CONCERNING JAPAN.

Bishop McKim Says She Wants to Fight Russia.

INDIANAPOLIS, Ind., Sept. 6.—Bishop John McKim of Tokyo, Japan, chairman of the executive board of foreign missions of the Episcopal church, in visiting his brother here, interviewed, he said, a number of newspaper men. He is exceedingly anxious to fight Russia. Of the people of the United States McKim said that the majority are not so much opposed to Japan's foolish pride about borrowing money she would win in a struggle with Russia. Japan's fleet is much superior to that of Russia in the eastern waters. Japan's army is larger and is made up of braver and more intelligent men than those composing Russia's force in China and Manchuria. I think, however, that if Japan does not fight Russia very soon her chances of winning will deteriorate. Russia at present has no coal-mining stations near Japan, but in two years the Siberia railway will be completed and the forces of the czar will then be in a better position to war against Japan and kindred eastern powers. Japan is very much opposed to the partition of China and is especially desirous that Russia shall not acquire a foothold in the empire, for the Japanese authorities well know that China in such an event would soon go as Manchuria went and Russia would be impraguable in a position enabling the czar to dictate to Japan. Japan is anxious for the accomplishment of an alliance between America, England and herself.

SOUTH AFRICA.

MIDDELBURG, Cape Colony, Sept. 6.—The entire commando has been taken by Major Schoel south of Pictorburg. One hundred and three prisoners were captured, twelve Boers were killed and 46 wounded. Two hundred horses were also captured.

LONDON, Sept. 6.—Lord Kitchener's report to the war office concerning the capture of Lotter's commando, from South Africa, gives the figures as 19 killed and 59 wounded and 63 captured unscathed. The prisoners include Commandants Lotter and Breedt, Field Cornets Kruger and W. Kruger, and Lieutenant Shoeman. Among the killed were the two Vaanters, notable rebels.

The British casualties were 10 killed and 8 wounded.

BRITISH TRADE WITH JAPAN.

LONDON, Sept. 6.—A consular report of the trade with Japan says that in 1883 more than half of the Japanese imports were from Great Britain, in 1890 one-third, in 1896 one-fourth, in 1899 one-fifth, and in 1900 one-fourth. While the trade of the United Kingdom since 1883 has increased less than one-half, that of the United States and Germany each has grown ten-fold, and the most strenuous efforts are being made by the last named two countries for trade extensions in the future.

SCALED OUR MATTERHORN.

FIELD, B. C., Sept. 6.—It is reported here that Mount Assiniboine, the Matterhorn of the new world, has at last been conquered. The summit having been reached on Tuesday last by Rev. James Outram, of Titook, B. C., land, a well known member of the London Alpine club, who has spent the past few summers in the Canadian Rockies. He was accompanied by two of the Canadian Alpine Club guides, Hasler and Bohring.

Many unsuccessful attempts have been made to climb this mountain during the past seven years, and on 20th July last, Wilcox, of Wellington, and Bryant, of Philadelphia, reached an altitude of 10,225 feet, where their further progress was arrested by two feet of freshly fallen snow. Mr. Outram's return to the field is expected within a couple of days, when the details of his great triumph will be learned.

CAPTURED BY BRIGANDS.

CONSTANTINOPLE, Sept. 6.—Brigands have carried off an American lady engaged in missionary work and a lady companion in the district of Djumabala, Vilayet of Salonika.

A dispatch from Salonika says that one of the ladies carried off says that they were captured by brigands in a wood.

THE WEATHER.

TORONTO, Sept. 6.—Maritime—Light to moderate winds, fine and warm today and on Saturday.

SLEPPY PAYMENT.

