CAPE BRETON PEOPLE ARE GLAD THAT THE COAL STRIKE HAS COME AT LAST

A Stand-Up Fight, They Think, Will Put an End to the Unrest and Discontent Which Has Prevailed for So Long--A Hard Struggle Ahead

SYDNEY, N. S., July 5.—There is little doubt in the minds of the citizens here and at the collieries that the Dominion Coal Company's collieries will be in the throes of a strike tomorrow.

PORT HENRY, N. Y., July 5.—With the crumbling ruins of Forts Amherst and Frederick forming a historic setting, the first of a series of events celebrating the three hundredth anniversary of the discovery of Lake Champlain by the famous French explorer, navigator and colonizer, Samuel De Champlain, occurred today at Crown Point, where Champlain with the Canadian Indian allies of the Huron and Algonquin tribes, first met the Iroquois in battle.

The celebration was arranged jointly by the States of New York and Vermont, with the state commissioners and their guests, participated in today's exercises.

Gov. Hughes, of New York, and Gov. Sprague, of Vermont, with the state commissioners and their guests, participated in today's exercises.

Mess. Lutz and Hinton, two American evangelists of the Christian church, have been holding a series of special meetings at Halifax, N. S., and are now preaching at Picton. One hundred and four additions have been reported by them. They purpose visiting St. John at an early date.

The Main street Baptist Church held their annual Sunday school picnic at Farnham on Saturday. About three hundred were out in cars attached to the morning and noon suburban trains. Rain interfered with the outdoor programme which had been prepared and the return trip to the city was made about five o'clock.

General Drury, of the permanent staff, spent Sunday in the city en route to Woodstock, where he will officiate at an inspection. From Woodstock General Drury goes to Sussex, where an inspection will also be held and from thence to Newcastle. General Drury returns to this city on Thursday week for the purpose of inspecting the local regiments.

In buying a cough medicine, don't be misled to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough.

The International Commission appointed to deal with matters relating to the lumber interests on the upper reaches of the St. John River will resume its sessions in this city on Wednesday.

Krist Johnson, a Dane, became inmate in the jail yesterday and attempted to kill another prisoner, Dennis Sullivan, with a table fork. With the assistance of policeman Scott and night detective Lucas, Johnson was over-powered and handcuffed. Sessions in support of A. F. Bentley will be held in Fairville and St. Martins this week. Hon. C. W. Robinson, A. B. Copp and other prominent liberals will speak. The first meeting will be held in the Fairview Orpheum Hall, Friday evening.

Much work is being done to the New Brunswick Southern Railway. Thomas Harris assumes the office of accountant and C. P. R. train master J. Walter Brown will have supervision of the train service.

On Dominion Day there was a very pleasant gathering at the home of Mr. and Mrs. Wm. Keirstead at Kelstead, Kings county. There were present five married sons and daughters, fourteen grand children and two great grand children.

The name of Rev. Frank Baird, pastor of Sussex Presbyterian church, is being mentioned in connection with the chair of English to be established at the University of New Brunswick, and it is believed that he can have the appointment if he desires it. The reverend gentleman graduated from the University of New Brunswick in 1885 and completed his studies at Glasgow University and Pine Hill College. He has given special attention to English literature and is in every way qualified to fill the position.

A freight train consisting of forty cars came into the city yesterday morning from the west. This train was approximately one-third of a mile long and weighed 1,300 tons. To see this monster rolling down the grade towards the depot at a rate of fifteen or twenty miles an hour and yet under the perfect control of a lever five or six inches long in the hands of the engineer, one gains some idea of what modern transportation owes to the inventive genius of a few men.

ANOTHER POSITION. Clarence Dimes of Fairville, has been selected from the Employment Bureau of the Currie Business University, to fill the position of bookkeeper for J. H. Pullen.

THE MARITIME MEDICAL ASSOCIATION

The attention of the medical profession is directed to the fact that the Maritime Medical Association meets in Charlottetown, P. E. I., on Wednesday and Thursday, the 14th and 15th insts. This is a chance in date from that first selected, namely, the 17th and 18th, as it was found that the Nova Scotia Medical Society was to meet upon these latter dates. An interesting and creditable meeting is anticipated.

