J. A. JOHNSTON Publisher.

## Farewell Celebrations to Rev. A. C. Montag.

After services at Neustadt on Sunday morning July 8th, the Members of the Congregation assembled to tender their farewell to Rev. A. C. Montag, who has been their pastor for eight years, previous to his departure for Mildmay. As a token of gratitude and appreciation, they presented Rev. Father with a gold-headed cane. Mr. Higgins read a touching address, and the cane was presented by Mr. E. Seeber. Rev. Father Montag responded in a few words, thanking the people for their kindness shown to him during his stay at Neustadt. In the afternoon the Members of the Congregation at Deemerton gathered in the school hall at 3.30 P. M. to bid farewell to the loving and kind Rev. A. C. Montag, who is about to leave them to take charge of the parish at Mildmay. The following is the program of the school children:— Good-Bye Song—by E. S. Lorenz; Recitations—Junior Classes; Farewell Song—by J. E. Engelbrecht; Farewell Recitations—Senior Classes; German Song—All Classes; German Address—C. E. Goetz. God Save the King.

The tiny tots, who were the special friends of Rev. Father, presented him with beautiful bouquets of white roses and carnations and two artistic hand-painted cards, containing the addresses and songs. The members of the parish presented their kind and loving pastor with a beautiful and comfortable Morris Chair. They deeply regret the departure of their dear pastor. Rev. A. C. Montag highly appreciated the kindness shown to him and responded in a few, impressive words, expressing his regret to leave his parish after living with them in peace and concord for eight years. He said that it was the call of the higher Superior, the Rev. Bishop, to whom he vowed submission at his ordination, that made necessary for him to leave Deemerton and to work in a new field of labour. He assured the people and children of his prayers and good wishes for the future welfare of the parish and thanked them for the kindness ever shown him. He also expressed his appreciation of loving harmony existing among his parishioners and Pastor. The following address was read by Mr. Herbert Goetz, Highly esteemed Rev. Father,

With deep regret we have heard of your departure from our midst in the near future. Eight full years you toiled among us and showed yourself a true friend and father of the members of the congregation at Deemerton.

Always having the spiritual welfare of your members at heart and always ready to cheer, console and gladden the grieving hearts of your people and children, you have gained many friends during this time. Many hours you spent for the instruction and training of the innocent little ones for their future career, thus following the words of our Saviour, "Suffer the little children to come unto me for theirs is the Kingdom of Heaven," we therefore esteem and love you as a loving father and a spiritual adviser. We also appreciate all you did to beautify our church, as well as the church premises. We wish and hope that God will crown your work in Mildmay with success. Accept then, dear Rev. Father, as a token of our love and esteem for you, and as a mark of our appreciation of your faithful work whilst in our midst, these flowers and this Morris chair and purse.

May God bless you, and may you enjoy good health, so that you can work for the salvation of souls for many years to come. We hope that you will come to see us sometimes, and remember us in your prayers. This day will be often recalled by the children and people in years to come. We beg to remain your grateful members of the congregation at Deemerton, Ont.

Mr. Henry Wolfe of the 15th concession of Carrick, was operated upon at the Bruce County hospital last week for hernia.

### The Town Merchant's Chance.

New and serious problems for town merchants in Ontario are foreshadowed by the action of a large Toronto mail order house in establishing an order department in the town of Brampton. The mail order evil has been serious enough but now the big mail order octopus has taken another step and placed a personal representative in an adjoining town. With its frontiers enlarged the big business house will doubtless be encouraged to contemplate further encroachments on the rights of smaller merchants. There is one cheering aspect of the case and that is that the hand of the big merchant is also available for the help of the small merchant. We refer to the power of effective newspaper advertising. Indeed, in one way the small merchant has the big fellow handicapped in the race for local trade and favor. Most of the town newspapers are partial to the town merchants and refuse to accept mail order advertising. This leaves the local merchant with a free field in which to practise intensive cultivation of selling ideas looking to the greater production of paying customers.

## FORMOSA.

Quite a number from Hanover spent the 2nd. of July in this burg.

Mrs. Chas. Urich is having a sale of her household effects on July 12th prior to going out west to make her home in Tribun, Sask., with her son, John.

Mrs. P. F. McCue and children left a week ago last Saturday to spend a couple of months at her home in Corbetton.

Mrs. Strauss of Kitchener is visiting her mother, Mrs. V. Rettinger here.

Mrs. Jos. Oberle and two little boys of Elbow, Sask., spent over Sunday with Mr. and Mrs. Alex Oberle here.

Mr. and Mrs. Jos. Klein of Chepstow Sundayed with friends in this burg.

Rev. C. W. Brohmar attended the annual retreat of the priests of the Diocese of Hamilton at Kitchener last week.

Born on July 5th to Mr. and Mrs. Walter Tiede a daughter.

Mr. and Mrs. John Oehring of Hanover spent a few days beginning of last week here.

## MOLTKE.

The choir of the St. Paul's Church, Normandy spent Sunday at the home of Mr. and Mrs. Wm. Weigel in Hanover.

Mr. and Mrs. Oscar Hahn of Kitchener paid a flying visit to Mr. and Mrs. Jno. Ruhl of Moltke.

Messrs. Herbert Ruhl and Edgar Fischer made a special trip, north, on Sunday of last week.

Miss Pföhl has resigned her position as teacher from S. S. No. 13, Carrick and has taken a position in Owen Sound.

Mr. Louis Eidt has taken a position for a few days with Mr. F. Baetz.

Quite a number from here attended the Ruhl—Kreller wedding on Wednesday.

Miss Tillie Rossman has taken a position with Mr. Jno Ruhl for the next months.

## Report of S. S. No. 13, Ca

Jr. V—Simon Dahms 69%. Promoted to Jr. IV—Pass—Laura Hill 64%, Otto Lantz 61, Frieda Filsinger 60.

Promoted to Sr. III—Honours—Arthur Dahms 77%. Pass—Noah Lantz 63, Pearl Reuber 62, John Eickmeyer 61, E. M. Pföhl.

### For Sale.

1 five year old, driving mare, double; 1 seven year old general horse; 1 low, rubber tired buggy, tired buggy, with auto seat, as new. Liesemer & Kalbfleischer.