Main street this forenoon broke its record in regard to the number of horses falling on the block pavement recently put down there. Inside of an hour and a half six accidents occurred almost directly in front of Morrison's grocery store. The two horses which fell first, managed to regain their feet with no damage being done other than the natural shaking up. The third horse belonged to Edward Foster and was attached to a milk wagon. It was severely injured, the hind bone being dislocated. The animal was taken away on a sledge and Dr. Simon sent for. When Waterbury & Rising's delivery team came along and succeeded in losing a wheel as well as doing other damage to the express. It was followed by a North End grocery wagon, and on this one of the shafts were broken. Most of these accidents were caused by the very slippery state of the new smooth block pavement over which the watering cart had just previously passed. In conversation with Mr. Morrison the grocer, a Star reporter was told that it was almost impossible to keep the run of the number of horses slipping and falling on this piece of pavement, for seldom does a day pass without a number of these occurrences.

THE METHODISTS.

Extraordinary and Acrimonious Debate on South African War.

Great Disorder and Frequent Interruptions—Southern Delegates Defend England.

LONDON, Sept. 6.—The most striking feature of the conference yesterday was an impassioned speech of the colored bishop, Walters, of Jersey City, who received the warmest welcome of any of the American delegates. He declared that there was a systematic effort on foot on the part of white Americans to destroy the good opinion which the English people had of American negroes. He recapitulated the lynchings of the year 1900 and declared that though ninety negroes were lynched, in only eleven cases had assault on white women been proved. "The English people have always been our friends," declared Bishop Walters. "You gave us refuge, and now when we are struggling to improve ourselves, we look to you, our old time friends, to give us sympathy and encouragement as you did in the past."

The bishop's assertions of negro morality elicited loud cheers from the English part of the audience and several of the many Southern delegates went out while others did not conceal their disagreement with the speaker. Another incident which attracted comment was a declaration of Sir Charles Skelton, formerly mayor of Sheffield, who, in welcoming the Americans, severely criticised the war in South Africa, exclaiming: "Hell is let loose in South Africa. He appealed to the visitors to go back and, by preaching and example, make such war impossible."

The Rev. Joseph Odell, in welcoming the delegates in behalf of the Primitive Methodists struck the same chord in declaring the United States representative a sovereign people and hoped they would speed the time when military science would be a lost art.

Dr. Pitts, of Toronto, replying in behalf of Canada, contested, in a heated, patriotic and imperialistic speech against the statements made by Sir Charles Skelton and Mr. Odell.

LONDON, Sept. 6.—Most of the time yesterday's conference was taken up by reports on the progress of Methodism in the United States, Canada, Mexico and South America. The proceedings were enlivened by an ardent pro-English speech delivered by the Rev. Joseph Gibson, of Ingersoll, Ont., who defended the action of the British in South Africa.

Frequent interruptions arose from the English delegates, one of whom finally declared that Mr. Gibson was voicing sentiments by no means shared by many present, whereupon the chairman ruled Mr. Gibson out of order.

Rev. J. F. Goucher of Baltimore, read a paper on "The present position of Methodism in the western section."

Rev. J. D. Hammond, of Nashville, Tenn., reported on Methodism in the south and Rev. W. Johnson, of Belleville, reported for Canada.

LONDON, Sept. 6.—A stormy meeting of the Methodist conference resumed this morning from the reading by the Rev. C. W. Smith of Pittsburg, Pa., of a paper on "The Influence of Methodism in the Promotion of International Peace." The five minute rule was adopted, and the pastor made fiery speeches for and against the war in South Africa. The campaign came in for a lot of criticism, and eventually the chairman ruled the reference out of order. Many Americans took part in the discussion, but none of the more prominent bishops spoke.

The speeches were punctuated by frequent noisy interruptions, cheers and counter-cheers. There was a scene of considerable disorder, and the discussion terminated without any conclusion being reached.

The Rev. George Elliott of Detroit, Michigan, saying he had often been called a little American, bitterly denoted the war.

The Rev. J. H. Cooke of Chattanooga, Tenn., defended the necessity of hostilities to vindicate a principle.

Rupert Parks, a member of parliament, a prominent contractor and vice-president of the Liberal Imperial Council, deprecated the usefulness of clerical manifestos. He believed that there were necessary, but the growing tendency towards unnecessary strife was due greatly to the influence of corrupt, unbusiness journalism.

The Rev. R. E. Ross of Nashville, Tenn., said it would be impertinence for the conference to tell Great Britain what to do in South Africa.

KING EDWARD.

