Frank C. Moore, KENTVILLE, Nova Scotia

Office, between Post Office and Kentville Marble Works. Office Phone No. 196—House phone 73.—p. o., box 193. a. t. f.

KENTVILLE

Mr. Tom Weaver was in Halifax on Thursday.

Mr. A. E. H. Chesley has been at Clementsport visiting his mother.

Mrs. (Capt.) Arthur McKinnon of Yarmouth has been in Kentville visiting Mrs. J. A. Mosher.

See deputy Marguerite Clarke in "Miss George Washington" at the Nickel Theatre tonight.

Mrs. C. O. Allen of Halifax was in town last week on a short business trip. She reported having heard recently from Capt. Allen and he was faring quite well as a prisoner in Germany.

Mrs. Harry Corkum, of Dartmouth, and her daughter, Miss Florence, came to Kentville last week for a visit of two weeks with relatives.

Mr. and Mrs. John H. Margeson of Malden, Mass., are spending a two weeks vacation at the home of the former's parents, Mr. and Mrs. John W. Margeson, Brook Street.

Don't fail to see Charlie Chaplin in his latest success "Easy Street," on Thursday, Friday and Saturday this week.

Misses Mary and Pauline West are visiting Mr. and Mrs. Edwin West, Port Williams.

Mr. W. P. Shaffner and family are spending a few weeks at Granville Ferry.

Miss Belle Redden, who is teaching at Los Angeles, California, returned home last week and is spending a short vacation with her parents, Mr. and Mrs. John Redden.

Miss Martin's cottage at Kingsport to rent for the period up to 30th July and from the 7th August to the end of the season. Apply to P. J. Giffins.

Mrs. West, wife of Rev. A. W. West is slowly recovering at the infirmary, Halifax. Mr. West, expects to leave for Halifax the last of the week and Mrs. West will return with him.

Principal B. McKittrick and Mrs. McKittrick of Lunenburg are spending their vacation at Kentville and Mr. Fred McKittrick arrived from New York last week to visit his relatives here.

FOR SALE—One Superior Cow, new milch. Apply to G. A. FORSYTHE, North Alton.

Lost—In Kentville Saturday evening a small white pig. Finder please notify Advertiser Office.

Yesterday before Stipendiary Webster, Mr. Ed. Clarke was fined \$50.00 and costs under the N. S. Temperance Act on the evidence of William Carroll, for supplying a bottle of liquor.

St. Swithens Day (Sunday) passed without rain at Kentville but it has been quite showery both Saturday and yesterday and looked like showers on Sunday.

To Rent—Best dike grass, enquire at this Office.

The Crown Cases reserved by Mr. Justice Ritchie at the June term of the Supreme Court at Kentville were argued at Halifax on Friday last before the full Bench. These were two indictments against LeRoy Lisle, one for larceny of a wagon and the other for forgery of a check. The conviction for stealing the wagon was quashed and judgment on the other case for forgery was reserved for further consideration.

Our town police were on the hunt for license money on July 12th and were able to gather about \$80.00 in money from auto owners and drivers from town and county and also from outside the county who come to town looking for business for their autos. Our town streets are showing terrible wear of so many autos in use here and this sum will help to make the required repairs.

A special attraction at the Red Cross Bazaar will be the Art Needlework Booth displaying a great variety of useful and fancy articles all Made in Canada.

Rev. A. W. West will hold a service in the Forrest St. Church, near Aldershot, Friday evening at 7.30.

Mrs. William Small and two children of Charlottetown, Mass., have been visiting Mr. and Mrs. Clarke Spinney at Greenwood.

Mrs. A. E. Thornton of Lynn, Mass., has been at Belcher Street, the past two weeks visiting her brother Mr. Cyrus Ellis and Mrs. Ellis.

The Greenwood correspondent in Outlook says: Mr. and Mrs. J. Gates and Miss Gates of Port Williams were recent guests of Mrs. George Meister.

OUTLOOK ITEMS

Editor B. O. Davidson, Mrs. Davidson and their son, Pte. Paul Davidson of Wolfville were in town on Sunday last. Pte. Davidson who was critically ill for some time after he was wounded is in good health and expects shortly to secure an artificial leg to replace the one he lost.

Miss Annie Woodworth with her nephew, St. Clair Woodworth of Kerrisdale, B. C., is the guest of her sisters, Mrs. H. A. Jacques and Mrs. G. R. Beals. Pte. Cyril Woodworth, a brother of St. Clair who has also been visiting relatives in town left yesterday to return to Vancouver, B. C.

Among the recent guests at the home of Mr. and Mrs. S. A. Bowlby, Kingston, were Rev. N. A. Whitman and Richard from Freeport, Mr. and Mrs. Pineo from Waterville, Mrs. Jonathan Spinney, Mrs. Lottie Pelton and Mrs. DeLong Burns from Torbrook Mines and Mrs. King from Annapolis.

A cable to his wife from Captain George Blackadar states the Nova Scotia Forestry Depot had arrived safely at Sunningdale Camp, England. Besides Captain Blackadar there are Lieutenant Clare Kinney, Sergeants Hubert Stoneman and Murray Trask, and Harry Brittain and brother, also the company that was here with Maj. Stehelin. — Yarmouth Light.

Mr. Joseph Gordon of Greenwich has been at his home at Tremont visiting his mother Mrs. James Gordon.

THE STALK BORER

For the past three years complaints of an injurious insect boring in various farm and garden crops have reached the entomological laboratory at the Agricultural College. Specimens of the insect were received infesting potatoes, corn, rhubarb and, in one case, a sugar beet. A serious attempt to study the pest was made in the summer of 1915 with the result that the identity of the insect was discovered and the manner of its work determined. The great increase in the number of gardens planted this year has resulted in a like increase in the numbers of this insect found in gardens. Consequently a short account of our findings may be of interest.

Food Plants

In England, from which country this pest was apparently introduced, it is known as the potato stalk borer, but is also known to attack dock, horse tails and other plants. It has been found boring in corn stalks in Ontario. In addition to these we have, as already stated, found it attacking rhubarb and sugar beet. The rhubarb plantation at the College was severely injured two years in succession and reports of serious injury to potatoes in Yarmouth and vicinity have reached us during the past few seasons. This season its depredations, particularly to potatoes and cord, appear to be serious.

Life History

The insect winters as an egg attached to couch grass or other weeds and hatches early in June. The young caterpillar makes its way to the plant it is to attack and bores into it and continues boring in the middle of the stem until it reaches full size in about six or eight weeks later. The full grown caterpillar is about one and one half inches long, strongly segmented, pinkish in color and with a cinnamon brown head. The larvae enter the ground and transform to pupae, remains in that state for

about three weeks, when the moth emerges. The eggs are then laid in the situations described and the life cycle is complete. The moths keep emerging during the greater part of August and on into September.

Control

It is obvious from the foregoing that nothing can be done to combat the insect after it has found its way inside the stalk, for there it is protected from any poison that might be applied. Only preventative measures, can, therefore, be used. Land that is to be planted to garden crops should be ploughed in the fall and well cultivated to destroy any eggs that may have been deposited. Plants that are attacked should be gathered and destroyed and clean culture practiced through August and September so as to give the insect no chance to deposit its eggs.

Do not hesitate to send specimens if insects to the Agricultural College for determination. These will be promptly attended to and if possible, a remedy will be prescribed.

W. H. BRITAIN,
Provincial Entomologist

A huge eating competition had been held by some brawny sons of toil in a town in Yorkshire, and one of the competitors had succeeded in disposing of a leg of mutton, a plentiful supply of vegetables, and a plum pudding, the whole washed down with copious draughts of ale.

