendance of members present the first regular meeting of the Brunswick Chapter, I. O. O. F., was held yesterday afternoon at the residence of Mrs. W. I. Fenton, West Side. The Regent, Mrs. G. S. Mayes, presided.

The treasurer reported various interesting expenditures including \$170 the fare of an attendant to the invalid wife of a soldier who was being taken to her home in England.

"The 'Lest We Forget' Fund has had many demands made upon it and was about exhausted. A letter was read from Colonel MacLaren stating that three of the Huts contributed by various organizations of New Brunswick had been sold to the British authorities for 500 pounds. Of this amount 272 pounds had been forwarded by the Brunswick Chapter and its members.

The Chapter unanimously decided to divide the amount with the N. B. Division of the St. John Ambulance Association and to place the Chapter's portion in the "Lest We Forget Fund." This will be the nearest medium through which the money could be expended for the purposes for which it was given.

Mrs. J. B. Travers reported on the burial of William Ambrose Johns and stated that the fund opened by the Chapter for the widow had received generous contributions which will be acknowledged through the Press. Mrs. J. B. Travers is treasurer of the fund.

Mrs. Herbert Hayes, educational secretary, reported on the presentation of four prizes at St. Patrick's and Albert Schools for the best marks made in British History. Plans were made for assisting in the education of a soldier's child. The Chapter is undertaking to do this.

Arrangements were discussed for the annual Halloween tea and dance. Mrs. R. H. Gushing has kindly offered her home for this affair.

FIRST MEETING OF THE SEASON. The first meeting of the winter season was held by the Women's Missionary Society of Centenary Church yesterday afternoon. The president, Mrs. C. F. Sanford, presided, and the devotional exercises on the topic of a good report of the Hampton Convention, which was written by Mrs. Popham, was read by a member.

A new study book, The Crusade of Compassion, was taken up in an introduction to the opening chapter being given in a most interesting manner by Miss Verxa.

There was a good attendance and much enthusiasm was shown by the members in regard to the winter's programme.

## Authority On Nervous Diseases

Dr. Helen Boyle, an Authority on Nervous Diseases, to Visit New York Next Week

Montreal women are to have an opportunity of hearing two lectures by an eminent woman physician, an authority on nervous diseases. This is Dr. Helen Boyle, who will visit Montreal next week. She is accompanying the celebrated social worker, Mrs. Barnett, C.B.E., on her tour of this continent.

Dr. Boyle was a member of the staff of a hospital organized by women in Serbia, and was one of the terrible retreat. She has won distinction in her work among shell-shocked soldiers and has effected many cures of civilians, who were suffering from the effects of repeated air raids.

From Montreal, Dr. Boyle will go to the United States, where she will make a study of juvenile courts and prison systems.

A workman's suit in Austria made of brown paper sells for 15 cents. We know of a lot of Palm Beach suits in certain warehouses which could be bought for that much owing to the cool weather. The Observatory man is very unpopular with the Palm Beach suit makers.

No Longer As Was. With a United Farmers Government and the Farmer's Sun declaring a dividend of 7 per cent, and a number of farmers getting wealthy as run-runners near Windsor, sure this is the golden age for the sons of the soil.

Not Needed. "I noticed Hon. Mr. Blank at the Ex." said BJones. "He seemed to be greatly interested in the exhibit of vacuum cleaners." "What interest would he have in vacuum cleaners?" said Smith, "his dome is solid."

The Prince Edward Island EXHIBITION and HORSE RACES at CHARLOTTETOWN Sept. 28th to Oct. 2nd, 1920 OPEN TO ALL CANADA \$18,000 in Prizes and Purses

LIVE STOCK entries, except POULTRY, close 17th September. All other entries close 21st September.

FIVE DAYS' HORSE RACING, \$6,000 in PURSES. SPECIAL ATTRACTIONS in front of the GRAND STAND.

Nearest STATION AGENTS will give particulars of rates. For PRIZE LIST and ALL INFORMATION write the SECRETARY.

JOHN J. DAVIES, C.R.S.MALLWOOD, President. Sec'y-Treas.

