FIVE BOYS UP BEFORE MAGISTRATE

Were Implicated in Robbery of Hotel Sample Rooms. Also Stole Freight.

Five boys arrested last week in connection with the robbery of the St. Louis Hotel Sample Rooms appeared before Judge Matheson Monday morning. They were tried under the Juvenile Act. All pleaded guilty of being implicated, two received stolen goods, one entered while the robbery was being committed while the other two did the stealing. The latter two the Judge imposed fines of \$5.00 and \$15.00 or one and three months.

These same boys were arrested by Officer Landry on information laid by G. G. R. Police Officer Lawson and taken before Justice of the Peace, T. Bisset, on the Quebec side, where they were charged with breaking and entering three railway cars at Matapedia Station on Aug. 25th and stealing therefrom a large quantity of merchandise which was recovered by Officer Lawson in the woods at Matapedia. Here they were also tried under the Juvenile Act and pleaded guilty and after a severe reprimand from the Magistrate they were each fined \$10 and allowed to go on suspended sentence.

TOWN COUNCIL ON BYLAWS

Meeting Tuesday Evening Transacts Routine Business Considered By-Laws.

A meeting of the Town Council was held Tuesday evening. His Worship Mayor Andrew presiding. There were present Councillors: McLeath, Champoux, Quinn, Patterson, Alexander and Harquail.

A communication from D. A. Stewart exempting his woodworking factory from town taxes and putting on same basis as the J. & D. A. Harquail Co. Ltd. was read and after discussion was laid on the table until next meeting.

A communication was read from the Electric Light Committee at the power house asking for an increase of \$10.00 per month each. This was referred to the Electric Light Committee.

The tender of the Cleaver Bay Mills for the old boilers from the steam electric light plant was accepted, \$275.00.

The Mayor's tender was that of the McLeath-Patterson and Machine Works, Limited, \$200.00.

A communication was read from Mr. C. E. O. Crockett complaining that The Graphic Limited had not printed the Rules and Regulations of the Fire Brigade as per specifications submitted by the Town Clerk.

After discussion the following resolution was adopted: That letter of Mr. C. S. O. Crockett be filed and that Town Clerk notify H. B. Anslow that printing of Rules and Regulations of Fire Brigade is not in accordance with contract and that the books be not accepted.

Council passed a motion that Mr. Anslow be requested to explain his position. He said it might be possible that Mr. Anslow felt that the way in which he had printed the books was best. This amendment was voted down by the following vote: Yeas—Quinn, Harquail and Quinn. Ayeas—Champoux, Patterson, McLeath, Champoux. Councils Alexander did not vote.

The following accounts were ordered paid:—

WATER AND SEWERAGE	
Canadian Govt. Ry.	\$6.49
John Robertson Co.	7.00
John Tennier	23.25
Canadian Oil Co.	7.80
FIRE PROTECTION.	
Dunlop Tire & Rubber Co.	\$35.92
R. K. Shives	8.50
James Alexander	11.07
Northern Electric Co.	300.00

The Council then received itself into Committee of the Whole with Councillor Alexander in the chair to consider the Building By-Laws. On resuming regular order of business the Chairman reported progress and Council adjourned.

LIEUT. S. S. McLEAN WRITES HOME

Now in Hospital in England and Writes of His Experiences When Wounded.

Mr. Peter McLean has received the following letter from his son Lieut. S. S. McLean who was recently reported "missing presumed killed."

England, August 25th 1917.

Just a few lines to let you know I have arrived safely in England and am now up in Manchester.

I got hit on the 15th shrapnel wounds in the neck and back, but they are not very serious, but I will be here for quite a while.

I got hit at the 2nd objective and the Company just arrived back to the 1st objective and I got cut off, and could not get back, as I felt pretty weak, eventually the company had to retire back to its original position as the Batt. on our right retired and our flank was up in the air, so I was left in the Hun support line along with one of my platoon who stayed with me. We tried three nights to get through but could not find an opening. We only had one can of bully beef and one bottle of water between us, so we had to go pretty easy on the rations. During the day we hid in an old cellar of a house that had been broken down by our own artillery, and at night we scouted around in the Hun lines. Finally another Batt. came over and went through us so we got back to our line. I had a very nice trip from the line to here, you certainly get treated fine by the nurses and attendants. There are only three Canadians in the Hospital here. We tried to get sent to a London Hospital but they were all filled up. You had better send my mail to the Batt's address and they will forward it to me as it is easier to keep them in touch with me than for you to be forwarding it all over the place. I will close now as it is very hard writing in bed.

SPLENDID TALK ON THE GREAT WAR

Relations Between Canada and U. S. Ably Discussed by Judge Botkin.

(Moncton Transcript, Sept. 11.)
Judge Theodosius Botkin, United States Consul at Campbellton, was heard last evening in an eloquent and brilliant address before a large audience in the School Room of St. John's Presbyterian Church, the meeting being held under the auspices of the Men's Bible Class of that church. His strong words, "the time is coming when the different peoples of Europe will settle their own destinies in their own way, when the Allies win, and the very crowns of the most autocratic states of the present day will be worn only by the will and consent of the free people," were received with applause by the listeners.

Mr. William H. Forse, president of the Class, occupied the chair.

Judge Botkin's address, which was a forceful logical survey of the contributing causes and probable effect of the war upon the world, with special reference to the United States and Canada, was heard with much pleasure. He stated that after the war he believed there would exist a greater fellowship among the people of Canada and the United States because the boys, who were fighting side by side, will want to stick together when they return.

Judge Botkin said that he knew something about war; he had gone through two wars. He said that if he was twenty years younger he would be in France or Flanders. Judge Botkin drew a graphic picture of the effect of war among beautiful sections of France and Belgium that have been devastated by invasion, spoke of the ruthless slaughter of men, women and children, and referred to the submarine attacks on neutral vessels, which resulted in his own country entering the war.

Judge Botkin gave great credit to the British navy for bottling up the German navy, and praised Winston Churchill for having the British fleet ready.

Judge Botkin aroused much enthusiasm as he described the Spartan-like conduct of the Canadians at Ypres and in subsequent engagements. Referring to Canada and the United States, he said there were no fortifications along the boundary line, for they were like homeborders, each minding his own affairs not reaching out for territory in the possession of the other. When Canada is threatened by a foreign foe, the United States is interested; when the U. S. is threatened by an enemy, Canada is interested.

Judge Botkin spoke in very interesting way of the attitude of the Kaiser towards the United States when he found that England and France were purchasing war supplies in the United States, and British and French financiers borrowing money in the States. While the United States was still neutral, the Kaiser informed Ambassador Gerard that America had better look out after his war. I will stand no nonsense from America after this war," said Judge Botkin. In conclusion, Judge Botkin firmly expressed his belief in victory for the Allies.

Judge Botkin's address was a rare treat to all who heard it. He is a forceful, logical debater, and holds the close attention of his audience from beginning to end. The audience last evening was eloquent and inspiring. His forecast of the good relations that would exist between Canada and the United States as a result of their common experiences in this great struggle, was followed with deep interest.

Mr. Botkin is a veteran of the Civil War and was for some years a Judge in the United States.

Rev. P. A. Fitzpatrick, pastor of Wesley Memorial Church, in a short and neat speech proposed a vote of thanks to the speaker of the evening. The vote of thanks was seconded by

BRITISH REPULSE GERMAN ATTACKS

Enemy Shot to Pieces While Endeavoring to Advance.

London, Sept. 18.—Field Marshal Haig reported today from the British headquarters in France as follows:—
"Early this morning the enemy attacked our trenches east of Hargicourt (north of St. Quentin), under cover of a heavy barrage. His advancing infantry were received with rifle and machine gun fire and repulsed."

"We carried out successful raids last night northeast of Bullecourt and south of Lombartzyde. Heavy casualties were inflicted on the enemy and a few prisoners were secured by us."

