Unspeaking Cruelty, Hated by Own Men, Finally Betrayed to Kaiser, Will Be Sent to Front Lines

Boston, May 7.—Bearing the outline of an iron cross which was burned on his arm with an electric needle by German officers in Africa, John Mitchell, a Zeppelin, formerly a fireman on a British steamship, captured by a German raider, told immigration officials here yesterday the story of torture. He said he escaped from his tormentors after the shells of General Smuts' army had torn a hole in the prison stockade where he was lodged, giving him an opportunity to make a dash for freedom.

Mitchell said that when he was branded his captors laughed at his suffering and rubbed chemicals into the wounds, giving them a bluish color. Badly treated as he was, Mitchell asserted that other prisoners fared worse. All were starved, he said, and many were beaten and flogged upon the slightest provocation.

After his escape Mitchell made his way to Gen. Smuts' line and shipped on a British steamer bound for this country.

WANTED—WHITE MICE

An earnest appeal is made by the Red Cross for white mice—for many white mice—for all the white mice that anybody anywhere has to give or to sell. This demand will horrify the anti-vivisectionists, and they confidently can be expected to raise loud cries of protest, for undoubtedly the little creatures are to be used—well, not for distribution among the soldiers as pets.

What they are wanted for is to provide protective serums, or as objects on which to test serums, or to be a means of research, and it cannot be claimed that their experiences will be of the pleasantest or that their "natural" lives will be lived quite out.

But whoever can supply white mice to the Red Cross should do it, and whoever is skilled in the raising of more white mice for a like purpose should get busy. That the Red Cross has added this work to many others shows that it is not infected by silly or vicious sentimentality—that its managers and members are not the victims of the zoophilic psychosis that has ravaged some other circles so extensively.—New York Times.

or hot weather comfort**

STOOPING over a hot range in a hot kitchen will take the bloom off the cheek of youth, put wrinkles on the face of middle age, put an ache in the back of any woman, and make each day a long torrid drudgery.

Why not decide now to use a McClary gas range, no stooping; a high oven; heat only where and when you want it for cooking; no ashes, no dirt; perfect control of your fire; the moment your cooking is done, the fire is turned out.

A booklet that gives complete information about McClary's gas cooking and heating appliances will be sent free on application.

LE CANADA WILL OBEY

Montreal, May 7.—Under the heading "A disavowal and an excuse," Le Canada here this morning says: "The secretary of state has taken exception to the character and terms of various articles appearing in Le Canada, and, more particularly, to an article entitled 'The Supremacy of the Number of Competitors Must Not Discourage the Effort of the French-Canadians,' which appeared in the issue of Le Canada on April 30.

"Although we had no intention to disobey the law, we now acknowledge that said articles were published in contravention of the orders-in-council respecting press censorship in Canada. We recognize that said contravention has rendered us liable for prosecution under the said orders-in-council, and regret that Le Canada has been the medium of publishing and circulating objectionable matter calculated and likely to interfere with the successful prosecution of the war and with Canada's united effort therein.

"We pledge ourselves to abstain from the publication of similar matter, and any other matter defined as objectionable in the orders-in-council respecting press censorship in Canada.

"Signed on behalf of the La Compagnie De Publication Du Canada, Limited, "Fernand Blinfort, Editor-in-chief, Le Canada."

Arthur Lemont, an editor of Le Canada, explains that he wrote the articles without submitting them to the directors of the paper. They dealt with the economic development of Quebec.

A PATRIOT IN WAR PAINT

(Toronto Globe.)

Every now and then some incident comes to light which helps to explain Britain's record of always winning the last battle. One such comes from the cables with the arrival in Portsmouth of a veteran "Tommy" who has just been retired from active service in France. When war broke out Walter William Clarke of Forest Hill, London, who during the latter part of the last century was a sailor of the South Sea, was working in a biscuit factory. His three sons were among the earliest recruits in Kitchener's volunteer army. One by one they fell, heroically doing their duty.

There were gaps in the ranks to be filled—and the father, approaching the allotted span of life, sought service. His silvery locks were an obstacle, and he failed at first. So he determined, as he subsequently expressed it, to "dye for his country," and the grey and white hair became dark overnight. He presented himself to a London recruiting officer, passed as "somewhere in the forties," and went to the front.

"Just the sort of men we want," said an officer, and Clarke was made a lance-corporal and attached to a mechanical transport unit.

But as months slipped by the hair played out. Some streaks of the old grey began to show through. An army doctor detected the camouflage, and Corporal Clarke was sent back "for

home service." At Aldershot he was placed in charge of certain stores, and now it is related that he has been given honorable discharge and a pension "at the age of sixty-eight years and five months."

In 1878 Clarke was a sailor on the steamer which brought to England the body of the French Prince Imperial, who was killed in the Zulu war.

White Sulphur's honor flag bears on it now four blue stars for over-subscription in the third Liberty Loan rally.

Canadians will now have a keener personal interest in the great struggle on the western front. It is announced that the Canadians have appeared on the Arras sector, and it is expected this will be one of its points of the next great German attack.

The internal situation in Austria is growing serious. The suspension of parliament and establishment of autocratic rule does not please the Socialists, and in some parts of the country strong feeling against German domination has arisen.

Persons who visited Chicago some years ago would hardly recognize it today, with the cabarets closed and dancing and other entertainments divorced from places where liquor is sold.

