TAKE CATTLE TO VESSEL

Arrangement Made With Stock Yards Co. by G.T.R.

WHERE ARE THE STOCKS GO.

Montréal, Aug. 1.—(Special.)—A change is about to be made in the charges upon cattle shipped through the Montreal stock yards. Thus an arrangement between the G. T. R. and the Stock Yards Company, the railway charges will in future take cattle from point of shipment to vessel. In the past the extra charges have been assessed upon consignees for driving the cattle from the stock yards to the lighter. Now only the marine risks will be extra.

FUNERAL OF DEAN INNES.

Impressive Ceremony in St. Paul's Cathedral, London.

London, Aug. 1.—The funeral of the late Dean Innes took place from St. Paul's Cathedral this afternoon. The service was conducted by Ven. Archbishop Davidson, who acted for Bishop Young, Dean Clouston, Smith, Young, Richardson and Dunn. A musical service was followed by a short sermon by Archbishop Davidson. The grave was opened by the Rev. Canon G. J. Carr, son-in-law of the late Dean Innes.

TRAVELERS MADE MERRY.

London Drummers and Many Visitors Enjoyed Annual Picnic.

London, Aug. 2.—The travelers of this city along with many visitors drummers from Toronto, Hamilton, Galt and elsewhere enjoyed yesterday their annual outing to Fort Stanley. Travelers are a jovial class of men even in their business hours, but when they congregate for a free and lively time they are at their best. The local drummers were accompanied by Stanley has seen many thousands of people during the past few weeks and has never as large a crowd of merry travelers as on Saturday. It is estimated that about 1,500 persons were at the picnic. The morning's party, local and visiting travelers, boarded the train and passed down to the port. The day was ideal for the outing.

LOSS OF LAKE MANITOBA.

English Underwriters Already Repeating Their Liberality.

London, Aug. 1.—Lloyd's correspondent, writing to the Times in regard to the accident to the Lake Manitoba, says it is unfortunate that another casualty should have occurred so soon. These vessels were insured on exceptionable favorable terms, and the underwriters are already repeating their liberality. The total loss of the Manitoba amounts to \$1,000,000. The vessel was insured for less than that value.

of telegrams for Cardinals Herrero y Espinosa and Langenieux, who are ill, was so great that they made a large packet. The Spanish students, who are particularly anxious about the condition of Cardinal Herrero, asked Dr. Langenieux the wicket how he was, and the doctor replied that he was a little better, but still confined to his bed and the condition of Cardinal Herrero was unchanged. It is understood that the latter did not wish to participate in the conclave, but was almost forced to do so. He is now filled with doubt as to whether he should give a vote, being afflicted with a sort of paralysis which he interpreted as a sign of the Divine will by casting his vote for anyone.

Cardinal Gottl, as far as known, is the only one of the cardinals who has not made some complaint about his cell. Being a monk, he would consider it an indignity to complain against his ideas of austerity. To a member of the Noble Guard, who wished him success, Cardinal Gottl merely remarked: "Thank you, but I shall not be made Pope."

Prince Chigi, the marshal of the conclave, is rather disconcerted because he has no electrical contrivance by which he could notify the cardinals within the conclave the moment a Pope is selected. He communicates with the cardinals by means of a subject, and the latter informed him that measures would be taken to notify the marshal instantly when a decision was reached.

Several attempts to establish communication with the cardinals have been made, but they have all failed up to the present time.

Some German inspectors have interpreted the new law as abolishing these certificates, in any case the meat must be inspected in Germany. The United States government, however, has just decided that these inspection certificates must accompany American pork, and that the new law does not affect the agreement of 1901.

WOMAN HANGS HERSELF.

Another suicide occurred yesterday morning in the city. Mrs. M. B. Fitch, having hanged herself in the woodshed at her residence, 348 Wellesley-street. The lifeless body was found by her 9-year-old daughter shortly after 9 o'clock. Deceased leaves a husband and three daughters. It is thought that mental troubles, resulting from the death of her only son a short time ago, caused her to take this step. Coroner Greig decided that an inquest was unnecessary.

