TWELVE PAGES—ONE CENT

THIRTY CANDIDATES SO FAR FOR HONORS IN QUEEN OF THE CARNIVAL CONTEST

First Representative of Business House Today and Others Expected—A Word From Halifax—Montreal Girl to New York With Miss America.

Seven entries received in this morning's mail brought the list of contestants in The Times Carnival Contest up to thirty, and it is expected that, before the entries close on next Saturday at noon, this number will be at least doubled. The interest is becoming keener daily and a spirited finish is anticipated.

The chief item of conjecture about the streets these days is "Who will be Miss St. John, and how will her charms compare with those of the young ladies who will gather at Montreal to compete for the title of Miss Canada?" Halifax has already named Mrs. Ora Doherty as competitor for that city; Montreal will soon choose the fairest from among twenty and thirty contestants, and there will be candidates representing the cities of Moncton, Winnipeg, Edmonton, Regina, Sorel-Québec, and it is expected that Ottawa and Toronto will also have nominees. At Winnipeg the members of the board of judges include Lady Aikens, Lady Nanton and other prominent women of the city.

"Betty" of the Halifax Herald, under whose auspices Miss Halifax was selected, in a letter to a friend in this city, says that there is keen interest there in the contest for the title of Miss St. John, and she feels confident that St. John should be able to select a worthy competitor for the name of Miss Canada. "Betty," by the way, is former St. John lady.

Today's Photographs.

The photographs of Candidate No. 5 and No. 14 are reproduced in this issue. The lady represented by No. 14 is a blonde and is entered as the contestant from F. W. Daniel & Co., Ltd. This is the first representative of any firm or organization received so far, but others are said to be on the way. No. 4, who is a brunette, resides in Pitt street.

Montreal Entrant to New York. Miss Helen Morgan, who, as Miss Mount Royal, is entered in the competition for the title of Miss Montreal, left on Friday evening for New York, where she met Miss America (Miss Mary Catherine Campbell of Columbus, Ohio) on Saturday. During their visit in New York the young ladies will be guests of the Waldorf-Astoria. Miss Morgan, when she left Montreal, was wearing \$50,000 worth of furs supplied by Holt, Renfrew & Co., Ltd. After a series of social events in the American metropolis, both Miss Mount Royal and Miss America will return to Montreal, where they will be guests of the management of the new Mount Royal Hotel.

HOLD-UP WAS NOT ON THE C. P. R.

C. P. R. officials this morning denied a report of a hold-up on their line at Brownville Junction and gave out the following official report: On Thursday evening, about 6:30 p. m., a stranger who was eating in a small restaurant in Main street, Brownville Junction, when paying for his supper, pulled out a gun and demanded "Hands up" to the girl who was opening up the cash register. She screamed when she perceived the gun pointed at her and her outcry brought out the proprietor from the rear of the restaurant, who demanded from the hold-up man that he refrain from shooting the girl. He took out his own gun and registered and handed them to the hold-up man. The total of the bills handed over was in the vicinity of \$25. The man then promptly disappeared. The street is pretty well deserted at this time of the evening and the man was able to make good his escape.

APPOINTMENT GENERALLY APPROVED

That the civic Hydro Commission has added considerably to the strength of its working efficiency by appointing Roy A. Willet accountant-secretary is the opinion expressed by many citizens this morning. Mr. Willet is in the fortunate position of having a wide and thorough understanding of the situation as it is applied to St. John. For nearly two years he has given a close study to the hydro question, and was one of the first citizens, if not the first, to realize the immense importance of the Musquash development to St. John. In spite of the then general opinion at the start of the hydro campaign that the Musquash development would mean practically no saving to the light and power consumer, Mr. Willet was convinced otherwise, and has deviated in no shape or form from his original conviction. As a campaigner for light and power at cost, he has proved himself to be a stickler, taking a leading part in three elections. He is solid and trustworthy, and has had but one object in view, namely, light and power at the lowest possible cost. He is not a man of mere sentiment, and his work on behalf of the community has been done in a time that many less enterprising citizens would have devoted to pleasure. His wide knowledge of the hydro situation, coupled with his experience as an accountant, makes him a valuable acquisition to the civic hydro commission.

METHODIST MINISTERS. The weekly meeting of the Methodist Ministers Association was held this morning in the city. Winter spoke of the necessity of going to the root of things. "There are," he said, "still plenty of people to whom philanthropy means more than reconstruction." I hope you do not have in Canada what we have in the United States, officers who say, "What laws do you want enacted, while there is no doubt that people of British blood have a stronger sense of law and order than we have." In closing, he urged that as women have made so much progress, they have patience at present they were inclined to grow discouraged and give up. The text was going to be directed to the ability to drop little personalities. The most pressing need was courage, courage that would go on in the face of all difficulties and disappointments.

WILL LIKELY RECOVER. Richard Donovan, who was taken to the General Public Hospital on Saturday night following his cutting of varicose veins in an attempt to relieve the pain, was said today to be doing well and to have a good chance for recovery. METHODIST MINISTERS

The weekly meeting of the Methodist Ministers Association was held this morning in the city. Winter spoke of the necessity of going to the root of things. "There are," he said, "still plenty of people to whom philanthropy means more than reconstruction." I hope you do not have in Canada what we have in the United States, officers who say, "What laws do you want enacted, while there is no doubt that people of British blood have a stronger sense of law and order than we have." In closing, he urged that as women have made so much progress, they have patience at present they were inclined to grow discouraged and give up. The text was going to be directed to the ability to drop little personalities. The most pressing need was courage, courage that would go on in the face of all difficulties and disappointments.

WILL LIKELY RECOVER

Richard Donovan, who was taken to the General Public Hospital on Saturday night following his cutting of varicose veins in an attempt to relieve the pain, was said today to be doing well and to have a good chance for recovery.

The funeral of Miss Sarah H. Burns was held this afternoon from her late residence, 173 Wentworth street, to Fernhill. Service was conducted by Rev. E. E. Styles.

WILL REPAIR THE McLEAN AT METEGHAN

It has now been definitely decided to send the schooner Hiram D. McLean to Meteghan to go on the marine railway there for repairs to her hull necessitated by her going ashore early this month on Libby's Island, Me. She will go in tow of the tug F. W. Rossing with her under deck cargo aboard and will unload preparatory to going on DeVeu's Marine slip to have some fifteen streaks of planking replaced on each side. The schooner will sail at the first favorable opportunity. W. S. MacDonald, of the firm of S. W. Warren & Co., of Halifax, owners of the schooner, was in the city this morning and was in conference with Captain A. J. Mulcahy and Charles M. Kerrison, two members of the survey commission who examined the schooner at Market Slip on Saturday. Mr. DeVeu, of Meteghan, was also in the city and was in conference with the surveyors. Following repairs there, which it is estimated will take about fifteen working days, her cargo will be loaded and she will return to St. John from her deck load before continuing her voyage to La Rochelle. At the time of the repairs she will be under the command of Windor to La Rochelle with lumber.

