"Unscrupulous Political Agitator," Says Minister

ADDRESS TO ORANGEMEN

Rev. J. W. S. Lowry Protests Against "Invasion of Ontario" and "Demand For Special Privileges in Regard to Schools and Languages"

(Canadian Press)

Ottawa, Ont., Aug. 11.—Armand Lavergne, Nationalist M. C. A. for Montmagny, Que., was characterized as an "unscrupulous political agitator" by Rev. J. W. S. Lowry, of Fitzroy Harbor, in a sermon to a congregation of Orangemen in Westminster Presbyterian church yesterday afternoon.

The party was received by Nelson O'Shaughnessy, secretary of the United States embassy, who has been acting as Ambassador Wilson, and Chas. E. Park, a member of the embassy staff.

Mr. Lowry exhorted the Orangemen to be on their guard against the men on Parliament Hill, who are the political politicians first and Protestants and Orangemen last.

Montreal, Aug. 11.—The Orange order in Canada has a four-fold work to accomplish in working out its destiny," said Rev. Rural Dean Sanders last night in preaching the annual sermon to the St. John's, Precinct of the Royal Black Knights, who commemorated in St. Edwards church the battle of Derry, Aug. 12.

"That purpose, he said, was to support by sympathy the Irish Protestants in their resistance to home rule, to work for the emancipation of the Irish throughout the dominion and also for one school system and to seek to have legislation introduced to establish a uniform and civil marriage law."

Do not criticize her dress. Be a gentleman to all women, but a husband to only one.

If you have only a dollar you are not wasting it by spending it on her. Life is too short to waste any of it trying to please an abnormal woman.

HERE'S A CODE OF RULES FOR HUSBANDS, BY A MILLIONAIRE

Los Angeles, Cal., Aug. 11.—L. C. Dillman, a Seattle millionaire, and an associate of J. J. Hill, as a result of eighteen years of marital bliss, yesterday promulgated the following rules for husbands to keep at all times.

Keep a joint bank account.

Have no dogs or pets of any kind.
Call her up on the telephone at least three times a day.

When away from home, write or telegraph every day.
Make her with you on business and pleasure trips.
Be more polite to her than to any other woman you meet.

Remember that she likes flowers.
Make it a business to be comfortable whenever she is happy.
Do not criticize her dress. Be a gentleman to all women, but a husband to only one.

If you have only a dollar you are not wasting it by spending it on her. Life is too short to waste any of it trying to please an abnormal woman.

THE COURTESY BAY WORK

A report was current today that work had been partially stopped at Courtesy Bay upon the breaker, and that the whole crew would be taken off for about a month.

Mr. Stewart of the Courtesay Construction Co. said that he supposed reference was being made to the change in the work being done there and that some of the men who had formerly been employed with them had been laid off for a time.

This was because they were not needed in the work now being done, which necessitates the use of about twenty teams and some machinery. Asked whether it would delay the work or not, he said he thought not in the least in fact the idea in making the change was to expedite the job.

IN CHINA

Shanghai, Aug. 11.—The government moved troops down the river yesterday, and landed them north of the foreign settlement. The rebels at Kiangnan have been driven from the Wu Sung forts with insignificant losses. The rebels are extending their defenses at several points.

Several war junks at Wu-Sung attempted to go over to the government, but all of them except one were burned by the rebels. It is said that the government is in control and has returned order at Nanjing.

The Vendetta in Montreal

Montreal, Aug. 11.—What is thought to be the culmination of an Italian "vendetta," which brings to mind the fatal shooting of Toronto's Charles street on the night of Friday, March 21, by Germina D'Inca, who eventually evaded the police and made a clear get-away, was enacted in St. Genevieve last night when Gurino Giani, twenty-seven years of age, a brother of Toronto, is said to have shot 1 Davison street.

