STEADY PRESSURE OF BRITISH ARMS IS FORCING AN EVER-DEEPENING SALIENT INTO GERMAN LINES

Improve Position Along Almost Whole Front, Capturing by Assault 1,500 Yds of German Second Line Positions North of Bazentin-Le-Petit Wood, Besides Completing Capture of Ovillers Village

BRITISH ALMOST AT THE CREST OF ALBERT PLATEAU

Advance of Past Few Days Brings Them Within Striking Distance of Enemy's Whole Third Line—British Public Enthusiastic and Ready to Cheerfully Take up Increased Financial Burden which New Drive Makes Necessary.

London, July 17.—The successes of the Entente Allies are following each other with great rapidity. Today brought news of further important gains for them on both the western and eastern fronts, arousing enthusiasm among the British public hardly less than that caused by the reception of the first news of the Allied offensive.

The despatch of Gen. Sir Douglas Haig today shows that the steady pressure of the British arms is forcing an ever-deepening salient into the German lines, and the commander-in-chief, for the first time, produces evidence in the shape of documents captured from the Germans giving testimony as to the high price the Germans are paying in casualties.

The British have improved their position along almost the whole of their line of the battle front, capturing by assault 1,500 yards of German second line positions north of the Bazentin-Le-Petit Wood, a strong German position at the Waterlot Farm, between Longueval and Guillemont, besides completing the capture of the whole of the village of Ovillers La Boisselle. These gains bring the British almost to the crest of the Albert plateau, where stretches the German third line.

The news from the eastern front today was equally important. The Russian commander, General Kuropatkin, has launched an offensive against Field Marshal Von Hindenburg on the Dvina river, and Gen. Von Linsingen's troops southwest of Lutsk, have been compelled to retire behind the Lipa river, while in the course of Sunday's fighting in Volhynia the Russians captured an additional 13,000 prisoners and thirty guns. Gen. Von Linsingen's retirement, according to the Petrograd military critics, represents a great Russian tactical success. It was preceded by heavy fighting, in which the Russians smashed the Teuton front on a width of a mile and penetrated several miles into their positions.

British People Gladly Accept New Burden.

The war is now costing Great Britain £6,000,000 daily, but with such news as the success of the Entente Allies this sacrifice is nowhere grudging.

While the powers of endurance of the Teutonic allies, should they be forced to act entirely on the defensive, have still to be tested, the British nation is full of confidence. It is taking nothing for granted, however, but is fully prepared to acquiesce in the advice of its leading ministers, like Foreign Secretary Grey and Chancellor of the Exchequer McKenna, who are publicly exhorting the nation to the need of patience. Mr. McKenna announced in parliament today that the daily cost of the war was £6,000,000. He told the house that nobody could estimate what the nation's war expenditure might be a month ahead. He also intimated that it would become necessary this week to ask parliament for fresh borrowing powers.

Vienna, via London, July 17.—The Austro-Hungarian official communication issued today says:

"Southwest of Lutsk the Russians attacked with superior forces near Skilin, under the protection of a German counter-attack the allied troops south of Lutsk were withdrawn behind the Lower Lipa, un molested by the enemy."

The Official Statement.

London, July 17.—The statement follows:

"Further important successes have been gained by us. Northwest of Bazentin-Le-Petit Wood we stormed and captured German second line positions on a front of 500 yards. The large number of German dead in this sector bears evidence of the very heavy casualties which the enemy has suffered since our advance began."

"East of Langueval we still further widened the gap in the second German line by capturing the strongly defended position of Waterlot Farm."

"On our left flank, in Ovillers and La Boisselle, where there had been continuous hand-to-hand fighting since July 7, we captured the remaining strongholds of the enemy, together with two officers and 124 guardsmen who formed the remnants of the brave garrison. The whole position is now in our hands."

"In the Somme sector the Berlin war office admits, British penetration of Ovillers Wood. Emperor William is reported at the front in the Somme sector."

"In the Verdun region the French

NEW PEACE PARTY IN HUNGARY

Headed by Count Karolyi and Demand Immediate Peace Between Hungary and Allies Whether or Not Germany Consents.

London, July 18.—Count Michael Karolyi has resigned from the presidency of the Hungarian Independent party, according to a Budapest despatch to the Morning Post, and will form a new party, which will demand immediate peace between Hungary and its enemies, with or without the consent of Germany and Austria. Count Karolyi's peace party, the despatch adds, will start with a membership of seventy members of the Hungarian parliament.

Count Karolyi caused a sensation in the Hungarian parliament in December 1915, when he demanded that the government should make peace proposals to the enemy powers. The Budapest correspondent of the London Post quoted Count Karolyi as contending that Hungary had achieved everything she desired by the war, had saved the country from invasion, and had preserved the monarchy and throne, and that the Hungarians had a perfect right to come forward with their claims for compensation. He argued further that the political unity of the Hungarian nation should be required; that all the attributes of a national state, as well as economic independence, should be granted, and that, above all, peace should be restored.

"We have given proof enough of our physical courage," Count Karolyi was quoted as saying, "Now we have to show our moral courage."

THREE MORE VICTIMS OF SUBMARINES? NEW RIFLE WILL BE SHORTER THAN THE ROSS

The Euphrobia, a British Steamer, the Sirra, Italian, and Virginia Believed British Vessel, Reported Sunk. Will Have "a Straight Pull" and Finer and More Accurate Sight than Rifle Now Used by Canadians.

London, July 17.—Lloyd's reports the British steamer Euphrobia, the Italian steamer Sirra and the steamer Virginia (probably British) sunk. The Euphrobia measured 3,837 tons. She was built in 1907 and belonged to the Stag Line, Limited, of North Shields. She was last reported bound from Calcutta, June 4, for London. The Sirra was last reported having passed Gibraltar, June 27, bound from Norfolk for Genoa. The British steamer Virginia was of 4,379 tons; built at Glasgow in 1901, and belonged to the Virginia Steamship Company of Glasgow. She was last reported arrived at Marseilles, June 18, Santa Cruz, Cuba.

Special to The Standard. Ottawa, July 17.—The sensation of the hour at Ottawa was the abolition of the Ross rifle as the war weapon of the Canadian troops and the substitution of the British rifle.

Whether the new rifle is to be named the Lee-Enfield or simply the Enfield is not yet definitely known, but probably it will be the latter. Two changes mentioned by Sir Sam Hughes are that it has "a straight pull," and that the sights are finer and more accurate. It is shorter than the Ross. Several million dollars have been spent upon the Ross rifle by both governments, and it has been subjected to a great deal of criticism. However, it has also had just as strong supporters as critics. It was introduced as the Canadian arm by Sir Frederick Borden, and although the Conservative opposition fought it strongly at the time, it found a warm supporter in Gen. Hughes, who was the leading military critic of the Conservatives. Since the Canadian troops went to the front the Ross rifle has been vigorously condemned and by no less an authority than General Alderson, commander of the Canadian forces. However, General Hughes intimated that the rifle had been improved and that defects in the ammunition which had caused the rifle to jam, had been removed. Since the war began the output of the Ross factory at Quebec has been very much increased. The gauges and specifications of the new rifle are on their way. The old Ross rifles which will be called in will be remodelled according to the new specifications.

