## To-day and To-morrow.

The Editors Talk About This Issue and Tell You What's Coming Next
$\qquad$
That furniture the moving-man smashed must be fixed as soon as you are settled in your new home. Too bad it was broken; but that's a thing you have to expect when beautiful spring
comes along, with moving day. omes along, with moving day. Of course, it is barely possible that
you are not moving this month. Perhaps you aon't intend to move at all this year. Good!-that saves you one kind of bother. But the chances are several to one that you are either al eady up to your shqualders in house cleaning or are very seriously consider-
ing how best to begin. ing how best to begin.
For this month of May is made up of equal parts of sunshine and dust. The
flowers that bloom in the garden need no more care than the cobwebs that grow in the attic.
And so we have taken thought for the conscientious housekeeper. To lighten her labor has been our first con helps and suggestions that monopolize the space in the back of this book.
The new home plays a very wonder ful and vastly important part in our lives, whether we be newly married, o long married, or not married at all. Therefore we have thought it ap our May unmber.

May Flowers in Fiction.
As for the fiction-well, that will do you good at any time. Read it now and again later. for no maod to let the grime remain on the pantry shelves just a few moments longer while you read something with sentiment in it.

## The Cost of Living.

It is very easy and exceedingly convenient for man to lay the blame for misfortune upon his one mangbor. If my boy goes wrong he is not to blame. The children across the way have contaminated him. the childrendent complains that in last month's issue A correspondent the railway companies hard enough. we did not hin they are the chief cause of high living. In his opinion.they arer of this kind not to be too It is well in a matter of distress are many. He dogmatic, for the calution must be broad in his outwho would find a solutone in producing the conlook. Many factors co-operater at the present time. ditions under an anample the cost of bread.

1. The farmer may till the soil badly. In England an acre can yield twice as much as it does with us, and in Belguim two and a half times as much. Bread is high because the wheat crop is small for the labor spent in producing it.
2. The farmer may pay too much for his labor his machinery may cost too much, or it may not last as it should because of neglect
3. The cost of transportation may be too great, either because rates are too high or because the wheat-raising districts are
4. The railway rates may be high because a dividend has to be paid upon inflated stock. There is not a that is not over-capitalized-and many times over.
5. Speculators may get up a corner in wheat and raise the price. Often the price of wheat is purely fictitious-it bears no rela tion to its abundance on the market, and to its relative worth.
6. Strikes and lockouts may tie up trade, and profits of legitimate merchantmen may go to the winds. Some one must make up for pays the tax.
7. The middlemen may be too many and may charge too great a price for handling the grain in its raw or manufactured condition Every unnecessary middleman is a burden on the community.
8. The miller may charge too high a rate because of bad management or greed. Millers may easily combine to keep up the pric flour. The same is true of the bakers.
9. Wages of workmen of all kinds may advance and this may add to the cost of the loaf of bread.
10. The prices of all merchantable articles may increase, for reasons given in last issue Food, clothing and shelter must advance in cost as the prices for other articles increase
11. One reason for the advance in price of most commodities is the artificial tariff. Make machinery, clothing, furniture, cheap and it will cost less to live. The producer can afford to take less and the gre anmy middlemen can
These are a few of the causes of the high price of bread-a price more than twice as great as is paid in the Motherland. We can remedy matter if we will-by making the producer and the con sumer more easily meet each other. The experi ments in open markets are very gratifying. Balti more furnishes a good illustration. We can prevent inflated values for commodities by fighting trusts and encouraging municipal and public ownership gen erally. The watering of stock has as much to do with the advance of prices as any other thing.

Then, again, we should remember that because we are not preparing our young people for industria pursuits, because they are workmen of the secon and third class only, we must pay for it. Incon
petency always lays an embargo on a community.

In all the reasons given we have said nothing about waste land, unearned increment, extravagance in government and extravagance of our people in general. These points were hinted at before. No have we referred to light weights and ghort measure although these may add to cost. The point to recognized is this, that the cost of high living is due to many factors. In some cases intelligence will save us, in some cases we must revolutionize our methods and punish the thieves who are responsible for unfair additions to the burden of the working man. This punishment will not be meted out unt we have grit enough to rise above party and elect to public office men who will truly represent tne conmon people-the consumers in general-who are the sufferers under present conditions.

## AS OTHERS SEE US.

Sometimes it is good for us to see ourselves as others see us. Here is what the "Country Gentle man" has to say about our homestead regulations

This country does not appear to reaize the seriness of the migration to Canada or to understand the causes that underlie the loss of valuable population. - It is time to wake up. Last year Canada received about 400,000 new settlers, of whom about 130,000 went from the United States. These figures are those of the American consul at Winnipeg. Now

GIVE US MENI
JOSIAH G. HOLLAND.

## D give us men! A time like this demands

 Strong minds, great hearts, true faith, and ready hands;Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy, Men who possess opinions and a will;
Men who have honor and who will not lie,
Men who can stand before a demagogue
And scorn his treacherous flatteries without winking,
Tall men, sun-crowned, who live above the fog
In public duty and in private thinking.
we are told that the immigration in 1912 will break all records.

The prime cause is the greater liberality of Canda's homestead law. It provides that any one who is a citizen of the Dominion, or who has declared his intention to become such, may acquire a title to 160 acres of land by residing upon it for a period of three years, by building upon it a habitable house and by cultivating a substantial part of the ground each year. It also phovides that during six months each year. It also reach year the hom teader may leave his land and of each year the howhis onost important. If he gets sick or runs behind in his finances the government helps him. It goess so far as to advance him seed helps him.
In the United States our homestead law proides for a residence prriod of five years. During that time the settler must stay on his land or lose it. Nothing is done to help him. Experts and commissions have declared that the law ought to be missions have declared that of Department of the changed. Secretary Fisher, of the Departand who is Interior, says: "An is adds: "I think that the settler should get a title to his homestead just as soon as he has shown his good faith and has convinced the he has shown his good farnment that he sincerely means to develop the land and help build up the community."

There is just one thing to add to this opinion. We are glad to get settlers of the right type such as
ome of those from Central and Southern Europe our national welfare deminands that they be here at least five years, and preferably ten years, before they are accorded the full rank of citizenship.

WHAT MARES A DECISION VALUABLE?
One of the peculiar things about Justice Charbonneau's decision in the Hebert case is that he stands practicaly alone, and yet his judgment counts for more than all the others. This is because the others are seen to be surface judgments. The major thers are seo lo be assumed. Judge Charbonnean premise is always assumed. Judge Charbonneau sought to establish all his premises before attemptgg to reach a conclusion. It may be that he was mistaken after all, but he certainly wenk about matter in the right way. Many people are wondering where the talented writer
comes in about this time.

## CENSORSHIP.

No man would willingly give poison to his chil dren. Yet there are hundreds of men who knowingly permit their children to receive every week tha which poisons their minds beyond hope of remedy The great poisoner is the unsupervised moving pio ture show. Not only are wrong ideais of manhooc and womanhood presented, but scenes of murder, horrible form. I went into the most reputable of horrible form. I went into the most reputable o the shows ther ar at soene over one hundred children gaze upon a soene in which a jealous woman poroned her lover and then commit of sure the waving deeds of heroism-always heralded by the waving of an American flag-are porray whole thin afterwarizing it is coming to this that the publt is demoralizing. It is comis to this that une have to enter upon this matter or education in broader spirit. They must see to it, not only tha children are under right supervision from nine to four, but all the time. Without exercising undue paternalism the state must do more to control th reading and amusement of its young people. Anc the public censors must be a livie more discrimi ating. Even if they reject one picture in every ten, they mubt learn to reject nine me effect produced is Better have our children physically unsound than to have them morally corrupt.

## THE FLAG.

The national significance of glorifying Americas flags in Canadian theatres is occupying not a little attention. The Montreal Witness is quite right in the following criticism: "Evidently the proprietors of some of the moving picture houses in the city are at last beginning to appreciate that the average are at last becining to apprect to see the and British subject does not care tre see his own Stripes constantly before him, and tr see his own flag put in the background, and even at times insulted. Something unfortunately new is that district the leading picture theatres in the uptown district is at present treating its patrons to an engish made film, which portrays the gallantry of two British tars in saying the Union Jack. from insults by a gang of brigands. So scarce have been these films in the past that the appearance of this on the screen brought forth an outburst of enthusiasm seldom seen in a moving picture palace. The British made film is more numerous in audiences attest their appreciation of the change."

## THE STRIKE.

The greatest and most lam•ntable strike of all times! Why in the name of all that right should the miners and the owners try to settle this as if there were no third party to the problem? Why should not the third party-the suffe ing publicshould not the third party-the suri ag pull the coal take over the mines, operate Them, and sel country as cheaply as possible? Then would false in their know whether the owners were true or false in their declarations as to profits. If the owners are right, let them ada a the taboring men starve. The wage the children of the laborin
scale at present is absurd.

was to him'-He picked up the cat and she lay like a spot of gold against his white blouse.
The girl looked at him with something burning in the back of her eyes. ever met," she said any man I have "That's why you think you like me,"
he told her, and back in his eyes there he told her, and back in his eyes there
burned a deeper light. "The men of burned a deeper light. - and so are
your world are all aline - and the women."
Her head went up. "I am not like ".I haven't seen enough of the rest to know." The miller stood in the doorwa, and looked down at her. Her
hair was black and came in a little point on her forelead. There was a sloes. Her eyes were grey, and her lips a scarlet line. "I haven't seen enough of the rest to know. Now and then
they drift in here from the hotel and brains can content himself with grinding corn." ${ }^{\text {"Of course they wonder." }}$
"Why? What do men of your world "Oh," she answered, vaguely, "they have business during the day and at
night they dine somewhere and go to the play-and eat late suppers."
He laughed. "They are a lot of pupHe laughed. "They are a lot of pup-
pets pulled by a string; they dance to
the tune the world sings, but I sing a song of my own."
He set the little cat down gently and leaned towards the girl. "I sing a song
of my own," he repeated, "a song that has in it the beat of the old wheel, the
grinding of the mill stones, the roar of the waters."
His voice died away. His eyes looked beyond the stream, beyond the inter-
vening fields and pastures, to the blue line of the hills.
Presently he went on. "I lived in the city once.
"I thought so. Why did you leave?"
"Because "Because of a girl."
A flame flickered in her cheeks. "A girl?" "Yes. Not a girl of your womld. But a girl in my class at conllum. She was
an earnest little studeut
a

was very fresh and pretty and young." was very fresh and pretty and young."
"Yes ?" The flame flickered out, leaving her white. "She came from the people, and she

24
dreams at times," he murmured; "even fat men who eat ham and eggs."
The miller stood up. "I have made up my mind," he said, and his chin was set squarely, "if the woman I want won't come into my life, then I will go to hers. When a call like this comes to "I know", For a moment something
dies on the rock."
" "I know." For a moment sonat transfigured it. "I know. I wouldn't be here alone, and making a pig of myself, in
hadn't closed my ears to a woman's call before it, was too late, and she called no more." ${ }^{\text {They }}$ gripped each other's hand in sil ence, and presently the miller left his riend in the dim kitchen, his pipe's blue smoke still curling to the ceiling, and
the remnants of the evening's feast before him. raining as the miller went
It was rest down the hill, and all that night it rained, and the next day, and the next. And the miller read his books and pac-
ed the floor restlessly. "It is not easy, ed the floor restlessly. "It is not easy,
Primrose," he said, more than once, "for Primrose," he said, more than once, "for
a man to make up his mind, and the mill holds me." The fourth day the storm increased. and when the rain was coming down in
torrents the mill door opened and torrents the mill door opened and
Euphrosyne came in. Her hair was wet and she was breathless with running, "There is a girl coming down the road,"
she said, as the miller took her hands.
"She stayed at the hotel last night, and I am sure it is your Elsa." "Well ?" he demanded, still holding her hands.
"I wanted to tell you," she stammermarry her. You know I can never, never come and live in the mill." There was a step at the end of the
platform in front of the mill. platform in front" of the mill. "Let me go!" Euphrosyne panted," "Anyone can take shelter from the rain," said the miller.
The door, which stood half open, The door, which stood half open,
swung fully back. "Elsa," he demanded, "by heavens,
where did you drop from ?" She laughed, a throaty, musical laugh. "From the clouds with the rain. No I had to come and, see if you are still a madman, rhillip." Back in the shadows two small hands were clenched
dear name. "I have an "I have another wayfarer who is tak-
ing shelter from the rain," the miller explained, as Elsa, peering into the depths, saw the slender figure in the
deep chair. Euphrosyne had taken off deep chair. Euphrosyne had taken off
her raincoat, and in the half darkness one could see the gleam of the golden buckles, the pointed peak of black hair, buckles, the poind
the scarlet lips, the luminous eyes.
Elsa's eyes were shrewdly grey be.
hind gold glasses. There were no
buckles on her heavy shoes. Her blouse was open a bit at the neck and showed
her creamy skin. Although she wore her creamy skin. Although she wore
no raincoat, she had carried an umbrella, and she was dry.
"Come over to the house," the miller insisted; "it is too damp here, and there's a fire there.
They found Primrose on a rug in the
dim, low sitting-room. She welcomed dim, low sitting sleen. sank into the deep them s.
chairs.
"T'll leave Primrose to do the honors, while I run over to the mill for a moment," the miller said, and as he
went out Elsa called after him, "Come went out Elsa calle,
back soon, madman."
"Why do you call him that?" In Euphrosyne's eyes were little points of flame. "Why do you call him madman?" Elsa's glance weighed the tenseness of the slender figure, the flame in the eyes,
the proud set of the small head. "Because a man who would leave the world and come up here and stagnate is mad. He might have led men, and he is content to drone,"
"He doesn't drone," the other flared;
he works hard."
Wla Elsa picked up Primrose and pulled her ears thoughtfully. "He is content with a pussy-cat existence, she said,
"like this little creature. They are two of a kind."
Primrose said things in a sputtering
sort of way before she jumped from to the ceiling. "We all dream such

THE spring you find too hard or too soft "just suits" someone else. So we make spiral springs of varying degrees of buoyancy to provide an "IDEAL" spring for everybody.
To make sure that you get the right one for you we authorize every dealer to let you "try any IDEAL Spiral Spring for thirty nights", to be exchanged, if desired, until you get the one that exactly meets your idea of perfect comfort.

$J$ Once enjoy the grateful buoyancy and complete relaxation of sleeping on an "IDEAL" spiral spring and you'll never want to sleep on the stiff, part-yielding, sagging woven-wire spring again. Each of the | many coils yields independenty, according to the weight placed on it, |

"Some day you are going to -the that you are wrong, and then you might have been thought of what "It is you who have made me what am," and his voice was not quite steady as he said it, "though 1 followed a path The me to my mill."
They stood in the doorway as he spoke great building where for a time the wheel was still. "Perhaps," she said wistfully, "if I had listened, I migh have heard its song.
But his eyes were off towards the hills, through thindows of the hotel gleamed vaguely; and she went out of his life And that night, when the rain stoppe the miller stood late under the star with his lady of dreams. His face was bent to hers, and it was as if, in the
still night, they listened to the heart beat of the world. Then at last he whispered, "When will you marry me? She drew back a little and looked at him. "In a year," she said. Then, as his eyes held hers, she faltered, "In a week;" in a week I will marry you-mil.

## The Inner Trail.

Written for the Western Home Monthly by Irene Keane, University of Alberta.
 complete double idenworld? Or, in other words, is it possible
for a personalty in for a personality, in
toto, to be duplicat-
ed? Life's ed? Life's threads
are sometimes so
tangled tangled, and resemblances so striking that the theory
seems to be justified. It is an oft quoted saying that some of the greatest and most perilous undertakings have
arisen in the most trivial way-such as a second look at a face that seemed ramike
small town in Northern Alberta was ap proaching one Sunday late in the fall of $19-$. The raw November day had not
drawn many people away from their
firesides, nor did the windy, cheerless evening promise to do so. Nevertheless, here and there, some were already on
their way to church. Sidney Merrill, Constable in that part
of His Majesty's service lnown as the Royal North-Wंest Mounted Police, star-
ed. The town, so far, had proved most ed. The town, so far, had proved most
A book lay turned half-open under his elbows, and it was evident that his thoughts were far from being rose-colored. The town, so far, has proved most
uninteresting to him, his work had been practically all routine, the monotony rectory or patrol into the foreign se tlements, and restlessness is not usually
conducive to happy thoughts. conducive to happy thoughts.
The church was some distance to the south-east of the town, but he could set
the lights flickering in the small paintel windows and hear the subdued notes of evensong. Rousing himself as if by a
great effort, Merrill rose, stretched, and began preparations for church. Som he he
was in his usual seat there, apparently engrossed in finding the proper places in the prayer book, grancing up now and
then to notice who was coming in.
Generally there was just and wee Kitty from the rectory; but to night a young lady in a dark serge suit
accompanied them, leading Kitty br the hand. Merring just then liocy in thum ing the first hymn.
ed to revive. His strong tenor voice
easily led the singing, which was
brighter and better balanced than that brighter and better balanced than that
of many a larger congregation. Sudden-
ly y he stopped-his face whitened and
looked quickly around. Mingled wit the others he had detected a rich contralto voice, with notes he had believed
could belong to but one voice could belong to but one voice in the
world, and that voice was now hushed in the grave.
When he saw the new-comer he felt for a moment as if he had fainted and was just recovering. The fair face with
its rich color dee ening and paling, the its rich color deepening and paling, the
tendrils of hair escaping over the high forehead, the very pose of the figurewere all like the voice--the dead had apparently come to life! Merrill's natural
common sense, however, overcame the supernatural aspect; though it would be like re-openiñ an old wound, he must meet this girl, so strangely like the one
who nad once meant all existence to who
him.
Church must come over for a while after Warct, Constable Merrill," he heard Mrs, tion were dispersing. "We have Miss Martyn, the new teacher, staying with
us, and the bank boys are coming ove too." So, even the name was identical! He never knew just how he got inside
the rectory, nor what he said or did the rectory, nor what he said or did
after he got there. It is amazing except to the initiated Western shack. The be had in a tiny hetter than a shack, for this town was
one of those mushroom growths who rel of those mushroom growths whose
religious missions undergo an indefinite process of waiting for sufficient funds for proper buildings. Yet its capacity never ous hospitality of Reverend and Mrs. settlements, as yet without facilities of libraries, etc., the rectory is sometimes a haven of social refuge on Sunday nights for members of the congregation .ho are temporarily separatc trom the
comforts and congenial educated circles of the Mother Land and Eastern Canada. The majority are far-travelled and all are interesting. This evening the young
people were crowded into the miniature people were crowded into the miniature
kitchen, while the others were clustered round the kindly old Bishop, a guest till
train-time. Everybody was talking at

On the eide of Bold Hill he had noticed something.
once, and everybody was happy, and the tall, benign Rector and his gentle wife
moved among them with a sympathetic moved directing word for all.
and
Merrill, standing at the door between the two rooms, seemed to see only one
person. He was conscious of a dreamperson. He was conscious of a hream-
like feeling that he had said the same things to the same people at some previous time. With the departure of the Bishop, there was a general gathering up of hats and coats. Merrill, cap,
gloves, and stick in hand, was also preparing to leave, when Mr. Walton pressed him to remain longer, and he gladly availed himself of the invitation, in order to finish describing
ience of his to Miss Martyn.
ience of his to Miss Martyn.
When he finally. took his leave, it was snowing outside, though he hardly was aware of it. The rich tones of Miss Martyn were singing
and over to hi
"On the resurrection morning
Soul and body meet again,
No more pain!
and the fulness of its promise seemed to have begun for him. The smile of that movement became him rarely, because, not grave, his usual smile was rather impersonal. The quiet reserve strength of his face was transformed by the feeling f the last two hours.
All night long the lights of the barracks burned; Merrill was busy making up monthly reports and other official work which he had allowed to lag the last few days, and in hunting up his
maps of the Peace River detachment. maps of the Peace River detachment,
A resolve, as yet dim and but half A resolve, as yet dim and but half-
formed, was shaping itself in his mind. Back in the Eden period of his exis-tence-which everything about Miss
Martyn seemed to recall-the Other One Martyn seemed to recall-the Other One you will undertake a long and dangerou journey for me." Across the shadows her words were coming to him now, making him feel that whatever he might do
for Miss Martyn, yet it really was not done for her, nor yet for the Other One but for the personality id 1 tical in each of them. How far his decisions were influenced by past or present, the result
was the same. Nine years before the eventful evening, a man had left his family with no
word other than that he was going to word other than that he was going to have large sums of had been known to session; he had never been heard of since. To find this man, her only remaining brother, was the dearest wish of Miss Cartyn. By the time his re-
ports were complete, Merrill had taken ports were complete, Merrill had taken
liis resolve. He intended applying for leave to go on a searching party of one
for the lost man, though he read in the for the lost man, though he read in the
R.N.W.M.P. Report for 1906 that he was missing since June 14th, 1902, when he
was' last heard of in an Indian camp on the Little Buffalo River ndian camp on It would not do to tell the girl of his intended mission, for it might raise hopes only to have them shattered-
whereas, he knew the reward he would claim if successful. Obtaining leave was a long process, so long indeed that he almost gave up the hope of the grant: Detachments were
short of men and the work for short of men and the work for each de
tachment considerably in excess of the time and strength of the men required to do it.
In the meantime Merrill looked up all the information available re the lost
man. The work of the Royal NorthWest Mounted Police has many phases -the mission of the force is constructive, not destructive. On many of the
long, thinly-settled patrols its members long, thinly-settled patrols its members

## Shipping Grain to Duluth

Owing to the impossibility of the Can. Pac. Ry. with only one single track running east from Fort William and Port Arthur, moving eastward for export more than a moderate portion of the grain which has ward for export more than a moderate portion of the grain which has terminals dince the close of lake navigation, arrangements have been terminals *ince the close of lake navigation, arrangements have been
made to carry Western Canadian grain from country points to Duluth, where there is an abundance of unused elevator capacity, at the same freight rate as to Fort William and Port Arthur. This arranigement will remain in force if necessary to April 30th. For the present the Can. Nor. and the Grand Trunk Pacific will not bill any cars to Fort William or Port Arthur but only to Duluth, but the Can. Pac. will continue to bill cars to Fort William as usual

The principal advantage to the farmer in shipping to Duluth will be the advantage of getting a car to move his grain away to a position where it can be sold to the highest advantage for him. There will be very little difference between Fort William and Duluth prices, but for a time prices in store Duluth for the lower grades may be $1 / 2$ c. or more
over Fort William owing to the better facilities for getting quicker shipment to the Atlantic seaboard for export.

We continue to act as agents for farmers and we handle cars ship ped to Duluth the same as when shipped to Fort William and Port Arthur. Write at once to us for shipping instructions and market information.

We invite farmers who have carlots of seed wheat, barley, oats and flax to sell to forward us samples of same, naming quantities and station to be shipped from as we have wholesale customers who desire to buy seed grain.

The banks of a beautiful slough which seemed asifit had once been a river. underlying golden rays; the rainbow-like green and gold of the bushes deepened for the moment. In the darkening east a small red light flickered, then shot up distinctly on the sky-line. To the girl,
it was a small shack and straw pile burning up; to the man it symbolized
the many camp fires he would build upthe many camp fires he would build up-
on his journey, the hardships and vaon his journey, the hardships and va-
cillating luck of the long trail to the north.
a silence which was eloquent marked A silence which was eloquent marked
the walk back. Merrill had said but little, merely telling her that duty had transferred him for the present, and asking permission to come back within the
year; and Miss Martyn, while gladly granting his request, was just realizing
how much his departure would mean to how much his departure would mean to her. It was not so much the daily
walks, drives, or skates, but the loss of walks, drives, or skates, but the loss of
the intimate companionship that had come to nean so much to her. She felt also that there was something back of
the curt official reason for his going-in the curt official reason for his going-in
his reticence in speaking of his journey. his reticence in speaking of his journey.
As they returned to the town, they
paused for a few moments beside the embers of the fire. Its ruddy lights flickered over the scarlet tints of his uniform and her coat; the pink of the Eas-
tern sky had deepened, and a thin crimson streak crept over the Western clouds, eating along their surface as the hungry flames devour, leaving a darker streak to follow like murky smoke. In
the crowded cities, which had been the childhood home of each of them, people had been so busy with the mere question of existence that they had not had
time to learn the real meaning of Here, in the hush of the twilight, each peered into the future, and while the final parting was marked with but little outward feeling, to each of them had come the highest emotion of all, on
that survives absence, that suffers an that survives absence, that suffers and
is glad, that is born in an instant of time, but outlasts life and conquers
death. death.
'Oh it's there I would be at this hour,
far from the voluble street,

He had an odd feeling that the girl was orossing with him.

-though less than sue would have liked -though less than sue woud have Frank Parlow -met her in the corridor or in the elevator, he would say, as likely as not, yet gravely and respectfully:
"Good-day, Miss Grahame. How is the "Good-day, M
Renaissance? "of all this was that Avis Grahame turned back upon herself-her emotional potentialities struck inward. And she often made herself declare, with
feeble pointlessness, that, dfter all, the feeble pointlessness, that, after an, the
great art was life itself. great art was life itself.
This sentiment was
santly enongh in the genteler subirbs, but it irritated Frank Parlow. © Oh, fudge!" he would say to the young woman who was obliged to proofread this dolorous matter, "L dont see how you can stand up under it." And on one occasion The added-for their sequaintance was becoming atmost an intimacy: I can get puling old girl has got out of it in the last thirty-odd years. And so, 1 expect, can you." "Well, really, Mt. Parlow", was the young creature's reply, as she rolled
back her large yellow wave from her back her large jellow, wave from her don't quite know what you mean. If you had only said that I could do ten times as much with a paint brush as she can"-a, pathetic allusion, this, to
the frustration of a higher caree-"I might grasp you,"n a higner career"Oh, I guess you grasp' all right," re-
turned Frank. "Or, if you don't, you turned Frank "Or, if you don't, you
soon will."

Golson was a bachelor. His private life was correct, and as a citizen he was no less exemplary. He hated the law-or so he thought--but he submitted to it. Property was theft, and matrimony was
a worn-out form. Yet everybody held a worn-out form. Yet everybody held
him to be honest; and it was assumed that if he evenest; entered the was assumed would be on the banal basis of a marriage license. He had never been, however slightly, "in contravention of the
law"-as the Latins so grandiloquently express it. If the policeman hectored express it. If the policeman hectored
too stationary a crowd, it was not Leopold Golson who expostulated or resisted; no, he docilely "moved on." If some officer drew attention, during the illness of the janitor, to the heavy snow-
fall on the front sidewalk and called upon Golson's landlady, occupant of the first flat, to remove it, no protest ensued. "I need air and exercise," Golson would declare; "Tll shovel it off"-and more than once he had done so. He felt the weight of autocracy, but whatever was was substantially hand, He made no great claims to be a thinker;

## Why Should a Chicken Lay a Soft-Shelled Egg?

Because, Wilie, the chicken don't know how to create a hard shelled egg unlessi it has some food with lime th it.

So chicken raisers often provide limestone gravel, broken oyster shells or some other form of lime.

Let the chicken wander free and it finds its own food and behaves sensibly.
Shut it up and feed stuff lacking lime and the eggs are soft-shelled.
Let's step from chickens to human beings.
Why is a child "backward" and why does a man or woman have nervous prostration or brain-fag? There may be a variety of reasons but one thing is certaln.

If the food is deficient in Phosphate of Potash the gray matter in the nerve centres and brain cannot be rebuilt each day to make good the cells broken down by the activities of yesterday.

Phosphate of Potash is the most important element Nature demands to unite albumin and water to make gray matter,

Grape-Nuts food is heavy in Phosphate of Potash in a digestible form.
A chicken can't always select its own food, but a thoughtul man can select scitable food for his children, wife and himself.

Don't forget little Frank
Myrtle had gone to the dance with a
fearful joy. She had heard various tales of her young knight's prowess, and knew that, so far from "side-stepping" lifeas he himself expressed it-he welcomed its rush with outstretched arms and a hearty hug. She had anticipated be-
coming a bone of contention-the envied object, perhaps, of a scuffle on the open floor. But nothing of the sort had ensued. Parlow had taken her to quite the choicest of his resorts, a place
against which no "lady" could bring the slightest objection. The evening had passed pleasantly, but uneventfully. Parlow himself had felt this lack of
saliency and had tried to inject interest saliency and had tried to inject interest
by picking a quarrel with the guai on
䨗 by picking a quarrel with the gua on
the home-bound train. The man had wearily refused to make much of him, and the young fellow was still suffering
from a sense of vague dissatisfaction. from a sense of vague dissatisfaction.
"You don't think we've had a slow "Yout hen asked her anxiously, at part-
ing. "Oh, no; not at all," replied Myrtle "feling in her pocket for her night-key "I love refinement, and have to th
you for a very pleasant evening."

On that same evening,' though at an
earlier hour, Leopold Golson and Avis earlier hour, Leopold Golson and Avis Grahame were attending a concert. An
anarchistic symphony by a new and noable Russian composer was the princi-
ittle editorial den with a patient self-
control that promised soon to become
habitual. Avis Grame was deeply affected by this hour of revolutionary harmonies. She, too, felt the need of wider horizons and of greater freedom of action. As they parted that evening, she invited noon, to an exhibition of German afterings which had been sent across the water to jar the complacency of the
prosperous bourgeois and to raise the prosperous bourgeois and to raise the
loud shout of rebellion in a new and loud shout of rebellion in a new and
alert society.
Golson wrung his hands with delight Golson wrung his hands with delight surgent canvases. He hardly needed the exposition his companion was so desir
ous of making-surely the revolt of such us of making-surely the revolt of such cried, from the middle of the room. "Secession' is all too weak a word.
What $I$ hear is the loud trumpeting of What I hear is the loud trumpeting of
a band of high-mettled young individual ists, rearing, tugging, straining at their ists, rearing, tugging, straining at thei
traces, and determined to overtake and trample down the tyrannous academics
of whatever established order My of whatever established order My
brothers, I salute you!" ",
"Get the brothers, I salute you,"
"Get the color scheme," panted Avis
Grahame, determined that thie teclinique Grahame, determined that the techmique
of these revolutionaries should receive due recognition, to

On the outside steps Miss Grahame said: "And now, I suppose, I must go up to Oliver Dents's and look at his portrait
of John M. Woodward and see if can get a photograph of it for a half:
tone."