## GERMANS MAY ASK DUTCH TO EXPEL THE EX-EMPEROR

Berlin, Sept. 13.—Owing to the former Kaiser's active propaganda to regain the German throne, it is understood the German government may request Holland to expel him. He is seeking to organize a strong Royalist movement, aiming at the restoration of the Hohenzollerns and ultimately the reconstruction of the Bismarck-made empire.

## MONARCH GETTING AMONG

Republicans Fear Manchu Throne

EMPEROR SAID PREFER FOREIGNERS IN FRIENDLY INTEREST

### MONARCHISTS GETTING BUSY AMONG CHINESE

Republicans Fear Plot to Put Manchu Dynasty on Throne Again.

### EMPEROR SAID TO PREFER REPUBLIC

Foreigners in China Advise Friendly Intervention to Institute Fiscal Reforms.

(Copyright, 1920, by Public Ledger Company.)

Washington, Sept. 13.—Chinese republicans are fearful of a plot to revive the monarchy according to advices from Peking today. It is alleged that Chang Tso-Ling, Inspector-General of Manchuria, who recently displaced Marshal Tse Ching-Jui as the most powerful militarist in China, is favorably inclined towards the project for restoring the Manchu Emperor to the throne.

It is also reported, although not confirmed, that the daughter of the president is to wed the Emperor and that should the overthrow of the republic succeed, the emperor would become Prince Regent. The Emperor was formerly a pupil of the president.

But Yat Sen is reported to have declared his hopes that a new coup would be undertaken, as it would enable him to rally the entire nation to a program of genuine republicanism and democracy. The Emperor himself is reported to be opposed to any revolutionary movement in his behalf, and is declared to accept the existing situation with good faith, although he is dissatisfied with the conditions of civil war, absence of national unity, and reckless dissipation of the country's finances.

Foreigners in China express the belief that conditions in China will become worse, without friendly intervention by the Powers for the purpose of instituting fiscal reforms, attributing the greatest to Chinese administration to avoid the military and officials, who cannot be depended upon to apply public funds to public needs, but fill their own coffers with them, and also with the loans advanced by foreign interests.

### HOOPER FOOD BUREAU ORGANIZED IN BERLIN

Branch Warehouse to Distribute Supplies to Holders of American Drafts.

(Copyright, 1920, by Public Ledger Company.)

Berlin, Sept. 13.—A branch warehouse of Herbert Hoover's American relief administration opened in Berlin today to distribute food packages direct to holders of food drafts in Berlin and vicinity, thus eliminating delays in shipment from Hamburg. An exhibition of sacks of flour, slabs of bacon, condensed milk, etc., fills the shop windows of the downtown building, occupied as a warehouse.

Thousands of great stacks of covered American food and supplies inside attracted crowds of curious spectators all day, who, with noses against the glass like children at a Christmas shop window, discussed eagerly the glorious possibilities—which proved a better advertisement for American enterprise than all the newspaper publicity devoted thereto.

In recent months, the appeal for food was so evident that Hoover representatives decided to install a special night watch and to remove exhibition packages from the windows at night, to prevent enterprising Berliners from obtaining food by direct action, instead of the roundabout

### ENGLISH DEMAND CANADIAN EGGS

Market for Canned Fruits is Bare at Present Time as New Goods Come.

Montreal, Sept. 13.—Holidays cut up last week's business, says Bradstreet's Review. In the wholesale district business is fair, city retail trade is buying and selling while country stores are just ordering enough to fill their immediate requirements, every one is anxious to get rid of his stock as they do not want to be caught with high priced merchandise on hand, it being the prevailing opinion that top prices have been reached in almost all lines, and prices will eventually have to come down.

### IMPURE BLOOD, PALE AND WORN-OUT? VITAL TABLETS

Is What You Want. There is no other remedy that acts as quickly as Vital Tablets. A Tonic for the Kings. They will build up the whole system, especially they will purify the blood, and make new blood. Young men and girls will be greatly benefited by taking Vital Tablets. They fortify the system. A great tonic, easily taken. Go to your drug store and get a box today. Price 50c or by mail, The Seobell Drug Co., Montreal.