LONDON, Sept. 6.—Though King Edward is conscientiously submitting to the light, water and massage, "cure" at Homburg, his heart trouble, the Candid Friend, a weekly paper, says, from which he has suffered since and before his accession, shows no improvement.

GOING TO QUEBEC.

George Robertson, M. P., and R. S. Barker, representing the St. John reception committee and the local government respectively, will go to Quebec the last of next week to meet the Duke and Duchess of Cornwall and party, and complete arrangements for their entertainment in St. John.

Luther Estey, of Great Falls, Mont., and Miss Alma McDonald were united in marriage at the bride's home, Marysville, Wednesday morning, Rev. G. B. Trafford performing the ceremony.

A Pittsburgh despatch indicates that there is no change in the strike situation.

BRIEFS BY WIRE.

Death of Rev. Fr. English—Turkey and France.

Felix J. Serreilas, 18 years old, said to be the son of a wealthy planter of Porto Rico, committed suicide at a hotel on 14th street, New York, today, by shooting himself in the head with a revolver. Serreilas and his younger brother were on their way east to enter Wesleyan college. Disappointment in a love affair is said to have caused the young man to kill himself.

Father Dennis English, for the last 32 years the rector of St. Mary's church here, and for 43 years an ordained priest, died at his residence in Canandaigua, N. Y., early this morning from a complication of diseases. He came to this country when 19 years old.

A special despatch to the Lokal Anzeiger, Berlin, from Dantzig says Emperor William has invited Prince Chun to witness the autumn manoeuvres.

The ports, it is said, is endeavoring to come to a direct understanding with the French claimants against the Ottoman government, hoping thus to deprive the French government of its grounds for action.

LONDON PRESS ON MCKINLEY.

LONDON, Sept. 6.—The vast ambitions of the United States, as reduced from the St. James Gazette, calls President McKinley's sensational speech at Buffalo, continue to be the theme of editorial writers.

"As military power and commercial enterprise must go hand in hand," says the St. James Gazette, "the importance of the statements upon the world of politics, as revealing the new epoch upon which America is entering, must be immense."

The Evening Standard inquires if the reference to the Isthmian Canal is a "hint to England that the Clayton-Bulwer treaty will have to go." It looks like it. The paper considers that the determination of the United States to be paramount in central and South America, both commercially and politically, is one of the hardest facts of our times.

The Globe thinks President McKinley's programme forecasts the severest rivalry of the Great Britain must expect from the United States.

SEEKING ADVENTURE.

NEW YORK, N. Y., Sept. 6.—Captain William A. Andrews and his wife will sail September 18th from Atlantic City in their little boat to cross the Atlantic to Spain. A special to the World from Atlantic City says:

"The body of the craft, which has been covered with one thickness of canvas, has been painted black, and the name 'Dark Secret,' is painted in gold, on each side of the stern. The top of the boat is covered with the reception of an opening large enough for two persons in a sitting position. At the bow and stern and around the sides sufficient space is left to carry supplies."

MCKINLEY AT THE FALLS.

BUFFALO, N. Y., Sept. 6.—President McKinley and party, a few invited guests and a military escort, numbering in all about 100, left here at 9 o'clock on a special train for Lewiston where they will take special cars on the Great George road for Niagara Falls. Arriving at the falls, they will be driven around Goat Island and to the International hotel for dinner. After dinner a visit will be made to the power house, after which the special train will again be boarded for the return trip to Buffalo. The president will hold a reception in the Temple of Music at the Pan-American grounds. This evening the president will attend a reception in his honor at the residence of George L. Williams.

THAT AIR-SHIP PRIZE.

PARIS, Sept. 6.—Santos Dumont, the Brazilian aeronaut, this afternoon made an experiment at Captive ascent in his new airship, ascending 150 metres. On descending he expressed himself as entirely satisfied with the intelligence of the machine, and announced that tomorrow afternoon he would make a formal attempt to win the prize of 100,000 francs offered by M. Deutsch for a dirigible balloon.

MAY HUNT MOOSE.