Leopold Golson had never been in the habit of regarding himself as likely to become the subject of a tender passion-
he led a.life too starkly intellectual. Nor was he likely to extend consciousness, on this point, to another man's heart and mind unless that other offered himself "with the completest unmistakable
ness.
Frank Parlow now "offered"-if the consensus of the composing room was any guide: it was generally assumed that, in his own peculiar fassion and according to his own peculiar lights, he was paying court to Myrtile Race. Gol
son set aside his own "ideas" and resolved to speak.
He caught the young fellow in the
corridor late one afternoon and talked
corridor late one afternoon and talked

the same time Avis Graham
the same time Avis Grahame
to address a few words to
to be applied to her case, was piqued
and almost saucy. But she saw that the motive was of the best, and she kept her temper. After the first minute or so she was listening quietly and with the
deepest deference, as to one who was immensely older and possessed of all the wisdom of the ages.
"Thank you, my kind friend, for your deep interest"-this, with a little revernae, was all her retort, and Avis Gra her face and almost prepared to find her first gray hair.
But the passage of a few weeks seemed to show these efforts as all in vain to him queried in a new hand, and he soon learned that Myrtle had forsaken the Semicolon. Closer inquiries disclosed her return to her native town. He his paper was to continue publication, his daughter must lend her help. So Myrtle had removed her covetous eye from the position of art editor, and leaving Avis Mathilde Grahame in un-
disturbed possession had gone back to isturbed possession had gone back
Central City.
A fortnight later another familiar face was missing; Frank Parlow had left the days his expansive and his last few ays his expansive and communicative
manner had quite failed, and nobody un

derstood with compl he had gone, or why. clearness where Golson. "And a newspaper office is the ery heart of it.
But no particular change came for Leopold Golson and Avis Grahame. A year and more passed, and they sat still ack to back in adjoining dens. The one and spiritless comment on the happenings of yesterday or in comment upon comment on the happenings of the day before. The other was still endeavoring to swell local talent to the proportions
and significance of genius, and was still wondering if she should ever be able to round out life to a completeness artistically satisfying. Yes, the art of life was the great art, as always; but
slipped through one's fingers!
The first afternoon edition was off the press; errors had been lamented and corrected; and all hands in the editorial department were engaged on a languid
miscellany of minor matters for the morrow. It was a day in early May. On Avis Grahame's desk stood a spray of lilac in a tumbler, Its odor persisted against the smells of lubricating oil and the building, and it helped some obscure sixth sense within her to register the approach of youth and hope and success filed, success accomplished, and joy abundantly bestowed.
She had lost all sharp sense of time and place, when a tumult (as it seemed
to her suddenly restored consciousness)

## 

hame's door and looked in on her with all possible friendliness. Myrtle, a paragon of high fashion, explained that they had come to town for a few days to look up
old friends; she was cordial, but she made it clear that a wife and mother was addressing an unattached spinster. And Parlow himself said, with beaming condescension:
"Well, Miss Renaissance?"
Miss Grahamé smiled wanly-less, per haps, at Parlow than at the baby. The Renaissance had not yet taken place.
In the next compartment Golson ust shut his desk and put on his hat with the idea of stepping over to the public library and getting some figures about the iron trade. He was as lean
and gaunt as ever, and Dissatisfaction and gaunt as ever, and Dissatisfaction
was still openly claiming him for her own. Parlow caught him on the threshold and greeted him with gust complacency. He even reached down into a
well-stuffed pocket and handed out a well-stuffed pocket and handed out a
card, and Golson learned that he was card, to face with the editor and proprietor of the Central City Clarion. "Her father's health got bad," said Parlow, jerking his plump thumb toward
Myrtle, "and a practical man was needed. Pretty soon he was glad to let me buy him out-on easy terms. Central City is humming, and the Clarion with it. You're still doing editorials, I suppose?"
"Still doing editorials," replied Golson, suddenly overcome with a sense of life's futility.
"And still single, I presume?"
"Still single," said Golson, patiently,

the basement gave notice that Leonora Frank was a good-looking youth, with round head, broad over the ears an moothly thatched with black; and of high and humorous assurance, brook hg no opposition, was the Plainsman's hief asset. But just now his color It was noted down. It was not that the rlainsman was in
any worse case than ordinary the word of bankruptey had always hung uspended by a hair over that devil-mayare publication. Frank had secured it a polo pony, and was considered to have a poive pony, and wa3 considered to have
received the worst of the bargain. No he had succeeded in paying his employees or the week; it was simply the "eleva
tion" that ailed him. I should that the altitude of Blackfoot is held accountable for most that goes amiss there. Frank was blue, richly and luxuriously blue.
So intent
So intent was he on his gloomy figure come in through the open door way and approach the counter.
"Good afternoon," she said.
"Good afternoon," she said.

Frank jerked his head up. His aston shed and delighted eyes took in a small | sim girl who looked seventeen and was |
| :--- |
| ndoubtedly older. The most remark | ble thing about her was the brave riendy expression of her blue eyes, but without abating any point of personal pride. The next remarkable thing was her hair, the quantity of it and its color-most like raw mahogany, but ex ctly like nothing ense under the sum certainty of outline, with a healthy, pale kin and lips fresher and sweeter than pening crimson petals. The vision wa became her rarely, and a crafty little hat of the same color

To Frank the sight of her was like the unoped for granting or a sor prayer "My name is Laurie Gray, she said
with an engaging candor-she had the cheerful, incisive voice of a schoolboy.
"I'm looking for something to do. Can you give me any work on the paper ! possibility of refusing anything to one so pretty never occuring to me. Some
time afterwards he added, "What can you do?" "I never worked before"" she said, "but now I have to. My mother and I have come West to make our fortunes.
Her cool, cheerful frankness turned the point of sentimentality. Young
Frank was compelled to be businesslike. It was soon decided that Laurie was to cover "locals," meetings, sermons and
society. The glint of a fanal society. The glint of a fanatic enthus asm shone in her eyes as this fascin-
ating program was unrolled in her hear ing. "I have dreamed of being a reporter," she murmured. It may be remarked that there was more danger in a conversation like this Quite so! Tne red head and the black unconsciously drew closer across the counter, and in smiles flying back and
forth and in the kind, shining eyes, already there promised something a good deal tenderer than the customary relation between employer and employee. They were interrupted by an ominous
"'Hem!" from ${ }^{\text {b/behind Frank's ba } \cdot \mathrm{k} \text {. He }}$. looked over his shoulder apprehensively. At the head of the basemcnt steps stood Miss Colpas, the typeset er , in her lace coat and picture hat, the plumes of the
latter seeming to bristle with indignation. Leonora was a vete an pioneer of the West; without undertaking to state just how old she was, I may say, well seasoned. She was likewise westernly
free of speech and uncommonly well able to take care of herself. Ordinarily she
was amiable, and ruled the males of the Plainsman, including the proprietor, with
a rough, bantering coquettishness; but

she knows it. Besides
"Well?" prompted Laurie. "Well?" prompted Laurie. "She has money, said Frank. "Made it speculating in real estate during the
boom. She holds a chattel mortgage on boom. plant downstairs,"
the "p
"So I-er-take her about to the sub scription dances to keep her in a good humo
out.
Laurie took note of his rueful grin, Laurie took note of his rueful grin,
and suddenly her face broke up like sunny pool under a gust from the west. She cocked up her pretty. chin and acious, heart-disquieting nusic had surely never been heard within those grimy preeinets. On her very first day Laurie made herself an important factor of tere Plaing
man. As she crossed the Estevan bridg n her way to work she witnessed ai accident, brought about, it might, have seemed, for the espeeial benefit of th
fledgling reporter. The only automobil in towng, property of one Mackinnon; in town, property and unpopular, was to blame for the ruin of an immigrant farmer's household goods. Laurie, warm with generous indignation, zot hal covered the owner's vulnerable point and turned her pen in the wound. The reason the automobile made so much such a cheap machine.
Frank ran the story as it stood, and next morning all Blackfoot shuckled over it, with the possible exception of a gross creature: little Laurie passing his shop later in the day, was publicly insulted. On her return to the office, she casually mentioned what had oc
curred, and Frank, with a brightening eye, took his hat from its peg; and, com manding Laurie to keep the shop, sallie forth. Laurie promptly disobeyed him Following at a discreet distance, note-
book in hand, she missed not a detail of the brief and pointed discussion which ended in the fat real estate agent rolling in the gutter. Laurie got a whole column out of that, and Blackfoot agree that it was the best account of a scra
which had appeared in the local pres which had appeared in the achour, ani the regular circulation jumped four hun dred.
Among other things, Laurie was as signed to cover the meetings of the town
council. Her first arrival in the ding little chamber (which is in the loft o the police station) created something of (one of Blackfoot's leading grocers) him self descended from his throne to take her hand, and all the aldermen pulled down their waistcoats and strove to look aldermanic. "press table" in the corner (it has onl three legs and you must watch whic end you sit at), and the usual mad tor rent of eloquence was forthwith un
loosed. Once a fortnight the aldermen loosed. Once a fortnight the aldermen
are seized with this lust to orate, and nothing will stop them. Only Sam Puffer, ex-cow-puncher, rarely spoke - but he spat most eloquently. There was one
spectator, Hennery Haddie, Blackfoet's eminent rag and bone merchant, who has run for alderman every year in the memory of man, without ever receiving papers nearly every day. As a tax papers, nearly every day. As a tiax
payer, Hennery delivered a diatribe on the puddles in the main street, which was cut short only by Sam Puffer
threatening to take him out and souse threatening to take him out and sod
him therein. Although she affected to be diligently taking notes, the proceeedings were naturally quite incomprehensible to
Laurie; but the reporter on the other Laurie; but the reporter on the other
paper, a pale youth of an evangelical paper, a pale youth of an evangelica
turn, offered to write her story as well as his own. Laurie smiled her thanks and found herself free to smile at the aldermen one by one. The smile of a clever woman is a curious thing: the
degree of promise gathered from it by the recipient is usually in inverse ratio with his intelligence. The alderman hastened to write out thei: speeches for
Laurie, and the city clerk made her a copy of the minutes; but Laurie thought
coler mater most of Sam Puffer, who, abashed by
her presence, only scowled at her sideher presence, only scowled at h
wise beneath his shaggy lrows.

As time went on the slender, greeneind figure, intent upon business, became
one of the faniliar sights of Rowland one of the fapiliar sights or Rowland
Avenue. The six tall policeman were her sworn friends, ahd one or another her sworn
invariably
aceocompanied nvar alled out at night. Policemen are only human; there was not one of them
but sometimes drew her aside to menput sometimes drew her aside to men-
tion some litite eed of heroism he had terformed-heping it would appear in

 fteareasf tousiness only made the pinch of instaticieńt capital more keen. Leonora ${ }^{\text {on }}$ s st the most troublesome feature Laurie was sufficient to rouse that weather-beaten virgin to a pitch of
R4. blind wreasonableness. Frank used posion was ptitutched little by little towards the
breakin¢-point. There was six months' braaking point. There was orerdue. interest on the mortgate ouverne meeting old
At Lauries third council he Sam Puffer produced from his capacious
pocket a box of candy, the Eastern pocket a box of candy, the Eatsterh
kind, very expensive and very stale in Blackfoot, and silently laid it on the
reporters' table. Laurie was immensely gratified. From the other aldermen there were audible murmurs of "graft," for Sam was a candidate for Mayor, and
this was looked upon as an attempt to this was looked upon as an attempt to
suborn the press.
But there was nothing in that; for at the next meeting, When Sam Puffer turned up in a some-
what "eleeated" condition as a result of too long a dalliance at the mahogany of
the Royal Hotel, Laurie regretfully but the Royal Hotel, Laurie regretuuly bua
relentlessly entered the fact in the account of the proceedings. Next day Sam came around to the office and shook hands with her. It did him good, he
said, to meet a person with sand enough to call his friends down when they needed it.
The othe candidate for mayor was
the smug Alderman Telfair, Sam's ancient enemy. He too sought to ingrat
iate himself with Laurie, but with this difference-that while old Sam was a real man, who admired Laurie for a pretty girl and respected her for a
plucky one, Telfair was no more than a puff ball, who saw in Laurie the means of getting his name before the public.
Laurie perceived the difference very clearly.
ce
The Plainsman supporte 1 Sam Puffer very often at a disadvantage with a puffbali. Alderman Telfair was known to be a fool and strongly suspected of
grafting; nevertheless he threatened to grafting; nevertheless he threatened to
carry the election by the sheer weight of carry the election by the sheer weight of
his protestations of morality. It is so dificicult to oppose these platform moralists, without the implication of cham-
pioning the $i m m o r a!~$ pioning the immoral! The only weapon
the Plainsman had against Telfair was ridicule whan had against Telfair was
domplicts painful but seldom, mantal injuries. The town chuck-
led, and Alderman Telfair writhed under
its

ed editorially and continued its course. Then one night there was a late conmen with a common grudge may be infallibly depended on to smell each other out. Mackinnon was there; also a heav-
ily veiled ily veiled lady wearing a lace coat and
a picture hat. picture hat.
A week late was in Prince the blow fell. Frank capital, lobbying forrge, the por provincial
cor the gov-
ernment errment printing. Laurie had undertaken the responsibilities of editor-in-
chief, with a heart swelling with pride chief, with a heart swelling with pride,
destined, alas, to be immediately dashed. Reaching the office after the morning session of the police court, she found
Hennery Haddie in the editor's own Hennery Haddie in the editor's own
chair, with his feet on another chair, with his feet on another, and the
sanctum odorous of one of the cigars manufactured, according to popular belief, from his, stock-in-trade: i.e., rags,
Laurie's face reddened at the sectace Laurie's face reddened at the spectacle.
"Outside is the place to wait," she said sharply.
Hennery
cheeks. He was a short, square man with a portentously serious eye, the
carriage of the alderman he eear carriage of the alderman he yearned to be, and the elothes of a rag and bone
merchant he was. Hennery thought and spoke in purest journalese.
sit is my regretful duty to inform you, misss," he said, "that I have been
denoted to take charge here denoted to take charge here-
coolness. When Hennery went to lunch she locked herself in the sanctum and dropping her head on the desk, cried it out like a girl. Then she sat up and,
bending her pretty brows, thought it bending her prety brows, thought it
out tike a man. By and by she seized paper and bçan to srite, tearing of page after page, entiriely, obaivious of
her surroundings and to the flight of her surroundings and to the fight of
time. Anon the tears came into her eyes, anon she frowned and then laugh-,
ed outright. Laurie was putting "sont" ed outright. Laurie was putting "sout" into it. She concluded with a great sigh of relief, and, without stopping to read
what she had written, folded the bulky what she had writen, folded the bulky
package once across and, thrusting it inpackage once across and, thrusting it in-
to the bosom of her dress, reappeared in public. the afternoon she put things in train for the next day's paper as if noth-
ing had happened. She' exerted herself to be agreeable to Hennery Haddie, who, worthy man, was not sufficiently astute to smell danger. Inflated by the im-
portance of his duties, he felt an everrecurring need of a fresh supply of barroom hydrogen, and by evening there was a noticeable access of dignity in the bailiff, joined to an increased tendency
to puff out his cheeks. Miss Colpas to puff out his cheeks, Miss Coipas was succeeded at the monotype after supper by her brother. Hennery brought, back some editorials from his "princeiple,
which Laurie, with a cenol slone, which Laurie, with a casual glance, aent

That perfect fit and com-
fort which you are assured when you ask for your size in Pen-Angle Underwear (the kind knit to fit) greatly improves the look of your outer garments, and gives you a feeling of being well-dressed from the skin out. Other underwear is more or less of a makeshift --it bulges, sags, loses shape, shrinks,--but <br> <br> } <br> \title{

"We pat him in a potato bin," said DASTARDLY PLOT TO MUZZLE THE
Leonota snorted briefly: Hennery was "I wrote this for too," said Lurie, taking up anothe page or two of copy from the table and hading it over. "And I borrowed your now photograph from Peake this arter
noon, and had a cut made to run with
Miss Colpas read an eloquent hali column appreciation of herself and he services to the Plainsman; "at great per-
sonal popularity" and "unswerving loysolty" figured largely. The cut lay on the table; Leonora distinguished the lines of the beloved picture hat and lace coat, and in her mind's eye she could
hot help but see it at the head of a not hel.
"Would you really run that?" she said incredulously.
Just as it stands," said Laurie-"un-
less you want to add something.
Leonora looked at her oddly. "You're"
just twisting me round your finger!" he grumbled.
"No," sald Laurie, honestly enough. you had a good heart!"
The old girl's' wrinkles worked cur-
iously She suddenly caught Laurie by iously. She suddenly caught Laurie by her a sharp little squeeze, "Laurie she said. Then, turning furiously to her brother, she shoutza, "You Colpas! What are you gaping at? Get back to work, boy "Hete I'll take the machin myself, and you: set up by hand!" On nis way back from Prince George next morning, Frank Ardry bought a brought aboara : the train tht White Deer tation. L1e opened it with an amused and tender smile at the recollection of nad undertaken the role of editor-and then he gasped. Clear across the top of the paper spread this amazing an-
ouncement in the largest type they wned:

TEA AND COFFEE HURTS One in Three

It is difficult to make people believe least one person out of every three, but people are slowly einding it out, ar
though thousands of them suffer though thousands of them suffer ime after drinking coffee I became rest less, nervous and excited, so that I was unable to sit five minutes in one place,
was also inclined to vomit and suffered from loss of sleep, which got worse and
worse. lady said that perhaps coffee was the cause of my trouble, and suggested ful as coffee because it contains caffeine the same drug found in coffie). I laughed at the thought that coffee hurt
me, but she insisted so hard that I final. me, but she insisted so hard that I final. using it in place of coffee ever since, for I noticed that all my former nervous-
ness and irritation disappeared. I began to sleep perfectly, and the Postum cofiee, so what was the use of sticking to a beverage that was injuring me? try I remarked to a young lady friend on her greatly improved appearance. had quit using coffee and taken Postum. She had gained a number of pounds and

to the floor, and at the same moment a tobacco spit of hiberal proportions plas Next instant the Scotchman was sprawling on the floor, while the other two panted and struggled around the room, overturning chairs and crunching broken
dishes into the boards of the floor. The dishes into the boards of the foor.
table went amid the crash of broken lamp chimneys. In a moment the room was a mass of flames. Hiram, who had regained his feet, and was vainly trying to keep out of the way, snatched, and attempted to smother the flames, while the two combatants, realizing the danger of the situation, rushed out with pails for water. A few minutes of brisk
fighting and the fire was quenched. A lamp was found and lighted, and the three men stood awkwardly enough all wet and grimy
"I loor say now", said Sel, "we're mighty sorry this happened. But then I never meant to spoil that keepsake of yours, all the same. You thought Hiram did it, but it was me, and I never meant to; straight I' didn't. Shake on it."
The men shook hands in silence
few minutes the embarrassment had worn off, and all were seated around the table, enjoying strong coffee and cigarettes.

Weel, man," remarked Hiram; "ye have started in to celebrate the law
suit early, an' no mistake at all."
"Just wait till tomorrow, though, and watch our smoke," said Sel.
"What!" they both exclaimed
"Thunderation and lightning, that case is worth a celebration. It means seven or eight thousand dollars to you,"
said Sel.
"That's just the trouble," growled
Bill. His visitors exchanged glances of surprise again, and the Scotchman remarked rather testily: "Hoot, man alive, I
do believe ye would'na tak' a day off for ye're ain funeral."
"Let's̄. see," said Sel, producing a newspaper from his pocket; "this decision ought to put you on your legs
again. You are allowed seven thousand dollars, aren't you?"
The expression on Bill's face was a picture to behold.
"But I've lost, haven't I?" he almost $\stackrel{\text { gasped. }}{ }$ Sel gav

Sel gave a long whistle.
"see now; look here."
Bill took the paper, and, looking where Sel's grimy finger indicated, read:
"In the case of Stringer vs. the Im"In the case of Stringer vs. the Imdown today a decision in favor of plain-
tiff-Bill read no more, but dropped the sheet like one in a dream.
"Old Jenki s told me I'd lost the case." claimed Sel. "The old one on you," ex-
beggar came around this morning asking fool questions, and among other stuff I told him you'd lost, just to plague him, you
know."
"Too bad, too bad," commented Hiram. "I never heard about it till he told
me," said Bill, "and I just expected it me, said
would go against me like everything
does, "Weel, we'll leave ye to dream aboot it then," said Hiram, rising. "Ye'll gang tae Winnipeg noo."
ment, but Bill was thinking disappointhe had mailed.
When the boy could be heard but the gene and nothing coyotes, Bill did some hard thinking. ter might Kate the truth, another letish might explain matters; but his foolish pride had given the letter a tone that
could hardly be mended. If he had only not been in such a fearful hurry to post not been in such a fearful hurry to post
that miserable thing. But that was impossible.. All night long Bill sat think-
The only feasible or practical course open was, evidently, to go East in per-
son and do his best to laugh the letter of and a joke.
It was no easy matter to make ar-
rangements for rangements for the care of the ranch
during his absence on a day's notice during his absence on a day's notice.
Hewever, by riding night and day this
later, he rode into the town of Arrow
Road to board the eastbound train. Having a couple of hours to train. fore train time, he repaired to an hotel near by.
"An old man and girl inguirin' the way out the your ranch, e remarked "Yes," rejoined another, "they calculate to strike out there after dinner,"
"Didnt know who they were?" in-
An "Didnt kn
aired Bill.
"They're up in the parlor just now. Better go up and see who they are anyhow," suggested one of the group, whose Briosity had the upper handed the steep little stairway
Bill and soon found himself in the parlor. "Kate! Well I'll be--""
"Now, don't swear, Bill, just because I'm here."
"But how in the world-_" began Bill, when he was interrupted. Dad came out to see about a land
deal, and I coaxed him to let me come along too." "Aren't you glad to see me?" she
added in a slightly aggrieved tone added in a slightly aggrieved tone.
"But my letter; you never got it?" gasped Bill.
"Your letter; well, I guess; your let-
ter! A nice one you are. Why I never ter! A nice one you are. Why I never
showed it to a soul, or they'd never showed it to a soul, or they d never
have let me come."
"Well, have let me come.
"Well, you are all "ill could say. "I knew you were just discouraged
and lonesome out here; so-well, I and lonesome out here;
just came; are you glad?"
just came; are you glad "Glad? It will take me all my lifetime to tell you how glad," he replied quietly.
"But that was a horrid old letter you sent. "Never mind," said Bill, "that was a beautiful letter and a lucky letter, since
it has bey has brought you here."

A Lesson in Socialism.
Mike and Pat were two Trish friends and Democrats. One day Mike learned
that Pat had turned Socialist. This grieved and troubled Mike, who said: "Pat, I don't understan
Socialism. What is it, now?"
"It means dividing up your property equally," said Pat. "'Tis this way. If
I had two million dollars I'd give you a I had two million dollars I'd give you a million and keep a million myself -
see?" "And if you had two farms, Pat, what
"A "And if you ha
would you do?"
"I'd divide up, Mike. I'd give you
one and I'd keep one" one and I'd keep one."
"And if you had two pigs, Pat, would
you share those, too?" "Now, Mike, you go to thunder! You know I've got two pigs!

## The Interrupted Reign of Queenie.

By Lucy Pratt.
 LoNd the line of -atil-
dren fled out from the Whittier School at
Hampton Institute Hampton Institute,
and following it,
came the lady from came the
the North- who,
with note- book in hand, was makiñg a thorough study of the "Negro Problem" camera, was helping along with an occasional picture.
As the line of children broke and scattered and then ran away in many pathetically until they were apparently all gone, and then turned to find that
they were not all gone, after all, that they were not all gone, aftef all, that
another one was sauntering leisurely another one was sauntering leisurel
down the steps -alone. He glanced at on across the jard-smil
"That's the one!" whispered the lady from the North eagerly, "that's the What one, she did not explain, but her friend seemed to understand, and smiled appreciatively.
"Yes-let's follow him-just a little." of way, down one of the roads which led away-away to parts unknown, the small, sauntering figure just ahead unconsciously the leader.
"But why should we be following a the lady vaguely. "I don't know," vaguely murmured the friend, "do you"" He led them on. They glanced at unfamiliar fields blowing with clover in the distance, at the unfamiliar road at their feet, at the small figure still leading them gently on, and smiled.
"There seems
"There, seems to be something queer
about it," suggested the friend; "perhaps we couldn't turn back!"
"I doubt if we could,"
lady, "do you see? He's agreed the lady, "do you see? He's going toward
the woods. He's going-to lose us in the woods." "Are you agreeable?" smiled the
friend. "We're getting there-certain"Perfectly", and he opened the way through the first trees.
Suddenly he half stopped, undecidedly, and then dropped gently down on some brown moss and gazed away
dreamily through low branches at the sky. "Don't you wish you could get out?" whispered the friend, "but you can't!" And they still moved unresistingly over But their leader, their Pied Piper, turned his head at the sound of steps
and looked up wonderingly into their and looked up wonderingly into their
faces. "Oh, what a-nice place to rest!"
apologized the lady. "Do you mind if we sit down a moment, too?"
"No'm," he answered, in some con"No'm," he answered, in some con-
fusion, and pulled himself lightly to his fusion, and pulled himself lightly to his
feet.
"Ob, don't go! We wouldn't have you go for anything! You're a little Whittier School boy, aren't you? Why,
yes, isn't your name Ezekiel?" yes, isn't, your name Ezekiel?" and dropped down, with some phesita-
tion beside them on the moss. tion, beside them on the moss.
"Surely!" she encouraged, "and aren't you the little boy who is so fond of
telling them all such nice stories?" "Yas'm, I tells 'em all kine o' stories,"
he smiled, even more pleased, "'bouthe smiled, even more pleased, "'bout-
'bout all kine o' "Oh, lovely!" murmured the friend
"Tell us a story while we're waiting Tell us a you", story while were waiting
"Yas'm," agreed Ezekiel with unex pected willingness, still gazing some what absently at the sky, "I kin tell
a story 'bout-'bout 'Manuel an' all, 'is
li, 'l brudders. I'se fixin'
Ier tell ', about it at school, too, only Miss No'th she ain' nuver 'low me. Yám-lout

Manuel an' all is sil' brudders." The lady arranged herself out of his direct line of vision, conscious that thep ul-
timate purpose was acutally accomplished, purd, whipped out the note-book. She was prepared now, if never before, to settle the "Problem" once for all. "Yer see it's bout a lil' boy named
'Manuel where lived all 'lone" 'thout no Manuel where lived all done"
The ladies were leaning forward listenning, intelligently.
"An' eve'y, time he gotten 'im some mo kin, w'y, supm alays seem ter
happen to 'em, twell tain' none of 'em happen to 'em, twell tain' none of 'em
lef'. So one day he foun' isself all 'lons
$\qquad$ The lady's pencil hovered doubtfully
over her book as if she felt some slight over her book as if she felt some slight
question as to just hoot to begin. "So w'en he foun' he's all 'lone agin he jes 'mence ter wonder w'at he's, gwine
do 'bout it. So after studyin' do 'bout it. So after studyin' lil' W'ile,
he 'cide hell git 'im some lidy brudders he 'cide he'll git 'im some nd brudders ter all, it'll seem mo' home-like ef he jes has 'em all brudders, So he jes got-
ten 'im twelve li'l brudders. An' ten 'im twelve li'l brudders. An' he
set 'em all down on twelve li'P' cheers set 'em all down on twelve an' den he's
in a row, an' look at 'em, an' kine o' s'prise cuz dey, ain' look so home-like aft' all! So he look at 'em
a gin, an' den he says, 'Sho! Doan' look agin, an' den he says, 'Sho! Doan' look like sense ter hab em an jes same kine.
Reckon I'se 'blige git one lil' sister, aft'
The lady's pencil was still poised in wavering anxiety. ten 'er right on de en' ${ }^{\text {, }}$ de rer an' putflo' (cuz 'tain' no mo' cheers counten de li'l' boys settin' on all dey is) an' she set dere jes ez nice, in a iip coat all trim eroun' wi', fedders an' a li' gires
over 'er haid."
" $A$. "A parasol?" objected the lady, while should she have a "Yas'm, all trim eroun' wid fedders, dat made thirteen. An' de lip ${ }^{12}$ sister's name Queenie. An' she's de li'les' of all. But de lip' boys ain' nary one of 'em got no name 'tall. So' co'se Manuel ""'Well, dat's kine o' funny, too', he say, lookin' at de bigges' li'l', boy, 'cuz I cyan' seem ter think $o^{\prime}$ nuthin.' Cert'nly is funny. Well, I ain' 'gwine
bother no mo' wid it!' he say 'I'se jes gwine name eve'yone o' yer 'Manuel af' me! Only co'se I'll call yer Li'l 'Manuel w'en I speak, so yer'll know 'tain in-
ten' fer me. An' co'se Queenie's name ten' fer me. An' co'se Queenie's name
Queenie. An' takin' no way fer 'er ter Queenie. An' takin' no way fer 'er ter an' he look at de li'l'' boy where's settin' nex' 'er. 'W'y doan't yer git up an' ax
'er does, she want yer cheer, Lil' "Well, co'se w'en dey hyeah 'im say Li'l' 'Manuel, w'y co'se all de li'l' boys hop right up an' 'mence offerin' Queenie dey cheer. An' Queenie, w'en she seen
all twelve on 'em a shovin' up de cheers, an' a axin' 'er does she wanter se' down, w'y, she's ser skyeered she jes drap 'er par'sol on de flo', an' bu'y 'er haid, an bus' right out cryin' twell look like she ain' nuver gwine stop. An' all de li'l
'Manuels look kine o, skyeered, too, w'en dey seen de way it come out, but still dey keep on a offerin' 'er dey The lady laid down her pencil and missively. and her friend relaxed sub"'Se' down!' 'Manuel holler. 'Se' down!' An' dey, all hop back ser quick,
look like he ain' no mo'n spoke 'fo' dey's all a settin' in de row agin looin' up. But Queenie's still a cryin', an' 'er par'-
sol's on de for sol's on de flo.' "Well, now yer didn' use no sense 'tall,' 'Manuel says, 'cuz co'se yer knowed I didn' mean all of yer ter git up
an' offer Queenie yer cheer. Nev' mine, Queenie, doan't yer cry, I'se gwine turn
de water spout on 'em twell dey 'haves
better', So he turns de water-spout on
'em, an' 'twould ' $a$ ', all went jes de way he's 'tendin' ef he ain' got kine o' mix up 'bout w'at he's doin' an' turn de water-spout on Queenie, too. Well,
, she an't holler an squeal w'en he ef she ain't holler an squeal w'en he
done dat! An' 'Manuel 'mence ter holler he ain't mean ter, 'twuz jes a li'l' mistek, an' de li'l' 'Manuels all 'mence ter holler cuz dey's feelin' kine $0^{\prime}$ ' bad
 ap awful quak.
"Now we's out fer a lill run!
he say, 'so tain' nuthin' ter cry 'bout he say, 'so tain' nuthin' ter cry 'bo
we's all gwine out fer a li'P run!' "Well, fus dey say dey ain' wanter go out fer no run, but 'Manuel, he talks
r'al nice to 'em, an' nex' yer knows he's a runnin' 'em out de do', an' down de a reps, an' inter de road, all in a row, jes same, an' Queenie on de en', las' of all, wid 'er li'l' par'sol over 'er haid, shinin', an' praesen'ly dey all 'mence ter feel r'al good an' drap into a walk. But dey ain' no sooner drap into a walk 'n dey seen a man comin' drivin' long settin' 'side 'im on de seat a playin' on 2 fiddle
' "Heyo!' de man say, w'en he seen 'em, an' slow up 'is ho'se an' stop right
'side 'em. 'Heyo! Is dese yere all 'long ter you? "'Yas, dey, is,' 'Manuel answer 'im,
dey's. my li'l brudders an' my li'l' sister, an' we's gwine a walkin'?
out brighter ' $n$ ' brighter ' $n$ ' brighter,
twell praesen'ly look like it's movin' righ' down todes 'em fum de sky. drappin' down. 'Manuel say, 'de sun's. drappin down. Now wat yer reckon sun's drappin' Cyan't ver Dee? De "'Yas, sir!' dey all answer 'im tergedder, only dey's ser skyeered dey all 'mence cryin' same time dey spoke. r'al easy, 'thoun nuthin', 'Manuel say 'but I reckon we'll jes' se' down an' res' a li' ${ }^{\prime}$ 'side de road."
"So dey se' down an' look up, an' de
sun kep' on a drappin" down sun kep' on a drappin' down narer, twell nex, dey knows it stop right on de tip-
top branch of a big ole tree right side 'em. 'Well, dat's kine $o$ ' funny, too,' 'Manuel say, 'an I reckon yer'll be' 'blige loan yer par'sol fer jes a li'l w'le,
Queenie, cuz cert'nly is gittin' hot, "So Queenie she pass up 'er li'l' par'sol to 'Manuel, an' he pertec' 'is haid fer li'l' W'ile an' den he pass it ter
de nex' li'l' boy, an' he pertec' 'is haid fer li'l' w'ile an' den he pass it ter de nex' lil' ' boy, an' he pertec' 'is haid fer li'l' woy an' den he pass, it ter de nex l'' ' boy, an' he pertec 'is haid fer lil' boy, an' The lady looked at her friend, who of fered a suggestion.
"Until they had all used it""
"Yas'm, an' he pertec' 'is haid fer lil"

