Salisbury Finds "The Power, Prestige, Influence and Magic Effect of Our Great Empire More Potent, More Efficient and More Admirable Than Ever Before."

Salisbury, as president of the annual the Premier, "but we have greatly Salisbury, as president of the annual Grand Habitation of the Primrose League at Albert Hall, this afternoon spoke to an immense audience, in a much less pessimistic vein than when he was the last time heard in public. He congratulated the league on the staunch support given to Conservative governments, one result of which was that Great Britain was the Premier, "but we have greatly won."

It was impossible not to feel that the efforts of the people of the country have, in some cases, not been worthily recognized. The other day Mr. Morley asked if there was a single member of the cabinet of 1899 who, if he could have foreseen the results of the policy on which they were then launcing the country, would not have checked the diplomacy leading to such deplorable which was that Great Britain was diplomacy leading to such deplorable now supreme in Egypt, while, with results. regard to Ireland, the country need regard to Ireland, the country need no longer fear the "insane, suicidal (Lord Salisbury) wished to meet this

Great Britain has had a great and serious war, but admitting that misery and suffering had been caused, yet it "must be recognized that the power, prestige, influence and magic effect of our great empire are more potent, more efficient and more admirable than ever before."

His Majesty's dominions "and made an attack which was a gross and flagrant outrage, it could only be met by fighting in their own country those who had despised the rights and sove elgnly of our sovereign."

Turning to the peace negotiations, Lord Salisbury announced that "Great Britain has not receded one inch from her former position. As to the rights we claimed and the policy we intend to pursue we are exactly where we were."

was confirmed to-day in trustworthy quarters.

The Post says: "Efforts are being made, however, to keep the matter as secret as possible, because of the opposition which has been stirred up abroad, and which might arise here in case the facts are known in regard to the ownership of the steamship companies.

"It is admitted in well-informed quarters that it is planned to make the ocean lines feeders to the largest railroad transportation companies of the steamship and these are supposed to be the Pennsylvania, New York Centural, Parie, Reading and Baltimore & Ohio, although these will come in.

"In regard to the railroads, it should be said that their interest in the undertaking does not necessarily imply that they have officially subscribed as yet to the syndicate, but subscriptions have been entered, which are intended for them, and those who have taken them are agents for the railroads."

except animal food for the main fare of her family," says The Buffalo Express.

"It is not an entirely new thing this advance in the price of meats, and it is even rumored that prices have not yet reached their limit, but certain it is that the cost of living for the average family has increased rapidly of late until meat has become an article of diet that must necessarily be eliminated from the daily fare of the very poor, and has become almost a luxury even to those who have a moderate and usually adequate amount to spend upon the family food.

"To-day domestic science and public opinion have joined in teaching an important lesson to rich and poor allke, the necessity of consuming body building food, supplying material that will keep nerves, muscles, bones, flesh and brain in the proper condition, feeding into the human engine the fuel needed to make good the constant waste."

New York, May 71—This was the second day of the annual Grand American Handicap target shooting tournament of the Inter-State Association at Interstate Park, Queen's, L.I., and 111 gunners took part in five of the six events on the program. The principal event was a preliminary handleap, open to all, at 100 targets thrown at unknown angles, with 92 entries.

The entry to this event was \$7 per man and the handleaps were 14 to 25 yards, the conditions being high guns, not class shooting, with \$100 added to the purse. Besides first money, which amounted to \$97, was a silver trophy, valued at \$50. First honors went to Dr. O. F. Britton of indianapolis, who tied with Ed. Rike of Dayton, O., with a score of \$2, out of a possible 100. Dr. Britton broke 22 and Rike only 20 in the shoot-off at 25 targets.

The Grand American Handleap at 100 targets, unknown angles, with \$200 added, and a sterling silver trophy will be the main attraction to-morrow.

People from all parts of the city wend their way to the zoo, and Ald. Lamb their way to the zoo, and Ald. Lamb may well feel proud that his first suggestions and efforts in this direction have met with such evidences of popular approval. But the zoo can well afford to have its limits extended. At the present time the animals are housed in too confined quarters. This, doubtless, to their discomfort; certainly it is to the inconvenience of the crowds who line up several rows deep all along the enclosures to "have a look." The City Council could spend a look. The early opening of navigation this year has been a great boon to all navigation companies operating upon the upper lakes, and especially to the Algoma Navigation Company. The two boats at present controlled by the company, the fast passenger and freight steamers which ply between Owen Sound and Sault Ste Marie, the City of Windsor and the City of Owen Sound, have been in commission this year three weeks earlier than usual, and have been, even at this early period, scarcely able to accommodate all of the business offering. A few years ago such a development of commerce along the Upper Lakes would not have been believed possible, but it is now thought that the new boat to be built by the Algoma Navigation Company cannot be put into commission too

A New Boat Line.

Another wharf is proposed at the distance of the Yacht Club, to run in connection with Ward's Island and the city. This would form a second belt line, and thus all parts of the Island would be served more economically than at present.