There is some likelihood of Lord Minto and his A. D. C., Capt. Bell, via King New Brunswick for a moose hunt some time during the month of December. Capt. Bell was out on the Miramichi two years ago in company with General Hutton, and succeeded in shooting a fine moose. They were accompanied by Thomas Pringle and John E. Sanson as guides, and it is likely that they will have the honor of plucking him through the woods.—Herald.

SAILORS DESERTING.

The trouble about getting and keeping sailors on the different ships calling at this port still continues. Quite a number of men are needed and some difficulty is experienced in obtaining them. Officers on some of the vessels are angry at the conduct of men whom they think are trying to persuade members of their crews to desert.

Today at Sanar Point the services of several city boarding house keepers were hovering around the different vessels endeavoring to entice the men away by offering them higher wages on other ships.

THE SALVATION ARMY CASE. Joseph Bullock Was Not Disturbed by the Meetings.

The Salvation army case was up before the police magistrate at noon today. C. N. Skinner and E. H. MacAlpine were in attendance. Mr. MacAlpine called Joseph Bullock.

Mr. Bullock said he had attended the services in Queen Square Methodist church ever since it was built. The army services never disturbed him, though he sat at the end of the church nearest the barracks. He had also attended the S. A. meetings on Sunday afternoon and evenings after his own church was dismissed. The army returned to their barracks about twenty minutes before the service in Queen Square church was dismissed, and he had never been at all disturbed, in fact only faintly heard them. While in the barracks attending service he did not notice any unusual or unnecessary noise. Sometimes there would be a slight drum beating and a cornet played. Their usual time of closing the service was about 10 o'clock. Sometimes under extraordinary circumstances it might be continued a short time longer. A few years ago, when Rev. Mr. Marshall was pastor of the Queen Square church, Mr. Bullock stated that they had in the church two choirs, one at either end of the church, a large organ, trombone, two violins, a flute, bass viol and a cornet, and the congregation joined as well. That was the ordinary musical accompaniment in their revival services in the church at that time.

He said the Salvation army did not make as much noise or any more noise than an ordinary driving carriage passing the church.

The case was adjourned till next Wednesday, when other witnesses will be examined.

INSURANCE RATES.

The Fraternal Congress which met at Detroit last week decided on increased rates of insurance for fraternal organization, bringing them up to about the level adopted by the Independent Order of Foresters three years ago. The Fraternal Congress will carry the agitation into every state of the union for legislation requiring every society to come up to that standard within three years or go out of business.

CIRCUIT COURT.

His Honor Judge Gregory Was, This Morning, the Recipient of Congratulatory Addresses.

Shortly after the Circuit Court was opened this morning, the grand jury presented through their foreman, the following address to His Honor Judge Gregory:

Honorable George F. Gregory, Judge of the Supreme Court, Province of New Brunswick:

May it please your honor: As members of the Grand Jury in attendance at the Circuit Court for the City and County of St. John, we desire to welcome you upon your first official visit to this section of the province.

We believe that we are expressing the general opinion when we state that in no part of New Brunswick—not excepting your own beautiful city of Fredericton—was the news of your elevation to the bench received with greater favor than in the City and County of St. John. You holding being known as a lawyer of eminence—the result of a judicial mind, an intimate knowledge of human nature, a sound common sense, and an ability to see a first principle that the authority of a court of justice is founded on the soundness of its decisions; and that you, as a jurist, are not only a person who can enjoy in the discharge of your duties, but who can also bring to the discharge of your duties a proper regard for the principles, and we are satisfied that in the discharge of your duties you will achieve a reputation which will be a credit to your name, and a satisfaction to those to whom your elevation gave such genuine satisfaction.

As a barrister at law, in addition to conducting your cases with ability, earnestness and dignity, you showed a just regard for the arduous labors, worthy recognition and exalted position of the presiding judge, and the same consideration will be accorded to your honor, by these practicing before us, we have no doubt.

It is our hope that your honor may live long to occupy and adorn your important position; and by your able and impartial administration of justice, maintain the attachment of our people for the law courts of this province.

Signed on behalf of the Grand Jury, JOSEPH FINLEY, Foreman. St. John, N. B., September 6, 1901.

