Oklahoma Governor Extends Scope of Military Rule in State
40 FEET IN WYOMING TRAIN WRECK

MARTIAL LAW IS EXTENDED TO MURRAY

Walton Determined to Stamp Out the Power of the Invisible Empire.

RUMORS DENIED

Governor Says Military Rule Will be Continued Until Troubles Cease

(Canadian Press.)

Oklahoma City, Sept. 28.—The iron hand of the military descended today upon another county in Oklahoma as warning was given by Governor Walton that more stringent martial law is in store for other sections if "invisible government" in the state can be put down in no other way.

Upon the appeal of more than a score of residents of Sulphur, the Governor late last night ordered military occupation of Murray county, where the civil authorities, some of whom are said to be controlled by the Ku Klux Klan, are charged with having neglected to prosecute persons responsible for numerous mob outrages.

"Violence and bloodshed may result from the 'deplorable conditions,' existing in the county, the petitioners declared in asking for the establishment of rigid martial law. The persons and property of those not members of the Ku Klux Klan, they asserted, are unsafe under the 'reign of Klan officers.' Early today the executive mansion, Governor Walton declared there will be no end to military rule in the state until mob violence and masked depredations cease.

"Martial law is being tightened instead of loosened," he said, in denying rumors that a modification of military regulation is in prospect.

BRITISH LABOR IS GROWING RESTLESS

Early Session of Parliament Demanded to Hear Grievances.

London, Sept. 28.—Labor is becoming increasingly restless in the face of the prolongation of the Ruhr problem and the spread of unemployment.

With a view to trying to get its demands met, labor is doing its utmost to force the Government to convene Parliament, which has adjourned until November 17. A joint meeting of the Trade Union Council and the Labor Party executive yesterday passed a resolution urging the Government to start action by the Government to start active schemes of employment or to assist the heavily burdened boards of guardians.

Concurrently, the unemployed workers committee is organizing agitation to enforce the summoning of Parliament. Hundreds of thousands of leaflets are being printed with which it is proposed to flood the industrial areas of the country. These papers urge the workers to demand "work or full maintenance of trade union rates," and insist that Parliament consider their grievances.

"Force Parliament to meet" says the leaflet. "We shall then follow up with other activities to compel them to do something effective."

"Public demonstrations on a large scale, it is said, are to accompany the distribution of the pamphlets.

In the meantime it is stated that the Government has no intention of advancing the date for the re-assembling of Parliament.

His 47th Time In The Same Court

Attleboro, Sept. 28.—That 47 appearances in the local court were an education rather than a criminal record of any note, was what John J. Barry tried to impress on Judge Hagerly, and he succeeded to such a degree that his original sentence of an indefinite stay in the state farm was changed to a fine of \$40 and later to a fine of \$5 when John asked the court if he could not get trusted until the "next time." Barry had been arraigned for drunkenness.

(Canadian Press)

London, Sept. 28.—With great tact the Dominion Premiers who are in London for the Imperial conference that is to open next Monday, it is understood, have made known the fact that it will be impossible for them to keep on working during the conference if they accept all the hospitality that is being offered to them.

(Canadian Press Cable)

Moscow, Sept. 28.—M. Lavroff, chairman of the Russian-Karelian Border Commission has been killed and two others of the Commission wounded by assassins at the frontier while returning from Finland, according to a despatch from Petroavodsk.

A sharp controversy has been in progress between the Russian Government and Finland over the district of Karelia. Finland appealed to the League of Nations, claiming that under the treaty of Dorpat, Russia was bound to grant a certain measure of autonomy to Karelia, but the Soviet Government rejected the plan of intervention by the League, and the Permanent Court of International Justice on July 23 last decided that it was incompetent to pronounce an opinion as requested by the League Council, for the reason that Russia was not a member of the League. No reference to the establishment of any Russian-Karelian border commission has been made in previous despatches.

RUHR RESENTFUL

Fear That Berlin Orders May be Ignored and Fight Continued.

(Canadian Press Cable)

Berlin, Sept. 28.—With both the central and Bavarian Governments cooperating for the maintenance of order in that state, advisers from Munich say that the possibility of an outbreak by extremist factions is regarded as very remote. A body of troops believed to be large enough to cope with any situation, has been assembled in the Bavarian capital.

The appointment of Dr. Von Kahr to a dictatorship was apparently decided upon by Premier Von Kulling's Government as a precautionary measure in view of the restiveness occasioned by the termination of the passive resistance and the fear that separatist action in the Rhineland would threaten Bavaria.

BERRY REFUSES

Pressmen's Union Head Asked to Modify Terms in N. Y. Settlement.

New York, Sept. 28.—Refusal of George L. Berry, president of the International Pressmen's Union, to modify the terms under which striking newspaper pressmen might regain their jobs was believed in competent quarters today to preclude a negative vote by members of the outcast local union tonight on the proposal to return to work under the Berry agreement with the publishers.

A committee of foremen and assistants last night called on Mr. Berry, who declared the local's walkout illegal and revoked its charter Friday, and asked him to modify his terms.

Berry told them their obstinance was making it more difficult hourly to place strikers in their old positions.

"With every other that passes more positions are being filled by the employment of men from other cities."

Additional out of town pressmen assisted in getting out New York's customary papers, though still somewhat alienated by the settlement. It was said the present 16-page size would be continued pending complete settlement, however.

PASSENGERS ARE PLUNGED INTO RIVER

Train Goes Through Torrent and Raging Torrent Takes Many Lives.