HAVE UNTIL OCT., 1930 TO SETTLE QUESTION

Union and the Presbyterian Churches

Declares General Feeling in Presbyterian Church Now is for Union

Rev. A. A. Graham, who attended the Presbyterian General Assembly at Hamilton, Ont., returned on Saturday. In conversation with the Star last evening Mr. Graham expressed himself as greatly pleased with the results of the meetings which had been the most successful for years. No burning questions were before the assembly, but many matters of considerable importance were discussed, among them the question of church union. Much discussion was indulged in and the action of the committee having the question in hand was approved and their report adopted. The basis of union as agreed upon will be submitted to the various congregations who have until October, 1930 to decide the question. Relative to Queen's University a commission was appointed to deal with all questions pertaining to the institution and report at the next General Assembly. Moral and social reform occupied a prominent place in the discussions. For the past twenty-five years the work in this matter has been left to the various organizations to be dealt with, but the assembly were unanimous in adopting a motion whereby the church as a body should undertake this work. The assembly seemed unanimous in favor of church union.

DR. MORTON DELIVERS INTERESTING SERMONS

Members of St. Stephen's Presbyterian Church listened to a very eloquent and instructive address yesterday morning by Rev. John Morton, D. D., returned missionary from Trinidad. Dr. Morton spoke on the Transmigration of Souls and showed its hopelessness as contrasted with the Gospel. He referred to the work among the East Indians who have emigrated to the West Indies and are rapidly becoming a part of the population, with most encouraging results.

Last evening Dr. Morton spoke in St. David's Church and in his address referred in detail to his work. He is senior missionary of the Presbyterian Church in Canada and has spent the past forty-one years in Trinidad. Of the 100,000 people on the island upwards of 11,000 are converts, including many adult and aged natives who have only recently accepted Christianity. In St. Vincent there are several training schools for teachers and a college for those wishing to enter the ministry. There are public schools, numbering about sixty, are supported by the government and missionaries are permitted to give religious instruction for three-quarters of an hour daily.

Dr. Morton made an appeal at both services to the people to endeavor to wipe out the present foreign missionary debt.

On Wednesday Dr. Morton leaves for Quebec, en route to England, where he will take a much needed rest. He will return to Trinidad early in 1930.

FRANKLIN'S CLAIMS NOT RECOGNIZED IN FRANCE

PARIS, July 4.—France has declined to recognize Benjamin Franklin as the inventor of the lightning rod, claiming that honor belongs to a French physician named Jacques De Romas, who in 1750, two years before Franklin announced a means of directing lightning. The French Academy of Science in 1884 recognized Romas' claim to priority and now President Fallieres has accepted the presidency of a company formed to erect a monument to Romas as the real inventor of the lightning rod.

FINALLY DECIDED TO FINISH THE SEASON

The disagreeable weather on Saturday interfered considerably with the attractions that had been planned. A drizzly rain started in the morning and made the first half holiday of the season a most unpleasant one. The weather necessitated the postponement of the baseball matches scheduled to take place. There was a bitter disappointment among the fans, who had anticipated interesting exhibitions.

SEVERAL CONGREGATIONS CONDEMN SUNDAY TRAINS

Several churches in the city and on the West Side have already registered a strong protest against the operation of Sunday trains on the Canadian Pacific system. Opposition to the traffic on the Sabbath is general in every denomination. It is pointed out by the opinion is against the running of the trains and that the ultimate result will be the discontinuance of the service. On the other hand, the railway officials contend that the travelling public demand the running of Sunday trains. It is not long since the Evangelical Alliance at a regular meeting passed a strong resolution against the operation of a Sunday service on either the Canadian Pacific or Intercolonial roads. While the latter railway system has decided against the operation of the trains, the Canadian Pacific officials have reached a definite decision to continue the Sunday service. The running of the trains yesterday revived the protest. Practically the entire number of churches on the West Side united at yesterday's services in a protest against the operation of the trains. The congregations were unanimous in condemning the action of the C. P. R. officials. But this is not all. The resolution passed by the Evangelical Alliance will be again brought to bear. It is also expected that the running of the trains will revive the Lord's Day Alliance meetings. That body has been inactive in the matter, awaiting its disposition by the Evangelical Alliance, at which all the ministers are members. However, it is the resolution passed by the Evangelical Alliance in the near future and another protest entered. There is also some likelihood that the churches in other parts of the province will protest against the service. Various reasons have been advanced against the operation of the trains. Outside the desecration of the day of rest, the most serious objection is the compulsion of the company to work on Sunday. It is pointed out by the railway authorities, however, that the men who work Sunday are allowed off another day of the week. At the evening service in the Charlotte street Baptist church yesterday the following resolution was adopted: "Resolved, that this congregation greatly deprecates the institution by the C. P. R. of a Sunday train service touching St. John and other centres in New Brunswick; and they protest against this desecration of the Lord's Day and request that the C. P. R. will reconsider their action in this matter and in deference to the wishes of the people of New Brunswick discontinue the Sunday train service recently introduced." The resolution was moved by D. C. Clarke and seconded by J. S. Clarke. It was adopted without a dissenting voice. At St. George's church, West End, it was the unanimous wish of the entire congregation that the pastor, Rev. Sampson, should send a written communication to General Superintendent Downie of the Canadian Pacific protesting against the continuation of a Sunday train service. At St. Jude's church on the West Side similar action in the matter was taken at a meeting. Rev. W. R. Robinson, pastor of the Leflow street Baptist church, is also strongly opposed to the operation of Sunday trains on the Canadian Pacific system. A number of other clergymen have also expressed themselves as displeased with the action of the railway officials.