EOLOGUE AND BUSINESS. When one reads Sir Wilfrid Laurier's speech in the cold print of Hansard he finds in it a curious illustration of the application of rhetoric to a business proposition. He will find eloquent descriptions of transportation problems which the measure does not solve; of national needs, which the measure does not supply; of national dangers, which the measure does not avert. The West is filling up rapidly, the wheat area is extending northward, Canada is part of the shortest route from Europe to the Orient, Canada ought to be economically independent of the United States, there ought to be good communication from the manufacturing East to the wheat-growing West. All these things are true. But you may admit them without admitting the wisdom of the Grand Trunk Pacific bill. You may be as bold, as hopeful, as patriotic, as alive to the possibilities and the needs of the country as the most ardent advocate of the bill and yet deny that the true national policy has been found in this measure.

1. Sir Wilfrid says the West is filling up rapidly; that 100,000 people came in last year; that they are coming in still greater numbers. They want their products carried to the ocean; the eastern manufacturers of Canada want to reach the western market. The need is urgent; we cannot wait; we must act at once. "Heaven grant that it be not ready to delay; Heaven grant that by reason of delay the trade of Canada is not diverted to other channels, and that an ever-vigilant competitor does not take to himself the trade that properly belongs to those who acknowledge Canada as their native or adopted land."

The answer is that the urgency being admitted, it is not met by the bill. The Premier says we cannot wait, but the government measure compels us to wait. It is a measure for immediate relief, it is a measure for the future, for the building of a railway which will require many years to complete. While the competitor does not take to himself the trade that properly belongs to those who acknowledge Canada as their native or adopted land."

THE CANVASSERS' ARGUMENT. The demand for the hurried ratification of the Grand Trunk Pacific bill reminds us of the familiar attitude of the gentleman who wants to sell you subscription books, pianos, coal medicines, sold mine shares or town lots. This is positively the last and only chance of securing these magnificent illustrated volumes, or getting in on the ground floor on this most lucrative venture. In a few weeks these shares and town lots will be worth double their present value. Unless you are stopped by our own unwillingness to be taken in, you will have pneumonia, bronchitis and consumption. Delay will bring life-long remorse. Now is the time to subscribe, to pay out your money, to sign your name to something.

THE CANVASSERS' ARGUMENT. We are all familiar with these appeals in business, and know how to discount them. The Grand Trunk Pacific promoters are in a hurry, but there is no reason why the country should be in a hurry. These are reasons for building the railway which will not run away if we take a little time to consider the proposals of the government.

PROMOTERS NOT PATRIOTS. If a second transcontinental line is an immediate necessity, how is it that the scheme is not being undertaken by the government? It is not that the promoters are not patriots; it is that they are not patriots. The promoters are not patriots; it is that they are not patriots. The promoters are not patriots; it is that they are not patriots.

TEMISKAMING RAILWAY. We have pleasure in commending to the careful perusal of investors the prospectus of the Temiskaming and Northern Ontario Railway Commission, which appears on page 7 of this issue. The offering of public tender gold bonds, 3 1/2 per cent, 30-year gold bonds, the payment of the principal and interest of which is guaranteed by the government of the Province of Ontario.

solate faith in the resources of Northern Canada. We ceased the building of railways thru British Columbia to the Yukon, thru Athabasca and even thru Mackenzie, thru Ontario and Keewatin to the Hudson Bay, not as possibilities, but as certainties. We have no intention of criticizing this measure in the spirit of those who said that the Canadian Pacific traffic would not pay for grease for the wheels. It is because of our confidence in the country that we do not share the Premier's fears that all our opportunities will slip away unless the Grand Trunk Pacific measure is passed in the month of August, 1903. Many of his statements about the wealth of the country are arguments for the building of colonization railways. It is not necessary that all these should run from the Atlantic to the Pacific.

4. Canada is said to be the shortest way from Europe to the Orient. This may be admitted without admitting Sir Wilfrid's plea that it is necessary to do something in a great hurry. No delay can deprive us of that geographical advantage. And it is doubtful whether the Grand Trunk Pacific Line takes the shortest possible route for that purpose.

GEORGIAN BAY PORTS. A good time seems to be coming for our Lake Huron and Georgian Bay ports. Buffalo owes its prosperity largely to its position as the end of deep water navigation, so that immense quantities of Western grain are there transferred to the railways for New York. There is a growing opinion that by carrying grain by water to such ports as Midland and Depot Harbour, you skim the cream of lake navigation, even more completely than by carrying it to Buffalo. Mr. Robert Meighen, president of the Lake of the Woods Milling Company, says: "Vessels can be operated between Fort William and Georgian Bay ports up to the 12th of December. We want elevator capacity at Georgian Bay ports east of the lake to compete with Buffalo, and to store all surplus grain that cannot be forwarded by the St. Lawrence before navigation closes, so as to enable it to be shipped by rail to our winter ports during the winter months. We want low grade, double-track railways from the Georgian Bay ports to Montreal. When this is accomplished you will freight wheat across the lake from Fort William to Georgian ports for one cent and from there to Montreal for three and a half cents, or less, or bushel, winter and summer."