The announcement that the Ross rifle had been abandoned came as a complete surprise. It was thought it would continue to be the arm of the Canadian militia. However, the introduction of the Ross rifle features and the desire to have a uniform weapon for the Empire, have made the general adoption of the new weapon necessary. While the barrel of the rifle will be shorter, the bayonet will not be longer. Modern trench warfare has made the short rifle more convenient, and is, generally speaking, only used in close work.

SIR RIDER HAGGARD ARRIVES IN OTTAWA.

Ottawa, July 17.—Sir H. Rider Haggard, the distinguished British author, arrived in Ottawa today on his empire tour in behalf of the Royal Colonial Institute to study facilities for settlement and employment of ex-soldiers after the war. He has already visited Australia, New Zealand and South Africa, and the scheme has met with sympathetic responses everywhere. Rhodesia has given half a million acres, and the other countries will act in accordance. Sir Rider says the premier and the members of the economic and development commission today.

DOCUMENTS CAPTURED BY BRITISH SHOW PRICE ENEMY PAYING IN CASUALTIES

London, July 17.—The following documents, captured by the British in recent attacks, are of interest as showing the very heavy casualties which the enemy has suffered in recent fighting:

From a company of the Sixteenth Bavarian Infantry Regiment to the Third Battalion, Sixteenth Bavarian Infantry: "Severe enemy artillery fire, all calibre up to 28 centimetres on company sectors. Company strength, one officer, 12 men. Beg urgent speedy relief for company. What remains of company so exhausted that in case of attack by the enemy the few totally exhausted men cannot fight on."

From another company of the same regiment to the Third Battalion, Sixth Bavarian Infantry Regiment: "Very heavy and intense enemy fire on company sector. Completely lost its fighting value. Men left so exhausted they cannot longer be employed in fighting, if heavy artillery fire continues company will soon be entirely exterminated. Relief for company urgently required."

From the Second Battalion to the Third Battalion, Sixteenth Bavarian Infantry Regiment: "Battalion has just received orders from Lieut.-Col. Kummte that it is placed under orders for the Third Battalion, Sixteenth Bavarian Infantry, as a section of the reserves. Battalion consists at present time of three officers, two non-commissioned officers and 19 men."

Russians Take 13,000 Prisoners in Sunday's Fighting

Czar's Armies Score Great Tactical Success Smashing Teutonic Line on Width of Mile and Penetrating Several Miles into Enemy Positions in Lutsk Sector Driving Teutons Behind Lipa River.

London, July 17.—"An important victory is indicated for the Russians in the Volhynian sector. Berlin admits a retirement of General Von Linsingen's troops at one point while Petrograd announces the taking of some 13,000 prisoners during Sunday's fighting."

"Large captures of guns and material in the region of the Lower Lipa, where Petrograd reports continuance of Russian advance against stubborn Teutonic resistance, are announced in the Russian statement. Of 34 guns captured, 17 were heavy pieces."

Teutonic Resistance Breaks Down.

Petrograd, July 17, via London.—"In Volhynia, to the east and south-east of Sulin (Svinitsky) village, our brave troops, under General Sakaroff, have broken down the resistance of the enemy," says the Russian official report.

"In battles in the region of Pustomy more than 1,000 German and Austrian prisoners have been taken, together with three light guns, two heavy guns, machine guns and much other military booty. In these battles brave Gen. Vladimir Dragmoff was wounded in the leg by a shrapnel splinter."

"In the region of the Lower Lipa our successful advance continues. The enemy is making a stubborn resistance. In the battles in this region we took prisoner 228 officers and 5,872 men. We also captured twenty pieces, together with fourteen machine guns, a few thousand rifles and other equipment. We also have captured in this vicinity fifty-one officers and 2,185 men."

"The total number of prisoners taken on July 16 in battles in Volhynia is approximately 314 officers and 12,537 men. We captured thirty guns, of which seventeen were heavy pieces; a great number of machine guns and much other material."

"In the direction of Kiribaba, on the frontier of Transylvania, we have occupied a set of new positions."

"In the region of Riga skirmishes on both sides have been successful for us, and part of the enemy's trenches have been taken, together with prisoners."

"Caucasus front: The offensive on the frontier of our Caucasus front is developing. A great success was obtained by the Plastun division of Kuban Cossacks belonging to the column of General Gornostaff. The Turks set fire to the village of Balbut during their hasty retreat thence."

"The Bremen report, printed abroad that the new submarine Bremen is proceeding to Rio Janeiro is erroneous. It is believed here that the report was purposely circulated with a view to eliciting the real destination of the undersea boat."

"The Bremen left the Weser shortly after the Deutschland and strict secrecy has been maintained regarding her destination."

ROUGH PASSAGE FOR IRISH BILL THRO' COMMONS

New Party Representing Lansdowne Views Daily Gaining Ground.

BILL HELD OVER UNTIL NEXT WEEK.

Asquith Announces Whole Irish Question will be Submitted to Imperial Council After the War.

London, July 17.—Premier Asquith announced today that the new Irish bill would be introduced into parliament before the adjournment for the autumn recess, and repeated that the whole Irish question would be submitted to an imperial conference after the war.

It is understood that the bill will not be presented until next week, and in the meantime the delay is allowing opposition to crystallize which threatens trouble, and indicates that the measure is to have anything but a smooth passage.

An important meeting of a new party, representing the Lansdowne views of the Lloyd George compromise, was held in the House of Commons today. Seventy-six members of the House of Lords and ninety-eight members of the House of Commons were present, and it was said that the party is daily growing larger. Resolutions were carried by acclamation, declaring that the party "views with apprehension the attempt to establish an Irish parliament and executive so soon after the rebellion, and during the war, and welcomes Lord Lansdowne's assurance that the government will take necessary steps to suppress treason and sedition in Ireland and uphold the supremacy of the law."

AMHERST MAN IN AIR RAIDS ON HUN TRENCHES

Lieut. Hewson, Home on Furlough, Had Thrilling Adventures as Member of British Flying Corps.

Special to The Standard. Amherst, N. S., July 17.—Lt. G. Ellis Hewson, of the Royal Flying Corps, and a son of Mr. and Mrs. H. L. Hewson of this town, returned to Amherst on Saturday afternoon after passing through many harrowing experiences upon the other side of the Atlantic. Lieut. Hewson is on a brief sick furlough and must be back in England before the last of August.

For many weeks this Amherstian has been on the battle front, scouting high in the air with his aeroplane, securing information that will benefit the allied troops upon the western front. Lieut. Hewson in company with other planes took part in several aerial bombardments on the German trenches. Unfortunately he went up a few days later and at a great height above earth, slipped away into unconsciousness, not coming around until the plane was about a thousand feet from the ground. He repeated the experiment on the succeeding day and failed again, not coming to himself until the machine was but a short distance from terra firma. In a letter written home on the 21st of June Lt. Hewson said that he was unable to eat or sleep at night, and had been sent to a hospital in England.

Lt. Hewson on his arrival home showed the effects of his arduous experiences.

STRIKE AT PARLIAMENT BUILDINGS

250 Men Employed in the "Dump" Want More pay and Privilege of Smoking.

Ottawa, July 17.—About 250 men employed by P. Lyall & Sons on the reconstruction of the Parliament buildings went on strike today and as a result the work of demolishing the ruins is seriously handicapped. The men who worked in the "dump" have been receiving 25 cents per hour, as specified in the government fair wage scale, but claim that other contractors in the city are paying higher wages (30 cents per hour), and that they are entitled to the same consideration. Another grievance of the men is that they are not allowed to smoke. They also say that their immediate employers are not to blame, but that those "higher up" are responsible for the conditions. About 1,500 men are employed on the buildings.