EXPEDITION LEAVES THIS MORNING FOR SUPPLY DEPOT

NEW YORK, July 3.—Capt. Samuel W. Bartlett of Brigus, Nfld., and Herbert L. Bridgman of Brooklyn, have purchased and are equipping for a voyage to Etah, North Greenland, Peary's base station, the 88 ton schooner Jeanie, of St. Roberts, Nfld., about July 15. The Jeanie will be the only vessel so far as known, from America, to enter Melville Bay and Smith Sound to help Hans Henny Hooten and Capt. Peary's expedition. The Morning, Captain Adams, has gone from Dundee, Scotland. The objects of the cruise are to deposit coal at Etah for Peary's Roosevelt, upon her homeward voyage from her winter quarters in the winter for Musk Ox shooting. The expedition, in which case Commander Peary would assume authority over both ships. Capt. Bartlett is one of the most experienced and successful Arctic navigators, having had command of Peary's Diana in 1884; Windward in 1890, wintering at Peary Harbor, Cape Sabine; and Erik in 1898 and is an uncle of Captain Robert Bartlett, commanding the Roosevelt.

GENERAL BOTHA TO OFFER LARGE SUM FOR RHODESIA

CAPETOWN, July 4.—It is reported that Gen. Louis Botha, of Rhodesia, that Gen. Louis Botha, premier of the Transvaal, at the request of the South African National Convention, will offer the chartered South Africa Company \$1,000,000 for the purchase of Rhodesia by United South Africa. LONDON, July 4.—General Botha is on his way to England and it is expected that he will open negotiations for the acquisition of Rhodesian territory in the north. Rhodesia for the Transvaal, it is understood that the chartered South African Company is willing to sell this territory and return to the Transvaal only by dog sledges. Bishop Rowe of Alaska, who is very fond of that kind of travel, one day met a miner coming out with his dog team, and stopped to ask him what kind of a road he had come over. "The miner replied with a stream of forcible words, winding up with: "And what kind of a trail have you had?" "Same as yours," replied the bishop, feelingly.

In Substantial Accord

(Youth's Companion). At present, writes Professor Albert Bushnell Hart in the Boston Transcript, the winter highways in the Yukon Valley are more trails favored only by dog sledges. Bishop Rowe of Alaska, who is very fond of that kind of travel, one day met a miner coming out with his dog team, and stopped to ask him what kind of a road he had come over. "The miner replied with a stream of forcible words, winding up with: "And what kind of a trail have you had?" "Same as yours," replied the bishop, feelingly.

AMUSEMENTS.

NEW VAUDEVILLE AT THE PRINCESS TODAY.

Beginning tonight a brand new vaudeville programme is offered by the Princess management. The star feature this week is J. W. Cooper, America's only colored ventriloquist. The management have been put to a lot of trouble and great expense in bringing this attraction to the city. Advance notices received of this act say that it is one of the best of its kind ever presented in this city. Next on the programme is Rollins and Carmen, a lady and gentleman who introduce some very funny tricks on the banjo and who play some music that is of the best. Owing to popular demand the management have retained Jordan and Gertrude, those peerless singers, for another week. No singers heard in St. John for a long time have made such a signal success as Jordan and Gertrude. Be add on page 2 for programme. The complete programme will arrive for the evening show. Be early.

NICKEL'S NEW FEATURES TODAY.