"Hostile artillery has been active during the night in the neighborhood of Nieuve Chapelle and in the Ypres sector."

FRENCH TROOPS MAKE GAINS

Got Through Two Enemy Lines and Into Third Few Prisoners.

Paris, Sept. 12.—French troops last night attacked the German trenches in the region of St. Souplet in the Champagne and succeeded in smashing the first two German lines and entering the third position. All the German troops garrisoning these trenches, the French war office announces this afternoon, were either killed or taken prisoners.

SENDS PASSPORTS FOR COUNT LUXBURG

Whereabouts of German Representative at Buenos Ayres Unknown.

Buenos Ayres, Sept. 12.—The Argentine Government at noon today sent to the German legation passports to be delivered to Count Luxburg, the German minister in Buenos Ayres.

The whereabouts of Count Luxburg still is unknown to the Argentine Government.

MARRIED.

In Centenary Methodist Church, St. John, on August 23, Miss Mabel Grace, eldest daughter of Mr. and Mrs. Henry F. Troop, of Granville Centre, became the bride of Mr. Dougall C. Firth, of Campbellton, N. B.

"GROWERS AND SHIPPERS OF POTATOES SHOULD SEE TO IT THAT THE CROP IS CAREFULLY GRADED AND SACKED," SAID MR. LOU. D. SWEET, THE POTATO EXPERT OF THE AMERICAN FOOD ADMINISTRATION.

Though the crop this year is big in both United States and Canada, owing to the uneven quality of the seed used the crop may also be uneven and therefore should be the more carefully graded to insure a stock that will keep over winter.

Born?
Business?
The answers follow:—
Name—Jacob Levinsky.
Born—Yes.
Business—Rotten—Exchange.

Mr. Owen Cameron and unanimously carried.

THE CHIEF CHARM OF LOVELY WOMAN

Soft, Clear, Smooth Skin Comes With The Use Of "FRUIT-A-TIVES".

WOMAN WATSON, 55 Drayton Ave., Toronto, Nov. 10th, 1913.

A beautiful complexion is a woman's chief glory and the envy of her less fortunate rivals. Yet a soft, clear skin—glowing with health—is only the natural result of pure blood.

"I was troubled for a considerable time with a very unpleasant, disfiguring rash, which covered my face and for which I used applications and remedies without relief. After using 'Fruit-a-tives' for one week, the rash is completely gone. I am deeply thankful for the relief and in the future, I will not be without 'Fruit-a-tives'."

LADY SECRETARY GETS GOOD SALARY.

Next to David Lloyd George, prime minister of England, Miss F. L. Stevenson, his private secretary, is perhaps the most important person in the British Empire. She performs duties for which men have been knighted amid the plaudits of the nation.

Everything that reaches Lord George necessarily passes through Miss Stevenson's hands. The private secretary of the prime minister is his chief confidant, his tactful counselor and in a sense even the keeper of his conscience.

Some prime ministers as for instance Lord Beaconsfield have caused peerage to be bestowed on their private secretaries. Herbert Asquith not only rewarded his private secretary with a knighthood of the Order of the Bath but with the hand of his daughter.

In view of the fact that many distinguished men have occupied the position of alter ego to the British premier, Lloyd George overruled an almost prescriptive precedent when he appointed Miss Stevenson. The nomination created a sensation, being particularly welcome in the ranks of those who are working to broaden the estate of women in the realm.

The woman who now occupies the spacious private secretary's room at 10 Downing street, the historic official residence of the prime minister of England, is London born the daughter of a Scotch father and a French mother.

After serving him as a private secretary in connection with his preparation of the national insurance act, she was continued as one of his official secretaries when he became chancellor of the exchequer in 1915. She was retained in the same capacity when he

EMPIRE STRONG BECAUSE OF WAR

MR. LLOYD GEORGE SAYS DOMINION AND MOTHER COUNTRY ARE ONE.

Germany has not yet felt the final strain of war, said Premier Lloyd George, speaking at the Royal National Eisteddfod here yesterday. When she did, he continued, she would feel the binding value of real freedom.

If Russia had enjoyed more freedom in peace time, declared the Premier, she would have been more united in war, for unity of action was not a suppression of freedom, but its highest expression.

Speaking of the affection of the Dominions for the Mother Country, the Premier said this would continue to grow and become deeper, more indelible, more compelling as the years rolled by.

This was the great day of the Empire, the Premier declared. "What would have happened to the liberty of nations?" he went on. "If it had not been for the British Empire? When the war is over humanity will know how much human liberty owes to the fact that the British Empire is no sham, but a reality."

"Great Empires are necessary for protection and security, and for strength, but small nations are necessary for concentration and intensive effort. The British Empire is made up of four nations, but they to-day are one in purpose, one in action, one in sacrifice, and, please God, soon will be one in triumph."

COLD FEET.

"Do you suffer from cold feet?" the doctor asked the young wife.

"Yes," she replied.

He promised to send her some medicine to take.

"Oh," she said nervously. "They're not—mine."

"Do you always let your wife have her own way?" "Yes, and mine, too," Louisville Courier-Journal.

Silence—We never hear the best things that are said about us. Cynics—No; we are dead then.—Judge.

"Hello, Bill! glad to see you! I've just got back from my vacation."

"Sorry, old man! I can't lend you a cent. I'm just going on mine."—Boston Transcript.

The accused whose head, scarcely reached to the level of the front of the dock, said in reply to the magistrate that he was only eight years of age.

"Only eight," re-echoed the magistrate, "and yet you already have been caught in the act of thieving! This is very shocking!"

"Oh, but please your wushup," piped the urchin in his squeaky voice, "I don't go out reglar! Only father is ill now, you see, and so I was bound to go out in his place."

became minister of munitions two years ago. Of five secretaries she was the second in rank. When Lloyd George succeeded to the war office he took Miss Stevenson along in the secretarial capacity.

As the chief private secretary of the prime minister, Miss Stevenson received a salary of \$4,000 or \$5,000 a year.

PRESIDENT WILSON ABSOLUTELY FORBIDS MAKING OF WHISKY.

Washington, Sept. 5.—Manufacture of whiskey will cease throughout the nation at 11 o'clock to-night, when the prohibition clause of the Food Act becomes effective.

Millions of bushels of grain which would otherwise be ground up for whiskey will thus be released for food. How many millions no one knows, for the manufacture of alcohol for beverage purposes is so closely blended with the production of alcohol for industrial and medicinal purposes that there is no way of determining the exact amount.

Of the one hundred million bushels of grain and fruit which goes into the distilleries each year about forty per cent, experts estimate, comes out in the form of whiskey and other distilled beverage drinks. The remainder, made into alcohol of exactly the same characteristics as that used for whiskey, eventually finds its way into perfumes, toilet waters, bay rum, medicines and to industries where denatured alcohol is used in ever increasing quantities. Approximately 116,000,000 gallons of whiskey is produced each year by American distilleries.

Production of alcohol by the same distilleries for commercial and medicinal purposes other than beverages approximates 146,000,000 gallons. The manufacture of alcohol for the latter purposes will continue as usual, probably in greater volumes, and few of the larger distilleries, if any, will have to shut down.

The class of distilleries which will be put out of business is composed almost entirely of small plants operated by one man to half a dozen men, located in California, Ohio and New Jersey, and producing brandy from grapes, apples and peaches. These produce approximately 2,000,000 gallons a year. Stopping whiskey manufacture instead of curtailing the government's revenues, will increase them for the next two years, officials believe. Coupled with the operation of the pending revenue bill, the withdrawal of whiskey from the stock already accumulated will probably treble the revenues within the next twelve months, as the present law imposes a tax of \$1.10 and the revenue bill contemplates a tax of \$3.20 a gallon. A stock of approximately 220,000,000 gallons has accumulated in the bonded warehouses and on the shelves of wholesale and retail liquor dealers. Approximately 190,000,000 gallons are in warehouses, and upon that quantity the government will collect taxes as it is withdrawn.