Apparently friends of R. R. Gamey may be found on Manitoulin Island without the aid of a Royal Commissioner. What does the Grand Trunk Pacific Railway do for Ontario? asks an invidious M.P. It does nothing for Ontario; it simply does us.

Some of us have been taking Andrew Carnegie's libraries, but who could have guessed that Sir Wilfrid Laurier would take his opinions.

Mr. Ajax Laurier made a sorry spectacle of himself that day when he stood on the shores of Georgian Bay and defied the lightning of public ownership. The price of milk has been raised from 5 to 6 cents a quart in Hamilton, and no punches will be exchanged between The Spectator and The Times till the cost of production subsides.

The Dominion government was about to appoint a transportation commission when, behold, Sir Charles Rivers Wilson and a few able-bodied companions slip in and settle the transportation problem informally.

Theodore Roosevelt will not hesitate to say to the world to remove the bonding privileges, says Mr. Carnegie. Perhaps not, but here's betting that Theodore will not say the last word if our own Seymour Gourlay still lives.

Verdict for St. Catharines Young Woman in Detroit Court. Detroit, Aug. 2.—The courts have upheld the validity of the marriage of Mamie Baker of St. Catharines, Ont., and Dr. Leonard O. Sloane of Detroit. Although he denied that he was married, and attempted to resist the marriage, the woman who claimed to be his wife, Dr. Leonard O. Sloane, must nevertheless be recognized as his wife.

immediately taken up, is indeed largely over-subscribed. In England it is customary to make public offering of government loans, also on somewhat different terms from those resorted to by the Canadian government with the war loan.

It is understood that it would be going to be the case with the present issue. The people of this province have many millions on deposit with the chartered banks at 3 per cent., and millions more with the government savings bank at a still lower rate.

MINNEAPOLIS TIMES: "Conditions have changed a great deal in the last few years. Canada is becoming a formidable rival in the agricultural market of the world. She sees her fertile plains rapidly filling up with the best of settlers—many from the United States—and her manufacturing resources are well advanced. Her population is growing as well as her ability to supply foreign markets with products of the farm and forest. She doesn't need the United States as a customer as much as she did, and a high protection sentiment has developed.

USELESS LEGISLATION. Editor World: The Lord's Day Act passed by the Ontario Legislature having been declared by the highest court in the land to be null and void, it might be useful for somebody to look into the Ontario statutes and see what other acts that might be declared ultra vires if properly tested. I am of the opinion that there are very numerous. The Ontario Legislature has legislated nearly everything that happens or might happen in everyday life and has encroached on the province of the federal government in making crimes out of matters that are positively of no importance. It is the part that is most striking of our crime by the legislature were stopped, as there is apparently no end to it. Of course everybody knows that the Ontario Legislature is the most on earth, and as such is capable of anything. It is actually an oligarchy, and it is the most on earth. We have heard much about an old family compact, the doings of which caused a rebellion, but have we not now worse things than the family compact? Let the people look into the matter. Lex. DISCUSSED BY E. F. CLARKE, M.P.—PLENARY ARRANGEMENTS PROGRESSING. The Reception and Entertainment Committee of the Liberal-Conservative Party will be held on Aug. 12 at Hamilton's Hotel on Saturday evening at the Albany Club to discuss further arrangements for the program.

Among those present were Messrs. E. F. Clarke, M.P., and A. E. Kemp, M.P. The members from Ottawa were both very enthusiastic over the coming convention.

E. F. Clarke, in speaking of the work they were engaged in at Ottawa, said that the redistribution bill just brought forward by the government was one of the worst gerrymanders that had ever been imposed on the people of Canada. He said that the idea of giving Toronto five members and distributing the other 81 over the rest of the Province of Ontario was done with a view to placing this great municipality in an unfavorable position regarding the province. In the Grand Trunk Pacific bill the government had brought forward contrary to the usual procedure, the right of the opposition of their guard. The bill had been brought out contrary to the usual procedure, and the opposition of their guard.