"'Make right smart of a row, doan' dey'? man say; 'well, ef yer jes hops
right in yere on de seat I'll give yer all a light in yere on de seat l'll give yer all 'Weah 'i, co'se de li'l' boys, soon's dey hyeah 'im say dat, w'y co'se. dey all
'mence a climbin' up on de wheels an' a scramblin' over de aidge an' a pushin' a scramblin' over de aidge an' a pushin'
'long on de seat an' a makin' room fer Queenie on de en'. An' nex' yer know, de ole ho'se she jes start right 'long wid 'er tail a flyin' an' de man an' de lady
an' all de li'l' 'Manuels a settin' dere in de row, an' Queenie las' of all on de ve'y aidge wid 'er par'sol over 'er haid. "'Well, yer jes stop!' 'Manuel call after 'em fum where he's stan'in' in de seeh a thing! Yer jes stop, I tell yer!' ' 'Co'se de ole man's kine o' mad w'en he hyeah 'im callin' dat-a-way, so he driv right on a li' furder wid de lady, 'Manuels all a turnin' dey haids an' lookin' back, an' Queenie not turnin' nuthin', counten bein' ser nare de aidge she knows, she eyan't-an' den he say
'W-o-a!' an' ston. "'TWell, now an' ain't yer 'shame!' 'Manuel say a comin' yer shamt up 'side 'em all agin. 'Well, now yer kin jes git right 'long out agin.' "so dey's all jes 'blige climb right 'long out agin, an' de ole man start faster'n ever, wid de lady still a playin' on de fiddle, an' 'Manuel an' all de li'l'
'Manuels an' Queenie went walkin' long

w'ile an' den he pass it ter de nex' li'l'
boy, and he pertec' 'is. haid fer li'l' boy, and he pertec' is. haid fer, li'l',
wile an', den he pass it ter de nex' li' boy, an- "Yes, yes!" The friend was getting nervous. "Everyone of them protected "' 'Yas'm, eve'yone pertec' is' haid fer li'l' 'w'ile an', den pass it ter de nex' li' "Till it finally got back to Queenie, I suppose!"
"Yas'm, twell fin'ly got back ter
Queenie. An' by dat time shesshe's mos' all melt a a way! Yas'm! It's de trufe, it's been gone $\mathbf{s}^{\prime}$ long, dat time it got back ter Queenie, w'y, it's de trufe, sne's mos' all melt away! "'Sho! Ain' dat too bad!' 'Manuel
say, lookin' at 'er; 'well, ef fans 'er say, lookin at er'aps she won't melt no mo'! Ef we fans 'er right smart!' So dey each tuken out a li'l' fedder fum de aidge o' Queenie's coat, an' 'mence
fannin' an' fannin', twell praesen'ly she fannin' an' fannin', twell praesen'ly she
stop meltin' an' look up jes 'bout same way's befo'. Co'se 'er yeahs is mos' gone, an' one arm's drip off, an' counten a li'l' disfiggerment $o$ ' de feet she cyan't
r'ally walk on 'em, but 'side fum all dat r'ally walk on 'em, but 'side fum all dat "Well, I reckon we better be gwine home,' 'Manuel say, an' same time he spoke co'se dey all 'mence ter start. But de stranges' thing! Same time dey
start, de sun 'mence a movin' off fum sart, de sun 'mence a movin' off fum
de tree an' a gwine up-up-up agin, de tree an' a gwine up-up-up agin,
twell look like it's gwine clare way back
in de sky where it come fum. An' it

His eyes were still on the guilty, friend.
"She ain'-drap down-daid," came his voice again, evenly, reproachfully. "I know it! "Of course," put in the
friend humbly, "I was just joking. What The road divided Ezekiel tepped The road divided. Ezekiel stepped
naturally into the one which led another way.
"You see you'rewgoing to leave us," she went on urgently, "so tell us, Eze,
kiel, what really did become of her?" Wonderfully the sad reproving eyes looked back at her from the other road. murmured - drap - down - daid," he murmured, and his small feet moved on.
They glanced at each other uneasily. They glanced at each other uneasily.
"We should have been more patient with him," finally, suggested the lady contritely.
"But he wasn't making any progress
at all, you know," returned the friend with a mournful twinkle in her eye "Any progress at all?" echoed the lady thoughtfully, and turned suddenly,
severely, on her friend. severely, on her friend.
"Haven't we heard something like "Haven't we heard something like
that before"" she challenged, "in regard to a-a larger Problem! Isn't
that the excuse for all the impatience gar the excuse for all the impatience
and unkindness-and-and abuse that's and unkindness-and-and abuse that s thrown at them all, continually and
everlastingly!" Her eyes burned with a sudden hotly kindled fervor.
'What right have we to say he wasn't making progress-when we were too im-
patient to even wait and sre- What

right have they to-to-oh, my dear
my dear"-her voice dropped unsteadily "we must all have things so - so apparent at the moment! We knew he was getting on, but it was too slow, we
couldn't wait! They all know it, and couldn't wait! They all know it, and
they can't wait! Can't wait becausethey can't wait! Can't wail because-
because 'the mills of the gods grind slowly!' What about the mills of God? Slowly her eyes went down to a notebook still held in her hand, and she
dropped it as if it were something that dropped it as if it were something that scorched her." "She murmured in a dry stricken voice, "solution!"
Her friend looked up and patted her Her friend looked up and patted her
gently on the back. gently on the back.
'You're taking it too-too hard, aren't you? Don't! It doesn't do any good, and I suppose everything comes out right-in time, doesnt
philosophically. "In time? Yes-I suppose," mur
mured the other, "but-the unnecessary broil we're making in setting ourselve up against Nature and-and God!" They looked at each other slienty for a long moment, and then slowly thei "Look at him!" It came almost like a sob. "Wandering a way there all alone
with no one to understand or-or sym with no one to understand or-or sym-
pathize-just wandering away, so little and so helpless and so-so unequal-to it all!"
Her friend patted her again gently Her friend patted her again gently
and brushed quietly at her own eyes. and brushed quietly at her own eyes.
Then they both glanced unseeingly down at a note-book crushed in the
and went on down their own road.
"But we understand perfectly!, "An' den de nex" li'l" boy he star climbin' 'right up atop o' Queenie an' Helplessly she looked at her friend, who was reviving with an inspiration -stone-dead!"" she announced distinct ly, unblushingly, finally, without a
Laver of emotion.
Ezekiel's voice suddenly stopped-and there was a pause. The lady looked bit startled and glanced at her friend friend, Ezekiel was looking at to look with a long, silent, reproving gaze "No'm she ain'-drap down daid," he remonstrated slowly in hurt, even tones. "Why, of course not," put in the lady
tactfully, "come, walk a little way with us, Ezekiel, and tell us what did happen to her after they had all climbed out. He glanced up at her appealingly a something that hing $P$ rely startled something that had rudely startled
frightened him, and his lip trembled She thought he was going to say some thing to her and she waited. But his eyes moved away again slowly-back "Thy, of course she didn't mean any they moved from under the trees back int:. the road. "So tell us-" and sh onkel down gently at the hurt, little
face, se new, so unknown to her-"what

there on the nest as contentedly as would swallow the fish or the fish though she had never been disturbed. swallow the bird, but tired muscles | Jumping into the canoe again, I | finally settled the question, and the big, |
| :---: | :--- |
| handsome male swallowed the struggling |  | circled widely and approached the island unseen, grasped the cord and pulled for dear life, for it was a new one

and stretched like a Nature writer's yarn.
Did I get her? I did. See her sitting,
alert, watchful, alert, watchful, listening to the rustling
of that stretching, passing line. of that stretching, passing line.
Again next day I caught her, when alarmed at the rustle, she had just
spread her wings to assist her awkward spread her wings to assist her awkward
feet in flight. Two more gave me the great bird flapping off the muskrat
house, and the last two only brilliant splashes of water as she plunged furiously into the lake. From a daily study of this breed we
have learned that they migrate north have learned
early in April, and that they leave and early in April, and that ofy leave and
arrive in pairs more often than inarrive in pairs more ore being usually during the second week in November.
The plumage is more brilliant in the spring than in the fall, especially in spring than in the fall, especially in
the case of the younger birds. It is well known that they are fish-feeders,
and the way in which they can dart and the way in which they can dart
rapidly from side to side, and the great speed they can attain beneath the water, makes the chub, the roach, and shiners, fast as they are, easy prey. boung using a peevish "tweet" to make young using a peevish "tweet" to make
their wants known. In feeding these hungry ones the male is the best provider and really assumes charge of the black, downy pair as soon as they can
swim, and that is as soon as they are dry from the egg. He has no bump of dimensions, however, as I saw him offer his hungry babe a fish which made a

was a most intensely interesting sight, falling and rising, scattering the foaming water right and left as he plunged around my canoe. I rapidly snapped
the camera, at the same time turning my craft round and round, and once when the long canoe hid the swimming diving babes he came right at me, winging and splashing his way along and urged them by every low, loving, tremulous call he could rapidly utter to follow him. Each time the turning craft swept close beside, he dived with emerged literally standing on his feet on the water.
I now seized my dip net and landed screeching and calling and making every demonstration of anger and alarm, but assuring them that it was in the cause of science, and that I would return the precious wee ones un-
injured, I paddled as fast as I could to injured, I paddled as fast as I could to
the nest while the young birds lay in my camera box. I laid them on the nest and pictured them as rapidly as possible. Although only a day old othe thoroughly; eyes, bill, feet and body, with the exception of the breast, which already pecked berack. The youngsters already pecked at my hand in anger.
After the picture was satisfactorily accomplished, I turned the bow of the canoe up the bay and made all speed back to where the old birds were swimming in circles, searching every-
where for their lost family and when I came within fifty vards of and when I the downy little ones gently on the
water and backed away a few feet. The water and backed away a few feet. The
bright $\%$ of the anxious male spied
the thating dots, and, followed by the swa: Hiall I say cowardly - female wan sa, crooning and calling
he too soon plunged beneath, leaving the two babes like survivors of a ship
wreck, bobbing in the vortex. How he wreck, bobbing his back, whether they gets them on his dives beneath them, have yet to learn.
When I approached the nest on the twenty-eighth day after the last egg
was laid, I saw it was deserted, only the fragments of the big eggs remained. Far up the bay I heard the male call, one single "loo," a call of alarm, harsh and vibrant. Padding rapidy
soon came within a hundred feet of soon came with
them, and it was my reaching back for my camera that caused him to dive. my camera that caused $\left.\begin{array}{l}\text { my camera that caused him to dive. } \\ \text { A visitor volunteered to give him sone } \\ \text { The impetus of my strokes sent me }\end{array}\right]$ right in among the diving youngsters, a white sheet, and waited in the church-

Year old Loon dead.
when, up like a white flash, amid a yard where a path led homeward for the surge of spray, the angry male rose
close beside me. Twice he dipped his $\begin{aligned} & \text { laird. The "ghost" demanded who he } \\ & \text { was, and what he was doing there? }\end{aligned}$ close beside me. Twice he dipped his
shining green head and great red eyes
beneath the water to see where the last
ed, "I-am- steadied he-lairself." "But wha beneath the water to see where the last dive had taken the little chaps, then,
filling his lungs he let out that maniacal screech of his, his resplendent green screech of his, his resplendent green
reck glittering with water, swelled out with the volume of his call.
Up came the downy black babes, and
he rose on his feet and tail, arched his he rose on his feet and tail, arched his
neck and stood erect on the water. He
in low, gentle notes, and turning with with every appearance of totisfaction. "Tump, tump," sang the padăle; is land, bog, bay, the beautiful birds-all faded from sight, and only an occasionnervous "loo"came trembling aeros
the lake to remind me of the where abouts of these noble birds.
of the
A border laird used often to come iends had tried in vain to reclaim hin may ye be?" The "ghost" replied, in a hollow voice, "I am the ghost of your great-grandfather." "Aye, aye," said the general with a hiccup, "and is this a, a bit daunder now, or are ye jist takin "ghost" vanished.

You can save friction, save wear, save fuel, by using

## Capitol Cylinder Oil

The very best oil for steam plants on the farm. Lasts longer and gets more power from the engine, with less wear, than any cheap substitutes; costs less in the end.

## Atlantic Red Engine Oil

A medium bodied oil, strongly recommended for slow and medium speed engines and mach inery. Eases the bearings and lightens the load.

## Granite Harvester Oil

The short cut oil, specially prepared for use on reapers: binders and threshers. Prevents all avoidable friction. Does not run off or thin out. Body not affected by moisture or change of climate.

Standard Gas Engine Oil gives the best lubrication possible, alike in kerosene, gasoline and gas engines. Equally good for all external bearings.
Mica Axle Grease is the best known, most liked axde grease made. Never rubs off or gums.

## Silver Star Engine Kerosene Oil <br> Engine Gasoline

Far awn Far away，outside the harbor，white
sails dot the water while the last of the fleet，with their red，white or weather beaten wings unfurled，glide or weather the merry voices of their crew coming back to the watchers above． They themselves presented a pretty picture，framed by the vine－covered ver－
andah，whose leaves were aglow with the andah，whose leaves were aglow wit
brilliant red of its autumn dress． Mrs．McDonald，a woman in the prim of life，well preserved，her dark hair waving over her broad forehead，con－
tained but a few silvery strands． tained but a few silvery strands．Her
expressive eyes and resolute mouth，as expressive eyes and resolute mouth，as
well as her decisive movements，bespoke forceful character．
Her daughter Jean resembles her in features and character，but while the mother is calm and decided，the daughter patient．
Margaret，the younger sister，is not her own child，she is a tragedy of the wrecked on the Nova Scotia coast，and Margaret＇s parents had been numbered with the lopt．As the little girl had no elatives who claimed her，Mrs．McDon
ald opened her motherly heart and arms to the little waif，and was repaid by a wealth of love and devotion，almost un equalled by that of her own daughter． While the sea seemed as necessary to
the family as the air they breathed， Margaret did not share their love for it it had more terrors for her than pleas res．She would，when a child，hide he face in her mother＇s lap，and close he
ears to the roar in a storm，while Jean would dash down to the beach，bare headed，and clap her hands in glee as he mighty waves tumbled over the ocks in their haste to reaeh the shore．
The roar of the breakers was as musi ther ears．
The house in which they lived is pret ily situated in the midst of a flourish ng garden，on a hill commanding a fine
view of the harbor and the village below The McDonalds had not always been as prosperous and happy，as we find them this beautiful October morning．If Mrs McDonald had few wrinkles in her come her features，and few grey hairs among
her tresses，it was not because sorrow and trouble had passed her by， without stopping at her cottage door－
Her father had been killed in an acci－ Her father had been killed in an acci－
dent and she was early left to fight dent and she was early left to fight
life＇s battles，and did not find them any easier than do the majority of mankind． She married early，her husband，a good，
worthy man，was claimed by the sea worthy man，was claimed by the sea
in his mannood＇s prime，leaving her to in his manhood＇s prime，leaving her to
face the world again，with four little ones depending upon her for their daily bread．With unusually good health and
strength，she bravely assumed the task， strength，she bravely assumed the task，
burying her sorrow for her husband＇s burying her sorrow for her husband＇s
loss as best she could． From the back stoop at＂Sea View，＂ in after years，Mrs．McDonald would look down at a certain house hardly
worthy of the name，and think of the worthy of the name，and think of the
dark days of her life which she had spent there，battling with poverty and trouble．It was there her youngest
child，her blue－eyed baby Alic，closel child，her blue－eyed baby Alice，closed
her sweet eyes and with a smile，left her sweet eyes and with a smile，left
her embraces，never to return． Hes＇s was a strong，unconquerable
nature，partly inherited from her sturdy nature，partly inherited from her sturdy
fore－fathers，and also cultivated by her fore－fathers，and also cultivated by her
sumny，cheerful disposition，that could see a＂silver lining to every cloud，＂and
no difficulties so great but they could be overcome．
The years passed and brought easier
and happier times．The children grew and happier times．The children grew
up，able and willing to help．Her boys， up，able and willing to help．Her boys，
Donald the eldest，commonly called Don，and Jack the youngest of her fam－ ily，were fine manly fellows，who，for a number of years had been the main－
stay of the household．They are fisher－ stay of the household．They are fisher－
men and had prospered till they now own their own fishing smack，and had an in－ spected and well liked in the village，not

| only for their industry but for their | when the waves lapped the pebbly beach |
| :---: | :--- |

Don is more the than his hearted than quieter brother, his merry laugh is often eard from the shourd remark to each inf passing girls woul McDonald, I know his laugh.
The feet is now out of sight. Mrs
Mr Mchonald, turning to the girls, said, MeDonala, "Well, we must not linger here all day, there is work to do, I am for the garden.
There are tomatoes to pick, cucumbers There are tomatoes to pick,
to gather and pickle, and ofomberher to gather and pickle, and
things to do." Eer she had of finisher
der things to do. was among the tomato-
speaking, she was and the girls at their various vines and the girls at their various
duties $-J$ ean is the housekeeper and duties-Jean is ise housekeeper and
Margaret a dressmaker. Margaret a dressmaker.
Crossing to the house a few hours later, with a large golden pumpkin in her arms, she was attracted by a sereeeh-
ing and whirring of wings immediately whove her; looking up she perceived a bevy of sea-gulls, Sy she glanced at the ky seawards, knowing full well th warning in the ery of the gulls. A great bank of dull grey clouds hung low over the sea, the wind whas blowing
them rapidly land-wards. The sun was still shining but there was a chill in the atmosphere. "A storm is approaching," he remarked to Margare, , who was seat ed at the open window sewing!
"How is the barometer? falling!" she

said, "Well, I have finished the garden $\mid$ see it, they look so ghostly like sailing work for a spell, I guess it will likely
be but $a$ shower, the end of $a$ thunder storm perhaps. We are having a lovely fall- just lovely," "Yes, mother," Mar-
garet replied, looking up from her work, we are certainly going to have a change in the weather, $I$ can feel the dampness." She closed the window as she spoke. she added think there will be any fog? she added anxiously, scanning lie sky,
that was quickly becoming overcast, and thancing aut the sea, which had lost its
glate pretty ripple and was now calm, dark, and sullen, while the sun was hidden behind the bank of con spread theiuch, I reckon,", answered her mother, smiling, as she went to find Jean in the kitchen, from which a savory
smell exuded, telling her the mid-day meal was not far distant. It was an open secret that the merrysea, desired to win for his bride the blueeyed Margaret, 'pearl of the ocean' he
was wont to call her. Margaret might Was wont to call her. Margaret might
love the fishlhermen, but not the sea, and, thus iar, had not consented to become a fisherman's bride. Jean loved the sea
and wais wooed by and was wooed by many a sailor, but
her heart had been won by a medical stullent, attending college in a nearby city. Uuch is the contrariness of human nature. "I may love but will marry
naivh.t but a sailor", she said, sesding
limy tyumk to his college and books. She adtrei the ocean in storm and calm, , Alec Mure had last seen them. After
reakers, lashed into white-crested foam, cliffs and rocks near the entrance to the harbor.
It was curious to note the effect of the weather on the three women, as, later
the day, Mrs. McDonald brought her nitting and calmly sitting by Margar's side, glanced occasionally at the "Jakening atmosphere.
"Jean, she said.
hrough her nimble fingers, "We will have a fre in the grate soon, and keep fire on in the kitchen also; the boys ill be chilled and win need a cheerfu laze and their clot
is very damp."
"Now, Margaret, there is nothing to be feared, the fleet are all together and will be coming in as the fog is settling, ark! the fog horn is blowing. We ave done many times before on just such days as this-that's what."
Margaret smiled, as she sighed and gain took her work, which had lain uneeded or several moments on her
but letting it fall after a few stitches while she anxiously scanned the sea that ow could scarcely be distinguished from he lowering clouds.
Jean would rush to a window duties, Jean would rush to a window, exclaim
ing: "When the fleet returns I want to

Wimineg, May; 1912. sea ceased its roaring an
sobbed like a tired child. Again the sun is shining in a clear aky, all nature is gay and glad. Birds are trilling their morning caro, sun-tipped rippese are asin chasing each
other over the pebbles as if they had always played as gently or sang as siweet 2 melody. Occasiona carelessly in-shore, wave comes the sea's unrest, while long strands of fresh sea-weed lay scattered along the peach. Boughs of trees and tallen leaves lay stretw in all directions; the garden at Sea view, as weim a,
others, are shorn of their summer's beauty for the season.
The fishermen are again active silentIy to-day, they embark, heavy of hear ane missing. The merry laugh of Don and Jack's quieter chat is not heard as of yore, rallying the boys as they pre-
pare for their toil. pare for their toil.
They love not the sea dess, however,
and their daily bread mast be earned for themselves and their tamilies. The sea yields to them of her harvest, but their ost ship-mates and heir loved ones they will not forget. ing her mother and Margaret enjoying a much needed slumber, wandered down to the beach. Her step nad lost its buoyancy; the glad light had gone from
her face. Silently, she noted the havoe caused by the storm, and took small comfort from the sympathizing fisherfinding some trace of the "Doric" before they returned. eyes with her hand, she followed tie movements of the fleet, till rounding a point, they cisappeared from
sight. The beautiful morning and sparkling sea had no charm for her, the pinions of ones, for the first time in her life the sea was distasteful to her, the music she
loved so well appeared cold, heartless loved so well appearead a mecking. It became a personality to her and roused her to anger, clenching her hands, she cried passionately: " "Give
me back my brothers, none were so good me back my brothers, none were so good as they, dath would be a blessing to many." Tears of anguish and rage filled her eves, she sank on a boulder sobPresently she grew calmer and her Present $y$ she grew calmer and her
thoughts flew back to her childhood days when she and her brothers played on the beach and spent many happy they played shin-wrecked on thie rocks they played ship-wrecker on dhe rocks.
"The Rocks!" "The Rocks!" she repeated more decidedly, "Now, I wonder, but no! that is nonsense, and again she lapsed into
silence. She frowned as thoush in deep silence. She frowned as though in deep
thought, the shadows partly left her face, and springing to her feet, she ran up the hill, pausing for a moment to speak to a lad standing in the door-way
of a house near their "Billy," she said, "Be down at the beach where the sea gull lies and I will
be there in ten minutes. The boy nodded and grinned but answe ed not. Jean garden pith pushing aside a trailing garden path, pushing aside a trailing

lowered, Billy taking the oars and Jean lowered, Billy taking the oars and Jean
the rudder. They steered slowly and at the rudder. They steered slowly and at
a respectful distance around the rocky The waves held this grim old pile a their mercy, encircling it with their foaming waters, which to-day rose Niagara-like and hurled themselves vio
lently against its sides. Immeasureably secure they had stood the n-slaught, as the ages rolled on, its sides beaten and
torn into rifts and chasms by the devouring waves.
reefs, which the south to escape the reef, which they knew to be dangerous-
ly near the surface, Jean motioned to Billy to cease rowing. They, stopped at
the southern-most point, and for a few the southern-most point, and for a few
moments gazed silently upon the scene To all appearance there was no haven where a boat could enter, even if they breasted the angry bre
ed an impossible feat
ed an impossiber eat. "This is whed to play shipwreck, Billy!" Jean said, calmly surveying the scene before her with as critica eye. "How did you get in, Miss Jean ?
questioned Billy, wonderingly. "We only came in calm weather. but there is a a safe shelter between those two rocks," pointing to two jutting
crags which seemed close together, yet in reality were some distance apart, with a channel of comparatively smooth water between. Billy, listen," Jean went on breaker or we will be dashed against the rocks and swamped. The reefs end here when the wave breaks row for your life We. I will steer. Do you understand?" us. I will steer. Do you understand?" slowly, taking the oars, and waiting for her to give the signal.
Both realized the danger but feared
it not. True children of the sea, court ing its dangers, defying its terrors thinking only of their task and the best way of accomplishing it." ed, as a larger breaker than usual crashed, and broke with a roar that al-
most drowned her voice. most drowned her voice.
Billy strained at the oars with his utmost strength. Jean, with steady ey an unerring precision, while behind, nearer and closer, gaining in height with every second, came the towering white-
crested mass of water. The distance was not great, They swerved to escape
a projecting rock, losing a fraction of time. Jean feels the flying spray that heralds the approach of the monster be-
hind her. Will they escape its clutches? "No!"
"Yes!" she shouts exultingly, as the Sea Gull shoots into the channel and the breaker flings upon them a drench-
ing shower as it tears past and again ing shower as it tears past and again
envelopes the rocks ere it sinks to its envelopes the
bed of waters.

alad
"Don!" "Jack!" she cried breath ly, "What" "Jack!" she cried breathless ly, "What has happened? Why are yo
here? Where is "The Doric?" We thought you were-and mother"-sh could get no further, her moice quivered and broke, sobs chokirg her utterance Don clasped her in his arms, and Jack
patted her head. "There, there, patted her, head. "There, there, my brave girl," Don said coothingly, "how
thankful we are you have come, but have you any water? If so, for the love
of heaven give us some; we of heaven give us some; we are not
starving for food but for water. starving for food but for water. Jack,
poor fellow, is so parched he can scarce ly speak.
"What a fool I am," Jean exclaimed shocked at her brother's pale and ex "Billy, bring the basket." But Billy taking the matter as calmly as though out for a summer's picnic, had already brought and opened the well-filled
hamper, and Jean very quickly relieve hamper, and Jean very quickly relieved
her suffering brothers; cooing to them in motherly tones, insisting they should eat and drink but sparingly, nor would she listen to any explanations till after
they were satisfied. Then, while the tide was receding making the dangerous passage every moment less difficult, Don told the story of their plight. "As our catch had no mined to go to the jetty beyond the cape, where our outstanding nets wer placed. We found a good haul, and be ing busy, we did not notice the approach
ing fog till it was almost upon us and ng fog till it was almost upon us and
we felt the chill. We were not alarm d, confidently thinking we would come within range of the fog-horn before i wot dense, but such was not the case; we wandered too near the shore and
knew by the sound of the breakers that always roll over the reefs near "Th Rocks" we were in their undesirable neighborhood. It was calm though fog gy and not as thick as it afterwards be
came. I know the entrance to this cave well, and, skirting the reefs, had no difficulty in finding it as the tide was receding, thinking the fog would soon
lift, we preferred to take shelter here rather the preferred risk standing out in the open. Fortunately for us that we did so. Had we been out in the open dur ing that awful gale that followed, we should undoubtedly have perished. We
tied "The Dorie," as we thought, safely to a projecting rock and soon made our way up here to what, as you remember was our imaginary "rock of refuge" in ur childhood days. We brought what
grub we had, which was not much and some fish. There was a little tea leftthe tea that Margaret made." Here the voice softened.
"We could "We could make no fire; there was ood and raw fish and waite of the he wind rose higher and still higher we looked at the boat several times She was still there safe and snug. We
felt no particular alarm only for you elt no particular alarm only for you
olks at home but hoped we should be back before our prolonged absence had aused them more than ordinary anxiety.
You know how the hurricane lasted, the You know how the hurricane lasted, th
longest and worst I have ever seen. I you heard the gale on the shore, you can perhaps, imagine its foree here, ;it really
seemed at times as if the very foundations of these as if the very founda tions of these grey, old "Rocks" must
be loosened and the whole come tumb ling down. Jean remembered that awful night and shuddered. We dared not venture forth from our cliff which, as you see, forms a partial cave. The table rock is broad but the wind dashed against it with such ter-
rific force we could not have withstood rific force we could not have withstood the second day, we sallied forth to get more fish from the boat and to make ready for our departure the first pos
sible moment. What was our horror to sible moment. What was our horror to

## AMAZING DISCOVERY

"Sequarine," a Mysterious and Powerful Now Serum, Greates a Sensation in Scientifio Gircles
A Vital principle more efreotive than the vterohan ge ofblood and more active than radium, cures disease, heals sores an

An amazing discovery has been made by a scientist who was formerly head paysician to the Hospital or Paralysis and
Nervous Diseases, Queens square -London This square,
discovery which is probably the most important addition to the science of medicine since Harvey's discovery of the circulation of the blood, consists of a powerful and active Serum, which is a certain cure and preventative for a large number of diseases. This serum was called Orchitine by its disco vere (Prof. Brown-Sequard. F.R.S., and F.R. very marked. cation, and renewal is C.P., London), but doctors and scientists of the body which is not favorably affectgenerally have begun calling it Sequarine, in honor of the Professor who caused such a furore in their ranks by announcing and demonstrating its wonderful properties.
In a paper read to a gathering of distinguished leaders in Sciênce and Medicine, held under the auspices of the Paris Bialogical Society, Prof. Brown-Sequard divulged the secret of the composition of Sequarine, and explained its manner
famous scientists proceeded to experimet with and test the serum, and it proved to be so swift and effective in curing various illnesses that leading Medical men in the opinion that this serum will render obthe ete the present methods of treating many diseases.