Mr. Finley remarked that a supplementary address would be presented in the course of two or three days.

Att. Gen. Pugsley, as the official head of the provincial bar, added a few remarks to the congratulatory address presented by the grand jury. He said that the sentiments expressed in it met with the hearty concurrence of every member of the bar. It was felt that in the appointment of his honor, one had been made that met with the universal approval of both the bar and the public. The thought that it was well that the address of the grand jury should first be presented, as they represented the public, it was certain that his honor had the qualifications of a good judge; knowledge of the law, impartiality, and the patience and untiring energy as essential to the proper discharge of his duties. A cordial welcome was extended to the grand jury members of the profession were present, and expressed their hearty welcome and congratulations to Judge Gregory, coupled with the hope that the night live long to discharge his duties.

J. D. Hazen, M. P. P., president of the St. John Law Society, on behalf of that body, tendered its congratulations to Judge Gregory. He said that in no other section of the province had the appointment been received, with greater favor than in this city, and from no other section would he receive greater support.

The honor in reply to the address of the jury, expressed the hope that it was somewhat too complimentary, but it was gratifying to know his appointment with approval. It would be encouraging to him in the discharge of his duties, if the members of the grand jury for their expressions of good will and wished them long life and prosperity.

Replying to the Attorney General and Mr. Hazen, his honor said that he was deeply touched by their expressions of congratulation, and by their words of approval of his appointment. A judge's duties could not be carried out without the aid of an industrious bar. It devolved upon the members of the profession to bring before him the best possible in the interests of their clients. His honor said in conclusion that he would at all times extend that consideration which he had himself received while in practice.

The regular business of the court was then resumed and the case of Morrison v. St. John Railway Co. was taken up. Considerable difficulty was experienced in obtaining a jury, and at the time of adjournment only five men had been secured, J. A. Stockton, K. C. and J. D. Hazen, K. C., for plaintiff, and Att. Gen. Pugsley and H. H. McLean, K. C., for defendant company.

IN NEED OF LOGS.

Some of the Mills likely to Shut Down in a Day or Two.

Some of the St. John saw mills will be compelled to shut down before they can get a fresh supply of logs. The stock on hand is very light and several mills are practically at the end of their supply. There is 15,000,000 of 16,000,000 feet of logs between the Fredericton booms and Grand Falls, and between 20,000,000 and 25,000,000 feet above Grand Falls.

Should heavy rains come soon, there are a lot of logs near Hartland which could be rushed down pretty lively, and keep some of the mills going, but if three or four weeks should elapse before logs arrive at St. John at least three or four of the mills would be out of stock and idle. Some of the owners are confident that the logs will soon be moving, while others take a less cheerful view. There is at all events the hard fact, that from 35,000,000 to 40,000,000 feet is at the present hung up, and about two thirds of it above Grand Falls.

The lumber market has improved of late, and is looking much better in the British Islands. There have been much larger shipments to Australia this year than usual.

A PRESENTATION.

Terrel Masters, who has for the last three years been connected with the Canada Cycle and Motor Co., in this city, has tendered his resignation and will leave his present employment tomorrow. This afternoon he was presented by his associates in the concern with a handsome watch and chain, as a somewhat tangible token of the esteem in which he is held.

POLICE COURT.

The Ramsay-Connolly Affair - Cab Drivers Fined.

"Can't a man drop his glass in your shop?"

"But you must raise it!"

"It wouldn't take d—much to break you an' your bar."

James Ramsay—Jimmy the Squaleer—was given in charge yesterday evening for assaulting Robert Connolly and raising a disturbance in his bar-room on Erin street. This morning Connolly was very repentant and showed a strong dislike to saying anything against Ramsay. He emphatically denied having given Ramsay in charge and said that he always found the latter a very decent fellow. Ramsay had caught him by the shirt sleeve with his fingers and thumb, but he didn't think any other damage had been done.

Officer Corbett, who made the arrest, stated that Connolly had come to him with blood on his face, had showed him where his shirt was torn, and said that he had been compelled to close his saloon and was going home to change his clothes.