RESCUE DIFFICULT

One Coach Swept Into Deep Water and All in it Lost.

(Canadian Press.)

Casper, Wyo., Sept. 28.—The loss of life late last night when the Chicago, Burlington and Quincy passenger train No. 30, went through a bridge over Cole Creek, 14 miles east of here, is estimated at approximately 40 persons. The stream, ordinarily dry during the summer, was swollen into a raging torrent by heavy rains of yesterday, and the roar of rushing water over the coaches could be heard for three miles.

One passenger coach was swept 100 yards into the Platte River, which at that point is more than a mile wide. It is believed that no passengers in that coach were saved, because by the time rescuers could have given aid, the coach had rolled over on its side and become completely submerged.

Reports Vary.
Casper, Wyo., Sept. 28.—At least 10 persons are believed to have lost their lives, and more than a score of others suffered injuries, some of them serious, when Chicago, Burlington and Quincy passenger train No. 30, plunged through a bridge 14 miles east of Casper late last night into the Big Muddy River.

The wreck occurred at an isolated spot near Lockett. The train plunged into the Big Muddy River, swollen to many times its normal depth because of cloudbursts and heavy rains, and passengers were engulfed in the raging torrent that poured through the channel with little or no chance of recovery.

Five cars and the locomotive dived into the river. The rescue of eight persons, including women and a baby was one of the most spectacular features of the wreck. A rope was run from a passenger coach to the Glenrock side of the creek and seven made their way to the shore by working their way over the rope, hand over hand.

An unidentified man remained on the coach to the last directing the rescue and made the last trip by himself, carrying the infant with him.

May Be 100 Dead.
Don J. McQuaid, of Denver, who was a passenger in the Denver sleeping car, was the first to give news of the disaster, and he announced that in his opinion at least 100 lives were lost. Other survivors were of the same opinion and the night Burlington dispatcher here, when told of McQuaid's statement said that the loss "would be at least that."

Several men and women managed to crawl from the coaches which plunged into the river and, clinging to the top of the cars, screamed for help, according to Henry Wyatt, of Casper, who was a passenger in a sleeping car which plunged half way into the river and remained standing on end.

"Nothing could be done to save them," Mr. Wyatt declared, "as the river was a raging torrent."

MURDER IS VERDICT OF CORONER'S JURY

New York Men Held in Case of Fatal Valleyfield Shooting.

Valleyfield, Que., Sept. 28.—A coroner's jury here last night found Walter Muir, of New York, guilty of murder in connection with the death of Henry Lavolette, 50, of this town, who was fatally shot during an altercation over hunting dogs on Saturday.

Edward Carroll, of New York, and Joe Plante, of Valleyfield, were also arrested and charged with being accomplices to the murder. The three prisoners will appear before Magistrate Marin here this morning.

Evidence at the inquest showed that Lavolette had refused to sell his dogs and had struck Plante in the face lightly. Muir then, it is said, fired five shots, two of which struck Lavolette. From a wound in abdomen caused by one of the bullets, the victim died in a Montreal Hospital Monday night.

SET PARKER CASE DATE ON OCT. 16

Judge Chandler Orders Additional Panel—Non-Jury Cases Off.

His Honor Judge Chandler in the Circuit Court this morning ordered the sheriff to summon an additional panel of twenty jurors, to be in attendance at court, on a date to be set by him later. He then adjourned court until October 16, on which date he will set a time for the hearing of the second trial of Mrs. Bessie Parker.

Because none of the lawyers interested in the cases were in attendance this morning, His Honor Judge Chandler ordered that all the non jury cases be struck from the docket. He said that if the lawyers made application to him, he would issue orders to have the cases tried in chambers.

In the case of Dr. G. O. Baxter vs. Arthur Gillard, set to be heard in the Circuit Court this morning, Judge Chandler ordered that the case be put over until the 16th of October, as the defendant had not been paid at the time of entering the case. These objections were overruled by His Honor. Mr. Robertson then withdrew from the hearing.

CHIROPRACTIC IS BASED ON FUNDAMENTAL LAWS. The organs of the body are the motors, the nerves are power lines which carry vital energy or life to all parts of the body. Impingement or pinching of the nerves interferes with their life-carrying power and disease is the result. The Chiropractor adjusts with his hands the misaligned vertebrae and the impinged nerves are freed. The flow of life enters the part diseased, normal functions are resumed and health restored. The Chiropractic way is Nature's way.

MANY PASSENGERS BUT CARGO LIGHT

"Boston Boat" Season Likely to End on October 31.

A. C. Currie, local agent of the Eastern Steamships, Ltd., returned to the city today after a trip to Boston, New York and Washington. He was accompanied by his wife and daughter and they motored home from Boston. His connection with the service between this port and Boston Mr. Currie said it would in all probability be discontinued on Wednesday, October 31, as the passenger traffic for the season has greatly exceeded that of last year, but freight traffic was light. He said that the service would be continued, but from present indications October 31 would mark the close for the season. Passenger traffic this year, however, he said there would be little difficulty getting an all-year service.

Bavarian Outbreak Is Now Remote. Bavaria's Complaint. Although Bavaria gave her approval to a decision to cancel passive resistance, it is known that the Von Knilling Government found certain features of Chancellor Stresemann's proposal distasteful. The head of the Reich Cabinet did not, in the opinion of Bavaria, adequately stress the illegality of the occupation. Von Knilling's demands that the Versailles treaty be terminated and void and that Germany should not negotiate directly with the Allies, was not acceptable. Dr. Von Kahr and Gen. Von Lossow, who as military commander in Bavaria, were working to prevent ultra-national agitation. Inasmuch as Von Lossow represents Dr. Geiseler, the newly appointed executive authority, he is superior to Von Kahr.