TOO SLOW FOR "FABLES IN SLANG" WRITER

Ade Declines to Be Shopped in Berlin and Goes to Sleep

Berlin, Aug. 11.—Berlin's claim that his night life is the merriest and gayest in Europe, suffered a terrible jar last week, when George Ade fell asleep in the middle of his whirl. Mr. Ade and Roger Sullivan, the demagogue of Illinois, with ex-Mayor Hopkins of Chicago, arrived on Monday from New York.

It will take more than this to keep me awake.

A hot sun in Berlin's most famous "palace of sin" as one of the cafes is often called, saying "I will give you my impressions in tomorrow. Mr. Ade left for Paris on Saturday.

ADDRESS TO BISHOP ON HIS LORDSHIP'S FIRST VISIT TO ST. CROIX

There were some members from other provinces, points on the steamer today. J. B. Daly who went from here also, had been quite ill in Boston but his friends will be pleased to learn that he expects to be home in about a week.

Halifax Soldier Is Hurlled Over Pier to Death on Rocks

(Canadian Press)

Halifax, N. S., Aug. 11.—Sergeant Russell Hirtle of the R. C. G. Artillery, was instantly killed at York Redoubt this morning. A Montreal siege company is here for training at Macnab's Island. Guns for their work were at York Redoubt and were being taken to a lighter for transportation.

The brake block of one of the guns which was being taken down a hill slipped and Hirtle was thrown over the pier, a fall of about 80 feet. He fell head downwards on sharp rocks. Death was instantaneous. Hirtle was a Halifax man. He joined the army eight years ago.

After a delightfully interesting visit to their old homes in the motherland, two of a party of five brothers returned to this city on Saturday last via Montreal. They were accompanied by Hugh Doherty, who visited his old home also.

The other brothers who went on the trip were Robert, James and John, of Miller's Falls, and their visit to the scenes of their boyhood days in Malin, Donegal, was a genuine treat not only to themselves but to their two sisters residing there, and the many other friends with whom they met, and all of whom they had not seen for more than a score of years.

William McLaughlin, speaking to a "Times" reporter today, said that conditions in Ireland had been greatly improved since he had last been there, and the changes in many places were remarkable. Asked as to home rule and the feeling towards it he said that there was a strong agitation concerning it.

It was an ordinary feature of the Sundays in Ireland to see from 80 to 100 jaunting cars standing outside the doors of the country churches while their owners worshipped within. This is now a thing of the past, and was but an evidence of the prosperity which Ireland is now enjoying.

The appearance of the country churches began putting labels on the bottle necks that the perfume was made at Cumberland Lodge.

When this reached the ears of the queen, she ordered Princess Christian to cease selling the perfume in the labelled bottles. The princess maintains that she has a perfect right to do so, and refuses to comply with the request.

Montreal, Aug. 10.—Archbishop Bruchesi, surrounded by most of the bishops of his archdiocese, yesterday celebrated his elevation to the See of Montreal, which took place just six years ago.

The ceremony was very simple and very imposing, and was celebrated at ten o'clock in the Cathedral. His Grace was assisted by Monsignor Enlle Roy, C. G., and Canon Martin and Sylvester and the Rev. Abbes Arthur and LeCroc. The archbishop was the recipient of many congratulatory messages during the day.

Mr. C. W. Warnock left on Saturday for New York en route to his home in Kansas City.

Thos. Malcolm of the International Railway was at the Royal on Saturday. He is in court this morning charged with discharging a 22 rifle on Courtney Bay.

He was allowed to go on his father's business, but it was understood he would only properly employed in the future.

A job was made in the paving operation in Union street on Saturday. It was only because of water and sewerage construction, which had to be proceeded with. This having been finished, the other job is ready to be resumed.

Rev. C. S. Reddick, B. A., who supplied the pulpit of the Congregational church for some time and latterly has been preaching in Moncton, will leave for Ontario on Wednesday accompanied by his wife and their three children. They have been making their home with Rev. Wm. Lawson of Zion church.

Dr. L. A. Shepherd arrived in the city this morning on the Eastern S. S. Co. steamer from his home in Alston, Mass. He left today for Prince Edward Island, where he intends covering quite a section of the island before returning to St. John.