HUMAN KINDNESS BASIS OF STATE

Last Feminine Struggle Was That for Political Rights.

Staying Power Urged—President of General Federation of Women's Clubs Said Woman Must Go Into State.

(Montreal Gazette.) Human kindness as the basis for the state, the motherhood of women reaching out beyond the family and embracing the unfortunate, these were the ideals which Mrs. Thomas Gerald Winter, president of the Minneapolis, president of the General Federation of Women's Clubs, commended to the local federation at their meeting here yesterday afternoon at the Mount Royal Hotel. Although Mrs. Winter spoke for over an hour on subjects which, to be properly grasped, demanded close attention, the four hundred or more women present were, many of them, unwilling to let her go, and detained her at the close of her address in a discussion of several of the points she had raised. Mrs. T. de Grey Stewart presided. A brief address on the work of the Juvenile Court was given by Rev. Jas. E. Fee, chairman of the Juvenile Court Committee, non-Catholic.

In commencing her address, entitled: "This Moving World," Mrs. Winter said: "While it may not be apparent, everything that is worth while in the world has its roots in past ages. The world for moment is not new. Even in the times of Greece and Rome we hear of things we are alike of today?" The position of woman in the past, the early history of the woman, the public and private affairs during the Middle Ages and at the time of the Renaissance, as well as the history of the woman in the present, was indicated. It was when women in mass asked for training and larger opportunities that men's opposition was aroused. Gradually solved the educational and industrial problem. The last struggle of all was the one for political power, the speaker declared, and this was the struggle of the woman of today. "We are walking into a new world. The girl who is born today is born into that freedom which was dreamed of ages before. I think the woman of today is more progressive than any woman in history. I believe even in the flapper and I have come into contact with many of them. But there are lessons to be learned from the past. We are walking into a new world. FREIGHT BLOCKADE AT BOSTON PIER

Hundred Thousand Tons at Army Base—Shortage of Cars Results in Threat to Divert Vessels.

Boston, Jan. 22—More than 100,000 tons of freight valued at many millions of dollars, are piled up at the local army base piers, awaiting shipment to various bases in the United States, and cannot be moved because of lack of freight cars. This freight congestion, becoming greater every day, is seriously threatening Boston's position as a port, as it is becoming practically impossible to take care of ships coming here unloading.

So great has the suggestion become at the army base and other piers in Boston, according to shipping officials, that steamers on their way to Boston will be diverted to other ports unless the situation can be speedily remedied. Already one ship with a cargo consigned to Boston has been diverted to Providence, entailing additional expense in the matter of freight handling.

Capt. Pillsbury declared it would take about 4,000 freight cars to clear the sheds at the base. About 850 cars per day can be loaded if the railroads will supply them.

For the week ending yesterday Capt. Pillsbury received only 27 freight cars.

THE HARBOR.
If by adopting harbor commission the citizens could be assured: (1) That the rest of the country would give full recognition to St. John as a national port; (2) that a comprehensive scheme of harbor development would be begun and carried on steadily from year to year; (3) that the cost of this development for the benefit of the trade of all Canada would not all be made a charge against the traffic of the port; they would have no objection to such a course.

But what is the actual situation? The national character of the port is not yet recognized by the rest of Canada. There is no assurance whatever that harbor improvement will be proceeded with as the needs of a national port demand. Under the harbor commission scheme which the people rejected, not only new but old work done would have been made a charge against the traffic of the port.

We are just where we were when the harbor commission scheme was rejected. While some additional grants and favors are needed, we have been told that otherwise the present terminals at West St. John are able to handle all the traffic the C. P. R. can haul over a single track from Montreal; and the separate agreement binds the Government to provide more terminal facilities when required. Some citizens appear to think that agreement is dead—is it? When we turn our attention to the Canadian National Railways, we find them without proper terminals, there are two national lines reaching the port. What is to be done with that? Is it to be done with the Valley Railway which comes in over the Westfield road to Westfield? Is it to have terminals here and do a transcontinental business? When the line from Fredericton to McTavish Junction is brought up to the standard and the proper connections provided from Westfield there will only be needed the proper terminals to make this a great competitive railway through traffic. Is that the attention of the railway department and the Government? Who knows? What are the intentions of the Canadian National Railways in regard to this port?

The very first duty of the committee to be appointed to deal with the question of harbor improvement will be to get information on this point. Suppose the Government decided to make a large expenditure here and provide ample terminals for the C. N. R., would there be an agitation here to get harbor commission and have that expenditure made a charge against the traffic of the port? There are some citizens who have declared their willingness to stand over the harbor and trust the Government, but this people have refused to do this. They have refused to sign under the same conditions. The thing to do now is to unite and not divide public sentiment on this great question of harbor development. The City Council and Board of Trade must not forget themselves of any pre-conceived notions and forget for the time being the port of Montreal and its harbor commission; since Montreal is a great political and financial centre with the whole country west at its back, and not at all in the present helpless position of St. John. If, however, a policy can be discovered which will unite the people a great deal may be accomplished. And first they must be given a good deal more information than they have at present regarding the place St. John is to occupy in the plans of the Canadian National Railways. Nothing could be more unfortunate than to be plunged into another campaign for harbor commission with no more satisfactory assurances than could be given in the former campaign.

Nothing in this article is meant to discourage those who want the matter of harbor improvement taken up vigorously at the present time. It is a matter of vital importance. Indeed so much is involved that we cannot afford to be idle or indifferent. On the other hand, it should not be assumed in advance of the most searching enquiry that there is only one solution of the problem.

A DAILY REMINDER.
If a citizen should chance to be at Haymarket Square at thirty-seven minutes after three in the afternoon or after seven in the evening, he or she would see the street car for East St. John move out with its seats filled with passengers. Every day including Sunday, and including cold and stormy days, it is the same. Four o'clock and eight o'clock are the visiting hours at the County Hospital, and these passengers have relatives or friends in the institution. The same faces are seen day after day and evening after evening. These people leave the busy city streets to a great mission in the world. Our American friends, however, are not yet fully persuaded.

YANKEES' VETS TO TRAIN AT SPA

Ruth, Shawkey, Mays and Others to Have Preliminary Session at Hot Springs

New York, Jan. 22.—When Babe Ruth begins "boiling out" at Hot Springs, he will have plenty of company from the ranks of the Yankee troupe. That is, unless the players' union should decide that there ought to be only a three-week training period and a three-hour day, or some other reform along those lines. Otherwise, the Yankee capitalists plan to have these other vets report early at the Arkansas Spa, and in the far-famed water find the secret elixir of youth and vim.

It was the scheme that was tried last year and it worked with notable success. Bob Shawkey attributes his successful season to the loosening up that he got right at the spa. He went ten days at Hot Springs. Cary Mays, who lives near-by in the Ozarks, is a firm convert to the virtues of the Spa water, and Wally Schang also favors a boiling out before he starts throwing them around the bases at New Orleans. Ed Barrow has written to Miller Huggins, sending him a list of players that he might make up the Hot Springs squad. Any athlete will be allowed to go if he so desires and if the Yanks think it would do him some good, but these will also be asked to check off the players on the list that he thinks need the heroic treatment more than the others.