This is the third anniversary of the sinking of the Lusitania. The American soldiers on the western front will not forget the date. That crime helped to array against Germany the powerful democracy whose sons are now pouring across the ocean to take an ample vengeance.

An Ottawa despatch says the anti-loafing law has worked wonders in the west. There has as yet been no roundup of loafers in St. John, but the loafing fraternity should take notice and amuse some useful occupation, or their turn will come.

On March 30, 1918, there were 77,000,000 bushels of wheat, flour reckoned as wheat, in all Canada, as against 126,000,000 bushels last year, 197,000,000 bushels in 1916 and 79,000,000 bushels in 1915.

The expected renewal of the German drive in the west has not yet occurred. Evidently the enemy is preparing for an offensive on a formidable scale.

Lord Rhonda reminds the American people that Germany has not changed since the sinking of the Lusitania. "On the brow of Prussia is the mark of the beast," and "The Kaiser will be known in time to come as the Herod of a century who caused Rachel to weep for her children."

The Ontario farmers who are feeding potatoes to their pigs rather than sell them at a price that would encourage their use as a substitute for flour are displaying a spirit of patriotism from which other people may pay to be delivered.

Western crops need rain but otherwise the crop conditions are excellent. Every bushel of grain that can be raised will be sorely needed.

WAR TIME RECIPES

Prepared by Prof. Frances R. Freeman, Home Economics Director, United States Food Administration, Orono, Maine

QUICK BREADS.

Try this recipe for tea biscuits. Notice that the liquid is less than is the case when all flour is used, because of the water the mashed potato contains.

Potato Biscuits.

Two cups sifted flour, one teaspoon salt, three teaspoons baking powder, one cup mashed potato, liquid sufficient to mix. Sift together twice the flour, salt and baking powder. Cut or rub into this the cold shortening. In the same way rub into this flour mixture the mashed potato. Finally, add just enough cold liquid to make the mass cling together. Do not knead. Place on floured board, roll until one-half inch thick, and cut into rounds. Place these in lightly floured biscuit tin and bake fifteen to twenty minutes in a moderately hot oven. Bake all potato breads more slowly than those made with flour alone.

Potato-Cornmeal Muffins.

One cup mashed potato, one cup corn meal, one-half cup sifted flour, one teaspoon salt, three teaspoons baking powder, one or two tablespoons syrup, two tablespoons shortening, one or two eggs, liquid to mix to a medium batter (about one-half cup).

OTHER WAYS TO MAKE POTATOES SAVE WHEAT.

These include the use of baked potatoes, boiled potatoes, mashed potatoes, potatoes pared and roasted in the pan with meat, and potatoes (sometimes with a little onion) fried with a little fat or drippings saved from roast meat or the top of the soup kettle. All these you know how to cook and use. The more of them you eat the less bread you will need, so here is a way to save wheat.

meal, one-half cup sifted flour, one teaspoon salt, three teaspoons baking powder, one or two tablespoons syrup, two tablespoons shortening, one or two eggs, liquid to mix to a medium batter (about one-half cup).

Two cups mashed potatoes, one egg (beaten), one small onion finely minced, one tablespoon fat, one stalk celery finely minced, or one-half teaspoon celery salt, one teaspoon salt, pepper.

Mix the ingredients and use in place of ordinary bread stuffing.

A cake with one-half of the flour one would ordinarily use, replaced by potato, is made as follows:

YEAST BREAD.

If potato is used for bread making, allowance must be made for the large amount of water in it and less additional liquid used for this reason.

MEN, EQUIPMENT, EXPERIENCE GENERALSHIP—ALL GIVE US CONFIDENCE.

The finest armies in the world are fighting for us. Their courage is superb. They hold even unto death. The new unified control under one supreme general will use our noble armies to the best advantage and place every ounce of strength where it is most needed.

On hand, fresh bread is used for stuffing purposes. This use of bread can be avoided by making the potato stuffing given below.

Potato Stuffing.

Two cups mashed potatoes, one egg (beaten), one small onion finely minced, one tablespoon fat, one stalk celery finely minced, or one-half teaspoon celery salt, one teaspoon salt, pepper.

Mix the ingredients and use in place of ordinary bread stuffing.

A cake with one-half of the flour one would ordinarily use, replaced by potato, is made as follows:

Two cups mashed potatoes, one egg (beaten), one small onion finely minced, one tablespoon fat, one stalk celery finely minced, or one-half teaspoon celery salt, one teaspoon salt, pepper.

Mix the ingredients and use in place of ordinary bread stuffing.

War Garden Bulletin
PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACK-YARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN

CHOOSE YOUR SEED.
Discrimination in the purchase of seed is very important. There is a scarcity this year and for that reason none must be wasted. In the following list, based on tests made at the experimental farms and stations in Canada, several varieties of named seeds are suggested, so that if it is not possible to get one kind the other may be obtainable.

