TUESDAY EVENING, AUG. 27, 1872

Town and County News.

COURT OF CHANCERY.—The autumn meeting of this Court will be held in Guelph on the 14th November.

BOARD OF SCHOOL TRUSTEES.—The usual fortnightly meeting of this Board was not held last (Monday) evening from want of a quorum.

Those wishing photographs of the late Father Sherlock, can be supplied at Day's Bookstore at 12½ cts., 15 cts., and 20 cts. Cabinet size at 50 cts.

PIC-NIC AT ACTON.—The good people of Acton intend to make Friday the 30th a holiday, and will hold a grand picnic in Mr. Adams' Grove, near the village, at which there will be games and amusements of all kinds. We hope they will have a good time.

SALE OF BOOTHS.—We beg to draw the attention of intending tenderers that the Directors have instructed the Secretary to call for tenders for the purchase of booth lots on the Exhibition Grounds during the Exhibition week, and that such tenders must be handed in on or before Saturday, the 31st inst. See advertisement.

TEMPERANCE LECTURE.—Mr. J. M. Dunn gave an interesting lecture last night in the Temperance Hall, before a good audience, on temperance viewed in the light of history. At the close, a vote of thanks was passed to him, and a resolution was also passed for petitioning the Town Council to enforce the law in regard to the closing of taverns and saloons on Saturday nights and Sundays.

BARLEY.—Mr. James Anderson, Puslinch, informs us that he has just thrashed his barley crop of 8 acres in 3 hours—Messrs. McGinnis & McCaig being the thrashers—and which yielded 264 bushels, or 33 bushels per acre. Not so bad for Puslinch with its light soil and considering the extreme drought of the present season. The sample as might be expected is somewhat thin but bright.

SALE OF STOCK.—Mr. James Anderson, of Puslinch, has sold to Mr. Hartley, of Cincinnati, 4 Southdown ewes; Mr. John Hewer, Great Western Hotel, to the same gentleman, 2 Berkshire pigs got by Mr. Allan Simpson's imported boar; Mr. Thomas McCrae, Guelph Township, to the same, a superior Essex sow (in pig). We are glad to note that our American friends continue their enterprising visits to Wellington County, and we hope that they may long do so advantageously to both buyer and seller.

WESTMINSTER REVIEW.—We have received the "Westminster" for July. Its contents are: English Philology; Greek Lyrical Poetry; Dr. Newman—the Difficulties of Protestantism; the Politics of Aristotle; Andre Chehier—Poet and Political Martyr; Recent Experiment with the Senses; Contemporary Literature, &c. The "Westminster" is reprinted by the Leonard-Scott Publishing Company, New York, and is for sale at the Bookstores.

AN OX WITH A WOODEN LEG.—We observed recently a paragraph in a Scotch paper, giving an account of a valiant ox who had broken one of his fore legs, and the Veterinary Surgeon of the District undertook to replace the fractured and afterwards amputated limb by a wooden one, which he did successfully, and, at latest accounts, the animal was not only doing well, but able to walk about on its "new understanding" with satisfaction to all concerned.

SERIOUS ACCIDENT AT HESPELER.—An accident of a very serious nature occurred in Hesperler on Monday afternoon. A mason, named Bleiler, whilst moving the scaffolding of a new building being erected by Randall, Farr & Co., fell from a height of about 15 feet, striking his forehead on some sharp stones, receiving a very serious cut and rendering him insensible for a short time. Dr. Swan, of Hesperler, was quickly on the spot and rendered every assistance. The poor fellow is progressing as well as can be expected after such a bad fall.

ACCIDENT.—On Tuesday last, 20th inst., the son of Mr. C. Clarke, M. P. P., Elora, while engaged in duck-shooting on Lake Scugog, near Port Perry, met with an accident which we announced in our issue of Saturday last. Young Clarke, who is a good shot and accustomed to handle a gun, was in a boat in company with the Rev. George Nesbitt, and a son of Mr. Yamold, of Prince Albert, when a duck settled in some weeds near the party. Mr. Nesbitt rowed the boat towards the spot, while Clarke prepared to fire. The lad must have been drawing his gun forward when it was suddenly discharged, the hammer having, very probably, come in contact with the seat of the boat. The charge passed through the two middle fingers of the right hand, which were so shattered that immediate amputation was necessary. Two fingers on the left hand were injured, and it may be necessary to amputate one of them. We are glad to hear that young Clarke is doing well.