On the noon train from Montreal today they met Harrington, the youngster that completely captivated St. John, will arrive to make more fun for Nickel patrons. He is cuter and funnier than ever and has lashings of new songs and costumes. His opening number will be that tremendous New York comic, I Love My Wife but O You Kid, which he does to the tune of croons after success. But is a prime favorite with the little ones and is sure of a hearty welcome from them. He will be heard for the first time at 2.30 matinee. Every show after that, Holmes and Buchanan are to put on a regular grand concert programme, all high class selections. Miss Holmes will sing the Intermezzo from Cavalleria Rusticana; Mr. Buchanan, The Pilgrim's Song, from Tannhauser, and in due time render Home to Our Mountains, from Il Trovatore. Music lovers are going to enjoy a real treat. In the picture department the bill is a strong one as well, as follows: The Foundling, or Dressing Room Waltz; The True Love, and A Skylark Theatre Sea. This is a good mixture of pathos, drama and fun. Orchestra as usual.

THE LAST ROSE OF SUMMER AT HAPPY HALLOWEEN.

For weeks numerous requests have been made by patrons of the Happy Half Hour for Mile. Berlin to sing The Last Rose of Summer, so today she has chosen this delightful and popular favorite for her number. It is safe to say that this song will make as big a hit as old Annie Laurie, and patrons are still asking for that. Signor Bertini will sing Mia, Poon by Poon, and his magnificent tenor voice will be heard to splendid advantage. Music lovers should not miss these two numbers today, and should also note that the Berlin's engagement is rapidly drawing to an end. New pictures and no reports will be shown. The acoustical Double is a very strong dramatic detective story. The scenes are laid in Monte Carlo and some splendid scenery is shown. Two other new pictures will arrive on the noon train.

THREE BLIZZARDS AT THE BIJOU TODAY.

Hardly necessary to mention more than the name of Blizzard to many of the citizens, as these people are already known as the greatest feature of musical people in town possession, and that the Bijou has secured them for a few days will be joyous news to all who enjoy good sweet harmony in all its simplicity. The brothers, John and William, will be heard in their great laughing song, and for those who are fortunate enough to hear it we predict one of those side splitting music shaking fat producing laughs. Miss Annie Blizard, their charming little sister, with the voice of wonderful volume and acknowledged sweetness, will be heard in one of her popular selections. Pictures of the drama, comedy and transformation order go to make up one of the best and biggest five cent entertainments it has ever been the pleasure of this house to offer the amusement going public. The Blizzards will be heard at both afternoon and evening performances.

SMUGGLER'S DAUGHTER AT "STAR".

The little Star Theatre in North End has gotten one of the best dramatic pictures of the year for its headliner tonight in the scenic production, "The Smuggler's Daughter," a thrilling tale of the seashore, with pathos and love-making intermingled. There are to be three other comedy and dramatic pictures, and Al. Weston in illustrated songs. The Star is holding its popularity well and there's a reason. Ask anybody who goes there.

BREAKING THE NEWS.

There is a Spanish settlement in the town of Galway called the Claddagh, where they have laws and customs peculiar to themselves as betis a race that came from the wreck of the Spanish Armada, settling there, and even an outcast, parcelling out a piece of ground that they have kept entirely to themselves for over three hundred years. Patrick Clancy did not belong to the Claddagh or the Spanish. He was native Irish, and his ancestry was entirely Irish. But he came home one wild March morning very much the worse for wear; one eye was closed, his nose was broken, and his face was all bulged out as though it had been stung by bees. "Glorie he," said Bridget, his wife; "and what ails ye?" "Twas that dago, Ramirez, of the Claddagh—twas him," explained Patrick. "Oh, and the shame on ye," exploded his wife without sympathy. "A big lubber, the lubber of you, to get beat up by a wee omnibus of a Claddy the size of Romzeal." "White, Bridget," said Patrick. "Don't speak so disrespectful like of the dead."

TELEPHONE:— BUSINESS OFFICE, 25. EDITORIAL and NEWS DEPT., 117. ST. JOHN STAR.

ST. JOHN, N. B., JULY 5, 1909. MR. ST. JOHN'S SUGGESTION.

Mr. William T. Stead, the self-constituted transfer station and post office between this material world and spirit-land, has a new idea. Mr. Stead is never happy accepting when expressing his most erratic views, or when showing up the insignificance of prominent men in comparison with himself. In the current issue of the Review of Reviews, he has, becoming modestly appreciative of the entire credit for the institution of Empire Day, and with this as a starting point goes on to discuss other holidays. Mr. Stead declares with all gravity that while Empire Day is a great achievement on his part, he unfortunately made a mistake in selecting the date. It should not be May 24th, as is observed in Britain, but rather July 4th. The natal day of the United States is in his opinion the proper occasion for glorification on the part of the British Empire.