A little amusement for some, but impatience on the part of others, was caused about 1 o'clock today in Prince Wm. street. Workmen engaged in the sewerage job at the junction of Princess street had prepared a blast, and shouted a warning in all directions with the result that pedestrians, drivers and autoists, were held up for a time. They waited patiently or impatiently according to temperament. Several moments passed. There was no explosion. Then a few more daring pedestrians stepped. Still there was no "big noise." It was only a false alarm—the blast did not go off, and the variety of expressions heard might have furnished material for the end-men in a minstrel troupe.

SPECIAL GUARD OF TREASURE VAULTS

Buckingham Palace at Last Being Given New Front

FABULOUS RICHES THERE

Tons of Gold in Ornaments and Gems Worth Thousands of Pounds—Queen and Princess at Odds Over Matter of Sale of Perfume

(Canadian Press)

London, Aug. 11.—Buckingham Palace is at last undergoing a thorough renovation externally. For the next three months, 150 men in eight shifts will be at work day and night, without a break, reconstructing the front in white Portland stone. Powerful electric lights will be used all night. All the stones to be used have been prepared and numbered to save time.

During the progress of the renovation special precautions will be taken to guard the treasure vaults in the basement, the value of the contents of which is almost fabulous. They comprise the vast accumulations of jewels, armor, pictures, statuary, furniture and objects of art which have come into the possession of the royal family in the centuries. There is no accommodation for these treasures in the royal residence.

Like Arabian Night's Tale
The largest of three vaults measures 800 feet by 200. It is used for the storage of furniture and pictures. The smaller vaults are almost equally valuable. It contains more than 6,000 gold ornaments weighing considerably more than a ton. Many individual jewels would bring thousands of pounds in the open market. Most of these jewels are gifts made to Queen Victoria by other sovereigns.

A jewel case containing jewels valued at \$25,000, of which Prince Alexander of Battenberg, cousin of King George, was supposed to have been robbed on his way from Hull to London yesterday, was found intact when his baggage was taken to Kensington Palace and examined.

Queen Mary seems fated to have trouble with the occupants of the royal gift residences. The latest to be brought in is Princess Christian, who has been actively added by Princess Patricia of Connaught. Princess Christian recently began putting labels on the bottle necks that the perfume was made at Cumberland Lodge.

When this reached the ears of the queen, she ordered Princess Christian to cease selling the perfume in the labelled bottles. The princess maintains that she has a perfect right to do so, and refuses to comply with the request.

Discussing advertising a manufacturer of one of the best known soaps in the country said: "We plan to run all the time to the limit of our facilities. We have the entire country blocked out on sales charts, and know what the sales of our soap should be in each section every day in the year."

"If our sales in any spot, we immediately begin advertising in the only newspapers, and soon our sales go on swimmingly again."

"There is no doubt but we could double or treble our present sales by a newspaper campaign all over the country."

A FORGOTTEN PLANK An Ottawa letter in today's Telegraph directs attention to the remarkable change which has come over Mr. Borden with regard to the prevention or punishment of corrupt practices in elections. One of the planks of the Borden platform, while he was yet in opposition, was "more effective provision to punish bribery and fraud at elections," etc. but after the torie came into power, and the Hon. Mr. Borden became the director of matters relating to elections, Mr. Borden appears to have forgotten all about his famous plank. There was a by-election in the constituency of Macdonald, in Manitoba, in October of last year. The campaign for the torie candidate was engineered by Mr. Rogers and the torie candidate was elected. The manner in which the campaign was conducted by the torie was so shameful that a protest was made which, if it could not be substantiated, would render the makers of them liable to punishment. However, Mr. Rogers had no intention of subjecting the makers to any such risk, although they were Liberals; hence the case has been fought at every turn and even carried to the supreme court, where the objections raised by the Rogers party were finally thrown out, and the matter is once more up for consideration by the courts in Manitoba. Nearly a year has passed since the election was protested, and it has been impossible to have the case brought to trial because of delays for which Mr. Borden's friends are responsible. If he had been sincere when he put in his platform the plank relating to "effective provision to punish bribery and fraud at elections," the premier would not permit Mr. Rogers and his torie friends in Manitoba to be so obstinately against a fair investigation of the methods pursued in the Macdonald campaign.