### The Coasting Nuisance.

Complaints galore are coming in concerning the dangerous and annoying habit the village boys and girls have acquired of coasting down the concrete walks with their express wagons. Pedestrians are constantly in danger, and the pastime is kept up until as late as ten o'clock in the evenings. The Council has instructed the local constables to put an immediate stop to the practise, and also that of riding bicycles on the sidewalk. Those who offend after this notice will run the risk of being prosecuted.

### Saw a Deer.

Mr. James J. Darling of the Elora road, while walking over his farm one day last week, noticed a strange looking animal pasturing in his neighbor's barley field. He made his way quietly nearer, and was astonished to discover that the animal was a red deer. An auto coming along the road frightened the deer, and it ran in great bounds to an eminence some distance away, where it stood and viewed the surroundings. There is absolutely no doubt as to the identity of the animal, but how it got down to this section of the country is quite a mystery. It is over forty years since a deer was seen running at large in the township.

### Young Life Cut Off

It is our sad duty this week to report the death of Miss Rose, youngest daughter of Mr. and Mrs. August Lobsinger of this village. Deceased, who was twenty-two years of age, contracted a heavy cold last summer, and although she attended to it promptly, she was unable to get it cured, and her lungs became affected. Pulmonary tuberculosis developed, and the tender young life drooped and finally succumbed on Tuesday afternoon of this week. Miss Lobsinger was born and brought up in this village, and was a good, faithful, true girl, and her death is deeply regretted. The funeral takes place this (Thursday) morning at nine o'clock to the Mildmay R. C. Cemetery. To the sorrowing family is extended the sincerest sympathy of all their friends.

# Your Problems

Conducted by Mrs. Helen Law

Mothers and daughters of all ages are cordially invited to write to this department. Initials only will be published with each question and its answer as a means of identification, but full name and address must be given in each letter. Write on one side of paper only. Answers will be mailed direct if stamped and addressed envelope is enclosed. Address all correspondence for this department to Mrs. Helen Law, 235 Woodbine Ave., Toronto.

May:—1. It is not good form to wear face veils in the evening. The only excuse for a veil at night is when one is motoring. 2. Since your friend has invited you to her party and asks you to bring a man with you, it would be quite proper to write to a man whom you knew well and ask him to go. Word the note thus: My Dear — Miss — is giving a little party next Friday evening and has asked me to bring a man with me. Would you care to go? If you can, let me hear as soon as possible, and stop for me that evening at 7.45 o'clock. Very sincerely, May— . 3. To clean a straw sailor hat try the following: Dissolve one teaspoonful oxalic acid crystals in one cupful boiling water, and, after brushing the hat thoroughly to remove all dust, lay it on a flat surface and scrub with this solution, using a small brush for the purpose. Work rapidly, beginning with the crown; rinse in cold water, wipe dry and place on a flat cloth in the sun to dry. Do not let the hat become thoroughly saturated with the water.

Gardener:—Try cayenne pepper to rid cabbage heads of worms. Sprinkle the cabbage as soon as the worms appear. A remedy for cutworms and other grub is to mix the seed with sulphur before planting. This may be used with seed corn also.

Mrs. C. L.:—To make an endless clothesline fasten two grooved wheels wherever you want your line and stretch a wire line around the wheel. As you hang up each piece of clothing you can turn the wheel and thus make room for the next piece directly in front of you. The clothes may be taken from the line by this same convenient method, which saves many steps and is also a boon in case of rain.

E. T.:—A widow when preparing for her second marriage should drop the name of her former husband and have her household linen marked with her maiden name. Linen procured after her marriage should be marked with the name of her second husband.

Games:—The following are suggestions for your Sunday school picnic. You can have the usual races, of them for the younger folks, and games for the older persons. Fighting for the flag is a particularly time-consuming game for the younger boys and girls. You will need about a dozen medium-sized cotton flags of the inexpensive kind. One flag at a time is placed upright in the ground and girls or boys start in a race to get it. Give them some handicap. Boys can race with potato sacks, girls can race blindfolded and crawling backward; or the boys can race crawling on their hands

and knees and the girls hopping on the right foot. Another way to race is to go as partners, each holding onto the opposite ends of a clothespin. Of course, the flags captured by each are retained. Ringing the Victory Bell is another good game. Form an arch of three cross poles, rising considerably above the heads of the company. Embed the uprights in the earth and nail the crosspiece firmly on. Then decorate the arch with red, white and blue bunting and from the top bar hang a large bell. The game consists in hitting this bell with balls which are provided, each player being given three or more throws in a round. The tape race is fun. Have as many lengths of tape as there will be players and have all the tapes about the same number of feet—ten or twelve—then provide several pairs of sharp scissors. Attach all the tapes to a fence. Four or six players may contest at once, according to the pairs of scissors available. The contestants hold the loose ends of the tapes, which they draw out taut. At the signal each player begins to split his tape up the center line with the scissors, the player arriving at the end which is tied winning the race. After each set has tried, match the winners for the final decision. This would be suitable for the older guests. Another race consists in pushing four pebbles over a prescribed course with walking sticks. All four must be rolled at once, each in turn.

X. Y. Z.:—The engagement ring is put on over the wedding ring and thus guards it. The former is removed before the ceremony, leaving the finger free. Then the bride slips back the engagement ring at her first opportunity.

W. B.:—To restore the color of black kid, mix ink with the white of an egg and apply with a soft sponge. To clean white kid, dip a clean white flannel cloth in a little ammonia and rub lightly on a cake of white soap. Rub the soiled parts gently, changing the cloth as soon as it becomes soiled. To polish tan shoes, wash the shoes clean with a sponge and warm water. Wipe with a dry cloth and let dry. Then rub freely with the inside of a banana peel. Wipe carefully with a dry cloth and polish with cotton flannel. Patent leather shoes should not be "polished" in the strict sense of the word. Apply a mixture of one part linseed oil to two parts cream to the shoes, rubbing it well in with a soft flannel cloth. This will keep the leather soft and it will not crack as readily.

Joe:—Even though you have not yet met the bride, the present should be sent to her. Wedding presents are never sent to the bridegroom.

## Bedtime Stories

### Tommy's Stamp Book.

When through my book of stamps I look,  
What wondrous things I see!  
It's dearer than the storybook  
My mother reads to me.

With great delight ten times a day  
I stop my play to glance  
Upon these stamps of Paraguay,  
Greece, Italy and France.

They beam on me in every hue  
That in a stamp is seen—  
In crimson, lavender and blue,  
And cardinal and green.