FOOD CONSERVATION CAMPAIGN IN HALIFAX
Committee Plans to Make a Drive on Wheat First—Churches, Restaurants and Theatres Asked to Assist

The executive committee of the provincial food conservation campaign in Halifax and Dartmouth began its energetic campaign for food conservation with a meeting held on Tuesday in the board of trade rooms, the chairman, I. C. Stewart, presiding. Many important decisions were made and plans laid for the coming campaign. The committee felt that with the assistance of the people of Halifax something of a tangible nature can be accomplished towards conservation of food, and particularly wheat. The drive is to be made on wheat at first, as the great necessity lies in that direction.

to the reported irregularities in the shipment and storage of food products. It was thought advisable that a meeting be held with the bakers of the city, also with the hotel and restaurant proprietors, in order to obtain their cooperation in the campaign for food conservation, and that they might be individually protected as well as their patrons. It was felt that the regulations in respect to the restaurants were being carried out honestly by the majority of the cafes and hotels, but it was the duty of the authorities to see that these are protected against the restaurant keeper who will, for the sake of what little he might gain, evade the law. The public should give the board every assistance in seeing that these regulations are observed. As a matter of fact, it is really in their hands. If they do not ask for food that should not be supplied the proprietor will not place it on the table. The managers of the different theatres are meeting to organize a system of advertising through their theatres which will doubtless be of assistance. The committee feel very grateful for their assistance. I. C. Stewart, the chairman; A. S. Barnstead, the organizing secretary, and George J. Lynch, the recording secretary, are working hard to bring the organization into shape, and with the assistance of a strong active executive, it is felt that good results will shortly follow from the educational campaign that is being conducted. WE HAVE COME THROUGH TERRIBLE CRISES BEFORE The French and the English did not win the battle of the Marne to undergo final defeat; nor the first and second battles of Ypres. If in the first year when we were unprepared we did not go under, we shall not be overcome in this time of our strength. Then the enemy was relatively immensely stronger than he is today. But he did not reach Paris or Calais.

PLANTS IN EGG SHELLS TO USE LIME AS FERTILIZER.
Washington, May 6—Well what next? Mrs. J. A. Angrave of Galt, got an early start with her war garden by planting in egg shells placed in a box of earth so she could thus utilize the lime from the shells for fertilizer. In writing the National War Garden Commission for a garden book she tells of her success and how she has now transplanted her plants to her backyard garden.

MY DOCTOR SAID
"There's Nothing so good for Scalds + Burns"

when I told him I was using Zam-Buk for my little son, who had been badly scalded by pulling a pan of boiling water over himself," writes Mrs. Albert Sawyer of Midland, Ont. She continues:

"I called in a doctor, who gave me some ointment, but it did not seem to ease the child's pain, which was intense. I, therefore, discontinued it, and commenced applying Zam-Buk. This wonderful balm eased the pain almost as soon as applied, but to make sure I was doing the right thing, I called in a second doctor. When I told him what I was using, he said 'That's right—just continue the Zam-Buk treatment; there's nothing so good for scalds and burns.'"

"I persevered. The soreness was soon all drawn out, and healing commenced. New skin gradually began to form over the sore places, and it was not long before the scald—although so deep—was completely healed."

While Zam-Buk is excellent for such serious burns and scalds, as in the above case, it is just as necessary for the little accidents which are of far more frequent occurrence in every household—a scald from the kettle or from boiling fat, a burn from an iron or from the oven door. These little burns often cause a great deal of suffering, which can easily be avoided if Zam-Buk is applied at once. An application of Zam-Buk to a wound as soon as sustained, prevents any possibility of festering or blood-poisoning, and mothers should never be without Zam-Buk for their children's injuries.

Children who have once had Zam-Buk applied will cry for it again, because they know it ends their pain.

Zam-Buk is not a mere ointment, but an up-to-date herbal balm—the greatest healer known to science. It is composed exclusively of vegetable oils and herbal extracts and is 100% medicine, which accounts for its success in chronic cases of eczema, ringworm, scap sores, boils, ulcers, abscesses, bad legs, blood-poisoning and plica.

"JANE EYRE" DRAWS CROWDS TO IMPERIAL

Charlotte Bronte's Famous Novel, Presented on Picture Screen, Proves Thrilling and Fascinating

All this is truly rather creepy drama but the story has become a classic to in-veterate novel-readers and is therefore accepted as such. Of a surety the scene in which Valerie clambers from the roof to the ground and then hysterically rushes into the quiet parlors is the acme of dramatic excitement. Alice Brady, Miss Morgan, Elliott Dexter and the other well known players present the piece with strength and artistry. Even the classic novelists ended their actions with the conventional embrace of the hero and heroine.

Otherwise the Imperial's programme was equally interesting. It opened with a French seaside resort in colored scenic film—the health town of Archacon on the southwest coast near Bordeaux. Then Matt and Jeff in "Back to the Balkans" proved good laughing matter. There was a Drew comedy—the refined never-vulgar kind—and Miss Nan Hopewell, "The Katinka Girl" sang two delightful numbers. Miss Hopewell has a charming stage presence and her voice is rich and strong, evincing culture and experience in singing it. The young lady is recently from the Katinka comic opera company and is a stage favorite.

The Imperial has the same good show today and for the mid-week another rare bill is promised in which Julian Eltinge in "The Widow's Might," a Mack Sennett comedy and the British Weekly form leading features.

TOLD OF LAUDER'S WORK AT THE FRONT

Saying that Harry Lauder is one of the great world figures; that he was the successor of Knox and Burns in the world's history of Scotland and that he has left from his visit in France "a memory of a heroic British heart all along the line," Rev. George Adam concluded his last address to a St. John audience on the present tour at the Imperial yesterday afternoon. The lecture was held under the auspices of the Y. W. P. A. and the proceeds went to the Lauder named soldiers' fund.

as chairman and in a eloquent and touching manner he introduced Mr. Adam.