Few men will be thrown out of work by the operation of the law. Distilleries now running will continue to produce alcohol for commercial purposes with little change in their forces.

MARRIED.

An interesting event took place in the Church of England at Campbellton, on Thursday afternoon, when Mr. Robert Minto Boyd, recently appointed assistant manager of the main office of the Royal Bank at Vancouver, B. C., was united in marriage with Miss Marjorie, daughter of Mr. and Mrs. Daniel McAlister of Jacquet River, the ceremony being performed by the Rector, Rev. Mr. Barnes.

The bride's party, which included Mr. and Mrs. McAlister, Mrs. Desbrow, aunt of the bride, Mrs. (Dr.) McMillan, of West Virginia, who has a summer cottage at Jacquet River, and Mr. Knight, of Port Daniel, Quebec, were entertained at Campbellton in Mrs. McMillan's car. Other guests included Mr. J. S. Boyd, of Moncton, father of the groom, Mr. and Mrs. Montgomery and Mr. Murchie. The bride, who looked charming in a traveling suit with white furs, was given away by her father. After the ceremony the wedding party had luncheon at the St. Louis Hotel, after which Mr. and Mrs. Boyd took the Ocean Limited en route to their honeymoon home in Vancouver, stopping off for a few days in Montreal and Calgary. At the depot the bride was showered with rice and confetti and the happy couple received the best wishes of many friends.

Optimistic views as to Manitoba's crops were set forth lately by the Deputy Minister for Manitoba. There have been reports of black rust but fortunately there is no indication that it is dangerous.

NEW BRUNSWICK CAN HAVE AS GOOD IF PROPERLY UNDERTAKEN

Capitalizing the revenue received from automobile license gave the State of Maine a sum sufficient to inaugurate a road-building policy which has resulted in a tremendous increase in automobile ownership and in the development of a State-wide demand for good roads, even though good roads necessitate some additional taxation. The people of Maine realize that the money comes back to them in the added pleasure from the use of roads it is a comfort to drive upon, in the lessened repair bills, and directly in the largely increased revenue derived from the greatest tourist travel of those who pay as they go and want nothing but the best. What Maine has done is what many other states have done. The idea of using the revenue from a fair and reasonable automobile tax is now too generally followed to be regarded as an experiment. It is the recognized method of good road financing, and is justified on the ground that it is right that those whose necessity and pleasure demand good roads should pay for the production of good roads. Experience in many communities has proven that they are willing to pay if given roads that measure up to standard and if assured of honest, non-political expenditure of the money realized from the capitalization of their automobile tax. New Brunswick, following the example of Maine, and by following it in the same business-like way, could raise sufficient money to build a series of trunk roads that would gridiron the province in a way reasonably and adequately to meet the demands of those in whose interest the work is primarily suggested. By good roads is meant: real roads properly constructed, not patchwork repairs which are not permanent and only good in good weather. Because good roads are a necessity, and because under the conditions the automobile has created they pay for themselves, the new Brunswick government should seriously grapple with the problem and give over once and for all the present wasteful extravagant and wholly unsatisfactory policy of patchwork repairs. The time of a real, progressive, non-partisan, business-like road policy has come, and the government will find the public sympathetic and friendly if in grappling with the problem it gives evidence of a determination to solve it in the only way that it can be satisfactorily solved.

SEASONABLE—HINTS TO THE SPORTSMEN.

The Game Laws were enacted for your benefit. Their violation means a greater loss to you than to others because this is your sport.

If your record is good, what will you do this year to force guilty persons to understand that they are threatening the existence of YOUR sport?

The Deputy Warden is working for YOUR interest. He is your servant but will appreciate your help. His interests should be your interests.

A good many hunters think that violating the Fish and Game Laws and getting away with it, is part of the game. The more you think this over, we believe the less willing you will be to subscribe to this doctrine. Don't shoot until you clearly see your game, and not even then unless you have your partner located.

Theory: safe gun in the one apart in your case. You can't be too careful with it at any time.

Every square mile burned over means less shooting ground for game. Report a fire to the nearest Warden. Help fight it. It destroys the hunting grounds and the game.

Make sure it's a lawful head. It may be cow or a man; how would you feel?

Leave a clean camp and a clean record; you may want to come back.

REMEMBER that by shielding the poacher you put a premium on his work.

"The best sportsman and hunter is the man who finds the most game, kills the least, and leaves behind him no wounded animals!" BE A SPORT.

Remember this is a lean year. Remember the meatless days and waste nothing. Bring it all out. If you don't want it somebody else would be glad to get it.

Remember the H. C. L. and what you consider worthless will be highly prized by your less fortunate neighbor.

Let the above propositions sink in. Our desires is to make this grand old Province more and more attractive to live in every year, and among other things to increase and perpetuate your sport. But we can't do that without your assistance. We shall always be glad to hear from you on the problems involved and we wish you good luck and wholesome recreation when you go hunting or fishing.

A. F. O'LEARY, CHIEF GAME AND FIRE WARDEN, N. B.

After the garden project here comes another suggestion of supreme interest: In September on opening the schools all over the country the teachers will teach their pupils four things, to conserve wheat, fats, meats and milk and the reason why. Such suggestions are timely, being uttered by the advisory committee on Home Economics at Washington.

Food is being wasted in Canada and it is a plain fact that every pound of bread and bacon that is saved in Canada can be eaten in the war ravaged countries of Europe. It is no news to you that the people of France and Britain have submitted cheerfully to an unheard-of restriction in their food supplies. The people of Canada stand for the same cause; let us then be determined to help our heroic allies to the finish.

JUDGE BOTKIN AT MONCTON

ADDRESS BY CAMPBELL-
TON U. S. CONSUL WELL
SPOKEN OF BY PRESS

(Moncton Transcript.)

In St. John's Presbyterian church on Sunday afternoon men from different churches in the city heard a splendid address by Judge Theodosius Botkin, United States Consul at Campbellton. He took for his subject, "Patriotism," a discourse peculiarly suited to the occasion.

His Worship Mayor J. E. Masters, presided, and the speaker was introduced in a few happy remarks by Rev. T. Porter Drumm, pastor of the church. Judge Botkin is no stranger in Moncton, and the large attendance yesterday testified eloquently to the splendid impression which his previous addresses have made. Mr. F. S. Wilkins sang a very enjoyable solo.

Judge Botkin made a splendid impression. His clear-cut, forceful address held the close attention of his hearers throughout. He emphasized in cheering up the despondent and protecting those who are tempted to do wrong. One doesn't have to be rich to do good.

This evening at eight o'clock Judge Botkin will speak in the Sunday School rooms at St. John's church upon "Canada, the United States, and the World War."

"In the conserving of foods," said Mr. Phatt, "the careful serving of bread is very necessary. Three slices of bread from the loaves at present supplied, with one pat of butter, are ample for an order. Deep pies with one crust only, either meat or fruit, should be used in preference to pies with top and bottom crust. Open fruit or jam tarts also should be used."

Ontario this year will have the biggest crop in the history of the province, according to Dr. A. C. Creelman, Commissioner of Agriculture for that Province. "We will have 125 million bushels as compared to the average crop of 100 millions."

The Food Controller is lending his help to the farm labour situation in Ontario where it is acute. Representatives of the large industries met in Toronto and considered ways and means of releasing men from their regular work to help with the harvest.

Armies Use New Blang.

After the war someone will have to compile—for the benefit of realistic but inexperienced novelists—a little code of the slang of the New Armies. It could hardly be done now, for a good deal of that slang is in a state of flux. Phrases like "wind up" (i.e., frightened), or "put the wind up" anyone (i.e., make him frightened), have remained pretty constant during the last two years. But words like "wash-out" (noun and verb) have developed all sorts of varying applications. Simply and originally a "wash out" must have been the state of a camp whose occupants had been almost literally washed out by torrents of rain. By an easy extension it became a description of any particularly unpleasant situation—a water-logged trench very naturally indeed—but afterward anything at all, from a heavy artillery strafe by the Germans to a poor meal or an unpopular officer.—Manchester Guardian.