FLOOD IN SOUTHERN STATES RECEDING

Loss of Nine Lives and Property Damage of 10 to 15 Millions of Dollars Estimate to Date.

Raleigh, N. C., July 17.—Flood waters which swept parts of North Carolina, South Carolina, Virginia, Tennessee and West Virginia yesterday, taking a toll of at least nine lives, rendering hundreds of persons homeless, and doing property damage variously estimated at from \$10,000,000 to \$15,000,000, were receding today. The worst obtained in western North Carolina, where the flood was described as the most disastrous in the history of that section. Asheville and its environs were the heaviest sufferers, but it probably will be several days before the full extent of death and destruction can be determined.

When Cutting Teeth Babies are Subject to DIARRHOEA.

When the baby starts to cut its teeth, then is the time that the poor mother is under the stress of great anxiety. For some reason or other the bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints occur; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow. When the child gets into this condition the bowels must be looked after very closely, and for this purpose we know of nothing that can equal Dr. Fowler's Extract of Wild Strawberry. This sterling remedy has been used for teething children, for over seventy years, by thousands of Canadian mothers who will swear by its efficacy. Mrs. R. J. Waldruff, South River, Ont., writes: "Two years ago my little girl had diarrhoea while cutting her teeth. She got thin and very weak. I had tried different remedies, but all to very little good. A friend recommended Dr. Fowler's Extract of Wild Strawberry, so I procured a bottle at once, and after she had taken a few doses I could see a change, and by the time she had taken half the bottle she was cured. I think every home should keep it on hand." The genuine "Dr. Fowler's" is manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price 36c.

BERLIN SEES PEOPLE ARE LOSING HEART

German Staff Asks Nation to Have Confidence in Army and Attempts to Belittle Allied Success.

London, July 18.—The German general staff has issued an appeal to the people of Germany for confidence in the conduct of the war, according to a Rotterdam despatch to the Daily News.

PARLIAMENTARIANS FROM DOMINIONS TO VISIT FRONT

Paris, July 17.—Thirty-three members of British colonial parliaments from Canada, Newfoundland, Australia, New Zealand and South Africa, arrived in Paris today and will visit the British and French fronts. Each delegation will go to the sector of the front held by troops from its own colony. Canada's delegation consists of Senators Landry, Belcourt, Dennis and Ross; Sir George Foster, Messrs. Rhodes, Shepherd, Nickle and Knowles. The French government has arranged an elaborate reception for the visitors. Premier Briand will give a luncheon for them tomorrow. Mrs. Wm. Fleming and Miss Fleming left yesterday for Fredericton on a short holiday visit.

DEUTSCHLAND A POTENTIAL WARSHIP

Both British and French Governments Make Representations to this Effect to U. S. State Department.

London, July 17.—The question of the possibility of a dispute between Great Britain and the United States over the status of the German commercial submarine Deutschland which arrived recently in the United States, was raised in the House of Commons by John Dillon, who asked Lord Robert Cecil, minister of war, to present immediately to parliament the communications which had passed between the two governments, and to undertake to keep the house fully informed of the course of negotiations in this matter.

Lord Robert replied that the correspondence was proceeding and that it should be published now. He would see that the suggestion to keep the house informed of the course of the negotiations was fully considered.

"Will you see," asked Mr. Dillon, "that parliament is not committed to a dispute with the United States without the house being given an opportunity of discussing the whole subject?"

Lord Robert replied: "I don't think the house would wish me to give such an undertaking as that, but I will present the suggestion to Sir Edward Grey."

Badly Wounded Daring Russian Airman Sticks To Work Until Finished

Petrograd, July 17, via London, July 18.—The official communication issued from general headquarters today reads: "A Zeppelin appeared yesterday above Riga and threw bombs on the lower part of the town. In Volynia, in the region of the Lower Dnieper, our troops continue to press the enemy. Prisoners are still coming in. Northwest of Kimpolung our cavalry have advanced along the Kiribabara-Marmaroshka line. The Emperor has sent the following telegram to Grand Duke Michael at Tiflis: 'With joy I learn that you have assumed the offensive. Regarding the victories gained by my Caucasian heroes, give them my warmest thanks and my confidence in their further determined devotion.' In an aerial fight above the enemy's positions west of Terek, our aviators distinguished themselves. Pilot Puchkel, with Observer Kovenko, while reconnoitering beyond Abell, was suddenly attacked from the rear by a German Fokker. Kovenko was wounded in the hand, but our machine turned back and attacked the enemy putting him to flight. Then our machine continued reconnoitering and completed its task. Beyond Rakishki the Fokker again attacked the same machine, successful shots causing much serious damage to the latter. Under the fire of machine guns the Fokker quickly disappeared, but soon returned and for the third time attacked our machine. Kovenko, notwithstanding his wound, plugged the hole in the radiator tank caused by the enemy's shot and prevented a disaster. He was wounded a second time in the stomach by a bursting shell, but despite the serious wound continued his work. He sat down at a machine gun and again began firing. The Fokker disappeared, and Puchkel gradually planned homewards, arriving safely at the aerodrome with Kovenko, despite the canons."

AMERICAN FIRMS PLACED ON NEW BRITISH BLACKLIST

British Government to Issue List Today Containing Names of 70 to 80 Firms and Individuals with which Residents of United Kingdom are Forbidden to Trade.

London, July 17.—The British government tomorrow will publish a list of from seventy to eighty business firms and individuals domiciled in the United States with which residents of the United Kingdom are forbidden to trade. This will be the first time that any American firms have been placed on the statutory list, which is better known as the trading with the enemy act blacklist. All other countries have been represented on the list for some time. Laming Worthington Evans, controller of the foreign trade department of the foreign office, today gave the Associated Press the following explanation of the latest extension of the trading with the enemy act: "It has been the policy of the British government in the past to follow the theory that in forbidding its subjects to trade with an enemy, that enemies domiciled in friendly countries did not come under the act. France and various other countries hold the doctrine that their nationals cannot trade with an enemy, no matter what his domicile. Moderate conditions of credit make it possible for an enemy outside the nearest territory to trade with his country. Therefore a considerable body of opinion in this country urged the government to abandon its traditional doctrine, and the foreign office, while not going to this extreme, decided simply to prohibit persons domiciled in the United Kingdom from trading with a limited number of individuals, firms or companies of enemy nationality or association under the act of the present law, which they were trading with an enemy."

United States List. The statement continues: "It will be clear that this policy embodied in the recent act is purely a piece of domestic legislation which only interferes with trade, even in the cases of specified concerns, by prohibiting persons domiciled in the United Kingdom from dealing with these concerns. It is a consequence simply and solely of the exercise of the right of the state to limit or control, in the state the trade relations of its own subjects. As regards the United States list this may roughly be divided into four classes: "First—German firms with head offices or control in Germany. "Second—German firms incorporated in the United States, and therefore technically American entities. We have dealt with these firms on their merits. In these cases something more has been required to qualify them for the statutory list than German nationality—either assisting the enemy by loans, propaganda or in regard to contraband. "Third—Except insofar as covered by the first or second qualifications, United States citizens as a rule have not been placed on the list. If any are there it is because they are sole agents for enemy firms resident in enemy territory. "Fourth—When, however, clear abuse of cable facilities has been proved, a firm or individual may be found on the list. By abuse is meant the use of a secret code or of cloaks to cover the fact that cables are being used in a particular interest. In very few cases will there be found to be United States citizens."