Some of us have been taking Andrew Carnegie's libraries, but who could have guessed that Sir Wilfrid Laurier would take his opinions.

Mr. Ajax Laurier made a sorry spectacle of himself that day when he stood on the shores of Georgian Bay and defied the lightning of public ownership. The price of milk has been raised from 5 to 6 cents a quart in Hamilton, and no punches will be exchanged between The Spectator and The Times till the cost of production subsides.

The Dominion government was about to appoint a transportation commission when, behold, Sir Charles Rivers Wilson and a few able-bodied companions slip in and settle the transportation problem informally.

FOUND LONG-LOST SON. Until Accident Father Did Not Know That He Lived Nearby. Woodstock, Aug. 2.—In connection with the accident to William Bell, who was caught in the landslide at the Rapscall incident is related. Bell and his father separated many years ago. For some time the father has been living near the Episcopal cemetery. His son, however, was dead to him, for he had not seen or heard of him for years.

U.S. MINISTER FINDS REPORTS OF REBELLION UNFOUNDED. Washington, Aug. 2.—A cable despatch has been received at the State Department from United States Minister Squiers, at Havana, saying in substance that the reports of insurrection in Santiago Province, based on unsatisfied demands for back pay by veterans of the war with Spain, have no foundation in fact, for no overt act has been committed, and dissatisfaction has been expressed by only a few people.

CRASHED TO DEATH BETWEEN LUMBER. Minneapolis, Aug. 2.—Three lumbermen were found dead today in a Pennsylvania lumber mill. The bodies were found in a pile of lumber. The car left Minneapolis, Pa., on July 25, and arrived here today. The lumber was loaded in two piles, and it is believed they were crushed to death between the piles.

Expected That Conference at Sheffield Will Be Unusually Exciting. London, Aug. 2.—There is a great struggle between tariff reformers and free traders for control of the Unionist party machine. It is consequently expected that the conservative conference at Sheffield at the end of September will be unusually exciting, as it will indicate the drift of opinion among Conservative associations on the question of the hour. The conference will be asked to pass resolutions in favor of preferential tariffs, and free traders are making active steps to organize the opposition. They are particularly anxious to get hold of that part of the process of last year's colonial conference which has not yet been revealed, as that is known at present is that the premier expressed the views of the colonies by the tariff conference, and on the subject of preferential treatment. Sir Michael Hicks Beach and those who agree with him consider it essential that the tariff conference should be illuminated by the knowledge of all that took place at the conference. Mr. Chamberlain has promised to ask the permission of the colonial premier to publish his communications, and if this should be obtained, interesting news would be thrown on a practical carrying out of preferential tariff system. Of course Sir Michael Hicks Beach cannot get any information in this way until the conference is fully aware of, as he was a member of the cabinet at the time the conference was held, but his knowledge is useless to him as far as preferential tariff purposes because he must treat it as confidential.

MR. CHAMBERLAIN HAS CALLED THE FEARS OF LANCASTHIRE that raw cotton from America will be taxed in order to give preference to the colonies. The Colonial Secretary was not likely to spoil the chance of success by proposing an impost that would have crippled the greatest manufacturing industry in the kingdom. There is, however, still considerable doubt as to whether he is in a better position to make an offer of food products that come from the colonies as well as corn. It is a singular fact that in twenty-five English towns only one change in the price of bread has been reported since July 1, when a shilling registration duty on imported corn ceased to operate. In that case the price of a quarter loaf actually rose one halfpenny, and yet the duty realized about £2,500,000 for the Exchequer.

CHURCHILL LOOKING UP. Winston Churchill by his speech on the sugar convention bill has considerably enhanced his already brilliant reputation. The junior member for Oldham attacked Mr. Chamberlain with a dash and daring worthy of his father, declaring that a system of protection far too much to say on the policy of the country, and that it would be better for the country if the Prime Minister had not fallen under the influence of the head of one particular department. Lord Randolph built his parliamentary reputation on his dramatic efforts to break down the Gladstone tradition. Winston has set himself a similar task in respect to the colonial Secretary. He has constituted himself a critic of Mr. Chamberlain's policy, and, though he is not alone in this amiable direction, he has done so with the force of all who have joined in the somewhat perilous enterprise.

PREACHED HIS FIRST SERMON. Rev. Wm. Major is now Assistant Rector at Little Trinity. The new assistant rector of Little Trinity Church, preached his first sermon last night. He took his text from St. John, 1:35—"What I saw and heard, and that which I have touched, and my hands have laid upon, and that which I have seen, and that which I have touched, and my hands have laid upon, and that which I have seen, and that which I have touched, and my hands have laid upon."