By choosing the glorious Fourth Britain would be paying a direct compliment to Washington, the foremost Briton of his century, and the one who more than anyone else served the best interests of the empire. And at the same time the nation would be remembering the day on which it was taught its most convincing lesson in colonial government, a lesson which has never been forgotten and which has been the source of excellent results in other undertakings.

JUVENILE DELINQUENTS.

Beginning with next fall there will be no child criminals in the State of New York. In the eye of the law, as the result of recent legislation, which goes into effect on September first, no child who commits what would in an older person be called a crime, will be branded as a criminal. By this law when a child sixteen years of age or under is charged with an offence which in the case of his elders would be punishable by fine or imprisonment, a specific charge of larceny, burglary, theft, or whatever it may be, will not be entered against him. He will instead be prosecuted only for a misdemeanor and instead of being classified as a criminal will be known to the law only as a juvenile delinquent. When it is deemed necessary to remove a boy from his home and to confine him to a while he will not be sent to the common jail but to a juvenile reformatory or some charitable institution on a probation system.

REMARKABLE CLOCK THAT DOES NOT TICK

Will Go for One Thousand Days in Any Position and Without Attention. LONDON, July 4.—A clock which is absolutely silent, so that not the slightest ticking is heard, that is guaranteed to go for 1000 days without requiring the slightest human attention, and that will keep correct time in any position—even upside down—such is the Eureka electric clock, which was submitted for the inspection of the king by Signor Kutnow, chairman of the Eureka Clock Company. The simplicity and science of the mechanism of the invention are remarkable. The clock is an entirely new departure. It is unlike the old timepiece, with its weights, wheels and pendulums, as can possibly be imagined. Its dial hands are moved by direct impulse from the electric current. Hitherto, attempts at making a self-winding clock have failed, owing to the complexity of the mechanism. There is, however, practically no mechanism, in the ordinary sense of the word, in the Eureka clock; such works as it has run on ball bearings large enough for a bicycle, so that the friction is almost nil. The manufacture of this clock is destined to revive the clock-making industry which has been taken from England by German, Swiss and American competitors.

MILLIONAIRE MUST GO TO PRISON.

SAN FRANCISCO, July 3.—The Supreme Court of California today decided that William H. Bradley, a millionaire, must serve one year in prison for perjury, in giving false testimony in a suit involving some land.

be in the direction of reforming him is generally recognized and this policy is of especial importance in the case of the children. Every boy saved from a life of crime, is a distinct asset to the community in which he lives, while everyone who is driven along that road by mistaken treatment constitutes a liability which the community will have to meet at a later date. It has always been found that the care and attention given to youthful offenders have paid well. A start has been made in this city in the adoption of a modern policy in the treatment of the youngsters who show signs of going wrong, but there is still much to learn and much that has been learned by experience in other places which could profitably be adopted here.

THE TRUTH, THE WHOLE TRUTH

"You have never told me anything about your past," she said timidly. A troubled look came over him. He knew that, broad up—got through engaged nearly a month, he had certainly been negligent in that direction. "I suppose I ought to say something about it," he said. "Promise—to tell me all." "Do you mean that?" "Everything." "I've led a pretty hard life, I guess. In college there was a time when I didn't do much else but back the tiger." "Dearest," he said, "I'll make a clean breast of it. Of course I realized that it had to come. Still—"

LANDS ON TOP OF  
BUSINESS BLOCKS  
Boston Aeronaut is Rescued  
From His Perilous  
Position

BOSTON, July 3.—The first department was called out tonight to rescue an aeronaut who had fallen with his balloon on the business blocks on Washington street and was hanging over an alleyway between the seven and five story blocks at the corner of Washington and Milk streets.

An extension ladder was raised by the firemen and Joseph J. Cannon, aged 37 years, of 29 Howard street, was taken down unhurt. The man had made an ascension an hour earlier in a hot air balloon as the closing feature of a church fair in Cambridge. The balloon had floated across the Charles River and Boston Common and bearing cooled dropped with its burden just as it crossed Washington street, where the cries of the aeronaut had attracted a large crowd.

Cyclone in the West Caused Several Deaths  
—Fire Sufferers in Cobalt Suffer  
From Exposure.