Among the pitchers will be Shawkey, Mays, Jones and Murray, if he wants to go. Besides Ruth the others probably will be Schang, Deacon Scott, Wally Pipp and possibly Wiley Witt and Joe Dugan. Bush and Hoyt were here last year in February, but they have been pitching in the Orient with the American team and undoubtedly will not need any more baseball before they check out.

Workouts at the Springs will begin about ten days before the main squad gets started. The Yanks will leave here on the 20th of February, but they are therefore, the Arkansas detachment will be in action on or about the 28th of February.

DISCUSSING THE FINANCING OF NEW ROYAL HOUSEHOLD
Engagement of the Duke of York Revives a Question Which Has Not Been Asked in Many Years.

London, Jan. 22.—The coming marriage of the Duke of York to Lady Elizabeth Bowes-Lyon, being before the British public a question which has not arisen in many years, but which in times past has been a point of difference between the King and Queen. This question is the financing of a younger member of the royal family.

PREMIER MURRAY OF N.S.

Chief of the Nova Scotia government for twenty-seven years, ill-health now compels Premier George H. Murray to relinquish the reins of government. He may be succeeded by Hon. James C. Tory, member for Guysboro and minister without portfolio now.

LOCAL NEWS
A camp at Ferry's Cove, owned by Stephen Moore of Grand Bay, was destroyed by fire on Friday night. It was situated one mile below the Képece mill.

The nutritional clinic which will soon be held in the new health centre will be directed by Dr. Doris Murray and the pre-natal clinic by Dr. J. R. Nugent. The dental clinic will be in charge of the St. John Dental Association.

A meeting of the ways and means committee of the St. John Health Centre was held on Saturday afternoon with the chairman, Mrs. E. Atherton Smith, in the chair. Encouraging reports of co-operation were given. Committee for a carnival to be held during carnival week were appointed.

Regarding a rumor that he would announce his resignation as Premier of New Brunswick this week, Hon. W. E. Foster said last evening that a caucus of his supporters in the Local Legislature had been called for Thursday of this week, at which matters of provincial policy would be discussed, as well as personal matters.

A meeting of the advisory board of the Waterloo Street Baptist church was held on Saturday night with a large attendance of members. Reports were received from several of the committees and some important business was discussed. Plans were formed for holding a special campaign in the near future for the purpose of raising funds for church work. Rev. J. A. Swetnam, pastor of the church, occupied the chair.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis

Lesson No. 212

POINTS TO REMEMBER. (TRANSMITTING STATIONS)

REMEMBER THAT:

The most efficient working wave for a transmitting station is usually about seventy per cent. greater than the fundamental wave length of the antenna system.

A counterpoise is always preferable to other types of grounding arrangements, although frequently the more efficient stations have ground wires connected to all the surrounding pipes, wells, etc.

Always light the filament to normal brilliancy before the plate voltage is connected to the tube circuit, and in shutting down always disconnect the plate potential first.

The antenna ammeter will not read double when two tubes are operated in parallel, although the output may be more than doubled. The output varies as the square of the current.

When operating transmitting tube from a step down transformer, the best place to connect the controlling rheostat is in the primary circuit of the transformer rather than in the filament circuit itself.

The useful life of the tubes is often increased by using alternating current for filament lighting rather than direct current. Tubes last two or three times as long when A. C. is used.

When employing the Hartley transmitting circuit it is desirable to connect the earth connection to the filament terminal of the oscillation transformer, thereby producing more stable operation.

The life of tubes which are continually operated beyond their rated capacity is greatly curtailed and little added range is obtained.

In tuning a tube set a milliammeter should be employed in the plate circuit in order to prevent overloading of the tubes. The normal working plate current of most vacuum tubes is specified by the makers, and the life of the tube is shortened if this is exceeded. An output of seventy watts has been obtained from a five-watt tube in the laboratory, but the tube life was a matter of minutes.

Radiotelephony cannot be conducted on a tube set employing a transformer unless the output of the transformer is rectified before it is applied to the plate circuit of the vacuum tubes.

When employing tube transmitters it is important to have the antenna securely erected so that there is practically no swing to the wires. Slight changes in capacity caused by antenna conductors swaying in the wind results in changed wave length which in some types of circuits is very objectionable at the receiving station.

Glazed porcelain insulators are particularly effective in preventing leakage of the high voltages employed in vacuum tube transmitting sets.

RECENT DEATHS

Miss Sarah A. Burns

The death of Miss Sarah A. Burns occurred on Saturday at the home of her nephew, Herbert N. Hamilton, 178 Wentworth street. She is survived by one sister. The funeral was held this afternoon at 2:30 o'clock from the residence of her nephew, 178 Wentworth street.

Mrs. Letitia Cunningham

The death of Mrs. Letitia Cunningham, wife of the late Robert Cunningham, occurred at her residence, 64 Adelaide street, at an early hour on Saturday morning, after an illness lasting some weeks, leaving two sons, Fred W. Cunningham and Robert I. Cunningham, both of this city; one daughter, Mrs. R. P. Hackett, Edmonton, Alberta, and one sister, Mrs. S. Dixon, of Massachusetts. Many friends will sympathize with the family in their bereavement. The funeral will take place at 2 o'clock this afternoon from 64 Adelaide street.

Nehemiah Nice

Nehemiah Nice died suddenly about 9 o'clock yesterday afternoon while walking from the dining room to the kitchen in his home at 24 Middle street, w. e. Mr. Nice had just finished his dinner and rose from the table to go to the kitchen, when his wife noticed him fall to his knees. She rushed to his aid but found that Mr. Nice had expired. Dr. F. L. Kenney was summoned immediately but nothing could be done, as death had been instantaneous. He had been in poor health for about a week but his condition had not been regarded as serious, and his death came as a great shock to his relatives and friends. Mr. Nice was fifty-one years of age and was employed as a horseman. He leaves his wife, one son, George; two brothers, Frank and Charles; two sisters, Mrs. Jennie Patterson and Mrs. Frederick Cunningham, all of West St. John.

Helen H. Robertson

Many friends of Mr. and Mrs. E. Roy Robertson, 238 Douglas avenue, will sympathize with them in the death of their five-year-old daughter, Helen Hetherington, yesterday at the General Public Hospital. The funeral will be held tomorrow from the home of her parents.

Miss Elizabeth McGrattan

The death of Miss Elizabeth McGrattan of St. George, occurred on Thursday. She leaves her parents, one sister, Mrs. Joseph Murray of St. John, and five brothers.

FUNERALS

The funeral of R. H. Arnold took place Saturday afternoon from Trinity church, where Rev. Canon Armstrong conducted service at 2:30 o'clock. There was a large attendance at the funeral and the Masons were in charge at the grave. Interment was in Fernhill cemetery.