Movement Loses Strength. DUESSELDORF, Sept. 28.—The Nationalist revolutionary movement in Bavaria is losing its strength in the party of the Berlin Government, the favor of the Berlin Government, the party's leader George Heims, in a pamphlet, has declared that the revolutionary attempt by Ludendorff, Hitler or anybody else would mean disaster to Germany. It is declared in the pamphlet that Ludendorff is the real director of the Hitler movement and the population is called upon to keep cool and support Brenner.

Police Prevent Trouble. Munich, Sept. 28.—Despite the threatened demonstrations by Nationalists and Hitlerites, last evening in Munich, the police prevented any trouble. The demonstrators had planned to hold meetings were occupied by the police, when the inhibition upon such gatherings was lifted.

Ambassadors' Ruling Causes Surprise. London, Sept. 28.—Surprise is expressed in British political quarters over the sudden decision of the Allied Ambassadors Conference to award Italy the \$0,000,000 lire deposited by Greece as a guarantee for indemnity in the case growing out of the massacre of the Italian official mission near Janina.

It is understood that the Marquis of Crewe, British member of the Ambassadors Conference, was first instructed to oppose this award on the ground that Greece's culpability in the massacre had not been proved. The certified, realising that it would be the minority of one against Italy later decided for reasons of "diplomacy and expediency" to modify its attitude.

The Leader of All Plush Chesterfields

At once your eye is overwhelmed alike by color toning, brightness and curving lines seen in St. John for the first time.

A generosity and grace of appearance that resolves itself into a play of color of singular conception. You are not so much surprised by the Taupe that sets off in contrast the Cushion figuring, but you return to it later to enjoy the deep round backs that rise to a central crowning. Cylindrical arms, ovaling down in front with an insertion of that same intriguing design of the Cushions. Taupe tassels and then a frame of walnut touched in Gold.

Into the Silk Plush Mohair of the Cushions and on a field of Sand enter Olive Browns and Indigo Blue, a sort of open Tulip with curving Black branches. Glancing, you just get an impression of pleasure—it takes a second look to make out the details of the color harmony.

There never was a wing back Chair like this, but for that matter there never was a suite of three like this, as you will agree on a look into the middle window. The price is easier than could be expected.

A smart grey suit with snappy dark tie and grey tile is a good 'get-up' for the young man who realizes his appearance is part of his capital.

A blue suit, plain or striped, with a big colorful scarf and a cap with character is a good combination for a young man who doesn't want his dress to dominate his personality.

For the Fall overcoat our Chesterfield or slip on strikes the right note for a conservative man. Other coats for other tastes: Our box effect with raglan shoulder is never lost in the shuffle. Prices, \$20 to \$35. Special this week—Blue Suits, plain and herringbone stripe, \$29.50.

MARITIME PROBLEMS.

Addressing the Canadian Club last evening Hon. Dr. Baxter outlined a plan to get immigrants which has been approved by the Maritime Members of Parliament of both political parties and by the officials of the Immigration Department.

The scheme, as Dr. Baxter explained it last evening, is to get enough new-comers of the right sort to make a settlement, either among or near other settlers of their own race or religion, and give them such guidance and assistance for the first year or two as would enable them to get a good start in their new home.

THE BANK SITUATION.

The Journal of Commerce would prescribe outside inspection of the head offices of Canadian banks as a remedy for weaknesses in the system. It finds that this plan has had remarkable results in the United States.

The Journal of Commerce points out that it is not good for the banks, for business or for the country to have a lack of confidence result from such situations as have been disclosed by the Merchants' Bank affair last year and the recent suspension of the Home Bank.

The weak point in the system, it says, is the lack of any effective check on the direction and general management of our banks, and it goes on—

"To such failure may be traced most of the disasters and semi-disasters that have overtaken Canadian banks. As we have stated before, such a check is to be found in the establishment of outside and independent inspection of banks. Such inspection should, of course, be at the head offices.

OLD SHREWDLIES MOTTO.

(By Strickland Gillilan) Old Shrewdell has a twinkling eye. "The more comes in, the more folks buy."

This is his motto day by day. And surely he has made it pay. He has a large and nifty store. And it is growing more and more. He has a trade second to none. Though humbly was his work begun.

His plan has always been to get folks to come in, his one best bet. He has been to find some way to bring The people in, for some fool thing. And then, with smiling selling force, To hit old Nature take her course. By selling things attractively, He's been progressing actively.

"If no one comes, then no one buys"—A truth that no one may despise. "Well, then, on that hypothesis," (Old Shrewdell knows such words as this!)

"The more that comes, the more that buy." Therefore he strives to catch their eye. With something that will bring them.

There's where this clerk their work begins. Till you can find a better one. By which a bigger trade is won. Just give old Shrewdell's hunch a try. "The more that comes in, the more folks buy."

IN LIGHTER VEIN.

Obliging. "Tramp—Your dog just bit a piece of fish out of my leg, mum."

Woman—"Did you mentioned it. I was just going to feed him."

Congratulatory. She—"There isn't a single man that I really care for."

He—"That's all right. I'm married. Shall we sit down?"

Wretch. Billie—"When I accepted Jack he said that he was in the seventh heaven."

Till—"Of course. He's been engaged to six other girls this season."

A Common Case. "Do you know," said the successful merchant pompously, "that I started life as a barefoot boy?"

