

GERMANS SEEKING CESSATION OF HOSTILITIES; GALLANT WORK BY INDIAN TROOPS AT FRONT

Big Battle Has Now Commenced

Attack in Force From Ypres to La Bassee Now Going On--British Shell Zeebrugge.

LONDON, Nov. 25.—Intense anxiety is again apparent in Belgium and Northern France and the Kaiser's army reinforced and heavily armed with big guns are making another desperate plunge to break through to the coast.

The London Standard prints the following from its correspondent in Northern France:—"The combined French and British armies have been attacked by the Germans in force from Ypres to La Bassee, and a battle on the scale of the battles on the Marne, of the Year, and of the first and second battles of Ypres, has commenced."

"In this terrific struggle, into which the Germans enter with large reinforcements and fresh guns, the French and British armies are fighting directly in concert. Already the fight has been in progress forty-eight hours. The mightiest guns in the world's military history have been brought into action, carrying death and destruction for distances of eighteen miles from their emplacements. Under cover of those infantry attacks are being developed."

"The German objective is the town of Ypres, to capture which they have sacrificed thousands of lives under fire of the British during the last month. Their guns are battering the town once more. Everywhere along the line it is clear that the allies have succeeded in stopping the enemy's assaults, which were allowed to exhaust themselves, so that a fresh and significant phase of the battle has opened a phase in which the whole line of the German trenches are threatened by British and French infantry."

Advices from Paris state that the determined efforts of Germany to turn the left wing of the allied armies, or to penetrate it at Ypres to clear a roadway to Dunkirk, have resulted in failure. In a summary of the operations of the last six weeks. The Bulletin Des Armes estimates the Kaiser's forces in Belgium at 15 army corps, or 750,000 men; declares that the German troops were ordered to capture Ypres by Nov. 1, so that the annexation of Belgium might be proclaimed on that date. The Bulletin further tells of orders issued by the Crown Prince of Bavaria and Duke Albrecht of Wurtemberg, exhorting the soldiers to win success for their emperor, who would be at the battle front to "animate" them.

French troops on Monday defeated the Germans in the Argonne district and captured ground of strategic value, hitherto held by the invaders. The following official communication was issued last night:—"To-day has been relatively quiet. There has been intermittent cannonading on the front, and a few attacks in the Argonne, all of which have been repulsed."

Gen. Von Hindenburg Meets With a Severe Reverse--Even Berlin Admits It.

LONDON, Nov. 25.—A severe German defeat in Poland is reported from Petrograd. Gen. von Hindenburg, after having pushed back the Russians almost on Warsaw, is said to have suffered a serious reverse when the enemy, which had been strongly reinforced, made a brilliant stand between the Warta and the Vistula rivers.

Gen. von Hindenburg's army of 400,000 men is said to have been badly cut up and thousands of prisoners are reported to have been taken by the Russians who are now in pursuit.

The latest reports of Germans reverse come from Russian Poland along the River Buzza. Desperation, wherein strategy was thrown to the wind, appears to have characterized the German campaign in this district, the army commanders acting under the Kaiser's orders that for its moral effect on the campaign, in Belgium, a victory must be achieved at any cost.

The following official statement was given out from Berlin by wireless last night:—"While an eventual victory for the Teutonic allies in the eastern theatre of the war is expected as confidently as ever, official reports from the German and Austrian military headquarters make it appear that a decision will not be reached as soon as had been expected. The final result has been delayed by the advance of new Russian forces from Warsaw."

SIR WILFRID LAURIER 73 YEARS YOUNG

Greatest Canadian Celebrates Another Birthday in Harness—With Health and Vigor Unimpaired. Receives the World's Congratulations—A Sketch of the Personality and Life Work of the Old Chief.

OTTAWA, November 26th, 1914 — Seventy-three years ago to-day at St. Lin, a Quebec hamlet nestling in the shelter of the Laurentians, there was born to Charles Laurier and his wife, Marcelle Martineau, a son, Laurier. Purbably there is no one now living in the village who remembers the event.

ward Blake laid down the mantle and recommendations of the young lieutenant from Quebec as his successor. The new leader took up the burden with diffidence and perhaps with some misgivings on the part of many Liberals as to the wisdom of choosing a party leader from the Province of Quebec.

Today, Sir Wilfrid Laurier stands recognized throughout the world as the greatest of all Canadians, as the most conspicuous statesman in Greater Britain. For nearly half a century he has stood unshaken and unshaken in the fiercest light of party politics, a pride to all Canadians. After forty years continuous membership in the House of Commons, after twenty-six years as leader of the Liberal party, over fifteen years of which were spent as Prime Minister of his country, he is still erect of bearing, there still the wanted fire in his words, still the same keen, virile and undisputed leadership.

The Laurier Administration. With that Government was inaugurated a new era of Canadian prosperity and development. Of the fifteen years of the Laurier administration little need be said here. A new Canada came into being. National pride and prosperity grew steadily as never before.

The Boy and the Young Man. Six Wilfrid's mother died when he was but six years old. His father sent the young lad to be educated at a school in a neighboring Scotch settlement, where he boarded for a time with store-keeper Murray, a good Scotch Presbyterian.

His Government was defeated on September 21st, 1911, on an issue of Sir Wilfrid's own choosing—an issue to which Liberals and Conservatives were alike pledged when he came into power and an issue firm-based on the fundamentals of Liberal policy and on democratic principles of economic justice and equal freedom to all classes of the community in matters of religion and responsible government.

of a statesman never followed a defeat more quickly. In Office or Out, the Greatest Canadian

It is no vain boast of Liberals to say that Sir Wilfrid Laurier never stood higher in the estimation of his country, and never possessed the confidence of all to a greater extent than he does to-day. The quivers of party antagonism have emptied all their shafts against him.

The Elker of Youth. At seventy-three he is still "the greatest fighter of them all." Forty years of strenuous public life have brought no slackening in the vigor of mind or energy, nor any discouragement as to the ultimate triumph of the principles for which he has stood.

Lesson IX.—Fourth Quarter, For Nov. 29, 1914

THE INTERNATIONAL SERIES. Text of the Lesson, Mark xv, 22-37. Memory Verses, 25-27—Golden Text, Isa. liii, 4—Commentary Prepared by Rev. D. M. Stearns.

We have seen our blessed Lord in the hands of the band who arrested Him; in the hands of the religious hypocrites called chief priests and scribes and elders; in the hands of the Roman governor, who chose to please the people rather than do what he knew to be right; and now He is in the hands of the soldiers whose orders are to kill Him. They crucified the Lord of Glory (I Cor. ii, 8). They had no pity, and He could truly say, "I looked for some to take pity, but there was none, and for comforters, but I found none" (Pa. liix, 20, 21).
