I was suffering from a pain in my left side which was noticeable at all times, but sometimes it was almost unbearable and I could not even let the bed clothing rest on my body at night. I had been sick for seven years, but not so badly until the last eighteen months, and had become so run-down that I cared for nobody and would rather have died than live. I couldn't do my work without help and the doctor told me that an operation was all there was left for me. I would not consent to that so my husband brought me a bottle of Lydis E. Pinkham's Vegetable Compound and begged me to take it. I have taken fourteen bottles of it and I feel ten years younget. Life is full of hope. I do all my housework and had a large garden this year. I never will be without the Vegetable Compound in the house and when my two little girls reach womanhood I shall advise them to take it."—Mrs. IDA M. COFFMAN, R. R. No. 2, Sidell, Illinois.

Alberta Woman Avoids an Operation

Provost, Alberta.—"I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I should have an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. tting Cheer and Dignity Into a Dining-Room

> FEW liberties may be taken in and lovely patterns of endless varithe furnishing of a dining ety. If you desire extra warmth of room. There must be a suggestion of dignity, yet warmth of color to lend that imperative note of hospitality and good cheer.

Where does one begin? Interior decorators will tell you—the rug! The rug in the dining room must be looked upon to supply the char-acter and the atmosphere, and to provide a setting for and to en-hance the richness of the dining room furniture.

All this being well known, we have spent years designing and creating an ever-widening range of Barrymore Guaranteed Rugs for dining rooms. The color combinations are unusually beautiful. There are Barrymore Dining Room Rugs with fields of rich taupe and deepest sapphire blue, in enchanting

tone, there are Barrymores with grounds of rose, brown or gold.

There are Barrymore Wiltons and Barrymore Axminsters for every room in the house. They are distinctive in design, soft and luxuriant to the tread and give a lifetime of wear. They are closely woven of the purest worsted and wool

Many people find it difficult to reconcile the great beauty and value of Barrymore Rugs with the moderate prices asked. You can decide this for yourself best by seeing Barrymores in the house furnishing stores. Made in all standard rug sizes; special sizes to order. COAL

NO. 3

This is the third of a series of "ads" introducing a new coal and a new service. The first dealt with the new service of direct delivery from vessel, and how it would reduce the price for a great many buyers. The second dealt with the coal, "MILLERS CREEK," and its qualities. This will deal with price and values,

OPENING SUMMER PRICE

EGG \$11.50 NUT

Cartage Extra

Eleven dollars and fifty censt for Screened Coal at the ship, both Egg and Nut sizes. Cartage will be in proportion to the length of haul, and ranges from 35c. per ton up. Bag delivery 50c. extra.

KEEP IN MIND

Keep in mind you buy Coal solely for the heat there is in it. Burnable matter makes heat; ash, stone and clinkers do not. They are a nuisance and an expense to cart away. The following table will show at a glance the burnable matter to a ton of domestic coals available in Saint John.

	Millers Creek Egg	Welsh Cob- bles	Scotch	Amer. Egg
Present Price Delivered	\$12.00	\$15.00	\$16.50	\$14.50
Lbs. of Ash in Ton	60	100	120	400
Lbs. Burnable Matter in Ton	1940	1900	1880	1600
Clinker Tendency	None	Fre- quent	Some- times	Fre-
Slack and Breakage in Delivery	1-2 p.c.	5-10 p.c	5-10 p.c.	1-2 p.c.

What "MILLERS CREEK" will save for you is very easily determined from the above. Pick out the coal you are in the habit of using or know something about. Multiply the amount of burnable matter in a ton by number of tons used and divide the answer by 1940 (burnable matter in a ton of MILLERS CREEK). You will then have the tons of MILLERS CREEK REQUIRED to give you the same amount of

AN EXAMPLE

Ten tons of average American Egg Coal, costing say \$14.50 per ton, will give 16000 lbs. of burnable matter for \$145.00. Now 16000 lbs. burnable matter can be had in 8½ tons of MILLERS CREEK Coal (16000 divided by 1940). And 8½ tons of MILLERS CREEK Coal costing say an average of \$12.00 delivered, is \$99.00, a saving on the same heat value of \$46.00, or \$4.60 per ton, with the added advantage of no stone, no clinker and the very smallest amount of ash obtainable in any coal.

MAY 6TH

After May 6th the Blizard Coal Co., Ltd., will open an office on the ground floor of the Globe Atlantic Building, 151 Prince William Street, where they will be glad to tell you more about "MILLERS CREEK" Coal and their new and money saving service. Telephone connection can then be had at Main 2800.

To Mr. Tait the witness said he was lying on the lounge nearby when this conversation took place. The wording might not be exactly as it was given, he admitted, but it was as near as he could remember.

To Sergt. Detective Power, the witness said no one had asked him to repeat this message.

Mr. Wilcox told of finding the car in the woods, covered with bushes. After securing a battery, he had taken the ear out and driven it to St. Martins. Later he notified Mr. Murdoch.