"Well," said his clerk, "I wasn't born with shoes on, either."

Why Look? "Where will you find the most miserable man?" exclaimed the exhorter vigorously.

"You don't have to find him," responded a man in the back row. "He hunts you up and tells you all about it."

The Way It Goes. Visitor—"I'd like to see the author of that series of articles on 'How to Win a Man.'"

Editor—"I'm sorry; she isn't in. She's at court getting a divorce."

FOOT BROKEN, HE GUIDES CAR A BLOCK TO PREVENT STREET JAM. New York, Sept. 28.—Although his left foot had been fractured by the weight of a large motor truck, Lawrence O'Connell, 49, a motorman of East Eighty-seventh Street, ran his car one block to Broadway and Twenty-third Street yesterday afternoon to prevent a heap of traffic. O'Connell got off his car at Broadway and Twenty-third Street and one of the wheels passed over his foot.

Traffic was heavy on the thoroughfare and he climbed back to the platform and operated the car onto a siding. Then he was taken to Bellevue Hospital in an ambulance. The chauffeur of the truck drove off after the accident. A general alarm was sent out for him by the police, who got the license number of the vehicle from witnesses of the accident.

The dispute between the taxi drivers and the C. P. R. has been settled and the taxi men will be on hand to meet the Digby boat in future. It was agreed to lower the tolling so that a driver could reach over it for hand baggage and if need be step over to assist the passenger in carrying his luggage.

SAYS MARITIMES ARE NATURAL OUTLET

Western Speaker's Views at Golf Club Dinner for Engineers.

That the future prosperity of the Maritime Provinces as well as that of the whole of Canada depended on the routing of Canadian trade over Canadian rails and through Canadian ports and that, this being accomplished, all other things would follow, was the sentiment expressed by Dr. Murray MacLaren, M. P., in responding to the toast of the Maritime Provinces at a dinner given last night in the Riverside Golf and Country Club at the close of the Maritime professional meeting of the Engineering Institute of Canada.

Dr. MacLaren dealt at length with the criticism recently directed at the Maritimes by the Montreal Gazette. A spirit of good-fellowship pervaded the affair, which brought to a close what was termed by many of the speakers a most successful two-day meeting.

The chairman of the local branch of the Institute, H. F. Bennett, was in the chair, and besides the local and visiting members of the profession, the guests included Mayor Fisher and Commissioners Thornton, Frink and Wigmore of the City of St. John; Hon. Dr. J. B. M. Baxter, M. P.; Dr. Murray MacLaren, C. M. G., M. P.; G. E. Barbour, president; R. E. Armstrong, secretary of the St. John Board of Trade; and Dr. E. A. Smith, chairman of the N. B. Electric Power Commission.

The toast to the King, which was responded to by musical honors, was followed by a toast to the Maritime Provinces, proposed by W. G. Chase, of Winnipeg, and responded to by Dr. MacLaren; to the City of St. John, proposed by the Mayor; to the national secretary of the Institute, and responded to by the Mayor and City Commissioners; to the engineering profession, proposed by Hon. Dr. Baxter and responded to by W. F. Francis, of Montreal, national president of the Institute.

Mr. Chase, proposing the toast to the Maritime Provinces, said that the fact west owed a debt to the Maritime provinces, which had been perhaps passed by the tide of immigration. He said the west looked on the Maritime Provinces as the natural outlet for the products of the west. He said the east showed a fine example in patriotism to the British Empire. What was needed in all Canada, he said, was immigration.

Dr. MacLaren, in reply, first complimented Mr. Cameron on the excellence of the work at the St. John docks. He paid a tribute to the whole engineering profession. In his opinion, the future success of the Maritime Provinces as a whole depended on the routing of all Canadian trade over Canadian rails and through Canadian ports. This being accomplished, all other things would follow—trade, industries, and manufactures.

MORNING NEWS OVER THE WIRES. Hon. J. D. Stewart, Premier and Attorney General; Hon. J. A. McDonald, Commissioner of Public Works, and Hon. J. H. Street, Commissioner of Agriculture, were confirmed in office by acclamation yesterday in P. E. I.

H. B. Russell, independent labor candidate in the North Winnipeg by-election, in opposition to Hon. E. J. Murray, M. P., Solicitor General, announced his withdrawal from the field yesterday.

The proposed change of the superintendent's staffs from Truro and Bridgewater to Halifax, to have taken place on September 1st, has been postponed until October 1st, or later. In the meantime Sir Henry Thornton will meet representatives of the districts interested.

If You Keep Hens CUT THIS OUT. 1,000 Eggs From Every Hen—Four to Seven Eggs a Week Per Hen Through Cold Winter Season—High Priced Eggs Means \$5.00 Profit Per Hen in Next Six Months—Amazing Poultry Secrets Revealed By AMERICA'S FOREMOST POULTRY EXPERT

This is an offer no reader of this paper who keeps chickens can afford to ignore. We will tell you why. Henry Trafford, our Poultry Expert and Breeder, for nearly eighteen years Editor of "Poultry Success," has developed a new and remarkable system of rearing, breeding and feeding chickens for heavy egg production that seems certain to revolutionize the poultry industry and give five eggs or more for every egg produced today. This plan or system is explained in Mr. Trafford's "1,000 Egg Hen" a free copy of which will be sent to any person who keeps six hens or more.