The Hindenburg Lincs.

In his book, "Behind the German Veil," De Beaufort, the dashing young journalist who bearded the lion Hindenburg in his den, prints a photograph of the Kaiser taken by a German photographer and printed in Berlin, but promptly suppressed by authority. It is an unretouched photograph, by no means insulting to his majesty, but revealing the fact that it is a much thinner and more worried, care-worn Kaiser than the official pictures. It is a study in remorse and defeat, and if Wilhelm is anything like it, small wonder that he is not often on public exhibition. One glance at such a face would put despair into the heart of all Germany.

NEW SUBMARINE RESCUE DEVICES.

New York, Sept. 10.—New rescue devices for submarine victims were among the appliances to be displayed and demonstrated at the fourth annual convention of Safety and Sanitation of the American Museum of Safety and the National Safety Council, which will begin its session here today. The sixth annual safety congress will also begin its sessions today. It was calculated that more than 2,000 executives of railway and industrial corporations were in the city to attend the two conventions.

The price of bread has been too high," says the Canadian Food Controller, "particularly in some sections. Whatever is necessary will be done. We hope agreeably to all concerned. But it must be done."

Event Points Out Ruthless German Policy Pursued in China.

The beginning of the last decade of the nineteenth century (1890-1900) saw the partition of Africa, and the last time that the nations of the world looked out on a peaceful prospect was when, on the completion of this partition about 1893, Lord Salisbury pointed out that for the first time in the history of the world a continent inhabited by savage tribes was to be divided into nations.

He had hardly said this when there came the war between Japan and China, ending in the collapse of the latter, and Germany, departing from its previous policy of abstention in the East, began negotiations which brought Russia, Germany, and France together for the last time, disappointing Japan of the fruits of war, and reorganizing Manchuria on a basis which was certain sooner or later to bring war between Japan and Russia. So the first entrance of the German Government in East Asia was a preparation for hostilities. War between Russia and Japan became inevitable and came a decade later, in 1904.

France was left with distrust of both Japan and China. Aggression on China was encouraged. Germany, in 1917, seized Kiau Chiao, a leasehold, in part, of two hundred square miles and nearly two million people, and laid a future claim to Shantung, as reparation for two German missionaries—the highest ruling question for missionaries, as the Paris Treaty said, since St. Paul left Damascus to begin his mission.

In 1900, after the Boxer disorders were over, the embassies at Peking and the other seven were seeking peace. Germany, at Peking, inflicted a horrible "punitive expedition" which proceeded and exceeded all the Belgian horrors.

"Has there been," said an American general in Peking to the ranking officer in command of the German troops, "a renaissance of medieval savagery?"

"Requiescence? Yes, may I think so," was the reply; "they have never been in Europe."

The Kaiser had told his troops as they went to leave their mark on China. "First this time the whole of Germany has been used to exterminate the Chinese Empire, and the power of the Government of Germany has been used to exterminate the Chinese Empire, and the power of the Government of Germany has been used to exterminate the Chinese Empire."

From "How the German Empire Has Menaced Democracy," by Dr. Fritz Williams, in The American Review of Reviews.

CANADIAN HEROES RECEIVE MEDALS

FRENCH CANADIANS SHOW
UP BRILLIANTLY FOR
THEIR BRAVE DEEDS.

The award of the Military Medal to twenty-four non-commissioned officers and men of a French-Canadian battalion which did gallant work at the capture of Hill 70, and had already earned high praise for its fine achievement at Courcellette, shows that the men of Quebec province, had a full share in our recent victory. Here are some records of French-Canadian valor from the official statement as to the reasons for the award of the Military Medal. Pte. Joseph Roussin, single-handed, attacked and killed five Germans and took three others prisoner. He was seriously wounded in the arm by a bayonet thrust.

Private Hilarion Lapointe, single-handed, charged and killed the crew of an enemy machine gun and captured the gun just in time to save the lives of two advancing sections.

Private Adrien Brien, during the attack on Hill 70, rushed a German machine gun which was causing casualties. He killed the crew and captured the gun.

The tale of that Dolland, who went out to die that his fellow colonists of New France might live, is recalled by the bravery of Corporal Dolland Le Flamme, of whom it is said:

"In a charge of Lewis guns he posted them with marked ability, and kept moving from section to section, cheering his men up amid heavy shelling."

"During an enemy counter-attack he remained with his section at a most critical spot in the line and was, to a great extent, responsible for the repulsion of the counter-attacks."

One can almost see through the smoke of battle the powerful frame and fearless face of Sergeant Joseph Arthur Naud, of whom the record says that in the battle of August 21st on the southern slope of Hill 70, he led a party of men to the front line under intense and continuous barrage. He himself carried as much ammunition through the barrage as two ordinary men could have carried.

Of stretcher-bearer Joseph Dompierre, it is said that he attended to the wounded under an intense artillery fire without thought of his own safety. Many of them he carried to a place of safety on his back.

A lawyer tells this story of himself and his efforts to correct the manners of his office boy. One morning the young autocrat came into the office, and, tossing his cap at a hook, exclaimed—

"Say, Mr. Jones, there's a ball game down at the park today, and I'm going."

The lawyer thought he would teach him a lesson.

"Harry," he said "that isn't the way to ask a favor. Now, you come over here and sit down, and I'll show you how to do it."

The boy took the office chair, and his employer picked up the cap and stepped outside. He then opened the door softly, and holding the cap in his hand, said quietly to the boy in the chair—

"Please, Sir, there is a ball game at the park today. If you can spare me, I would like to get away for the afternoon."

Whereupon the boy replied—

"Why, certainly, Harry; and here is fifty cents to pay your way in."—New York Times.

CELEBRATE THE MARNE.

Blind French Commander Lays Wreaths on Soldier's Graves.

Meaux, France, September 10.—The ceremonies in connection with the celebration of the anniversary of the Battle of the Marne continued yesterday, with a visit to the field of operations on the Ourcq River. General Michael Joseph Maunoury, since blinded by a bullet received while on duty on the Aisne, who commanded the army of Paris, headed the visiting party. General Lamaze, one of General Maunoury's principal lieutenants, and several hundred named soldiers who took part in the battle, accompanied by their blind commander. General Maunoury and Lamaze visited scenes of the great conflict and laid wreaths on numerous individual and collective graves of the soldiers of their armies who fell there. Great crowds were present at the services, as well as the religious services at different points on the battlefield.

ASTOUNDING REPORT FOR CAMPBELLTON.

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Alder-ika benefited her INSTANTLY. Because Alder-ika flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. A. McG. McDonald.

PTE. CLARENCE GALLANT
WENT OVERSEAS WITH
171st. RETURNED
HOME ILL.

Word was received Tuesday morning of the death of Pte. Clarence Gallant son of Mr. John R. Gallant of this town. Pte. Gallant enlisted with the 171st Battalion and went overseas with the same battalion. He was just seventeen years of age. While in England he was taken ill and sent to Mowat Hospital, Kingston, Ontario where he died. His father was called there to see him but did not arrive before his death.

He leaves to mourn, his father and mother, three sisters and two brothers.

CAMPBELL-CAMPBELL

A pretty wedding took place at the home of Mr. and Mrs. Percy Bazley, Waltham, Mass. on Wednesday evening, August 29th when Miss Margaret Campbell of Seaford, N. S. and Mr. Leslie Campbell of Black Cape, Que. were united in marriage by Rev. F. G. Potter of the Immanuel Methodist Church.

The double ring service was used and the wedding march was played by Miss Lulu McCullough. The bride was attended by her sister Miss Blanche Campbell and Pte. Earl Wheeler of the 101st Overseas Battalion, U. S. Army, was best man.