I look upon the book with pride  
To see its pages fill;  
And yet I am not satisfied,  
And shall not be until

The postman pauses in his tramp,  
And in his outstretched hand  
I see a letter with the stamp  
They use in Fairyland.

### The Fairy of the Roses.

Most people thought the old lady who lived in the house that stood all by itself was very queer and very cross; but Alline said she was cross only because she had rheumatism, and that if you could get her to tell a fairy story she would forget all about the pain, and be just as pleasant as anything.

"I'm going to her house now," said Alline, "for she promised she would tell me to-day about the fairies of the roses."

"Can you see that rose tree?" said the old lady, when Alline was comfortably seated on a stool beside her. "Well, it is owned by a fairy who, like the old woman who lived in a shoe, has more children than she knows what to do with. She is so dreadfully afraid of having anything happen to them that she has shut each one up tight in a rosebud. There they will stay until they grow big enough and strong enough to burst the buds open, and then each one will fly away."

"And where will they go?" asked Alline.

"That I cannot say," answered the

old lady; "there are so many of them, and they choose such different places. They are also very fond of disguises—sometimes one might take them for butterflies, at other times for humming birds. Often, when you can't see them at all, you can find out just about where they are by listening."

"Oh," cried Alline, "what do they say?"

The old lady shook her head. "Who can tell what they say? If that were possible, mortals would perhaps be wiser than they are. You can often hear them either whispering among the leaves—though there are some who will tell you it is only the wind—or singing by the brook a little tinkling song."

While the old lady and Alline were talking, a sudden shower that had come up passed over, and the sun shone again in all its warm brightness. The birds began to sing, and in through the window darted a humming bird. It darted right out again; but not before the old lady and Alline had both seen it.

"Alline," the old lady said, "a bud on my rose tree looked this morning as if it might be pushed open soon. Go to the window and see if the fairy hasn't come out."

Alline ran to the window. "I see a great white rose," she said. "That little humming bird must have been the fairy. Oh, I'm so glad we both saw it!"

### Sunlight for the Cellar.

There is a mistaken idea that a house is warmer if the cellar is not under the entire building. The argument is that there are no windows with crevices to let in the cold air. That may be true concerning the cracks next to the frames, but without doubt there will be dampness where the ground has not been excavated. Then the first-floor joists are nearer to the frost in the earth in the winter. Set the first-story beams well up from the grade, not less than 24 inches from the soil. If there is a distance of 30 inches between it is still better.

Excavate for a basement beneath the whole house, and do not be afraid to provide sufficient windows. There is nothing quite so dingy as that dark and damp space under the house. The expenditure of a few dollars would have made it light and cheerful. Do not try to bar the sunlight.

**The Real "War Bread"** must contain the entire wheat grain—not the white flour center—but every particle of gluten and mineral salts—the outer bran coat that is useful in keeping the bowels healthy and active. **Shredded Wheat Biscuit** is the real "war bread" because it is 100 per cent. whole wheat prepared in a digestible form. Contains no yeast, baking powder, seasoning, or chemicals of any kind. Food conservation begins with Shredded Wheat Biscuit for supper. Delicious with sliced bananas, berries, or other fruits. **Made in Canada.**

**HEAVY LOSS FROM BARN FIRES.**

**Hay, Improperly Cured, May Cause Spontaneous Combustion.**

During the years 1912-1916 inclusive, no less than 5,200 barns were destroyed in Canada, with an aggregate loss of over \$7,850,000. These, like the majority of fires, might have been avoided by the exercise of intelligent forethought and proper care. Investigation shows that the most prolific sources of barn fires are lightning and spontaneous combustion. Evidence gathered from all parts of Canada and the United States proves that rod-ded buildings are practically immune from lightning damage. The cost being a mere fraction of the possible importance to the farmer that every barn should be efficiently protected by lightning rods.

While it is more difficult to arrive at conclusions with regard to fires caused by spontaneous combustion, it is generally held that such fires are of frequent occurrence. Owing to the excessive number of barns burned in Ontario during the summer of 1916, an investigation was undertaken by Prof. W. H. Day, Professor of Physics, Ontario Agricultural College, with a view to discovering the exact conditions favorable to spontaneous combustion in stored grasses. It was proved that large quantities of imperfectly cured hay were frequently stored in barns with little or no ventilation, and that the high temperatures reached during fermentation resulted in a number of fires. Farmers are not generally aware that the cells in hay continue their existence for some time after it is cut and, when the moist compressed mass is housed in close barns, a temperature of 132 deg. F. is quickly reached. Added to this, heat from microscopic spores, germinating seeds and the heat of the sun upon the roof may raise the temperature of the mow to 212 deg. F., when charring commences. The carbon thus formed absorbs oxygen and the mass grows hotter, until, at 265 deg. F., visible combustion takes place. Bran, grain and silage may also ignite spontaneously under similar conditions. The remedy for spontaneous combustion is simple and easily applied. All hay should be perfectly dry before storage. In mixed grasses, special care should be given to the clover. Timothy may appear perfectly dry while the heavy stalks of clover may retain a large percentage of moisture. All barns should be provided with ample top ventilation. If these simple matters are given the attention they deserve, spontaneous combustion will cease to figure as a cause of barn fires in Canada.

**Combining Two Materials**

A departure from absolutely straight lines is shown in this sketch. The material forming the skirt is cleverly draped and attached to the waist, giving a bouffant appearance at the hips and a narrowing effect at the ankles. The combination of plaid and plain gingham use in developing this dress is very fashionable. McCall Pattern No. 7832, Misses' Dress; two-piece skirt, suitable for small women. Pattern in 3 sizes; 16 to 20 years. Price, 20 cents.

This pattern may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Ont.

**WAR'S LESSONS.**

**This Time of Stress and Strain is Teaching Us Many Things.**

When we are hearing so much of the horrors of war that we grow sick at heart, it is well to open our eyes to some of the good things that are coming out of all the stress and loss. First of all we are less self-centred, less self-indulgent. Nearly every one has forgotten his own petty ills and grievances in the sight of so much greater suffering.

Men and women are sacrificing pleasures and luxuries as they have seldom done before. Mere sacrifice of these things is nothing meritorious in itself, but when it is done for a worthy purpose it makes for character. It is remarkable how easy and simple we find it to do without many things now that we have undertaken it.