POLICE COURT. Before T. W. Saunders, Esq., P. J. Tuesday, Aug. 27. John Armstrong remanded from Saturday the 17th inst., was again arraigned until Saturday the 31st inst.

THIS MORNING'S DESPATCHES BY TELEGRAPH

The Geneva Arbitration.
The Case of the "Georgia" Abandoned.
The Belfast Riots Ended.
The Spanish Elections.
Stanley in his Defence.
Miss Faithful Coming to America.

Geneva, Aug. 26.—There has been an earnest contest between the British and American Counsel before the Board of Arbitration, regarding the case of the privateer Shenandoah.

It is said that the case of the privateer Georgia has been practically abandoned by the American Counsel.

London, Aug. 26.—Private telegrams from Belfast received in this city on Saturday reporting a renewal of rioting in that city are not confirmed; on the contrary despatches received by the Government state that everything is quiet, and reinforcements of troops which were sent there are leaving, there being no apprehension whatever of further trouble.

Madrid, Aug. 26.—Additional returns from the Provinces of elections for members of the Cortes, show that two-thirds of the successful candidates are members of the Government party. The Radicals supported the Government at the elections.

London, Aug. 27.—6 a.m.—Mr. Stanley has written a letter to the Daily Telegraph replying to the hostile criticism in the Spectator and Saturday Review.

Miss Emily Faithful will sail for America early next week.

Mr. Johnston, M. P., arrived at London yesterday. There was no demonstration on his landing. He goes to Belfast immediately. Tranquility continues in the latter city and the public houses have opened their doors again.

A special despatch to the Times from Paris says that the report that President Thiers will propose to the National Assembly, after its recess, the formation of a Second Chamber is absolutely correct.

Local and Other Items.

A cheese factory is about to be started in Erie, County of Bruce.

Work will be commenced on the Kingston and Pembroke Railway this week.

A little boy, four years old, was bitten by a mad dog, in the township of Kinloss on Tuesday last. Fortunately, medical aid was promptly obtained, and the boy is now considered out of danger.

Last week, a child 22 months old, son of Mr. John Ralston, Kinloss township, while running about the floor in a playful mood, happened to approach the table and overturned a cup of boiling hot tea, part of which ran down the unfortunate child's throat, scalding him so severely that he died on the following Thursday.

SERIOUS ACCIDENT AT AILSA CRAIG.—As the wood train on the G. T. R. was leaving that station on Monday evening, a young man named Murphy, in the employ of the railway, was standing on the top of the car, when his head came in contact with the overhead bridge west of the station. He was knocked down and his skull fractured. He now lies in a very precarious condition. Great indignation is manifested at the fact of this bridge not being raised higher, this being the third accident from it in two years.

THE SALT INTEREST.—The Kincairdine Reporter says that Canadian salt has risen to a paying price and is still advancing. In consequence of its superior quality Americans are eager to buy, and already during the present month, a large quantity has changed hands. The Kincairdine Salt Company, the first that struck salt there, is resuming operations this week, and at the other two blocks they are manufacturing constantly. The Bruce Salt Company last Saturday shipped 2,800 barrels per the Propeller East, for the Milwaukee market. Mr. Rightmeyer, whose well is the largest in the Dominion, has now on hand, ready for shipment, no less than 12,000.

RUFFIANLY OUTRAGE IN EAST GARAFRAZA.—A reliable correspondent, who vouches for the truth of his statement, informs us that Messrs. Angus Norris, Wm. Most, and D. Crawford, who live in East Garafraza, and who voted for Mr. Ross, had their rifles' tails cut off lately by some ruffians, who took this miserable means of revenging themselves on these gentlemen because they chose to vote in accordance with their political principles. Mr. Norris, fearing that their revenge would not end there, and that they might burn his barn, went into Orangeville next day and had it insured. We trust that every means will be taken to bring the guilty parties to justice. It is too bad that in a free country like this men are not allowed the right to exercise their own judgment, without having their property injured by ruffians who do not understand, and cannot appreciate, the rights which belong to the subject in a free country.