An informal reception followed the ceremony and a wedding supper was served. Mr. and Mrs. Bazley, the latter the groom's sister, assisted in receiving the guests. The house was decorated with palms and cut flowers were used in profusion.

The bride wore a gown of white silk and georgette crepe and her veil was caught with orange blossoms. She carried a bouquet of bride's roses. The bridesmaid wore salmon pink silk and also carried a bouquet of tea roses.

Mr. and Mrs. Campbell left at the close of the reception for a trip to New York and on their return will be at home to friends after Sept. 5th at 40 Brown Street, Waltham, Mass. where they will make their home for the present. The bride's travelling suit was of navy silk with white satin hat.

Many valuable gifts were received by the bride consisting of silver, china and cut-glass, also cheque from both the bride's and groom's parents.

"What are you raising in your war garden?" "With my wife's pet dog, the neighbor's chickens and everybody's cats, I'm raising Cain. What else do you suppose a war garden is for?"—Baltimore American.

"What does that sentence mean?" asked the teacher. "Man proposes, but God disposes." "What does that mean?" "Well, Thomas," said the teacher, "what does it mean?"

"It means," answered Thomas, with conscious pride, "that a man might ask a woman to marry him, but only the Lord knows whether she will or not."

"Buy intelligently; learn how much food value is secured for money spent. Plan meals ahead and avoid constant small orders. Take an inventory of your garbage can. If it reveals unnecessary waste, plan to avoid this in future."

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia
E. Pinkham's Vegetable
Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

ENGINEER STRICKEN.
While coming down the north shore on Saturday afternoon at the thronged of No. 200 south-bound Ocean Limited, Mr. Joseph Moore, a well known C. G. R. locomotive engineer, whose home is in Petticoat, was seized with a violent pain in the abdomen which became so severe at Bathurst that he was unable to run the engine any further. In fact stimulants had to be administered before he could leave the cab of the locomotive and enter one of the coaches. His fireman took charge of the train and ran it into Negusville, where Engineer James King was secured for the run to Moncton. On arrival here, Mr. Moore was taken to the City Hospital, where at latest reports was resting comfortably. It was stated at the hospital yesterday that he would probably have to undergo an operation, but a latter statement is to the effect that this will not now be necessary.—Moncton Times, Monday.

LARGE BUILDING OPERATIONS.
The Building Inspector has issued fourteen building permits for the erection of buildings in Campbellton during the months of July and August. These fourteen buildings range from an auto garage to a \$15,000 brick block. The value of the permits, which is not necessarily the value of the buildings as many dwelling houses are placed at from \$600 to \$2,000 is \$36,350, for the two months. This does not include a permit for the new R. C. church for which the site is being excavated.

OBITUARY.
DANIEL WARD.
The death occurred at Black Point on Wednesday last, Sept. 5th of Mr. Daniel Ward, aged seventy years. Deceased received injuries recently while at work which caused his death. Besides his wife, who was formerly Miss Isabelle Beattie, he is survived by four sons, Alpheus, of Seaside, David and Almer at home and Lester of Indiana and one daughter, Miss Jessie at home. Two sisters also survive.

The funeral was held on Saturday, interment being in the Presbyterian cemetery at New Mills, Rev. F. L. Jobb officiating. The funeral was largely attended showing the esteem in which deceased was held.

Mr. and Mrs. J. H. Taylor have the sympathy of the entire community in the very sudden death of their bright little son Joseph H. which occurred Monday morning after only a few days illness of pneumonia. The little fellow, who was two and a half years of age, was a general favorite with all. The funeral was held on Wednesday afternoon, Rev. Hugh Miller officiating.

LET US HAVE IT.
The editor of the Graphic has received a post card from New York with the following thereon: "In the next issue of the Graphic I would like to read an article on 'What women most admire about men. Ha! Ha! Who.' If the young lady who has much experience in such matters will provide the article we will find space for same. We are sure her article would cause a sensation."

"BREATH O' THE HEATHER."
As a contribution to the military journal the story of the first official authorized campaign to secure British subjects, resident in the United States for service in both the Canadian and British Armies, as well as to secure recruits to don the uniform of Uncle Sam fighting forces, the recent issue of the "Breath O' The Heather", the 236th Overseas Battalion—MacLean Killies of America—regimental journal is both unique and historical. The story as unfolded by illustration and text in this souvenir New England edition is graphically and interestingly told leading the reader up to a successful climax with the names of 670 recruits who are now wearing the Kings uniform in this last volunteer New Brunswick fighting unit, commanded by Lt. Col. Percy A. Guthrie. The manner in which the Fredericton colonel and his small staff of recruiting officers and non-coms, assisted by the Killies Band, secured over 1300 'rockies' for the different branches of the service in a two week campaign in the land known as the "Cradle of Liberty" to wit the New England States is set forth by Boston and Bangor series—and there is much humorous reading in the 46 pages that find a home in a cover resplendent in the colors of the 'birds' of the 'MacLean of Duart'. The publication is the work of Captain Percy F. Goddard, manager of the Killies magazine whose various experiences in Western Canada, as well as in France in publishing "The Brawler" for the 16th Battalion—Canadian Scottish is well known. He was a Sergeant then and his O. C. was Lt. Col. C. W. Peck, a New Brunswicker from Albert County though Prince Rupert has for years been his home. LUMBERMEN PRESENT CASE.
The Provincial Government gave a hearing to a delegation of lumbermen on the matter of the increase in the stumpage rate which went into effect some weeks ago. The lumbermen who protest against the increase were from the North Shore: Hon. J. P. Burchill, of Nelson; Mayor W. B. Snowball, of Chatham; F. M. Anderson, of Campbellton; Hon. James Robinson, of Millerton, and Hon. Wm. Currie of Campbellton.

TO CONVALESCENT.
Lieut. Frank P. Flett, who was recently before the medical board for final examination, in the hope that he would again be sent overseas, has just received official word that he must enter the Kentville Sanatorium for treatment for tuberculosis. Lieut. Flett leaves Chatham some time this week—Chatham Commercial.

HONOR FOR KNITTERS.
The Soldier's Comfort Association is asking the names of all ladies who have knitted one hundred pairs of socks or more. The following note has been received from headquarters: In a recent letter from Miss Bulmer we were asked to send a list of the names, of all persons who have knitted one hundred or more pairs of socks for soldiers; as a special card of recognition had been prepared for such. Kindly send names and addresses of those in your community who are eligible, that we may forward same to her.

JACQUET RIVER.

On Tuesday last the Council election was held and much interest displayed. Messrs. John Lawlor and Archibald Lawlor the old councillors hading Mr. Kerr, was one against two, the returns showed remarkably well, as he only required a few votes for the majority.

The C. M. B. A. held their annual election of officers recently and incidentally celebrated the sixth anniversary of the Jacquet River branch. An interesting feature of the proceedings was the initiation of a large number of new members being a very appropriate method of celebration. Grand Knight Brown of Moncton was present and assisted in conferring the degrees, and afterwards joined in the Officers' rejoicings.

Congratulations are in order to Mr. and Mrs. Ernest McNair on the arrival of a baby boy at Newcastle where Mrs. McNair is the guest of her mother, Mrs. T. A. Clarke.

On Friday evening Sept. 14th the monthly meeting of the Jacquet River branch of the New Brunswick Women's Institute will be held at the home of Mrs. R. L. Ellis.

A very interesting event took place at the English Church at Campbellton on Thursday afternoon, Sept. 6th at 4.30 when Miss Marjorie McAllister became the bride of Mr. Robt. Boyd of Vancouver, B. C.

The bride who was given away by her father, looked charming in a suit of grey, with hat to match and white fox fur. The couple were unattended. After the ceremony Mr. and Mrs. Boyd took the limited for their future home in Vancouver, stopping on their way at Montreal and Calgary, amid the good wishes of a host of friends. Mr. Boyd, editor of the Moncton Times and father of the groom was present as well as Mr. and Mrs. D. McAllister, Mrs. W. S. McMillan, Miss Lydia Enright, Mrs. Desbrow and Miss Mollie McMillan.