Ramsay did not remember anything about the affair, except that he did not think he had acted in an unusual manner. Knowing something about his usual conduct, the magistrate thought the case possible. Jimmy was sentenced to twenty dollars or two months in jail.

Charles Shearman, for being drunk on Waterloo street, was fined two dollars or five days.

Henry Short, Gabriel Worden, John Cook, John Linn Thomas Bain and Frederick Watson, cab-drivers, were reported by the I. C. R. police for coming beyond the railing and soliciting passengers in violation of the I. C. R. rules. Worden, Cook, Linn and Watson pleaded guilty, and evidence against the other two was given by Officer Collins. The men were each fined two dollars.

MUST RESTRAIN THEMSELVES.

An effort will be made to put an end to the annoyance caused to passengers arriving at the I. C. R. depot by the numerous cab-drivers who gather around the exit. In consequence of statements made by some of them in the police court this morning the depot police were notified to warn all the drivers that in the future every infringement of the rules would be reported. Several of the drivers said that the rules are violated every day, and that all who should be reported have not been so dealt with. The magistrate stated that, as the minimum fine of two dollars, which has hitherto been inflicted, did not seem to be doing any great amount of good, it might be found advisable to increase in the future the maximum penalty of twenty dollars.

PROVINCIAL APPOINTMENTS.

HAS NINE TEA TRAVELLERS.

T. H. Estabrooks, the North Wharf tea importer and blender, who is advertising for a few more good boys for his tea packing department, said to the Star today that the growth of his trade in Red-Rose tea in Ontario has surpassed all expectations, and he has added another to his list of travellers in the western province. He now has five travellers in the west and four in these provinces, making nine tea travellers in all.

The rush of orders from all these travellers, along with letter orders, makes such a demand on the blending and packing department that more hands are needed, and Mr. Estabrooks finds it no easy task to supply the enormous demand for tea.

THE DROUGHT.

The present continuous drought, although having a very serious effect on the small streams throughout the county, as well as the private wells, is not causing any appreciable decrease in the city water supply. The officials state that the water, which has frequently been considerably lower than at present without the necessity arising of having to draw from the lake reserves and they think that matters will probably not be any worse than they are at present.

For the past four or five weeks the Mispoc pulp mill has been making use of its steam power instead of the usual water for their work. Water is now used for washing the pulp and for running the electric and acid plants, while the steam power does the rest of the work. The reason for this is that last spring the driving dam some three miles above the mill was burned and driving was impossible with high water. On that account the water was lowered, and it is the waste which took place at that time that causes the present deficiency.

CAUGHT RUBBERING.

Yesterday afternoon a small boy who claimed Pokok as his place of residence, called at a house on King street east with a large basket and asked to be supplied with some food. The lady of the house had seen such boys before and was "onto his game." She declined to cast her bread into the basket, and the youth departed. A few moments later the lady happened to go into a neighbor's house and found the latter

preparing an elaborate luncheon for the Pokok boy. While this was being done the neighbor's daughter, happening to glance out of the window, saw the youngster making off with what seemed entirely unnecessary haste and a pair of rubber boots belonging to a member of the family. The boy was chased and captured, the boots recovered and the boy released. He afterwards expressed his contempt for the ill-manners shown by people who would be guilty of rubbering at a fellow to see what he was doing.

TODAY'S FUNERALS.

The funeral of the late James Collin took place this afternoon from his late residence, 29 Duke street. At half-past two o'clock the body was taken to St. Peter's church, where the burial service was conducted. Relatives of the deceased acted as pallbearers and interment was made in the old Catholic burying ground.

At one o'clock this afternoon coaches left D. Connell's stable, carrying a number of friends to attend the funeral of the late Christopher T. Connolly, which took place from his home at Golden Grove. Services were conducted at his home and at the grave by the Rev. H. D. Cormier of Silver Falls. The pall was borne by the relatives of the deceased, and the body was interred in the Golden Grove cemetery.

A picnic was held at the rectory grounds at Maugeville yesterday afternoon in honor of Sergt. Walter Fenwick, who recently returned from South Africa.