Chairman Burns asked that a miniature copy of the plan be given to him for the guidance of the committee on Tuesday. He further remarked that there would be no more said about engaging Mr. Olmstead, and that the plans of the surveyor would be carried out as far as possible, and as soon as possible.

Supplementary Estimates Totalling Nearly Six Millions Handed Down at Ottawa Yesterday.

\$50,000 FOR CORONATION CONTINGENT

City for Public Buildings and Repairs.

Ottawa, May 7.-Supplementary estimates for the fiscal year ending June 30, 1903, were submitted to the House this morning. They call for a total expenditure of \$5,739,301, of which \$3,-386,201 is chargeable to consolidated fund and \$2,353,100 to capital. This added to the main estimates, makes total of \$59,100,939 for the next fiscal year. The sum of \$175,000 is asked for the exhibitions at St. Louis, U.S., and Osaka, Japan, in 1903, in addition to the \$5000 already voted, and the sum of \$20,000 for the exhibitions at Wolverhampton and Cork. For the latter \$50,000 has already been voted. The sum of \$300,000, of which \$210,000 is a re-vote, is appropriated for arms, ammunition and defences, and for the purchase of rifles \$150,000 is set apart. Towards the expenses of the coronation contingent an additional sum of \$50,000 is asked, making the total appropriation up to date \$80,000. A total of \$1,285,000 is set apart for capital expenditure on the Intercolonial Railway, \$100,000 for improvements in the harbor of Port Colborne and \$25,000 for dreading the River Kaministiquia.

CANADA'S EXHIBITION.

Plans Already Approved By the

Directorate for a Great Show, The Executive Committee method of th Industrial Exhibition Board greatly facil Nerve Food, because nearly all their ailments arise from deficiency in quality or quantity of blood. The cares and worries of household duties, the strain of social life, and the debilitating effect of nature's functions cause nerve force to be exhausted at a tremendous rate and a consequent large demand for more blood to replenish the waste.

Dr. Chase's Nerve Food meets the demands of the female system as no other preparation was ever known to do. This is accounted for by the fact that it actually forms new, red corpuscles in the blood and so increases the quality as well as the quantity of blood in the body.

Through the medium of the circulation of the blood this preparation creates new nerve force and has a revitalizing and invigorating effect on each and every bodily organ. It forms firm flesh, increases weight, rounds out thin, wasted forms, and fills the wasted, shriveled arteries and nerves with new vigor and health.

Believes in Killing Negroes When
They Encroach on South.

Washington, May 7.—In the Senate to-day Senator McComas pleaded for liberty for Filipinos. Senator Tillman said that if it had been known in the South that the reins of government were to be given to the negroes the civil war would have been prolonged indefinitely. He insisted that in order to maintain their self-respect the white people of the South had been obliged to subdue the negro by whatever means they could. "When we get ready to put a nigger's face in the sand's the shouted, "we put his body there, too!" He declared that the people of the South would never submit to negro domination, and he hoped Republican senstors would urner from their game of deviltry in the Philippines," and as sist the South to rid itself of the threat of negro domination. While Mr. Tillman was speaking many of the Democratic senators left the chamber.

Mr. Fisher went on to say that the difference between Canada and the United States in freight rates to Europe was not due to the difference in cost of transportation by land, but to the higher steamship rates from Canadian than from American ports. "We did not come here as suppliants. I represent a large body of citizens, and so do all the gentlement here with me. We did not come here to be heckled, as we would be in the witness-box, and personally, I do not propose to stand it," was the statement of Mr. J. D. Allan. after he had tried to impress upon the Mayor and Board of Control the necessity of the Technical School being granted the full amount of money asked in its estimates.

To madian than from American ports. This was chiefly due to the higher insurance rates on the St. Lawrence route. The sum of \$250,000 was to be spent in improving the aids to navigation on the St. Lawrence, and the result, he hoped, would be to lower those rates. As for the charge of discrimination by the railways. Mr. Fisher thought this would be remedied by the Railway. Commission He was surprised that Canadian enterprise had not established a line of freight steamers, to do business on our waterways between the Great Lakes and Montreal.

left the board room, but the claims of the Technical School were championed with vigor by several other members of the deputation. Emphasis was put upon the necessity of the day classes recently established, and the good they were doing, as well as the necessity of the additional expense involved. It was predicted that they would soon pay for themselves. The board will consider the estimates again to-day.

Guaranteed American Watch

Part of our deal with the selling agent of a big American watch factory was for a lot of movements bearing a well-known trade mark, with the understanding we would not advertise the name. Take our word for it, the maker's name means an accurate timekeeper the world over-none better! A rational watch, for a man who wants first and last a timekeeper, is one with such works, protected by an extra hard case of nickel, [called silveroid], plain polished like silver and not as liable to scratch or dint. This complete watch has our unqualified guarantee, as follows:

Each and every watch carefully fitted up in good running order ready to carry. We replace any defective part, not the result of accident or misuse, within one year—free of charge.

This is a thin model watch, neat and trim as a gold watch, seven