London, July 17.—Both the British and French embassies have made representations to the state department urging that the Deutschland is a potential warship, not entitled to treatment in neutral ports as a peace merchantman. The British statement of views was presented in writing, but with the explanation that it merely was for the information of the United States, and was not in the nature of a protest. The French statement has not formally that the submarine is entitled to recognition as a merchant vessel, it is understood the diplomatic representatives of the Allies are awaiting instructions from their foreign offices.

SCHOONER GROUNDS AT MOUTH OF BAY

The Rebecca Went on Pope Folly Island but was Towed to Calais for Repairs.

Campobello, Charlotte Co., July 16.—Schooner Rebecca, Capt. Young, of the Calais, Me. QUEER PRANK OF LIGHTNING AT CAMPODELLO

Home of Charles M. Batson Struck and Badly Shattered—Occupants were Uninjured.

Campobello, N. B., July 13.—During a very heavy thunder and lightning storm here this afternoon the house occupied by the family of Charles Millon Batson was struck and in several rooms completely shattered. At the time of the affair Mr. Batson was attending to his fishing. The electric shock passed through the building from roof to cellar, beginning at the roof, tearing away the corner board on the back of the building, ripping off shingles from roof to basement and throwing them about the yard. The corner board was shattered to splinters, and hanging by a mere split from the top.

A window from the top of the building had four panes of glass taken out and one only was broken in the fall, after the work of the window remained unbroken. The interior of the building was torn to pieces. Plaster, laths and paper were torn from the walls and thrown about the rooms. The small mirror, clock and dishes were thrown to the floor, but the only signs of fire were found upon the cloth covering of a sewing machine which was badly burned.

The walls of the rooms present the appearance of being riddled by bullets, as also does the chimney. The blow seems to have penetrated the whole house from the left corner of the roof to the cellar where a hole indicates its departure.

Many articles in the rooms were defaced and broken. The shelf upon which a huge mirror was resting was broken while the mirror itself was unharmed. The clock was picked up after the storm when it had been thrown, still ticking. Mrs. Batson says her two boys, five and seven years of age, were in the bedroom on the first floor with her at the time of the storm as also was a companion, Miss Estella Mitchell. As the house faces the water, Mrs. Batson saw the water convulsed as by a shock of some bad kind, thinking it very much alarmed and hid beneath the covers; the others did the same when a loud crash terrified them all, to such an extent that for a few seconds they were as paralyzed.

Upon investigation they discovered all rooms except that in which they were filled with smoke and the smell of sulphur. The occupants then retreated to the nearest neighbors, nearby, and upon alarm the house was found as described, but without fire. The room they had occupied was without a mark but all else was disorder and confusion. The eldest boy was the only one harmed and his injuries were but slight.

SLEEPLESS NIGHTS OVERCOME BY SAFE METHOD

SUGGESTIONS GIVEN WHEREBY INSOMNIA CAN BE SAFELY AND QUICKLY CURED.

Worry, overwork, overstudy and indigestion cause insomnia. Healthy, natural sleep can't be produced by drugs. First, the blood circulation must be improved. Congestion of blood in the head must be removed. Irritation in the brain must be relieved.

Remember, sleep is just as important as food. You must sleep or break down, but if you'll use Ferronone and thereby remove the conditions which now keep you from sleep, you'll get well quickly. Ferronone is not a narcotic, not a dope; it is a health-giving tonic that any child or delicate woman can use.

Absolutely safe is Ferronone. Take it for a month, take it for a year—no harm, but immeasurable good will result.

To sleep well, look well, feel well, so be free from depression, nervousness or blues—use Ferronone. It's a food tonic, a healer to the weak and wretched, a boon to the sleepless—sold in 50c. boxes, six for \$2.50, at all dealers, or direct from The Catarrhose Co., Kingston, Ont.

Notes From Women's Institutes. The school children at Bloomfield received a pleasant surprise in the form of a "treat" provided them by the Bloomfield and Central Norton Institutes during June. Much interest was evidenced in Miss Hazel Rabb's paper at the June meeting, raising Pin Money on the Farm.

HOUSEHOLD HINTS Dye Your Stockings. Colored silk stockings, to match your sweater and outfit hat, are one of the features of the sporting costume this season. Perhaps the average woman does not realize that almost any shoe will, for 25 cents, color white silk stockings any shade desired. If she wishes to go to the trouble, the dye may quickly be dyed at home by the use of standard dyes, carefully mixed and tested on a piece of white silk.

Vegetable Slicer. A vegetable slicer, fastened securely to the edge of the kitchen table, will be of inestimable help to the housewife. It may be adjusted to cut slices of any thickness and is easily operated by turning a wheel.

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H.M. The King. TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

WHY?

Frank B. Carvell, Member of Parliament for the County of Carleton, N. B., and George W. Kyte, Member of Parliament for the County of Richmond, N. S., have made serious allegations against a responsible minister of the Canadian Government and responsible Canadian officials.

These allegations and comments upon them by the men named and the Liberal press have had the effect of defaming Canada and of arousing throughout the world a contempt and prejudice against this country.

Free and full investigation of the allegations made by Carvell and Kyte has shown there was no corruption or dishonesty on the part of the Minister of the Canadian Government or the Canadian officials referred to.

Why should Frank B. Carvell, Member of Parliament for the County of Carleton, N. B., and George W. Kyte, Member of Parliament for the County of Richmond, N. S., be permitted to remain in Canadian public life?

BRITISH SAILORS' RELIEF.

Since the outbreak of war there have been many special calls on the generosity of New Brunswick's citizens, and, to the credit of this province, be it said, that they have met with ready response.

The Patriotic Fund, Red Cross, Soldiers' Comforts and other movements have all come in for their share of support, but their requirements have not yet been filled. If, however, there still is room for another worthy object we can imagine none more deserving of attention than the British Sailors' Relief Fund, a branch of which has recently been launched in this city and is appealing for support.

As its name implies, this fund is intended for the relief of the dependents of sailors in the British navy and the British merchant marine. In the past two years almost fifty per cent. of the tonnage of the British merchant marine has been requisitioned by the Admiralty for various war purposes.

Fine vessels which formerly plied to St. John in their peaceful capacity of commerce carriers have been transformed into supply ships, transports and the hundred and one other classes of auxiliaries so essential for the successful prosecution of naval warfare.

In addition to these are the mine sweepers, trawlers and the scores of similar small vessels engaged wholly or in part in the hazardous task of helping to keep the sea lanes open and the commerce of the Empire and its Allies as well as the neutral nations of the world moving freely and safely.

Occurrences such as the recent battle of Jutland serve to focus attention on the British navy and its work, but it should be remembered that for many weary days and nights before that battle the ships of the Empire have kept watch and ward, quietly, unostentatiously, doing man's work in man fashion. The British navy has played a tremendous part in this war even today, when the Allied forces are carrying all before them in the various areas of land combat, it is not too much to say that should Great Britain lose the control of the seas the issue of the great conflict would be in doubt.