TOURISTS AND THE ROADS The governor of the state of Maine made some remarks the other day, touching the matter of good roads, which are worth repeating and commending to the thoughtful attention of the people of New Brunswick. Governor Haines said: "I have just returned from an automobile trip of 800 miles in New Hampshire, where I went to attend the Forestry convention, but I obtained more information in regard to highways than I did in forestry. I am satisfied that New Hampshire is several years ahead of us on this important question. In traveling over 800 miles in New Hampshire as I did, I think I went over half the distance on improved highways. Through much of the way I noticed the summer hotels. Nearly every farm house was entertaining summer visitors from other states of the union. These visitors to New Hampshire are the result of its improved highways, and not entirely its scenery and climate. This is a crop which needs no protection and does not need to be fertilized or sprayed to protect it from year to year. New Hampshire has no better climate and scenery than ours, and has no better prospects for the future. What we lack to bring the foreigner into our state for the summer is better development of our roads."

SAYS MONTREAL CENTRE OF WHITE SLAVE TRAFFIC J. B. Lambkin Expects to Have Definite Action Soon Montreal, Aug. 11.—According to the statements of James Lambkin, who is investigating the subjects for the Dominion government, Montreal is the centre of the white slave traffic. Not long ago Mr. Lambkin said that Quebec held the distinction. He says that startling disclosures of the inside workings of white slave traffic agents in Montreal may be expected within a very short time. Numerous complaints regarding the manner in which young girls have been induced into the underworld have been coming in of late to the authorities. Mr. Lambkin has been working on the cases here for some time. He is carefully watching the incoming steamers, and the girls who disembark from them. Young girls, it is said, are brought here from either the United States or Quebec, where they are met by the agents. Speaking of the case of two young Montreal girls who were taken across the border into Plattsburg, Mr. Lambkin said that the authorities had arrested the men concerned in the case, but that some trouble was being experienced in the extradition proceedings, the extradition commissioner in Plattsburg being absent from the city. A rural mail box with a loose bottom that closes a circuit and rings an electric bell at a distance when ever a postal card is dropped upon it has been patented.

The King of Roumania has sent a congratulatory telegram to Emperor William of Germany, thanking him for his very valuable aid in restoring peace in the Balkans. Emperor William has always been in favor of peace, and is grossly misrepresented by certain British Tories for their own purposes as one who is always seeking an opportunity for war.

It may be hoped that the longshoremen and the transportation companies will enter upon the consideration of any change there may be in the wage schedule, so that if possible the matter may be settled before winter traffic begins. It is now perfectly clear that the port will suffer some loss of trade in the busiest part of the winter season because it will not have the additional facilities which should be provided before winter sets in. It would be extremely unfortunate if in addition to this there should be a loss of business due to failure of the steam-

DOCTOR TAKES POISON THINKING TO SHOW HOW TO TAKE MEDICINE

New Jersey Physician Swallows Bichloride of Mercury in Mistake for Aspirin

New York, Aug. 11.—Dr. Thomas N. McNamara, one of the most noted nerve specialists in New Jersey, lies at the verge of death, in St. Mary's Hospital, Hoboken, from bichloride of mercury poisoning. In the agony that attends the taking of the subtle drug, he declared last night: "It's only God I was I and not Edward. If I had let him take it, I couldn't have lived afterwards!"

The accident that may become a tragedy, was the result of a strange and terrible mistake. Edward McNamara, cousin of the doctor, lives in the latter's house at No. 618 Hudson avenue, Hoboken. He had been afflicted with insomnia for several nights.

"Can't you give me something to quiet my nerves, Tom?" he asked. "I think so," said the doctor. He went up to his laboratory on the top floor of his home, where his carefully labelled medicines were stored. He took from his case a bottle which he thought contained aspirin tablets and went down again.