The Liquid Wash for Skin Disease

We have witnessed such remarkable cures with this soothing wash of oils that we offer you a bottle on the guarantee that unless it does the same for you, it costs you not a cent.

B. Clinton Brown, Druggist, St. John.

OUR DEFENSE

In the spring we may be attacked at any moment. Toxic poisons pile up within us after a hard winter, and we feel "run-down," tired out, blue and discouraged. This is the time to put our house in order—cleanse the system and put fresh blood into our arteries. You can obtain an alternative extract from Blood root, Golden Seal, Stone and Queen's root, Cherry bark, rolled into a sugar-coated tablet and sold by most druggists, in fifty-cent vials, as Dr. Pierce's Golden Medical Discovery. This blood tonic, in tablet or liquid form, is just what you need for "Spring Fever," for that lack of ambition. It will fill you full of vim, vigor and vitality.

LINDSAY, ONTARIO.—"When my little daughter was five years old her liver was so sluggish that she feared she might be troubled with habitual constipation. I had read a great deal about Doctor Pierce's Golden Medical Discovery and decided to try it with her. Giving her small doses, I found that it not only helped her liver but it also proved to be a splendid tonic, as well. It was such a splendid medicine that I would never hesitate to give it to her again if she needed it, and I take pleasure in recommending it to other mothers whose little ones seem to need a liver regulator and blood maker."—MRS. LOUISA BEACH, Box 1123.

MORE ACTIVE WORK FOR SOCIAL SERVICE

The annual meeting of the Social Service Council of St. John was held in the board of trade rooms yesterday afternoon at 8 o'clock with the president, A. M. Belding, in the chair. After reading of minutes of the last meeting the pres-

ident explained that for one reason or another the council had not been active during the past year but that it was now proposed to take up the work more vigorously and that a convention would be held in the city next week to be addressed by Rev. Dr. Shearer and, it is hoped, by Rev. W. D. Wilson. The following officers were elected for the ensuing year: President—Mayor Hayes. First vice-president—J. L. Sgurue. Second vice-president—M. D. McLellan. Secretary—Miss M. G. VanWart. Treasurer—E. L. Rising.

GAS ON STOMACH SOUR STOMACH INDIGESTION HEARTBURN INSTANTLY RELIEVED BY BISURATED MAGNESIA

BISURATED MAGNESIA is Magnesia especially prepared for speedy and certain correction of dangerous stomach acidity. It comes only in the form of five grain tablets and powder in sealed blue packages. Do not confuse with commercial magnesia, milk of magnesia or citrate of magnesia. Look for the word BISURATED and get the genuine from DRUGGISTS EVERYWHERE.

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

Careless Shampooing Spoils The Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

Just One Application and the Hairs Vanish

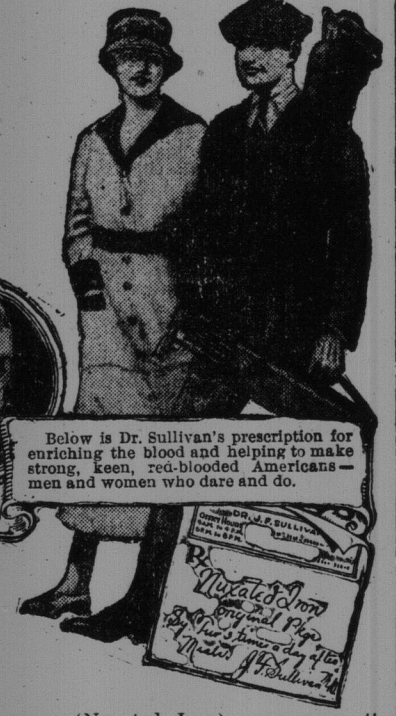

(Toilet Talks.) Any woman can keep her skin free from unsightly hair or fuzz if she will follow these simple instructions: When hairy growths appear, apply a simple paste, made by mixing some water with powdered delatone. Apply this to hairy surface and after 2 or 3 minutes rub off with the skin and the hairs are gone. This is a harmless treatment, but be sure you get the real delatone.

Nuxated Iron to Make Healthier Women and Stronger Sturdier Men

Say City Physicians—By Enriching the Blood and Creating Thousands of New Red Blood Cells It Increases the Strength and Endurance of Delicate, Nervous, Run-down Folks in Two Weeks' Time in Many Instances.

Since the discovery of organic iron, Nuxated Iron or "Fer Nuxate," as the French call it, has taken the country by storm. It is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. Dr. Ferdinand King, a New York Physician and Medical Author, when interviewed on this subject, said: "There can be no sturdy iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale; the flesh flabby. The muscles lack tone; the brain fags and the memory fails and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks.

"Therefore, you should supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital (Out-Door Dept.), New York and the Westchester County Hospital, says: "In my practice the greatest necessity of their making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on suffering year after year, doctoring themselves for all kinds of ills, when the real and true cause underlying their condition is simply a lack of sufficient iron in the red blood corpuscles to enable nature to transform the food they eat into brain, muscle tissue and brain. But beware of the old forms of metallic iron which frequently do more harm than good.