In explanation of the fact that so many officers of the French army belong to the ultra clerical party, it is stated that the Jesuits have worked for years past, according to instructions from Rome, to induce the pupils of their educational establishments to enter the army.

The Union Base Ball Club.

As most of our readers are aware, we have in our town a base ball club called the Unions, which we have been intending to notice for some time past. At the commencement of the season the Young Canadians amalgamated their forces with that of the Unions, thus adding greatly to the latter's strength, and the mutual benefit of both. By adhering strictly to practice, and the adding of some good members lately, the Union 1st nine now think they are second to no junior club in the country in the art of handling the base ball, and consequently have determined to try their luck with the junior champions—the London Eckfords—leaving for their game in London to-morrow morning. The Unions have played five challenge games this season, coming out first best in them all, and amongst the number, as will be noticed by the appended score, were the London champions; thus adding more feathers to their already well plumed cap. But whilst we glory in their pluck, and help to cheer them on to victory, it would not be well for them to put too much faith in their mate conquests, but arm themselves well for the battle, as they will no doubt have hard work to do in London to-morrow afternoon. Our readers will remember that since their last match game with the Elora Club in town, a subscription was set on foot to replace their old shabby worn out suit with a bran new one, and now the Unions have in their club the prettiest base ball suit in Ontario. The caps are made of white flannel, with a green stripe and peak; the shirts are also made of white flannel, with a green shield on the breast, and large U in the centre; the knickerbockers are of a handsome light tweed, and were made by Messrs. Chance & Williamson; the belts are green, with a white edge, the stockings are also green, and were purchased by Mr. Jackson while on his late tour with the Maple Leaf in the States. The shoes are of light leather, and were made by Mr. Tawse, for the sum of \$25. The whole suit will cost close upon \$105, which amount, the Committee inform us, has been nearly all paid in. The nine leave by the Western 7 a.m. train, each paying his own expenses, and we are also informed they have secured the services of Mr. Nichols, of the Maple Leaf, to accompany them, who will see that all is done in a straightforward manner while there. A number of our base ball men have also signified their intention of going with them. The following are the games won, and runs made this season:

Athletics, of Elora, by a score of 20 to 57
Ontario, York Road, " 73 to 18
Eckfords, London, " 36 to 16
Athletics, Elora, (return match) 36 to 23
Independents & Union 2nd nine 30 to 29
Leaving 56 runs in Unions favor. 141 227

Since the above was in type we have been informed that the Woodstock Eckfords have given over the Silver Cup to the London Eckfords.

New Brunswick Letter.

The election contest in St. John county and county is over. Tilley, Burpee and Palmer are the successful candidates. The campaign in King's, next to that of St. John, was the keenest, and therefore the most interesting. There were three candidates—Messrs. Donville, Sharp, and McCready. The first of these gentlemen has been elected. He is a St. John merchant, and, until the last moment, his numerous friends in that city were not very sanguine of his success. This timid feeling arose from the character of the men who opposed him; one being a popular medical man in the county, and the other a native, a special correspondent of the Telegraph, and, as that journal said, a gentleman experienced in the manners and customs of Ottawa. Sharp polled a very good vote, McCready a very miserable one. The latter's Ottawa education in the etiquette of polite society, was counted a minus quantity by the "intelligent" voters of this important county, and, as was at one time scarcely expected, St. John can now boast of having three honorable members of Parliament residing within its bounds. In considering the returns from this and the other constituencies of the province, the present Government will lose nothing by the present contest. They have gained Northumberland by the return of the Hon. Peter Mitchell, whose popularity was endorsed by a huge Intercolonial Railway picnic, at which his constituency made merry over his unopposed election. Moffat, a former Oppositionist, but now a supporter of Sir John, has been elected by a large majority for the County of Westmorland. Renard has been defeated in Kent by a believer in the virtue of the Government, while the Hon. Albert J. Smith, an Anti-confederate in 1867, but who, on several occasions assisted the Coalitionists with his vote, was returned by acclamation for Westmorland. York has given the Government a vote, and Charlotte will another. Anglin will be opposed in Gloucester, but as surely will be chosen by the Frenchmen of that county. Mr. Anglin is one of the best representatives New Brunswick has. Always on duty, never inattentive, ever ready to keep the nominal Conservatives on the right track. He is one of the best speakers in the House, eloquent and argumentative, thorough in details, experienced and intelligent. A number of the hard-shell Macdonaldites would rejoice to see him crushed, yet all liberal minded politicians will be glad to hear of his success.