The navy has been the national insurance of the Empire and to date all the premiums for such protection have been paid by the Imperial Government. It is not too much to ask that the people of the Empire who have profited from this protection should contribute of their prosperity for the families of the "boys in navy blue."

Bearing these things in mind it is hoped there will be a large attendance of citizens at the meeting to be held in the Board of Trade rooms this afternoon, when the honorary secretary of the fund will explain its aims and objects and also convey information as to its disbursement. The city of Montreal has already responded liberally to the appeal for this object, more than \$75,000 having been subscribed by citizens of the Canadian metropolis.

What St. John and New Brunswick will do remains to be seen but, at any rate, the object is worthy of serious and favorable consideration.

WAR COMMENT.

Last night's war bulletins afforded additional evidence that the Allied forces possess the determination and the ability to push their advance to a successful result. The British troops have captured the remaining portions of the German second line of defenses in the area of Saturday's fighting, until now practically the whole of that portion of the battle front has been pushed to the crest of the Albert plateau facing the enemy's third line. In at least one position the third line has been penetrated and the ground thus gained has been held in the face of all counter-attacks. Meanwhile, artillery and supports are being brought up in preparation for a continuance of the forward movement.

Apparently it is no longer possible for the Germans, by massing superior forces at any one point, to offset the effect of the Allied gains since the first of the present month. All along the line the enemy faces superior guns and larger bodies of troops, so that anything in the measure of an elaborate counter-attack is doomed to failure. With such a situation there can be but one ending, and that the speedy breaking of the enemy's third line and his retirement to a point nearer his own country. In that event we shall probably see a repetition of last week's vigorous offensive until, unable longer to stem the tide of victory the Germans must withdraw completely from Belgium and France and back to their own heavily fortified positions. Then the heavy British guns will have to do it all over again until, one by one, German cities and fortresses fall before the invader, and, beaten into submission, Wilhelm of Potsdam will be forced to sue for peace.

In the Eastern area the Russians are continuing their phenomenal advances. Official reports from Petrograd tell of heavy fighting and the capture by the victorious Muscovites of 13,000 prisoners. Already the Russian offensive has assumed such proportions that there can be no doubt of its eventual success. In the East, as on the Western fronts the enemy is outnumbered and outfought, and faces only utter defeat. The southern end of the Russian line is now well through the Carpathians and the reports of a week or so ago that patrols had already reached the plains of Hungary are likely to be considerably added to in the next few days.

On all sides the outlook is so encouraging that we are told the people of England are preparing for the final victory, and are most enthusiastic over the situation. Britain has never been given to undue optimism, and it is a most notable sign that, at least, after almost two years of fighting the nation which has done most to bring about the utter annihilation of Prussian militarism, is commencing to admit to itself that its work is bearing good fruit.

ARE WE UNPATRIOTIC?

A regrettable feature in connection with last evening's excellent band concert on King square was the failure of the men in the big audience to remove their hats when the National Anthem was being rendered. In that congregation of residents, were scores of young men who, physically at least, had no visible excuse for not wearing khaki, and yet they paid absolutely no attention to the strains of God Save the King, regarding the air as marking the conclusion of the programme and forgetting that it possessed any special significance.

And last evening's concert is not an isolated instance. As a general thing the people of St. John are loyal and patriotic, but it must be admitted that they show little respect for the Empire's national hymn. Possibly that air has been heard so often during the past two years that it has lost its significance, but this affords no excuse for disrespect. It should not be forgotten that Canadian men have fought and are fighting for the principles of the nation whose national anthem should evoke the highest sentiments of loyalty. This being the case it surely is not too much to ask that, at the first sound of God Save the King, every man within sound of the music should acknowledge it in the conventional manner. It is very little to ask, but it means much.

GOOD OPPORTUNITIES TO GET COMMISSIONS

The Universities Companies Men Frequently Obtain Commissions in England and France.

For more than a year now the Universities Companies have been recruiting as reinforcements for the P.P.C.L.I. Five companies are already with the "Pais" and the sixth is now recruiting at Montreal. The men recruited in these companies are men of a university type as bank clerks, business men, etc. Many of them have previously qualified for lieutenant rank but have gone overseas in the ranks to gain experience and also to get to the front more quickly. To show how quickly these men do gain promotion, a few instances may be cited. The Second University Company, while at Shorecliffe sent fifteen men from the ranks to take commissions with other units. Several more were recalled after a couple of months in France to get their commissions with other units. It is rather a significant fact, that although these universities companies have been with the P.P.C.L.I. for less than a year, at least ten of the officers of that regiment are men who have risen from the ranks of the universities companies.

Besides these inducements, the sixth company has other advantages. The barracks are in the buildings of McGill University and the company has the use of the University campus and grounds. The training is also of a very varied and interesting character.

At present the company is in charge of Lieut. O. B. Rexford, who has been overseas with the Second Universities Company, and in the ranks of the "Pais" information will be gladly furnished by him as to enlistment and service overseas. Such inquiries should be addressed to him at Molson's Hall, McGill University, Sherbrooke St., West, Montreal.

Appointed Parliamentary Secretary for Militia Department—Analogous to Under-Secretaryships in British Cabinet.

Ottawa, July 17.—The important announcement is made that the Governor-in-Council has appointed a parliamentary secretary for the purposes of facilitating the conduct of the militia department in the minister's absence, and of insuring continuity of departmental operations.

F. B. McCurdy, M. P., Shelburne and Quedens, has been appointed to this office. Although one of the younger members of the House of Commons, Mr. McCurdy's business efficiency, untiring energy, and systematic and thorough attention to public matters have long been recognized by fellow members on both sides of the house.

With the increase of the Canadian forces there has been a corresponding increase in the demands on the time and energies of the Minister of Militia. His devotion to the interests of the force and its members has always impelled him to know at first hand the conditions surrounding the various units and thus it is frequently necessary that he should be absent from Ottawa.

Mr. McCurdy's appointment will secure the advantage of continuity of service, and in order that the business and policy of the department may be carried along without interruption in the absence of the Minister by someone constantly in touch with the operations of the militia department.

The Prime Minister today announced that the governor-in-council has constituted the office of parliamentary secretary of the department of militia and defence, and that Mr. McCurdy has accepted the appointment.

The secretary will be a member of the militia council, and in the absence of the minister will be its chairman.

THE MOVIES.

The Movies are war people go. When there's a supple in throo, And when the cook has washed the dishes, Thats war she goes, to.

O everybody goes to the Movies, Children, ladies and gentis, There's lots of places were they'd rather be But the Movies only costs 5 cents.

You buy your ticket before you go in, And give it to the man at the door, And he takes it without any expression on his face, And thats all hes standing there for.

O everything's dark in the Movies And the ushers see "Heers a hole with a seat in it" And you squeeze riss in and find it By coming to a place without feet in it.

And if the picture is exciting you watch it, And if its bum you go to sleep And see if its still bum every wunts in a wile By waking up and taking a peep.

E. & C. RANDOLPH ON NEW YORK MARKET

New York, July 17.—The market this afternoon was the dullest it has been in a long time. Liquidation was still in evidence but due to the fact that it has been in process for a long time now the market has a somewhat better look and more frequent rallies may occur in the near future. The liquidation, however, is not over in the industrial specialties and until there is some serious advance in them can not be expected. Mercantile Marine PD moved up in the early afternoon to above \$7 but later lost a good part of its gain.