MRS. CHAPIN SAYS

NUJOL LABORATORIES Standard Oil Company (New Jersey) Bayonne, New Jersey. Oct. 14, 1917

Dear Sirs:— I don't think there was ever anybody, man, woman or child, who was or is more constipated than my little three year old boy was. Why, sir, he was so bad before we got him the Nujol that we would have to leave his bowels unmoved for three or four days, then use almost a quart of water in a syringe to move them. The poor little fellow would almost go into spasms and his father could never stay in the room where he was; it would take almost an hour's work to get them to move.

He had been constipated for two years. I think these patent medicines did it. I have known the doctor to be here and give him five tablespoons of castor oil, one every half hour, to get his bowels to move. We tried four different doctors, one a well known specialist, but none could help him. Three advised operations, said it was the only cure. I have always had a horror of operations and I guess always will.

We were going to try a well known woman doctor who claims she cures without an operation, when I coaxed my husband to let me try Nujol. I had read so much about it, I told him even if it didn't help him, it would not hurt. We tried it, started giving him three tablespoons a day, one after each meal, then as his bowels moved better we decreased the dose as per directions. We used two bottles and half and we cured him. How thankful we were; tears come to my eyes, even now, when I think of how that poor little fellow suffered. Just think, a little tot, hardly able to talk plainly! He has not taken a drop of it since last June.

I have wanted to write before, but kept neglecting it till I thought perhaps my letter would relieve lots and lots of other people. Again I say, God Bless Nujol, and I will never be without it or cease to recommend it. From a mother whose heart will always be thankful for your great remedy for constipation.

Nujol for Constipation

The Ottawa Gas Company

Strong Protest Against Request For Power To Issue \$3,000,000 More Stock—A Matter of Special Interest in Saint John at Present

(Journal Press, Ottawa.)

The inevitable solution of the existing situation in Ottawa as regards supply of light, heat and power is the purchase or expropriation, sooner or later, by the city, of the Ottawa Electric Company and the Ottawa Gas Company. At present, a municipal electric plant competes in the supply of light, heat and power in Ottawa, and keeps down the prices of the Ottawa Electric Company and the Ottawa Gas Company. But for the municipal electric plant, the people of this city would in the last ten years have been charged millions of dollars more for light than they have been. The municipal plant, while performing this at present vital function of competition, manages also to pay its own way handsomely. It has shown a profit every year since its start, and last year the largest profit yet. This does not prevent the Ottawa Electric Company from making a profit also.

Now, these two electric plants in Ottawa mean two sets of management, two sets of poles and wires, two sets of power supply and power equipment. Something is gained from the energy and effort stimulated by competition, but nothing like as much can be gained by that as must be lost by the duplication of cost. In the end, common sense will bring about an amalgamation of these two electric systems, and necessarily with it the acquisition, by the city, of the Ottawa Gas Company, which is now an integral part of the Ottawa Electric Company's business.

But whether the Ottawa Electric and Gas Companies are acquired by the city by agreement or by expropriation, the price which the city will some time in the future have to pay will be dictated in part by the size of their normal capitalization. Two properties might be of absolutely equal earning value, yet if one showed a capitalization of five million dollars and the other of two million dollars, and both were for sale, a bigger price would be demanded and in nine cases out of ten would be obtained for the alleged \$5,000,000 company than for the \$2,000,000 company. Human nature is like that. A claim would be made that the larger capitalization meant money which had long ago been honestly put into the company in question and which ought to be allowed for; and in all such cases, it soon becomes impossible to trace back over a period of years exactly where alleged capital has gone, and so a claim for compensation proportionate to nominal capital can hardly ever be easily refuted. Ottawa, therefore, in view of the sure eventual move by it to acquire the Ottawa Electric and Ottawa Gas companies, has reason to oppose to the utmost every proposition to increase the capitalization of these companies meanwhile, unless an absolute case of necessity on their part is made out.

Further, the case is not merely one of possible future purchase, by Ottawa, of the present private lighting companies. The city's interest in opposing unnecessary increase of capitalization by these companies is much more direct than that. An increase of the capital of such companies means almost inevitably an increase soon or late in the prices of their service, or at least an obstruction to what should be reduction in rates—unless at least the whole of the new capital desired is necessary to carry on the business to the best advantage and is properly put into the business. In the present Ottawa case, to claim that three million dollars more capital is necessary to carry on the business of the Ottawa Gas Company to the best advantage is childish, and assuredly if the increase be permitted by parliament the eventual consequence will be either a higher rate for gas here, or a maintenance of the present rate when a lower one should be given, defended by a plea that the gas com-

pany's current shareholders ought to get a fair dividend, no matter what the original conditions of the company's capitalization were. And by that time, the public will be unable to expose clearly the nature of original conditions of the capitalization. The Ottawa Gas Company's rates are already high in proportion to the price of gas in many places in Canada, and parliament should not tolerate any move which might have the effect of keeping the price high.

Already the Ottawa Light, Heat and Power Company, which is the holding company of both the Ottawa Electric Company and the Ottawa Gas Company, has a large over-capitalization. The Ottawa Electric Company is the product of no fewer than three previous electric companies in Ottawa (the Ottawa, the Standard and the Shauderie) all of which were liberally capitalized; and we may be sure that in the successive phases of absorption into one company a good deal of capital stock got around for which no fully equivalent value was put into the business of electric supply in this city. Then in 1906 the Ottawa Heat, Light and Power Company was instituted, with a new capital, with the clear intention of bringing the gas company into the union of electric companies; then again in 1913 the gas company asked and got from parliament authority to increase its capital stock by a million and a half, which carried with it power also to issue bonds to the extent of a million. Now the company asks for power to issue three million more stock.