The burial of Francis J. Murphy took place yesterday afternoon, Rev. Mr. Dowling was the officiating clergyman and the funeral was attended by members of the I. O. F. Interment was in Fernhill cemetery.

The funeral of George Jones was conducted yesterday from his former residence, Pond street, to Cedar Hill cemetery. Rev. Mr. McKim attended the funeral.

The burial of William J. Miller took place yesterday in the Catholic cemetery. The body was taken from Sydney street to St. John the Baptist church, where service was conducted by Rev. J. J. McDermott.

The body of John C. Cameron was taken to Sheba on Saturday on the 7:10 o'clock train for interment in the family lot there.

Montreal, Jan. 22.—A woman was carried to safety from the third storey, more than forty new automobiles were damaged, and loss estimated by the manager at \$30,000 was caused to the Venetian Gardens, a dance hall, when fire broke out yesterday in the basement of the Durant Motor Car Company in St. Catherine street west. The floor of the dance hall was badly damaged by water.

An Unusually Fine Display of Handsome Oriental Rugs

Values Are Absolutely the Best We Have Been Able to Offer in Nearly Fifteen Years

This is your best opportunity to begin a collection, or to add another beautiful piece to the collection you already have.

The fire in Smyrna and recent war disturbances in the East have been the means of greatly diminishing available supplies of these famous rugs; consequently, prices have taken a decided advance.

Our carpet buyer was fortunate enough to have advantageously purchased this supply before these disturbances took place. This is the reason we are able to offer them at such attractive values.

In the assortments are room sizes, hall runners, hearth rugs, etc. Dozens of Rugs in this collection priced—

\$30 to \$70

One particularly beautiful Chinese rug has ground of rich Pekin blue with contrasting border of light corn shade. It is wonderfully thick piled and a genuine work of art. Suitable for living room, library, dining room or drawing room. Size 11 ft. 7 in. x 9 ft. 2 in.

Price is only **\$450.00**

Hearth Rug to match; very suitable for bay-window. Size 6 ft. 11 in. x 4 ft. 3 in. **\$135.00**

A Fine Variety of Hall Runners

The most comprehensive assortment we have ever been able to show. Values are remarkable—as these prices will tell:

Mossoul Runner, size 3 ft. 6 in. x 9 ft. \$95.00
Badjar Runner, size 3 ft. 5 in. x 11 ft. \$110.00
Mossoul Runner, size 3 ft. 3 in. x 10 ft. 5 in. \$110.00
Kazadja Runner, size 3 ft. 5 in. x 12 ft. 2 in. \$200.00
Kazadja Runner, size 3 ft. x 13 ft. 7 in. \$200.00
Kazadja Runner, size 3 ft. 7 in. x 11 ft. 2 in. \$240.00
Badjar Runner, size 3 ft. x 15 ft. 10 in. \$250.00

Out of Town Patrons Please Notice:

These Rugs have been shipped to us direct from the Orient. It will be well worth your while to see this display and make contemplated purchases from this exceedingly attractive assemblage.

The inspection of connoisseurs is invited. For lustre, wondrous beauty, long wearing quality, intricacy of pattern and rich color blending, Oriental Rugs are unequalled. Display will be arranged in Carpet department.

SCRIBES MODEST IN HOCKEY MATCH

A marvellous display of gymnastic was given on Saturday night on the ice of the St. John Arena after the regular skaters had departed to their well-earned rest and the "hockey" teams of the Telegraph-Times and Furness-Withy came forth from hiding to do battle. In spots it resembled a hockey game, but only in spots. Most of the players were seafarers from the graceful undulating motion of sinking to the ice and rising again. Fortunately all are living still.

The winners? Furness, Withy undoubtedly won the game. The score? Ah, that is a different matter. Einstein himself might have had trouble in deciding that mathematical problem. Spectators, the referee and members of the opposing teams all had different visions. They made it anything from six to one to sixteen to one, but on one point they were positive, it was something to see, for the leader of the Telegraph and Times was the only one who could penetrate the stormy defense offered by the skippers. After the surprise occasioned by McLeod's flying start had worn off, the newspapers might better have shot at the Queen Elizabeth than at the Furness. Withy goal. Nothing could pass. As for the Telegraph and Times goal, suffice it is to say that the keeper of this was a better dodger than his contemporary at the far end. He was hit only once or twice and then the polite shipping men apologized profusely. When finally the time-keeper, exhausted and almost blind from watching the dizzy spectacle, managed to focus his gaze on the skipper, he weakly called for a halt, the skippers of the respective teams called weakly for weak cheers and the players faded away. Yes, like old soldiers, they did not die, but simply faded away.

Withy hopes that the big league baseball scouts and the race track clockers will not want any of these players, we give the list: Goal. T. T. Hansen Clarke
Defence. McLeod
Nichols Cowan
Forwards. Richard
West Brand
Menley Walsh
Ewart Martin of Indiantown had the fortitude to endeavor to call the misplays, but his whistle and voice gave out early in the game.

MRS. PANKHURST

(Moncton Times)

Previous to 1914 Mrs. Emmeline Pankhurst might fairly enough have been introduced to an American audience as the "English Suffragette Leader," the woman who, when all constitutional means had been denied the suffragettes of Great Britain, had again and again stormed the historic House of Commons at the head of an army of women demanding votes. This description of Mrs. Pankhurst even previous to August, 1914, would have been incomplete, to those who know her best. For many years before the suffragette agitation began Mrs. Pankhurst was a striking figure in the social and political life of her native city of Manchester.

In national politics, Mrs. Pankhurst was well known before she had passed her youth, her sympathies with the masses at first leading her to join the Labour Party on the executive board of which she served for several years. In her maturity Mrs. Pankhurst became a member of the Liberal Party, but always a critical member, preaching a practical democracy to which the majority of the voters of her party had never attained.

Emmeline Pankhurst has always been an unusual, a superior woman with a mind and a vision far beyond that of the common man or woman. But when the world war came, when Great Britain, in August 1914, threw in its lot with heroic Belgium and with valiant France, then Emmeline Pankhurst became a truly great woman, one of the leading statesmen of her country and her time.

Mrs. Pankhurst was in France when the war burst upon the world. She was resting there after a stormy period of imprisonment in Holloway jail, having for the twelfth time or more, endured the horrors of hunger and thirst strike against which the British authorities admitted themselves helpless. Yet, with the first gun fire of the war, Mrs. Pankhurst declared a truce all suffrage militancy, left her refuge in France, went back to London and offered her services to the Government. With her daughter Christabel, whose long been inseparable, she began to study the vast problems of mobilizing industry in factories and on the soil, in order that the life of England, during the war, should go on with as little suffering as possible.