Mrs. Boyd was one of Jacquet River's most popular young ladies and a host of good wishes will follow her to her future home.

An entertainment was held in the C. M. B. A. Hall on Wednesday evening last, which caused entertainment for a large number of the younger folks in the shape of a juggling exhibition, given by Mr. Frank Amante, many good tricks were shown.

Among those who attended the races in Campbellton, on Labor Day was a motor party, consisting of Mr. John McNair, Mr. William Savage, whose names were omitted last issue. Death visited Black Point on Thursday last and carried away one of its most respected citizens, Mr. Daniel Ward at the age of about 60 years. Deceased received injuries recently while at work which caused his death. He is survived by his wife formerly Miss Isabella Beattie, four sons, Alpheus, of Seaside, Lester, of Indiana, David and Almer at home and one daughter Jessie also at home, who have the sincere sympathy of the community in their bereavement. Interment took place in the Presbyterian Cemetery at New Mills on Saturday, Rev. F. L. Jobb officiating. An unusually large cortege followed the remains to their last resting place testifying to the esteem in which the deceased was held.

The road commissioners have been very industrious of late, especially around Nash's Creek, where an up-to-date and substantial bridge has been erected over River Louison. The structure is of wood and will fill a long felt want, as the old structure was decidedly shaky. The approaches to the bridge have also been considerably improved making a very nice bit of road.

Misses Margaret LaPointe and Gertrude Doyle of Nash's Creek have returned to Dalhousie Convent to resume their studies.

Mr. Paul Doyle and little son Guy spent Tuesday in Dalhousie.

Misses Winnifred and Janie Winton spent Sunday in Campbellton the guest of Mr. and Mrs. Leonard Winton.

Mr. Evan McMillan paid a visit to P. E. I. last week.

Mr. Ernest McNair spent Saturday in Newcastle the guest of Mr. and Mrs. T. A. Clarke.

Miss Lou Brown has gone to St.

St. John Business College.

Sgt. Thomas and son James Casey spent Thursday in Campbellton.

Mrs. Daigle and daughter are the guests of Rev. F. M. Daigle.

Miss Marie Shannon spent Tuesday in Campbellton the guest of Miss G. Lemieux.

Mrs. Collins of Black Point spent Sunday the guest of Mrs. M. Murphy.

Miss Jennie Davidson has gone to Fredericton where she will take a course in the Fredericton Business College.

Mrs. George Atkinson visited Moncton last week.

Miss Katherine Haley spent Sunday in town the guest of Mrs. Angus McMillan.

Mrs. John Monroe visited Campbellton last week.

Misses Emma Guitard and Bella Wedge of Turgeon were the guests of Miss Olive Firlotte last week.

Mrs. John Cummins and children of Shives Athol spent last week the guests of Mr. and Mrs. Alex. Firlotte. The many friends of Mr. Fred Firlotte Jr. will hear with regret of his being confined to his bed with appendicitis, and wish him a speedy recovery.

Mrs. W. A. McMillan, Miss Mollie McMillan, Miss Virginia Littleton, Misses Owen, Oiser, and Harvie McMillan who spent the summer at their bungalow here, have returned to their home in Charleston, U. V.

Mr. Frank Ward of Campbellton with an auto party passed through on Sunday, on their way to Bathurst had the misfortune of losing his car on the return trip about Culligan, when the car caught fire and was completely destroyed. The occupants escaped unhurt.

On Sunday at the Presbyterian Church immediately after service Rev. F. L. Jobb baptised several children including: Jennie, daughter of Mr. and Mrs. Harvie McMillan; Daisy Ethelina, daughter of Mr. and Mrs. George Harvie; and a son of Mr. and Mrs. Ronald Rosengren, named Joseph Ronald Seely, also a son of Mr. and Mrs. Rudolph Rosengren, named Joseph Murray.

Mr. Herbert Soarer of Sayabec was the guest of Mr. and Mrs. D. McAllister last week.

Miss L. Enright who has been the guest of her sister Mrs. McAllister returned to her home in Port Daniel, Que., this week.

Mr. and Mrs. D. Archibald and family have returned to their winter home in Archibald Settlement.

Miss Elizabeth Gallant has gone to Montreal to spend some time.

DALHOUSIE.

Dalhousie, Sept. 12.—An address was recently presented to James E. Stewart Esq. by the congregation of St. John's Church, Dalhousie accompanied with a valuable gold watch and chain, as an expression of the gratitude of the congregation for the valuable services he has rendered as Treasurer during the last twenty years. The inscription on the watch is as follows: "Presented to James E. Stewart Esq. by the congregation of St. John's Church, Dalhousie, N. B. in grateful remembrance of his twenty years service as Treasurer."

Doctor A. G. Ferguson, Mrs. Ferguson, Miss Ferguson and Miss Coles of Montreal, who have been their guest for sometime, returned on Monday from a very enjoyable trip in automobile as far as New Carlisle, Bonaventure Co. P. Q.

Mr. Allie LeBlanc, St. John spent a few days at his home recently having motored from St. John, with Hon. J. B. M. Baxter.

Miss Jennie Stewart, Keene, N. H. is spending her holidays here with her parents Mr. and Mrs. James E. Stewart.

Mr. Wilson Stewart, Rothsay, spent the week end in his native town and received a hearty welcome.

Mrs. Fuller and her daughter Mrs. Peter McIntyre have returned from a two weeks visit to Carleton, P. Q. and are delighted with the place.

Mr. Charles Nelson, who resided here in the past, arrived in Dalhousie on Tuesday last to join his wife and little son who spent the summer here, guests at the Queen. He came from Edmonton having been in the employ of the Canadian Northern Railway Company during the last six years as Inspector of lumber. He left on

Monday with his family for Truro, N. S. where he purchased recently a four hundred acre farm. In his younger days he worked on a farm in Nova Scotia. He may decide to locate there and go into cattle raising. The Canadian Northern Railway Co., are anxious that he should return to their employ. If he does he will locate either in Toronto or Vancouver.

Mrs. Fred Fallon, wife of Sergeant Fallon of the 182nd, has returned from Sackville, where she was the guest of her sister Mrs. H. H. Woodworth.

Pts. Wm. Roche McNaughton, spent Sunday here the guest of his aunt Mrs. LaBille. The young hero had been spending a few days with his friends on the Gaspé coast. He left on Monday's limited to enter a convalescent hospital in Montreal. At the front he was in charge of a Lewis machine gun with a capacity of 800 shots per minute. This gun only weighs 26 lbs. Private McNaughton being a machinist by trade became an expert with the gun and for safe results generally used it at 500 bullets per minute. Five men worked with him in the handling of this gun. The carrying of the ammunition having to be done carefully. He took part in three heavy engagements: The third battle of Ypres, at Hill No. 60, in Flanders, and La Somme in France. In the latter he was badly wounded in the spine by shrapnel and spent ten months in hospitals in England, where he was treated with great care and kindness. Asked as to conditions in England, he said the people in England deserved great credit. The women are doing the men's work in most cases, and contrary to what has been said in Canada, the men in England, have exhibited to a remarkable degree and there was no soldier like the British.

Your correspondent has seen a letter received by Miss E. Vera Dean from Herbert H. White, Manager Harvard Surgical Unit, Cambridge, Mass. U. S. A. with invoice of 80 hot water bottles, \$151.08 sent to Fraiser's in New York, for use in the 22nd. unit at Hospital. This is what was done with the proceeds from concert held at Frick Arena. In addition \$500 in money, a large can George Washington coffee for use in the wards, besides several boxes were sent to the Hospital. Miss Dean has done splendid work for the boys and great credit is due also to the young people's orchestra of Dalhousie, who gave their services so cheerfully all summer and with such a patriotic spirit.