Meanwhile, no control over the gas company's rates exists anywhere. The principle that the rates of public service companies should be under public control is widely accepted in civilization. In the Canadian case, the Dominion government controls transportation rates through the Dominion Railway Commission; Ontario supervises provincial transportation interests and controls electric rates by her railway and municipal commission and her hydro-electric commission; the province of Quebec has a public utilities commission which controls Quebec public service companies. But the Ottawa Gas Company has a dominion charter which frees it from provincial supervision; and it is free from dominion supervision because no dominion board exists in rates of light and power. Thus we have a company which both asks almost unlimited capital to deal with the public, and has unlimited freedom to do what it likes. The request for further capital authorization would be a dubious one under any circumstances, but it should not be tolerated for a moment from a public service company which is free from any measure whatever of public control.

DARING AUSTRIAN NAVAL RAID MET INGLORIOUS END

Wanted to Blow Up Italian Flotilla, Destroy Torpedo Boat and Capture Squadron—Was Complete Fiasco

London, May 4.—The Chronicle's Milan correspondent says: "Permission has been granted me today to tell the full story of the Austrian raid of April 4, on Ancona. Though the Austrian admiralty chose to risk some sixty lives only in the enterprise the expedition was well planned, but badly carried out. Its objective was threefold, namely to blow up the submarine flotilla in Ancona harbor, to destroy the captured Austrian torpedo boat B-11, lying there, and to seize a naval motor boat squadron."

"The invading party left Pola at 4 o'clock in the afternoon on board the torpedo boat 69, having a motor launch in tow and escorted by a destroyer. They headed for the Italian side of the Adriatic at a speed of sixteen miles an hour. When fifteen miles from land the invading detachment took their places in the motor launch, whose engines had been carefully covered to suppress noise. "Shortly after 2 o'clock in the morning they disembarked at a solitary spot on shore to find that owing to a big error in their calculations they were several miles north of Ancona. Forthrightly armed with bombs, pistols and daggers, and carrying twenty-five kilos of dynamite they moved in a row abreast along a road skirting the coast. Since all spoke fluent Italian with a Venetian accent and wore uniforms distinguishable in the darkness from that of the royal Italian marines they aroused no suspicion in the mind of coast guards and sentinels whom they passed and from whom they inquired the nearest route to Ancona. It being taken for granted that they had disembarked from some friendly vessel lying off shore at daybreak.

"Having sighted a lonely cottage, of which the only occupants were one woman, two small children and a big dog, they decided to seek refuge till evening. During the interval two cadets, disguised as peasants, were sent to Ancona to purchase necessities and spy out defenses and the exact position of vessels in the port. The information which the spies brought back determined the officers to forego a plan of blowing up the Manacchio sugar factories, with other items of their programme, and to concentrate their efforts in capturing the motor boat squadron, in which they could get away from danger as quickly as possible. At sundown they buried their dynamite in the cottage garden, and at the stroke of midnight they started toward the town.

Dramatic Surrender.

"Mistaken for a naval patrol, they experienced no difficulty in passing the toll-gates, but once well within the town they were betrayed by a comrade who, seeing a chance of deserting, slipped down a pitch dark alley and informed an Italian squad of Carabinieri, who at once telephoned an alarm to headquarters.

"Meantime only a long narrow passage skirting the sugar factory separated the raiders from a corner of the harbor where the motor boats lay at their moorings. The commanding officer, shouting out in imperative tones that he had orders to hoist the boats, successfully passed the first sentry, but further on a second sentry, being somewhat suspicious, silently followed them

RESPONSIBILITY!

AS the boys go marching into battle—theirs is the responsibility of saving the Empire, even though they lose their ALL.

THE HONOR ROLL OF THOSE WHO FELL

The names of seven New Brunswick men appear in the midnight casualty list—Killed in action, S. P. MacMullin, Hartland; died of wounds, J. W. Walters, St. John; wounded, P. C. Horsman, Elgin; A. McAllister, St. John; Lieut. C.

M. V. Spruce, St. Croix; G. S. MacDonald, Belyea's Cove.

Flag Incident Recalled.

Leoric G. Temple, a former St. John boy, who refused to salute the American flag and swear allegiance to it, which brought about his expulsion from the high school in New York, was in the city last evening. He is attached to the British Recruiting Mission in New York. With reference to his expulsion from the school, he said that his father took the matter up with the British am-

bassador at Washington and finally he was reinstated in the school and was not required to swear his allegiance to the flag each morning. Lance Corporal Temple is the son of Mr. and Mrs. F. L. Temple, formerly of this city.

W. A. Quinton, Manawagonish road, has been advised from his sister in Vancouver, Mrs. Ferguson, stating that her son Jack, first reported missing, was killed in action. Her other two sons, Ralph and George, are now in London being treated for wounds.

Increased Pensions.

Washington, May 6.—The Sherwood bill granting a minimum pension of \$25 a month to civil war veterans, was passed by the house today and now goes to the senate.

Because of Great Suffering Accompanying Digestion—Hospital Doctors Said Operation Necessary—Perfectly Cured by Home Treatment.