Poultry keepers, following Mr. Trafford's directions, learn how to start young pullets laying early; make old hens moult quickly and resume heavy laying during entire winter season. Most any hen will lay in spring when eggs are cheap. Mr. Trafford tells how hens lay four to seven eggs a week during coldest winter days when eggs sell at a dollar a dozen or more. His system shows how any breeder, with ordinary care, may get 1,000 eggs or more from nearly every hen in four

NEIGHBORS ARE GUESTS OF PRINCE

"Fellow Albertans" He Calls Them at Ranch Picnic With Many Thrills.

E. P. Ranch, Pekisko, Alta., Sept. 28.—"Fellow Albertans, you are welcome and I hope you will enjoy the outing. My ranch is open to you today, go as far as you like."

This democratic greeting uttered by E. P. Ranch yesterday, wholly at their case and incidentally they took the royal ranch at his word. They inspected the buildings and the cattle, talked livestock with the Prince and then concluded by asking him to pose for snapshots, which he did with unflinching good nature.

An Exciting Day. Those in charge of the picnic crowded enough events into the afternoon to satisfy even the most exacting person and no one enjoyed the afternoon better than the Prince himself. Sporting a brand new pair of khaki riding breeches, old grey tweed coat and a pair of army boots, he strolled around the ranch grounds. He displayed his prize winning livestock with pardonable pride, and he flushed with pleasure when Pat Burns, western Canada cattle king, remarked that the Prince's yearling Shorthorn bulls were some of the finest he had ever seen.

After an exhibition of broncho busting given by Pete Vandermere, of Calgary, western Canada's champion bucking horse rider, and other rough riders, he expressed himself as being delighted with the miniature stampee.

"That was a great performance, never saw anything like it before," he said. "I saw some bucking in Saskatchewan when I was there in 1919; but this is the first time I have ever seen wild horses, ridden at close range."

NEED IMMIGRANTS IN THE MARITIMES

Address by Hon. J. B. M. Baxter Before Canadian Club.

That a portion of the tide of immigration which is now flowing to other parts of Canada should be diverted to the Maritime Provinces was the suggestion made by Hon. J. B. M. Baxter last evening, when he addressed members of the Canadian Club on the subject of Some Problems. Hon. Dr. Baxter showed that New Brunswick was going ahead in regard to population but it was not keeping pace with other parts of Canada in this respect and, as a consequence, New Brunswick was not being represented in the Parliament of Canada.

Dr. Baxter, with Dr. MacLaren, had come to the conclusion that the Maritime Provinces and particularly New Brunswick, should make an effort to secure immigrants who could be assimilated. He thought the Maritime Provinces would have been a much more suitable place for the people from the Hebrides than the plains of the west, where the conditions were so much different to those of their native land.

The occasion of Dr. Baxter's address was the Canadian Club luncheon in the LaFour dining hall, when W. J. S. Myles presided. Before introducing the speaker of the evening Mr. Myles offered congratulations to C. W. Romans on his election to the position of secretary of the Federated Canadian Clubs.

FAIL TO AGREE IN PARKER CASE

**Jury 9 to 3 for Conviction—
There Will be a New
Trial.**

The trial of Mrs. Bessie Parker, charged with performing an illegal operation on Annie White, ended in a disagreement yesterday afternoon. The jury stood nine to three for conviction. The accused was remanded to jail to await another trial.

Mrs. Parker gave evidence for the defence and denied having committed the offence charged. She said that the girl had come to her and that she had made an examination of her condition and told her that she would be all right.

Adjournment was made at the request of E. S. Ritchie, for the defence, who wished to summon another witness. He was unable to procure this witness and when the sitting was resumed in the afternoon he made his address to the jury. Dr. W. B. Wallace, K. C., then addressed the jury for the Crown. Mr. Justice Chandler charged the jury and the jury retired at 8:15.

The jurymen returned at 4:10 and announced, through their foreman, D. J. Stockford, that they were unable to agree and stood ten to two for conviction. At the request of a jurymen part of Mrs. Parker's evidence was read, and the jury was sent back for further consideration. At 5:30 they returned again and reported that they were still unable to agree, and stood nine to three for conviction. They were polled at the request of the Crown, voting as follows: Guilty: William Crabbie, Frederick W. Logan, Frederick Brookings, Harold O. Evans, Ernest Whitebone, John Gillis, Benjamin D. Hamilton, A. S. Merritt and Robert T. Worley; not guilty: D. J. Stockford, J. D. McKinnis and Samuel J. Holdet. After the poll they were discharged from further duty on the case. The accused was remanded for re-trial.

MAGICAL BEAUTIFIERS FOR WOMEN.

Women everywhere are trying all kinds of beautifiers, only to find that their effects are transitory. The first requisite of beauty is health. Without it the steps lag, eyes are listless, dark circles appear beneath them, the complexion becomes sallow, and almost invariably the underlying cause is some ailment peculiar to women. There is a very inexpensive remedy for this condition in Lydia E. Pinkham's Vegetable Compound, which for nearly fifty years has been relieving women from some of the worst forms of female ills. Why not let it restore you to health and beauty and the joys of living?

KING KILLER OF BAD MEN

"Pecos Bill is not a new-comer in the Southwest. His mighty deeds have been sung for generations by the men of the range. In my boyhood days in west Texas I first heard of Bill, and in later years I have often listened to chapters of his history told around the chuck-wagon by mendacious cow-boys."

Edward O'Reilly has collected a few of the tales about Pecos Bill and they are appearing in the October Century under the title "The Sage of Pecos Bill." Though all these stories are familiar to the cow-men this is the first time they have ever been pub-

ished to the wider audience they deserve.