There was moderate strength in evidence in a few stocks, probably due to investment buying, which can be undertaken in many standard issues at this time with good assurance of making a profit in them. The war is now

posting England, including loans to her allies, \$30,000,000 a day. The belief is that it will take another year to defeat Germany on the battlefield.

Flood damage in the south is becoming serious and will run high into the millions of dollars. Loss of crop will be an important item.

Public offering of the new French loan will be made Wednesday and is expected to stimulate the investment market. Sales, \$61,800. Bonds, \$1,925,500. E. & C. RANDOLPH.

TO URGE CLAIMS OF FUND FOR BRITISH SAILORS' RELIEF

M. P. Fennell, Honorary Secretary of the Organization, arrived in City Yesterday and will Attend Meeting this Afternoon—What the Fund Aims to do and Manner of Its Disbursement.

The honorary secretary of the British Sailors' Relief Fund, M. P. Fennell, Jr., arrived in the city yesterday at noon. He is visiting the Maritime Provinces in the interests of the fund and will remain in the city until tonight when he will take the Halifax train and forward the cause in the sister city, hence proceeding to Sydney, C. B., Prince Edward Island, and then to Moncton and Montreal at which city is the general office of the fund.

In an interview yesterday at the Board of Trade rooms Mr. Fennell gave some particularly interesting details concerning the objects of the fund, and expressed the hope that at a meeting which has been arranged for this afternoon at the board rooms there would be a good attendance of the local executive of the fund and of those interested in the splendid work being undertaken to mark the appreciation of Canada for the effective work that the British sailors, both in the navy and in the mercantile marine, have done and are doing for the Empire.

It is expected that there will be a large gathering at this afternoon's meeting and arrangements have been made by the secretary of the Board of Trade to accommodate as many as possible. Mr. Fennell stated yesterday that Montreal has come forward with the generous contribution of \$75,000; this amount having been contributed within a week. He said he was glad to receive an invitation to St. John on behalf of the fund as a first effort in the Maritime Provinces to forward the objects in view. Mr. Fennell said yesterday:

"The destination of the moneys being collected for the 'British Sailors' Relief Fund' is not the Royal Navy alone, but also the mercantile marine and the reason is obvious. The merchant service has performed work of incalculable value to the Empire. Some two thousand vessels of the smaller sort have been employed upon patrol work, mine-sweeping, and other hazardous duties. Between this clan of vessels and the clan of larger ones, commanded as transports, possibly fifty per cent. of Britain's mercantile marine has become auxiliary to the Royal Navy. The men engaged are entitled to our gratitude and our care for their interests, in the same measure as are the men of the Royal Navy. It is proposed, therefore, that the money now being collected shall be divided between the two. The portion devoted to the Royal Navy

BEN EARL WINS BIG EVENT IN GRAND CIRCUIT

Opening Day of Meet at Cleveland Marked by Brilliant Racing Which Kept Crowd on Edge.

Cleveland, Ohio, July 17.—Coming direct from a winning preliminary campaign on the half-mile circuits, Ben Earl clearly demonstrated his grand circuit class today at North Randall, where he won the Edwards racing stake, the first big feature of the 1916 harness campaign, after one of the most bitterly contested battles in the history of the local classic. It was a race which kept the record opening crowd on the quiver from start to finish of every heat.

In two of the four races the contests went into split heats, and in one, the 2:07 pace, three heat winners were produced and an additional fourth heat was required. Mary Coburn won the Forest City two-year-old trotting sweepstakes in straight heats and incidentally trotted the first heat in 2:10 1/4, a new season's record for the age.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat, the nutritive processes must be artificially supplied with the power which nature has denied them. This can probably best be accomplished by eating a Sargol tablet with every meal. Sargol is a careful combination of six splendid assimilative agents. Taken with meals they mix with the food to turn the sugars and starches of what you have eaten into rich, ripe nourishment for the tissues and blood, and its rapid effect has been in many cases reported remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by all druggists everywhere and every package contains a guarantee of weight increase or money back.

If you find a druggist who is unable to supply you send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antoine street, Montreal, and a complete ten days' treatment will be sent you postpaid, in plain wrapper.

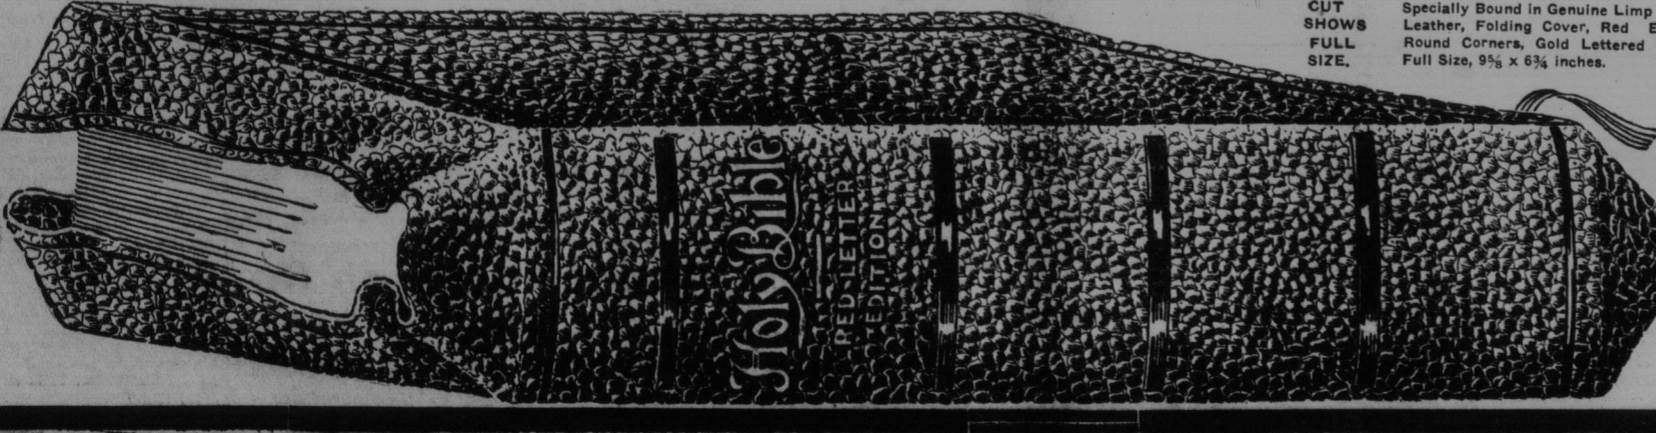

NOTE—Sargol is recommended only as a flesh builder, and while excellent results in cases of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

DOM. BRIDGE HAS RECORD BUSINESS

Company Will Meet on Wednesday to Declare Two per cent. Quarterly Dividend—The Situation in Cement.

Special to The Standard. Montreal, July 17.—Two important dividend meetings are scheduled for the very near future and the street is looking forward to the outcome with a good deal of interest.

On Wednesday of this week the directors of the Dominion Bridge Company will meet to declare the regular two per cent. quarterly dividend, and it is confidently expected that the three per cent. bonus which has accompanied the Bridge Company distribution for some months will also be declared. The Bridge Company is reported as doing a record business with earnings each month exceeding those of the previous month.