He was unanimously declared the winner and was being triumphantly escorted home when he turned to his admirers, and said:

"Ah, say, lads, don't thee say now of this to my ole woman, or she won't gie me no dinner!" —Toronto Globe.

Doctor: "I have to report, sir, that you are the father of triplets."

Politician: "Impossible! I'll demand a recount."

Mrs. Alvin Starratt of Paradise, Annapolis Co., has been the guest of friends in Kings County, recently.

Farmers Are Urged to Advertise

Use of Newspaper Space Pays in Agriculture as in All Other Lines of Business

Boston Globe.—A valuable suggestion was given the farmers and gardeners who raise produce for the city markets in a statement issued late yesterday by the sub-committee on Food Production and Conservation of the Massachusetts Committee on Public Safety. This statement goes to show the value of advertising at the proper time and in the proper way. The statement says:

"The power of advertising and its helpfulness to the farmer and the gardener was never better demonstrated than it was in Springfield a few days ago in disposing of a surplus output.

"Starting a prompt advertising campaign by advice of the Hampton County Improvement League and the Hampden County Food Committee and making the housekeepers and housewives familiar with the slogan, 'Buy a peck of spinach,' the wholesalers and retailers of Springfield not only brought about the sale of 1,000 barrels of spinach, for which there seemed to be no market, but they raised the retail price from 20 per cent below cost of production to a price that permitted even a small profit. The campaign in the end created an actual shortage of supply in comparison with the proved demand — dealers ran out of spinach.

Demand Stimulated

"The wholesale and the retail men, found the advertising had so stimulated the household demand for spinach that the 1,000 barrel excess had been sold, additional amounts taken and there were calls which could not be met because they did not have spinach to meet them.

"The average retail price obtained during that campaign was \$1.25 per barrel, against 80 cents per barrel when the advertising campaign began. One Springfield firm sold 30 barrels of spinach more than in the week previous. The Springfield Public Market reported the sale of 75 barrels of spinach, or double the quantity sold the week before. The increased demand also enabled the growers to sell more cheaply, owing to the large amounts they could deliver in a short time. One grower thus disposed of five times his usual weekly amount."

The statement goes on to say that "advertising in newspapers has repeatedly proved its efficacy in informing housewives of unusual supplies of desirable products and in stimulating their interest in such produce or goods at a time when prices are favorable. The experience of the Springfield farmers merely duplicates numerous others of the kind.

Benefits of Advertising

"The benefit extends in three directions: Consumers get wholesome products at moderate prices; dealers do a largely increased business; producers are saved serious losses and are enabled to make a profit.

"It is worth while noting that many cases of so-called over-supply are, in truth, not over-supply at all, but a failure of the buying public to realize the availability of the particular article at the time when it is most abundant. Advertising directs attention to this abundance. It reminds consumers of the desirability of the product and brings the demand up from sub-normal to normal. Everybody benefits as a consequence.

"Those dangerous losses to the growers react disastrously on the general market and ultimately affect the whole price range of foodstuffs with reference to the consumer, because sustained on one product must be recouped on others."

The statement from the food production and conservation committee concludes with the recommendation that the successful campaigns in Springfield and other places induce other local and county food committees, farm bureaus, growers and dealers, etc., to keep close watch of the market and where "gluts" are threatened to carefully consider the value of an advertising campaign to turn a threatened loss into a profit.

AIRPLANE PRODUCTION MUCH GREATER

LONDON, July 11, via Reuter's Ottawa Agency.—The minister of munitions in an interview today gives some reassuring figures in regard to the production of air craft. He states that thousands of factories are manufacturing airplanes and that the output is increasing by leaps and bounds.

The number of aircraft is now more than three times that it was last year and by the end of the year would be double that of last April. The monthly output of airplane-engines had been more than doubled in 1917, and the present output would be redoubled before the end of December. The ministry's airplane programme, he added, was one of maximum production.

WHAT DOES FATHER THINK?

"What is the news about conscription and a coalition government? I am in favor of conscription myself. What does father think?"

This is what young Loggie wrote from France to his sister. He is a son of W. S. Loggie, Liberal M. P.

The father proved worthy of the son. He spoke and voted for the Military Service Bill. The Canadian Pacific Railway Company has loaned ten million dollars to the Imperial Munitions Board to help purchase munitions in Canada during the next year.

TO LET—large furnished room, on ground floor, suitable for two. Apply to BOX 187.

THE WAR OR ELECTION

If it is a question of getting men from the trenches, or of winning the war, or of keeping the people united, and if possible avoiding an election during the acute stages of war, does not matter what the question is—my right honorable friend takes a road opposite to the Government. I want to be quite candid; I do not believe it will be possible to persuade a large number of our fellow citizens that those who are responsible for such a policy are thinking more of winning the war than of winning the election."

Dr. Michael Clark in the House of Commons

IMITATION MILK

An Artificial Product That is Giving Satisfaction in England

The science of substitution is becoming a great factor in modern industry. In England an artificial milk is being manufactured which is said to be both wholesome and inexpensive, so that now the market is not wholly dependent upon the product of the cows.

The artificial milk is made from peanuts, soya beans, sugar, water and mineral salts. About 400 grains of potassium phosphate or an equivalent of sodium phosphate is dissolved in two hundred pints of water at 176 degrees Fahrenheit. Enough sugar is added to give 4.5 per cent to the finished product. Forty pounds of meal prepared from the nuts and beans is stirred in.

The solution is boiled in a steam-jacketed pan; then it is subjected to the operation of a vacuum pan, and, lastly, it is treated with a culture of lactic bacteria until the required acidity is obtained. After it is pasteurized and cooled a small percentage of citric acid is added.

The milk produced may be condensed and sold in cans, or dried and powdered, or sold as a liquid in bottles. The addition of nut fats will give a certain proportion of cream. By using sufficient lactic bacteria the product may be cultured to give a table cream or a soured mass for making cheese.—Popular Science Monthly.

American doctors, nurses and enlisted men have within the last fortnight taken over six of the great general field hospitals, releasing the English staff for duty near the front.

The War Cabinet has invited General Smuts, formerly the South African commander, to attend its meetings during his stay in this country. Chancellor Bonar Law told the House of Commons to-day that this action had been taken in order to enable the Cabinet to avail itself of the special military experience of General Smuts.

A statement calling attention to a shortage of medical men on all the allied fronts as well as in Britain itself was issued in New York by Col. T. H. Goodwin, medical officer with the British Mission to the United States, who is touring the country to inspire the volunteering of medical men for service aboard. Col. Goodwin seeks medical men in addition to the 20,000 required by the new American army.

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best best Liniment made.

ARCHIE E. LAUNDRY,
Edmonton.

TENDERS

At a meeting of the creditors of HARRY SOLOMAN it was decided to advertise for tenders for his stock of goods as follows:

- 1st—For the Stock on hand.
- 2nd—For the Stock of Footwear.
- 3rd—For the balance of the stock of Dry Goods.

All tenders to be sent to the Official Assignee on or before July 14. The highest or any tender not necessarily accepted.

All tendering for same must be addressed on outside envelope, tenders for Stock Harry Solomon.

I will attend at the store of Harry Solomon, Aberdeen Street, on July 9, 10, 11 between the hours of 10 to 4 o'clock for intending purchasers to inspect stock.

J. A. KINSMAN,
Official Assignee.

WANTED—Wanted to Buy a good driving horse and team. Box 401, Canisling.