VITAL ELEMENT OF LIFE
At a meeting of the tenth Congress of Medicine in Geneva it was established that by multiplying the phagocytes the co-efficient of vital resistance may be increased. When Sequarine is taken there follows almost immediately ${ }^{2}$ rapid increase of white BROWN-SEQUARD,FR.R. corpuscles Tthe phagoeesor f Mo Lendon, Pro- cytes) in the blood, Jessor of Medicine at the
College of
Rrance, the dis-
 founder of modern serumhe heart beats become tronger, and increase of tissue respiration. purif of the body whi
ed by this fluid.
The SequarineSerum is, in fact, a pripciple which doctors and scientists have been seeking for years past, viz., the vital element power of disease resistance. For decade thas been known that when once the basis of this power of natural resistance was discovered the most stubborn chronic Iness could be eradicated with ease, and he average duration of life strengthened considerably. On the advice of their physicians, many members of the nobility have already secured supplies, and are as a general strength restorer, One a the advantages of treatment with Sequarine is that no drug is introduced into the system-when taking it

BLE BOOK
Sequarine is prepared under the supervision of L. H. Goizet, M. D the collaborator of Prof. Brown-Sequard. A remarkable book ha been prepared giving the details of its discovery, nature and action and copies are being presented free to the public. Sequarine has definitely been found to cure

The Promise of the Year.
By William Lutton.

MoKelvy's Bridge, Gladstone, Man.
ncarnated; a new soul has been put into
t. The great resurrection tace
need to ignore him-to a large degree. Tig extensions and towns are planning for
big extensions. Populations grow like the United States, from the Old World converge upon the West. It diffuses it-
self; it is lost to identity, but it forms self; it is lost to identity, but it forms Half a million pou season is like the pebble on the shore But every human entity plays its part in the ensemble; makes history, is jden tified with destiny, which he does some And by all accounts, this is to be a banner immigration year. Many causes are operative. The industrial upheaval in England, the sense of unrest, the
shaking of the foundations of those inshaking of the foundations of those in-
stitutions which, if they heaved and slook elsewhere, were stable in the Mother Country; the spread of Socialism in European countries, leading to oppressive measure on the part of militar
ism, which is fighting for its life in the older European countries; the poverty of the people, accentuated by the madness which marks the war of armaments

- all this crowds the ship, fills the trains which, on the three transcontinental lines, will set down many thousands o new settlers in the Northwest this sea
Though denied larger markets, which
are of the most urgent importance, the are of the most urgent importance, the West is seeing its own market extending year by year, while it is assured
that in the immediate future, the manu facturing interests will be expressed in facturing interests wing be expressed
nee equipoise, making for complimental
relans between the pastoral on the Nature has remembered her promise
The heart is young. Divine processes have been at work producing the miracle which we will not acknowledge, because
we are so accustomed to it, and get it we are so accustomed to it, and get it
without working for it. Secret forces and processes have been
at work while the white carpet lay on the fields; and now the germinating orces reveal themselves in the fecun
sod. Hope swells the breast. The farmer breaks new ground; the ownership
extends. There will not always be congestion and hurt through congestion. W wil go on extending the acreage
we will produce more wheat; but we
will also remember the wisdom and the practicality of mixed farming,, for thi
conservation of Nature's home, which was restricted in the win-
ter, is taking on larger aspects. New
rooms are rooms are added; the paint brush is
brought into requisition; the housewife tains and spreads out her furs, preparatory to putting them away. Society in
yet a long way off, and there are lonely moments, It is a new world in the mak ing; grander possibilities than were ever
possible in the Old World swel the
heart, and home, if it be to, has a deeper meaning, whise it i
one's own, than the word ha! for thims ands now, in the Northwot who, he

leave their native breadth and space, and fre.
chance-the chance which

Winnipeg, May, 1912.
The Western Home Monthly.
one hand and the industrial on the other.
Already we see tentative efforts to establish branch manufacturing establishments in the west, and thes.
come more ald relations between the East Reciprocal relations
and West need not be weekened, but the the
not Northwest will become increasingly self contair ed,
The manufactories will give employ-
ment; money will circulate; the homement; money wilt exteulate, and a growing mapulation will compensate more and more completely for losses which an ad-
verse vote imposed upon the young and
virile people.
Ameliorating and refining institutions are keeping pace with material develop. ment, and, through texe school and col lege curricula, To the newcomer, who has left
civilization which, though he was divore ed from its best features, he has learn ed to admire, the haphazard methods o
living may seem bizarre and undesirable living may seem bizarre and undesirable.
He himself could only peep at the comforts and decencies and luxuries which
were denied him; but he would note the werenice of the commanding features and the Mother Country
It is precisely these features which are enow being sedulously cultivated in the West. We have the university, fair
and stately; the public school; the and stately; the pubtic school; the the
chure, the club, the library -all of which measurably bring in salvation.

## Enthusiasm.

Here, for instance, is an instructor-town-bred schoolmaster-whose gar usly with his appointment simultanery school. When he started there he could not safely distinguish celery from some years ago, and to-day he has a school years ago, and to-day he has school gardening really should be. En thusiasm led him to experience and the wo secured efficiency And, mind you,
there are hundreds of this town-born type of instructor doing splendid wook to-day.
Again, here is a man, reared in the country, who entered the teaching pro fession. From his youth up, gardening
has been an open book to him. It was

The School Garden Instructor,
Frequently it is said to me by wouldbe garden
their way clearly to the establishment of a a garden station on account of their
limited knowledge of horticultural practice These good folk recognise haw
little they know and are desirous of exlittle they know and ane As a rule, they are the people who are eventually most successful in gar-
den teaching. The man who does not khow a thing-whio knows that he does not know-wants to find out something about it. He is full of the energy and enthusiasm
efforts of the
tI gentleman you sometimes meet and knows, and, unknowingly, keeps in his own little backwater.
The essential of all success in the school garden is unquestionably the in-
structor. He is the central didea of the movement. He is the pivot of the whole business. And in every case the good
quality of the work rests entirely upon quality of the work rests entirely
his enthusiasm. Sometimes, through force of circuistances, or
ing, the instructor has limited experience. . . ow, experience is, of course, an important element in all concerns, but
in the instructor $I$ count enthusiasm before experience. Where you have the two you soon seeure efficiency. Where you have experience without en-
thusiasm you rarely find it thusiasm you rarely find it. But en-
thusiasm begets experience, and finally leads to efficiency. These are the three E's of the school garden instructor. What We Ask For.
Yes,, know exactly what some peo-
ple will say: "A garden teacher should ple will say: "A garden teacher should Quite right; , he should, and that is

to the experience of every-day life. But school gardening? What does it mean? What are its objects? He discovered hem, and, workng his gardening knowed the goal of success. He may not have a bundle of certificates stored in his desk, buit he does possess a standing memorial to good
work in the tiny plots by the school playground. These are the men who ural education.

School Gardens a Fad?
There are very few country schools and then in the garden-less schools you and people who smile at what they re some people who cannot see the use are some people who cannot see the use
of anything. Such men are bodily in anything. Such men are bodily in
the country with their souls on the pavement of the towns. But fortunate y they are very rare, and most townred teachers who go into the tiny vil
age accept readily the need of a live age accept readily the need of a live cation.
Any man in any school-excepting, of course, the large city schools-can make gardens. It is the easiest movement possible because there are, at this time so many sources of available aid. Intached to nearly every county; ther are books and magazines which deal
with the subject. with the subject.

## Wonderful Offer!

most astounding offer ever made in the history of the typewriter business. Dealers everywhere baffled by our wonderful Offer on the world's greatestst typewriter-a

## THE LOSS OF THE TITANIC.

The story of the loss of the Titanic can never be adequately told. Never before was there such an ocean tragedy. The more than sixteen hundred included people of all classes and conditions. There were men of great wealth, men who were in posi-
tions of great power and responsibility, people in moderate circumstances, poor people in the steerage coming to make new homes in this new world. In the supreme crisis, when all were brought face ocean, few indeed, fell short of showing the heroism which is the spark of the Divine in human nature. This is the memory of that terrible disaster, which will ever live as an inspiration-that so many met their fate heroically as the Titanic plunged beneath he icy waters. And wnat has been burnt in as en-
duringly on the mind of humanity is the lesson of duat terrible and unnecessary sacrifice of life-the esson that safety should be the supreme considera-
tion, and that no ship should be allowed to go to tion, and that no ship should be allowed to go to
sea without lifeboat accommodation for every man, woman and child on board.

## CITY AND COUNTRY.

Detailed figures of the census of last year now vailable reveal the fact that the total increase in ce city population in Canada during the past ten
years been enormously greater than the total ncrease of the country population. The surface idea of most of us probably population. The surface the big inflow of imnigration has been chiefly settling on the Western arming population of the Dominion is the main tem of census increase Dominion is the main how quite otherwise. The increase in the last ten years has been 555,065 rural and $1,278,147$ urban. 6.48 per cent., and country population has been owns has been 63.83 per cent. This is not as it hould be. It does not mean a rightly proportioned national growth and development. Our Governthe promotion and Provincial-should work hard the improvement of agricultural conditions in every way.

## WHERE TALK IS NOT CHEAP

The first session of the twelfth Parliament of anada, which ended in the first week of the past month, actually sat for sixty-nine days-that is to
say, the House of Commons did, for no one keeps say, the House of Commons did, for no one keeps
track of the Senate. For this each member has retrack of the Senate. For this each member has re-
ceived his $\$ 2,500$, which is at the rate of $\$ 36$ a day or each day that Parliament sat, or, including the aturdays and Sundays and the thirty-four days Christmas holidays, at the rate of $\$ 17$ per day.
Each Senator, too, got his $\$ 2,500$, and exerted himself less. If Parliament worked by the piece, inself less. If Pariament worked by the piece, in-
stead of by the day, Parliament would get through
quicker and give better satisfaction. There is no quicker and give better satisfaction. There is no good and sufficient reason why the sessions are as
long as they are. The work could easily be done ong as they are. The work could easily be done nustry. Parliament cost the country $\$ 1,655,000$ last year. What the bill for 1912 will be remains to be sen. There were some $6,750,000$ words used in the ved at by multiplying the number of pages of Hansard by the fair average number per page. They ay talk is cheap, but the talk in Parliament, as hhis taken down by the official shorthanders and
pinted in Hansard, cost $241 / 2$ cents a word. Couldn't the country get on just as well with a few million less words per year at Ottawa?

## THE "APPEAL TO REASON" STOPS

The Socialist weekly which has had such a stormy career at Girard, Kansas, has ceased pub-
lication. The "Appeal to Reason" has ceased to lication. The "Appeal to Reason" has ceased to appeal. The announcement is made that the con-
fession of the McNamara brothers was a severe blow to the paper, and the editor himself lays his sus. pension of publication to his fight against the United States Government for the right to circulate it through the mails. But a more insidious influence really responsible for the end of the firebrand sheet: For "The Appeal to Reason" has made an appeal to the pocketbook. It has been not merely a creed to its editor and publisher, but a good thing financially
also. He bought cheap land in Missouri with his proalso. He bought cheap lasits of zinc were found o fits, and valuable deposits of zine were found on
his land. Then the Socialist editor built and owned a town, but instead of running it on Socialist princi-
ples, he sold out at a handsome advance, and in ples, he sold out at a handsome advance, and in
vested the proceeds in land in Texas, upon whicl vested the proceeds in land in Texas, upon which
the town of Amarillo has been built. His rentals
from the town of Amarillo are reported to be $\$ 40,000$ a year. No wonder he has stopped his "Appeal to Reason." He does not have to appeal to anybody any more. He has the "stuft now, and the caree
of a Socialist for revenue has no further attracof a Socialist
tions for him

THE WORLD-WIDE RISE OF PRICES.
The suggestion of President Taft that an international commission should be formed to study the causes of the world-wide rise of prices meets with approval in the London papers. Prices fell
stzadily from the middle of the seventies until the stzadily from the middle of the seventies until
middle of the nineties, but since then have been on the up grade, rising most rapidly in the last few years. The rise in prices extends to all the countries of the world; it has coincided with the in-
crease in the world's supply of gold, and is held by crease in the world's supply of gold, and is held by There is a vast amount of gold being taken from the earth every year now, in comparison with ten years ago; and as gold is sold in the open market, like
anything else, the greater supply means a depreciation in value. That is to say, its purchasing power has decreased. Gold holds the unique place of being the commodity which is used as the standard of value and the medium of exchange recognized all
round the world. The depreciation of gold has been round the world. The depreciation on gother rapidly, in accordance with the supply, since long before Coidsmith's time, when a man was "passing rich on forty pounds a year." In 1911 the production of
gold reached the enormous total of $\$ 500,000,000$ a year, whereas thirty years ago the yearly produc-
tion was barely $\$ 100,000,000$. This is very largely tion was barely $\$ 100,000,000$. This is very largely due to the deep level mines in the Transvaal and the cyanide process, which makes it profitable to
extract the gold from ore which contains only six extract the gold from ore which contains only six that, although the actual quantity of gold produced from the Transvaal mines in 1911 was greater than
ever before, the returns to the shreholders were ever before, the returns to the shreholders were
about $\$ 5,000,000$ less than in the preceding year. In about $\$ 5,000,000$ less than in the preceding year. In
other words, the increased production brought a corresponding decrease in the market price. It is all a very interesting and intricate problem, with an undeniable bearing on the rise in prices. There
are other causes. All the causes can be searched out and disentangled only by the most thoroughgoing inquiry on a world-wide scale.

## HUMANITIY'S FOOD SUPPLY

A leading German paper, the Hamburger going on in all countries in regard to the increase in prices, thinks that the fears of Malthus are being already realized and that population is beginning to overtake the available supply of food Virgin soil," it says, "is believed to be not avail-
able any more in the United States of America, and is getting scarcer even in Canada and the Argentine." A European who sees only his own crowded country with the soil fully occupied and who is
ignorant of the actual conditions on this side of the Atlantic may entertain the view that the peothe Atlantic may entertain the view that the peo-
ple in the world are becoming too numerous for the possibilities of food supply. In this country there are vast areas of arable soil untouched; in much virgin soil as in Canada, it is a reproach commonly levelled at the farmers that they are far from getting the maximum production out of their land; in South America there are great expanses
that have never known a plough; and Siberia, that have never known a plough; and Siberia,
Australia and South Africa must also be taken Australia and South Africa must also be taken
account of. The Malthus bogey is a theory that
may be dismissed from consideration. may be dismissed from consideration.

## MISGUIDED BELIEVERS

A craze for the occult seem; to have found many victims of late, and some extraordinary cases different places. In ons of the chief cities of Spain the police have arrested a woman for sorcery, the charge being that she abducted and murdered at east six children, whose bodies were boiled down to make love philtres ior deluded women. Of
course the purchasers did not know the source of the charms guarantecd to bring the desired sweethearts to time. The amazing thing is that in a city anywhere in the world in this twentieth century
people exist who bciicve such nonsense. Another terrible story cam: 天 cupple of weeks ago from Toronto, where a mother killed herself and her
three children by gas asphyxiation. She had had three children by gas asphyxiation. She had had relations with a spiritualist colony in New York members of that cult. An extraordinary case
recently came before Mr. de Grey, a police magis trate in London, in which two spiritualists were charged with fraud by a soliciter, who was induced his dead sweetheart. He had written several hun dred such letters, many of them enclosing bank notes. The magistrate remarked that human
credulity was supposed to be unfathomable, but credulity was supposed to be unfathomable, but
surely the bottom had been touched in this case Other cases, however, quite as bad, are occuring all the time. It was only the other day that the news papers reported the trial in a city in the United
States of a faker with a new "religion," who had a great following of women, who offered to put ap thousands of dollars in bail for his liberation. In every land, including our own, there are many clairvoyants and
human credulity

MAKING A TRANSGRESSOR TRUDGE.
One of the minor news items which attracted attention in the newspapers during the past month was the account of how a Galician who lives four teen miles from Winnipeg caught a thief in his
house at midnight. He tied the thief's hands behind his back, and led him on a rope to the neares police station in the city. Quite a trudge that through the darkness. The burglarious individua must have found it a very dreary walk, in poor com
pany. It certainly gave him ample time to think pany. It certainly gave him ample
the whole matter over, and come to the conclusio that, after all, honesty is the best policy. His sen sations during the first few miles of his force march were probably deeply resentful towards his captor, but gradually he must have become more re
signed, as his fatigue increased. Certainly it wa a case of the way of the transgressor being hard.

## MORE EFFICACIOUS THAN TASTEFUL.

We read in Engineering News that castor oil is regaining its old place as a lubricant for ma is regaining its old place as a lie demand for it is going up at a great rate. The average small boy will welcome this information with the hope that this new demand for castor oil will assume ${ }^{\bullet}$ such proportions
as will lead to its price becoming so high that i as will lead to its price becoming so high that it
will cease to be any longer an article of househo wise. He is prepared to testify as to his conviotion that machinery is all it is fit for. And it will not be denied that he knows something about castor oil, however little he may know about the uses of mitted that he can speak with expert knowledge in testifying that, administered, in cases of certain familiar aches and pains that boyhood is heir to it is more efficacious than tasteful.

WOMAN SUFFRAGE IN THE STATES
Six states-Ohio, Michigan, Wisconsin, Kansas, Oregon and Nevada-will vote in November on the question of woman suffrage. Of these it is believed women. Three-Ohio, Michigan and Wisconsin-ar not expected to favor it, and Kansas is doubtfu The feeling in favor of votes for women appear to be stronger in Western than Eastern States
Wyoming, Colorado, Utah and Idaho have woman suffrage for some years. Within a yea woman suffrage for some years. Within a year
Washington has adopted it, as California did only a couple of months ago. Gregon at the last State elections rejected it, but, if we are to judge
by the newspapers, is not unlikely to adopt it November. It is a significant fact that all pirants for the Presidency have considered it worth while to declare themselves in regard to votes fo women. They are either in favor of woman suf
frage, like Mr. Taft, or they say, like Mr. Roose
velt, frage, like Mr. Taft, or they say, like Mr. Roose
velt, that "the women can have the suffrage when ever they want it." It is figured out that women are a not negligible factor in States that will cast
more than fifty votes in the electing of the new President.

## ENGLISH SPEAKING PEOPLES GROWINC

 CLOSER.The growing interest in things British among the press and people of the United States is rather remarkable. The doings of the British Parliament are recorded regularly in the leading newspapers,
and editorials discussing British affairs appear regularly. Some of the newspapers discuss British af fairs intelligently, while others show a deep seated ignorance of constitutional practice and methods of procedure. This is accounted for by the long period
of insularity during which British affairs were taboo, except as an excuse for giving a twist to the lion's

## Scotch Column.

Conducted by William Wye Smith, Scottish Expert on Standard Dictionary,

It's announced that Queen Mary in tends to provide a shelter for consumptives on the Balmoral estates.

In some places this year ratepayers In some places
were allowed to pay taxes and rates in
three installments. The new plan was. whree installment
very successful.
"Uneasy lies the head that wears a crown." "Aye," said Geordie Mucklewham, "that was Wullie Shakespeare.
Robbie Burns wadn'a hae said sic a fulish thing as that! Robbie Burns kent weel enuch that a king wadn'a gang till his bed wi' his croon on; he wad hing it ower the back o' a chair."

> A Grace Before Meat.

Lord, when we're hungry gie us food, When we are fain, O, gie us grace;
And lit ocht else o $0^{\prime}$ gift and good And $1 \cdot t$ ocht else $0^{\prime}$ gift and good
Come wi'the smiling o' Thy face!
W. W. S.

Very Scotch. I had two sisters-little girls-long ago. And at school the teacher would sometimes set the younger one to hear the elder sisters lesson. my father was: "I did'nt mind saying my lesson to her; but the little chit would take my seat, and make me stand up before her wh

Scottish Nobility. Scotland has had handed down to her from old days a nobility and an aristocracy, but the mass of the people have never followed them. And after so many centuries of
experience, the aristocracy have given experience, the aristocracy have given
up the idea that the people should follow them. The nobility did not follow Wallace; and (with the smallest exception), they did not follow John Knox; and they did not follow Robert Burns. thousand Scotsmen assembled on the Battlefield of Bannockburn, to raise a great iron mast on the "Borestone," for a flag-pole, there was not a titled per
son on the ground.

Memorials. It is proposed to erect an obelisk to the memory of Mungo Park and Richard Lander, early exlace will also be erected next to Walat his birthplace, Elderslie, Renfrewshire.
"Deed, lassie, I hae had but three thochts o' matrimony a' my days. 'Wha And after I brak my leg, 'Wha'll tak me?' And the last thocht is like to be the langest.
The Alma. Of the 42nd Highlanders, who so distinguished themselves at the
Battle of the Alma, Sept. 20, 1851, at the beginning of the Crimean War, there are still (so says a Glasgow paper), in life, two generals and one
colonel (the latter a priva'e in 1851), and 21 men of the ranks--many of the latter in the Colonies.
Och! hame's aye liame, an" there's nae word like "langsyne." The thocht is aye the giveetest still
that hauds the heart in pine Yon they auld hills 1.ook fairer aye o, the farer they are setland yet!
$\qquad$ Robert Reid.
Prof John Veitch says: "The degree in which a Borderer appreciates the peetry of his native as the measure of his culture. The Borderer who is entirely impervious to its influence-if any such there bemay fairly be given up as incapable of education, in any I neither gat promise $o^{\prime}$ siler nor land Wi' the bonnie wee darling wha gied But I me her hand,
But I gat a kind heart wi' my sweet And that's proved the bliss o' my ain fireside.
My ain fireside, my ain fireside,

An Accurate Watch
Should govern all activities on the farm during seeding and other busy times. There is no better medium-priced time keeper than a 15 -jewel, 16 size, "Dingwall" movement in an extra quality gold-filled case, which, complete with gold-filled chain and locket, sells for

It, as well as many other fine watches, is illustrated in our 1912 catalogue, a copy of which will be sent you on request.

## THE YOUNG MAN AND HIS PROBLEM.

## By James L. Gordon, D.D., Central Congregational Church, Winnipeg

SARCASM.
When you are angry at a human being, keep it inside. Don't tell them exactly what you think are said and written become fixed in the minds of people. You may be creating a sort of social literature which will be quoted against you some day.
Smile within yourself but don't say anything. If your enemy justifies your wrath he is not worth thinking about says one jourralist:-"I like what Abraham Lincoln said to one of his cabinet officers. That cabinet officer had been belied and misrepre
sented until, in a furr, he wrote a letter of ar raignment to his enemy, and in tersest possible phraseology told him what he thought of him. The cabinet officer read it to Mr. Lincoln, and asked him how he liked it. Mr. Lincoln replied, "It is splenmore complete in that direction. But do you think you can afford to send it? That calm and wise and Christian interrogation of the President stopped the letter, and it was never sent?

## SAY KIND THINGS.

Say kind things and say them now. People need encouragement. Actors need encouragement. Preachers need encouragement. Servants
need encouragement. People are dying for a kind need encouragement. People are dying for a kind
word. And you can say it. Not simply a formal thank you-more than that. Watch, study, and be considerate. If folks serve you well, tell them so. Men and women hunger for a word of appreciation. Some years ago a clergyman died in New York, and after his death a company of his
brother ministers met to speak of the one who had gone. The widow was present, and as one after another spoke of the dead with words of loving ap-
preciation which had never been used to him in his preciation which had never been used to him in his
life, the poor woman, who knew how weary and dislife, the poor woman, who knew how weary and dis-
couraged he had been, broke out at last: "Oh, gentlecouraged he had been, broke out at last: "Oh, gentle-"
men, why did you not tell him this while he lived $?$ " There are weary hearts to comfort, there are broken hearts to heal, there are saddened hearts to comfort,
there are penitent hearts to forgive, "as the days are there are penitent hearts to forgive, "as the days are
going by," and it is woeful to wait until the days are gone and then stand weeping over the lost opportunity.

## EXECUTION

There is safety in doing things. The man who is moving somewhat and going somewhere is in har-
mony with a universe which is all astir. Something mony with a universe which is all astir. Something
always happens which is favorable to the man who is always happens. which as favorabue despair work on in
at work. Work on and if you des despair. When the King of Sparta had crossed the
Hellespont, and was about to march through Thrace Hellespont, and was about to march through Thrace, he sent word to the people in the different regions,
asking them whether he should march through their asking them whether countries as a frien soul march "By hough the countries as, a friend or an enemy. "By ail means
as a friend," answered most of the regions; but the King of Macedonia replied, "I will take time to conKing of Macedonia replied, "I will take time to con-
sider iti,"."Then, said the King of Sparta, "let him
consider it; but meantime we march
hewe march!".

## GRIT.

It takes grit to battle with loneliness. To sit in a cold, uninviting room, with a silent newspaper or a voiceless book and concentrate the mind on para-
graph or chapter while the buss and tread of human graph or chapter whil the suse nd tread of human-
ity may be heard on the treet below, this requires genuine nerve and grit. Conquer that mood and you will conquer all the adverse circumstances of life: Sir Walter Besant says at sixty-four: "To this day I cannot think of those lonely evenings in my
Iondon lodging without a touch of the old terror. I see myself sitting at a table, books spread out before me. I I get to work. Presently I sit up and look
round. The silence is too much for me. Itake my round. The silence is too much for me. I take my
hat and go out. There are thousands of young fel. hat and go out. There are thousands of young fel
lows to-day who find, as I found every evening, the silence and loneliness intolerable,"-but friend, don't
sita go out-conquer the mood!

## GOD'S EYE.

Earnest men are so scarce in this world that God has no difficulty in keeping an eye on then. There are but few men in every community whio are sili
cerely bent on doing the will of God. We are so cerely bent on ding the will of God. We are so
filled with our own plans, sclemes, programs and arrigngements that when discouragements come they
are periomal disasters-we cannot link Gol witi them. I am not preaching; but a man cannot do his best unless he believes that he is is in partnerslip with
the universe. The man who believes that, will do liis hest when the circumstances are the worst. A par-
ishioner asked aclerveman why the congreation had filled w, wed why the chlurch, was now so poroperous
above what it had cerer been before. "Well," said the

## YOUR WEAK POINT.

Every man has a weak point. Even a strong
has a weak point. Concentrate on your weak man has a weak point. Concentrate on your weak
point. Find out what it is. Perhaps your friends point. will assist you to make the discovery. But the strong man who discovers this weak point first is well nigh manvincible. Peter the Great, we know, was so timid that he could not even cross a bridge over a stream without having the carriage windows darkened by
curtains. But he said "I can and I will overcome this weakness." He did master it. He crossed the ocean worked as a common ship carpenter in an English navy yard, gave to Russia her first vessels, and laid
the foundation of her imperial greatness. the foundation of her imperial greatness. Henry of and fled ingloriously from the field of conflict. But he affirmed "I can and I will conquer this shameful poltroonery," In the next encounter, when fear be gan to shake him, he shouted out: "Down, traitor
ous flesh!" Then, striking his rowess into his horse" sides he plunged into the thickest of the fight. And sides, afterward his white plume was seent in the battle's van.

## HONOR.

A keen sense of honor is a defence at thirty and a garland of beauty at sixty-and ever and always diadem of glory. To do right for the sake of right and to be true for Truth's sake, this is the perfection
of character. Thus speaks Sir Walter Scott in the of character. financial crisis:-"Now I can sleep," he says, "under the comfortable impression of receiving the thanks of my creditors, and the conscious feeling of discharging my duty as a man of honor and honesty. I see before me a long, tedious, and dark path
but it leads to stainless reputation. If die in the but it leads to stainless reputation. with die in, th achieve my task, I shall have the thanks of all concerned and the approbation of my own conscience."

## conversation.

Talk is only "cheap" when you talk with "cheap" men. Conversation, rigntly used, is one of the great sources of reliable information. Every man is
specialist on his own particular department of specialist on his own particular department of human tion as one of the most important sources of imagery as well as of positive knowledge. "In my education," he once remarked to Charles SSifimer, "'I have found that conversation with the intelligent men I have had the good fortune to meet has done more for me than
books ever did; for I learn more from them in a talk books ever did; for 1 learn more from them in a talk
of half an hour than I could possibly learn from their books. Their minds, in conversation, come into intimate contact with my own mind; and I absorb certain secrets of their power, whatever mav. be its
quality, which I could not have detected in their Works, Converse, converse, converse with living men,
face to face, and mind to mind,-that is one of the best sources of knowledge.'

UP AND AT IT.
When your plan has failed-up and at it-once more. When something has gone wrong-up and at
it again. When all signs fail-up and at it in the morning. When everybody says: "Well, I guess, this is the end of it ali""-then, oh then, up and at it. ing the great scientist, Sir Isaac Newton:-"Sir Isaac Newton appears to have been endowed with an immense amount of the rare quality of patience all through life, to which, no doubt, to a great extent,
he owed his ultimate suceess. The old story is well he owed his ultimate success. kne old story which weres that on one ocasion, having va-
kated his study for a short time, where he had left
cate most valuable manuscripts on the table containing the work and calculations of many years, he returned
to find the papers hopelesly torn into fragments on to find the papers hopelesly torn into fragments on
the floor, having been at the mercy of his favorite little dog during his absence, and in a few minutes the results of the careful consideration and research of years were totally destroyed; but, characteristic of the man, he patiently, though sadly, exclaimed,
©Oh, Diamond, Diamond, you littie know the mischief Oh, Diamond, Diamond, you littie know the mischie?
you have done."

## PURPOSE.

Ever have a purpose. It need not be unchangpurpose. The atmosphere may be clearer to-morrow purp
and you may find it necessary to change your plan, lint drive toward one fixed goal-"'On and forever on" as Bemerom would say. "It is said that Carlyle, on ince into converssation with himoug man, and, fallpurnucr in liffes "I haven't any, inquitired about his, purpore in life. "I haven't any, particular purpose",
vampe tho reply. "Then get one," exclaimed the stern

never lose the features of comfort and durability which have made them the favorite of Canadian women.

The best stores sell them.

The Western Home Monthly.