We are getting more democratic because of the war. Social lines merge in the one purpose to do one's level best for the country and for humanity. Little shams and purposeless poses are shamed into disappearing.

We are becoming more frugal, more appreciative of real values, more deeply conscious of the vulgarity and sinfulness of waste. We are growing more efficient. We make many mistakes by the way, but we profit by them and are learning that if the world is to be saved it must be through useful, effective work. Even the children are assuming their share of responsibility.

**ASIA MINOR.**

**Where Its Borders Lie is a Sort of Geographical Puzzle.**

"Asia Minor" is a geographical term of vague extension. It puzzles any one to say exactly where it leaves off.

The name dates only from the fifth century, A.D., when Orosius used it evidently as a novelty. The Roman Empire knew no Asia Minor. Indeed, the Roman province of "Asia" was actually smaller than this Lesser Asia. The alternative name Anatolia (land of the sunrise or east) which has found favor with the Turks, is equally indeterminate.

"The Levant," which means the same thing as Anatolia (region of the rising sun), is even vaguer in its geographical scope. It includes Constantinople and everything anywhere near the eastern Mediterranean.

Few geographical names have incurred more unfavorable association. "Levantine" honesty, are a byword, as might be expected from such a jumble of people. Our words "levanter" and "to levant," on the other hand, testify to the fact that dishonesty is not unknown even in the west. They originate from the disappearance of men who could not pay their gambling or other debts and were reported to have gone to the east.

**Hardships of Alpini.**

The Italian army maintained its captured outposts during the severe winter of 1916, often at elevations of from 7,000 to 12,000 feet, only by building huts for its men and sending them hot food in thirty-gallon thermos bottles hauled up by steel ropes.

**STRENUOUS WORK SOON TELLS ON YOU**

**Business Men and Breadwinners the Victims of Nervous Exhaustion.**

When worry is added to overwork men soon become the victims of nervous exhaustion—neurasthenia—the doctor calls it. Some have no reserve strength in their systems to bear the strain; others overtax what strength they have. If you find that you are nervous and not sure of yourself, that you sleep badly, and wake up tired and aching, your nerves are out of order. Other signs are inability to take proper interest in your work; your appetite is fickle; your back feels weak, and you are greatly depressed in spirits. One or more of these signs mean that you should take prompt steps to stop mischief by nourishing the nerves with the food they thrive on, namely the rich, red blood made by Dr. Williams' Pink Pills. These pills have cured thousands of cases of nervous disorders, including nervous prostration, neuralgia, St. Vitus dance and partial paralysis. Here is an example. Mr. P. H. Callan, a well known business man in Coleman, P.E.I., says: "I owe my present health, if not life itself, to Dr. Williams' Pink Pills. I had always been an active man, and when I began to run down in health paid little attention to it as I thought it only a temporary weakness. As time passed, however, I found myself growing worse, and consulted a doctor, who said that I was not only badly run down, but that my nervous system was badly shattered. I lost flesh, my appetite was poor, I slept badly and notwithstanding the doctor's treatment grew so weak that I had to leave my business and was confined to the house. Time went on and I was steadily growing weaker, and my friends were all greatly alarmed for my condition. In this condition I was strongly recommended to try Dr. Williams' Pink Pills, and as the doctor's medicine was not helping me I decided to do so. By the time I had used three boxes I could tell that they were helping me. When I had taken eight boxes of the pills I felt able to attend to my business again, and people were surprised to see me out. I continued the use of the pills until I had taken twelve boxes, by which time I was feeling as well as ever I did, and was being congratulated by all my friends on my full restoration to health. I feel now that if I had used Dr. Williams' Pink Pills at the outset I would not only have saved much money spent in doctor's bills, but would have had renewed health sooner. I cannot speak too highly of this medicine, and would recommend it to every man who feels weak, nervous or run down."

You can get these pills through any medicine dealer, or by mail at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**BEE-KEEPING IN 1918.**

**How to Prepare for a Maximum Honey Crop Next Year.**

While a maximum production of honey is of pressing importance in this war-foot year, yet increasing the bees for next season must not be neglected.

Roughly speaking, bees that are in the hives at the commencement of the honey-flow gather the crop, while the brood builds up the colony for next year, unless there is to be another important honey-flow. This brood is very valuable for forming nuclei, because these, started early with a laying queen, or ripe queen-cell, will build up into strong colonies before winter. Increasing in this way with brood from strong colonies during the honey flow is the basic principle upon which an apiary can be quickly built up while at the same time an almost full honey-crop is secured.

In newly-formed nuclei containing brood in all stages there is always more or less desertion of bees and consequent death of the young brood and sometimes chilling and death of the older brood even when the nuclei are skillfully made by an experienced apiarist. Further, queens may not be immediately obtainable, or they may be lost in introduction. Robbing of the newly-formed nuclei has also to be guarded against, but during the height of the honey-flow only carelessness will cause this; towards the end, however, the danger of robbing grows so great that it is difficult to maintain newly-formed nuclei even when strong. Desertion may be checked by stopping the entrance with grass; the bees will make their way out when the grass dries and shrinks in about two days, but care must be taken to avoid overcrowding the confined bees, which would lead to stifling, especially in hot weather. A good way to overcome the loss of young brood is to place the brood over a queen excluder a week before its removal from the parent hive. This may be done in the ordinary course of relieving congestion in the brood chamber as a means to discourage swarming, a frame or two of empty comb or of foundation being placed in the brood chamber when the brood is raised.

All of these risks may be greatly minimized as follows: Have all the queens' wings clipped (this is not essential), and when a colony of a strain that it is desired to propagate swarms, move the parent hive to a new stand, and place the swarm in an

empty hive on the old stand, the queen having been picked off the ground and placed in the empty hive. The swarm will return to the new hive at the old stand. The field bees will now join the swarm, and the super should be transferred from the parent hive to the swarm which will produce the crop of honey. The colony, now depleted of bees but rich in brood, is divided a week later into three to six nuclei, each nucleus consisting of two or three frames containing brood and honey carrying two or three queen-cells containing queens soon to emerge with the adhering bees.

This method has the great advantage that it not only controls and satisfies the troublesome swarming instinct but it helps to secure the desired ends by natural means. The honey gatherers are segregated into a strong force, and the brood, being mostly capped, is not likely to get chilled; the bees desert neither it nor the queen-cells readily, and all trouble in raising and introducing queens is avoided. The bees in the newly-formed nuclei are in the post-swarming stage, when their instinct is to spread themselves over and incubate as much brood as possible, and especially the queen-cells.