The Manufacturers Life Insurance Coy.

Save Money for Total Abstainers

The figures in the following table, show what percentage the actual cost of insurance has been of the expected cost during the last few years in the two classes of insurers in this Company in Canada.

	1911	1910	1909	1908	1907	1906
Abstainers Sec.	44.87 pc	32.30 pc	34.65 pc	38.22 pc	39.00 pc	35.93 pc
General Sec.	79.59 pc	51.28 pc	15.11 pc	82.11 pc	72.75 pc	60.64 pc

This is no matter of theory, but a proved fact. Total Abstainers make an actual saving in dollars and cents by placing the life insurance with us.

Keep Minard's Liniment in the house

THE HOUSE BY THE SIDE OF THE ROAD

Let me live in a house by the side of the road
 Where the race of men go by,
 The men who are good and the men who are bad
 As good and as bad as I.
 I would not sit in the scorner's seat
 Nor hurl the cynic's ban;
 Let me live in a house by the side of the road
 And be a friend to man.

I see from my house by the side of the road,
 By the side of the highway of life,
 The men who press on with the ardor of hope,
 The men who are faint with the strife;
 But I turn not away from their smiles nor their tears,
 Both parts of an infinite plan.
 Let me live in a house by the side of the road
 And be a friend to man.

Mrs. F. W. Webster and daughter, Miss Frances of Cambridge have been enjoying a pleasant visit with Miss Orpha McNutt of Truro.

Mrs. W. B. B. Rockwell and daughters Gladys and Doris have returned from a visit with friends in Wolfville.

HUN SUB'S HOPE GONE

Philadelphia Record—The British food purveyor said very recently that 6 per cent of the wheat ships had been sunk. Of course, that is a great waste of food, but it offers no excuse for the lugubrious talk of famine that several eminent Englishmen have indulged in. If there is the food to ship the rate at which the submarines are wasting it does not warrant great anxiety, and it affords Germany not the least hope in the world of starting the especial object of Teutonic hatred.

WISE MEN OF THE YEAST

Toronto Globe—Members of the Bread and Cake Manufacturers' Association of Ontario are in convention in Toronto, and want a food controller "to bring order out of chaos and ferment," as one speaker phrased it, with a technical touch. This stand is creditable to the association. Will the government listen to the wise men of the yeast?

Minard's Liniment used by Physicians.

Principal Stapleton of Dartmouth is spending his vacation on his farm in Cambridge.

Northcliffe To Speak At British Recruiting Meeting in New York.

New York, July 11—British recruiting in New York city, beginning July 15, will be brought to a close July 22 by a great mass meeting in Madison Square Garden, at which Lord Northcliffe, head of the British commission in this country, will be chief speaker, it was announced here today. The drive to bring as many as possible of the 500,000 British subjects in this country to their colors will include a similar demonstration in Chicago.

An American Exchange says: There is a spice of romance connected with the fortunes of a small schooner belonging to a Lumberman of Halifax who was in poor circumstances. The little schooner was all he possessed, and some three years ago he found that \$1,000 was the most he could obtain for it on the market. It was fortunate for him that he did not sell it at that period for a few months later he was able to dispose of it for no less a sum than \$30,000.

Minard's Liniment Lumberman's Friend

Boston Herald of Friday—The barkentine John S. Emery Capt. Davis, which left Buenos Ayres more than 75 days ago for New York, arrived safely at a Porto Rican port, according to advices received here yesterday. The vessel is long overdue and until the message was received by the owners yesterday grave fears were felt that she had met with disaster. Bad weather is said to be responsible for the delay. No news has as yet been received concerning the Boston ship Timandra, or the four-masted schooner Kenwood, long overdue at Buenos Ayres, but the owners of the latter vessel believe she is safe.

Premier Arsenault, of P. E. I., will be opposed in the by-election in the third district of Prince on July 25th by Dr. Delaney, of Wellington, nominated by the Liberals.

Mrs. Rhoda A. Berry, widow of James A. Berry, of Clementsvale, Annapolis Co., died suddenly of cerebral hemorrhages, at Waltham, Mass., on Thursday, July 5th, aged 77 years and 5 months, leaving three sons and one daughter. Her son Wm. Berry, accompanied the remains, which arrived in Yarmouth this morning and were forwarded to Clementsvale, Annapolis Co., for burial.

Before you buy any car Investigate the Canadian Built Studebaker Car

YOUR car is probably the second most important investment you will ever make. **FIRST**—comes your home. **THEN**—your car. Before you buy that car *stop and think*. Are you going to be completely satisfied with it? Is it sure to be the comfortable car you want? Motor car comfort has been a thing of slow development. It means more than the physical ease of a fireside chair.

POWER is the first factor of automobile comfort. No man can be thoroughly comfortable in his car if he has to be continually pushing pedals and pulling levers. You want a car that will climb the hills and pull through mud and sand without appreciable effort; a car that will take you anywhere with a minimum shifting of gears.

The Studebaker FOUR has full 40 Horse Power—the Studebaker SIX has full 50 Horse Power. Both cars are built in Studebaker factories at Walkerville, Ontario. They are probably the most powerful cars of their weight on the market today.

ROADABILITY is a point of automobile comfort. You want an easy driving car, one that does not jump and sway and make you work to hold it in the road. The perfect balance of the Studebaker chassis, the basic design of which has been continually improved and refined over a period of four years, makes the Studebaker car one of the most roadable cars in the world. A Studebaker car drives straight as an arrow and has no tendency to jump or sway.

DEPENDABILITY is another point of automobile comfort. Studebaker uses the best vanadium steel in its chassis construction. Studebaker uses drop forgings wherever possible to add strength and lightness.

The use of high grade materials and of skilled, experienced labor makes for the mechanical perfection of Studebaker cars—which in turn makes for unusual durability.

Studebaker brakes are oversize—the area of braking surface is very large. A slight pressure on a Studebaker brake will bring you to a gentle halt, a stronger pressure will stop you within a few feet.

Think how it will add to your comfort to know that yours is a durable car with thoroughly dependable brakes.

ECONOMY is also a factor. It is always comfortable to know that your up-keep bills are going to be low.

Studebaker cars with all their power are very economical in their consumption of gasoline.

Studebaker owners frequently report from 8,000 to 10,000 miles on a single set of tires.

APPEARANCE. You can never be comfortable in a car that needs apology. Studebaker cars are big and handsome. Their finish of gunmetal gray with ivory striping makes them distinctive in appearance.

FINALLY there is the question of physical convenience and comfort.

The driver of a Studebaker car has everything at his finger tips. His hand falls naturally on the levers, the pedals may be adjusted to suit his individual requirements, electric starting and lighting switches are conveniently placed on the dash within easy reach of the driver; the starter pedal is directly under his right heel.

The front seats of Studebaker cars are individual and form-fitting, adjustable forward and back to all leg lengths. The seat next the driver is reversible, its occupant may face the tonneau if desired. The tonneau doors are 21½ inches wide—easy to enter or leave. The tonneau seat is 48 inches wide, the ideal width for three. There are two auxiliary seats under the tonneau seat for your convenience should you want to carry extra passengers.

All cushion work is of the best long curled hair mounted on resilient spiral springs.

All upholstery is of genuine, high grade hand buffed leather. Each seat in a Studebaker car invites rest and relaxation.

You certainly owe it to yourself to investigate the Studebaker car before coming to a decision as to what your car will be.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

"Built in Studebaker Factories at Walkerville, Ont."