CHARLOTTETOWN, July 4.—While Alexander C. Gallant and his brother were in their sail boat on Saturday it sank without warning. Alexander was carried some distance away and as he had heavy boots and old clothes on, was unable to reach the boat and sank. His brother, who caught the boat and held on was rescued in an exhausted condition.

WINNIPEG, July 4.—Despatches show that the cyclone which swept southern Saskatchewan adjacent to the Manitoba boundary, wrought more damage than was at first thought. In the Gainsborough district, three persons were killed, and nearly half a hundred injured. Near Carleton Place several homes were completely destroyed and a child killed.

EDMONTON, Alta., July 3.—The great lone land of the Arctic interior is shortly to be connected with the outside world by wireless telegraph if the experiment of the government expert, G. Noh, warrants it. A station will be erected at Peel River, 2,000 miles north of here, and from there messages will be despatched to Esau, whence they will be relayed to Valdez, on the Alaskan coast, and from there through various stations to Vancouver, Mr. Noh expects to be able to open communication without erecting a tower, as there are high hills in the vicinity upon which instruments will be placed.

OTTAWA, Ont., July 4.—Her Excellency Lady Grey and Captain Newton, A. D. C., are ill with scarlet fever at Government House. Both patients are making favorable progress. The disease was contracted during Lady Grey's visit to Toronto, on which she was accompanied by Captain Newton. It developed on the return journey on Thursday.

CORVAL, Ont., July 4.—Suffering was intense last night among many of the inmates who preferred to spend the night sitting on the benches of their belongings to being taken to shelters provided. The relief train arrived from Toronto, on which she was accompanied by Captain Newton. It developed on the return journey on Thursday.

NORTH STONEY, N. S., July 4.—According to reports from the Grand Banks a new phase of the fisheries trouble has arisen that is likely to have serious consequences. It is well known, a large fleet of fishing schooners from France annually come to the banks to engage in fishing, and as the problem of securing bait is frequently a serious one, the practice has been resorted to by a number of captains of these vessels, of boarding other craft, notably Newfoundland and Canadian vessels, and forcibly taking bait from them.

"Here, Benny," said Mr. Bloom-bumper to his young son, as the latter started to climb, "are a shilling and a penny. You can put which you please in the contribution box."  
Benny thanked his papa, and went to church.

From the Text  
(Continued.)  
"Well, papa, it was this way. The preacher said the Lord loved a cheerful giver, and I knew I could give a penny a good deal more cheerfully than I could give a shilling, so I put the penny in."

"So I commenced to use Grape-Nuts with cream twice a day and in a short time I began to improve in every way and I am now much stronger, feel better and weigh more than ever before in my life."

From the Text  
(Continued.)  
"I know that all of this good is due to Grape-Nuts and I am firmly convinced that the claims made for the food are true."

From the Text  
(Continued.)  
"I have recommended, and still recommend, Grape-Nuts to a great many of my patients with splendid results, and in some cases the improvement of patients on this fine food has been wonderful."

KAISER WILL  
SAIL NORTH  
Not to Abandon  
Summer Trip  
Three Persons Are Named  
as Successors to  
Von Buelow

BERLIN, July 3.—In spite of the international political situation Emperor William has decided to take his customary summer cruise in Northern waters, which it was recently reported to be postponed. There is nothing in the situation that he cannot deal with by telegraph. He will leave for the North coast of Sweden on July 6, where the two monarchs will inaugurate a new steaming line between Sweden and Germany.

Opinion in the higher political world is settling upon one of three persons to succeed Chancellor Von Buelow. These are Dr. Bethmann-Hollweg, Minister of the Interior, and President of the Reichstag, Herr von Rheinbaben, Prussian Minister of State and Finance, and Count von Wedel, Governor-General of Alsace-Lorraine. The report sent to America that Count von Schwarzenstein, the Ambassador to Japan, have been mentioned as possible successors to Von Buelow appears to have originated solely for American consumption. There is no knowledge of such a rumor in responsible quarters.

HEAT TOO MUCH FOR  
SIR ARTHUR STEPNY  
Naturalized American Dies  
Suddenly at Yuma,  
Arizona

YUMA, Ariz., July 3.—A second coroner's inquest was held today over the body of the man supposed to be Sir Arthur Cowell Stepany, baronet, of London, who died suddenly in the Southern Pacific station here yesterday. It was proved he had suffered greatly from the heat, and that, coupled with a weak heart attack, had caused his sudden end. Examination of the papers found among the dead man's luggage shows him to have been born in Germany of English parents about seventy years ago. He was a naturalized American, papers having been taken out at Los Angeles in 1906. No letters from relatives have been found among his possessions, but a mass of correspondence shows him to be an antiquologist of note, brought to the desert at this season by the desire to increase an already extensive collection of basins. No replies have been received to cables sent yesterday to the London solicitors, pending which the body is held at a local undertaking establishment.