New Aberdeen, N. S., May 6.—Once again the doctors erred in claiming that an operation was necessary. Fortunately Mrs. Watkins had a different opinion, and by using Dr. Chase's Kidney-Liver Pills obtained a perfect cure. That was in 1914, so there seems to be no doubt that the cure was both thorough and lasting.

It is well worth your while to read this letter, for if you never have similar experience you may be able to help others to escape the unnecessary risk and expense of a surgical operation.

Mrs. Annie Watkins, New Aberdeen, N. S., writes: "I think it is time for me to give my experience with your wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called indigestion; but, whatever it was, I suffered terribly. The pain would start under my left shoulder and pass down my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to go without food from one morning until the next. I had no energy left for work at all. At last one doctor sent me to the hospital for a month. For four days and nights I never broke my fast except for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came back worse than ever. Then I was told I would have to undergo an operation, but I would not consent to that. At last I read about Dr. Chase's Kidney-Liver Pills, and started to take them. At first I did not notice much difference, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

Nantes, France, May 6.—Two women spies, Josephine Alvarez and Victoria Paucher, condemned to death by court martial on January 28, were executed this morning.

RUDOLPH FAILS TO PURCHASE RELEASE

Offers Braves \$10,000, But Offer Is Declined

New York, May 8.—Dick Rudolph, former Leaf pitcher and star of the memorable world's championship series between the Athletics and Braves, today offered President Percy Haughton of the Boston club \$10,000 for his unconditional release. After a lengthy conference in Brooklyn, Rudolph and the Boston officials announced that the pitcher's offer had been declined and that the Boston management would insist on Rudolph joining the team or remaining idle.

The star pitcher, on the other hand, was emphatic in declaring that he had not proposed to accept the terms offered by Haughton, no matter if he had to stay out of the game all season. Rudolph refused to say where he would go in the event of Boston's accepting his offer, but it was intimated that such a release would be followed immediately by Rudolph's appearance in a Highlander uniform.

Miller Huggins could use Rudolph to great advantage, and no doubt it is the New York club's \$10,000 that Dick offered to Boston. He could get a contract calling for at least \$8,000 from the Killies and, in addition, would be at home half of the season. Boston gave him \$7,800 last season and late in December offered him a contract calling for \$8,000. Rudolph declined that offer and then Stallings tore up the contract and reduced his offer to a straight \$4,000.

TOMMY BURNS JOINS THE COLORS

Former Heavyweight Champion Enlists in the Canadian Army

San Francisco, May 8.—Tommy Burns, former heavyweight boxing champion of the world, was today enlisted in the Canadian military forces by the British recruiting office here. Burns is a Canadian.

Tommy Burns, whose real name is Noah Brusso, was born in Hanover, Ont., in 1881, and is the only Canadian to ever win the heavyweight "championship of the world," he losing the title to Jack Johnson in the fourteenth round at Sydney, New South Wales, on December 26, 1908. His fighting weight was 183 pounds. Burns first started out in life working in a furniture factory in Hanover, where, like the rest of the boys of that town, he soon learned to play lacrosse. He was very adept at the game, being an artful dodger and a tricky home player. His lacrosse ability soon found him positions elsewhere, and he finally landed in Detroit, where he first took up the boxing game. His rise was meteoric and he soon became very wealthy. A few years ago he tried to promote the boxing game in New Orleans, but found the "promoting ring" in that city too strong to buck, and he left for San Francisco, where he is reported to have extensive holdings.

Exchange Managers.

The organization of an Exchange Managers' Protective Association was conducted at a luncheon on Saturday afternoon. The following officers were elected: President, H. H. McArthur; vice-president, G. A. Marzetti; secretary, Treasurer, H. Romney; legal adviser, J. P. Rezan.

To Make L. W. W.'s Outlaws.

Washington, May 6.—A bill declared frankly to be aimed against the Industrial Workers of the World, outlawing organizations which use or advocate violence to bring about "any governmental, social, industrial or economic change" during the war, was passed today by the senate after brief debate and went to the house.

THIS SPEAKER SETS NEW RECORD

Cleveland's Star Fielder Pulls Off Two Unassisted Double Plays

The season is extremely young, or in its infancy, yet one record has gone to the boards. This Speaker of Cleveland, kicked it over the rail.

The record in question is that of unassisted double plays by outfielders in one season. Until this year no suburbanites had been able to make more than one of these lone killings in any championship campaign. Spoke, in less than ten games this year, has manufactured two-one against the Tigers and one against the White Sox. He turned the trick both times in the same way—by trapping the ball and forcing a man.

Unassisted double plays by outfielders have been extremely scarce commodities in the last five years. Speaker's feat against the Tigers was the first since Oct. 1, 1915, Bobby Roth then retiring two of the White Sox at one clip, though he did not do so by trapping a fly ball. He made an astounding catch and kept on to first base.

That same year Tully Walker of the Red Sox made an unassisted double play against New York.

There were no heroes of this stripe in 1914 in the American, but the year before Reuben Nashier Oldring, who is trying a comeback this season, in company with many other vets, turned the trick against the Indians.

National Leaguers from 1918 to 1917, inclusive, who have made lone dual killings from the outfield, have been Bill Hinchman of the Pirates, Max Flick of the Cubs, and George Trombley and Eddie Fitzpatrick of the Braves.