C. R. BILL,
Centreville

The Canning Advertiser

Mr. G. W. Bienen spent Fri-
day at Kentville.

Mr. W. M. Sanford of Per-
eaux is seriously ill.

Mr. F. Schafheitlin was in
Halifax on Thursday.

Miss Clara Chisholm of Wolf-
ville has been visiting her sis-
ter here and also her sister Mrs.
Eaton at Heustons Beach.

Great quantities of Strawber-
ries are being shipped out of
Canning from Pereaux Blom-
don and Canning. They are of
the usual fine quality.

Dr. Johnson and Mr. Meiley
of Boston who are stopping at
Pereaux this summer spent the
12th at Kentville.

Miss Bessie Reid of Billtown
left this morning for Amherst
to visit Rev. A. H. and Mrs.
Whitman before returning
home she will visit Moncton,
Truro and Millford.

Miss Hattie North of Boston
Mass., arrived by Boston boat
last Saturday and is spending a
fortnight's vacation with her
father, A. B. North, Esq., and
family.

Mrs. Avery Bentley was in
Kentville on Saturday.

Mr. L. M. Ward has been
appointed agent and collector
for the North American Life
Co.

Mrs. A. B. Baxter and Mrs.
Vaughn were in Kentville on
Saturday.

Rev. Avery Shaw and wife of
the United States, called at Can-
ning last week to visit his bro-
ther, Dr. Carl Shaw.

Mr. H. S. Fellows, who has
had charge of the Waverley
Hotel for some time has closed
out here and left last week for
Digby with Mrs. Fellows. Mr.
Fellows expects to go to St.
John to enter upon work there.

Dr. Carl Shaw met with a
severe accident a week ago Sat-
urday at Kingsport. While
passing along the road his car
skidded and he had a fall which
fractured some of his ribs and
injured him considerably other-
wise. However Dr. Shaw has
experienced a rough time in
former years of his life and is
recovering rapidly.

No direct word has been re-
ceived from France in reference
to the fate or condition of
Avery Bentley reported missing
last April. He was at Vimy
Ridge and word came to a rela-
tive at Sheffield Mills that Mr.
Bentley with some others ad-
vanced too far and when the
Germans counter attacked they
were caught or killed. A mes-
sage from Windsor to friends of
others in the same Battalion
stated that Mr. Bentley was a
prisoner but gave no further
particulars.

Yarmouth Light: Rev. F.
Friggins and family went today
to their new home at Canning.
They made the journey by auto,
with Mr. Ernest L. Crosby.
On Thursday evening of last
week Mr. and Mrs. Friggins
were tendered a surprise party
and farewell social. The even-
ing was pleasantly spent with
music, addresses and social
chat. Refreshments were serv-
ed.

FOR SALE—Horse-Pick of two. Also
Airdale puppies. Apply Brine at Col.
Campbell's, Canning. sw 41

KINGSFORT

Mrs. J. W. Reid and family
of Windsor have been stopping
at Kingsport and Dr Reid has
been a frequent visitor.

The schooner Abbie Keast
delivered a load of hard coal
here recently and left Parrsboro
and Five Islands to load lumber
for New York.

Mr. J. D. Ellis has sold the
schooner Fred Green to Messrs
John Desmond and Alvin Phin-
ney of West Bay.

FOR SALE—One good all purpose
mare, 8 years old sound and kind ex-
cellent worker and good driver weight
1200 pounds. Also one good all pur-
pose horse 12 years old, good worker
and fine driver suitable for lady to
drive. Apply to John Clark, Lower Can-
ard. sw 31

CANARD

Miss Winnifred Eaton re-
turned missionary from India
and her sister, Miss Evelyn who
is home from the Gordon Train-
ing School, Boston, spent a few
days at Kentville with their
sister, Mrs. Frank Eaton.

Mrs. Louis Haliburton has
rented her residence here to Mrs.
Stephens of Halifax.

Mrs. Beckwith of Berwick
was a recent visitor with her
daughter, Mrs. Leander J. Ellis.

Miss Marion Eaton, who is
home from her duties as Dom-
estic Science, teacher, leaves
soon for Granville where she
will visit friends.

Miss Leah Borden, teacher at
Mt. Allison Ladies College,
who has been visiting her par-
ents Mr. and Mrs. W. L. Bor-
den left last week for Boston
and will proceed to the White
Mountains to spend her holi-
days before taking up her
school duties.

SCOTTS BAY

Miss Carrie Weaver of Med-
ford has returned to her home,
after spending a few days with
her friend, Miss Florence Steele

Division is still progressing
during the absence of most of
our young people, the attend-
ance is somewhat smaller than
usual. The officers for the en-
suing quarter are as follows:

W. P.—Bro. Bennie Tupper.

W. A.—Sis. Florence Irving

Chap.—Sis. Florence Steele.

R. S.—Sis. Clara Tupper

A. B. S.—Sis. Ruth Coffill.

Treas.—Bro. George Huntley.

F. S.—Bro. Lawrence Huntley

Con.—Sis. Gladys Legge

A. Con.—Bro. Lee Barteaux.

I. S.—Bro. Roy Thorpe.

O. S.—Bro. Melbourne Cork-
um.

P. W. P.—Sis. Daisy Huntley

Miss Edith Anthony has been
spending the past two weeks
with her cousins, Misses Ruth
Ellis and Alice Jess.

A number of our young
people enjoyed an outing on the
water last Thursday.

Mr. Lamont Coffill, who has
been quite ill, is slowly im-
proving.

Mrs. Carey Tupper and fam-
ily have gone to South Roden,
Hants Co., where they will
spend a few weeks guests of
Mrs. Tupper's brother.

Rev. E. Franklin is spending
the week-end in Bear River.

THE REICHSTAG HAS
GONE ON STRIKE.

COPENHAGEN, July 13—
Serious news came from Berlin
late today. The Reichstag has
gone on strike and the mem-
bers have decided to suspend the
labors both of the full House
and the Main Committee until
the political situation is cleared
up. This leaves the war credit
bill in abeyance.

Emperor William has sum-
moned Field Marshal von Hind-
enburg, Chief of the General
Staff, and General Ludendorff,
the Chief Quartermaster-Gener-
al, for a conference.

This news should be inter-
preted in connection with inti-
mations that the German Gov-
ernment has decided to par-
liamentarize the Cabinet and
the difficulties reported in con-
nection with the adoption of a
peace resolution.

WILL TRAIN IN CANADA

Fort Snelling, Minn., July 9
—Ninety student officers from
Fort Snelling will be trained
at the aviation camp at Toronto
it was learned here tonight.

The men originally destined for
Columbus, Ohio, and Princeton,
N. J., will be sent to Toronto.

The largest life insurance
paid in Nova Scotia in 1916 was
that of the late Bowman B.
Law, M. P., of Yarmouth, who
lost his life in the Parliament
Buildings fire at Ottawa. The
amount was \$91,500.—Halifax
Chronicle.

**NOVA SCOTIA SCHOONER
 VICTIM OF U-BOAT**

Parrsboro, July 12—A cable received here today from Capt. McDade, of the schooner Coral Leaf, says that the vessel was shelled and afterwards set on fire by a German submarine. The crew were all saved, and the vessel was towed into Castle town, Ireland, by a patrol boat. It is presumed she is a total loss as the crew are leaving at once for home. She was bound from Port Greville for Barry, England, and sailed from the former place on June 6th. Last fall she got in trouble with this same cargo, and was compelled to lay up all winter and repair the damage. The Coral Leaf was built at Spencer's Island in 1902, and was 374 tons register, and was owned by Captain Johnson Spicer and others. She was insured against submarine attack.