"There is no way of tellin' just how many men Bill did kill. Deep down he had a tender heart, however, and never killed women or children, or

journalists out of season. He never scalped his victims; he was too civilized for that. He used to skin them gently and tan their hides.

"The stories of Bill's love-affairs are especially numerous. One of them may be told. It is the sad tale of the fate of his bride, a winsome little maiden called Slue-Foot Sue.

"Sue made a sad mistake when she insisted on ridin' Widow-Maker on her weddin'-day. The old horse threw her so high she had to duck her head to let the moon go by. Unfortunately, she was wearin' her weddin'-gown, and in those days the women wore those big steel-spring bustles.

"When Sue lit, she naturally bounced, and every time she came down she bounced again. It was an awful sad sight to see Bill imploirin' her to quit her bouncin' and not be so nervous; but Sue kept right on, up and down, weepin' and throwin' kisses to her distracted lover, and carryin' on

Clogged-Up? Here's Quick Aid

NEVER mind what you are using now for constipation. For all you know there is a better remedy! The next time you are clogged up try Dr. Caldwell's Laxative Syrup Pepsin, a laxative successfully used for 30 years, the largest selling liquid laxative in the world. Olive L. Purdy of West St. John, N. B., found Laxative Syrup Pepsin most beneficial, and J. W. Smith, 119 Strathcona Av., N. Hamilton, Ont., says it is the best remedy he has ever used. The list of successful users of Dr. Caldwell's Laxative Syrup Pepsin is naturally large as over 10 million bottles are sold annually.

Formula on Every Package. Get yourself a bottle at a drug store, the cost being less than a cent a dose. Take a spoonful at bed time for a few nights and you guarantee that the most chronic constipation will be relieved, or refund your money. A few doses in succession soon train the stomach muscles to act for themselves. Many, however, take it once a week and in that way keep the bowels regularly open. Dr. Cald-

well's Laxative Syrup Pepsin, unlike harsh physics such as calomel, "candy cathartics," salt waters and powders, is a simple vegetable laxative composed of Egyptian senna and pepsin with tasty aromatics which are entirely harmless.

This Remedy Guaranteed

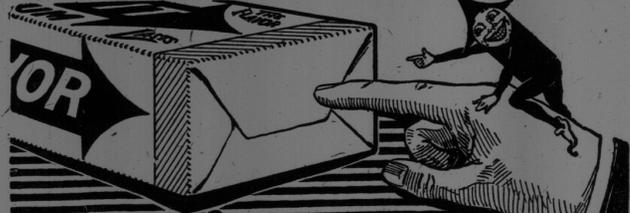

It has been accurately proven that a constipated person is only 75 per cent efficient. It slows you up; makes you dull and lazy. Take Laxative Syrup Pepsin the first day you do not have complete bowel movement. Take it, guaranteed, for constipation, torpid liver, dyspepsia, biliousness, sour stomach, headache, lack of appetite. A spoonful at the first sneeze or snuffle will kill a cold overnight. PRINCE FINDS HIS RANCH IS A RESTFUL HERMITAGE

Beautiful Grove Shields It From Curious East-Rockies on West.

By FRED G. GRIFFIN

(Special to The Toronto Star by a Staff Reporter.)

Bar U Ranch, Pekisko, Alta., Sept. 19.—Probably for the first time since he was born to the purple nearly thirty years ago is the Prince of Wales living the life of an ordinary human being untrammelled by convention, unfettered by ceremony, free from all the fetters and shackles that have been his fate since his birth as the royal heir of Britain. If there was not a valet with him to shave him, polish his boots and lay out his riding breeches, he might easily imagine himself in truth merely the heir of a wide wild western ranch. For during the last two days he has lived absolutely the life of a free western cattleman.

The Prince of Wales certainly showed his imagination when, on his 1919 tour, he decided to become a rancher and picked out the homestead which has since become known to fame as the E. P. Ranch at Pekisko. It is not so much a ranch as a retreat, a hermitage. If he had made a personal inspection of every spot on the map marked red he surely could not have found one equal to this for seclusion, beauty, grandeur and rest. Any acquaintance which his grandfather, Edward the Seventh may have practised at Ostend or Maribrod, was a purple spotlight compared to this of Lord Renfrew. He is not merely incognito, but for a few blessed days hidden from the world.

If he had searched Western Canada he could not surely have found a more beautifully situated ranch. The buildings on the great Bar U ranch of 100,000 acres, on the verandah of which this is being written, straggles along the roadside, a scattered cluster of red buildings, like the village of men, women and children which it really is. You might drive past it and mistake it for a village were it not for the long stables and fenced stockades which proclaim its purpose.

Sheltered by Beautiful Grove

Not so the E. P. You have to pass beyond a line of swelling foothills which serve as a barrier between it and eastern curiosity. Even then you cannot see it until you are right up to it, for it lies at the end of a long grove of cottonwood or balsam of gilead trees vividly green in this country of yellows and blues and purples because their roots drink from the waters of the winding Pekisko. It is true there are scattered clumps of trees in this country on the foothills, but none that I could see like that beautiful grove that shelters the royal ranch. You strike it at the bridge and the curve of the road just past the Bar U ranch

and then for the intervening three miles it stretches in cooling shadows by the murmuring creek. The prince showed imagination when he chose this country for a home. What a country, boundless, magnificent, rich. Yesterday the sky was a delicate blue. Only a few clouds showed like wandering filaments of heaven's thistledown. On all sides stretched the curving hills, round countless breasts of mother earth, and no less generous, for on their brown and yellow slopes grazed the flocks and herds of this great country. In the air, clear as crystal water from a mountain well, you could see clearly to where the last hill carved a clear cut curve against the horizon. Horses and cows milles away, tiny specks in the immensity of these rolling uplands, stood out in vivid lines as if etched against the sky. A hundred yards away the grass grouped itself in unequal clumps in which every blade seemed to play its part individually.