DANIEL'S SECRET

Told on Page 7

war is not over, that democracy is not yet achieved, that the world is not yet safe for women and children and the home.
To miss what Emmeline Pankhurst has to say is to miss hearing one of the great speakers of the time, one of the few real orators living in the world. To call Mrs. Pankhurst an orator is by no means to describe her manner in speaking. She is not grandiloquent. She is gentle, appealing, logical, and beyond words convincing. Hundreds who have gone out of curiosity to hear the "militant Mrs. Pankhurst" have been won to a life-long allegiance to her, not only as a great speaker, but as a woman, in the truest sense, fascinating and enthralling.

DOMINION WIDE BODY TO FIGHT THE DRUG EVIL

Definite announcement of a Dominion-wide body to combat the menace of the drug traffic in Canada was made in Montreal last week.

Not how much, but how much more!

When you put on the life assurance you now have you figured that it would provide your dependents with sufficient money to care for their needs should anything happen to you.

And the money so provided will be forthcoming all right if necessity arises. But consider the purchasing power of that money to-day as compared to pre-war times. It's less than half.

So the protection which was adequate to your family's needs a few years ago is altogether inadequate in these days of inflated money and high prices.

The chances are that your income is much greater to-day than it was five years ago. Wouldn't it be a wise thing then for you to add more life assurance protection—now—while you are insurable and can spare the money?

Just send us your name and address and we'll mail you our booklet "The Creation of an Estate." You'll find it interesting.

SAYS OTHER WOMEN INTERESTED PASTOR

Wife Obtains Separation from the Rev. J. J. Genthner, Now Y. M. C. A. Secretary—Tells About the "Dream Girls."

New York, Jan. 22.—Supreme Court Justice Wagner granted a separation to Mrs. Edith M. Genthner from the Rev. Joseph J. Genthner, formerly pastor of the Elmendorf Chapel, attached to the Harlem Reformed Church, and now a secretary at the West Side Y.M.C.A.

Mrs. Genthner testified to an alleged statement her husband made to her concerning a trip on an Albany night boat with a married woman and asked her if she thought such a couple could occupy the same stateroom without violating their marital vows.

"I tried to write you yesterday, I wanted to say something wonderful and grand, but the conflict within was too great. I hope the day was bearable to you. It was simply hideous for me, but very human. I know I am a sinner. Can you not impart to me some of your goodness, your sweetness, your strength?"

"You are so good to let me write to you as you do, but there comes a time when I must simply say something to you. Saturday was such a happy surprise. The moments I spent with you were so blissfully happy. Perhaps that is all I shall ever know of paradise. I am looking forward to your visit on the fourth. Come and bring Miss Graham with you. I shall be on my best behavior. I hope you answer my former letter."

Mrs. Genthner said she protested about the letter and also about a gold cross engraved "Elizabeth-Joseph," which had been bought at Tiffany's and was found by her in the parsonage, and that her husband told her she was "crazy."

COTTON SELLS AT NEW HIGH

When cotton reached 27.89 cents for May contracts, at the close of the New York cotton exchange Saturday, new high levels were established that have not prevailed before since the sensational decline in cotton in 1922.

Many commission houses, probably the majority, are decidedly bullish. It is said that the cotton world is facing the most serious problem presented since the civil war.

The increase of the boll weevil has generally reduced the yield of the South, but consumption has gained rapidly. Spindles increased from 324 million fifteen years ago to 183 million in 1919.

New York, Jan. 22 (opening)—A large accumulation of week-end selling orders imparted a weak tone to prices at the opening of today's stock exchange, but many of the early losses were limited to fractions.

The downward trend continued as trading progressed. Most of the day's losses were relatively small. Baldwin extended its loss to one point while Prestel Steel preferred dropped two points and the restricted Itas.

Losses of a point each were also recorded by Pullman, U. S. Alcohol, American Ice, Woolworth and Pan American, while fractional declines were noted in Continental Can, Reading, Southern Railway, St. Paul Pfd, Pacific Oil, Allied Chemical and American Sugar.

Stewart Warner advanced two points on week-end announcement of an increase in the dividend rate. Pond Creek Oil, Associated Oil and Van Rancie also registered gains of a point or more.

Foreign exchange opened easier and then steadied, demand sterling being quoted around 108 1/2, French franc 64 3/4 cents and German marks at 0.047 cents.

Noon Report. New York, Jan. 22 (noon)—Except for bullish demonstrations in certain food shares, prices generally continued to sag in response to short selling and liquidation by recent buyers.

The bidding up of new leaders failed to steady the list, traders began to offer stocks more freely. Steel and Iron, especially Baldwin, Studebaker, International Paper, Allied Chemical, Pan-American, U. S. Alcohol and New York Central, all advanced.

Steel and Tube Pfd. advanced 3 points on revival of reports that it soon was to be retired at 110 while Reynolds Spring broke 3-8 points on announcement of an increase in capital stock. International Agriculture Chemicals dropped 3-8 points.

Call money opened at four per cent. Montreal Exchange. Montreal, Jan. 22 (10:30)—Only seven of the principal issues appeared during the first half hour this morning on the local stock exchange, and not one of these was active.

Change of interest was registered in Shawinigan, which advanced 1-4 to 115. National Breweries rose a half to 48. Bell, Brazilian and Detroit United Railway were unchanged at 116, 103 1/2 and 70 respectively.

New York, Jan. 22—Sterling exchange 108 1/2, Great Britain 4.63 1/2, France 6.84 1/2, Italy 4.7 1/2, Germany 0.046. Canadian dollars 81.32 of one per cent. discount.

ADVERTISING AS FIELD FOR WOMEN

Selling Talk Probably Begun in Garden of Eden With Apple Offer

Publicity Luncheon - Reasons Advanced by Miss Farrell of Almy's Limited, for Using Feminine Expects. Women have been in the advertising business since the world began.

Women have been in the advertising business since the world began. This was the substance of an amusing address delivered before members of the Montreal Publicity Association at their luncheon yesterday in the Mount Royal Hotel by Miss Marion Farrell, 286 St. Catherine street west.

She said that the snake that beguiled Eve, but there was no way of finding out the sex of that snake.

With the question of clothing store, Eve, in all probability, again came forward with a selling talk with the result that the fig leaf at once became fashionable.

The attire of today was a big improvement on Adam's fig leaves, especially in the winter time, yet men, if they stopped to think could usually trace the origin of their clothing to the serpent.

Women had not made a spectacular entry into the field of printed advertising; they entered it gradually, at first as mere accessories, as it were, but they had forged ahead, making good each step, until now some of the cleverest and most successful advertising agencies were headed by women.

At the moment it was safe to conjecture that hardly an advertising agency was without a woman connected with it, and very few departmental stores without at least one woman on the advertising staff.

Miss Farrell outlined many special activities of women advertisers, and named many Canadian women who had been very successful in this field of industry.

She added that the advertiser's big departmental stores were realizing that it was service they were giving to the public, opened the field even wider to women.

Unless the citizens of Quebec and the Maritime Provinces saw one or two of the western provinces shake a foot and get some effective Blue Sky legislation on their statute books they will soon be in the unenviable position of their state books at the next session of the Legislature.