"I can't swallow it," complained the cousin, after putting a tablet in his mouth. "It's too big." "This way—look," said Dr. McNamara and gulping another tablet, he took a drink of water and downed it easily. The cousin tried again, but could not swallow the drug. Death was at his lips, but neither man knew it.

The doctor gave him another remedy and went to bed. Early yesterday he was awakened by fearful pains in his stomach and back. It was his turn to call for aid.

Edward McNamara had an automobile at the door in a few minutes and rushed the doctor to St. Mary's, but not before they had stood, arm in arm, the doctor tottering with weakness, before the cupboard in the laboratory, and had learned that the bottle of aspirin tablets lay there intact and that the bichloride of mercury was on the table downstairs.

BOY DROWNED AFTER COLLISION IN RIVER

Ernest William Earle Lost Life Near Cedar Point Last Night

When the motor launch Psyche collided with a tender attached to the motor boat Priscilla M. last night a little after nine o'clock opposite Cedar Point, some distance above the Narrows, Ernest William Earle, aged fourteen years, son of Robert Earle, of 29 Murray street, was drowned and James Mealy, aged seven years, son of Albert Mealy, of 57 Lombard street, narrowly escaped the same fate. Both boys had climbed into the tender from the larger boat against the wishes of those in the party. They told young Earle of the danger he courted, but he paid no heed, and in a few minutes was joined by Mealy.

The Priscilla M. had on board a party composed of the two lads, with Charles Connell, owner, who was steering, his two daughters, Misses Mary and Emma, Welch, and Robert Earle, the dead lad's father. They had been at Cedar Point for the day and were returning to Ingham when the accident happened. The Psyche had on board W. F. Smith, her owner, who was driving, Rev. J. C. B. Appel, John Wright, Gertrude and Florence Greene, Beatrice Giggsey, Louis Slowright, and Elsie Greene of Wallham, Mass.

The Priscilla was sighted by Mr. Appel and the course of the Psyche was altered immediately so as not to strike. The occupants of the boat were contemplating themselves; that they had missed her when they struck the tender trailing behind the Connell party's boat and in which were the two boys. They were thrown into the water by the collision and that was the last seen of young Earle.

The Mealy boy was rescued by Charles Connell as he was sinking for the last time, while the other lad was missed in the darkness. The screams of the women in the two parties, who became hysterical when the dreadful happening was realized, and the shouts of the men trying to effect a rescue brought help from shore. H. Perry and Fred Hannah putting out in rowboats, while Frank McCormick's motor boat arrived on the scene a few minutes later. After several minutes of search in trying to rescue, hope was abandoned and the parties decided to return to Ingham town. Coroner Roberts was notified. Messrs. Smith, Wright and Appel left about one o'clock this morning to grahple for the body, and Mr. Earle left Ingham about the same time for Cedar Point to tell his wife of the sad occurrence.

DON'T HELP MATTERS
Senator Staples Martin of Virginia declared at a recent banquet that it is the easiest thing on earth to hand out vinegar when you are doing your level best to peddle sugar. In explanation he cited a story.

At a social affair some time since the senator said, a certain pretty woman was numbered among the happy guests. During the evening she met one of the masculine guests for the first time and while conversing with him chanced to notice a decidedly homely man on the opposite side of the room.

"Mr. Jones," she sweetly remarked, "can you tell me the name of the man who is speaking to Mr. Brown?" In all my life I don't think I ever saw a man quite so homely."

"I thought you had met him," smiled Mr. Jones. "He is my brother."

"Your brother?" exclaimed the emerald woman. "You treat parsons as Mr. Jones. I really didn't notice the resemblance."—Pittsburgh Chronicle Telegraph.

Men's Working Clothes

That Wear

It's the easiest thing we know to get good working clothes. No trouble to us to find them. There are brands that every dealer with horse sense is acquainted with, manufacturers whom everybody knows by name. Their guarantee is as good as the Bank of England and their goods as reliable as the Rock of Gibraltar.