SIR SAM'S CRITICISM

Sir Sam Hughes continued the debate on the budget in the House of Commons yesterday. He urged greater freedom for the press and the maintenance of the principles of representative government. Vigorous criticism was offered by the speaker regarding the Military Service Act, the dominion police, the war lecture bureau, the new registration plan and the overseas militia department. He closed with an emphatic statement that all talk of peace must be stopped and that the people will have to realize that the war will end only when Germany is trimmed to a finish.

LOCAL NEWS
NOVELTY SHOWER
 Miss Blanch Kelly was given a novelty shower last evening at the home of Miss Bowers, Coburg street. Miss Kelly will be a principal in a happy event to take place early in June.
JOINS SIEGE BATTERY.
 Willard M. Morrison of East St. John has left the staff of the Royal Bank and enlisted with the 9th Siege Battery on the west side. He has been very popular with the customers of the Royal Bank. Many friends will wish him all success while with the colors in the great work "over there."
GRAND LAKE STEAMER.
 The steamer Premier, which is to go on the Grand Lake route, is expected to make her first trip of the season next Saturday morning, although an endeavor will be made to get away earlier if possible. She is now in good condition, having undergone considerable repairs and alterations.
NEW OFFICE ARRANGEMENTS.
 Plans are being prepared for a rearrangement of some of the offices at city hall. One of the most pressing needs is for an ante-room for the mayor's office, and it is probable that this will be secured by taking the office formerly occupied by Commissioner Russell. The new mayor's office may be located in the large room now used as the common clerk's outer office.

THE SPRING FRESHET.
 Signs of the spring freshet are much in evidence as the foot of Indiantown. All the wharves are submerged and the water is within a few feet of the street-way tracks. The lower end of Bridge street is completely under water and several sheds are flooded. It is expected that the freshet will equal if not surpass the mark reached in former years.
PRESENTATIONS.
 At a meeting of No. 2 Salvage Corps held last evening the members presented to ex-Captain John H. Thornton a beautiful gold headed cane. They also made James Hatfield the recipient of a purse of gold. The latter was employed in the corps as a driver for the last sixteen years. The presentations were made by Captain R. L. Cunningham. Both gentlemen made suitable replies in which they thanked their friends for their kind remembrances.

FIRST CASE HERE UNDER THE ANTI-LOAFING LAW
 "This is was time. If a man won't work he shan't eat," said Magistrate Ritchie in the police court this morning when the first man under the new anti-loafing law was brought up in the person of James Thompson, trained blacksmith, of West St. John, who, according to Sergeant Journey of the police force, refused to work and persist in loafing around the streets. According to the evidence the fact came out that Mrs. Thompson acted as janitor in the Bank of Nova Scotia. The defendant was remanded to jail for the present.
 John Nicolson was charged with obtaining money under false pretences. Some of the men of the Soldiers' Convalescent Home, it was stated, had \$23 with which to buy liquor and it was said he failed to return. U. J. Sweeney appeared for him and he was remanded until witnesses could be procured.
 A case of aggravated assault was brought up, but the complainant failed to appear this morning so that the case was postponed. A plea of self-defense was put in.
 One prisoner was charged with drunkenness. He pleaded guilty and was remanded.
 Robert Orr was charged by Policeman Cooper with interfering with the police in the arrest of a soldier on Sunday afternoon in Erin street. According to the policeman Orr stood in the crowd and kept crying, "You're ill-using the man; let him up." This, it was said, had the effect of inciting the prisoner to further violence. Orr was remanded.
 Laurence Pemberton and Robert Stafford, soldiers, and Frank Phalen were up on the charge of breaking into Michael J. Driscoll's tailor shop on May 8. Mr. Driscoll identified four bottles of stain remover. The prisoners were again remanded.

ST. JOHN SOLDIER DIES IN MOORE BARRACKS
James Alfred Nichols Succumbs to Diphtheria At Shorncliffe
 Miss Jennie Nichols, 179 Prince William street, this morning received the sad news that her son, Gunner Alfred Nichols, had died of diphtheria in Moore Barracks Hospital, Shorncliffe, England. Gunner Alfred Nichols enlisted with the 5th Bn. Royal Fusiliers in January, 1917, and went overseas in April, 1917. On account of his youth he was not allowed to go to France, but was detained in England on home guard. He made several attempts to go to France afterwards but the military authorities would not consent. The last letter received from him was written on April 15, 1918. He had then been passed as A 1 and was going to France. Unfortunately he was quarantined with the result that death intervened. He leaves his mother and one brother, Barton Kenneth, attached to headquarters staff in this city.

HELP!
 Might we ask the advertisers in the Times-Star to let us have their ad. copy not later than 6 o'clock the night before the day on which insertion is desired?
 The crumb of advertising, which the Times has been carrying the last few months, makes a call for HELP on the part of the business office an urgent necessity.
 It's hardly necessary to state the value to YOU of this feature, the earlier the paper is out, the larger the sale—hence, an increased market for you.
 It also means that your advertisement will receive the best attention as regards typographic treatment; will be dressed in the way your PUBLIC SALESMAN should be dressed. Best work, of course, can't be done in a rush, and neither you nor THE TIMES is satisfied with a poorly dressed ad.
 The unfortunate fact that quite frequently advertisements have to be omitted from THE TIMES on account of late copy, prompts this S. O. S. call, and really your own best interests would demand that it be heeded.