Manitoba and other provinces of the Dominion. Their provinces have been the dumping ground for mining and other stocks that could not be offered in Ontario or Manitoba under their existing regulations.

Dominoes were supposed to have been invented in China in 1909, A.D., to keep soldiers awake while on duty.

RUBBER RISES ON EVE OF INTERNATIONAL MEET

American Manufacturers to Discuss Restricted Production With Growers. New York, Jan. 19—Crude rubber advanced 1/4 cent a pound on Thursday, making the present price of smoked ribbed sheets 8 1/2 cents a pound.

The local market, although excited on Thursday, was dull following Wednesday, which was considered one of the most exciting trading sessions that has been witnessed in several years.

The Committee of the Rubber Growers' Association of London will confer with American rubber manufacturers' representatives this morning at the offices of the Rubber Association of America.

It is estimated that the deposits above the 1,600 metre level will not be exhausted for 700 years at the rate they have been drawn upon during the last decade.

According to the same German sources up to recently the Ruhr required as many as 20,000 cars daily for its purposes, 20,000 of which were for coal shipments.

It is said that if all the freight cars used for Ruhr coal in the last decade were included, they would approximate in length the distance between Berlin and Dresden.

\$150,000,000 To Finance Deal

Record Sum Underwritten by Syndicate for Copper Consolidation. New York, Jan. 18.—The largest piece of industrial financing ever attempted in this country or Europe has been underwritten by a syndicate headed by the National City Company.

It involves \$150,000,000, and was announced today by Charles E. Mitchell, head of the National City Bank, in behalf of the banking group. Simultaneously, John D. Ryan, chairman of the board of directors of the Anaconda Copper Company, for whose account the financing is being underwritten, officially announced that his company has acquired a controlling interest in the Chile Copper Company.

The transaction involving the taking over of Chile by the Anaconda has been arranged by the approval of the stockholders of the Anaconda Copper Company, and a special meeting of the latter company has been called for Feb. 26, for the purpose of giving the stockholders an opportunity of approving the deal.

The \$150,000,000 of new financing will be divided into two pieces, one of which will be in the form of \$100,000,000 Anaconda Copper Company first mortgage series A, sinking fund six per cent, and the other will be in the form of \$50,000,000 of debenture bonds.

GREAT WEALTH IN RUHR. Germans Figure Coal Reserves Will Last for 2,000 Years. Essen, Jan. 22.—If the amount of coal mined in Rhenish Westphalia in the past decade can be taken as a basis of measurement for the annual demands upon this region it still contains sufficient deposits to last 2,000 years, according to estimates by scientists here.

The total amount brought to the surface up to the present is estimated at 3,000,000,000 tons. Scientists believe that even to a depth of 1,600 metres alone coal to the amount of 76,000,000,000 tons is awaiting the miner's pick and mechanical drill.

It is estimated that the deposits above the 1,600 metre level will not be exhausted for 700 years at the rate they have been drawn upon during the last decade.

According to the same German sources up to recently the Ruhr required as many as 20,000 cars daily for its purposes, 20,000 of which were for coal shipments.

It is said that if all the freight cars used for Ruhr coal in the last decade were included, they would approximate in length the distance between Berlin and Dresden.

Probably few of the French soldiers marching through the streets of Essen realize that this city of 650,000 inhabitants is completely undermined with coal pits, the deposits of which are from 70 to 1,000 metres down. It is said that the residents in some parts of Essen can, while lying abed on quiet nights, often hear the miners hacking away far below them.

ONE OF ST. JOHN'S GREATEST NEEDS

No System for the Collection of Ashes and Garbage - Article in "The Clerk." (The Clerk) Citizens of St. John are acting with considerable interest the notions of Dr. Frink Commissioner of Public Works.

The Doctor is bringing forward proposals regarding an incinerator, and is most certainly making a step in the right direction. With the proposal of the erection of an incinerator, a system for the collection of ashes and garbage should be considered. St. John is badly in need of a sanitary department to handle the collection of garbage.

The situation as it now exists is a disgrace to a city the size and importance of St. John. Now that the doctor is getting after this question, we feel that it will not be long before there is a big change, and progress is being made in bringing the city up to the standard of sanitation it should long ago have reached.

No doubt the doctor realizes that the citizens of St. John pay out annually a very large sum of money for the collection of garbage, without any system whatever. It should not be difficult to arrange a weekly or fortnightly collection, and it could be carried out under the supervision of the public works department.

The citizens now making a business of this class of work need have no fear of being put out of business, for they would naturally become employees of the public works department, and carry on under the system inaugurated by the department. Visitors to St. John have been heard to state that one of the city's unpleasant sights is that of untidy back-ways of the houses in the most of the side streets.

There always seems to be an abundance of overflowing garbage and ash barrels. The attitude of Dr. Frink is meeting with the approval of Commissioner Thornton, who already has stated that he is willing to back up such a proposition. That there will be no opposition from the approval of Commissioner Thornton, who already has stated that he is willing to back up such a proposition.

Y. M. C. A. Seniors.

The Y. M. C. A. senior basketball team played its first game of the season Saturday evening when a picked team was played and defeated, sixty points to thirty-one. The game was on the Y. M. C. A. floor. The seniors seemed to be back in the form displayed last season. Smith played up to last year's form and secured fifteen baskets. Hollis at centre for the seniors worked well with Willie Nixon and Marshall were in their old-time form.

Y.M.C.I. House League.

Two games were played in the Y. M. C. I. House Basketball League Saturday night in which the team from

Holy Trinity won from the St. Roses by a score of 31 to 18, and the Cathedral won from St. John the Baptist by a score of 34 to 18. The referees were McInerney and Stirling.

ATHLETIC.

Asked to Visit South Africa. Cambridge, Mass., Jan. 22.—The Harvard Athletic Committee has before it an invitation from the University of Witwatersrand at Johannesburg, to have the combined Harvard-Yale track team which is to meet an Oxford-Cambridge team at London in July, go to South Africa immediately afterward. Action on the invitation, which guaranteed all expenses, has been deferred. Bill Bingham, former track coach at Harvard, who has just returned from England where he made arrangements with the British university authorities for the London meeting, said that Basil G. D. Rudd, the former Oxford captain, had in mind a tour of Continental Europe by a team composed of first and second place winners at the games.

RING.

No Dempsey-Gibbons Match.

William Muldoon, chairman of the New York State Athletic Commission, refused permission for a bout between Jack Dempsey and Tom Gibbons, of St. Paul, for which Gibbons had applied on the grounds that the challenger was too light to meet Dempsey and that it would be merely a repetition of the Dempsey-Carpentier fight.

The Firpo-Brennan Bout.