DIVORCES ON  
THE INCREASE

FREDERICTON, N. B., July 4.—Leo McGovern, of Fredericton Junction, who was brought here to be operated on at Victoria Hospital for appendicitis, died this morning. He was 21 years old and unmarried. Body was taken to the Junction on the 5.40 train this afternoon.  
The July sitting of the New Brunswick divorce court will open here on Tuesday morning next, when Judge McKewen, the newly appointed divorce court judge, will take his seat for the first time. The docket is said to be the largest ever entered in the history of the court, and in all probability the session will last several days. Up to the present time five cases have been entered, two of which are defended. Two other cases may be entered before the court opens on Tuesday.  
Archdeacon Newburn of St. Stephen presided at both of the services at the Cathedral today. Next Sunday Rev. Canon Neales will occupy the pulpit—this church.

GOVERNOR'S PLUCK  
AVERTS CALAMITY

EDMONTON, July 3.—Lieut. Governor Huley, Hon. Chas. Murphy and Dr. McIntyre, M.P., figured in a mix-up yesterday which might have been serious but for the heroism and pluck of the Lieutenant Governor. His horse was driving the Secretary of State and Dr. McIntyre about the exhibition grounds when a plank run over by him wheel up-ended the rising side of the carriage, throwing the Lieutenant Governor to the ground. He pluckily clung to the reins and brought the excited team to a standstill after being dragged some distance. No one was injured.

ACADIA SELECTS  
PROF. PATTISON

WOLFVILLE, N. S., July 4.—Prof. Sidney F. Pattison, recently professor of English literature at State University, Colorado Springs, Colorado, has accepted the chair of English literature at Acadia University. He is the son of the late Dr. Pattison of Rochester, N. Y., who a few years ago delivered the baccalaureate sermon at Acadia.

NUMBER OF FATALITIES  
Premature Celebration of July 4th Adds to  
the Exultation and the List  
of Deaths.

LETITON, Mass., July 4.—Morris C. Cooke, 16 years old, lost his life by drowning while sailing on Long Pond today by the capsizing of his boat. His body was recovered by swimming Gabriel left a widow and one child.  
BOSTON, Mass., July 4.—George H. Granin, a New York attorney, died last night at the Hotel Vendome, while on a return to Maine to attend the summer. Attorney Granin was 70 years of age.

DETROIT, Mich., July 4.—The drowning of four men brought a Fourth of July fishing excursion to a sad end on the Detroit River today. The men were in a small gasoline launch in the middle of the river and when they attempted to change places in the boat, the launch capsized.

PORTLAND, Me., July 4.—The thirty-foot motor boat Katherine M., owned by William H. Dugan and containing five men, who were returning from Long Island, was struck near Peck's Island tonight by that of Le Roy, the boat of Daniel Hogan, one of the occupants was thrown into the water and had his head injured. The boat was taken to a hospital and was unconscious for a short time. John F. Greene was also thrown into the water, but was not injured. Six of the men jumped aboard the Swamson, and so were sent for and the ambulance called out.

INDIAN TIRES  
TO END LIFE

Family trouble is believed to be the chief cause of Mary Murphy's attempt to commit suicide by taking carbolic acid yesterday afternoon.  
Miss Murphy resides on Brunswick street, and after some family trouble she produced a fair sized bottle of carbolic acid, which she commenced to consume, but the bottle was dashed from her hand before she had taken any great quantity. Dr. Barry was sent for and the ambulance called out. Dr. Barry was soon upon the scene and found his patient suffering from the effects of the burning acid, but in no way in a critical condition. The would-be suicide would not be taken to the hospital.

OTTAWA, July 4.—An official report of the crop conditions in Manitoba, received yesterday by the department of agriculture, from Dr. Saunders, director of experimental farms, states that crops throughout the province are looking very well and under favorable weather conditions are making rapid growth.

### THE PLAYGROUND WAS OPENED THIS MORNING

Crowds of Children on Hand to Share in the Fun—All in Readiness by Tomorrow.