What air! What buoyancy of spirit it compelled. It went to the head and the heart like rare wine. One's spirit soared. The office, editors, the throne, politics of empire, seemed away far distant in another world.

An Impregnable Barrier. Just as the ranch of the prince is sheltered from the east it is impregnable barred from the west. Away down the valley in which the E. P.

faces, rising from its very edge, is the first great range of the impregnable Rockies. On Monday they cut the sky with embattled grimaces, snow-peaked ruggedness, mighty western wards of the prince. Yesterday white clouds rolled over them, blotting out their outlines or a blue haze touched their peaks with a softening tenderness.

There is something at once friendly, faithful, and fearful about the sentinel stand of these mighty barriers as if they were something super-human which might move and march at the prince's command. It would be interesting to know what are Lord Renfrew's reactions to this majestic hinterland. If the incognito were not so unbreakable, it might be possible to find out; but after all his would be merely those of any other easterner

and the foregoing has perhaps given an impression of them. To the ranchers and farmers adjoining, Lord Renfrew is merely a neighbor at home. They show not the slightest interest at his nearby presence. George Lane, owner of the Bar U, his nearest neighbor, is not even on his ranch, and there is no word that he is likely to come. A Union Jack flies from the Bar U flagstaff, but in a most incidental way. No cars pass by with curious people. So far as I know Lord Renfrew has only had one caller, the general officer commanding the Calgary district. Nothing to Indicate Royalty. Nothing along the seven mile road to the town of High River indicates that it leads to the temporary home of the heir to the throne. There are no decorations. High-powered cars do

about a cowboy who came loping up the main street on a ranch pony. He might have stepped out of a wild west movie for he had all the frills, wide stetson, red shirt, high heeled boots, jingling spurs, and the most magnificent woolly chaps. All he lacked for extreme realism was the six shooter. The only weapon he seemed to carry was a big pipe in the corner of his mouth. He was no exception. This is a country where the horse is still king. You meet cattlemen riding on the roads and you see them ranging the hills. They are always picturesque. Such are the neighbors of the young Baron of Renfrew. Two members of The Star staff are the nearest neighbors of Lord Renfrew. They are staying at the Bar U ranch, greatest in Western Canada, whose boundaries march with those on the royal property and sweep round it with their encircling way.

not dash backwards and forwards with liveried servants or princely messengers. Not at all. Last night a car drove into High River from the E. P. ranch for stores and mail. It was anything but high powered. Many a tired thing but high powered. Many a tired salesman in Toronto or storekeeper in Regina, Sask., or London, Ont., owns a much better one. It was driven by a ranch hand garbed as he had been all day. The one or two movie men who are still lingering around High River in the vain hope that the bars will be let down on the incognito, were not half so excited about the car as they were

AGED BROTHERS HAD SAME EXPERIENCE

(Colchester Sun.) William Hanway, retired engine man, met with a serious accident here last Saturday morning. He was standing on the west end of the railway platform talking to Judson Wall, another ex-railway man, when suddenly a Chevrolet auto, standing head-on to the platform, and in which two men were seated, sprang onto it and knocked Mr. Hanway down and rolled him for some distance. When it came to a standstill he was beneath it and was released by lifting the car off him. His head and hands were badly injured, several ribs were broken and he was hurt internally. Dr. Charman was called and attended to the injured man in one of the waiting rooms and had him removed to the hospital. Mr. Wall escaped being hit by the car, but was knocked down in some way, his head coming in contact with a rail. He received a severe bruise on the right side of his head. The driver of the car says some person put it in gear while he was away from it, and that he accidentally stepped on it, causing it to suddenly start. Both men in the car jumped out. On Tuesday, Mr. Hanway's condition, which had been improving, took a turn for the worse, pneumonia developing. He is about 70

years old and fears are entertained for his recovery. The William Hanway mentioned above is an uncle of James A. Hanway, K. C., Amherst. A rather curious coincidence in connection with the accident is that Mr. Hanway's father was struck by an auto about two years ago and has been paralyzed ever since. SAYS MEXICO NEEDS SCHOOLS. Mexico City, Sept. 11.—(A. P. by mail.)—The future of Mexico lies in the establishment of 7,000 primary schools throughout the republic, according to Enrique Corona, of the Department of Public Instruction. He declared that, of the 14,000,000 inhabitants of Mexico, 8,000,000 are illiterates and that 4,000,000 of these illiterates cannot even speak Spanish, but cling to ancient Indian dialects.

PLAN FOR WORK FOR GOOD OF BOYS

Board in Session in Y. M. C. A. Building Makes Decisions.

With the aim of securing greater interest and support for boys' work among the various congregations in the city, special measures were approved by the St. John Boys' Work Board in an annual session last night in the Y. M. C. A. Rev. A. L. Tedford, the chairman, presided and there were representatives present from the following churches: German street Baptist, Carlton Methodist, St. David's Presbyterian, Carmarthen street Methodist, Queen square Methodist, St. Andrew's Presbyterian, Exmouth street Methodist, Portland Methodist, Tabernacle Baptist, Laddow street Baptist and the Y. M. C. A. The greater part of the evening was taken up in discussing the general plans and methods for carrying on the work for the Tuxedo and all Ranger boys during the coming season.

