Montreal Stock Market.

GENERAL MARKET STRONG—LED BY C. P. R., MONTREAL STREET AND TORONTO RAILS—RICHELIEU DECLARES DIVIDEND OF 3 PER CENT.

The market opened this morning with a firm undertone, under the lead of Canadian Pacific which was selling in London at 89½ equivalent to 27 here. This stock with Montreal Street and Toronto Rails were the strong issues, although the market generally was very bullish and fairly active.

Canadian Pacific. It looks as if the long expected bull movement in this stock has arrived at last. The strength displayed in London was quickly reflected here. The stock opened at ½ above yesterday's closing sale and quickly sold up to 37, closing with sellers asking 37½ and buyers offering 36¾. 475 shares were traded in.

Montreal Street—The bulls smile and the bears look sad at the strength displayed by this security. Opening at 327½, the price advanced steadily until the closing sale was made at 329½, which price was bid for more stock at the close, with sellers asking 330. Last June, when the stock was selling around 253, the bears bewailed the foolishness of the investing public for buying this, according to them, high-priced security. What must their feelings be now? Notwithstanding the advance in price, a very small amount of stock changed hands (only 258 shares being disposed of) which speaks volumes for the opinion in which it is held by its present owners.

Toronto Rails—This stock also scored an advance of ½ of a point over the highest sale yesterday. Opening at 119½, it quickly sold up to 120½, but reacted a little towards the close, the offering sale being made at 120, with buyers offering that figure for more and sellers asking 120½. 350 shares were dealt in.

Twin City with the rest of the market displayed strength, making a gain of one point over yesterday; 325 shares were dealt in between 69½ to 70.

Richelieu was neglected and inclined to sell off. There are rumors of renewed opposition the coming summer, but the

fact that this company practically saw the opposition off their feet last summer is sufficient guarantee to the friends of this stock that if opposition materializes during the coming season, which is not likely, they will more than be able to hold their own. Only 50 shares changed hands at practically yesterday's prices. This Company declared its usual 3 per cent. dividend for the half year to-day.

In mining issues War Eagle was strong and was dealt in to the extent of 2500 shares, selling as high as 358½. Eleven hundred shares of Montreal-London were disposed of at 70. Transactions in Payne Mine were conspicuous by their absence, but it was quoted 3.87 to 3.90.

The balance of the trading consisted of a small lot of Royal Electric which sold at 185; 25 Halifax Ry. at 114; 75 Dominion Cotton at 117; 100 Commercial Cable at 185; 50 Montreal Telegraph at 175; 3 Bell Telephone at 178 x d, and small sales of Molsens Bank and Bank of Commerce at steady prices.