The other meeting is that of the Cement directors who meet to declare the regular quarterly dividend on the preferred stock during the present month. There is a belief in some quarters that a dividend on the common may be forthcoming after this session of the directors, but it was stated this morning in circles closely connected with the Cement Company that they had no such intention at the present time, and no declaration on the common was anticipated before September at the earliest.

INDUSTRIAL KING FEARS DEPRESSION

Special to The Standard. Philadelphia, July 17.—President Johnson of the Baldwin Locomotive Works is quoted in an interview in the Public Ledger as saying:

"In my judgment this country is going to face a depression which will be the time of readjustment comes, following peace terms in Europe. When peace is declared thousands of men inevitably will be thrown out of employment not only in this country but in Europe."

He said it was not true that Baldwin was contemplating dismantling certain of its munition plants.

"We have contracts that will carry us at least to the first of the year. But we have taken no new contracts. No new ones are being let. The European belligerents are awaiting the termination of the contracts which have already been given here."

SPECIALTIES SHOW GREATER STRENGTH

Short Interests Still Predominant in Wall Street

SMALL LOSSES RESULT OF DAY

Motor Group Showed Greatest Weakness with Extreme Losses of from 2 to 5 Points

New York, July 17.—Ignoring such factors as last Saturday's bank statement, which fully rectified the adverse conditions of the previous week's receipt of another large amount of British gold, a large over-subscription to the new French loan and marked relaxation in call money rates, today's stock market continued under the influence of the short interest.

Selling of specialties was resumed with confidence and vigor, the motor group showing greatest weakness, with extreme losses of two to five points. Munitions and Medicines were lower by one to two points, with as much for minor metals; while Bethlehem Steel preferred fell eight points with six for Gulf States Steel.

U. S. Industrial Alcohol maintained its recent reputation for irregularity, losing five points under steady pressure, regaining four and closing at a net loss of 3/4. United States Steel held within fractional limits, and other seasoned industrials displayed fair resistance.

A few special stocks were exempt from the general selling, notably American Tobacco, which awakened from prolonged lethargy with a maximum gain of ten points; while Sears-Roebuck added 1/2 points to Saturday's gain of 5/8.

Activity in calls was confined to secondary issues like Denver and Rio Grande preferred, Lake Erie and Western and Wisconsin Central, these scoring gains of two to four points, with pronounced steadiness in Wash-burn first and second preferred shares. Reading made a smart advance during the forenoon, all of which was relinquished in the uncertain course of the later trading.

Mercantile Marine preferred was the most active stock up to the final hour, when it yielded much of its three point gain. Total sales, \$78,000 shares.

Bonds were irregular, but brokers reported a better private demand for investment among issues of the higher grade. Total sales, par value, \$1,910,000.

Montreal Reports Purchase of Large Block of Common Stock.

Special to The Standard. Montreal, July 17.—It is reported that strong local financial demand have recently interested themselves in the affairs of the Rioridan Pulp and Paper Company by the purchase from the minority shareholders of a block of the company's common shares. It is understood that all the shares so acquired have been given a broad distribution to investors, and that the shares will shortly be listed on the Montreal Stock Exchange.

The Rioridan Pulp and Paper Company is the oldest and largest producer of unbleached sulphite pulp for sale on this continent. The business has been in constantly increasing operation since 1857 and the company's management affairs have always been under the control of the Rioridan family.

The company's annual output amounts to 8,000 tons bleached and sulphite pulp, 50,000 tons unbleached sulphite pulp and approximately 20,000,000 feet B. M. of lumber.

IMPROVED OUTLOOK IN BRITISH COLUMBIA

Western Canada Power Co. Authorizes Reconstruction Plan and Expects Good Business.

Special to The Standard. Montreal, July 17.—Shareholders of the Western Canada Power Company on Saturday authorized the reconstruction plan which has already been outlined here.

C. H. Oshon, president, referring to the improved outlook in British Columbia, said the general business outlook in Vancouver was distinctly better.

"The mining industry of the province continues to be exceedingly active and a large amount of American capital is coming in. The provincial government is taking an active part in facilitating mining development and is contemplating the establishment of lead smelters and copper refineries in Vancouver, but whether this will be accomplished in the near future it is hard to say. On the whole there is a growing feeling of confidence that there will be a steady up-building of trade in Vancouver and British Columbia on a very solid basis and that the Pacific Ocean trade will become very large indeed."

Management Marking Time Until Enlargement all Completed—Then Development Will Come.

Special to The Standard. Montreal, July 17.—At the special meeting of the shareholders of the Hollinger Consolidated Gold Mines to be held in Toronto on July 28, it will be decided to increase the number of directors from five to seven to authorize the holding of meetings at places other than at the head office, to create the office of managing director, four to constitute a quorum of the board thereafter.

The general manager expressed the opinion that the daily milling capacity will be increased to 1,500 tons in the near future. On the 263,356 tons milled between January 1 and June 16 the profits were \$1,251,900 or \$4.91 per ton. The averaging grade of the ore milled was \$8.80. It is thought the management was marking time until the immediate mill enlargements are completed. Moreover 25 cents per ton was devoted to patriotic fund reserve, war tax reserve and the loyal service bonus.

NEWS LETTER ON MONTREAL MARKET

Montreal, July 17.—Canada Cement was the only stock that showed any signs of rallying in our local market today, the rest of the list holding steady at about Friday's closing figures. New York acted as if it would rally, but lacked snap, and closed lower than on Saturday. When speaking to New York by phone today they informed us that even after the big decline the market has had their loans are practically as large as before, which shows that the public have not yet reduced their lines. There is a good demand for civic investment stock by investors.

The weakness in Toronto Railway we did not like. There does not seem to be any good buying of it even at this level. The market has had a good decline and should be getting pretty close to a safe level.

THISTLES BEAT MAPLES IN SLUGGING BALL GAME

Game in St. Peter's League Last Night was Featured by Heavy Hitting and Big Score.

Some old slugging match last night on the St. Peter's grounds when the Thistles and Maples clashed. No less than 34 hits were made by both teams and 25 runs came across the plate. When the last man was out the Thistles had won by 15 to 10. It was an exciting game all through and while the score was big the game was close and well worth watching. Doyle, who started to put them over for the Thistles was not in good form, his arm being sore and he was relieved by McGuigan after seven men had crossed the plate in the third inning. O'Malley started the heating for the Maples and went along fine until the fifth when he met his Waterloo and was relieved by Boland. O'Malley had six strike-outs and Boland four, Doyle had one and McGuigan two.

MATCH RACE ARRANGED. Arrangements were completed yesterday for a match race to take place on Moosepath Park track tomorrow evening between Car Perry and Blagen Light. The race will be for one hundred dollars a side and as these two horses had such close finishes in a recent match race, the excitement would be keen during this event. The first heat will commence at seven o'clock. In addition to this event there will be a class race and the railbirds may expect a couple of hours real racing.

SILVER FOX INDUSTRY FOR JAPAN. Reports of C. M. Lamson's fur sales in London have just been received. "Silver fox" realized old price and sold at former rates. Cross fox also were in strong request at rather higher values. Mr. Yoda, Consul General of Japan from Ottawa, is making a tour of Eastern Canada. His special object is to study the Silver fox breeding industry on Prince Edward Island, and if conditions are found favorable, the intention is to establish the industry in the northern islands of Japan.