The beginner should be warned not to divide the parent colony into too many weak nuclei, for this fault may be rectified in the autumn by uniting. The ideal conditions for building up nuclei are a slow honey-flow throughout August and early September. Fortunately these are supplied in most Canadian localities by goldenrods, asters and buckwheat.

Mated queens should be replaced any time up to the first or second week in October, preferably not during the robbing season.—Experimental Farms Note.

**ON VIMY RIDGE.**

Dedicated to the Canadians who died at "Vimy Ridge," April 8, 1917.

O'er prairie homestead, by mountain peak,

Wherever men Honor and Glory seek, With awe and reverence they will speak

Of Vimy Ridge.

Sons of the Maple Leaf, there side by side,

Met thrust with thrust their Nation's Pride, They laughed at Death, and gloriously died

At Vimy Ridge.

What though a rude cross mark their grave,

Not a tablet in a cloistered nave, If for their land their all they gave, By Vimy Ridge.

Canadian people, do not weep, these are not dead

But merely sleep; Though foreign clay their bones may keep

On Vimy Ridge.

Think that Mortal Flesh and Blood,

Could bind such Souls to earth for good, They fly to Heaven as Heroes should From Vimy Ridge.

Throughout Canada their names will roll,

Will stir to the depth the Empire's Soul, While Bells in Heaven, their requiem toll

O'er Vimy Ridge.

No. 22624 Jack Butler, "D" Squadron, C.L.H., London, England.

**Easy For The Hen.**

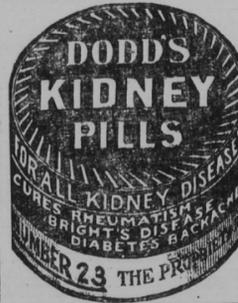

Mother to small son: "Bobby, dear, I hoped you would be unselfish enough to give little sister the largest piece of candy. Why, see, even old Biddy gives all the nice big dainties to the little chicks, and only keeps an occasional tiny one for herself."

Bobby thoughtfully watched the hen and chickens for a time, and then said: "Well, mamma, I would too, if it was worms."

Minard's Liniment Cures Distemper.

Dry fruits and sweet corn and other vegetables that may be preserved in this way. Save the cans for products that can be kept in no other way. Use bottles corked and sealed with paraffine for catsup and other liquid products.

Boring holes into the stumps of hard wood trees and filling these holes with equal parts of nitric and sulphuric acid will so soften the wood that it can be removed by ordinary picks. This has been demonstrated in Germany, and is the common treatment there of hard wood stumps.

ED. 7. ISSUE 27-17.

**CANADA IS CALLING.**

Canada is calling "Give us Men!" Men to stand guard at the Gate— Men to keep the nation great— Men who trifle not with Fate— Loyal Men!

We've a heritage to hold, O my men! Bought by sires in days of yore, Who, when danger touched our shore, Made the answering cannons roar— "We are men!"

We'll be loyal to that trust now, as then; Fling the old flag to the breeze— Ours the freedom of the seas— Humbly asking, on our knees, "God make us men!" —Kate Simpson-Hayes.

**BABY'S OWN TABLETS OF GREAT VALUE**

Mrs. J. A. Lagace, Ste. Perpetue, Que., writes:—"Baby's Own Tablets have been of great value to me and I would strongly recommend them to other mothers." Thousands of other mothers say the same thing. They have become convinced through actual use of the Tablets that nothing can equal them in regulating the bowels and stomach; driving out constipation and indigestion; breaking up colds and simple fevers; expelling worms and curing colic. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**DEATH PENALTY IN RUSSIA**

**National Sentiment is Opposed to Capital Punishment.**

It is not at all surprising to those who know Russia that one of the first acts of the new Government was the abolition of the death penalty. Capital punishment is indeed as much against the national sentiment as against tradition in Russia, and as long ago as 1888 the late W. T. Stead declared that it was never inflicted without producing a feeling of shame among educated Russians.

The death penalty was abolished by the Empress Elizabeth in 1750, and though it was later revived, it was only in recent years, and especially after the rising of 1905, that it was carried out in other than exceptional circumstances. The number of executions then, however, quickly multiplied, and early in 1909 twenty-seven took place in one day.

Minard's Liniment Cures Diphtheria.

**Wayside Food.**

Not every green thing good to eat grows in a market-garden. To the initiated the field and roadside are always sufficient for a delightful salad. The most wholesome and deliciously flavored of these wild salad ingredients is the dandelion, that despised "weed" which we grub out of our lawns with such savage delight. A dandelion diet would be a little monotonous, but the young and tender shoots, either boiled as greens, or used with other things as a salad, are tip-top stuff.

Minard's Liniment Co., Limited.

Gents.—I cured a valuable hunting dog of mange with MINARD'S LINIMENT after several veterinaries had treated him without doing him any permanent good. Yours, &c., WILFRID GAGNE.

Prop. of Grand Central Hotel, Drummondville, Aug. 3, '04.

**If We Lose.**

At the end of a war which cost Germany only half a billion dollars, Bismarck extracted just double that amount from France in an indemnity. Germany kept an army in France until the last dollar was paid. Guess how big an indemnity the Kaiser will collect from you and me, England and France, if he wins this war? It has already cost him more than twenty times what his grandfather paid out in the Franco-Prussian war. On that basis we are already sure of twenty billions of indemnity.

**Sore Granulated Eyelids, Eyes**

Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye Freask Druggists or Murine Eye Remedy Co., Chicago

Not an Acorn. When James A. Garfield was president of Hiram College, a man brought up his son to be entered as a student. He wanted the boy to take a course shorter than the regular one.

"My son can never take all those studies," said the father. "He wants to get through more quickly. Can't you arrange it for him?"

"Oh, yes," said Mr. Garfield. "He can take a short course; it all depends on what you want to make of him. When God wants to make an oak He takes a hundred years, but He takes only two months to make a squash."

Make sure that your horse has every day pure, fresh water, such as you would be willing to drink yourself.

Minard's Liniment Cures Colds, Etc.