WHERE IS JOHN HANNOV? Woodstock, Aug. 2.—Policeman Cawston has been asked to try and locate John Hanнов of London, who has been missing for nearly two years. Mr. Hanнов was a well-to-do man of very quiet disposition, and at his boarding-house in London he had two valets, which he left nearly two years ago. The last report his friends had of him was that he had been seen at the Inverness Hotel, London, a year ago. He is now in London, and has been in the city for some time. EXPERT TRIED TO DEFOUD. Late Capt. Howard's Yukon Minnie Lands Are Valuable. Victoria, B. C., Aug. 2.—Some private letters of Capt. Howard, who was found presumably murdered at West Berkeley, Cal., some days ago, have been made public by his widow here. The letters are in the hands of the Yukon district, and tell of the richness of his hydraulic ground on Indian River in the Klondike district, which was reported worthless by a New York expert, for the purpose, relatives of the dead man say, of assisting in practically defrauding him of the property.

The Trend of the Shoe Trade Lies Between King Edward Hotel and the City Hall.

The Centre of this Trend is Yonge Street, midway between King Street and Queen Street.

Two years ago the "SLATER SHOE" secured a second home on Yonge Street within half a dozen of blocks of its old King Street store.

We knew that time would show that one "SLATER SHOE" Store in this district would be ample.

But we wanted to learn which point best suited the public convenience.

The presence of hundreds of erstwhile King Street customers and many new ones in the Yonge Street store proved conclusively that the trend of the retail shoe business in Toronto lies between the King Edward Hotel and the City Hall, and that Yonge Street "commands the route."

Therefore, we have closed up the King Street store, and in future two "SLATER SHOE" stocks, a double sale staff and a double shoe shining staff will all be concentrated in the Yonge Street store, 117 Yonge Street.

The Queen Street "SLATER SHOE" Store, 528 Queen Street West, will be continued as usual.

MORGUE TASK AHEAD OF DAWES COMMISSION

Hor. C. R. Breckinridge of Arkansas Tells Something About U.S. Indian Affairs.

The Hon. C. R. Breckinridge of Pine Bluff, Arkansas, stopping in the city while on his way to his summer home in Muskoka with a party of 18, gave a world representative some interesting information regarding the Indian territory yesterday.

In consequence of the difficulties arising from communal ownership, the government found it necessary in 1888 to establish a commission for the purpose of establishing just who are the heirs to the immense property held by these tribes, dividing it into individual possessions, and for interim administration.

A. O. Brand and L. L. Borden of Chicago, who are on an auto tour to Montreal, stopped last night at the Arlington. Mr. Borden's machine is of 24-horse power, American made, and excited a good deal of comment yesterday afternoon on account of its unusual size.

FROM FAR-OFF ARGENTINA. L. C. Aleman of the Argentine Republic, a young man who has come to Ontario to attend the Agricultural College at Guelph, is stopping at the Arlington. He reports that in Argentina and all organizations in agriculture in Ontario have the highest repute in the Argentine, and that the government agricultural department there is following the example so set, and is sending its future officials up to Canada for their training.

GETTING 23,000 RICE. Pekin, Aug. 2.—Yun Shai Kai, the viceroy of Chi Li Province, is said to be placing large orders for arms in anticipation of the prohibition of their importation into China, which occurs this month. He has ordered from Japan 23,000 rifles and 48,000 machine guns, and from Germany a number of machine guns.

Delightful Vacation Trips From Toronto. All round Muskoka Lakes, \$7.55. Royal Muskoka, \$6.55. Muskoka Lakes points \$1.25 to \$7.00. Lake of the Burtons \$7.70. Burks Falls and Magnetawan River \$6.35 to \$8.50. Pennington and Georgian Bay \$4.75 to \$11.00. Lindsay, Kawartha Lakes \$3.45 to \$4.45. Intercolony resorts \$2.75 to \$4.50. Montreal \$17.00. Quebec \$20.00. Portland, Me., \$24.75. Sault Ste. Marie and Mackinac Island, including meals and berths, \$24.75, or Duluth \$47.75. Call at Grand Trunk City for further information and illustrated guides, giving routes for hotels and boarding houses. J. W. Ryder, north corner King and Yonge-streets.

