That the late Government after a reign of seven years had reduced the debt of the country about \$16.000,000. That whilst doing so, they managed to decrease taxation, and had lowered the duties on the principal necessaries of life, tea, coffee, etc., and relieved the people of a burden of \$1.200,000. They extended a helping hand to the young and struggling manufacturers of this country by allowing raw material nearly free. Now what do we find? The Reformers who raised the howl of "Ruin, Ruin" when Sir John asted \$20,000,000 for building of the Pacific Road, have now to come down to the same house and acknowledge that they have already expended \$6,000,000 and have not yet decided upon the route of the road nor built a mile of it. ed 36,000,000 and have not yet decided upon the route of the road nor built a mile of it.

But the most damning point made against Cartwright was that showed by Tupper in alluding to Cartwright taking credit to himself for the manner in which he had negotiated a loan in England. The Doctor showed that the Gazette of July 1st had been deliberately falsified by a statement showing that at that date there was a surplus of \$1,809,000. Cherry Pectoral For Diseases of the Throat and Lungs,

> such as Coughs, Colds, Whooping Cough. Bronchitis, Asthma.

and Consumption. The reputation it has attained in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiess results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use! All who have tried it, acknowledge its superiority; and where its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affec-

tions. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs. As a safeguard to children, amid the distress ing diseases which beset the Throat and Chest of Phildhood, it is invaluable; for, by its timely use, multitudes are rescued and restored to health. This medicine gains friends at every trial, as the cures it is constantly producing are too remarkable to be forgotten. No family should be

without it, and those who have once used it never will. Eminent Physicians throughout the country rescribe it, and Clergymen often recommend it from their knowledge of its effects.

The Committee which the subject was referred recommended that the prayers of the Episcopal Church for the Queen, the Royal Family, the Empire, and in particular Canada, Parliament, and especially the House of Commons, and the Lord's Prayer, shall be read by the Speaker each day in English on the opening, There was some difficulty felt as to whether prayers were to be read in French as well as in English.

Mr. Anglin solved the problem by conStable Outfit of the "Waverley Hotel," Mr. Anglin solved the problem by conng that he could not read French. The following is the form of prayer:

There seems to be a general impression that the reading of the prayer by the Speaker—in English or French, according to his nationality—will tend rather to irreverence than otherwise. It is thought that had the vote on the Committee's report been by ballot it would have been defeated by a large majority. The scene on Tuesday is thus described by a letter writer to one of the papers:

"As the Speaker rose, the members BAKERY!