## The Young Woman and Her Problem.

By Pearl Richmond Hamilton.
NOTICE.
Often girls from rural communities
and girls from the Old Country do not
know where to go when they reach the
city. If any girl, who contemplates
coming to Winnipeg, will write to me in
care of The Western Home Monthly, I
shall be pleased to see that she is met
at the station and taken to a safe en-
vironment. We have made arrangements
with the ladies representing the
Travellers' Aid to meet any young wo-
man who makes this request through
The Western Home Monthly. The wo-
men of the Travellers' Aid wear a badge
of silver metal, the centre of which is
a Maltese cross. The letters, Y.W...A.A.,
are enamelled on the outside circle. If
any young woman who desires help in
this way will write to me, describing
herself and the time she expects to ar-
rive, I will give the description to one
of these women, and she will give special
attention to the stranger. Be sure to
give definite description. One of our
readers wrote me, stating she would be
in on the morning or evening train. She
did not state the road she was coming
on. The costume she described was like
a great many costumes worn at the sta-
tion that day. I spent two half days at
the station, but failed to find her be-
cause of her indefinite description. An-
other wrote me stating definitely by the

A TRIBUTE OF CANADA'S WOMEN TO CANADA'S MEN. The recent heroism and gallantry witnessed in the Titanic disaster proves that we are still living in an age oth chivalry. We shall always have with
us heroic manhood as long as woman retains her femininity. Man fegards himself as the protector of anan, because he recognizes her rights as superior.
While woman remains in her true and While woman remains in her, respects her purest state, mer. It is this love that inspires man with an incentive to be brave and noble and self-sacrificing. Canada's men expect purity and inspiring com-
panionship flom Canada's women, and this high expectation will forge the way to a splendid standard of civilization in our great country, if our women strive
to be the ideal expected by our men. If to be the ideal expected by our men. If
this magnificent ideal of womanhood be set up in every woman's heart and in set up in every woman's heart and in Heaven would be in Canada.
Let every girl who reads this page re-
solve to mould her character with a will solve to mould her character with a will
of iron. What if she does have difficultaes? She needs them. There is often
talent in tatters. "The more difficulties one has to encounter," says Bushnell, "the more significant and the higher in-
spiration the life will be." Every girl spiration the life will be." Every girl
has a divine mission. The secret of Jeanne d' Arc's success was not alone in her decision of character, but in the see-
ing of visions which inspired her to selfing of visions which inspired her to self
confidence - "confidence in her divine confidence - "confidence in her divine
mission." One modern writer says: "This is a dark world to many reople, a
world of fogs, of chills, a world of wet

Winnipeg, May, 1912
Uankets" Nine-tenths of the men meet need encouragement. Let our women, then, cultivate the personality that shall send out from Canadian homes a happy, encouraged, inspired manhood with aspirations so big and
lofty and magnificent that their fine lofty and magnificent that their fine feelings shall create an atmosphere pro-
ductive only of honest laws and moral supremacy.
Since there are not so many women in Western Canada as there are men,

 from anyone." Before the girl had gone
twenty steps she asked the first man she met the way to street.
I have known girls who, at the age of seventeen, have left their country of city life. But they had cultivated of city life. But the power of self-confidence and by a keen sense of observation they found their way without any d:fficulty. Winnipeg is to be congratulated on
the splendid system at the stations for the splendid system at the stations for
directing strangers and taking care of them. The matrons, constables and all connected in an official way are very
courteous and helpful to the strangers courteous and helpful to the strangers
who come and go. I cannot understand who come and go. I careful and confident and keeps her head can lose her way in Winnipeg. It is not safe to ask infor-
mation from strangers and it is not mation from strangers and it is not
necessary with the excellent service netessary with exists at our stations.

THE SEVENTEEN-YEAR-OLD GIRL. One young woman writes me that she is seventeen years of age and her partions of a young man. I wish all par ents of girls of this age would do like and nineteen are having too much social life. They should be spending this important period in the improvement of those qualities that will make them
womanly. As a rule, the young man a girl likes at the age of seventeen is one she would be ashamed to recognize "Less of self and more for others" is spend her teens in cultivating useful ac complishments, she will attract at the aye of twenty-two a young man worthy her. A sensible suitor does not want hargain counter girl. By this I mean largain counter girl. By this I mean
who has spent her teens going
and kinds of young men. In this
than women, a girl need have no fear her improve her mind by reading Le literature and by studying music, domestic science and all other arts that make women attractive. Another gir
writes this to me: "What if your father thought there was no young man good enough for you to keep company with, and if you did keep company with a young mon on the sly and to, he would insult hime?" ${ }^{\text {m }}$ you ough from a very young girl. What would
do? I would obey my father. A gir who entertains a young man "on the Is shows extreme lack of filial love Is it right to give a passing acquain-
tance all the sunshine and personality
of the life that a father and mother have labored for seventeen years to girls have felt just as these Many, many Their lack of experience and judgment in the hearts of their parents. A young man has more respect for a girl who is protected by her parents, than he has for a girl who is free to come and go as she pleases. Diamonds are placed
back of steel bars, while the cheap imitack of steel bars, while the cheap imi
tangles from a cushion on the counter, because the loss is little if it is stolen. Protection places a value on girl. A girl must spend her teens in
self-improvement if she would fill her place in life; for cultivated girls win place in ife; for cultivated girls win
admiration and compel respect. A girl
ho tries to improve herself is creat ing a magnetic atmosphere about her that will bring to her life ample reward for her efforts. I have seen a ather pace the floor and I have watche eventeen-year-old daughter was blast ng her future by accepting the attentions of a certain young mans She fac father and is the happy wife of a noble ather and is the happy wife of a noble
nan to-day-and all because she obeyed her father. Had she married the young man whom she encouraged at seventee he would have been a wrour young girl "Wave

## A Thing That Should Not Be Done

It is an infamous thing to send lads of tender years to the penetentiary, and we hope the minister of justice
will make an investigation into the case of the boy of fourteen who was sentenced to two years imprisonmen in the Portsmouth Penitentiary, where he will come in contact with hardened criminals, and probably have

## A Hamilton Comment on Toronto

 Toronto people promise to utilize an old factorychimney as a monument for the late Edward Hanlon, chimney as a monument for the late Edward Hanlon, tages from the Toronto standpoint, in that it will remind the citizens how they used to burn incense around their acquatic hero and also that their thrift has pre-
vented them from burning much money to perpetuate his memory.-Hamilton Spectator.

The Route to B.C. Fifty Years Ago
How does this read? It is from the Toronto Globe of April 29, 1862: "Ho! for British Columbia. Up-
wards of forty young men will leave Toronto this forenoon by train on the Great Western Railway, en route for British Columbia. They expect to embark on the st prox. for California. - Vancouver World
"Smart" Enough to Stay Away.
That small fraction of society commonly known as the "smart set," has been receiving attention from the in that direction do not usually get to the mark, for the reason that the "set" are "smart" enough to stay away rom the places where they would hear themselves adversely criticized.-Edmonton Bulletin

States in Which Women Vote
In the next Presidential elections in the United States, the women of six States will vote on equal terms with Idaho, Utah, Washington and W yoming. In addition, votes on woman suffrage will be taken in Kansas, Oregon and Wisconsin in November next. This feminine victory has been achieved without the destruction of property and its accompanying disorder. The militant sisters. The violent course seems to be a failure.Montreal Gazette.

## Voters Should Vote Every Time

Hamilton Presbyterians voted on Church Union this week. But only half, of them voted. Isn't it
curious? In civic elections, half the electors stay away from the polls. In politics two-thirds vote. Evidently be for worse? More money is spent in political ampaigns. Yet even two-thirds is nearly one-third less than ought to be the case. Moral: Every decent about which he has a vote, and teaching his sons to do the same.-Ottawa Journal.

## When the Canal is Open.

The opening of the Panama Canal will reduce the about 6,200 miles, and from Montreal to Sydney, Australia, 2,700 miles. Many of the trade routes of the world will be changed out of all recognition by the use of the canal. Few and far between will be the vessels
that will "round the Horn" a decade hence. that will
Globe.

## Legislating at Midnight, and Later.

Dr. Clark, of Red Deer, thinks that the work of Parliament should be done in the daytime instead of in the "wee sma" hours of the morning, and the Standard is inclined to agree with him. Why Parliament should
transact its business while other people are in bed, and every other business in the country is closed up, it is difficult to see. Those night sessions or early morning sessions are conducive neither to good business nor to good health. Many a member's health has suffered as a result of the late hours kept by Parliament.
-Hamilton Herald.

## The Needs of a Parcels Post.

The parcel post, it must be recognized, is not a mere shopping business. It is very largely used as the truest manner of keeping up friendship. Witness, for instance how full the mail bags are at Christmas. Had we reasonable rates, packages would be sent in great
numbers throughout the year, attesting thought and numbers throughout the year, attesting thought and
friendship. If established in Canada, it would be a very great help to break down the almost insurmountable barriers that divide our population into sections.
Canada and the United States are the only Canada and the United States are the only two civilized
countries in the world that maintain the rate of sixteen cents a pound. If Canada does not hurry she will have the proud distinction of calling herself the only country that refuses to adopt modern postal regulations.-
Montreal Witness.

## A Pugnacious Senator

Hon. William Miller, who died in Ottawa recently, Senator of the Dominion, but also the most pugnacious member of the Red Chamber. It was Senator Miller who once startled the Upper House by referring to his colleague, William Ross, of Halifax, as "a toothless old
viper" to which the stripling of eighty-seven summers retorted that he would race Senator Miller down the "main walk of Parliament Hill. The race never came
off, but one of the pathetic scenes in the funeral cereoff, but one of the pathetic scenes in the funeral care-
monies of the deceased statesman was the kindly monies of the deceased statesman was the kindly old
gentleman from Halifax who has been genteman from Halifax, who has been a prominent
figure in the public life of Canada since 1859, tottering behind the hearse which bore the body of his former
political adversary to quiet Beechwood.-Toronto Star.

## WARWAGEDONOUT-OF-DATE KITCHENS!

## We Are Compelled to Start a 2nd ${ }^{6}$ Hoosier Club

Only 500 Women Can Join the 2nd Hoosier Club and Get This Famous Cabinet for $\$ 1$

A Country of "Model Kitchens"
All over the West women who own Hoosiers are delighted with their kitchens. Praises are endless.
"I wouldn't be without my Hoosier for $\$ 100$."
"My automatic servant."
"My automatic servant." It saves miles of steps for tired feet."
"It saved me at least $\$ 15.00$ last year in supplies."
"It puts everything in my kitchen at fingers' ends."
"It puts everything in my kitchen at fingers ends.
Out of 450,000 Hoosiers sold, you couldn't buy a second-hand Hoosier Cabinet for love or money anywhere in all America.

What you get with the Hoosier
Without extra cost you get with the Hoosier a sanitary, metal flour bin, capacity 65 pounds; "clock-face" patented want list; roomy cupboard for
cereals, dishes, etc.; metal sugar bin, dustproof; crystal glass air-tight spice jars ; glass air-tight tea and coffee jars; handy utensil hooks; sanitary rolling pin rack; improved metal bread and cake box; metal cake tray; compartment cutlery drawer: linen drawer; large pot and kettle cupboard, pan racks, sliding shelf; convenient cutting board; patented aluminum covered table, 40 x 39 incheslarger, more convenient than a kitchen table; copper plated adjustable door fasteners; ball-bearing, high grade pressed steel casters. Finish is golden oak, water and steam-proof. 3 size-height, 5 feet 8 inches; width, 3 feet 4 inches; depth of lower section, 2 feet 4 inches.

The Club Plan in Detail
ertain number of Hoosier Cabinets have been sent to each of the 3,000

Hoosier agents to be sold on the famous Hoosier Club Plan. Membership in these clubs is limited by the number of cabinets sent. Each member admitted pays $\$ 1.00$ membership fee; balance in $\$ 1.00$ weekly dues for a few weeks. The cabinet is delivered at once.
he cabinet is deliver You
The Hoosier Club Plan differs entirely from the installment plan, which often is linked with unknown goods at high prices. The Hoosier Cabinet cost is lowered by great volume of Hoosier sales. To insure you full benefit of this cost saving the low price of the Hoosier Cabinet is fixed at the factory.

You enjoy the liberal credit of the club plan, without paying one penny more than this low fixed price. Only 500 Women Can Join
Thousands of women all over America buy Hoosier Cabinets every month. With this great club offer the month. With this great club offer the demand doubles. The number of Hooslimited usually to 100 , but we have secured permission to extend the memsecure por 500 Only one woman in bership to 500 . Only five who wanted Hoosier Cabinets could get one in some towns where this plan Hoosier Cabinet should enter names early

The Young Women and Her Problem.
(Continued from Page 43.) I WILL. A girl may be anything in these days It depends entirely upon the girl what
stan she shall take in life. I believe a girl can be what she wants to be-
come if she have an iron will. Let come if she have an iron will. Let
every girl see an ideal and then climb every girl see an ideal and then climb
to it earnestly and honestly. Then she will accomplish something in the end.
"Louisa M. Alcott earned two hundred thousand dollars by her pen. Yet, when shather handed her a manuscript one day father had been rejected by Mr. Fields, editor of the Atlantic, with the mes-
sage: 'Tell Louisa to stick to her teachsage: 'Tell Louisa to stick to her teaching; she can never succeed as a writer.'
'Tell him I will succeed as a writer, and "ell him I will succeed as a day Atlantic,'
some day shall for the
she exclaimed." Not long after she she exclaimed." Not long after she
wrote for the Atlantic a poem that Longfellow ttributed to Emerson. And in her diary: "Twenty years
she wrote
and ago I resolved to make the family independent if I could. At forty, that is
done. Debts all paid, even the outlawed done. Debts all paid, even the outh com-
ones, and we have enough to be comfortable."

## THE GIRL AT HOME.

Why is the girl who remains at home and makes life so comfortable for the family often little appreciated at home to my desk this month and the above one of them. This is a serious problem and one that concerns an older
sister in homes of every country. She slaves and. sacrifices for younger mem-
bers of the family and when they are bers of the family and when they are
grown they consider her old-fashioned, while strangers regard her as stupid and uninteresting. In many cases when she is too old to work others make her feel
that she is a burden. There is such a thing as a time when patience ceases to be a virtue, and I believe every young future. Besides, there is such a thing as sacrificing too much for the good of
younger members of the family. I know older sisters who have done so much for their younger sisters that they made them selfish.
Sisters of great men have proven that it is not necessary for the girl who re-
mains at home to become a slave. Caroline Herchel, the sister of the great astronomer, became a great student of
the heavens and her services in mathethe heavens and her services in mathematical calculations were indispensable
to her brother. She habitually worked with him till daybreak. She not only
read his clocks and noted down his obread his clocks and noted down his ob-
servations, but executed the whole of servations, but executed the whole of
the extensive calculations, involved. She also discovered comets and her name has become almost as famous as that of her
brother. Dorothy Wordsworth and brother. Dorothy Wordsworth and
Mary Lamb have likewise proven that Mary Lamb have likewise proven that
sisters at home may cultivate the art sisters at home may cultivate the art they not only encourage their brothers
to fame, but they, too, become immortal by improving themselves while perform-
ing the duties of sisterly devotion. It is not necessary for the sister at
home to become narrow and dull and
slavish. On the other hand, she should slavish. On the other hand, she should
think of her own possibilties. She may remain at home and have splendid opportumity for self-improvement as well.
A woman who is companionable will be
appreciated by those in the homes and by strangers. Lofty cnaracter in wo-
manhood transifures a whole communi-
ty ty. Little children and strong men
alike love the charm of a companionable THE COUNTRY GIRL AND THE HIRED MAN.
Girls in the country have their temp-
tations as well as those in the cit $\mathbf{y}$. For

## Good Taste in Home Decoration

The Kitchen Planned, Decorated and Equipped for Profit, Pleasure, Health and Time-Saving. By Edith Charlt on-Salishurr, Professor of Domestic

In planning the average home we often find that the kitchen has been given
too little or too much importance the arrangement of the rooms. Some times it is tucked away in the darkest corner of the house, windows looking
out on unsightly walls, fences, woodpiles or barnyards; practically no ven-
tilation or light, and with no thought tilation or light, and with no thought given to convenience or labor-saving. moderate-priced house in town or city,
and is often the home of a woman who and is often the home of a woman who
finds more pleasure in public and social affairs than in the private life of her
family. Again, on the other hand, we find that the kitchen has been made the chief part of the home. It is not only the work-room, but it is living room, dining room, laundry and lava-
tory. This style of kitchen is generally found in the country, in homes where the family still clings to the habits of the pioneers who were forced to live and
work and have their pleasures entirely work and have their pleasures entirely in one room. Old years will come and go before such things as the best arrangement and use of rooms in the country home are considered from a viewpoint of con-
venience and pleasure.
Still, enough improvement and sufficient pro-gress each year to make us feel that
any effort and any information upon any effort and any information upon
the subject is worth while I do not wholly agree with the per- want a good view from my kitchen

Every thing close at hand in the small orderly kitchen.
son who sars "the kitchen is the heart had a mental picture of what she saw of the home", because I do not think the when she looked out of the room in work of the home is the chief reason which she spent several hours every for its existence. But it has a vastly
important since in it and from it matcrial life things which have to do with our physical well being. Everyone knows that smoothly wheels of the machinery run jarring and friction in all parts of the organization.

Pleasant Outlook from the Window. There is a difference of opinion among housekcepers as to what is meant by an ideal kitchen. Some want a large one With implements of work pushed out of sight; others, knowing the value of sav-
ing energy and steps, ask that the ing energy and steps, ask that the
kitchen occupy as little spacs as possible. For a few months I lived in a house where the kitchen was so smal and compact that two persons could not 7 hy 9 floor space wase occupied on one side hy a gas range and a kitchen calinnt. on the other by a small table and sink, a chair by the table at one
when she looked out of the room in day. One saw the bare brick wall of the
adjacent' building; another saw a neighadjacent' building; another saw a neigh-
bor's unsightly back yard; still another bor's unsightly back yarod, sile and barnyard beyond. Then these pictures were replaced by another that the speaker
was describing in a few terse sentences was describing in a few terse sentences
"I want to see something pleasant from my kitchen window-a tree or a bit of green below a blue sky or even
a bed of pansies to smile at me when I a bed of pansies to smile at me when
look down upon them." Other good points were suggested, but this woman seemed to have struck the keynote in
the innermost thought of everyone the innermost thought of everyone something pleasant-a bit of beauty to
take the bitter edge off hard work is an essential in the ideal kitchen. One cannot always change the location of the kitchen nor have a chance to decide on
which side of the house it shall be, but which side of the house it shall be, but
whenever possible to have a north and west exposure, as this gives a cool room in the forenoon. when most of the work has to be done. There should be at least two windows to insure plenty of light
and satisfactory ventilation, points very

## Liquor and Tobacce Habits

SILK FOR FANCY WORK:

 do you want a good Position as a A Travelilig
Salesman or Saleswoman Salesman or saleswoman

often neglected in kitchen planning. Sanitary Appointments are Desirable. Another esential of the ideal kitchen is that all furnishings and appointments
s.lould be washable-a perfectly sanitary room from floor to eeiling. Also
there should be color - that substance there shound be color -
which gives atmosphere and oharacter which gives atmosphere ano humble.
to every room no matter how hum
To mind the most suitable colors To my mind the most suitabe col and
for kitchen decoration are green and white, Dutch blue and white, brown, and if the room will have the effect of bring-
low, which sushine. Do not be contented
ing in sump ing in sumshine. Do not be contented
any longer than neeessary with plain
white walls even if they are considered Whit walls, even white surface is no
sanitary. The
easier to keep clean than the colored, sanitary. kee clean than the colored,
easier to keep
and is vastly more monotonous and may be the cause of a genuis.
tent with one's surroundings.
The walls must be covered with something wasiabie and sometiag non-ab
sorbent; these two essentials are best sonbiened by paint or oil cloth. Paint,
achien it is stippled to take off the glossy
when surface, is really as durable, inexpensive
and satisfactory as any finish, not ex and satisfactory as any finish, not ex
cepting the tile, which is too expensive to be within the reach of average people. There is a washable wall paper some
times recommended for kitchens and times recommended for kitchens an bathrooms which will give fairly good
service for a year or two, but it is no seav durable as paint. of course, paint
as be injured by washing, if it is not
can can be injured by washing, if it is no carefully done. No soap should be used
as the alkali softens the paint and de stroys the color. A little keroseene in stroys the cior.
the water will reme the smoke and
well as soap and with grease quite as well as soap and with
less injury to the paint.

Is this a familiar viee from your kitchen
Wall Coverings for Other Rooms.
The mention of wall coverings brings to mind that the choice of materials for this purpose is wide and varied, de-
pending on the style and character of pending on the style and character of
the room to be decorated. Just at this point it may be we. 1 to give a hint or two on what materials are most desirable for certain rooms and why.
For kitchen and bathroom the wisest
choice lies, as I have said, between choice lies, as I have said, between paint, tinting or oil cloth, the last be-
ing the most expensive at first cost,
hut lasting many years if properly put on. By the way, I I have been told that
ont a tablespoonful of good cooking molas-
ses added to a gallon of paste will inses added to a gallon of $p$
prove its sticking qualities.
For bedrooms nothing is prettier and more satisfactory than a good paper in
delicate colors and small simple designs, and for other downstairs rooms-dining room, living room, hall and the den-a
rich, comfortalle, extremely satisfying
feeling is oltained if the walls of these rooms are decorated, part way, at least, with burlap. The panel effect extend-
ing from floor base to plate rail or dado, ing from floor base to plate rail or dado,
has no better finish than burlap. of the darkest sliade in the wall overing. just
a tone lighter than the floor covering, and a little darker than draperies and
dado. The burlap should be carefully put on, but the latest advance in its for it is now made so careflly and per-
fectly that it is both dut proof :and uncovering because its wemplendia walities are excellent.

The Woodwork and Floors
On account of gellow pine having so much resin in its composition it is a dow casings in kitchen'bathroom and aundry, because it will not absorb ooring . It is often used; too, fon n kitchens, though being soft, does not wear long in floors that are much used, for any floor from the point of durability is hard maple, though many think, and rightly, that some kind of covering on the xitchen floor is easier for the
feet. Taking wearing qualities and feet. Taking wearing qualities and is nothing better for this purpose than ork linoleum, which, expensive to pur chase, will wear a lifetime.

Be Sure to Have a Good Range.
The first consideration in equipping any kiteneer is the cook stove or range, and no matter what kind of fuel is used,
this should certainly be first-class Wherever else economy must be pracised it should not be on this most necessary article; still, a big outlay of factory article, and frequently we find the cast-iron stove lavishly decorated ofth leaves and roses, nickel parts fult
of rough places, holes and crevices to catch everything that boils over, which cost a lot of money, is anything but a good baker. The most economical range is the medium-sized steel range whic
costs from $\$ 50$ to $\$ 75$. With care suc a range will last about 25 years, will need little or no repairs in that time and is a good investment, quite as es-
sential in the business of home-making as the binder or cream separator on the farm or the safe in the business man's office. Any tool or appliance which saves the housekeeper daily annoyanc back is worth all it costs. Increased ef ficiency is demanded nowadays in ever piece of machinery. Why not in kitche appliances

## Some Helpful Little Things

Whe have been asked frequently to sug get have been asked frequently to sug.
sink, work-table, and oxclusive of range
siner large fur niture, which I consider a really pro fitable investment in kitchen equipment. The question is an interesting one,
though the list would necessarily depend somewhat upon whether one were equipping a kitchen in a town or country house. There are certain utensils like dish-pan, tea-kettle, frying-pan and
ordinary kettles and sauce-pans, also baking-pans and dishes, kneading board, rolling pin, etc., which I shall not in clude in the list, because very few wo men would attempt to keep house with
out them. Though I knew a housewife, prominent in social circles in the East, who had been keeping house 20 years, and the only rolling pin she had ever had was a large round bottle, and
her only kneading board was a table
The first utensil I would include in my list would be a double boiler, or cereal cooker, as it is sometimes called.
This should be, but often is not, included in the ordinary granite or enamel utensils. It is almost a necessity in the proper making of custards, cream soups, which eggs and milk are used. Such an utensil can be improvised by putting one sauce-pan into a larger one containing boiling water; but this makeshift should not be resorted to, except when
it is necessary to practice economy. The second item in the list for the Kitchen in a small town or country
home would be a gasoline or coal oil home would be a gasoline or coal, oil
stove to use in hot weather and in preparing a simple meal at any time. The following articles I consider useful apany one of them means spending more
time time over routine tasks than is neces-
sary, and is often one of the causes of sary, and is often one of the causes of
uncertain success in than half of them can be bought for a
Bread mixer.

## Winnipeg, May, 1912.

The Western Home Monthly.

Long handled dust-pan
Good dized tray. Mood sized tray. Doyer egg beater.
Pair sharp pointed seissors.
Shart knives for meat and vegetables.
Bracket lamp or gas jet near the
range.
Most of these things will seem unimportant until one who has learned their Value is obliged to do without them,
then their importance is unquestioned then their importance is unquestioned.
For instance, the high stool, which costs less than a dollar, makes the most satisfactory seat when one is working at the sink. If a meal is to be prepared after dark, the bracket
to the wall near the stove soon makes to the wall near the stove soon makes
its usefulness apparent, and the pair of share scissors makes cutting dried fruit and a dozen other jobs much pleasanter. The long handled dust-pan requires to be used only onee to prove its worth;
and the tray makes carrying dishes to and from the dining table much easier.
The sink, the work-table, the best The sink, the work-table, the best kind of kitchen ware, the cost of an
average outfit and other items have average outhit and or her wems
their own place in the well-equipped kitchen, and these will be considered in
an early issue of The Western Home an , early
Monthly.

## The Devil-Bird.

## By W. R. Gilbert, Calgary

Most people who have visited the island of ceylon and penetrated into its this bird. This awe-inspiring sound resembles nothing so much as the seream
of a human being undergoing the most of a h human being undergoing the most
terrible torture. Naturalists have identified it with the Syrnium indrani-a brown wood owl found in Hindostan. But
the devil-bird, or "ulama," as the Sinhathe devilibird, or "ulama," as the Sinha-
lese acal itis is an illusive creature, and no Lese call it, is an illusive creature, and no
one has apparently had the good fortune
to kill to kill or catch a specimen. The Singalese, naturally a superstitious race, re-
gard the cry of this
bird with horror; they believe that its scream heard
at night presages the most dire mis at night presages the most dire mis-
fortune, and they are in the habit of offering sacrifices to avert the approach-
ing disaster. The superstition is probing disaster. The superstition is is prob-
ably of very great antiquity; ably of very great antiquity; but
Robert Knox, who was a prisoner in Ceylon for twenty years, about the middile of the seventeenth century, gives an interesting account of it, although it
will be seen that wilt be sen that in common with the
natives he believed the cry proceded natives he believed the cry proceded
from the devil himself. "This for cer-
toin tain I can affirm," he writes, "that often-
times the devil doth cry with audible times the devil doth cry with audible
voice in the night 'tis voice in the night, 'tis very shrill, al-
most like the barking of a dog; this I have often heard myself. Only this observation the inhabitants of the land have made of this voice, and I have made
it also, that either just before or very it also, that either just before or very
suddenly after this voice, always the king cuts off people. To, believe that this is the voice of the devil these reasons urge because there is no creature
known to the inhabitants that cries like known to the inhabitants that cries like
it, and because it will on a sudden depart from one place and make a noise in another quicker than any fowl can fly, and because the very dogs will tremble
and shake when they hear it, and 'tis and shake when they hear it, and 'tis
so accounted by all the people," so accounted by all the people."
Dr. Davy, who was in Ceylon in the early yearis, of the last century, writes
a description of the cry as follows: "A loud cry and hideous scream, conveying
the idea the idea of extreme distress....... the those of the screech-owl, to be of evil omen, and a prelude to death and mis-
fortune. The bird-if it be a bird-is
 wot a therable account of it." to be influctornce was evidently unwilling the prevailing super-
stition, stition, and yet $I$ cannot help thinking
that hap that he a good deal of doubt about
the ori, of the screams. A ${ }^{n} \quad \begin{gathered}\text { recent acceams. } \\ \text { acount, however, is }\end{gathered}$ Civil who affrmed the Ceylon $\substack{\text { otel } \\ \text { Where } \\ \text { behir: }}$
the cry while at Kurunegala.

elusi.
dinary note," he writes "is the magnif-
cent clear shout like that of a human being, and which can be heard at a great distance, and has a fine effect in the
silence of the closing night. But the sounds which have earned for it its bad name, and which have heard but once
to perfection, are indescribable, the most appalling that can be imagined, and
scarcely to be heard without shuddering scarcely to be heard without shuddering.
I can only compare it to a boy in tor-
ture, whose seream ture, whores sceams are being stopped by
being strangled. I have offered rewards for a specimen, but without suceess." It
is in ter is interesting, to note that Mr. Mitford
differed from other naturalists inasm differed from other naturalists, inasmuch as he hel- that the bird was a podargus.
or night-hawk. Ito is said never to approach human dwellings, and its sudden and terrible screams might well convey
to the traveller in a lonely jungle the

One or two English women who have One or two Enghish women who
come out to write up Canada have
struck with the need of nursing struck with the need of nursing, English $\quad$ hastening home o have old country nurses $\begin{array}{ll}\text { English } & \begin{array}{l}\text { urged old country nurses, } \\ \text { Writers. } \\ \text { especially those with a }\end{array} \\ \text { training in midwifery, }\end{array}$ to come to the Canadian West to take to come to the Canadian West to take
up this work; with the result that a large number of these nurses who have come out, have not been able to secure employment that would afford them a living, and have come back into the
cities to be a burden to themselves and everybody else. Anyone who is familiar everybody else. Anyone who in the country districts knows that where the need for nursing and help is the greatest, the ability to
pay for it is often the smallest, and pay for it is often the smallest, and
that, while many farmers and farmers wives could pay a certain amount, they could not possibly pay sufficient to war rant nurses going and settling in any one district. just how this matter could be worke out, but the need is so great and the outfering entailed by the want of nursing so serious, that it certainly merits
the utmost consideration by everyone the utmost consideration by everyon
who has anything to do with immigra who has anything, to do with immigra
tion and immigration matters. Mr $\left\lvert\, \begin{aligned} & \text { tion and immigration matters. Mr. } \\ & \text { Hawkes' idea that it was mueh cheaper }\end{aligned}\right.$

Rustic Bridge on White Mud River Gladstone, Man
was in Winnipeg for a few days, he was to look after the young mothers and waited upon by a few of the newspaper young children on the ground than to wo writing of women's pages, and also the recommendation of being a commonby a member of the Women's Christian Temperance Union; and this matter was very thoroughly gone into. Mr. Hawkes
very kindly permitted the very kindly permicted the women to
read the suggestions contained in his report, though just what they were cannot be made known at the present time, as, so far, the report has not been of
ficially brought before Parliament. In fiscussing the matter, however, Mr. Hawkes expressed the opinion that it
would be a material help if there could would be a material help if there could
be secured definite information as to the be secured defimite information as to the
need in the matter of nursing in the
more outlying country districts. Mr. Hawkes laid emphasis on the fact, and indeed the women present very heartily agreed with him, that the nurses that were required experience, a certain amount of training, and a willinguess to do all that was necessary in a home during the
time that the mother might be laid paper women for a very long the newsthe solution of this diffculty must be either through the Dominion Corernment making some appropriation wr the
support of nurses in the country support of nurses in the rominy,
ting them draw the balance from patients as are able to pry, or eh. hat
this work should be tain up municipalitiep and a gramtee wime
the Dominion.

The Western Home Monthiy.