**CANADIAN OFFICERS
 KILLED**

London, July 10—The death occurred in London yesterday of wounds received at Vimy Ridge of Lieutenant Charles Stuart G. Crombie, of Toronto. News has also been received that Capt. Percy Moison, of the P. P. C. L. I., has been killed in action.

Mr. A. L. Davidson, M.P., was home from Ottawa last week.

WOLFVILLE

Mr. W. H. Chase was in Truro last week.

Mrs. I. W. Porter has been at Bridgewater visiting Mrs. W. N. Reinhardt.

Mr. and Mrs. Robie Tufts have been at Margareville for a while enjoying the sea breezes.

Miss Hilda Tufts has completed her term teaching in Massachusetts and is spending her vacation at her home with her father, Dr. Tufts.

Miss Marion Porter, Principal of the school at Port Morien is spending her vacation at her home.

Sir Charles and Lady Towns and daughter visited Harborville last week.

Mr. H. England of Montreal was visiting his aunt Mrs. J. D. Chambers last week.

Mrs. J. A. Baxter and Miss Susie Baxter, teacher at Grand Pre, have been visiting at Halifax.

WANTED—A maid for general housework. Small family. Apply to Mrs. N. A. Barksness, Wolfville.

Mrs. Perry Borden and Master Borden of Toronto, visitors to Wolfville, went to Truro and Pugwash to visit relatives there.

Miss Johnson, teacher at Le Marchant Street School, Halifax is spending part of the summer here.

Miss Kathleen L. E. Steeves, accompanied by Miss Sue Prescott of Albert, N. B., left on Monday for Sackville, where they will receive government appointments and routes of travel, for the demonstrating of canning which they will be engaged in for two months under direction of government supervisors. Both Miss Steeves and Miss Prescott are graduates in household science from Acadia Ladies' Seminary.

Herald—C. H. Corkum, B. A., of Rossland, B. C., was in the city this week visiting his brother, L. A. Corkum, en route to Chester. Mr. Corkum is enjoying a month's vacation part of which will be spent with his former Acadia classmate, G. L. Andrews, Middleton, and with other college friends at Wolfville and Truro.

Friends of Rev. J. C. Hardy, missionary at Bobbili, India, have received word that he has recovered from the second attack of malaria he has had since he went to India last Autumn.

Mr. George McKenna, son of Dr. McKenna of this town and his cousins Misses Margaret and Kathleen McKenna of Parrsboro have been at Kings-ton visiting their uncle Mr. E. J. McKenna.

Mr. and Mrs. S. W. Kidston, of Port Williams, announce the engagement of their youngest daughter Lulu Marguerite to Mr. Joseph Thearon Healy of Church Street, son of the late Joseph C. Healy and of Mrs. Healy, of Church Street, marriage to take place early in August.

Kilties Have Recruited 2000 in United States

St. John, July 13—A recruiting party from the 236th New Brunswick Kilties will leave tomorrow night on a recruiting mission to New York and Chicago. Colonel P. A. Guthrie, commanding the Kilties who is here today, says that 2,000 men from the U. S. have enlisted since the first Kilty tour to Boston. Of these more than 1,500 have joined the Canadian forces.

On the farm there is often garden produce, such as green peas, and beans, that are not utilized. They should be canned and used the following winter when a supply of such food is needed and much relished. While canning entails extra labor, it is, when understood, a simple operation.

Mr. Arthur M. Howe, a grandson of the late Joseph Howe, and editor of the Brooklyn Eagle, has just passed through Nova Scotia having been in Newfoundland on a fishing trip.

WAR SUMMARY

Startling things are happening in the war arena, Germany has been convulsed with political turmoil and in the first round the great Bethmann-Hollweg has been forced to resign as Chancellor. Other upheavals are threatened.

Austria is using mighty efforts to throw off the German yoke and sees a chance of peace only in severing from her ally.

King George has visited the front line in France and Flanders and with the Canadians he received a hearty reception. He examined Vimy Ridge and gave unstinted praise to our men for their deeds of valor.

On this side of the water affairs are shaping at Ottawa toward a coalition government with five liberals, one labor and one grain grower representative. This formation would likely be followed by a general election uniting all in favor of conscription.

Major J. W. Maddin, M. P., who went overseas in command of "D" Company, 185th Regiment, Nova Scotia Highland Brigade, was at the time of the sending the first draft of the battalion to France transferred, together with all the married officers, to the reserve forces in England. With a view of getting to the front Major Maddin first reverted to the rank of Lieutenant and finally gave up his commission and went with the ranks as a private. He has now been in the trenches for several weeks.

A PATHETIC STORY OF HOW A YOUNG CANADIAN BOY "WAS GAME" AND DIED FOR US STAY AT HOME THAT SHOULD TOUCH A HEART OF STONE!

Private Russell Bailey, writing to his parents from France, tells of the death of his brother Norman in the following words

"Just as the sun was sinking to rest and the twilight coming on, they brought Norman in from a blood dyed field. He had fought his first and last battle. They carried him back from the firing line from a hell of shrapnel fire. He had volunteered a forlorn hope, and had tried to cut the wires—his face was fair, the smile on his lips, glowed with the courage within. If Britain lived, and he lived or died, it was all the same to him."

"He said to the nurse; I got it at last, but tell me I'm glad I came; tell me I swore with my dying breath, I'd do what I did again. Please raise my head, like mother would do, tell her you took her place; Tell her I said you did what you could for me. Oh, for one look at her face. Tell her for me, her boy loved her well, God and myself understand."

"Send her my love and tell her I died for her and my native land. Tell the boys for me I am glad I came here, and I did the best I could. Ask some lad to come and take my place. If someone don't, well, he should. Give them this message for me dear nurse. Tell them I am glad I came, Britain has need of her sons. Needs every one who is game."

"Norman was laid away in khaki shroud, underneath the sun-kissed sod, for just as the vesper bell rang out his soul was wanted to God."

BRITISH LOSSES ON BELGIAN FRONT

London, July 12—The total British casualties resulting from the German success near Neuport, Belgium on Tuesday were about 1,800 including prisoners. These figures were given by Major General F. B. Maurice, Chief Director of military operations at the War Office today.

The section captured by the Germans who made his statement in his weekly talk to the Associated Press, was defended by only two battalions of British. The German claim of 1,200 prisoners, he considered probably accurate.

AN ELECTION COMING SOON

According to Political Rumors at Ottawa.

Montreal, Que., July 10—An Ottawa despatch to The Star says—When the conscription measure, which now is going through parliament quietly and easily, will be enforced, is a question which causes much speculation here and outside. Unlike the ordinary act, it will be applied not when assented to by the Governor General, but when subsequent to such assent, it is proclaimed or officially promulgated. When that will be, according to the best information obtainable here, will depend upon developments in the coming weeks. To enforce conscription will call for an extensive organization at the outset, and when it is established a tremendous work obviously will have to be undertaken.

The despatch goes on to state that much depends on the proposal for an extension of parliament and a general election before enforcement of the act seems altogether probable.

NEW ROSS ROAD

The wet weather is favorable for the growth of the crops, which are now well advanced despite the lateness of the seed time.

Miss Myrtle Jarvis has joined the army of strawberry pickers now so busy on the farms in the valley.

Mr. Hibbert of Kentville with a military friend spent the past week guests of Mr. and Mrs. Thomas MacGarry and family.

The Lockhart brothers are busily engaged in the building of a new barn with all modern improvements.