**Some Peculiar Wills.**

Among many curious wills may be reckoned that of the great Shakespear, who bequeathed to his wife his second-best bed with the furniture, and that alone; whilst an old Provost of Eton left a sum of money sufficient to give every boy at Eton a half-sheep on February 27th of every year. Now-a-days, however, the three-penny-bit takes the place of the half-sheep.

Minard's Liniment Cures Garget in Cows

**Just Like Real Kings.** One Indian Rajah's subjects number about half a million, and he rules over a state as big as England and Wales. He has his own flag and his own army and navy. These are maintained in an efficient state out of a revenue of \$1,750,000 a year.

**MONEY ORDERS.**

PAY your out of town accounts by Dominion Express Money Orders. Five dollars costs three cents.

Don't let your dog be tortured by fleas in summer.

Little Irene marched into the room breathless. "O mother, don't scold me for being late for supper because I've had such a disappointment," she said. "A horse fell down and they said they were going to send for a horse doctor, so I waited and waited, and what do you think? It wasn't a horse doctor at all. It was only a man."

**NEWSPAPERS FOR SALE**

**MISCELLANEOUS**

CANCER, TUMORS, LUMPS, ETC. Internal and external, cured without pain by our home treatment. Write us before too late. Dr. Bellman Medical Co., Limited, Collingwood, Ont.

**ANY CORN LIFTS OUT, DOESN'T HURT A BIT!**

No foolishness! Lift your corns and calluses off with fingers—It's like magic!

Sore corns, hard corns, soft any kind of a corn, can fearlessly be lifted right out with the fingers if you apply upon the corn a few drops of freezone, says a Cincinnati authority.

For little cost one can get a small bottle of freezone at any drug store which will positively rid one's feet of every corn or callus without pain.

This simple drug dries the moisture it is applied and does not irritate the surrounding skin by drying it or afterwards.

This announcement will be of many of our readers. If you haven't any freezone to use, surely get a small bottle of his wholesale drug store.

**WOMAN SICK TWO YEARS**

**Could Do No Work. Now Strong as a Man.**

Chicago, Ill.—"For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I never had better health. I weigh 165 pounds and am as strong as a man."

I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound. —Mrs. JOS. O'BRYAN, 1755 Newport Ave., Chicago, Ill.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, and nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

W. J. Elliott, Principal.

**Rulers Respecting Voters' Lists.**

Owing to the large number of inquiries which have been made of the department of municipal clerks and others as to the preparation of voters' lists under the amendments made to the law at the last session, the Attorney General points out:

1. That the Ontario Voters' List Act amendments, 1917, chapter 4; the Ontario Franchise Act, 1917, chapter 5, and the Election Law Amendment Act, 1917, chapter 6, were brought into force by proclamation on the 12th day of May last. The Women's Municipal Franchise Act, 1917, chapter 48, came into force on its passing, namely the 12th day of April.

2. While the Ontario Franchise Act is in force a list of voters will not be prepared under it until a further proclamation has been issued directing the preparation of that list. The list prepared under this Act is for use at elections to the Assembly only.

3. The voters' lists prepared by municipal clerks will no longer contain a Part 3, of persons entitled to vote at elections to the Assembly only, as the list prepared under the Ontario Franchise Act will take its place.

4. In the preparation of the voters' list the clerk must be guided by the assessment roll, and if the names of women entitled to vote under the changes in the law do not appear on the roll an appeal must be taken to the Court of Revision or the county judge to have their names entered.

5. A married woman, on her own property may, by giving a notice to the assessor or the clerk enable her husband to vote at municipal elections instead of herself, and in that case the name of the husband alone would appear on the municipal voters' list as entitled to vote, but this would not prevent the name of the wife being entered on the list prepared under the Ontario Franchise Act.

**Presentation to Father Haller.**

A very interesting ceremony took place in the Catholic Church after mass Sunday morning, when Father Haller was presented with an address and a purse of money on the occasion of his leaving to take charge of the church at Deemer-ton. Mr. Brennan read and presented the address. Father Haller has been 44 yrs. in Chesley and during that time has been a devoted worker as well as a most popular priest. In reply to the address Father Haller spoke very touchingly of the many kind friends he was leaving in Chesley and regretted that he could not stay and continue the work of the Church here to which he had become so deeply attached. The address was as follows:—

Dear Father Haller:—  
 It was with deep regret we, your parishioners, in Chesley, learned that you had been transferred to another field of labor. During the 44 yrs. you have ministered to us we have been blessed by your Godly Counsel, interpretation of the scripture and the administration of the Mass. Your gentility has made it a delight for us to come in touch with your charming personality and we can truly say your stay with us has been a great blessing to us. We ask you to accept this purse of money as a slight token of the high regard in which you are held by your people in Chesley, and when on other fields, may your thought sometimes revert to the many warm friends you left in Chesley and community. Our wish is that the Holy Father may spare you to work in his vineyard for many years, and that eventually we may all meet above, where parting is no more.

The Congregation of Chesley Catholic Church

Chesley Enterprise.

**Warning on Licenses.**

In future a warning to parents as to their duties to the province in the matter of registering the birth of a child will be printed in bold type and red letters on all marriage licenses issued by the province. The novel idea is part of a plan which is being put into effect by the Vital Statistics branch to secure a more complete registration of birth. Officials of the department say that insufficient entries have been made on their records because of an erroneous belief which prevails that the registration ceremony is part of the doctor's duty. This is not in accordance with the Act, which insists that the parents must attend to the registration. As part of their plan of education the department has caused to be printed in red on the back of all marriage certificates the following extracts from Section 20 of the Vital Statistics Act: "Where a child is born notice shall be given to the registrar of the division in which it is born (1) the father, if living; (2) in case of his inability, or if he is dead by the mother.

Three children were left alone in a Toronto house. They were aged seven, five and two years respectively. A fire broke out and neighbors had to smash in the door to rescue the little ones as the flames were about to destroy them. It is said now that the mother will appear in court on a charge of negligence. And that is right unless there are some exceptional circumstances not yet reported. Locking mere babes in a house alone is too dangerous to be tolerated.

 Price subject to change without notice

**The Peak of Motor Car Fashions**

This new Overland Country Club Light Four is a distinctive and smart car in the low-priced car class. The rich, gray body, with black fenders and trimmings is set off to pleasing advantage by red wire wheels that give just the right flash of brilliant color. The two comfortable front seats move forward or back independently, and a spacious riddle between gives free passage to a roomy seat for two passengers in the rear. For riding comfort, the Overland Country Club is a revelation. Long, cantilever rear springs give it the riding ease of a much heavier, bigger car. It has ample power—and it is economical of gasoline. An easy car to handle, and completely equipped. An unusual demand for this model makes it necessary to place orders at once to secure spring delivery.