We flatter ourselves that we know what working men of the North End want, and when it's no more trouble to get it than it is to get the other kind, that's all there is to it. We may not make so high a percentage profit but we'll do better in gross returns. Besides, we do pretty much all of it, hereabouts. What more can we expect?

SYDNEY STREET TO BE ALL OPEN FOR TRAFFIC TOMORROW

Now Have Pavement That Should Last Twenty-five or Thirty Years

The work on the street pavement on the east side of King Square will be completed tomorrow and the street will be open to traffic with a permanent road-bed guaranteed to last twenty-five years.

The work in this particular street has been more than usually difficult, as the whole hill is a ledge of rock which had to be smoothed with picks before the constructive work could be begun.

The process of laying the new roadway is a comparatively simple one. After the rock bottom has been leveled roughly a layer of concrete six inches thick is laid. Over this is spread an inch and a half of sand. Then the granite blocks, about nine inches long and five thick, are laid down, with a space three-quarters of an inch left between the surfaces of each. In the space so left grout, consisting of sand and concrete, is poured and this makes the whole a solid mass with enough roughness on the surface, however, to give the horses good footing.

Every one hundred feet along the street a space consisting of six blocks is filled with pitch instead of with grout. This is done so as to allow for the expansion and contraction caused by heat and cold. The space between two blocks is likewise filled with pitch along each side of the street for the same reason.

The great advantage of the pavement comes from its durability. Any street laid with these granite blocks should last without repairs for twenty-five or thirty years. When the blocks wear smooth, they are turned on another side and the street is practically renewed.

All the cities of the United States have tried this system of street building for many years and in all cases the satisfaction given has been great.

CAPTAIN MELVIN DEAD IN ST. MARTINS, AGED 77

Captain Ebenezer Melvin passed away at two o'clock this morning at the home of his sister, Mrs. Hannah Parks, St. Martins, after an illness lasting nearly a year. He was a well known deep sea mariner who, for many years, sailed out of English ports. On retiring he took up residence in St. Martins. Captain Melvin had reached the age of seventy-seven. His wife and children died in England some years ago. Captain Melvin is survived by his sisters, Mrs. Lydia Munde of Portland, Mr. Mrs. Parks and a brother, Thomas, in St. Martins, and a sister-in-law, Mrs. Cassie Melvin, of West St. John. Ernest Melvin and Ross Melvin of West End are nephews, and Mr. Bradshaw of Fairville also is a relative. The funeral will be at half-past two o'clock on Wednesday in St. Martins.

SIGNS OF THE COMING FALL

The breath of autumn was in the air over the river this morning. The distant hills looked cold and blue, and a decidedly chill wind swept down the valley. Only the more hardy annuals among the passengers on the Quocnee were willing to brave the wind on the outer deck. As usual she had a large passenger list, more than thirty getting on board at Public Landing alone.

But there are other signs of autumn in addition to the sudden drop in temperature last night. The golden-red begins to flame along the country roads, and here and there a touch of gold or crimson is seen among the leaves of the maples and other trees. Within three weeks vacation will be over; schools will be reopened, and the summer of 1913 a memory.

WARNING TO GIRLS WHO AFFECT THE HOBBLE AND WHISTLE IN THE STREET

Some Remarks From Police Court Bench — North End Boys Entirely Freed of Report Against Them

"There is an old saying," said Magistrate Ritchie in court this morning, "to beware of crowing hens and whistling women, but now, bless you, you see girls every day whistling to their chums a block off. They would be very much astonished if about a dozen of them were called up here some fine morning in their hobble skirts, all colors of the rainbow, yet the police act distinctly says that there shall be no crying or whistling in the street."

These remarks were called forth by the growing number of cases of disorderly conduct on the part of young boys. This morning two complaints were heard in court.

Abraham Friedman, a Hebrew, who lives at 25 Acadia street, had three boys charged with disorderly actions in front of his house on Thursday night. He said that the boys had come along about half past ten and had called him "sheeny" and "Jew," and afterwards had broken one of the windows by throwing stones. Two of the boys were fined \$8.