The C. P. R. have had a large gang of workmen at work in the Bay Shore yards laying and shifting tracks and they have been receiving the sum of two dollars a day for a ten hour stretch. On Saturday about forty foremen went on strike, demanding twenty-five cents an hour for their labor.

KEPT HEADS COVERED AS "KING" WAS PLAYED

Crowd at King Square Band Concert Last Evening Manifested but Little Loyalty.

Among the large crowd of people who were on King Square last night listening to an excellent programme of music by the City Cornet Band was a gentleman from the United States who, speaking to a Standard reporter, said: "I was never so surprised in my life as on my arrival in St. John. Do you know if I did not read the daily papers I would hardly be aware that Great Britain is at war. Of course I have learned that there are not many soldiers at present in St. John, and only occasionally a person can see a man in uniform passing along the street."

It was only a short time after the gentleman from the States had made these remarks that the bandmen stood up and the strains of "God Save the King" were rendered. The man from the States raised his hat as did a few who were in that vicinity, a few soldiers who were near were seen to come to attention, a couple of policemen saluted while the National Anthem was being played, but it was quite noticeable that hundreds of men and boys stood or walked about with their heads covered as if their hats were glued on and it was impossible for them to uncover. In fact, as three young men were passing along, one of them noticed a prominent citizen with his hat off, and one of the young men remarked to his companion, "Look at the guy with his hat off."

SIX MEN ON HONOR ROLL YESTERDAY

Construction Company Still the Favorite—General Military News of Interest.

ROLL OF HONOR. Holly D. Burns, Maugeville, Sunbury Co.; R. J. Connolly, St. John; F. C. Gardner, St. John; Amos Gilbert, Prospect Point; For No. 1 Construction Battalion; M. B. Givens, Annapolis, N. S.; No. 9 Siege Battery; Albert Morton, Hampton; Composite Battery.

It is understood that the 116th Battalion will be on the move in the near future and will probably see the shores of old England within the next few weeks.

A smoker will be held tonight for the men of No. 1 Construction Battalion in the old recruiting rooms, German street. A musical programme and refreshments will be provided by the Young Women's Patriotic Association.

Sergt. Instructor Ryan who has been appointed to a position at Aldershot left yesterday to assume his new duties.

Among the non-coms of the 234th (Kiltie) Battalion will be Sergt. H. B. Whitteot of this city. Sergt. Whitteot left here with the 26th as a private and was promoted on the field. He was wounded on 28th of Nov., 1915, and invalided home, arriving here on the 24th of March last. As soon as his leave expires he will join the Kilties.

Another former member of the 26th who will join the Kilties is Pte. Garfield G. Brown, who is only waiting for his discharge to sign on with them.

Sergt. Frank H. Ryder, who has been brought back from the front to take a commission in the Kilties, arrived in Fredericton yesterday.

Capt. C. F. Sanford, Lieut. Price and Lieut. Nesbitt of the 115th, who have been in town for a few days, left last night for Valcartier.

Major Peters, Capt. Angleton, Lieut. Weldon and Lieut. Dever of the 115th arrived in the city on Sunday to spend a few days.

General T. Benson and Major Jones will arrive tonight from Digby en route to St. Andrews where they will inspect No. 4 Pioneer Battalion.

Bert Finnamore, Sergt. Major of the 6th Battalion, has enlisted as a private in another battalion in order to get to the front. He was offered a position as instructor in one of the reserve battalions in England but refused the offer as he said he wanted to stay with the boys he went over with.

J. F. McDonald, the well known commercial man, has received word from his brother, Thomas L. McDonald, who went overseas with the 6th C.M.R., that he is a prisoner of war in Kreisgarzret, Germany. He was wounded in the leg, shoulder and hip and taken prisoner on June 2 last. A former report placed him among the killed in action.

PRIVATE McRAE IN A GERMAN PRISON.

A sister of Private Charles A. McRae, recently officially reported as missing, received a dispatch from Ottawa on Sunday morning at her home, 44 Rodney street, West Side, as follows: "Private Charles A. McRae reported missing, now officially reported prisoner of war."

COUNCIL DID ROUTINE BUSINESS.

A short meeting of the common council in committee was held yesterday afternoon, Commissioner McLellan presiding in the absence of the Mayor. It was decided to hold the regular meeting of the council today at noon, instead of three o'clock, as the municipal council meets this afternoon. Several matters were talked over but action was deferred. Commissioner Fisher introduced the question of moving the drinking fountain from its present position at the foot of King street to the end of the grass plot nearer Dock street. He also brought up the Wall street bridge matter and his proposed by-law in reference to obstructions on the sidewalks, but no action was taken.

Transportation Changes.

The Board of Trade has received a copy of proposed Canadian Freight Classification number 17, and Supplement number 1 thereto. Any objections to the increased transportation charges which this supplement provides for, should be filed with the Board of Railway Commissioners, Ottawa, within the next thirty days.

CECIL MARKHAM GETS COMMISSION

Member of Fighting Family Receives Appointment as Lieutenant to 193rd Regiment.

Among the arrivals in the city on Saturday was Cecil M. Markham, of the 193rd Battalion, now in training at Aldershot. Mr. Markham, on finishing his studies at King's College, recently, enlisted with the 193rd, and was soon promoted to the rank of sergeant. Not being contented with his rank, the young ambitious soldier studied hard, and taking a course, successfully passed all examinations for the rank of lieutenant. He was greatly pleased on Saturday on receiving official communication from headquarters notifying him that he had been granted a commission as lieutenant to the same company in the 193rd, in which he had been acting as sergeant since his return to the front in a couple of days to renew his training.

STILL GRAPPLING FOR MISS M'GIVERN'S BODY

Men Worked Unsuccessfully All Day Yesterday to Secure Remains of Victim of Saturday's Drowning Accident.

All day yesterday four or five boats, containing expert men with grappling irons, were at work sweeping the river for the body of Miss Constance McGivern and late in the afternoon stopped in their work. Mr. Johnson, the third officer of the steamer, the Carnquet, who was with Miss McGivern when she was drowned Saturday afternoon, visited the scene yesterday afternoon and pointed out a place nearer the shore than that pointed out on Sunday. This section of the river will be dragged today when it is hoped the searchers will have success in locating the body.

Among those from the city who were grappling yesterday were: John O'Leary, Harry Gilbert, Langford Coram, Richard Gilbert, Henry O'Leary and Joseph Riley. The work done from motor boats, and it has been decided that motor boats move too quickly, thus hauling the hooks over the bottom so fast that should they catch on the clothing of the young woman they would break clear.

LT. EDGAR MARCH ON ROAD TO RECOVERY

Popular Officer of 26th writes from Royal Free Hospital, London, that he is Rapidly Recovering.

A letter was received yesterday from Lieut. J. Edgar March who for the second time is now being treated at the Royal Free Hospital in London.

Writing on July 3rd Lieut. March stated that he was still in bed but hoped to be able to get up in a few days. He says that his wound was healing nicely, yet he is still very sore. Captain Alex. McMillan is in Ennleigh Place Hospital. He was up and around a bit at the time of writing and will pull around alright. Lieut. March wishes to be remembered to all his friends, and says that if he can get enough leave he will try and come home to renew old acquaintances before he returns to the front.