Mr. H. A. Hilyard, Woodstock, is in town and is receiving a hearty welcome. He is the guest of Mr. P. H. Sheehan.

Miss J. Chamberlain, Campbellton, paid a very pleasant visit recently to Mrs. Daniel McDonald.

Mrs. Andrew Murphy and Mrs. John Callahan, Jacquet River, were visitors to town on Sunday.

Miss Lawlor, Point LaNim, who was very ill last week is much better.

The Red Cross Society of Dalhousie is holding frequent meetings. The ladies are preparing parcels for the boys at the front, generally known as Christmas presents.

Herring are reported to be plentiful on the Quebec side. Some good catches were made at Maguasha this week.

It is wonderful how safe it is to send parcels through the mails to our boys. A family in Dalhousie sent two dozen eggs lately to their two boys at the front and news has been received that there was not a broken egg in the lot. There is no article of food so much appreciated by our soldiers in the trenches as fresh eggs. Dalhousie citizens who have furnishings suitable for fitting up the G. W. V. A. Club rooms are asked to communicate with Corp. C. Cabot, who will take charge of same. Already some articles have been donated. Chairs, tables, pictures, etc. are required.

The Misses McPherson who are at home on a vacation are at present visiting in Shigawake.

Mr. Percy Bissan left on Wednesday for Montreal.

We are sorry to learn that Mr. Vincent Dow met with a serious accident while trying to break in a young animal. He was thrown against a building and his shoulder put out of place.

Miss Emma Vautier of Shigawake was visiting her sister Mrs. Jas. Provost for a few days recently.

Misses Alma and Mae Bissan have left for McDonald College to complete their business course.

Mrs. John Phelan is visiting in New Richmond the guest of her daughter Mrs. Alexander Walsh.

UNDOUBTEDLY.

A party from the west of England were being shown over the British Museum, and in one of the rooms the keeper pointed out a collection of antique vases, which had been recently unearthed.

"Do you mean they were dug up?" echoed one of the party.

"Yes, sir."

"What—out of the ground?"

"Undoubtedly."

"What—just as they are now?"

"Perhaps some little pains have been taken in cleaning them, but in all other respects they were found just as you see them."

The countryman turned to one of his companions, and with an incredulous shake of the head, exclaimed: "He may say what he likes, but he shall never persuade me that they were dug up ready-made pots out of the ground."

It Rests With The Women

Our women folks, after all are the real buyers for the whole family and it is to them, especially, that this "Trade at Home" idea is directed.

If the average woman could be made to realize that every time she spends a dollar away from home, she is simply taking that much away from her husband's father, son, or brother—she would keep it here.

Every time a dollar leaves here it lessens the chance for our men folks for advancement; possibly an increase in salary—it reduces their earning power.

Will any woman be so thoughtless as to send away money that, spent here would circulate from hand to hand and probably come back to her.

Most women are good, true, loyal citizens, and especially is this true of our Campbellton women.

It surely will only be necessary to have this matter brought to their attention in order that results may follow.

In trading at home our womenfolks can do their share in the upbuilding of our town.

Let every woman who reads this think well over the question and then discuss it with other members of their family and their neighbors.

THE WOMEN OF CAMPBELLTON WILL SURELY DO THEIR PART.

**MAY REVEAL MORE
ABOUT GERMAN INTRIGUE**

London, Sept. 10.—A despatch to
the Daily Mail, from Jibuti, Africa,
says a German named Helms, and an
Austrian named Karmelich, who with
forty Arabs have been wandering in
the interior of French Somaliland for
about two months, have been captured
after a strong resistance in which sev-
eral were killed. The capture is ex-
pected to result in important revela-
tions of German intrigue in Abyssinia.

Calgary, Alta., Sept. 10.—Pat
Burns, A. B. Day, P. Mayland, and
some of the largest producers of beef
and mutton in the province are agi-
tating for legislation to prohibit the
killing of calves and lambs in order
to preserve the future wheat supply.

**WILL BE PLACED
NEXT SATURDAY.**

Quebec, Sept. 11.—It was definitely
settled to-day that the centre span of
the Quebec bridge will be placed next
Saturday morning, starting at four.
The pastor of Silery parish blessed
the works yesterday and all the men
were present.

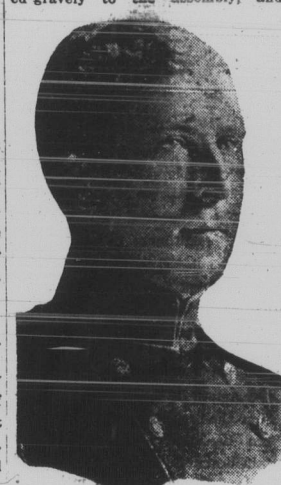

**BELGIUM'S KING
A NOBLE FIGURE**

Description of Monarch Deliver-
ing Historic Speech.

HE WAS NOT MELODRAMATIC

Called on Factions to Unite in De-
fence of Sacred Heritage of An-
cestors, and the Answer Came
Back, Even From Socialists:

THE scene in the Belgian Par-
liament when King Albert
described the German attack as
described by Hugh S. Gib-
son, first secretary of the American
Legation in Brussels at the time, in
his journal, which is appearing seri-
ally in the World's Work magazine.
Mr. Gibson was only ten feet away
from the King when he made his ad-
dress. His description follows:
"The King came in quietly from
one side and took a throne to the
left of the tribune after acknowledg-
ing a roaring welcome from the
members of the two Houses. When
the cheering had subsided, the King
walked in alone from the right, bowed
gravely to the assembly, and

KING ALBERT

walked quickly to the dais above and
before the tribune. With a business-
like gesture he tossed his cap on to
the ledge before him and threw his
white cotton gloves into it—then
drew out his speech and read it. At
first his voice was not very steady,
but he soon controlled it and read
the speech to the end in a voice that
was vibrating with emotion but with-
out any oratory or heroics. He went
straight to the vital need for union
between all factions and all parties,
between the French, Flemish, and
Walloon races, between Catholics,
Liberals, and Socialists, in a deter-
mined resistance to the attack upon
Belgian independence. The House
could contain itself for only a few
minutes at a time, and as every point
was driven home they burst into
frantic cheering. When the King,
addressing himself directly to the
members of Parliament, said: 'Are
you determined at any cost to main-
tain the sacred heritage of our an-
cestors?' the whole Chamber burst
into a roar and from the Socialist
side came cries of: 'At any cost, by
death if need be.'

Another Prophet Speaks.

There have been so very many
prophecies concerning the end of the
war that prophets (and they continue
to flourish) have come to
arouse rather an emotion of mild
curiosity than one of breathless in-
terest—although the whisper of
hope is not silent.

Dr. Arthur Shadwell, writing in
The Nineteenth Century, believes the
nations are approaching the end. The
flame, because of its sheer fury, can-
not be felt, endure much longer.

Events have moved so fast of late
that though the future is still uncer-
tain it is less obscure than it was a
few months ago. The veil is thinner,
and some things can be seen through
it. One is that the war will not last
very much longer, by which I mean
that it will not drag on indefinitely
or even for two or three years.

It cannot; the pace is too hot and
the strain too great. It might have
been otherwise. If the pace had
slackened and a lull had occurred,
giving time for rest and recuperation,
the war might have been drawn out
for years.

That is what used to happen in the
old wars, which lasted for decades.
Troops used to go regularly into win-
ter quarters, and there were long
periods of inactivity, with armistices
and occasional spells of peace. War
was not continuous.

Nor when it went on did it involve
forces comparable with those de-
manded by this war, in which the
whole strength of the belligerent na-
tions is thrown into the struggle.
This unprecedented strain we owe to
the German military policy, which
set the pace in the scale of armies
and development of weapons in pre-
paration for the final, decisive battle.
The result is to make a long drawn
war impossible; the strain cannot be
borne. And by a just decree of fate
the consequences of Germany's own
policy are recoiling on her own head.