The Manitoba Legislature has con- $\begin{aligned} & \text { and practice of law if they wished to } \\ & \text { cluded its sittings and gone home, and } \\ & \text { do so. Miss Sissons, of Portage la }\end{aligned}$ cluded its sittings and gone home, and Acts for the dition of women in reActs for gard to protection as to of Women. property. The bill which which provided that where a woman was left worse off under her husband's will than she would have been had he made no will, and which provided that, where a anxious to remain on the farm, she should be permitted to do so and should give an accounting for the managing of same.
The clauses providing for the relief of women who were of children and less money than they would have received had their husbands died intestate, were thro n out com-
pletely, the objection of Mr. Roblin and pletely, the objection of Mr. Robin and
ais colleagues being that it was interferais colleagues be'ng that it wan's liberty and would open do so. Miss Sissons, of Portage la
Prairie, will, I believe, be the first Prairie, will, I believe, be the first
woman student in : Eanitoba. There
was not only no was not only no attempt made to provide dower protection for women, but
there was nothing done in the way there was nothing done in the way of a substitute for the same, and the wo-
men of Manitoba are still in the posimen of Manitoba are still in the posi-
tion that, after toiling for many years to help to build up a home, they may find themselves absolutely homeless any time that their husbands choose to sell
out. It is rather significant that, during the very week in which this legislation for the protection of women should have been passed, two very striking instances of the need of it were brought to
the attention of the women of Winnipeg. One of these was the case of a young woman with three little children. She
and her husband had purchased a and her husband had purchased a small
house in one of the suburbs of Winnihouse in one of the suburbs of Winni-
peg, and she had worked very hard and peg, and she had worked very hard and
had been extremely careful in order to

Preparing land for cropat Gladstone, Man.
the door for having a man's will set |help to pay for this property. They had aside wherever his wife dir not happen succeeded in paying for it, and it was to be satisfied with it. There was really valued at $\$ 1,800$. The husband and fano argument in the matter. SaskatcheGovernment had made up its mind that it would not afford this relief to women, and as women are not voters and of
very little account in the eyes of very little account in the eyes of
politicians, why, they simply threw it finally passed provides that in the case of the death intestate of a farmer, whose widow desires to carry on the
farm business of her late husband for the benefit of herself and her infant children, with capital belonging to her-
self and them, the administrator may, at his discretion, permit her to do so and shall not be $r$ 'sponsible for losses in connection with such business which is so carried on by the widow, but such
widow shall in due course make good to such children and their representadays, and apparently there was nothing in his absence to arouse his wife's suspicions; but one day she received notice to vacate the property, as it had been
sold. She found, upon enquiry, that sold husband had sold the property for $\$ 900$, cash, and had left the city, deserting her with three children, and leaving hardly a dollar in the house. He
had a perfect right to sell the property. had a perfect right to sell the property.
There was no reason that he should not, according to the law. Of course, it may be said that he could have been proceeded against for forsaking his wife and
children, but a penniless woman with children, but a penniless woman with
three little children to provide for is not in a very good position to follow up a runaway husband.
The other case, though perhaps in some ways not so pathetic, was equally
notorious. This time the woman had seven children, though some of them

Harvesting scene on A. Gillespies farm Glacistone Man
to the administrator for the profits of partially grown-up. She received a the business, less a reasonable allow-
ance for her services in carrying on such

## Woman and the Home.

The Sewing Room. An experienced needlewoman who knows how to use the various numbers
of needles and cotton to the best adof needless hand sewing gives this list: Use a number nine needie for seventy or eighty cotton, in hemming and tucking; a number eight needle, with fifty or six-
ty cotton, for plain stitching, overhandty cotton, for plain stitching, overhand-
ing and overcasting; a number seven
needle, with forty or fifty threed, for needle, with forty or fifty thread, for buttonholes; and a number seven or
eight needle, with thirty-six and forty eight needle, with thir
thread, for gathering.
It is well worth remembering that It is well worth remembering that sheer material, it is well to reinforce the material by adding
terial to each hem.
Easy way to mend a hole in an
umbrella. Stick on very firmly courtumbrella. Stick on very firmly courtplaster inside the umbrella.
not so much seen as a darn.

If a button on a coat is missing and cannot be replaced; buy new buttons, as ndthing mars a garment more and
makes it look old than mismated butmakes
When mothers are making their boys pants if they will put a piece of the same material on the knees between the lining and the outside it will be ready
when repairs are to be made. It will be sure to be needed.
Using a warm iron when cutting out
clothing will do away with clothing will do away with pins and weights on tissue-paper patterns. Lay
the pattern on the material and press it lightly with a warm iron. The pattern will cling to the cloth.
Instead of basting long seams use wire fasteners and avoid unnecessary work. These fasteners, which are like
little clips, come in boxes and are used by business men to hold papers to-
gether. A few of them placed along a seam will nold the edges together while they are stitched on the machine. Keep
a box in the work-basket for such uses.
When sewing sleeves in a waist this is a good rule to take for a guide: Measure
crease the armholes at this point, and crease the armholes at this point, and
the spot exactly opposite will be the
place to put the under-arm of the place to put the under-arm
sleeve.

## Nursery.

To save a little child from slipping When he is having his bath in a porceowel on the bottom of the tub before turning on the water.
When children are using paste let them have an old magazine to work on.
As soon as a leaf is soiled it may be torn out and consigned to the wastebasket, and a clean one will be ready for them. This saves a table, which otherwise would be much smeared by
the paste.

An easy way to amuse children on a rainy day, or if they are convalescing,
is to get a piece of heavy cardboard is to get a piece of heavy cardboard
about a yard square and ma $k$ it off in streets, blocks, parks, tct., for a minia-
ture city. Let the children name the streets, and write the names on the cardooard. Cut from old magazines pictures of houses, stores, churches,
schools, etc., and paste them on the
margins margins, of the streets. them on the the the
buildings, stand uprigh paste stiff paper on the back of each one. Add
more houses as the "city" more houses as the "city" grows. Help, baby to walk.
kitchen chair with back Take an old
Sawed off.
Screm into four legs four castors. The Scren into four legs four castors. The

is unjrining how quick he will think
he can

To keep a child in bed and prevent him from crawling up on the pillow and children do, try the following plan:Sew two loops of tape to the middle of
the nightgown hem, one in front, the the nightgown hem, one in front, the
other in back; then pass a long piece of tape around the foot of the crib, bringing the ends up to tie through the loops on the nightgown when the child is plac-
ed in bed. In this way the child is kept in the same place all night, though still free to turn from side to side.

When there is a nursery it is a good plan to have the door made in two parts
a Dutch door-so that the lower part may be shut and fastened and the upper one left open. Any one outside may see
and hear all that is going on, and the and hear all that is going on, and the
children, if little, will be safe inside. If you do not wish to have the regular door cut in two, a half-door may be made and put on the same door-frame.

## Household.

Blankets are heavy and hard to handle, but they can be washed with
comparative ease, and come out soft comparative ease, and come out soft
and white. and white.
One pound of white soap, shaved;
four or five large spoonfuls of borax or five large spoonfuls of powdered
borail in two gallons of water until dissolved. Pour into a large tub, fill two-thirds full of cold rain water, put in three single blankets, and let soak over night. Be sure and
covered with water.
Next morning lift up and down, pressing and working them, but do not rub, as rubbbing and wringing hardens woollens. Shake them through four or
five rinsing waters, or enough to remove five rinsing waters, or enough to remove
all traces of soap. Squeeze out water ald traces of soap. Squeeze out water
necessary to pass them from one tub to the other; then without wringing, lift carefully from last water, hang on line, throw over them a liberal supply of
water, and let them drip dry. They water, and let them drip dry. They
will dry much more quickly than one would suppose. Dress skirts and trousers may be washed suictessfully in same manner, hung by waistband to line; let dry thoroughly, then sponge and press.
Blankets that have been hardened by poor washing can be softened and made whiter if washed in this way. If hard water is used more soap and borax will
be required. be required.

## Something to Remember,

There is an exquisite charm about a neatly dressed woman. She does not fall on her shoulders. Her gloves are not ripped at the seams, nor are any
buttons missing from her boots. Her buttons missing from her boots. Her
veil does not reveal a hole over her chin, veil does not reveal a hole over her chin,
nor does the binding of her skitt show ragged in places. Not many women ragow their tidiness in these details, but
the well-groomed woman considers that the well-groomed woman considers that
neglect in those little things is full of shame to womankind. Note the well-
dressed, tailor-built woman. Her cloth gown fits her without a crease and there is neither speck nor spot on
it. Her linen collar and cuffs are snowy it. Her linen collar and cuffs are snowy
white, and remain properly fixed in their white, and remain properly fixed in their
places. Her gloves do not wrinkle, but
button places. Her gloves ao her wrists, her
button smoothly over heind
shoes are dainty and polished. Her shoes are dainty and polished. Her
bonnet or hat is pinned on straight, and bonnet or hat is pinned on straight, and
her hair is neatness itself. She is the picture of delicate finish and wholesome order. Would that we
across her somewhat oftener.

## Fishing on Dry Land

could not get away. More fish were
added from time to time to the collection, but the play was reserved for rainy days only. Other mothers heard about the game and when the showers fell
there was a general fishing time on dry there
land.

The Servant-Girl Problem.
Is there any other cause of worr against which complaint is more universally directed than the difficulty of
securing competent female help for securing competent female help for the
home? In the small town and on the farm the cry is that the girls prefer the cities; and in the cities the lament is bitter because working girls prefer shop
and factory to the employment offered and factory to the employment offered
$\mathrm{b}_{\mathrm{y}}$ the home. Statistics prove that the grievances of both the country and the city housewife rest on a sure basis. In 1870 there were $1,836,288$ women work
ing outside of homes; in 1900 though ing outside of homes; in 1900 though
our populatior had only doubled this our populatior had only doubled this
number had almost tripled, rising to 5 ,319,397.
Beyond dispute the miraculous growth of the factory system is directly re-
sponsible for this momentous change in our domestic economy. The question
still remains, however, as to why wostill remains, however, as to why wo-
men so widely abandon the tasks of the men so widely abandon the tasks of the
household for work in the factories. Certain students of sciology find the answer in the statement that the factory
attracts through its readiness to adopt attracts through its readiness to adopt
every mechanical improvement that will every mechanical improvement that will minimize work, while the household re-
pels through its stubborn refusal to adjust itself to changed conditions. In proof of this statement they point to the
thousands of devices which invented to reduce the physical drud-

numerous labor-saving contrivances numerous labor-saving contrivances? trivances are found lacking in rural and urban homes that have met without water, gas, steam of installing running vater, gas, steam heat, and what not.
No; the fundamental trouble lies in the innate conservatism of woman and her proneness to believe herself incapable of Bandling the most simple machinery But, happily, thanks to the scarcity of
maids on the one hand and the bro education of women on the other, both this conservatism and this other, both distrust are tending to disappear. The millions of dollars spent annually by enheir various mechanical adjuncts to easy housekeeping point to a turn of the ning to drift ning to drift. It is in the readjustment
of the modern household to modern re quirements and inventions that we shall robably find the solution of the vexaous servant-girl problem.

Arousing Interest in the Children.
Farm work made interesting and dig the home is being anion of the school and ical way in a little school district in estern Oregon. The teacher conceived duties on the farm and allowing a speci fied amount of time for each. He group. ed the children according to age and
grade, and persuaded the farm grade, and persuaded the farmers to ofing the highest number of hours of work
the during the school term. In addition every time a pupil earns seven hours he is entitled to a holiday, but not more
than one each month. Milking cows feeding horses, starting the morning fires, getting breakfast, washing dishes, are some of the duties mentioned in the list which the teacher has prepared. The by one of his parents stating what he has done, and the teacher gives him credit for the proper amount of time. that it is is attracting the notice of the leading educators of Oregon. On January sixth, the state superintendent of schools, the assistant superin + endent and
sixteen of the count tended a parents' meeting held in this district to learn at first hand the details of the plan, and to try to find out whether it was really practical. After the teacher, Mr. A. I. O'Reilley, had exhome work, and answered many questions as to how it affected the work of the school, the parents were called upon and were questioned in every way by
the superintendents. One father said: "My children have always obeyed me and would do whatever work or chores I told them to do, but they never seemed to take any special interest in such work.
Their reading at school seemed to give them an idea that town life is more attractive, and we have felt that they would not care to stay on the farm. I know how to make the but I did not ng for them. Since the teacher has introduced this little scheme of giving pon doing all the my children insist elps marts the fire in the morning and time. His sister chores until breakfastwhile the sister prepares the breakfast, ready." mother rests until the meal is
"Yes," the mother laughingly broke
in, "I don't have to work at all any

able in each one. Every possible objec-
tion was urged by the superintendents $\begin{aligned} & \text { Duke of Connaught was usually address- } \\ & \text { ed at in the home circle, a familiar }\end{aligned}$ to see whether there the superintendents ed as "Pat" in the home circle, a familiar did not appear on the surface, but none could be discovered. The records of the school and the testimony of all present new interest in their school work. The secret of the whole plan is that the teacher has made practical use of
his pedagogic training and has shown his pedagogic training and has shown
the parents how to make farm life more ttractive He has brought the more the school into close personal relations with the life of the home. These little oys and girls have learned that they can make articles, grow products, and that will be recognized in the commercial world; for these are the things that the various parents say they are poing to let their children do. The district were cash, but now that interest has been aroused, blooded poultry, and other high-class stock and choice fruit The sixteen county prizes.

British Columbia River Scene.
different counties hamd are telling to the teachers and the parents the story of what is being done in the little school
district of Spring Valley. It is not too much to say that the leaven at work in this valley will give a new impetus and change the character of the agricultu
work of the whole state of Oregon.

## Royal Nicknames.

King George is still "Georgie" in the privileged family circle, just as he was when he wrote his home letters in his cabin on the Bacchante. Queen Mary
was long known and loved as the Princess 'May;" but this pet abbreviation is no very great favorite with her. She
prefers to be addressed as "Toria" by her prefers to be addressed as "Toria" by her
friends and relatives, and always signs friends and relatives, and always signs
this name to her friendly letters. The this name to her frindly letters. The
Queen of Norway is "Audie" or "Maude" to all who enjoy her intimacy, just as the Duchess of Fife is "Louie." The Princess Victoria, her sister, is either
"Vicky" or "Victoria." As a boy, the
couple are in residence, while a bantam there are six childrun, there would be six tiny eggs. If a parent dies, his or
her egg is painted black, and after a year is removed altogether. Should any of the family die or leave, a small egg is taken away. Should a widow or widower marry again, she or he is re-
presented by a couple, which means there would be three large eggs-or one for each marriage. Bachelor or spinster occupants, for some reason or other, are exempt.
On one occasion there was a window eggs, registering the parents as each twice married, and twelve children, including three sets of twins, when two
eggs are added at once. eggs are added at once.

## Temperance Talls.

When the Drink is Driven Away. No broken windows or creaking do No greasy walls or filthy floors, Seent of sweet flowers perfume the air, Scent of sweet frinkers is driven away.
Where the ding No "raggit weans," no weary wives,
No women in fear for their very lives, No women in fear for their very lives,
But merry maids and bonny boys, But merry maids and bonny boys,
Making streets ring with gladsome
Where the drink is driven away.
No tempting bars or drink-shops low
No brawls or fights where'er you go, No brawls or fights where'er you go, But peace and plenty reign supreme
And life is one long pleasant dream,

No aching hearts. and dragging feet, No unemployed in any street, But bounding step and cheery song,
And work for the willing, the brave and
strong,
Where the drink is driven away. No frowning gaols and prisons drear, No criminals in training here,
The banner of true fredom waves
O'er men who never can be slaves,
Where the drink is driven away
No public debt to crush them down,
No breaking banks to make them frown, o empty coffers in the state,
For debts are small and incomes great,

Drunkardness, A Disease and Not a Crime

By H. Kinzel Laws.
For a long time drunkardness has been ooked upon as a crime, but the prematters has caused the leading scientists and physicians to conclude that al-
coholism is a disease. A disease that is coholism is a disease., A
susceptible to treatment.
The habit of drink, is a financial loss in the very outset. When a man begins to drink he begins to lose his money
and all that money will buy. There is more than one drunkard in every town
who spends all his money on liquor and leaves his family to want. Wherever
in our land you see poverty you will find in our land you see poverty you will find
that in a large measure liquor is rethat in a large measure liquor is re-
sponsible. every principle of right-doing. It has
led men to cheat, to steal, to gamble, to passion, to murder, to every crime. our land. It takes away character and honor and brings man to the lowest social level.
Alcohol when introduced into the system produces certain and as these conditions continue and increase a condition of bodily dis-
tress arises which is relieved only by the tress arises which is relieved only by the
introduction of more alcohol. Thus is introduction of more alcohol. Thus is
produced a physical craving. for alproduced a physical craving for alcohol is the demand of a system disor-
dered by the repeated and the drunkard who has become a true alcoholic should be pitied and not
blamed for his condition. A man on whom the alcoholic craving has become
fastened is as much fastened is as much a victim of disease
as a sufferer from pnuemonia or conDrunkardness is not a vice, crime or
sin. It is true that the disease sin. It is true that the disease may
have been originally brought about by ignorance or even deliberate wrong-doing, but having once been contracted,
the sufferer should !be scientifically treated.
It has been proven by our doctors
and scientists and scientists that drumkardness can be
cured, and the body restored to its nor-
mal condition and that a system re lieved of alcoholism and made normal
again, will remain normal, so far as the
cravinus and
becomes diseased again by wilful indul
gence. gence.
Statistics show that professional men and men of finely developed intellect are more commonly addicted than the
laborer. Their works are on lines that laborer. Their works are on lines that
exhaust their nerve potentials and whisexhaust their nerve potentials and whis-
key is the lash that whips them along. This only bears out the theory that inebriety is a disease, and a disease of the ne
Al alcohol in beer or wine is the same as alcohol in whiskey, there being same a difference in the percentage they contain. A susceptible system will respond to it just the same, the form in which those whose systems have become io slave to alcohol and constantly demand this fiercest of stimulants: How many times have you resolved to try to being and destroying your life?
Perhaps you failed to recognize that
your failure is due to an uncontrollable your failure is due to an uncontrollable physical demand for stimulants, just as intervals. The only difference is that one is a demand for something natural the other a demand for something unnatural; the one an evidence of health, just as reasonable to expect a man not to take stimulants when they are demanded, as it is to expect a child not to
eat when there is a call for food. This eat when there is a call for food. This
unnatural appetite can be cured and conquered by treatment, but this treat-
ment can be greatly assisted and aided ment can be greatly assisted and aided by a strong and determined effort on the part of the afflicted one. To better il-
lustrate this point, I will relate of an old negro who was given to the habit of chewing tobacco and who was heard praying to the Lord to help him
conquer this habit-while all the time conquer this habit-while all the time
he was praying he had a wad of tobacco he was praying he had a wad of tobacco
in his mouth. I am of the opinion that
the Lord only helps those who the Lord only helps those who try to help themselves, and that a strong re-
solution aided by persistent effort will solution aided by persistent effort will
avail much. A strong will that deter-
mines that health, mines that health, strength and sobriety, shall at any cost be acquired,
goes far towards making success more certain.
Here
Here is a great economic problem for
the several provinces the several provinces to solve. Refor-
mation of drunkards and changing a non-producer into a producer, turning a liability into an asset. The popular no-
tion that the drunkard is subject to punitive laws is remote from reason, is to be pitied and helped, not punished. The standard of intelligence is increasing throughout our land, and en-
lightenment along medical and health culture lines is an integral part of public education, and a necessity in every
community. The develoment of this community. The development of this
knowledge is as much a duty of the proknowledge is as much a duty of the pro-
vince as is shool development. The people should know how to prevent
disease and lessen crime, first for their disease and lessen crime, first for their own protection and second for the bet-
terment and advancement of the general good of the country. There is a distinction between disease and crime, and drunkardness is a disease.
Each province is full of men and wo-
men, who have a natural or acquired predisposition to strong drink and the misuse of toxic drugs, and after a more or less use of these systematic poisons,
the victims lose that something we "will-power." They something we call
cannot resist the cravings of debauched desire, which of humiliation. They become helpless
and indiferent ane and and indifferent and are a menace to
society, and a tax to the country. His society, and a tax to the country. His-
tory tells us that the fall of the great Roman Empire was, in great part, due
to the vice of intemperance, and to its conguer-licentiousness-which and to it further weakens and ruins.
To take care of and tunates is a duty the province owes society, and public policy demands an
institution where this rushing to destruc tion can be stopped. When we come to
consider this subject in its true light we
are brought to the fact that the pro-
vince is too eager grasping after the
easy revenue that directly or indirectly
flows into its tater flows into its treasury from the license tax or bar-rooms and allied sources.
Then why charge a man with crime Then why charge a man with crime
and all the while the province is doing and all the while the province is doing
that which is sure to make him commit crime? Does not the province make this possible?
The province should consider her citizens and protect them, by considering
their weaknesses and safe-guarding them in every way. The provinee can
well afford to care for and treat its well afford to care for and treat its
drunkards, because it will be changing a drunkards, because it will be changing a non-producer into a
liability into an asset.
prod
A general ap peal for legislation designed to diminish runkardness and the drug habit, and
to increase the comfont and joy of life believing human efficiency, health and happiness is the prerequisite of a strong
and loyal people, would accomplish and loyal
great good.
$\underset{\text { A province }}{\text { greatness as it }}$ grows in wealth and greatness as it multiplies its producers
hence this is not a question of hence this is not a question of charity,
but a sound fiseal proposition. I feel safe in saying there is no enemy more potent for injury to the great super
structure of civilization than drunkard structure of civilization than drunkard-
ness. War, famine, pestilence, and even
the "social ness. "Saral, famine, pestilence, and even
the "sil" sink into comparative
insignificance beside the demonical insignificance beside the demonical
power of rum. Murder, arson, acute and chronic inflammations, ruin and death all follow in its wake. There is no necessity of entering into a discussion as regards the classifica-
tion of inebriety. It is a disease, a pathotion of inebriety. It is a disease, a pathological condition. Being a disease, we vous system seems to be the most seriously affected, we tend our energies in that direction, using specific therapeutic agents, and as mel maintenance
of the physiological equilibrium of the nervous system depends on a healthy condition of the gross economy, we give
general constitutional treatment imgeneral constitutional treatment im-
proving the patient's general tone, proving tating and strengthening his nere,
stimula vous mechanism, and surrounding him
with such moral influence as will tend to reinforce his enfeebled conditions, Along this line of treatment we can rerespect and esteem, and the province add a good producing citizen again to
her list of subjects.
F. A. Gotch on Alcohol Drinks.

The great wrestler, who beat Hackenschmidt, says:-"I do not believe in any form of alcoholic drinks to make one fit. In the health of mind and body nature has made provision for all necessary
stimulants. We should live as near to nature as possible-regular hours and regular, wholesome diet, with plenty of
work."

## Dog's Intelligence

A great river in America, swollen by
the melted snow off the hils heavy rains, overflowed its bank by rushed down in a flood. A Newfoundland dog had a litter of three puppies in $a$ house near one of the banks of the
river, now surrounded by water river, now surrounded by water. With
wonderful intelligence and memory of a boat, she dropped them one by one into a tub standing by the door, and when
the river floated it, she caught it and the river floated it, she caught it and
dragged it with painful labor to the nearest land left above the stream. each puppy out separately in her mouth and put it in a place of safety, barking

## A Scotsman Lost In Paris

A Scottish tourist wandering about
the streets of Paris some distance from his hotel found himself in a maze, from things worse he failed, through ignorto guide him homeward. Then a happy thought struck him. By dint of signs, he concluded a bargain with a fruit
hawker for a basketful of gooseberries,
and then,
body, he went about shouting, "Fine wetch grozets a penny a pun! Tor a while till a fellow-coun tryman rushed forward to him, and Mang him roughly by the shoulder Glesca' that ye gang aboot crying like madman?" "Ech!" he replied, with sense of relief. "Ye're jist the man wis looking for. D'ye ken the way to

## Before and After.

It is really rather funny how the man who's burning money finds a legion of admirens any place that he may stray
Everything he says is witty; all the Johnnies in the city gather round him
to adore him while there's wealth to to adore him while there's wealth to
throw away. When he grows exceeding throw away. When he grows exceeding
frisky in the gilded home of whiskey e'en the bar-keeps make confession that he has a wealth of charms; and the peel-
ers evidently love him, for they treat ers evidently love him, for they treal him gently when his feet become en
tangled and he falls into their arms. Oh tangled and he falls into teinir arms. Oh,
the world is soft and tender to the lav ish money spendor, and he thinks that
people love him for his merits and his people love him for his merits and his
face. But when all his wealth is melted, he is hustled, he is pelted, and the
bar-keeps calmly kick him from the bar-keeps calmiy kick him from the
portals of their place. And the people
who were smirking when his money he was jerking call him names that hurt
his feelings when he seeks a helping hand; and the haughty cops surround him, doad himir in the hurry wagon, and he's fined to beat the band, All the
friends you gain by blowing money
where friends you gain by blowing money
where the booze is flowing are not worth a cent a dozen-they're not worth
the half of that; they will shake you when you're busted and will turn awhy you attempt to pass the hat. - Walt Mason.

## Regulating the Elephant.

Everybody had heard that the great elephant was loose, and several famous and whose boys he had trampled on were sure of it There was great ex to decide what should be done. They did not want to exterminate him; In
fact, many of them did not believe they could exterminate him, for he was a useful in his proper place-in shows, in India, and in story books.
"Our best plan is to try and regulate him said an enthusiastic speaker. "Leb us build toll-gates all along the route he
is going to take, and make him pay." "Yes, but that leaves him roaming
round," shrieked an old woman, "and I don't want my boy killed."
"Keep your boy away from him; don't your knowiness. Why, madam, and tusks are valuable for mechanical and surgical purposes, and that he is
useful in India? Besides, there's the toll useful in India? Besides, there's the toll he will pay, We shall by this means
get money enough into the public trea. gury to build schools for a good many
boys who boys who are not trampled to deathy" "That's the plan; regulate him, re-
gulate him," shouted the orowd. So they gulate him," shouted the orowd. So they
appointed a great many committees, and drafted constitutions and by-laws, and elephant petitions, and by the time the and trampled down a number of gardens they, had erected very comfortable tollhouses for the gate-keepers, and gates
for the elephant; and then they waited in great satisfaction to see the elephant regulated.
Slowly
Slowly the great feet trampled on-
ward: slowly the ward: slowly the great proboscis ap-
peared in view; and with a sniff of contempt the elephant lifted the gate from
its hinges and walked off with it, while its hinges and walked off with it, while
the crowd stared after him in dismay. "Well," exclaimed the keeper, catchWell," exclaimed the keeper, catch-
ing ऊis breath, "we haven't made much money so far, but the regulating plan
would have worked first-rate if the elephant hadn't been a little too strong for the obstruction."

CANADA AND IMPERIAL DEFENCE

By Dr. Hugh MacKay, Winnipeg. It was my privilege to visit London, Tingland, an interested spectator of the great Railway strike, and a close abgerver of events in the British House of Commons when the Government was endeavoring to reach a basis of
ment between the warring factions.
I was particularly impressed with the attitiode of the statesmen on both. sides of the House in this national crisis There was no attempt made by the Opposition to emain a party victory at the sacrifice of the country's well-being. It was bourne in upon me, that this
attifude might well be cultivated by
low, but, to our sorrow and shame be it
said, political expediency loyalty to country dominates the action of the party in power.
Some two years ago $I$ had the pleaure of hearing Hon. Geo. E. Foster enlarge upon the duty of Canada in this
momentous question, and upon the need, moment, immediate and insistent, of concerted action, wide, far-reaching and generous as becomes the greatest of the dominions in the Confederacy of the
British Empire: a need demanded by British Empire: a need demanded by
present exigencies; a need which common gratitude on the part of Canadians
mon rendered imperative in view of the many benefits in which we have so long shared without contributing in any way to-
ward defraying their cost. I have watchward defraying their cost. I have watch-
ed in vain and with no small disappointment for utterances of a like character from Mr. Foster in his capacity of a structive rather. than constructive, a policy of tearing down the old rather than building up the new. Apparently his patriotism has gone a well travell-
ed road and been sacrificed to the interests of his party
While we are folding our hands complacently, contenting ourselves with loud sounding plaudits of king and counry, and while events are rapidly shap-
ing that maike our inaction in the highest degree reprehensible, a disquieting est degree reprehensible, a disquieting
sentiment is making itself felt, that

 great swamp or prairie and the next vast fields of golden grain, so mush, for the ase istance of an energetic provesincial government backed
by an enterprising people, and upheld bya generous Creator, Manitoba will continue to grow.

Canadian public men in their relations; $\mid$ the forces arranged against Great Britthat in the matter of Imperial defence there was a question broad enough for he two political parties to sink their
differences and join hands in an honest endeavor to do something worthy of the growing importance and rapidly increasing wealth of this important section of pears to me, is an outstanding issue at this juncture, when Great Britain is torn by industrial strife, and the great fence bears all too heavily military depatriots across the sea
During the Laurier administration, we saw inaugurated in Canada a policy of defence, which, in spite of many shortmove in the right direction. We had in this scheme of defence, according to the then Government, a plan which, if not dictated by the British Admirality, had
at least the approval the other hand, these claims of the party then in power, were utterly discredited by the Conservative party. Both parties have acted in unison in throwing
dust in the air which, to the independent elector, anxious to to the at indepenfacts, has effectually obscured the quesIt is my settled conviction that the leaders of both political parties in Can-
ada are quite conversant of action Guite conversant with the line of stress and strain, would have us fol-
ain are looming so large and threatening as to create a well-grounded fear that they may eventually oversbadow
her might and power and wrest from her the supremacy among the nations. In the event of a world struggle, while other colonies, as, for instance, Australia and New Zealand, are ir a posi-
tion to add substantially to the sea- going power of Englnd, we Canadians would present a pitiful spectacle, since any attempt that we might then make to aid the Mother Country must neces sarily
Navies are not built in a day. The
self-respect of the Canadian people de mands that the Government take prompt' and decisive action and make adequate provision for the future so
that should the need arise-which-God forbid-we may be in a position to do our duty as Canadians and Britishers and as loyal sons, of a loyal mother re pay-fain would thope, more than
pay-our debt to the Mother Land.

## The Delights of a

 Diamond Dye DayDiamond Dye days have come to be in-
stitutions in thousands upon thousands of stitutions in thousands upon thousands of
homes throughout the land. But what IS homes throughout the land. But what is a Diame answer is best given in the following letter from a clever Toronto woman: "Every so often $m v$ daughters and I
plan a Diamond Dye day-and it is al. ways a delightyul one. "We go through our wardrobes and pich
out the soiled and faded dresses of yester. out the soiled and faded dresses of yesher
day, and put them into the maric bath day, and put them int the magic oain. ings, all get ine same trealment. And when the day is over we have the
satisfaction that practical, beautiful things satisfaction
bring.
"Otur
oring: draperies and portueres, too, come
into their share of being made tike hew into their share of being made tike hew
with Diamond Dyes."
(Signed). NRRS. S. E. JENKINS It is an actual fact that new life, as well
as new beauty is given to fabrics with Dianond Dyes. Their users are so many as to be almost
countless. The economies they afford are counitless. The economies they andle.
so great as to be almost nubelieval so great as to be almost nnbelievabie.
Considering this, the more Diamond Dye days there are in the home, the
happier, more attractive that home io happier, mo
going to be.