New York, Jan. 22.—The fifteen round bout between Luis Firpo, Argentine heavyweight, and Bill Brennan,

will take place March 12, Tex Rickard announced Saturday. Beckett-Smith Go Feb. 19. London, Jan. 22.—The fight between Beckett and Dick Smith, postponed from Jan. 27, owing to former's illness, has been fixed for Feb. 19. Greb and Shade Tonight. New York, Jan. 22.—The result of the Harry Greb-Billy Shade American light-heavyweight championship match to be conducted by the Arena A. C. at the Fourth Regiment Armory, Jersey City tonight will be completed with interest by fight fans. Reports have gained strength of late, in which it is rumored that the great Pittsburgh fighting machine has slipped a bit and that his heretofore "perpetual motion" is slowing up. The American light-heavyweight titleholder is obligated to meet Gene Tunney in a return match, and perhaps Tom Gibbons, in the near future, and it has been reported that he has arranged to box Battling Siki in France for the world's title. Greb will be put to the acid test in his battle with Shade, for the Californian is going at his best and is in shape to make a determined fling at the title. CURLING. Jones Cup Matches. The first matches in the Jones Cup competitions were played in the St. Andrew's rink on Saturday afternoon. The winning rinks were skipped by Beverly Stevens, A. H. Merrill, P. A. Clarke, H. G. H., won the Vermont all jumping championship here Saturday with a leap of 153 feet. GORMAN CAPTURES SARATOGA CUP CHAMPIONSHIPS Wins from Corcoran in Extra 220 After Both Tied for Lead—St. John Boy Wins Two Events. Charles Gorman captured the Saratoga Cup championships at Saratoga Springs on Saturday. He won first honors in the 440 and one mile, and tied with Pat Corcoran of the Endicott-Johnson American Legion with sixty points. Corcoran having won the 220, took second in the 440 yards and third in the one mile. A special race of 220 yards was agreed on to decide the championship, and after a sensational sprint Gorman beat the tape a winner by one yard. The next big skating event will be the National championships, which will be skated in Chicago on January 26, 27 and 28, and in which both Charles Gorman and Frank Garnett of this city are entered. Summaries. 220 yards dash—Final won by Corcoran, Endicott-Johnson American Legion; second, Edward Gloster, Toronto; third, Alfred Neuffer, Endicott-Johnson American Legion. Time, 20 4-5 seconds. 440 yards dash—Final won by Charles Gorman, St. John, N. B.; second, Pat Corcoran, Endicott-Johnson American Legion; third, Fred Buendgen, Alverno A. C., Chicago. Time, 40 seconds flat. One mile—Final won by Charles Gorman, St. John, N. B.; second, Edward Gloster, Toronto; third, Pat Corcoran, Endicott-Johnson American Legion. Time, 8:01 1-8. Point score—Gorman and Corcoran finished tie in the point score with sixty each. A 220 yards dash was the event to decide the winner of the meet. Gorman won the skate-off from Corcoran in 20 4-5 seconds, thus winning the Saratoga Cup championship. Corcoran was second and Edward Gloster third with forty points. Alfred Neuffer and Fred Buendgen were tied for fifty place with ten points each. Death Valley is probably the most arid spot in the western hemisphere. It is thirty-five miles long and eight miles wide. It is in lower California.

CRITICS CALL "NERO" THE MASTER FILM OF THE AGE

WE FEEL PROUD IN GIVING SUCH A MARVELLOUS PRODUCTION TO ST. JOHN

Queen Square Theatre of Course

WHAT THE CRITICS SAY:

"At last a super-picture worthy of the name. . . Staggering in its magnificence; gripping in its story; wonderful in its handling of its mobocracy; Nero comes pretty near standing alone—the acme of the spectacular in motion pictures."—N. Y. Evening World.

"Nero is a magnificent spectacle for all, with a love story to touch every heart. From the first flicker to the very end it held us spellbound. The direction is perfect and the acting superb. . . In 'NERO' Mr. Fox has outdone himself. We fully agree that 'NERO' is the climax of motion picture progress."—N. Y. Sun.

"Massive pillars, palaces and a huge amphitheatre—and they were photographed by an artist. Scene after scene passes of almost breathtaking beauty. . . In 'NERO' Mr. Fox has outdone himself. We fully agree that 'NERO' is the climax of motion picture progress."—N. Y. Sun.

"CLARENCE"

THE DIVERTING STORY OF A SOBBING SAXOPHONE and a college professor whose specialty was bugs. How this queer combination straightened out an almost hopeless domestic tangle add made it smooth for little Dan Cupid. Not a coarse moment in the whole seven reels. It is a refined and exhilarating bit of well-written and superbly enacted humor. Very smartly dressed, lovely homes, good looking people.

Harvard Changes Method.

Cambridge, Mass., Jan. 22—A change in the method of awarding the varsity football "H" was approved by the Harvard Athletic Committee at the suggestion of the Student Council. Henceforth, it was announced, the football letter may be awarded to men who do not figure in the annual Yale game, provided the team select such men. The change, it was said, would make unnecessary the present system of rushing substitutes into the Yale game to qualify them for their letter.

BRING CHEERY WORDS FROM THE OLD COUNTRY

Montclare Passengers Say Conditions Improving

Liner in With 789—Private Secretary of the Governor General Among Number—Bishop Mowl on His Way to Large Diocese in China.

Passengers of the Canadian Pacific steamship Montclare were landed at Sand Point this morning, and at noon were rushed forward in two special trains to their destinations throughout Canada. The Montclare arrived off the island on Saturday night from Liverpool and an effort was made to dock the large liner about midnight, but owing to a severe storm she was forced to turn about and put back into the bay until it abated. At an early hour this morning conditions were more favorable, and she was towed into the harbor and docked at No. 2 and 3 berths. The passengers started to disembark at eight o'clock, and the first special got away about noon, the second following about 1.30 o'clock.

The Montclare brought out 739 passengers, 123 cabin and 616 third-class. In addition to 2,200 tons of general cargo and 3,480 bags of mail and parcel post.

Speaking of the voyage across the Atlantic the passengers said it was an exceptionally pleasant one for this time of year, although at times it was a bit rough. Concert parties were thoroughly enjoyed. Nothing eventful happened to mar the voyage with an exception of the delay occasioned as a result of the severe storm.

Prominent among the passengers on board were: Bishop H. W. T. Mowl, Prof. S. E. W. of Montreal, Capt. C. H. C. Balfour of Ottawa, W. S. Hawley of Newcastle, C. C. Brooks of Montreal, Mr. and Mrs. R. E. Gray of Toronto, R. E. Davis, S. Johnson and A. McDougall of Montreal. Among the overseas passengers were: W. Robson of Edinburgh, D. Greig of Glasgow, and Captain F. S. Dunn of Beihill-on-Sea, England.

Captain Balfour, who is private secretary of the Governor-General, is returning to Ottawa on his appointment, vacation visiting relatives in England. The only Maritime Province passenger on board was Mrs. M. G. Brunton of Seaside.