Sold in St. John by The Ross Drug Co., Ltd., 100 King St. routes of drafts from American friends. The second branch will be opened at Frankfort next Monday. Others will be established in important cities wherever such a step is justified by the number of incoming food drafts. Germans and their friends in America are far slower to rise to the opportunity, than were the Austrians, either from pride, as Germans assert, or because of more abundant food supplies in Germany. But about 60,000 packages already have been distributed from Hamburg, and shipments now number 3500 weekly.

### THE DREAD PYORRHEA BEGINS WITH BLEEDING GUMS

Pyorrhoea's infecting germ causes many ills. Medical science has proven this. Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhoea germs that breed in pockets about the teeth. Rheumatism, anemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhoea infection. Don't let Pyorrhoea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection. And watch your gums yourself. Pyorrhoea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base. Forhan's For the Gums will prevent Pyorrhoea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

See and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

### SAYS PACKERS MADE TRIVIAL PROFIT ON SALES DURING 1919

Combined Business of Five Big Companies Was \$3,500,000,000.

Atlantic City, N. J., Sept. 13.—Addressing the opening session of the convention of American Meat Packers here today, Thomas E. Wilson, of Chicago, president of the association, said that none of the "big five" packers received as much as a cent and a half profit on each dollar of sales made in 1919.

The combined business of the five companies, he said, was \$3,500,000,000 with an aggregate net profit of a little more than \$1,900,000. He cited the combined profits of 76 other corporations to prove that the packers' profits were not excessive.

### MONTRÉAL POLICE TOO BUSY

Montreal, Sept. 13.—It was stated this morning on behalf of the Montreal police that the reason why they cannot check the many crims which take place in this city is because there are 215 policemen less than there were last year, owing to conditions which have caused many on the force to resign and seek other positions.

### BISHOPS ON METAGAMA

Montreal, Sept. 13.—Among the passengers who disembarked this morning from the Canada S.S. line steamer Three Rivers, which conveyed them from the steamer Matazama twenty miles below here, were Bishop Parfing, of Montreal; Bishop Bidwell, of Ontario; the Bishop of Toronto, and the Bishop of Edmonton, who have been attending the Lambeth conference of Bishops this summer.

THE WEATHER.

Toronto, Sept. 13.—A disturbance which passed rapidly to the New England coast during last night, now appears to be nearly stationary south of Nova Scotia, and strong winds with rain prevail in the Maritime Provinces. The weather is fine in Ontario and Quebec, and also in the Western Provinces.

Table with weather forecasts for various locations including St. John, Victoria, Kamloops, Edmonton, Port Arthur, Prince Albert, Medicine Hat, Winnipeg, Parry Sound, London, Toronto, Ottawa, Montreal, and Quebec.

AROUND THE CITY

ST. VINCENT'S ALUMNAE. A meeting of St. Vincent's Alumnae which was to have been held last evening was postponed until next week.

THE BRITISH MAILS. The British mails close at 4 P. M. on Sept. 14th for the Empress of Britain and at the same hour on the 15th for the Megantic from Quebec.

LEAVES FOR HALIFAX. A. R. Crookshank, assistant engineer at the Department of Public Works, leaves today for Halifax, where he will remain some months, having been transferred to Halifax in the office of C. Dodwell of that city.

THE EXHIBITION. Secretary Porter said that after yesterday's ceaseless activity practically all the booths at the Exhibition have been dismantled. The general offices will be moved today from the grounds to their uptown location.

FIRST AID LECTURES. The fourth of the series of lectures being given to the police on first aid, took place last evening. Lt. Danlop was the lecturer, and he was assisted by Mr. Noble, of the St. John Ambulance Association.

BISHOP LEBLANC RETURNS. His Lordship Bishop LeBlanc returned to the city by the Halifax train yesterday afternoon after completing a confirmation tour of the County of Westmorland. Rev. Father Hector, Belliveau of L'Assomption parish, Moncton, accompanied the bishop on his tour.

KING'S WARD OFFICERS. In our report of the organization meeting of the National Liberal and Conservative party yesterday, the officers for King's ward were inadvertently omitted. Those chosen were: F. J. McInerney, chairman; Thomas Dean, vice-chairman, and S. K. Smith, secretary.