## Household Suggestions.

## DIFFERENT WAYS OF COOKING zeos

By Mary Mason Wright.
Breakfast should always be a refreshing as well as a nourishing meal, one of the day. In the country home the break fast should be hearty, not necessarily in quality of them. Spring breakfasts are more difficult to plan than those at other easons, for the appetite begins to lag erve as an appetizer, although tart canserve as an appetizer, although tart can
ned fruit and baked apples make a good ubstitute.
ast dish, being angort perfect break

Boe Farm, owned by Mr. C. Stewart, 10 miles south of Gladstone, Man. Started the sor ing season with 37 colonies and increased to 100 .
digested. They need not always be
fried, boiled or poached. There are iried, boiled or poached. There are
other delicious ways of serving them other delicious ways of serving them.
When prepared with the remnants of fish, meat and vegetables left over from the day before they make a more sub-
stantial dish than when served alone stantial dish than when served alone. Many delicious and economical omelets fish or meats, or with finely minced cooked vegetables used as a filling. Take a cup of any cold boiled fish, preflake it; then heat it in a white made by blending together in a double oiler one tablespoonful each of butter and floor and one cup of sweet milk. Stir it constantly until smooth and omelet, spreading it lightly on one-half of the omelet before folding it over inely chopped cold chicken, veal or ham, or any good lean meat, may be
warmed up in a white sauce or a thickned gravy made with stock. The meats can be seasoned with chopped parsley, finely chopped onion or with lemon juice, according to the tastes of the chopped potatoes, and even tomatoes i thickened, make good fillings for ome lets.
To make a plain omelet, use a granite frying pan, and be sure that the bottom
is entirely covered with melted butter. For every egg used measure out a tablespoonful of milk, and for every four eggs use about half a teaspoonful of salt and a dash of pepper, but the seasoning
should depend largely on the tastes of the family. Beat the whites of the eggs
up until they are stiff, add the yolks and up until they are stiff, add the yolks and
the seasoning and beat, then add the
whites are set. Lift up the eggs and one tablespoonful of chopped parsley place them on squares of buttered toast,
and garnish the platter with hot cream-
ed ed peas or asparagus. A little salt and
vinegar added to the eggs are poached will help to keep the whites from dissolving and scattering through the water.

## -

Poached eggs are delicious served on with parsley butter. Cheese sauce ion or cream sauce with a little cheese grated into it and blended with the other in reaients. To make parsley butter cream; add half a tablespoonful of emon juice, half a teaspoonful of salt, dash of pepper and a tablespoonful o the y chopped parsley.
Creamed spinach is also
Creamed spinach is also good served
ith poached eggs or hard-boiled eggs

Serve on buttered toast or squares of fried bread.
Poached Eggs in Rice Nests-Make white sauce by blending in a double and flour, and half a cupful of milk Stir constantly until the sauce is smooth and thick, then add one cup of cold boil rice. Season with salt and a dust of
red pepper. Place this rice mixture on squares of toast, and with a spoon form into nests. Poach the required number f eggs and drop one into each rice nest. Grace over the top a little cheese, and
place in the oven until it is melted. a one oven until
Poached Eggs and Macaroni-Cook some macaroni in salted water until
tender. Make a tomato sauce with one tablespoonful each of flour and butter and one cup of tomato stock made by
boiling together for about twenty min-

utes one quart of tomatos of onion, a clove or two, one or two tiny peppercorns, and a fourth of a bay leaf peppercorns, and strain this through a sieve. Thicken this tomato sauce with the boiled macaroni, and $P^{\prime}$ ice in a baking dish. Place on top of this the required number of poached egys, grate a iven chese overents. This makes a good
oven a few moment substantial breakfast dish, and with the addition of fruit is all that is necessary for a meal. The eggs may be placed un-
cooked on top of the macaroni and al cooked on top of the macaroni and al-
lowed to remain in the oven until the whites are set

## Other Breakfast Dishes.

Baked Eggs with Fish-Take a cup of
cold boiled fish and heat in a white sauce. Place in an baking aish a layer sauce. Place in a baking aish a laye
of breaderumbs, then the fish. Break on top of this fish an egg for each person,
and set in the oven until the whites ar top of set
and.
cooked.
-
Egg Souffle-Boil six eggs hard, and chop fine; add one cupful of cold boile
rice, one cupful of cold boiled potatoe chopped fine. Season with salt, peppe and a dash of mustard; add half a cupful a tablespoonful of the mixture in each section of well-buttered gem pans and sprinkle with grated cheese. Bake twen ty minutes or until brown.

Fish on Toast-Cold fish left over from the dinner the day before may be used for this dish. Remove the bones and flake. Break into a bowl one or two eggs, according to the amount of fish you
have-two eggs to a cupful of fish-ad salt and pepper to taste and a teaspoonful of flour. Mix thoroughly and add the fish. Pour into a fryingpan in which has been placed a tablespoonful of butter or and gravy; stir untjl the eggs are cooked serve. Garnish with slices of lemon.

Parsnip Croquettes - Take enough boiled parsnips to make a a pint, and mash; season with two tablespoonfuls of butter, one tablespoonfơt of cream and a small teaspoonful of salt. Mix all to gether thoroughly and heat in a sauce-
pan; add a well-beaten egg and allow to cool. Form into balls, roll in egg, then in breadcrumbs, and fry in deep fat These may be prepared for frying the night before. ___
Potato Cakes-Take one cup of cold mashed potatoes, one cupful of sweet up until light; add one cupful of sifted flour into which a teaspoonful of baking powder has been placed. Drop from a ing pan, fry a golden brown on each side, and serve very hot.

Potato Roll-This is a good way to serve cold mashed potatoes left over from ed potatoes in a saucene cupful of mashof a cup of milk, two well-beaten eurg tablespoonful of chopped parsley, and a seasoning of salt and pepper. Mix tablespoonful of butter in a frying one when hot put in the potato mixture and cook slowly until a golden brown. Roll like an omelet and serve hot.

## The Home Doctor.

Some Plain Truths. By David R. Locke.

There are two lies which have always been accepted as truths, that ought to been accepted The first is, "Men will
be exploded:
drink in spite of all the law in the world."
Men will not drink until they have been educated to drink. No man was born with an appetite for iquor save
those unfortunates born of drunken parents. They take to it more kindly than others, but it requires temptation to start even them on the shoral stomach ever cred for it After the boy has been enticed into a whisky or beer shop, and has been plied
with the horror a certain time, he wants it more and more every day, and the it more and more every day, and the
time comes when he will have it at no matter what cost, but it takes months of bedevilment to bring him to that pass. Of himself he is neither going to hunt the ruin nor take it a matter of education,' and the brewer, and his agents, the saloon keep-
ers, are the educators. The drunkard is ers, are the educators. The drunkard i made, not born. The other lie is that quotation of
Pope's, which is more quoted than al most any other in the language:
"Vice is a monster of such frightful
That to be hated needs but to be seen,
That to be hated needs but to be seen,
But, seen too oft, familiar with its
face,
First we endure, then pity, then em-
First we
brace."
Pope sacrificed no sense to sound. Vice the beginning. On the contrary, vice is always clothed in light and is always pleasant and as alluring as the ingenuy of the devil can make it. Vice, in gin mills, has gorgeous mirrors, cut glass
ornaments, bright, cheery furniture and the most 'gorgeously beautiful pictures that human genius can devise. Artists
of the highest ability are employed to of the highest ability are employed to art is prostituted into a decoy. Is there anything frightful in the gorgeous bar
Hof room of the Hoffman House, with its
walls mare luminous with nude nymphs warm from the sensuous brush of Bouguereau? Is there anything frightspeak to the senses from all the walls ? Not at all. Thousands throng that won drous place to see those jewels so ap-
propriately set. What are they there for? The proprietor probably knows no more of art than the pig does of Sun
day, but other people do, and he paid day, but other people do, and he paid
his money for the best in art. What for? In the interests of art? Ah, no These pictures are so many decoys. The young man whose pulse quickens as he stands before this work of forbidden
beauty, must patronize the bar, and $h$ drinks, paying two prices for what he and comes again, or goes straightway to ther bars of the same kind, whose pro prietors give him quite as tempting ex sellers, and these fittings and accessories are their advertisements.
Vice does not stop with beauty on its
walls. Vice has the liquors it kills with of the warmest and most seductive col ors. Its wines sparkle, it puts pure cold
vestal ice into prismatic rays dart and glitter to the en icement of the eye; it adds to that sugar of the whitest and purest, lemon
of the richest and coolest colors, and liquors that look as beautiful as a paint er's dream, and it mixes the delicious compound in a way that would seduce an nohorite. And the compounder has dia front, his hair is combed and brushed in most careful particularity, his apron is of the whitest and his boots are polished pound which isee, And then this com well as the stomach, is not shoved at the victim coarsely, or carelessly. The
very mixing of it is artistic. In the most tantalizing way the right hand
ing mixture in a rainbow-like stream permitting it to dance through another, giving you as many tints as there are in a kaleidoscope, and filling space with
delicious perfume. The drink is a work delicious perfume. The drink is a work
of art. There is a seduction in the clink of art. There is a seduction in the clink "glug glug, cloop, glug, glug" of the liquor as it leaps out in an amber stream over the ice, and lights up with brilliant
color its crystal whiteness, and when the compound is completed it is permitted to stand a moment while the rim of nother glass, as thin as paper and as beautiful as a fairy's dream is dipped pressibly delicate frosting, the vision is poured into this, the whole then crowned with cool green leaves of mint, with
slices of lemon artistically disposed, slices of lemon artistically disposed,
and with ripe luscious red strawberries nestling lovingly among them; well, talk of vice putting on a frightful mien. Why there is nothing more beautiful in the world. No housewife so decorates the dishes she places before her guests;
nowhere can anything so absolutely aesthetic be found.
But the bottom, the foundation of the whole is alcohol, and that bites and stings just the same as though it came a tin dipper. The eye, and sight, and
the other senses are used to betray the young man at his vulnerable points, the tomach and brain, and the law gives the greedy seller the right to do it.

Listen to the Doctor.
If a child has obstinate bleeding at traight above the head and full length them for a few minutes, using sufficient trength to lift the child from the floor.

A A large majority of the troubles of troubles, many of them being caused directly by the mother, who by too frequent feedings may prove her child's and nursed every time it cries to ap pease it, the warm milk doing this at fire," since generally the child is crying from the effects of indigestion, and at this rate the family physician has finally to be called and finds his duty rather
in the line of correcting the habits of the mother than in drugging the little sufferer.
If a child regurgitates its milk, or, as the motirer says, vomits, nine times out of ten it has been overfed and simply frequent fault and babies have to vomit so much, it is very fortunate they can do it so much more easily than an adult; indeed, it is their

## Death.

Should a person who is seriously ill, his danger? This is a question on which there is much difference of opinion-some
arguing for, and some against, and all arguing for, and some against, and all
wishing an absolute rule to be laid down. This is, however, impossible; for there are so many points to be considered, both in connection with the disease and with the mental state of the patient. The
doctor is the best judge of this delicate doctor is the best judge of this delicate
matter, and the breaking of the news that there is no hope had better be left to him; for he can tell as no one else can how far the disease has gone, how the patient has at command to combat
it The whole of nature revolts against it. The whole of nature revolts against
death; and the love of life, which is death, and the love of life, which is
strong up to nearly the very last moagainst the disease. Hope acts the part of a tonic, for which there is no equival-
ent in the whole pharmacopoeia. Be

About the Farm.

Safe Brooder Methods.
By A. F. Hunter.

That wrong handling of brooders is the cause of the greater part of the
mortality among baby chicks is evident to every careful student. And this great Toss of chicks is largely preventable of judgment on the part of the caretaker. partment of our poultry work do we so
urgently need to have our judgment constantly with us as in caring for baby
chicks. Undoubtedly the degree of heat under point. A few err in not giving the
chicks sufficient heat to keep them comfortable. A far greater number, however, err on the other side. They argue better, and keep the temperature up to
a high point, the result being the chicks perspire and the pores of the
skin are kept open. Then they go into a cooler temperature they contract is keeping up the heat for too long a
time. The right temperature under the hovaccurate thermometer by which to The right temperature is from ninety to days. Then lower it steadily and rapid cold weather-say, in iNarch, that point should be reached by the time the
chicks are three weeks old; and, in the
is supplied them in that apartment after that. With food and water always
at hand, they eat and grow, getting
needed exercise from scratching in the needed exercise from seratching in the
cut clover scattered over the floor into
and which the chick feed is thrown, and
running in under the hover when they feel the need of warming up again.
Undoubtedly too high a temperature under the hover is the greatest difficulty in handling chicks in brooders. Such a makes them susceptible to various ills,
of which white diarrhoea is probably the worst. Heat may not directly pro-
duce white diarrhoea, but the weakening duce white diarrhoea, but the weakenates the chicks that they easily succumb to with right handling they would have re-
sisted its attacks. Sometimes, owing to miscalculation,
the heat may increase and the mischief the heat may increase and check it. I lost a hundred baby chicks in this maning unavoidably absent from home for conditions was occurring. Too low a temperature is another
cause of disaster. When the chicks are not comfortably warm they bunch to-
gether for greater warmth. Those
within the bunch get overheated, and within the bunch get overheated, and
those round the edges are warm on one
Both conside and chilled on the other. Both
ditions contribute to disaster.

Care During the First Week. Have the floors of the brooders cover-
ed half an inch deep with fine sand, and ed half an inch deep with fine sand, and
spread about an inch of finely cut clover

About Farm Yard Manure
Cyril T. Hopkins, of the University of Ilinois, in dealing with the question If fresh farm manure is thrown out and exposed to the weather for six months in summer, one half of its tota
weight of dry matter is lost and more than one-half of its value as a fertilizer is lost. In most newer countries there
is enormous and shameful, if not wicked waste of farm manure. In older coun
tries it is the rule to save all possibl farm manure with very great care, al though this rule is too frequently brok-
en by the careless, ignorant, or short en by the careless, ignorant, or short
sighted.
As a whole, the unnecessary wast and loss of farm manure which occurs
on this continent each rear is equal in on this continent each Year is equal in
value to several times the value of all
commercial fertilizers used. Sometimes commercial fertilizers used. Sometimes
the waste of farm manure and the pur-
chase of commercial fertilizers occur
it at once upon the field will certainly justify providing a manure spreader or
special wagon to be used solely for this special wa
purpose

The Value of Manure
Feed your land and it will feed your live stock, and what the stock make
will feed and provide liberally in every way for you and your household.
To illustrate this point, let us imagine for a moment or two two farms in the same neighborhood, the land of both of
medium quality and highly responsive medium quality and highly responsive
to intensive tillage and generous manur ing. ture without manurial attention and the
other worked on a more or less extended ot her worked on a more or less extende
rotation, which includes a modern area of green, crops, the entudire a area of which
is liberally treated manurially each year is liberally treated manurially each year. dressed with bulky manure, and when it can be spared, or in its place, a com-
bination of artificials.
On the first, in On the first, intials.
On management of which carelessness and apathy are too
apparent to pase unnoticed, thice starved

## Why I Returied to the Farm.

By A Farmer's So.
Much has been written on that timetonored three-cornered problem of the Boy, the farm and the city. Many dif.
ferent writers, especially in our farm papers, have discussed it, and though some of their articles seem to point to
solution, the problem is still unsolved a solution, the problem is still unsolved. It is not with any theught of offering a
definite plan for the farmer who has sons that he would keep at home that I am writing this brief sketch of the life of one farmer's boy, but with the thought thit the first-hanid knowledge and experience in it may prove sugges
tive. Lewas born on my father's farm in Southern New England in the early eighties. My mother died when I was 7three years old, and my brother and
were thrown upon my father's society a great deal more than most boys of our age. My father was a farmer of
the best type. He was a man \$ho, be-
twenty thousand. I thought that I should not mind being the agent and riding from mill to mill in my auto-
mobile. To be sure, jt was a somewhat
lofty climb from lofty climb from six dollars a week, but-well, optimism is a great thing! Delusions in City Wages.
When I announced my decision When I announced my decision my father did not urge me to stay, simply
saying that it might be well to try it and adding: ":If you ever change your mind the home offer stands." A plea-
sant day in late September found me sant day in late September found me
quartered in a little cramped bedroom high up under the eaves of a boarding house in the town where I was to begin my career. That day L Liad a short talk
with the superintendent of the plant With the superintendent of the plant the good things that awaited promising young men, and to the comforting statement that brilliant young men were carce. ane superintendent cited himis as an example of what was possible.
I listened happily, not knowing how many times I was to hear that same glad story told to other boys by other
"supers" and always with the same shining example tacked on at the end. ing example tayked on at the end.
The way to fortune was straight wide open. I swung into it at half past six the next morning, with a smile on my face and a suit of blue overalls on my arm. An English overseed took me gears on the end of a long whirligig afair, with rows of grinning girls stand ng on each side. They giggled and adhired my pink cheeks. I was not used spent a delightful five minutes bugling away with a monkey-wrench, the object of a merciless but good-natured cross-
fire from the double row of fairies. Then

A SUGGESTION TO NEW ARRIVALS FROM THE OLD COUNRTY

 foity no poxite.
fore he settled down to farming, had
had a varied career and had seen much of the world. This we boys knew; and herefore the remark that we often seemed to himim the most satisfactory of all, made a deeper impression than in all probability it otherwise would. As a youngster, I firmly believed that when nothing else; but when my school days yere over and it was time for me to hoose my work I had a somewhat difaway from home, and from constant association had become to all intents and purposes a town boy with the usual own boy's contempt for farming as an "creation. Men" books that mechool of the contain, and had duly absorbed the "sucess" pap supplied from time to time by stray lecturers. me. My father offered a partnership with my brother and himself in the usiness of the farm. The father of a riend of mine offered me a chance to fifer in a fas as fätory in town. The farm come in as an equal partner without ash capital and to share equally with he others in the expansion that would easily be possible through our combined chance to "Jearn the business," which, Whatever else it might mean, certainly did mean beginning at the bottom at six yery much the better of the offer was
two; but yery much the better of the two; but
the success pap of my school days was still working in my system. In my mind I compared the prosperous farmer, with his annual income of from one to three thousa dollars, to the agent of a doz-
something went wrong with the gear, and the nearest girl stepped over
promptly to straighten me out-an act promptly to straighten me out-an act tio of mill workers. The little incident felt the strain. After that, somas ac felt that I belonged-that I was ac-
cepted as one of the workers. The first six months passed busily and widtly. The novelty and rush of new shifted from job to job in the room made the hours pass unnoticed, and the night whistle found me ready for supper, absolute relaxation, a pipe and bed festivities, but enthusiasm carried me by the first half-year with a rush and a
whiz of cogs, dust and other pleasant whiz of cogs, dust and other pleasan was now promoted to another department and very soon after that to still nother. At the end of the year I had rrived at the munifice living expenses were deducted, this was about as much as a "bull Portugee" farm hand earned
down home. But twelve dollars looked own home. But twelve dollars looked so much larger than six that I did not
think of this at the time. Instead I felt prosperous. Now and then I treated myself to a theatre trip or other amusement, but I soon found that one must not be too hilarious even on two dollars
a day. About this time I began to enjoy my occasional week-ends at home s I never had previously; and before ong I acquired the habit of going down very Sunday when nothing prevented.
My second year in the factory and the ast I spent in that town passed very much like the first, but it brought its ittle spark of disillusion. I was "pronoted" again and again and filled about every greasy
garret, but my pay between cellar and

## How to Kill Quack Grass.

By L. A. Darling.
all farmers are aware, the killing of As grass or quack grass is in many hat in my experience hias never failed is as follows: Prepare the soil by plowing and dragging, as for any general crop, and then mark it both ways into row about eight feet apart. At the inter-
section of these rows make hills for winter squash seeds, preparing each one with a large shovelful of well-rotted nanure covered carefully with dirt to the depth of an inch or two so as to pre-
vent evaporation. Plant from six to en seeds in a hill in order to insure good stand.
The soil round the hills can de kept free from the quack grass by hoeing with uming that the ground is very badly suming that the ground is very badly
covered with the grass we will let the soil between the hills lie untouched since it seems to be useless to try to cultivate it except in very dry seasons. When the grass has sprouted to a height plow the entire piece, going in one direction and turning the furrows from each side toward the hills or rows. This will leave a dead furrow between each ow. If the plowing is done carefully between the hills, and we shall have entirely cleaned the piece from any growing
quack grass-that is, the weed will have 0 grow entirely new shoots.
Continue to keep the hills clean with emain untouched until the quack grass as grown to about its previous height. hen plow in the same manner, but ee squash plants and the quack grass to row should allow the squash vines, by almost at the running stage; conse uently, before the quack grass can get vines will be covering the entire field. he grass finds itself unable to survive nder such conditions.
In this way, with a minimum amount crop of Hubbard squashes in raising a the soil of the noxious weed. Of course plowing the field in the manner described laves it in anything but a level conrass. The dead roots of the quack oil to a geat, win the plication of fertilizer would have done, and a crop which makes heavy demands the sorl may be raised without an amount of labor
After having tried everything from with mosquito netting over them, to prevent the striped bugs from devouring the oung squash plants, I find that the ast on scaltering a the tobacce till damp from the while the ground is three days before the plants appear, is most economical and practical. A second application should be made, at the sam above ground. In case of a hard rain a new application will be needed, but in dry weather going over the plants thor keep) them entirely free from the insects. Whon the entirely free from the insects, danifror from bugs has disappeared the hill: should be thinned to the three lary plants in each.

Selection of Seed Potatoes.
There are potato growers who grow
less than one hundred bushels to the acre. There are other grow who are not the acre with less than 300 bushels to as 400 and 500 bushels to the acre and even more. What is the answer to the question of whether you are going to use two acres or eight acres for your
potato crop? Seed! In that one word lies the answer in nine cases out of ten. The crop has to be cultivated, of course, but to have something to cultivate you must begin right at the seed
-the foundation of any crop. -the foundation of any crop.-
No sane man would think ing his wheat, barley or of plantings. Neither would he use the poorest bull he could find to head a herd of dairy cattle. Yet this is practically what many farmers do in growing
potatoes. Then they wonder why their potato crop is "run out." The potato pile is picked over daily for the table, the choice, smooth potatoes that are solid
and meaty being taken because they are and meaty being taken because they are
easily prepared for dinner and look nice on the table. When it comes time to plant potatoes there are left the culls pand woaklings. But it is the polato
arop, and "anything that will sprout will
cren crop, and "anything that, will sprout will
make a hill of potatoes," is the way the make a hill of potatoes," is the way the
farmer looks at the matter. If the seed looks a bit puny, two or three unusually weak ones are dropped in the same
hill. One of them is sure to sprout,
the farmer tells himself, and leaves the small potatoes to settle the question. "But like produces like" just as surely in potato growing as in Short-
horn breeding or in wheat growing, and the farmer who plants the culls and odds and ends gets a crop that comes from the odds and ends of his previous crop instead of a crop that is sprung Consequently instead of petting better. each year his potato crop gets poorer and "runs out." Small seed potatoes, smaller weaker plants, fewer and smaller potatoes and smaller profits!
The seed potatoes should be picked
as soon as they are harvested, before the cook has a chance to get the choice ones for the table. Don't run to the
other extreme and pick out the outlandother extreme and pick out the outland-
ish big ones, however, as they are not as ish big ones, however, as they are not as
marketable nor as easily handled for seed use. They are also more subject to hollow centres. Medium size, smooth-
ness and firmness and uniformity should ness and firmness and uniformity should

## How to Make Hens Lay.

To have early laying pullets there must be careful atte characteristic may be fixed by persisten selection, as in cows for great milk and butter production. Certain varieties of chicken, like Leghorns, mature early, an but on most farms a larger breed is wanted. Now by selecting hens which lay earlier (which will be of the earliest developing and most active type of the breed) and mating with the most vigor finual improvement in early laying. We have bred White Wyandottes for ten years and this year we have a lot of pullets laying 20 cent eggs now, in Octo-
Early hatching is, of course, essential to early fall laying. March and Apri good ration must be fed and plenty of
it. We feed cracked corn and wheat and cut oatmeal to little chicks; to older them all the time in a hopper. If they are confined they must have some meat food; we find beef scraps, a packing house product, very good.
Separate the males and females. Sell or yard the cockerels. A lot of male a nuisance; hens will lay better and eggs will keep good without them.
Give the chicks good, roomy, airy quarters to roost in, not trees, but good Get them into winter quarters before winter. This should be a house facing south with the north side and ends wind tight. On the south should be a con open a good part of the time for ven open a good part of the time for ven-
tilation. It should be wide (16 feet or
over) and low for warmth. Ours, built over) and low for warmth. Ours, built
one year ago, is 16 feet wide, 5 feet high one year ago, is 16 feet wide, 5 feet high
at the sides, $71 / 2$ feet in the centre. In glass and opening we have fitted sash alternately, so that in bad weather it is half glass and half cloth, is light and airy without draught, and in good
weather can be all open. When the fowls
give them plenty of must stay indoors and make them work for their living by scratching out their feed. Give feed little and often. Give corn on the ear
at night. They will eat off all they
want want and. They will eat off all they
usially feed a mash once a at it. We in win ter made of cooked vegetables, bran, a little becf scrap and occasionally a little
oilmeal. Keep fresh water before them aways (ummer. In winter we water

Turkey Ailments.
What is the matter with our turkeys
and what can we do for them? lost seven or eight full grown. They go around dumpish for about a week, their heads get dark, they droop their wings
and then die.-A.H., Portage county Your turkeys have a bad case of indigestion which has developed or will develop into "black head" if allowed to
progress. This is caused by over-feeding and feeding them improper food, too animal food and green stuff. This indigestion has developed into liver trouble and undoubtedly if you examine the liver you will find it either enlarged or
spotted with white blotches the size of spotted with white blotches the size of a
pin head or larger. The best remedy, of course, is to lo remove the cause and that is to give them proper diet. Feed them light, bulky food with plenty of green
stuff. Give them a dose of Epsom salts stuff. Give them a dose of Epsom salts
once a week. The best remedy is to feed once a week. The best remedy is to feed
them properly, disinfect all the runs and keep plenty of sharp grit before them at keep plent
all times.

## Flavors in Milk

Prof. B. F. Kaupp, of the Colorado Agricultural College, in a statement recently issued, says in regard to the
flavors found in milk: The abnormal or injurious flavors in milk are of two kinds; first, those du due to contamination.
The first kind is scientifically spoken of as feed flavors and is due to the cow eating large quantities of turnips, onions, This ill flavor is due to volotile oils contained in the strongly flavored feeds. Such flavors leave the animal through the differen
the body.
When feeding is done immediately
after milking, these feed flavors largel after milking, these feed flavors largely pass off through other channels, or se retions, than the milk and are no if some rough forage be fed along with such feeds that produce ill tastes in milk, it assists in obviating such flavor. It is within the power of the dairy tamination. This class of ill flavor is largely due to contaminating bacteria. Of these there are many, each giving its peculiar flavor. Another contaminating
flavor is due to the absorption of rertain flavor is due
strong odors.
The cause of the contamination o milk is largely due to lack of perfect cleanliness with the milking utensils,
surroundings, method of delivery and personal cleanliness.

Handling Poor and Sweet Cream. When patrons' milk is sweet and well cared for, it is possible to make makers and creamery quality. Butter enjoying the benefits of active co-opperation because of the improvement of milk is of higher and better quality, and I have not seen fit to discriminate in the price or rate. The next best thing is to pay according to quality, thereby
iving the insanitary farmer a dose of his own medicine.
The creamery and butter maker should a splendid example of cleanliness be ause patrons meet there every morning y their sul coundings. The butter scor ing contests of Minnesota have been very helpful to me. They emphasize the skill-
ful parts of butter making and little details necessary but often overlooked by the general creameryman. There is now a range of 7 to 10 cents in the price be tween the finest and poorest butter.
Keep Spoiled Cream from Sweet Keep Spoiled Cream from Sweet.
When poor cream is delivered it more satisfactory to handle it separately; that is, keep it to itself, churn of inferior quality. The difference in
price will be sufficient to show the neprice will be sufficient to show the ne is often caused by not delivering often
enough to the creamery.

## 

[^1]> Keeping Butter Soft
> P.B., Milwaukee, Wis., writes: "Could you please tell me if there is some oil or preparation known to put in butter brittle at this time of year? We churn our butter, but in some way it hardens, although we keep our cream moderately warm, which comes from a Jersey cow. with butter after it has been churned to keep it of a soft texture in a low temperature. Crumbly butter is due
either to not working the butter suiff? ciently, having the wash water too cold, the case. A cow fed on hay or fodder alone will not prodice butter of as good a texture as when fed grain in connecmeal and roots, other than potatoes tend to give a summer texture to butter. Cottonseed meal and oats tend to harden butter. Potatoes produce a crumbly texture. Churning at a temperature of
60 deg. F, and having the wash water at the same temperature, puts the butter in condition for thorough working and a softer texture.

## Breeding and Caring for the Calf.

Paper read by M. I. Welles, Rosendale at the 39th annual meeting of the
Wisconsin Dairymen's Association.

Much has been Much has been said in the agricultur and care of the dairy cow, but comparaand care of the dairy cow, but compara-
tively little in regard to the feed and care of the calf.
Now, if the statement made a few years ago by a professor of animal husany dairy bred heifer calf, properly fed and cared for would make a good dairy ow, then this subject must be of vita importance to us as dairymen. I be the statement made by the professor. We all realize that the calf of today is the coming dairy cow, and we must do qualities in the best possible way. The calf should be fed with great care. We make a practice of letting it suck the cow for its first meal. Then feed milk the size of the calf and its inclination to arink. We weigh it for them so we know just what they are getting and we plan ng. The first three or four weeks we give
whole milk, often diluting with hot whole milk, often diluting with hot water, about one-third, to prevent scour
ing, for whole milk is often too rich for young calves. We then gradually change well at thile of six or weeks, we give it all skim milk and continue feeding it until it is at least a year old After the calf is six months has grown well, 20 or 25 pounds per day
is given, seldom more. I think there is such a thing as giving them more than is good for them, even though they do crave
for it. The milk should be warm when fed. I think calves are often injured when young by feeding cold milk. Young calves should have second crop
clover hay before them as soon as they will eat it. I speak of second crop clover because that is finer and they eat it better than first crop. The mangers should be cleaned at least once a day and a fresh supply given.
They should have plen
bran or oats before them as soon as they will eat grain. The best time to feed it is right after giving them their milk as they will learn to eat it sooner if given
at that time. I like oats best, but often times you can get a calf to eat wheat bran sooner than oats. We give oats
up to the time they are a year old and often longer. I have it yet to be proven young stock. Corn silage is highly recommended for calves by many good dairymen after the calves are older. We never have
tried it as we are always short of corn silage, so prefer to keep it for the cows
and give the calves hay for roughage.
before eight months of age, as experi- $\mid$ knife at the table. This class of people ence has proven to us that we can make
them do better on dry feed up to this time. Enough has been said in to the feed for the calf. We now come joc a no less important part of our subhow good a feeder a man may be or how regular he may be about feeding care, hees will obtain the best results. The calf should be born in a clean,
dry, well bedded box stall and should be kept in clean, dry, well bedded ters. We like to keep them in separate box stalls until about five or six weeks old. Then put them in a large stall where several may be put together ard
stanchioned up for fifteen or twenty minutes at time of feeding milk and grain to avoid their suckling one anoth er's ears, which is very objectionable. Once in a while there is a calf that will be kept separate.
Calves should have daily outdoor ex-

Fresh water should be supplied them
daily as soon as they are old enough to daily as soon as they are old enough to
want it. In closing I wish to say-Give the calf a good start and
have reason to regret it.