From all sections of the city children flocked this morning to the Centennial playground, which was opened at 10 o'clock. The fine weather brought numbers of children to the grounds as early as 9 o'clock, and there was a joyous rush into the grounds when the gates were thrown open.

The attractions are numerous and the children spent a most enjoyable morning. Everything will be in readiness by tomorrow, when a banner attendance is anticipated. Probably the greatest source of pleasure at the grounds this morning was the slide. Scores of children were anxiously awaiting their turn. In fact throughout the whole morning the slide was continuously in use.

The croquet plot in one corner of the grounds is looking beautiful. It is planned to play a number of games during the afternoon. The tennis will also be in readiness this afternoon.

To the larger children, particularly the boys, the basket ball court is a good one and the ball is a beauty. Interesting games are expected to take place during the season.

At the grounds today the erection of the fire-escapes on the Centennial building was being rushed. However, the work will in no way interfere with the enjoyment of the children.

During the absence of Miss Isabel Peters, the playground is being directed by Mrs. D. P. Chisholm, who is also acting as accompanist. Miss Nina Robertson is the chief supervisor, with Miss Buckman as assistant.

The playground committee of the Women's Council, under whose auspices the grounds are being conducted, deserve congratulation upon the success of the opening day. It is to be hoped that there will be an earnest response to any request for funds from the committee.

### HE EARNS HOLIDAYS IF ANYONE DOES

But John Collins, Who Spends His Days Helping Holiday Seekers, Gets No Vacation Himself.

John Collins, the stalwart I. R. C. policeman, is watching the holiday throngs begin to come and go these days with a rather wistful expression on his face. If he knew his own holidays were approaching soon he would feel a little more cheerful. He has to answer all the fool questions hurled at him by the happy trippers on their vacation. He does not have that consolation, however. For about thirty years he has been wearing the uniform six days a week all the year round, and now with the advent of the Sunday trains it is seven days in the week or 365 days in the year. His hours are particularly short either, running as a general thing between 10 and 12 hours a day. It would strike the average person that if anyone was entitled to a vacation with full pay once a year he is, any rate he does not get any holidays.

### PASSENGERS HAD TO SIT UP ALL NIGHT

Excursionists to St. Martins on Dominion Day Did Not Reach St. John Until the Next Morning.

Those who depended on the St. Martins Railway on July 1st got sadly left. The afternoon train left St. Martins all right but did not reach Hampton on schedule time. It met with an accident half way that disabled the engine and repairs were not made and the train started again until late that night. The passengers had to make the best of it and make themselves as comfortable as possible in the cars over night. They reached Hampton on Friday morning and those bound for St. John got in on the Maritime Express at 10:40.

### THE MOOSE PATH RACES

Preparations are steadily advancing for the Moosepath track meet in the latter part of July. Everything is being done to make the meet the most successful ever conducted on the track. The fastest horses in the Maritime Provinces and Eastern States will compete in the various classes.

John Ross, secretary of the Driving Association, has been busy arranging the entries. He hopes to have the list completed this evening. Mr. Ross states that all the flyers at the Fredericton meet will participate in the events at Moosepath Park.

It is the intention to put Moosepath in first class condition and a crew of men will be put at work immediately with this object in view. Announcement of the officials for the big racing events will be forthcoming shortly.

The Woodstock race on July 8, 9 and 10 are the next on the Maritime programme. Fred Duncan's fast string will face the starter in the races.

### WM. McLEAN IS NEW SCHOOL INSPECTOR

Appointment Will be Made on Wednesday

Is One of the Oldest Teachers in the City—Several Names Mentioned for Principals of Aberdeen School.

It has been decided that William M. McLean will succeed to the position of District School Inspector, lately made vacant by the promotion of William S. Carter to the chief superintendency of the province.

The Board of Education will meet on Wednesday, when this appointment will be formally made. The new inspector will take charge immediately. The duties will be the same as those performed by Mr. Carter.

Mr. McLean has long been active in connection with the public school life of this city. For upwards of forty years he has labored in various classes. Since the erection of the Aberdeen School Mr. McLean has been principal.

There were other names mentioned in connection with the position including Thomas Powers and Samuel A. Warrell.

The appointment of Mr. McLean creates a vacancy in the principalship of the Aberdeen School. Roderic Stoves of the High School staff, and John McKinnon, principal of the Metcalf School, are spoken of as possible successors to Mr. McLean. The latter appointment, however, will be made by the Board of School Trustees and it is quite probable there will be a large list of applicants to choose from.