The stork in a recent flight left a tiny daughter at the home of Mr. and Mrs. Henry Butler of Riversdale.

Mrs. John Butler spent Monday in Kentville.

The waving grass fortells the haying season which will soon be here.

Mrs. S. Jefferson of Bridgetown paid a visit to her little grandchildren here recently. Being one of an auto party her stay was necessarily short.

Mr. and Mrs. Harry Matthews of Dalhousie drove thru here last week on their honeymoon. Mrs. Matthews was formerly Miss Theresa Aalders a highly esteemed young lady of this place.

Messrs. Cyrus and Manning Ellis have been extremely busy of late harvesting their fine strawberry crop. They had marketed 15000 boxes last week at good prices and expect to have double that amount. Their strawberry field presents a busy scene on fine days.

LETTER FROM HOSPITAL

Following is a letter received by Miss Ina Balsor from her brother who was wounded at the Vimy Ridge and is now in a hospital in England:

Canadian Conv. Hospital
 June 14, '17

Dear Sister—

Just a line to let you know I am still alive and getting on just all right, owing to everything, I am not in very good shape, I don't suppose I should tell you just how I am, but I will, I lost my right eye and the use of my right arm and hand. I am trying to learn to write with my left hand but I don't get along very good, so I will have to cut this short, I received one letter from you through the Red Cross. Hoping to hear from you soon.

I remain,
 Your loving brother,
 Charlie

GIFT TO SOLDIERS APPRECIATED

The following letter of appreciation for thoughtful remembrance of our soldier lads has been sent by Major Alderson:

O. C. 5th Battery, C.F.A.
 3rd June, 1917.

To W. C. Archibald,
 Wolfville, N. S., Canada.

Dear Sir—

I have to thank you for your very kind letter of May 10th advising me of your gift of a box of Maple Cream to the men of this Battery.

This box has not arrived yet, but I need hardly tell you that your kind thought of us is very much appreciated by all ranks and your generous present will afford us all a very great treat.

In regard to your son, I am pleased to be able to tell you that he is still with the Battery and is safe and well, he needs no introduction to us, as by his constant good work and cheerful conduct in the face of hardships and danger he has won the friendship of all ranks.

In conclusion I might say that I very much appreciate the warmth of your letter, which brings home to us out here the fact that our friends and co-workers in Canada are ever mindful of their comrades, whose proud lot it is, to be able to take an active part in this world-struggle in the cause of freedom and right.

FRED J. ALDERSON,
 Major, O. C. 5th Battery, C.F.A.

Crimson Rambler, an Ayrshire cow owned in Massachusetts, recently completed a record which makes her the champion cumulative Ayrshire cow of the world. Her average production for nine consecutive years was 10,372 pounds of milk and 375 pounds butter-fat made under normal farm conditions. A calf was dropped each year.

Tells Of Plan To Aid N. S. Farmers

Principal Cumming Brings Word That Ford Light Farm Tractors Will be Demonstrated in This Province This Fall

Henry Ford, maker of motor cars, multi-millionaire, philanthropist and farmer, has announced his intention of presenting the Government of Nova Scotia with several of his light farm tractors and will send one or more of his experts to this Province in the Fall of the present year to demonstrate the use of these tractors. This was the message brought here yesterday by Professor M. Cumming, Secretary for Agriculture and Principal of the Nova Scotia Agricultural College, Truro. Professor Cumming visited Mr. Ford at his home in Detroit, the centre of his great manufacturing operations, saw the tractors at work on Mr. Ford's own farm, accepted the millionaire's offer to the Nova Scotia Government, and after visiting other centres in the United States and Canada, returned to Truro on Friday last, he arrived in the city Tuesday and yesterday gave an account of his trip to a Morning Chronicle reporter.

I went to Detroit, said Professor Cumming, with the primary motive of securing information as to the use of the light farm tractor now being used quite extensively in various parts of the U. S. and in portions of Ontario, and which I thought might be used in some parts at least of this Province. Formerly the Western farmers used large sized tractors, the investment for which was so large for the time that even in the West they have not proved as practical as was expected.

The result has been that many companies have tried to turn out a light farm tractor of about 1-20 horse power, more easily handled and much less investment required. Now a great many makes of these light tractors are on the market. Most of them would cost a Nova Scotia farmer \$1,000 to \$6,000, which is a fairly large investment except for the big farmer.

A Light Tractor

Henry Ford, however, has for a number of years been experimenting with a view to turning out a light farm tractor that would do the work and at the same time would not cost the farmer more than a pair of horses, \$300 to \$500. When I arrived at Detroit and saw Mr. Ford he took me out to his farm and, by the way, if he were not known as a tractor manufacturer he would have a substantial standing as a farmer, for he farms from three to four thousand acres, all of the work being done by tractors.

I saw four tractors working out there, one ploughing, another harrowing and the two others hauling wagon loads on the main highway. I was very much impressed with

the machine which was quickly and easily handled in the field and which was ploughing at the rate of from nine to six acres per day and doing a splendid job. One man operates both the engine and the ploughs. The machine is of lighter construction than the other tractors that I saw, but the engine is more powerful. The main thing however, which impressed me was that the machine did the job and, if Mr. Ford can sell it at the price at which he expects to sell it, this tractor will be within the reach of the average farmer.

In addition to being capable of use for such farming operations as ploughing, harrowing, drawing loads, etc., the machine has a pulley attached to it and can be used for threshing, chopping feed and other such power operations on the farm. Mr. Ford is not prepared to sell the machine this year, for although it would seem to be efficient enough, at the same time he is continuing his experimental work so that when it is finally put on the market it will satisfy him in every particular.

Success in England

However, the tractor, as now perfected is being manufactured in England and has been used there. The reports are extremely satisfactory. One of Mr. Ford's office men told me that life insurance is carried by men who are subject to the draft and who will carry their insurance into the war without any extra war premium. They had not up to the present had to supply a single repair part, and I saw letters from several farmers in England which indicated that the machine was doing great work over there.

I asked Mr. Ford if he would sell the Government of Nova Scotia some machines for use here this year. He said no, but I am going to send you some machines and will send one or more of my best experts to Nova Scotia next Fall. Mr. Ford went on to say that he greatly enjoyed his visit to Nova Scotia in the Spring of this year and had been much impressed with the public men he had met here, that he was interested in our food production and that he was glad to give his personal aid in so far as this would assist towards increased cultivation in this Province.

Professor Cumming said that final details as to the operations of machines in Nova Scotia next Fall were still pending, but that he was now arranging for several big ploughing matches to be held at different centres in the Province. At these gatherings these Ford machines and probably one or two other makes will be operated, and the farmers will have an opportunity of seeing them for themselves.

CONSUMERS MUST CUT CONSUMPTION DOWN ONE-THIRD

Ottawa, July 11—Hon. W. J. Hanna, food controller, issued the following statement to-night:

The consumption of wheat, beef and bacon in the dominion must be reduced at least one-third to meet the needs of the Allied armies and people. Every man, woman and child in Canada is under a direct war obligation to assist in that reduction. The consumption of flour in England and France is being reduced to between three and four pounds per person per week. Canada and the United States must reduce their normal consumption of wheat by 160,000,000 bushels this year to meet added requirements for export. Russia has been enduring four meatless days a week. Households in England are under voluntary obligation to limit their consumption of meat to two and a half pounds per person per week.

The Allies look to Canada to relieve their food shortage. Both the producer and the consumer must assist to give that relief, the producer by producing and conserving to the utmost of his capacity and the consumer by substituting perishable and conserving storable foods for export. By such joint action the soldiers of Canada, the empire and the Allies will be strengthened in the struggle for victory.