Bishop Mowl. The Rt. Rev. Dr. H. W. T. Mowl, who has been appointed assistant Bishop of Western China, is enroute to the Pacific coast to embark for the Orient. Enroute he will visit in Newfoundland, Montreal, Brockville, Kingston, Toronto, Winnipeg and Vancouver. The Diocese in China, to which he has been appointed has seventy-six million inhabitants, among whom 100 Christian missionaries are working.

Bishop Mowl is a young man and is very enthusiastic over his appointment. He was formerly Dean of Wycliffe College, Toronto, and was professor of church history and of the English Bible classes. Speaking of China Bishop Mowl said China is adapting herself to western ideas and endeavoring to acquire all kinds of information, and this makes the work both interesting and well worth effort. He left the city on one of the C. P. R. special trains.

Another passenger on the Montclare was Inspector A. E. Knight of Ottawa, who spent three and a half months in England. He is a member of the Ottawa police department and is the official examiner for provincial drivers, under the motor and vehicle act for the Ontario government. While in England he visited many of the police departments to acquire information as to how they carried on and to see if he could get some new ideas which might prove beneficial in his own department. From his visits and general observation he is convinced that the police forces of Canada can compare favorably with any of the old countries. He said that perhaps they had a little stricter discipline but from results obtained he did not think that the old conditions in Europe improved. He told of many ways and means the government was using to cope with the trying times and the large number of men being put to work widening roads, doing away with bad turns in them etc. He said it was quite evident that the cost of living was decreasing, although it was not yet back to that of pre-war times.

Among the passengers were a large number of travelers who have been in England, both buying and selling. All seem to be optimistic over present conditions and predicted that it would not be long before a change for the better would be apparent.

SOLDIER MATTERS GIVEN HEARING

A meeting of the sub-committee of the central committee for the province appointed recently with reference to pensions hearings by the royal commission which will sit on these matters next on Saturday night in the G. W. V. A. rooms in Wellington row, with chairman, E. A. Schofield, in the chair. Others present were G. Earle Logan, secretary; A. I. Machum, S. C. Tippett, Dr. G. B. Peat, N. P. McLeod and E. A. Caldwell, Woodstock. The sub-committee heard evidence of alleged grievances and gathered some data to be placed before the royal commission, which will meet in the Court House here on January 31. The provincial committee will meet on Tuesday, January 30, to collect the evidence and put it in shape for presentation to the commission and six expert witnesses will be selected.

City To Serve Notice On Power Company Re Possession of Poles

Council Orders Notice Sent that They Will be Taken Over on June 30—Arrangements for Superannuation of Magistrate Ritchie Advanced—Market Street Property Matter.

Notice that the city will on June 30 enter into possession of all the poles owned by it and now being used by the New Brunswick Power Company, was ordered sent to the power company at a committee meeting of the Common Council this morning, following the presentation of a recommendation to this effect from the Civic Hydro Commission. The matter of marking the city poles was allowed to lie over for the present.

The council also considered the matter of the granting of a retiring allowance to Hon. R. J. Ritchie, police magistrate and the matter was referred to Commissioner Thornton to come to an agreement with the magistrate regarding the amount of the superannuation allowance.

The council will meet in committee tomorrow morning to consider the consideration of estimates.

Market Street Matter. E. P. Raymond appeared in reference to property of Miss Hanson at North Market street, occupied since May, 1921. The building is 1 1/2 stories high and an amount of \$35.98 is due the city for rent. A concrete sidewalk had been laid by the city on the property and Ex-Mayor Schofield had been asked to remove the sidewalk under the terms of an agreement between the city and the owner. Soon after Miss Hanson took over the property there was a fire in one of the three stores and the commissioner of safety refused a permit for repairs. In another store a prospective tenant would not be allowed occupation on the ground that he intended conducting an automobile repair shop.

Mr. Raymond said that he saw now reason why the repairs should not be made. He said the damaged portion. The rentals were \$25, \$23 and \$14 respectively for the three stores, and Miss Hanson was losing all this revenue. He said other people in the same street were allowed to occupy a similar class of stores.

Commissioner Thornton said that when the sidewalk was laid H. R. McLellan was commissioner, but later it was found that the lines of the property extended beyond the sidewalk. He said, however, that the sidewalk was a convenience for the tenants. He explained that one occupant started alterations without getting a permit, while another was not permitted to establish a repair shop.

He said that the building was damaged about fifty per cent, and he thought it would tend to increase insurance rates if the wooden building was restored.

Regarding the rental due the city, he thought some agreement could be reached in view of the fact that the city sidewalk was on part of Miss Hanson's property. He said the law covered this matter of rebuilding in wood. Commissioner Frink said the property in question came in May 1 next of his wife in 1899. A plank sidewalk was replaced in 1903 with concrete as far as the Hastings lot. In 1916 North and South Market streets were widened and the sidewalk was completed, part of it being on private property.

Commissioner Wigmore moved that the matter of adjustment of the rent be referred to Commissioner Thornton. The motion carried.

Hydro Matters. The Mayor reported that at a meeting of the Civic Power Commission held on January 15, following resolution was carried unanimously:

"That the Common Council be requested to take the steps necessary to enter into possession on May 1 next of all poles and wires which are the property of the city and are now in use by the N. B. Power Company, also that the council be asked to arrange to have all poles owned by the city plainly marked as soon as possible."

The Mayor presented a resolution, drafted by the city solicitor, by which the Power Company would be given notice that the city would take possession on June 30, this being the end of the year under an agreement between the city and the company.

Commissioner Thornton said he had considerable correspondence with the Power Company on the matter, which he would hand over to the commission. He said last year, in order to establish ownership of the city poles, a rental charge of \$10 a month for all city poles was made to the Power Company.

Commissioner Thornton asked if the hydro commission would be able to install street lights in time to affect his appropriations for 1923. He said that he was figuring on last year's amount, so as to safeguard the city.

In West St. John, the Mayor said the city owned all the poles carrying lights. In the North End all the electric poles were owned by the city, while in the main part of the city the light poles came into possession of the city on the completion of the 1906 agreement.

The report of the Civic Commission was received and the following resolution carried:

"That notice be given to the New Brunswick Power Company that immediately after June 30 next the city will enter into possession of all lamp posts used for street lighting under the existing contract between the company and the city; all poles and wires which belonged to the city at April 20, 1906 and have been used by the company under the contract of that date; all additional poles and wires which the company has erected and set up during the existence of said contract in Stanley, Lorne, Dufferin, Lansdowne and Victoria wards; all lamp posts used by the company for street lighting in that part of the city called Carleton; and all lamp posts which at the date of said contract were owned by the city in Kings, Wellington, Prince, Queens, Dukes and Sydney wards."

The matter of the marking of the poles was allowed to lie on the table. Wing Hen applied for permission to erect an electric sign at Rodney and Union streets, West St. John. This was referred to Commissioner Frink, the city engineer and city electrician for report.

Magistrate's Retirement. Commissioner Thornton brought up a request for retirement from Hon. R. J. Ritchie, city magistrate. By an act of
