## Foreword

T IS with fear and trembling we make this venture. The launching of such a volume on an innocent public is of necessity coupled with grave risks. But the die is cast and we stand or fall by it, with none the less a tremor or two at our own audacity.

In reproducing many of the sketches we are much indebted to the editors of "Varsity," "Torontonensis" and the "Evening Blast," for their kindness in furnishing the cuts. However, the majority of the cartoons are new, and have never appeared before.

Since the days of Tenniel and Thomas Nast, the aim of cartoonists has ever been to bring about muchneeded reform. This has not been overlooked in our attempts. Witness the "crowded library" scene. No

sooner had the keen eyes of the Faculty rested on this picture than the pressing need was borne home to them and immediate operations started on a new wing. Again, the turning of the old observatory into a college gaol or asylum was discountenanced by our restless pencil, and the authorities, realizing the error, quickly rectified it. These are only a few of the many lasting monuments to our efforts in the cause of reform. On the other hand, many a priceless pearl in the form of suggestion is as yet lying in oblivion.

In the series of "Heads of Varsity" and colleges affiliated, we have tried to include all the heads, but unfortunately have fallen short of our ideal owing to lack of material. Of those left out we ask pardon. We trust it will be freely granted.

And so, with a broad yet bashful grin, we await the shrill plaudits of the multitude, praying, at the same time, that the barbed shaft of criticism may yet be turned aside to a worthier object.

Yours,

The Cartoonists.

#### A FALSE ALARM

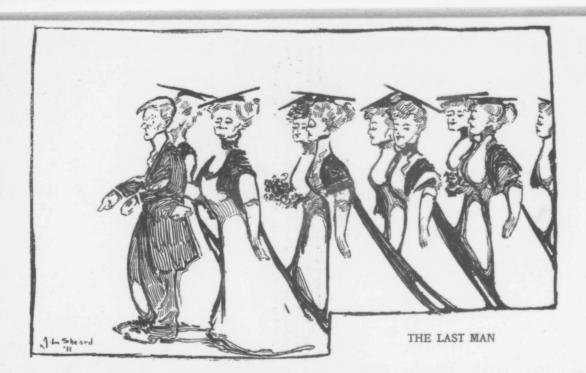

In their speeches at a University meeting, Col. Sam, Hughes advocated the founding of a University Regiment, and Major Lake feared the invasion of Canada by Orientals. Here we have the regiment ready for the fray. However, it was a false alarm.

#### VARSITY GAOL

At one time it was thought that the newly moved Observatory would be converted into a University Gaol. Great excitement prevailed. The above cartoon came out just in the nick of time, and the Faculty, realizing the reign of terror that would follow such a course, decided to keep it as originally.

By order of the Caput lectures in all faculties were resumed punctually January 5th, 1909. This picture tells its own tale.

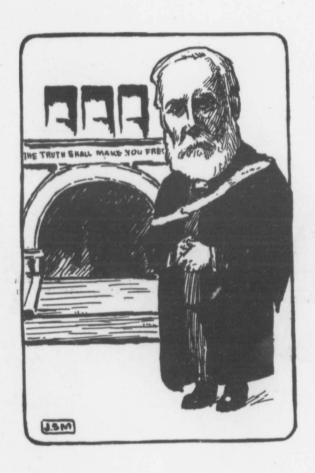

### MORNING SCENE IN THE LIBRARY

Another attempt at reform was in the direction of an addition to the Library. Such scenes as this were over common, deaths from suffocation being daily occurrences. Though only athletes used the rafters and chandeliers, yet there were many accidents.

## MIDNIGHT ELOQUENCE

Just a warning to Freshies. Don't be alarmed, if about election time, you are rudely awakened in the small hours by canvassers of opposing parties after your vote. Just maintain a placid exterior and endeavour to follow their arguments with a cool and rational judgment.