Economy in the use of food-stuffs, particularly of wheat, bacon and beef, is imperative. Waste in the hotels, restaurants clubs and homes of the dominion is a crime. The committee on the control of food consumption, consisting of Mr. Justice Rose, chairman, Miss Mary U. Watson, George Wright and W. A. Cooper, has been in session for two days. Within a very short time it will have proposals to submit for the consideration of various classes of consumers. Meetings will then be held at various centres to discuss the proposals with the various elements and interests affected.

IT MAY BE NEEDED
Copenhagen, July 11—A Danish inventor, it is announced, has discovered a process for making newsprint paper from seaweed. The new process is said to entail half the cost of making paper from wood-pulp.

For Sale or to Let

In order to close the estate of the late M. P. WOOD, Port Williams, the farm formerly occupied by him containing 156 acres of land is offered for sale. Said farm consists of 25 acres of dyke and twenty-five acres of orchard and the remainder in tillage land, this is one of the best stock farms in Kings County, and at this stage in our history, when mixes farming is so essential to success it offers to the right man a golden opportunity to make good. If not sold it can be rented with a view to purchasing. This farm is offered at a bargain. Apply to

C. A. CAMPBELL, Agent
Port Williams

For Sale

Part of the Real Estate of the late **HOWARD BLIGH** namely: Forty-five acres of orchard and woodland (known as the Coleman Property) situated on Brooklyn Street, Kings Co., about two miles from Cambridge Station, one mile from Woodville Station, also fifty acres of orchard, meadow and woodland (known as the Eagles Farm) situated on Brooklyn St., Kings Co., about 1/2 mile east of the above named property. This property will be sold cheap in order to settle up the estate. For further particulars apply to **Howard Bligh & Co., Limited, Halifax.**

The Misses Gladys Rockwell of Quebec and Lila Rockwell of Edmonton are spending their vacation with their parents Mr. and Mrs. R. E. Rockwell of Brooklyn Corner.

Synopsis of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain districts Price \$3.00 per acre. Duties—Must reside six months out of three years, cultivate 50 acres and erect a house worth \$300.

The act of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

KEEP THE POTATOES GREEN AND GROWING

(Experimental Farms Note) Many are growing potatoes in Canada this year, for the first time and, as a result of the greatly increased number of growers the crop will probably be greatly increased. But to insure a good crop there must be an abundance of moisture in the soil and the tops must be protected from insects and disease.

CULTIVATION.—The soil should be kept cultivated with the cultivator or hoe until the tops meet sufficiently to shade the ground. As most of the tubers develop in the three or four inches of soil nearest the surface, and as the tubers will not develop well in dry soil, quite shallow cultivation is desirable at this season of the year. In soil which is dry there may be good development of tops but there will be few tubers. The roots in such cases have gone down deep into the soil to obtain moisture but the tubers bearing stems, which are quite different from the root system, do not develop well.

In heavy soils it is desirable to hill the potatoes as it will loosen the soil and the tubers will be shapelier than when the ground is left level. When there is sufficient rainfall and moisture in the soil hilling is likely to give best results in all kinds of soil as the soil will be looser and the tubers can push through it readily. As a great development of tubers takes place during the cooler and usually moisture weather of the latter part of summer, it is very important to keep the plants growing well until then. In one

experiment it was shown that during the month of September there was an increase of 119 bushels of potatoes per acre.

Protection of Potato Tops From Insects.—It is very important to prevent the tops of potatoes from being eaten by insects, particularly by the Colorado Potato Beetle. The old "bugs" do not do much harm to the foliage, as a rule, usually the plants are not sprayed to destroy these, although the fewer there are to lay eggs the less difficulty there will be in destroying the young ones.

These begin to eat rapidly soon after hatching, and close watch should be kept so that the vines may be sprayed before much harm is done. Paris green kills more rapidly than arsenate of lead but does not adhere so well, and in rainy weather it is desirable to have something that will stay on leaves so that they will be protected until it stops raining and thus prevent the tops being eaten. At the Central Experimental Farm a mixture of Paris green and arsenate of lead is used in proportion of 8 ounces Paris green, 1 1-2 pounds paste arsenate of lead (or 12 ounces dry arsenate of lead) to 40 gallons of water in order to get the advantage of both poisons. It may be that it is not convenient to get both poisons when either 12 ounces of Paris green or 3 pounds paste arsenate of lead (or 1 1-2 pounds dry arsenate of lead) to 40 gallons water could be used, or in smaller quantities, say 1 ounce Paris green to 3 gallons or 3 1-2 ounces paste arsenate of lead or half that quantity of dry to 3 gallons of water. An experiment conducted for six years at the Ontario Agricultural College, Guelph, showed that, on the average, where the tops were sprayed to kill "bugs," the yield was 186.9 bushels per acre, while when the tops were not sprayed and allowed to be eaten, the yield was only 98.2 bushels per acre. It is desirable not to stop with one spraying which usually does not kill all the bugs but to spray several times, if necessary, so that as little foliage as possible is eaten.

PROTECTION OF THE POTATO FROM LATE BLIGHT AND ROT. In some years the crop of potatoes is such lessened by the Late Blight disease and when rot follows little of the crop may be left. It is, therefore, very desirable to prevent this disease from spreading. This is done by keeping the plants covered with Bordeaux mixture from about the first week of July, or before there is any sign of the disease, until September. Sometimes the first application of Bordeaux mixture is made before the potato beetles are all killed when the poison for them may be mixed with the Bordeaux. While the disease is not very bad every year it is well to be prepared. There was an average increase per year of 94 bushels of potatoes from spraying with Bordeaux mixture in three years.

The formula for Bordeaux mixture for potatoes is 6 pounds copper sulphate or Limestone, 4 pounds freshly slaked lime to 40 gallons of water. While the bluestone will dissolve more quickly in hot water; if it is not convenient to get this, it may be suspended over night in a cotton bag in a wooden or earthen vessel containing four or five gallons of water. The lime should be slaked in another vessel and before mixing with the copper sulphate solution should be strained through coarse sacking or a fine sieve. The copper sulphate solution is now put into a barrel, if it has not already been dissolved in one, and enough water added to half fill the barrel; the slaked lime should be diluted in another barrel with enough water to make half a barrel of the lime mixture into the diluted copper sulphate solution and stir thoroughly, when it is ready for use. The concentrated lime mixture should not be mixed with the concentrated copper sulphate solution, as, if this is done, an inferior mixture will result. If the barrels are kept covered so that there is no evaporation, stock solution of the concentrated materials may be kept in separate barrels throughout the season. It is important to have the quantities of lime and copper sulphate as recommended, but, in order to be sure that enough lime has been used and there is no danger of burning the foliage, let a drop of ferrocyanide of potassium solution (which can be obtained from a druggist) fall into the mixture when ready. If the latter turns reddish-brown, add more lime mixture until no change of colour takes place.

ROUMANIA WILL HIT HARD SOON

Big Offensive to be Launched Shortly

London, July 9—It is authoritatively announced that the Roumanian army will shortly launch an offensive of the utmost importance, designed to prevent the Germans from securing Roumanian crops now ripening, and also to recover possession of the Roumanian oil fields, which unless regained will soon be producing for Germany. There is apparently confidence in the ability of Roumania to produce a bigger surprise than Russia has done by the present offensive.