**PETER REUBER, AGENT.**

Willys-Overland Limited, Toronto, Ont.  
 Willys-Knight and Overland Agents, Commercial Cars

Mr. Robert Trench is home from the west and reports the crops in some sections of Saskatchewan just through the ground, no rain having proved a great set back to the crops. In Alberta the outlook is much better. The grain there is looking well and prospects point to a good yield at present.—Teeswater News.

Our idea of a perfect ass is a man puffing a ten-cent smoke and boasting that his wife has had only two hats in the last three years.

The prediction is freely made now that the price of potatoes will be less in the fall. If that is so, the men who have gone out, either on vacant lots or acres, and planted them where nothing grew last year can be thanked for the change. One splendid way to take the profit on high prices is to increase the supply. And it should not be forgotten that Providence has been on the side of the men who are co-operating with the forces of nature in Ontario.

Down in the Ottawa Valley the farmers are praying for rain and in Bruce and Grey they are praying that the rainy season may speedily come to an end. Crops in low lands have been ruined by the continued wet weather. Last year it will be remembered June was a wet month and then came the dry season when there was no rain for the space of three months.

Too much rain in Central Ontario is causing considerable worry to farmers.

## Give Your Wife One

THOUSANDS of wives and daughters run their own Ford cars. They use them for shopping, calling, attending the theatre, taking the children for a run in the country or to school.

The FORD is as easy to operate as a kitchen range, no knowledge of mechanical details being necessary. Inexpensive to operate. A woman can call around town all afternoon, or take a 25-mile spin in the country, at the minimum of cost for gasoline, oil, wear on tires, etc.

You couldn't give "her" a present she would appreciate more than this beautiful, modern car, with its stream-line effect, tapered hood and crown fenders.

## LIESEMER & KALBFLEISCH

### WINNER OR WASTER - Which are You?

On a recent occasion the Honorable the Minister of Finance for Canada, in addressing a representative Canadian audience, dealt with the urgency of everybody doing, even in the smallest way, their share towards aiding the Empire.

It is well to remember that every dollar thrown away extravagantly does one hundred per cent. more good to the enemy than one dollar saved by ourselves.

The wealth of the world finally filters through individual dollars, and if the curse of extravagance strikes deeply enough, our ruin is bound to follow.

Save a dollar TO-DAY and do a hundred per cent. more for the Empire than your extravagant neighbor does for the enemy.

**Interest to Depositors at 3 per cent.**

### PALM CREAERY

TRELEAVEN & RANTON  
PALMERSTON, ONT.

NOTICE—We want an Agent here for Palm Dairy Ice Cream. Write for prices and terms.

At the Conservative Convention held at Warton last week, Fr. Foster, a dentist of Warton, was chosen as standard bearer for the party in North Bruce. Dr. Foster was born in Howick township, near Harriston. He is a graduate of the School of Dentistry, Toronto, and has practised in Warton upwards of 18 years. He belongs to a number of societies, in most of which he has held important offices. He is a good speaker and held in very high regard. His opponent in the next provincial election, of course, will be Mr. Wm. MacDonald, of Chesley, the present representative from North Bruce.

There are only three counties in Ontario that are to-day enjoying lower taxation than Bruce County.

### Farm Fires in Germany.

The German papers contain long lists of farm fires, for which the protracted dry weather in Northern Germany is partly responsible. The military authorities, under martial law, are taking stringent measures to prevent the starting of fires through carelessness or intent.

The dry weather is causing some anxiety about crop prospects in Northern Germany, but the conditions in the south are reported to be excellent.

The County Orange Lodges will have no big celebrations on the 12th this year as the railways have decided against excursions and reduced rates.

### Notice To Creditors

In the matter of the Estate of Conrad Faupel, late of the village of Mildmay, in the County of Bruce, Retired Farmer, deceased.

Notice is hereby given pursuant to the Statute of Ontario 1914, Chapter 123, Section 56, that all creditors and others having claims against the estate of the said Conrad Faupel who died on or about the 21st day of May A. D. 1917, are required on or before the 24th day of July A. D. 1917, to send by post prepaid or to deliver to Adam Fink, Mildmay, Ont., one of the Executors of the Estate of the said deceased, their christian and surnames, addresses and descriptions, the full particulars of their claims and a statement of their accounts, and the nature of the securities (if any) held by them. And further take notice that after such last mentioned date the said Executors will proceed to distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which they shall then have had notice, and that the said Executors will not be liable for the assets or any part thereof to any person or persons of whose claims notice shall not have been received by them at the time of such distribution.

Dated the 11th day of June A. D. 1917.

ADAM FINK, Executors  
JOHN ECKEL,  
M. A. COLLINS, their Solicitor.

### Notice to Creditors

In the matter of the Estate of Matthias Schiestel, late of the Township of Culross, in the County of Bruce, Deceased.

Notice is hereby given pursuant to the Statute of Ontario in that behalf, that all creditors and others having claims against the Estate of the above named Matthias Schiestel, who died on or about the twenty third day of March, A. D. 1917, are required to send by post prepaid or to deliver to Matthias Weiler, Farnosa, Ont., one of the Executors of the last will and testament of the said Matthias Schiestel, deceased, on or before the 25th day of July, 1917, their names, addresses and full particulars of their claims due, valid, and the nature of the securities if any held by them, and after the said 25th day of July, 1917, the said Executors will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which they shall then have had notice, and he will not be liable for the said assets or any part thereof to any person or persons of whose claims they shall not have had notice.

MATTHIAS WEILER,  
CATHARINE SCHIESTEL, Executors.  
NICHOLAS SCHIESTEL,  
Dated at Mildmay, this 29th day of June, 1917.

A new decision of the Canadian Patriotic Fund that will be of interest is that in future allowance will be made for girls up to the age of 17 and boys to the age of 16, provided they are attending school and not earning wages. Up to the present the fund has been paying allowances to boys and girls only up to 15 years.

