Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	12X	14X	16X	18X	20X	22X	24X	26X	28X	30X	32X
				✓							

The copy filmed here has been reproduced thanks to the generosity of:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library
University of Western Ontario
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

HAND BOOKS TO
JOHNSTON'S WALL MAPS
OF GENERAL GEOGRAPHY,

BY

KEITH JOHNSTON, LL.D.

Uniform in Size with the Author's Small Atlases.

THE advantage of teaching Geography by constant reference to large Wall Maps is now fully appreciated and practised in the higher class schools throughout the country. Learning by rote from books alone—lists of names with which no positive geographical localities are connected, leads, inevitably, to a distaste for the subject; and any little information so acquired is speedily forgotten. The eye,—that important auxiliary in the acquisition of all knowledge depending on form—is thus virtually ignored, and progress in learning is slow and unsatisfactory.

Assured that the system here advocated would be still more generally adopted, if Text Books were to be had in which the names selected, and their orthography, should be in perfect accordance with those on the Maps, the Author has been induced to prepare a separate Hand Book to each of the Wall Maps of General Geography, similar in plan to those for his Wall Maps of Physical Geography, which have been so well received. In these Hand Books, broad general views are inculcated, and all unnecessary detail is avoided. Every place noticed has something peculiar, either in *position*, *population*, *commerce*, *productions*, or *history*, to render it memorable.

The text introduces subjects not usually taught in schools, but which, it is believed, will make the study of Geography fresh and attractive to the young. Intelligent teachers will here find suggestions which may enable them to lay before their pupils comparative views of great interest regarding different countries and states.

Teaching Lists to accompany each of the Hand Books, have been carefully prepared by an Inspector of Schools of great experience. These afford a ready means of testing the attainments of pupils in Map Geography, for acquiring a knowledge of which they offer the easiest method. Every name given in these lists is to be found in the Wall Maps to which they refer.

Many practical advantages will be found in this method of

limiting the attention of the learner to one Map, and its Explanatory Text Book, at one time. The distraction consequent on promiscuous book teaching is thus avoided; while, for a few pence, the pupil is supplied with lessons for a great part of a session, and is not under the necessity of carrying to school a bulky volume, of which a small part only can be required.

The Teaching Lists and Explanatory Text are further adapted to be used with **Unlettered Wall Maps**, a series of which, exhibiting the physical features of each country with the positions of the principal towns, but omitting the names, has been prepared for school use. These are employed either for testing the knowledge of a class by pointing to the un-named Map on the Wall, or for filling in the names as an exercise for more advanced pupils. For this purpose plain sheets are supplied by the Publishers.

Uniform with the Physical Atlases.

The Half-Crown Atlas of Political Geography,

By KEITH JOHNSTON, LL.D., F.R.G.S.

31 Coloured Maps. Full Bound Cloth, with Analytical Index.

The Shilling Atlas of Political Geography,