George Larkin, of 156 Main street, had four other boys in court charged with creating a disturbance in his yard. E. S. Ritchie appeared for one boy. In the course of the examination it came out that the boys had been in Larkin's woodshed a few minutes to escape the rain and without being given warning were suddenly confronted with a policeman who told them to appear in court. Two ladies who are connected with the playground gave the boys the highest praise; they had always been quiet and well behaved while at the grounds and had also been of much help to those in charge. One of the ladies thought that the charge had been brought against the lady because of prejudice on the part of the complainant. After hearing the evidence of the ladies His Honor dismissed the boys.

SEVEN GAMES FOR THE GREEKS THIS WEEK; FIVE WITH FREDERICTON

New Pitcher and New Outfielder Secured by Marathons as Season End Draws Near

This is to be a busy week with the Marathons, in all they are to play seven games—two with Bangor and five with Fredericton. The Bangor games are today and tomorrow at Bangor. Then there will be a game with Fredericton here on Wednesday, a double header with Fredericton at the capital on Thursday and Friday and Saturday with Fredericton here.

Not only is it a big week of games, but the fact that the Greeks will play Fredericton five games—three of the games on the local diamond—makes it an attractive one for the fans, for they do like to see these two teams at it. As known, Fredericton has a new pitcher in Phelan and St. John has secured a new one—Woodcock, who is expected here by tomorrow night. He was signed by Fredericton, pending Dave Morey's arrival, and, as there was then no place, was let go. He has since been in Cape Breton. He is counted a good man. The Marathons also have secured a hard hitting outfielder named York, who is to join the team at Bangor, as McPherson is still incapacitated. Both St. John and Fredericton, therefore, evidently look on this week's games as vital ones and there should be some strenuous contests. The locals start the week with a nice lead, but will have to play hard. The week's schedule complete is as follows:—

Monday, 11th—St. John at Bangor; Calais at Fredericton.
Tuesday, 12th—St. John at Bangor; Calais at Fredericton.
Wednesday, 13th—Calais at Bangor; Fredericton at St. John.
Thursday, 14th—Calais at Bangor; St. John at Fredericton, double header.
Friday, 15th—Fredericton at St. John; Bangor at Calais.
Saturday, 16th—Fredericton at St. John; Bangor at Calais.
Eddie Ramsey was not well and did not go to Bangor today.

TOMORROW WILL BE 'PRENTICE BOYS' DAY

Large Gathering From St. John and Various Parts of Maritime Provinces in Fredericton

On tomorrow the 'Prentice Boys will observe their anniversary day, Aug. 12. The St. John county members of the order will take part in a large gathering in Fredericton and with friends will leave here on an excursion on the train at 7.30.

There also will be members of the order from several New Brunswick points and also from Nova Scotia.

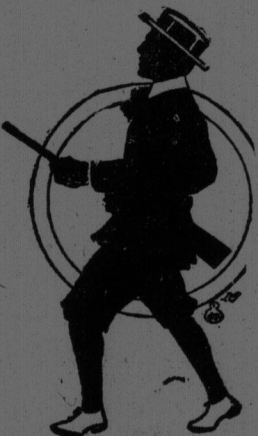

The St. John members, on reaching the capital, will march from the train to the Old Government House grounds, where also will assemble the members from other sections. At 2.30 all will join in a large parade through Fredericton streets, returning to the grounds to hear a series of speeches. Among those expected to give addresses are Premier Fleming, Provincial Secretary McLeod, J. B. M. Baxter, M. P., grand master H. Sellen and L. Ed. Rolston of St. John. They expect a fine celebration.

THE PROVINCIAL RACES

Bangor Commercial—Hugh O'Neill, of Fredericton, and William McQuade, of St. John, while in this city this week, attending the races, completed arrangements for 15 entries in the provincial races. The provincial races have always been a big attraction for horses in this section of the state, and suitable purses attract many horses from the larger cities of the state. It is predicted that Bangor horses will win honors in the provinces, and several first moneys are looked forward to.