It was decided that the membership of the board should be divided into small committees to be responsible for the various separate activities such as field sports, basketball, skating, debating, programs and social, religious work, visiting and publicity and propaganda.

It was decided also that in future, where possible, the lay members of the committee should be selected by an appropriate church organization rather than merely appointed by the pastor of the church. This was decided upon in order that each church might feel more definitely its individual responsibility towards promoting the programme of the C.S.E.T. among its own membership and also be prepared to give reasonable support from its funds.

It was agreed that meetings of the board should be held in future, in the months of September, November, February and April.

A nominating committee, consisting of F. L. Wilbers, C. M. McAlley and H. H. Parsons, was appointed to draw up a slate for the officers and the chairman of committees and to bring in a report at an adjourned meeting next week, when several other matters also will be discussed.

INJUNCTION CASE OFF TILL MONDAY

Hearing Relative to Interference Completed; Poles Question Next.

The hearing in the interference branch of the injunction case of the New Brunswick Power Co. vs. the City of St. John was completed yesterday afternoon, and the hearing in the North End poles branch of the case will begin on Monday morning at 10:30.

Yesterday, Gordon Krebs was examined in connection with the charge that the affidavit made by him and filed before Chief Justice Hazen was misleading. Mr. Krebs testified that there was nothing misleading and everything promised in that document had been carried out by the Civic Power Commission, and so far as the city system itself was concerned it was being erected in conformity with the Bureau of Standards and the practice of the Ontario Hydro Electric Commission.

Barry Wilson said he had made an examination of alleged cases of tying of the Power Company wire to knobs

on the city poles and found the wires in question were fire alarm lines. Dr. Baxter then concluded his argument, and the case was adjourned until Monday morning at 10:30.

MEN AND HORSES

How closely related is man to the more intelligent of the animals is seen in many of the ailments to which both are prone and the remedies to which they answer.

Doctors and veterinarians are often-times surprised to learn of the similarity of their methods of handling the ailments of man and beast.

Sprains, burns, scalds, scratches and many other minor injuries, many every day ailments, too in men and animals take the same course, and both answer immediately to the same treatment—Absorbine Jr.

Absorbine was first discovered by a very close student of the horse, W. F. Young, and by him, devoted to its cause. Its very exceptional benefits, however, were promptly seized upon for the human race and, in a milder form, the preparation is sold all over the continent today as Absorbine Jr. It is used for men, women and children every where and as a prompt and certain healer of all ailments. It is useful not only for all the purposes served by ordinary liniments and embrocations, but as a mouth-wash and for anything else where a germicide is needed. Don't wait until you need it. Get it in the house today. \$1.25 a 2-ounce jar.

TIGERS TAKE ONE FROM THE INDIANS
Pipp and Meusel Both Out of Game With Injured Ankles.
New York, Sept. 28.—The second rate Indians went down to defeat yesterday before the third rate Tigers in Detroit by the score of 3 to 4. The Tigers made their big play in the fifth inning when they wrote up four tallies in a row, taking the lead by one run. In the next inning each team took one for the last score of the game.

The Yanks trimmed the Red Sox in Boston 8 to 3. The American League champions started off with a bang in the first frame, taking three runs, hooked three more in the third, and the final pair in the eighth inning. The Red Sox made one brave stand in the sixth, when they collected three all in a row, but could not seem to scratch the pin again.

In the National League the Pirates lost to the Cubs, 8 to 2. O'Farrell and Miller rounded the circuit in an sprint for the Cubs, while Grimm pounded a homer for the Pirates.

The Braves defeated the Phillies, 7 to 2 in Philadelphia, counting five runs in the fifth inning and following with one in each of the next two. The hit score was almost even, 12 to 11, with the winners leading.

Wally Pipp of the Yankees, sprained his ankle yesterday getting off the train, and Lou Gehrig, former football and baseball star at Columbia University, filled in, and started both at the bat and first base. Meusel also hurt his ankle sliding to the plate yesterday, and had to retire.

SIKI HAS TOO MANY MANAGERS; BOXING LICENSE IS HELD UP
Too many managers caused a delay in issuing a boxer's license to Battling Siki, Senegalese light-heavyweight, at a meeting of the State Athletic Commission and the License Committee when two managers appeared to press their claims on his services. The application for the license was tabled pending an investigation of the situation. Because of this and because of a conflict between matches which has been announced for the Senegalese, plans for Siki's proposed bout with Kid Norfolk at Madison Square Garden on Oct. 12 have been temporarily halted.

They were made the recipients of many handsome presents and expressed their keen appreciation. The evening was pleasantly spent.

QUACK DOCTORS THRIVE ON SIBERIAN STEPPES
Vladivostok, Siberia, Aug. 28.—(By mail).—Quack doctors have made their appearance in almost all the villages of Siberia, offering to cure any of the ills flesh is heir to, and some of their alleged remedies are marvellous.

In the Nikolsk district a doctor has appeared who undertakes the cure of consumption in all stages. As consumption is rather widespread in the district his patients are many, and the man is rapidly making a fortune. His remedy is a concoction of cabbages and milk boiled together for some hours by a special "secret process."

Other and more dangerous quacks are making fortunes for the moment, but the situation is such that the authorities have decided to step in and protect the credulous people.

New Manager for Red Sox.
Robert Quinn, president of the Boston Red Sox, announced yesterday that Frank Chance will not manage the team next season. Quinn has two men under consideration for the management, but will not negotiate until after the world series.