MADE INSPECTION. A committee of the Board of Health, composed of Chairman Kelly, Dr. Curran and Dr. Warwick, made an inspection yesterday for the purpose of locating a suitable place for the disposal of dead horses and cattle, the need of which has been acutely felt since the recent destruction of the East St. John fertilizer by fire.

GUARDIAN APPOINTED. In chambers before Sir Douglas Hazen, Chief Justice, yesterday morning, an order was made pursuant to application confirming the report of a master, C. F. Sanford, and appointing the Eastern Trust Company guardian for the infant, George B. Cox, J. H. L. Fairweather for the applicant.

REQUEST FROM LONDON. R. E. Armstrong, secretary of the Board of Trade received a letter yesterday from the Canadian Export Pioneer and Overseas Market Review of London, Eng., asking that he request any of the Board's members who are interested in export trade to forward to the Pioneer one or two of their catalogues or other advertising matter describing articles they are offering to buyers abroad.

PARISH OF SIMONDS ELECTORS. Voters of Simonds No. 3, supporting the Hon. Mr. Wigmore, are invited to meet at the Prince of Wales Hotel (formerly Mayall's), Loch Lomond Road, on Tuesday, 14th inst., at 8 p.m.

PUBLIC MEETING. There will be a public meeting in the Coronation Hall, Lorneville, in the interest of Hon. Mr. Wigmore on Saturday, 18th inst., at 8 p.m. Speakers will be announced later.

EMPLOYERS OF LABOR, NOTICE!

The Standard has been requested to quote the following act of the new election act (which governs the approaching by-election) for the information and guidance of employers. Section 15 (1). Every employer shall, on polling day, allow to every elector in his employ at least two additional hours other than the noon hour, for voting, and no employer shall make any deduction from the pay of any such elector nor impose upon or exact from him any penalty by reason of his absence during such hours.

LORD BEAVERBROOK BACK AFTER TWENTY-FIVE YEARS

Former Resident of St. John Spends Day Revisiting Scenes of Early Labors—Sees Great Changes in City After Long Absence.

Lord Beaverbrook, more familiarly known to the Canadian public as Sir Max Aitken, and to many in St. John who knew him as a young financier when he lived in this city twenty-five years ago as plain "Max Aitken," is back in the city. He was accompanied by W. D. Ross, of the Bank of Nova Scotia; Murray Williams, of the Atlantic Refiners; director; E. H. Sinclair, Newcastle and Messrs Ventot, Robinson and Murray of the provincial government.

He left St. John a quarter of a century ago as an ambitious young financier with a limited circle of acquaintances; yesterday he returned in his private car, the "Mayflower" which was attached to the morning train from Moncton, a peer of the realm, a friend of kings, and a power of much weight in English politics. There were few of his old friends whom he chanced to encounter while walking through the streets yesterday who recognized in the English peer the young St. John resident of twenty-five years ago.

KINGS COUNTY FARMERS HOLD ANNUAL MEETING TODAY

Price of Milk for Fall and Winter to be Discussed—Price to Consumers Now Fifteen Cents—Might Raise to Seventeen Cents—A Joint Meeting Resulted in Prices Being Held.

The annual meeting of the Kings County Milk Producers will be held today at Apohaqui and this meeting is of more than passing interest to St. John householders as one of the matters to be definitely decided is the price of milk for the fall and winter months. As first announced in the Standard the milk producers had decided during the latter part of August to increase their milk to about 80 cents a quart, a price which would mean a retail price of at least 17 cents a quart. It was the original intention to have the increase go into effect on the first of September and further that this price of 80 cents would be fixed for the months of September and October only. Then in November the price would probably be further increased if conditions warranted it.

However a joint meeting was held between the producers and the city dealers as a result of which the increase was held over for two weeks. The increase. It is said that there are a number of the producers who do not want an increase now and a further one in November. It is said that their policy is that all increases be made now, boosting the price up to at least 90 cents and probably higher, which would mean a retail price of about 20 cents a quart.