When Men Refuse to Work on the Farm

Experiences of an English Farm Labore in Ontario--Farmers do not Look Comfort of Ilired Help-Some
Startling Facts-13y a Hired $\underset{\text { Startling Facts lis a Hired }}{\text { Man's. }}$

Farmers certainly seem to be handicapped by the scarcity of a constant
supply of experienced labor. But they have only themselves to blame. The cent class of people I cerer saw. Thos who assert that there is 110 class distinction in this country are making
grave error. The disitinction is even
more trying most marked, by the arrogant class, wh
knife at the table. This class of people
are far more numerous in the country than in the city.
In most cases the reason a man pre fers town are the conditions he has to work for nine months of the year is as hard as any there is, and the most looked down on, though a smart farm hand is by no means an ignoramus,
has often been well brought up. as often been well brought up.
My husband landed at G
November, 1907, and at once received an offer of employment from a Canadian farmer, at $\$ 180$ a year and six months'
board, through showing his ability in unloading a load of hay. He got on well or the first six months, boarding with the farmer. On my arrival in April, we took up our residence in the man's
house, which was covered entirely with house, which was covered entirely with
metal shingles, and consisted of two rooms, with three rooms upstairs-half torey-no verandah and no shade, the house being built on a hill. We had
o carry our drinking water from the carry our drinking water from the quarter of a mile. Our little girl could

outside, uncovered, and no pump, no pan-
try. Living was found, but working from five a.m. to eight p.m. left very ing. On being offered the farm "on
ing ing. On being offered the farm "on
shares," my husband refused, for he told
the the farmer there is only one place hot ter than his "hired man's hoosee," and
that is "the place we read about."

Second Venture. Our next venture was in a frame
house, away back in the fields, seven house, away back in the ficids, seven
minutes' good walking from anyone. We
had a cool sitting and bed rowl summer the kitchen was awful, the doorframe was such that a screen was out of
the question. You could not wet a the question. You could not get a draft
through. These two things made it very bad to have to do all the work any
cooking there. In the winter the bread froze in the pantry wind apple sance would-come out in a block. It was use
ess to put socks and rubhers by the
tove, for they would fore morning. On coning out of a hed room
mur breath would? Wr breath would freeze on the bed
llothes. Green wond was ald we had to
hurn and get any wanmth with. Firing
eep in water, the windows did not allow lirough draught, so this place was always musty
extreme; the place had was poor in the extreme; the place had never been paint-
ed; we were allowed to paint indoors after scrubbing and cleaning hard. Whe warm weather arrived, we had worse yet to contend with, and that was "live dirt." The hard water was good, when
the pump would work.

Why They Quit Farming

## Neighbor I. gave up farm work for he found that after working hard

 found that after working hard early and debt. He was receiving $\$ 250$ a mean, $\$ 275$ and bought his own coal for winter. He had three children. His bill for foot-wear was considerable, after the five of them had lived, paid his club, doctors expenses, board and expense of ages, wear and tear of clothes, etc.; and cost of clothes for farm work; life on the farm is hard on clothes. He did notwhile.
Neighbor II. got $\$ 260$. He said it was his last year laboring on the farm. They could see friends in the city and were bought his coa oil for summer cooking and coal for winter, sufficient firing was found him for between seasons. They might have saved more if they had not
lived on so much bought baking lived on so much bought baking. Here no verandah and no shade; the kitchen caught all the morning sun, and as eating and everything was done in the one room, it was hot enough without
artificial heat. We know this man hardly kept out of debt.
Neighbor III. had two boys, about ten and twelve years old. His wife was so pleased in the spring, at a chance they far from the village. I met her in the summer; but, say what a difference! She had then a very different face. Green wood, which they were expected to burn, for working, the condition of the man when work was finished, and the fact that they could hardly pay expenses, drove them to the city.
Six months later I again met her; she was proud of their cosy little home on the outskirts of the city, and of the fact
that her husband had improved his that her husband had improved his
position with the firm he was working position with the firm he was working
for, better chances for her boys, and Neighbor IV. hired for a year at "\$325. altogether they were "doing fine." He had two small children. He was not al-
lowed a rig, and when, after being there lowed a rig, and when, after being there
six months, his wife wished to visit her six months, his wife wished to visit her
mother, she had to walk four miles to the station, one child in arms, another dragging her skirts, and carry he valise. Yet, the farmer was considere
wealthy. Her furniture wealthy. Her furniture for sitting
room was packed in a small bed room The man had to carry all their shopping our miles, after his day's work was done. Needless to say, they quit farmng at the end of the year. The man
said he would not hire there again for any money.
Another man answered an advertise. Another man answered an advertise-
ment in The Globe. He found the place ment in The Globe. He found the place
four miles from church or store. He was not allowed a rig; wages were to be
$\$ 250$, and though the farmer was up-toate, and had his buildings, etc., in pink of condition, the dimensions of the hired man's house were only about the size of cupying. He did not accept, and no
no man will, unless, he is in a very hard City life offers many advantages to a
family man, if he is smart have to wait long for a "raise" in the shops. He can pay his way, and have cost of living is in a cosy home. The cost of living is higher, but he has not
the appetite of a farm laborer Shopping can be done from no walking eight miles after eight clock. Many bargains after ean be pieked po at the city stores and sales. The chool is small and the have to go to reat consideration in wet weather. If wife wishes to supplement the income wife wishes to supplement the income,
she is always paid well for what she
does in the city, either taking in board-

ers, letting rooms, or by a day's house work. The lads can get Saturday work,
while the man, getting home just after while the man, getting home just atcor
six, is not too tired for a ittle gardening or poultry. He has Sundays to himself. Educational advantages are superior in Educational advantages are superior in
the city. Many men buy their own the city. May men way of getting a homes, which
start, and altogether he liyes in far better comfort than the hired man in the country. We have lived in both ways, and I have taken keen interest in those around
me, both in the husband was brought up in the country, and though we both prefer country life, he is not, and ne
to farm laboring.

Don't give the fowls moldy hay to scratch in or moldy grain to eat, for the mold is likely to cause canker in the
fowls.

It will not hurt the fowls to run out on the bare ground a itlie while in the
middle of the day when the sun shines

Do not make the mistake of thinking that plenty of milk will furnish suffi-
cient drink for the fowls. Milk is excel cient drink for the fowls. Milk is exce
lent, but water should be given also.

When the weather is wet and cold more corn and more cornmeal can be
fed to the fowls, and a certain amount is needed to keep up the warmth of the body:

In every poultry house there should be a platform under the roosts to catch
the droppings the droppings. This platform should be
two feet above the floor so that the fowls can use all of the space in the house for exercising.

Present and Past.
The sombre shades are falling, The silent night draws nigh;
The erimson glory of the sun Is fading in the sky. But I am still a-lingering, In this wn own domain, A Selkirk queen I reign.
For all is mute and listless; The essons have been said, With light and happy tread And while I muse and ponder My thoughts and fancies stray, In memory's hazy channels They freely drift away. But now the mist is risen,
(How swift the years have flown!) Here are our former favarites Appearing one by one. Most heartily we welcome
These cousins of the past And wonder how they fared abroad, Since we have seen them last.
Their aspect is more serious Than in the days gone by; The secret we descry Sir Time is now their teacher, The spacious world their school Filled with life's stringent rule

Each has a settled purpose To pilot him through life, Beyond the fields of strife While He rules the vast unknown And marks each sparrow's fitght, And guide their steps aright.
guide their steps aright.

## Correspondence.

We invite our subscribers to make ness, and not making enemies, as some use of these columns, and an effort will do. How shall we succeed if we do no letters received. The large amount of practise. I presume by reading, some orrespondence which is sent us has, near it, instead of trying, to minimise etter to appear in print. We would point out that we cannot send names and addresses of our contributors to these columns, but anyone wishing to
conmunicate with any of the letter writers should send us a letter in a stamped envelope, which we will address and send to the party named. We receive a great many letters, both for persons who are not subscribers, and we wish to say that so great is the work incurred that we really cannot promise to publish or forward any letters from fair to our large number of subscriber as they should be given the prior use of this column.

Saskatchewan, March, 1912.

Would as Soon Give up Smoking. other bachelor from the East who has Wilbert, Sask., March 18, 1912. come to the West to make his fortune Dear Sir, - Your valuable paper has been coming to me now for several years and I would as soon give up smoking as miss one issue. I am a Western bachelor and consequently take quite an
interest in the correspondence columns, interest in the correspondence coleans,
which, to my idea, is a very pleasant means of making an acquaintance. Should any of your fair correspondents
care to write to me I would be only too care to write to me I would be only too
pleased to answer them, and my adpleased to answer them, and my address will be with the editor.
forward enclosed letter and oblige. forward
Yours truly

Try to Minimise.
Dear Sir,-After making several unsuccessful attempts, I endeavor to try again, hoping this time to see my let-
ter in print in your widely circulated magazine. After interviewing the correspondence columns, 1 would like to suggest a few things, though not of such
severe criticism and disagreeable remevers as is given The Farmer and The marks as is given Mhe
Doctor. In my opinion, we should try
to practise eternal attention, cheerful-
other bachelor from the East wh fortun raising wheat. I have only lately be
come a reader come a reader of your great paper and
must say that I must say the pleasure I have missed. I am very much interested in the correspondence columns. Josephus seems to
have made quite a commotion with his have made quite a commotion with
criticism of dancing. Now, personally, I am not very much of a dancer, but always enjoy a good quadrille, and
think that Josephus was just a little too strong in his criticism. Everybody has a right to his or her own opinion, and should not try to force tha
opinion down the throat of everybody that they come in contact with. In Josephus and others
dancing, they should not condemn those who do; no man or woman has the right to say, I am holier than thou. I agree with Cheerful Cynic that there and too much space taken up with a personal description of writers. While it is all very well to let us know who would do well to cut so much of the would do well to cut so much of the personal description. If they get int

Always Looking Forward.
Bryceton, Sask., March $13,1912$.
Dear Editor, Having been Dear Editor,-Having been a lover of
your most interesting paper ever since your most interesting paper ever sinee
I scanned the first pages some to o years ago, I always look forward to its ar-
rival and am mighty sore if it does not come on time. I It am not a subseriber which is not my fault, as my cousin
whom I am staying with, got her sub in first; so I thought it would only be wasting money to subscribe for two of
the same paper in the on ho ne same paper in the one house, and any means. I am learning the art of farming, which is no easy task for a
town-bred man. I would like to hear town-bred man. I would like to hear
from some of the fairer sex, who would from some of the fairer sex, who would
like to brighten the life of a lonely lad. Hoping this will not find the w.p.b.
empty, I remain, yours with west wishes empty. I remain, yours with vest wishes
for success. for success.

Lonesome Peter.
Quite Distinguished Dear Editor,-Hello! here I am, an interested subscriber to that distinguished paper called The Western Home MonthYi and, to say the least, woul not
think of doing without $i$ it. I always read the correspondence pages first of
all, and I think the pages a paper could have for there we see thoughts questioned and answered
from many with different ideas. Well, 1 suppose you would like to know who it is that is writing this. Well, it is just one of
those old
bachelors. those old bacheors; wenl, not so very
old either. I never heard anybody say I was pretty. I am a farmer in one of
the fertile districts of southern Manitoba, and iline the profession, although
it is lonesome in the winter time tiving alone. I like wing time, ivmost of the winter evenings with my chair drawn up to the stove and a book in my hand. Well, as it is getting late,
I will elose. Hoping to see this in print, and if any young ladies or gents,
care to write to me, I will try to answer all letters. Wishing The Western Home Monthly every
sign myself,
Wearg.
Weallie.

Boys! Here's a Chance for You.
Lena, Man., Mar. 11, 1912. Dear Editor,- - Please crowd over and
admit another lonely little girl from Manitoba into your circle. $I_{\text {am }}$ an interested reader of your great magazine
and always read it from cover to cover. But where I find the most amusement is in the correspondence
which I read every letter. I I iumn, of "Counwhich I read every leter., I Bee "oun-

Curly Billy-Here's One for You. Now, Curly Billie,
Don't think me sill Because these lines I write, As I, like you, Our lives we might unite. And as I hear
This is Leap Yea
When girls may have a chance,
Without alarms,
Display their charms,
And some kind heart
And I can bake,
Can knit, and mend, and sew; All inside work
I do not shirk,
But outside, man must do

## Tobacco sure,

Liquor or talk profane
But hearty laughs,
O'er cards or drafts,
Amuse and entertain.
And music sweet,
Piano I can play,
A two-step, too
I gladly woo,
To wile an hour away
I'm rather tall,
And somewhat dark,
'm eighteen, too,
O'er young for you,
But, oh! what matter's that
If hearts are free,
And tastes agree,
We might decide
To stem life's tide
and paddle tandem canoe.
If this you see,
Then write to me
Thent write to me,
And I will do the same,
Then will
Then, we may tay.
Thro, all our day,
rage on his countenance slowly settles. Whither away, Young Farmer, with such terrific haste. Now the crowd
sways slightly and - hello, old timer There stands The Doctor. Now, I know where the galvanised Young Farmer is so strenuously striving to ap-
proach. He will annihilate proach. He will annihilate the poor
Doctor, he will. Now, my coat is off and I am into the fray. Young Farmer I pursue with relentless and unabating ferocity. Now I turn to Josephus, and,
gathering speed, I follow the anti-dance cathering speed, I follow the anti-dance
knight with a swiftness equal to that of an impoverished hydrophobian after a Jew pedlar. Poor Josephus! His letter in that fateful column! I suppose,
though, that it was too fantastically though, that it was too fantastically
absurd to excite anything but commiseration and pity. Why, Josephus, it is not an embrace. It is perfectly natural that a man should so support his
lady partner. And then he says "with lady partner. And then he says "with
their breasts literally throbbing against each other." My dear Josephus, allow me to assure you that this is not the proper attitude in dancing. The lady is
rather to one side, is she not? She is not directly in front of her partner. Then, remember, Josephus, that nobody thinks of the a ttitude while dancing. If
you ever danced you would know this.

Reply to Cheerful Cynic.
 Dear Editor,-Having been a reader of your magazine for some years and
looking upon it as the best of the many I subscribe for, I venture to reply to your correspondent, Cheerful Cynie, in the correspondence department. In the first place, one can plainly see that
Cheerful Cynic has passed a good por-
 gotten entirely the days of his youth,
when all to him was "just one girl" for when all to him was "just one girl" for
to call his own. Otherwise, $I$ do not unto call his own. Otherwise, 1 do not un-
derstand how he can voie his veins in derstand hew he cas done. What young
the manner he has dis.
person will derade himself or herself person will degrade himself or herself
in any light, regardless of a corresponin any light, regardless of a correspon-
dence page? Is it not natural for us dence page? Is it not natural
to think the best of ourselves, even
to though we do not possess the best on
features; and furthermore your correspondent seems to think that some of
the descriptions would make good advertisements for a slave sale. Let that be as it may, et me inform Cheernes
Cynic that there are thousands of homes that have been made happy by the in-,
fluence of his "slave advertisements," homes where happiness never reigned,
until one of the fair sex entered them. Men were so situated in those homes that they would not see one of the fair sex for six months at a stretch. To try
to be happy was in vain. What re to be happy was in vain. What ree
course had they? The correspondence pages is their only salvation. Let Cages in Cynic imagine if he can that he is on a homestead 50 miles from
civilisation, cooking his "bannocks and civilisation, cooking his "bannocks and
hardtack" three times a day for a numhardtack three times a day for a num
ber of years, and I am positive that ber of years, and
he would be very grateful to have an oppowtunity to be released from such. And,
furthermore, let me inform him also
lis. furthermore, let me inform him also
that although such correspondence may that although such correspondence may
appear monotonous to him, there are appear wow who read the correspondence
thousand
before they read any other part of the before the
magaze that simple fact is no in

## Likes Western Life

 Bawlf, Alta, March 6, 1912. Dear Editor,-1 have been a reader o your wonderful Western Home Monthlfor some time and will subscribe for for another year, for time rolls by with your good paper to read. I hhve lived
in Canada 11 years now and like it ver nuch. Out here we have a good country for farming and ranching, and ww
do a little of each. I think this is the place for a young man to get a goo
start and make a happy little home start and make a happy little home
he is willing to stick to it. I enjoy read ing the correspondence columns of Th nice letters. I am 22 years of age, an like music and all other sports; do no smoke, chew, drink or play pool. Ind
would very much ilie to correspond with A California Pullet and A Roose bud if they would wrr, first. Hoping to see this in print and wishing the
editor success. My address is with the editor success. ${ }^{\text {en }}$. ${ }^{\text {ditor. I reman, }}$

## A Bronco Buster.

Where Bachelors are Plentiful Beaverlodge, Grande Prairie, Sir,-Here comes a breeze from the North Pole. Being a subseriber to you valuable paper and in the far north,
would like to join your correspondence columns. I am very interested in your paper and look for it regular each
month. I
am a
a nonth. I am a homesteader and like
this country fine, having been out here
 adian, born in Ontario, and would like to correspond with either sex between
18 and 25 years of age, I do not drink or chew, but I smoke a little. You talk about your bachelors, they are as thick as bees. out here. I will
letters. I will sign myseef
Slim Jim.

A Splendid Idea.
Owen Sound, Ont., Feb. 20, 1912.
Dear Editor,-I have just been read ing some of the letters in the corres. pondence columns and have been quite of the letters. I do not belong to the "secret society," but would be much pleased to hear from some of the cor respondents. pe had a friend send us
your valuable paper as a Christmas box and I think it the nicest Christmas present we ev.- got. I will never be without it again. 1 am a farmer's daughter
and a and a great lover of horses. Can dive
any kind of a horse. Would like to
hear for Sask. I felieve Kid said he was a "candy kid. Well, so am I. You wouldn't be-
lieve how fast candy disappears when I lieve how fast candy isappears when I
am around the house. I am taking up an awful lot of your time, so will close witc best wishes for yourself and every suceess to The Western Home Monthly.
I will sign myself
Kanada Kid.

## Back to the Country

Alberta, March 1, 1912.
Dear Sir,-As an interested reader of your paper, I ask your kind permission now under discussion in the correspondence columns, viz, "Town life
versus country life from a pleasure standpoint." In a recent letter by Single but Not Contented, the writer says
that there is nothing to discuss. Ap. parently the gentleman is not in the
habit of thinking. Th? balance of his letter only serves to strengthen this impression. Any man who calls himself a farmer and sells eggs at 15 cents per
dozen when they retail at 40 cents, is certainly not in a position to ridicule
anyone like Young Farmer parently has been suceessful. Perhaps
he would do well if he took his own ad vice and put his hired man in charge of
the business part of his farm. Looking
at

The Doctor should have any reason $t$ smile at the farmer when he pays
cents for the eggs that the farmer dis posed of for 15 cents in trade. Th grocer is the only one who has occasion
to smile and he usually does-at both Whmile and he usually does-at both
While it is true that there are more
俍 sources of amusement open to the peo
ple of the city, it is also true that the plo of the city, it is also true that the
najority are the bought and paid for majority are the bought and paid for
kind, and exist only for the financial kind, and exist only for the inancial
benefit of someone who bas been wise enough to forsee the needs of the peo ple. Now, someone will say, "We have
public parks, we have public buildings." Of course you have. Nice, beautifuu
parks with green lawns and gravelled palks, nicely painted signs, "Keep of the grass," at every corner, and a bue-
coated policeman to see that you keep coated policeman to see that you keep
your hands off the flowers. In the pub your hands of the flowers. In the pub
iic buildings you are welcome, only so long as you comply with the rules and regulations. Oh, for the fredom of
the city and the pleasures! Where the the city and the pleasures! Where the
children play in their little 2 by 4 back yard, the meother goes visititg, secure
in the knowledge that they will not yn the knowledge that they will not
wander away and get lost. Living in onfinement, growing up in the narrow roove of social custom, crammed with knowledge, in time they are sent out
into the world with one idea of suceess, an
the acumulation of money. Possession of it constitutes their pleasure; spend-
ing it constitutes their recreation. The ing it constitutes their reereation. The dollar becomes the keynote of happiness.
At last, worn out through mental exerfion, they seek the rest and quiet to be ound only in the country. "Back to Nature" becomes the cry, and back they
come, hundreds of them. Away from the jangling, discordant noises of the city, back to the restful country, where prevail health, happiness and harmony, continued success and with due respect continued success, and with due respect
to Single but Contented, Y will sign as
Young one.

## A Lonely One.

Saskatchewan, March 19, 1912. Dear Editor,- I am a subscriber to your valuable magazine and take some
interest in reading the letters in the correspondence pages. I am a lonely
bachelor
and of age. I would like if some of the girls would write to me. I would be sure to
answer all the letters. Am fond of answer all the letters. Am fond or
dancing and all sports, and am musical. As this year is heap year, the girls
should write to the boys first and should write to the boys first and get
acquainted. I saw that letter written by Josephus, and I think he doesn't
know what dancing is. I quite know what dancing is. I quite agree
with Phil in the March issue that we fellows that dance don't try and hug
the ladies in dancing, for they would the ladies in dancing, for they would
not permit it. Well, I will close. Wishing your magazine good luck and hoping
that the girls between 18 and 22 will write me, I remain, Buck.

## Another Applicant.

Portage la Prairie, Man., April, 1912. Dear Editor, $\overline{\text { I have been a silent }}$
eader of The Western Home Monthly for a number of years, and I must say taken a great number of farm papers, taken a great number of farm papers,
but none gives me as much pleasure as
The The Western Home Monthly. I am not a subscriber, for the one reason that I
have been lucky enough to be working have been lucky enough to be working
where it comes to the household. Howhhere it comes to the housenold. How
ever, I will be a subscriber some day,
I hope, and will never rearet it I hope, and will never regret it. I like
to read the correspondence column, which I think is one of the great fea-
tures of pour monthly; tures of your monthly; it is with re-
gret when I find I have read it all. don't skip any pages, but all the same, I am always paoging out for tor the name,
number. Well, I would like to number. Well, I would like to see this
letter in the happy circle columns, as I letter in the happy circle columns, as I
hope to get some correspondents from hope to get some correspondents from
some of your readers, especially the fair
sex. sex. agree with your correspondent
who signs himself in the ber as Single and Not Contented. He is the first man to come to the fore and air his views on the hired man. I am
one myself, so I linow what he is talk-
ing about when ing about, when he hit
dent, Young Farmer.

BRONCHITIS
Was So Choked Up She Could Hardly Breathe.

Bronchitis is an acute inflammation of the mucus membrane lining the air tubes of the lungs, and should never be ne glected, for if it is very often the disease becomes chronic, and then it is only a short step to consumption.
On the first sign of bronchitis Dr Wood's Norway Pine Syrup should be taken, and thus prevent it becoming chronic.
Mr. John D. MacDonald, College Grant, N.S., writes:-"My little girl, seven years old, caught a bad cold which developed into bronchitis. She was so choked up she could hardly breathe. Reading about your wonderful medicine Dr. Wood's Norway Pine Syrup, I decided to try a bottle, and with such good results that I got another which completely cured her. I cannot say too much in its praise, and would not be without it in the house."
Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price, 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## The Boy's Room.

As Suggested by the Room of Bright Boy. By Agnes Warren

In furnishing boys' rooms a totally would delight their sisters is imperative. They neither want nor need the delicate ing mysteries of glass and silver that are dear to feminine hearts. The simplicity that in days to come must characterize all their belongings should be in evidence; but this need not withdraw each particular boy.
In the matter of wall decorations, for instance, a boy has usually very decided
opinions of his own, and his taste may incline to the barbaric; and his mothe and sisters regard with something akin to dismay the colored pictures, posters and calendars upon which his affection
are set. But it is well when selecting the wall paper to provide also for these pictures. If the other furnishings are n harmony, rather startling combina. tions of color will, if they have a suitable background, not greatly interiere
with the looks of the room, and the lack of his pictures may interfere with the preasures of more importance. One room red paper with set patterns of cream an deeper red, without a border, but with and of heavy manilla paper, three feet ilt molaing, aqried around the give feet above the baseboard. This paper comes in rolls, so is conveniently and its pale, yellowish-brown forms and of pictures, and harmonizes with all. It one has a number of framed pictures suitable for a boy's room, a plain, du
hlue paper is excellent. A width green and gray matting may be carrie around the room, and just above the natting sheets of the gray paper used for covering library books, betwee bands of split bamboo, furnish rooms for the pictures a boy likes to arrange and
tack to the walls himself, and which will not interfere with the framed picture hung above them.
a boy's room. He may have shelves, o a boys room. He may have sheives, or yet none will take the place of a table, and the more drawers a table has, the better. It may be of polished wood, or sighed, "of painted pine," in color to harmonize with the woodwork of the room, but it should be ample in size student lamp. A foot-stool under the table will be in order: either a square box, covered with burlaps studded with gilt-headed nails which form a simple pattern, or a large floor cusino
with excelsior and covered with denim. If a hard wood floor is not obtainable, Indian red is one of the best color or a painted foor, especialy simply oiled, not varnished. With buff or cream-colored woodwork, dull yellow is excellent for the floor. The rugs should be few in number, su the in color, and ngs. Few boys wish for window draperes; plain roller shades of cream or natural linen color, and sash curtains in contrast or harmony with For a sunny all that are necessary. For a sunny of the small flowered chintzes is gooa, and yellow silk or silkaline ights up a shady place. If, however long curtains are thought desirable, traight widths of a well-designe
denim, hung by rings on slender poles, and reaching only to the bottom of the window, are the most suitable. Simila denim may be used for the bureau cover or a plain denim embroidered in a con
ventional design with white flax thread or heavy linen crash with an outlined border in rope silk of the prevailing color of the room. The less there is on the bureau, the better: combs and stiff,
straight-backed brushes, a small china dish for scarf pins, another for collar buttons, and a metal or china match
box are the only necessities. Many de-
vices have been planned, and mother have vied with each other in providing
boxes for collars and for cuffs, receptacles for neckties, and cases for handker chiefs, to put in the top drawers or
bureaus; and boys there doubtless are who put each separate article in its place and cover each box with. its own over. For the average boy, however,
long pasteboard boxes, of sufficient depth and without covers, placed side by side within-and each box fastened by means of thumb tachs to the bottom of-the drawer, are more appropriate. They
may first be covered and lined, if one may first be covered and lined, if on
wishes, the handkerchief box with a silk wishes, the handkerchief box with a silk
handkerchief or a gay bandanna, the others with colored linen; and the boy
may then put his things in the respec may then put his things in the respec
tive places; also if a small crash bag tive places; also if a small crash bag,
suitably lettered, is hung close by, he

may put the soiled collars and cuffs in the bag instead of among the clean ones.
There are subjects which it is safer to A tall, straight mirror. A tall, straight mirror, framed in bureau, with the necessary sandpaper or matches at one side. No boy would bject to the latter being mounted on white cardboard, with a yellow sun shinabove the stretch of sand.
In the bed covering, it is well to carry out the color scheme of the room, and outons and linens are now woven in Where blue can be used, nothing is so good as blue denim, the old familiar ue which grows softer and duller with nd wide border outlined in cream cot on, or with the entire surface covered with fleur-de-lys, outlined in white or
deeper blue flax thread, it is always deeper blue flax thread, it is always
satisfactory. In the matter of couches and cushions, more license is permitted than in other belongings of boys' rooms, but even
here caution is necessary. The covering

with twisted embroidery silk or flax | son, "how much will you charge to rent | thread. |
| :--- | :--- |
| The chairs, few in number and as |
| plain as wood can be fashioned, should |\(\quad \begin{gathered}me a rowbot ?" <br>

"How long do ye want it ?" <br>
"Five days,\end{gathered}\) plain as wood can be fashioned, should have straight backs and, preferably,
oiled or varnished surfaces, although oiled or varnished surfaces, although
they may be painted to correspond either with the wails or the correspond Book shelves there will be of course,
and portraits of favorite authors and portraits of favorite authors may
hañ chief and best ornament of the room. The mantel should be finished to suit the tastes of the boy. If he has "col-
lections," he will like the little cop lections," he will like the little cup-
boards above and below the shelf; vanity will receive no encouragement from the deep set mirror between the two upper cupboards. He may prefer a length of plain or embroidered fab-
ric above the shelf to form ground for a series of photographs: or a favorite rod above pictures of quiet
mountain pools or rock and fern-bordered brooks may be all that he desires. dered brooks may be all that he desires.
If he likes birds, he may like their "pic.

 his eves, and among them ucts that the the cold And provenumptive Syrup will eradical
"Five days; perhaps a week."
"Well, now, I'll tell you," said Hank deliberately. "I have two kinds of rates, hullsale and retail. One's for a
week or week or more, and the other's for a more, that'll cost ye take it a week or fifty cents a day, three dollars and a half a week. But for less than a week so don't feel as if I ought to charge quite to rent boats when more folks a chane out so long. So for less tha a week I charge at the rate of three dollars a won't cost for five days - were'n a dollar and seventy-five cents."

In conclusion-with consideration for their pleasures and interests, differing in kind only, not in degree, and, above
all, for their future aims in life, should boys have rooms set apart for them-
selves and these rooms should re. selves and these rooms s
ceive most careful attention:.

## Wholesale and Retail.

In arithmetic Captain Hank is not especially strong. In business, however,
he has "cut his eye-teeth." He knows he has cut his eye-teeth." He knows the difference between wholesale and re-
tail, although he sometimes gets the two styles of trading mixed. "Captain Hank,", said a summer
boarder, in the early
days of the sea-
place. The nests of vireos and orioles are especially attractive for such a pur-
pose; no bird is defrauded by such pose; no bird is defrauded by such
harmless collecting, and if anything harmiess add to a boy's interest in nature, could add to a boys interest in nature, marvels of her work.

## THE BUGABOO OF BAKE

## DAY MAKES LIFE DREARY

The great bulk of home baking is no longer necessary, "Let MOONEY do it." MOONEY'S BISCUITS are made right at your own door and arrive on your Grocer's shelves as fresh as they leave the oven.

They are the only Biscuits which come to your table fresh enough to take the place of your own home baking.

are sold in air-tight packages-or sealed tins. If you have never used them you have a delightful treat in store.

MOONEY'S are made in Winnipeg a Western Biscuit for Western people.

"LET MOONEY DO IT"