Manila Hemp.

The supply of Manila hemp for
the world is grown solely in the
Philippines. The plant is a species
of banana, but bears no edible fruit.

WISCONSIN.

New, said the bridegroom to the
bride, when they returned from their
cheap honeymoon trip, let us have
cheap understanding before we settle
down to a married life. Are you the
president or the vice president of the
society?

I want to be neither president nor
vice president, she answered. I will
be content with a subordinate position.
What position is that, my dear?
Treasurer.

**Pictures of China
in Our Literature**

AS the recent events have
been for us Westerners the
Sphinx of Asia. Every con-
tribution toward the solution of its
riddle is welcomed, and one is there-
fore grateful to Mr. G. Currie Martin
for his lucid article on the above
subject in The Asiatic Review on
May 15 last, being, in the main, the
text of a paper read by him before
the China Society at Carlton Hall,
Westminster.

Were one to ask the ordinary edu-
cated Englishman or American for
references about China in English
literature, he would probably be
exhausted by the well-known quota-
tion from Tennyson's "Locksley Hall":
"Better fifty years of Europe
than a cycle of China." But neither
the poet nor one of a hundred read-
ers quoting him suspected and still
suspect that the cycle of China, in
amounts to sixty years only, and that
therefore the whole comparison dan-
gerously distorts the facts.

Eventually Bret Harte's "Heathen
Chinee" would be added.
Shakespeare's dramas have justly
been called a poetical encyclopedia
of the world's wisdom of his time.
We are, then, justified in asking why
the Bard of Avon, with his universal
mind and gift to turn all things to
account, did not discover some of
China's secrets. One can only re-
pose that in spite of all that had
been written no traveller had told
anything of China's history, and
there was no dramatic situation for
him to choose. As it is the inhabi-
tants of Cathay, with his universal
mind and gift to turn all things to

Hyphenated Press Hard to Control

ONE of the problems of the press which is pressing for solution in the United States is that presented by the treasonable attitude of the German-language newspapers. Without any important exception they are doing whatever lies in their power to hamper the war effort of the United States, to sow discord among the Allies, and to convince their readers that Germany must emerge victorious. It is true that after April 6, when Congress recognized and announced that the United States was at war with Germany, they have had to alter their tactics. Before that time they were outspokenly and unabashed champions of Germany. They defended and exulted in the sinking of the Lusitania; they held up Barrators to admiration; they ridiculed President Wilson, and asserted that the American Government was a mere puppet of the Kaiser. When war was declared the editors of these papers placed themselves in a divided into loyal and treasonable camps. So instead of continuing to uphold Germany, they with one accord began to shout "America first." They all protested their allegiance to the United States and went a few crooked miles that they were compelled to draw the sword against the Fatherland. One of them, indeed, the Milwaukee Germania, was candid enough to say: "Our friends know what we think and feel. This paper has courageously and consistently expressed its conviction in this matter. The fact that war has now been declared through the expediency of recognizing the existence of a state of war does not at all change our opinion and our conviction. But it forces us to keep silent from now on." In the Atlantic Monthly Mr. Frank Perry Olds goes through the files of the leading German-language papers in the United States, and exposes the game they are playing.

The groundwork for their scheme was already done; they had convinced their readers that Wilson was a silent ally of England, that the whole Washington Government was unworthy of confidence; that Germany's cause was righteous, and that American participation had been brought about by the machinations of England. They could not now denounce the war, for that would be treason; they could exercise their right of free speech by criticizing every move made by the United States. Spouting "America first," they began to denounce the United States. They said that the United States would not be imposed on by the Allies; the British Powers may be the cause of our full weight into the collar; they will be inclined to lean back and let the United States do the fighting. Especially are they distrustful of England, and they have freely upon the issue of independence.

The Chicago Abolition thus expresses itself: "It would be a grievous wrong, a crime against the people and the country, if the United States should now put, at the disposal of the British Powers its money and what it has of war supplies and soldiers. For they would probably be only fruitless victims for a foreign cause and one fundamentally hostile to America. If the impregnable should happen and the Entente, thanks to American aid, should gain a victory over Germany and her allies, we would only ourselves put the British yoke about our neck and make ourselves dependant for all time on the British Empire." The German papers interpret "America first" to mean that the United States must not give any financial assistance to the Allies. It is sure to be lost. That already sent to Russia before the detestment of the Czar is said to have gone without hope of recovery. Then the Allies must not be given any food, not because the German papers do not want to help the Allies—God bless them!—but because the starving people of the United States need their own foodstuffs. Consistent items have been circulated in the past few months to convince the German-Americans that there is an awful famine approaching. The Allies being denied money and food, under the slogan of "America first," it is only necessary that they be denied men, and the war upon Germany will be waged with all the force of the German-American. They approve, in principle, the selective draft, of course, but it ought to be composed exclusively of volunteers. Moreover, it will take six months to train a soldier, and by that time the war will be over, so what is the use of sending troops to Europe? In the news sections of these papers German victories continue to be displayed in large headlines. Allied victories are discredited. Since the leading dozen German-language newspapers are said to influence not fewer than a million readers, the peril constituted by the campaign of disloyalty is apparent.

Window Glass.

Window glass is blown in the shape of long cylinders, which are cut open along one side and then placed on a stone in a hot furnace, where they gradually collapse and flatten out into a big sheet of glass. Often the glass breaks during this process, or even explodes, forming thousands of pieces, which sheet in all directions.

Knapenack chiefly constructed from paper wadding are supplied to the German troops.

Miss Brackbill, a returned Missionary who spoke in the Methodist Church last evening was the guest of Mrs. Bertram at the Paxonagk. This afternoon Mrs. James Haines held a reception in her honor.

A Food Conservation exhibit in the Government building of the Canadian National Fair will be held this year.

AMERICAN'S PRAISE OF CANADA'S WAR EFFORT

(Baltimore Sun.)

Kipling called Canada "Our Lady of the Snows" but the story which corresponds tell of her pride, her loyalty, and her affection are everywhere. Canada is the Vesuvius of the nations. Every American should read the record of the sacrifices and the heroism of the Canadians. Before the war certain brainless Americans talked of annexing Canada and of making it share in the benefits of a republican government. Until we can lift ourselves to the same level as this high-minded people the best thing that we could do would be to get ourselves annexed by Canada. We hope that the letters of our correspondent will cause our hearts to beat with admiration and will stimulate us to a generous emulation. For the next generation at least to be a Canadian will be the equivalent to being one of the elect of the earth.

CHRISTMAS PARCELS TO SOLDIER BOYS.

The Soldier's Comfort Association will this year as in the past forward a shipment of Christmas parcels to the boys at the front. The following note has been received from the St. John headquarters:

In regard to the Christmas shipment, we would urge that all parcels and comforts for the men overseas reach our rooms not later than the middle of October. Please keep the parcels to regulation weight, not exceeding five pounds (5 lbs.). Besides these parcels, we would be pleased to receive any comforts for the boys. Soldier packages which we fill here and forward to Miss Bulmer for distribution. So many of our fighting men have no one to remember them at Christmas.

AUTO DAMAGED.

Mr. Frank Ward's Gray Dorr was seriously damaged by fire at the lower end of the county Sunday night or early Monday morning. Some trouble developed and in locating it a blaze was started around the electrical equipment, presumably by a short circuit. The car has been taken to Dalhousie for repairs.

SERIOUSLY WOUNDED.

Mrs. Walter LeTourneau has received word from the Hospital in which her husband now is. Part of the letter giving particulars is as follows:—

"You will have heard before now that your husband is in hospital here, No. 58 Casualty Clearing Station and I am sorry to have to tell you that he is very ill. He was admitted suffering from severe wounds, one in his left leg with the bone broken, another in his right leg. His condition is not at all good. He is very weak as the result of his wounds, but I hope that in a few days I shall be able to send you a better report."

Yours truly,
E. S. COOKE, Sister in Charge.