Root-Gardner Fight Pictures. The finest moving pictures ever taken of a boxing contest are those of the Root-Gardner fight, which was held at Port Erie July 27. Manager Herman of the International Athletic Club has control of these pictures, and will exhibit them in St. Nicholas Theatre, Thursday, Friday and Saturday. The perfection of these pictures has astonished the public of Chicago and New York, where they were shown during the past week. Toronto is the only Canadian city in which these pictures will be exhibited, and they will only be for three days, as the great demand for the films in other cities prohibits their remaining here for a longer time. They will be shown continuously afternoon and evening, each performance lasting one hour and seventeen minutes. Do not miss this opportunity of seeing the greatest moving picture the photographer's art has produced.

Try Hamilton's Point To-Day. Holiday makers will find much to amuse them at Hamilton's Point to-day. The performances in the open-air vaudeville theatre will be about the best of the season. Some of those who will appear are Meyers and Mason, in a grotesque comedy sketch; Mlle Al-vocallat; Norton and Russell, in a novel change act; Nowlan, Ellis and Nowlan, the dancing acrobats; Harry Al-cred, the fun-making juggler; Billy Towse, the singer and dancer; and others. Four performances will be given, at 1:20, 3:20, 5:20 and 8:20 p.m. The championship lacrosse match between Toronto and Capitals will commence at 3:30.

Only \$9.00 to New York and Re- turn, Aug. 11th. From Buffalo, N. Y., trains leave Suspension Bridge, 7:10 a.m. and 8:10 p.m., and leave Buffalo at 8 a.m. and 8:10 p.m. to visit New York and the opportunity afforded at this very low rate. A trip to the "Americas" enables one to enjoy the most delightful scenery afforded by any line. Tickets are good to return 15 days. Grand Trunk service is unexcelled to Chicago, making direct connection with all lines west and southeast. For tickets and information as to routes, stop-over privileges, etc., apply to City Ticket Office, northwest corner King and Yonge-streets.

DRUMMERS HAD A FINE TIME.

Annual "Snack" a Great Success. "Snack" Officers. Alton, Aug. 1.—Alton was on fete today for the Drummers' snack. It was the seventh annual event and the general verdict was that it eclipsed all predecessors. The mills and shops were all closed and hundreds of farmers from the surrounding country made holiday. About 150 travelers were present, but from the extent of the entertainment it might have been ten times that number.

DRUMMERS HAD A FINE TIME.

At the business meeting officers for 1904 were elected as follows: Hon. president, Wm. A. H. James Hooper, Dr. Algie; president, Major E. E. W. Moore; secretary, Wm. Colville (Toronto), C. Smith (Hamilton); home secretary, Robert Algie, Alton; treasurer, S. E. Ryan; executive committee, Messrs. R. Keays, Bert Menzies, F. C. Hunt, John Mackie, E. F. Clarke, Guy Long, F. Menzies, E. H. Thompson, Robert Algie, C. Smith, S. E. Ryan and Wm. Colville; hon. members, Sol Walters, Benjamin Hill.

PAINTERS' STRIKE ENDED.

Out Since June 1—Treasury Couldn't Stand the Strain. The last strike among the building trades was ended yesterday, when at a meeting of the painters in Richmond Hall they decided to suspend indefinitely their strike, which has lasted for nine weeks. On June 1 the boss painters reduced the wage of journeymen painters from 35 cents an hour to 30. It was only from May 1 that the union men had been drawing 35 cents an hour, and, as they maintain, was guaranteed that scale as a minimum for at least one year. When their employers notified them that on and after June 1 the wage would be dropped to 30 cents, the union thought they were justified in striking to get back their old rates. Four hundred and fifty union men struck. About fifty went to out-

STANDS FOR THEIR RIGHTS.

A postmaster in one of the Ontario towns in sending his subscription to The World for the next year says: "I wish your esteemed paper continued to flourish. The World has more nearly filled the bill in the matter of the trade question or protection than any other paper coming to my office. I have now almost ceased to read politics, and seldom read a speech in the house, unless delivered by the member for East York. Being a farmer as well as a postmaster, I glory in the M. P. who at all times stands and contends for the farmer's rights."

ELECTION OF OFFICERS.

At the business meeting officers for 1904 were elected as follows: Hon. president, Wm. A. H. James Hooper, Dr. Algie; president, Major E. E. W. Moore; secretary, Wm. Colville (Toronto), C.