King Street Corner Happenings Noticed

Horse Picks up Cover of Catch Basin With Some Excitement—Another Incident.

Things were happening at the foot of King street yesterday afternoon and the traffic cop found his attention diverted to other than the usual routine duties of controlling traffic and warning reckless motorists. Early in the afternoon one of M. R. A.'s big delivery horses caught its hind foot in the iron grating which covers the catch basin between the tracks at the foot of the hill, and despite the fact that the grating weighs close to two hundred pounds, it lifted it clear of the basin and carried it for a space of fifteen feet or more before its foot became disengaged. The horse apparently suffered no bad effects from what must have been a considerable strain. The delivery driver and the officer picked the grating up and replaced it. The weight of their burden was sufficient to make them stagger while doing so. About a half hour later one of Glibson's big coal slovens came rumbling down the hill and when nearly to the bottom cast one of its wheels. The big horse came to an immediate stop while the wheel clattered on down the street until it struck the fountain.

ST. JOHN-BOSTON TRAIN SERVICE.

On and after Saturday, September 18th, express leaving Boston on Saturday night, and express leaving St. John for Boston on Sunday evening will be cancelled. On and after Monday, September 27th, the day train between Vancouver and Boston, and vice versa, will be withdrawn.

Voters favorable to the Hon. R. W. Wigmore will meet in Neve's Hall, 19 Dufferin Row, each evening at 8 o'clock until Election Day.

Wigmore Meetings Well Attended

Officers and Committees Appointed in the County—Men and Women Working

There was a good attendance of those in favor of Hon. R. W. Wigmore assembled in the Temperance Hall, Fairville, last evening, when the electors of Fairville and Milford assembled. Matters regarding the coming election were discussed, and Councillor William Goldin was chosen chairman; Dr. Barton, vice-chairman, and Edward Cunningham, secretary. Committees were appointed, and the hall will be open every evening until the election when the friends of the Minister of Customs and Inland Revenue are invited to be present.

At Beaconsfield. There was a good attendance at the meeting held in Neve's Hall on Dufferin Row, last evening, of those in favor of Hon. R. W. Wigmore. George Maxwell was elected president, and F. H. Johnson, secretary. A committee was formed for organization purposes.

The residence of S. Herbert Mayes, on the corner of Winslow and Champlain streets, will be the headquarters for the women voters.

At East St. John. A meeting was scheduled at East St. John last night, but owing to the inclement weather it was postponed until this evening.

From reports received throughout the city and the county, also from Albert, there is only one name mentioned, and that is Wigmore.

Premier Foster Nothing To Say

Gov't Leaders in Session Last Night—What Happened is on the Books.

The Provincial Government, with Premier Foster in the chair, held a meeting in their rooms on Prince William street last evening. There was a close crowd of the leaders, and when the session concluded, the premier was asked if the general election had been discussed at the meeting, and he said that such rumors were coming quite prevalent, but that he had nothing to say on the subject. He added that only routine business had been transacted at the meeting.

On account of the illness of Roy N. Klorstead, Mr. and Mrs. Geo. W. Gamblin wish to make known that the marriage of their daughter, Ethel Edna will be postponed.

MUSQUASH IN LINE. Musquash is in line for the Hon. Mr. Wigmore. Owing to the very short time for organization, the following citizens of Musquash have volunteered to act as chairmen of their respective districts:

Musquash No. 1 (South Musquash), Coun. Geo. A. Anderson. Musquash No. 2 (Chance Harbor), Robert C. Thompson. Musquash No. 3 (Dipper Harbor), Jas. K. Corcoran.

Notwithstanding the reports in the press, Liberal meetings on Saturday in Dipper and Chance Harbors were very slimly attended.

WARD MEETINGS

Electors favorable to the election of the Hon. R. W. Wigmore, Minister of Customs and Inland Revenue, are requested to meet each evening for ward work.

SYDNEY, DUKES and QUEENS WARDS. At Seamen's Institute, Prince Wm. St.

KINGS, PRINCE and WELLINGTON WARDS. At Market Building, Charlotte Street. Entrance South Market Street.

VICTORIA WARD. At Victoria Rink, City Road.