"Before August, 1914," says the Minneapolis Journal, "who would have dreamed that Fiji Islanders would journey from the South Seas to help England beat back the invading Germans in France? The news that a contingent of these antipodal islanders are even now on their way to the front, along with large numbers of Chinese laborers who are to cultivate the soil of France while the former cultivators fight back the Germans, serves to illustrate anew the veritable melting pot of peoples this war has set a-seething."

Will Women Volunteer?

They may Serve, if they wish, in the Last Line of Trenches -- The Tilled Fields

Thousands of the men who used to do the farm work in Nova Scotia are now fighting overseas. Their places must be filled. Yet the required number of men is not forthcoming. There are more jobs than there are men available.

Therefore Women are Asked to Volunteer for this Work

We want the names and address of all women in this Province who are able to engage in a healthful open-air occupation. Applicants should state the date they can begin work and length of time they can spend on the farm. Wages according to ability, will be paid. We believe that the women of Nova Scotia will respond to the call of the land as promptly and as efficiently as did their sisters in the countries of our allies.

APPLY AT ONCE to either W. E. PORTER, Kentville; H. E. CALKIN, Wolfville; JOHN E. WOODWORTH, Berwick, Secretary FARM LABOR EXCHANGE, or to the SECRETARY OF INDUSTRIES and IMMIGRATION, HALIFAX.

STRAWBERRY PICKERS WANTED

ALL women, Boys and girls in KINGS County who are willing to help the strawberry growers during the picking season, are asked to send in their names at once to any of the following SECRETARIES OF FARM LABOR EXCHANGE: —

W. E. PORTER, Kentville; H. E. CALKIN, Wolfville; JOHN E. WOODWORTH, Berwick,

or to the SECRETARY OF INDUSTRIES, & IMMIGRATION HALIFAX

IF NOT THIS, WHAT

"I wonder if those who hesitate about what they should do on this bill reflect that at the present moment in France as the Teuton is compelled to retire, he is taking every French female above the age of 14 years to work, to suffer and God knows what else.

These are the recruiting agents that appealed to the wide Dominions of this Empire. May I add, not uncharitably, I hope that if men will not listen to this, neither would they listen if one rose from the dead."

Dr. Michael Chark in the House of Commons.

"Yes" said the cynical old sea captain, "when I was shipwrecked in South America, I came across a tribe of wild women who have no tongue."

"Good gracious!" exclaimed the listener, "how could they talk?"

"They couldn't," was the reply. "That was what made them wild."

PEKING SURROUNDED BY REPUBLICAN TROOPS

LONDON, July 12.—Peking is
surrounded by 60,000 Republic-
an troops with seventy heavy
guns, says an Exchange Tele-
graph despatch from Tien Tsin
dated yesterday. This force
renders escape from the capital
of General Chang Hsun, the
Imperialist leader, impossible.
Chang's soldiers are reported
to be entrenching themselves
in the Imperial City. Mediators
apparently had been unable to
arrange terms between the Re-
publicans and Imperialists up
to the time the despatch was
filed.

MORE THAN 700 KILLED IN AIR RAIDS ON BRITAIN

German aircraft have made 25
disastrous air raids over Eng-
land since Jan. 1915, inflict-
ing a total loss of life of 677
persons. The list of principal
raids follows:

Year	Killed	Injured
1915		
January 19	4	101
May 31	6	33
June 6	24	66
June 15	16	100

of 420,882,558

LONDON, July 10.—The final
report on the census, which was
taken in 1911, and which has
been issued, shows a total pop-
ulation of 420,882,558 of which
215,456,396 were in India, and
45,221,615 in the United King-
dom of Great Britain and Ire-
land.

The population of Ireland con-
tinues to decrease, France is
stationary but there has been a
remarkable fall in the growth
and Scotland. Germany of
the population of Norman
shows the highest rate of in-
crease in Europe, while in the
British Empire abnormal rates
of growth are shown in Canada
and New Zealand.

In all English countries,
birth in the ten intercensal
years outnumbered deaths, yet
in six London, Cumberland,
Westmorland, Cardigan Radnor
and Montgomery—the popula-
tion decreased, showing the
losses by migration.

As a consequence, it is charged
of wilful mis-statement of age,
the number of women in the
groups aged 20-25 and 25-30
are disproportionately high.
There is a striking increase
in the number of public inter-
tainments which the report
says is due largely on moving
picture shows.

British Airmen Win In Hardest Fights

London, July 18.—British air-
men have been victorious in
the most severe aerial fighting
since the beginning of the war.
On the front in France, on
Thursday, fourteen German
airplanes were brought down
and sixteen driven out of con-
trol, says the official statement
from British headquarters in
France tonight. Nine British
machines are reported to have
been lost in the fighting.

FOR SALE a two horse mowing ma-
chine in good repair. C. V. Sherry, Lake-
ville.

MARRIED Wood-Kelsey

Thomas Elliott Kelsey and
Miss Margaret Frances Wood
were married at 10 o'clock this
morning at St. Thomas Epis-
copal church chapel in the pre-
sence of a large gathering. They
left later on an extended wed-
ding trip and on their return
will occupy their newly furnis-
hed home at West Weir Street.

The ceremony was perform-
ed by Rev. Malcom Taylor,
rector of St. Thomas. Mr. and
Mrs. Kelsey were unattended.
The bride's costume was a blue
traveling dress, with hat to
match. The wedding march
was played by Mr. Clemson.

There was a short informal
reception at the chapel, where
scores of friends extended
heartiest good wishes to the
newlyweds, and they were
showered with rice and confet-
ti as they left the church for
the train.

The above is from an issue
of the Taunton Gazette of June
issue Mrs. Kelsey is well-
known here in Kings County
being a daughter of the late
Andrew Wood of Lakeville and
sister of Messrs. J. W. Wood,
Coldbrook, Mr. Fred E. Wood,
Lakeville, Mrs. Ernest Robin-
son, Canning and Mrs. A. W.
West, Kentville.—Ed

OBITUARY

Mrs. Thomas Courtney
The news of the death of
Mrs. Thomas Courtney at
Dartmouth came as a great
shock to her many friends at
Kentville. She had been ill only
two weeks and died on Sunday
morning at 10 o'clock, aged 23
years and several months.

Mrs. Courtney was formerly
Eva, eldest daughter of Mr. B.
H. Barnaby, master painter of
the D. A. R. and Mrs. Barnaby
Kentville. She married about 4
years ago. She leaves besides a
husband, two children, one 3
years old and an infant 12 days
old, a father and mother at
Kentville, 4 brothers and 3
sisters as follows: Charles of
Windsor; and Fred of Kent-
ville, both fireman of D. A. R.
Harry in France; Evelyn
in Boston and Jean, Edna and
Frank at home here.

Mrs. Courtney was a faithful
and earnest worker in the Bap-
tist church at Kentville, kind
and considerate of others and
her place in the home cannot
be filled.

MARRIED

Vancouver.

At Syracuse, N. Y., on Wed-
nesday, June 27th, by the Rev.
Dr. A. C. Fulton, Clara S.
Bishop, of Cazenovia, New York
State.

At the home of the bride, on
Wednesday, July 4th, Pte. E.
A. MacMahon of Aylesford, and
Miss Marguerite Bishop West,
of Lawrencetown.

At the Baptist Parsonage,
Berwick, June 27th, Charles W.
Eisenhauer, of St. Croix, Hants
County, and Nellie A. Parker,
of Aylesford.

At the home of the bride's
parents, Mr. and Mrs. James
Bryden, Base Line Road, by
Rev. W. A. Robbins, on July
4th, Cornelius Coleman and
May Bryden.

DIED