### Candles and Cold Water.

New regulations governing standard hotels in Ontario have just been issued by the License Board. One of the most important affects the position of ropes for fire escapes. The principal regulations may be summarized as follows:—Every standard hotel now has to have a candle placed in each bedroom. This is for the purpose of helping the guest who may be in the hotel when a fire breaks out and the lighting system is put out of business. There have been cases where the lights have gone out and in the confusion without a light lives have been lost. Every standard hotel must in future keep a supply of pure cold water for drinking purposes for the guests. Another thing is that storm windows are barred from bedrooms. The board recommends that instead metal weather strips be used as this will keep out cold draughts in winter and dust in summer. Storm windows, it is claimed, would prevent the free opening of windows in case of fire. The situation of ropes used for the purpose of escaping from bedrooms in case of fire has been changed. The old rule used to be that they had to be fastened on the sill but the Commercial Travelers' Association has pointed out the danger of this to the board and the rule is now that they must be fastened from the side of the window at least two feet from the sill, thus making it easier for the guests to get out in case of danger. In future no license of a hotel may be sublet any portion of the hotel's premises without the board's permission.

### Where Potatoes are Cheap.

Mr. John D. Miller, a Telescope reader at Wiste, Alta., an old Bruce Boy, writes under date of June 4th:—We are all in good health and everything looks fine. Although the spring was cold and backward, the fields are green. We first finished seeding June 1st. Have in crop 260 acres, 150 in wheat, 110 in oats and we are looking forward to a good crop. What we need now is a good rain is getting pretty dry. Potatoes are scarce here too but we haven't got to pay the price that you have in Ontario. \$1 per bag, that's what I paid. Wishing you success.—Telescope.

## It's the time for us to talk to you about Painting

There is a lot of money in living in a painted house. You know then that your home looks well: clean and attractive appearance adds much to the value of your property. Then you know that the paint is protecting the material of which your home is built from the elements. Paint is a cheap insurance against the wear and tear of the weather.

When you paint, don't buy the cheapest material, but buy the material that will give you the best service. Cheap paint is the poorest investment you can make. Good paint is the most economical. We know this from experience and so we only recommend to our customers the best paint—Sherwin-Williams Paint (Prepared), which covers the most surface, wears longest and looks best.

### LIVE STOCK MARKETS TORONTO.

Trading at the Union Stock Yards yesterday was characterized by a fairly good steady market, holding about even with the best prices of last week. There was only a moderate run, 2700 head, as compared with 3100 head last week, and while there was a few, if any, stall-fed cattle in the yards there were some good lots of butchers, a credit to the breeders, drovers and commission houses that handled them.

While the market was steady on, the best butchers had all it could do to hold its own on the common grades. Cows were steady with last week, but bulls were slow of sale and the demand was not good.

There was very little doing in stockers and the supply was fully equal to the demand at unchanged prices.

Taken all-around, tho, there was a pretty good market and the fact that comparatively few cattle were left over, is the best evidence of this. All the large packing houses were well represented, as the report of the sales will show, and while there were individual losses, this followed as a logical sequence from the light buying prices of a month or more ago.

The market for sheep and lambs, about 350 in all, was steady with the latter part of last week. We quote choice spring lambs at from 15c to 16c; yearlings 9c to 10c, light, handy sheep at 8c to 9c and heavy, fat sheep and bucks at 6c to 7c.

The market for calves, of which there were 250 on sale, was a trifle easier than last week, from 4c to 4c. Choice veal calves sold at from 14c to 15c; medium veal calves at 11c to 13c; grassers and common calves at 7c to 9c and heavy fat calves at 8c to 10c.

The run of hogs nearly 1500, was an average one and prices were 16c fed and watered and 17c weighed off. For the balance of the week hogs are quoted from 25c to 50c lower.

### Two Farmers Fall Out.

That the devil finds work for idle hands to do, was exemplified in the case of two Brant farmers who were last week shovelling harmoniously together on the Durham road doing statute labor until forced by rain to lay down their spades and hike for shelter. Having nothing else to do but look wise, they began to talk like fools and were soon engaged in a wordy war as to the merits of different insurance companies. From slapping each other with their tongues they were, it seems, threatening to punch each other with their fists when by-standers interfered and prevented any such prize-ring mode of argument. Baffled at getting in a knockout, one of the forces is said to have called the other a name that couldn't be put into print without losing the use of the mails. The man whom the epithet was hurled at beat it to town and laid an information before Magistrate James Tolton against such ill-usage of the King's English. Getting wind of what the foe was up to, the accused also made tracks for the magistrate's and succeeded by means of a little cash in settling the case, thus stifling the horrid thing in its infancy and preventing it from growing a long tail of costs.—Herald & Times.

### Exploded Too Soon.

Mr. Harry Denny, the well-driller, narrowly escaped with his life when a defective fuse caused a charge of dynamite to explode prematurely on Saturday. He was drilling a well on Mr. Ferdinand Frank's farm, west of the town. He had got down 90 feet when he struck pretty thick rock. He put a charge in he casing to lower it, timing it for about 20 minutes. For some reason the charge exploded when it was only a short distance from the surface of the ground. The force of the charge expended itself above ground, blowing Harry about fifteen feet. Three toes on his left foot were blown entirely away. His head was slightly injured, also his ankle. Mr. Denny was taken in the ambulance to the Bruce County Hospital, where his injuries were dressed. He is now making good progress but will be on his back for a few weeks. The doctor in charge is of the opinion that Harry's foot will be pretty useful to him yet in spite of its rough experience.—Telescope.

Dancing has been eliminated from the city band concerts in Buffalo during the war. The young men can exercise their feet in forming fours, and the young ladies can get all the recreation they need with the knitting needles.

The lady bank clerk had completed her first week and a friend asked her how she liked the work. "Oh, it's beautiful!" said the girl. "I'm at a branch where all the people have accounts, and it's so nice to see how little money some of your friends have in the bank!"

A Cleveland woman wants a divorce. Her husband worked at nights and used to lock her in the house every night before he went to work. He beat her twice when he found she had been out, and for a week after that locked her in a closet. Well, we can't see where there is ground for divorce. Has a husband no rights at all?

## Helwig's Weekly Store News...

### Summer Goods For Summer Wear White and Colored Materials

You are always needing the little things you will find in our store. Come in anyway When you see what we have for you, it will put you "in a notion" to buy.

We put "short prices" on our goods so that we can sell them out a short while after we get things in. This is why we have new goods coming in often. You come in often.