Picnics are legion. Nearly all of them, however, have been unfortunate in the date fixed for their realization. The printers have made money from the "postponement" cards. In describing these joyous re-unions in the country and by the sea-shore, the weather in its fickleness would require a column of the Mercury. This may be saved by more interesting matter, when we deem it sufficiently satisfactory to characterize all the excursions as pleasurable gatherings, which no one, with time and money at their disposal, would miss—enjoyments full of excitement to the young, and quiet holiday-life to those ripe in years. Fredericton, from the shoulders above her neighbors, is holding a picnic on an immense scale. The Exhibition Building is crowded this week with the wares of a mammoth bazaar. The inside of this Provincial ornament has been cleaned, scrubbed, white-washed and ornamented; the exterior is resplendent with colours, flags, and banners of every clime and nation. The committee deserve praise, even success, for they have spared no energy in endeavoring to make their Bazaar a thing to be remembered.

The Public Schools have all re-opened after the holidays. The New Brunswick School Question, which has agitated the province for some time past, will probably be settled next winter by an amendment to the Act authorizing Free Schools. The question found a prominent element for discussion during the elections. There are still many people in New Brunswick, especially those who are heavily taxed, who believe that our New School system will prove more a curse than a blessing to the sons and daughters of our country. The Chief Superintendent of Education in trying to dispense this ignorance, delivered a lecture to the people of Westmorland last week, but was interrupted by a gentleman who declared that to escape the School Tax he would sell out and leave the Province. The lecturer quietly asked him, "Where will you go to be free?" The question, as a crushing argumentum ad hominem, was conclusive. For, of a certainty, New Brunswick has been last in this matter. All her neighbors have free schools and direct taxation. Scotland is the only exception, with her old system of parish schools and academies, but for how long no one knows.

Lecturers, singers, opera houses, and musical academies are but poorly patronized at this season of the year, when money set apart by pater familias for amusement, is being squandered on picnics, bazaars, river excursions, &c.—Rosa d'Erina, a vocalist, musician and lecturer, hailing from Ireland and Paris, has, however, in two or three concerts, drawn large audiences, and so won the hearts of St. John Irishmen, with her rendition of Irish songs, melted the bosoms of Scotchmen so tenderly with her Scotch melodies, and produced in all foreigners such an overwhelming attack of homesickness, that the citizens intend giving her a benefit on Friday evening.

The Foster Brother;

The Orphan of the Wreck.

CHAPTER XV. GOING NORTH.

"Hillo, Eglantine, old fellow?" exclaimed a voice from the front of the coach...

"What, Manby?" cried George in a tone of equal satisfaction...

"Right on to Aberdeen," answered George. "Ah, how lucky. Once across the ferry, we shall get seated together on the top and chat all the way through Fife."

And placing his arm within that of George, the two young men strode down the pier to the ferry boat.

This meeting and brief conversation took place at Granton. When the Aberdeen coach started from the Black Bull in Leith Street, the glimmering light of dawn had not quite got the mastery of the night's darkness...

The friend which George thus met was Dr. Manby, the medical superintendent of the Granton Linnatic Asylum...

"So Harry and your sister have got married," said Manby, as they walked to and fro on the deck.

"I should think not. In fact, had I known the day, and could have left my post, I should have come without a formal invitation."

"And nothing would have given us greater pleasure. But why didn't you call while in Edinburgh?"

"My dear fellow, I came there only yesterday, and was in consultation till late last night. This morning I had to start for Dundee, where another consultation awaits me.

"Ah," said George, "I thought you would be surprised by my inquiries. I could not well explain the matter in a letter; but now that we have met I can enlighten you, and you will find it as strange a story as you have heard for many a day."

"Well, do you know, I could not understand your interest in the man at all, for he is a being of whom nobody knows anything. We call him 'Walley' in the asylum—though how he got the name, or what it means nobody knows."

"I gave him the name," replied George with a quiet smile.

"You?" exclaimed Manby. "Pooh, man, you are dreaming. He has been in the house for twenty years, and has borne that name all the time."

"Nevertheless, I gave him the name," repeated George.

"The thing is impossible," he rejoined. "I don't know much about his history, but, of course, I am up in his case, and the cause of his madness. He and a child were the only survivors of a wreck which—"

"I know," interrupted George. "I was that child."

"Manby stood still again and caught his breath in astonishment. The look with which he regarded George, made the latter burst out in laughter.

"You think I am fit to become an inmate of your asylum, I don't doubt," he cried. "But, I assure you, my brain is not a bit touched—it is the sober truth, I speak, though I warn you the story you have to hear is a singular one."

"Singular?" echoed Manby. "If what you have now said is not a joke, it is incredible."

"To you it is at present, but when my tale is told, you will understand it well enough, though your surprise and interest will not be lessened. We are too near the landing-place for me to begin it now. Wait till we are in the coach, then you shall have it, and then shall you fully understand what interest I have in this man Walley."

"Well, you may easily imagine how eager I am to hear this strange history. But, I say, who is you man? Do you know him?"

"What man?" asked George. "The stout, thick-set, red-haired man, with the hooked nose and bushy eyebrows—standing aft."

"Standing by himself at the bulwarks?" "Exactly. Who is he?" "I don't know. I never saw him before."

"Are you sure of that?" asked Manby. "Perfectly sure," replied George. "If I had, I should have known him again easily, for his marks are peculiar, and his appearance is not particularly prepossessing. Why do you think I should know him?"

"Because he also takes a special interest in Walley?" "Ho? That man?"

"That man," returned the other. "He was at the asylum two or three days ago to see him, and told me the keeper informed me that he has come at intervals during the last twenty years—since ever the maniac was confined there."

EQUITABLE

Life Assurance Society,

No. 120, Broadway, New York.

Not cash assets, 1st Feb. 1872 \$18,000,000 Annual Income \$2,000,000 Total paid policy-holders, 1871 \$4,899,840.87 Surplus, 1871 1,700,000 New Business 1871 \$41,804,027.00

The Largest of any Company in the World.

This Society has led the van in the Insurance world for many years; it has introduced more improvements and given greater impetus to the business than any Life Company in the United States, and is deserving in this respect of the praise and gratitude of the community.

There are many reasons for selecting the Equitable Life Assurance Society: 1st—No company has such large annual transactions, thereby insuring into its business a constant accession of fresh selected lives which is one of the greatest elements of strength.

2nd—Liberality in dealing with all claims: observing at the same time, a due regard to the interests of its present large body of policy-holders by a firm resistance to any attempt at imposition.

3rd—Perfect organization in every department which renders efficient administration easily attainable and secures a complete administration of its affairs.

4th—Being one of the most conservative institutions of its kind in the world, it is well prepared to make at once upon any improvement in the business such changes as suggest themselves.

The Equitable Life Assurance Society issues every recognized form of policy, and especially the FORTUNE SAVINGS FUND INSURANCE which the Company introduced. This new plan has become very popular, as equalizing among all who are insured under it the advantages which arise from the profits of the business, without in any respect infringing upon the normal results for which Life Insurance was first instituted.

The Equitable feels that it has the strongest claims upon public confidence. Under the management that distinguishes it and the principles by which it is guided, perfect security is given for the future, than which no greater inducement can be held out to all who wish to insure their lives.

Further information regarding the different kinds of Policies issued by the Society can readily be obtained at

THE COMPANY'S OFFICES, 120 Broadway, New York, Or from any of its representatives throughout the United States and Canada.

A Chemical Food and Nutritive Tonic.

Without Phosphorus no thought, say the Germans, and they might add, no action, since Phos. is the motive power of the nervous and muscular system. They constitute more than half the material of the human body, and are found in every tissue, and their presence is absolutely essential to nutrition. They promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrophulous, Consumption and Venereal diseases, which are caused by impoverished blood, and in diseases of women suffering from irregularities, obstructions and excessive discharges, in pale, puny children, and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as a fast life. The great reliability and promptness in its effects in immediately and permanently restoring the debilitated constitution, has made Dr. WIGGLESWORTH'S COMPOUND ELIXIR OF PHOSPHATES and CALISAYA a great favorite with the Physicians and Public.
